

Nine-Dragon 2951

Chapter 2951 The Situation Was Not Good

The veins on Su Yu's original body's forehead bulged. He was going to bring it up!

He rolled his eyes at his incarnation and finally looked at the evil girl. After thinking for a while, he raised his hand and waved. Several remnant marks appeared above his head and circled.

"What is this?" The evil girl asked in surprise.

Su Yu said, "The three remnant marks of the saint clan's ancestral technique are the auxiliary, defensive, and offensive scratches."

The evil girl hesitated and said, "Since my strength is at the middle stage of the Great Dao Heavenly Dao master, I don't need it. Moreover, the three remnants will easily expose something and cause unnecessary trouble."

How could Su Yu not have thought of this?

"If you are injured, I will feel bad." Su Yu sighed. After the evil girl came to the nine star civilization, she had no intention of following Su Yu.

How could Su Yu have the nerve to let the evil daughter take risks for her?

"It's just a normal test, there should be no problem." The evil daughter's heart was moved, and she had a strange feeling, as if there was a sweet taste in her heart.

Su Yu's expression became serious, and he shook his head slightly. "No! From the many changes that happened in the first round of tests, I can infer that there will definitely be changes in the second round."

"It might be life-threatening for you!" Su Yu was worried. "It's better to be safe."

He still didn't know what the second round of testing would be like.

He had to be more cautious.

As for his two incarnations, he didn't have to worry at all. Su Yu himself didn't know how strong he was?

After getting ready, the four of them returned to the stone man hall.

Coincidentally, Ling Yun's three examiners had already stepped onto the stage.

The three of them were like wooden stakes, standing there motionlessly. Their eyes were tightly shut, and their heads were covered in sweat.

What was even scarier was that there were traces of unknown wounds on their bodies.

They didn't attack anyone, but their bodies were starting to get injured.

Su Yu's pupils constricted slightly. He knew that the second round of testing wouldn't be easy.

Ah --

Suddenly, a miserable groan sounded. One of them suddenly opened his eyes. His eyes were filled with fear and pain. His entire body was dripping with blood. In particular, there was a huge bloody hole in his chest.

In theory, he should have died. What was strange was that when he was awake, the wound on his chest that should have been fatal actually recovered a lot, leaving half of his life.

The other two persisted until a ding sound came from the arena.

Only then did the two of them wake up from their dreams. However, their expressions were exceptionally nervous, as if they were in a life and death battle just now.

Qing Mu was a little stunned.

Unexpected, everything was unexpected!

In the previous second round of testing, they had only judged the tester's overall cultivation level by attacking some puppets.

However, the second round of testing, which had been improved, was actually done in a dream.

Moreover, the injuries suffered in the dream could be returned to the original body.

The stone man folded his hands in his sleeves and said expressionlessly, "One person was eliminated. There are less than three mid-stage Heavenly Dao master experts. The test has failed."

Qing Mu was shocked and explained, "Sir, my person's cultivation level has indeed reached mid-stage Heavenly Dao master. Such a test is unfair!"

The stone man said indifferently, "Whether or not he has reached it depends not on his cultivation, but on his overall strength."

It was as if he had seen through Qing Mu, and his gaze became much sharper. "There are some special methods that can temporarily raise a man's cultivation to the intermediate stage of the Heavenly Dao master, but his strength may not be able to keep up."

The intermediate stage of the Heavenly Dao master not only required one's cultivation to keep up, but also all kinds of domains and divine arts.

The intermediate stage of the Heavenly Dao master, who could be relied on to cheat and forcefully raise his cultivation, did not have such an ability.

Hearing this, Qing mu guiltily avoided looking at him.

That person who was eliminated had really relied on a special method to barely reach the intermediate stage of the Heavenly Dao Master.

If it was in the past, he would definitely have been able to pass easily. However, it did not work now.

After testing them, the stone golem looked at Su Yu and asked, "Are your people ready?"

Su Yu gave the three of them a look and they went up to the stage silently.

"Wait, why are there two of your men not allowed to show their true faces?" Qing mu asked.

Su Yu asked, "Are there rules that don't allow them to hide their true faces?"

What a joke. weren't there two members from the Saint clan among the three of them who were testing Ling Yun just now?

Why did he feel that something was wrong when it came to other people?

"No! But due to your previous record of cheating, I personally feel that it's better to show your true face to others," Qing mu said coldly.

Su Yu chuckled. "Why do you care? Stand aside!"

"You..." Qing Mu's eyes flashed with hostility, but he didn't continue because the Rockman gave him an indifferent look. "Shut up."

He looked at Su Yu again, but did not mention the matter of the two black robes. He only announced the rules. "The second round of testing is life-threatening. You have to consider it carefully."

"If you receive a simple fatal attack during the test, after waking up from the dream, the damage will be reduced by half. However, if your soul is destroyed in the dream, or your body is destroyed, and you can not wake up, then there is no hope."

The loser just now had his heart destroyed in the dream, but he woke up in time, so his life was not in danger.

The evil girl said calmly, "Let's begin!"

The three of them stood side by side on the stage and slowly closed their eyes.

Their eyes fell into darkness and then lit up again. However, the evil girl understood that it was not her opening her eyes, but that she had quickly entered a dream.

When she opened her eyes again, the vile daughter realized that there was a person standing in front of her who had the same appearance as her.

No, to be exact, even their souls were exactly the same!

It was just that their temperaments were different.

The other party's temperament was more graceful and luxurious, more indifferent and ruthless, as if she was an existence that ruled over the heavens.

She stood there, quietly looking at the vile daughter, and said mercilessly, "In front of me, is there the right to have a vessel appear?"

Her identity was self-evident -- the Prince of Mirrors!

However, this was not the real prince of mirrors, but a manifestation of the evil girl's subconscious.

What a person was most afraid of, would appear in the dream.

Although she had never told anyone, the person she was most afraid of was undoubtedly the Prince of mirrors, who had used her as a vessel.

The evil girl's pupils constricted, and a rarely seen expression of fear appeared on her face. Her body could not help but tremble.

If it had been before, perhaps she would have been afraid forever.

But now, when she thought of Su Yu's figure in her mind, she somehow calmed down and felt that it did not matter even if she died at this moment.

If she died for Su Yu, there was nothing to fear in death!

Her gaze instantly became sharp. She pulled out the evil sword and said, "It's just a product of a Dream!"

With a sweep of the evil sword, the power of the Heavenly Dao master intermediate stage erupted.

The illusionary prince actually smiled faintly before disappearing.

Following which, the eyes of the evil woman turned black, and her consciousness returned.

She opened her eyes in confusion, and her face was filled with astonishment. She had passed just like that?

It had only been one or two breaths, right?

However, when she opened her eyes, she realized that her entire body was drenched in sweat. Moreover, the time in the outside world had passed by at least ten minutes.

"To actually be able to wake up from a dream on your own, not bad." The Rockman gave a rare praise.

The other examinees were all waiting for the time to be up before forcefully bringing them out of the dream.

Su Yu also did not expect that the first to succeed would actually be the weakest evil daughter and not his two incarnations.

To be more precise, his two incarnations were in a very bad situation!

Chapter 2952 In One Go

The expressions of the two incarnations were exceptionally strange.

Their bodies were covered in savage injuries and fresh blood was flowing out. It was obvious that they had suffered very serious injuries in their dreams.

However, there was actually not much fear on their faces. There was only complicated emotions.

Thirty percent pain, thirty percent shame, thirty percent grief.

It was as if they were experiencing an extremely painful torment.

"Su Yu, what happened to them?" After the vile daughter left the stage, she actually realized that she had succeeded one step ahead of Su Yu's two incarnations. Naturally, she was extremely shocked.

There were probably not many people who knew better than her how powerful Su Yu's two incarnations were.

Moreover, the expressions of those two incarnations were too strange.

Hearing this, Su Yu closed her eyes slightly. A trace of bitterness spread in her mouth. "Wait patiently. I believe in myself."

There was no one who understood him better than himself.

Su Yu could imagine what the two incarnations would encounter in their dreams.

In his life, there was only one person who could make him feel pain, shame, and sorrow.

And that was Qin Xian 'er.

He had let down the woman who felt the deepest regret.

As expected.

The same scene appeared in both incarnations'Dreams.

In the dream, a woman holding a long blade with tears streaming down her face was waving her tears at Qin Xian 'Er. "Why did you let me down? Why?"

Su Yu's incarnation stood where he was and didn't move at all, allowing her to hurt him.

However, his eyes were looking at Qin Xian 'er without blinking with an extremely complicated expression.

Poof!

A sword pierced through Su Yu's chest.

Su Yu didn't even frown, but the sorrow in his eyes deepened.

"Brother Yu, I treated you sincerely. Why did you betray me?"Qin Xian 'er drew her sword and blood splattered everywhere.

The Tears on her face were still there. "You still love Xia Jingyu, right?"

"So many years have passed, and you still haven't forgotten her! But I'm your wife. Do you even care about me?"

Looking at her tearful accusation, Su Yu didn't say a word!

"Also, why didn't you save me? Why did you let me die tragically at the hands of ancient God Nine Dragons? Why?"

She clutched her heart and cried, "My heart hurts, it really hurts!"

At this point, Qin Xian 'Er's face was filled with killing intent as she stabbed her sword again. This time, she aimed at Xia Qingchen's heart and said, "If you feel guilty and feel sorry for me, then use your own life to make amends."

Her sword was like a rainbow as it immediately stabbed toward Su Yu's heart.

If nothing unexpected happened, Su Yu still would not block it, just like the previous dozen or so strikes.

However, this time, when the tip of the sword reached Su Yu's chest, Su Yu finally moved.

He raised his finger and lightly blocked it, blocking the sharp tip of the sword.

Qin Xian 'er suddenly raised her head and said, "Why do you want to Dodge? What right do you have to Dodge?"

The complicated expression on Su Yu's face gradually disappeared.

There was no more pain, no more shame, only sadness.

"The real Xian 'er will not hurt me," Su Yu said hoarsely.

In Xian 'ER's life, he was the only one who put everything he had first. How could she hurt him, and how could she kill him?

When he first saw Xian 'er in his dream, Su Yu had already regained his senses and knew who the person in front of him was.

However, she wanted to see Qin Xian 'er again and listen to her voice. That was all.

"How do you know? You have done so many things that have wronged her. Don't you feel that you deserve to die?" Qin Xian 'er retreated as her eyes and voice became unfamiliar.

Su Yu moved his body and said, "So, this is the reason why I did not destroy you."

He knew that Qin Xian 'er would not hold a grudge against him for the past Xia Jingyu. He also knew that Qin Xian 'er would never resent him for not saving her before she died.

Even in the most painful years, she still hoped that Su Yu could get better, not resent him.

However, Su Yu blamed himself. The more Qin Xian 'er acted like this, the more guilty Su Yu felt.

That was why he quietly listened to the fake Qin Xian 'er vent her resentment.

Now, he had finished listening.

"So What? Can You Bear to destroy me?" Qin Xian 'er seemed to have seen through Su Yu.

Not only was she not afraid, she raised her neck instead. "Come on! Try to kill me. Anyway, you have let me down all your life. There will definitely be no psychological burden for you to kill me!"

Su Yu took a step forward and said indifferently, "I am very grateful to you for letting me see Qin Xian 'er again and hear her voice again. However, that doesn't mean that you can insult Xian 'er wantonly!"

The tip of his feet generated wind, and a trace of powerful force from the middle stage of the Heavenly Dao master flew toward her face.

Qin Xian 'er's face gradually became calm. She didn't resist and only said casually, "You passed the test."

Then, she was destroyed and turned into dust in the strong wind.

The two incarnations woke up almost at the same time, and the injuries on their bodies were healed.

However, there were still traces of frustration in their eyes.

The future incarnations walked down and said, "My main body, don't let Xian 'er wait for too long. You owe her too much."

Su Yu nodded silently. How could he not understand that he owed Xian 'er?

He raised his head and looked at the stone man. "How is it? Are We considered to have passed?"

The stone man looked at the evil daughter and the two incarnations meaningfully.

He understood very well that the danger of the second round of the test was not only testing strength, but also temperament. Once one's temperament was not reached, it was very likely that they would die in it. Ever since then..., it was estimated that no faction would be able to successfully pass the second round.

He did not expect that this seemingly ordinary cauldron would actually pass the test. It was truly unexpected.

He nodded slightly and said, "The second round of testing was successful."

Qing Mu, who was at the side, said in disbelief, "What kind of cheating method did you guys use?"

He really could not accept that a faction that did not even have many Heavenly Dao masters could actually successfully pass the test!

Su Yu looked at him indifferently and said, "The third round of the test is coming up. Those who aren't involved should step down so as not to affect my performance!"

Qing mu gritted his teeth and was about to berate him when the stone golem said indifferently, "You guys have already failed the second round of the test. If you don't take the initiative to leave, don't tell me you're waiting for me to personally invite you guys out?"

Since he had personally spoken, Qing mu could only lower his voice and cupped his fists. "Yes, Ling Yun Will Leave Now!"

If this continued, he would end up like Yama. He wouldn't be qualified to participate in the test for more than a hundred years!

However, before he left, he glared at Su Yu like Yama. He didn't want to admit defeat. Even though he didn't blame Su Yu for his failure, he didn't mean well.

In the end, only ding was left.

The Rockman stared at Su Yu. To be honest, he didn't expect this weakest force to be able to make it to the final round.

On the contrary, Ling Yun, who he had the highest hopes for, was defeated in the second round.

"Alright, the third round is to test the leader's strength. He must reach the ancient sage level. Are You Ready?"The stone man's expression was much more serious.

Su Yu looked at the carefree son of Heaven Stone statue on the stage. This stone statue had never been of any use.

It was the danger that Su Yu was most worried about.

Chapter 2953 Malicious Intent

As if noticing Su Yu's gaze, the stone man said, "As you can see, that is the stone statue of the carefree emperor. Among the ten emperors, he represents destruction."

Indeed, among the ten emperors of the sacred mountain, only the carefree emperor was always active in heaven and earth, leading to the destruction of all the civilizations in the absolute beginning realm.

On the other hand, the other nine sons of Heaven had never set foot in the human world.

It was not an exaggeration to say that the carefree son of heaven represented destruction.

"The third round of testing will be the carefree son of Heaven's stone statue. You will fight with it. You can imagine the danger during that time," said the stone man.

"It's still not too late to withdraw now. Once the testing begins, I won't be able to stop it."

Hearing this, Su Yu's expression was indifferent.

"There's no need. Let's begin." He and Carefree Emperor's clone had fought many times before, let alone a mere stone statue?

The stone man was silent for a moment before he frowned slightly. "Think it through!"

Su Yu glanced at him and said meaningfully, "You're very long-winded!"

His intuition told Su Yu that there was something wrong with this stone man.

Wasn't the previous Test Dangerous? Did he remind him again and again?

No!

Judging from the cruelty of the test, the Stone Man Hall did not take the life of the tester seriously at all.

But now, they were very curious and concerned about the safety of the tester. They reminded him again and again, trying to persuade Su Yu to leave.

Who would believe that there was no problem?

"You don't know what's good for you!" The stone man snorted, waved his sleeve and said, "Since you want to die, then go!"

The stone man pressed his palm on the arena and left a palm print on it.

A strange scene appeared. It was believed that traces of blood were seeping out of it!

Moreover, the blood spread to the entire arena at a rapid speed, turning the arena into a sea of blood!

Meanwhile, the stone statue of carefree son of heaven, which had been motionless in the center of the arena, finally moved!

It automatically drew blood and gathered all the blood on its body, turning it into a layer of blood clothes.

The stone statue's face was already gloomy. After being covered in a layer of blood clothes, it looked even more gloomy, like a monster that could devour humans.

Crack!

Suddenly, several cracks appeared on the stone statue's face, and the stone skin on its eyes suddenly peeled off. Its two dark red eyes were constantly rotating.

Then, the stone skin on its mouth, nose, and ears all shattered, revealing a dark golden skin.

"Do you have the awareness of certain death to challenge my venerable one?" The carefree son of Heaven Stone statue asked indifferently.

Su Yu slowly stepped onto the arena and said indifferently, "A stone statue doesn't deserve to be so arrogant!"

The carefree son of heaven stone statue turned around and looked at Su Yu with confusion in its dark red eyes.

"It feels like we've met before," the carefree son of heaven stone statue said slowly.

Even though Su Yu had a special black robe that covered his body, it still couldn't block the perception of the stone statue.

Su Yu clenched his five fingers. With a thought, he pulled out a heaven-defying sword. Its power was less than one-ten-thousandth of the real sword.

He said calmly, "It has indeed been a while."

To be precise, he had seen the clone of the son of Heaven in the famous sword Saint Clan, but it didn't find Su Yu.

When he said this, the stone man could not help but be shocked, and he stared at Su Yu in astonishment.

This human had actually met the carefree emperor before?

The carefree emperor's stone statue and the carefree emperor's original body had a weak connection, and they were connected.

Since the stone statue said that they had met before, it must have been the original body's feeling.

However, the stone man could not figure out how the lofty carefree emperor had interacted with this low-level dust that needed to build a small aristocratic family?

There should not be any connection between the two.

"Then, do you have the awareness to challenge the ultimate?" The dark red eyes of the carefree emperor's stone statue turned to look at Su Yu.

Su Yu held the heaven-defying sword that had materialized with a single thought and slashed at the stone statue without saying a word.

Although the might of this sword was not as powerful as the real heaven-defying sword, it was not something that an ancient sage expert could withstand.

If nothing went wrong, the nearly materialized sword Qi was sufficient to destroy an ancient sage stone statue.

At the very least, it should have been severely injured.

However, the Carefree Heaven's son stone statue revealed a mocking expression as it stood motionlessly on the spot, allowing the sword Qi to strike its body.

However, with a ding, the sword qi seemed to have struck an incomparably hard piece of metal, but it was completely blocked!

Even the stone clothes on the surface of the stone statue were not destroyed.

The people below the stage could tell that something was wrong.

The evil woman narrowed her eyes and said in a serious voice, "What's going on? Shouldn't the overall strength of the stone statue be about the same as that of an ancient sage?"

However, Su Yu's sword just now was almost at the peak of the ancient sage level, yet he could not hurt him at all.

Was this a joke?

As a judge, the stone man showed an expression that he had tried to persuade Su Yu before. He said indifferently, "Who said that the strength of the carefree son of heaven stone statue must be at the ancient Sage Realm?"

"Its purpose is to test the strength of the examiners."

The evil woman asked, "This is too unfair. What if the carefree son of heaven stone statue attacks too heavily?"

It was obvious that the carefree son of Heaven Stone statue had its own intelligence.

It was entirely up to the stone statue to decide the severity of its attacks. Even the strongest ancient sage would not be able to pass the test.

If the stone statue were to make a slight move, even if it was weaker than an ancient sage, it would still be able to pass the test.

Wasn't this test a little too unfair.

Furthermore, it could be imagined that this was something that had only happened recently.

It was truly a mystery as to what the stonemason hall was up to. Why did they have to make the test so difficult and unpredictable? It was as if they were sincerely unwilling to allow anyone to pass the test.

The stone man smiled and shrugged. "If you think it's unfair, you can choose not to participate and give up."

The Evil Woman clenched her fists, feeling humiliated.

In the arena, Su Yu was expressionless and did not show any emotion.

Even his clone was destroyed by him, let alone a mere stone statue?

He looked at the stone statue with pity and said, "I really shouldn't have met you."

As he spoke, he waved his finger, and a trace of a trajectory immediately appeared and quickly struck the body of the stone statue.

Crack!

The indestructible stone statue and the stone clothes on its surface were finally shattered under the effects of the ancestral spell.

However!

The only thing that was shattered was the stone skin on his body.

A golden stone statue appeared before his eyes. The skin on its body was neat and did not have any injuries.

There were only traces left behind, indicating that the previous attack had caused quite a bit of damage.

As expected, the stone statue's dark red eyes were no longer indifferent. There was only ferocity and killing intent. "You can die now!"

The stone statue raised its foot and stomped hard on the ground. In the end, the entire stage collapsed in an instant.

The stone statue jumped into the air and turned into a ray of red light, pressing down on Su Yu from above.

While he was still in the air, Su Yu felt as if Mount Tai was pressing down on him. It was as if his entire body was about to shatter.

The stone statue had used the power of a great sage to suppress Su Yu with absolute power.

Su Yu's eyes were cold. What kind of test was this?

Chapter 2954 Capital Offense

"Since you don't follow the rules, then don't blame me." Su Yu's gaze was cold.

The Rockman judge below the stage laughed coldly.

"What else can you do in the Rockman Hall?" The Rockman didn't think much of it.

No matter how unhappy Su Yu was, he had to pinch his nose and admit defeat!

Su Yu didn't even look at him, much less the carefree son of heaven stone statue above his head.

He clenched his palm and the real heaven-severing sword flew out from his spatial storage item.

At this moment, the stone statue of the carefree emperor was already pressing down with immense force. Its gaze was extremely sharp. "Human, go to hell!"

Its Grand Sage's pressure was completely released!

Su Yu was expressionless. He gently held the hilt of the sword and slowly pulled out the heaven-severing sword!

The body of the heaven-severing sword was trembling in resistance. It was stronger than ever because the carefree emperor, whom it was most willing to admit, was right in front of it!

Fortunately, there were two grand sages left in the heaven-severing sword. With their help, Su Yu was able to barely stabilize the heaven-severing sword.

"It's you who should die!"

Clang!

The heaven-severing sword was unsheathed. Instantly, the heaven and earth darkened and the sun and moon lost their light.

The surrounding area could all feel the restlessness of the atmosphere, especially the Dao Qi, which was gathering towards the place where the heaven-severing sword had appeared at an astonishing speed.

Because the Condensed Dao Qi was too dense, it caused the dao Qi to rub against each other, creating many sparks!

And countless sparks gathered together to form a curtain of fire that blotted out the sky and the Sun, covering the world and illuminating the land in a bright red.

Many commoners raised their heads to look, thinking that the heavens had been ignited, causing them to worship and be filled with reverence.

If the outside world was like this, then what about the Stone Man Hall?

Once the Absolute Heaven Sword appeared, the entire stone man hall, with Su Yu as the center, was set ablaze, forcing the stone men, the vile woman, and the others to have no choice but to leave the stone man hall.

The raging flames blocked their line of sight, as well as their probing souls, making it impossible for them to observe the details inside.

They could only see the carefree son of heaven stone statue smashing down with a force that could destroy the heavens!

Then, they heard a world-shaking sound. The already broken stage was completely shattered. Even the stone man palace trembled violently.

The Evil Woman had a bad premonition and said, "All those who belong to the cauldron, withdraw from the Stone Man Palace."

She could see that Su Yu was going to be serious. And once he was serious, the small stone man palace would not be able to withstand it.

The stone man judge was able to remain calm. He raised his eyes and looked at the faint light patterns on the wall. He said calmly, "Don't worry. If the stone man hall is so easy to destroy, then it would be a waste of the stone man hall."

When the stone man hall was designed, it was carefully calculated. Even the more powerful great sages would not be able to destroy the stone man hall.

Even the carefree son of heaven stone statue did not have this ability, let alone a small human?

The evil daughter did not listen to him. Only she understood Su Yu's true strength. She immediately led the members of the tripod cauldron and left the stone man hall.

The stone man judge scoffed at this.

Bang --

Suddenly, a muffled sound and a miserable groan erupted from the flames.

Immediately after, a solid palm flew out from the flames and almost brushed past the Rockman referee's body.

The palm hit the wall and immediately created a hole in the wall.

The so-called protective texture was directly destroyed and did not produce any protective effect.

The Rockman referee's face was stiff and cold sweat broke out on his back.

When he looked at the center of the fire, a hint of fear appeared in his eyes.

If he had not seen wrongly, the palm that flew out was not the human, but the carefree son of heaven stone statue.

But How was that possible?

The carefree son of heaven stone statue's cultivation had already reached the great sage level. No matter how strong an ancient sage expert was, they would not be able to harm it.

Dong --

Suddenly, another afterimage flew out for free and scattered in all directions.

A portion of it flew in the direction of the Rockman referee.

This time, he was not so lucky. He was hit by one of the Rockman fragments on the spot.

Bang --

Instantly, the Rockman fragment was like the sharpest blade. It pierced through his body, leaving a bloody hole. He was also pushed by an incomparably powerful force and slammed into the wall.

Kacha --

Large cracks appeared all over the stone man referee's body. Traces of black liquid flowed out along the cracks.

That was the blood of the Stone Man's heart. It would only flow out when the injury was very serious.

After the stone man referee narrowly escaped death, he looked at the Sea of fire with fear. He immediately stumbled out of the stone man hall, not daring to stay any longer.

In the end, when he left the Rockman Palace, a loud rumble came from behind him.

He turned his head and saw that the Rockman Palace had collapsed!

Other than the center of the arena, everything else was buried.

At this moment, the fire in the center of the arena gradually weakened.

The Rockman judge was terrified. He looked at the fire that had subsided without blinking. A figure that stood tall and straight appeared in front of him.

That figure was not the stone statue of the carefree son of heaven, but Su Yu!

As for the stone statue of the carefree son of heaven, only a section of its chest was left. Su Yu stepped on it, and the rest of its body was destroyed.

At this point, the battle was over.

Su Yu unsheathed his sword slowly and looked at the Rockman referee. He said indifferently, "What are you waiting for? Come over and decide who wins and who loses."

The Rockman judge had just come back to his senses. He swallowed hard and looked at Su Yu with fear in his eyes.

What kind of terrifying strength did this young human have?

"Good... Good!" The Rockman judge walked over and looked at the stone statue of the son of Heaven, who was on the verge of death. His scalp went numb and there was no disrespect in his eyes?

"It's Your Honor's victory," the Rockman judge immediately said.

Actually, was there even a need to judge?

Su Yu was unharmed, but the stone statue of carefree son of heaven was destroyed.

Su Yu nodded slightly, "Then, give it to me."

After three rounds of tests, Ding had successfully advanced to an aristocratic family. He deserved a seal.

However, the Rockman judge hesitated on the spot and said with difficulty, "I... I don't have a seal anymore."

Su Yu narrowed his eyes and slowly walked towards him, "Are you trying to tell me that we risked our lives to go through three rounds of testing, but in the end, you don't have the seal of an aristocratic family?"

Cold Sweat dripped down the Rockman judge's forehead as he hurriedly said, "The seal... the seal has already been given to someone else in advance."

This was the reason why the testing of this Rockman Hall was so difficult, to the point that it even maliciously refused to let people pass.

This was because he had already sold the seal to the other factions, and there was no extra seal left for the people who passed the test.

Originally, everything had gone smoothly. With the current difficulty, no one had the right to do so.

But who knew that an incomparably ferocious Su Yu would suddenly appear out of nowhere, and even the carefree son of heaven stone statue would be shattered by him.

"Hand it over to someone else in advance? Fine, then I'll go up high and let the son of Heaven Hall know about this," Su Yu said coldly.

The Emperor's palace was also an organization for the descendants of the son of Heaven of the sacred mountain.

The difference was that the emperor's palace was directly connected to the son of Heaven of the sacred mountain. If anything happened to the nine-star civilization, the emperor's palace would inform the emperor.

Moreover, the emperor's palace had countless powerful people who were in charge of the stone man palaces.

As the stone man judge, he dared to sell the seal to others for personal gain.

This is a capital offense!

Chapter 2955 Dividing The Territory

"Wait!"The Rockman judge hurriedly said, "Give me a little more time, I'll think of another way."

Su Yu shook her head, "Why should I trust you?"

He couldn't trust any of the descendants of the son of Heaven, let alone this Rockman judge who had ulterior motives.

"Then how will you be willing to trust me?"The Rockman judge stamped his feet and said anxiously.

At this moment, once it reported to the Emperor's palace, it would not be punished by death.

Because, what punished it would be a fate worse than death.

It might be banished to the most terrifying place in the Sacred Mountain, the netherworld.

There was no time there. Once it entered, it would become a grain of sand in the Netherworld and lie there forever.

Unable to speak, unable to move, unable to cultivate, it could only lie there forever. After experiencing the most ruthless torture of the years, it could not die even if it wanted to.

Countless descendants of the son of heaven would rather die than enter the netherworld once they knew that they would be punished.

Su Yu was slightly surprised. He had originally threatened him, but the fear of the Rockman judge had exceeded his expectations.

Even if he killed him, it might not be enough to make him fear so much.

His eyes rolled and he said, "Then tell me, how do we think of a solution?"

The Rockman judge came to a sudden realization and said, "I only gave you this month's seal and the next month's seal. I haven't sent them over yet. As long as the emperor's palace sends them over, I will hand them over to you immediately."

"I swear on the bloodline of the Emperor's descendant that I will not lie!"

Su Yu's eyes flickered. Every Rockman Palace only had one slot every month. What the other party said was not entirely a lie.

However, why did Su Yu have to bear the responsibility for the Rockman Referee's own mistake?

"My Time is very precious. I have no time to delay,"Su Yu snorted coldly.

The Rockman referee hurriedly said, "How about this? As compensation, while you wait, I will divide a piece of land for you. How about that?"

Su Yu's eyes lit up slightly.

The land he liked the most was, of course, the famous sword Saint Clan. However, that place was being eyed by a tiger. It was definitely not a land that could be easily occupied.

Ding was indeed lacking a temporary territory.

"Do you have the ability to divide the territory?" Su Yu questioned.

The Rockman judge said proudly, "Of course! Who Dares not give me face in this realm?"

The so-called one realm was the concept of the nine-star civilization's territorial division.

The nine-star civilization was divided into ten days. Every day, there was a ruler.

And every day, there would be twenty-four holes, one hole for a hundred realms.

Right now, Su Yu was in an unremarkable small realm in the sky ruled by the mirror flower ruler.

As the only stone man palace in this realm, the position of the stone man judge was quite high.

Even if they forcefully divided a part of the territory from the other forces, those forces would only dare to be angry.

"Where do you plan to place us?" Su Yu asked.

The Stone Man Hall took out the map of their territory and pointed at the center. "This is the place with the most Dao Qi in the cloud wilderness. There is a faction that has just been wiped out. Their territory is empty. Why Don't you take over?"

Su Yu looked over. This place was called Hidden Sky Mountain.

The map showed that there were 78 large and small aristocratic families and three saint clans near Hidden Sky Mountain.

One of the saint clans was the saint clan where Qing Mu was. Their strength was not bad.

As for the other two saint clans, they were even better.

These factions occupied the best part of Hidden Sky Mountain. The aristocratic family that had been wiped out was located on the mountainside. Their Dao Qi was quite abundant and could be considered as an excellent place.

"Why is it empty?" Su Yu's eyes shone.

A nine-star civilization was a place where every inch of land was worth gold. Any place with spiritual Qi had already been occupied.

He Du, this empty territory, hadn't been occupied by other forces for a long time?

The Rockman judge shook his head. "I'm not sure yet, but this is the best territory I can find for you. If you want a better one, you'll have to wait for a long time, and you may not be able to get it."

After thinking for a while, Su Yu nodded slowly. "Alright, I'll trust you for once. But, at most, in a month, hand the seal to me. Otherwise, you know the consequences better than me."

"Definitely, definitely!" Seeing that Su Yu had finally relented, the Rockman referee felt like he had just walked through the gates of Hell, and he felt extremely fortunate.

Fortunately, he had met a new force with no background, and he could use a piece of upper-grade territory to get rid of it. Otherwise, it would be hard to explain.

After surviving the disaster, he immediately rebuilt the stone man hall.

Su Yu led the members of the cauldron to Zang Tian Mountain.

After leaving the city, Su Yu stopped and said indifferently, "Sir, you have been following me for a while. How Long Do you plan to follow me?"

In the city, a young man with wood veins all over his body sneakily walked out. It was Qing Mu from the Saint Clan.

With a hint of fear on his face, he carefully walked to Su Yu and bowed. "Greetings, senior SU."

Su Yu stared at him indifferently. "Didn't you want to take revenge on me just now? I Can't afford to be this senior."

Hearing this, Qing Mu's face trembled. He quickly said, "Junior failed to recognize Mount Tai. I have offended you. Please forgive me, Senior."

As he said this, he ruthlessly gave himself two slaps.

Su Yu did not have the heart to argue with this qing mu and said, "Speak quickly!"

Qing mu quickly said, "Senior, I am willing to lead the way to Hidden Sky Mountain for you!"

"I am not blind. I can walk on my own." Su Yu frowned and said.

Qing mu said, "But senior must not know that hidden Sky Mountain is quite dangerous. Not long ago, it led to the destruction of a large aristocratic family."

Su Yu's brows relaxed. The aristocratic family he was talking about, could it be the aristocratic family that was destroyed?

"Why was it destroyed?" Su Yu asked with a deeper meaning.

Qing mu quickly said, "It is said that nine ancient vicious beasts massacred in one night, leading to the destruction of the aristocratic family."

Nine ancient vicious beasts?

Su Yu narrowed his eyes. Why did it sound so familiar?

The only person he knew who had nine ancient ferocious beasts was Gu Taixu!

"This guy's name is really tough!" Su Yu couldn't help but be surprised.

If he had any enemy that had lasted from the nine prefectures until now, Gu Taixu should be the only one.

His luck wasn't particularly strong, but his life was really tough.

The eight-star civilization collapsed, but he didn't die in such a Mighty Heavenly Tribulation?

"It seems that the nine-star civilization is not big. It's so easy to meet old friends." Su Yu murmured with a deep meaning, "The days in the cloud wilderness realm will not be too boring!"

Qing mu looked happy and said, "I am willing to lead the way for you."

The reason why his attitude had changed 180 degrees was very simple -- Su Yu was very strong, so strong that he threatened the saint clan.

How could Qing Mu still dare to be his enemy?

Su Yu stood still, and a cold light flashed in his eyes. He said, "It's too late to leave. Let's deal with that Yama first."

His leader had provoked him again and again, and he even threatened to take revenge on Su Yu.

It was better to get rid of such a disaster as soon as possible.

Qing Mu's face froze, and he said, "Senior... I'm afraid you won't be able to meet them."

Chapter 2956 The Space Saint Clan

"Why?" Su Yu didn't want to have a Hades force watching him like a tiger watching its prey.

That force wasn't very strong, but most of its members were Heavenly Dao Masters.

If they attacked the cauldron when Su Yu wasn't around, it would undoubtedly pose a great threat to the members of the cauldron.

Therefore, it was better to nip this threat in the bud as soon as possible.

Qing mu quickly said, "Pluto should be lucky. As soon as they left the stone man hall, they received an order from the vassal saint clan to go to a place called the tranquil ancient forest as soon as possible. I heard that a fossil was dug out there."

He secretly clicked his tongue. Pluto's luck was indeed too good.

Pluto was supposed to report to the Saint clan that he had failed the assessment. Unexpectedly, the Saint Clan did not blame him. Instead, they ordered them to go to a nearby place to check out the situation.

It turned out that someone had dug up a prehistoric fossil at the border between the cloud wilderness and the white bone realm.

Hence, the Saint tribe that Hades was affiliated with ordered Hades to check out the situation.

Without this order, Hades would probably not be able to escape destruction.

Just the thought of Su Yu destroying the stone statue of the carefree son of heaven with one sword strike made Qing Mu Shudder.

"Fossil?" Su Yu asked meaningfully.

Qing mu blinked, "Don't you know what a fossil is?"

Su Yu was from a nine-star civilization, yet he did not know what a fossil was? Wasn't this too far-fetched?

"Explain it clearly," Su Yu said.

Qing mu did not dare to hesitate and said, "The so-called fossil is a type of energy crystal that is deposited in the depths of a nine-star civilization. The energy within is extremely huge."

Su Yu knew nothing about this, nor did he know how specific the huge amount was.

"For example, how big is the energy?" Su Yu asked casually. He was not interested.

The energy crystal was actually not unfamiliar. Some civilizations would even use crystals that contained special energy as currency.

There was nothing strange about it.

The fossils that the saint race valued were probably similar, but the energy might be slightly higher.

"Sir, you don't know," Qing Mu said. "It is said that the energy is the core of the nine-star civilization. Once it is hollowed out, the nine-star civilization will fall into a dead silence

"First, the spiritual energy is exhausted, the mountains and rivers die, and then all kinds of spiritual objects are on the verge of extinction. In the end, the civilization can not survive and becomes a dead silence."

Su Yu's heart skipped a beat. weren't those the countless abandoned civilizations in the starry sky?

Those civilizations used to be nine-star civilizations, but every time they reached a certain stage, they would fall into a deathly stillness.

Su Yu had always thought that it was something similar to an eight-star civilization that had been destroyed by humans.

Only now did he understand that it was the nine-star civilization that had overexploited themselves, causing the civilization to be on the verge of extinction.

In countless eras, the damnable lifeforms were like bloodsuckers, sucking away the resources of one civilization after another. Then, they kept changing to new civilizations, creating the magnificent scene of so many decadent worlds in the outside world.

Su Yu was a little confused and said, "If we excavate ores like this, then what should we do after this nine-star civilization is squeezed dry?"

Qing mu laughed and said, "Senior, you are worrying too much. Every time a civilization is on the verge of collapse, a new civilization will be born, providing our noble nine-star civilization with the migration and continued to thrive."

Hearing this, Su Yu shook his head slightly.

This idea was not advisable.

This was the same as the idea of having a tall man to bear the burden of the collapse of the sky. Both of them were pushing the responsibility to the people with ability, while he enjoyed the present in peace.

"How are you sure that a new civilization will definitely be born?" Su Yu asked with a deep meaning.

Where those civilizations came from was completely unknown.

To create such a huge nine-star civilization, the amount of energy required was simply unimaginable!

Who would provide such energy?

How could he hand over his fate to an unknown existence?

Qing mu scratched his head. "How would we know? It's always like this anyway. There have never been any accidents."

Su Yu shook his head and said, "Do you know where the fossil is?"

He was also a little interested in this fossil.

Qing mu said happily, "I have also received instructions from my family clan."

He took out a circular plate. On it was a map of the cloud wilderness that was active. One of the orange light spots was shining.

"It's this place."

Su Yu looked over and could not help but be surprised. "What a coincidence!"

This location happened to be where the kalpa scythe was!

"Moheng couldn't have brought the myriad calamity scythe here, right?" Su Yu thought for a moment and said, "Vile daughter, bring the cauldron to heaven-burial mountain first, but don't go to that territory. Find a nearby place to hide temporarily and wait for my return."

"Alright!" The Vile daughter nodded and said.

That territory was very likely to have the presence of the ancient Taixu, and there was no one in the cauldron who could contend against the ancient Taixu.

"Lead the way," he said to Qing Mu.

The latter was delighted and immediately led the way. As they walked, he took out a flying dao artifact and said, "Senior, please go up."

Su Yu took a look and found that it was a mountain-shaped dao artifact.

"What is it?" Su Yu asked.

Qing mu said, "The Flying Dao artifact exclusive to our cloud wilderness territory is extremely fast. It's comparable to teleportation. We can reach our destination in two days at most."

"Two days?" Su Yu touched his chin and said, "You two saint clans know about this news. There's no reason that the other forces don't know about it. Two days later, someone would have already arrived."

Qing mu said helplessly, "There's nothing we can do about it. We're far away. It's very likely that the forces that got the news first or are near the fossils will benefit."

Su Yu said, "What I mean is that we can shorten the time."

UH --

Qing Mu was stunned and his face was bitter. "Please don't make things difficult for me, senior. This Flying Dao artifact is already the highest grade in the cloud wilderness realm. No matter how good the Dao artifact is, I can't do anything about it."

He was a little depressed. This senior probably did not know how far the destination was from here. Even a great sage would need at least three days to arrive.

Even if Su Yu had the strength of a great sage, three days was unavoidable.

To be able to pass two days was already the limit, yet Su Yu was still not satisfied.

"I mean, I know the spatial domain. Why do I need to use a dao artifact?" Su Yu expressionlessly formed a spatial domain around his body.

Perhaps in an eight-star civilization, the yuan-level space domain was extremely rare, but in a nine-star civilization, there should be some.

Otherwise, the flying magical treasure that Qing Mu had just taken out would have a space domain that was extremely close to the yuan-level. It must have been refined by someone who had mastered the yuan-level space domain.

"Ah! Senior... Senior, you are also a master of the yuan-level space domain?" Qing Mu was stunned. "Could it be that senior is a member of the Space Saint Clan?"

As expected!

The nine-star civilization had a race that specialized in the space domain.

Aoki didn't know how the space ruler of the eight-star civilization was related to them.

Chapter 2957 Gathering In All Directions

It must be known that the spatial ruler was sent by the carefree emperor to the eight-star civilization to guard the local creatures. His origin was still a secret.

Most likely, he had something to do with this so-called spatial saint clan.

"Barely," Su Yu said indifferently. A part of his origin level spatial domain had been cultivated by the bloodline power of the spatial ruler.

It was not bad to say that he had a relationship with the spatial saint clan.

"Gulp!" Qing mu swallowed hard, his eyes replaced by fear.

The spatial saint clan was the strongest saint clan in this cave, ruling over the hundred realms including the Cloud Wilderness Realm.

He did not expect Su Yu to come from such a clan.

No wonder he had the courage to lead a motley crew to form a great clan.

He was probably the same as himself, a member of the Saint family and wanted to establish his own family.

It was just that the other party's background was more than a hundred times bigger than his!

"Senior's cultivation and identity are all things that this junior can only dream of." Qing Mu's respectful expression became more and more intense.

Su Yu was too lazy to explain and said, "Cut the crap and lead the way."

Qing mu immediately pointed in a certain direction and said, "According to this, it's a trillion miles away."

The Yuan level domain around Su Yu flickered, then swept up Qing Mu and disappeared from the spot.

As for the evil daughter, she led the tripod faction to Zang Tian Mountain.

Somewhere in this cave.

A group of white-robed Heavenly Dao Masters stood respectfully in a magnificent hall that stood tall in the mountain range.

There were many of them, densely packed in the air above the entire hall. A rough count showed that there were at least 100,000 of them.

They all stood with their hands behind their backs and looked up at the sky, waiting for something.

After a moment of silence, a silver bell-like sound came from the horizon.

A beast carriage pulled by a snow-white demonic beast flew over.

The crowd was excited and they all knelt down on one knee. They shouted loudly, "Ten Thousand Grotto-heaven Dao Palace's Branch Hall pays respect to the Chief Hall Master!"

So this was the branch hall that the Heavenly Dao Palace had set up in ten thousand grotto-heaven.

The carriage stopped and a cute fourteen-year-old girl in a snow-white coat walked out slowly.

She was the Head Hall Master of the Heavenly Dao Palace, Bai Xue!

Her body was faintly surrounded by the sun, moon, and stars. It was not an illusion, but a natural manifestation of her domain.

To reach this level of unintentional leakage of her domain, her cultivation had to be at least at the great sage level!

That's right!

Ever since the famous sword Saint Clan snatched 10% of the original energy, with her many years of accumulation, Snow White finally broke through to the great sage level in one fell swoop. She became the only great sage level powerhouse in the entire history of the Heavenly Dao Hall.

As long as she was willing, she could lead the Heavenly Dao Hall to conduct a higher level appraisal and upgrade the Heavenly Dao Hall to the Saint Clan.

However, she had other more important things to do and did not have the time to advance.

"Please rise," said Snow White.

The Heavenly Dao Masters in the Branch Hall stood up respectfully and looked at the head shopkeeper who looked like a young girl with great respect.

"I have nothing else to do in the branch hall today," Snow White said slowly. "A few days ago, the son of Heaven Hall sent a message to Our Heavenly Dao Hall to investigate the large number of living beings that our Heavenly Dao Hall has recently approved."

This matter made Snow White frown.

In fact, she did not need to ask to know who did it.

Other than Su Yu, who had taken advantage of her and snatched her Heavenly Dao Palace's seal, who else could it be?

"This guy who should be cut into a thousand pieces is really tough!" Snow White muttered.

She had thought that Su Yu had already died in the Black Abyss near the famous sword Saint tribe.

However, she did not expect that the news she received a year later would turn out to be that a large group of unknown people had successfully entered the nine-star civilization using the document archives approved by the Heavenly Dao Hall.

She was both happy and angry.

"You actually managed to produce a trillion document archives in one go. You sure are impolite!" Snow White's heart ached endlessly.

That stone statue seal had most likely been destroyed, right?

What was even more heartrending was that those old fellows in the Heavenly Dao Palace seemed to have realized that she had lost the great seal. Previously, they had still been interrogating her, but she had cleverly interrupted them.

Now, she was thinking of ways to recover the great seal and seal that she had lost.

And the most effective way to find them was, of course, to find that bastard.

"We will obey the palace master's orders." The One Hundred Thousand Heavenly Dao masters shouted in unison. The scene was abnormally spectacular.

They quietly waited for Bai Xue's further instructions. Since they were looking for someone, they should at least provide the person's appearance and characteristics.

Bai Xue was also in a bit of a dilemma.

She and Su Yu had indeed spent a lot of time together, but Su Yu had always been masked, so it was impossible to see his true body clearly.

Up until now, they couldn't even tell if it was a man or a woman.

They could only tell from the voice that it seemed to be a man.

"This person's identity is unknown, so it's not easy to find him. But since he has led a large group of creatures to the Ten Thousand Cave, he will definitely build some forces. You guys should spread out and search the one hundred territories. Just keep an eye out for those new forces."

Many Heavenly Dao Masters agreed. Under the command of Bai Xue, they divided into one hundred teams, each responsible for searching the one territory.

When everything was done, the branch hall master said meaningfully, "Head hall master, to tell you the truth, Our Branch Hall recently received reliable news that a fossil has been found at the border between the cloud wilderness realm and the white bone realm."

Hearing this, Bai Xue raised her beautiful eyebrows, gritted her silver teeth, and spat, "A group of greedy things, and they still don't repent even now. Have they forgotten where the abandoned nine-star civilization came from?"

All those with ambition understood that fossils were the foundation of a civilization, and they must not be easily destroyed.

Otherwise, the civilization would sooner or later dry up.

However, they could not stop those people who were blinded by benefits. They kept searching for fossils and used the power within to constantly improve themselves.

"People die for money and birds die for food. For many years, the forces that have been searching for fossils have never stopped." The branch hall master was not without worry. "If the top few Saint clans don't lead well, how will the forces below be obedient?"

At the mention of this, Snow White became even more angry.

Digging fossils was a good start for those top forces.

In order to ensure that their forces would always remain at the top, those forces spared no effort in digging fossils.

If they were still digging, how would the forces below be obedient?

"Head Hall master, it's best that we don't interfere in this matter. In the ten thousand caves, the saint clans of every realm are prepared to intervene. We Can't stop them."

The Branch Hall master suggested.

Snow white snorted: "Since I'm here for a day, then they can't do whatever they want!"

"Head Hall master has just entered the great sage level. I'm afraid it's not appropriate to make an enemy out of them." The branch hall master said worriedly.

The other party had many people and they were all veteran great sages. How could snow white contend against them?

Snow white smiled cunningly: "It's not like I have to confront them head on."

"Alright, let me know if you have any news. I'll take my leave first." Bai Xue immediately flew towards the place where the fossils originated.

One day later.

At the border of the Cloud Wilderness, in front of a mountain that was covered in flames, Su Yu and Qing Mu tore through space and came over.

Qing mu was extremely shocked, "Senior's Yuan level domain has already reached the late stage, right?"

They actually reached this place in just a short day?

In the Space Saint Clan, senior was probably also a resounding figure.

Chapter 2958

Su Yu said calmly, "Something like that."

His yuan level domain had been cultivated to its peak state, and he couldn't advance any further.

If he advanced any further, it would be the legendary power that was comparable to the son of Heaven of the sacred mountain.

"Is that the place where the fossils appeared?" Su Yu looked at the mountain in front of him.

One of the mountains was particularly eye-catching.

Its entire body was blood-red, as if a layer of divine blood had been splashed on it. It gave people a rather gloomy feeling.

Qing mu followed his gaze and nodded slightly. "Yes! When the fossils appear, there will definitely be a blood disaster."

He paused and said, "But with Senior's strength, he will definitely be able to avert danger."

"Blood disaster? Why do you say that?" Su Yu also felt that the mountain was somewhat ominous.

Qing Mu Thought for a moment, and his eyes also revealed a trace of confusion. "I don't know if senior believes in the so-called underworld."

Actually, at Qing Mu's realm and position, he should have long seen through the so-called underworld. In fact, it should be some more powerful creatures.

This point, Su Yu had walked step by step from a dust-like divine Moon Island to this day, and his feelings were even more distinct.

Every time, he thought that he had encountered the will of the heavens, the ruler of the underworld.

But in the end, those were just powerful creatures that were beyond his understanding.

"Continue," Su Yu said calmly.

Qing mu said, "Every time a fossil is born, there is bound to be a certain death. Really, it is as if it has been predestined in the underworld. There is no exception

"Even the smallest fossil may have a certain amount of casualties, and there are all sorts of strange ways for casualties to occur!"

"Either they will fight each other and cause a river of blood, or they will attract a natural disaster, or something dangerous will appear, and so on and so forth."

Su Yu's eyes flashed slightly. Natural Disaster?

He didn't know if the natural disaster he was talking about was the one he had thought of.

"However, although it is filled with danger, many factions are still willing to fight over it because the benefits are too great." Qing Mu's eyes revealed a trace of desire.

"The energy contained in the fossil is too terrifying. It is said that it can allow an early-stage heavenly dao master to leap to the great sage level. There are even peak great sage powerhouses who rely on the fossil to break through the final barrier and become an existence comparable to the heavenly race."

When Su Yu heard this, although he was tempted, he restrained himself.

The fossil was clearly the essence of a nine-star civilization. Digging a single piece was equivalent to digging one foot into one's own grave.

If one had any sense, they would know that they should resist.

"Senior, do you want to go closer and dig?" Qing mu asked.

Su Yu thought for a moment and shook his head, "Forget it. I'm only here to take a look."

Su Yu was not willing to dig his own grave.

Furthermore, he could sense the auras of several great sage-level powerhouses without a clear perception. Some of them were quite terrifying.

This was something he discovered. If there were great sage-level powerhouses hiding themselves, he would not be able to discover them at all.

One could imagine the danger of fighting over the fossil.

Although he had the heaven-defying sword in his hand, using this sword once would exhaust almost all of his strength.

With so many great sage experts around, it was best not to rashly participate in the battle.

Thinking of this, he added some heavenly script characters to his body to make his black robe even more secretive, making it difficult for others to detect his identity.

As for Qing Mu..

If he was by his side, it would be a little conspicuous.

"Wait here. I'll go over and investigate," Su Yu said.

Qing mu nodded and watched Su Yu head to the foot of the blood mountain. He soon disappeared from sight.

He pondered and said, "If I can make friends with senior, it will definitely be beneficial to our saint clan."

Speaking of which, Su Yu arrived at the foot of the Blood Mountain.

There were already several territories nearby that had been occupied in advance. There were groups of at least three to five people and at most hundreds of people.

Su Yu had no intention of competing with them, so he chose a relatively quiet place to sit cross-legged and wait for the fossil to completely emerge.

Right now, he only wanted to see what a fossil was and why it could become the core of a nine-star civilization.

"There are people here, can't you see?" Suddenly, Su Yu had just sat cross-legged when a cold and unfriendly voice sounded.

Su Yu turned his head and saw a woman in a yellow robe sitting under the shade of a tree not far away from him.

She was exceptionally short and wore a yellow robe that covered her entire body, leaving only her sparkling eyes.

"This is your family's property?" Su Yu replied indifferently.

He wasn't too close to this woman and didn't affect anyone else at all.

"HMPH! Then it's up to you! Just don't regret it." The woman snorted and shut her mouth, silently cultivating.

Su Yu closed his eyes as well, and only after carefully sensing did he discover that the Dao Qi here was extremely dense, probably hundreds of times more than in the outside world.

Cultivating here for a day was equivalent to about a hundred days in the outside world.

"As expected of a place where fossils are about to be born, the amount of Dao Qi here is unimaginable." Su Yu praised endlessly.

It was not that there were no other places in the nine-star civilization where Dao Qi was a hundred times denser, but every place had already been occupied by powerful aristocratic families.

Moreover, even if they occupied it, it was still the core of the clan. Only the enemy's clansmen had the right to enjoy it.

Now that there was actually a natural land, one could imagine how precious it was.

Su Yu immediately sat down cross-legged and activated his time domain.

He could cultivate for a whole thousand days in a day's time.

In addition to the hundreds of times more effective cultivation in this place than in the outside world, the effect of this day's cultivation would definitely be beyond imagination.

Su Yu immediately began to concentrate on his cultivation.

And during the day, more and more forces came one after another.

Among them was Yama.

After Yama appeared, he looked at the experts on the ground and couldn't help but click his tongue. He said, "I don't know when the family will arrive. We don't have the qualifications to fight for it just by ourselves."

There were several saint clans here. How could Hades fight for it?

"Sir, look over there!" Suddenly, a confidant pointed to a corner.

Hades looked over and his pupils shrank, "Am I seeing it right?"

Although Su Yu was masked, his aura was not hidden. He could still recognize that this person was the leader of Ding Ding.

But, how could it be?

After he received the order from his clansmen, he immediately rushed over.

Su Yu couldn't be one step ahead of him, right?

"Sir, he is cultivating. Do we want to?" His confidant made a gesture to slit his throat.

A trace of viciousness flashed in Yama's eyes. He said, "Do you need to say it?"

He gave a look and his confidant led the two of them over.

However, before they were ready to make a move, a small tree suddenly grew on the ground in front of them, causing them to stop in their tracks.

One of the small trees even grew into a tree as thick as a person. A human face even appeared on the tree. It was none other than green wood.

Chapter 2959 Courting Death

"Why are you here too?" Pluto was in disbelief.

Even if Qing Mu had received the news later, he shouldn't have arrived earlier than him.

Qing mu walked out from the tree and said, "Our Saint Clan has our own unique methods."

Hearing this, Pluto was only suspicious for a moment and didn't think too much about it. Qing Mu was different from him.

He was just a vassal of the Saint clan, but Pluto was a real descendant of the Saint Clan. It was not an exaggeration to say that he had some special methods.

"Well, you came at the right time." Pluto pointed at Su Yu who was meditating in the divine capital and said in a low voice, "Look at this person. Do you recognize him?"

Qing mu turned his head and looked at him. His eyes rolled around and he said, "Why is it him? He came here too?"

The Yama King's eyes turned cold. "It seems that you have recognized him. Speaking of which, we were all killed by him. Since we met, then we should..."

He revealed a fierce look, meaning that he wanted to kill Su Yu.

Qing mu hesitated and said, "It's just a verbal conflict. There's no need to kill him, right?"

The Yama king snorted. "How can it be a verbal conflict when you are disrespectful to the Yama King? This person's life must be taken!"

After hesitating for a while, Qing mu said, "Alright, I'll help you."

He hid his hands in his sleeves and secretly activated the Nirvana device. When the nether king made his move, it was the time for him to make his move.

Of course, his target was not Su Yu, but the nether king.

As the saying goes, it was easy to add flowers to the icing on the cake, but difficult to send charcoal in the snow.

If he could help his senior when he was in danger, it would be a great favor.

"However, I suddenly changed my mind." Pluto's eyes flashed with a hint of cruelty. "Isn't he cultivating? Then, if I let him go mad, that would be the best punishment."

Qing Mu's eyes twitched with a dangerous arc. He said faintly, "What do you plan to do?"

Pluto laughed coldly. "Unfortunately, I have a portion of the mad heart powder that the Saint Clan has given me. Once I absorb it during cultivation, I will definitely create all kinds of obstacles during cultivation. Eventually, I will go mad and become a cripple who is delirious."

Qing Mu's expression was calm. He didn't think it was strange at all.

Because he and Pluto were the same kind of people. In other words, there were no kind people in the nine-star civilization.

The kind people were already eaten by the evil nine-star civilization until not even their bones were left.

"Okay, take it out and have a look," Qing mu said with a straight face.

Pluto chuckled, "Sorry for making you laugh."

He lifted his finger and opened his spatial storage device, taking out a white jade box.

Who knew that his palm was empty.

"What happened?" The Nether King was stunned. He clearly used his own will to take out the mad heart powder, but why did he fail?

He used his own will to check his spatial storage device again, but what surprised him was, "Where is my mad heart powder?"

The Mad Heart Powder in the storage space was gone!

He looked for it again in disbelief, but he couldn't find it.

The Mad Heart Powder wasn't a particularly precious thing, but its disappearance was too strange.

Would it disappear from the storage space if he failed to retrieve it?

"Brother Yama, what's Wrong?" Qing mu asked in surprise.

Yama looked at his palm and said, "Did you notice anything strange just now?"

Qing mu blinked his eyes and said, "No. Oh, there seems to be a gust of wind."

He did feel a strange dark wind just now, and then it disappeared in a flash.

"Wind?" Yama looked around, but there was nothing strange.

"It's really strange," Yama said in surprise, "But don't worry about it."

His gaze fell on Su Yu again, and his eyes became cold. "Then let's kill him!"

"Okay!" Qing Mu's eyes became cold. The moment Yama attacked Su Yu, he suddenly took out a wooden dagger from his sleeve and stabbed it into his abdomen.

Yama would definitely be killed in one stab if he was caught off guard.

However, the nether king seemed to have been prepared for this. A shield appeared behind him and blocked Qing Mu's dagger.

Qing Mu's expression changed as he looked at the nether king.

The Nether King turned his head with a faint smile on his face, "Qing Mu, do you really think I'm easy to deceive?"

Qing mu sensed that something was wrong and immediately retreated. However, after he retreated, a few of the nether king's experts joined hands to cast a huge net filled with lightning. In an instant, Qing Mu was covered in it.

Qing mu just realized that he had been tricked.

The Pluto looked at Qing mu and sneered, "Your acting is too bad! I saw that something was wrong with you from the beginning!"

"In my memory, Qing Mu was quite arrogant. Why would he join hands with me to kill someone?" The pluto sneered, "Moreover, you requested to cooperate with me again and again."

"So, I guess you must be waiting for the most suitable opportunity to attack."

Qing Mu's expression was extremely ugly. He wanted to help his senior but failed. Instead, he was captured by the nether king. "Nether King, if I Were you, I would get as far away from here as possible. Otherwise, it would be too late to regret."

The Nether King had already escaped and was not found by Su Yu.

Now, he actually took the initiative to run out. He was really courting death!

"Is that so?" Hades looked at Su Yu, then at Qing Mu, and said, "What's wrong with you? You actually helped this motley crew?"

Qing mu shook his head and sneered, "The Motley Crew is you!"

Hades was puzzled. was Qing Mu Mo stupid.

"I don't care." Hades stared at Su Yu and said, "Kill him first."

A confidant immediately went forward. His cultivation had reached the middle stage of the Heavenly Dao master, so killing Su Yu shouldn't be difficult.

However, just as his trusted aide arrived in front of Su Yu...

A remnant mark that could not be seen by the naked eye shot out instantly, blasting that trusted aide into dust on the spot.

The sudden change shocked Pluto and the others.

"What happened?" Pluto was somewhat in disbelief. The one who died was a powerhouse at the middle stage of the Heavenly Dao master level, which could be ranked in the top four of Pluto.

But he was killed without anyone noticing.

Was... was this a dream?

However, Su Yu slowly opened his eyes. There was a hint of anger in his eyes. "So What if you ran? I couldn't be bothered to look for you. I didn't expect you to find me."

The time domain around him stopped and he stood up slowly.

Yama frowned and his eyes flashed. He pointed at one of the mid-stage heavenly dao master and said, "You Go!"

The latter hesitated for a moment and braced himself to go forward.

He used his raging flame domain to envelop Su Yu.

Su Yu stood still and didn't move. With a flick of his finger, the opponent's raging flame domain was completely destroyed.

Not only that, the mid-stage Heavenly Dao master was also blasted into dust on the spot.

This time, they finally saw Su Yu make his move.

But it was precisely because they saw it that their expressions changed drastically.

Chapter 2960 The Appearance Of The Thieving Sage

The Nether King sucked in a breath of cold air. Even he himself couldn't kill a mid-stage Heavenly Dao master with a flick of his finger.

But the human in front of him did it effortlessly.

Did he even need to ask about his true strength?

"Hehe, Nether King, I've warned you to get lost as soon as possible. Why didn't You Listen?" Qing mu took advantage of the moment when the members of the Nether King were in a daze and escaped from the giant net. He ran to Su Yu's side and said coldly.

There was a hint of gloating in his eyes.

Hades suddenly understood. No wonder Qing Mu suddenly changed sides. He was going against him, who was also a member of the Hidden Sky Mountain faction, for a mere human.

It turned out that Qing mu had discovered Su Yu's exceptional battle strength long ago, so he fell at his feet.

"Senior, please forgive me and let me go," Hades pleaded hurriedly.

Qing mu snorted and said, "Senior, be careful. Pluto is very cunning. Don't think that he is begging for mercy. In fact, I don't know what he is planning."

With Pluto's coldness, he should know that begging was useless.

He should be doing the same as before. On the surface, he was delaying everyone, but in fact, he was secretly using some tricks.

As expected!

As soon as he finished speaking, Yama suddenly threw out a dao artifact that had been activated from his sleeve and threw it on the ground.

Boom --

When the Dao artifact touched the ground, it immediately burst out with shocking lightning. It wove into a huge net and enveloped Su Yu and Qing Mu together.

Its intention was to stop Su Yu and buy time for himself to escape.

"You want to keep me here? Haha, Dream On!" Yama turned around and fled.

This dao artifact was a life-saving item given to him by the Saint Clan. If he used it in a dangerous moment, even the saint clan's experts would be stopped for an hour.

An hour was enough for him to escape successfully.

"No matter who you are, just wait for my revenge," Yama said without turning his head. There was a hint of pride in his voice.

However, at this moment, a voice that was not too far away sounded behind him.

"How do you plan to take revenge on me? Tell me."

The Yama King's body stiffened. His legs went soft and he almost fell to the ground. The voice was actually from Su Yu.

He turned his head and looked behind him. He was scared out of his wits.

Su Yu was actually three feet behind him!

As for the giant lightning net that could trap a great sage for an hour, it had been completely torn apart.

"Ah! You..." the Yama was extremely shocked. He subconsciously saw that Su Yu was holding a five-colored ring of light.

Under the effect of the Ring of light, the Lightning Net was completely destroyed.

Su Yu said calmly, "Tell me, how are you going to take revenge on me?"

He stretched out his hand and the Yama's neck was immediately grabbed tightly.

The Yama struggled with great difficulty. His face was replaced by fear, as if he had already predicted that he was about to die.

Qing mu sighed silently, as if he had already seen the underworld king's neck broken and he was dead.

However, what shocked Qing Mu was that after a long time, not only did Su Yu not kill the underworld king, he even put him down and said, "Do you still want to escape now?"

What was going on?

Even the underworld king was stunned. He thought that he was dead for sure.

But why did Su Yu say that there was still a chance?

"I'm not running anymore, I'm not running anymore," the Nether King said quickly.

Su Yu said indifferently, "Then lead the way and find your mad heart powder."

The nether king was stunned, "Mad heart powder, it... disappeared. I think it must have failed to take it out, so it was swallowed by the space in the spatial storage, or it was moved to another place..."

Before he finished, Su Yu interrupted him with a blank expression, "It's not missing, but it was stolen."

"Stolen?" Pluto and Qing mu blinked their eyes.

Pluto said, "Senior, you must have made a mistake, right? I didn't have time to take out my mad heart powder."

Su Yu shook his head and grabbed lightly in the air, and a trace appeared in his palm.

The trace was very special, and it was very obscure.

"This... This is the ancestral art of taking things from the air?" As a member of the Saint Clan, Qing Mu had some eyesight, and he immediately recognized the origin of the trace.

He was stunned, and his face gradually became confused. "This ancestral art has long disappeared with the destruction of the Taihao Saint clan, and no one can successfully cultivate it... wait! There is one person who might be able to do it!"

A person couldn't help but appear in Qing Mu's mind.

That was a legendary existence, and everyone knew of him.

He had a resounding name, and that was... The Saint of Thieves!

Legend had it that there was nothing that he could not steal!

The Nether King also understood and said in surprise, "The saint of thieves has been here before?"

He remembered that Qing Mu had said that he had encountered a strange wind just now, and he could not help but be even more shocked. "How is that possible? Legend has it that the saint of Thieves is not a rare item in the world that can not be stolen. My Mad Heart Powder is nothing, why would the saint of Thieves take a fancy to it?"

Su Yu solved the answer for him.

With a slightly solemn expression, he touched his back.

The sword case on his back was still intact, but the heavenly sword inside had disappeared.

"I stole your things to distract my attention," Su Yu said indifferently.

The Saint of thieves did not take a mere bag of mad heart powder seriously. He took a fancy to Su Yu's heavenly sword.

While he stole the heavenly sword, he also stole the mad heart powder to divert Su Yu's attention. It was only at this moment that Su Yu realized that his heavenly sword had disappeared.

"Thieving saint, it's really fate," Su Yu muttered.

Back then, when he was battling the overwhelming demon outside the stars, the other party saw that his ancestral techniques were endless and thought that he was the thieving saint's successor who was proficient in many ancestral techniques.

Unexpectedly, not long after, the thieving saint came to visit him.

However, Su Yu was completely not worried that the heavenly sword would disappear.

That sword was not an ordinary sword. An ordinary person would not be able to control it at all.

In particular, there were two resentments that had a close relationship with Su Yu. They did not allow anyone other than him to control the Absolute Heaven Sword.

"You should have a way to get the mad heart powder back, right?" Su Yu asked.

Yama suddenly understood. He thought for a moment and said, "Yes! I personally refined the mad heart powder. As long as you are within 30,000 feet, you can sense its aura."

"30,000 feet?" Su Yu's eyes flashed. "Then stand properly."

He gently pushed his palm and a gust of spatial wind swept over, sweeping Pluto around rapidly.

In just two breaths, he returned to his original spot and overlapped with the afterimage he left behind.

However, his face was numb and his eyes were extremely dull. Just now, he felt as if he was being pressed against the air and rubbed violently, almost squeezing him to death.

"I've already sent you all within a radius of a million miles for a week. How is it? Have you realized that your crazy heart has dispersed after being stolen?" Su Yu asked.

Yama shook his head and came back to his senses. He quickly pointed in a direction. "It's in there!"

Su Yu followed his gaze and looked over. His gaze became slightly deep. "You really know how to find a place. You Don't go anywhere but hide here."

Ming Wang was not referring to any other place. It was the blood mountain where the fossil was about to be unearthed!
