

Nine-Dragon 2941

Chapter 2941 A Life-And-Death Struggle

Therefore, the saint of thieves dug out many ancestral techniques that had been lost from many extinct saint tombs.

For example, the eagle ancestral technique that Su Yu had just used was one of the ancestral techniques that the saint of thieves had dug out.

Therefore, when he saw Su Yu continuously use several ancestral techniques, he immediately thought that Su Yu was the saint of Thieves's successor.

Seeing the ancestral technique attack, the overwhelming Sky Demon was fearless.

Su Yu's cultivation was still too shallow. Even if he had mastered the ancestral spell, its power was still very limited. He had only condensed a vortex in front of him and successfully destroyed several ancestral spells.

After the initial shock, the sky-covering devil could finally confirm that the one who killed Ying and the other two was indeed Su Yu.

With such a powerful ancestral spell, it was more than enough to kill them.

His expression was gradually replaced by excitement. "Hehe, you came just in time. I was just worried that I wouldn't be able to complete my mission on time when you came knocking on My Door!"

The remnant marks that he had accumulated were far from meeting the requirements. He still had at least half of them left.

However, there were countless remnant marks on Su Yu's body. If he were to kill him and extract the ancestral technique from his body, it would be extremely easy for him to complete the mission.

In his heart, Su Yu was like a gift that was delivered to his door.

"That depends on how capable you are." Su Yu stopped using the scars. When facing a great sage, normal attacks from the scars would not cause any damage.

The sky-covering devil laughed and his demonic aura shook. He laughed and said, "The successor of the Grand Sage, Hehe, accept your life obediently!"

He was afraid of other Great Sage's successors. However, the Grand Sage of stealing had no one to rely on and had no background. He only knew how to collect the treasures of the dead. What was there to be afraid of?

"Devil Sun Devours the sky!" The demonic aura around the overwhelming demon turned into a huge demonic dragon and roared as it pounced over.

One palm after another reached out from the demonic dragon's body. As long as one touched it, the demonic dragon would grab it and pull it in. It would become the demonic dragon's prisoner and the overwhelming demon would absorb all of its power.

Su Yu was expressionless. He raised his hand and a delicate long sword fell into his palm.

It was the absolute heaven sword that he had obtained.

The sword was still in the scabbard and had not been unsheathed. Even so, it still emitted a chilling aura that made one's heart skip a beat.

The Devil Dragon rolled over. Su Yu held the sword and swept it. A chilling sword aura seeped out of the scabbard and towards the outside world.

The huge devil dragon was immediately split into two and brushed past Su Yu.

The remaining sword Qi did not slow down and slashed towards Gai Tianmo.

The latter narrowed his eyes and retreated. He used his domain to resist.

Boom --

Finally, with a muffled sound, his domain was broken, but the sword Qi was also exhausted.

Before Gai Tianmo could take a breath, the top of his head turned black. Su Yu held the Absolute Heaven Sword and jumped up, slashing down on his head.

With this slash, more sword qi burst out from within and slashed straight towards Gai Tianmo.

Gai Tianmo's eyelids twitched. What kind of sword was this?

It was so terrifying even before it was unsheathed. If it was unsheathed, wouldn't it destroy the world?

However, Gai Tianmo was not afraid. He raised his hand and took out a stone-like dao item. He placed it on top of his head.

Clang --

The heaven-destroying sword slashed at the Dao item, creating a long spark.

Following that, the Dao item broke from the middle.

What?

Gai Tianmo was shocked. That Dao item was a top-grade defensive dao item. It could block an attack from a peak grand sage without being damaged.

However, Su Yu sliced it into two with a casual slash!

The long sword sliced the dao item into pieces and slashed towards the top of his head. How could gai Tianmo be careless?

Without hesitation, he took out the jade bottle that he had painstakingly collected. After opening it, all the imprints flew out and formed a cloud above his head.

"Thousand ancestral techniques, go!" Gai tianmo shouted softly.

The imprints immediately began to fluctuate and then suddenly exploded, shooting out a sky-shattering bright light.

Su Yu and his sword were sent flying a thousand miles away. His bones seemed to be on the verge of falling apart, and his body was shaking violently. A mouthful of blood could not help but flow out from his throat.

The remnants of Gai Tianmo's grasp were all relatively weak ancestral techniques, but they could not withstand Gai Tianmo's extraordinary strength.

Any casual use of it would bring about a mighty force that could not be resisted.

In the end, the difference in cultivation between the two parties was too great, and they were unable to fight head-on.

Gai Tianmo did not spare anyone. He carried a remnant of the sword as he rode over. Looking at the terrifying longsword in Su Yu's hand, he said with lingering fear, "Hand over that sword, and I'll spare your life."

His heart was filled with greed. That sword was too terrifying. His opponent was only a junior in the middle stage of the Heavenly Dao master, yet he was able to fight him with this sword.

If it landed in his hands, wouldn't its power be even more astonishing?

Su Yu stood up and held onto the red hilt of the sword. He said coldly, "If you want a sword, can you?"

He took a deep breath, held onto the hilt, and slowly pulled out the sword.

Previously, he had been unwilling to pull out the sword because the absolute heaven sword was too difficult to control. If he used it once, he would definitely use up most of his strength.

Thus, he was extremely cautious when using it.

Now, it seemed that he had no choice but to use it!

Moreover, there were no more innocent creatures in the entire Blackwater civilization. Almost all of them had been killed by them.

The massacre caused by the sword would only kill the heartless creatures like the skeleton corps. There was no psychological burden to speak of.

Clang --

The Absolute Heaven sword was slowly unsheathed. One could see an inch of it, and the world began to shake.

The entire Blackwater civilization seemed to be unable to bear the weight and was shaking nonstop.

The blood-red seawater raised huge waves, drowning the land and the mountains.

The members of the Skeleton Corps all flew up into the sky in panic and looked at the sudden change in the world in shock.

Some of the stronger members were even looking in the direction of the heavenly sword with Trembling Hearts.

They instinctively felt that an extremely terrifying aura had been released there.

It was as if the weapon of extinction was descending into the mortal world.

The overwhelming Sky Demon was about to approach, but the moment the sword was unsheathed, he could not help but feel his heart skip a beat. He hurriedly shouted, "Stop!"

His instincts told him that once this sword was unsheathed, killing him would be as easy as killing chickens and dogs!

Su Yu turned a deaf ear and coldly said, "Don't you want this sword? Why, Don't you want it anymore?"

His palm continued to exert force, pulling out the absolute heaven sword bit by bit.

It wasn't that he didn't want to quickly kill Gai Tianmo with the sword.

It was that the sword spirit of the Absolute Heaven sword was resisting him and didn't want to come out of the sheath.

Gai Tianmo's brows began to twitch violently, and a never-before-seen life and death crisis enveloped his heart.

After weighing the pros and cons, he gritted his teeth and actually abandoned the absolute heaven sword in front of him, flying into the sky and escaping.

"You want to leave?" Su Yu wanted to kill the heaven-destroying demon the most.

If this person was not destroyed, there would be a second skeleton group.

He activated his spatial domain and Su Yu immediately chased after him. Even though the distance between them was rapidly increasing.

However, with how terrifying the heaven-destroying sword was, he was still within the killing range.

Clang --

Finally, the heaven-destroying sword was pulled out. With the help of the wind grand sage and the blood elder demon, he managed to stabilize the heaven-destroying sword.

He raised the heavenly sword and pointed it at the sky-covering demon.

The latter was shocked and shouted, "Su Yu, are you really going to die?"

Su Yu shook his head, "You're wrong. The fish will die, but the net won't break!"

Chapter 2942 Had Fallen Into The Trap Again

The overwhelming demon's heart was pounding wildly. A sense of impending death enveloped his heart.

He had experienced countless life-and-death crises in his life, but none of them were as profound as this one.

Even the last time when he was almost annihilated by the combined efforts of the ancient sages of the abandoned civilization, he had never felt such a sense of crisis this time.

He had a premonition that he would definitely be annihilated and enter the ultimate. There was no chance for him to survive.

"Human, we have no grudges in the past. How about we let bygones be bygones? To be honest, I have a nine-star civilization behind me that you can not even imagine. If I were to die, not only would you not receive any benefits, you would also suffer a catastrophe."

After careful consideration, Su Yu killing Gai Tianmo would only bring harm, not benefits.

Moreover, he had not caused any substantial harm to Su Yu. In essence, the enmity between the two sides had not intensified.

There was really no need for both sides to completely fall out.

However, with that being said, what Gai Tianmo thought was another matter.

Su Yu holding the Absolute Heaven sword was the reason why Gai Tianmo could not let him go no matter what.

As long as he was given a chance to live this time, he would try every possible means to snatch Su Yu's sword back.

Unfortunately, Su Yu wasn't a kid. He was someone who had experienced countless battles and witnessed countless schemes.

He could see through Gai Tianmo's thoughts better than anyone else.

"Isn't it too late to say all this now?" Su Yu said indifferently. He raised the Absolute Heaven Sword without any hesitation.

With just a slash from afar, he would be able to turn the sky-covering devil into dust.

However, at this moment.

A woman's figure rushed over and blocked the sky-covering devil.

The woman was none other than Xiao Yan, who had a deep hatred towards Su Yu.

She was not alone. There was another person in her hands... Sheng Yuanxin!

Sheng Yuanxin's strength was completely sealed and he could not move. He could only let Xiao Yan capture him.

Xiaoyan teased, "Come on, chop it off! If you don't want to see your old lover die, then chop it off as soon as possible!"

There was a trace of malice in her smile.

After knowing that Shengyuan Xin and Su Yu might know each other, she had performed a soul search on Shengyuan Xin. In the end, she unexpectedly found out that the two of them were from the same hometown that Su Yu had known not long after she had entered the martial arts world.

Moreover, the relationship between the two of them was extremely harmonious, and there was even a hint of affection.

From her memories, Xiaoyan knew that Su Yu was a person who valued friendship and loyalty. She would rather dig out her own heart for her daughter.

Such a person's weakness was really too fatal.

As expected!

Su Yu's pupils constricted, and he slowly put down the heaven-defying sword that he had raised.

In the smile that had split open on his face, he was even happier. As expected!

When Gai Tianmo saw this scene, his heart relaxed. He was pleasantly surprised. He did not expect that this mad dog, Xiaoyan, could actually give him a chance to escape death. This was truly unexpected!

"Well done!" Gai Tianmo praised. He immediately went to Xiaoyan's side and helped her capture the sacred Yuan heart.

The Sacred Yuan Heart was now his life-saving talisman. He could not afford to lose even a tiny bit of it.

"Su Yu, leave now. Otherwise, you won't want to know the consequences," sky covering devil threatened.

However, smiling face immediately added, "In addition, if you want her to live, put down the sword in your hand! Then, kneel on the ground and kowtow to me in Repentance! Otherwise, I will cut her into a thousand pieces in front of you and let her taste the ultimate punishment in the human world!"

Xiaoyan was already familiar with the punishment. She knew how to make a beautiful woman's body and heart shine completely.

The overwhelming demon hesitated for a moment and let Xiaoyan continue.

If Su Yu was very loyal, perhaps not only could he save his life, but he could also get that terrifying sword.

And as long as he got this sword, what was Su Yu?

He could be destroyed with a snap of his fingers!

Su Yu stood on the spot, unmoved, as if he was hesitating.

A sinister smile appeared on his face as he grabbed Sheng Yuanxin's neck and said with a sinister smile, "Aren't you going to do as I say? Kneel down immediately?"

She was certain in her heart that Su Yu would definitely do as he said.

Once he knelt down, once he put down the heaven-defying sword, then Su Yu's fate would be in her control.

She had to let Su Yu have a taste of a life worse than death. She had to let him understand that what he did to her that day was the most remorseful thing he had ever done in his life.

However, Su Yu still did not make a move. Instead, he pondered for a long time and sighed softly, "There's nothing I can do."

He grinned. It seemed that Su Yu had surrendered.

Gaia devil could not help but be excited. He stared at Su Yu's palm and waited for the moment the heaven-defying sword fell.

But who knew that Su Yu did not release the Absolute Heaven Sword.

Instead, he held the Absolute Heaven Sword and slashed at them.

What!

The two's expressions changed drastically.

A maniacal smile froze on their faces. Their minds went blank as they felt the sword Qi that came slashing at them.

In the soul search of Shengyuan Xin, Su Yu was clearly a person who valued friendship to the extreme.

He definitely could not watch Shengyuan Xin die.

But why did he not yield and even publicly kill Shengyuan Xin?

Suddenly, Xiaoyan suddenly remembered something. It was an unintentional incident during the soul search. She directly ignored it and did not take it to heart.

But now that she thought of it, her whole body became alert.

She lowered her head and looked at Shengyuan Xin again. The corner of the latter's mouth curled into a smile. It was a smile that had succeeded in her plan!

"You Schemed Against Me! !"Xiaoyan finally came to her senses and screamed.

From the beginning, Shengyuan Xin had exposed her relationship with Su Yu either openly or covertly. It was a trap set by Shengyuan Xin!

That was because Shengyuan Xin cultivated six domains and had six clones.

If one died, another body would immediately replace her.

Unless all six clones were destroyed at the same time, Shengyuan Xin could not be killed.

Su Yu's sword could only kill one of her clones at most. After that, she would resurrect on the spot.

Other than suffering a little pain before she died, there was basically no loss.

It was precisely because she knew this that Shengyuan Xin deliberately exposed her relationship with Su Yu and lured Xiaoyan to use her as a hostage and bring her to Su Yu.

Su Yu also knew about the existence of Shengyuan Xin's six paths domain, so she definitely knew what to do -- kill Xiaoyan as well!

Otherwise, this sinister woman, Xiao Yan, would hide again when she saw that the situation was bad. It would not be easy to find her again.

By the time she had hibernated enough and came out to stir up trouble and harm the living beings, it would be too late.

Xiao Yan, who understood this point, had a fierce look on her face. She was furious and raised her hand to slap at the head of the sacred primordial heart to vent the resentment of being plotted against.

However, before he smacked it down, the absolute heaven sword's destructive sword had already arrived.

In an instant, smiling face and Sheng Yuanxin disappeared into the sword light.

The latter maintained his smile and quietly watched Su Yu in the distance, waiting for death and rebirth.

The sword light flashed, and the two of them were annihilated in the light.

Meanwhile, Gai Tianmo, who had already seen that the situation was not good, fled far away. He cursed in his heart, "I actually believed that stupid bitch! !"

He had already fled far away, but in the end, he believed and returned with a smile.

Now that he was completely within the Absolute Heaven Sword's range, he would definitely die!

Chapter 2943 Extermination

At this critical moment, overwhelming Sky Demon roared and turned into boundless demonic qi, fleeing in all directions.

As he fled, he shouted, "Su, I'm a member of Your Super Saint Clan. My status is high. If you kill me, disaster will befall you!"

Super Saint Clan?

Su Yu didn't think much of it.

The famous sword Saint Clan, the third-ranked Saint Clan, was considered a super saint clan, right?

But so what?

Didn't he still die at their hands?

Moreover, he didn't believe that a super saint clan would dare to admit that he had anything to do with the crime-ridden skeleton group.

"Don't worry. No one will come to take revenge for you. You can die now," Su Yu said calmly.

However, it was obvious that Gai Tianmo could not hear him.

Because the sword light had already rushed over and wiped out all the demonic qi.

Ah!

Gai Tianmo's screams came from all directions. The thousands of demonic qi that he transformed into did not escape successfully.

"Human! Even if I die, you won't have a good life!" Before he died, Gai Tianmo let out a hateful cry, "My Gai Tianmo clan is not so easy to kill!"

His voice floated in the nine heavens, and then gathered into a black demonic eye that charged towards Su Yu.

Su Yu's expression changed slightly, and he immediately dodged.

However, after that demonic eye locked onto Su Yu, he couldn't escape no matter what.

No matter what level of spatial domain Su Yu used, the demonic eye followed him like a shadow, not pulling away at all.

In the end, the demonic eye hit Su Yu's shoulder, causing a burning pain.

Su Yu raised his sleeve and saw a vivid black demon eye on his arm.

The Demon Eye did not harm his body, but it kept releasing waves to the outside world.

Su Yu tried to isolate it with waves, but it was very difficult. This wave was very special. No matter how strong the power was, it could not be completely sealed. There was always a weak wave that was released.

"The overwhelming Sky Clan?" Su Yu murmured.

This signal did not need to be carefully checked. Everyone knew that it was sent to the so-called overwhelming Sky clan.

It meant that the overwhelming sky demon died in Su Yu's hands and used this to attract his clansmen to take revenge.

"It seems to be a bit troublesome," Su Yu said indifferently.

Before he officially stepped into the nine-star civilization, he had already made a feud with the so-called Super Saint Clan.

However, if the cauldron he led wanted to occupy a position in the nine-star civilization, it could not avoid friction with the forces inside.

"It seems that I need to gather more power before I can step into a nine-star civilization," Su Yu thought.

Shaking his head, he returned to the place where he had killed the overwhelming demon just now and stared at the place where the sacred Yuan Heart had perished.

However, after waiting for a long time, he still could not wait for the sacred Yuan Heart to gather its form again. His heart could not help but raise.

"Could it be that I was wrong?" Su Yu looked around carefully, but there were still no signs of the Shengyuan heart condensing nearby.

Oh No!

Could it be that an accident had really happened?

His heart thumped and he immediately panicked.

However, at this moment, his shoulder was gently patted by someone.

Su Yu suddenly turned his head and saw a calm face that was not a smile.

"You seem to be very nervous about me?" Shengyuan Xin said with a faint smile.

Su Yu's worried heart finally relaxed. She glared at her and said, "You scared me to Death!"

For a moment, Su Yu was really scared. She had an inexplicable sense of panic. She was afraid that her sword attack was too powerful and that Shengyuan Xin would not even have the chance to replace her six paths body.

"I won't do it again." Shengyuan Xin stuck out his tongue and said apologetically.

This made Su Yu feel embarrassed instead. His gaze became gentle again. "I'm sorry for making you suffer."

The feeling of death was not good.

When that sword attack landed on Shengyuan Xin's body, the pain was so intense that Su Yu, who had died many times, could feel it.

"No, no, I've implicated you. It's all my fault that I'm too weak. Sigh." Shengyuan Xin sighed.

Upon hearing this, Su Yu took out half of the original energy without hesitation. "Go back and enter seclusion immediately."

Shengyuan Xin only smiled slightly and received the original energy. She was not moved by the value of the gift.

Her eyes were filled with tenderness. She looked at Su Yu more than when she looked at the gift.

"Okay, I'll listen to you." Shengyuan Xin smiled gently.

After the two of them smiled at each other, Su Yu opened the nightmare ferrying Lotus seat. "Let's go in and cultivate. I need to deal with the remaining members of the skeleton group."

Shengyuan Xin had never liked fighting. Hearing this, she hummed and obediently entered the nightmare ferrying Lotus seat.

Su Yu looked around the entire Blackwater civilization. After the death of the overwhelming demon, all the members of the skeleton group turned into birds and beasts and fled into the distance in panic.

He was expressionless as he held the heaven-destroying sword in his hand and stabbed it into the ground of the Blackwater civilization.

The heaven-destroying sword was a ferocious sword that could destroy even a grand sage. How could the Blackwater Civilization, an abandoned planet, withstand it?

In an instant, the entire blackwater civilization collapsed in all directions with the heaven-destroying sword as the center.

The members of the skeleton group who had yet to escape were killed in the blink of an eye.

As for those living beings that had escaped the starry skies, they were still unable to escape this calamity.

Because, there was still an evil daughter on Top!

Chi --

A gigantic black lotus flashed past the nine heavens, and immediately after, it started raining blood.

Su Yu soared into the sky and launched an extermination mission towards the remaining members of the skeleton group.

However, there were simply too many of them, and the two of them were unable to exterminate all of them.

Su Yu's gaze sank. He raised his hand and grabbed. The eight Yuan level domains gathered in his palm and formed an eight-colored radiance.

With Su Yu as the center, the radiance rapidly radiated in all directions.

In an instant, it passed through the many members of the skeleton group and formed a huge eight-colored radiance above their heads.

The radiance also condensed into five words -- members of the skeleton group!

Su Yu and the evil girl gathered together.

The latter had an apologetic look on her face. "I'm sorry, Su Yu. I didn't do as you said and leave them all behind."

Su Yu shook his head. "Not leaving them all behind might not be a bad thing."

He took out a large seal.

The moment this seal appeared, the evil girl almost cried out in shock. She blinked her eyes in shock and disbelief. "Don't tell me that you brought back the seal of the Heavenly Dao Hall's main hall."

As one of the members of the Heavenly Dao Hall's Branch Hall of the former eight-star civilization, there was no reason for the evil girl not to recognize the seal of the Heavenly Dao Hall.

Su Yu smiled faintly. "Then tell me, what is this?"

The evil girl covered her mouth and sucked in a breath of cold air. "You... How did you do it?"

Even if Su Yu's strength was very powerful, the Heavenly Dao Hall's main hall was filled with experts. It was said that there had been generations of Old Hall Masters.

To snatch the main hall seal from within was as difficult as ascending to the heavens!

"The palace master gave it to me," Su Yu said indistinctly. Without waiting for the evil woman to ask in detail, Su Yu channeled his power into the seal.

The Heaven Dao Palace's seal continued to vibrate.

Layers of incomparably violent fluctuations spread out at an astonishing speed to every corner of the abandoned civilization.

Chapter 2944 Was Unprecedentedly Strong

Su Yu said in a dignified voice, "Pass down the Order of the Heavenly Dao Palace, order all the creatures in the abandoned civilization to kill the members of the Skeleton Corps!"

The loud voice merged into the fluctuation and spread to the entire abandoned civilization.

From the broken civilization to the nine-star civilization, everyone heard the call from the Heavenly Dao great seal.

"What? The order from the Palace of Heavenly Dao?"

"How can that be? The Palace of Heavenly Dao is a force of a nine-star civilization. Why would it call on the forces of our abandoned civilization?"

"Is... is it possible that the nine-star civilization finally values us?"

"No matter what, this is the order from the Palace of Heavenly Dao. There are only benefits and no disadvantages to our corresponding orders."

It had to be said that any force at the level of a great clan of a nine-star civilization had unparalleled appeal to the creatures of the abandoned civilization.

All of a sudden, all the creatures responded to the call. Even the ancient sages who had been hidden from the world began to surround and kill the skeleton group after some hesitation.

Su Yu had marked the identity of the members of the skeleton group with the eight domains above their heads.

The entire abandoned civilization was on the move. Their destruction would only happen sooner or later.

With the shattered Blackwater civilization as the center, Su Yu gathered thousands of demon beasts and released the common beings in the nightmare lotus seat. With this as the center, he began to establish the largest force of the abandoned civilization.

There were not many experts in the abandoned civilization. The strongest force, the skeleton group, was destroyed. Ding was the number one force outside of the nine-star civilization.

"Next, we seem to be very busy." The evil woman sensed the aura of the experts from all directions. Her eyes were filled with gratification.

After this battle, Ding had completely established his position.

Even if he didn't have to deliberately recruit them, they would come from all directions to seek refuge.

Su Yu let out a long sigh and said, "Nine-star civilization, I will be here soon!"

Only by stepping into a nine-star civilization with Ding's status would he be qualified to fight against the son of Heaven of the sacred mountain.

His intuition told him that the day of the decisive battle with the son of Heaven of the sacred mountain was not far away.

Time passed bit by bit.

In the blink of an eye, several months had passed.

Three months had passed since the Heavenly Dao Palace had issued the order.

The abandoned civilization had gathered together to launch the final extermination operation against the Skeleton Corps.

The Skeleton Corps, which usually terrified the living beings of the broken civilization, had become the dogs that everyone beat up.

The heads were brought by the conscripts and gathered at the cauldron.

After witnessing the cauldron's prosperity and its ability to possess the identity document of a nine-star civilization, one could imagine how many people wanted to join the cauldron.

Of course, the cauldron would not reject everyone.

Only those who were above the earth path master level and were willing to undergo a soul search to show that they were not evil people were qualified to enter.

Even so, the number of people they absorbed was still an astronomical figure!

It was said that just the members of the cauldron with their names alone numbered 10,000.

They worked day and night, continuously working for an entire month before they barely finished their work.

The number was so large that it was practically impossible to calculate.

The initial estimate was that the number of people the cauldron had expanded was ten thousand times more than the original number!

The vile spawn looked at the entire register of spatial storage devices and could not help but be surprised. "Such a number is probably even larger than the Heavenly Dao Palace!"

The Heavenly Dao Palace was said to have the largest number of members in the nine-star civilization. This was because it did not ask about one's origin or race. As long as one's cultivation reached the Heavenly Dao master level and went through a simple test, they would be able to enter the Heavenly Dao Palace.

However, right now, the number of people in the cauldron far exceeded that of the Heavenly Dao Palace by more than a hundred times.

"If these people are all put into the nine-star civilization, I'm afraid that it will bring an unimaginable impact to the entire civilization," the evil daughter muttered.

Although their strength was generally not strong, they had the advantage in numbers.

If they were to gather together into a force, even the Heavenly Dao Palace would have to give way, right?

"They can't enter the nine-star civilization for the time being," Su Yu said. The statue that had been used to carve the document was on the verge of shattering due to overloading.

There were also a lot of people. No matter how many spatial storage devices there were, they would not be able to lead all of them into the nine-star civilization.

Therefore, they could only stay outside for the time being and wait for Su Yu to get a new statue to create the document for them.

"The forces have just formed. We need to rule over the entire abandoned civilization as soon as possible and try to take control of everything other than the nine-star civilization," Su Yu said.

The evil daughter pondered, "Leave it to me."

At present, only one-tenth of the forces had come to pledge their allegiance to Ding. The rest of the forces were defending one side, so it would take a lot of time to conquer them.

"Thank you." Su Yu cupped his hands.

Next, he would lead the ordinary people who had obtained the document to the Nightmare Lotus seat and head to the nine-star civilization to establish a power at the level of an aristocratic family!

Only then would he be able to cooperate with the Heavenly Dao Palace, obtain the opportunity to use the Yin Yang sect, and take back his own body.

However, before he left, Su Yu clearly would not forget a person.

His figure flashed and once again appeared in the former profound literature city.

Ever since Su Yu got angry and wiped out all the living beings within a radius of 100,000 miles with a single sword, this place had turned into a land of death. No living beings dared to come any closer.

Although he had left that day, he did not dare to disturb Mo Heng's closed-door cultivation.

Mo Heng could not be disturbed by anyone when he was refining the kalpa scythe again.

Now that the skeleton gang was finished, they could finally come and ask about the progress of the kalpa scythe refinement.

According to Mo Heng, he only needed half a year.

Counting the time, it had been exactly half a year since the myriad calamity scythe had been given to him.

"Mo Heng." Su Yu came to the secret room and cupped his fists.

However, there was no response from inside the secret room.

Su Yu opened his eyes and immediately activated his soul's eye. When he saw it, the secret room was actually empty.

His heart thumped and he immediately kicked open the stone door.

Mo Heng was long gone, and the Kalpa scythe was also nowhere to be seen.

"You Lied to me?" Su Yu stood where he was, killing intent flashing in his eyes.

His first thought was that Mo Heng was greedy for the Kalpa scythe and took it away quietly while Su Yu was dealing with the skeleton gang.

However, after thinking about it carefully, he felt that it should not be.

He had never misjudged people. He was still confident in Mo Heng's character and temperament.

However, why did Mo Heng escape with his scythe without a sound?

Su Yu hoped that he was wrong and that someone took the opportunity to abduct Mo Heng.

However, from the traces left at the scene, there were no signs of a fight.

"Mo Heng, you better give me an explanation!" Su Yu gritted his teeth and muttered.

He slapped his chest and spat out a mouthful of blood.

The blood turned into a bloody mist and condensed into an arrow in the air, pointing in the direction of the nine-star civilization.

The great calamity scythe was something that Su Yu had refined before. There was a trace of his blood essence in it.

No matter how far away they were, they could use the blood essence to confirm its general location.

"The cauldron belongs to you. Follow Me!" Su Yu shouted.

Many creatures immediately rode their beasts and followed Su Yu to the nine-star civilization.

If the last trip to the nine-star civilization was just a test, then this time, Su Yu wanted to take root in the nine-star civilization and compete with the top experts of the absolute beginning realm!

Chapter 2945 The Enchanted Ancient Cave

At that time.

The goddess clan.

A fragrant fragrance filled the air. There were beautiful women everywhere. They were all gathered together.

"Why did the clan leader suddenly summon us?" A beautiful woman with a cold expression and dark green eyes frowned and walked over slowly.

Her arrival silenced the chattering women. Their eyes were filled with fear and fear towards her.

That was because she was the young clan leader of the Goddess clan, Yue Zhexian.

To be exact, she was the previous young clan leader.

After Xia Jingyu came, the position of young clan leader changed hands.

As the clone of the Mirror Flower Emperor, one could imagine how high her status was. Naturally, she became the young clan leader of the Goddess clan.

"Speak!" Yue zhexian said unhappily, "Don't tell me that after traveling for a few hundred years, you treat me like Air?"

Ever since the position of young clan leader was taken away, Yue Zhexian had left the goddess clan in a fit of anger and traveled abroad. He had only recently returned.

He had finally appeared after hearing the clan leader's call with the bell of the clan.

Hundreds of years had passed. Yue Zhexian was even more beautiful than before, but there was an additional trace of coldness on her jade-like face.

A clansman who had once been on good terms with her said, "Zhexian, it's about the enchanted ancient cave."

She tactfully closed her eyes after she finished speaking.

Back then, when Yue Zhexian was stripped of her position as the young clan leader, she had expressed her dissatisfaction and had gone to the enchanted ancient cave together with Xia Jingyu to undergo the test of the heart of heaven. In the end, Yue Zhexian had suffered a crushing defeat and completely lost her position as the young clan leader.

Now, a hundred years had passed and Yue Zhexian had just returned. The first clan mission she faced was actually the enchanted ancient cave.

It was unknown if it was a coincidence or if Yue Zhexian had done it on purpose.

"The Enchanted Ancient Cave." Yue Zhexian's expression became rather strange.

It was as if he was in pain, but also as if he was looking forward to it.

It was obvious that Yue Zhexian had calculated that the enchanted ancient cave was about to begin and had returned.

Hearing this, the rest of the clansmen silently stepped aside, afraid that they would get close to Yue Zhexian.

This was because no one would forget that when Yue Zhexian's position as the young clan leader had fallen, he had attracted a heavenly fire and set the most important altar of the goddess Clan on fire.

Fortunately, the mighty figures of the clan had discovered it in time and extinguished the heavenly fire, which had saved the altar from disaster.

Even so, more than a hundred clansmen who were guarding the altar had been buried in a sea of fire, creating an irreversible disaster.

Among them, Xia Jingyu, who had just become the young clan leader, should have been cultivating on the altar that day. But because she was not feeling well, she was coincidentally not among them. That was how she survived.

One could imagine her original intentions!

After that, before the upper echelons of the clan could punish her, Yue Zhexian dug up the goddess clan and betrayed them.

This was a scandal that had not been passed down for a hundred years in the Goddess clan. It was claimed that Yue Zhexian was out traveling, but in reality, only her clansmen knew that Yue Zhexian was not out traveling. She had betrayed the Goddess clan.

Otherwise, if she was just out traveling, why would her clansmen be so afraid of her?

What the clansmen couldn't understand was that as a traitor, Yue Zhexian had returned to the Goddess clan a few months ago, accompanied by the higher-ups of the clan!

Could it be that the more than one hundred clansmen who had been burned to death by her had all died in vain?

Could it be that the hatred of the past had been written off just like that?

Many clansmen expressed their opposition to this.

However, the higher-ups warned the clansmen not to do anything to harm Yue Zhexian.

The clansmen were both indignant and helpless about this.

"Won't that Xia Jingyu be able to enjoy her glory again?" The corners of Yue Zhexian's mouth curled into a mocking smile.

As the young clan leader, he had to participate in the enchanted ancient cave.

Moreover, he would have the help of many clansmen and obtain unimaginable benefits from it.

The clansmen were silent, and no one agreed.

"Young clan leader, this time I will be one of your seven star emissaries."

"Me Too!"

"There's still me!"

A group of chattering voices sounded.

Looking sideways, seven young women in green robes with smiling faces were gathered in the garden around a beautiful woman in an elegant white dress.

Her appearance was extremely beautiful, blooming with a radiance that did not belong to this world.

Heaven and earth were in harmony. The Sun, Moon, stars, flowers, and trees all lost their beautiful faces because of her appearance!

She stood there. Even if she did not move or have any expression, it was enough to suppress all the beautiful things in the world.

It was as if she was born to be the center of the world, possessing an incomparable noble status.

There was only one person in the world who could do this, and that was Xia Jingyu!

Yue Zhexian's gaze had long been fixed on Xia Jingyu. Looking at that familiar and beautiful face that made her jealous, his heart ached faintly, as if he was recalling the drastic change that had left a deep impression on her.

Xia Jingyu sensed something and cast her gaze over. However, when she took a look, her beautiful brows furrowed slightly.

Ever since she came back from the last gathering, she had been in closed-door cultivation and didn't know that Yue Zhexian had returned.

"What? Are you surprised or surprised?" Yue Zhexian looked at her provocatively.

Xia Jingyu's expression was calm and emotionless. "Since you appeared here, you must have a reason for your appearance. Why are you surprised?"

In fact, she had never reported to the higher-ups that Yue Zhexian had done something even worse to him.

For example, he had tried to knock her out and send her to be abused by men in the outside world, so as to destroy her right to become the young clan leader.

Xia Jingyu had no intention of taking the young clan leader's position away from him. She was already feeling apologetic, so in a moment of weakness, she had concealed her actions.

She had not expected that her concession would not only fail to influence him, but would instead lead to an even more severe retaliation, resulting in more than a hundred clansmen being buried in a sea of fire.

Yue Zhexian's eyes flashed with a cold light. "This look of yours, without any desire or desire, is really annoying! Back then, it was because of this expression that you were able to capture the favor of the higher-ups, right?"

The clansmen could not help but get angry, and they all glared at her angrily.

The Seven Star guard even harshly reprimanded, "Yue Zhexian! Don't go too far!"

"You Beast, you still have the face to talk about what happened back then?"

"Traitor, what right do you have to criticize our young clan leader?"

Yue Zhexian's fierce words attracted the anger of the entire clan. In the blink of an eye, Yue Zhexian was drowned in her saliva.

Not only did Yue Zhexian not have any guilt or fear on her face, she even laughed coldly and calmly, "Yes, so what if I burned a hundred clansmen to death? Do you dare to touch a single hair on my head?"

The tribesmen were furious but did not dare to speak. They only stared at Yue Zhexian.

From her tone, how could there be the slightest hint of remorse?

Why should the higher-ups of the clan forgive such a person?

"You don't dare to move, right?" Yue Zhexian's eyes were filled with a deranged sneer. "Since you don't dare to move, then shut up and don't make any noise!"

How insolent was her attitude!

She turned to look at Xia Jingyu and did not hide her threat, "Young clan leader, I'm afraid you won't be as lucky as you were in the enchanted ancient cave this time!"

With that, she left with her hands behind her back.

Xia Jingyu watched her back and sighed in her heart. This time, the enchanted ancient cave would be in big trouble.

Chapter 2946 The Collective Arrival

Last time in the enchanted ancient cave, Yue Zhexian had used extreme methods and almost killed him.

It was her good luck that Yue Zhexian had prepared in a hurry and had not been able to kill him in one strike, giving him a chance to turn the tables.

This time, the other party had made a comeback. He would probably learn a lesson and would definitely not miss another opportunity.

"Young clan leader, don't worry. With us protecting you this time, we will definitely not let Yue Zhexian succeed!" A seven star guard said.

However, the female clansman who had spoken to Yue Zhexian just now shook her head slightly.

"Young clan leader, Yue Zhexian came prepared this time. You should make preparations early! Don't count on the Seven Star Guards."

Eh?

"You doubt our strength?"The seven star guard frowned.

Every seven star guard was a young top-notch expert who had been carefully selected from his clansmen.

This was because the enchanted ancient cave had a very high requirement on the cultivation age. Only those who had cultivated for less than three hundred years were qualified to enter.

Those who were slightly older than that would forever be lost inside the enchanted ancient cave and would never return.

This was not a sensational story, but it was true.

There were more than one or two great sage-level experts who did not believe in evil and barged into the cave. However, those who entered did not return and were angry.

Some said that they died in the many dangers of the enchanted ancient cave. However, there were also people who said that they were still lost inside and were always looking for a way out.

Therefore, creatures over 300 years old did not dare to enter at all.

The seven-star guards selected young powerhouses from creatures under 300 years old.

Six of them had reached the intermediate stage of the Heavenly Dao Lord. There was also one who was about to become an ancient sage-level powerhouse. He could be considered one of the strongest prodigies in the goddess clan for many years.

Xia Jingyu herself was also a genius expert with the cultivation of the intermediate stage of the Heavenly Dao master level.

Theoretically speaking, there was no need to be afraid of the other party.

"It's not that I doubt your strength, but you have no idea what Yue Zhexian went through during the hundred years that he left."After saying that, the clansman kept his mouth shut, as if he was afraid of being implicated.

She did not know what had caused her expression to change so drastically.

Seeing that she was stuttering, the seven star guard did not think much of it. "Trying to undermine one's own pride and prestige!"

Xia Jingyu fell into deep thought. She did not think that the tribesman's words were groundless.

"Jingyu, come here."Suddenly, an old voice came from the garden.

Many of the tribesmen were shocked. It was the Great Elder.

Xia Jingyu did not dare to hesitate. She immediately went to the place not far away where the great elder was in seclusion.

"Jingyu pays her respects to the Great Elder."Xia Jingyu bowed.

In the flower bush in front of her, there was an old man in a red robe who was cultivating.

Hearing this, he immediately stopped cultivating and revealed a pleasant look. "You are here."

Xia Jingyu nodded, feeling very strange.

Ever since the last border gathering, the great elder seemed to have changed into a different person.

In the past, the great elder often spoke coldly and coldly to her, always forcing her to go to a gathering with men of status and status.

However, since the last time, not only did he not make any more requests, he even rejected many young talents who came to visit him, not allowing them to harass her anymore.

The drastic change confused Xia Jingyu.

How would she know that it was Su Yu who had threatened the great elder with his status as the prince of mirrors that caused her to change her mind?

"Great Elder, what can I do for You?" Xia Jingyu asked.

The Great Elder's amiable face became much more solemn as he said, "I'm sure you already know about Yue Zhexian's return."

Xia Jingyu nodded.

The Great Elder said with a heavy expression, "Yue Zhexian is no longer the same as before. Even our goddess Clan has to be wary of him. We don't dare to offend him."

Xia Jingyu felt a chill in her heart. As expected!

A hundred years had passed. What did Yue Zhexian gain that even the goddess clan was wary of him.

"We brought him back because we had no other choice," the great elder said as if he was explaining to Xia Jingyu in case she misunderstood.

Xia Jingyu said, "I understand the dilemma of the clan."

The goddess clan was just a large aristocratic clan. They had been struggling to survive in the cracks all year round. Although they had once posed a great threat to Su Yu, in reality, they were nothing in a nine-star civilization.

Therefore, the Goddess clan had always held an attitude that they would not easily offend other factions.

For Yue Zhexian to be able to come back so openly, the goddess clan must have had a lot of helplessness.

"Sigh! It's good that you understand." The great elder sighed. "However, we will not let her go. Other than sending people to keep an eye on her movements, we will also send seven-star guards to protect you."

Xia Jingyu listened quietly. The great elder had specially summoned her. He would not just say useless words.

"In addition, we are still looking for suitable people for you to protect you in the enchanted ancient cave," the great elder said seriously.

She also did not think highly of the seven star guards, so she wanted to ask for external help.

"Of course, if you have better people, we will give priority to your request," the great elder said.

Xia Jingyu shook her head and said, "I will listen to the Great Elder's orders."

She had been in seclusion all year round, so where could she find a better person?

The great elder said, "Alright, let us know if you have any requests."

After a pause, the great elder took out an invitation card and said, "The main hall of the Heavenly Dao Palace has invited us to participate in a bathing ceremony. It will be beneficial for us to improve our soul power. I'll leave this opportunity to you. Get ready to leave soon."

Xia Jingyu took the invitation card and said gratefully, "Thank you, Great Elder."

Her soul was a little weak and indeed needed to be replenished.

Speaking of which, Su Yu.

Led the common people and rushed to the entrance of the nine-star civilization.

One could imagine how vast the scene was!

The rockmen guarding the entrance were all astonished. They had thought that it was vagrants who had wantonly intruded into the nine-star civilization.

However, after checking, they were astonished to find that they all had real disks.

Moreover, it was personally announced by the number one aristocratic family, the Heavenly Dao Palace. There was no problem with their identities.

Therefore, despite their shock, they had no choice but to let them all pass.

Due to the large number of people, they had to pass through collectively. They had spent half a month, and the entrance had been completely blocked.

When the last commoner had completely passed through, the Rockmen were all exhausted. More than half of the giant golden python in the passageway had already been damaged due to continuous work.

"Men!" The leader of the Rockmen, the black-robed man at the peak of the ancient Sage realm, shouted. "Inform me about the Heavenly Dao Palace."

"Yes!"

Speaking of which, Su Yu had finally arrived at the nine-star civilization with the rest of the living beings.

The living beings were all excited as they sensed the extremely dense dao energy and the prosperous world.

"The wilderness of the nine-star civilization is even stronger than a good spiritual land that we once had!"

"If I had been born here, why would my cultivation be as high as it is now?"

"It's not too late. As long as I speed up my cultivation, I will definitely be able to break through to the Dao Master Realm in my lifetime!"

All living beings were celebrating. They had finally witnessed the legendary nine-star civilization with their own eyes.

Su Yu looked into the distance. "Nine-star civilization, I, Su Yu, Am Here!"

Chapter 2947 Faction Rating

However, this was only the first step.

Ding had indeed come to a nine-star civilization, but it didn't even have a stronghold.

"Ding Zun, how about we establish a faction's territory here?" A ding middle-ranking official suggested.

The spiritual energy here was indeed something they had never seen in their lives, and it gave them a huge shock.

Su Yu's eyes flashed. "This place? Your requirements are too low!"

"What good place does that Ding Zun have?" The higher-ups asked again. They guessed that Su Yu might have a better spiritual land that had not been discovered yet.

However, if he knew that the entire nine star civilization had been occupied by countless ancient forces for countless years, any good spiritual land would have been occupied long ago. It was impossible for there to be anything left.

"There is a good place, but there has to be a fierce battle." Su Yu's eyes were full of battle intent.

He indeed had a good place to go, and that was the territory of the famed sword Saint tribe.

That place was built on an ancient battlefield that no one could go to. Not only were there very few creatures that could step into it and threaten the stronghold.

More importantly, since the famed sword Saint tribe had set up their tribe there, it must be because the spiritual energy there was extremely rare.

Just Imagine, a paradise that was free of life and danger, and also a rare paradise, where could the entire nine-star civilization find a second one?

Of course, the most important thing was that the famous sword Saint tribe was destroyed by the human form fire, and their tribe's vitality was greatly damaged.

It was the best time to take them down.

However, now was obviously not the time. None of the five great saints of the famous sword Saint tribe had died.

If they were to retaliate, the consequences would be unimaginable.

"Set up a camp nearby for the time being. do not cause any friction with any of the nearby factions." Su Yu said, "Wait patiently for a period of time. When the time comes, we will occupy that place."

The members of the Tripod tribe had unlimited trust in Su Yu and did not doubt him.

A group of common people immediately set up a camp nearby and settled down.

"Su Yu, what do you plan to do next?" The evil daughter looked at the nine-star civilization and was bewildered.

Su Yu took a deep breath and felt heavy. "I have a lot of things to do."

Not to mention rescuing the creatures of the absolute beginning realm taken away by the Qiong Qi, it was still a long way to get the scythe.

However, he didn't need to worry about the scythe for the time being.

It had a connection with Su Yu, and the connection between them couldn't be broken.

What was more important was the Yin Yang sect.

According to what Snow White said, the Yin Yang sect only had the right to use the Heavenly Dao Palace after completing the mission.

And to accept the mission, the lowest level of power was the aristocratic families.

"Let's go and appraise the overall strength of our cauldron first," said Su Yu.

The nine star civilization had an organization that specialized in assessing the strength of certain individuals, and that was the stone man hall.

The stone man hall was a hall that was controlled by the descendants of the stone fetus emperor, and it was involved in every city of the nine star civilization.

Its purpose was to test the strength of all the experts in the world.

As long as a certain amount of strength was tested and reached certain standards, one would receive a reward from the stone man hall. Moreover, the testing process didn't cost anything.

Therefore, many living beings of the nine-star civilization were particularly enthusiastic about this.

For a certain strength to pass the test and become a great clan, it had to pass the test of the Rockman Palace.

There were three conditions for becoming a great clan.

First, the leader of the strength had to reach the ancient sage level.

Second, there had to be at least three people who had reached the intermediate stage of the Heavenly Dao master level.

In the end, the number of power masters must be more than three thousand.

In this way, only qualified to call themselves a large family, the conditions can not be absent.

You Can't do without any of them.

Of course, not to fully meet the three conditions, can become a large family.

Because the hall of stone men allows only one noble family to be established every month.

The month of assessment of all the forces, the selection of the most outstanding, to the aristocratic family qualifications.

The tripod naturally fulfilled three conditions perfectly.

Especially the first and third conditions, which allowed it to defeat most of the aristocratic families.

Putting everything else aside, Su Yu had the power to kill a great sage with a single strike.

As for the DAO Master, there were more than 3,000 of them in the world?

Su Yu looked around and locked onto the city closest to him.

He led a group of Ding's members into the city for testing.

Such a large group of people, but entering the city had no effect.

This was because the city was too large. Thirty thousand people entering the city didn't cause any ripples.

All sorts of prosperity couldn't be compared to the eight-star civilization of the past.

Hence, Ding's members were extremely curious about everything and were extremely amazed.

When he arrived at the stone man hall, Su Yu was slightly surprised to discover that Ding was not the only faction that had come to conduct the additional assessment.

There were already two factions waiting outside the tightly shut stone man hall.

Su Yu gave a cursory glance and frowned.

The two factions had completely met the standards of aristocratic families. be it the ancient sages, the three mid-stage Heavenly Dao Masters, or the Thirty Thousand Heavenly Dao Masters, they had all far surpassed the requirements.

"There are so many experts from the nine-star civilization." Su Yu could not help but sigh.

This city had been randomly chosen, but they had actually encountered two factions that had met the conditions to compete to become the aristocratic families.

The arrival of the cauldrons naturally attracted the vigilance of the two factions.

However, when they noticed that the thirty thousand cauldrons were mostly at the first stage of the Heavenly Dao master primary stage, they heaved a sigh of relief.

Furthermore, the members of the cauldrons were filled with curiosity. Their actions of looking around caused them to look down on them.

"Where did this beggar force come from? They actually have the cheek to apply for the position of a large aristocratic family?"

"Perhaps it's some small gang that got lucky and developed."

The two parties actually had a tacit understanding to denigrate the cauldrons.

In this nine-star civilization, even the large aristocratic families were divided into different levels.

The powerful big families all had the support of a great sage behind them.

Of the two forces in front of them, one was a direct descendant of the Saint family. The big families that they had created were preparing to become independent.

The other force was one of the subordinate forces of the Saint family. With the support of the Saint family, they were preparing to apply to become a big family.

Ding appeared out of thin air. Its overall level was relatively low, and it was far inferior to their mysterious force.

"I say, where did we come from? Why do we need you guys to keep your mouths shut?" Su Yu couldn't be bothered to argue with others, but it didn't mean that the members of the cauldron would be able to take this.

"Heh!" The members of the two major factions immediately cast a threatening gaze. "Where did this wild monk come from? How dare he act so atrociously in Heavenly Boat City?"

"Perhaps you guys should ask around about our origins. I advise you to give up as soon as possible. There's no need to waste your efforts!"

They clearly wanted to exclude the cauldron and reduce the competition.

Just as they were about to quarrel, the door of the Stone Man Hall slowly opened. An expressionless stone man looked at the three groups of people outside with an indifferent and merciless gaze. "The Stone Man Hall has opened. Today, we will accept the assessment of the aristocratic families. Are you all ready?"

Chapter 2948 Fire Of The Heavenly Dao

"Of course we're ready." The two leaders' expressions turned solemn, and then they looked at Su Yu with a smile that was not a smile. "But we don't know if they're all ready."

The person who opened the stone man hall said expressionlessly, "Whether they're ready or not, what do they want you to say?"

After being humiliated, the two leaders' expressions turned awkward, and they immediately shut their mouths.

The stone man hall was not any other place. This was the sacred mountain's son of heaven, Hou Yi's land. If they caused trouble here, it was very likely that the sacred mountain's son of Heaven would hear about it.

If the Sacred Mountain's son of Heaven expressed any dissatisfaction, what awaited them would be an end-of-days execution.

That was why they immediately became obedient and did not dare to act rashly. They did not even dare to casually express their dissatisfaction for fear of provoking the stone man hall.

"Are you all ready?" The person who opened the door asked again.

Su Yu calmly said, "We are ready."

The stone man who was guarding the door nodded. "Come in."

The Stone Man Hall's door was completely opened. Under the guidance of the stone man, the three forces washed up and entered the hall.

The Stone Man Hall formed its own universe, but it was not huge. There was only a huge stone platform that could accommodate tens of thousands of people.

There was a huge stone statue on the stone platform.

From the statue, it wasn't anyone else, but the carefree emperor.

Staring at the stone statue with a gloomy expression, Su Yu's eyes slowly narrowed.

Among the ten great emperors of the sacred mountain, if one were to compare who he had the deepest enmity with, it would be the carefree emperor.

Twice, he sent his clones to kill Su Yu.

Unfortunately, Su Yu had managed to escape death's pursuit time and time again and had even destroyed both of his clones.

Up until now, his first clone had yet to recover fully.

One could imagine how deep the enmity between the two sides was.

He had been evaluated by the aristocratic families in the stone statue hall. To be honest, Su Yu was still a little worried that the test might not be smooth sailing.

"As you can see, the test is divided into three stages. The first stage is the Heavenly Dao Master Test."

"Thirty thousand people must reach the Heavenly Dao master level. We can't lack one."

The other two forces said that there was no problem. Su Yu's eyes flashed and he nodded confidently.

"Alright, let's start with Yama." The stone man said indifferently.

Yama was the subordinate force of the Saint Clan. Their strength completely met the requirements of the aristocratic families.

Under the command of the leader, the thirty thousand examinees came to the arena one after another.

"Before the test, let me say something ugly. If your strength hasn't reached the Heavenly Dao master level, you'd better step down. Otherwise, if your cultivation hasn't reached the Heavenly Dao master level, your life will be in danger."

The Nether King Leader hesitated for a moment, then gritted his teeth and said, "There's absolutely no problem."

The stone golem nodded and said, "Okay, the test begins!"

As soon as he gave the order, purple flames immediately appeared around the arena.

Seeing this object, the 30,000 nether king members on the arena who were waiting for the test couldn't help but panic, "The Heavenly Dao master's fire."

The so-called Heavenly Dao master's fire was somewhat similar to the heavenly fire that appeared when Su Yu's side broke through to the Heavenly Dao master level.

However, the power would undoubtedly be much stronger. It was impossible for the powerhouses of the Heavenly Dao Master Fei to withstand it.

It seemed that not all of them were Heavenly Dao Masters. There was still a certain percentage of them who were Fake Heavenly Dao Masters.

Yama could just give them a look and tell them to calm down.

Only then did the flustered people quietly calm down. They wouldn't be unaware of the danger in the faction's assessment. Since they dared to come, they must have made preparations.

They quickly calmed down and stood close to each other.

At this moment, the Heavenly Dao master's fire had already spread over and ignited the entire arena.

The Heavenly Dao masters immediately let out pained grunts. Even if they were Heavenly Dao Masters, enduring the Heavenly Dao fire still made them feel extremely pained.

They still felt pained, let alone those who had yet to reach the Heavenly Dao master level.

To them, this was a devastating injury.

Ah!

A person who had yet to reach the level of Heavenly Dao master was immediately set on fire, turning into a Burning Man.

This was because his cultivation level was not up to the standard, resulting in him being injured by the heavenly fire.

However, just as the other party was about to be burned to ashes, the heavenly fire was actually much weaker. It turned out that a portion of it had been absorbed by the companion next to him.

The companion next to him was the Heavenly Dao master. Absorbing a part of the heavenly fire wouldn't cause too much damage.

Moreover, there was more than one Heavenly Dao master beside the Burning Man.

His companions around him were absorbing the heavenly fire to minimize the damage he suffered.

Sure enough, with the help of his companions, the heavenly fire on this person's body was completely absorbed and he was spared from death.

There was actually more than one similar situation in the 30,000-person arena. At least thousands of people hadn't reached the Heavenly Dao master level yet. They had relied on this cheating method to achieve great success.

Hades saw this and a trace of joy appeared on his face.

As expected!

They had already completely figured out the detection of the arena. Many factions had relied on this method to become big families.

After all, 30,000 Heavenly Dao masters could not be gathered so easily.

Thus, they could only use some improper methods.

But just as Hades was happy, suddenly, a change occurred!

The Heavenly Dao fire on the arena suddenly erupted. Its power was two times stronger than before!

Many of the examinees were caught off guard and were immediately enveloped by the extremely fierce Heavenly Dao fire.

The strength of this fire was so strong that even the Real Heavenly Dao master had reached his limit. He couldn't even take care of himself, so how could he have the ability to help others endure it.

Those powerhouses who hadn't reached the Heavenly Dao master level were immediately burned into burning men.

For a moment, they screamed in pain!

The sudden eruption of the heavenly fire quickly calmed down, but it left a pile of ashes on the ground.

Four to five Thousand Fake Heavenly Dao masters were all burned into ashes.

The Nether King stood rooted to the ground, his mind blank.

How could this be?

Didn't they verify countless times that the stone man hall could indeed use this method to cheat?

Why did the heavenly fire suddenly erupt?

At this moment, the stone man said expressionlessly, "I forgot to tell you that the heavenly fire in the arena has already changed."

Looking at the dazed Pluto, the stone man announced, "Pluto failed the test. He didn't meet the requirements of the aristocratic families."

Seeing this scene with their own eyes, everyone felt uneasy.

The most uneasy was the cauldron.

How could they not know how strong the cauldron was?

How could 30,000 Heavenly Dao masters appear?

Not to mention 30,000, there weren't even 30!

This was the current situation of the cauldron. There weren't enough Heavenly Dao Masters.

Even the evil daughter couldn't help but sweat for Su Yu. Others couldn't cheat even if they were only a few thousand Heavenly Dao masters away, let alone them?

However, Su Yu still appeared as calm as ever. He said, "When the time comes, we'll take it as it comes. I have my own methods. All of you, calm down."

The tripod members forced themselves to calm down and observe the situation.

At this moment, the stone golem asked again, "Which faction is being tested first?"

Chapter 2949 Was A Piece Of Cake

Upon hearing this, the arrogant and despotic faction immediately had a guilty look in their eyes.

Pluto lacked a sufficient number of heavenly dao masters, and so did he?

It was just that it wasn't as serious as Pluto's lack of five thousand.

Gritting his teeth, the leader of the other faction said, "Then let me, Ling Yun, do it!"

He was a direct descendant of the saint clan, so he naturally had more capital than the former.

Ling Yun's members were panicking. About a thousand of them appeared very cautious and uneasy.

Pluto's nearly five thousand members were reduced to ashes just like that. How would they dare to go up?

"With me, Qing Mu, around, what are you afraid of?" Qing mu shouted in a deep voice.

Helpless, Ling Yun's members could only brace themselves and walk forward. All thirty thousand of them stood on the stage.

The stone man said expressionlessly, "I'll repeat it again. The first round of testing is extremely dangerous. Any casualties will be borne by you."

Qing mu nodded deeply. "Ling Yun understands. Please!"

The stone man nodded coldly. Then, he activated the mechanism of the stage. Instantly, tiny flames of the Heavenly Dao master spread out from all sides of the stage.

The 30,000 members took a deep breath. Unlike Pluto, who was close to each other, Ling Yun's members were all spread out as if they hadn't cheated at all.

At this moment, the heavenly fire finally spread over and enveloped everyone at an extremely fast speed.

About a thousand of them were immediately set on fire and turned into burning people.

However, the strange thing was that they didn't feel any pain. Instead, they acted as if nothing had happened.

The heavenly fire in their bodies also absorbed into their bodies after burning for a while.

On the other hand, the other 29,000 or so people had a pained expression on their faces. One could faintly see that their bodies were suffused with a red color.

Upon closer inspection, one could see that their bodies had many wooden veins, as if each of them was a tree stump.

As it turned out, this was the innate divine skill of the sacred clan where Qingmu was from. It could turn all objects and even living beings in the vicinity into wood, and form a whole with qi and branches.

Thirty thousand people were like an ancient tree with thirty thousand roots.

If one thousand of them were affected by the heaven fire, they could immediately disperse it to the other twenty-nine thousand people.

This way, the power of the heaven fire could be dispersed to the greatest extent.

This method was undoubtedly many times stronger than the method of Yama and the other three sharing the heaven fire of one person.

Soon, the heaven fire in the bodies of the twenty-nine thousand people gradually extinguished. Other than causing slight pain, there was no damage.

However, what followed was the violent eruption of the Heavenly Dao master's flames.

The 1,000 people were once again burned by the heavenly flames that were several times more terrifying.

Before they were injured, the heavenly flames were quickly shared by the others. It was obvious that weak flames were seeping out from the pores of the remaining people.

Their expressions were rather pained, but it was not the time when they could not bear it.

Finally, even though the heavenly fire erupted rapidly, it left very quickly.

In the blink of an eye, all of the Heavenly Dao master's flames disappeared.

Out of the thirty thousand people, not a single one was injured.

Qing mu clenched his fists in excitement. Success!

He suppressed his excitement and looked at the Rockman. The latter announced expressionlessly, "Ling Yun's first round of testing has been successful."

Even though he could tell that Ling Yun had used cheating methods, the testing rules didn't prohibit such cheating methods.

Furthermore, Qing Mu was the direct descendant of a large-scale saint clan nearby. He could only turn a blind eye to the wallpaper and pretend that he didn't see it.

"That's Great!" Qing Mu was extremely excited and couldn't help but laugh. "This month's aristocratic family is undoubtedly me, Ling Yun!"

As he spoke, he looked at Pluto who was beside him. Pluto's expression was gloomy and he was already in a depressed mood.

When he looked at Pluto, he felt even more embarrassed and embarrassed.

However, when he looked at Su Yu and the others beside him, he felt much better.

No matter what, Pluto was not someone who was at the bottom. He was not ugly.

What would be ugly later would be this motley crew that appeared out of nowhere.

Judging from their composition, there were not many Heavenly Dao Masters. How would they have the courage to come and carry out the test of the aristocratic families?

Who gave them the courage!

Qing muyi cast a confident look. He now felt that it was a waste of time to conduct the examination for Su Yu's people. There was no need at all.

It was obvious that there were not many people who had the qualifications to be Heavenly Dao Masters.

However, he did not dare to speak recklessly in the stone man hall. He could only calmly stand below the stage and wait for the second round of the examination to begin.

"Are you all ready?" The stone man looked at Su Yu and the others. He also felt that it was strange.

In the past, it was not that there were people who did not know what was good for them to come to the test and try to muddle through the test.

However, after witnessing the cruelty of the test, many people wisely withdrew. On the other hand, Su Yu was actually still so calm and collected, insisting on the test.

"Go up." Su Yu waved his hand. An invisible trajectory was revealed and merged into the body of the thirty thousand Ding members.

They stepped forward nervously. If they didn't have absolute trust in Su Yu, they wouldn't dare to come up even if they were beaten to death.

The outcome of the five thousand members of Yama being killed in an instant had dealt a heavy blow to their hearts.

The group of people stood aside, feeling uneasy.

"Begin." The stone man sighed and looked at them as he said silently.

Yama only lacked five thousand people and he had already ended up in such a miserable state, let alone this motley crew?

In a while, there wouldn't be a single person left on the stage. They would all be reduced to pathetic ashes.

Qing Mu and Hades looked on calmly, as if they had already seen the miserable end of the 30,000 burning men's painful cries.

Zi Zi --

A thick Heavenly Dao flame immediately appeared around the stage. It was so far away that even the tripod members on the stage could feel the intense burning pain on their skin.

As the heavenly flame got closer, the burning pain became stronger and stronger.

Finally, the heavenly flame engulfed everyone with the power to swallow the sky.

But strangely, none of them felt any pain. The heavenly flame was clearly burning on their bodies, but no one felt any pain.

Even the burning pain they felt before slowly disappeared, replaced by traces of warmth.

This scene was inconceivable to even the Rockman, let alone Qing Mu and Yama King.

With his realm, how could he not see that there was no Heavenly Dao master among them.

But how did they withstand the Heavenly Dao master's Flames?

It was simply inconceivable!

Upon closer inspection, the Rockman finally discovered that there was a faint trace of flickering on their bodies. When the Heavenly Dao master's flames approached, they were invisibly repelled, unable to harm them.

"This is?" The Rockman was somewhat uncertain.

Soon, the second wave of even more violent heavenly fire suddenly erupted.

It was this heavenly fire that instantly buried the five thousand members of Yama.

The sky-high fire enveloped them all.

But what shocked them was that they saw a clear scar above the heads of the thirty thousand people, absorbing all of the falling heavenly fire, not leaving a single trace.

"This... could this be?" The stone man seemed to recognize something, but because of this, he felt even more incredulous.

Chapter 2950 Time Incarnation

If I'm not mistaken, this was the ancestral technique of the star race, the Saint clan that had been destroyed by the son of Heaven of the sacred mountain due to the rebellion of the eight-star civilization a generation ago.

The ancestral technique of the star race had the ability to shift the attacks of the enemy to other places.

The more advanced the ancestral technique was, the stronger the ability to shift it.

Normally speaking, stellar race members who had cultivated it to the depths could shift the attack of a peak Earth Dao master away.

Only stellar race members who had cultivated it to the transformation state could shift the attack of a Heaven Dao master away.

However, the situation before them was that Su Yu did not shift the attack of a Heaven Dao master away in an instant, but more than 30,000.

How profound must one cultivate to be able to do this.

He remembered that only a few elders of the Star clan were able to do this.

"You are a member of the Star Clan?" The stone man's gaze sharpened, but he didn't attack.

An entire era had passed. After the Star clan was destroyed, the carefree emperor had personally said that this matter was already over.

He didn't need to blame his descendants for what happened an era ago.

Moreover, it was still uncertain whether Su Yu was the successor of the star race.

"No," Su Yu replied calmly and asked again, "Did we pass the first round of testing?"

The stone man looked at Su Yu deeply and said, "Yes!"

"Sir!" Yama immediately went forward and said indignantly, "Sir, this is too ridiculous!"

Anyone with discerning eyes could see that there weren't even a few heavenly dao masters in Su Yu's faction. Such a faction actually passed the first round of testing. What kind of joke was this?

"I strongly suggest that they be disqualified from the test," the nether king said through gritted teeth. Why?

If the cauldron could pass the test, then what were his dead brothers?

The stone man was expressionless and said coldly, "Who gave you the courage to question my judgment?"

Hearing this, the nether king suddenly became alert. He lowered his head and said weakly, "But they cheated."

The stone man snorted coldly, "Don't tell me you didn't cheat? If you're not as good as them, don't blame them! Scram, I won't accept your Pluto's test within a hundred years!"

Pluto's heart trembled and his face turned pale.

If they didn't accept it within a hundred years, wouldn't that mean that they had lost all hope?

He still planned to regroup within ten years and find enough Heavenly Dao Masters.

But now, all of them were gone.

"Human, just you wait!" Yama glared at Su Yu with hatred in his eyes.

Su Yu looked baffled and said, "What does it have to do with me?"

For No Reason, he was jealous of him.

Su Yu had never provoked him. Instead, it was the other party who often provoked him, and Su Yu had always kept it in check.

But in the end, he did not have the ability, causing heavy casualties and failure. He actually blamed it on Su Yu.

"HMPH! You continue to be stubborn!" The nether king vented his anger.

Su Yu's gaze turned cold, and he said, "Then wait outside well!"

He was really looking for the King of Hell in the middle of the night!

Heh!

The Nether King opened his eyes wide, his killing intent bursting out. A motley crew still dared to provoke him?

It seemed like the first group test had failed. The Nether King was really looked down upon!

"Fine! Then you better pray that you didn't die in the Rockman Hall. Otherwise, I will make your life a living hell!" The nether king flung his sleeves and left angrily.

Su Yu retracted his gaze, and his gaze became cold and clear.

If Ding really became a large aristocratic family, it wouldn't be a bad thing to destroy a faction to establish its power when it was first established.

When all of Yama's forces left, the stone man hall finally became quiet.

The stone man looked at the remaining two forces and said, "The second round of testing will be for those who have reached the mid-stage of the Heavenly Dao master. Make sure there are at least three of them."

Qing Mu's expression flickered and he revealed a trace of guilt.

The mid-stage of the Heavenly Dao master wasn't that easy to achieve.

Ten million early-stage Heavenly Dao masters might not even be able to produce a mid-stage existence.

Ling Yun was barely able to gather 30,000 early-stage Heavenly Dao Masters, let alone three intermediate-stage Heavenly Dao Masters?

Fortunately, he had relied on his family's connections to get three Heavenly Dao masters from his family. It should be possible.

"The monitoring process is more dangerous than the first round. You'd better consider it carefully," the stone man said expressionlessly.

Qing mu started to hesitate.

After the first round of testing, it was obvious that the monitoring process had increased by several times.

If they weren't careful, even a mid-stage Heavenly Dao master might die.

However, considering that they were powerhouses from their families, there was no problem.

"Ling Yun is indomitable."

The Rockman nodded and looked at Su Yu. The latter said quietly, "We are also fine. However, I still have two companions on the way. I need to go and welcome them."

The stone golem frowned and said, "After Ling Yun's test, I'll only wait for you for an hour at most."

"That's enough," Su Yu said.

He immediately waved his hand and let the evil daughter follow him out.

When they arrived outside the stone golem palace, the evil daughter finally revealed her anxious expression. "Where are we going to become three Intermediate Heavenly Dao Masters!"

She, who was the strongest, had barely reached the threshold of Intermediate Heavenly Dao master.

However, she could only be counted as one person.

As the leader of the cauldron, Su Yu had to participate in the final round of the test, so he couldn't participate in the second round at all.

"Come here." Su Yu brought her to a small alley at the side.

In the Dark Alley, one couldn't even see one's fingers.

"Protect me," Su Yu said.

The evil daughter nodded and immediately used her divine art. She gathered a dark power in the entire alley, blocking off all outside detection.

Then, Su Yu formed a seal with both hands, and a powerful time domain was released with him at the center.

Two space-time gates appeared at the same time, and Su Yu walked out from each of them.

Both Su Yu's male bodies were Su Yu's. One of them was younger than Su Yu, and the other was slightly more mature.

"I thought I had forgotten about us," the two Su Yu said in unison.

They were Su Yu's future and past incarnations.

Su Yu's true self didn't say a word. He threw a black robe to each of them and said, "Don't reveal your true appearance."

The two of them and Su Yu's true self had the same thought. They naturally understood what Su Yu wanted to do and immediately put it on.

The future incarnation smiled slightly. "Venerable self, this kind of cheating method is not a wise move."

Su Yu's venerable self naturally understood what he was thinking and said, "It's a temporary measure. Don't worry, I know what I'm doing."

The future incarnation meant that it was not a wise move to use cheating to give Ding a status that was not compatible with his identity.

If that was the case, Ding would definitely have to participate in the competition with the aristocratic families.

Once Su Yu was not around, Ding would definitely suffer a devastating blow and would be easily destroyed.

The past incarnation said indifferently, "Let's cut the crap. Let's get the qualifications to be a big aristocratic family first! Looking at my female body, I'm really uncomfortable."
