Chapter 2921 Self-Surrender

After he closed the door of the secret chamber and put his son down, he sighed and said, "On one side is the peerless sword, and on the other side is the apocalyptic fire. The famous sword Saint Clan has been so successful these years that they have forgotten themselves."

In the past, the famous sword Saint Clan had always acted cautiously to ensure that nothing went wrong.

However, in order to refine the Peerless Heaven sword, they did not hesitate to suppress a trace of the human-shaped apocalyptic fire.

He was too confident in the process of forging the heaven-destroying sword.

During this period of time, he had pointed out the flaws and flaws in the forging process. However, the famous sword Saint tribe did not believe him. In the end, they almost suffered a backlash from the heaven-destroying sword.

"Father, this... This was forged by you?" Ada came back to his senses and looked around the secret chamber. He was extremely shocked.

He had grown up in the famous sword Saint tribe and had seen countless dao items.

However, he had never seen the exquisite craftsmanship of the secret chamber before him.

Its grade was probably much higher than that of the Huang Grand Sage and the other Grand Sages of the clan!

Now that things had come to this, Mo Heng could no longer hide it. He nodded slightly and said, "Yes."

Ah da muttered, "So, father's craftsmanship level has always been hidden."

A hint of arrogance appeared on Mo Heng's face. His eyes were filled with anticipation.

He was looking forward to his son's pride because of this.

However, the response he received was something that Mo Heng did not expect.

"Why did you hide it?" Ada clenched his fists. "If you tell the five great saints, they will definitely be shocked by your talent and put you in an important position!"

"You will become the most famous refiner of the famed sword Saint Clan, and I will be the son of a refiner. I will not be called a useless son, and I will not be looked down upon by others. I will not be ostracized by my clansmen!"

"Why? Why do you want me to suffer so much?"

What Mo Heng received was not pride, but blame!

His heart ached. His son, who had been mentally suppressed since young, was extremely extreme.

He only wanted to please the famous sword Saint Clan, be recognized and valued by them, and get rid of his lowly status.

"Child, back then, I was tricked by the famous sword Saint clan and forced to be enslaved. May I ask, how can I be willing to work for them?" Mo Heng spoke of his own suffering.

Back then, he had fallen in love with a female member of the famed sword Saint tribe. The other party had invited him here, saying that they wanted to bring him to meet his father and discuss marriage matters.

Only after coming did he realize that everything was a scam orchestrated by the female member.

She had been enslaved as soon as she arrived, becoming a tool for the famed sword Saint tribe to refine magical artifacts.

And he wasn't the only one who had encountered a similar situation.

There were also other artifact masters who had been tricked by the female member of the famed sword Saint tribe.

However, what was more special was that the female clansman had accidentally damaged his child, which was Ada in front of him.

Later on, when the female clansman went out to deceive others, she was exposed and killed.

Therefore, Mo Heng raised his child alone.

However, he didn't expect that the circumstances of his childhood had completely distorted Ada's psychology.

"Father, why are you still brooding over the past? Let everything be in the past. Now, we should properly display our worth and strive for the recognition of the famed sword Saint Clan. Only then will we have a good life," Ada said longingly.

"It's still not too late. Let's quickly inform the five great saints and ask them to bring our tribe members here to take refuge. That way, we will have saved the lives of the famous sword Saint tribe. After we survive this calamity, we will become the great benefactor of the famous sword Saint Tribe." Ada stood up, he staggered towards the door of the secret chamber.

Mo Heng's eyes were filled with disappointment.

That's right, this was his son.

He had been completely groomed by the famed sword Saint clan to become a loyal slave.

From body to heart, he had been enslaved!

"Child, it's already too late." Mo Heng Sighed.

The human form calamity fire should have returned by now and was preparing to massacre everyone.

The members of the famed sword Saint clan could not escape death.

"Father, the more dangerous the situation is, the more valuable our rescue will be!" Ada said excitedly as he opened the door of the secret chamber once again.

Through the crack, he could see some clansmen running away in a panic from afar.

Many of them were people who had once looked down on him. Now that he had given them a place to hide, they would definitely not dare to look down on him in the future, right?

He opened his mouth and was about to shout when Mo Heng closed the door of the secret chamber once again.

There was an undisguised disappointment in his eyes. "Ada, one must have a backbone!"

Not only did he not hate the way the famous sword Saint clan treated them, he even wanted to save them and gain their recognition?

How low was he to have such thoughts?

"Father! If you want to be a coward for the rest of your life, that's your business, but I don't want to!" Ada pushed Mo Heng away with a face full of hostility. "Now is my chance to make a contribution, no one can stop me!"

Mo Heng staggered, his heart in pain.

Wasn't it good to watch the famous sword Saint Clan be destroyed?

Why did he have to be their slave?

"Then I'll leave this secret room to you. It'll be a turning point in your life." The reason why Mo Heng stayed was because he cared about his flesh and blood.

However, his performance was too disappointing.

He took a step and walked out of the secret room.

Ah Da's heart was in a mess. Although his father was a good-for-nothing, he had been relying on him all these years. He never thought that his father would leave him one day.

"Father, are you going to abandon me? I'm your son!" Ah Da didn't dare to leave the secret chamber and scolded loudly.

Mo Heng sighed, "It's true that you're my son, but you're not young anymore. You should have been independent a long time ago! In the future, take care of yourself!"

After saying that, his figure flashed and he used his powerful cultivation to leave immediately.

Ada chased after him, but the sky suddenly turned pitch-black. Endless Black Flames descended like a heavenly tribulation.

Ada was so scared that he immediately retreated and shouted to the members of the famous sword saint clan nearby, "Come quickly, there's a secret room here!"

The members of the famous sword Saint Clan who were busy escaping rushed over when they heard that.

In the blink of an eye, more than a hundred people had entered. They were all the core members of the clan.

They barely managed to hide in before the black fire of calamity descended from the sky.

Ada immediately closed the door!

They could only hear the explosions and screams from the outside world. It could be imagined that the outside world had fallen into a sea of fire.

However, other than the slightly higher temperature in this secret chamber, there was actually no situation at all.

An entire day passed.

The commotion in the outside world gradually subsided. They tried to open a crack in the chamber.

However, a wisp of the aura of calamity swept in and burned the two ancient sages nearby into ashes on the spot!

Everyone was startled by this scene and immediately closed the door.

They did not open the door of the chamber until they heard the footsteps of animals coming from outside an entire month later.

What greeted their eyes was a scene that they would never forget for the rest of their lives.

The huge sword-shaped mansion of the famous sword Saint Clan in the past had been completely destroyed.

What remained where it was was only a pitch-black circular pit and countless ashes.

The buildings that were once there had long been reduced to ashes.

Only a few demonic beasts were left in the ruins, searching for food.

"The rest of them are dead?" An ancient sage asked in a daze.

From the looks of it, most of the tribe members did not manage to escape from the fire calamity.

Only the five grand sages managed to escape first.

The famous sword Saint tribe was almost exterminated.

All of this was due to the secret chamber left behind by Mo Heng!

Chapter 2922 Self-Inflicted Punishment

Fortunately, the elites of their clan were still alive. With them around, it was only a matter of time before they established a new sword Saint clan.

"Well done!" As the clan leader, the ancient sage patted Ada's shoulder and praised, "Thanks to you, the sword Saint Clan was able to avoid being completely annihilated. You played an important role!"

Ada was ecstatic. For many years, he had been living at the bottom of the famed sword Saint Clan and was looked down upon by everyone.

He did not expect that he would be praised by the clan leader today.

In the past, he had not even met the clan leader.

"I will consider giving you a reward." The clan leader's gaze was unfathomable.

Ada was filled with fear and trepidation. He immediately knelt down and said, "I am a member of the famed sword Saint Clan. It is only right for me to give everything. I do not dare to ask for a reward."

"You must accept my reward."The patriarch's gaze became even more profound.

Ada was ecstatic. His decision was indeed not wrong.

Only by giving charcoal in the snow would he be able to receive a generous reward.

He lowered his head and said in embarrassment, "The patriarch has given an order. The group does not dare to disobey."

"Mm."The patriarch said calmly. He suddenly stretched out his palm and patted Ada's chest.

A ball of flame was burning in his palm. It immediately burned on ah DA's chest, creating an incomparable pain on his forehead.

Ah!

Because of the pain, Ah da screamed and wanted to break free.

However, the two young clansmen behind him had savage and cold smiles on their faces. They grabbed Ah Da and pressed him to the ground, allowing the fire to burn on his chest.

The extremely cruel process lasted for the time it took to brew a cup of tea.

Ah Da only felt that he had suffered a torture that he had never experienced in his life. The persecution he had suffered in the past was not even one-thousandth of what he had suffered in front of his eyes.

He continued to scream in pain. In the end, he was in so much pain that his hands and feet were twitching. He did not even have the strength to scream. He was like a dead pig lying on the ground, gasping for breath.

A slave mark appeared on his chest.

However, what was different from an ordinary slave mark was that the mark was actually the same as Mo Heng's.

"Hehe, did you guys hear that just now? This B * Stard actually claimed to be a member of our famous sword Saint Tribe?"A young member of the famous sword Saint tribe sneered as he stepped on his buttocks in disdain.

"Hahaha, what a surprise. We usually treat him like an animal, but at this critical moment, he actually saved us. Don't you think it's Strange?"

"Who asked him to be born from that good-for-nothing Moheng? He's probably born with a low IQ."

"Did you see that just now? He really thought that we were going to reward him. He was so excited!"

"Stupid pig!"

The familiar contempt, no, it was even more serious than before. It was like a terrifying tide drowning Ada.

He did not understand. He had clearly helped them, so why couldn't he agree with him.

Why?

Why?

Because humans only interacted with beings of equal status.

Would a person become friends with a beast without any dignity?

Obviously not!

Ada was self-contemptuous. It would be strange if the famed sword Saint tribe, who prided themselves on being noble, was willing to treat him as one of their own kind.

The family head stared at the slave mark on the other party's chest and sneered, "Moheng, so you've been hiding it well. You've deceived all five great saints in the family."

"However, once a slave, always a slave. Don't even think about escaping the control of the famous sword Saint Clan!"

It turned out that after learning that this secret chamber was created by Moheng, the family head realized that something was wrong. Moheng had been hiding his true strength all this time.

Now, the famous sword Saint Clan had a lot of things to do, and they could not lack a genius like Moheng, who was extremely skilled in weapon forging.

Capturing him was not secondary to recovering the lost primal energy.

He did not leave a slave mark on ADA. A good-for-nothing like Ada was not worth it for him to personally use the mark.

What he did was to use the bloodline relationship between Ada and Mo Heng to determine the mark of the other party's location.

"Take care of him!" The clan leader casually conjured a long chain and locked Ada up like a dog.

Then, he went to look for the five grand sages.

After the calamity fire destroyed the famous sword Saint tribe, he went to hunt down the five grand sages. He did not know if they were still alive.

The five grand sages were the most important core members of the famous sword Saint tribe. If they died, the famous sword Saint Tribe would recover.

The traces left behind by the calamity fire were very obvious. Wherever it passed, the world would be scorched.

Following the scorched traces, the family head found a place that the famous sword Saint clan was most unwilling to step into -- the Black Abyss!

From the traces, the tribulation fire had chased into the black abyss.

The five great saints must have also stepped into the Black Abyss.

However, what he did not know was that two other people had also hidden into the Black Abyss.

In the depths of the Black Abyss, on a cliff, Bai Xue held Su Yu tightly in her arms and quietly circulated her power to heal his eyes.

"Aren't you going too far?" Snow White looked at Su Yu's eyes, which were already blind, and asked in puzzlement.

Su Yu's eyes were still filled with incomparable piercing pain, and the sharp sword Qi of the absolute heaven sword was still reverberating in his eyes.

As long as the sword Qi was not extinguished, Snow White's healing would be superfluous.

"There's no need to waste your energy. I'll do it myself," Su Yu said calmly.

He had been blind once before, so he appeared very calm this time.

He couldn't use the naked eye, but he could still use the eye of the soul to see through everything in the world.

"You'd better stay away from me." Su Yu slowly opened his eyes.

Bai Xue was startled. "Why?"

Su Yu didn't say anything. His eyes that had lost their focus opened, and the depths of his eyes were pale.

That was the state of the eye of the soul when it was opened.

Once it was opened, everything was seen through, and Bai Xue was no exception. All of her clothes were seen through, and her entire body was naked in front of Su Yu, so she could see everything clearly.

When she swept her gaze across her chest, she could not help but be slightly surprised. "It's actually this big?"

Previously, when Snow White was naked, she was only the size of a steamed bun.

It could be imagined that Snow White was still hiding her body at that time. What Su Yu saw was only on the surface.

The seemingly Petite Snow White actually had another true body.

Finally, Snow White sensed something and immediately covered her chest. She said in embarrassment, "You... Why are your eyes so dirty?"

Su Yu looked away and said indifferently, "I told you to stay away from me."

"Shameless, despicable, dirty, dirty..." Snow White muttered, the redness on her face did not disappear for a long time.

In the past, they were all fake bodies. Su Yu could only look at them and did not think much of it.

However, what he saw just now was their real bodies.

"Shh!" Su Yu suddenly made a silent action and pointed to the depths of the Black Abyss. "Don't talk."

White snow covered her chest and lowered her head to descend into the Black Abyss.

After a long time, she did not find any movement and could not help but say, "You're deliberately mystifying things again..."

Before she could finish her words, white snow finally heard something.

She lowered her head to take a closer look and discovered that the Black Abyss was actually like a tide, continuously surging with black skeletons.

There were all kinds of skeletons, without exception, all of them were the corpses of the tragic deaths on the battlefield in the past.

For some reason, they left the dark abyss en masse and climbed up.

Judging from their speed, they seemed to be in a panic.

Chapter 2923 Was Forced Into The Abyss

White Snow panicked and immediately prepared to escape to avoid meeting the skeleton army head-on.

However, Su Yu pulled her back and said, "Calm down, don't be impatient."

There was no killing intent from the skeletons. They were just purely moving.

As expected!

The Skeleton Army that covered the sky and covered the earth like a black tide quickly climbed up the cliff.

When they met the two of them, they didn't stop at all. They all bypassed them and left in a hurry.

After half an incense stick's time, the countless black tide army retreated.

The Black Abyss returned to its previous dead silence.

However, the more it was like this, the more it made people's hearts palpitate. It was as if there was a terrifying existence in the black abyss that was staring at them.

Su Yu was also frightened. He said, "We can't stay here for long..."

It was not appropriate to go deeper into the black abyss.

However, at this moment, an extremely violent fluctuation came from above their heads. A golden spear turned into a golden stream of light and shot toward the two of them.

That stream of light was even more powerful than the ancient sage, Snow White. It was almost at the great sage level.

By the time the two of them reacted, it was already too late for them to escape.

As they spoke, Su Yu raised his hand and grabbed the golden spear with the help of the mirror flower son of Heaven's incomparably powerful body.

Chi Chi Chi --

The golden spear rubbed against his palm and produced purple flames. It also brought out a strand of the son of Heaven's blood.

However, its speed was greatly reduced because of this.

Su Yu and Bai Xue were able to dodge it easily!

Pu --

The golden spear pierced through Su Yu's black robe and nailed into the cliff wall.

"Eh?" The owner of the spear exclaimed in surprise, "Who are you? You can actually take my attack."

The person who came was the head of the famous sword Saint Clan, an existence that was only a step away from becoming a great sage.

In terms of combat power, he was not much weaker than a true great sage.

When he came down, he discovered the abnormality of the skeleton black tide. When they passed by a certain area, they actually went around it.

Hence, he concluded that there might be someone there, so he tried to shoot out a spear.

He did not expect that they would be able to withstand it.

"So it's you." When he got closer, the Master of the clan came to a realization. He heaved a sigh of relief and said, "Where's the primordial energy? Hand it over."

Snow White gritted her teeth and thought to herself that she was unlucky. It was not easy for her to avoid the pursuit of the five great saints, but she was blocked by the head of the family.

That primordial energy was not easy to take.

Should she try to fight back?

"Don't try to take any chances. When you first came here, you already knew that there was something wrong with your identities." The head of the family said plainly, "Since I dared to let you in, I naturally have the confidence to keep all of you here."

With a wave of his palm, a small rotating cauldron appeared in his palm.

That small cauldron looked extremely unfamiliar to Bai Xue, but Su Yu was extremely familiar with it.

"Universal Cauldron?" Su Yu muttered softly.

Back then, ren zu used the universal cauldron to leave a huge hole in the ancient battlefield, becoming the black abyss of today.

It would be strange if the famous sword Saint clan was not envious. They had painstakingly refined a replica of the universal cauldron for many years.

"Eh, you still have some foresight." The clan leader said in surprise, "One of you is the temple master of the Heavenly Dao Hall, while the other is holding an invitation letter that looks fake. This combination is really interesting."

Initially, when Su Yu entered, the invitation letter was not seen through. However, there were only so many invitations sent out, but in the end, there was one more invitation letter sent over.

No matter how stupid the famous sword Saint clan was, they should have understood that one of the invitations was fake.

In comparison, they found Su Yu, who was next to Snow White, the most suspicious.

However, they did not make a move. They planned to wait for the birth of the Absolute Heaven Sword and kill them all.

However, Su Yu and Snow White's vitality was exceptionally tenacious. Not only did they not die, but they also took away most of the primordial energy.

Snow White's heart sank. She was still recognized.

This primordial energy was a little tricky.

If the famous sword Saint Clan went to the Heaven Dao Palace to cause trouble in the future, the Heaven Dao Palace would not be able to resist them.

"Hand over the primordial energy." The family head closed in step by step, emitting a powerful aura.

Su Yu grabbed the golden spear by his shoulder and pulled snow white into the depths of the Black Abyss decisively.

"You want to leave?" The family head immediately gave chase.

However, not long after he gave chase, the family head forcefully stopped his footsteps because he felt a suction force from the black abyss.

It was as if there was a huge vortex raging below.

Su Yu and Bai Xue had no choice but to stop, their expressions slightly solemn.

Su Yu's clairvoyance could see even more clearly, what kind of vortex was that?

It was clearly an extremely large skeleton demon beast, opening its mouth wide and crazily swallowing the remaining skeletons on the cliff walls.

After swallowing them, the size of the skeleton demon beast would increase by a lot.

Su Yu's scalp tingled slightly. Everything existed in the Black Abyss!

His heart sank slightly. There was really a wolf in front and a tiger behind!

The patriarch was also extremely fearful. He berated, "Leave the primordial energy to me. I can promise to let you all live."

If Su Yu and the others were sucked in, the consequences would be quite bad.

However, letting them live was absolutely impossible. The things that happened in the famous sword Saint clan could not be revealed to the outside world.

As he spoke, he approached them step by step.

Su Yu grabbed Snow White and multitasked. He observed the movements of the giant demonic beasts while keeping an eye on the clan leader of the famous sword Saint Clan.

Both of them were approaching them, especially the giant demonic beasts. After discovering the three of them, they immediately gave up on the rest of the skeletons and dashed towards them.

When they were 30,000 feet away from them, suddenly, a bolt of purple lightning shot out from the mouth of the skeleton demonic beast.

The Thunder rumbled extremely quickly, and even Su Yu's clairvoyance eye couldn't catch it.

However, he felt a great sense of foreboding and an intense sense of danger.

Without thinking, he grabbed Bai Xue and suddenly dodged to the side.

The Patriarch of the famous sword Saint clan couldn't see the situation in the depths of the black abyss clearly, but when he saw Su Yu and the others suddenly Dodge, he knew that something was wrong, so he followed suit and dodged.

But he was still a step too late. A long purple vine-like snake coiled around the patriarch's ankle and then fiercely pulled downwards.

Ah --

Even someone as strong as the family head couldn't resist at all and was immediately dragged into the black abyss.

"No!" At the critical moment, the family head burst out with a strong desire to survive and threw out the universal cauldron.

Light shot out from the cauldron and enveloped Su Yu and white snow.

The two of them were immediately pulled by the light and didn't go into the imitation universal cauldron.

Su Yu and white snow had no choice but to forcefully resist, trying to get rid of the Universal Cauldron's restraint.

In this way, they barely slowed down the momentum of the Patriarch's fall.

Just as he thought that he had escaped a calamity, the skeleton demon beast below suddenly exerted its strength and instantly dragged the patriarch down.

Su Yu and Bai Xue were implicated and also fell rapidly.

Seeing that they were about to be swallowed together with the patriarch, Su Yu made a prompt decision. He shot out a trace of the power of the saintly being and cut off the light that was dragging them down.

Ding --

At the last moment, they finally escaped. They heard the Patriarch's scream coming from the mouth of the Skeleton Demon Beast below.

However, the crisis between Su Yu and Snow White had not been resolved. At this moment, they were less than ten thousand feet away from the Skeleton Demon Beast.

And the other party had been staring at them the whole time. His greed had not diminished at all!

Chapter 2924 Battle Of Puppets

If they retreated any further and the skeletal demon beast used its tongue, they would not even have the time to react.

In a split second, Su Yu did not retreat but advanced instead. He grabbed Snow White and walked in the opposite direction.

Not only did he not retreat, but he also charged towards the Black Abyss.

The distance of ten thousand feet was instantly closed!

The Skeletal Demon Beast suddenly spat out its tongue, wanting to wrap around Su Yu and Snow White, but they were already behind it.

Its tongue lost its flexibility and brushed past Su Yu's shoulder, unable to wrap itself around him in time.

Taking advantage of this opportunity, Su Yu and Bai Xue leaped into the depths of the Black Abyss.

Creak --

The Skeletal Demon Beast let out a roar and actually turned around to chase after Su Yu and Bai Xue.

The two of them could only brace themselves and head deeper into the black abyss.

The closer they got to the depths, the more they could feel that there was an extremely strong threat in the depths of the Black Abyss.

However, the skeleton demon beasts were chasing closely behind them. They were helpless and could only continue to go deeper.

Half a day later.

Both parties chased each other without stopping. What made Su Yu's heart palpitate was that the deeper they went into the abyss, the more ferocious the skeletons became.

Even they were constantly moving away from the abyss as if they were seriously shocked.

They even met skeletons that were even stronger than the skeleton demon beasts.

Everything told them that there was a great danger at the bottom of the Abyss.

In the end, even the skeleton beast that had been chasing them all this time finally stopped. Its eyes that were flickering with flames were flickering with traces of fear.

After letting out a strange cry of unwillingness, it decisively turned around and left, escaping the abyss.

Su Yu and Bai Xue immediately stopped. The darkness around them could no longer be described as darkness. Instead, they could not see their surroundings clearly, as if they were in a black swamp.

Even with Su Yu's clairvoyance, it was difficult for him to see the situation at the bottom of the Abyss clearly.

"Let's leave quickly." Bai Xue unconsciously grabbed Su Yu's sleeve, full of worry.

Su Yu did not dare to stay for long. Just as he was about to leave, he suddenly noticed a ball of jade-green light flashing at the bottom of the abyss.

"That is..." Su Yu was shocked. Although it was only a flash, he still saw it clearly. "The Absolute Heaven Sword!"

Wasn't that sword successfully refined by the famous sword Saint clan and obtained?

Why did it appear in the Abyss?

Thinking back to how terrifying the power of this sword was, Su Yu's heart pounded.

This sword was said to have been commissioned by the carefree emperor. It consumed an unknown material from the sacred mountain. It used the human form Tribulation Fire and other sublime flames. It took an entire era's worth of effort by the most powerful weapon-forging saint clan.

Su Yu witnessed its power with his own eyes.

Even a great sage expert was killed with a single sword. It was unstoppable!

In the entire nine-star civilization, other than the Chaos Heavens Race, no one could contend against it.

If he could obtain this sword, so what if he was from the one-faced goddess race?

"You go first." Su Yu's eyes flashed. "I saw the Absolute Heaven Sword."

He did not hide anything. If Bai Xue was willing to take the risk, he did not mind sharing the sword with her after obtaining it.

If she was not willing to take the risk, he would not be in a difficult position.

"The Absolute Heaven Sword?" Snow's eyes were burning. However, when she looked at the dark abyss that she could not even see through, she felt an instinctive fear.

After struggling for a long time, she sighed, "I won't go! Moreover, I advise you not to go either. The Absolute Heaven Sword is not something that we can control."

Not to mention that the Dark Abyss was extremely dangerous.

So what if they obtained the Absolute Heaven Sword? Were they qualified to hold such a sword in their hands?

The son of Heaven of the sacred mountain casually sent down a ball of anger. It was not something that they could withstand.

"I've made up my mind." Su Yu's eyes flickered.

He was not greedy for the absolute heaven sword. Instead, there were too many reasons for him to have to control even more powerful powers and magic artifacts.

There were the people who trusted him, Xia Jingyu, Qin Xian'er, Xie Xiaoyue, and the most important people in their lives.

Even if it was a risk, she had to get her hands on the Absolute Heaven Sword!

Bai Xue looked deeply at Su Yu and sighed slightly. "Alright, take care of yourself. Let's part ways here."

This place was filled with extremely dangerous skeletons. It was impossible for her to wait for Su Yu nearby.

"Go," Su Yu said indifferently.

Since both parties had gotten their hands on the primordial energy, it was time for them to say goodbye to each other.

"Take care." After saying that, Snow White leaped away.

Not long after she leaped away, she remembered something. "You should return the Heavenly Dao Palace Seal to me..."

However, when she turned around, she realized that Su Yu had already disappeared into the black abyss.

The veins on Snow White's forehead throbbed as she said angrily, "Is this guy going to Reincarnate?"

Roar --

Suddenly, the threatening voices of the skeletons sounded from all around.

Bai Xue's heart tightened and she immediately left. She could not help but worry, "This guy, please don't use the Heavenly Dao Palace seal carelessly!"

As a large aristocratic family, the Heavenly Dao Palace seal was something that could only be encountered by vagrants. It definitely could not fall into the hands of vagrants.

However, since Su Yu was so powerful, he should not be a vagrant, right?

Speaking of which, Su Yu plunged into the deepest part of the Black Abyss.

Not long after, he felt the materialization under his feet.

He had arrived at the bottom of the Black Abyss. The ground here was boiling with a layer of evil qi that had not dissipated for a long time.

The depth of that evil Qi was so deep that even the body of the illustrious son of the mirror had begun to seep through.

Su Yu's heart quivered. The power of the saintly being surged out, forcing the evil qi out of his body.

Not only that, he also set up a yuan level domain around his body, the power of his saintly being, and the power of chaos. These three types of powers fused together to form a defense.

After ensuring his safety, only then did he have the leisure to observe the situation outside.

Ding ding --

The crisp sound of the sword rang in his ears. Su Yu immediately walked over carefully. When they were 30,000 feet apart, his clairvoyance eye finally managed to see something.

He saw five figures fighting with the heaven-severing sword!

The heaven-severing sword had already been sheathed, so its power was greatly reduced. Only then could the five figures compete with it.

Su Yu walked forward again. Suddenly, a soft protrusion appeared under his feet. It was slightly stiff.

He lowered his head and saw that it was only a soft stone.

He did not care and continued walking forward.

After ten thousand feet, he finally saw the scene clearly.

However, what made him gasp was that the five figures were none other than the five great saints of the famous sword Saint Tribe!

Each of the five great saints had a long chain around their necks.

Even the heavenly sword was bound by a chain.

The six chains bound them like puppets, fighting each other.

"This... could it be..." Su Yu looked at the source of the six chains and found that the end of the chains was embedded into a mountain.

Just as Su Yu was surprised, the mountain moved!

Two blood-red cracks appeared in the pitch-black Abyss Sky at the same time.

The cracks grew bigger and bigger until they finally opened into two balls!

In the middle of the balls, there was a golden round hole. It moved slightly and aimed at Su Yu.

Su Yu's heart skipped a beat. He recalled the softness he had guessed just now and an unbelievable thought appeared in his mind.

Chapter 2926 Worth The Trip

Since this sword was forged by the carefree son of heaven, could the illusionary son of Heaven's body be controlled as well?

Seeing that the golden skeleton was about to catch up, Su Yu decisively grabbed the hilt of the sword.

The blood-red hilt was where the wind clan's saint ancestor and Old Devil Xue's resentment was located.

Once they touched it, their resentment immediately rushed into Su Yu's soul, trying to control his soul and indirectly control the heaven-destroying sword.

Su Yu quietly activated his soul domain and formed a layer of soul clothing on the surface of his soul body.

When the two people's resentment hit the soul clothing, it was immediately reflected back.

They were indeed great sage powerhouses when they were alive, but now, they were only left with a few remnant souls. They posed no threat to Su Yu, who had completed his soul domain.

However, they would cause some trouble and affect him in activating the heaven-severing sword.

"If you want to take revenge, don't try to influence me." Su Yu's voice echoed in his soul, ensuring that the remnant souls of the two could hear him.

The Wind Clan's sacred ancestor and Old Devil Xue stopped their attacks and listened to Su Yu's voice.

"If this stalemate continues, I will die at the hands of the golden skeleton, but you will also be buried in the Black Abyss forever, never to rise again."

"Help me now, and I will help you deal with your enemies in the future. Perhaps you can even be released from the Absolute Heaven Sword."

What?

If it was the former, they would not be moved at all. But as they spoke, how could the wind race sacred ancestor and Old Devil Xue Not Be Moved?

"Why Should We Believe Your Words?" The wind race sacred ancestor's thoughts rapidly spread through Su Yu's soul.

Su Yu said indifferently, "Because I'm the owner of the Sinkhole Divine Monument!"

He clenched his hand, and the sinkhole divine monument flickered in his palm.

The moment the item appeared, the wind race sacred ancestor and Old Devil Xue immediately let out miserable cries.

The two of them were already dead, leaving behind only their thoughts of time. And the sinkhole divine monument was the final destination of all sinkhole cultivators.

One could imagine the suppression they had.

"Quickly put it away!" Shouted old devil blood.

The wind race sacred ancestor endured the pain and said excitedly, "Greetings, sinkhole Emperor Lord!"

Oh?

Su Yu's eyes flashed. Sinkhole Emperor Lord?

What was that thing?

Could it be that it was the former master of the sinkhole world?

Old devil blood said in shock, "Sinkhole Emperor Lord? You... if it really is you, I, Old Devil Blood, am willing to follow you from now on."

"Me Too!" The Wind clan sacred ancestor said excitedly.

In terms of the world, who could truly bring people back from the dead.

It was not the controller of the Life Domain, nor was it the ruler of death.

It was sinkhole overlord!

The first two could only affect the death and continuation of a living being.

But the latter was an existence that truly controlled the reincarnation of the world!

If he nodded, how difficult would it be to bring them back to the world after they had already returned to the sinkhole?

"As long as you guys are willing to cooperate, everything will be fine," Su Yu said calmly.

The two of them were overjoyed. They immediately withdrew from Su Yu's soul and returned to the hilt of the sword.

Without any more obstacles, Su Yu immediately pulled out the heaven-destroying sword.

Its shocking sharpness revealed its destructive power.

The entire Black Abyss was shaken by the re-emergence of the heaven-destroying sword.

The five grand sages below felt their scalps go numb. They immediately circled around Su Yu, afraid that they would be destroyed by his sword.

Even the golden skeleton that was chasing after them slowed down.

Its two blood-red eyes flashed with a wave of light, revealing fear.

Su Yu did not say a word. He gripped his heaven-destroying sword tightly and slashed towards the depths of the Black Abyss.

There was no sword aura, nor was there any sharp aura.

However, with a single strike, the Black Abyss Cliff below broke. Countless boulders crashed down and pressed towards the golden skeleton.

Roar --

With a series of angry roars, the golden skeleton was forcefully pressed down. However, it was unwilling to give up and was struggling to get up again.

Su Yu took this opportunity to use all his domains, even exposing the power of his sacred body, just to speed up his departure from this place.

He had come here for an entire day, but he had only used half a day to leave.

When he rushed out of the Black Abyss and saw the sun again, Su Yu let out a deep breath. The Black Abyss was really too oppressive.

And what he saw was only the tip of the iceberg.

There might be an even wider area inside, and there were even more terrifying dead souls inside.

Roar --

A roar that was close to his ear suddenly exploded.

Su Yu's body trembled, and he immediately fled to the horizon.

Turning his head, he saw that the golden skeleton had actually climbed out of the Black Abyss.

But as soon as it revealed its head, it was hit by the sunlight, and its body immediately emitted a sizzling sound. It was actually burned by the sunlight.

With a painful roar, the golden skeleton once again sank into the Black Abyss.

This was the ancient battlefield, and there was too much residual power left behind.

As an evil object, the golden skeleton would definitely be attacked by the residual power of this place.

Seeing this scene, Su Yu felt much more at ease.

However, when he swept the rest of his gaze over, he could not help but feel a little apprehensive.

If he escaped, the five grand sages would also be able to escape.

The five of them stared at Su Yu from afar with complicated expressions on their faces.

They wanted to chase after him, but they were also afraid of the heaven-destroying sword in Su Yu's palm.

Su Yu's eyes flashed as he lifted the heaven-destroying sword and pointed it at them.

The five grand sages were all scared out of their wits. They did not dare to think about it anymore and ran away. In the blink of an eye, they had disappeared without a trace.

They did not know that Su Yu's palm was already covered in blood.

He was currently in the body of the mirror flower son of Heaven. Yet, he was still bleeding. It could be seen that he was seriously injured.

Buzz Buzz Buzz --

The hilt of the heaven-severing sword shook continuously, trying to escape from Su Yu's control.

That was not the doing of the Wind Clan's saint ancestor and the blood elder devil. On the contrary, they had been helping Su Yu to suppress the abnormality of the heaven-severing sword.

That was because the one who was trying to escape was the sword spirit of the heaven-severing sword!

This sword spirit could sense the power of the saintly being from Su Yu's body, which was the most hostile power of the son of Heaven of the sacred mountain.

Therefore, he used this to determine that Su Yu was not its master and refused to be controlled by him.

"Return to the sheath!" Su Yu put the absolute heaven sword back into the sheath and then stopped touching the hilt.

Only then did the absolute heaven sword stop.

He himself was also extremely exhausted. He fell down powerlessly and leaned on a huge rock to take a deep breath.

The strike of the Absolute Heaven Sword just now had caused a huge amount of damage!

Almost all of his energy had been sucked out.

During the rest, Su Yu thought back to the famous sword Saint tribe and could not help but click his tongue.

During this period of time, there were many dangers. The slightest carelessness could result in a narrow escape. It was really not easy to survive.

However, all the risks were worth it.

Not only did he obtain the original energy as he wished, but the quantity far exceeded his expectations, reaching 70% !

More importantly, he even obtained the Absolute Heaven Sword.

This was truly unexpected.

According to Mo Heng, this sword was a quasi-saint weapon, not inferior to the nine dragons divine cauldron.

"If I had grasped this sword that day, I would definitely have been able to subdue the ninth domain," Su Yu said regretfully.

Now that he lacked the ninth domain, he was unable to start refining the true nine dragons divine cauldron.

"Forget it. The ninth domain is extremely ambitious. Hiding is only temporary. It will reveal itself sooner or later," Su Yu muttered.

After resting for a moment, he swept his gaze and couldn't help but look out into the sky.

He didn't know how the people left behind in the dilapidated civilization were doing now.

The Demonic Beast Army that was given to them should be more or less tamed, right?

Chapter 2927 Stone Statue Effect

After leaving for such a long time, it should be time to return, right?

With this thought in mind, he stepped out of the ancient battlefield and headed towards the exit of the nine-star civilization.

Ten days later.

Su Yu's eyes finally reflected a lush green.

After a long journey of ten days, he finally succeeded in leaving the ancient battlefield.

Just as he was about to leave, he suddenly caught a glimpse of a figure wearing a bamboo hat and a straw cape. He was not far away and left this place at about the same time as Su Yu.

Su Yu did not pay much attention to it at first, nor did he have any intention of spying on him.

However, his eyes were still injured by the Absolute Heaven Sword and were in a blind state. Therefore, he maintained the operation of his soul's eye.

Therefore, with this one look, he accidentally saw through the bamboo hat of the other party.

The figure he saw slightly surprised Su Yu.

Mo Heng!

The genius refiner who was imprisoned by the famous sword Saint Clan?

Mo Heng seemed to have sensed something. He suddenly looked over and gave a warning.

But when he took a closer look, he found that it was Su Yu. He couldn't help but cry out in surprise, "It's You?"

He walked over quickly with an incredulous look on his face, "You could actually escape from the famous sword Saint Clan Alive?"

He knew that Su Yu had escaped before the calamity fire appeared.

But what he didn't know was that Su Yu actually had such ability to face the pursuit of the famous sword Saint Clan.

Su Yu smiled, "You are the one who is truly surprising!"

There was a deeper meaning behind his words. No matter how one looked at it, Mo Heng was still surprising.

Firstly, he could escape as well. It was as if he had predicted that the famed swordmaster tribe would suffer a drastic change.

Secondly, his level of weapon crafting was truly extraordinary!

Not only did he predict that there was a problem with the heavenly sword's crafting process, what was even scarier was that the effects of the iron pill he crafted were many times better than those personally crafted by the Huang Grand Sage and the others.

As a result, Su Yu relied on an iron pill to steal 70% of the original energy.

No one dared to believe it!

From the side, it could be seen that Mo Heng's refining level was indeed the best among the 100 blacksmiths of the famous sword Saint tribe.

In fact, in the entire nine-star civilization, there were not many who could be compared to him.

After all, the famous sword Saint tribe was already the symbol of the pinnacle of refining. The other factions probably did not have many powerful blacksmiths that were better than the famous sword Saint tribe.

"You flatter me!" Mo Heng chuckled. "Congratulations on achieving your wish and obtaining most of the primordial energy."

"But to be honest, I never thought that you guys would really succeed." Mo Heng Sighed.

Initially, he had warned Su Yu and Bai Xue not to enter the famous sword Saint Clan. Otherwise, a disaster would befall them.

But in the end?

Su Yu said, "We have to thank senior for the gift. Otherwise, it would be hard for us to have this day."

They could imagine that if they really went empty-handed like what the invitation said, they would be able to obtain a trace of primordial energy?

Of course not!

They would only watch as the Huang Grand Sage and the others used the iron pill to collect all the primordial energy, leaving nothing behind.

"Congratulations on your freedom. I wonder what you will do next?" Su Yu finally had some free time and chatted with him.

Mo Heng looked at the vast land and shook his head slightly. "I don't know either."

He had been imprisoned for half a century. His family in the past had been wiped out by the passage of time, and he had lost contact with his old friends.

Although he had escaped, he had no place to stay.

"Are you interested in following me to the outside world?" Su Yu pointed at the dark, vast starry sky.

Mo Heng Thought for a moment, sized up Su Yu, and fell into deep thought.

Su Yu knew what he was worried about, and said, "Don't worry, I'm not from the famous sword Saint clan, so I don't need to confine you to refine any magical artifacts."

After thinking carefully, Mo Heng slowly nodded. "Alright, you can go and take a look. But let me make it clear in advance, don't try to persuade me to join any faction. I've had enough of being restricted."

In the end, he still agreed.

Because he remembered the scene where Su Yu saved him.

As a powerhouse, he could have ignored him, who was about to be killed by the skeleton, but Su Yu still did it.

It could be seen that Su Yu still had a rarely seen righteous existence in his heart.

Would such a person imprison him?

Obviously not.

Moreover, he had not fully repaid the favor of saving his life. It was not too late to find an opportunity to repay him along the way.

"Of course," Su Yu said indifferently.

Thus, the two of them set off together.

Several months later.

They once again arrived at the entrance of the nine star civilization. The security here was stricter than before.

What made Su Yu frown slightly was that in the past, only people who entered the nine star civilization needed to be searched. There was no need to search outside.

Now, even going out required a document.

Moreover, the Pythons in the passage had all been replaced with gold.

The existence of the entire nine-headed Python made it impossible for the person holding the fake document archive to hide.

"This is troublesome." Mo Heng frowned and said, "I've been imprisoned for many years, and the document archive has long been destroyed."

Without the document archive, he couldn't leave the nine-star civilization either.

"The nine-star civilization is not a place to stay for long. My silly son will most likely save the core members of the famous sword Saint tribe. After they recover, they will sooner or later track me down. I have to go to the outside world."

Su Yu also frowned and asked, "To be honest, I don't have a real document. I don't know how to get a document."

There must be an organization that distributed documents, right?

It couldn't be created out of thin air.

Moreover, Su Yu found that in the nine-star civilization, not only powerhouses had documents. Many low-level cultivators, even mortals, had documents.

It could be seen that obtaining a document wasn't very difficult.

"Obtaining a document is easy to say, but difficult to say too." Mo Heng said, "To obtain a document, one needs to be at least at the power level of a great aristocratic family. Only with the approval of the stone statue issued by the sacred mountain can one obtain it."

Su Yu's gaze flickered slightly, "Stone statue?"

Mo Heng said, "That's right, every great aristocratic family and above has one. Only the document with the seal of the stone statue is a true document."

As he said that, Mo Heng sighed, "If it was before, I could casually say a word and countless aristocratic families would fight to give me a document. But now, I believe many people have forgotten my name."

His network had been destroyed in half a century of imprisonment.

Moreover, even if there were still contacts, he did not dare to take the initiative to look for them.

Who could guarantee that they were not bribed by the famous sword Saint Clan?

Once they came into contact with them, it might be the time to fall back into the net.

"The stone statue you mentioned, is it this one?" Su Yu took out an extremely simple stone statue from his spatial storage.

The base of the stone statue was carved with complicated words.

This stone statue was emitting an extremely dense aura of chaos.

Upon seeing this item, Mo Heng widened his eyes. "Where did you get it?"

He was stunned!

He did not understand at all. Since Su Yu had this item, why didn't he have a document?

"UH... It's true!" Su Yu muttered. "Looks like I really did snatch an incredible item."

This item was one of the three items that he had snatched from Snow White's personal storage.

He had already used up the invitation letter from the famous sword Saint Clan, as well as the seal of the Tiandao temple and the stone statue in front of him.

He had not known what the stone statue was for, but now he finally understood.

Chapter 2928 Had Finally Broken Through

"Robbed?" Mo Heng smacked his lips. "Then you really robbed a good thing! With this, you can completely gather all the Wanderers outside the world."

Su Yu's heart paused. That's right!

The vast majority of the Wanderers should want to obtain the identity of a nine-star civilization, right?

However, their identities were very special. Most of them were losers who had been chased away, or the sinners who had been exiled outside the world because they were guilty, as well as the descendants of the sinners.

The forces of the nine-star civilization were simply not willing to give them a true document.

That was because whoever gave them a document would be responsible for them.

If they were to cause a huge accident in the nine-star civilization after they received the document, the forces that gave them the document would have to bear a huge punishment.

"Hahaha, I really should thank Snow White." Su Yu's heart suddenly became clear.

He had always been worried about his people.

The people in the crossing Nightmare Lotus seat were the same as him, they didn't have any documents.

He could think of a way to come to the nine-star civilization, and he could also run rampant in the nine-star civilization, but could they?

If they were slightly careless, they would be found to have no documents in the nine-star civilization, and the consequences would be very serious.

Therefore, they could only stay in the crossing Nightmare Lotus seat.

But now, it was different.

With this stone statue, they could completely mass-produce documents for them!

After thinking for a while, Su Yu took out the Heavenly Dao Palace seal. "What about this thing? What's its use?"

When Mo Heng saw this thing, the corner of his mouth twitched. "Did you just rob the Heavenly Dao Palace? Why did you take their Heavenly Dao Palace Seal?"

Su Yu asked, "Other than commanding the Heavenly Dao Palace, what's the use of this thing outside the world?"

Mo Heng clicked his tongue and said, "Use? With this item in your hand, you are practically the ruler of the outside world. Wherever you go, all the Wanderers will worship you."

"The Heavenly Dao Palace is an alliance known as the Dao Masters of the world. It is the Holy Land of martial arts for all the Dao Masters in the world. With this item in your hand, you can command the outside world."

The competition between nine-star civilizations was extremely fierce. Most of the factions appeared in the form of clans.

There were very few organizations like the Heavenly Dao Palace that were formed by ordinary living beings.

Many Wanderers with decent cultivation wanted to join the Heavenly Dao Palace.

Unfortunately, the Heavenly Dao Palace would never favor Wanderers from outside the world.

If Su Yu held the Heavenly Dao Palace Seal and appeared as the Heavenly Dao Palace Master, one could imagine how much influence the Wanderers would have!

Su Yu was elated. Back then, she had stripped Snow White naked and forcefully snatched the crystal storage item from her chest. Now, it seemed that it was the wisest decision.

"Thank you for your guidance, sir." Su Yu came to a corner and wrote down two documents on the spot. Then, she covered them with the stone statue seal.

Just like that, Su Yu and Mo Heng held the real documents and swaggered into the passageway.

When Mo Heng passed, the Giant Golden Python shot out rays of light from its eyes and swept across Mo Heng's body. Then, it withdrew it without any expression.

The inspectors in the passageway immediately let him pass and did not make things difficult for him.

Next, it was Su Yu's turn.

When he passed through the passageway, nine of the giant pythons looked at him and confirmed that it was the real document. They did not stop him.

However, after the tenth Python shot a glance at him, it suddenly shrieked.

When Su Yu saw it, his heart could not help but jump.

This giant golden python was the one who discovered that he was a fake document and that his attack was ineffective.

The document in Su Yu's hand was real, but the giant golden python still remembered its aura.

It recognized it right away.

"This beast." Su Yu cursed in his heart, but he maintained his composure and didn't panic.

Shua --

Dozens of experts' gazes were filled with intense killing intent as they locked onto Su Yu.

Experts appeared on both sides of the passageway and surrounded him with powerful dao artifacts.

The leader was none other than the black-robed man from before.

He walked over solemnly and stared at Su Yu warily. "Hand over the document."

Su Yu was expressionless as he handed the document over.

The latter took it and looked at it carefully. "The Heavenly Dao Palace specially issues diplomas. The person in charge, Xie Baixue? Why is this name so strange?"

Xie Baixue, of course, was Xie Baixue's thanks for letting him steal two good treasures.

Su Yu said calmly, "What can I do if my parents get the name?"

"HMPH!" The black-robed man snorted and took out a testing instrument to carefully examine the seal on Su Yu's document.

After examining it for a while, he put away the instrument and returned the document to Su Yu.

"Alright, let's go!"

Su Yu pointed at the giant golden python that had been baring its fangs and brandishing its claws at him. "Then what's going on?"

The black-robed man stared at him. "There must be a problem."

"Mm, I suggest you change one. If some big shot goes out in the future, it won't be good if something like this happens." As Su Yu spoke, he slowly walked out with his hands behind his back.

When the giant Golden Python heard this, it was so angry that it hissed non-stop. It was eager to tell the black-robed man that he was the one who had escaped.

Unfortunately, it was only a magic treasure and a living creature combined. It couldn't speak.

The black-robed man didn't understand. He frowned deeply and said, "Men, change this giant python."

What if it was really as Su Yu said, and a big shot came in the future, and this problematic giant python caused a commotion?

"Yes!" A group of stone statue guards immediately stepped forward and pulled the golden giant python down.

The latter aggrievedly yelled at Su Yu's retreating figure, but no one could understand it..

Outside.

Looking at the dark world, Su Yu felt relieved.

"What happened to the giant Python just now?" Mo Heng asked.

Su Yu smiled and shook his head. "Nothing. Give it a little unforgettable lesson."

As he spoke, he took a step forward and headed towards the ruined civilization.

"Can I ask you for a favor?" Su Yu took out the Nightmare Lotus seat and sat on it.

Mo Heng understood. "You want to absorb the primordial energy, right? Don't worry, I'll help you guard it."

Su Yu thanked him. "After I finish my cultivation, I'll give you 10% as repayment."

With so much primordial energy, he probably wouldn't be able to use it all by himself.

There was no need for him to thank Mo Heng.

A trace of desire flashed across Mo Heng's eyes, and he said seriously, "Thank you in advance."

He had been imprisoned for many years, and his cultivation had stagnated. He was indeed very eager to improve his strength.

Thus, under Mo Heng's protection, Su Yu began to absorb the primal energy.

He took out the iron pill, and his palm gently sucked into it. The primal energy was like warm spring water, flowing from the skin of his palm into his body.

Instantly, his entire body was filled with unprecedented power. It was as if every muscle in his body was filled with power and was constantly trembling.

His cultivation, which had been stagnant for a long time, also soared crazily.

Back then, ren zu used his spine as the dao to open up the Great Dao of Heaven for Su Yu, allowing his cultivation to break through to the perfect state of the early-stage Heavenly Dao master, surpassing any living creature in the past.

Now, under the nourishment of the primordial energy, his cultivation had soared once again!

Half a day later.

In the Dark Starry Sky, a violent gale suddenly blew, and a strange black cloud appeared, enveloping the sky.

Lightning flashed within, emitting a sharp and dangerous aura.

Mo Heng was surprised. "He's about to break through to the middle-stage Heavenly Dao Master?"

Chapter 2929 The Shadow Tribulation

The mid-stage Heavenly Dao master wasn't that hard to see in a nine-star civilization.

What was hard to see was that it would actually cause a terrifying heavenly tribulation?

The Heavenly Tribulation of a nine-star civilization most likely came from the sacred mountain. The Sacred Mountain's will strongly opposed it, or it wanted to suppress some living beings. Only then would such a situation occur.

Rumble --

What was even more shocking was what happened next!

Not only did the heavenly tribulation lightning appear in the sky, there were even stone statue afterimages.

There were a total of ten stone statues, and each of them was exceptionally lofty and huge.

"What? Shadow Tribulation?" Mo Heng sucked in a breath of cold air.

The son of Heaven of the sacred mountain had many forms of heavenly tribulation that needed to be suppressed, but if one were to compare which heavenly tribulation was the most powerful, it was definitely not the so-called lightning tribulation or fire tribulation.

One of the most terrifying tribulations was the shadow tribulation!

The so-called shadow tribulation was the projection of the son of Heaven of the ten great sacred mountains, preventing the creatures that were suppressed from breaking through further.

This tribulation would at the very least cause the person that was about to break through to break through to break through to break through, and at the very most, it would cause them to turn into ashes.

"Just who is this person?" Mo Heng's eyes widened, and even his breathing became hurried.

He had thought that Su Yu was just an extremely powerful young expert.

But now, it was obvious that he wasn't. He was an existence that even the sacred mountain was trying their best to suppress!

Throughout history, only a handful of people were qualified to be treated by the sacred mountain's shadow tribulation.

All of them were peerless existences.

While he was thinking, the tribulation had already started.

First, the incomparably dense thunderbolts descended like a storm, wantonly destroying the absolute beginning qi gathered around Su Yu's body.

If Su Yu wanted to break through, apart from the original energy, he also needed to attract a large amount of absolute beginning Qi from the outside world to modify his body.

Otherwise, he would definitely fail to break through.

The first step of the calamity was to interrupt Su Yu's breakthrough. His intention could be said to be overbearing.

Mo Heng hesitated for a moment. He resisted the urge to attack and slowly withdrew from the range of the heavenly tribulation.

Those who were going through the calamity had to bear the heavenly tribulation alone. If there were outsiders to help, the heavenly tribulation would sense it and its power would increase explosively. At that time, it would not increase by two times, but by several times.

That would only put Su Yu in an even more dangerous situation.

Rumble --

The absolute beginning Qi around Su Yu was dissipating at an astonishing speed.

Although he was in seclusion, the situation outside was clear at a glance. He snorted heavily and an ancient oil lamp appeared above his head.

Seeing this item, Mo Heng was aghast. "Sacred Physique?"

Sacred physique was a taboo existence in a nine-star civilization because it was the archenemy of the son of Heaven of the sacred mountain. Since all eras, the sacred physique had been the existence that the son of Heaven of the sacred mountain wanted to get rid of.

He finally understood why Su Yu had triggered the terrifying shadow tribulation!

After the oil lamp appeared, it immediately burned a nine-colored light to protect the absolute beginning qi around it, preventing them from being dispersed by the Lightning.

The Thunder Tribulation rumbled and tried to break the protection of the nine-colored light, but it didn't succeed. Instead, it was blocked by the nine-colored light.

The Heavenly Tribulation did not stop. Instead, it became even more violent.

The Tribulation Lightning in the dark clouds continued to pour out like it was free!

Hundreds of bolts of lightning bombarded the light barrier without stopping.

Su Yu's oil lamp had absorbed a lot of faith. It was much stronger than before, but it could not withstand the indiscriminate bombardment of the tribulation lightning.

Soon, the oil lamp's light began to flicker, as if it was going to be extinguished.

Su Yu, on the other hand, remained calm and methodically advanced his cultivation.

Wisps of absolute beginning qi seeped into his body through his pores, accelerating his cultivation breakthrough.

An hour later.

The light barrier released by the oil lamp was much dimmer, and it was on the verge of danger.

However, Su Yu had already completed more than half of the process of his cultivation breakthrough. The light barrier was completely able to hold on until his cultivation breakthrough.

It was as if the heavenly tribulation had also noticed this and the lightning gradually stopped.

The world that was filled with endless thunder finally quieted down.

However, Mo Heng did not feel that the heavenly tribulation had passed. Instead, he understood that this was the true beginning of the heavenly tribulation!

The Lightning Tribulation from before was only a warning to Su Yu, forcing him to stop breaking through.

However, Su Yu did not pay attention to it.

The result was that the true heavenly tribulation had descended!

At this moment.

The quiet dark clouds suddenly churned like boiling water. The ten projections of the son of heaven flickered between light and dark. Solemn faces flashed in the clouds.

At the same time, an ancient and ethereal voice floated in the vast starry sky, "All creatures are born to feed people. No one can repay the heavens! Exterminate the heaven's apostle, the sacred mountain shall be destroyed!"

Sou Sou Sou --

Ten giant projections descended in the starry sky and blocked in front of Su Yu.

Su Yu sat cross-legged and waited for the final breakthrough.

The light of the sacred body around him condensed into a nine-colored giant that spanned across the sky.

The outline of the giant was no different from Su Yu's.

Eleven giant shadows were facing each other in the dark starry sky.

"Sacred Mountain, who dares to steal our absolute beginning realm? Where do you get the right to claim yourself as the heaven?" The Giant Shadow's voice shook the starry sky. "Absolute beginning realm is the absolute beginning realm of all things. It's not the realm of Your Sacred Mountain!"

"Moreover, every era of your sacred mountain has killed the other creatures. Only the nine-star creatures who submit to you can stay out of this."

"It's ridiculous that you call yourself the heaven that protects the common people!"

The ten projections of the son of heaven were still solemn. They said in unison, "Exterminate the Heaven Apostles! Kill the Sacred Mountain!"

Swoosh swoosh swoosh --

The projections of the son of heaven attacked at the same time. Each of them used the sky-crossing divine technique!

Among them were the life and death of the nine-tailed son of heaven, the stone mirror of the mirror flower son of Heaven, and the son of Heaven ruler of the carefree son of heaven..

The son of Heaven's projection in the middle was the most powerful of all. It took out a palm-sized mountain, and just by throwing it out lightly, it felt as if the heavens and earth were pressing down on them!

And this was just the projection of the son of Heaven of the Sage Mountain. It wasn't even considered a clone.

However, the power of the collision was still extremely terrifying. It was almost comparable to a great sage.

As a peak early-stage Heavenly Dao Lord, this shadow tribulation was definitely a death tribulation.

Unfortunately, they were facing Su Yu, their life and Death Emperor.

The nine-colored sacred body's shadow suddenly dimmed and turned into a petrified state.

Then, with a clench of his palm, the myriad tribulation scythe appeared in his palm.

Chaotic energy surged into the myriad tribulation scythe, pushing it to its maximum.

Ten golden skeletons slowly appeared.

With a wave of Su Yu's hand, a world-destroying black light appeared.

Even ancient god nine dragons'tail had been cut off, let alone the ten phantoms in front of him.

Kacha --

Peng --

The black light swept through everything, unstoppable.

The projections were only projections, after all. Their power was limited, so they were all wiped out.

But the black light was also completely exhausted!

The projection techniques were ineffective, so they all expressionlessly used hand seals.

Seeing this, Su Yu's forehead slightly twitched, and he felt a sense of danger.

It was as if the ten projections were working together to execute some extremely dangerous move.

Su Yu's eyes shone. He took a deep breath and secretly activated the shadow of the saintly being.

The latter also performed a rather strange move. His fingers drew a few strokes in front of him, drawing an extremely magical trajectory.

Mo Heng saw it from afar and could not help but be shocked. "This... isn't this the ancestral technique of the extinct Saint clan, the Eagle Clan? No, he is even more brilliant than the ancestral technique!"

Chapter 2930 Was Filled With Excitement

He didn't understand that it was a move from the sinkhole divine monument.

Each move and move was the origin of the Divine Arts of the Ten Thousand Races!

It was naturally stronger than the Eagle Race's inheritance.

As soon as the trajectory appeared, it immediately created a pitch-black afterimage. It was like a giant eagle crossing a star field.

The afterimage carried lightning around it. It was because the speed of the afterimage was too fast. It rubbed against the atmosphere and created lightning.

Sou --

The afterimages flashed and disappeared. When the ten projections were still condensing their attacks, they took the initiative and charged into the ten projections.

Huala --

A loud sound shook the sky and the ten projections were destroyed by the afterimages on the spot.

This was the most brilliant ancestral technique of the Eagle tribe.

Of course, because the user su Yu's cultivation was relatively low, the power was not displayed.

However, it was more than enough to destroy the ten projections.

Mo Heng was secretly amazed. He stared deeply at Su Yu, feeling incredulous.

The Shadow Tribulation was actually resolved just like that?

That was not right. According to the rumors, the shadow tribulation would not stop until it reached its goal.

Just as this thought appeared, a mighty voice reverberated in the world.

"Seal the Shadows!"

The Shattered Ten Shadows of the son of Heaven actually turned into nails and fell from the sky, covering the projection of the sacred body.

The projection once again used the ancestral technique of the Eagle Saint Clan, and an afterimage flew into the sky.

However, the ten shadows of the son of Heaven were all destroyed, and the unknown steel nails fell down one after another.

Su Yu's eyelids twitched, and just as he was hesitating to give up on breaking through.

He suddenly realized that the nails did not cause much physical damage to the afterimage of the saintly being. Instead, they pierced through his body and landed on the ground.

However, Su Yu did not feel at ease because of this. Instead, his eyebrows twitched even more, and he felt even more uneasy.

Not Good!

Although he did not know what the so-called sealing shadow was, he definitely could not let them succeed!

"Protection of faith!" Su Yu shouted in a low voice. He spread his arms, and a cave world was revealed in his sleeves.

This was the world of faith that he had snatched from the Nirvana Master with the help of the sacred origin heart.

After a period of cultivation, one of them had truly become his faith.

At this moment, with the mobilization of the power of faith, a substantial portion of the power of faith flowed out from the cave abode world and spread on the ground.

As such, other than the three nails that had successfully landed on the ground in the beginning, the other nails were all intercepted by the power of faith.

The next scene caused Su Yu's pupils to constrict.

After the power of faith was nailed by the nails, it was frozen on the ground forever and no longer listened to Su Yu's orders.

Su Yu's heart skipped a beat. He recalled the projection of his saintly being and revealed his own shadow.

He saw that the three nails were nailed to his chest, forehead, and neck respectively.

Su Yu tried to move his body, but found that his body could move, but the shadow stayed there and could not move.

Moreover, his forehead, neck, and chest were in intense pain.

It was as if something was burning, and it was spreading to the rest of his body.

"Soul attack." Su Yu immediately sensed what was going on.

The nail directly hurt the soul.

The most vicious thing was that because the nail contained the aura of the son of Heaven of the Sacred Mountain, the damage to the soul was permanent and could not be restored.

Once the soul was damaged, the result would be that the cultivation would be unable to advance any further.

Seeing that the damage to the soul of the nail was about to be formed, Su Yu was extremely decisive. He cut off all the souls that were injured by the nail!

Hiss!

A sharp pain came from the soul. Two of the three souls were cut off and separated from the main body.

The soul lost at least 10% of its power.

However, he had successfully avoided the damage that his soul could never recover from.

The Shadow Tribulation was gone, and the entire heavenly tribulation was over. The dark clouds in the sky disappeared quickly like a tornado.

Su Yu's face was pale. Beads of sweat appeared on his face as he panted heavily.

Su Yu endured the sharp pain in his soul and took a deep breath. He forced the breakthrough of his cultivation base to complete.

With a pop, the dao marks in his body were completely perfected.

The absolute beginning Qi outside his body surged into his body and turned into the extremely pure power of the Heavenly Dao master.

Su Yu clenched his hand, and a feeling of being in control of the world arose spontaneously.

It was as if before and after the breakthrough, they were two completely different levels of existence.

He held the myriad calamity scythe and waved it toward the starry sky. A beam of destructive light swept out.

In terms of power, it was more than twice as powerful as before?

This was the benefit of a breakthrough in cultivation. The power of all kinds of magical artifacts and divine arts had increased exponentially!

"It's a pity that my soul has been damaged. I don't know how long it will take to repair it." Su Yu was not without regret. At the same time, his eyes were full of hatred. "Son of the Sage Mountain!"

In the past, in the eight-star civilization, the son of the Sage Mountain had no control over him.

But in the nine-star civilization, it was different.

His first breakthrough in the nine-star civilization was suppressed by the Sage Mountain's son of heaven. If he hadn't decisively cut off his soul, he would have been destroyed for the rest of his life.

"You should be content!" Mo Heng said, his face still showing the shock that hadn't dissipated.

"Since ancient times, no one has ever escaped from the Shadow Tribulation."

"At the very least, you'll end up with a broken cultivation, and at the very worst, you'll die on the spot. Are you okay? It's just that your soul has been damaged!"

This kind of soul damage could still be recovered. Compared to Su Yu's gains, it was not worth mentioning.

Su Yu said proudly, "Shadow Tribulation? HMPH, sooner or later, I will become the great tribulation of the stone fetus son of Heaven!"

The hatred between him and the son of Heaven of the sacred mountain had long been irreconcilable. Only blood could repay it!

"Don't be too complacent." Mo Heng seemed to have a deeper meaning. "For those who have been taken care of by the Shadow Tribulation, every time they break through in the future, an even more powerful heavenly tribulation will descend until the legendary son of Heaven of the sacred mountain personally descends and stops you from breaking through."

The son of Heaven personally arrives?

Su Yu narrowed his eyes. His current cultivation was no match for the son of Heaven himself.

"However, you don't have to worry too much. Unless you reach the great sage level, only then will you be able to attract the son of heaven to take action personally." Mo Heng comforted him.

Only then did Su Yu let out a sigh of relief.

When he reached the great sage level, he should have another opportunity. At that time, he might not be afraid of the son of Heaven of the Sacred Mountain!

"Let's go." Su Yu put away the kalpa scythe and said expressionlessly.

Mo Heng stood where he was and did not move. He said, "Aren't you going to kill me to silence me? I have personally witnessed your identity as a holy body."

A holy body was definitely a forbidden existence in a nine-star civilization. Once it was discovered, it would be hunted down by the sacred mountain.

Su Yu said calmly, "I think that you are not that stupid. Exposing me will do you no good."

Mo Heng had nowhere to go. For the time being, only Su Yu could be trusted.

There was no benefit in reporting him.

"Haha..." Mo Heng could not help but laugh. "It's so easy to get along with smart people!"

He looked at the kalpa scythe that Su Yu had just put away and said, "This scythe, perhaps I can help you increase its power. Of course, if you trust me."

What?

The Cosmic Scythe's power can still be increased?

Su Yu's heart thumped.
