

Nine-Dragon 2961

Chapter 2961 Curse Of The Blood Mountain

Why were so many powers waiting patiently at the foot of the blood mountain but did not dare to go up?

Did they not want to take the initiative and wait in the Blood Mountain?

Obviously not!

The only explanation was that the blood mountain was extremely dangerous and they did not dare to go up.

That was why even great sage cultivators were waiting outside the blood mountain!

Would Su Yu be in any danger if he went there?

However, he had to go.

Because what was stolen was not something else, but the heavenly sword.

"You really know how to cause trouble for me." Su Yu's eyes flashed with a cold light.

He was waiting here. Apart from looking at the fossils, he had another purpose -- to wait for Mo Heng.

Ever since he arrived nearby, he had been trying to sense the location of the scythe, but he did not find any traces of it.

Mo Heng must have thought of a way to temporarily block the kalpa scythe and its sensing.

Now, the Grand Theft Saint had stolen his absolute heaven sword for no reason, which forced him to leave and affected his search for the kalpa scythe.

"Senior, can you let me go?" Pluto's eyes flashed.

Su Yu did not even look at him and said, "Of course. The premise is that you have to go to the blood mountain with me and find the grand theft saint."

"Go to the Blood Mountain?" Pluto was shocked and said, "No! Please spare my life, senior. I know I'm wrong."

Su Yu's eyes flashed. There was indeed something wrong with the blood mountain.

"Why?"

Pluto was stunned. He looked at Su Yu in surprise and said, "Don't you know that the Blood Mountain was a cursed place when it was being turned into a stone? Once you enter it, you will most likely die an unnatural death."

"Even if you didn't die at that time, you will encounter all kinds of strange events later and die tragically."

Qing mu agreed with this point. He said seriously, "Senior, you can't go to the Blood Mountain! Anyone who enters will never have a good ending. No one is an exception."

"The most famous one is that there was once a heavenly race's ten thousand saints powerhouse who forcefully entered the blood mountain with his cultivation."Qing mu mentioned it now, qing Mu's face turned pale. "After that, he returned. However, he fell after ten steps out of the Blood Mountain."

"It is said that other than his outer skin and fur, the ten thousand saints'inner body was shattered. His bones, flesh, and blood were all shattered."

"In the end, the person who collected his corpse accidentally punctured his skin. In the end, the great saint turned into a puddle of liquid and all that was left was a layer of fur."

Su Yu's pupils contracted slightly. The one who died was not an ancient sage or great sage, but an expert of the ten thousand saints level.

Furthermore, the way he died was too strange!

Su Yu thought that his strength was not bad, but he was definitely unable to make a person's skin and skin complete. However, his insides were all shattered.

"From then on, no one dared to venture deeper. All of them waited for the fossil to appear before fighting over it,"Qing mu said.

Yama nodded repeatedly. "Yes, senior. We still haven't figured out what exactly is inside the blood mountain. Those who were lucky enough to escape kept their mouths shut as if there were some taboo."

"Therefore, please consider carefully, senior. The Blood Mountain is a place where you can enter but not leave!"Yama said.

Su Yu thought for a while and said slowly, "If that's the case, then how did the saint of thieves have the courage to barge into the Blood Mountain?"

"This..."Yama and Qing mu hesitated, obviously not understanding.

Su Yu's eyes flashed with wisdom, "The saint of Thieves is a cautious person. If I'm not wrong, there must be something else in the blood mountain."

He grabbed Yama and said, "Let's Go!"

"Ah! No, I don't want to go in..."Yama struggled and was dragged into the blood mountain by Su Yu.

As soon as he stepped on the blood mountain, Su Yu felt a wave of dizziness and almost lost his balance.

The experts from all directions were even more alarmed.

"What are you two doing? Do You Want to Die?"A hidden great sage expert suddenly rushed out and shouted at the foot of the Blood Mountain.

After that, a few more great sage experts appeared and stared at Su Yu with dissatisfaction.

They clearly thought that Su Yu was someone who wanted to snatch the fossil first.

Su Yu turned a deaf ear to them and continued to walk up the Blood Mountain.

The great saints immediately became anxious, but no one dared to step onto the blood mountain. They were afraid that they would be cursed by the legendary curse.

They could only watch helplessly as Su Yu continued to climb to the top of the Blood Mountain. He stood in front of a deep pit.

The deep pit was where the fossil was born.

"Kid, if you dare to do anything to the fossil, we will not let you off!" A great saint threatened.

However, his threat was obviously useless because no one who had entered the blood mountain had ever returned alive. All of them had died there.

What was the difference between letting it go or not letting it go?

Su Yu stood at the edge of the deep pit and looked straight down. His eyes were filled with horror.

This was not a pit. It was clearly the abdomen of some kind of creature.

At a glance, the stone walls of the deep pit were all wriggling flesh walls. Blood vessels could be clearly seen. Some of the blood vessels were bleeding and seeping out from the inside out.

That was why this mountain was the color of a bloody mountain.

And in the deepest part of the mountain, a huge green round egg was beating slowly. If it was a human womb...

Could it be the womb that gave birth to fossils?

However, this method of birth was completely unexpected.

It did not look like a fossil being given birth. Instead, it looked like a human being giving birth to a child.

Even Pluto stared at the womb in shock. He was completely shocked by the scene in front of him.

"I've never heard of it," he murmured.

If he hadn't seen it with his own eyes, he wouldn't have believed that fossils could be produced in this way.

"Where's Your Mad Heart Powder?" Su Yu glanced at the bottom of the deep pit, but didn't find the saint of Thieves.

If nothing unexpected happened, the saint of thieves must have hidden himself.

Yama retracted his consciousness and immediately sensed it. A moment later, he pointed to the southwest corner of the womb, "It's over there."

Su Yu followed his gaze and saw that there was a depression there.

"You retreat," Su Yu said in a low voice.

He could deal with the thieving saint alone.

The Nether King was overjoyed. He hurriedly retreated and prepared to retreat from the blood mountain.

However, when he ran to the middle of the Blood Mountain, the palace in the blood mountain suddenly trembled. It spat out a stream of air with residual liquid and soared into the sky.

Su Yu immediately dodged to the side. The stream of air flew into the air and then fell down powerlessly.

And, coincidentally, it landed on the Pluto.

The Pluto also sensed it and quickly dodged. No matter what the liquid was, it was best not to touch it.

However!

The moment he dodged, he stepped on the soles of his feet and accidentally stepped on an ancient sword that had been left on the blood mountain.

The ancient sword was sent flying to his chest and stabbed into the Nether King's heart.

The Nether King looked at the ancient sword on his chest in disbelief and muttered, "Sure enough... I can't escape."

Then, he rolled his eyes and spat out blood. He fell to the ground. The blood he spat out was all black blood!

It was fine that the ancient sword had coincidentally stabbed into his heart, but the ancient sword actually had some lethal poison that killed him with one strike.

Otherwise, a mere strike would not have taken his life.

Su Yu's pupils constricted slightly when he saw this. Wasn't this death too strange?

Could this be the curse of the Bloody Mountain?

Chapter 2962 True Or False Saint Of Thieves

This scene made the great saints at the foot of the blood mountain feel their hearts skip a beat.

Such a coincidental and strange way of dying really made people's hearts palpitate.

When they looked at Su Yu, they let out a sigh of relief and revealed a trace of pity. They were even gloating and looking forward to it.

They were looking forward to when the calamity would fall on Su Yu's head.

Su Yu stared at the Nether King's corpse and felt a chill in his heart.

The Nether King was not weak. Under normal circumstances, how could he be killed by a sword?

But the truth was right before his eyes.

Just as Su Yu was on guard, the liquid that fell from the sky suddenly fell on the nether king's body.

Chi La --

The corpse of the ancient sage of the nether king was melted into white steam by the liquid in an instant!

It turned out that the most dangerous thing was still the remnants of the liquid!

Su Yu immediately retreated vigilantly. However, just as he shifted his feet, he seemed to have sensed something and stopped.

Lowering his head, he saw a small jade-green sword sticking out from the ground behind him. The tip of the sword was emitting a black glow. It was obvious that it was poisonous.

Needless to say, this sword was the same as the one that killed the nether king. Both of them were extremely poisonous.

Su Yu's right foot stopped in mid-air and slowly retracted. Her face was full of doubt.

Fortunately, she was careful. Otherwise, she would end up like Yama.

However, just as Su Yu let out a sigh of relief, a soft explosion sound was heard.

Without thinking, he tapped with one foot and flew into the air. At the same time, he cast a defense around his body.

Not only that, he also used a space secret art to form a huge space collapse around his body.

Anything that came at him would be swallowed by the space collapse, unable to harm him.

Almost at the moment when he was ready to defend himself, the space collapse around him shook violently.

Su Yu fixed his eyes and saw a piece of liquid falling into the space collapse. It quickly melted the space collapse and dripped to the ground.

One of the wisps even broke through the space collapse and almost hit Su Yu.

If it wasn't for his timely defense, he would have been hit by this wisp of residual liquid. Judging from the fate of Yama, it would be difficult for Su Yu to survive.

He looked at the source and found that after Yama's body was melted, some of the Nirvana weapons didn't have time to melt.

But under the corrosion of the residual liquid, an explosion occurred and the residual liquid splashed over.

Coincidentally, the direction where the residual liquid splattered happened to be Su Yu!

Su Yu's back broke out in a cold sweat. He finally understood why even an expert of the ten thousand saints level died tragically here.

He clicked his tongue and carefully landed on the blood mountain once again.

Sensing the danger here, Su Yu had the intention to leave. However, when he saw the saint of thieves hidden in the deep pit of the blood mountain, he gritted his teeth slightly.

He leaped, but not only did he not leave, he jumped into the deep pit instead.

As he descended, he heard the sound of the wind and the strong smell of blood. It was as if he had really entered a living abdominal cavity.

As he got closer and closer to the ground, a strong sense of danger assaulted his face.

It was as if Su Yu had aroused the vigilance of some powerful creature and burst out with hostility toward Su Yu.

Pu --

Suddenly, the uterus at the bottom spurted out a patch of liquid again, and all of it flew towards Su Yu.

Su Yu was already on guard, and hurriedly moved aside.

The liquid brushed past his body and shot onto the flesh-like stone wall that was filled with blood. In the end, with a sizzling sound, the blood on the stone wall melted.

A large amount of fresh blood spurted out and dripped down from the top, covering the entire deep pit, making it impossible for Su Yu to dodge.

His eyes flashed as he looked towards the saint of Thieves'hiding place. That was the only place that had a cover.

He no longer hesitated. With a flash of his silhouette, he instantly hid in that place.

Just as he arrived, the rain of blood poured down. Although it did not seem to cause any danger when it landed on the ground, one could imagine the consequences if it landed on a person.

However, before Su Yu was safe, a gust of cold wind gushed out from behind him.

Su Yu did not even turn his head as he executed the eagle clan's ancestral technique. A sharp scar was slashed behind him, and his gaze was extremely cold. "You caused me to come here. Saint of Thieves, you better give me a reason not to kill you!"

He came here because of the saint of thieves.

Clang --

There was a muffled sound, and it seemed like two different forces had collided.

Su Yu turned his head and saw a mysterious woman dressed in gray clothes. Her eyes were filled with shock.

Just like Su Yu, she was covered from head to toe. Only her eyes were exposed, and no one knew her true appearance.

Just now, this woman had pulled out a dagger and stabbed at Su Yu. In the end, the dagger was sent flying by Su Yu's ancestral technique.

"Eagle Clan's ancestral technique?"The woman's voice was as clear as an Oriole, and there was a sense of déjà vu in her voice.

Su Yu turned around and stared at her. "Do you have any last words to say before you die?"

She should be the grand theft saint. The Absolute Heaven sword was most likely on her.

The only thing that surprised Su Yu was that the legendary grand theft saint was actually a woman, and she was very young.

The gray-clothed woman's beautiful eyes turned around, and she suddenly took a step back.

Su Yu was already extremely cautious in this place. How could he not be wary of the other party's strange movements?

Without saying a word, a layer of space collapsed around his body, and he even cast an ancestral spell.

It was a peaceful Buddhist light that enveloped him.

At this moment, the space collapsed and instantly ruptured. A snow-white jade finger that contained traces of the ancestral spell pierced through the space collapse and pointed at Su Yu's back.

Clang --

The sound of metal colliding rang out!

The finger attacked the Buddhist light on Su Yu's body and could no longer pierce through.

"A person who possesses both the ancestral art of the Eagle clan and the ancient Buddhist ancestral art, who are you?" A cold voice came from behind.

Su Yu turned his head and looked over. His eyes narrowed.

He saw a beautiful woman with a cold expression and a beautiful face looking at Su Yu in puzzlement.

Su Yu's body trembled and Buddhist light burst out, pushing the woman away. He stared at the woman and said indifferently, "So you are the thieving saint."

When he saw the gray-clothed girl, he thought she was the thieving saint.

But now, it seemed that this beautiful and mature woman whose strength was far above hers was the true thieving saint.

It was just that she and the girl were one in the open and the other in the dark, bewitching Su Yu.

The Absolute Heaven Sword should be on her.

"I heard that outside of the nine-star civilization, there is a successor of mine who is proficient in many ancestral techniques. Could It Be You?" The Saint of Thieves' beautiful eyes stared at Su Yu as he slowly said.

Su Yu was surprised. "Aren't you too well-informed?"

The battle between him and the overwhelming demon had only been going on for a short period of time, and it wasn't enough time for the entire nine-star civilization to know about it.

This woman had already heard about it?

It was truly unbelievable!

The thieving saint took a step back and said, "So it was really you. Your Excellency's methods are good, even Gai Tianmo died at your hands! It seems like I've stolen the wrong person."

She knew Gai Tianmo's strength. Since he could die at Su Yu's hands, it could be seen how powerful Su Yu's strength was!

Chapter 2963 Take Off Your Clothes

Su Yu stared at the saint of thieves and said coldly, "So much nonsense. Are You Saying Your Last Words?"

Another ancestral spell condensed in his palm, and a faint claw mark could be seen floating around.

The Saint of thieves shook his head. "I'm just saying that I stole from the wrong person. It doesn't mean that I have to fear you."

His fresh clothes fluttered, and a layer of golden light covered his body, vaguely resembling a Buddhist kasaya.

As his five fingers twirled, a sharp and clear scar appeared.

In terms of strength, Su Yu was not as strong as the scar.

His opponent's cultivation had reached the great sage level. If they were to fight, it would be hard to say who would win.

The thieving sage said, "I thought that you were a member of the famous sword Saint tribe, so I stole the heaven-destroying sword from you. I didn't expect that the heaven-destroying sword would fall into the hands of an outsider."

As he spoke, he pulled out the absolute heaven sword from his spatial storage.

She stared at the sword and shook it. "This sword is dangerous. If it falls into your hands, it will only cause more harm. It's better for our people to keep it."

Oh?

From what the Saint of Thieves said, she didn't act alone, but she had more than one partner.

However, this kind of occupying other people's things and using a grand reason was really disgusting.

"You steal it, then steal it. I still respect you for having some skills, but you just have to put on your own face." Su Yu said bluntly, a claw print ruthlessly pressed down.

The Saint of Thieves' face was still cold, slightly shaking his head and said, "You don't know anything."

As he said, his fingertip pointed, and a long snake-shaped mark passed through the space, lashing out.

The two ancestral spells collided in the air, destroying each other silently, without causing any damage.

In the end, Su Yu's ancestral spells were slightly better. The remaining marks landed on the golden flowing light on the surface of the saint of Thieves' body, causing a slight ripple before disappearing into thin air.

However, before the saint of thieves could say anything, his beautiful pupils constricted. Su Yu had consecutively cast ten ancestral spells!

Each of them was filled with great power and was not inferior to the previous ones.

Moreover, this was only the beginning. Su Yu's fingers did not stop. One ancestral spell after another was cast with ease between her fingers.

The Saint of thieves was shocked. "Where did you get so many ancestral spells?"

The reason why she had mastered seven or eight ancestral spells was because she had been robbing other people's graves all year round and had dug up burial items from them.

However, Su Yu had mastered more than seven or eight ancestral spells?

From the looks of it, there were at least dozens of them!

"When we go to Hell, the overwhelming demon will tell you," Su Yu said calmly.

The Saint of thieves calmed himself down and cast eight ancestral spells consecutively. Four of them were defensive spells while the others were all offensive spells.

However, Su Yu then cast an endless amount of ancestral spells. How could the saint of Thieves' overbearing ancestral spells be able to resist it?

The Saint of thieves finally sensed that something was amiss.

"Don't go too far. Do you want to alarm this womb? You should have seen the danger just now," the saint of Thieves said.

It would have been better if he had not mentioned it. However, Su Yu was furious at the mention of it. "Then I have to ask what is wrong with you that you would bring me here!"

As she spoke, she flicked her ten fingers and drew out ten different attacking ancestral spells at the same time.

The Saint of thieves took a deep breath. Her scalp felt numb. She felt that she was not facing a living creature, but a human-shaped ancestral spell casting machine.

The Grand Sage of thieves did not hesitate any longer and immediately gave up on using her few ancestral spells to resist. Instead, she held onto the hilt of the heaven-destroying sword.

How powerful was the heaven-destroying sword?

Even if it was not unsheathed, it could still unleash the terrifying power of the heaven-destroying sword in the hands of a grand sage like her. It was far more powerful than being in Su Yu's hands.

She held onto the sword and pressed it down. Instantly, the remnants of Su Yu's seemingly extremely dangerous spell were crushed like candles in the wind.

"See, don't force me to hurt you." The thieving sage did not continue to attack, but calmly stared at Su Yu.

Su Yu was unperturbed. She even stopped her ancestral spell and said leisurely, "Who gave you the courage to casually hold someone else's things?"

The Thieving Sage was shocked, but then he felt relieved and said, "No need to trick me! I know better than you what the Absolute Heaven Sword is. Other than the son of Heaven of the sacred mountain, it will not submit to anyone else. You Can't control it."

"Is that so?" Su Yu smiled.

Suddenly, the Absolute Heaven Sword in the Saint of Thieves' hand shook violently out of his control and escaped from the saint of Thieves' hand.

Without waiting for the saint of thieves to grab it again, Su Yu had already taken a step forward and grasped the Absolute Heaven Sword.

After taking back the Absolute Heaven Sword, Su Yu held the sword and stabbed forward, aiming at the saint of Thieves' chest.

It happened so suddenly that both sides were caught off guard.

When the saint of Thieves reacted, the heavenly sword with a sheath had already struck the saint of Thieves' chest. The golden flowing light that looked like a kasaya was extinguished like a piece of paper.

The heavenly sword mercilessly struck the saint of Thieves' chest.

Ah --

With a scream, the saint of Thieves' face turned pale. He spat out a mouthful of blood mist and his body crashed heavily into the womb.

A bloody hole was pierced through his chest and five-colored divine blood flowed out continuously.

"Master!" The young girl behind him screamed and immediately rushed forward to help the grand theft saint up. Her eyes were filled with anxiety and resentment, "Why are you so ruthless? If my master wanted to hurt you, he would have done it long ago."

Su Yu held the Absolute Heaven Sword expressionlessly, "From your standpoint, your master didn't do anything wrong, but from my standpoint, stealing my absolute heaven sword and causing me to suffer the blood mountain curse, killing her wouldn't be an exaggeration, let alone just hurting her?"

He walked over with his sword in hand and said indifferently, "Are you ready to die?"

The young girl stood in front of the thieving sage with a determined look in her eyes. "If you want to kill me, kill me first."

Su Yu was expressionless, and there was no pity in his eyes. "Alright."

He had cultivated for too long, and he no longer had much pity in his heart. What was more, he was ruthless enough to prevent any future trouble.

Especially since his tripod had already been made public, he could not tolerate such a powerful threat like the thieving sage.

"Cai'er, get out of the way." The Saint of thieves gritted his teeth. His mouth was full of divine blood. She took out a long black sword and stood up. "Go back and tell your martial uncle that something has happened. I Can't go back."

"Master!" The young girl said sorrowfully.

The Saint of thieves stroked her head. A rare gentleness appeared on his cold face. "Life and death parting with us is just a common occurrence. Why Should We Care?"

She pushed the young girl away and stuck a space talisman on her body, saying, "Cultivate well when you go back."

As she said that, she was about to activate that talisman.

However, with a whoosh, the talisman was swept away by a space domain and fell into Su Yu's palm.

The Saint of Thieves' eyes turned cold, saying, "Sir, do you want to kill everyone? My disciple didn't offend you."

Su Yu held the talisman and crushed it into pieces with his five fingers.

However, unexpectedly, Su Yu put down the heaven-defying sword and fixed his gaze on the girl in Gray. He said indifferently, "Take off your clothes!"

Chapter 2964 I Am Your Father

Take... take off his clothes?

The young girl hugged her chest and retreated in fear. Her Eyes revealed a trace of fear.

But when she touched the thieving saint behind her, she did not dare to retreat again.

If she retreated again, no one would be able to stop this person's killing intent towards the thieving saint.

"You... What do you want?" The gray-clothed young girl said weakly.

The thieving sage gritted his teeth and reprimanded, "Shameless person! Cai Er, don't bother about me. This person is ruthless and merciless. Your sacrifice will not bring about any changes."

The gray-clothed girl looked at Su Yu with eager eyes. She was afraid but did not dare to retreat. She said, "Must we kill them all like this?"

Su Yu was expressionless. "How troublesome!"

He held the absolute heaven sword and waved it lightly. The sheathed absolute heaven sword drew a sword scar that was neither light nor heavy, and it slashed across the girl's body.

Chi La --

The right amount of power shook off the gray robe on the gray-clothed young girl's body, revealing her true appearance.

It was a twenty-year-old girl wearing a pink dress.

Her appearance was ethereal and beautiful, just like a wild elf.

Her figure was slender and tall, and her skin was as white as snow.

It turned out that she was still a beautiful young girl who had just matured.

However, what Su Yu was concerned about was not her beauty, but her appearance. Her cold eyes were like melting icebergs, filled with blazing sunlight and excitement.

"Cai'er? It really is you!" Su Yu's voice was a little excited, and it seemed to be incoherent.

The young girl hugged her in front of her even tighter, and her eyes were filled with tears as she said, "What do you want?"

Just now, the saint of thieves had called her name Cai'er, so she did not react differently to Su Yu's call.

"Su Cai'er, why are you here?" Su Yu excitedly went forward, grabbed her shoulders, and asked in surprise.

The girl in front of him was none other than Su Cai'er, who had left without saying goodbye and went out to train!

At that time, the eight-star civilization had not yet fallen to the fate of being destroyed by the sacred mountain. Su Yu had been worried that Su Cai'er had already been destroyed by the sacred mountain.

However, he had not expected that not only did she not die, but she had actually come to the nine-star civilization and become the disciple of the saint of Thieves!

It was simply unbelievable!

"Who are you?" Su Cai'er struggled free from him vigilantly. Her pupils constricted as she shouted.

In the nine-star civilization, she had never told anyone that her surname was Su.

Even her master, the saint of Thieves, only knew that her name was Cai'er.

"You can read minds?" Su Cai'er said in a serious tone.

Only in this way could she know her hidden surname.

Su Yu smiled excitedly. "I'm your father..."

Before he could finish his sentence, Su Yu's voice suddenly stopped.

If he announced his identity, how would he be able to recognize Su Cai'er as a woman?

As a father, how could he have the face to meet a woman as a woman?

"You're my father?" Su Cai'er was so angry that she stared at him. "Don't talk nonsense!"

Su Yu quickly changed his tone and said, "Ahem, what I mean is, I'm a friend of your father, Su Yu."

Su Cai'er was stunned. She was sure that there were not many people in the nine star civilization who knew her father and knew her.

For a moment, she could not help but believe more than half of it. She muttered, "You really know how to take advantage! You still want to be my father? HMPH!"

She looked askance at Su Yu and said, "What friend of My Father Are You?"

Su Yu thought for a moment and said, "My name is ruyu. I'm a friend that your father met in the galaxy civilization."

"Ruyu? Isn't that a woman's name?" Su Cai'er's delicate eyebrows furrowed.

Su Yu coughed dryly and changed into a woman's voice, "Well, physically speaking, I am indeed a woman."

Hearing the woman's voice, Su Cai'er became even more suspicious. "What's your relationship with my father? Are you really just friends?"

Heh!

Su Yu could not help but glare at her. "What else could it be other than friends?"

Su Cai'er snorted. "That's not necessarily true! I heard from my mother that my father was very flirtatious when he was young. He never lacked women by his side."

She sized Su Yu up and said, "He's so mysterious. One look and you can tell that he's mixed up with my father!"

Really, Su Yu had the urge to beat her up.

How could she say that about her father?

Even though it was the truth..

"Ahem, let's not talk about this for now. Why did you come here? Don't you know that this place is very dangerous?" Su Yu looked around again and frowned deeply.

Not only was he cursed, Su Cai'er should also find it hard to avoid it.

Su Cai'er blinked and said hesitantly, "This, can you let go of my master first! Really, she's a good person. She thought that you were a bunch of bastards from the famous sword Saint clan and that's why they stole your heaven-defying sword."

"But I didn't expect you to be my father's friend! Can you let my master go on account of my father? It's really just a misunderstanding."

Su Yu waved his hand and said, "Forget it. Since she's your master, then let bygones be bygones!"

He wanted to have a good chat with Su Cai'er about how she had survived all these years, so he said, "This is not the place to talk. Let's leave quickly to avoid the curse."

Su Cai'er quickly said, "Thank you, Aunt Ruyu, but we can't leave yet."

Aunt... Ruyu?

The corner of Su Yu's mouth twitched, and he said, "Why can't we leave?"

Su Cai'er helped the saint of thieves up and said, "Let my master talk. I don't really understand either."

The Saint of thieves wiped the blood from the corner of his mouth. He was really unable to adapt to the sudden turn of events and was still a little dazed.

The person who almost killed her was actually a friend of his disciple's father.

If his friends were so powerful, then what was his father's strength?

Why had he never heard Cai'er mention it before?

She paused and looked deeply at Su Yu. "I wonder what is your relationship with the son of Heaven of the Sacred Mountain."

Su Yu said without hesitation, "Irreconcilable."

The hatred between him and the son of Heaven of the sacred mountain could not be washed away no matter how long it took.

Seeing the sincerity in his expression, the saint of thieves said, "Then, there's no harm in telling you!"

She pointed at the pulsating womb, "Do you know what this is?"

Su Yu stroked his chin and shook his head slightly, "The rumors say that it's a womb that breeds fossils. Now it seems that's not the case."

The Saint of thieves nodded deeply, "That's right! This is indeed not a womb that breeds fossils, but a womb that breeds... the son of heaven of the stone embryo!"

'HMM??'

Su Yu's heart trembled violently, and his gaze instantly sharpened. "You're saying that a fossil is a stone fetus emperor?"

The Saint of thieves shook his head. "To be precise, a fossil is a stone fetus emperor in the womb of a stillborn child. If it is successfully given birth, then it will be a new stone fetus emperor."

This was the first time Su Yu had heard such a statement, and he could not help but feel that it was impossible.

Since ancient times, there had been ten stone-born sons of Heaven. Where did the eleventh come from?

Moreover, it was widely known that the stone-born son of Heaven was born in the sacred mountain. Only the magical land where heaven and earth were created could give birth to a stone-born son of heaven.

"It's hard to believe, isn't it? But that's the truth," said the saint of Thieves. "In the last era, Ren Zu killed two sons of heaven. Among them, the mirror flower son of Heaven used his great divine ability to seek reincarnation."

"But the other son of heaven must be reborn in another way."

Su Yu's pupils constricted. It was self-evident who the other son of Heaven was -- the nine-tailed son of heaven!

Chapter 2965 Destruction Of Fossils

But wasn't nine-tailed Emperor already dead?

How could he be reborn?

Back then, nine-tailed Emperor's stone statue had been shattered by Ren zu with the cauldron of life. It was in disrepair and had no chance of being reborn.

But when he thought about mirror flower emperor, Su Yu hesitated again.

Mirror Flower Emperor was still in pieces, but he was using the remains as a foundation to prepare for rebirth and had almost succeeded.

If Su Yu did not have the sinkhole divine monument, which was just enough to counter it, the mirror flower son of heaven would have already been reborn by now.

If the mirror flower son of heaven could still be reborn, why couldn't the nine-tailed son of Heaven?

However, the mirror flower son of Heaven had most of his remains, so what did the nine-tailed son of heaven rely on?

Suddenly, Su Yu's heart moved, and he took out a jade-green bead.

The bead emitted a round luster, and there was a faint flash of spiritual light.

What was even stranger was that there was an eye on the bead that flashed and disappeared.

It was as if this was not an ordinary spatial storage item, but a living eye.

This object was nothing else but the nine jade spirit bead that had not been used for a long time.

The true body of the nine jade spirit bead was the eye of the nine-tailed emperor.

Back then, the other eye that originated from Huangfu Yi released the first ancestor of the demon race, the Demon Emperor.

The remaining eye came from the remains of the nine-tailed emperor. In terms of purity, this eye was clearly superior.

"The stone statue of the nine-tailed emperor has already been torn apart. Only this eye retains its essence," Su Yu muttered.

If the nine-tailed emperor wanted to be reborn, he had to use this eye.

"If you want to be reborn, you have to ask Me First!" Su Yu said indifferently as he put away the nine jade spirit pearl.

Su Cai'er didn't hear what Su Yu was mumbling. "And one of the other ways to be reborn is this kind of womb."

Then, Su Cai'er said with hatred, "The son of Heaven of the sacred mountain did everything for himself. He didn't care about the lives of the other creatures in the absolute beginning realm."

Su Yu looked at the womb and squinted. "Are you trying to say that the fossil inside is actually a part of the body of the nine-tailed son of Heaven?"

Su Cai'er nodded. "That's right!" "Back then, when Ren zu shattered the nine-tailed emperor, it no longer had the body of a stone statue. It could only reassemble its body. This fossil is actually the body of the son of the Sage Mountain, formed by absorbing the essence of the nine-star civilization."

She clenched her fists and said, "How hateful of the son of the sage mountain to deceive the common people and say that the fossil is the self-birth of the nine-star civilization!"

Su Yu finally understood why the sacred mountain explicitly forbade the excavation of fossils.

It turned out that the so-called nine-star civilization's Crystal Core was actually the body of the nine-tailed son of heaven!

In that case, the so-called curse on the blood mountain was most likely related to the sacred mountain.

Among the ten son of Heaven of the Sacred Mountain, one of them was proficient in curses.

If not for that, it would be difficult for such a terrifying curse to protect the successful birth of fossils.

"However, it is very difficult to successfully nurture fossils, and the vast majority of them fail," Su Cai'er said. "After exhausting all the essence of the nine-star civilization, it is not possible to nurture ten fossils."

Su Yu thought for a moment and asked, "The abandoned civilizations outside the galaxy also declined because of this?"

Su Cai'er said, "Of course! Any civilization has the ability to self-repair, how can it be completely exhausted by ordinary mining? This is the sacred mountain's claim to the outside world, saying that it is caused by too many creatures, but in fact, it is not the case at all."

"Everything is the sacred mountain's own sin!"

Hearing this, Su Yu was suspicious and asked, "As far as I know, the nine-tailed emperor was destroyed before an era, and the abandoned civilization of the galaxy civilization did not just dry up within an era."

Su Cai'er was also a little confused about this and looked at her master in confusion.

She only knew one part of the past, but not the other.

The Saint of thieves was silent for a while, then said, "The sacred mountain absorbs the essence of each civilization to restore their bodies. More importantly, they need to maintain their own existence."

Maintain their existence?

Su Yu squinted. This was the first time he heard that the existence of the son of Heaven of the sacred mountain needed to be maintained.

"What do you mean?" Asked Su Yu.

The Saint of thieves said slowly, "Literally! The son of Heaven of the sacred mountain isn't a creature of the absolute beginning realm. He forcefully came to the absolute beginning realm and occupied the sacred mountain. The absolute beginning realm regarded him as an alien and rejected him."

"In order to resist this repulsive force, the son of Heaven of the sacred mountain kept absorbing the essence of every civilization. That's why almost all civilizations were destroyed."

Hearing this, Su Yu understood and solved the doubts in his heart.

The reason why the eight-star civilization was massacred by the sacred mountain every era was probably because of this.

"Moreover, the most terrifying thing is that the nine-star civilization is the only civilization that can support all of us. Once it is destroyed, there will be no place left for us to live."The Saint of thieves was full of hatred.

"However, in order to maintain his own existence and revive the nine-tailed emperor, the son of Heaven still destroyed the remaining nine-star civilization unscrupulously."The Saint of thieves looked at the palace with hatred in his eyes.

"That's why we took the risk to come to the place where the fossils were born. We did everything we could to successfully kill the fossils in the palace,"the saint of Thieves said.

Su Yu's heart moved. "US?"

The "We"she was talking about was clearly not just her and Su Cai'er, but another group of people.

The Saint of thieves was vigilant and did not continue, afraid of revealing their existence.

"You've already understood the matter. Whatever you want to do, you can do it yourself,"the saint of Thieves said.

Su Yu stared at the womb, a thoughtful look in his eyes.

He thought of a small civilization that he had once seen scattered in the vast galaxy -- the mecha civilization.

That civilization had completely transcended the world of martial artists and became an extremely ordinary small civilization, somewhat similar to Earth back then.

However, it was much more advanced than Earth.

Now that he thought about it, those civilizations should have been created by the son of Heaven of the Sacred Mountain, right?

The goal was to create more civilizations that were suitable for martial artists to live in.

However, if it really came to that kind of low-level martial arts era, it would definitely be an era where martial artists would collapse. Only the weak would be able to survive.

Therefore, if nothing unexpected happened, the sacred mountain might carry out a bloodbath on all the powerful creatures in the world. They would only keep the ordinary creatures that were similar to the mech civilization.

However, what was the meaning of that?

Su Yu couldn't understand it. The son of Heaven of the sacred mountain had used up all the resources in the absolute beginning realm. Even if he created a small civilization like the mech civilization, what was the meaning of it?

Such a civilization had little or no spiritual energy. It was impossible for the son of Heaven of the sacred mountain to maintain their existence.

"Forget it. Let's take care of the uterus first."Su Yu shook his head. The level he was standing on was still too low. There were many things he didn't know yet.

He looked at the uterus and couldn't help but clench his absolute heaven sword.

The Saint Stealing Union stopped him. "Wait! Break the uterus now, unless you don't want to live."

Su Cai'er nodded repeatedly. "Yes, you saw the residual fluid in the uterus just now. Even the slightest touch will kill you."

Su Cai'er said, "When the fossils inside mature and the uterus shrinks, it will be the best time for us to destroy the fossils."

Chapter 2966 The Cause And Effect

Hearing this, Su Yu shook his head. "Why is there a need for so much trouble?"

He said lightly, "All of you, back off."

Seeing that he could not stop them in time, the thieving sage could only back off and protect Su Cai'er.

Su Yu waved his finger and an origin level spatial domain surrounded the three of them. This scene caused Su Cai'er's expression to change. She stared at Su Yu in shock. "Origin level spatial domain?"

Wasn't this her father's unique skill?

However, before she could ask, Su Yu held the Absolute Heaven Sword in his hand and slashed towards her uterus.

Splash --

The pulsating uterus was sliced open on the spot and large amounts of green liquid flowed out from it. Wherever it splashed, it would corrode. Even space was no exception.

Su Yu immediately sheathed his sword and activated his yuan level spatial domain, forming a huge lotus net around them.

The splashing liquid corroded the lotus net, causing it to shake. However, it was barely able to block it and did not break.

The Saint of thieves let out a long breath and his gaze towards Su Yu changed. "Don't tell me that this is the ancestral technique that you stole from the spatial saint clan."

The ancestral technique of the spatial saint clan could not be stolen.

This was because the ancestral technique was all passed down in the bloodline and only descendants could cultivate it.

Once a spatial saint clan member died, their corpses would be automatically destroyed by the spatial domain within their bloodlines, and not a single hair would be left behind.

Su Yu's origin level spatial domain was something that only the elders of the spatial saint clan could cultivate.

Where did Su Yu get his origin level spatial domain?

But just as she was about to ask in detail, Su Cai'er, who was behind her, already screamed out, "Mother?"

After her uterus was ruptured, a slim and slim figure stood on the spot, wet.

She had fair skin and a slim figure. Two watery purple crystal eyes hung on her handsome face. At first glance, she looked like a mountain elf.

Her appearance was seventy percent similar to Su Cai'er's.

Su Yu was also stunned.

That was... Qin Xian 'er!

The baby in the womb was actually Qin Xian 'er?

"Mother!" Su Cai'er broke free from the saint of thieves and dashed towards Qin Xian 'er.

However, just as she took a step forward, Su Yu drew his sword and slashed.

The cold sword light split the sky and split Qin Xian 'er into two.

Bright red blood flowed out and stained the ground.

Su Cai'er was stunned and shouted, "What are you doing? Why Did You Kill My Mother?"

Su Yu lowered his head and said in a low voice, "That's not your mother."

Her mother had died not long after Su Cai'er left.

What was standing there was only a fossil.

Moreover, it was a spiritual fossil that could peer into people's hearts. It knew where the darkness in Su Yu's heart was, so it condensed Qin Xian 'Er's shadow.

As expected.

When Qin Xian 'er fell to the ground, her body was immediately petrified and turned into a broken stone man.

Su Cai'er's eyes were filled with surprise, and she said in confusion, "This is..."

The Saint of thieves said expressionlessly, "This is the self-protection ability of the fossil when it senses danger. It will condense into the darkest person or thing in the hearts of the nearby creatures, and then use it to control the enemy."

As he said that, the saint of thieves narrowed his eyes and looked at Su Yu. "Su Cai'er and you both saw the same person! But, this person is Su Cai'er's mother, but who are you to this person? Why is the darkest place in your heart also her?"

The person who spoke had a heart, but the person who heard it had a heart.

Su Cai'er's ears twitched and she cast a suspicious gaze at Su Yu. "Oh right, what is your relationship with my mother? How did the fossil sense that the person in the darkest place in your heart is my mother?"

She rolled her eyes and said with a smile that was not a smile, "Could it be that there is an ill-fated relationship between you and My Mother?"

She had never thought that her mother would let her father down. After all, this black-robed man was a woman.

Su Yu slowly sheathed his sword. His tone was indescribably low as he said, "Don't joke about your mother."

Su Cai'er did not know that her mother was no longer in the human world.

"You really care too much!" Su Cai'er snorted disapprovingly. She was about to continue asking Su Yu who he was.

Suddenly, the gravel on the ground shook and suddenly flew into the sky.

In one of the stones, there was a pearl that was emitting a faint light. It carried all the stones and flew into the sky.

Seeing this scene, the saint of thieves was shocked. "Not good, this fossil has been successfully nurtured."

Most of the fossils would be stillborn due to various reasons. These fossils would usually be snatched away by many forces and the remaining power would be absorbed.

Only a few would be lucky enough to successfully breed them and head straight for the sacred mountain.

This fossil was one of the few that had succeeded. The shimmering stone fragments were the best proof.

Now, it was heading straight for the sacred mountain.

Su Yu narrowed his eyes. "I'm here. Do I have to let you return to the Sacred Mountain?"

He clenched his five fingers, and the entire top of the blood mountain turned dark. A pitch-black spatial giant palm descended from the sky and slammed down ruthlessly.

Bang --

Most of the crushed stones were smashed down. Only the shimmering crushed stones were still stubbornly charging upwards.

"Humph!" Su Yu pressed down with his palm. The pitch-black demonic palm clenched fiercely and pinched the shimmering crushed stones. Then, it quickly pressed down.

Even so, the crushed stones continued to resist, trying to break free from Su Yu's control and fly towards the sacred mountain.

Su Yu walked over and stepped on it. He said calmly, "You want to be a part of the nine-tailed Emperor's body? You have to ask me first."

As he spoke, Su Yu took out the nine-jade spiritual pearl and activated it.

Immediately, the broken stone floated up uncontrollably and was automatically absorbed into the nine-jade spiritual pearl.

As the only remaining body core of the nine-tailed emperor, the nine-jade spiritual pearl naturally had the ability to control the rest of its body.

Unfortunately, this nine-jade spiritual pearl had been refined by Su Yu for many years and had long been under his control.

After that, he collected the remaining stone fragments one by one, not leaving a single piece behind.

Seeing this scene, the saint of thieves was stunned. "It's over just like that?"

The Saint of thieves remembered that every time he encountered a fossil that was successfully nurtured, there would be an earth-shattering battle. Countless people would die.

The lightest battle had also resulted in the serious injuries of several great saints, with some of them even dying several times.

Hence, a fossil that was successfully nurtured would never allow itself to be captured alive.

It would often use extreme methods at the last moment, such as self-destruction.

The consequences would be exceptionally severe.

However, he did not expect Su Yu to successfully recover the fossil with a jade-green bead. It was truly unbelievable.

"This bead of yours seems a little special," said the saint of thieves with narrowed eyes.

This person was really full of secrets and could not be seen through at all.

Su Yu put the bead away expressionlessly. He looked at the empty bloody mountain and said, "Let's leave this place first and get rid of the curse first."

Although the fossil had been retrieved, it did not mean that they were safe.

The curse was still there.

The Saint of Thieves Thought for a moment and said, "Come with me. We have a way to deal with the curse."

Since she had rushed here, she was naturally prepared.

Chapter 2967 The Famed Sword Saint Clan

The thieving sage flew upwards and Su Yu immediately followed closely behind.

However, when he reached the sky above the blood mountain, he heard a huge commotion!

It turned out that a few pieces of debris had shot up into the sky, causing many experts to mistakenly think that the fossils had come into being and rush over to snatch them.

Coincidentally, Su Yu and the other two bumped into each other.

"You're Not Dead Yet?" A great sage remembered Su Yu and could not help but exclaim in shock.

It was rare for someone to enter deep into the Blood Mountain and not die.

"Not good, the fossils are all gone!" Another great sage who had rushed over exclaimed when he discovered the situation at the bottom of the blood mountain.

Instantly, pairs of eyes locked onto Su Yu, the saint of thieves, and Su Cai'er.

"Hand over the fossils!" A group of people silently surrounded the three of them in the middle.

The fossils had the hope of becoming saints. How could they give up just like that?

The saint of thieves frowned slightly. There were five or six great saints in front of them. How could they be their opponents?

However, the Saint of thieves was not afraid. He snorted coldly and said, "A bunch of ignorant fools! If you want the fossils, you have to ask US First!"

She flipped her palm and a rotating flame token appeared in her palm.

In the center of the token, a yin-yang fish eye appeared. It was like a tai chi.

"Heaven and Earth Alliance?" The great saints' pupils constricted. Their eyes were filled with fear.

Which one of them was not a top-tier powerhouse who guarded a region.

However, in front of this token, all of them showed fear.

One could imagine the importance of the three words, Heaven and Earth Alliance.

"Since you know, then leave. If the Heaven and Earth Alliance doesn't want to get into trouble, it's better for you to leave." The Grand Sage of thieves put away the token and said.

The six Grand Sages looked at each other and gritted their teeth and left.

Su Yu was surprised. Heaven and Earth Alliance?

What kind of power was this?

Not only was it unheard of, it was also so powerful!

Before he came to the nine-star civilization, he had read many books related to the nine-star civilization, including the division of the various powers. He had some understanding of them.

However, this so-called heaven and Earth Alliance definitely did not exist in the introduction of any books.

However, it was also well-known by the many mighty figures of the nine-star civilization, so it was very strange that they were afraid of it.

However, it was naturally a good thing to use the fame of the Heaven and Earth Alliance to temporarily leave this place.

Otherwise, it would be extremely troublesome to deal with so many great saints.

"Let's Go!" The bandit saint led the two of them through the encirclement of many experts and left calmly.

However, just as they were about to leave the blood mountain, the bandit saint's eyes flashed and she shouted anxiously, "Be careful!"

A green whirlwind swirled around her and protected herself, Su Yu, and Su Cai'er in the middle. She then fled at an astonishing speed.

Bang

However, a few steps later, a huge golden bell appeared not too far away from them. Then, the huge bell suddenly shook.

Buzz! Buzz! Buzz

The sound of the bell that shook one's soul swept across the area.

The nearby great sage experts were caught off guard. They could not help but cover their ears in pain.

The ancient sage experts' eyes turned black, and their ears bled as they cried out in agony.

Even though the saint of thieves was on guard, the green whirlwind around him was still jolted away immediately.

Thus, it was fine. Su Yu and the other two who were in the depths of the Whirlwind also suffered soul attacks.

"HMPH!" The Saint of thieves grunted as blood flowed from his ears.

Su Yu felt his soul shudder violently, and it was extremely painful.

It was fortunate that his soul had always been powerful, and he was also a top-tier cultivator in the soul domain. As such, he was able to neutralize the soul attacks to the minimum.

At the same time, he also divided most of his soul domain to protect Su Cai'er.

Compared to him, Su Cai'er was much weaker. She couldn't withstand a soul attack from the golden bell at all.

Therefore, Su Yusheng suffered a heavy attack. He grunted and spat out a mouthful of blood.

This was because the bandit saint had offset part of the attack with the Cyan Whirlwind. If he had attacked directly, he wouldn't have just spat out blood.

"Yimo Soul Calming Bell?" The Grand Sage of Thieves' eyes were solemn as he said in a low voice, "One of the ten most important treasures of the famed sword Saint Tribe?"

When the nearby grand sage experts noticed the existence of this bell, their expressions changed drastically.

Those who were more tactful left this place. They realized that something bad was about to happen.

Those who were not tactful remained silent as they observed their surroundings.

Since the Yimo Soul Calming Bell had appeared, it meant that someone from the famed swordmaster race had appeared nearby.

"Hehe, looks like there are still people who remember our race." A hoarse voice sounded.

From the foot of the Blood Mountain, in a hidden forest, two elders dressed in black robes walked out.

Upon seeing them, Su Yu immediately recognized them. They were the two ranked slightly lower out of the five great saints of the famed swordmaster race.

Back then, when he was being hunted by the famed sword Saint tribe, Su Yu had no choice but to charge into the deep pit. He had to experience many dangers before he managed to escape.

When he saw the two grand sages of the famed sword Saint tribe again, he naturally did not have a good expression on his face.

Furthermore, if he was not wrong, the two hidden grand sages that Su Yu sensed earlier were most likely them.

The other elder said indifferently, "I thought that after the incident with the famed sword Saint tribe, the world had already forgotten about us. It's rare that you still recognize us."

The Saint of Thieves' heart was heavy. The Tiandi Alliance could intimidate most of the great saints, but the sage of the sword was not one of them.

The great saints of the sage of the sword not only had powerful cultivations, but they also had the best dao artifacts of the nine-star civilization.

Their overall strength was one level higher than their peers, and they were very difficult to deal with.

The power of the Yimo Soul Calming Bell just now was the best proof.

The pirate sage cupped his fists and said, "So you're a fellow Daoist of the famous sword Saint Clan. How could we not recognize you?"

It would be best if they could resolve this peacefully. Fighting was their final plan.

"Since you know me, why don't you hand over the fossil and get out of here?" The black-veiled elder said rudely.

The Pirate Sage was troubled. The fossil they had retrieved wasn't an ordinary thing. If they weren't careful, they could fly to the sacred mountain. Then, the nine-tailed emperor would be reborn one step further.

Now, there were only eight emperor's left. They had suppressed the creatures of the absolute beginning realm until they couldn't breathe.

If they had one more emperor, it wouldn't be easy to resist them?

"Why are you talking nonsense with him? Just kill him." The other old man didn't have any patience. Seeing thieving saint hesitating, he prepared to use the Yimo Soul Calming Bell.

Thieving saint's pupils shrank.

How could she withstand the second attack of the Yimo Soul Calming Bell?

However, just as the other party was about to activate it, Su Yu suddenly cast a spatial domain and instantly teleported the Yimo soul calming bell in front of her.

Seeing this, not only did the two elders not panic, but their eyes revealed traces of ridicule instead.

"If the Dao artifacts of our famed sword Saint clan were so easy to take away, our clan would have long been exterminated!" As he spoke, an elder cast a spell on the spot and actually activated the Yimo soul calming bell across space.

However, in the instant before he cast it, Su Yu took out a jade-green ball. This was the exquisite ball that the ruler of life had given him back then.

Chapter 2968, The Great Battle Against The Black Ape

Once Su Yu activated it, a jade-colored light surged out from the exquisite sphere and enveloped the YIMO soul-subduing bell.

The blood essence marks that had been refined by the famed sword Saint Clan for many years were all extracted on the spot.

This caused the old man's chest to tighten. He opened his mouth and spat out a mouthful of blood. His face was filled with shock as he asked, "How did one of the life Saint Clan's clan-guarding treasures end up in your hands?"

Su Yu smiled faintly. "How do you think I'll answer you?"

With a flick of his finger, a drop of blood essence flew out and quickly fused into the Yimo soul calming bell through Ling Long Qiu.

Seeing this scene, another old man from the famous sword Saint Clan was furious. "Stop!"

That was one of the great treasures of the famous sword Saint Clan. How could it fall into the hands of others?

The status of the famous sword Saint clan was not as high as before. If one of the clan's clan-guarding treasures was snatched away on the spot, it would only attract the covetous eyes of even more powerful people.

At that moment, the man took out a black iron ring and immediately activated it.

An Ape's roar immediately came from within the black iron ring!

The pirate saint's beautiful eyes narrowed again. She pulled Su Cai'er back and exclaimed, "Has the famous sword Saint Clan Gone Mad? They took out two clan's treasures at once? They even took out the third-ranked black ape slave ring!"

If the Yimo Soul Calming Bell was said to be extremely powerful, then this black ape slave ring could be said to be terrifying.

If it was used by a great sage, he could fight against a peak great sage. The power of the ring could be imagined.

"It's good that you know. Just accept your death!"

Whoosh --

A black light suddenly appeared within the black iron ring. A huge ball of black light emerged from the ring and condensed into a pitch-black ape the size of a mountain.

The Black Ape wore a golden crown on its head and silver-white armor all over its body.

On its right leg, there was a black iron ring.

The old man chanted an incantation silently. The black iron ring gradually turned red, causing the black ape to howl in pain and beat its chest vigorously.

"Destroy him!" The old man pointed at Su Yu coldly and ordered the black ape to kill.

The black ape lowered its head and its scarlet eyes immediately stared at Su Yu.

The moment it stared at Su Yu, Su Yu felt a chill on his back and felt a sense of danger.

The grand theft saint hurriedly said, "Be careful! That Black Ape was once the third-ranked Saint Tribe's black ape ancestor. After it was replaced by the famous sword Saint tribe, the Black Ape ancestor's consciousness was destroyed and refined into the famous sword Saint Tribe's Clan Guardian Divine Beast."

In such a competitive place of a nine-star civilization, even the saint tribe had the possibility of being annihilated.

Back then, the Black Ape Saint Clan was ranked third, and their strength was unimaginable. Although their sanity had been wiped out and their strength had been greatly reduced, how low could it be?

Roar --

The black ape stomped down, and the scene was like the collapse of the heavens.

Su Yu's heart trembled, and he grabbed the Yimo soul suppressing bell that he had yet to refine and retreated repeatedly.

He barely retreated, and his huge foot stepped on the blood mountain.

In the end, with a rumble, the blood mountain was razed to the ground, leaving behind a huge footprint that was hundreds of thousands of feet deep.

Su Yu had just dodged an attack when a strong fishy smell and scorching heat surged over.

He raised his head and saw that it was actually a black ape that spat out a ball of black flames from its nostrils and attacked in all directions.

Su Yu shot out a spatial yuan level domain and used the spatial collapse to swallow all the flames.

Who knew that the black flames would actually burn through the spatial collapse and head straight for Su Yu.

Fortunately, with this interval of time, Su Yu had already avoided it once again.

However, the Black Ape's combat strength was extremely powerful. Before the two attacks could hit it, it was already prepared to pull out the huge chain on its waist and ruthlessly lashed out from top to bottom.

Bang --

Su Yu only felt a blurry afterimage before he was ruthlessly lashed by the chain.

His body was flung out of the sky like a meteor.

At this moment, Su Yu felt as if his entire body was about to explode, and he was in intense pain everywhere.

However, he did not have the time to care about the pain. His rich battle experience told Su Yu that the second attack of the Black Ape would appear immediately.

As expected, another blurry afterimage attacked.

Su Yu was prepared and dodged to the side.

The afterimage of the chain brushed past the space a thousand feet behind Su Yu and smashed down, causing the space to explode. Su Yu was blown away on the spot, and a fishy smell filled her throat.

She was furious. If she had not been focused on refining the Yimo soul calming bell, she would not have been in such a sorry state.

Roar --

The two chains failed, and the black ape lashed out with another chain.

The thieving saint gritted her silver teeth and rushed out in an instant. A fierce ancestral spell condensed between her fingers and attacked the Black Ape's back. She muttered to herself mockingly, "What kind of world is this? I actually want to help injure my people?"

However, when the ancestral spell struck the back of the black ape, only a crisp sound of collision could be heard.

It turned out that the Black Ape's silver-white armor was the number one treasure of the Black Ape Saint tribe. It had also been improved and tempered by the famous sword Saint tribe for many years. Its hardness could not be compared.

Not to mention the Grand Sage of thieves, even the famous sword Saint Tribe's Huang Grand Sage, who held the most powerful offensive magic treasure of the famous sword Saint tribe, might not be able to break the silver-white armor.

Under the attack, the black ape whipped out a chain towards Su Yu and immediately turned towards the Grand Sage of stealing.

The Grand Sage of stealing was best at movement techniques. Her beautiful eyes narrowed and she blocked it with astonishing speed.

One had to know that even Su Yu was unable to dodge it head-on, yet she was able to dodge it in time.

However, the good times did not last long.

She had just dodged the chain when the Black Ape's prepared punch struck the Grand Sage of stealing.

With this punch, the saint of thieves' weak body would probably be turned into meat paste.

At the critical moment, the saint of thieves drew two ancestral spells beside him.

One of them was the Buddhist protective spell from before, and the other was a high-level protective ancestral spell.

In the end, the protective ancestral spell on the surface was instantly crushed by the fist.

The protective golden light that was close to his body was frozen for a moment before it finally shattered with a crack.

He was sent flying by the Black Ape's fist!

Fortunately, he had two defenses that greatly weakened the current attack, allowing the saint of thieves to survive.

However, he could only survive.

His soul had been severely impacted, causing him to become disoriented. His body was on the verge of collapse.

"Master!" Su Cai'er immediately rushed forward and hugged him, her face filled with heartache.

Unexpectedly, the Black Ape's ferocity had already erupted. Once it started killing, it was determined to kill until the end.

The chain in its palm was raised and swung down toward the weakened grand theft saint and Su Cai'er.

This time, it was enough to turn the two of them into powder.

At the critical moment, Su Yu finally succeeded in refining the Yimo soul suppression bell.

Without saying anything else, he activated the bell.

Buzz --

With a loud sound, the terrifying soul attack went straight into the Black Ape's soul.

The Black Ape's soul had already suffered damage from the famous sword Saint Clan. It was not strong, so how could it withstand a violent soul attack?

The hand that it pulled out immediately trembled, and the chain left its hand. It hugged its head and roared incessantly.

Although the chain's momentum weakened, it still went straight for Su Cai'er.

Su Yu's expression changed drastically.

Xian 'er had already died. Should he let Cai'er go as well?

If that was the case, how would he have the face to see Xian 'er again?

Chapter 2969 Second Form

Without any hesitation, Su Yu charged forward on instinct, using his own body to forcefully block the chains.

In front of the chains, Su Yu continuously cast a few ancestral spells, forming a powerful defense around his body.

However, these defenses were not even as strong as paper in front of the Black Ape's chains.

Boom --

Several ancestral spell defenses shattered on the spot, and the chains bombarded Su Yu's body without any hindrance.

He tried to use his hands to borrow the chains, but the chains were too terrifying. They directly crushed Su Yu's arms and lashed at his chest.

Su Yu had a premonition of great danger. If he dodged and retreated at this moment, he still had a chance to survive.

However, if he retreated, what would Su Cai'er do?

"Get lost!" Su Yu roared in a low voice. He couldn't help but release all eight domains in his body, and they fused into an eight-colored ring.

Kacha --

When the ring was pulled by the chain, a huge crack immediately appeared.

Su Yu tried his best to repair the domain.

However, the domain was broken in an instant. The speed of repair couldn't catch up at all.

After two breaths of time, the eight Yuan level domains finally couldn't hold on anymore and shattered with a bang.

However, after a long time, the power of the chain was reduced by more than half.

When the chains hit Su Yu's chest, they didn't immediately turn him into a bloody mess.

Su Yu gritted his teeth and pressed his feet firmly against the ground. He would never allow the chains to cross him and hurt Su Cai'er.

That was the only bloodline between him and Xian 'er!

Traces of fresh blood were pushed back by the chains and splashed all over Su Cai'er's body.

Looking at Su Yu who used his body and life to protect himself, Su Cai'er was stunned and her mind went blank.

If it was not because Su Yu's clothes were torn and she saw the woman's body under the black robe, she might have really thought that she was his biological father.

After holding on for a while, the power of the chain became weaker and weaker until it finally calmed down.

Su Yu's body was already a bloody mess and he did not look like a human.

His arms were lost and his chest was only left with bones.

Fortunately, this was the body of the illustrious prince and it was extremely hard. If it was Su Yu's original body, he would have been destroyed into dust.

Hu --

As the chain fell to the ground, Su Yu fell to the ground weakly. He didn't even have the strength to move.

He had used up all of his strength to block the chain earlier. Now, any Random Heavenly Dao master might be able to kill him.

The worst thing was that the Black Ape didn't have any intention of stopping after being killed by the Yimo Soul Calming Bell. Instead, it became more and more irritable.

It held its head and roared crazily, attacking indiscriminately.

Even the two great saints of the famous sword Saint clan were affected, and their bodies trembled.

"Evil creature, be quiet!" The old man controlling the black ape slave ring urged the slave ring in an attempt to subdue the black ape that had lost control.

However, the Black Ape's soul was attacked, and its feet were injured by the slave ring. It became even more agitated.

Pu --

It opened its mouth and spat out purple flames that swept out in all directions, covering an area of tens of thousands of kilometers.

Even the two elders of the famous sword Saint Clan were no exception.

"Damn it! Retreat first! The Black Ape is temporarily out of control," the elder said.

"But my yimo soul suppressing bell..." another elder said hesitantly.

"Who cares about the bell? Right now, the Black Ape is only in its first form. If it reaches its second form, everyone in the world will be destroyed." The elder who controlled the black ape slave ring was the one who knew the most about how terrifying the Black Ape was.

The other elder could only nod and escape with the other elder.

They could only wait until the black ape had vented enough before taking it back.

With so many experts escaping one after another, how would Su Yu and the others dare to stay?

"Aunt Ruyu, master!" Su Cai'er struggled to help the two of them up at the same time. Her small face was filled with difficulty.

The Saint of thieves was still fine, but Su Yu had the body of a son of heaven.

Back then, a mirror flower emperor's heart could easily destroy a five-star civilization. One could imagine how heavy it was.

Su Cai'er's cultivation was shallow, so it was impossible for her to help him up.

"I'm fine." Su Yu forced himself to stand up. Looking at the crazy black ape, he said, "Retreat first. This black ape is still a great threat."

He could feel that this black ape was extremely terrifying.

Roar --

However, just as they were about to leave, the black ape suddenly stared at Su Yu. Although it was in a state of madness, it still did not forget the order given to it by the famed swordmaster tribe.

In addition, Su Yu was the one who had activated the Yimo soul calming bell, causing damage to its soul. This made it even more resentful towards Su Yu.

It crouched down in a strange manner, raised its fists high, and fiercely lowered them towards the ground.

"Get out of the way!" Su Yu pushed Su Cai'er and the saint of thieves away. The Black Ape was obviously coming for him!

Bang Bang --

Suddenly, the ground under Su Yu's feet exploded. A shocking destructive force tore through the ground and jumped out from under his feet.

It looked like it was going to kill Su Yu, whose body was already heavily injured.

At the critical moment, Su Yu took out the heaven-defying sword.

His hands were already crippled and had yet to recover. He bit on the hilt of the heaven-ending sword and pulled it out.

He was originally a weak body and did not have the ability to fully use the heaven-ending sword. However, he could not care so much now.

"Scram!" Su Yu swept around on the spot.

The heaven-ending sword erupted with the power of dark annihilation and devoured everything in its surroundings. Even the power that erupted from the ground was forcefully wiped out by the heaven-ending sword, leaving nothing behind.

Not only that, the remaining power also swept towards the black ape.

The furious Black Ape's blood-red eyes revealed a hint of fear for the first time as it hurriedly retreated.

Not only that, it even grabbed its own chain and waved it repeatedly in an attempt to destroy the sword Qi of the Absolute Heaven Sword.

However, what made the black ape even more afraid was that the chain was actually shattered into pieces by the sword Qi as it was being whipped.

Finally, when the sword Qi swept past the Black Ape's body, the incomparably hard silver-white armor on its body immediately began to show dense cracks like a spider web.

Moreover, the cracks increased at an astonishing speed.

After a moment, with a Kacha Sound, the armor on its body completely exploded, revealing its hairless flesh-red body.

That was the true appearance of the Black Ape.

The armor had already been broken by the Sword Qi, let alone the body of the black ape. As long as the sword Qi swept past it, it could be split into two.

At the critical moment, the black ape felt a great danger and suddenly roared towards the sky.

The huge body of the black ape turned into a black light and shot into the sky.

Chi La --

The Sword Qi swept past and cut through the black light, causing a painful roar to be heard from within the Black Light.

That roar was no longer an ape, but... a dragon!

Roar --

With a fierce dragon roar, the black light dissipated, revealing a pitch-black giant dragon that circled in the air.

The Giant Dragon's eyes were scarlet red, retaining the Black Ape's ferocity. However, the dangerous aura emanating from its body was only stronger than before.

What was slightly shocking was that its dragon tail was neatly cut off.

The Absolute Heaven Sword's sword aura still hurt it.

If it hadn't changed its second form in time, it might have been cut into pieces by the sword aura.

Chapter 2970 The Scythe Reappeared

Luckily, the black ape was able to escape. It was greatly frightened and turned around to flee into the distance.

Su Yu held the absolute heaven sword and forcefully stood up.

However, he was already heavily injured previously. Now that he had forcefully used the absolute heaven sword, he had completely exhausted all his strength. How could he still hold on.

Before the Black Ape could fly far, he could no longer hold on and fell to the ground.

At this moment, he did not even have the strength to move his fingers.

Meanwhile, the black ape keenly sensed the situation and turned its head again. Its eyes looked at the absolute heaven sword lying motionless on the ground. It finally understood that Su Yu's sword just now was a bluff.

Actually, it was not Su Yu bluffing, but that was the strongest sword that Su Yu could unleash.

Otherwise, under the circumstances of using all of his strength, the black ape would not have been able to escape the sword of the Absolute Heaven Sword at all. It would have been cut into two long ago, completely dead.

The Black Ape's anger rose again. With a roar, it turned around and rushed back, bringing with it the wind and clouds.

It stretched out its huge pitch-black dragon claw and ruthlessly clawed at Su Yu.

When the Black Ape was in its state, it was still extremely strong. Now that it had transformed into its second form, its strength had increased by more than ten times.

Once it was caught, even the emperor's body would be turned into meat paste in an instant.

Looking at the Dragon Claw that was getting closer and closer, Su Yu smiled bitterly in his heart. He did not die in the face of a great disaster, but he actually died at the hands of a black ape that could transform.

It was truly a trick of fate.

However, if he wanted to kill him, the black ape had to be buried with him!

He still had the eye of Taotie, which always existed between his brows, but he could not use it again.

Otherwise, if it absorbed it again, it would grow to a point where it could not be sealed.

At that time, there would be nothing in the sky and earth that could stop this eye of Taotie.

However, just as Su Yu was about to use it, he suddenly narrowed his eyes. "HMM?"

He vaguely felt a familiar fluctuation!

The heaven and Earth Qi flow suddenly became chaotic at this moment. The space within the circumference of a trillion was completely shattered. Strange beams of light interweaved in the heaven and earth, as if cutting the heaven and earth into countless pieces.

The Black Ape raised its head to take a look. Its eyes were once again replaced by fear. It even forgot about Su Yu, who was so close to it. It turned around and fled quickly.

Its escape speed was even faster than before.

Moreover, the black ape even let out a roar that was close to begging for mercy. It was the complete opposite of its fierce and tyrannical state.

However, the giant net still mercilessly enveloped Su Yu. With a bang, it descended straight from the sky, passed through the Black Ape's body, and continued to come towards the Earth.

Unfortunately, Su Yu was also covered by the giant net and was about to be penetrated by it.

However, at this critical moment, a figure suddenly flashed and arrived.

He wore a simple green robe and his beard was messy. It seemed that he had not trimmed his appearance. In his hand, he held something that Su Yu used to be very familiar with.

The kalpa scythe!

The green-robed figure raised the kalpa scythe and slashed towards the sky. The giant net returned to the kalpa scythe.

The figure lowered his head and gave Su Yu an apologetic smile. "I'm sorry for leaving without saying goodbye. I hope I'm not too late."

He was none other than Mo Heng, who had left with the kalpa scythe.

Su Yu had sensed the kalpa scythe's aura before coming to the mountain of blood. However, Mo Heng had used some special secret techniques to hide the kalpa scythe and was unable to find it again.

He did not expect that at the final juncture, Mo Heng would appear.

When he raised his head again, the Black Ape Dragon that had been pierced through by the giant net slowed down rapidly. In the end, it floated motionlessly in the sky.

Just as everyone was questioning whether the Black Ape was still alive, the Black Ape Dragon's body actually turned into pieces of meat and fell to the ground.

The Black Ape Dragon did not even have the slightest bit of resistance before it was cut into pieces. It could not be any more dead!

It was hard to imagine that this was the black ape that had suppressed everyone and was undefeatable.

This was the ancestor of the Black Ape Saint Clan in the past. He was actually killed just like that.

Su Yu heaved a sigh of relief. He looked at Mo Heng again and said, "I thought I trusted the wrong person. It seems like I didn't."

Su Yu had always believed in his own eyes and never misjudged people.

But now, it seemed like that was indeed the case.

If Mo Heng was greedy for the Kalpa scythe, he would definitely not rescue Su Yu. Wouldn't it be better to just let him be killed by the Black Ape Dragon?

In that case, the kalpa scythe would forever belong to him.

Mo Heng grabbed Su Yu's arm and pulled him up from the ground. Then, he infused his powerful ancient sage power into Su Yu's body to restore his strength.

After a short moment, Su Yu's stamina had mostly recovered, and the injuries on his body had also recovered a lot.

"Thank you," Su Yu said.

Without saying anything else, Mo Heng stuffed the Kalpa scythe into Su Yu's arms. "Return it to its rightful owner."

With the Kalpa scythe in his arms, Su Yu could clearly feel that the kalpa scythe had become much heavier.

Lowering his head, he saw that the kalpa scythe had been completely reborn.

Before this, before the kalpa scythe was fully unleashed, it was as unremarkable as an ordinary scythe.

But now, its normal state was a pale bone handle and ten golden heads. This was the final form of the Kalpa scythe!

Mo Heng clasped his hands behind his back and said, "If your power of Chaos is strong enough and you obtain the approval of the Kalpa scythe, you might be able to activate its eleventh head."

Su Yu remembered that Mo Heng had once said that the scythe of myriad Kalpa's state of complete victory was not limited to just ten heads.

There was also the eleventh head.

That head was a true world formed by the help of the ancestor of gluttony from absolute beginning world.

Just imagine how terrifying the power would be if the entire true world crushed its enemy.

Besides, even if it did not activate the eleventh head, the power of the modified scythe of myriad kalpa could not be underestimated.

For example, the Black Ape Dragon was killed in just one strike.

The power of that strike was equivalent to half of the power of the Absolute Heaven Sword!

Most importantly, the absolute heaven sword consumed a lot of Su Yu's strength. It was difficult to activate it a second time after using it once.

However, the kalpa scythe was not like that. As long as he wanted to, he could activate it ten times in a row!

"I'll remember your great kindness." Su Yu was grateful. Then, he said in surprise, "But why did you leave without saying goodbye?"

Mo Heng didn't even leave a message for him.

Hearing this, Mo Heng's eyes flashed with a cold light. "Wasn't it because of the famous sword Saint Clan?"

"When you were fighting the overwhelming demon, I sensed the arrival of the famous sword Saint Clan. In order not to implicate you, I had to leave first," Mo Heng said.

At that time, Su Yu was carrying the heaven-defying sword. If the famous sword Saint clan found out about Su Yu's existence, Su Yu would also be in an extremely dangerous situation.

Therefore, Mo Heng did not even dare to send a message to Su Yu, afraid that he would be discovered by the famed swordmaster clan.

In the past half a year, he had been hiding here and there while he refined the myriad calamity scythe once again.

Hard work paid off. With the help of the Soaring Dao Qi near the blood mountain, he finally succeeded in refining the myriad calamity scythe.

The power it released was also quite satisfactory to Mo Heng.
