

Nine-Dragon 471

Chapter 471: The Mysterious Secret Room

The five balls were thirty Chinese feet away from one another, and they formed a circular formation. Under Yang Yidao's command, the five of them inserted spiritual energy into the ball at the same time.

At once, the five balls emitted magnificent spiritual light, which changed into a five-colored light beam that enshrouded the circular formation. Su Yu and the others were within the protection of the light beam as well.

Whiz—

Under Yang Yidao's control, the five balls maintained the circular formation and flew toward the Supreme Thunder Hill.

At another location.

Long Wuxin and Qin Xianer, who had not been seen for ten days, were escaping from death, surprisingly and furiously. Their bodies were in bad shape, and the spiritual light on their body surface was dim. Their auras also looked quite weak.

"Sister Wuxin, is that disciple outside the Sanctum a lunatic? Why is he chasing us so persistently, and refusing to let us go? We have finally escaped from the Fairy King Ruins, and we have obtained quite a number of treasures as well as resources. Moreover, we were about to find a place to put all of them peacefully. However, we did not expect to come across this bad person the moment we came out." Qin Xianer's mind was filled with grievances.

Long Wuxin had a serious expression: "Pursuing us once might be something unforeseen. However, since he had been pursuing us tightly, and he refused to let us go twice, perhaps we might have caught his eye. I have no idea which part of us has attracted his attention."

Qin Xianer's jade nose frowned, and she waved her small fists ferociously: "Humph, after I have refined the legacy of the Fairy King, I will teach him a lesson!"

Long Wuxin sighed: "Let's think about that after we escape successfully."

At another location.

The people of the Four Great Ancient Clans had appeared in a giant stone forest. Within the vicinity of the stone forest, the whole path was filled with blood, as well as bodies, and there were a total of ten bodies.

At the middle region of the stone forest, there were over a hundred people surrounding a giant black and white spell, and they were confronting it in a disorderly manner.

Among the Four Great Ancient Clans, the beautiful woman revealed a thinking and disdainful expression: "All of you wish to go the eighth level? Hehe, it would have been fine, if it were that few first-rate Half Gods. As for normal Half Gods and a group of Human Kings, all of you are merely avaricious and insatiable. Hence, all of you are only here to dig your own graves!"

“Lord, what should we do?” Shi Jie stood at one side with great respect.

Sheng Ge sneered: “Of course we should let them kill one another first. After they have killed enough, we will then go over! Although they are disgusting trash, there are still quite a number of them. As I am now in a weak condition, it is not advisable for me to fight with them head to head.”

“At the same time, we can get some ghost-based treasures from the Ghost Crying Mountain, which can be used to treat my injuries, so that I can regain my fighting capabilities of the Fairy Realm!”

Sheng Ge’s expression was filled with a bit of hatred: “Humph! I will remember that old bastard’s kindness of giving me a palm. Moreover, there is still that Black Snow Devil King, who deserves to be hacked to pieces. He had better not come across me. If he does, I will teach him a great lesson!”

On a multi-peaked mountain a hundred thousand Chinese feet away, a purple-robed figure was standing within the whistling wind. It was Bai Qi, the Ghost King, who had rushed to his current location!

“Master, let’s head over there after they have finished killing one another. There are too many of them. If they discover my identity as an evil ghost, they might deal with me collectively, and expose Master in the end.”

After hearing what was said, a sound, signifying being understood, could be heard from the picture scroll in his chest. A crafty expression flashed past Bai Qi’s eyes. As for his forehead, a tiny bit of concern appeared by accident, and he murmured secretly, “Also, I do not know if that little kid would be able to rush to the eighth level of the Divine Pavilion.”

At the Thunder Emperor Mountain.

A five-colored light beam was slowly approaching the Thunder Emperor Mountain. When it was within five hundred Chinese feet of the Thunder Emperor Mountain, a thunder arc was shot from the Thunder Emperor Mountain abruptly! Its power was not weaker than that of a Heaven Master. When it struck the five-colored light beam, not even a tiny bit of wave was created.

When it was within three hundred Chinese feet, a lightning bird, comparable to a Human King, flew over with its whole body covered in raging flames, and crashed into the five-colored light beam ruthlessly. However, with a whooshing sound, the lightning bird fell apart into subtle thunder arcs, and there were no changes to the five-colored light beam.

A hundred Chinese feet within the Thunder Emperor Mountain!

Finally, a low roar could be heard from the Thunder Emperor Mountain. A thirty Chinese foot tall lightning tiger then appeared. Its back had a pair of thunderbolt wings, and it came over, while roaring furiously.

Half God. Moreover, it was an attack of a first-rate Half God!

From the giant tiger, Su Yu felt an aura similar to Long Wuxin and Yu Chan.

Roar—

While it was roaring furiously, it crashed into the five-colored light beam ruthlessly. What caused everyone to be shocked was that there were no fluctuations on the five-colored light beam like before!

Looking at the giant tiger instead, half of its body was smashed. It then changed into thunderbolt again, and returned to the Thunder Emperor Mountain!

At last, the five-colored light beam finally arrived at the Thunder Emperor Mountain, and no attacks appeared over there. When the few of them heaved a sigh of relief, Yang Yidao, whose expression was still tense, took a normal breath, and said, "Our luck is not bad. The lightning spirits of the Thunder Emperor Mountain seem to still be in a deep sleep."

Lightning spirits? Without even thinking, one would know that it was definitely an extremely dangerous being.

From Yang Yidao's tone, one could tell that he was fearful of the lightning spirits: "All right, the Dry Cloud Five Elemental Formation can be kept temporarily. Before reaching the Thunder Palace, there will no longer be any dangers. Now, I need to prepare some items to enter the Thunder Palace, and all of you can move about freely. Apart from the Thunder Palace, all of you can go to the remaining places."

After hearing what was said, the four of them split up. Su Yu locked on to the nearest imperial palace, which was currently a piece of ruins. When he entered the imperial palace, he realized that all the items within it had been completely plundered a long time ago.

It was obvious that it was not the first time, where people entered the Thunder Emperor Mountain. Within a hundred years, it was unknown how many times people had come in.

Seeing the surface of the walls, which had been scraped off, and seeing the ground, which had been dug by thirty inches, Su Yu blushed with shame. It had really been dug by thirty inches!

After that, Su Yu spent half a day's time to enter the imperial palaces in succession. However, the results were really quite depressing. Apart from one or two spiritual herbs, which contained spiritual energy, there were no other gains.

As Su Yu looked at the rest of them from afar, he realized that all their faces were ghastly pale as well. Similarly, they had probably been angered by the digging of thirty inches of the ground.

With that, all the buildings of the imperial palaces were searched once, and there were no gains at all. Lastly, Su Yu stood in front of an imperial palace, which was quite big. After gaining nothing, he gave up on searching and prepared to return.

Suddenly, he discovered that, at the corner of the imperial palace, there was a strange living thing, which was looking at him coldly. It was a catfish. Its whole body was sticky and soft. Moreover, the top of its head had a red-colored cockscomb!

Not discussing about what the strange fish was temporarily, this fish was actually on dry land. Didn't it need to live in water?

Su Yu reacted, and he wanted to extend his hand to catch the catfish. However, the catfish went into the ground and disappeared out of thin air, just like that!

When Su Yu used his Soul Eyes to check it out, he realized, unexpectedly, that a thousand Chinese feet below, there was an open and spacious underground secret room. It was in a state, where it was completely sealed, and there were no signs of it being opened before!!

Su Yu's expression changed, and he revealed a delightful expression! For there to be such a secretive underground room, it must contain items of the Thunder Emperor Mountain that were extremely important!

However, at the very moment, there were many people with many eyes looking around. Hence, Su Yu would naturally not check it out immediately.

The four of them gathered again, and looked one another in the eyes. Even without talking, they knew that the rest of them did not have any gains.

"Tsk, the only place we can look forward to is the Thunder Palace. The palace is the palace of the Master of the Thunder Emperor Mountain. Due to its extremely special defense, it had never been opened before. This time around, if we are able to succeed, our gains will definitely not be small!" Yu Chan's face was filled with a tiny bit of anticipation.

All of a sudden, Yang Yidao woke up from his seclusion. The ring on his index finger glowed with a dim light, and as if he were performing conjuring tricks, and a purple-colored flower appeared on his hand.

The flower contained an extremely huge amount of vital energy!! Although it was clearly a blue-colored nameless flower that was as rough as a finger, it made a hundred Chinese feet vicinity overflow with thick vital energy instantly!!

The vital energy was so thick, that it almost appeared as a liquefied state. By just breathing in slightly, Su Yu breathed in a large amount of the vital energy!

The vital energy was so powerful, that it was absolutely not something that martial artists of the Immortal Realm could withstand. Hence, at once, Su Yu felt painful feelings, where parts of his body had burst.

Su Yu was shocked, and held his breath with great concentration to expel the vital energy, within his body, out of his body. Gang Dalei and Qin Jiuyang had almost the same reaction as Su Yu, and they faintly revealed an astonished expression.

What flower was that? The Vital Energy Crystal on the Eternal Stone King Armor did not possess this kind of frightening vital energy.

"Soul Suppressing Orchid!! Yu Chan cried out in alarm speechlessly: "Senior Brother Yidao, this is an important treasure that you need to use when you prepare to make a breakthrough to the Fairy Realm. Could it be that you want to use it here?"

Yang Yidao's eyes were glowing with seriousness, and he spoke in a stern voice, "For a hundred years, no one had been able to open the Thunder Palace. The reason is because of that Five Elemental Divine Thunder. Only by using the huge amount of vital energy of this item to activate the Five Elemental Formation to its maximum, would there then be hopes of bypassing the Five Elemental Divine Thunder and entering the Thunder Palace!"

After all, the Dry Cloud Five Elemental Formation was his Uncle's treasure, and it had already been refined. If a huge amount of spiritual energy were not inserted into it, it would be impossible to unleash its greatest power.

Yu Chan felt extremely sorry, and her eyes could not look away from the Soul Suppressing Orchid: "This Soul Suppressing Orchid is a treasure that Senior Brother had exchanged for from the faction, using the information regarding fairy level cultivation techniques. For this, you had also offended a Divine Master Uncle! Senior Brother, giving it up just like that for the Thunder Palace is a not worth it!"

Yang Yidao was also a bit reluctant, and he said in a serious voice, "If it is possible, I do not want to use it as well. However, I have failed in making a breakthrough once. Hence, when I make a breakthrough for the second time, Master has said that there is a high possibility of me triggering the Heavenly Disaster. Hence, I need to find the Thunder Herb and manufacture an armor to avoid the lightning from it. If not, is there any use in just having the Soul Suppressing Orchid and nothing else?"

After hearing what was said, Su Yu and two other people exchanged looks. The worse situation had appeared. Yang Yidao had also come for the Thunder Herb. Later on, there would definitely be a fierce fight!

"In the outside world, a Thunder Herb is worth as much as a Soul Suppressing Orchid. Hence, if I can get two or more Thunder Herbs, I might not suffer any losses." Yang Yidao added.

Yu Chan muttered to herself for a long time, and she said with a sigh, "I hope so."

Yang Yidao stretched his body and stood up. He then summoned the Dry Cloud Five Elemental Formation again: "All of you, please come up."

The group of them stood atop the ball again, and they were standing atop the balls that they were originally standing at. Under their control, the Dry Cloud Elemental Formation flew in front of the most magnanimous great palace, the Thunder Palace.

The Thunder Palace was completely different from other imperial palaces, which were pieces of ruins! Not only was it maintained as a whole, it was surrounded by dense and numerous five-colored gorgeous thunder and lightning!

When they stood in front of the giant palace, Su Yu had an oppressed feeling, as if he were facing giant beasts during the primeval ages. It was as if, within the big palace, there were some extremely frightening beings.

A tiny bit of ominous feeling surged in Su Yu's heart. However, he no longer had any time to hesitate. Yang Yidao held the Soul Suppressing Orchid on one of his hands, and controlled the spell to approach the Thunder Palace.

Rumble—

With a loud thunder which shook the Heavens, ten five-colored gorgeous thunder and lightning appeared with a roar, and changed into ten ferocious monsters with unusual shapes!

What caused everyone to be fearful was that all of them had the aura of a first-rate Half God! With a furious roar, the ten ferocious monsters rushed over, while roaring. Finally, continuous ripples appeared on the five-colored light beam, which had no waves.

Su Yu heaved a sigh of relief secretly. The ten ferocious monsters were blocked so easily?

However, at the very moment, the ten monsters changed into thunderbolts again, and combined together. At once, a lump of shocking spiritual pressure could be felt!

A frightening energy, which was close to that of the Fairy Realm, filled the air slowly! Moreover, that thunderbolt changed into a thirty Chinese foot tall giant, and looked down on Su Yu and his group of people indifferently. It then spoke the human language: “Trespassers who trespass the forbidden area shall die.”

After its speech, its giant body came over swiftly! Its oppressiveness was only possessed by the bodies of Xue Ling and Yang Yidao!

However, Yang Yidao had a calm expression, and he did not even look at the giant at all. Instead, he stared at the five-colored thunder and lightning around the Thunder Palace persistently.

Thump—

The giant crashed into them. At once, the five-colored light ring twinkled, and the balls, where spiritual energy was inserted into, emitted a whimpering sound, and actually showed signs that it was about to be destroyed! During such a critical moment, all of a sudden, the five-colored thunder and lightning around the imperial palace danced about disorderly. It was as if they had been summoned by something, and they came together to combine magically into a three hundred Chinese feet tall giant!

That giant had a cloak, and it wore an imperial crown on its head. Looking at its sitting carriage, it was sitting behind the big palace in an impressive and dignified manner. A pair of eyes, surrounded by five colors, emitted the aura of a king, and it was looking down on them coldly.

Thump—

With those eyes, the five-colored light beam fell apart on the spot. Su Yu and his group of people all suffered a tiny bit of aftereffects, and they had frightened expressions!

“Divine Master!” Gang Dalei gasped coldly, and he turned pale in astonishment.

That giant, which was like an emperor, opened its mouth coldly: “Since you guys have trespassed my forbidden area, how do you guys think you should be punished?”

Furious roars of thunderbolts then resounded within the hearts of everyone, like the oppressive voices of the Heaven!

Chapter 473: Duplicating Abilities

Lightning-based spiritual artifact? Everyone was shocked!

Yu Chan also breathed rapidly: “Five Elemental Divine Wood. Could it be that it is a lightning-based material that is used to manufacture spiritual artifacts? Even though a craftsman Uncle had offered a reward for it in the Eighteen Blessed and Heavenly Lands for twenty years, no one had

managed to find it. Senior Brother, you have accomplished an impressive feat for the faction this time around! This item is worth a lot higher price than the Thunder Herb!”

An unexpected gain caused those who belonged to the Returning Principal Palace to be wild with joy. Having heard about the Thunder Herb, Su Yu and his group of people also started to look for it secretly.

Suddenly, they discovered that on the two corners of the big palace, on its left and right respectively, there was a water tank, each!

Yang Yidao’s expression turned serious, and he shouted loudly: “Do not touch it!”

As he spoke, he flew toward the right water tank quickly. The water tank had dried out for an unknown period of time. Hence, only cracked soil was left, and there were no spiritual herbs.

Yang Yidao’s expression changed, and he flew toward the water tank on the left. Within the water tank, there was a layer of shallow water, which allowed the soil to remain moist. Moreover, one tall and two short plants grew in the middle of the soil. Hence, in total, there were three plants, and all of their bodies contained five colors.

They were extremely similar to the weeds on roadsides. The only thing different, was that their bodies contained five colors, and they contained extremely extraordinary powers of thunderbolts.

“Thunder Herbs! Two seedlings and a full grown plant!!” Yu Chan was especially surprised, and she said, “We are really able to find the rumored Thunder Herb!”

Yang Yidao was first delighted. After that, his expression turned serious abruptly: “Is there only one full grown plant? This is extremely far from the nine Thunder Herbs that I need!”

Yu Chan gave a charming smile and said:, “Master has said before that the possibility of finding nine Thunder Herbs is extremely small. If we are able to find a full grown plant, he will help Senior Brother to integrate it into an armor. Although it is the next best thing, and it is not effective as the armor manufactured from Thunder Herbs in blocking thunderbolts, it is still extremely shocking! In addition, you still have the Dry Cloud Five Elemental Formation. Hence, there is a high possibility of Senior Brother being able to block the Heavenly Disaster.”

After hearing such consoling words, Yang Yidao’s expression relaxed slightly: “I can only make do with it.”

As he spoke, he used a jade shovel to dig up the three Thunder Herbs, and kept all of them. After that, he looked around in the big palace again. After confirming that there were no longer any great treasures, he said, “All of you can split whatever items that remain among yourself.”

Gang Dalei’s expression turned serious. He quickly rushed toward the two water vats, and his expression turned unpleasant. There were originally a grown up plant and two seedlings. However, at the very moment, all of them were taken by Yang Yidao.

As for Su Yu, he muttered and thought to himself for some time. After that, as Gang Dalei gazed at him surprisingly, he shifted the two water tanks together. After that, he poured out all the soil within the two water tanks.

“Brother Black Snow, what are you doing...” Gang Dalei totally did not understand. However, suddenly, his expression changed slightly.

Within the moist soil, there was actually still a seedling of the Thunder Herb, which had yet to emerge from the soil!

Rustle—

A gust of wind blew over. It was Yang Yidao, who was observing their actions secretly. When he discovered a strange situation, he rushed over quickly.

When he realized that it was a seedling of the Thunder Herb, his eyes brightened up, and he assumed a posture, where he wanted to pick the seedling. However, Su Yu opened his mouth and said, “You have said before that you would give me twenty percent of the gains as compensation. As I really need the Thunder Herb hurriedly, could you give me this seedling?”

After hearing what was said, Yang Yidao rejected Su Yu without hesitation: “Thunder Herbs are of great use to me. For other items, you can have twenty percent. However, just for Thunder Herbs, I will not allow it.”

As he spoke, he allowed no explanation, and he took the Thunder Herb that they had discovered away unreasonably. Upon seeing that, Su Yu and his group of people were extremely furious.

However, as Yang Yidao was extremely strong, they only dared be furious toward him, but they did not dare say anything.

“Eh...” All of a sudden, Yu Chan discovered that, within the soil that had been poured out, there were a few items the sizes of the faeces of rats, that were small and roundish.

“It’s the seeds of the Thunder Herbs!” After Yu Chan recognized it, she was first delighted. After that, her expression became dim quickly.

Yang Yidao was also shocked at first. After that, he lost interest immediately: “For these seeds of the Thunder Herbs, you guys can have them.”

Gang Dalei clenched his fists secretly, and said to Su Yu, with an extremely unpleasant expression, “The seeds of the Thunder Herbs are common. They are not difficult to find in Jiuzhou, and are not worth a lot. The reason is that, apart from special environments like the Thunder Emperor Mountain, it is totally impossible to grow them in the outside world! At the very least, up until the very moment, there have been no experiences of someone growing the Thunder Herb successfully! All the Thunder Herbs that had been discovered all grew in the wild with special conditions. As for all these seeds, having them is the same as not having them.”

No one had been able to grow them successfully? Su Yu gazed elsewhere. After thinking for some time, he quietly dug out the seeds from the soil. There were a total of ten of them. He then placed them carefully in a jade box, and kept them with him.

After that, everyone searched the Thunder Palace once. However, there were not many valuable items.

After confirming that everything had been searched once, Yang Yidao lost interest completely, and he looked at Su Yu and his group of people: “Since this is case, we shall go our own ways now. Three of you, take care of yourself! Yu Chan, let’s go.”

After hearing what was said, Yu Chan cupped her fists in salutation toward them, and left as well. In the end, only Su Yu and his group of people were left.

“Brother Dalei, since the task is not completed yet, what should we do?” Su Yu said with a serious voice.

Qin Jiuyang was a bit apologetic as well: “Oh man, even though I am grateful to Elder Jiu for his kindness, I am unable to help him.”

After hearing what was said, Gang Dalei sighed helplessly: “Both of you are not to be blamed. The geniuses of Jiuzhou are stronger than we had expected. Hence, we are unable to do anything as well.”

“However, Master had thought of that before. Hence, he told me to go to another place to look for the Thunder Herbs. That place is not dangerous, and I will be fine by myself. Before that, I need both of you to use your abilities. With that, the agreement between us will be considered as complete.”

Su Yu raised his eyebrows. The agreement between him and the sloppy old man was to help the sloppy old man to find the Thunder Herbs, because there was only something that he could do. However, it was a pity that the appearance of Yang Yidao had caused Su Yu to have no time to help him.

Whiz—

Gang Dalei took out a pure white jade plate from his chest. The top of the jade plate was filled with complicated lines.

“Brother Black Snow, Master had said that you possess an ability to see through the essence of substances. Please execute that ability of yours once toward this jade plate.”

Su Yu was shocked. The sloppy old man had already seen through his Soul Eyes a long time ago? Although he did not understand the use of executing it, he still used his Soul Eyes once toward the pure white jade plate.

“Brother Jiuyang, please use your curse technique once toward the jade plate as well.”

Qin Jiuyang absolutely did not understand. However, he still did it anyway.

After completing that, Gang Dalei kept his jade plate. He then cupped his fists and said, “Two brothers, I need to carry out the task that my Master had given me. Hence, we shall part ways here. I hope that both of you can take care of yourselves.”

Up till that very moment, Su Yu and Qin Jiuyang were considered to have fulfilled the agreement. Hence, it was time for them to leave and find the opportunities that belonged to them.

“Understood. Brother Dalei, goodbye.”

The three of them stood high up in the skies of the Thunder Emperor Mountain, cupped their fists to bid farewell, and headed toward three different directions. After an hour, a sound, which broke the silence in the sky, resounded. It was Gang Dalei, whose whole body was a lump of light, who had returned again.

His face wore a tiny bit of shame, and he sighed lightly: “Two brothers, I’m sorry. I had no choice but to lie to both of you!”

He returned to the Thunder Emperor Mountain again, and entered the Great Thunder Palace. He then stood on the high stage, which the imperial throne was at, and he took out the pure white jade plate.

After dripping a drop of blood, Gang Dalei’s eyes brightened up abruptly. In his eyes, everything in the surrounding area could be seen through!

“Brother Black Snow’s Transparent Eyes are really extraordinary. No wonder Master said that it is a one-of-a-kind in the Zhenlong continent. It is really a divine artifact! By duplicating this ability into the jade plate, I can also borrow the use of it once, and it can last for a long time.”

His eyeballs looked all around, and finally fixed onto the high stage below his feet. With the Transparent Eyes, he saw that there was a secret path that had been hidden very deeply!

He exerted strength below his feet, and shook the high stage into pieces. A dark cave entrance then appeared. Gang Dalei was delighted, and he entered the cave quickly.

After a cup of tea’s time.

Another sound, which broke the silence in the sky, could be heard. It was Su Yu, who had returned vigilantly!

He went to the place, where he discovered the catfish, and lowered his head to take a look. As expected, the sealed secret room, which was deep underground, was still present.

His eyes were filled with a tiny bit of excitement. He then chose a secret corner, and started to dig the ground secretly.

Chapter 474: Prototype Fairy Artifact

100 zhang was not deep by Su Yu’s standards. After half a joss stick’s time, he had successfully dug to the top portion of the secret basement.

A light barrier appeared beneath Su Yu’s feet. Through the light barrier, he could clearly see the sealed secret basement. It was not particularly wide, only 30 feet all around. There was only a stone bed and a table within.

There was nothing on the stone bed. But there was a golden imperial jade seal on the stone table. The imperial jade seal was carved with lifelike dragons—powerful and arrogant.

The rest of the items on the table had decomposed, but the imperial jade seal was covered with faint five-colored lightning, thus keeping it fresh and new, untouched by the hand of time.

Su Yu’s heart thumped wildly. This was definitely a unique treasure!

Through the barrier, Su Yu could not determine the grade or value of the treasure. But intuition told him that the imperial jade seal might be the most important thing in the entire palace! Concentrating, he also realized that there were nine books on the table. Even though they were covered in dust, they had not decomposed yet.

Anxiously observing the light barrier, he realized that it had a powerful defensive capability, holding back everything from the outside world. If that had not been the case, the 100-zhang layer of earth would have long shattered this secret basement.

Su Yu thought for a moment before taking out the Golden Scale Dagger to see if it would leave a mark on the barrier. But when the sharp end of the dagger came into contact with the barrier, it was as though it was slicing against steel. Sparks could be seen, but the barrier remained unmoved. Then, Su Yu tried with the Nine Yin Yang Formation. But the light barrier barely shook.

Su Yu let out a bitter laugh, realizing he might have been prematurely excited. But that did not mean he was out of ideas.

With a thought, Su Yu sat cross-legged. As he formed seals with both hands, a transparent shadow appeared above his head. It was Su Yu's soul leaving his body. The light barrier could dispel physical attacks, but what about spiritual elements?

Thinking for a moment, Su Yu's soul exerted force beneath his legs. He easily passed through the barrier of light, entering the secret basement without obstruction! Su Yu was elated. It was so easy!

Without hesitation, he immediately made his way before the stone table. He looked at the imperial jade seal. He tried to grab the seal, but in his soul state, his hand merely went past it. He was unable to touch it.

Su Yu sighed. He still had a long way to go if he wanted to reach the level of Yun Yazi, to be able to launch material attacks while he was a disembodied soul. Would he be forced to return empty-handed even though he had successfully made it in?

Annoyed by the injustice of the situation, Su Yu looked at the nine books. They were placed casually on the desk. Even though they were closed, Su Yu could make out their contents by looking through them with his Soul Eyes.

"Hmm... They are all commentaries about lightning-based techniques!"

Su Yu was a little surprised. He had thought that these were all techniques that had been left behind, but in reality, they were all commentaries—possibly written by the Thunder Emperor himself!

Thinking for a moment, Su Yu concentrated and read the contents. He had not thought too much about these books initially, but the deeper he read into the books, the more excited he became. Of these nine books, the first was a simple summary of lightning-based techniques, the second was an introduction, and the third was the Thunder Emperor's experiences of cultivating his techniques. The fourth, fifth, sixth and seventh books—four full books—were about lightning-based abilities cultivated by the Thunder Emperor! This was akin to his legacy!

The eighth book was an introduction to lightning-based materials. Within it, information about materials for elixirs and artifacts, as well as supporting materials, was abundant. It basically encompassed all the knowledge Jiuzhou had about the subject.

After he finished reading it, Su Yu finally made his way to the last book, which was about the item Su Yu was most excited about: the imperial jade seal!

This imperial jade seal is the prototype created by me, still three stages away from the true Five Element Strong Thunder Seal. It is now only a half-manufactured spiritual artifact. If it were fully forged, its grade might even be above spiritual artifacts! It could become a fairy artifact that would shock Jiuzhou.

A fairy artifact? Su Yu was shocked, what level was a fairy artifact at?

What made Su Yu even more surprised was that the imperial jade seal before him was merely in its beginning stages! For it to work, there were three more steps to accomplish.

Based on Su Yu's understanding, creating an artifact in its beginning stages largely involved combining its materials. Could this half-manufactured spiritual artifact be just an amalgamation of its materials? If merely combining its materials would result in such terrifying power, just how powerful would the completed product be?

Su Yu gasped. Even the high-grade divine artifact, the Eternal Stone King Armor, had not awed him to such an extent. This item was more precious than he could ever have imagined!

Su Yu breathed heavily. He had to have it! But he could not break this barrier. How could he leave here with it?

Boom—

At that moment, a rumble could be heard all over the secret basement. A hallway was faintly visible on the other side of the barrier. It was the door to this secret basement, and someone was breaking in from outside. A crack had already been opened in it.

Su Yu was shocked when he saw who was behind the slit! Gang Dalei!

In an instant, Su Yu understood. Searching for the Thunder Herb was merely one of his reasons for being here. The true goal of the sloppy old man was to find the legacy of the Thunder King.

Su Yu was anxious. If Gang Dalei entered, he would take this prototype treasure!

But suddenly, there was an odd heat in Su Yu's brain.

"Congratulations on reading the nine books and inheriting my legacy!" said a voice.

Su Yu was shocked. How could the will of the Thunder Emperor still be present in this place?

"This prototype fairy artifact will also be given to you as part of the legacy," the voice went on. "I hope that you can finish my work and continue creating this artifact."

After which, there was a creak in his brain as it was filled with a foreign mantra. It was the mantra used to control the Five Elemental Strong Thunder Seal.

Boom, boom—

A rumble could once again be heard from the door of the secret basement. Without hesitation, Su Yu recited the mantra. Immediately, he felt a connection form between himself and the Five Elemental Strong Thunder Seal. Su Yu extended his thoughts, and the surface of the imperial jade seal creaked as it floated in the air.

Su Yu was elated. Under his control, the imperial jade seal quickly made its way to where his physical body was. To his relief, the light barrier did not obstruct the imperial jade seal. The seal passed easily through it and successfully appeared before Su Yu's physical body.

Su Yu was excited as his soul returned into his body. Opening both eyes, he attempted to store the treasure in the Cosmos Mirror without hesitation, but strangely, the object remained unmoved. It seemed as though it was unable to be stored in the Cosmos Mirror.

The mark of the Nine Jade Spiritual Pearl on his arm glowed, and the prototype fairy artifact flashed with lightning as it was absorbed into it. Su Yu's worry eased.

Boom—

A giant thud erupted. The door of the secret basement had finally been opened! Gang Dalei entered holding a crystal-like bat enveloped by lightning with spiritual qualities.

Chapter 475: The Legacy Of The Thunder Emperor

Gang Dalei had exhibited those thunderbolts, when they fought the Ghost Prison Envoy in a life and death battle. After that, he never used it again, and it was extremely mysterious. However, it was unexpected that it was actually a lightning-based magical treasure.

At that very moment, Gang Dalei's whole body was charred black, and his clothes were torn open. He had an expression, which showed that he was in dire straits, and he looked like he had been through many hardships. It seemed that the door of the secret room could not be opened so easily.

Gang Dalei charged in delightfully. At once, his eyes discovered the nine books atop the stone table and, without hesitation, he threw himself toward the nine books immediately.

However, when he had just touched the nine books, the nine books turned into dust at a speed that could be perceived by a naked eye. He had never seen even a single word of it.

It was as if those books could only be read once. After that, if they were touched by others, they would disappear.

Upon seeing that, Su Yu could not help but rejoice secretly. Luckily, he had read those books in advance, and obtained the legacy of the Thunder Emperor.

Gang Dalei was stunned, and his eyes stared blankly in front of him. After that, he looked around the secret room, up and down. He had searched all the places which could be searched once. However, he did not find anything!

His expression turned unpleasant at once: "What happened? Did I come to the wrong place? Isn't this the place where the Thunder Emperor's legacy is at?"

He was extremely surprised and bewildered. As he stood below the light membrane, it seemed that he was unable to see the environment outside the light membrane. Hence, he totally did not realize Su Yu's existence.

Looking at Su Yu instead, he could observe each and every action of Gang Dalei. In his heart, Su Yu felt a bit disappointed. It did not feel good to be deceived by others.

However, Gang Dalei might have done it, as he could not help it. After all, prototype fairy artifacts were extremely shocking, and it could not be leaked to the outside world. Moreover, there was only one legacy.

Su Yu withdrew his gaze, turned around, and prepared to leave. However, at that very moment, Su Yu's expression changed abruptly.

Another figure had appeared at the door of the secret room! It was Yang Yidao, who had a true yet fake smile!!

When Gang Dalei turned his head to take a look, he was astonished, and his expression became extremely unpleasant: "You followed me!"

Yang Yidao stood at the door, and completely kept Gang Dalei inside the secret room. He then sneered, "I knew that it would not be so simple! I did not expect you to have already known the existence of another secret room a long time ago!"

"Start talking. What is this secret room?" Yang Yidao narrowed his eyes and examined the surroundings.

Gang Dalei's whole face was filled with fear. After struggling for a bit, he sighed with a low voice: "It's the legacy of the Thunder Emperor!"

Yang Yidao's face turned serious abruptly, and he said speechlessly, "What did you say?"

As Yang Yidao spoke, Gang Dalei took out a yellow and old letter. In the letter, it was written that, within the Great Thunder Palace, there existed a mysterious passage, which could lead to the place where the Thunder Emperor's legacy was at!

After seeing it, Yang Yidao suddenly understood: "I felt that it was strange. Within the Great Thunder Palace, how could there be nothing? So there was actually another cosmos!"

At once, his icy cold gaze was shot toward Gang Dalei: "Hand them over!"

Gang Dalei forced a smile: "What you have seen is what I have seen. I have no idea who had beat me to here first."

"Humph! This is the first time that the Great Thunder Palace had opened. Apart from you, there isn't a second person who knows about this place. If you are unwilling to hand it over, I shall take it by myself!" Yang Yidao's imposing manner was piercingly cold, and he attacked abruptly!

Gang Dalei wanted to cry, but he had no tears. Not only did he not acquire the legacy, he was forced to die at a corner.

"You are too much!" Gang Dalei was filled with grief, and he became furious. He had also felt that he had been inconvenienced!

The light shadow surrounding his body vanished into thin air, and he revealed his real body!

Yang Yidao was shocked: "A flood dragon of the Yi clan? No wonder I felt an inhuman aura from you. So, you are actually a flood dragon?!"

His eyes glowed with a tiny bit of excitement abruptly: "Seems like I have gained something again. It is rumored that it is common for flood dragons to have weak bloodlines of the Real Dragon. With your blood, I might be able to sense the whereabouts of the Real Dragon. Hence, if I can obtain the

items that are handed down by the Real Dragon, those gains will not be less valuable than the legacy of the Thunder Emperor!”

Real Dragon? Su Yu was shocked.

His task of helping Gang Dalei to find the Thunder Herbs was already completed. His next task was to find a few ingredients to cure his eyes. He had already obtained the Undead Herb of the Netherworld, and he only lacked the Blood of a Real Dragon, as well as the Lightning Avoiding Silver Pearl.

With the combination of the three ingredients into a final product, a kind of Devil Destroying Silver Eyes could be cultivated successfully. Hence, he would then use the Devil Destroying Silver Eyes to resolve the injuries of the Heavenly Wrath, so that his eyes could recover. If Gang Dalei could sense the whereabouts of the Real Dragon, wouldn't he have the whereabouts of the Blood of the Real Dragon already?

Within the secret room, Yang Yidao laughed disdainfully: “I am someone, who had attempted to make a breakthrough to the Fairy Realm. Although I have failed, among the Half Gods, no one can compete with me, in terms of abilities.”

“Just give up!”

After his speech, Yang Yidao thrust out a palm casually toward Gang Dalei's twenty Chinese feet tall giant body. With a loud shout, a great strength burst forth from Gang Dalei's body, and he attacked with his two fists.

With a flapping sound, Gang Dalei retreated slowly. After that, he crashed into the light membrane with a great force, and his face turned red.

Looking at Yang Yidao instead, his eyes were filled with contempt: “Humph, you are nothing much more than this!”

After his speech, he took a big stride, and headed toward Gang Dalei for the last time. His eyes were glowing with murderous intents. Gang Dalei was in danger!

There were no other ways to escape from his current location. Hence, how could he escape?

However, all of a sudden, Gang Dalei could be seen taking out his pure white jade plate from his chest. He then inserted blood into the jade plate crazily. With a cracking sound, the jade plate exploded on the spot.

However, with that, Gang Dalei disappeared out of thin air as well! When he appeared again, he appeared at a ravine, which was far away from the Great Thunder Palace. He had a pale expression, and his expression also indicated that he survived from a disaster: “Luckily, I have Qin Jiuyang's curse technique. By putting a puppet as a substitute here in advance, I was able to escape in the nick of time.”

It seemed that, previously, he had left the Thunder Emperor Mountain solely for the sake of finding a secret place to plant a spell for him to escape. The spell had indeed saved his life.

After that, Gang Dalei forced a smile: “I did not manage to find a single one of the items that the old bastard needed. After returning, how do I answer to him?”

After muttering to himself for a long time, Gang Dalei sighed: “Seems like I can only place my final hopes on the Exchange Festival. If my luck is extremely good, I might be able to exchange for Thunder Herbs from someone else.”

“However, the price will definitely be huge. Hence, I need to take some risks and check out that place!”

After his speech, his figure disappeared quickly.

Within the secret room, one of Yang Yidao’s hands was holding a scarecrow, and his whole face was gloomy: “Curse technique! Humph! I have actually allowed you to escape!”

After giving a furious hum, Yang Yidao left immediately, and he looked for Gang Dalei hastily. For safety purposes, Su Yu, who had witnessed everything, felt that he should just stay behind and wait for Yang Yidao to leave.

As a Half God, who had failed in making a breakthrough to the Fairy Realm, his abilities should be just below the Fairy Realm! It would really be unwise if he were to go out and go head to head with Yang Yidao.

After thinking for some time, Su Yu took out a jade box. What the jade box contained were the seeds of the Thunder Herb! There were a total of ten of them!

If those seeds were planted in the outside world, it would more or less be impossible for them to grow. However, in Su Yu’s hands, that might not be the case.

Filled with a tiny bit of anticipation, Su Yu’s soul entered the Nine Jade Spiritual Pearl, and he came before the nursery. Su Yu made up his mind, and made a clean sweep of the weeds within the nursery. A pile of glittering soil was then revealed!

That was the Supreme Growing Soil, where even a single grain of it could not be obtained easily, even if a great wealth were exchanged for it. According to what the fox had said, the Supreme Growing Soil was a valuable earth-based treasure, and any kind of plants could be planted there!

It was unknown what kind of magical changes there would be after planting the seeds of the Thunder Herb!

Chapter 476: Battling Yang Yidao

This person had masked his aura, making him appear as an ordinary human. His eyes were cold and sharp as blades, making them hard to look at.

This person was Yang Yidao, who was supposed to be going after Gang Dalei! He had not stepped out of the Great Thunder Hall but instead hid just for this moment.

“I had faintly sensed someone observing us from outside the barrier back at the secret chamber,” said Yang Yidao, his tone surprised as he observed Su Yu.

“Combined with what Gang Dalei said, I thought the legacy of the Thunder Emperor would be obtained by someone who came earlier. I had thought that it was the lad using the curse techniques. After all, his abilities are decent, and his techniques are rather weird. But I did not expect that person to be the weakest of the three wandering cultivators, you! This is truly unexpected!”

Su Yu was surprised. This person had such strong levels of perception. He truly lived up to his reputation as a top-notch Half God who had failed to break through to the Fairy Realm. He had a level of perception not seen in an ordinary Half God.

Also, he was a very conniving person. He had clearly noticed Su Yu's presence but had feigned ignorance, purposefully acting as if he was going after Gang Dalei. In reality, he had hidden in the Great Thunder Hall and waited for Su Yu to show himself! Now that it had come to this, words were useless. All that was left for Su Yu to do was to engage in battle.

Seeing Su Yu adopt his battle stance, Yang Yidao had a faint smile. "Are you not planning to beg for your life? I can spare you if you hand over the legacy of the Thunder Emperor."

Su Yu said calmly, "Is that so? Would you let someone who knows about the legacy of the Thunder Emperor live?"

The legacy of the Thunder Emperor was no trivial matter. Once news of it spread, Yang Yidao would surely be confronted. Even if he could get out of here alive, the legacy would naturally belong to his faction. He could never hope to claim it for himself. Thus, whether Su Yu cooperated or not, he was not going to escape the fate of being killed.

"You are quite intelligent, but all that awaits you is death," said Yang Yidao in a mocking tone.

Su Yu remained silent, forming seals with one hand and taking out the Nine Yin Yang Formation. At the same time, his Eternal Stone King Armor was ready to be activated.

Yang Yidao observed the Nine Yin Yang Formation, a little surprised. "An entire set of middle-grade divine artifacts. I would never have guessed that you would be able to obtain a decent set of divine artifacts despite your weak abilities. Don't worry—I'll keep them safe for you."

His index and middle finger formed the silhouette of a sword. A sharp knife energy appeared, releasing a powerful spiritual pressure.

Su Yu wore no expression. Su Yu had not been able to retaliate against this knife energy before. He flicked his hand outward, sending the nine iron needles above his head. The iron needles rotated quickly. At the same time, a golden glow appeared in Su Yu's palms. The Golden Scale Dagger appeared in his palm.

Yang Yidao had a smile of disdain, slicing down with his fingers. At that moment, the knife energy rumbled as it struck. Su Yu felt the killing intent assault him. His blood and energy circulation accelerated around his body as he was put under immense pressure.

But Su Yu remained collected, slicing with the Golden Scale Dagger without hesitation. With a clank, the formless knife energy released a sound of metal on metal as it collided with the Golden Scale Dagger!

Su Yu was hit hard, his wrist jolted with pain. He nearly dropped the Golden Scale Dagger in his hand. But that knife energy did not stop. It continued its assault on Su Yu!

At the critical moment, a green glow flashed on the bronze mask on Su Yu's face. His entire being vanished. All that was left was the mask floating in the air, as well as the nine needles rotating above it.

With a clank, the mask was sent flying by the knife energy but did not receive any damage. When the mask stabilized, it glowed as Su Yu's figure appeared once again.

Yang Yidao was a little surprised. "The Eternal Mask? Space artifacts are naturally rare. I have to say, I have never had the artifacts you have on you now."

Su Yu remained expressionless. "You talk too much!"

After saying this, he immediately activated the Nine Yin Yang Formation. The rotating needles turned into multiple afterimages and surrounded Yang Yidao. He was surprised at first, but then let out a cold smile. "Any treasures are useless if the abilities of the person using them are too weak."

He did not move, allowing the Nine Yin Yang Formation to surround him. A ghostly glow flashed on the black ring on his finger. A dark blue, curved knife appeared in his palm. The curved knife was like the moon, radiating a cold glow. It was more overbearing than the knife energy just now!

Su Yu was cautious. The blue curved knife was dangerous.

"Ice Seal!"

Yang Yidao was not afraid of the Nine Yin Yang Formation attacking him, slicing sideways with the blue curved knife.

Clank, clank, clank—

Crisps sounds of contact could be heard as the nine iron needles were sent flying. The Nine Yin Yang Formation had been dispelled! Yang Yidao was unbelievably powerful!

Yang Yidao let out a cold grunt. "Any other techniques? If not, it ends here."

But Su Yu had already taken out a purple umbrella, slowly pushing it open.

At that moment, a ball of purple light fell on an area of a 100-zhang radius. The surroundings suddenly turned into a furnace, burning with an alarming purple flame.

Yang Yidao was caught off guard, instantly devoured by the terrifying fire. His white robes burst into flames!

"Xue Gui's Purple Sun Incredible Umbrella!" Yang Yidao said, astonished. "Why is it in your hands?"

Su Yu calmly replied, "I snatched it from him!"

After he said this, he activated the Purple Sun Incredible Umbrella to its full power! But Yang Yidao was not afraid. Instead, he had a mocking look in his eyes.

"As I already, the artifacts are not bad," said Yang Yidao, "but their owner is too weak! Die!"

Yang Yidao suddenly let out a furious shout, infusing a large amount of spirit energy into the blue curved knife. The curved knife released a blue glow, illuminating a large section of the horizon.

A three-zhang wide blast of knife energy swept across the surroundings with an overbearing power. Tornadoes formed as the knife energy passed. The flames in the 100-zhang area were extinguished in the blink of an eye!

The Purple Sun Incredible Umbrella had also been countered! A single strike—one strike again!

Even a powerful fighter like Xue Ling did not dare face the Purple Sun Incredible Umbrella head-on. But Yang Yidao had countered it with one strike! He was even more powerful than Xue Ling!

Yang Yidao had a cold glare. “Well? What else do you have? Take them out. I’ll let you die without any grievances!” He looked like a god of war as he held his knife in battle.

Su Yu calmly put away his Purple Sun Incredible Umbrella. At the same time, he raised his hands and retracted the scattered Nine Yin Yang Formation. A yellow-green light glowed on his hand as an imperial jade seal carved with dragons and phoenixes appeared in his hands!

Streaks of lightning flowed within the seal, releasing a fearsome aura. The crystal of lightning origin in Su Yu’s body continually turned into the origin’s energy as it entered the Five Elemental Strong Thunder Seal.

A yellow-green light shot into the sky, suddenly exploding, covering Su Yu’s face with a mysterious glow.

“If you wish to try me,” said Su Yu, “I shall grant you your wish.”

Yang Yidao’s cold smile gradually turned grave. His expression morphed into shock!

“Disastrous Thunder!” he said, his voice trembling with fear.

Chapter 477: Fusion Of The Origins

Yang Yidao, who had failed to make a breakthrough to the Fairy Realm, was shocked, and was extremely sensitive to the disastrous thunder. Seeing that the disastrous thunder was overflowing with tiny bits of disastrous thunder, Yang Yidao’s heart sank abruptly.

As Yang Yidao was trembling with fear, he weaved signs with one hand instinctively, and the five balls of different colors flew out from the ring on his finger. Among the five balls, the purple ball flew in front of him and shielded him. When Yang Yidao inserted spiritual energy into the purple ball wildly, a purple light beam appeared and enshrouded him.

It was the Dry Cloud Five Elemental Formation. The formation required five persons to activate it at the same time. Hence, although the Dry Cloud Five Elemental Formation was strong, it was unable to be fully activated, and only one ball of it could be activated.

Su Yu had a calm expression, and he activated the Five Elemental Strong Thunder Seal continuously, without stopping. With a sound of the air trembling, a charm created from thunderbolts flew out from the Five Elemental Strong Thunder Seal.

The charm had the shape of a dragon, and it was only of the size of a palm. When looked at from afar, it looked like a small, nimble, and invisible five-colored dragon. However, what was different, was that the power of the disastrous thunder within the thunderbolts had made everyone feel uneasy.

“Go!” Su Yu’s cold eyes looked on scornfully, and he gave a light shout. The five-colored small dragon then changed into a five-colored fragmentary shadow, and attacked.

Yang Yidao only had time to swing his knife once, and the dragon-shaped charm was shot to ten Chinese feet within him. The frightening knife energy, which could cut everything, appeared again!

The knife, which had sent the Nine Yin-Yang Formation and Purple Sun Incredible Umbrella flying easily, slashed the dragon-shaped charm. The charm could then be seen glowing, and it resisted the slash. A weak sound of dragon roaring could be heard from the charm, and it crashed into the purple light beam with a sudden bang.

Crack—

A fine cracking sound spread widely to Yang Yidao's ears, and a voice, which made everyone feel extremely terrified, could be heard. Close and numerous cracks could be seen appearing on the purple light beam. After that, with a sound of something falling onto the ground, the purple light beam was shattered into pieces!

Although the disastrous thunder charm became fifty percent dimmer, half of the power of the thunderbolts was still present. The dragon-shaped charm no longer had any obstructions, and it landed on Yang Yidao's body with a bang!

With a rumbling loud sound of thunderbolts resounding in all quarters, the remaining half thunderbolt charm burst open completely. The light of the thunder glowed, and a destructive aura spread toward all directions.

Yang Yidao was drowned within the charm, and his body was swallowed by the light of the thunder. A one-mile vicinity was enshrouded by five colors in an instant, and it was difficult to look straight at it. After some time, when everything vanished completely, on the ground that Yang Yidao was originally at, a giant hole with a diameter of thirty Chinese feet had formed.

As for Yang Yidao himself, his protective spiritual energy was torn into pieces, and his clothes were torn open, with many small openings. His flesh looked blurry, and his blood filled the ground, as it flowed along his legs.

His palm, which was holding the Blue Moon Curved Knife, shook slightly, which showed that his body was injured. However, the most frightening thing was that his right hand had the most serious injury, as it was the hand that was holding the Blue Moon Curved Knife to block the thunderbolt.

His whole arm had almost turned into mincemeat. Moreover, his index finger and middle finger were nowhere to be seen. The attack had almost taken the life of Yang Yidao.

If not for him having the ball of the Dry Cloud Five Elemental Formation to reduce fifty percent of the power of the attack, he would have already died at that very moment.

As such, he had only suffered some injuries that still were not at all light. His eyes were filled with happiness, which indicated that he had survived a disaster. However, his eyes were also filled with hatred that was deeper than the sea.

As he was spitting out blood from his mouth, he had overwhelming murderous energy: "Good! Good! Good! Having trained up till this very moment, this is the first time that someone has injured me to this extent. Even if you die, you can be proud of yourself!"

Su Yu's expression turned slightly serious. He was still not dead, even after that?

Even with a semi-manufactured spiritual artifact, he was still able to survive. How strong was that?!

According to Su Yu's calculations, even if it were Xue Ling, who had the body of the Fairy Realm, it would be impossible for him to survive. As for Yang Yidao, a Half God, who tried to make a

breakthrough to the Fairy Realm, his abilities were totally different from normal Half Gods. He was so powerful, that it exceeded Su Yu's expectations.

Yang Yidao could be seen giving a ferocious shout, and he took out a bottle of elixir from his chest. After taking a look at it, Su Yu's pupils shrank: "Flesh Regeneration Elixir!"

Su Yu remembered the elixir extremely well. It could heal the injuries of people who were wounded or disabled! After raising his head and drinking the elixir completely, Yang Yidao's broken fingers grew out again with shocking speed. His injuries were also completely healed in the blink of an eye!

Su Yu was shocked. Even if it were the Flesh Regeneration Elixir, it would require ten days to half a month's time to treat the injuries and disabilities. Hence, how nature-defying was the fast and relaxing recovery, which had just occurred in front of him? Didn't that mean that, as long as Yang Yidao was still breathing, he would be undefeated?

"I have used my lifetime's savings to exchange for this Flesh Spiritual Elixir, before entering the Mysterious Heavenly Divine Pavilion, so that I will be prepared for all contingencies, such as being injured by strong enemies. However, unexpectedly, I did not come across strong enemies, and I was heavily injured by you, instead!" Yang Yidao's every word and sentence was filled with deep hatred, that was now leaking out.

"So, you can die now!!"

Yang Yidao could be seen taking a deep breath. After that, his temperament changed abruptly. Within the abundant and majestic spiritual energy, the fluctuation of vital energy actually appeared!

"Humph, although I have failed to make a breakthrough to the Fairy Realm, among the three Spiritual Energy Crystals, one had already turned into a Vital Energy Crystal! I have actually concealed it up till this very moment, with the intention of surprising strong enemies. However, I did not expect to use it on you!"

That was Yang Yidao's greatest card! He had actually hidden the fact that he had stepped into the ranks of the Fairy Realm, and had become a strong martial artist of Half Fairy!!

"Die!" Yang Yidao's eyes moved as fast as lightning, and he inserted vital energy into the Blue Moon Curved Knife that was on his palm!

The Blue Moon Curved Knife could then be seen emitting an unprecedented amount of blue light. After that, a lump of frightening knife energy, which could steal the souls of people away, burst forth like a tsunami.

At once, Su Yu felt a great spiritual pressure. He started to breath rapidly, and his expression gradually became serious. For a magical treasure that was inserted with vital energy, would its power only increase by double?

Yang Yidao caused Su Yu to feel extremely fearful all of the sudden. If it were that Xue Ling, who went head to head with Yang Yidao, he might not be Yang Yidao's opponent as well! Yang Yidao's powerfulness had exceeded Su Yu's expectation.

“Three Heaven Questioning Patterns!” An unprecedented swift and fierce divine light burst from Yang Yidao’s eyes, and he swept his eyes past the area.

The long sword on his hands then ripped out a frightening knife energy that was a thousand Chinese feet long. The giant and transparent shadow of the knife looked as if it wanted to split the horizon into half.

Su Yu felt a dangerous feeling, which signified that he could die at any moment! Without thinking, Su Yu weaved signs with both his hands. He activated the Five Elemental Strong Thunder Seal forcefully, and created a thunderbolt charm.

As the disastrous thunder was used previously, the disastrous thunder that was created this time around was only half of that of the first time! However, even if it were just half, it was more than enough to injure Yang Yidao fatally again!

Rumble—

The thousand Chinese feet knife energy swept across the area and headed toward Su Yu. With a whooshing sound, the dragon-shaped charm burst into five-colored thunder arcs on the spot, and they were exterminated by the knife energy, without leaving even a tiny bit of it!

Upon seeing that, Su Yu’s pupils shrank abruptly and his heart sank vigorously! The attack of a Half Fairy was extremely frightening!

Su Yu weaved signs with one hand and a layer of black-colored armor appeared. At the same time, spiritual energy surged within his body wildly, to create a spiritual armor to protect him.

With the Eternal Stone King Armor, Su Yu felt a lot more at ease at once. However, Su Yu felt icy cold at the giant opening at the chest area.

Instinct told Su Yu that he would still die from the knife attack! Su Yu’s eyes glowed with coldness. In this critical moment, Su Yu was determined. He could only try that move.

Su Yu reacted, and three different colors appeared on Su Yu’s body surface. Pale color, reddish green color, as well as five colors. It was the three Origins: ice, fire and thunder!

The three Origins appeared together, and became three small balls of Origins, which spiraled at the center of Su Yu’s palms. Every Origin possessed a great power. If they were to explode, even Su Yu himself would suffer some injuries that were not light, and he might even perish on the spot.

However, at that very moment, Su Yu did an extremely dangerous thing! He actually brought the three Origins closer to one another, gradually! Not mentioning the violent Thunderbolt Origin, the Ice Origin and Fire Origin were Origins which could offset one another!

Even if they touched each other slightly, there was a very high possibility of them causing an explosion! If two Origins were to explode at the same time, apart from Su Yu’s body being blown into smithereens, there were no other possibilities!

However, at the moment where the Ice Origin and Fire Origin were about to come into contact with one another, Su Yu took action, and inserted the Thunderbolt Origin between them abruptly. The Thunderbolt Origin had blocked both the Ice Origin and Fire Origin by being in between them.

The three balls of Origins then came together, into one, at once! Looking at it, it looked like a Buddha Pearl with three colors.

At the instant where the Thunderbolt Origin came into contact with the Ice Origin and Fire Origin, they would all become one. Suddenly, the three balls of Origins became dimmer, and tiny bits of black-colored cracks appeared on the balls. Tiny bits of destructive aura were then emitted in torrents!

Su Yu's expression turned serious: "Not good! The fusion has failed!"

Feeling that the three Origins were about to explode, Su Yu had an extremely unpleasant expression. He had originally planned to fuse the Origins and create a completely new move.

However, looking at it at the very moment, the fusion of the Origins was harder than expected. At the very moment, since the fusion had failed, the three Origins would explode!

That kind of power was enough to wipe out his body and soul completely! Su Yu's heart then beat extremely fast, and his pupils shrank, until they became tiny as a thread!

Yang Yidao, whose whole face was filled with murderous intents, also felt that various kinds of violent Origins were about to explode. When he took a look at it, he could not help but be astonished: "You are crazy! Fusing Origins. Do you wish to commit suicide?"

His face revealed a fearful expression, his eyelids were twitching wildly, and he looked extremely shocked. It was to the extent that he was more terrified at the very moment, compared to the moment where he saw the disastrous thunder!

"It is already extremely scary to fuse Origins, let alone three kinds of Origins! What a lunatic!" Yang Yidao was both furious and frightened. He withdrew his knife, which was about slash Su Yu, without hesitation, turned around, and ran away from the range of the explosion quickly!

Chapter 478: Horrifying Power

At this moment, more black cracks were forming on the surface of the three origins. The three origins were almost completely black at this point, radiating a destructive power! They were on the brink of exploding!

Su Yu had a look of caution. Without thinking, he tossed the origins that were about to explode toward Yang Yidao. The bronze mask on his face glowed as Su Yu hid himself in the space within the mask. He also released spirit energy around his body to protect himself, despite already wearing the Eternal Stone King Armor.

Yang Yidao was immensely fearful when he saw the pitch black origin flying toward him. Without any other means to defend himself, all he could do was inject his vital energy into the purple orb.

With vital energy infused, the pillar of light that shot out from the orb became even more powerful. It was probably able to defend against an attack from a fighter from the Fairy Realm.

Just as the two finished using their defensive techniques, the three pitch black origin exploded. It shrunk to the size of a pea, then suddenly expanded to 10,000 times its original size, spanning ten miles!

The destructive power of the ice, fire, and thunder origins became a ten-mile long mushroom cloud, resulting in a violent explosion. Unstoppable, destructive power spread outward, destroying everything within a ten-mile radius and turning the ground to ash as the black mushroom cloud passed.

For 100 miles, the earth trembled, and even 1,000 miles away, the ground lightly shuddered.

This ripple of destruction shook every corner of the seventh level of the Divine Pavilion. In the stone forest, the hundred-odd people who were engaged in combat all felt the trembles, stopping all at once with looks of surprise on their faces.

“Was that... a strike from a Fairy Realm fighter?”

Sheng Ge watched the humans fight against each other with a faint smile, but her smile disappeared, replaced by a look of shock. She looked gravely in Su Yu’s direction. “What a powerful destructive aura. When did another Fairy Realm monster enter the Mysterious Heavenly Divine Pavilion?” With a flicker in her eyes, she said decisively, “We wait no longer. Our plans might be disrupted! There is an unexpected danger within the Mysterious Heavenly Divine Pavilion!”

After saying this, she led the Four Great Ancient Clans and joined the battle within the stone forest.

At the same time, Ghost King Bai Qi, who was sitting cross-legged atop a mountain, suddenly woke. He gazed in Su Yu’s direction with a serious glow in his eyes. “What a powerful ripple! Which powerful fighter struck?”

At this moment, the elder within the painting in his sleeves had the same serious look. “Incredible... I caught a whiff of several intertwining origins. Was this resulting explosion of fusing origins? If that is the case, it is unreal. While origins are not considered rare in Jiuzhou, not many have two or more origins at the same time. Even if five different people with different origins were to band together and unleash this attack, it should not reach such a power level. What is going on here?”

Su Yu and Yang Yidao were at the epicenter of the alarming explosion.

The area within a ten-mile radius had been leveled. All that could be seen was boundless, charred earth. Even the Thunder Emperor Mountain that had existed for an eternity was completely destroyed, having crumbled into stones floating in the air.

As for Yang Yidao, his body was charred like charcoal. Other than his white teeth, his entire body had become a black char. The Blue Moon Curved Knife in his hand had shattered. Even a top-notch middle-grade artifact had been completely destroyed!

Yang Yidao only had a single breath of life left within him. Even opening his eyes took too much effort.

He wore a look of fear. The explosion from fusing three origins was 100 times more powerful than he had imagined! He was almost instantly killed by the explosion. Unless someone came to save him, he was going to die here. But, looking at his surroundings, he saw he was the only one here. The initiator of the attack, Su Yu, had died by his own creation. Yang Yidao found a little solace in that fact.

Creak—

But at this moment, there was a ripple from the ruins.

It was a bronze mask on the brink of shattering. The right eye of the mask had been completely obliterated. It flew shakily as its green light dulled. With a creak, a figure in black armor dropped out from within. It was Su Yu!

He wasn't dead, but he was not far from it! He was pale as a sheet and did not have any spirit energy left within him. Blood flowed from his body under the armor, dyeing half his body red. Almost all of his energy channels had been severed. The two crystals of spirit energy in his dantian were on the verge of crumbling! If they crumbled, his cultivation level would be destroyed! He had also suffered multiple fractures—some of his bones reduced to dust.

At this moment, Su Yu lay on the floor, unable to move. He was not much better off than Yang Yidao.

Su Yu let out a bitter laugh. He had not anticipated that the fusing of his origins would be so incredibly horrifying! Even he, the person using the ability, had nearly been killed!

The Eternal Mask had been destroyed, and multiple cracks formed on the cavity on the chest plate of the Eternal Stone King Armor from the huge impact. It was only because the Eternal Stone King Armor had defended against 99 percent of the impact that Su Yu had not died immediately.

Still chuckling, Su Yu took out a bottle of elixir from the Cosmos Mirror. It was the Frost Moon Dew Pill that Phoenix Master Qiu had given him. It could replenish his spirit energy. He had never used it before, but it was finally time for it to save his life.

His fingers moved with difficulty as he took out a pill and placed it in his mouth. Even this simple task took all of Su Yu's energy. He was in grave pain, sweat dripping down his forehead. But the pill rapidly turned into spirit energy upon entering the body, nourishing the shattering spirit energy crystal. With this quick fix, he temporarily avoided the fate of having his cultivation level destroyed!

The spirit energy nourished his severed energy channels and bones, slowly treating his injuries. He was no longer in any mortal danger.

It was only a matter of time before he fully recovered, but the phenomenon coming from this area would undoubtedly invite the attention of many.

After regaining his movement, Su Yu limped toward Yang Yidao. He took out his Golden Scale Dagger and mercilessly sliced his heart, ending the last of his life force.

Su Yu was about to leave when he stepped on a hard object. Looking down, he saw that it was the black ring from Yang Yidao's finger!

Su Yu was excited. It was a space treasure!

It was not the first time Yang Yidao had used this treasure. The storage device of a Half Fairy undoubtedly contained many things. The Dry Cloud Five Elemental Formation was enough for Su Yu to be excited about!

Scanning his surroundings, Su Yu found the dull purple orb nearby. He then quickly left the area. But at this moment, two figures were rapidly flying over.

Su Yu looked up. His expression changed drastically. The people flying over were on high alert, their countenances grim.

Chapter 479: Disciple of the Demon Faction

Within Su Yu's field of vision, two female figures were flying toward his direction speedily. One of them had a petite figure. She was as delicate as a spirit, and was unusually adorable. Who else could it be besides Qin Xianer?

As for the other person, she was cold and arrogant. Her expression was chilly yet graceful. It was Long Wuxin!

However, at the very moment, the two of them had uneasy and anxious expressions. Their bodies were weak as well. In particular, Long Wuxin also had some injuries on her body. It looked like they had realized the shocking activities at Su Yu's location, and they flew over to avoid some kind of danger.

Su Yu had already known about Long Wuxin's abilities a long time ago. If she unsealed her ancient small box completely, she would no doubt become the strongest female martial artist of the current generation of the Zhenlong continent. Moreover, she might even be able to go head to head with Xue Ling.

However, even a strong person like her was in dire straits! Hence, it could be seen that the person pursuing them was unusually frightening! Perhaps it might be another strong martial artist of Half Fairy, like Yang Yidao.

Su Yu's expression changed slightly, and he wore the broken mask on his face again. Although the mask was broken, it could cover more than half of his face. Even though a part of his eyes would be exposed, it would still be extremely difficult to ascertain his identity.

"Ah! Brother Black Snow!" Qin Xianer saw the red-haired, white-shirted figure from afar, and recognized that it was Su Yu. Hence, she could not help but be overjoyed.

Looking at Long Wuxin instead, she was first surprised. After that, she was delighted, and then she became suspicious of the condition of Su Yu's location. Lastly, her expression turned slightly serious: "We should not have come here! We would implicate Mister Black Snow, even though he did not do anything."

While they were being pursued, they were still hundreds of miles away, when they heard the earth-shaking trembling sound. Hence, they thought that it was someone strong, and they wanted to either ask for his assistance or transfer the trouble over to him. To one's surprise, who they saw was Su Yu, whose whole body was fatally injured, and his injuries were even worse than theirs.

"Xianer, Miss Long, what happened?" Since things had become like this, it was impossible for him to abandon Xianer, who was in danger, and to not care about her.

Long Wuxin said hurriedly: "Leave hastily, and don't stop. He will catch up to us quickly!"

Eh? Su Yu's serious eyes looked behind them. Even though the horizon was vast, open, and spacious, Su Yu was sharp, and he sensed that a shocking aura was approaching them continuously!

“What a strong aura...” Even though his person had not arrived yet, his aura had arrived already. Hence, this person must be unusually frightening.

Yang Yidao had never given Su Yu such an oppressive feeling. Exactly who was the person who was coming?

However, without any time to think deeply, Su Yu weaved signs with one hand, and exhibited a move at his location.

Long Wuxin revealed a tiny bit of an anxious expression: “Leave quickly, don’t waste time. The other party’s movement technique is extremely frightening. If there is even a delay...”

Her words ceased abruptly, and she looked shockingly at Su Yu, who took out a ten inches long warship model from his chest. As Su Yu weaved signs with one hand, the warship expanded, while facing the wind, and became a giant warship, which was a thousand Chinese feet big, in the blink of an eye!

“Get up quickly!” As Long Wuxin was staring tongue-tied, Su Yu leapt onto the warship and inserted spiritual energy into the compass quickly.

Long Wuxin regained her senses, and wore a shocked expression: “Semi-manufactured spiritual artifact!!”

She could not imagine what kind of great opportunity Su Yu had come across, such that he had managed to obtain a semi-manufactured spiritual artifact! After the both of them flew up, Qin Xianer was surprised. After that, she wore a worried frown, and she was anxious as well.

After taking a glance at her, Su Yu revealed a loving expression and activated the warship without hesitation. With a whizzing sound, the warship pierced through the bright sky. Its speed had already achieved the level of the Fairy Realm!

Previously, if Su Yu had the opportunity to activate the flying ship, it would be impossible for Yang Yidao to catch up to him. However, it was a pity that they were in an intense fight, and Su Yu had totally no time to activate the flying ship.

“The speed of the Fairy Realm! What a shocking warship! Mister Black Snow, your harvest this time around is so great, that it makes us feel envious of you.”

Long Wuxin could not conceal her own enviousness in the slightest bit, and as she spoke, she heaved a sigh of relief as well. With such a speed, even if it were that pursuer, it should still be difficult for him to catch up.

“Miss Long, who is pursuing both of you, and how are his abilities?” Su Yu questioned, without even turning back.

At once, Long Wuxin’s expression turned serious, and she was a bit furious: “It’s a demonic technique-based martial artist! He is extremely strong! From what I felt, he probably already possesses the abilities of the Fairy Realm. However, he used some kind of secret technique, and managed to stay in the Mysterious Heavenly Divine Pavilion!”

The abilities of the Fairy Realm? Su Yu’s expression turned grave.

As Long Wuxin was the daughter of the Alliance Master of the Heavenly Law Alliance, she had extraordinary experiences, and there was a high chance that her words were not fake. However, what caused Su Yu to be serious was that, even if it were the frightening fighting capabilities that Yang Yidao possessed, there was still no right to say that he possessed the fighting capabilities of the Fairy Realm. At the very best, it was at the level of Half Fairy.

Hence, who exactly was that demonic technique-based pursuer?

Qin Xianer also clenched her small fists resentfully: “Humph! That bad guy is too much. I have heard that he is a disciple outside the Sanctum of the Soul Seizing Palace, and that he had pursued Sister Wuxin and myself for a few days and nights.”

A disciple outside the Sanctum of the Soul Seizing Palace? Su Yu’s heart sank. Not good!

If he did not remember wrongly, Yu Chan had said before that two teams of people from the Soul Seizing Palace had entered the Mysterious Heavenly Divine Pavilion. One of the teams had Xue Ling as its leader, and he led the ship of people to the Corpse Grassland, where they clashed with Su Yu and his group of people.

As for the other team, there was only one person. That person was the disciple outside the Sanctum, who was ranked number ten in the Soul Seizing Palace. According to Yu Chan’s words, they still had a small chance of escaping, even though they came across Xue Ling and his group of people. However, if they were to come across that disciple outside the Sanctum, they would definitely die.

There was no doubt that Xue Ling and his group of people were strong, and Su Yu almost had perished in their hands. Moreover, in addition to a strong person like Xue Ling, there were still six more Half Gods, and over a hundred Human Kings among them. However, they still could not be compared to that one disciple outside the Sanctum!

If it were said that the disciple outside the Sanctum had the abilities of the Fairy Realm, Su Yu would not find it suspicious. What caused Su Yu to feel uneasy was that, if the warship contained the blood of that disciple outside the Sanctum, as long as he was within the range, he might be able to control the warship, and prevent Su Yu and his group of people from escaping!

At that very moment, as if it were verifying Su Yu’s uneasiness, the warship shook vigorously, and there were faint signs of it being out of control. Another person was competing with Su Yu to acquire the authority to control the warship!

His heart beat extremely fast, so much that it almost jumped out of his throat, and his expression turned serious at once. He then fed spiritual energy into the warship crazily. After that, the warship’s speed rose quickly. After leaving the range, the warship stabilized, and it was freed from the control of another person.

However, after a moment, signs of unstableness appeared on the warship again, and it was worse than moments ago! Su Yu was astonished, and he turned his head subconsciously to take a look. What caused him to shudder with fear, was that a black-clothed figure had appeared at some point in time in the horizon! Although his face could not be seen clearly, he could actually catch up to the warship, which had the speed of the Fairy Realm!

Su Yu was unable to describe the shock within his heart. As his eyes brightened up, he took out a few Frost Moon Dew Pills and held them on his palm. After raising his mouth and swallowing one, he acquired a huge amount of spiritual energy, which he fed to the compass crazily.

With a buzzing sound, the warship's speed rose quickly again, and shook the other party off. After half a day, signs of the warship being controlled appeared again. The other party, who had clearly been shaken off, had caught up again!

As for Su Yu, who was short on spiritual energy, he had no choice but to swallow the Frost Moon Dew Pills and replenish his spiritual energy. Hence, this happened three times, and went on for three days and three nights. The other party was like a ghost, who pursued them closely, and was reluctant to let them go.

And now, the Frost Moon Dew Pills that Su Yu possessed were all used up!

Ten thousand miles away, the black-clothed figure, which had been shaken off far away, had a slightly pale and furious expression: "Damn it! Who is that? He has such a great amount of spiritual energy!" The black-clothed figure had short hair. His eye expression was as sharp, and his whole body emitted an indescribable frightening temperament.

"I was about to catch up with that Death Phoenix Body. However, an unknown strong martial artist actually appeared! Moreover, why is the Divine Flying Ship in his hands? Could it be that Xue Ling and those pieces of trash had met with mishaps?"

As he stood at his original position and looked at his black-colored jade bottle in his hands, which was now completely empty, his face glowed with a ferocious light, as well as a dissatisfied expression.

"If not for me being afraid of the rules of the Mysterious Heavenly Divine Pavilion, where I cannot reveal my cultivation base of the Fairy Realm, and the fact that I can only rely on elixirs to unleash my movement techniques, do they think that they can escape from my hands?" This person was a real strong martial artist of the Fairy Realm, just like the sloppy old man!

Previously, even though his cultivation base of the Fairy Realm was suppressed, he was still able to match the speed of the Fairy Realm, as he had used the power of the elixir. Thinking about it, the elixir should be extremely precious, as this person only possessed a bottle of it.

"I don't believe that all of you can escape from me!" With his face glowing with a dissatisfied expression, he followed the direction of the Divine Flying Ship and pursued them again.

...

"Seems like we have successfully shaken the other party off!" Long Wuxin stretched her arms and heaved a long sigh of relief. Her face then revealed a rare relaxed and joyful expression.

However, when she stretched her arms, her skirt stretched tautly, which caused her impressive figure to become plainly visible. In particular, her plump chest was portrayed vividly.

Su Yu took a glance subconsciously, and he could not help but be embarrassed. Su Yu also heaved a long sigh of relief. If Su Yu were to fight against a strong martial artist of the Fairy Realm at that

very moment, he had no chance of being victorious at all. Moreover, he was seriously injured, and it was impossible for him to fight with the strong martial artist of Fairy Realm!

After rushing for a few days continuously, his injuries relapsed, and he lacked spiritual energy as well. After holding out for half a day forcefully, Su Yu's figure finally swayed about, and he fell onto the ground.

The Divine Flying Ship had descended amidst a swamp. After Su Yu kept the Divine Flying Ship, the three of them went into a crevice of a cracked rock hurriedly. They then made the best use of their time inside to replenish their spiritual energy, and also to recuperate from their injuries.

After taking a look within himself once, Su Yu could not help but force a smile. Although his broken internal energy channels had reconnected, he still needed an extremely long time to recover completely.

Moreover, injuries, where his bones were broken into pieces, would definitely not take a turn for the better in a short amount of time. Hence, for the next half a month, Su Yu could not use his martial arts.

Suddenly, a fragrance came over amid the air. It was Long Wuxin, who approached Su Yu. Her fair and smooth palm was holding an extremely green elixir.

"This is very effective for internal injuries. It is manufactured by Phoenix Master Qiu, and it is not inferior to the Flesh Regeneration Elixir." Long Wuxin's snow-like eyes were crystal clear. She smiled and placed the elixir on Su Yu's palm.

At that very moment, Su Yu would definitely not be embarrassed. He raised his head and swallowed the elixir completely. At once, an extremely warm and comfortable energy filled his body. The energy spread toward all his limbs and bones, as well as to all the injuries within his body.

His injuries actually recovered, with a speed that could be perceived by a naked eye. Although it was not as powerful as Yang Yidao's Flesh Spiritual Elixir, it was definitely an elixir that was difficult to obtain in the human world!

It was also a lot stronger than the Flesh Regeneration Elixir, an ancient elixir that Han Jianglin had obtained! With its rate of healing speed, he would probably require about two to three days' time to recover fully.

Su Yu was filled with happiness. He knew how valuable the elixir was, and that it was most probably used to save one's life. Hence, there was a high possibility that Long Wuxin did not have much of it, and he could not help but be grateful: "Thank you Miss Long for your elixir!"

Long Wuxin did not mind, and her chilly face revealed a rare kind smile, which signified that she had good impressions of Su Yu: "You have rescued Xianer and me. Compared to that, what is just a mere elixir? Moreover, you and me are not considered as strangers."

Eh? Not considered as strangers? If Su Yu did not remember wrongly, it was the first time that Long Wuxin and he had a conversation together. Hence, how could they be familiar with one another?

However, as Su Yu looked at Long Wuxin's face, he faintly felt that it was a bit familiar. However, after thinking over and over again, Su Yu still could not remember.

Observing this, Long Wuxin said with a true yet fake smile: “Mister Black Snow, you have forgotten about Xin Wuhen so quickly?”

Xin Wuhen? Su Yu’s body reacted, and he suddenly thought of that beautiful woman, who had entered the seabed with him to look for the Undead Herb of the Netherworld. Su Yu then superimposed their figures onto one another continuously. Although they looked a bit different, it was indeed Xin Wuhen!

“It’s you!” Su Yu was extremely surprised. That time, the person who went to the seabed with him was actually Long Wuxin!

Back then, Su Yu had yet to make a breakthrough to the Heaven Master. With that kind of abilities, when compared to Long Wuxin’s real body, was the gap merely a thousand miles?

Long Wuxin smiled: “You have finally recognized me. That day, Mister Black Snow had escaped quickly. However, my imaginary body did not have that kind of ability to escape from the hands of the Ghost King.”

After hearing what was said, Su Yu’s expression turned slightly serious, and he could not help but take out the transparent cloak. He then laughed embarrassingly: “That day, I was swallowed by the Ghost King into his stomach, and I only managed to escape successfully by the skin of my teeth. Miss Long, I wished that I deserved your compliment. Since I have found the owner, this cloak shall be returned to you, its rightful owner.”

The invisible cloak had been of a great use to Su Yu. Hence, Su Yu was a bit reluctant to return it just like that.

“Haha, keep it with you. Since you are able to take it back from the hands of the enemies, I have no right ask for it!” she said.

After hearing what was said, Su Yu cupped his fists and thanked her. While the both of them were having a conversation, Su Yu’s expression turned grave abruptly: “Not good! He has caught up with us! We have clearly shaken him off by a million miles. How could he still catch up with us?”

Long Wuxin’s expression turned serious: “I have no idea what kind of secret technique this person is using. However, he seems to be able to sense our whereabouts!”

“Mister Black Snow, thank you for helping us along the way. Let’s split up from here onward. The people that he wants are the both of us, and this does not concern you. Please leave quickly!” Long Wuxin stood up, speaking sternly.

Is that so? Instead, Su Yu revealed a thinking expression. After muttering to himself for a long time, he looked at Qin Xianer in the end and said, “If both of you are able to trust me, please leave it to me!”

Chapter 480: Great Thunder Heart Technique

Hearing this, Long Wuxin was a little shocked. “Could Sir Black Snow have a treasure that can mask auras? If you are talking about the Cicada Cloaked Wings, I must dash your hopes. The concealment ability of that item is not considered top-notch. While it can deal with an ordinary Half God, I don’t think that it would be enough to fool that demon faction disciple.”

The Cicada Cloaked Wings were merely an ordinary middle-grade divine artifact. Their use was limited.

Su Yu shook his head. "If you can trust me, let down your guard. Let me take you to a place where your auras will be cut off from the world."

Long Wuxin considered. Even though she had been on the run with Su Yu for three full days, she had not once let down her guard. If Su Yu suddenly attacked her when she did, she might not have the time to react.

At this moment, Qin Xianer tugged on Su Yu's sleeve. She lifted her little head and nodded seriously. "Brother Black Snow, I trust you."

Afterward, she obediently shut her eyes, completely letting down her guard. Seeing this, Long Wuxin let out a sigh. All she could do now was trust the Black Snow Devil King. Judging by his attitude toward Qin Xianer, she doubted that he would harm them.

She slowly closed her eyes, extending her slender hand. "All right, I'm ready."

Su Yu did not hesitate. He transported them into the Nine Jade Spiritual Pearl with a mere thought. When the two of them opened their eyes again, they could not help but feel shocked.

Qin Xianer opened her eyes wide. "Oh! What is this place?"

Long Wuxin was confused at first, but the confusion turned to shock as she looked around. "Space treasure! To think that you are carrying such a huge space treasure with you!"

Looking back at Su Yu, Long Wuxin could not recover from her shock!

Su Yu said, "I hope that you can keep this a secret."

If news of this item leaked out, there would be trouble waiting for him back at the Zhenlong Continent. The only people that could threaten Su Yu on the Zhenlong Continent were the three Fairy Realm fighters, but to avoid trouble, he had to give the necessary instructions.

Long Wuxin collected herself, her expression turning serious. "You need not worry. I, Long Wuxin, would not use such underhanded means."

Qin Xianer also had a serious expression, nodding hard. "Agreed! I will not tell anyone. Not even Brother Su Yu."

Su Yu smiled. "The spirit energy in this place is rich. You can cultivate here. I'll release you when we leave the Mysterious Heavenly Divine Pavilion."

Long Wuxin was elated. "I couldn't ask for more! If this really is a space treasure, it should be undetectable from the outside world. It is a perfect place for us to rest and recuperate."

What was most important was that they would be able to digest the legacy they had gotten from the Fairy King Ruins. This way, Su Yu's soul exited the Nine Jade Spirit Pearl and returned to his original body. Without thinking, Su Yu formed seals with one hand and activated the Cicada Cloaked Wings, concealing himself and leaving the cave.

A cup of tea's time later, a figure of light descended upon this place. It was the outer sanctum disciple of the Soul Seizing Palace who pursued them! He had a doubtful expression. In his hand was a black rat anxiously pacing around his palm.

He raised his brows, incredibly frustrated. “Impossible! How did they do it? As long as that lady with the Death Phoenix Constitution is still in the Mysterious Heavenly Divine Pavilion, this Demon Spirit Rat would be able to sense her even if she was reduced to a corpse. Could they have used some secret technique to exit the Mysterious Heavenly Divine Pavilion? If not for that mystery person, the Death Phoenix Constitution would have already been mine! Darn it!”

Looking around and confirming that he had lost the Death Phoenix Constitution, he could only give up in frustration.

“Whatever,” he said. “I have already wasted too much time on this Death Phoenix Constitution. I won’t be able to make it to the Mysterious Heavenly Palace if I am any later. That place contains the true legacy of the Mysterious Heavenly Divine Palace.”

After saying this, he made his way toward the stone forest.

Su Yu had hidden in a deserted forest atop a mountain after he escaped from the marsh. He found a secluded spot, and after ascertaining that the demon faction disciple had not followed him here, Su Yu took out a black ring. The ring seemed to have been made from a black jewel, releasing a dark glow. This item had the same function as the Cosmos Mirror. It was an effective storage item!

With a thought, Su Yu easily sent his soul within. It was a space a zhang tall and wide. In comparison, the space within this storage equipment was ten times larger than the Cosmos Mirror! Furthermore, this storage equipment did not require refining. Su Yu could use it easily now that he had obtained it.

Looking over the items in the ring, there were many divine herbs and materials, as well as a few immortal-level techniques. There were also two middle-grade divine artifacts and multiple elixirs of different colors.

Su Yu glanced past most of them, his gaze falling on the remaining four orbs. Coupled with the purple orb he had acquired, he had successfully gathered the entire set of the Dry Cloud Five Elemental Formation! He had witnessed the terrifying defensive capabilities of this item. Now, this item was finally his.

Evaluating the item, there seemed to be a powerful imprint within it. It had not been refined using normal blood. Su Yu used his Soul Eyes to observe the orbs. There was a seal in each of the orbs! Each had been formed by someone’s soul. The normal method of cleansing an artifact would not be able to erase the soul imprints in the items.

This made Su Yu a little disappointed. It appeared he would have to gather five people to activate the formation. This artifact was useless to Su Yu, who was used to acting alone.

Thinking for a moment, Su Yu temporarily put away the formation as he continually flipped through the nine books left behind by the Thunder Emperor in his head. Previously, he had been in a hurry. Now, he finally had time to digest their contents.

A day later, Su Yu opened his eyes from his meditation. His eyes were filled with fatigue. He had spent a full day reading the nine books. He had committed the section about lightning-based materials to memory.

Of the nine books, the first three were the Thunder Emperor's understanding and explanation of lightning-based techniques. To Su Yu, whose lightning-based techniques were self-taught, it was truly a godsend. He had enjoyed reading it.

The fourth through the seventh books were the lightning-based techniques the Thunder Emperor had cultivated, and Su Yu did not go in-depth with these. The eighth book was about lightning-based materials, encompassing the entire world of Jiuzhou.

As for the ninth book, it was an introduction to the Five Elemental Strong Thunder Seal, and now, Su Yu finally understood just how precious it was! Each ingredient used for crafting the artifact could be used to create a high-grade spiritual artifact on its own. Its value was equal to the Eternal Stone King Armor.

The Thunder Emperor had obtained this item through fighting to the death with other Divine Masters. He had paid a hefty price of massive injuries to gain the materials. In the end, he only had time to fuse the lightning-based ingredients together and create a prototype before he died.

Su Yu was shocked beyond words to discover this and filled with anticipation about the further refinement of this prototype fairy artifact. According to the ninth book, there were three more steps needed to complete the prototype.

The second step was to temper the materials, completely refining the lightning-based materials in the Five Elemental Strong Thunder Seal, making it a half-manufactured fairy artifact. But a unique flame called the Cosmos Divine Flame was needed to successfully temper the artifacts. This flame was incredibly rare in the Jiuzhou continent. Only powerful martial artists above the level of Divine Master would have such a flame. It was unimaginably difficult to obtain such a flame!

A prototype fairy artifact already had incredible power. Just how powerful would it be if it was successfully tempered to become a half-manufactured fairy artifact? No matter what, Su Yu had to find the Cosmos Divine Flame if given a chance.

After understanding this, Su Yu finally started to read the books on the Thunder Emperor's techniques. The Thunder Emperor had devoted his life to lightning-based techniques. His abilities must have been extraordinary. Unfortunately, Su Yu did not find a technique suitable for him to cultivate, even after he finished reading the books.

There was a basic requirement for most of the Thunder Emperor's techniques. He had to at least reach the level of Divine Master. Even the weakest of the techniques called for the wielder to be at a late stage of the Fairy Realm. Only then could they withstand the overbearing lightning-based techniques!

Su Yu was disappointed! The Thunder Emperor would probably not have thought that his legacy would be passed on to a small fry who had not even reached the Fairy realm. But just as Su Yu was feeling disappointed, he discovered a technique in the last book.

“Great Thunder Heart Technique...”

It was a soul technique!

According to the book, after cultivating this technique, he could implant a lightning seal within the soul of an enemy as long as their soul strength was not greater than his. If the other party did not

obey him, he could ignite the lightning seal with a thought, no matter the distance, instantly destroying his enemy's soul.

Su Yu smiled. The benefits were obvious. This was a technique the Thunder Emperor had used in his youth to turn many people at the same level as him into his servants.

The requirements for cultivating this technique were not high. Firstly, one had to be adept at lightning-based techniques, at least to the point of origin. After that, the soul had to be sufficiently powerful, as the technique required the soul to be activated. If the wielder's soul was not strong enough, he would be injured by the lightning instead.

Hearing this, Su Yu was elated. This technique was tailor-made for him! In terms of soul strength, Su Yu could compete with a Fairy Realm fighter, and he had formed the lightning origin not long ago!

Suppressing his excitement, Su Yu patiently read on. When he reached the final technique, he smiled again. "Thunder Escape" was a secret movement technique, allowing one to turn into lightning and teleport 100,000 miles away. If the wielder expanded a large amount of lightning energy in an instant, he could teleport a million miles away. It was an ability used to escape restraints.

The requirements for this technique were simple; any fighter cultivating lightning-based techniques could use it. But reading on, Su Yu realized that with the lightning stored in his body, he could use this lightning-based secret technique to teleport 100,000 miles away—but only once! As for teleporting a million miles, it would be impossible for him.

"It sure is difficult to cultivate the techniques of the Thunder Emperor!" Su Yu licked his lips, excited to start cultivating the two techniques, especially the Great Thunder Heart Technique.

Su Yu concentrated on his cultivation for several days. At the same time, people were moving around the seventh level of the Divine Pavilion. Large groups were coming out of the ruins and converging on the stone forest.

At this moment, the stone forest was filled with corpses. People from different factions were battling each other. Amongst them was the Ghost King Bai Qi and the Heavenly Ghost Sheng Ge, both disguised as ordinary people, both on killing sprees.
