

Nine-Dragon 3001

Chapter 3001 Unexpected

However, Su Yu's expression was very calm, as if he had already guessed the arrival of this old woman.

This was because, a month ago, after leaving the Heavenly Capital Square, Su Yu had already felt the strange movement of the curse in his chest.

If it was as expected, it should have been when the vile daughter was selling the things of the sky covering devil at the Guangtian Pavilion. The Guangtian Pavilion's head shopkeeper had recognized her and informed the sky covering clan.

Therefore, Su Yu had been waiting for this day.

As for the invitation card, he had deliberately chosen this day to show the power of a revered figure to the people present, so as to intimidate them and prevent them from having any evil thoughts when he was not around.

However, he did not predict that the overwhelming sky clan would arrive on this day. It could only be said that it was a coincidence.

The scalps of the cuckold patriarch and the Netherworld Patriarch were slightly numb. The experts of the overwhelming Sky clan had personally come to heaven burial mountain. If they were not looking for the two saint clans, who else could they be looking for?

"The person I'm looking for is him." The old woman slowly walked over with her back hunched.

With every step, the curse on Su Yu's chest became more intense. It gradually turned from burning hot to scorching hot, burning his chest until it was red.

Su Yu's expression did not change as he said indifferently, "Just in time. This curse has been on you for too long, and it needs your overwhelming sky clan to undo it."

The old woman chuckled, and her laughter was very sinister. "You have courage! This is the first time I know that someone killed my overwhelming Sky clan's clansmen and still dares to be so arrogant. TSK TSK, not a simple young man!"

What?

The Netherworld Patriarch and the cuckold patriarch sucked in a breath of cold air. Su Yu had actually killed a member of the overwhelming Sky Clan?

How... how much courage was this?

At this moment, the two patriarchs suddenly felt like they had boarded a pirate ship.

A thought emerged in their hearts -- draw a clear line with the cauldron!

Although they were also a saint clan, they were worlds apart from a super saint clan like the overwhelming Sky clan!

Su Yu said, "So, you came here today to take my life?"

He was already prepared for a battle!

The other party had come from thousands of miles away and would definitely not let it go.

However, the old woman laughed and said, "What do you think?"

Su Yu did not say a word. He took out the myriad calamity scythe and said calmly, "Then let's kill another member of the overwhelming Sky Clan."

However, what everyone, including Su Yu, did not expect was that the old woman said again, "What's the point of killing you?"

HMM?

Su Yu was suspicious and said, "I am the enemy who killed your overwhelming Sky clan. Regardless of whether it is out of the overwhelming sky clan's prestige or hatred, there is a reason why I can not be killed."

The old woman's answer was really unexpected.

Even the two saint clans did not understand and were confused.

They thought that the old woman came with an aggressive attitude to seek revenge.

"Hehe, what if I don't kill you and give you a chance?" The old woman said in an unfathomable manner.

Although the plan had changed, Su Yu did not panic and said, "Tell Me First."

If the killing between the overwhelming Sky clan and the cauldron could be avoided, why not?

The old woman grabbed with her hand, and the devil once again turned into purple flames and returned to the old woman's body.

"To tell you the truth, my overwhelming Sky Clan has encountered some trouble recently, and I would like to ask you to lend a hand." The old woman said.

Su Yu's gaze lightly flashed. Even the overwhelming sky clan couldn't solve the problem, yet he wanted Su Yu to come and help?

Even his toes could imagine that the problem wasn't just a little, but was even bigger than the sky.

"Tell me clearly, what's the favor?" Su Yu naturally would not blindly agree.

The old woman walked to the pavilion and slowly sat down. Her fingers tapped on the table.

A line of words flashed across the table.

"Kill the Ten Thousand Saints!"

The words disappeared in an instant and were enhanced by the old woman's special power. Only Su Yu saw it. The others did not see the words clearly.

Su Yu's pupils contracted, and he said solemnly, "Aren't you thinking too highly of me?"

Kill an All Saints expert?

To think that she could think of such a thing!

A top-notch great saint expert was already extremely powerful. Back then, when he fought against the two great saints of the famed sword Saint tribe alone, he had forced Su Yu into a dangerous situation several times, and his life was on the line.

Wasn't he sending himself to his death by dealing with an All Saints expert this time?

The old woman said, "Of course, we are not counting on you alone! In reality, you are just a support. Our overwhelming patriarch and the various alliances are the main force."

Su Yu's gaze was calm as he rejected her flatly, "I'm sorry, I can't Help You."

If he said that he was a support, who knew if he would be used as cannon fodder in a real battle?

The old woman was silent for a moment. She pointed at the curse on Su Yu's chest and said, "Young man, do you know that the curse has a time limit?"

HMM?

What did she mean?

Su Yu narrowed his eyes.

"I believe you have already tried. No power can remove the curse, right?" The old woman looked at Su Yu deeply.

Su Yu did not deny this point.

Over the past year, he had used the power of chaos and the power of the sacred physique, and even the eight domains had not been able to remove the curse in the slightest.

It was like a stubborn disease that could not be eliminated no matter what.

"That is because the curse of the overwhelming Sky clan was activated by the bloodline of the overwhelming Sky clan. The ancestor of the overwhelming Sky clan was a ten thousand saints realm expert."

"The curse left behind by his bloodline can not be resolved by any power in the world. Unless..." the old woman said, "Unless you can obtain the blood of a ten thousand saints realm expert and wash it off with his blood."

Su Yu was shocked. The ancestor of the overwhelming sky clan was actually a myriad sage expert?

At his level, the power of his bloodline had already undergone a qualitative change. It was indeed not something that ordinary power could dissolve.

However, according to the old woman's words, it would be too risky to take the risk to surround and kill a myriad sage expert.

"If I don't dissolve it, then what?" Su Yu had studied the curse for a very long time, but he had never discovered that the curse had any harm to it.

The old woman laughed hoarsely, "So what? Just as I said, the curse has a time limit! At most ten years, the curse will break out."

Su Yu's heart tightened. Break out?

Then what? would it cause harm to his body?

He paused, the old woman said, "After the curse breaks out, you won't die, but everyone around you will die! "The curse will devour your mind and control you into a monster that has lost its mind. It will also specifically kill those who have deep memories. The closer you are to them, the more you want to kill them

"Don't take any chances. Before my ancestor gai Tian died, he once fought with a ten thousand saints expert who was the descendant of the son of heaven. He used the power of his bloodline to activate the curse."

"Only three years later, the curse exploded, causing that ten thousand saints expert to lose his mind and kill all his clansmen. Not a single one of them was left behind. Moreover, he kept killing stone golems of the same bloodline."

"In the end, it was the carefree emperor who personally came and ended his life."

The old woman looked at Su Yu and said hoarsely, "I know that you are proficient in the soul domain, but so what? No matter how strong your soul is, is it as strong as a ten thousand saints expert?"

Of course not!

Even ten thousand saints experts could not avoid the misfortune of the curse erupting, let alone Su Yu?

Once Su Yu lost control, the first person he wanted to kill would definitely be Su Cai'er, then Xia Jingyu, the vile daughter, Sheng Ge, and so on..

Chapter 3002 That Person From Back Then

And with Su Yu's strength, they were absolutely powerless to resist.

This curse was much more dangerous than they had imagined.

"How is it? Are you scared?"The old woman said with a faint smile.

Su Yu was silent for a while, then shook his head slightly. "I can only tell you that I'm sorry, but I still can't agree!"

The overwhelming curse was indeed powerful, and it was very likely to endanger the people around Su Yu, but so what?

The body under the curse belonged to the flower of the mirror, not Su Yu!

As long as the body was returned, the curse on the flower of the mirror would explode. It had nothing to do with Su Yu!

He could not wait for the curse to explode sooner!

Seriously!

"If you want to take my life, I will accompany you to the end. If you want to negotiate with me, I'm sorry, I can't do anything!"Su Yu was unusually calm.

The old woman was stunned. He had said so much painstakingly, and she had thought that he would make Su Yu submit.

But in the end, he was not afraid at all?

"Are you sure? Based on my estimation, your curse will erupt in ten years at most. If you can't control it properly, it might even take three to five years," the old woman warned again.

Three to five years might not even be enough to cover some distance.

Su Yu leaned back on his chair calmly and said eagerly, "Come on, it's best if it erupts this year. Three to five years is too long!"

He said leisurely, "The overwhelming demon that died in my hands doesn't look very pure. It actually took ten years. Sigh, it's really too slow!"

The old woman was sure that Su Yu wasn't joking and was really puzzled.

He wasn't afraid of Death?

Of course Su Yu was afraid of death, but the one who died wasn't him, so of course he wasn't afraid!

"Young man, although I don't know what you have to rely on, please consider it carefully." Since the threat didn't work, the old woman could only entice him, she said, "To tell you the truth, that Ten Thousand Saints expert just returned from an ancient tomb. Perhaps he has a divine item that can affect the structure of a nine-star civilization."

Oh?

What kind of object could affect the structure of a nine-star civilization with such exaggeration?

Seeing the doubt in Su Yu's eyes, the old woman placed her finger on the table and wrote another line of words.

"Sinkhole Overlord!"

What?

Su Yu's pupils constricted!

Sinkhole Overlord?

Wasn't that the original owner of the sinkhole divine tablet?

He actually had an ancient tomb in the world?

Could it be that sinkhole monarch had already died?

The old woman observed Su Yu's expression and smiled deeply. "It seems that I've underestimated you. So you know of his existence as well."

Very few people knew of sinkhole monarch's existence.

Even many sacred clans had never heard of him. The old woman had been worried that Su Yu wouldn't know of sinkhole monarch's name.

However, she did not expect that not only did he know, he seemed to know quite a lot.

"Is that really an ancient tomb?" Su Yu asked.

The old woman hesitated for a moment and shook her head slightly. "I'm not sure, but very few people have come out alive since ancient times."

In other words, the ten thousand saints expert was probably the only person who had come out alive in many years. It was completely unknown what he had brought out.

"How is it? Are you interested in participating?"The old woman said with a smile. "Even a speck of dust can be extraordinarily mysterious when it comes to the things brought out from there."

Su Yu sank into a deep silence.

If it was a treasure, he would not even hesitate and would definitely reject it.

However, he could not reject everything about the sinkhole Empyrean Lord.

That was because it was related to Qin Xian 'Er's resurrection.

After pondering for a long time, Su Yu made up his mind. "How can you be sure that I have the qualifications to participate in the battle? After all, I'm just a Puny mid-stage Heavenly Dao Master."

Upon hearing this, the old woman smiled and said, "Sir, there's no need to hide it! In the Battle of Blood Mountain, you killed two great saints of the famous sword Saint Clan. This matter has already spread throughout the Saint Clan Circle. Everyone knows about your legend!"

"And this is also the reason why I came to you!"

It was precisely because Su Yu was of value to be used. Rather than killing him, it was better to use his strength. That was why the overwhelming Sky clan changed their mind.

In a super saint clan like the overwhelming Sky clan, feelings and honor were no longer the most important thing.

What was important was benefits!

Just as the Ancients said, there were no eternal enemies, only eternal benefits.

"What?"Patriarch Nether was shocked, and cold air came out of his feet.

Only now did he know that Su Yu had killed two peerless experts of the famous sword Saint Clan?

This... If the old woman hadn't told him, he wouldn't have known at all.

His eyes suddenly swept toward the cuckold patriarch. Seeing his calm expression, it was obvious that he already knew. He couldn't help but glare at him. How could he have kept it a secret for so long!

At this moment, the Netherworld Patriarch was incomparably glad that his decision was extremely wise.

He did not rashly occupy the Huang clan's territory. Instead, he observed his expression and did not advance rashly. Otherwise, he would have unknowingly clashed with the cauldron..

Just thinking about it sent chills down his spine.

He looked at Su Yu with an unprecedented reverence in his eyes. The thought of snatching the Heavenly Geng Stone in his mind quickly vanished into thin air. He did not even dare to think about it anymore.

The Netherworld Patriarch was shocked. How could the searing Flame Patriarch be any better?

If these words did not come from the peerless expert of the overwhelming Sky clan, he would have found it hard to believe that Su Yu had once killed two ten thousand saints experts of the sword Saint Clan!

He secretly sucked in a breath of cold air. Suddenly, he felt that the contract in his hand was extremely hot. He wished that he could burn it all down.

Su Yu frowned slightly. "Has the news spread so quickly?"

He was a little worried that the famous sword Saint tribe would come looking for trouble.

The old woman laughed, "This matter was earth-shattering. In addition, many powers were present at that time. How could it not spread quickly? However, you can rest assured that the famous sword Saint tribe does not have the time to look for trouble with you. They can't even protect themselves."

There were only four great saints left. They could barely maintain the operation of the famous sword Saint tribe.

Now that they had lost two more, there were only two grand sage experts left. It was already difficult enough for them to protect the famed sword Saint tribe. How could they have the strength to seek revenge on Su Yu?

If that was the case, then they could rest assured.

"When and where," Su Yu said.

The old woman smiled knowingly and said, "Grandmaster Ding is a smart person! On behalf of the overwhelming Sky clan, I can promise you that regardless of whether this matter succeeds or fails, the grudges between us will be written off. We will never find trouble with you and Ding again."

After speaking, she took out a piece of paper and placed it on the table. She stood up and said, "I will take my leave now."

Su Yu silently kept the paper and said, "Okay."

The old woman leaped into the air. Before she left, she glanced at burning flame ancestor and wanted to say something, but she stopped herself.

"Forget it, you just take care." She left Heaven Burial Mountain and when she looked down at Heaven Burial Mountain from the sky, her old brows actually furrowed.

"Strange, did I feel wrong just now? Why does it seem like the aura of that person from back then?" The old woman pondered.

After pondering for a moment, her gaze swept towards the ground, trying to investigate the situation of the heaven-hiding mountain!

However, just as the old woman's gaze swept past the saint puppet clan, a cold snort rang out in her mind. "Since you know it's me, why don't You Scram?"

Ah --

The old woman screamed and her soul almost collapsed. She hugged her head and fled in fear, not even daring to turn her head back.

Chapter 3003 Paying A Visit

After escaping for three days and three nights, she finally stopped. She could not help but gasp for breath.

Her face was pale, she murmured, "That person is still alive? Impossible, impossible. Our ancestor clearly cursed him, but he was killed by the carefree emperor. Why is he still alive? Moreover, he got rid of the ancestor's Curse?"

Just now, she felt a cursed aura from the scorching flame ancestor's body.

At first, she thought that it was the cursed aura from that person being together with Su Yu.

However, before she left, she carefully examined it and discovered that something was obviously wrong. The cursed aura from the scorching flame ancestor's body was very ancient. It was definitely not caused by Su Yu's curse.

The only explanation was that there was another person who was cursed nearby. Moreover, it was extremely ancient.

This made him think of the ten thousand saints expert who had been cursed by his ancestor back then, so he curiously investigated. However, the result of the investigation shocked her greatly!

"This matter must be reported to the ancestor. The real big trouble is coming!" The old woman said in fear.

If it was really the enemy from back then, then the end of the overwhelming Sky clan would not be far away!

Three days ago.

In the pavilion, Su Yu looked at the sky in surprise. He sensed that after the old woman left, she had checked the hidden Sky Mountain once, but she soon left again.

"Did she find anything?" Su Yu thought for a moment and did not take it to heart.

He sat down again and looked at the burning flame ancestor again. He said indifferently, "Let's talk about the problem of debt. You just said that you want us to pay the interest for nearly a year first. Ten Billion Soul Stones, right?"

It was as if there was a thorn on the bottom of the Searing Flame Patriarch's butt. He immediately stood up and said timidly, "That... that was all a misunderstanding. I didn't mean it that way."

Su Yu looked at him coldly. "Then you mean that I'm Deaf?"

Did he think that he was so easy to fool?

Just now, this person was very arrogant and did not put anyone in his eyes. He definitely wanted Su Yu to pay back the interest in the future.

Searing Flame Patriarch felt goosebumps all over his body when Su Yu looked at him.

This person in front of him was a monstrous existence who had killed two experts of the famous sword Saint Tribe alone. It would not be a problem for him to sweep through Zang Tian Mountain alone. The puppet Saint tribe behind him might not be able to withstand it.

His heart trembled as he hurriedly bowed and said, "This lowly one has eyes but failed to recognize Mount Tai. Sir, please forgive this lowly one and forgive this junior's rudeness."

Su Yu smiled and said, "You really know how to make a deal without any cost! If the extortion succeeds, it will be tens of billions of soul stones. If it fails, you just need to apologize and it will be over. You Don't need to pay anything! Hehe!"

The searing flame ancestor's mouth was filled with bitterness. He knew that he could not be perfunctory at this moment, so he could only say, "What Lord Wants, my searing flame family can give. We are not stingy."

Su Yu said indifferently, "For your disrespect just now, I should kill you."

The searing flame ancestor's entire body trembled. He bowed and said, "Please show mercy, Senior."

"However, I, Ding Chu, have just arrived at Hidden Sky Mountain. I don't want to start a massacre." Su Yu said, "As long as you are willing to do something, it won't be a problem for me to let you off."

Seeing hope, the searing flame ancestor hurriedly said, "Please show mercy, my Lord. If you need my help, please feel free to say it."

Su Yu said, "It's very simple. I'll give you a month to get all the medium-sized and above forces of heaven-burial mountain to come to the cauldron."

His initial plan was to unite all the effective forces of heaven-burial mountain with the cauldron as the center.

If there were any difficulties in the future, he could mobilize all the forces of heaven-burial mountain to resist the enemy.

He could even deploy them for the use of the cauldron and expand his territory to the outside world!

"That's All?" Burning Flame ancestor was surprised. He thought that Su Yu would ask for more, but it turned out to be such a simple request.

"Do it immediately. I don't need to tell you the consequences if one is missing," Su Yu said.

Burning Flame ancestor cupped his fists. "I will do it. I will..."

After a pause, he revealed a troubled expression. He said bitterly, "I can convince the other forces, but the sacred puppet clan is too small to say anything!"

Saint puppet clan?

Su Yu frowned slightly and said, "Saint puppet clan, I'll go personally."

Whether it was the matter of the Alliance or borrowing their fire pool, he had to go personally.

"Why don't we accompany you?"The cuckold patriarch's expression was a little heavy. "The saint puppet clan is very difficult to deal with. If you go, you might not be treated well. It might be better with the two of us by your side."

The Netherworld Patriarch agreed. "Mm, the saint puppet clan is always mysterious. It's better to have more people to accompany them."

Su Yu naturally did not refuse to have two great saints accompany him.

"Let's pay them a visit now."It was better to find the right time. It was better to settle the matter of the heaven-burial mountain as soon as possible.

The three of them left as they wished. They immediately moved to the territory of the saint puppet clan.

Just like the Soul Wood Saint Clan and the Netherworld Saint Clan, the saint puppet clan also occupied the best territory in Hidden Sky Mountain.

However, the saint puppet clan kept an extremely low profile and only had a small piece of territory.

The only difference was that its mansion was an extremely well-made giant puppet. Half of its body was buried underground.

The entrance of the saint puppet clan was at the mouth of the puppet.

Looking at the giant puppet, forefather Nether and forefather cuckold were obviously a little afraid. The former said, "This puppet is both a mansion and a battle puppet of the puppet Saint Clan."

"Back then, it suddenly came and occupied a part of the territory of Hidden Sky Mountain. It fought with both of us."

Su Yu looked at the puppet and was speechless.

He was not unfamiliar with puppets. During the eight-star civilization, he had obtained a powerful black ape puppet. Later on, the puppet was completely damaged.

"What was the result?"Su Yu asked.

The cuckold patriarch sighed, "Master Ling Ding, you must be joking. The two of US lost."

Oh?

One person against two great saints'puppets?

The Netherworld Patriarch's eyes were filled with fear, "This is because the saint puppet clan didn't make a move. Otherwise, they would have no problem occupying the entire hidden Sky Mountain."

Su Yu finally understood why they were so afraid of the saint puppet clan's vassal, master searing flame.

The puppet Saint clan was indeed extremely powerful!

"If it wasn't for the presence of the Ding Zun, to be honest, we wouldn't even want to take half a step into the puppet Saint Clan."Looking at the huge puppet, the two of them clearly remembered the battle from before and felt a lingering fear,

su Yu said indifferently, "There's no need. We're not here to provoke you. We're just here to discuss calmly."

Even if they couldn't negotiate, it wouldn't hurt them. No matter how difficult it was to deal with the saint puppet clan, they wouldn't turn hostile for no reason, right?

The three of them walked towards the entrance of the saint puppet clan. When they arrived at the entrance, the two eyes of the puppet started to form two golden pillars of light, aiming at forefather Nether and forefather cuckold respectively.

The two of them froze and immediately became alert.

"What are the two of you doing here?" The puppet let out a light snort. It was the forefather of the saint puppet clan, the forefather puppet.

His tone was very unfriendly, and he did not appear in person.

Su Yu sighed inwardly. It was indeed difficult to deal with him.

Chapter 3004 The Art Of Puppets

However, since he was already here, he decided to give it a try.

The cuckold patriarch was wary of his surroundings and said, "Hehe, we are both heaven-burial mountain grand sage. Is it not possible for us to pay a visit to the puppet master?"

"I don't have time!" The puppet master was extremely impolite and rejected him directly. He did not give the cuckold patriarch any face at all.

The cuckold patriarch lost all face, but he was not angry. The puppet patriarch was such a person, he could not be angry.

The nether patriarch said sinisterly, "To tell you the truth, a member of the Super Saint Clan, the overwhelming Sky clan, came just now. Aren't you worried, Puppet Patriarch?"

Hearing this, the saint puppet clan was silent for a moment. Then, the giant puppet slowly opened its mouth, and a cold voice came from inside, "Don't touch and look around when you come in, or you will be expelled immediately!"

The two patriarchs looked at each other and smiled bitterly. After all, the two of them were once defeated by the saint puppet clan. In front of the saint puppet clan's patriarch, they were not respected at all.

With their cultivation and realm, did they need to be reminded not to touch and look around?

Su Yu was deep in thought. Was there some secret in the saint puppet clan? Why did they remind him so deliberately.

Hiding this doubt in his heart, he followed the two forefathers into the saint puppet clan.

What he saw was a huge, dark space.

This was the body of the giant puppet. Although it was huge inside, it was filled with precise parts.

There were hundreds of millions of them.

So many parts were operating to maintain the giant puppet.

This was because the giant puppet was still in a static state. If they were to fight, there would be even more parts operating.

The cuckold patriarch sighed in amazement, "This puppet is ten thousand times more complicated than the bodies of living beings. It was not a shame that we were defeated by this puppet."

The Netherworld Patriarch agreed. Every part of this puppet was perfect and flawless. That was how they were able to construct a super powerful great sage puppet.

Su Yu was also extremely shocked.

Compared to the precise puppet in front of him, the black ape puppet that he had previously obtained was abnormally crude.

"Look at that gear. If I'm not wrong, it should be made from the blue heart iron, which has been extinct since the last era." The cuckold grand ancestor pointed at the nearest part and suddenly said.

Su Yu had heard of the Blue Heart Iron. It was a type of ore that could self-repair and grow.

If a portion of it was lost, it would recover within a short period of time.

This item was not sold by the catty, nor was it sold in twos and threes. Instead, it was sold by the grain.

A single blue heart iron was worth 10 billion soul stones in the previous era.

In the current era, there were people who could not even find 50 billion soul stones to sell.

This was because there was no such thing on the market.

However, there was actually a crucial component in the puppet that was refined from blue heart iron. This gear was filled with over a thousand pieces of blue heart iron.

One could imagine how much it was worth.

"What are you all standing there for?" A dissatisfied voice echoed from within the puppet.

It was the puppet patriarch who was urging them.

Patriarch Netherworld and the others could only continue forward until they reached the neck of the puppet.

A large hall was suspended in midair. There was a short but extremely muscular dwarf in a black robe. He was holding a hammer and hammering a puppet.

He was the patriarch of the saint puppet clan.

The cuckold patriarch and the nether patriarch were much more alert. They brought Su Yu to the hall and bowed to the puppet patriarch. "The puppet patriarch is still the same."

The puppet patriarch did not even look at them. He raised his hammer and hammered the puppet. Without turning his head, he said, "What do you want? Tell us and we'll leave immediately!"

Such impoliteness really made the two elders unable to vent their anger.

This short-timer still had a bad temper!

The cuckold elder looked at Su Yu and let Su Yu speak for himself.

Su Yu glanced at the puppet and said, "I'm the leader of Ding. I have two things to ask of you. First, I invite you to join the Hidden Sky Mountain Alliance. Currently, the two elders have already joined..."

Before he could finish his sentence, he was interrupted by the forefather of the puppet. "I'm not interested. Let's talk about the second thing."

The Cuckold forefather and the Netherworld forefather revealed helpless expressions. Before they came, they had already had a premonition that given the bad temper of the forefather of the puppet, there was a high chance that he would not agree to join any alliance.

He only wanted to focus on refining the puppets. He had never been interested in the conflicts between the powers in the outside world.

Su Yu was not annoyed. He continued, "The second thing is to borrow your clan's fire pool to refine something."

Kacha --

Suddenly, a long crack appeared on the chest of the puppet that was being beaten, revealing a large number of precise parts inside.

This puppet that had spent a lot of effort had failed.

The puppet elder was furious. He even blamed Su Yu and the others. "Scram! Scram! It's all your fault for influencing me to refine!"

No matter how patient the cuckold patriarch and the nether patriarch were, they couldn't bear it. "Puppet Patriarch, watch your words! It's clearly your puppet's refining technique that's wrong. What does it have to do with us?"

The cracks on the puppet clearly didn't exist after they came, but there were flaws in it.

Otherwise, how could the cracks appear after he knocked it a few times normally?

The puppet elder was unreasonable. He raised his hammer and said fiercely, "If I tell you to SCRAM, then scram! Otherwise, don't leave!"

The two elders were furious. What the hell!

They signaled Su Yu with their eyes. Judging from the situation today, it was better to leave as soon as possible.

However, Su Yu placed his hands behind his back and did not leave. Instead, he said indifferently, "You have the nerve to call yourself the puppet elder with such skill?"

The two elders' expressions changed when they heard this and immediately gave Su Yu a look.

With the puppet elder's bad temper, the most taboo thing to do was to have someone speak ill of him, especially when it came to the skill of forging puppets.

"Kid, do you really think that I won't dare to do anything to You?" The puppet elder's eyes were dancing with flames of anger.

Su Yu was expressionless and said, "I'm just telling the truth!"

Just as the puppet elder's killing intent was spreading, Su Yu said again, "Eighteen techniques of puppets, you don't even know a single technique. To think that you have the face to call yourself the puppet elder."

The originally murderous puppet elder's expression changed when he heard this. He looked at Su Yu in surprise and asked, "What eighteen techniques of puppets did you say?"

Su Yu said calmly, "Of course it's the eighteen ancestral techniques of your puppet Saint Clan. It seems that you don't even know the Abyss puppet technique, let alone the other ones."

The saint puppet clan was different from the other clans. They were once divided into eighteen clans, and all of them used puppet refinement as their ancestral business.

Each clan had their own ancestral technique, which added up to a total of eighteen ancestral techniques.

A month ago, Su Yu had already expected the situation today, so he learned the ancestral techniques of the three saint clans.

He recognized the techniques of the puppet ancestor with one glance. It was the abyss puppet technique, which was the most profound of the eighteen puppet techniques.

However, the puppet elder's techniques were not very good.

"Although I don't know where you heard it from, it's ridiculous to doubt my refining technique. Unless you can prove it to the Elder!" The puppet elder narrowed his eyes and looked at Su Yu.

Su Yu slowly turned around and walked out, "Then treat me as a joke. Goodbye, I won't bother you refining puppets!"

The other party was clearly trying to goad Su Yu into using the related ancestral technique.

However, he wasn't willing to ask honestly.

"Wait!" The puppet elder said coyly, "If you can prove that my skills aren't good, I'll forgive your recklessness and ignorance!"

What a proud little old man!

He clearly wanted Su Yu to give him the ancestral technique that he wanted to see, but he just wouldn't say it!

Su Yu shook his head. "Just as you said, I'm just a joke. I'm not worthy to interfere with your saint puppet clan. Farewell!"

He took a step forward and left with the two ancestors.

"You... you stop right there!" The ancestor puppet clung to Su Yu and stammered, "If you can show the ancestor something, I'll give you the fire pool as well."

After that, he added fiercely, "But I've made it clear that if you're just talking nonsense, don't blame me for Chasing You Away!"

His heart was filled with desire.

The eighteen branches of the puppets and the other seventeen branches had disappeared countless eras ago. Now, none of his clansmen knew that there had been another seventeen branches in the world.

Yet, the person in front of him had told him the eighteen branches of the puppets and even accurately said that their branch belonged to the branch of the Abyss puppets!

This truly shocked the ancestor puppet from the bottom of his heart.

Other than him and a few ancient sages, no other clansmen knew that they were only from the lineage of the Abyss puppets. All of them considered themselves as members of the saint puppet clan.

This person definitely knew something.

Upon hearing this, Su Yu chuckled. The Netherworld Patriarch and the cuckold patriarch were even more astonished.

They had interacted with the ancestor puppet many times, but this was the first time they had seen him actually submit to others.

This old man with a bad temper had always started a fight whenever there was a disagreement. How could he have such a good temper today?

"Lend me the fire pool, right?" Su Yu chuckled. He turned around and came before the puppet that had split open. He stretched out his hand and said, "Give me the hammer."

The puppet patriarch immediately handed the puppet to Su Yu and said, "What do you want to Do?"

Su Yu looked at the crack and said, "Fuse the crack, of course."

"Fuse?" The ancestor puppet's pupils shrank. Among the eighteen branches of the puppet, one of them practiced the extremely rare puppet repair method.

That ancestral technique had disappeared dozens of eras ago. He had only seen some records in the ancient books that only the clan leader could read.

Legend had it that under that ancestral technique, any damaged puppet could be perfectly repaired.

Even if its body was broken, there would be no problem. It could be said to be a miracle.

Unfortunately, that ancestral art had long been lost.

Could the fusion that Su Yu was talking about be that kind of ancestral art?

It shouldn't be possible.

However, Su Yu floated the hammer in front of his chest and continuously used hand seals to push an extremely obscure scar into the hammer.

Then, he grabbed the hammer and lightly knocked on the crack.

A shocking scene appeared. The trajectory of the hammer slowly merged into the crack along with the knocking. Then, the crack slowly merged..

It was just a simple action. The crack that was one finger wide was now only as small as a strand of hair.

If it continued to merge, it would definitely be completely repaired!

"Puppet repair technique!" The puppet patriarch sucked in a breath of cold air. He looked at Su Yu in shock and asked, "Who are you?"

Chapter 3005 They Had Known Each Other

How could a lost technique from countless eras appear in the hands of a youth?

Su Yu threw down the hammer and said indifferently, "It doesn't matter who I am. What you need to care about is whether or not you want to learn this lost ancestral technique."

The puppet elder's eyes shone, but he remained reserved and said, "Ahem, if you really want to teach me, I can reluctantly learn it."

Even now, he was still arrogant.

Su Yu said indifferently, "Since you think it's difficult, then forget it. Pretend I never said that. Goodbye."

"Hey Hey Hey!" Puppet Master immediately stopped Su Yu, rubbed his hands and said, "Learn it, give me the ancestral art, and I'll agree to any conditions!"

Su Yu took out the jade box, handed it to him and said, "Take a look."

The puppet elder was puzzled. He said through the jade box, "It's just a Heavenly Hepstone. There's nothing strange about it, right?"

However, when he opened it, the puppet elder was shocked. "This... this is all... ancestral techniques?"

However, the thing that made the cuckold and Netherworld elder willing to ally with the cauldron was none other than the ancestral technique.

He engraved a part of the ancestral technique that he was proficient in on it, including the ancestral technique of the three saint clans.

The puppet elder's gaze quickly swept over. As expected, he saw the ancestral art of repairing the puppet. His breathing quickened as he stared at it with his eyes wide open.

"Leave the stone with me. I'll return it to you after I learn it." The puppet elder could not put it down.

It would take a lot of time to learn a complete ancestral art.

Words --

The heavenly heptagon stone flashed and returned to Su Yu's palm. "I can agree to it, but others can't."

Wasn't that right? The green-hat patriarch and the Netherworld patriarch were so anxious that their eyes almost turned red.

"You're the same as the others. Every year, you have four hours to study the ancestral technique on it," Su Yu said. "The prerequisite is to maintain a defensive and offensive alliance with the cauldron."

The puppet patriarch scratched his ears and cheeks, his heart itching. "Aiya! Why is it so troublesome?"

He wished that he could learn the ancestral technique at this moment. He couldn't wait to ask, "Can you watch a little longer?"

Su Yu said, "If I borrow the fire pool, I can watch four hours more every year."

It was still too little!

However, compared to before, the time doubled was already a pretty good special treatment.

"You can, but I want to ask you something. Why are you borrowing my fire pool?" Although the puppet ancestor agreed, there was some hesitation and worry on his face.

Su Yu closed his eyes and slashed across the air. A spatial crack opened and pierced through the puppet saint clan and the cauldron.

"Master Mo Heng, please come here," Su Yu said softly.

Soon, Mo Heng walked over with his hands behind his back and appeared here.

Seeing him, the cuckold patriarch and the Netherworld Patriarch didn't have any special reactions.

However, the puppet patriarch's pupils constricted and he said in shock, "You... are you that genius craftsman, Mo Heng?"

Mo Heng was so famous that even the puppet forefather knew him.

However, in a sense, the puppet forefather refining puppets could also be considered as the path of weaponsmithing.

Mo Heng looked over when he heard the voice. He looked at the puppet forefather for a long while before he suddenly remembered, "Oh, it's you. I remember that you seemed to have asked me about the secret to refining puppets."

Back then, Mo Heng's name had shaken the world. Countless experts had come to visit him to ask him about some weaponsmithing knowledge.

This puppet patriarch was one of them.

"Master Mo Heng Still Remembers Me. What an honor!" The puppet patriarch was not convinced by the cuckold patriarch and Netherworld Patriarch of the same level, but he respected Mo Heng, who was not very strong.

Mo Heng nodded and said with the demeanor of a grandmaster, "Back then, you asked me about the method to refine the puppet heart, right? How is the situation now?"

Su Yu was stunned. A nine-star civilization was really small.

Meeting under such circumstances, both of them could be old acquaintances.

The puppet ancestor sighed and said, "I'm ashamed to say that I haven't found a suitable heart yet. Since master Mo Heng Is Here Today, why don't you take a look for me?"

Mo Heng looked at Su Yu for instructions. After getting the latter's approval, he nodded and said, "Alright."

After a pause, he said, "If we had known earlier that the saint puppet clan was your clan, we wouldn't have gone to so much trouble."

He felt rather helpless. Back then, the ancestor of the saint puppet clan had come to visit him anonymously. How could he have known that it was the ancestor of the saint puppet clan?

The ancestor of the saint puppet clan scratched his head in embarrassment. "Haha, the Dragon King Temple is really flooded. A family doesn't know a family anymore!"

He cupped his fists at Su Yu and Mo Heng. "Please come with us!"

Then, he looked at the cuckold patriarch and the Netherworld Patriarch. For Su Yu's sake, he finally showed a good attitude. "The two of you can stay in the living room and enjoy the spiritual tea of the saint puppet clan."

The fire pool was the secret land of the saint puppet clan. Ordinary people were not allowed to enter it without permission.

The cuckold patriarch and the Netherworld Patriarch agreed readily and sat in the living room to discuss quietly.

Su Yu and the other two came to the bottom of the giant puppet, where the legs of the giant puppet were buried deep underground.

Standing in the air, they could clearly see two huge fire pools shaped like footprints.

The puppet patriarch said, "Master Moheng, why are you using the fire pool?"

Moheng took out some materials and said casually, "To refine a seal. I'll look at your puppet later."

"Okay! Please use the fire pool on the left."

Mo Heng was indeed very familiar with refining seals. Back in the sword Saint Clan, the seal that the son of Heaven of the sacred mountain entrusted him to refine the most was refined every year.

Moreover, it was only a seal of a big aristocratic family, so refining it was very simple.

Several extremely hard materials were thrown into the fire pool and burned into liquid through the natural flames here.

After that, Mo Heng sat cross-legged and quietly refined the seal.

After half a day, a brand-new seal was suspended in his palm with the words 'Heavenly Dao Union seal' carved on it.

Su Yu took out the original broken seal. In comparison, it was exactly the same. Even the unique aura and power contained in it were exactly the same.

"I can finally report to Snow White." Su Yu heaved a sigh of relief and solved a problem in his heart.

Mo Heng casually said, "Take a look at the puppet you've refined."

The puppet ancestor was already filled with anticipation. He immediately said, "Master Mo Heng, please come to the fire pool on the right."

Su Yu also followed curiously. What kind of puppet was it that even the puppet ancestor had to turn it into someone else to consult?

Beside the fire pool on the right, the puppet ancestor pressed the switch. A puppet that was a hundred feet tall slowly rose from the fire pool.

The puppet's body was made of neither metal nor wood, and it had an extremely unique luster.

There was a black hole on the puppet's chest, indicating that the heart had not been installed yet.

This was a half-finished puppet, but even so, Su Yu felt his heart skip a beat upon seeing it for the first time.

This feeling was only from when he was still weak, when he faced the carefree Emperor's clone.

A feeling of absolute suppression lingered in Su Yu's heart for a long time.

Even Mo Heng's pupils constricted, and his tone was filled with shock and solemnity. "Aren't the puppets you guys refined too dangerous?"

Chapter 3006 Prepared

The more he read, the more Mo Heng felt his heart skip a beat, and his expression became abnormally serious.

Not only that, he even took a few steps back, not daring to get close to the puppet.

He said seriously, "Puppet Forefather, can you listen to my advice?"

The puppet forefather was very respectful to him. "Master Mo Heng, please speak."

He also noticed that Mo Heng's expression was not quite right.

Moheng said in a deep voice, "If you don't want to invite disaster, please destroy this puppet as soon as possible, or seal it forever. Don't install a heart for it."

After the puppet forefather heard this, he blinked and said, "Why? This is the painstaking work of our Abyss puppet race."

Moheng said solemnly, "Although I don't know what purpose your ancestor refined this puppet for, but for the sake of your descendants, for the sake of the life of the nine-star civilization, please don't give this puppet a chance to use!"

"This puppet was forged with the bones of a top ten thousand saints expert as the foundation, Am I Right?" Mo Heng's eyes were extremely sharp.

Just like back then, just by looking at the myriad calamity scythe, he knew that it had yet to be successfully refined.

The origin of this puppet was also seen at a glance.

The puppet ancestor's expression became even more respectful, he said seriously, "Master Mo Heng is truly the number one refiner today! That's right, back then, my ancestor discovered a rotting

skeleton of a ten thousand saints expert, and decided to use it as the foundation to forge the number one super puppet in the world."

"After countless generations of hard work and exhausting all resources, we finally succeeded." He stroked the puppet's body.

The puppet had turned light blue.

It was Blue Heart Iron!

From the skin to the inside of the puppet, it was actually made of extremely precious blue heart iron.

Judging from the fact that blue heart iron could repair itself infinitely, this puppet was almost indestructible!

Any damage could be quickly recovered!

"Master Moheng is making things difficult for me by asking us to give up." In other words, it was impossible for him to give up the painstaking efforts of countless generations.

Moheng said, "The puppet ancestor might not know this, but that skeleton has been tempered by countless eras and absorbed countless precious resources like the Blue Heart Iron. Its strength has already surpassed the limits of its body."

"Perhaps, it might break through the ten thousand saints realm and reach that realm!"

The realm above the Ten Thousand Saints realm was self-evident -- the realm of the son of Heaven of the Sacred Mountain.

Since ancient times, only a few people had reached this realm.

The ten son of Heaven of the Sacred Mountain, the absolute beginning Dao master, and the Ren Zu, there were only twelve people!

"You've long been some terrifying monsters. Do you understand now?" Mo Heng felt that the situation was very serious.

However, the puppet elder did not think much of it. However, he was proud of it. "That can only mean that our abyssal puppet race did not waste our efforts."

Mo Heng wanted to say more, but he waved his hand. "Master Mo Heng, there's no need to say more. It's impossible for me to destroy it."

Then, he said, "Since all of you have already used the fire pool, then go up to the living room and drink some tea!"

In other words, he wanted them to leave!

They had no choice but to leave the fire pool and return to the living room.

However, Mo Heng was no longer in the mood to drink tea. He absentmindedly drank a few mouthfuls and then stood up to bid farewell to Su Yu.

On the way back.

Su Yu said to the cuckold patriarch and the netherworld patriarch, "Thank you for your trouble this time. Come to the cauldron to drink tea some other day."

"Haha, sure, Sure!"The two understood and bid farewell. They returned to their own clans and announced the joyous news of the day.

Su Yu watched them leave and the smile on his face quickly disappeared. He said in a deep voice, "Mo Heng, is that puppet really that dangerous?"

Mo Heng nodded deeply. "I'm just speaking in a conservative manner!"

Su Yu's eyes shone. "If there's a need, we need to sneak in once and take that puppet away. The abyssal puppet lineage is a little too naive."

"Oh? Why do you say that?"Mo Heng asked with a deeper meaning.

Su Yu frowned. "There's no such thing as an impenetrable wall in this world. The puppet Saint Clan has refined that puppet for countless eras. Could it be that there has never been any news about it?"

Hearing this, Mo Heng revealed a look of admiration. "That's impossible! Especially for the son of Heaven of the sacred mountain who controls the heavens, there are no secrets in the nine-star civilization."

"Moreover, there are many forces in the nine-star civilization that have eyes and ears. It's not difficult to find out about this puppet of the saint puppet race."

But why had no one ever made a move?

Because they were all waiting!

Waiting for the moment when the puppet was born!

Mo Heng said, "This is also one of the things I'm worried about. When the puppet is born, there will definitely be people fighting for it! If it falls into the hands of someone with evil intentions, I'm afraid it will be a huge trouble."

"Also..."Mo Heng was a little hesitant, he wanted to say something but hesitated.

Su Yu said, "Is there something you can't say?"

Mo Heng nodded and said, "Yes! I don't know if it's an illusion, but that puppet gives me the feeling that it's alive."

Alive?

Su Yu's pupils contracted. If it was alive, wouldn't it be able to move at any time?

"Of course, it's possible that the puppet was built with the bones of the ten thousand saints, so it feels a little different."Mo Heng was not too sure.

Su Yu's eyes flashed. "After I finish dealing with the things in front of me, I'll deal with this puppet properly."

The most important thing at the moment was to recover his body.

Now that he had obtained the seal, he could do many things.

Back in the territory, Snow White and Shengge were fighting each other. The former was stronger in terms of cultivation, while the latter was stronger in the unique domain of the body of ghost and Buddha.

"It seems that the two of you are very close." Su Yu said with a smile that was not a smile.

Snow White and Shengge scoffed and said, "Her? Impossible!"

The two of them said in unison. They crossed their arms in front of their chests and raised their small heads proudly. They did not like each other.

Su Yu smiled and threw his palm at Snow White. "Catch it."

Snow White caught it and looked at it. She was overjoyed. "It really succeeded?"

After looking at it carefully and confirming that it was no different from the original seal, she could not help but be overjoyed. "I can finally explain to those old fellows!"

Su Yu smiled faintly. "Then when can we set off?"

At the moment, they had already persuaded the saint puppet clan to join the alliance. With the three Saint clans joining, the alliance was basically completed. The rest of the alliance of the aristocratic families would be completed by the evil daughter.

"Anytime." Snow White held the seal and looked at it lovingly.

Su Yu looked at Shengge and said thoughtfully, "Shengge, come with us this time."

He did not want to borrow Shengge's power. Instead, it was because Shengge was being chased by her enemies. Leaving her alone in Hidden Sky Mountain was not a small risk.

It was better to carry it with him. If there was any danger, he could still help a little.

Shengge's eyes naturally lit up. "That's great, I want to go to the Heavenly Prison Too!"

Snow White said with a faint smile, "You want to come to the Heavenly Prison, Alright? I'll support you!"

Her smile was filled with an unfathomable and profound meaning.

Shengge felt her hair stand on end when she saw her smile. She had a faint feeling that something was not right.

Chapter 3007 Arrived At The DAO Alliance

After Su Yu finished explaining to the evil daughter, he, Bai Xue, and Sheng Ge headed to the Desolate Cloud Territory's Rockman Hall.

A month ago, the cauldron, Qing Mu, and Yama had successfully leveled up here and upgraded the cauldron to become a big aristocratic family. However, the Rockman in the hall had already sold the seal to others in advance, so they could only wait for this month to get it.

When Su Yu arrived again, the Golem Hall that had been destroyed by the test had already been rebuilt.

A golem was commanding a group of creatures that had been recruited outside the hall to decorate the outer wall.

Whoosh --

Su Yu and the other two arrived. The golem turned around and looked, and couldn't help but be shocked.

It could be known that the golem really didn't expect Su Yu to be able to come back alive!

After all, he had given Su Yu the Huang family's territory. He knew how dangerous it was.

"Why, are you surprised?" Su Yu's eyes flashed with a cold light.

"Where? I've been mumbling about when the tripod lord will come." The Rockman reacted quickly. He smiled and took out a spatial storage item. He looked around and stuffed it into Su Yu's hand.

He carefully sized up Su Yu's expression and said, "Other than the great seal of the aristocratic families that I promised, I've also given you the statue seal of your tripod."

He took out another spatial storage item and handed it to Su Yu.

Seeing that the cold light in Su Yu's eyes did not decrease much because of this, he smiled bitterly and said, "How about this, I'll give you some more benefits, how about it?"

"Tell me about it." The cold light in Su Yu's eyes did not decrease.

The Golem quietly took out a golden leaf and said, "With this item, you can ask old man heartless about a secret of heaven and Earth."

Old Man Heartless?

Su Yu cast a questioning look at Bai Xue.

Bai Xue took the golden leaf in disbelief. She sized it up and asked suspiciously, "Why do you have old man heartless's golden leaf?"

The Rockman looked at the golden leaf with a pained expression and said, "I accidentally got it from a junior. I wanted to use it when I broke through. Now, I'll give it to Ding Zun as an apology."

Junior?

Bai Xue had reservations about this. She turned around and handed the golden leaf to Su Yu, saying in a low voice, "For the sake of the golden leaf, I can spare his life."

Su Yu's eyes flashed, but he did not say anything. He only stared at the stone man with a warning look, warning him not to play any more tricks. Then, he quickly left with the two women.

After a long while, when he was sure that Su Yu and the others had really left, the stone man wiped the sweat off his forehead and said, "My great aunt, this cloud wilderness is really not a place for people to stay!"

"Before the mission was completed, this god of killing came," the Rockman muttered.

It seemed that the news of the battle at the Blood Mountain had gradually spread.

The news of Dingzun killing two famous sword Saint Clan Grand Saints had already spread like wildfire.

After the Rockman heard about it, cold sweat broke out on his back.

"When will the saint puppet clan be able to refine the puppet properly!" The Rockman sighed and said, "The earlier you finish refining it, the earlier I can complete the mission and leave!"

It turned out that the Rockman was actually the descendant of the son of heaven who was responsible for monitoring the saint puppet clan.

His purpose was to monitor the movements of the saint puppet clan!

On the other side of the topic.

Su Yu couldn't help but ask, "Who is the heartless old man?"

Only then did snow white answer, "The heartless old man is a very mysterious person, also known as the old man Bai Xiao. He knows everything in the world."

"Every ten years, he will distribute a hundred golden leaves to the outside world. Those who obtain the golden leaves can ask him about a problem between heaven and earth, from the whereabouts of the items, to the cultivation problems, to the secrets of the son of Heaven of the Saint Mountain. He knows everything!"

"That Rockman actually has a golden leaf in his hand. It's really unexpected," Snow White said in surprise.

Were there secrets between Heaven and earth?

There were really a lot of secrets that Su Yu wanted to know!

"Where is he?" Su Yu asked.

Snow White shrugged and said helplessly, "This is also one of the disadvantages of the golden leaf. The whereabouts of the heartless old man are unpredictable. If you encounter him by chance, the golden leaf will be useful. If you don't encounter him, you are useless."

"That Rockman is willing to give the golden leaf to you. It must be because he has never had the chance to encounter the heartless old man."

Su Yu blinked her eyes. Wouldn't that be useless?

However, it was better than nothing. If they met him one day, it might be useful.

After putting away the golden leaf, Su Yu and Shengge followed Snow White as they rushed forward.

Snow White agreed to allow Su Yu to go to the Heavenly Dao prison's mission. The prerequisite was that Su Yu had to go to the Heavenly Dao Union's Mission Hall to receive the mission.

The Heavenly Dao Union was also located in the sky under the jurisdiction of prince illusionary flower. However, the Heavenly Dao union was powerful and directly occupied the Central Heavenly Yuan Cave!

The moment one entered the Heavenly Yuan Cave, the Heavenly Dao union's logo could be seen everywhere.

There were even some forces that, in addition to their own logo, displayed the banner with the Heavenly Dao Union's logo on it.

It was obvious that the Heavenly Dao Union had a profound influence in the heavenly yuan cave.

"These forces are all branches of Your Heavenly Dao Union, right?" Shengge had been in the nine-star civilization for a long time and knew many things.

Snow White said proudly, "How is it? Are you still competing with me?"

Shengge did not think much of it. "You? You're just the nominal chief of the Heavenly Dao Union. You Don't have real power, so what's so great about it? What's Great is the retired old chief of the Heavenly Dao Union. They are the soul of the Heavenly Dao Union."

Snow White glared at her angrily. It was obvious that her soft spot had been poked.

However., sheng ge continued, "However, just looking at the derivative branches, Your Heavenly Dao Union should be the number one person in the nine-star civilization! Up until now, no force has been able to produce so many forces like Your Heavenly Dao Union."

Not only was the heaven origin cave completely under the secret control of the Heavenly Dao Union, even the outside world was filled with branches of the Heavenly Dao Union.

Those branches would sooner or later send their elites to establish their own sects, forming the large aristocratic families that were secretly controlled by the branches.

Just like the Soul Wood Saint Clan and the Netherworld Saint clan, they would send their own clansmen or forces out to establish the large aristocratic families and fight for New Territories.

The reason they did so was the same -- a tall tree attracts the wind.

If the forces on the surface were too powerful, they would definitely attract the attention of the son of Heaven of the sacred mountain. Hence, they used the method of developing in the dark.

"At least you have some foresight," said Snow White. She then rolled her eyes at Su Yu and said, "Next, be more obedient and don't run around randomly. Otherwise, I might not be able to protect you if you trespass."

Just like what Shengge had said, Snow White was only the alliance master on the surface. Her power was limited.

The ones with real power were the old alliance masters who seemed to have retreated behind the scenes. They controlled more than ten territories under the jurisdiction of Tian Yuan Cave.

If Su Yu offended any of the old alliance leaders' territories, it would be difficult to deal with!

"I'm never the one who takes the initiative to cause trouble," Su Yu muttered to himself.

Snow white snorted, "Even if someone provokes you, just bear with it so that no trouble will arise."

Su Yu shrugged indifferently and followed him to the Heavenly Dao realm of the Heavenly Yuan Cave.

This place was the core of the Heavenly Dao Alliance.

As soon as he entered the Heavenly Dao realm, Su Yu felt the power of a great sage probing him.

He looked up and saw a dao artifact flying in the sky. The dao artifact contained the power of a great sage, testing everyone who entered the realm.

Chapter 3008 Shocked Everyone

Su Yu stood rooted to the spot. He immediately sensed an obscure force sweeping across his body.

Following which, a red glow immediately flashed across his body.

He was not the only one who felt the same. It was the same for Sheng GE as well.

The red glow on their bodies flickered incessantly, and a group of people swiftly rushed over from afar.

It was a tall and beautiful lady with an outstanding disposition. She was dressed in tight-fitting leather clothes and had her hair tied up, giving off a heroic aura.

Her cultivation had reached the pinnacle of ancient sage, and she was just a step away from reaching the Great Sage realm.

The people who followed behind her were all ancient sage experts.

"Who is trespassing into the Heavenly Dao Union?" The tall lady berated unkindly.

Su Yu and Shengge were a little puzzled. Why? Could it be that outsiders were not allowed to enter the Heavenly Dao Union without permission?

Why didn't Bai Xue mention it?

"Han Yanran, you deliberately embarrassed me so that you could replace me as the union leader?" Bai Xue's pretty face was already cold as she stared coldly at the tall woman in front of her.

This woman was called Han Yanran, and she was a direct descendant of an old union leader.

Back then, she was the same as Bai Xue, a candidate for the position of the Heavenly Dao union leader. However, because of Bai Xue's good luck, she narrowly won the competition for the position of the union leader and secured the position of the union leader.

Han Yanran had always been unconvinced. She had relied on her relationship with the old leader of the Heavenly Dao Union to be disrespectful to her, the leader of the Heavenly Dao Union. Occasionally, she would even go against her.

Now, she was deliberately targeting the friends she had brought with her and making things difficult for others!

It was true that not everyone in the Heavenly Dao Union could enter. However, the people that the leader had personally brought in did not need to be checked at all.

Han Yanran was deliberately making things difficult for her.

"Oh, so it was union master Bai Xue who was present. Forgive my poor eyesight, I did not recognize her." The tall woman leaned over and looked at the short figure of Bai Xue with a playful look in her eyes.

Bai Xue said coldly, "Han Yanran, don't go too far in everything, or it will be too late to regret it!"

She waved her sleeve, and the red light on Su Yu and Shengge's bodies completely disappeared.

"Let's Go!" Bai Xue snorted.

Han Yanran watched them leave and scoffed, "I'll let you be arrogant for a while longer. You Won't be happy very soon!"

At the center of the Heavenly Dao realm.

A huge lake lay across the ground. Looking from afar, it looked like a mirror embedded in the ground.

Creatures were moving through the lake one after another!

"Beneath the lake is the Heavenly Dao Union. That Lake is a detection barrier. Any creature that passes through it will be detected," Bai Xue explained, but she did not say what it was for.

Su Yu did not pay much attention to it. Many factions had similar detection barriers, so it was not surprising.

He followed Snow White through the lake. The moment they passed through the lake, he felt a slight tingling pain from the surface of his body.

It was as if something was trying its best to drill into his body.

Su Yu frowned. Out of instinct, the power in his body shook and dissolved the electric current.

However, he did not know how much impact this instinctive reaction would have.

In the depths of the Heavenly Dao Union, in front of a crystal wall, more than ten ancient sages of the Heavenly Dao Union were staring at the flickering spots of light and recording them.

The colors of the spots of light were different. Some were red, some were orange, some were yellow, and some were green.

The different colors represented the difference in a person's strength.

Among them, red was the lowest cultivation level that could be detected. It was around the level of an Earth Dao Master.

Orange was at the middle stage of the Heavenly Dao Master.

Yellow was an ancient sage.

Green was a great sage.

As for the color above it, it was green. That was the power of ten thousand sages, but it almost never appeared.

These ten or so ancient sages recorded the cultivation levels of all those who entered the Heavenly Dao Alliance because they were on guard.

If a great sage appeared, they had to alert the old alliance masters and let them know.

All of a sudden, an eye-catching green dot of light appeared on the crystal surface.

The ancient sages were slightly shocked. They immediately noted it down and said, "A great sage has entered. Confirm his identity."

The Green Dot of light on the crystal surface immediately magnified and revealed the outline of snow.

"So the Alliance leader has returned. What a false alarm!" A person smiled bitterly and immediately restored the crystal plane.

However, at this moment, another green light appeared on the crystal plane!

"Another expert with the strength of a great sage?" The ancient sages immediately zoomed in and discovered that it was a petite girl who was accompanying Snow White.

"Record it down. The Alliance leader has brought back a great sage girl," an ancient sage ordered. Just as the recording was completed, a sudden change occurred!

The screen suddenly began to tremble violently. A ball of extremely dazzling green light flashed across the entire screen at a rapid speed. It was so blinding that one could not even open their eyes.

"Ah! What... What's going on?" Several ancient sages covered their eyes and exclaimed in shock.

The ancient sage officer gasped and said, "Level one alert! An expert of ten thousand sages has arrived!"

An expert of ten thousand sages?

The ancient sages were all alarmed. This was the first time that an expert of ten thousand sages had arrived since the establishment of the Heavenly Dao Union!

"Quick, find out who it is immediately!" The officer ordered anxiously. Ignoring the blinding sight of the green-eyed man, he immediately enlarged the image, hoping to see the figure clearly.

However, despite zooming in on the image, he was still unable to get a clear view of the figure.

The only thing that he could see clearly was the silhouette of the other party.

When the green light dissipated, the silhouette of the other party became even more difficult to catch.

"Have you found out who it is?" Some of the ancient sages were still in shock.

The commander shook his head calmly and said, "I can only get a rough idea of who it is! All of you, continue watching over the area. I'll report to the Hall of Elders!"

This matter was of great importance, the hall of elders must be informed immediately.

Su Yu was completely unaware of this, he came to the Heaven Dao Union's Mission Hall with Snow White expressionlessly.

People came and went here, it was like a bustling market.

The majority of the people who came were leaders of various forces, they had received valuable missions from the Heaven Dao Union.

"Greetings to the union leader!" Just as they arrived at the entrance of the hall, the guards on both sides hesitated for a moment before kneeling down on one knee and bowing.

Bai Xue completely ignored them and entered the Mission Hall.

There were over a hundred windows in this hall, and thousands of people lined up in front of each window. Only one crystal window was empty.

There was only a white-haired old man who was yawning, feeling extremely bored.

Bai Xue came in front of him and knocked on the table, saying: "Fang Yuan, call him out!"

Fang Yuan was none other than the hall master of the Mission Hall, he was in charge of all the missions.

And Heavenly Dao prison's missions were the highest level missions, only some special forces and great sage level forces could accept them.

It was not given out at ordinary windows, only this crystal window could receive missions.

Moreover, it had to be given out by the hall master himself.

Thus, Bai Xue could not be bothered to talk to the old man at the counter, she directly called Fang Yuan out.

"Ah Ah!" The old man was startled awake, he said unhappily: "Who is being impudent, calling the Hall Master by his name?"

But when he saw who it was, his eyes were wide open, he said hurriedly: "Ah! It is the Alliance Master!"

But soon after, the old man seemed to have thought of something, the panic on his face faded, he said: "Please wait for a moment, alliance master, I will inform the hall master now."

Soon after, the old man returned, but he did not bring Fang Yuan, he said: "Hall leader Fang is waiting for you inside, please come."

Eh?

Bai Xue raised her eyebrows, squinting her eyes: "Fang Yuan is so bold."

She asked him not to come, but he asked her to come and see him!

Chapter 3009 Freezing Special Privileges

She instinctively felt that something was wrong.

Even an outsider like Su Yu felt that something was wrong. The dignified alliance chief was being treated with contempt one after another.

The shopkeeper smiled and said without changing his expression, "This is hall chief Fang's intention. I Can't control it!"

Bai Xue glanced at Su Yu and hesitated for a moment before saying, "Lead the way!"

If she were to go now, the Alliance Master's dignity would be shattered. However, she had promised Su Yu that she would give him the mission of the Heavenly Dao prison.

Now, she could only brace herself and go!

The shopkeeper led the way. Bai Xue, Su Yu, and Sheng Ge entered the back hall.

"Wait! The two of you stay outside."The shopkeeper looked coldly at Su Yu and Sheng Ge.

Bai Xue said indifferently, "They are my friends!"

The alliance master wanted to bring a few of his friends into the back hall of the Mission Hall, so there was naturally no problem.

But the shopkeeper interfered and said, "Alliance Master, the Mission Hall is an important organization of the Heavenly Dao Union, how can it be a place that outsiders can enter?"

A mere shopkeeper actually dared to contradict the alliance master on the spot, and even lectured the alliance master.

Su Yu was a fool, he could see the problem.

Sheng ge also frowned and said, "Snow, don't force yourself."

Su Yu nodded, "It's not too late to come later."

The most important thing now was for snow to clarify the matter first. Even if she, the chief, did not have any real power and was just a decoration, it was not to the extent that anyone could step on her nose.

But snow already felt that she had lost all her face, how could she be willing to lower her head?

"Wait outside for a while, I will be back soon."

Her face was ashen as she entered the back hall.

After passing through layers of restrictions, in the garden in the middle of the back hall, a person wearing a wide robe with two strands of long beard and crystal-like eyes was feeding the fish in the pond.

"Fang Yuan!"Bai Xue walked over with a cold expression, as she walked, the earth shook.

The fish in the pond felt the unintentional killing intent, they jumped and created ripples in the pond!

The crystal-eyed person in front of him was the hall master of the Mission Hall.

He pressed his palm lightly, causing the fish in the pond to calm down. When he turned around, he smiled like a spring breeze: "What Made Our Alliance Master So Angry?"

Bai Xue's expression was cold, she gritted her teeth: "What do you think?"

Fang Yuan laughed, he squinted his eyes as he said: "Hehe, I do not know."

Bai Xue looked at him: "Do you still have me as your alliance leader?"

Before he left Heavenly Dao Alliance, everything was fine, but now that he was back, the attitude of everyone in the Mission Hall changed greatly.

"Of course I do."Fang Yuan opened his eyes, Bai Xue's image was reflected in his crystal pupils: "See? Bai Xue is the Alliance leader in My Heart!"

Bai Xue looked at him deeply, she could not be bothered to waste her breath on him.

Right now, the most important thing was to get Su Yu's mission first, as for settling the score, it would not be too late in the future.

"Give me a Heavenly Dao prison mission token." Bai Xue said.

Every mission in Heavenly Dao alliance required a corresponding mission token.

Fang Yuan calmly placed his hands behind his back, saying leisurely: "Bai Xue, you just returned to Heavenly Dao Alliance, why did you come to my place?"

Bai Xue had a bad premonition, saying: "Yes, so what?"

The smile on Fang Yuan's face had already disappeared, he said calmly: "Then, no one should have told you, the elders have already made a decision."

Decision?

Bai Xue's heart shook, her bad premonition deepened: "What Decision?"

Fang Yuan did not say anything, he took out a fish scale and threw it to Bai Xue: "See for yourself."

Bai Xue grabbed it and took a look, but her expression changed: "Why did the elders suddenly make such a decision?"

The fish scale was a decree issued by the elders, it had the collective decision of the elders.

The content was to temporarily freeze the privileges of Alliance leader Bai Xue, until the New Alliance leader was born.

In a sense, Bai Xue only had the title of Alliance leader, she had lost her limited power.

"Do you understand?" Fang Yuan sighed lightly, but that sigh was not because of pity, but because of schadenfreude: "Back then when you were the alliance leader, I was against it."

"Now, the elders have finally made a wise decision."

One of Fang Yuan's juniors was once a strong contender for the alliance leader, but he was defeated by Bai Xue.

He had always been dissatisfied with this.

Now, Bai Xue had finally lost her position as the Alliance leader, the imbalance in his heart was released.

Bai Xue gripped the scales tightly, because she used too much strength, she was accidentally cut by the sharpness of the scales, saying: "Until the New Alliance leader is born?"

Her heart felt like it was bleeding, after so many years, as the Alliance leader of Heavenly Dao Alliance, she had been on the run for Heavenly Dao Alliance, she had narrowly escaped death several times.

Last time, when she was chasing after the ninth domain, she was almost killed, thankfully, Su Yu was there and saved her life.

All of this was erased out of thin air?

"Give me the mission token." Bai Xue suppressed the waves in her heart and said calmly.

Fang Yuan chuckled: "Then what identity do you have?"

The scale was very clear, Bai Xue's privileges had been frozen.

Bai Xue looked at him deeply, saying: "I remember, before I became the Alliance leader, you were just a small shopkeeper who was ostracized, right?"

It was Bai Xue who looked at him in a different light, promoting him to become the hall leader of the Mission Hall.

This was also why Bai Xue was so confident that she could get him the Heavenly Dao prison mission.

But she did not expect that when her position fell, the first to fall out was not her competitor, but her subordinate that he had promoted in the past.

Fang Yuan's hands were in his sleeves, there was no trace of gratitude on his face, instead he said proudly: "Sorry, I relied on my own ability to climb up step by step, even without your promotion, I would still have this day."

"Shameless!" Bai Xue only emphasized two words.

At that time, Fang Yuan was already so down that he could not even stay in the mission hall, where did his ability come from?

However, what use was the word 'shameless' to Fang Yuan?

He could immediately turn hostile, he had no shame to begin with, it was impossible to expect him to be grateful.

"Alright, I will ask you as an ordinary person, give me a Heavenly Dao prison mission token!" Bai Xue bit her red lips, resisting the urge to cry.

No one knew, at this moment, her heart was filled with bitterness.

"Oh? The alliance leader doesn't seem to know how to ask for help." Fang Yuan laughed mockingly.

Bai Xue secretly clenched her fists, she had already lowered her voice, what else could she do, was she supposed to kneel down and beg for help?

"Alright, seeing that we have interacted before, I will give you a mission token." Fang Yuan looked at the humiliated Bai Xue, stopping at the best opportunity.

No matter what, Bai Xue still had some influence behind her, even though she had almost fallen..

"Here." Fang Yuan took out a token.

Bai Xue stretched out her hand to receive it, but just as she was about to receive it, Fang Yuan loosened his grip and the token fell to the ground: "Aiya, sorry, it fell, you can pick it up yourself!"

Bai Xue clenched her fists even tighter, had she ever offended Fang Yuan? Was there a need to taunt her like this?

Suppressing the tears in her eyes, Bai Xue squatted down in humiliation and picked up the mission token, before leaving the back hall without looking back.

What responded to her back view was Fang Yuan's relaxed expression.

Bai Xue wiped her tears and went outside, saying: "I got the mission token."

Su Yu did not accept it, instead saying: "Did I make things difficult for you?"

Bai Xue rolled her eyes at him and snorted, "Who am I? Who can make things difficult for me? Take it!"

She did not bother to explain. She stuffed the mission token into Su Yu's hand and said, "I've got the mission token. You guys should go as soon as possible. If you need any help, you can come and find me anytime."

Chapter 3010 The Nine Elders

Su Yu held the token and looked into her eyes. "Are you really alright?"

No matter how she looked at it, the Mission Hall leader had no respect for her.

It shouldn't have been easy to obtain this token.

"I say, why are you being so wishy-washy? Where's the quick-witted person who took off all my clothes?" Bai Xue said arrogantly, her style was exactly the same as usual.

The corner of Su Yu's mouth twitched. This Snow White!

However, seeing that she was fine, Su Yu was relieved. He said, "Alright, then thank you very much. If you successfully complete the mission, I will definitely come back to thank you."

Snow White giggled, her eyes shining brightly. "Then I'll wait!"

Su Yu smiled, bid farewell to Shengge, and turned to leave the mission hall.

"Although she's rude, she's still a pretty good person." On the way, Shengge rarely spoke up for Snow White.

Su Yu nodded. "Mm, she's indeed a pretty good girl."

"So, you quickly took off her clothes?" Shengge replied with a half-smile.

Su Yu's face stiffened. He coughed dryly and said, "Ahem, there's a reason for this."

Shengge covered her mouth effectively. As she was laughing, she suddenly saw a group of people flying down from the lake.

The leader was Han Yanran, who was in conflict with Snow White.

Han Yanran was beaming with joy. She led the group of people into the depths of the Heavenly Dao Union. She looked particularly comfortable.

When they passed by Su Yu and Shengge, Han Yanran stopped for a moment and said, "Oh? Leaving so soon? Didn't Your Alliance Leader Friend Show You her privileges?"

Su Yu frowned slightly. What she meant was..

He rolled his eyes slightly and said, "Bai Xue keeps a low profile and doesn't show any privileges. However, I can see that everyone is in awe of her."

His words were naturally probing.

Hearing this, Han Yanran chuckled. "Awe? Are You Blind? A person whose identity as the Alliance leader has been frozen and is about to be crippled, and you're telling me that she's in awe?"

What?

Su Yu's gaze wavered. She was in such a situation?

The nonchalant attitude she displayed in front of him just now was a forced act, right?

He suddenly felt that the token in his hand was heavy.

It did not need to be thought to know how much trouble he, who had lost his identity as the alliance master, would face if he received the token from the unfriendly hall master of the Mission Hall.

The more composed she appeared, the greater the waves in her heart would be.

"You guys should leave quickly. Don't get into trouble with her!" Han Yanran said before she left.

Su Yu read between the lines. It was not as simple as Snow White freezing her identity as the alliance master. Perhaps there were worse things.

"Shengge, we won't be able to leave for the time being," Su Yu said.

Shengge nodded obediently and tilted her head. "With Snow White like this, it's really hard for her to leave in peace."

The two of them turned around and returned to the Mission Hall. However, Snow White had already left and no one knew where she had gone.

On the other side.

Elder Hall.

This place was where the core of the Heavenly Dao Union was located. There were countless arrays outside the hall that sealed it tightly. It was difficult for the outside world to even visit, let alone barge in.

At this moment, the ancient sage leader was kneeling on the ground in front of the crystal plane

"Guardian GU, please pass the message that I have something urgent to report." Outside the hall of elders, there was an elder dressed in a straw cape, guarding the only entrance to the hall of elders.

He slowly raised his head and glanced at the ancient sage leader. The latter's body trembled violently, and he began trembling uneasily.

The strength that the elder exuded had reached the level of a great sage!

As a great sage, she was actually acting as a guard!

Protector gu closed his eyes indifferently and said, "At this critical moment, the elders are all in closed-door cultivation. It is not appropriate for them to meet guests unless there is a huge matter that concerns the safety of the Heavenly Dao Union."

A year ago, all the elders in the hall of elders seemed to have sensed that something bad was about to happen, so they all chose to enter closed-door cultivation.

Before they went into seclusion, they had warned them not to disturb the Heavenly Dao Union unless something big happened.

The ancient sage leader looked anxious and said, "What I want to report is definitely no less dangerous than the Heavenly Dao Union."

He did not dare to say anything about the arrival of the ten thousand saints, so he did not want to reveal it to protector Gu.

Protector gu looked indifferent and said, "I don't want to repeat the same words. The Sacred Land of the Hall of elders, please leave as soon as possible."

Seeing that the other party had started to send him away, the leader of the ancient sages was helpless. He could only say, "With the arrival of the ten thousand saints, if protector Gu feels that the matter is not important, just pretend that I never came!"

As he said that, he stood up and patted his knees, preparing to leave.

Crack --

A crack suddenly appeared in the space behind him. The protector gu opened his eyes at some point, and his old eyes were filled with shock.

"Are you sure?" The ancient guardian immediately stood up, his expression no longer as calm as before.

The leader of the ancient sages said solemnly, "Are you sure you want to see the record of the Barrier?"

The ancient Guardian's expression froze, and he hurriedly waved his hand. "Wait here, I'll report it right away!"

It was better for him not to interfere in such a huge matter.

It would not benefit him at all.

In the Hall of elders, there was an old black coffin, and every coffin was covered with a mysterious air mass.

The coffin was completely silent.

Protector gu kneeled in front of the coffin and said, "Reporting to the nine elders, the barrier detector has reported that there are signs of the arrival of the Ten Thousand Saints."

Clang!

The coffin cover at the end of the coffin was suddenly moved away, and an old man with a shriveled body suddenly sat up.

Two dark green flames were jumping in the eye sockets of the shriveled corpse. It opened its mouth, and its voice was hoarse and dark, as if a ghost was talking. "Why did the Ten Thousand Saints come to Our Heavenly Dao Union? is the test reliable?"

Protector gu said respectfully, "I think they don't have the courage to lie."

They didn't have the courage to disturb the elders hall with the arrival of a ten thousand saints expert.

Clang!

Clang --

The lid of several coffins was opened one after another. They, who were in deep seclusion, were all awakened by this shocking news.

Protector Gu was secretly shocked. He actually made the five elders wake up at once.

This news was too shocking for them!

"Bring him in!" In one of the coffins, there was no corpse sitting up. Instead, it was issuing an indistinct command.

Guardian GU immediately went out to bring the ancient sage leader in.

"Greetings, Elders." The ancient sage leader was alarmed.

These elders had spent most of their time in the hall of elders and rarely showed their faces. To think that they would be able to see five of them at the same time.

"Bring out the barrier record."

The ancient sage leader immediately took out a droplet of water and tossed it into the air. A clear image was immediately projected from within.

However, without any warning, a blinding green light suddenly appeared on the surface of the crystal. It was so blinding that one could not even open their eyes.

Sou Sou Sou Sou --

The few elders who were still lying on the ground stood up from their coffins one after another. They stared at the green light in the sky with grim expressions.

Creak --

Following that, two more coffins' lids were opened. From within, two extremely old people with slightly rotten bodies sat up.

They were elders who were even more qualified. They had already lived for seven to eight eras.

"It's a ten thousand sage expert," the third-ranked coffin elder said hoarsely. His face had already rotted to the point that only his bones were left.

"But... I can't see the person clearly," he said in a hoarse voice.

At this moment, the sound of fingernails rubbing against the lid of the coffin came from the second coffin. It was extremely eerie in the empty hall of elders.
