

Nine-Dragon 2971

Chapter 2971

"It was an emergency that day and I couldn't contact you. I'm very sorry." Mo Heng said apologetically.

When Su Yu heard the reason, he said, "It wasn't intentional. Why are you apologizing?"

Holding the Kalpa realm scythe tightly, Su Yu looked at the two grand sages of the sword Saint tribe who were hiding in front of him. "Shouldn't we kill the two of them first?"

It was all thanks to the two of them that his daughter almost turned into ashes!

He did not mind being hurt by the sword Saint tribe, but his daughter was the only one who could not.

"Alright, let's go over now and kill them all!" Mo Heng had been hunted down by the two of them for a long time, and he had been holding back his anger for a long time.

Now that it was finally their turn to kill them, how could he not be happy.

"If we go over now, won't we give the two of them a chance to escape?" Su Yu's eyes lit up. "These two are vigilant people. When they encounter danger, they will flee."

If the great sage experts did not fight and only fled, Su Yu really did not have a good way to keep them alive.

"So, we can either not make a move and kill them with one strike," Su Yu said.

Mo Heng agreed. With his understanding of the famous sword Saint tribe, these grand sages were more cunning than anyone else.

Previously, when the heaven-destroying sword went out of control and wiped out the famous sword Saint tribe, most of the tribe members died. Only the five grand sages were unharmed.

"What do you plan to do?" Mo Heng looked around and said, "Are you going to play dead?"

Su Yu laughed and shook his head, "I'm not playing dead. I'm making them rush over even though they know I'm not dead."

Mo Heng did not understand what he meant.

Su Yu held the absolute heaven sword and inserted it back into its scabbard. Then, he inserted it into the ground and said, "The human heart can never escape from the word 'greed'."

Even if Su Yu was as calm as he was, wasn't he still taking the risk to break into the blood mountain and find the Absolute Heaven Sword?

If he was already like this, then the two ancestors of the famous sword Saint Clan who were so obsessed with the absolute heaven sword were even more difficult to avoid.

However, before that, the Dao force in Su Yu's body shook, turning his body, which had just recovered, into a bloody mess. He looked like he was heavily injured.

"Ah, what are you doing?" Mo Heng asked in surprise.

He had finally recovered from his injuries. Why was he harming his body like this?

"If not, they would be afraid," Su Yu said.

He swept his gaze around and saw the body of a black ape dragon. It was one of its legs.

There was a black ring on it. It was a sharp weapon to control the black ape. If he used it, he could control other things.

He waved his hand and the black ape slave ring flew into Su Yu's palm. With the help of the exquisite sphere, it was easy to wipe away the blood essence on it.

Then, he injected another drop of his blood essence into it.

He only needed time to brew it and he would be able to refine it successfully.

After keeping the black ape slave ring and the Yimo Soul Calming Bell, Su Yu lay on the ground with a faint look on his face.

Mo Heng smiled knowingly and left immediately.

The smoke on the spot gradually dissipated and many experts who were far away from this place rushed over.

The two great saints of the famous sword Saint tribe did not dare to take the lead despite their immense strength. Instead, they followed behind a group of ordinary great saints.

After realizing that they were not in any danger, they finally came out.

"Move aside. This place is under the control of the famous sword Saint tribe. Everyone who has nothing to do with it should immediately retreat within 30,000 feet. Otherwise, it will be treated as an enemy of the famous sword Saint Tribe." The two elders were imposing.

Upon hearing the name of the famous sword Saint tribe, those grand saints who were trying to take advantage of the situation retreated tactfully and did not dare to come any closer.

Thus, the two great saints joined hands and came to the battlefield.

Looking at the torn Black Ape Dragon, the elder who was in charge of the black ape slave ring lamented, "He died just like that!"

He searched among the rocks, trying to find the black ape slave ring.

The other elder looked around for his Yimo Soul Calming Bell.

In the end, he did not find the bell. Instead, he found Su Yu, who was on the verge of death, hiding under a tree.

What made his pupils shrink was that a sword with a shocking murderous aura was stabbed into the ground.

"The Absolute Heaven Sword?" The old man cried out in surprise. He couldn't believe his eyes.

The Absolute Heaven sword wasn't taken by the clone of the carefree emperor, and then the clone was hurt by the tribulation fire, so the absolute heaven sword disappeared without a Trace?

Why was it in this person's hands?

The old man's eyes were filled with greed as he looked at the sword.

Compared to the Absolute Heaven Sword, what was a mere Yimo Soul Calming Bell?

He had the intention to take it for himself, but unfortunately, the exclamation just now had already attracted the attention of another companion.

"Is it really the Absolute Heaven Sword?" With a hiss, that companion not only rushed over, but also rushed towards the Absolute Heaven Sword.

"What are you doing?" The elder in charge of the Yimo soul calming bell laughed and chased after him.

The two of them understood each other's intentions and wanted to snatch the heaven-defying sword.

The situation of the famous sword Saint tribe was different from before.

In the past, the famous sword Saint Tribe relied on their fame and reputation. Wherever they went, they would be feared by others.

But now, it was different. The famous sword Saint Tribe's vitality was greatly damaged. Many powers had their eyes on them and were trying to destroy them.

Not long ago, a great sage from his tribe went out to visit a friendly faction. He was ambushed by an unknown faction and almost died.

This incident sounded a warning bell for the other great sages.

This was also the reason why they would always bring their tribe's most precious treasure -- to protect themselves.

Now that the heaven-severing sword was in front of them, why didn't they take it into their hands?

In any case, the sons of Heaven had temporarily forgotten about the Peerless Heaven Sword and didn't ask for it anymore. If it fell into their hands, they would control it for as long as they could. After that, even if the sons of Heaven wanted it back, they would still be rewarded by the Sons of Heaven.

Seeing that the elder couldn't catch up with the black ape slave Huan, the latter couldn't help but look annoyed. "I found it first!"

"So what if you found it first? The Peerless Heaven Sword is the best sword in the world. The capable ones are the best. I'm stronger than you, so I should be the one to control it." The elder of the black ape slave Huan said disapprovingly and arrived in front of Su Yu in a flash, he snatched the Absolute Heaven Sword.

The elder with the Yimo Soul Suppression Bell was furious. "Shameless! Who said you are stronger than me? Let Go of Me!"

The elder opened his mouth and spat out a remnant of the ancestral technique from the air.

It was a remnant of the famous sword Saint Clan -- the sword controlling ancestral technique.

Once it was used, all the swords in the world had to obey the command.

As expected, once the remnant was released, the Absolute Heaven Sword broke through the ground and flew towards the elder with the Yimo soul suppression bell.

The elder of the black ape slave ring grabbed nothing but air and said anxiously, "You're the only one who knows how to use the ancestral technique?"

His right hand moved swiftly and a more solid ancestral technique floated in front of him.

The heaven-defying sword that flew towards the elder of the Yimo soul-subduing clock immediately turned around and flew towards the latter.

The former was furious and stepped forward to grab the sheath of the heaven-defying sword. He said, "Fourth brother, don't lose face. The heaven-defying sword is mine."

"If you say it's yours, then it's Yours?"The fourth-ranked great Sage's aura flickered. He slapped his palm on the top of his head, and an extremely grand attack domain shot towards the Yimo Soul Suppression Clock Elder.

Chapter 2972 Killing Each Other

The latter was furious when he saw this. "Fourth brother, are you crazy? You actually killed each other!"

"HMPH, you stole my things. Don't blame me for being Merciless!"Fourth brother snorted coldly.

Fifth brother was angry and anxious. In terms of strength, he was indeed slightly inferior to fourth brother.

He was extremely angry because they had been together for many years without brothers and had always been united. Today, for a sword, fourth brother actually turned against him and attacked him.

"I'm not afraid of You!"Fifth Brother opened his mouth and an emerald-green fan flew out of his mouth.

He held the handle of the fan and flashed fiercely. A strong wind that could topple mountains and overturn seas swept across the world.

The corpses of the Black Ape Dragons on the ground were all blown away. The soil on the ground was blown away like three feet, revealing the bare layer of rocks.

Fourth Brother's domain was blown away by the strong wind on the spot.

Fourth Bro himself was also blown into a mess. He looked even more annoyed. "Are you serious? Fine, then don't blame me!"

He stretched out his ten fingers and shot out black steel needles.

The steel needles grew in the wind and turned into ancient long swords.

"Demon Territory Sword Formation? Fourth Bro, you actually took out this fifth-ranked clan treasure?"Fifth Bro said in surprise.

Fourth brother sneered, "Didn't you also take out the ninth-ranked heaven and Earth Fan?"

It turned out that the two of them had secretly taken an extra family treasure just in case.

In the end, if they didn't take precautions, they would instead take precautions against their own companions.

Fifth Brother's face was livid. "Okay, let's see who will win!"

The two of them each held the family treasure and fought each other on the spot for a heaven-defying sword. For a moment, they fought until the sky was dark and the Earth was dark.

The sky cracked and the Earth collapsed. Everything within a ten-thousand-mile radius was reduced to ruins.

After three days and three nights of intense battle, both sides finally could not hold on any longer.

Old fifth was slightly weaker. He was accidentally pierced through the abdomen by an ancient sword.

The ancient sword even hurt old fifth's soul, causing him to lie on the ground in pain.

Old fourth immediately caught up and snatched the heaven-destroying sword from his hands. He finally smiled, "Hahaha, the heaven-destroying sword will fall into my hands one day."

Back then, he had witnessed with his own eyes how this sword had slaughtered seven or eight great saints in all directions.

With this sword in his hands, fourth brother had a strong urge to carry this sword far away.

With this sword, where in the world could he not go?

Boom --

But suddenly, a bolt of lightning flashed across the sheath of the heaven-severing sword.

The lightning exploded into a ball of lightning with the heaven-severing sword as the center.

The fourth brother was caught off guard and was injured by the Lightning on the spot. He was burnt black and his body was badly mutilated. He was on the verge of death.

The heavily injured fifth brother crawled up ferociously and wiped the blood from the corner of his mouth. He said with difficulty, "Are you even worthy to fight with me?"

The heavily injured fourth brother widened his eyes unwillingly. He held the Absolute Heaven Sword tightly and refused to let go.

It turned out that the fifth brother had deliberately pretended to be no match for him. In fact, he had secretly placed a powerful lightning explosion talisman on the sheath of the absolute heaven sword.

Old Four had fallen into a trap due to his carelessness. Now, he was seriously injured and on the verge of death.

"Give it to me!" Old Five pulled the absolute heaven sword from Old Four's tightly clenched palm.

However, he was indeed seriously injured by the sword just now.

After snatching the Absolute Heaven Sword, he also fell to the ground on his butt. The Absolute Heaven Sword in his hand slipped out of his hand and fell to the ground.

He endured the pain in his stomach and struggled to reach out to pick it up.

Unexpectedly, a smooth palm as white as jade gently picked up the Absolute Heaven Sword.

Old Five suddenly raised his head and saw that Su Yu, who was about to die, was now standing safe and sound. His sleeve gently wiped the blood-stained sheath of the absolute heaven sword.

"You... You're not dead?" Old Five's heart jumped violently. Countless eras had made him realize that he and old four had been fooled.

Su Yu smiled faintly. "I didn't die in the first place. I was just a little tired and laid down to rest. Why did the two seniors start fighting on their own?"

Old Four also understood what was going on. He was angry and angry. "You, you tricked us?"

Su Yu said helplessly, "I stuck my sword here. You wanted to fight to the death over him. What does that have to do with me? I wasn't the one who instigated you!"

The two grand sages were both embarrassed and angry. They were so powerful that they were actually fooled by a young boy.

No, it was not a joke.

It was because the other party knew the way of the human heart.

They had long predicted that they would fight to the death over a heaven-severing sword. They had also predicted that the two of them would end up with both sides suffering heavy losses.

"Who are you? Back then, you were the one who caused trouble in the famed sword Saint Tribe, right?" Fourth and fifth suddenly realized through their auras that this person was the black-robed man who caused trouble in the underground back then?

Su Yu put the absolute heaven sword back on his waist and said calmly, "Nice to meet you both. Back then, I was only able to experience a near-death experience thanks to the hospitality of the famous sword Saint Clan."

Back then, the so-called Su Yu was vigilant and escaped from the underground first. He was afraid that he would also become the dead soul of the Absolute Heaven Sword.

"Who are you?" The two asked again.

This person's cultivation was not considered top-notch, but his mind was too terrifying.

When the famous sword Saint clan was underground, they had anticipated the enemy's opportunity and judged the enemy first. Now, there was no bloodshed, causing both of them to suffer heavy losses.

Su Yu said calmly, "A person that you shouldn't have provoked."

With a wave of his hand, the Yimo soul suppression bell appeared on his left palm, and the black ape slave ring appeared on his right palm.

"Originally, I wanted to kill you, but I suddenly changed my mind." Su Yu said calmly, "My faction has just met, so I need a few gatekeepers. Since the two of you are so good at fighting, I'll arrange for you to guard the gate."

Guard the Mountain Gate?

That was something that only slaves would do.

"Kid, we will be bullied by the dogs when we are down, but if you want us to lower our heads and become slaves, that's just a dream." Fourth Brother scolded sternly.

Who knew that just as he finished speaking, Su Yu threw out his palm, and the Yimo soul suppressing bell grew in the wind. It turned into a ten-meter-long bell, and then suppressed fourth brother within it.

Following that, a series of vibrating sounds rang out continuously.

The soul attacks within the bell were extremely harmful to even great sages, let alone the continuous attacks?

After dozens of consecutive attacks, the roars within the bell had already turned into painful pleas.

Su Yu was unmoved. He continued to ring the bell for more than a hundred times until the pleas became weak. Only then did he activate the Yimo soul-subduing bell.

In the end, the fourth brother collapsed into a ball of mud. His consciousness was on the verge of collapse.

Su Yu threw his palm and the black ape slave ring was placed on his feet without any intention of resisting.

Then, Su Yu looked at fifth brother and weighed the Yimo soul calming bell. With a playful look, he said, "Do you want to put it on yourself, or do you want me to do it?"

Fifth Brother's eyelids twitched as he looked at the half-dead fourth brother and then looked at the Yimo Soul Calming Bell. He gritted his teeth and said, "I... Will do it myself!"

The situation was stronger than the situation. He could only endure the humiliation and extend his leg into the black ape slave ring.

Su Yu smiled slightly and activated it. The black ape slave ring suddenly shrank and tightly bound the feet of both of them at the same time!

From today onwards, the black ape slave ring might need to change its name.

Chapter 2973 The Curse Erupted

Its name was no longer the black ape slave ring, but the famed sword slave ring!

After this battle, Su Yu gained two more treasures. One was the Yimo soul suppressing bell, and the other was the famed sword slave ring!

Apart from this, the Kalpa realm scythe was also recovered.

Mo Heng flashed out from the darkness and looked at Su Yu with a stern gaze.

This kid was too good at scheming.

He originally thought that Su Yu was lying on the ground pretending to be dead so that he could ambush the two grand sages of the famous sword Saint tribe.

Who knew that he would use a sword to incite the two of them to kill each other and then capture them alive without any effort.

In terms of temperament, this kid was a little too scary.

"By doing this, aren't you openly making an enemy out of the famous sword Saint Tribe?" Mo Heng scanned his surroundings.

Although the great saints were thousands of miles away, how could the situation here be hidden from their senses?

Before long, the news of the two experts of the famous sword Saint Tribe being enslaved by one person would spread throughout the entire region for an entire day.

When that time came, there would definitely be a lot of trouble.

Su Yu said with a faint smile, "How do you know that I didn't do it on Purpose?"

He wasn't stupid, so how could he not understand the meaning of this move?

Insisting on doing this was part of his plan.

UH --

Mo Heng was stunned. He completely didn't understand what Su Yu was thinking.

"Alright, let's leave first," Su Yu said. He flashed to the saint of thieves and Su Cai'er's side and took them away.

Not long after they left, tens of thousands of messages appeared in this place and crazily flew in all directions.

A mine in a blood mountain was destroyed by an unknown expert. After that, two experts from the sword Saint tribe were suppressed by that expert, causing them to submit to him. All their treasures fell into the hands of that expert.

This news was like an earthquake sweeping through every corner of the world.

Speaking of which, after Su Yu and the others arrived at a safe place, he simply healed the bandit saint, causing him to feel much better.

"Saint of Thieves, can you tell me now how to remove the curse on my body?" Su Yu glanced at the sky.

He had to thank the fact that the ores that were being nurtured had already shattered, and the curse of the sacred mountain on this place had weakened greatly.

Otherwise, the battle with the enemy just now would have been extremely troublesome.

The saint of thieves heaved a sigh of relief and said, "The best way to remove the curse is to use the blood of the descendants of the son of Heaven to cleanse my body."

Weren't the son of Heaven's descendants the stone men?

"The sacred mountain has set up a team of stone men in every realm to guard the border. If you have the guts, you can go and capture a few stone men and take their blood," the saint of Thieves said.

Was it that simple?

"Where are the stone men of the Cloud Wilderness Realm?" Su Yu asked.

The Saint of Thieves looked in a certain direction and said, "It's in the Hidden Sky Mountain!"

Oh?

What a coincidence?

The temporary base that Su Yu was searching for for the cauldron was a medium-sized territory in the hidden Sky Mountain.

"Then let's Go!" Su Yu said without hesitation.

As he was speaking, he could already feel traces of dark energy twining around his body.

"If we don't Leave Now, I'm afraid we'll run into some bad luck," Su Yu said with lingering fear.

The Saint of Thieves agreed with him!

The group immediately set off for Hidden Sky Mountain.

At that time.

In the battlefield, a group of ancient sages and grand sages were distributing the remains of the Black Ape Dragon.

Suddenly, a petite figure rushed over.

"Are you late?" The newcomer looked at the dried up blood mountain and could not help but feel disappointed.

She was Snow White, who had come after hearing the news. Unfortunately, she had missed the most exciting moment.

"I don't know who is the one who dug away the ore." Snow White did not know the true meaning of the fossil. She stomped her foot and snorted.

Seeing that it was impossible to save her, she could only say, "Forget it. Let's continue to look for that bastard ruyi. Don't let me find you. Otherwise, I will kill you."

Thinking of Su Yu using his statue seal to carve countless documents, she went crazy.

However, it was easier said than done. It was easier said than done to find him?

The Ten Thousand Caves had a total of 100 territories, and each of them was incomparably vast. The world was vast, so where could they find him?

Bai Xue was dejected as she wandered aimlessly.

One day later.

Su Yu and the others passed by a rather large-scale spiritual land. There was a saint clan that controlled this place. With the Saint Clan as the center, a considerable level of civilization was born.

Countless creatures lived here, forming a huge country.

"This place is the stronghold of the number one saint clan in Zang Tian Mountain. There is a teleportation array in the city. We can use it to save time." The Saint of thieves was very familiar with this place.

Su Yu agreed.

His yuan level spatial domain was not strong enough to teleport so many people at the same time.

It was necessary to use the teleportation formation.

The group landed in the city and went straight to the teleportation formation.

The teleportation formation here was from the Sky Jiu Saint Clan, which was also the continuation force of the number one saint clan in the Hidden Sky Mountain.

"The Yama you killed is the subordinate force of the Sky Jiu Saint Clan. It's best if no one recognizes you." The Saint of thieves suddenly remembered when they were close to the Saint clan.

The news that Su Yu had brought Yama into the blood mountain and caused him to die from the curse had spread far and wide.

This spiritual land was no exception.

The corner of Su Yu's mouth twitched. "Why didn't you say so earlier?"

However, he had no other choice but to go.

Moreover, as long as their luck wasn't bad, it would be difficult for them to detect him.

There were so many creatures in this spiritual land. There was no need for the Sky Jiu Saint clan to investigate everyone.

Unless they had a foresight and knew where Su Yu was.

With an indifferent attitude, Su Yu led a group of people and landed near the teleportation hall.

However, just as they landed, a group of imperial guards from the Saint clan came over and shouted from afar, "Who are you people? Quickly accept the inspection."

Su Yu's veins bulged on his forehead. Was this the effect of the curse?

It was too... effective!

The Saint of thieves did not say anything and immediately used his unique domain to turn everyone into a gust of wind. In the blink of an eye, they had disappeared without a trace.

In a small alley not far away from the city, they reappeared.

The Saint of thieves had a helpless look on his face, "As time goes on, the curse will become heavier and heavier. If we don't hurry to Hidden Sky Mountain and get the stone man's blood, our troubles will become greater and greater."

Su Yu did not expect that the power of the curse would get stronger.

"They are over there." Who knew that the moment they stopped to rest, they would hear that group of imperial guards chasing after them.

The Saint of thieves was shocked. He had teleported them to an extremely far place in an instant. How did those people catch up?

She closed her eyes to sense and said bitterly, "There is a space-disrupting formation nearby. I took a huge detour."

This place was actually very close to the place where they had met the imperial guards.

However, unexpectedly, that group of imperial guards had seen the wrong person and chased after another group of people, allowing them to escape.

"This curse doesn't seem to be very effective." Su Cai'er tilted her neck and said with a smile.

Su Yu couldn't smile at all.

Based on his short experience, once the curse was activated, it wouldn't stop.

Who knew what kind of extreme curse he would encounter later..

While this thought was still in his mind, Su Yu's face froze. His eyes were fixed on a passing figure outside the alley!

Chapter 2974 Parting In Life And Death

"Ruyu, who are you looking at?" Su Cai'er noticed Su Yu's unusual behavior and looked over.

Outside the alley, a petite, exquisite and beautiful girl in snow-white clothes was walking past in a hurry.

Su Cai'er could not help but stare at Su Yu in confusion and said, "You're a woman, but you're very interested in beautiful women."

"Shh!" Su Yu hurriedly made a gesture of silence, asking her to stop talking.

This was because this woman was none other than the Heavenly Dao union's chief, Snow White!

He had completely destroyed Snow White's statue seal. If Snow White found out about this, it would be a huge problem.

Su Yu's veins bulged on his forehead. He knew that the effect of the curse would not disappear so easily. It would only become heavier and heavier.

The world was so big, yet he could actually meet Snow White. Who would believe that it was a coincidence?

Unfortunately, Su Yu was still one step too late. He could not stop Su Cai'er's voice from spreading out in time.

Snow White was about to walk over when she suddenly heard a voice coming from the alley beside her. She casually glanced sideways.

However, she saw a group of strangers hiding in the darkness sneakily.

She frowned and continued to move forward without looking carefully.

This scene made Su Yu heave a sigh of relief. He could not help but poke Su Cai'er's forehead. "Be careful. You're not familiar with this place. Don't attract attention."

Su Cai'er did not care. "You're the one who didn't even blink when looking at beautiful women. Instead, you're blaming me."

Even though she said this, her expression was full of mischievousness. She treated Su Yu very intimately.

Su Cai'er would never forget the scene of the black ape pulling out a chain and Su Yu sacrificing himself to block the chain. For a moment, she found the feeling of a father in Ruyu.

"Alright, let's leave this place quickly," Su Yu said spiritedly.

The Saint of Thieves thought for a while and said, "Yes, but we can't go to the teleportation array for the time being. It must be under martial law already."

Regarding this, Su Yu agreed. "Let's find an inn to stay at first."

Their escape just now must have aroused vigilance. Perhaps the teleportation array was already full of searching guards.

"We'll see how it goes in two or three days," Su Yu said.

The group immediately left and found a very remote inn.

This place was far from the Main Street and was in a residential area. It was difficult for ordinary people to find it, so it should be very safe.

"The three of us are cursed. We might encounter some danger, so don't leave the inn," Su Yu reminded.

The Saint of thieves and Su Cai'er nodded seriously.

They had seen the power of the curse and knew how terrifying it was.

Thus, Su Yu lived alone in a room, next to the saint of thieves and Su Cai'er.

He sat cross-legged and recovered from his injuries.

Looking down at the shocking injuries on his body, Su Yu's heart was heavy. "The body of the son of heaven is already so severely injured. What would happen to my ordinary body?"

After coming to the nine-star civilization, the dangers he encountered became more and more intense.

This body of the son of Heaven had helped him a lot. Otherwise, he might have already died.

If he had returned to his original body through the yin-yang gate and encountered a similar danger..

Thinking of this, Su Yu couldn't help but mutter, "I wonder if the nine star civilization has any defenses to temper the body. It can make the body of the human race even more indestructible."

Suddenly, an epiphany appeared in Su Yu's mind.

He clapped with one hand, and his consciousness entered the nine Jade Spirit Pearl.

Ever since the Battle of Bloody Mountain, he had not had the time to look closely at the stones that had been collected.

But in the end, when Su Yu entered, his pupils constricted and he discovered that those stones were strangely surrounding the thatched cottage in the nine Jade Spirit Pearl.

That thatched cottage was once the place where the corpse of the nine-tailed Emperor's original body was kept.

These stones seemed to have sensed something and actually surrounded him on their own.

Su Yu's arrival made the stones react. They gathered together and formed a three-year-old child-sized body. They took the initiative to attack Su Yu.

"Hehe, you're still not obedient here." With a thought, a strong pressure suddenly appeared and pressed the stone to the ground, unable to turn it over.

He had tempered the nine-jade spirit pearl for more than a hundred years. It was as easy as ordering it around.

Looking at the extremely spiritual stone, Su Yu touched his chin.

He tried to take the kalpa scythe and said, "I wonder if this stone can withstand the kalpa scythe's attack."

Thinking of this, he ruthlessly struck down.

Chi La --

Even the black ape was split in mid-air, and this stone was no exception, shattering on the spot.

Su Yu couldn't help but be disappointed.

He had originally thought that the stone of the nine-tailed Emperor's body, which had absorbed the essence of the entire nine-star civilization, would be quite hard, but now it seemed that he had overestimated himself.

However, what shocked Su Yu the next scene was that the shattered stone actually condensed back into one again.

With the shining stone at the center as the center, the rest of the stones condensed back into one again.

The most incredible thing was that there was not even a trace of powder left.

"This..." Su Yu's eyes flashed. He gathered all his strength and used the kalpa sickle to slash at the stone golem again.

Pu --

The entire Rockman was instantly shattered into pieces.

Under the full power of the myriad calamity scythe, its power was not much weaker than the Absolute Heaven Sword. How could the Rockman withstand it?

However, what was shattered were the other rocks. That glowing rock was actually unharmed!

That's right. After suffering such a terrifying attack, not a single trace was left behind.

One could only imagine how hard it was!

Even more astonishing, the particles that had been shattered into dust actually condensed back into a Rockman once again.

Furthermore, as time passed, the cracks on the Rockman's body gradually disappeared, replaced by a real Rockman.

Su Yu's eyes gradually lit up. "It seems that my human body might not be much weaker than this mirror flower emperor's body."

He stared at the stone man, his eyes shining.

Looking around, the nine Jade Spirit Pearl was empty. The former little qilin and the former Sheng GE had disappeared without a trace.

Only Xiao Die, who was quietly evolving, and the familiar nursery were left.

"A person's life is one of constant gain and loss?" Su Yu muttered to himself.

He had obtained the ultimate strength that he wanted, but how many familiar faces had he lost?

Even if he grasped the life and death domain, it would not be able to stop their passing.

Was this a kind of binding that could not be broken?

Life, old age, sickness, death, life and death separation, was it really a fate that could not be broken?

Su Yu thought that he had grasped the fate domain, but he was still unable to break free from the binding in the unseen world. It was as if there was something invisible that arranged the changes in their lives for them.

"I'm still not strong enough to get out of the Fetters," Su Yu clenched his fists and said.

If he was strong enough, who could arrange his life?

Su Yu hesitated for a long time in front of the nursery, and his consciousness slowly withdrew from the nine jade spiritual pearl.

Chapter 2975 Extreme Joy And Sorrow

When his eyes looked at the world again, he suddenly felt that his perspective was different from before.

It was as if the world in his eyes was clearer than before, and he could even see some obscure things that flashed by in the world.

Suddenly, Su Yu felt a slight warmth in his chest.

When he looked down, it was actually the sinkhole divine monument that was emitting soft rays of light.

Su Yu was surprised. He immediately took it out of his pocket and saw a few vague ancient words flashing on the sinkhole divine monument.

Su Yu stared at it for a long time before he could make out the words clearly.

It was the words "Sinkhole Emperor Lord"!

"Sinkhole Emperor Lord?" Su Yu's eyes were filled with shock.

He already knew that the sinkhole world was a mysterious world independent of the absolute beginning world. It was also a world of the dead.

Could the sinkhole overlord be the supreme being who controlled the sinkhole world?

He tried to touch the four words with his fingers. However, when he touched them, he felt a piercing pain on his fingertip as if he had been pricked by something sharp.

"Hiss!" Su Yu took a deep breath. He focused his eyes to the limit and stared at the four shining words.

Finally, when his eyes were sore, he realized something was wrong.

The words "Sinkhole overlord" were not words at all. They were clearly formed from the remnants.

Each of the remnants was extremely sharp. Su Yu's finger had touched these remnants and felt the pain just now.

"These..." Su Yu was astonished as if he had discovered a whole new continent.

He had originally thought that the sinkhole divine tablet recorded the remnants of the ancestral technique left behind by Dao master absolute beginning. But now, it seemed that not only dao master absolute beginning's, there were also remnants of this mysterious sinkhole Overlord's secret technique!

Su Yu's heart pounded. This discovery was simply too shocking.

Probably other than the absolute beginning Dao master, no one else would know that the sinkhole monarch's remnant was still on the sinkhole divine tablet!

However, when Su Yu tried to carefully examine the remnant on it, he was still unable to identify it.

It was as if there was an invisible barrier preventing him from continuing to observe.

After trying for a long time, he had no choice but to give up.

"The Treasure Mountain is in front, but we can only look at each other across the river." Su Yu was particularly depressed.

"However, why didn't I discover the words 'Sinkhole Overlord' before?" Su Yu asked in surprise. The divine tablet had been in his hands for quite a long time, so why did it only appear now?

Thinking of the Epiphany he had in the nine jade spirit pearl, Su Yu could not help but guess that it must have been an epiphany that had sublimated the way his eyes looked at the world.

Only then could he see the words 'sinkhole overlord' that ordinary people could not see.

"It seems that if I want to learn sinkhole Overlord's secret technique, I must strengthen my Epiphany." Su Yu suddenly understood.

It was only the word 'epiphany'. It was easy to say, but it was actually very difficult.

If he did not return to his old place today and feel something, he would naturally enter the state of Epiphany. It would be very difficult to create the conditions for Epiphany at other times.

Seeing that there were still two days to wait, Su Yu simply sat cross-legged on the spot and cast time domain. He was prepared to spend ten thousand times more time trying to find the Epiphany he had just experienced.

However, the moment he cast time domain, Su Yu felt that something was wrong.

He saw that his time domain had become different from before. There was a faint trace of mysterious power mixed within.

When he used his time domain in the past, there was a faint reddish color. However, at this moment, there was a strange golden color in the reddish color.

"What is this?" Su Yu immediately felt that something was wrong.

However, when he fully used his time domain, Su Yu was even more shocked.

The flow of time around his body had increased by 20,000 times. It was twice as fast as before.

The time acceleration in the past could only reach 10,000 times at most.

"What's going on?" Su Yu was surprised. His eyes were filled with confusion and shock. Why did the time elemental domain suddenly become so much stronger?

After a long time, Su Yu's eyes flashed. He tried to cast the other seven domains.

Without exception, all the domains were more than doubled in strength.

Moreover, there was a hint of golden color in them.

"These are..." Su Yu recalled that when he was fighting against the black ape, he had used the eight great domains to resist it.

The eight great domains were attacked by the black ape again and again, and finally, they were completely shattered.

Could it be because the eight great yuan level domains had been tempered?

Thinking up to this point, Su Yu's emotions surged.

The ninth domain had once said that there were a total of twelve invincible existences in the world.

They were the absolute beginning Dao Master, the ten Holy Mountain's son of heaven, and Ren Zu.

This was because they possessed a power that surpassed all living things -- the absolute beginning force!

It was precisely because of this power that they were able to surpass everything.

And if one wanted to obtain the absolute beginning force, there was only one way, and that was to cultivate to the limit.

The domain was also one of them!

When the domain was cultivated to the limit, one could attain the absolute beginning force, becoming an existence that surpassed all living things in the world!

Su Yu's eight Yuan level domains had long been cultivated to their limits. After such a long period of accumulation, it had long reached the stage of transformation.

And after experiencing the black ape's continuous attacks by accident, it finally underwent a transformation and showed signs of evolving into the absolute beginning force.

This discovery made Su Yu extremely pleasantly surprised.

This trip to the blood mountain could be said to be full of gains.

Originally, he had only planned to go to the blood mountain to check out the situation. The best hope was to retrieve the kalpa scythe.

But now, the rewards were beyond imagination.

Not only did he retrieve the kalpa scythe, he also obtained the Yimo Soul Calming Bell and the famed sword slave ring. He also obtained the nine-tailed heavenly son stone that was successfully nurtured.

Just like that, Su Yu's domain actually underwent a huge change.

A series of gains made him extremely happy.

Su Yu suppressed the excitement in his heart and began to try this 20,000 times time acceleration.

Two days had passed, but Su Yu had already experienced a full 40,000 days, which was equivalent to more than a hundred years.

Although it was just as he had guessed, it was very difficult to gain enlightenment, but the transformation of the time domain made Su Yu extremely happy.

Hu --

Su Yu opened his eyes tiredly, but there was a hint of joy in his eyes.

Compared to being plagued by curses, the harvest this time was more valuable.

Looking at the time, Su Yu felt that it was about time to set off. At this time, there should be no martial law at the location of the array formation.

After notifying the Saint of Thieves and the others, he opened the door and headed outside.

Unexpectedly, just as he was about to step through the door, a guest suddenly walked out from the corridor.

Caught off guard, Su Yu stepped on the instep of the other party.

Su Yu subconsciously said, "I'm Sorry!"

The other party raised her head slightly in annoyance and shouted, "Are you blind? !"

But halfway through her words, the other party's face suddenly froze.

Su Yu's face was also frozen, because the face that was raised was none other than Snow White!

The world was so big, the saint clan's city was so vast, the inn was so remote, and there were so many guests.

Su Yu stepped on who is not good, unexpectedly stepped on her?

Chapter 2976 Return To The Original Owner

What did it mean to be happy too early? This was probably the best explanation.

"It's You!" How could Bai Xue not recognize Su Yu's aura at such a close distance?

"It's not me. You've got the wrong person," Su Yu quickly said.

However, he realized that he had said something unnecessary just as he finished his sentence.

Snow White immediately narrowed her eyes and stared at Su Yu. "I asked, who are you?"

That "It's not me" had betrayed Su Yu.

Su Yu coughed dryly and said, "Oh, so it's you, Snow White. After not seeing you for a year, you've become more and more beautiful. I almost didn't recognize you!"

Snow White gritted her teeth and laughed. Then, she grabbed Su Yu's sleeve and pushed him back into the room. "Come in!"

Bang --

The door closed with a bang. The Saint of Thieves, who had just left the room, was stunned.

"Master, What's Wrong?" Su Cai'er heard the voice and could not help but ask.

The Saint of Thieves' mouth twitched. "Is your mother's old friend really a woman?"

Su Cai'er narrowed her eyes. "I'm a little suspicious too. From her words and actions, she doesn't look like a Woman!"

At this moment, when they heard the crackling sounds coming from Yu Su's room, the master and disciple immediately leaned on the door and window, eavesdropping on the movements inside.

"You've made it so hard for me to find you!" Snow White gritted her teeth. "Do you know how miserable you've Made Me?"

The sudden appearance of a large number of documents from the Heavenly Dao Union's great seal exposed the fact that she had lost the great seal.

The older generation of the Heavenly Dao Union had spoken harshly against her, and they had even given her a death order. She had to retrieve the seal and the statue seal, or they would depose her as the union leader.

During this period of time, she had been questioned and questioned by countless believers, so there was no need to talk about it.

Only she herself knew how much she had suffered.

Su Yu let go of her palm and said without a blush, "How have I harmed you?"

"Still playing dumb?" Bai Xue gritted her teeth and stretched out her palm. "Give me back the Heavenly Dao Union seal and the statue seal!"

Su Yu said with a sincere expression, "Actually, I wanted to give them back to you a long time ago, but I just didn't have the chance."

As she said that, she took out two smooth packages from her interspatial ring.

He first handed one of the packages to her.

Bai Xue wiped away the smoothness and saw the Heavenly Dao Union seal. Looking at the intact seal, Bai Xue let out a long sigh of relief.

"At least I didn't lose it," Snow White muttered.

She was really worried that Su Yu didn't cherish her things and casually threw them away, or that someone might accidentally snatch them away.

Now it seemed that she was overthinking!

"Give me the statue seal as well." Snow White stretched out her small palm.

Su Yu casually stuffed it into her palm and said, "Don't worry. I don't have to destroy your things. This isn't who I am."

Bai Xue didn't think too much about it. She took the ball of light and wiped it with her hand.

A complete statue seal was reflected in her beautiful eyes, but it didn't appear to be damaged.

"At least you're sensible." Bai Xue blinked and snorted.

Su Yu didn't look guilty at all. "I told you, I'm not that kind of person."

Bai Xue pouted and put the seal and the big seal together, preparing to stuff them into her interspatial ring.

However, when the two objects touched, a cracking sound was heard.

Bai Xue was stunned. She looked down and saw that the statue seal started from the bottom and split into two!

She was stunned for a moment until Su Yu cried out and scolded, "Bai Xue, how could you be so careless and destroy your statue seal?"

"I... I didn't..." Bai Xue was stunned and explained hurriedly.

She only touched it lightly. How could she destroy the hard seal?

"You are too irresponsible! How could you treat such an important thing so rudely?" Su Yu reprimanded her with a stern face, "As the alliance leader, how can you be careless when dealing with the inheritance of the alliance leader?"

"To think that I kept them so carefully. I wanted to return them to you one day. But in the end, you destroyed them. What a waste of my good intentions!"

Snow White was at a loss and stammered, "This... I don't know either!"

Su Yu sighed and shook his head, "Forget it. I don't want to say anything else. You can break the statue's seal yourself. Think of a way yourself. I still have things to do. I'll take my leave first."

"Oh, Oh, okay." Snow White looked at the broken statue. Her eyebrows were knitted into a knot. Her mind was filled with how to explain things to the old alliance leaders.

Once the statue's seal was broken, it would be extremely troublesome to apply for a new one. Moreover, it might not even be able to be applied for.

Su Yu left quietly. Outside the door, the saint of thieves, Su Cai'er, and the others looked at him in surprise.

"What are you looking at? Aren't you guys going to do your business?" Su Yu said in a bad mood, "Let's Go!"

Su Cai'er looked at Su Yu's back and muttered, "I keep feeling that something is wrong."

Su Yu led them out of the inn and rushed out without caring about anything else.

He felt guilty and managed to fool her.

In the room, Snow White rubbed her head and sighed, "What should I do?"

She had a headache and felt for the broken statue. She wanted to cry.

But as she thought about it, Snow White suddenly thought of something, "Wait, where is he?"

She stood up and looked around. Just now, she found that Su Yu had left while she was distracted.

"Why did he leave in such a hurry?" Snow White was suspicious. "Also, why did he pretend not to know me when we first met? He even said that he was preparing to return the two things to me?"

The more she thought about it, the more she felt that something was wrong. Finally, she looked at the broken statue seal in her hand, and her mind buzzed.

This... This was definitely something that Su Yu broke by herself. It was only because she accidentally touched it that it finally shattered.

However, this fellow did not know how to repent, did not know how to apologize, and even shamelessly taught her a lesson!

Thinking of this, Snow White was so angry that her lungs were about to explode.

"Ah! ! You damn liar! !" Snow White stomped her feet on the ground, and her eyes widened to the size of copper bells. Then, she soared into the sky and directly knocked down the roof of the inn, standing in the air and looking around in all directions.

She gritted her teeth and said, "Damn liar, I must find you! ! !"

When Su Yu was about to reach the teleportation array, he suddenly sneezed.

He couldn't help but look behind him. He clicked his tongue. Did Snow White come back to her senses?

"Why? is the curse acting up?" Su Cai'er said with a faint smile.

Su Yu snorted, "Don't talk about the curse!"

The curse was a very vicious thing. It was enough to make him meet Snow White in the Sea of people!

No one would believe it if they heard it out loud.

"Those behind, are you guys leaving or not?" A white-robed expert who was in charge of guarding the array in front of the teleportation array frowned and berated.

Su Yu and the others immediately stepped forward. "Let's Go!"

Including Mo Heng, the four of them jumped onto the array.

Three of the four of them had been cursed. However, the moment they jumped onto the formation, the light of the formation suddenly went out. It quickly dimmed and stopped operating.

The white-robed elder was stunned. "The formation... is broken? This is too strange. It has been operating for hundreds of years and it's still fine. Why did it suddenly break?"

Su Yu's forehead was filled with black lines!

Chapter 2977 The Curse Erupted

The curse was really effective!

The array formation that had been unharmed for hundreds of years was broken as he stepped on it!

The pirate sage and Su Cai'er's faces fell as their mouths twitched. The curse was really troublesome.

"It seems like our curse is getting more and more serious. If we don't find a way to undo it, the consequences will be unimaginable," the pirate sage reminded.

Su Yu glared at the teleportation formation and said, "Forget it. Let's just cross over."

His space domain had just evolved, and it contained a trace of absolute beginning force. Its speed was twice as fast as before.

Although it was a waste of time, it was better than being stuck here.

Moreover, he couldn't waste time here, because there was still snow white behind him, who could come back to her senses at any time.

"Let's Go!" Su Yu had always been decisive in his actions. He immediately used his spatial domain and brought everyone with him to teleport in the direction of the stone golem.

Sou --

Everyone only felt that space had reversed and heaven and earth had been overturned, as if they had crossed an infinite space.

However, when they opened their eyes, they actually found that they were still in the same place, as if they had not moved at all.

If it weren't for the astonished gazes from the people around the array formation, they would have suspected that they hadn't left at all.

"Everyone, what do you mean by teleporting away and returning?"The white-robed elder who was guarding the array formation said unhappily.

It was strange. The moment they left, the array formation miraculously worked again.

However, once they returned, the formation could not be used again. It was as if the formation had a grudge against Su Yu and the others.

Su Yu was somewhat stunned.

He had cultivated for more than 200 years, and his spatial domain was already as adept as eating and drinking.

However, this was the first time he had appeared. He used all his strength to use spatial transference, but in the end, he took a huge detour and returned to his original position.

Su Yu did not believe it and tried to teleport again.

In the end, what made Su Yu's face sink was that they returned to their original position without any error.

Even the saint of thieves became calm and said in a low voice, "The curse is much bigger than expected."

She tried to take out a space talisman and sweep everyone away. However, the talisman that could cross countless mountains and rivers only took them a few steps away.

The saint of thieves said, "The stronger the spatial support method we use, the weaker the effect."

In other words, they could only use normal flying. That way, the impact of the curse would be minimal.

Su Yu's face sank.

He had a bad premonition. With the curse being so severe, so what if they managed to find the Rockmen?

Even traveling was problematic, let alone capturing a few rockmen silently?

Su Yu looked at Mo Heng. He was the only one among them who was not cursed.

"Mo Heng, give it a try."Su Yu took out a space talisman and gave it to him.

Mo Heng also saw that Su Yu and the others had serious problems. He knew that it was serious, so he immediately activated the space talisman.

In the end, the Space Talisman was successfully activated, but the distance it took them to leave was only half of the original effect.

Mo Heng's expression also changed, and he said, "Could it be that i..."

He thought for a moment, took out a dagger, and casually threw it into the sky.

In the end, the dagger unexpectedly stabbed towards Mo Heng!

"The curse is contagious!" Mo Heng's expression was somewhat stiff. His curse was obviously not as severe as Su Yu's and the others', but it was definitely not light.

Su Yu and the Grand Theft Sage's expressions could not be any darker!

If even Mo Heng was cursed, then who among them could go and capture the rockmen?

By the time they found the right person, the curse would probably have reached an extremely terrifying level, causing them to die on the spot, right?

Right at this moment, a furious voice came from afar, "Ah! I'll kill you!"

When Su Yu heard this, the corners of his mouth twitched, "Trouble is coming!"

However, suddenly, an idea flashed through his mind, and a thought appeared.

The grand theft saint frowned and looked at Bai Xue, saying, "Do you need my help?"

What she meant was to get rid of Bai Xue. Although there was a faint aura of a great saint on Bai Xue's body, she was still too young. She should have just broken through not long ago, so it was not difficult to kill her.

"If you kill her, who will get the blood of the Rockmen for you?" Su Yu gave a meaningful smile and took the lead to fly into the air, blatantly attracting Bai Xue's attention.

The Saint of Thieves and the others did not understand what Su Yu meant, so they could only follow him.

Bai Xue gritted her teeth and trembled with anger, "Let's see where you can run to."

She made up her mind. She could not let Su Yu escape. Even if he ran to the ends of the earth, she would catch him.

Time flew by.

A whole month later, the two parties chased and fled, almost crossing half of the cloud wilderness territory.

Finally, on this day, Su Yu and the others arrived at a mountain covered in golden clouds.

No, to be exact, it was a golden mountain.

Su Yu was not unfamiliar with that mountain. It was the small holy mountain of the eight-star civilization when the Holy Mountain was destroyed.

It sat in the center of the cloud wilderness territory and overlooked the surroundings.

One by one, stone men could be seen patrolling on the small holy mountain.

Su Yu's eyes lit up. Those were stone men?

However, their curses were already too severe. When Su Yu looked at the stone men, a few of them coincidentally looked at the sky and saw Su Yu and the others.

"No flying above the sacred mountain! Warning from the light of Destruction!"

Boom --

A light of destruction that Su Yu was exceptionally familiar with swept over. Moreover, it was different from the eight-star civilization. At this time, the small sacred mountain was in a nine-star civilization. It was unknown if it was closer to the real sacred mountain, therefore, the power that erupted was quite terrifying.

It was enough to threaten a great sage level expert!

Su Yu and the others immediately dodged!

However, under the effect of the curse, the light of destruction that they had clearly dodged actually exploded unstably, enveloping Su Yu, the saint of thieves, Su Cai'er, and Mo Heng.

Ah!

The four people were all affected and were blown away one after another. Their bodies were covered in injuries.

Among them, Su Cai'er's cultivation was the weakest and her injuries were the most serious. Su Yu immediately rushed over to treat her injuries.

Even the patrolling rockmen on the sacred mountain were shocked.

The light of destruction was an extremely stable energy. Not even one in a million might explode.

And this one not only exploded, but also enveloped the four of them with such precision.

They had never seen such a situation before!

Su Yu stabilized Su Cai'er's injuries and looked at the Rockman below angrily.

He took out the myriad calamity scythe and ruthlessly struck at the Sacred Mountain!

A huge arc-shaped energy ruthlessly struck the sacred mountain, causing it to tremble violently.

Although it didn't cause any damage to the sacred mountain, it was undoubtedly a provocation to the sacred mountain.

Immediately, countless experts of the sacred mountain leaped up from the sacred mountain and attacked them.

Su Yu's eyes flashed and he said, "Go!"

They did not continue to escape but turned around and returned the way they came.

It was self-evident who they would meet on the way they came!

Chapter 2978 The Moment Of Life And Death

As expected, not long after she ran away, she caught up with Snow White.

Her pretty face turned cold as she gnashed her teeth and said, "You still dare to come back?"

She felt fortunate in her heart. She had thought that after such a long time, with Su Yu's cunning, he would have long escaped.

Who knew that he was still nearby? Even Snow White herself felt incredulous.

However, when she took a closer look, Snow White realized that there was actually a group of rockmen stationed here behind Su Yu.

Snow White immediately recognized them and could not help but suck in a breath of cold air.
"Rockmen Patrol Team?"

How could she not know that as a Rockman Patrol team stationed in every realm, they had the responsibility of suppressing the local area. They could execute anyone before reporting to the authorities.

Even if it was a mistake, the other party would only receive a severe punishment later on. However, those who were wrongfully executed would die in vain.

Seeing a large group of rockmen patrol team chasing after Su Yu and the others, Snow White tactfully moved to the side. She definitely did not want to be implicated.

In her heart, she was gloating at the other party's misfortune. I told you to run, but now, you're being targeted by the Rockmen Patrol team!

Su Yu and the others directly brushed past Snow White's side.

Before leaving, Su Yu turned to look at Snow White and urged with a frown, "Why are you only here now? We've been waiting for you for a long time! Hurry up and leave, the Rockmen are going to capture us."

Bai Xue was stunned. What did he mean by waiting for her for a long time and still calling her "We"?

However, in the next moment, what made Bai Xue Smart was that a Rockman who was the first to catch up launched a domain attack at Bai Xue, he shouted, "Inform the camp that they still have other people. Request the camp to send more reinforcements."

What?

"Wait! I'm not with them. I'm here to kill them." Bai Xue shouted as she dodged the domain, trying her best to distance herself from them.

If the sacred mountain determined that she was with Su Yu and the others, it would implicate the Heavenly Dao Union.

The Rockman revealed a puzzled look and hesitated.

At this moment, Su Yu, who had already fled far away, suddenly turned around and returned. Using his eight great domains, he scattered the other party's domain and grabbed White Snow's arm., he pulled her and said, "Are you crazy? You Want to fool the Rockman Patrol Team Like This? Do you think they're Stupid?"

Hearing that, the eyes of the rockmen chasing after them were replaced by ruthlessness. They said angrily, "Kill them all first!"

Who knew if this petite woman was actually on the same side as Su Yu and the others.

Rather than being deceived by this suspicious woman, it was better to kill them all together.

Bai Xue was so angry that smoke was coming out of her seven orifices. Her fingers trembled as she pointed at Su Yu. "You... I... I'll fight it out with you! !"

Nothing good would happen if she was with him. Now, she was actually being targeted by the Rockman Patrol team.

"Quick, inform the camp and send all the information about the five people back," the Rockman ordered.

Hearing this, White Snow's heart tightened.

The reason why the people of the nine-star civilization had to have a document was that the sacred mountain wanted to control all the living beings of the nine-star civilization.

She, White Snow, was no exception.

If her message was sent back to the Sacred Mountain, the sacred mountain would be able to find out about Snow White's background immediately and punish the Heavenly Dao Union.

The Sacred Mountain's punishment had always been bloody and ruthless.

While Snow White was panicking in her heart, a hint of viciousness flashed in her eyes.

She narrowed her eyes and looked around. She realized that only four stone golems had chased after her. There were no other people. She made up her mind, "Don't blame me for being ruthless!"

As a newly advanced great sage, it was more than enough to deal with four stone golems!

She retaliated decisively. She raised her hand and took out a hammer that glowed with an emerald green light. She controlled it through the air, and the DAO weapon swept out with a wave of heat.

"You dare to attack the stone golem patrol team?" Of course, the stone golems were not to be trifled with. They took out a few extremely powerful talismans.

Each one of them dealt a considerable amount of damage to a great sage!

With several of them stacked together, one could imagine how powerful they were.

However, since Snow White had the intention to kill, how could she miss?

"Go!" Her entire body trembled. Dense black holes appeared in the surrounding space. A Hammer-type Dao artifact shot out from each black hole.

In the blink of an eye, hundreds of hammers smashed towards the four rockmen in an overwhelming manner.

"Ten Thousand Hammers Formation? You are from the Heavenly Dao Union?" The four stone golems narrowed their eyes and revealed a look of shock.

The ten thousand hammers formation was one of the most powerful formations in the Heavenly Dao Union. It used hundreds of extremely powerful dao weapons. Even a great sage would die if they encountered it.

"Run! The Heavenly Dao Union is rebelling!" The four stone golems fled in four different directions. At the same time, they desperately sent this urgent message to the camp.

Snow White gritted her silver teeth. "Destroy!"

Boom --

Hundreds of hammers immediately struck the void fiercely. With every strike, there was a sound wave that hurt the soul.

Hundreds of sound waves stacked together at the same time, and the power was almost on par with the primordial soul suppression bell.

Ah!

The four rockmen who had not escaped far were affected on the spot, and their souls were immediately destroyed.

However, one of the Rockmen had successfully sent the message, and it was too late for Snow White to stop it.

His face was ashen, and his heart fell into an icy valley.

However, at this moment, a palm suddenly appeared, blocking the message and quickly destroying it.

The owner of the palm was none other than Su Yu!

"I saved you once again. We are even." Su Yu smiled faintly.

However, just as he finished speaking, the Ten Thousand Hammer Formation actually went out of control, using Su Yu who had suddenly appeared as a target to launch a sound wave attack.

Su Yu's brows jumped. He hurriedly took out the Yimo Soul Calming Bell and activated it. He was prepared to release a soul attack to offset the opponent's attack.

Who knew that the Yimo soul calming bell was actually like a dead object, unable to be activated.

Upon closer inspection, it was actually the Yimo soul calming bell that had been damaged!

It should have been during the Battle of Mount Xue that it had been affected by the myriad calamity scythe, but Su Yu had not noticed it.

"This damn curse..." Su Yu immediately realized that it was probably caused by the curse!

Fortunately, at this critical moment, Su Yu had an idea and covered his body with the Yimo soul suppression bell.

Just like that, a powerful soul attack swept past, and a small part of it pierced through the Yimo soul suppression bell and attacked Su Yu's soul.

A piercing pain came from his head.

However, the external ten thousand hammer array failed in its first attack and was prepared to launch a second attack.

Bai Xue was shocked and quickly withdrew the ten thousand hammer array with a stunned expression.

"Ruyu!" Thieving saint, Su Cai'er, and Mo Heng hurried over and moved the Yimo Soul Calming Bell Away, afraid that Su Yu would be injured by accident and die.

However, the curse met unexpectedly!

The already damaged Yimo Soul Calming Bell actually launched an attack under their wavering!

The three of them were very close to each other, and Su Yu himself was in the interior of the Yimo Soul Calming Bell.

Once they launched an attack, the outcome of the four of them would be unimaginable.

This was especially so for Su Cai'er. Not only was her cultivation weak, but she was also plagued by curses. She would definitely die!

Strange things happened again and again. Even Bai Xue could see that something was wrong. Seeing that the Yimo soul calming bell was about to be activated, she immediately unleashed the ten thousand hammer formation.

Hundreds of hammers pressed down on the Yimo Soul Calming Bell to prevent it from launching an attack.

After both sides were in a stalemate for a while, the Yimo Soul Calming Bell finally stopped.

Snow White heaved a sigh of relief and looked at them suspiciously. "The few of you, could it be that you entered the mountain of Blood and were cursed?"

Chapter 2979 Reforging The Seal

Su Yu walked out of the Yimo Soul Calming Bell and immediately put it away. He rolled his eyes at her and said, "If you know, why don't you come over and help?"

He did not dare to move carelessly anymore. The curse had reached its peak, and any small movement could cause a huge disaster.

"Oh," Snow White said. She walked forward and stopped halfway. She glared at Su Yu angrily and said, "Why should I help you? Haven't you caused me enough misery?"

Looking at the four dead rockmen, Snow White was furious.

They actually used him to kill four rockmen. Oh My God, how big of a sin was this?

Once it was exposed, the entire Heavenly Dao union would be implicated and destroyed.

"Why? Because we saw you kill the Rockmen. Do you want us to be exposed?" Su Yu blinked and said matter-of-factly.

The Saint of thieves and Su Cai'er turned their heads away guiltily, indicating that they were not familiar with Su Yu. They did not know such a shameless person.

It was one thing to use him to kill the stone golem, but to use him to threaten him.

He was so shameless that it made people sigh in admiration!

"You, you are Shameless! !" Snow White was so angry that her lungs exploded. She stomped her feet on the ground, but she did not dare to go forward rashly.

Because Su Yu was holding a communication device in his hand. Well, not one, but a hundred.

If she sent it out at the same time, it would be impossible for her to intercept all of them. And even if one of them were to be sent out, she and the Heavenly Dao Union would be finished.

"Fine! You! Ruthless!" Snow White clenched her silver teeth.

Su Yu chuckled. "You flatter me. Then I'll ask Miss Snow White to hurry up and help me."

Snow White resisted the urge to tear him apart and said, "What kind of help do you need?"

Su Yu pointed at the stone statue corpses on the ground. "Take out the blood of the stone golems from their bodies and pour it on our bodies."

Was it that simple?

Bai Xue was suspicious. She walked up to the four stone golems and flipped one of them over.

What made Su Yu and the others break out in cold sweat was that the stone golem was holding an explosive dao weapon that was about to explode.

Judging from the level of the DAO Weapon, its power was definitely at the level of a destruction grand sage!

It was almost certain that if they were to personally take out the blood of the stone golems, all sorts of "Accidents" would definitely happen and they would be killed or seriously injured.

When Snow White opened the corpses of the other three rockmen, without exception, they were all equipped with extremely dangerous things.

Mo Heng wiped the sweat off his forehead and swallowed hard. "The curse is really so terrifying! No wonder even the ten thousand saints were no exception."

No one understood why the ten thousand saints had died suddenly after they had clearly left the blood mountain.

Now, they finally had an answer.

With such a terrifying curse, even ten ten thousand saints could die!

Bai Xue also took out their blood and poured it on the four of them.

As expected!

With the blood of the golem, Su Yu immediately felt relieved. It was as if the invisible shackles on his body had been removed. His entire body felt indescribably relaxed.

"The curse has been lifted." The Saint of thieves took out a dagger and threw it into the sky. This time, the dagger did not stab any of them.

Snow White glared at Su Yu angrily. She gritted her teeth and said, "Your problem has been solved. Now, it's time to solve my problem, right?"

She took out the statue seal and threw it into Su Yu's hand.

Su Yu was also at a loss for what to do. He asked, "Mr. MO, can you refine this thing?"

Mo Heng only glanced at it and said, "It's very simple, especially the statue seals of the big families. It's not difficult to reconstruct them."

Huh?

If the person who said this wasn't a famous genius refiner, she might have hit him.

That tone of contempt for the big families was very infuriating!

Mo Heng took the statue, weighed it, and said, "Do you think that with so many big families in the world, the sacred mountain has the patience to refine the statue seals for you one by one?"

"Those are all things entrusted to the famous sword Saint Clan, and some of them were even refined under my guidance!"

Hearing this, everyone was stunned.

The statue seals that were sacred in their hearts were actually the hands of the person in front of them?

However, Mo Heng clenched his hand, and the statue seal shattered on the spot, revealing a black crystal.

"Yes, the core crystal is intact. It's not difficult to refine it again," Mo Heng said. "It's just that we lack a suitable place to refine weapons."

The famous sword Saint Clan had a sacred place to seal the calamity fire in the world, which allowed them to continuously refine the seal.

There was no suitable place to refine weapons in the wilderness.

Snow white cheered and said, "Come to the Heavenly Dao Union. Our Heavenly Dao Union has a top-tier weapon refining pool."

Mo Heng scoffed at this. "Do you think that the Heavenly Dao Union will come out again if I go?"

With his reputation, the old guys in the Heavenly Dao Union would use all means to keep him in the Heavenly Dao Union.

Bai Xue Thought for a moment and said, "This place is called the cloud wilderness region. I remember that there is a hidden sky mountain in the cloud wilderness region. There is a natural fire pool there. It is a weapon refining place."

Hearing this, Su Yu had a strange expression on his face. Hidden Sky Mountain?

What a coincidence!

"And the patriarch of the aristocratic family that is in charge of the fire pool, Liu Quan, was once a member of Our Heavenly Dao Union. If I were to step in, it would be easy for me to use the weapon refining pool."

Mo Heng did not respond. Instead, he looked at Su Yu and asked for his opinion.

Su Yu said he would go, then he would go.

"Hidden Sky Mountain, right? mm, let's go first." Su Yu put away the strange look on his face and said as if nothing had happened.

Bai Xue stared at him. "You don't look right again!"

For some reason, Bai Xue's body shivered spontaneously, as if she had a bad feeling.

"What about you guys?" Su Yu pretended not to hear it and looked at the saint of Thieves.

The Saint of thieves looked at Su Yu deeply and said, "We have to go back to report. I hope we can work together in the future."

Su Yu looked at Su Cai'er and said, "You can leave. She can stay."

"What do you mean?" The Saint of Thieves' eyes suddenly became sharp.

Su Yu looked at her calmly. "Since she is the daughter of an old friend, of course I will take care of her."

Xian'er had already left. Su Yu could not let Su Cai'er wander outside alone.

Moreover, from what he had experienced this time, if he had not interfered, there was a possibility that both she and the saint of thieves would have met with misfortune.

"You!" The Saint of thieves was furious, but when he thought of how terrifying Su Yu was, he did not dare to use force. He only said, "I can agree, but the faction behind me will not agree."

"Are you sure that you are hostile to the faction I'm From?"

Su Yu shook his head. "I'm not hostile, but if you want to bring Su Cai'er back, please find someone who can make me feel at ease."

The Saint of thieves was embarrassed and said, "Okay, I am useless. When I go back, find someone who can convince you!"

After saying that, the saint of thieves gave Su Cai'er a warning look and turned to leave.

Su Yu pulled Su Cai'er, who was about to catch up, and said, "Don't you want to know how your mother and father are doing?"

Su Cai'er hesitated for a moment and could not help but stop in her tracks. "Okay, but next time when master comes, Don't stop me from leaving."

Su Yu nodded and took them to Zang Tian Mountain.

Chapter 2980 Fish Pond

Hidden Sky Mountain, foot of the mountain.

It was a rather remote and remote mountain forest. Dao Qi was scarce, and even ferocious beasts were few and far between.

However, a group of strangers was stationed here. Compared to the large families of the hidden Sky Mountain and even the saint clans, their cultivation levels were generally very low.

The evil woman sat cross-legged on the Green Rock, commanding the members of the cauldron to station in a new camp from afar.

She had already followed Su Yu's request to stay far away from the chaotic lands in the sky, choosing to set up camp here temporarily to avoid trouble.

All of a sudden, the vile daughter opened her eyes and looked up at the endless sky.

With her acute perception as a middle-stage heavenly dao master, she could sense that there were two ancient sage experts fighting in the sky, and they were rapidly moving towards the vicinity of the camp.

The evil woman could not help but stand up and look at the sky solemnly.

What made her feel particularly uneasy was that the battle between the two parties was gradually shifting from the sky to the Earth. At the end of the world, she could vaguely see a huge white-headed eagle chasing after a fire Phoenix.

The fire Phoenix was clearly weaker than the other party. Moreover, its right wing was severely injured, so it was falling all the way.

On the other hand, the white-headed eagle was incomparably ferocious as it chased after it relentlessly.

With the flapping of their wings, a long gust of wind swept across thousands of miles. The forest on the ground was completely destroyed.

The flames that fell from the fire Phoenix's body turned the ground into a sea of fire.

"Trouble has arrived," the evil daughter said coldly.

She glanced at the camp and hurriedly hid under the ground. Spreading her arms, she drew an arc in the air and with her Intermediate Heavenly Dao master level strength, she drew a huge ball of light that enveloped the camp.

The array formation of the camp had not been fully set up yet. She could only hold on by herself.

Huala --

The battle between the two demons quickly spread to the camp.

Strong winds and flames bombarded the light barrier, producing crackling sounds. The light barrier was also wavering as if it was about to break.

"I'll help you!" Lu Zu and the other Dao master experts appeared one after another. They fought with the evil girl in a line and tried their best to resist.

Only then did the light barrier become much more stable.

The two great demons were fighting as they walked. They did not care about the small campsite beneath their feet at all and flew past it directly.

After experiencing the powerful impact of the needle, the residual power gradually dissipated, and the two birds disappeared without a trace.

Lu Zu breathed a sigh of relief and clicked his tongue. "As expected of a nine-star civilization. They are able to encounter two ancient saint-level demons fighting in the wilderness."

It was impossible for such a thing to happen in an eight-star civilization.

In an eight-star civilization, even the birth of an ancient sage-level expert was impossible!

The evil daughter held on for a moment. After making sure that both parties were far away, she withdrew all of her strength.

She panted slightly, and worry appeared in her eyes. "Let's put people on guard. Who knows..."

Before she could finish her words, she suddenly sensed something and abruptly raised her head to look at the sky above them.

One could see with the naked eye that a ball of red flames was descending from the sky and smashing towards the campsite.

The Evil Woman's expression changed slightly. She once again used her own power to protect the campsite.

Bang --

However, the ball of flames was extremely fierce and melted the light barrier on the spot.

With a loud bang, the heavenly fire directly smashed onto the ground.

However, the scene of the fiery flames spreading did not appear in her imagination. Instead, the heavenly fire gradually contracted and dimmed. In the end, a huge flying bird covered in fiery red feathers was revealed.

This was the fire Phoenix that was being chased just now!

Its left wing was injured and it had lost its ability to fly.

It struggled to get up and immediately ran on the ground. However, before it could run out of the camp, a sharp screech came from above its head.

It was actually the white-headed eagle that had caught up and swooped down.

As it flew, it swept up a terrifying strong wind.

Previously, just the aftermath had put the camp in danger. Now that the white-headed eagle had targeted the fire Phoenix as well as the best actor capital, one could imagine the harm it would bring.

The strong wind turned into sharp blades that were even more powerful than the low-priced dao artifacts in the air and quickly cut down.

The evil woman's eyelids twitched. If it really hit, the camp would definitely be destroyed. Even if the members of the cauldron hid underground, it would be useless. All of them would be killed.

"Vile-beast!" The Vile-lady drew her vile-sword and slashed it at the white-headed eagle.

The pitch-black radiance of the sword soared into the sky, but it was far weaker than the attack of an ancient sage. In an instant, it was annihilated by the powerful wind.

The white-headed eagle also noticed the person who had attacked it. A vicious glint flashed across its eyes, and with a flap of its wings, another powerful wind rushed toward the vile-lady.

Seeing this, Lu Zu was frightened and hurriedly said, "Retreat!"

The Evil Woman's footsteps moved, but she stopped again.

If she retreated, all the members of the cauldron would die, right?

If Su Yu came back, how would she explain it?

Her eyes were filled with determination. She stretched out her hand and pulled off the black robe on her body, revealing her exquisite and beautiful face.

Her hands formed a seal. With her as the center, the sky and Earth were filled with black lotuses.

Those lotuses were her true form, and she actually wanted to use her true form to absorb all the attacks from the bald eagle!

Ancestor Lu's eyes were about to crack, and he anxiously shouted, "Quickly stop! You will be reduced to Ashes!"

Those attacks had long exceeded the range that the evil daughter could withstand. If she forcefully did this, her true form would only be shattered, and she would completely disappear from the world.

The evil daughter's expression was indifferent, and there was neither joy nor sorrow. She said, "If I am Su Yu, everything can be done, and everything is meaningless."

Ancestor Lu was shocked. An expert of the Evil Woman's generation who was able to intimidate an eight-star civilization would actually sacrifice himself for a man without hesitation.

"I'll leave the members of the cauldron to you," the evil woman said. She leaped up, bringing many black lotuses with her as she faced the strong wind.

She was already prepared to die.

However, a sudden change occurred. The white-headed eagle suddenly flapped its wings continuously, creating several balls of strong wind that completely messed up the airflow in this place.

The strong wind that was about to descend on the camp was also affected. It deviated from its trajectory and brushed past the sky above the camp.

At this moment, the white-headed eagle was looking at the evil woman with a fearful gaze, as if it had discovered something extremely terrifying.

The Evil Woman's heart moved and she said calmly, "I am here, Scram!"

Chirp --

The white-headed eagle immediately flapped its wings and fled wildly. In the blink of an eye, it disappeared into the horizon.

The evil girl touched her own face and sighed faintly. "This face is really annoying."

The white-headed eagle must have realized that the evil girl had the same appearance as the Prince of Mirages, which was why it mistook her for the Prince of Mirages.

With a complicated expression, she descended again and appeared in front of the Fire Phoenix.

Looking at the Fire Phoenix, whose eyes were also filled with fear, the evil girl said indifferently, "You leave as well!"

Today, she was almost implicated by the Fire Phoenix and the entire cauldron was destroyed.

The Fire Phoenix hurriedly nodded and ran away without looking back.

The evil girl looked at the damaged camp and said calmly, "We have to change the camp again. We Can't stay here for long."

The news of her appearance here would soon be spread by the two demi-humans. If nothing went wrong, many experts would arrive within a few hours at most.

That would cause a lot of unnecessary trouble.

Thus, the cauldron that had been stationed there for only a few days changed its address again.
