Chapter 2991 The Tomb Of An Old Friend

In the Huang family's territory.

Su Yu helped the evil daughter to heal her injuries. Fortunately, the evil daughter's body was special. She could begin to recover on her own with just a simple treatment.

"I'm really sorry. My strength is too low, and I've dragged you down," the evil daughter said apologetically.

Su Yu quickly said, "Please don't say that. During my absence, I've relied on you to lead the cauldron. How can I blame you?"

After a pause, Su Yu said, "Haven't you used the primordial energy that I gave you?"

When he had received the primordial energy from the famous sword Saint Clan, he had given the evil daughter as much as a drop.

With the help of that energy, the evil daughter's cultivation should have increased by several levels. Why did she stop there?

The evil daughter remained silent.

Su Yu frowned and said, "Can you tell me where the primordial energy went?"

Obviously, the evil daughter did not use the primordial energy, but he did not know where she used it.

"I can't tell you," the evil daughter answered straightforwardly.

Su Yu was surprised. Could it be that the evil daughter had used it for an unspeakable purpose, to the point of hiding it?

"Why?" Su Yu asked.

The evil daughter said expressionlessly, "It's my freedom to use it. Please don't ask any more questions."

Su Yu didn't say anything else. He was a bit displeased.

No matter what, he had painstakingly taken back the primitive energy. He gave one drop to the evil girl in the hope that she would make good use of it and help him improve his cultivation.

But now it seemed that the evil girl didn't cherish it.

"Okay, suit yourself." Su Yu stood up and said, "You can heal yourself now. I'll leave first."

He left the healing chamber and stood in the air, looking at the territory of light.

The size of this place was actually not much smaller than the former nine regions.

It was completely able to accommodate the creatures that Su Yu had collected along the way.

Looking at the scene of them setting up camp in various parts of the territory and re-establishing their home, Su Yu felt a sense of warmth that he had not felt for a long time.

A life of uncertainty, half a lifetime of calculation.

Only these creatures that had always followed him firmly could give him a glimmer of a haven in his hometown.

"Where is the old friend of Divine Moon Island?" Su Yu's gaze swept over and found an island in the vast sea.

Many people from Divine Moon Island had rebuilt their homes in the vast sea.

Su Yu was filled with endless emotions. He took a step forward and appeared in the sky above the island.

Looking at a city that was rapidly becoming familiar to living beings and controlled by them, Su Yu transformed into a stranger and entered the city.

The bustling crowd was happily busy accepting a brand new territory.

Su Yu strolled through it, feeling a bit like he did in the past.

However, two hundred years had passed. The old friends on the Divine Moon Island were all mortals back then, and their lives had long passed away due to the passage of time.

Now, they were actually the descendants of those old friends.

"I heard that the commandery prince is sick. I don't know if he can survive."

"It's very difficult. The commandery prince actually died of illness a year ago. It was all thanks to that fairy who used divine dew to extend his life."

"But it's futile to try to keep someone who has already reached the end of his life."

Su Yu was shocked.

The Commandery Prince, Qin Xian 'er's father, the commandery Prince Xianyu.

He felt deeply ashamed. He had been traveling for so long that he did not even have the time to care about his father-in-law.

With a tap of his toes, Su Yu appeared in a courtyard.

As he entered, Su Yu was stunned by the scene in front of him.

What he saw was the mansion of the commandery prince of Xianyu from 200 years ago.

The garden, study, and courtyard were exactly the same.

He still remembered that in the courtyard, Qin Xian 'er was wearing a cute pink dress and waving her small fists to demonstrate her power to him.

He still remembered the loving voice and appearance of the Xianyu Commandery Prince in the study room.

He also remembered the scene in the garden where he had once taught Xia Jingyu the artistic conception, and Qin Xian 'er was foolishly watching from the side.

Everything seemed like it was yesterday.

It was so familiar, yet so distant and unfamiliar.

"Who came?" A hoarse voice came from the front yard.

Su Yu looked over. Even though they were separated by the courtyard wall, he could still see the scene on the other side clearly.

An old man with white hair and stripes on his face was peacefully lying on a bamboo chair, enjoying the afternoon sun.

He was holding a fan in his hand, slowly fanning himself. His eyes were lonely as he looked at the infinite sky.

"Who is it? Is My Xian 'er back?" He was the Xianyu Commandery Prince.

Two hundred years.

Things have changed and people have changed!

The flowers and plants were the same as they were two hundred years ago, unchanged.

Only the Valiant Commandery prince was old beyond measure.

Su Yu's eyes were moist. He could feel that the life of the commandery prince of immortal feather was not long.

It was not something that could be made up by increasing one's cultivation or using all the spiritual medicines in the world.

In fact, as a mortal, it was already a miracle that he could live until today.

"It's me," Su Yu said softly. He walked through the Moon Arch Door with the steps of a mortal and arrived in front of him.

The Xianyu Commandery Prince's eyes widened. He struggled to sit up and said, "So it's yu-er! Quick, come and sit down."

He pointed at the stool next to him, and a smile finally appeared on his sickly face.

Su Yu said apologetically, "I'm sorry, father-in-law. I can only see you now."

The Xianyu Commandery Prince's face did not show the slightest bit of blame. There was only endless joy. "Silly child, you're the ruler now, and you're shouldering the lives of the common people. How can you have time to see me?"

Hearing this, Su Yu felt even more guilty.

The ruler could care about the common people, but he couldn't care about his father-in-law.

"Where is Xian 'er? Why didn't she come with you?" The Xianyu Commandery Prince asked.

Su Yu's body stiffened, and he couldn't answer.

Could it be that the Xianyu Commandery Prince, who had walked to the end of his life, had to bear the pain of losing his daughter again?

After a moment of silence, under the expectant eyes of the Xianyu Commandery prince, he said, "Xian 'er is very good, but she has no time to come."

The Xianyu Commandery Prince's gaze quickly dimmed, appearing dejected and lonely. He muttered, "I haven't seen Xian 'er for many years."

"The last time I saw Xian 'er was already 30 years ago. No, it seems to be 40 years ago. No, how many years ago was it? I have already forgotten." The Xianyu Commandery Prince knocked on his head and said, "I am really old."

Su Yu's heart ached and he said, "Xian 'er did not come, but Xian 'er and my children will come to see you soon!"

Hearing this, Xianyu County King was pleasantly surprised. "You both have children? What are their names? Boys and girls? How Old Are They?"

He was like a young man who had found a treasure, his eyes shining brightly.

Su Yu pressed down on his old palm that was trembling in excitement. "Later, I will let her come to see you personally. If there is anything, you can ask her in person."

"Okay, okay. As your grandfather, I have to prepare some gifts." Xianyu County king trembled and wanted to stand up, but halfway through, he fell back onto the rattan chair weakly.

"Forget it, I'll get someone to take it later." Xianyu County King stretched out his hand. "Yu'er, help me to light an incense stick."

Light an incense stick?

For Who?

Su Yu helped Xianyu County King up and under his guidance, they came to a corner of the backyard.

It was a forest of locust trees.

In the forest, an old and ancient tomb lay there quietly.

On the Tombstone, a name was carved.

Xia Linxuan.

Chapter 2992 The Remains Of The Grave

Su Yu's eyes revealed a trace of sadness.

So it was Xia Jingyu's father's grave.

Many years ago, her father's fate had already passed and he had fallen into the Yellow Earth.

Life was short and fragile, nothing more than that.

If Xia Jingyu knew, she would also be sad.

"Old friend, I've come to see you again." Xianyu County King raised a glass of wine and poured it in front of the grave.

He then waved his hand and said, "Come and give uncle Xia a toast too."

Su Yu felt a trace of sadness in his heart. He took a glass of wine and poured it in front of his grave. He said, "Uncle Xia's spirit in heaven, please protect Jingyu safe and sound."

He bowed deeply to show his respect to Xia Linxuan.

However, when he lowered his head, he suddenly realized that there was a special grass growing in front of his grave.

The rest of the grass had already withered and turned yellow. Only this grass was lush and verdant, as though it was growing in spring.

As he scrutinized it carefully, his eyes gradually narrowed. "This is..."

Within the grass, he could actually sense the power of chaos from the descendant of the son of Heaven of the sacred mountain.

Why would the power of Chaos appear here?

A pale light appeared in Su Yu's eyes, and his soul vision appeared.

In the end, when he saw it, Su Yu could not help but be shocked.

In Xia Linxuan's tomb, what lay there was not a human remains, but... a stone man!

"Yu'er, what's Wrong?"The Xianyu Commandery Prince noticed that something was wrong with Su Yu's expression and asked.

Su Yu hid his shock and suppressed the waves in his heart as he said, "Nothing! Father-in-law, when did he leave?"

Xianyu Commandery Prince looked sad. He counted with his fingers and said, "It's been decades."

A few decades ago, Xia Jingyu had left the eight-star civilization and arrived at the nine-star civilization.

"Did father bury her personally?"Su Yu asked again.

Xianyu Commandery prince nodded his old head and said, "Yes, the Xia family lost their members. In the end, he was the only one left in the world. No one buried him. I could only personally attend to his funeral."

Su Yu's heart was filled with emotions when he heard that.

Why was Xia Jingyu's father a descendant of the son of Heaven of the Sacred Mountain?

Even if Xia Jingyu was the vessel of the illustrious son of heaven, there was no need to arrange for a descendant of the son of Heaven of the sacred mountain to be in the world, right?

"Oh Right."Xianyu Commandery Prince suddenly thought of something and said, "You were whispering to me. I was so old and muddle-headed that I actually forgot about one thing."

He shakily took out a simple and unadorned small box from his sleeve and said, "This is something that your uncle Xia asked me to pass to you before he died. Unfortunately, you didn't come and dragged it out until now."

A relic before he died?

Su Yu was suspicious!

How did Xia Linxuan from decades ago confirm that Su Yu was still alive?

"Open it and take a look,"the Xianyu Commandery Prince said.

Su Yu received it and opened it. He found that there was a cowhide letter in the box.

The Xianyu County king said, "I don't quite understand why my old friend left an empty cowhide letter for you. But before he died, he repeatedly reminded me to hand it to you."

Su Yu looked at the cowhide letter. With the Xianyu County King's mortal body, when he looked at the cowhide letter, it was indeed empty.

However, Su Yu was different.

He had the body of the son of Heaven of the Sacred Mountain, and his body was filled with chaotic energy.

Therefore, he could tell at first glance that the Kraft paper was filled with powerful chaotic energy. He gathered a trace of chaotic energy at his fingertips and gently tapped on the Kraft paper.

As a result, the chaotic energy on the Kraft paper immediately condensed into words that ordinary people couldn't see.

"Meditation scripture?"Su Yu couldn't help but be surprised. "What is this?"

After reading it in detail, he did not feel that there was anything special about the meditation scripture.

On the surface, it should be a very ordinary scripture.

Moreover, it was very awkward to read, as if it was missing something.

"Is this what Xia Linxuan wanted to give me before he died?"Su Yu was suspicious.

Before he died, he condensed the power of chaos into a suicide note, but there were no other words, only vague scriptures.

It was really strange!

"Yu'er, did you see anything?"The Xianyu Commandery Prince asked.

Su Yu pondered for a while and said, "Did uncle Xia say anything before he died?"

The Xianyu Commandery Prince pondered for a long time and said, "He said that he asked you to take good care of Jingyu, so he left her to you."

These were very ordinary words and there was nothing special about them.

Su Yu felt disappointed and ashamed.

He was disappointed that Xia Linxuan did not leave any clues behind.

He was ashamed that he did not take good care of Xia Jingyu.

"I understand."Su Yu sighed slightly and said, "I will try my best to take care of Jingyu."

He did not dare to reveal Xia Jingyu's current situation, afraid that the Xianyu Commandery Prince would worry about her in his remaining life.

The Xianyu Commandery prince smiled slightly and said, "I believe that my old friend will be very pleased to know that you have been taking care of Jingyu all these years."

HMM?

Where did this come from?

Su Yu's heart skipped a beat. "Father-in-law, have you seen Jingyu?"

A kind smile appeared on Xianyu Commandery Prince's Old Face. "Jingyu, this child, has been coming here frequently all these years. She often comes to accompany me. Sometimes, I almost treat her as Xian 'er, as if she were my daughter."

Su Yu's heart trembled.

Xia Jingyu was not by his side for a hundred years, how could she have the opportunity to visit Xianyu Commandery Prince?

Was there some misunderstanding?

Suddenly, the figure of a person appeared in Su Yu's mind. He asked in disbelief, "Father-in-law, did you say that Jingyu, dressed in black, was very cold?"

The only person by his side that could make Xianyu Commandery prince misunderstand Xia Jingyu was the vile daughter!

The Xianyu Commandery Prince was stunned. "It's true that she's dressed in black, but she's not cold. When she's by my side, she often smiles. It's just that she doesn't talk much."

After a pause, the Xianyu commandery prince said, "What? She's not Xia Jingyu? I thought she just became quiet."

Su Yu could not hide it and could only say, "She's another person, very similar to Xia Jingyu."

He was very suspicious. Why did the evil daughter pretend to be Xia Jingyu to accompany his father-in-law?

Moreover, from the description of the Xianyu Commandery prince, it was not the first time the evil daughter had come. Instead, she had been seeing her father-in-law behind his back for many years.

What did the evil daughter want?

Why had she been hiding it from him for so many years?

If it was not for the sudden impulse today to come, she would probably have been kept in the dark.

Then, he thought about how he had given the primordial energy he had painstakingly obtained to the evil daughter, but she did not treasure it at all. Her purpose was unknown, and Su Yu became even more suspicious.

It seemed that it was necessary to communicate with the evil daughter.

What was her purpose in following Su Yu all these years.

"There is such a similar person in the world?" The Xianyu County King was surprised. "But, she did not deny that she is Jingyu!"

Su Yu's eyes darkened. What was the evil daughter's purpose in pretending to be Xia Jingyu?

"Moreover, she even fused a ball into my body to help me improve my physique."The Xianyu Commandery Prince was confused. "That time, I thought I was about to die, but that ball allowed me to live for another year or two until now."

Eh?

Su Yu frowned. "Ball?"

The Xianyu Commandery prince said, "It's a bit like a water droplet. It's filled with very pure energy."

Hearing this, Su Yu's pupils constricted.

This... could it be that drop of primordial energy?

Chapter 2993 Exchanging Soul Stones

"She said that you asked someone to give it to me."The Xianyu Commandery Prince's eyes were filled with surprise as he said, "Yu'er, if she isn't Xia Jingyu, then who is she?"

If it wasn't Xia Jingyu, why would she protect him like that?

Every time Su Yu wasn't by his side, she would often accompany him?

However, Su Yu was already in a state of great shock. He looked at the empty sky in a daze, and his mind was filled with a roaring sound.

The Vile daughter did not waste the primordial energy.

Instead, she treasured it and left it for the Xianyu Commandery Prince, who did not have much life left!

She clearly had no relationship with the Xianyu Commandery Prince and had no interaction with him, yet she did not hesitate to give the primordial energy to the Xianyu Commandery prince in the name of Su Yu.

The Vile daughter was someone who had spent her entire life pursuing the peak of martial arts. She thirsted for a breakthrough more than anyone else.

However, when the opportunity for a breakthrough was right before her eyes, the vile daughter actually gave it up and gave it to the Xianyu Commandery prince whom she had never met before.

Who was she doing this for? was there even a need to say it?

"Vile daughter."Su Yu only felt a wave of pain in his heart.

Just a moment ago, he was still blaming the vile daughter, but the latter had silently endured it. She neither explained nor defended herself.

The Xianyu Commandery prince saw this and seemed to understand something. He patted his shoulder and said, "Yu'er, don't leave any regrets in everything."

Only he knew that Su Yu and Xia Jingyu could have been married. It was just a coincidence that Su Yu became Xianyu Commandery Prince's son-in-law.

"Father-in-law."Su Yu felt ashamed and his heart ached.

"Go."Xianyu Commandery prince smiled kindly.

Su Yu cupped his fists and said, "I'll come to see you later."

He had mixed feelings. He leaped and disappeared from the Divine Moon Island and returned to the main hall.

His gaze swept around, but there was no trace of the vile daughter. He could not even find her in the entire territory.

"Where's the vile daughter?" Su Yu's heart was inexplicably flustered. That feeling was as if he was about to lose Xian 'er.

"Reporting to Ding Zun, the vile daughter has gone out to exchange for coins," one of his subordinates replied.

Ding had come from an eight-star civilization, and the eight-star civilization currency it used was naturally no longer suitable for a nine-star civilization.

Although they had killed many people from the skeleton corps in the galaxy and seized a lot of nine-star civilization currency, it was still a drop in the bucket compared to the huge creatures of a nine-star civilization.

The only way was to barter for the currency that everyone needed.

Su Yuxin felt much better, but she was also full of worry. "Where did you go?"

"The evil daughter said that she had checked the information. There is a sacred place in the Zang Tian mountain that all forces can trade. It's called the Sky Capital Square. It should be there now." Tiandu Square?

For some reason, Su Yu had never been worried about the evil daughter.

Or rather, he was very anxious and wanted to apologize for her.

With a flash, Su Yu left the territory in a hurry and headed to the Tiandu Square.

In the territory, in a pavilion.

Shengge was playing chess with Snow White.

Shengge looked at the sky and blinked her round eyes, "Master is still as busy as ever."

"HMPH, who knows which woman he went to look for again?" Snow White continued to play chess disapprovingly.

Shengge covered her mouth and laughed lightly. There was a trace of the vicissitudes of life in her smile. "You have a deep misunderstanding of master. He is not as fickle-minded as you think."

Regarding this, Snow White felt that she had the right to speak. She chuckled and said, "The person who stripped me a few times, is he still a gentleman?"

Shengge shrugged, "He can't be considered a gentleman, but, he definitely won't touch other women."

As she said that, Shengge looked at her with a smile that was not a smile. "I guess, you must have been seen by him, but never touched. That's why you're not satisfied with your desires. That's why you're prejudiced against Master, right?"

Snow White pointed her finger hard and placed the chess piece on the chessboard. She said angrily, "What nonsense are you talking about? Will I take a fancy to this liar?"

The smile on Sheng Ge's small face disappeared and a trace of seriousness appeared on her face. "It's best if you don't take a fancy to him. Otherwise, you'll be in pain for the rest of your life! Because, you won't get him."

Only those who had been with Su Yu for a long time understood that he only had those two people in his heart.

At that time.

Tiandu Square.

In an extremely elegant shop, the evil daughter wore a bamboo hat and was discussing with someone in a material shop.

This shop was the largest material shop in the hidden Sky Mountain, the Guangtian Pavilion. It accepted all kinds of rare materials from the world.

The second manager of the shop was holding the evil girl's interspatial ring and looking at the things inside.

After looking at it for a long time, he shook his head expressionlessly. "Next time you have something precious, send it to the Guangtian Pavilion."

What he meant was that the things the evil girl brought were too cheap and not worth the Guangtian Pavilion taking.

The evil daughter had been cultivating all her life and would never ask about the sale of resources in detail, so she was not very good at talking to people.

But now that she was in charge of the cauldron, even if she was not good at it, she had to bite the bullet.

"What about these?" The evil daughter took out another spatial storage device and handed it to the shopkeeper.

The latter scanned it and could not help but be surprised.

There were very precious things in this spatial storage device, but there were also very low-quality things. All of them were mixed together. Clearly, the owner of the spatial storage device was not good at organizing.

His eyes flashed with a bright light as he said, "How about this, I will be kind and buy it with 100 million Soul Stones."

The so-called soul stones were the common currency issued by the sacred mountain.

Regardless of whether it was a nine-star civilization or an abandoned civilization outside, they could all buy what they wanted through the soul stones trade.

100 million soul stones was indeed not a small number.

However, the spatial storage in the hands of the evil woman was the skeleton group's most important core resource.

How could it only be worth 100 million soul stones?

This shopkeeper obviously saw that the evil girl was too inexperienced, so he wanted to trick her to see if he could get the core resource at a low price.

"Can't it be any more?"The evil girl asked.

However, she did not know that the moment she said it, she revealed the nature of a bad conversationalist.

The shopkeeper's face was taut, and he had a look of disdain. "I only reluctantly accepted it because you are sincere. Since you think it is worth more than it is worth, then take it back."

As he said that, he pushed the spatial storage device back.

The evil girl's rarely-seen face showed a trace of apology. "Sorry, then as you said, 100 million Soul Stones."

"Forget it, forget it. This old man will be a good person again,"the second manager said impatiently.

The evil girl thanked him repeatedly. "Thank you, manager. Thank you."

Probably, this was the last time in her life that she treated people so politely.

The second manager reached out his hand and was about to take the spatial storage device when a palm appeared out of nowhere and pressed down on the spatial storage device. He said, "We're not selling it anymore."

The owner of the palm was none other than Su Yu, who had rushed over in time.

In fact, he had been here for quite some time and had witnessed the evil woman discussing with others the entire time. His heart was filled with an inexplicable sense of admiration.

The Evil Woman of the past, how magnificent was she?

She was as cold as an ice mountain, powerful enough to shake the galaxy, and had chased after him for several years.

Even if the world collapsed, she had never changed her color. She was like a goddess in the sky, worthy of respect and awe.

However, what made her lower her status and bargain with others?

She even forced a smile, apologized to others, and looked at others'expressions?

Su Yu's heart fiercely.

Chapter 2994 There Was No Leeway

The change of the vile daughter was for him, right?

The heartless woman who was a loner and dedicated to pursuing martial arts had lowered her status for him, changed herself for him, and silently paid for him.

At that moment, Su Yu felt that it would have been better if the vile daughter had not met him.

"Why are you here?" The Vile daughter turned her head and asked.

Su Yu hesitated for a moment and put his other hand on her shoulder. The latter's calm eyes trembled and her body stiffened.

For the first time, a blush appeared on her snow-white face.

She wanted to speak, but her mind was blank.

Her heart was thumping as if something was constantly colliding with it.

This feeling was very strange and strange. She had never experienced it in her life.

Su Yu whispered in her ear, "I want to see you."

Hearing this, the evil girl's pupils constricted. Her heart seemed to be held by a strong hand, making it difficult for her to breathe.

Want to see me?

Probably, this was the most emotional words the evil girl had heard from Su Yu.

Although it was only three words, it gave the evil girl a great shock.

"Then, say sorry," Su Yu said apologetically.

The wicked daughter, who was usually cold and concise, couldn't speak fluently at this moment.

"It's... It's okay."

She looked at Su Yu's eyes and found that Su Yu was actually looking at her too.

When their eyes touched, they were both stunned.

Su Yu's feelings for her should be the most complicated. From the first life-and-death enemy, to the later stand on the same line, then to friends, and finally to the hazy relationship now.

One could not help but sigh at how fate played tricks on people.

"Are you selling or not?" The second manager's face was taut as he interrupted the tacit communication between the two.

The evil woman came back to her senses and looked away. She said, "Listen to him."

The second manager looked at Su Yu. The latter said without hesitation, "Not selling!"

Saying that, Su Yu put away the spatial storage device and put his arm around the evil woman's shoulder. He said, "Let's go and change to another shop."

The second shopkeeper immediately became anxious.

Although it was just a quick glance, he still found a few treasures that were worth hundreds of millions of soul stones. If he managed to swindle them, it would be a huge windfall.

"Wait! The price can still be negotiated."The second shopkeeper stood up and blocked her way.

The evil woman turned her head to look at him and asked, "Didn't you say just now that you would only accept me after doing me a favor? Now you're saying that the price can be negotiated?"

The second manager coughed dryly. "I'll reconsider now. I found that some of the things in the spatial storage device are still of some value, but it won't be too high."

"I wonder if you are sincere in selling it?"The second manager asked.

Su Yu stood on the cloth and weighed the spatial storage device. "Then are you sincere in accepting it?"

The second manager put his hands behind his back and said proudly, "Of course. Our Guangtian Pavilion emphasizes sincerity and sincerity in doing business."

Su Yu stretched out a finger and said, "Since that's the case, I'll sell it to you for this amount."

"100 million Soul Stones?"The second shopkeeper asked hesitantly. Wasn't this the same price as before?

He realized that it wasn't the case and said calmly, "Don't tell me you're thinking of saying one billion?"

If it was one billion, it would still be a huge profit. Just a cursory glance just now, the total value of the few items inside was far more than one billion.

"No, I'm talking about ten billion soul stones."Su Yu said indifferently.

The skeleton gang had plundered the resources of the galaxy for many years. Ten billion was just a small estimate. The Guangtian Pavilion still had money to earn.

"What, ten billion? Are you crazy?"The second manager laughed angrily.

What kind of concept was ten billion soul stones.

The annual income of each of the three great sage families was only this amount.

How was it possible to trade 10 billion in one go?

The black-robed man in front of him must have been crazy about money?

Su Yu didn't say a word. He took out one treasure after another from his spatial storage device and placed them on the table.

"The Taihe fish-dragon is worth at least 100 million soul stones."

"The Tian Yu coral is worth 150 million soul stones less."

"Rank 7 dao artifact, Black Dragon Heartbreak Sword, 200 million soul stones."

..

Su Yu took out the relatively precious items in his spatial storage one by one. There were dozens of them.

"These add up to a total of ten billion." Su Yu glanced at the pile of items on the table, then shook the spatial storage in his hand. "In addition, there are still some precious items that have yet to be counted."

"Now tell me, who is the one who is crazy enough to want to buy these things with 100 million Soul Stones?" Su Yu asked back.

The second shopkeeper said embarrassedly, "It's my poor eyes. I didn't realize that there were so many valuable things."

The evil girl saw it and sighed silently. She was indeed not suitable to bargain with small figures.

It was really ridiculous to almost be cheated by someone with 100 million soul stones.

"So, do you want to accept it or not?" Su Yu asked.

The second shopkeeper quickly said, "Please Wait a moment. We have to ask our head shopkeeper to make the decision."

He quickly ran to the back hall. In the courtyard, an old man with a goatee was leisurely feeding the goldfish in the water tank.

"Head shopkeeper, there is a big deal. Please decide."

The old man with a goatee looked at the fish tank and said, "How big is it?"

"Ten Billion," the second shopkeeper said.

The goateed old man's palm paused. He was obviously a little surprised. He hesitated for a moment and said, "Give Up! I need to invest a large amount of money into another matter recently."

Give Up?

The second manager was particularly distressed. He said, "Head manager, this business is definitely profitable. So far, we have counted ten billion worth of items..."

He listed them one by one, including the dozens of treasures that Su Yu had taken out just now.

Originally, the Goateed Old Man was not moved at all. He did not have the slightest intention of trading.

But gradually, the goateed old man's eyes gradually became sharp. He patiently listened to the second shopkeeper's narration without missing a single word,

"What is the background of this person?" The goateed old man narrowed his eyes.

The second shopkeeper shook his head. "I don't know. There are two people who have come, but they are both wearing black robes and masks. We are unable to detect their identities."

He looked at the Goateed Old Man in surprise. At first, he thought that the deal was off.

He did not expect the head manager to change his mind. He was really surprised.

After pondering for a long time, the goateed old man put down the fish food and walked to the front hall with his hands behind his back.

As soon as he arrived, he immediately put away the gloomy look on his face and squeezed out a warm smile. He cupped his fists and said, "I am the head manager of the Guangtian Pavilion. I am sorry for not welcoming you two distinguished guests!"

Su Yu simply nodded his head in response.

The head shopkeeper smiled and said, "Men, serve tea to the two esteemed guests!"

Then, he asked, "May I know where the two esteemed guests came from?"

Su Yu's eyes flashed and he said indifferently, "We are only here to sell things and have no time to chat. If the head shopkeeper feels that buying and selling is not suitable, we can find another seller."

It was too naive to want to get his background.

"We are willing, but compared to the goods, we want to be friends with you." The head shopkeeper said with a smile.

Su Yu did not say a word. He put away the spatial storage device and said, "Let's go."

The evil daughter felt strange in her heart. Not selling anymore?

Or was this a way to bargain?

"Sir, please wait. Our Guangtian Pavilion is willing to do this deal with you." The head shopkeeper quickly said, "The price is as you said just now. Ten Billion Soul Stones."

However, Su Yu did not turn his head and said very decisively, "I'm sorry, I won't sell it."

The head shopkeeper immediately said, "The price can be higher!"

Su Yu said calmly, "I said, I won't sell it!"

After saying that, he left the Guangtian Pavilion.

Outside the shop, the evil daughter said, "If we can sell it at a higher price, why not sell it?"

Su Yu's eyes revealed a glimmer of brilliance as he said in a deep voice, "Don't you think that this head shopkeeper's interest in US far exceeds these resources?"

Chapter 2995 Invitation Issued

Oh? The evil woman thought carefully and said, "It seems to be the case. They have been insinuating our origins."

Su Yu looked back at the signboard of the Guangtian Pavilion and then looked down at the spatial storage device in his hand. "Perhaps, these stolen goods have some connection with them."

When they had killed the sky covering devil of the skeleton gang, he had self-exposed his identity before he died. He came from a great saint family of a nine-star civilization.

Presumably, there should be something unique to those families in the spatial storage, so that they could be recognized.

However, since things had come to this point, Su Yu had no regrets.

He and his evil daughter went to another shop and sold it very easily at the price of ten billion soul stones.

"You take care of all this money." Su Yu gave all the soul stones he had obtained to her.

The evil daughter was stunned for a moment and said, "Aren't you afraid that I will take all of them away?"

Ten billion was not a small amount. Wasn't Su Yu too assured of her?

"Just based on your care for the Xianyu Commandery Prince, you can take away a hundred billion soul stones if you want to." Su Yu looked into her eyes.

The evil daughter's cold eyes were suddenly filled with panic. It was obvious that Su Yu's words that caught her off guard had pierced into her heart.

For No Reason, why did she run off to take care of Su Yu's father-in-law? was there even a need to say it?

Su Yu took out another jade bottle. There were ten drops of primordial energy inside.

"Come with me!" He took a step forward and brought the evil daughter back to the secret room in his territory. "Take it."

This time, Su Yu personally supervised the use of the evil daughter.

Helplessly, the evil daughter could only take it on the spot. Su Yu was behind her, helping her quickly dissolve the medicinal effect.

Meanwhile, in the Guangtian Pavilion.

The head shopkeeper was still standing at the door, his expression changing constantly.

"Did you buy it?" When the second shopkeeper came back, he asked coldly.

The second shopkeeper held a jade box in his hand and handed it to him. "Three billion, I bought it back from the HAORAN Tower."

The head shopkeeper opened the Jade Box. Inside lay a white crystal with a golden liquid flowing inside.

"It really is the sky flowing cloud crystal," the head shopkeeper muttered.

This item was one of the items in Su Yu's spatial storage. He had sold it to haoran tower for 300 million. It was obvious that they wanted to buy it back. Naturally, haoran tower was very generous and offered a price of 3 billion.

The second shopkeeper was extremely distressed. He had spent a few billion more soul stones.

This was a huge loss!

However, the head manager wanted to buy this item back and said that he would pay any price, so he could only let haoran tower name the price.

"Head manager, what should the higher-ups do if they find out that we are spending money so recklessly?" The second manager asked worriedly.

The head manager's expression was cold as he said, "If the higher-ups find out that the sky flowing cloud crystal is here and we turn a blind eye to it, it will be really troublesome."

He tidied up the sky flowing cloud crystal and put on his bamboo hat. "Take care of the shop. I'm going to the gai tian saint tribe to meet master."

Hearing this, the second shopkeeper's expression was extremely serious.

The Gai Tian Saint tribe was a super saint tribe. They were different from the ordinary saint tribes of the Zang Tian Mountain.

In a saint tribe like that, there could be several super great saints with exceptional powers appearing at any time.

Although they were not as strong as the famous sword Saint clan, they were not much weaker.

At that time.

The news that the Huang family's territory was occupied by an outside force spread like wildfire. In just a few days, it had spread all over the Zang Tian Mountain.

Many large forces in the mountain were alarmed.

This was especially so for the Netherworld Saint clan and the puppet Saint Clan, which were two of the three saint clans.

The Netherworld Saint Clan.

A grand saint ancestor was in secret with close to twenty ancient saints.

"How's the investigation of the foreign powers that occupy the territory of the Huang family coming along?" The one in the middle was a child. He wore a simple gray robe and his face was very young. However, his eyes were filled with vicissitudes of life.

He was the elder of a famous saint tribe, the Netherworld Grand Sage. He was good at controlling ghosts and corpses. He was very powerful.

"The newcomer is a small and unrated power called Ding. I've never heard of it before," an ancient Sage who was in charge of the investigation asked.

"As far as I know, their leader is the strongest. His strength is only at the first stage of the intermediate stage of the Heavenly Dao master realm. He hasn't even reached the ancient Sage realm yet."

Such a low-level force?

The other ten or so ancient sages discussed animatedly.

"The Huang family lives alone in the central area of the Sky Mountain. On account of the fact that their family has a Daoist surname, we've been giving way for so many years. Now that their family has all disappeared, how can their territory fall into the hands of Outsiders?"

"Forefather, it's time to take back the territory of the Huang family."

..

Many ancient sages were suggesting, but forefather Netherworld remained silent. After a long while, he asked, "What about the green wood saint clan and the puppet Saint Clan?"

The investigating ancient sage pondered for a moment and said, "This... The two saint clans haven't made any moves yet. They probably haven't made a move yet!"

The ancient sages suggested again.

"Forefather, we must seize the territory before the two saint clans can react!"

"That's right, forefather. This is an opportunity that can't be missed!"

However, forefather nether was exceptionally calm. His weathered eyes were filled with wisdom.

"Why do I feel that this is a trap?"

A trap?

The many ancient sages were deep in thought. The ancient sage in charge of the investigation said, "Forefather is worried that the two saint clans haven't made a move yet because they know something in advance?"

In this regard., forefather nether nodded slightly. "I can't say for sure. The saint clans are obsessed with the refinement of puppets and are not keen on expanding the size of their territory. However, the green wood saint clan needs to live and reproduce. They have always been extremely keen on territory."

"The Green Wood Saint clan has paid a huge price for the Huang clan's territory. Now that the territory is no longer dangerous and has been taken advantage of by a group of small forces, how can they remain calm?"

The ancient saint who was in charge of the investigation said, "Could it be that the Green Wood Saint Clan has not received the news yet?"

In response, the Netherworld Patriarch could not help but laugh. "How is that possible? The green wood saint clan is proficient in wood-type ancestral techniques. Everything can be turned into the wood of their green wood saint clan and become their eyes and ears. How can they not know about it?"

"It is not an exaggeration to say that the green wood saint clan knows everything about our spies here!"

As he spoke, the Netherworld Patriarch's gaze suddenly sharpened as he stared at a member of the ancient Saint Clan who was paying full attention to the meeting.

He clenched his hand and grabbed the old man's neck. Then, he took out a jade box from his chest.

There was a seed that had already sprouted inside.

The tender shoots that emerged from the seed were abnormally green. Moreover, there was an intense glow flickering.

The ancient saint was shocked and said, "Ah, this is a seed that has been dead for a hundred years. When did it germinate?"

The Netherworld patriarch pinched the seed and sneered, "The Green Wood Saint Clan, don't go too far!"

With a pinch of his palm, the seed shattered with a bang, and green smoke came out from it.

Obviously, the Green Wood Saint Clan had activated the seed and then used the seed to detect every movement in the secret chamber.

The Nether master sat back down and said calmly, "So you saw it? The Green Wood Saint Clan didn't do anything. It must be the territory of the Huang family... No, it must be that small force called Ding. Something is wrong!"

This time, no one doubted him.

"Then, how should we treat that small force?" Everyone asked.

The nether master rubbed his forehead and his eyes sparkled. "Send an invitation. I want to meet their leader personally!"

However, just as he finished speaking.

A spatial fluctuation suddenly appeared above their heads, followed by a red invitation fluttering down.

"Mastery spatial domain?" Elder Nether's pupils contracted violently!

Chapter 2996 Called For The Entire Mountain

Only the space saint clan could master such a spatial domain.

The spatial domain quickly disappeared, leaving only an invitation card floating in front of the nether elder. He picked it up and flipped through it. His expression changed three times before he fell silent.

"Elder, is there a problem with the letter?" The clansman asked with concern.

The Netherworld ancestor shook his head. "There's no problem with the letter. The one who has a problem is the person who delivered the letter!"

He flicked his finger, and the words on the letter were all sent flying into the air, appearing before everyone's eyes.

When they saw this, they were bewildered.

"Ding invited the three great sage families and all the ancient clans of Zang Tian Mountain to have a discussion?" The clansmen were both amused and angry.

What was laughable was that this new cauldron was taking himself too seriously.

It actually dared to gather all the powers of the Zang Tian Mountain to have a discussion?

The three great sage clans had been rooted in the Zang Tian Mountain for many years. How deep were their roots?

However, they did not have the qualifications to gather all the powers of the Zang Tian Mountain.

How could this cauldron have the nerve to send out an invitation?

"Ancestor, although this cauldron is a little strange, it is so arrogant. We can not allow it to act like this." A clansman suggested, "The dignity that should be established still needs to be established."

The clansmen were not interested in this invitation. Only the Netherworld elder pondered for a long time and made a decision that caused an uproar among the clansmen. "Prepare a generous gift. We'll attend the meeting on time."

What?

The dignified saint clan actually had to bow down to a small force that did not even have the sound of drums to participate in their organization's discussion?

What kind of joke was this?

If they really went to this discussion, how would the Netherworld Saint Clan raise their head in Hidden Sky Mountain in the future?

"I've made up my mind," forefather Netherworld said in a deep voice.

As the only great saint of the sacred clan, he had to have extraordinary eyesight and be more cautious than anyone else.

That cauldron could not be underestimated.

The azure wood sacred clan had also received a similar invitation. They had personally witnessed Su Yu's true strength, so they naturally did not dare to reject the invitation.

In the puppet sacred clan's secret forging room.

An expert dressed in black robes, whose body and mind were hidden, was refining a human-shaped metal puppet that was a hundred feet tall with the help of ten ancient sages.

The material of the puppet was neither metal nor wood. It was unknown what it was made of.

Black Lightning flowed all over its body. It was similar to the human-shaped tribulation fire of the famous saint tribe, but it was much weaker compared to the tribulation fire.

"The puppet has been formed. Only the heart can not be created." The puppet Grand Sage stroked the metal puppet with a hint of regret.

Bolts of lightning shot out from the puppet and landed on the puppet Grand Sage's arm. However, they did not cause any damage.

The human heart puppet in front of him was the masterpiece of the 10th generation of the puppet Grand Sage.

It used meteorites from outer space to gather the bones of the grand sage and the rare materials from the nine-star civilization. It took several eras to create.

By his generation, the puppet's appearance had been completely formed, but it was just its appearance.

It still lacked a powerful heart.

Only a heart could cultivate and absorb energy on its own like a human, and not be a dead object.

Right at this moment, the spatial domain appeared above them, and an invitation fell from it.

Without even raising his head, the saint puppet extended his hand and grasped the invitation letter in his palm.

He did not open it, but through the cover of the invitation letter, he was able to see the contents of the letter. "Ding, all factions of the Heaven's burial mountain are invited to participate in the discussion."

The ancient sages in the room chuckled upon hearing those words.

"Who is Ding?"

"I don't think that there is such a faction in the Heaven's burial mountain, right?"

"I heard that it is a small faction that has taken over the Huang family's territory."

"We are too lazy to find trouble with them. Instead, they have taken the initiative to find us!"

..

The puppet Grand Sage took a look and crushed the invitation expressionlessly. He said indifferently, "Don't bother about it. Continue to refine."

Almost all the factions in the heaven-burial mountain received the same invitation.

Most of them refused to participate, and only a few of them agreed to participate.

In the territory.

Su Yu was the evil daughter's guardian.

She had already refined all the medicinal effects, and she didn't disappoint. She had broken through to the middle stage of the Heavenly Dao master realm in one go, and her cultivation was on par with Su Yu's.

At this moment, Su Yu used his spatial domain to send out the last invitation.

The evil daughter opened her beautiful eyes and said, "I'm about to recover my peak strength."

Half of her body had been destroyed in the end, and she had yet to recover.

"I have a feeling that if I recover to the peak of my strength, my body will undergo a qualitative change," the wicked girl said with some enlightenment.

As the vessel of the emperor, she had been carrying the body of the mirror flower emperor for too long, and her body had been imperceptibly affected.

If her cultivation had recovered to the beginning, she might have triggered some of the power of the mirror flower emperor that had settled in her body and become abnormally powerful.

Su Yu looked at her deeply and said, "If this day comes, remember to remind me to protect you at any time."

To be honest, he did not think that this was a good thing.

He had only transplanted one of flower of mirrors' hearts, and she had almost possessed him. As the vessel of flower of mirrors' former self, if his body would undergo some qualitative changes, he really could not help but be wary of flower of mirrors' little tricks.

"Alright." The evil woman nodded, her gaze fixed on the fluttering invitation card. "Why did you write invitations to all the factions in Hidden Sky Mountain?"

Su Yu's eyes revealed a profound light, he said, "My body has to be recovered sooner or later. I can't delay any longer, so I have to stabilize the situation in Hidden Sky Mountain as soon as possible. I have to ensure that after I leave, the cauldron will not be harassed by the various factions in Hidden Sky Mountain."

"So, you want to kill a chicken for the monkeys to see?" The evil girl immediately understood Su Yu's intention.

Unexpectedly, Su Yu shook his head and said, "No."

"Killing to establish prestige is only a temporary effect. Common interests are the long-term plan." Su Yu's expression was calm.

The evil girl saw it and sighed with emotion.

A hundred years ago, when she first saw Su Yu in the seal, he was still a young and hot-blooded youth.

Now, he had grown into a mature and mature person who was also experienced and shrewd.

Time had changed, washing away the dust of the world and also resisting the sharp edges of human nature.

"Since I'm inviting them to a discussion, I naturally want to discuss long-term interests. Only in this way can the cauldron grow steadily," Su Yu said.

The evil daughter chose to stand beside him and said, "I really want to help you."

Her words were filled with deep helplessness and powerlessness.

A hundred years had passed, but she was already unable to catch up to Su Yu's pace.

At this moment, even if her cultivation had improved, she was unable to help Su Yu too much.

Su Yu patted the back of her hand and smiled warmly. "Living well in this world is the best help for me."

He did not want to see anyone else sacrifice because of him anymore.

His life was too heavy, so heavy that he could not bear more things.

"Okay." The evil girl looked at each other and smiled, her heart was very warm.

Next, Su Yu and Snow White talked in detail.

"Hey! When will the statue seal be ready? Those Old Fellows of the Heavenly Dao Union are waiting for my reply." Snow White held her chin with both hands and said hatefully.

She followed Su Yu and the others to the hidden Sky Mountain, wasn't it to wait for Mo Heng to refine a new statue seal?

Su Yu said, "I've already sent an invitation to the saint puppet tribe in charge of the fire pool. If they are willing to come, we can discuss it in person and use their fire pool."

If Mo Heng wanted to create a seal, he could only use the heaven-burial mountain's natural fire pool.

And that fire pool was occupied by the saint puppet tribe.

A hint of worry flashed across Bai Xue's eyes, "It's not easy to deal with the saint puppet tribe. Yesterday, I contacted the leader of the saint puppet tribe. He used to be a member of the Heavenly Dao Union."

"In the end, he was unable to help me obtain the qualification to use the fire pool. This is because the saint puppet tribe and those ancient sages are adamant that outsiders are not allowed to enter their fire pool."

Su Yu raised his eyebrows. Even if the tribe leader appeared, he was unable to persuade those old fellows.

Even if the saint puppet tribe was willing to participate in the discussion, it was impossible to convince them.

"Let's finish the discussion first. If it really doesn't work, we'll just force our way in." Su Yu made up his mind.

Chapter 2997 Heavenly Prison

Forcing his way in was a last resort. If it was not necessary, Su Yu did not want to do it.

"That's more like it." Snow White's worry turned into joy as she cupped her chin and giggled.

She was very clear about Su Yu's strength. As long as he was serious, he would be able to flatten the saint puppet clan easily.

"Then, can I use the Yin Yang Sect?" Su Yu asked.

Ever since he met the Xianyu Commandery prince once, his heart was moved. He wanted to find Xia Jingyu and confess to her.

And to recover his body was an urgent matter.

"No!" Snow White shook her small head regretfully. "As I said before, the Yin Yang sect is a secret of the Heavenly Dao Union. Only those who bring great benefits to the Heavenly Dao Union will have the chance to ask the old union leaders to use it."

"And to bring great benefits, the most direct way is to complete some of the missions issued by the Heavenly Dao Union. The minimum requirement to accept the missions is that it must be at the level of a big aristocratic family."

"Now, Your Ding is considered a big aristocratic family and is qualified to accept some of the missions of the Heavenly Dao Union."

Su Yu sat down and said, "What missions do you think are the most likely to make the old union leaders of the Heavenly Dao Union willing to use the yin-yang gate as a reward?"

"Let me take a look." Snow White took out a thick stack of books.

"This is the list of all possible missions for the next three years." Snow White took out a golden book and opened it. "The top-tier missions are all on it."

Su Yu took it and looked at it. He couldn't help but be surprised.

"Hunting great sage level ferocious beasts, eating iron giant bears!"

"Searching for extinct spiritual herbs, dao rain immortal root!"

..

He casually flipped through it, su Yu grinned, "Your Heavenly Dao Union is really ambitious. The missions on this golden book are all extremely difficult missions that only the great sage families can complete. Are you sure that the Great Sage families will help you complete the missions?"

The price of inviting the great sage families was not something that the Heavenly Dao Union could afford.

Bai Xue said disapprovingly, "What's so strange about that? Our Heavenly Dao Union is a big family in name, but do you really think that we are weaker than the big families?"

This... was really not the case!

Su Yu did not know how powerful those old union leaders were, but Bai Xue had already stepped into the ranks of the great sage.

According to theory, a power with a great sage was enough to be considered a saint.

However, the Heavenly Dao Union did not.

Furthermore, the Heavenly Dao union was so widely spread that the entire nine-star civilization, even the eight-star civilization, could be found everywhere.

In terms of size, would the Heavenly Dao Union be inferior to the three saint clans on the heaven-hiding mountain?

"How Strong Is Your Heavenly Dao Union?" This was the first time Su Yu was concerned about this question.

Snow White placed her hands in front of her chest proudly, "In terms of true combat strength, it should not lose to some super saint clans."

HMM?

Su Yu was a little surprised.

Super Saint clans were not simple.

For example, the famous sword Saint Clan had a terrifyingly deep foundation!

He had never thought that the Heavenly Dao union would be so powerful.

However, it was no wonder that his branches could spread all over the place and not be attacked by the local saint clans.

"In that case, is it too unrealistic to forcefully barge into the Heavenly Dao Union?" Su Yu extinguished this thought.

Snow White glared at him angrily. "Luckily you didn't. Otherwise, you wouldn't even know how you died!"

Su Yu asked curiously, "Since the Heavenly Dao Union has such strength, why didn't they advance to the Saint Clan?"

Snow White kept her mouth shut and only used her finger to point at the top.

Su Yu understood. It was related to the son of Heaven of the Sacred Mountain, right?

Once they became a saint clan, they would be monitored by the son of Heaven of the sacred mountain.

The Heavenly Dao Union probably had a secret that they did not want to be discovered by the son of Heaven of the Sacred Mountain, which was why they had not advanced yet.

"So, many sacred clans are willing to complete the missions on the gold policy in exchange for what they want from the Heavenly Dao Union," Snow White said proudly, as if she had finally raised her head in front of Su Yu.

Su Yu said, "Let me give you a suggestion. which mission on the gold policy can use the Yin Yang sect?"

Snow White shook her head in an unfathomable manner. "Not a single one! The Yin Yang sect will not easily hand it over to outsiders!"

Not a single one?

Su Yu said unhappily, "Then why did you bring out the Golden Book?"

Wasn't it a waste of an expression?

Snow White took back the golden book and said, "I just want to tell you not to waste your efforts. If you want to use the Yin Yang sect once, you need to complete something even more difficult than the mission in the Golden Book."

"Even someone as powerful as you can not complete it."

It turned out that she wanted to persuade Su Yu to quit and stop wasting time on the Yin-yang gate.

Su Yu said stubbornly, "Everything is done by man. There is nothing impossible in this world."

Su Yu had been cultivating for two hundred years, and he had always walked over with the conviction that he would never give up until the last moment.

Bai Xue looked deeply into Su Yu's eyes. After a moment, she sighed helplessly, "Alright, since you don't want to give up, then as the leader of the Heavenly Dao Alliance, I will exercise my privilege and give you an exception to participate in the mission."

"However!" Before Su Yu could agree, Bai Xue said, "Don't make a decision yet. Listen to me!"

"This mission has already invited all the major and small factions of the ten heavenly hundred caves to send representatives to carry out the mission. Among them, there is no lack of the saint clan. There is even a super saint clan that has agreed to accept the mission."

Su Yu frowned. The more extensive the mission was, the more difficult it was.

Even the Super Saint clan was involved. This mission was extremely difficult.

"The mission is to head to the Heavenly Dao prison and repair the prison," Snow White said.

Heavenly Dao Prison?

Su Yu had read many books about the nine-star civilization, but this was the first time he had heard of the Heavenly Dao prison.

"You're really ignorant. I've never heard of the Heavenly Dao Prison." Snow White blinked and covered her mouth as she laughed. "The Heavenly Dao Prison is one of the three ancient prisons set up by the son of Heaven of the sacred mountain in the nine-star civilization."

"An extremely ancient and monstrous criminal is imprisoned inside. Every criminal possesses the primeval divine power to destroy the nine-star civilization."

"For example, there are seven heroes imprisoned inside. In the previous era, they fought against the sacred mountain with Ren Zu. Their cultivations have all reached the ten thousand saints level!"

Su Yu's pupils constricted. Ren Zu's comrades from back then?

"Those seven mighty figures are said to be Ren Zu's former disciples. Each of them is an ancestor-level expert of the human race. They are extremely terrifying!"

"The Heavenly Dao Prison has a seal from the sacred mountain that seals them all year round. However, the prison has experienced the baptism of time, and a considerable degree of decay will appear. This requires a considerable number of experts to repair the Heavenly Dao prison."

"The sacred mountain has been handed over to the Heavenly Dao Union to complete this mission. The Heavenly Dao Union is unable to complete it on its own, so they can only invite experts from all over the world with generous gifts."

After pausing for a moment, Snow White pondered and said, "Currently, the progress of the restoration is not only due to some reason. It is rather slow, and it is very likely that it will be overdue. At that time, the Heavenly Dao Union will very likely be punished by the sacred mountain."

"If you are able to turn the tide and allow the restoration to be completed ahead of time, and if it does not appear to be overdue, you will be the Heavenly Dao Union's Great Savior. Borrowing the Yin Yang sect should not be a problem."

Su Yu said without hesitation, "Give me a share of this mission!"

For Yin Yang sect, any risk was worth taking.

Moreover, he really wanted to meet Ren Zu's seven disciples.

Chapter 2998 Discussion

There was no other reason. He only wanted to know if those disciples were still alive.

"Alright, I'll definitely think of a way to forge a new seal for you," Su Yu promised.

He couldn't wait any longer. He wanted to carry out the task of repairing the Heavenly Dao prison.

In the following period of time, Su Yu focused on his cultivation.

The original energy was only effective when used for the first time. No matter how he used it later, it wouldn't have any effect.

Thus, he could only rely on the pure heaven's path Qi in the area to improve his cultivation bit by bit.

Without any other fortuitous encounters, under normal circumstances, he would need no less than 100,000 years to advance to the second stage of the intermediate stage of the Heaven's path master level.

Time passed bit by bit.

One month later.

Su Yu slowly opened his eyes. Although he had worked very hard during the ten days, the improvement in his cultivation could be said to be rather weak.

"I have to think of a way to increase my cultivation." Su Yu did not have enough time. He could encounter the son of Heaven of the sacred mountain at any time and a huge battle would break out. Hence, increasing his cultivation was a matter of urgency.

However, this was not the time to think about this.

The invitation he had issued was today.

His gaze looked towards the distant sky as his eyes gleamed. "You must not disappoint me."

Su Yu took a step forward and used a spatial secret technique to arrive at the number one living room.

The number one living room was extremely large. On the outside, it looked like a living room, but inside, it was indeed a vast mountain forest.

On one of the mountains that rose up from the ground, there was a pavilion.

When Su Yu arrived, there were already many people sitting in the pavilion.

Su Yu recognized one of them. It was the green-hat patriarch of the Azure Wood Saint clan whom he had met not long ago.

The other person was a mysterious person who exuded a sinister aura. From the seats he sat across from the cuckold patriarch, he should be the famous Netherworld Patriarch.

As for the other few, they took the initiative to bow to Su Yu with friendly expressions. They should be from the aristocratic families that were dependent on the two saint clans.

They had received the guidance of the two great saints, which was why they had come.

Apart from them, there was also a group of people with cold expressions. There were many of them, about a hundred of them.

"It's more than I expected." Su Yu stepped forward and smiled.

He had thought that only the cuckold patriarch would come, but the Netherworld patriarch and his forces had also come. There were also some other forces that were beyond his expectations.

The cuckold patriarch smiled kindly, "If you have any orders, feel free to tell me."

Seeing this, the Netherworld Patriarch was secretly surprised. The cuckold patriarch was indeed quite afraid of this cauldron, to actually lower himself so much.

He just didn't know where this so-called tripod master came from.

Was his status extraordinary, or was his strength outstanding?

Su Yu sat down and casually waved his hand, and a table appeared in front of each of them, with all kinds of spirit fruits on it.

At first, the leaders didn't care about it, but after a closer look, they realized that these were all quite expensive spiritual fruits.

Many leaders who looked down on them couldn't help but restrain their arrogance.

It seemed that Ding wasn't as bad as the news said.

"I've gathered you here today because I want to discuss something with you," Su Yu went straight to the point.

The cuckold patriarch smiled and waited silently for Su Yu to continue.

However, some of the leaders of the factions who had come with ill intentions scoffed, "Discuss? Do you think you are qualified to do so?"

The one who spoke was an extremely powerful ancient sage. Based on his senses, he should have reached the peak of the ancient Sage realm and was about to step into the ranks of the Great Sage realm.

His face was full of red whiskers, and two balls of flames burned in his eyes. There was also a thick burning aura around him.

The cuckold patriarch looked at him with dissatisfaction, but surprisingly, he did not scold him.

Other ancient sages had offended Su Yu, so he had given them a warning. However, this Red whiskered ancient sage was the patriarch of the most powerful aristocratic family in the hidden Sky Mountain, the searing flame family.

This family had a good foundation, and he believed that it would not take long for them to become a saint clan.

However, this was not what the cuckold patriarch cared about. No matter how powerful the aristocratic family was, he did not care.

What he cared about was that the searing flames aristocratic family was a subordinate force of the saint puppet clan.

Back then, the searing flames aristocratic family was in charge of the fire pool in the heaven burial mountain. Later on, when the saint puppet clan arrived at the Heaven Burial Mountain, the searing flames aristocratic family gave the fire pool to the saint puppet clan in order to curry favor with them.

If he reprimanded the searing flames aristocratic family, he would be going against the saint puppet clan.

As for the Saint Puppet Clan, the cuckold patriarch really did not want to provoke them.

Su Yu glanced at him and ignored him. He said, "I once accidentally obtained a treasure. I would like to share it with all of you."

Treasure?

The Netherworld Patriarch was disappointed. He thought that Su Yu was holding a discussion about something important.

It turned out to be sharing a treasure.

He wanted to leave. With his status and realm, he had seen all sorts of treasures in the world?

Other than the divine items from the Sacred Mountain, all the treasures that the great sage of the nine-star civilization could come into contact with had been obtained before.

Su Yu was only at the mid-stage of the Heavenly Dao master level. What kind of treasures could he share?

He felt that this trip was a waste of time.

However, he suddenly glanced at the cuckold patriarch. To his surprise, he discovered that the cuckold patriarch did not show any impatience. On the contrary, his eyes were burning and there was a hint of suppressed anticipation in his expression.

This surprised the Netherworld Patriarch. Could it be that Su Yu could take out a treasure that the cuckold patriarch was looking forward to?

The others were not interested, especially the searing flame patriarch. He waved his hand impatiently and said, "Alright, if you are sharing the treasure, I advise you not to take it out and embarrass yourself. What good things have you not seen before?"

He was not here to participate in the discussion, but to deliberately cause trouble.

Su Yu was not angry. Just as he had said to the evil daughter, today's invitation was not to use force to establish dominance, but to negotiate with benefits.

His palm flashed, and a jade box spun in his palm.

The jade box was foggy, and one could vaguely see a silver stone inside.

"Heavenly Hepstone?" The searing flame elder scoffed, "Although this item is valuable, but to say that it is a treasure to share, aren't you treating us like country bumpkins?"

Although this item was precious, they might not be willing to buy it. But to share it with them as a priceless treasure, that would be a big joke.

Su Yu's expression was indifferent as he handed the Jade Box to the cuckold elder. "Pass it around one by one. Remember, you can only take a look."

The cuckold elder was extremely curious. wasn't it just tigeng stone? He had one in his storage space.

What was so good about this item?

While he was deep in thought, he opened the lid of the jade box and looked inside. He was immediately shocked!

His pupils constricted, and his old body couldn't help but tremble. He said in shock, "This... This Is..."

Before he finished his words, Su Yu's fingertip swiped, and a wisp of space power covered the jade box again. "Next."

The Netherworld Patriarch took the Jade Box, and he was very suspicious.

Wasn't the cuckold patriarch's reaction a little too exaggerated?

An old monster who had cultivated for so many years actually lost his composure like this?

He laughed in his heart and shook his head in amusement. He opened the jade box as well, but when he looked inside, he suddenly stood up from the stone bench with his eyes wide open.

A cold aura was released from his body and enveloped the entire pavilion, making him extremely shocked.

Fortunately, the cuckold patriarch reacted in time and used his large domain to protect everyone in the pavilion.

Otherwise, he would have been seriously injured or killed by the sinister aura of the Netherworld Patriarch.

"Netherworld, be more careful. You are an old monster who has cultivated for many years!"The cuckold patriarch scolded.

Chapter 2999 The Alliance Of Offense And Defense

The Nether Grandmaster turned a deaf ear to it. He only stared unblinkingly at the heavenly heptagon stone in the jade box.

The Nether Grandmaster saw something unbelievable on the heavenly heptagon stone!

His breathing quickened. He could not help but reach out his hand, wanting to touch the heavenly heptagon stone.

However, at this moment, a wave of spatial energy surged over and covered the jade box once again.

"Next,"Su Yu said.

The Netherworld grand ancestor passed the jade box down unwillingly. After the two great sage experts'subordinate powers saw this, they all revealed the same shocked expression.

This strange scene caused the many powers who had not seen it to be completely confused.

What could cause the two old monsters to be so shocked?

With their status, what treasure had they not seen before? Why were they so excited about a piece of Heavenly Geng Stone?

"Let me see!" Searing Flame ancestor stood up and snatched the jade box, wanting to see what was inside.

Before he could grab it, a spatial force came and swept the jade box away, returning it to Su Yu's palm.

He said indifferently, "We'll talk in batches, you guys stay back."

"Why?" Searing Flame ancestor said with a straight face, "Are you not giving face to my searing flame family?"

Su Yu looked at him and said indifferently, "I'm not familiar with your searing flame family, there's no need to give face."

He was mainly negotiating with the sacred clan, not the big families.

Moreover, the big families that came were not very friendly.

Whether to discuss with them or not, it still depended on Su Yu's mood.

"Say it again?" Searing Flame Ancestor's flames soared and he looked like he was about to get angry.

However, all of a sudden, the searing flame Grandmaster felt a chill run down his spine.

He turned his head and saw that the Netherworld grandmaster was staring at him expressionlessly. His cold eyes were filled with warning.

He said slowly, "Be quiet."

The searing Flame Grandmaster was surprised. The Netherworld Grandmaster was actually speaking up for Su Yu?

What was on that Heavenly Geng Stone?

However, since the Grand Sage had spoken, no matter how much he relied on the puppet saint tribe, he had to restrain himself. After snorting, he sat down and observed the situation.

The Netherworld grand ancestor looked at Su Yu and nodded, "It seems that I did not come here in vain."

If he had listened to the suggestions of his clansmen and rejected this discussion, he probably would not have seen such a shocking thing.

Su Yu smiled faintly, "Thank you, Netherworld Grand Ancestor, for taking a liking to this little thing. If you do not mind, I can allow you to view it once a year for at most two hours."

Hearing this, elder Nether's pupils constricted, and he couldn't hide his burning passion.

Of course, he knew that there was no such thing as a free lunch in this world. Moreover, this was definitely not a lunch, but a great fortune that was hard to come by in the new era.

He kept it a secret and said, "As long as it doesn't harm the fundamental interests of the Netherworld sacred clan, we can discuss it."

From the very beginning, he had set his bottom line very low!

Because he felt that the price to pay for such a rare object and such a great opportunity must be extraordinary.

"Netherworld Patriarch, you're exaggerating." Su Yu waved his hand and said with a chuckle, "What I want is very simple!"

He drew a line in the air with his finger and drew four words.

Netherworld patriarch fixed his eyes and looked at it. He couldn't help but be surprised. "An alliance of attack and defense?"

The so-called alliance of attack and defense was to deal with enemies together and occupy them together if there were benefits.

However, wasn't this request a little too simple?

He was thinking if there was a deeper meaning behind the words.

"Is that all?" The Netherworld Grand Ancestor probed.

Su Yu nodded, "That's all. As long as you keep your promise, I can also keep my promise."

Hearing this, the netherworld grand ancestor's breathing quickened. He said, "Alright! I can represent the Netherworld sacred clan to Promise You Now! From now on, the Netherworld Sacred clan will only have one breath left in heaven burial mountain. They will be united with the cauldron forever!"

As a great sage, his promise naturally carried a lot of weight.

"Alright." Su Yu nodded.

With their realm and status, they no longer needed the so-called agreement.

If the netherworld grand ancestor did not want to abide by the agreement, what was the use of having an agreement? There was no binding force on him.

The real binding force was the heavenly heptagon stone in Su Yu's hand.

The Netherworld grand ancestor was overjoyed. He looked at the heavenly heptagon stone in Su Yu's hand from time to time with great anticipation.

Then, Su Yu looked at the cuckold patriarch and said, "I have the same request for the Green Wood Saint Clan."

The cuckold patriarch smiled and nodded repeatedly. "What relationship do we have? If we agree, of course we agree!"

Thus, the Green Wood Saint Clan also signed an offensive and defensive alliance with Ding.

Then, Su Yu looked at the two subordinate forces of the Saint Clan. Before Su Yu could ask, they hurriedly said, "Of course we agree!"

How could they not agree to such a great thing?

Unexpectedly, Su Yu said, "I haven't said the conditions yet!"

How could the requirements of the Saint clan and the aristocratic families be the same?

He didn't expect that the aristocratic families would give Ding much help.

"If you want to get a chance to see the contents of the heavenly heptagon stone, you need to agree to one thing," Su Yu said.

"Please speak, Grandmaster Ding," the leaders couldn't help but say.

No matter what price they had to pay, they had to get what was on the stone. That was definitely an era-level opportunity for a family to prosper for a long time.

Su Yu said, "I want you all to become members of the cauldron within a hundred years and work for the cauldron for a hundred years. After a hundred years, if you are willing to stay in the cauldron or separate, it's up to you."

The Netherworld Grandmaster and the cuckold Grandmaster's expressions changed slightly. Were they trying to annex these powers?

The two grand sages were not willing because these powers were subordinate to them. Now that they were being annexed by the cauldron, they were not trying to poach them, right?

However, after the two of them looked at each other, they quickly made their decision.

Just based on the things on the heavenly heptagon stone, if they really learned it, how could a few subordinate aristocratic families compare to them?

In the future, tens of thousands of aristocratic families would come to seek refuge with him.

The most important thing was not to anger Su Yu. He had left the Zang Tian Mountain in a fit of anger. With the help of the stone, there were many saint families in the world who were willing to form an alliance with Su Yu.

At that time, the two saint families might not have the chance!

The leaders of the forces said without hesitation, "We agree!"

The two saint clans were vassals, and joining the cauldron was also a form of vassal. They had just changed their master, so why not?

There was no loss, and they could still get the earth-shaking content on the sky heptagon stone, so they naturally had to agree.

"Okay!" Su Yu nodded and agreed, "You have a chance to read it once every three years."

Three years?

It was far less frequent than the saint clan, but it was good enough to give them a chance. They did not dare to ask for anything more and nodded in agreement.

After they finished their discussion, the rest were a group of hostile forces.

Su Yu looked at them but did not hand the jade box to them. He said, "Tell me what you want to talk to me about today, right?"

It could be seen that they were not here to listen to Su Yu's discussion. They were here to talk to Su Yu about something.

Patriarch Searing Flame looked at the Jade Box in Su Yu's hand in shock and doubt. He was quite curious about what was inside. It had actually formed an alliance between two saint clans, several aristocratic families, and Ding within a short period of time!

He was a little hesitant. Should he reveal his cards to Ding.

Chapter 3000 The Overwhelming Sky Clan

"Speak," Su Yu said indifferently.

After weighing the pros and cons, patriarch searing flame said, "I'm here today to inform you that the Huang family once owed us a sum of money. Now that you've inherited the Huang family, it's up to you to repay this sum of money."

As he spoke, patriarch searing flame took out a thick stack of agreements.

The agreement at the top had a debt of ten billion soul stones. It was equivalent to the accumulation of the large families for several decades.

Furthermore, there was only one agreement. If the thick stack below were all ious, the total amount would probably be astronomical.

"As the saying goes, it's only right and proper to repay a debt." Ancestor searing flame shook the thick stack of agreements. "Please abide by the agreement and continue to repay the debt."

Because Ding ZUN had already formed an alliance with the two sacred clans, searing flame ancestor's words were much more polite.

The cuckold ancestor snorted. "Searing flame, don't go too far! Tell me clearly where these agreements came from. Don't use chicken feathers as an arrow!"

In the Huang family's several generations of history, there was once a drastic change. All the experts in the family died one after another. Only an ancient sage and many juniors were left on the verge of death.

At that time, four enemies surrounded the Huang family, eyeing them like tigers eyeing their prey.

Helpless, the Huang family requested the help of their best friend, the searing flame family.

The latter immediately sent a large number of experts to station in the Huang family to protect them, allowing the Huang family to survive.

However, they took advantage of the situation and forced the Huang family to sign a large number of soul stone agreements every year.

At the very least, there were billions. At the very most, there were tens of billions.

After so many years of accumulation, it had already become an astronomical figure.

Since the start of the new era, all the wealth that the Huang family had fought for had all been used to repay the interest on these high debts!

It could be said that the Huang family had become the slaves of the burning family!

It was only until the entire Huang family had disappeared recently that the burning family was unable to continue extorting.

Now that they found out that a power had come to occupy the Huang family, they came up with a plan. They actually wanted them to replace the Huang family and become their slaves!

Searing Flame ancestor did not think much of it. Because he had the backing of the saint puppet clan, he was not afraid of the cuckold ancestor. He shrugged and said, "The agreement is written in black and white. It is binding. How am I going overboard?"

He turned his gaze to Su Yu and said, "According to the past, we should repay the benefits of one billion soul stones this month. In addition to what we have owed in the past few months, there is a total of eighty memory soul stones!"

He stretched out his palm and said, "Give it to me!"

Su Yu was expressionless. He thought that they were here to claim the Huang family's territory, but he didn't expect that they had other intentions.

Ridiculous!

The nether grandmaster said indifferently, "Junior, don't be too arrogant!"

He said to Su Yu, "If the venerable ding doesn't mind, I can give up a good piece of the Netherworld Sacred Clan's territory for the venerable Ding's people to use."

How could the sacred clan's territory not be as good as the Huang family's territory?

He was quite sincere.

"No!" However, burning flame ancestor rudely objected. He snorted, "Since you've accepted the Huang family's territory, regardless of whether you live or not, you've inherited their debt. You must pay them back!"

The two ancestors glared at him. Burning Flame ancestor really didn't put them in his eyes!

How dare he be so arrogant even after saying so much!

Su Yu stood up and didn't say anything. Instead, he raised his head and looked at the sky without saying a word.

"What? You Don't want to admit your debt?" Burning Flame Patriarch waved his sleeve and said coldly, "Let me tell you, you can't leave Hidden Sky Mountain without paying off your debt!"

The other leaders of the forces stood up and stood behind Burning Flame Patriarch.

The meaning was self-evident, standing on the platform for burning flame ancestor.

At this moment, a cracking sound came from the sky.

Everyone looked up and saw that the sky had been torn apart by a huge hand!

That was the result of the space in the living room being torn apart by an expert with absolute power.

"Hehe, they are all here." A one-eyed old woman with sparse white hair walked in with a hunched body from the crack.

Her face was full of wrinkles, and all the teeth in her mouth had fallen out. She staggered down.

Other than Su Yu, everyone else was stunned when they saw her.

This person could tear space apart with his hands. He must be an expert at the ancient sage level or above, but why was he so unfamiliar?

They had never seen Heaven Burial Mountain before, and the entire Cloud Wilderness region had never appeared before.

The cuckold patriarch frowned and stepped forward to stop her. "Stop! We're discussing something important. Who allowed you to barge in? Get Out!"

Her sleeves shook and a green mist turned into a huge rune that sealed the sky. It rapidly pushed forward, wanting to force her out.

"Hehe, how many years has it been since someone dared to make a move on this old body?" The old woman laughed hoarsely and raised her finger to lightly tap.

The runes that swept over actually shattered with a crack!

The shattered runes were sent flying back with an even more violent momentum.

The cuckold patriarch had just sensed that this person's strength was astonishing. His two hands repeatedly drew out symbols, cancelling out the incoming fragments.

However, the fragments that the other party casually shattered were incomparably ferocious.

The symbols drawn out by the cuckold patriarch were all pierced through. One after another, the fragments of the symbols bombarded the cuckold patriarch's body, exploding out with jade-green flames.

The green-hat patriarch was forced back repeatedly, and his throat was filled with a bloody sweetness. His body was badly mutilated, and traces of green blood flowed out.

His pupils constricted, and he stared at the other party in shock.

The Netherworld Patriarch was also greatly shocked. The tip of his foot rose into the air, and he stood beside the green-hat patriarch.

He opened his mouth and spat out a black mist filled with ghastly aura. The evil ghosts inside were ferocious and incomparably sinister.

As the black fog passed by, it immediately devoured the remaining runic fragments. As a result, the black fog became stronger and turned into a sky-covering skeleton that ruthlessly devoured the old woman who had come with ill intentions.

The Netherworld progenitor let out a slight sigh of relief. With the power of his Netherworld Domain, once a target was swallowed, they would be corroded by the black fog and would be melted in an instant.

However, in the next moment, a ball of purple flame actually appeared within the skeleton.

Ah --

The black fog skeleton immediately let out a blood-curdling scream. However, it was quickly burned into ashes and vanished into thin air.

Only an old woman remained in the middle, completely unharmed. The purple flame on the surface of her body quickly left her body and condensed into an incomparably ferocious devil behind her back.

The Devil's veins were clear, and it was breathing heavily, as if it was alive!

Seeing this object, the Netherworld Patriarch and the cuckold patriarch sucked in a breath of cold air, and their expressions were extremely shocked. "This is... the sky-covering troll?"

They had never seen that devil before, but they had seen it in many ancient books.

That was the symbol of the Super Saint clan, the sky-covering clan.

It could be activated through bloodline power and become a part of battle strength!

Their throats seemed to be blocked by something and they couldn't speak.

The Super Saint Clan actually came here?

Why?

"Since you know, then leave. I'm not here to look for the two of you." The old woman slowly walked over, but her gaze was fixed on Su Yu.

At this moment, Su Yu's chest felt hot.

It didn't need to be seen to know that it was a curse left behind by the sky covering devil. As long as there were people from the sky covering clan nearby, they could trigger its abnormal movements.
