

## Nine-Dragon 2931

### Chapter 2931 Was Finally Back

The kalpa scythe was a peerless magic treasure refined from the corpse of the Sacred Mountain's son of Heaven, who had killed the ancestor of Taotie.

They had placed it in an eight-star civilization and used it to hand it over to the eight rulers under their control. At the critical moment, they would destroy the experts who had obstructed the sacred mountain from destroying the world.

Unfortunately, they never used it. Instead, it became Su Yu's item.

"Isn't the great scythe of disaster a finished product?" Su Yu immediately brought out the great scythe of disaster once again and handed it over to Mo Heng for him to look at.

Mo Heng shook his head. "The refining method is rather crude. I think that it should have been created by the Sons of Heaven."

He pointed at the ten heads on it and said, "The ancestor of gluttony should have another head."

According to the rumors, the ancestor of gluttony had a total of ten heads. One of them was the main head, and the other nine were split heads.

There was even a saying that there was an eleventh head!

"The tenth head is the true world that its previous owner helped it form," Mo Heng said slowly, revealing a secret that many people did not know.

Su Yu was greatly surprised. "You're talking about Dao master absolute beginning, right?"

If it was dao master absolute beginning, then it would not be strange at all.

That Dao Master had great divine abilities, and it was possible for him to do anything.

"Eh! "You actually know the absolute beginning Dao Master?" Mo Heng suddenly felt incredulous. "Not many people know this name. I only knew of such a legendary figure from the ancient records of the famed sword Saint Clan."

In the current nine-star civilization, almost no one knew of the absolute beginning Dao Master.

The only people they knew were the ten sons of Heaven of the sacred mountain.

"From that book, I know that the absolute beginning Dao master has a powerful pet called Taotie." Mo Heng took the myriad tribulation scythe from the absolute beginning Dao Master, "I also know that the son of heaven refined his corpse into the myriad tribulation scythe."

Mo Heng Sighed. "What a waste. Such a rare corpse was only refined into such a thing. It's not even one-tenth of the Absolute Heaven Sword."

"If you had given me the task to refine it back then, it would definitely not be inferior to the Absolute Heaven Sword!"

Even if he were to refine it again now, it would only slightly improve the power of the myriad calamity scythe. It would not be able to fundamentally change the grade of the myriad calamity scythe.

"If you're not worried, just leave it with me for half a year. After half a year, I'll give you a different myriad calamity scythe," Mo Heng said when he saw the desire to hunt.

Su Yu said, "No problem."

The scythe was useless in the hands of others. Only someone like him who had half of the emperor's body could use most of its power.

So what if he gave it to Mo Heng?

The two of them did not say anything else and rushed to the broken civilization.

A few months later, when they were close to the broken civilization, Su Yu remembered Wen Cheng.

At that time, because it was too dangerous, she had no choice but to keep him in the Nightmare Lotus seat.

With a tap of her fingertip, Wen Cheng appeared in a daze. He looked around at the dark stars and could not help but say in surprise, "We're back!"

She then glared at Su Yu with hidden bitterness. "Liar! Big Liar!"

Tears rolled down her face as she felt wronged. "You promised to show me around, but in the end, you locked me in the spatial storage for half a year."

Su Yu smiled slightly and flicked her finger. A trace of primitive energy shot into the space between Wen Cheng's eyebrows.

Instantly, Wen Cheng felt an extremely warm energy in his body, nourishing his limbs and bones, and increasing his cultivation base.

"Ah, this is?" Wen Cheng was surprised and delighted. She couldn't even remember how many years it had been since her cultivation base had increased.

"Sit down and cultivate," Su Yu said calmly.

Wen Cheng immediately sat cross-legged in joy, waiting for his cultivation base to break through.

A few days later, a Heavenly Dao path traversed across the sky. Wen Cheng opened his eyes and stepped on it, walking straight to the end.

His cultivation base broke through to the early stage of the Heavenly Dao master level.

Su Yu saw it and the corner of her mouth twitched!

This was fate!

Back then, Su Yu had gone through a lot of trouble to break through to the Heavenly Dao master level. When he was walking the heavenly path, he was even chased and stopped by the sacred mountain.

In the end, even the heavenly path was cut off by the sacred mountain.

If Ren Zu had not used his backbone to transform into the Heavenly Dao to help Su Yu complete the final journey, the current Su Yu would probably still be an Earth Dao master.

Wen Cheng had easily become the Heavenly Dao master.

However, his only gain was that he still had a lot of similar primordial energy!

He had only used 10% of his previous breakthrough.

And just now, he had only used a sliver, which was one-tenth of the remaining 10,000. However, he could easily create a heavenly dao master like that.

If he used up all the remaining primordial energy, he did not know how much he could create.

"The biggest harvest this time is probably the primal energy," Su Yu muttered.

He split the last sixty percent and put ten percent into a jade bottle.

This bottle was reserved for Xia Jingyu.

She should also need the primal energy.

"Thank you, Ruyu!" Wen Cheng's small face was red and full of excitement as he hugged Su Yu's arm happily.

Su Yu pulled her arm out without batting an eyelid and said, "I've fulfilled my promise and brought you to see the outside world."

Wen Cheng nodded happily, his eyes flashing with waves. "I'll never forget it in my life."

This was the first time she had gone on a long journey. She had learned that the nine-star civilization was so prosperous, that the astral world was so vast, and that she... was so insignificant.

"Ruyu, will you leave me soon?" Wen Cheng looked at the incomparably deep starry sky and muttered to himself.

Su Yu was silent for a moment and said, "There is no banquet in the world that does not end."

He was very grateful to Wen Cheng for releasing him from the white tomes of Arcane, and even more grateful for her previous care.

However, the two of them would have to part sooner or later.

After this trip to the broken civilization, he would gather his common people and collectively enter the nine-star civilization.

"On the day of departure, I will give you a gift." Wen Cheng bit his red lips, seeming to have made up his mind.

A Gift?

Su Yu remembered it in his heart.

Half a month later.

Finally, the broken civilization was close at hand. The abandoned civilization that was as dim as a firefly gave Wen Cheng's family warmth.

Before they arrived, City Lord Wen Yuan led a group of experts from the broken civilization to welcome them.

"Wen Cheng!"

"Father!"

When they saw each other, they couldn't help but hug and cry.

Looking at this warm scene, Su Yu smiled slightly and led Moheng away.

In the abandoned corner of the dilapidated civilization, the roars of beasts could be heard continuously.

A petite girl was lying on a beast-skin recliner, with some heavenly and earthly treasures that made ordinary people drool in her mouth. She was eating them bit by bit.

"You haven't eaten yet? Use more strength!"

"That Demon Beast, if it doesn't listen to me, I Will Cook You Tonight and eat you!"

"And you, do you believe that I'll cut your balls off and use them as food? !"

Su Yu could hear the commotion from afar, and the veins on his forehead could not help but throb. He said, "I'm asking you to train demonic beasts, not to learn how to Cook!"

The Petite Girl jumped up from the Recliner and exclaimed in surprise, "Ah, you're back!"

She was no one else but Xiao die.

Her face was filled with joy, but she quickly realized that she should have kept a straight face and said, "HMPH, so what if I'm back? I'm not happy!"

As she spoke, she suddenly glanced at Mo Heng who was beside Su Yu and said in surprise, "Su Yu, I realized that you've changed."

Chapter 2932 Had Really Changed

Su Yu touched his chin and asked, "How did it change?"

"In the past, when you went out, you always brought back women. Now, you actually brought back a man!" Xiao die hugged her chest in disgust and said, "Could it be that you've been a woman for too long and have really changed your orientation?"

The more she thought about it, the more disgusted she became. She kept stepping back and said, "But, if you change, then so be it. That way, I can also accept you. But... you're also interested in such an old man!"

"You are no longer the Su Yu that I know." Xiao Die said with tears in her eyes.

Su Yu clenched his fists and smiled stiffly, "Do you know that there are four big words on your forehead?"

Xiao die touched her forehead and said blankly, "No! What words did you see?"

Su Yu chuckled and said, "I saw the four words, 'I want to get beaten up'!"

Xiao die was stunned for a moment before covering her mouth and laughing non-stop. "I'm just teasing you! Who told you to leave for so long without bringing anything to me?"

Su Yu loosened his fist just now and said unhappily, "Who said I don't have anything to give to you?"

He flicked his finger and half a drop of primitive energy flew over.

Xiao die immediately quivered and her eyes widened. "What a good treasure!"

She was the most sensitive to treasures, and the first thing she noticed was the difference in the primordial energy.

She flew over and opened her mouth to swallow the primordial energy.

"Wow! It's a good treasure to increase one's cultivation," Xiao Die said excitedly. Her cultivation could only increase explosively by relying on evolution.

Therefore, ever since she broke out of the cocoon last time, her cultivation had stagnated and never increased again.

However, the primordial energy was different. It was the purest energy in the world and was not inferior to the energy produced by evolution. It was enough for her to make a breakthrough.

Moreover, what made Xiao die ecstatic was that this half drop of primordial energy was equivalent to what she needed to evolve again.

"Su Yu, I love you so much." Xiao Die sat cross-legged in delight and immediately began to refine this drop of primordial energy.

This breakthrough was equivalent to another evolution.

Su Yu was worried. "You won't evolve into an old woman this time, will you?"

Every time she evolved, Xiao Die would grow up a little.

She was now a young man. No matter how big she was, she would still be a middle-aged woman?

"Jinx!" Xiao die puffed her cheeks and rolled her eyes at him. "I'm already a mature body now. There won't be much change in my appearance. What will evolve will only be my cultivation and talent."

Talent?

Su Yu couldn't help but look forward to it. Every time Xiao Die evolved, she never let him down.

"What? You Don't want me to Grow Old?" Xiao Die said with a faint smile. She even stuck out her chest proudly.

Su Yu said plainly, "You're thinking too much!"

"You're not saying what you mean." Xiao die rolled her eyes and closed her eyes silently. She began to guide the energy into her body.

Su Yu saw that she had started to cultivate, so he cut to the chase. "Nothing special happened while I was away, right?"

In the ruins civilization, the strong preyed on the weak, and there were dangers everywhere.

When he was away, he was really worried that some unknown force would covet him.

"It was very stable," Xiao Die said, but she slowly opened her eyes and said, "To be precise, it was abnormally stable. In the past, the nearby civilizations would fight with this broken civilization every now and then."

"If it's light, they would use force. If it's heavy, they would lead troops to invade!"

"But in the past half a year, there hasn't been a single fight or quarrel. It seems that they haven't been here recently either."

If it was in the past, the nearby civilizations would occasionally have caravans come to their civilization to buy things.

But recently, there hadn't been a single one.

Su Yu couldn't help but be vigilant. If there was an abnormality, there must be something wrong. He said, "Didn't you send someone to investigate?"

"Yes! The city lord of Wen Yuan City dispatched a team of experts. Our Ding also sent Shengyuan Xin and a group of experts from all walks of life. However, we haven't received any news yet." Xiao die helplessly shrugged her shoulders.

Shengyuan Xin?

Su Yu was slightly surprised. Why did she run off?

"HMPH! Look at what makes your heart ache. She didn't want to do nothing and wanted to do something for you. That's why she volunteered. I'm not the one who persecuted her." Xiao die snorted.

Su Yu was really worried about Shengyuan Xin's safety.

When they were in Dao Yuan, it was thanks to her kidnapping more than half of the faith of the Nirvana master that they had a chance to turn the tables.

Otherwise, the consequences would be unpredictable.

In the end, before Su Yu could thank her, she took another risk.

"Don't worry. Shengyuan Xin and the rest of the people have brought the best escape treasures. Once something happens, they will definitely be able to come back immediately."

If that was the case, Su Yu was relieved.

Moreover, she remembered that Shengyuanxin seemed to have cultivated a very special divine art. If one of them died, another would immediately appear to replace him.

It seemed to be called something like the six paths divine art.

"I hope so." Su Yu muttered, "You should cultivate well."

He returned to the Wen Yuan City Lord's residence and settled himself down. "The environment of the dilapidated civilization is like this. I'm sorry to trouble you."

The Taoist Qi of a dilapidated civilization was very weak, far inferior to that of a nine-star civilization.

"You're welcome. Compared to the famous sword Saint Tribe being enslaved by others, it's much better," Moheng said indifferently. "I'll be in closed-door cultivation for a few more months. By then, I'll definitely refine the myriad calamity scythe again."

"Thank you!" Su Yu cupped his fists and entered another secret chamber to begin his closed-door cultivation.

He also had many things to do. The first thing he had to do was to provide the people he protected with a true document.

This stone statue would be taken back by the Heavenly Dao palace sooner or later. If he did not make use of the time to create more documents, he would not have such a heaven-sent opportunity in the future.

The people he protected were an astronomical number. Even with the help of various divine arts, it was still a huge project.

With a wave of his hand, Su Yu summoned the evil daughter and a group of elites.

With their assistance, he began to make documents in an orderly manner.

Time passed in a flash.

Two months later, Su Yu continued to make documents day and night. Finally, he gave all the trillion people new documents.

Even the belief cave world that he had seized was no exception. Every living creature had it.

It was precisely because of this that many living beings truly had faith in Su Yu.

After all, in their hearts, a nine-star civilization was something that they could only dream of. To be able to give them a true document, what kind of heavenly honor was that

Hu!

Su Yu let out a breath. The hand that held the stone statue was extremely sore and swollen. His face was also covered in sweat.

Looking at the stone statue in his hand again, perhaps it was because of the continuous workload, the base actually had traces of cracks.

In the future, he would not be able to use it for long and it would be completely destroyed.

This time, he did not know how to explain it to Snow White.

At this moment, a fragrant scent assaulted him. The evil daughter held a handkerchief and gently wiped the sweat off Su Yu. Her seemingly cold face was filled with gentleness. "You are working too hard."

Su Yu said, "Soon. The decisive battle with the emperor is not far away."

Once the emperor is dealt with and the world is at peace, he will be able to live in seclusion and not care about the affairs of the world.

Just as he thought of this, an urgent message suddenly sounded in the secret room.

## Chapter 2933 Blood For Blood

The message did not come from him, but from Wen Cheng in the room.

Wen Cheng's face turned slightly solemn. She had several communication jades on her body, and each color represented a different emergency situation.

Looking at the blood-red emergency communication jades in her hand, which kept flickering, Wen Cheng had a bad premonition.

The blood-red emergency communication jade was ringing. It could only be one kind of situation, and it was the most serious one of all -- an enemy invasion!

"Ru Yu, an enemy invasion is coming," said Wen Cheng hurriedly.

Su Yu was a little calm and said, "I'm almost done with my work. I'll go out and help you take a look."

He was also a little confused. The broken civilization had been unified by the city lord of Wen Yuan, and its power was unprecedentedly strong.

Unless it was a particularly powerful external enemy, it would be difficult to alert them to use the red communication jade.

The group walked out of the secret room, but what they saw was unexpected.

The so-called invasion of the external enemy did not have any traces of the enemy.

Not a single one!

What they saw was an extremely shocking and bloody scene.

One bloody head after another was tied to meteorites, and they fell on the broken civilization like a meteor shower.

Bang! Bang! Bang

Several meteors fell on their feet. Looking at the bloody heads, many people closed their eyes and could not bear to look anymore.

Su Yu looked at them and his eyes were cold.

The eyes of these heads were still full of pain and extreme fear. It was obvious that their heads had been cut off alive.

Moreover, some of the heads had deep scars on their faces. It was obvious that they had been tortured before they died.

When they looked up, the meteor shower in the sky was more than a trillion?

It was almost more than the number of lives he had saved from the eight-star civilization.

At this moment, they had all turned into a meteor shower, falling toward the broken civilization.

Along the way, Blood Mist was brought out, dyeing the sky above the broken civilization red.

An extreme sense of oppression made the creatures of the broken civilization feel uneasy.

"This is the city lord of the neighboring civilization." Wen Cheng suppressed his fear and looked at the heads, but he was surprised to find that she just happened to recognize one of them.

"And this is another tyrannical powerhouse of the neighboring civilization who once had a dispute with our broken civilization."

Without exception, they were all people from the nearby civilization.

"This shouldn't be. The nearby civilizations are all very powerful people. Could it be that they provoked an existence and were destroyed?" Wen Cheng didn't feel happy. On the contrary, his mood was heavy.

It was no wonder that recently, no creatures from the nearby civilization had come to the broken civilization. Even normal people who came to trade no longer existed.

It turned out that they had all died.

It went without saying how terrifying the force that could silently destroy all the nearby civilizations was.

"It seems that someone is warning us something." The evil girl narrowed her eyes.

Su Yu said expressionlessly, "It's not a warning, it's a gift for us."

Gift?

Wen Cheng's soft body trembled. She had never heard that someone would give such a gift.

"Someone is taking revenge on us, right?" She was not stupid. She immediately understood what the so-called gift meant.

The evil girl narrowed her eyes. "I think it should be the skeleton battle group."

The only ones who had made enemies with them and had the ability to wipe out the broken civilization nearby were probably the terrifying skeleton battle group.

Su Yu nodded, confirming the two girls' guess at the same time.

It could only be the skeleton corps.

Su Yu's eyes flashed coldly. If the Skeleton Corps wanted revenge, they could come directly. What was the point of wiping out the civilization nearby and killing them cruelly?

Was it just to intimidate Su Yu and make him live in fear? Or was it to make him regret killing the two members of the Skeleton Corps?

Actually, neither would.

That would only make Su Yu really determined to destroy the skeleton corps.

"It's been a long time since I've started a massacre," Su Yu muttered.

Although he had been fighting for a long time, it had been a long time since he had started a massacre.

However, the heinous actions of the skeleton corps had aroused Su Yu's long-held killing intent.

He had never felt that a person was a good person or a bad person.

In the life of a good person, there would always be times when they did something wrong.

In the life of a bad person, there would also be times when a person's heart would shine.

Therefore, he had never judged a person as good or bad.

However, the skeleton corps had given Su Yu a deep malice. What kind of heartless people could do such a thing?

Su Yu felt that even if all the members of the skeleton corps were killed, not a single one of them was worthy of sympathy.

Boom --

At this moment, an extremely bright light streaked across the sky.

It was a burning battleship. It fell from the starry sky and headed straight for the city Lord's mansion.

"It's coming for us."The evil woman leaped up and blocked the battleship.

This was because she could feel that there was a rather dangerous energy in the battleship. It was on the verge of exploding.

She grabbed with her bare hands and blocked the side of the warship, forcefully stopping the falling momentum of the side of the warship. Then, she pushed the warship into the sky.

As the warship flew higher and higher, a strange light shot out from the warship.

It was a sign that the warship was about to explode.

The evil woman glanced inside the warship, and her pupils constricted slightly.

Inside and outside the warship, there were self-destructing arrays carved out of fresh blood. In each array, there were still living creatures that had not died nailed on it.

The technique was extremely cruel!

Moreover, the formations were all operating at a rapid speed at the moment, and an explosion was imminent!

The evil woman pushed the warship back into the stars with force, and she quickly retreated.

She barely turned around, and the warship behind her exploded with a loud bang.

An explosion ripple that radiated half of a broken civilization swept the starry sky with a loud bang.

The evil woman could not dodge in time, and when the ripple touched her, it immediately sent her tumbling down.

Her black clothes were completely burned up, and the surface of her body was a mess of blood and flesh.

It was only a moment of impact, but it had already hurt her so badly.

If she had retreated a little later, she might have been killed by the explosion on the spot.

Just as she was about to fall, Su Yu leaped up and hugged the fallen evil girl in his arms.

He immediately used his life domain to heal her injuries. Looking at her gradually recovering body, he couldn't help but ask, "Are you stupid?"

He knew that it was dangerous, but he still didn't retreat as soon as possible.

The Evil Woman's body was full of injuries. She should be in great pain, but she didn't even frown.

She turned her head and pointed to the distance. "If you don't push it further away, it will affect the demon beasts you've raised."

So, it was to protect Su Yu's hard work.

Su Yu's heart was warm. She didn't say a word and poured more life force into her body.

"Ruyu, Look!" All of a sudden, Wen Cheng wanted to see the scene of the battleship after the explosion.

After the ripples of the explosion subsided, a line of bloody words was left behind.

Every word was dazzling and ferocious, as if it was written by a devil from Hell.

Su Yu stared at the bloody words and said word by word, "Blood shall be repaid in blood!"

His eyes were filled with a thick coldness!

These four words were very good!

It was the best for the skeleton battle team to have such an awareness!

#### Chapter 2934 Refining The Divine Monument

The Skeleton Legion had no idea who they were seeking revenge on.

They had no idea that they had dug a grave for themselves!

"Su Yu, Shengyuan Xin and the others haven't returned yet," the evil woman said at the right time.

So many living beings in the neighboring civilization had been imprisoned and tortured.

What about Shengyuan Xin and the others, who had gone to investigate the situation?

They had not received any news so far, and their safety was unknown.

In fact, what the evil daughter had not said was that Shengyuan Xin and the others had most likely met with misfortune, or at least fallen into the hands of the Skeleton Corps.

Otherwise, with such a huge disturbance happening in the outside world, they would not have not sent any news back.

The situation had become very bad.

Su Yu did not speak. How could he not have thought of this?

The best plan would be for Shengyuan Xin to be captured.

And the worst plan would be for Shengyuan Xin to be tortured to death!

Who knew if Shengyuan Xin's head was in that big gift just now.

"Send someone to investigate the position of the skeleton battle group," Su Yu said calmly. No one could see the meaning in his eyes.

Only the evil girl who was close to him could feel the killing intent in his eyes.

"Okay! I'll go personally. One day at most," the evil girl said.

No one else could guarantee their safety or get the information. Only she could ensure his safe return.

"Be careful," Su Yu said.

In the entire broken civilization, in terms of strength, other than him, the strongest person should be the evil girl.

The evil daughter went to explore the information while Su Yu made some preparations.

He returned to the secret room and took out the sinkhole divine monument. He stared at the various divine art marks on it.

A moment later, he took a deep breath, took out a drop of his blood essence, and dripped it on the sinkhole divine monument.

However, this drop of blood was immediately repelled and refused to be refined by Su Yu.

It would be strange if he could refine the sinkhole divine monument so easily!

Su Yu did not give up. He took out another strand of blood essence, but it was still bounced off.

However, Su Yu persevered and tried again and again.

The blood essence in his body was almost completely drained.

However, Su Yu still did not have the intention to give up. Instead, he continued to try.

At this moment, his face was extremely pale due to the loss of blood color. His palms were starting to tremble.

However, he did not want to give up.

Perseverance was the greatest fear in everything, and refining was no exception.

Finally, hard work paid off.

After hundreds and thousands of efforts, finally, a drop of blood essence landed on the sinkhole divine monument.

Although it was repelled, a trace of blood miraculously fused into the sinkhole divine monument.

This should be attributed to Su Yu's long-term control over half of the sinkhole divine monument.

After a long time of refining, only then did the sinkhole divine monument have a sense of belonging to him.

Only then could he successfully fuse this trace of blood into his body.

Su Yu slowly returned the blood essence that had been repelled nearby to his body. When his expression returned to normal, he took a deep breath and began to turn this trace of blood into a brand, completely fusing it into the sinkhole divine monument.

Under the control of his will, the trace of blood slowly fused into the depths of the sinkhole divine monument.

And every time a strand of blood fused into the sinkhole divine monument, Su Yu would have to pay a huge price.

In just a short while, Su Yu was covered in sweat. His soul power was exhausted, and he had no choice but to stop and rest.

Seeing that he did not have enough time, Su Yu used time acceleration.

Under the state of a thousand times time acceleration, Su Yu began to refine it day after day.

And the further he went, the more difficult it was for the strand of blood to fuse into the depths of the sinkhole divine monument.

Even after a few months, the blood vessels did not move at all, causing Su Yu to almost give up.

However, hard work paid off.

When an entire day passed and the speed increased, it was equivalent to a full three years.

That trace of blood finally fused into the depths of the sinkhole divine monument's core.

This meant that Su Yu finally had a line of control over the sinkhole divine monument.

Just as the blood vessels fused into the core, Su Yu's mind suddenly rumbled. His soul fell into a chaotic world uncontrollably.

The world was pale and everywhere was white. It was as if there was a pure white world with nothing in the depths.

Su Yu was not unfamiliar with such a world.

This place was a desolate corner of the sinkhole divine monument.

Looking into the distance, the world was dark. Lightning flashed and thunder rumbled. Countless dangerous and strange creatures walked in it.

They were the energy of all kinds of creatures.

Su Yu was excited. "Sinkhole world!"

"Xian 'er, Xiaoyue, Hanxuan, ancestral witch!" Their names kept appearing in Su Yu's mind.

Could he bring them out of the sinkhole world now?

With excitement, he ran toward the places where there were creatures.

However, when he reached the boundary between the white world and the Dark World, he was bounced back by an unknown force.

Su Yu staggered and was bounced back on the spot.

The creatures in the dark world did not notice Su Yu at all, as if he had never appeared.

After many attempts, Su Yu found out in despair that although he had come to the ultimate world, he was restricted in the white world and could not establish any communication with the creatures inside.

To be exact, what Su Yu saw was not a creature, but the energy of a person after returning to the ultimate.

It was just like Su Yu's own self back then.

In a trance, Su Yu seemed to see a bamboo forest, a thatched cottage, and a pretty girl who called herself his wife.

Su Yu pounded the barrier at the border, his heart aching.

"Wait for me, I'll bring you back sooner or later." Su Yu closed his eyes in pain.

When he opened them again, his consciousness returned to his body.

He had a general understanding of the situation just now.

That was, he had indeed refined the sinkhole divine monument, but it was only a small part.

The white world was Su Yu's territory in the sinkhole divine monument.

But because the refined part was too small, it was actually separated from the sinkhole world. It was difficult for him to be noticed by the energy in the sinkhole world, not to mention affecting the sinkhole world.

However, this action told Su Yu that refining the sinkhole divine monument would indeed allow him to enter the sinkhole world.

Of course, Su Yu's original intention of refining the sinkhole divine monument was not to save Xian'er and the others.

Instead, he was anxious to deal with the skeleton battle that was about to arrive.

He held the sinkhole divine monument. With a thought, he controlled the sinkhole divine monument to fly through the air.

The carvings on it flickered with flickering light as if they could be moved at any time by Su Yu's orders.

The carvings were all derived from the absolute beginning dao marks. Although they weren't as powerful as the absolute beginning dao marks, they were still extremely terrifying.

Once they were used, they would definitely cause enormous damage to the skeleton battle team.

Di Di --

The communication jade pendant moved, and Su Yu immediately opened it to take a look. It was a message from the vile daughter.

She didn't disappoint, and she had already confirmed the location of the skeleton battle team.

However, other than the location, there was another message. There was an extremely powerful existence in the skeleton battle group that was comparable to ancient god Nine Dragons.

In the past, the living beings of the eight-star civilization had all viewed ancient god nine dragons as an existence comparable to the carefree emperor.

This was because their horizons were limited, and they had only seen two things before making such a guess.

#### Chapter 2935 Forsaking All Life

But in reality, after Su Yu fought with the experts of the nine-star civilization, one could roughly infer that the nine dragons ancient God's strength was at the great sage level.

This was the second level of the late-stage Heavenly Dao master, far from reaching the level of the carefree emperor.

In other words, there were experts at the great sage level in the skeleton battle group.

"Unbelievable!" Su Yu muttered, "A great sage-level powerhouse actually became a vagabond and led a group of rabble to kill and plunder."

A great sage-level powerhouse was someone who could shake the Earth with a stomp of his foot in a nine-star civilization.

Such a person did not command the wind and rain in a nine-star civilization, but ran to a barren starry sky?

Moreover, according to the records, the appearance of the skeleton battle group was extremely mysterious. It seemed to have appeared overnight, and it quickly became a dark force that threatened the entire starry skies.

Su Yu narrowed his eyes. "There's a big problem with this skeleton battle group!"

He kept the sinkhole divine monument and looked at the location in the transmission before breaking out of seclusion.

Just as he was about to head to the skeleton battle group to look for Shengyuan Xin and the others, a sea of people had already gathered outside the city lord's residence.

The city Lord was trying his best to appease the panicking people, but it was to no avail.

To be precise, they were not panicking, but rather feeling indignant.

"There's always a debt to pay. Get that bastard out of the broken civilization!"

"Get Su Ruchu out of the broken civilization! He's responsible for the people he killed. Why should he implicate us?"

"City Lord, please don't protect that murderer anymore. Hand him over to the skeleton battle group so that we can be safe."

The great gift from the Skeleton Legion had truly scared the living beings of the broken civilization out of their wits.

There was nowhere for them to escape. The fear in their hearts was magnified endlessly, and they vented all their resentment on the culprit, Su Yu.

They felt that it was Su Yu who had killed the members of the Skeleton Legion.

As the saying went, there was always a debtor and a debtor. Since it was Su Yu who had done it, then Su Yu should bear the responsibility himself, and not implicate the innocent living beings.

The Wenyuan city lord comforted, "Everyone! You Can't say that. The members of the skeleton battle group came to my broken civilization to do evil. Su Ruchu could have stood by and watched, but why did he make a move?"

"Could it be that he was too full of himself? Could it not be that he abhors evil as if he was an enemy, and he is fighting for justice for you?"

"Now, the skeleton battle group came to take revenge, and you pushed him out. What is this? A wolf-hearted dog or a kind-hearted dog?"

The huge panic made the ordinary living beings not think seriously at all.

In order to survive, all the propriety, justice, and honor collapsed instantly.

Moreover, as vagabonds, they were either sinners or sinners, so how much awareness could they have?

"Nonsense!"The crowd retorted fiercely. "Did we ask him to make a move? He meddled in other people's business and caused trouble, so why shouldn't he take responsibility?"

"That's right! Didn't the Skeleton Corps do nothing? What if they just came and left? There was nothing to do, but when he made a move, he stirred up a hornet's Nest!"

"That's right, he must act for his own recklessness."

The crowd was agitated, and the city Lord's voice was completely drowned out.

The citizens had already lost their rationality and lost their thinking.

The city lord of Wen Yuan felt extremely sorrowful and indignant.

They were all deceiving themselves!

When had the members of the skeleton battle group not caused a massacre after they appeared?

If it wasn't for Su Yu killing the three powerful members of the skeleton battle group back then, the current broken civilization might have already become a dead graveyard.

But now, after they chased Su Yu away, would the skeleton battle group let go of the broken civilization and only deal with Su Yu?

In their dreams!

With the Skeleton Corps'notorious reputation, the broken civilization would never be pardoned.

And without the protection of an expert like Su Yu, the broken civilization would only be destroyed faster and more thoroughly.

"You guys are stupid!"The Wenyuan City Lord shouted in pain.

Unfortunately, the living beings couldn't hear any sound. They only wanted to hand Su Yu over and firmly believe in that sliver of luck.

Just as he was about to shout, Su Yu appeared without anyone noticing. She patted his shoulder and said, "There's no need to waste your energy. People are only willing to believe what they believe."

Could it be that they did not understand the bloody style of the skeleton battle group?

Not only did they know, but they also saw it.

Even the innocent nearby civilizations were wiped out by the skeleton battle group. They were all brutally tortured to death.

Would a broken civilization survive?

They were just lucky. After they were lucky enough to send Su Yu away, the Skeleton Corps would change their mind.

They were simply deceiving themselves.

"Senior SU."The city lord immediately cupped his fists.

He was very grateful to Su Yu. Not only had he saved Wen Yuan City, but he had also saved his father and daughter. He had even generously given his daughter precious primordial energy.

His kindness was greater than the heavens, and he respected Su Yu very much. That was why he was able to resist the objections and protect Su Yu.

Su Yu smiled slightly. "Go and rest."

"But they..."the lord of Wen Yuan City looked at the endless creatures. He swept his gaze across the pairs of respectful, hateful, fearful, and malevolent eyes. He was extremely worried.

They did not have the slightest bit of goodwill towards Su Yu.

Su Yu waved his hand. "It's fine! You Go ahead and take inventory. Those who are willing to follow me, clean up everything that can be taken away."

His words were very clear.

He was going to leave. He no longer cared about the lives of the creatures of the broken civilization.

He did not hide his words. He said it in front of all the creatures of the broken civilization.

A trace of panic appeared in the eyes of many creatures. They berated, "If you want to leave, then leave by yourself. Why should you bring the lord of the city and the others away?"

"Right! If the city Lord is gone, what should we do?"

"If you want to leave, then leave by yourself!"

The crowd shouted in anger, as if they were in the right.

It was as if someone was born to protect them.

"Ignorant and ignorant."Su Yu shook his head. Blind living beings were like this. They placed their hopes on others, regardless of whether that person had the obligation or not.

Su Yu looked at them and said, "Why should I take them away? You are not worth protecting. If you can hand them over today, you can hand over the city Lord Tomorrow. The Day After Tomorrow, you can hand over the rest of the people who helped you."

"Sooner or later, I will be abandoned by you. Why should I stay and protect you for free? No one owes you anything, and no one needs to protect you."

As he spoke, he released the tyrannical cultivation of the middle stage of the Heavenly Dao master, which was extremely intimidating.

"From now on, you guys take care of yourselves. I will leave immediately." Su Yu turned around, leaving behind the creatures that had fallen into an even greater panic.

Su Yu shook his head slightly. These creatures did not have any faith.

Their only faith was himself.

They were not worth Su Yu risking everything to help.

The Wen Yuan City Lord looked reluctant and said, "Senior SU, they..."

Su Yu waved his hand and said, "I only help people who need help. They don't need me anymore, so why should I help them?"

Looking at the sky, he said, "I'll only give you two hours to prepare."

Chapter 2936 Malicious Intentions

What was two hours enough for?

It would take more than an hour to send a message to the entire broken civilization, right?

However, seeing how serious Su Yu's expression was, the city lord of Wen Yuan did not dare to delay. He immediately ordered his trusted aides to send out a notice to the outside world.

He hurriedly went to pack up his things and fought to take away the important things.

When the aggressive living beings saw that the city lord was really going to leave them, they all became agitated.

They were both terrified and angry for no reason, as if they had suffered a great grievance.

"City Lord Wen Yuan, we treated you as the new hope of a broken civilization and agreed to merge with Your Wen Yuan City, but now you have abandoned us. Are you right about our trust in You?"

Similar voices kept coming from the crowd.

Hearing this, the city Lord Wen Yuan no longer struggled in his heart.

He had already seen through these so-called people.

He acted as if it was a matter of course for him to give up his position as the city lord, but if he was really in trouble, he would be pushed out mercilessly like Su Yu.

Seeing through this, the city Lord Wen Yuan was expressionless. He gathered all the people who were willing to leave with him nearby.

Most of them were once people of Wen Yuan City and had a deep trust in the city lord of Wen Yuan City.

Therefore, they immediately followed after receiving the call.

Time passed bit by bit.

Just as they were packing up, a voice from beyond the sky sounded, "Hand over the murderer and let bygones be bygones. If you resist stubbornly, you will die."

Everyone looked up and saw a small golden boat slowly descending into the broken civilization under the protection of several experts from the skeleton group.

Above the small boat stood a person with an ice-cold expression.

He was not just anyone, but a smiling face!

It was she who led the skeleton corps to return to the ruined civilization to take revenge for the sins she had suffered.

At this moment, looking at the turbulent emotions of the ruined living beings, she was very satisfied with this result.

The reason why these living beings were instigated to collectively denounce Su Yu was not without reason.

It was because she had contacted the former officials of the first city. They had secretly instigated her to denounce Su Yu.

The purpose was to drive Su Yu out of the broken civilization so that it would be easier to kill her.

Secondly, if she didn't drive Su Yu away, wouldn't it be very troublesome to destroy the broken civilization?

Looking at the surging crowd below, Xiao Yan sneered in her heart. What a bunch of pigs.

She came back to take revenge on Su Yu and Wen Cheng, and to destroy this civilization that had witnessed her humiliating history.

"Xiaoyan?" City Lord Wen Yuan, Wen Cheng, and the others were all surprised.

Xiaoyan was captured by the skeleton battle group that day, but she was still alive?

It seemed that she had become an important person in the skeleton battle group.

"Why, are you surprised?" Xiaoyan was half-smiling, but there was an unspeakable malice hidden in her smile.

The city lord of Wen Yuan said in a serious tone, "Xiaoyan, don't try to mislead the masses. You know very well what the skeleton battle group is like. They will not let go of the broken civilization."

"Hehe!" Xiaoyan looked at the nervous expression of the city lord of Wen Yuan and let out a breath of turbid air in her heart. "What, are you afraid? Since you are afraid, then hand Su Yu over obediently!"

"Otherwise, the skeleton battle group's army will soon arrive and kill all of you."

As these words were said, all the living beings were completely flustered.

"City Lord Wen Yuan! Hand Su Yu over quickly! Do you want to kill all of us?"

"You muddle-headed city Lord, you're still obstinate even now!"

"Hand him over quickly!"

The crowd roared at the top of their lungs, as if they had seen the last straw to save their lives.

The city lord of Wen Yuan was unmoved. He said coldly, "A bunch of idiots!"

Looking at the many ignorant creatures that were roaring furiously, the city lord of Wen Yuan knew that he could not stay any longer. Otherwise, who knew what the instigators would do to them.

"Stop packing and leave immediately," the city lord of Wen Yuan shouted.

The people following him immediately gathered around Su Yu, ready to leave at any time.

Those angry creatures had already begun to destroy the city Lord's mansion, forcefully barging in and surrounding them.

Each of them seemed to have a great hatred towards Su Yu.

Fortunately, although they had many people, Su Yu's strength was still fresh in their memories, so they did not dare to attack.

Smiling coldly, she believed that if she continued to force them, she would be able to easily force Su Yu and the others out.

However, she did not intend to do so.

Since she was here for revenge, she would take her revenge to the end!

"Wen Cheng, do you think you can escape with your lives?" Xiao Yan suddenly locked her gaze on Wen Cheng.

The latter's expression changed slightly.

To be honest, Wen Cheng did not have the slightest bit of confidence, even though he had seen Su Yu's extraordinary moves.

However, they were now facing the world-famous skeleton battle group.

The creatures of the broken civilization were all attacking Su Yu without unity. How could they fight against the skeleton legion with only Su Yu and the weak ones?

It was very likely that they would end up like the countless heads.

"I'm giving you and your father a chance to live." Xiao Yan smiled, but in her heart, she was laughing viciously.

Wen Cheng had always been afraid of Xiaoyan, so he asked weakly, "What chance?"

She could already imagine what kind of request Xiaoyan would make.

She would probably make her kneel in front of everyone, Kowtow, and admit her mistake.

Xiaoyan had always been such a self-centered woman. Now, she must want her to admit her mistake, right?

However, Xiaoyan's answer made Wen Cheng's face instantly turn red. He was angry and angry.

"It's very simple. Take off your clothes and let the living beings of the broken civilization see enough." Xiao Yan couldn't help but recall the nightmare memory of being occupied by a wolf official.

It was a pain that she could never erase in her life, and all of this originated from Wen Cheng and Su Yu.

Therefore, she wanted Wen Cheng to suffer the same humiliation. Only then could part of the hatred in his heart be removed.

Wen Cheng was furious. "You... You Shameless Bitch!"

She clenched her chest and shouted weakly.

How could she do such a thing? !

"Then I'm sorry that both you and your father have to die!" Smiling coldly, she said, "When your father's body fell in front of you, you would regret it. You sacrificed your father just for a piece of clothing. What an unfilial daughter!"

Wen Cheng clenched his fists. This kind of nonsense sounded reasonable, but in fact, it was a complete mess.

However, she had to admit that if her father really died because of this, she would feel guilty.

"I'll give you another chance to think about it. Do you agree or not?" Xiaoyan said.

The surrounding creatures were much quieter, especially the male creatures. They all looked at Xiaoyan.

Some of them even gloated over her misfortune, with some anticipation and fervor.

Although Wen Jiao couldn't be considered beautiful, her identity was extremely revered and pure.

To be able to see her body was also a rare sight!

"HMPH!" The city lord of Wen Yuan stood in front of her and looked at her with disdain. "Even if I die, I won't let my daughter suffer the slightest bit of injustice because of me!"

Chapter 2937 Su Yu's Arrival

Wen Cheng was greatly encouraged. Yes, could it be that she still hoped that Xiao Yan would keep her promise and let her father go?

The answer was obviously no!

"Isn't it just death? What's so great about it? It's better for me to die with my father than you to live in the world alone!" Wen Cheng mustered up his courage and said.

Xiao Yan wanted to humiliate him, but she couldn't. Her eyes were filled with malice, and her viciousness increased instead of decreasing. "Dear fellow citizens of the broken civilization, Wen

Yuan and his daughter have persecuted the common people. It is unkind and unjust to disregard your lives!"

"On behalf of the Skeleton Battle Group, I promise you that whoever can obtain Wen Cheng's first drop of blood and her body will be absolved of your sins. Not only that, I will also give you the resources of a city."

What?

Many creatures were excited.

Not only could they be spared from death, but they could also obtain the resources of a city. Didn't that mean that they could become a city lord overnight?

All the living beings stared at Wen Cheng with their hungry wolf-like eyes. The meaning in their eyes was self-evident.

If Su Yu wasn't still here, they would have pounced on Wen Cheng and torn him into pieces.

"Aren't you going to make a move?" She said with a smile, "I'll only give you ten breaths of Time!"

She laughed sinisterly.

She wanted to see Wen Cheng suffer the same pain and feel the same despair.

As for Su Yu, she could only watch helplessly, but she couldn't change anything.

She didn't believe that Su Yu could still contend against the creatures that incited the entire broken civilization.

As soon as she finished speaking, those creatures finally couldn't hold it in any longer, and all of them rushed over with bloodshot eyes.

"Brothers, it's the city Lord Father and daughter who let us down!"

"Take down Wen Cheng, we want to fight for Our Lives!"

Amidst the angry roars, the living beings were finally moved. They surged forward like a tide.

The city lord of Wen Yuan turned pale with fright and said, "Quick, take Wen Cheng away first. I will block him first."

He pushed Wen Cheng into Su Yu's arms with his palm while he stood in front.

He had already prepared for the worst and protected his only daughter.

At this moment, he had seen through this group of so-called living beings.

Just as Su Yu had said, when the time came, he, the city lord, could immediately give up.

Wasn't his daughter the best proof?

What was there to protect such a creature?

But what made the city lord of Wen Yuan feel cold was that Su Yu had no intention of leaving. He only pulled Wen Cheng to his side.

Then, he unhurriedly stretched out his finger and pointed at the creatures that were coming from all directions.

His eyes were cold as he said indifferently, "I'll give you one last chance. Get Out of my sight forever."

Unfortunately, the creatures that had lost their minds did not put Su Yu in their eyes because they had more people.

"Brothers, we have more people. Don't be afraid!"

"Charge! Whoever gets Wen Cheng first will be the next city Lord!"

There were only those sickly shouts in the crowd.

Su Yu closed his eyes and said indifferently, "I've given you all the chance."

He turned around and swept his fingers in all directions.

Puff Puff Puff --

All the living beings in the surroundings immediately exploded into a bloody mist!

Within a radius of 10,000 Li, apart from his own people, the rest were all flattened into a bloody mist!

When the creatures that had pounced on them saw this scene, their scalps went numb. They all stopped in their tracks and did not dare to step forward.

"He... What is his strength?"

"He actually massacred innocent civilians?"

"The heavens can not tolerate this! The heavens can not tolerate this!"

As they spoke, they retreated as if 10,000 li away was a safe zone.

Su Yu did not say anything. He swept his surroundings once again.

Pu --

This time, all the living beings within a hundred thousand miles exploded into a bloody mist. Not even dregs were left behind!

The earth-shattering cries finally stopped by more than half.

The living beings beyond a hundred thousand miles looked at the boundless sea of blood and finally felt the fear that came from their souls.

No matter how they had been instigated previously, they were now fleeing frantically in fear.

No one dared to complain anymore, and no one dared to reprimand them.

At this moment, they finally realized that their lives were insignificant in Su Yu's eyes, like dust.

Su Yu had never been a kind person, nor was he anyone's protector.

In the blink of an eye, the many living beings retreated like the tide, and no one was clamoring anymore.

Su Yu retracted his finger and said indifferently, "Finally, it's quiet."

If he didn't make a move, these creatures would think that he was afraid of them.

Little did they know that Su Yu was only restraining himself. Unfortunately, they insisted on challenging Su Yu's bottom line again and again.

After slaughtering all the creatures that were causing trouble, Su Yu looked up at the smiling face in the sky and said indifferently, "The enemy isn't scary. What's scary is a traitor."

Smiling Face took a deep breath.

She knew that Su Yu was powerful, but she never thought that Su Yu was so powerful that he could destroy countless creatures with one finger.

Moreover, he was ruthless and merciless.

Her soft body trembled, and without saying a word, she urged the small boat to turn around and leave.

As she walked, she crushed a fleeing magical treasure.

Su Yu's eyes shot out, and two rays of light materialized like sharp swords in the air, easily crushing the small boat.

The skeleton experts near the small boat turned into bloody mist in an instant.

However, laughable was extremely lucky. She urged the fleeing magical treasure at the critical moment, leaving only a substitute stone on the spot, while her original body successfully escaped.

Su Yu rose into the air and released the Nightmare Crossing Lotus seat. "Go in. I'll let you out when it's safe."

The Master of Wenyuan City and the others immediately led their men in, leaving Su Yu alone.

He closed his eyes and crossed the endless galaxy with a thought, arriving in the distance.

In just a few hours.

He appeared near the nearby broken civilization.

The shadow of the evil girl flashed on an abandoned civilization. She pointed at the broken civilization and said, "This is our neighboring civilization, the Blackwater civilization. It's the stronghold of the Skeleton Corps."

The Blackwater Civilization?

What Su Yu saw was an incomparably blood-red civilization.

Without a doubt, it was dyed red by the blood of countless creatures.

"Gather all the demon beasts that we have tamed and guard this place. Unless that great sage level Skeleton Corps leader appears, kill the rest. Leave No one alive."

"Alright!" The Evil Woman said expressionlessly.

She was also extremely displeased with the actions of the skeleton group.

It was better to destroy all such evil creatures.

Su Yu entered the Blackwater civilization with his hands behind his back. The moment he stepped on it, he saw endless corpses.

Most of them had lost their heads!

Not far away, the members of the skeleton group were searching the corpses for treasures that they could find.

Su Yu couldn't be bothered with these small fries. He released his powerful soul, enveloping the entire broken civilization.

At the same time, his soul power suddenly vibrated, transmitting the incomparably sharp soul voice to the ears of every living being.

"Come out and die!"

None of the Skeleton Corps could think of leaving alive!

Chapter 2938 Pitiful Gaze

Blackwater civilization, on an island with a sea of blood.

A black-robed man wearing a skull mask was cultivating a secret technique among a pile of corpses.

In front of his chest was the blood of the ten strongest experts of the Blackwater civilization.

Under the activation of some secret technique, a blurry remnant was extracted from the blood.

"So Little? The ancestors of the black water civilization are too weak." He was none other than the leader of the skeleton group, Gai Tianmo.

Gai tianmo frowned slightly, but there was disappointment in his eyes.

He then took out a jade bottle. Inside the jade bottle, there were half a bottle of similar remnants.

Some were very blurry, and some were clear.

He placed the blurry remnant into the bottle. Looking at the half a bottle of remnants, gai Tianmo sighed. "There's still a long way to go. Only half a bottle. It's far from meeting the ancestor's requirements."

It turned out that there was someone else behind Gai Tianmo.

Over the years, he had led the skeleton corps to burn, kill, and plunder in the starry sky. It was not groundless.

The evil that the skeleton corps had done was only on the surface, causing people to mistakenly think that the skeleton corps was just brutal.

However, in reality, the Skeleton Corps' true goal was to extract this special remnant from the bodies of the Wanderers.

In the past century, the skeleton group had killed countless living beings and finally obtained a portion of the remnant. However, it was still too far away from its requirements.

"The expert who took away my demonic beasts shouldn't disappoint me too much, right?" Gai Tianmo muttered.

He was very interested in that expert whom he had never met before.

Based on his estimation, the expert who was able to take away all of his demonic beasts must have at least surpassed the ancient sage level.

Although there were many experts in the starry skies, there were very few who surpassed the ancient sage level.

At this moment, a rather loud voice came from his soul.

That voice caused great pain to ordinary creatures, but to a great sage like him, it was just a slight tremor.

"Oh? An Yuan Grade Soul Domain?" The overwhelming Sky Demon was slightly surprised.

As a great sage, he knew what was going on.

His opponent's soul power allowed Gai Tianmo to sense that his opponent's soul had reached the Yuan level.

"Looks like you didn't disappoint me." Gai Tianmo stood up with a cold smile and played with the jade bottle in his hand.

The remnant marks inside the bottle were shaking as they revealed their sharpness.

If Su Yu was here, he would definitely be familiar with it. It wasn't just any remnant marks. It was the remnant marks of the ancestral technique on the sinkhole divine monument.

However, the remnant of the ancestral art in the bottle was relatively shallow. It was as if it had been imitated, devoid of any lingering charm.

"However, I don't think there's a need for me to make a move," the Empyrean Demon said calmly.

With his strength, even an ancient sage would be able to destroy him with a flick of his finger.

"Let them practice their skills," the Empyrean demon muttered.

With a smile on her face, she managed to escape with her life. She appeared to be in a state of panic.

"Where is Lord Gai Tianmo? I want to see him!" She came to Gai Tianmo's seclusion place and said anxiously, "I have something important to report."

She wanted to tell Gai Tianmo that Su Yu's strength was beyond imagination.

Her strength might not be much weaker than Gai Tianmo's.

"How dare you? Lord Gai Tianmo is in seclusion, how can you disturb him?" At the door were three guards of Gai Tianmo, each of them covered in hazy colors.

Xiao Yan hurriedly retreated and respectfully said, "Reporting to the three lords, it's regarding that expert's information. I believe Lord Gai Tianmo would definitely want to know."

She didn't dare to act rashly.

Because the three guards in front of her were the trusted aides of Gai Tianmo who had followed him all year round. They were extremely mysterious.

It was said that the two hall masters who were killed by Su Yu didn't even dare to breathe loudly in front of the three guards.

It was completely unknown how strong they were.

Over the years, they had almost never made a move.

The only thing they knew was that they would make a move whenever there were difficult bones to bite.

Usually, no one knew how they made a move, and those hard bones were killed in an extremely short period of time.

The most sensational thing was that there was once a large-scale civilization that had several ancient sages overseeing it.

The Skeleton Corps had gone to invade without knowing it. In the end, they were killed by the combined efforts of several ancient sages who had hidden themselves from the world. Almost one-tenth of the combat strength of the skeleton corps had been exterminated.

At the critical moment, three extremely mysterious guards appeared.

After the time it takes for an incense stick to burn, they returned with the heads of the three ancient sages.

Since then, the three guards had become a taboo existence in the skeleton corps, second only to Gaia.

"Everything will be discussed after Gai Tianmo comes out of seclusion," the three guards said expressionlessly.

They did not place Su Yu in their eyes.

However, at this moment, Gai Tianmo's voice came from inside, "Ying, go take a look."

Among the three guards, the only female guard turned around and bowed towards the secret chamber, "Yes, Lord Gai Tianmo."

Ying stood up expressionlessly and took a step forward.

Xiaoyan hurriedly retreated, her heart quickly calming down.

Ying was the weakest among the three guards, but she was more than enough to deal with Su Yu.

"As for you, Xiaoyan, clean up the last batch of captives we caught," Gai Tianmo said.

Xiaoyan said respectfully, "Yes, Lord Gai Tianmo."

After watching Xiaoyan leave, Gai Tianmo chuckled coldly. "This woman has no other abilities, but she is very ruthless."

Many of the captives that were captured and beheaded were personally done by Smiley.

In terms of viciousness, there were not many women who were better than her.

Smiley came to the formation that imprisoned the captives.

The captives that she had thrown in were all divided into two types.

One was from the surrounding civilization, and the other was from the dilapidated civilization.

The captives from the dilapidated civilization were all wealthy merchants who passed by or experts who came to scout the way.

Towards the living beings of the surrounding civilization, Xiaoyan gave the order to kill them directly.

However, Xiaoyan did not kill any of them from the broken civilization. Instead, she tortured them one by one until they were begging for death.

This was especially true for the living beings from Wen yuan city.

Xiaoyan's arrival caused the living beings of Wen yuan city in the array to change their expressions and retreat one after another.

Those who had not yet been tortured were even more terrified.

Xiaoyan revealed a cold smile. "Fellow countrymen, I'm here again!"

Her beautiful eyes swept back and forth among them, looking for the next target.

Most of them were frantically retreating, afraid that they would be targeted by Xiaoyan.

Only one person did not change his expression. In fact, his face remained calm and without fear. He only looked at her quietly with a pitying gaze.

Xiaoyan immediately noticed her and narrowed her eyes. "What's Your Name?"

The calm woman did not say a word. She only looked at her with pity.

That gaze made Xiaoyan very uncomfortable. A trace of viciousness flashed between her brows. "Pull her out!"

Two guards immediately rushed in and pulled the woman out.

Xiaoyan said coldly, "Let me ask you, why are you looking at me like that?"

The woman's expression was calm as she said, "Because, you're about to die!"

Bang!

Smiling face kicked the woman's abdomen. The latter bent over in pain, but the pity in her eyes was even deeper.

"Why?" Smiling face asked coldly.

The woman sighed slightly and said, "Because you formed a grudge with someone who shouldn't be your enemy. Anyone who goes against him will never have a good ending."

Chapter 2939 2828, Full Moon Scimitar

The woman was none other than Shengyuan Xin.

As one of the people who knew Su Yu best, Shengyuan Xin was almost certain that Xiaoyan would not have a good ending.

This was because throughout history, no matter who was strong, the ending of those who fought against Su Yu was surprisingly the same.

There was no exception!

Even if their cultivation was countless times stronger than Su Yu's, they would still fall at Su Yu's feet in the end.

It was not easy for Xiaoyan to escape death, but she insisted on coming back to take revenge on Su Yu. In Shengyuan Xin's eyes, this was a way to seek death.

"Oh? You Mean Su Yu?" Xiaoyan narrowed her eyes and carefully looked at Shengyuan Xin. A malicious smile blossomed on the corner of her mouth. "It seems that I am very lucky!"

On the other side.

Su Yu stood in the center of the Blackwater civilization and scanned the surroundings. His soul was rapidly searching the entire civilization to find the whereabouts of Shengyuan Xin.

Suddenly, his eyebrows twitched.

A powerful aura appeared within the range of his soul perception. He opened his eyes and stared at the horizon. A figure that looked like a rainbow was approaching him.

It was a woman, but her cultivation was at the advanced stage of the ancient Sage realm.

In terms of strength, she was much stronger than Snow White.

What was a group of skeletons looking for in the ruins of this ruined civilization?

Ying landed and looked at Su Yu in front of her with disappointment. "I thought you were some ruthless character again. It turns out that you are a lowly human."

"No wonder lord overwhelming demon thought that I could come alone." Ying took off the full moon scimitar on her arm.

The scimitar was pitch-black and flickered with green poisonous mist.

The poisonous mist was not an ordinary poison. It was an intense poison that specifically countered the late-stage Heavenly Dao Master.

Once a wound was opened, even a small cut on the skin would be enough to paralyze the later stage of the Heavenly Dao master realm and make them vulnerable to slaughter.

With this item, Ying had killed more than two figures of ancient sages.

"Let's finish this battle quickly." Ying threw the crescent moon saber at Su Yu. The crescent moon saber turned into a streak of light and streaked toward Su Yu, drawing a black line in the process.

Then, the line was divided into two, two into four, and four into infinity.

In a short moment, it turned into a huge net that covered the sky and the Sun, completely sealing off the space where Su Yu was, making it impossible for anyone to escape.

Su Yu looked up and stretched out a finger, condensing the power of the saintly being between them and instantly blasting it out.

With the strength of the saintly being, it was reasonable to destroy the entire huge net.

However, the giant net only shook for a moment before it stabilized again and pounced on it at an even faster speed.

Su Yu was slightly surprised and once again cast out his eight great domains.

However, when the domain power hit the giant net, the same scene actually appeared. Not only did his domain power disappear without a trace, the giant net actually grew a little stronger.

Finally, Su Yu finally understood.

The deadly poison contained in the giant net actually had another mysterious function, which was to dissolve the enemy's power into a part of the giant net.

The stronger the enemy resisted, the stronger the giant net became.

In the end, when it enveloped the enemy, it was enough to kill the enemy with one fatal move.

"Accept your fate, don't waste your energy," Ying said calmly. With this move, she had already killed many ancient sages.

Many of them possessed unparalleled abilities or peerless treasures.

However, under her crescent moon saber, they were all reduced to dust.

Su Yu said expressionlessly, "There's still one that looks good."

He originally thought that the skeleton group was just a motley crew. He did not expect that there was still a powerful existence below the sky demon.

However, no matter how powerful it was, it was still an ancient sage.

If it was a great sage, he would still be afraid.

Unfortunately, she was not.

Su Yu raised her finger and drew a scar on her chest. That scar was filled with an extremely profound concept, as if it contained the essence of some divine art.

Chi La --

Faintly, it seemed as if a huge eagle claw was slashing through the sky.

The huge net that absorbed all energy actually split into two from the middle and was completely torn apart.

Su Yu stood in the same spot and did not move at all. The giant net that was torn apart brushed past Su Yu.

"What?" A trace of shock suddenly appeared on Ying's cold and stiff face.

The move that she was most proud of was actually broken?

She could not help but look at Su Yu again and said in surprise, "What you used just now should be the inheritance secret technique of the first generation of the Eagle Race, right? But, why is it more powerful than the secret technique of the Eagle Race?"

She had the honor to fight with the Eagle clan, which had just died not long ago, and had experienced the inherited secret technique.

However, those secret techniques were not as powerful as Su Yu's.

Su Yu didn't say a word and drew another trajectory.

Ying's pupils constricted. She hurriedly put the full moon scimitar in front of her chest to block Su Yu's mysterious attack.

Clang, Kacha --

With a crisp sound, the full moon Scimitar, a top-tier Nirvana weapon, actually broke into two pieces from the middle.

"Ah!" Ying cried out in pain. That remnant tear did not stop at the full moon Scimitar, but also split open her chest.

However, fresh blood spurted out from her chest.

Just one move had caused Ying to be heavily injured.

Her beautiful eyes were filled with thick fear. She did not say a word and ran back.

Su Yu followed behind her unhurriedly. He raised his finger and drew a line.

This time, he cut off her right arm. Then, he drew another line, leaving a deep gash on her back

Accompanied by a rain of blood and a shrill scream, the two of them chased each other, leaving a long bloody path.

"Lord Gai Tianmo, there's a powerful enemy. Save Me!" Ying hurriedly sent a message.

As long as Gai Tianmo could receive the message, he would be able to arrive in a few breaths at the latest.

As long as Gai Tianmo arrived, what would Su Yu Be?

However, what made Ying feel despair was that Su Yu grabbed at the air and actually caught the fluctuation of his message back into his palm.

Then, he pressed his palms together and gently twisted them, completely shattering the fluctuation.

"You can't escape," Su Yu said expressionlessly as he took a step forward.

Ying's heart skipped a beat. She had never felt such panic before. It was as if she had encountered a hungry wolf on the mountain when she was just a mortal.

That sense of despair almost suffocated her.

The only thing worth rejoicing over was that there were actually three transmission signals just now.

One of them was sent to overwhelming demon, but the other two were hidden under the fluctuations of the transmission and were secretly sent out without Su Yu's perception.

And the target of the communication was none other than the other two companions.

If the three of them joined hands, they had a chance to compete with Su Yu.

Finally, after a few breaths, the other two companions chased after them in surprise.

They looked at Ying's extremely injured body and could not help but be shocked. "Ying, who injured you so badly?"

In her memory, it was the first time Ying had received such a heavy injury.

Ying didn't have the time to talk to them. She said, "Quick, let's join hands to deal with that human. He is proficient in an ancestral technique!"

Up until now, Ying had understood that Su Yu was definitely using the legendary ancestral technique.

Unfortunately, she really didn't understand that Su Yu knew more than just one ancestral technique.

Chapter 2940 The Successor Of The Saint Of Thieves

Ancestral technique?

The two ancient saints were shocked. There were very few forces that were still proficient in ancestral techniques.

It was possible that they were at least at the level of the Saint Clan!

Moreover, every saint clan treated ancestral techniques as a top secret. Only the great saints of past generations could cultivate it. The other ordinary clansmen could not even touch it.

The Skeleton Corps had been collecting the remnants of ancestral techniques in the abandoned civilization for almost an era, but the ancestral techniques they had collected were mostly in a vague state.

How could they have such a complete ancestral technique like Su Yu?

Even the saint clans of the nine-star civilization could not cultivate the ancestral technique unless they were great saints.

"Who are you?"The three gathered together and asked.

If Su Yu was some extraordinary descendant of the Saint Clan, then the trouble would not be small.

Su Yu said calmly, "Naturally, I'm here to exterminate your Skeleton Corps."

He swiped his finger and another eagle clan ancestral technique swept over.

The three of them had extremely grave expressions.

Ying was even more anxious, but with two companions by her side, she was much calmer.

She had already lost her full moon curved blade and could only rely on her own domain to cultivate.

As for the other two, they each took out their own dao weapons.

One of their dao weapons was filled with absolute killing intent, while the other was filled with extreme coldness.

With the three of them working together, the three forces simultaneously resisted Su Yu's eagle clan ancestral technique.

In the end, the three people's domains or Dao artifacts were all forced back.

Thus, the three people were forced back, their bodies trembling violently.

Ying's injury was the heaviest, and she was forced to spit out blood on the spot. On the other hand, she was stronger than her, but because of this, her entire body was in extreme pain.

In just one move, Su Yu had single-handedly suppressed the three of them.

"Not good. Quickly inform the Lord that we are no match for this person!" The three of them said in shock.

No matter how strong an ancient sage was, the three of them could easily kill him with their combined strength.

But Su Yu's strength was too strange and too powerful!

"Let's Go!" The three of them immediately headed toward the place where the overwhelming demon was in seclusion.

Su Yu said indifferently, "You can come and go as you wish?"

He performed a seal with both hands and shot out ten seals consecutively.

This was the ancestral art of the Heavenly Spider Tribe, the heaven imprisoning Earth net.

Once it was used, the ten seals weaved into a huge net and enveloped the three ancient sages who were escaping.

"What? Another ancestral art?" The three of them were shocked.

Feeling an intense threat to their lives, the three of them no longer hesitated. They immediately shattered the jade seal and sent a message to the overwhelming demon, who was in seclusion, asking him to make a move.

However, as soon as the message was sent out, it was intercepted by the ancestral art of the heavenly spider tribe.

This net was not only capable of intercepting the body, it was also capable of completely isolating all kinds of obscure energy.

"Accept your fate!" Su Yu closed his eyes and formed another seal.

A fiery red mark gathered in his palm.

"The ancestral technique of the Fire Phoenix Tribe!" The three of them sucked in a breath of cold air. At this point, Su Yu had already used three ancestral techniques consecutively!

How... How was this possible?

A person who had yet to reach the Great Sage realm had mastered three ancestral techniques.

There had never been such a heaven-defying monster in the place where the elites of the nine-star civilization came from.

Once the mark appeared, the entire sky was illuminated in a fiery red.

The three people's desperate faces were all illuminated in a dark red..

In the secret land.

The overwhelming demon was absorbing the last vestiges as he collected them. He couldn't help but frown. "Ying hasn't returned yet?"

According to his calculations, Ying should have successfully killed that mysterious powerhouse by now.

But why hadn't she replied yet?

Kacha --

Suddenly, something in his embrace shattered.

Because it had appeared too suddenly, he was caught off guard. The remnant that was about to be extracted immediately dissipated.

Overwhelming Demon was in disbelief. He took out three life tokens with a name carved on them.

One of the life tokens with the word "Ying" was broken into pieces. Traces of blood flowed out from the cracks.

"Ying is dead? How is that possible?" Gai Tianmo said in shock.

According to his estimation, Ying was more than enough to deal with that mysterious powerhouse. How could she be dead?

His expression quickly turned cold, and a thick killing intent appeared on his face. he shouted, "Ao! Kuang! Get his head for me!"

Unexpectedly, as soon as he finished speaking, two consecutive cracking sounds appeared.

He looked down and saw that the other two life tokens had all shattered!

"Who?" Gai Tianmo suddenly stood up with a shocked expression on his face.

Ying was one thing. She was the one with the lowest cultivation among the three of them. However, Ao and Kuang were much stronger than Ying.

However, the two of them were destroyed one after another. One could imagine how powerful the person who attacked was!

The person who attacked was definitely not that so-called mysterious powerhouse.

There must be another powerhouse, or even a great sage powerhouse who was not inferior to him!

Gai Tianmo narrowed his eyes. "You ruined the matter of my skeleton gang. Let me see how many lives you have!"

His figure flashed and instantly broke through the closed-door training ground. He stood tall in the void.

"Come here and Die!" Gai Tianmo roared.

However, before he could finish his roar, an indifferent voice came from behind him. "Does it hurt? Why didn't you show any mercy when you slaughtered billions of lives?"

Gai Tianmo suddenly turned around and saw a calm silver-haired youth looking at him indifferently.

"Who are you?" Gai Tianmo's eyes suddenly turned sharp, as if he had seen through Su Yu in an instant.

Then, he shifted his gaze and looked around vigilantly, "What else? Come out!"

The youth in front of him was only at the middle stage of the Heavenly Dao master realm and did not have the strength to kill Ying and the other two.

There must be another expert helping him.

Su Yu stood in front of him with his hands behind his back. He said expressionlessly, "If you are referring to the person who killed your three guards, then I can respond."

It's You?

Gai Tianmo sized up Su Yu again. His eyes were filled with disbelief. "You? Tell me, where is that person hiding?"

As he spoke, he casually flicked his finger. A terrifying power of the Great Sage realm swept over.

Su Yu stood where he was and did not move at all. He only opened his mouth and let out a breath. The air current turned into a mark and surrounded him.

Gai Tianmo was indeed powerful, but this was just a casual attack. It was not even one-ten-thousandth of his true strength.

Hence, the mark was easily dissolved.

"Ancestral technique?" Gai Tianmo was shocked.

He finally looked at Su Yu and asked, "Who are you?"

To master such a complete ancestral technique, he must be a saint of the Saint clan.

But what was Su Yu's cultivation level?

How did he master the ancestral technique?

"The person who wants your life." Su Yu continuously used several ancestral techniques.

Gai Tianmo's pupils shrank when he saw this. How could a person master several ancestral techniques?

"Are you a disciple of the thieving saint?" Gai Tianmo said in surprise.

If there was anyone in the world who could master multiple ancestral techniques, it was the saint of Thieves.

The Saint of thieves was the most unique great saint of the nine-star civilization.

He never stole from the living. Instead, he only stole from the dead!

Furthermore, he stole from the dead who had no descendants.
