

## Nine-Dragon 491

### Chapter 491: Cosmos Transportation

However, Su Yu shot a gaze which approved of Yu Chan following Lü Chuyi.

Filled with uneasiness, Yu Chan walked to the front of Lü Chuyi. Lü Chuyi extended her palm and placed it on top of Yu Chan's head. She then closed her eyes and started to feel for something. After a long time, she revealed a tiny bit of gratified expression.

"Luckily," she said, "you are still a virgin. Moreover, Vital Energy Crystals have not formed within your body yet. Hence, you are the best person to choose to replace Wu Aoyue."

Yu Chan felt even more uneasy. It was as if this Divine Master wanted her to do something extremely important.

Lü Chuyi withdrew her hand and said, while nodding her broad forehead, "Follow me for a short period of time. If the task is completed, I will bring you to the Purple Cloud Palace."

Yu Chan was wild with joy. She could hardly believe her ears. Enter the Purple Cloud Palace?

Even Chou Zeming revealed a shocked and envious expression. The Purple Cloud Palace was one of the two major forces that commanded the Eighteen Blessed and Heavenly Lands! By entering the Purple Cloud Palace, her position would become like a boat—rising with the level of the water beneath it. This was not something that could even compare with the Returning Principal Palace. Even Chou Zeming had no confidence that he could enter that kind of force! It could be said that Yu Chan had soared up into the sky with a single bound!

"Thank you, elder, for your great kindness!" Yu Chan reacted and thanked Lü Chuyi on bended knee immediately.

In her heart, she was extremely delighted. She then secretly glanced at Su Yu out of the corner of her eye. Su Yu shot a smile her way which congratulated her. He moved his lips, mouthing the words, "If I have a chance, I will remove the restriction on you."

Yu Chan's eyes could not help but revealed a bit of conflict. This young man whom she had not known for very long had left a deep impression on her.

Lü Chuyi nodded her head slightly, and her beautiful eyes swept past Chou Zeming and two other people. "As for the three of you..." After pausing for some time, she raised her long and slender fingers. A cold expression rested on her face. "Massacring the disciples of the Eighteen Blessed and Heavenly Lands. What you have done is excessive! From now on, all of you shall follow me as well. Whether you live or die will be left up to your own luck."

After her speech, she took graceful steps and walked toward Chou Zeming at the front. His expression was ghastly pale. When he looked at the figure walking over, it was as if he were looking at mountains collapsing and the earth cracking up. Almost as if not thinking at all, he turned his body around and fled!

The vital energy contained in his three Vital Energy Crystals surged wildly and changed into strong wings filled with vital energy. With a flap of his wings, he disappeared without a trace, reappearing 1,000 miles away instantly.

However, what caused everyone to be shocked was that Lü Chuyi did not have the intention to chase after him. She was still just as relaxed as before, and she took a step forward. That step was clearly a casual step. However, she arrived directly behind Chou Zeming! It was as if the ground had retreated by 1,000 miles and she had only taken a step!

Such a magical power—1,000 miles in one step—caused Su Yu to click his tongue in awe.

Feeling that danger was close to him, Chou Zeming instinctively covered his body surface with vital energy. At the same time, he turned his head back abruptly and shot out two rays of light from his eyes! The light appeared to have a tangible, physical form. In such close proximity, who could possibly react to that?

The power of his technique was also extremely close to the level of the Fairy Realm. Even if the woman were a Divine Master, how could her body block the attack?

What shocked everyone was that she really did not do anything to block the attack. Although the two extremely powerful beams of light shot from his gaze—a pupil technique—shot directly at her body, they stopped in the air an inch away from the surface of her skin. The twin beams looked as if they had frozen in midair, unable to move forward!

Lü Chuyi tapped her soft white hands casually, and the two substance-like gazes dispersed into the air.

“A legendary-level cultivation technique?” Lü Chuyi said casually. “For you to comprehend it to Stage One, you are not too bad.”

After that, she raised her finger and tapped Chou Zeming lightly. That vital energy which protected Chou Zeming’s body was nothing to her finger. It passed through the vital energy and tapped Chou Zeming’s back.

At once, Chou Zeming gave a shrill, horrible shriek. His whole body was sent flying, as if he had received an electric shock. He only stopped moving after somersaulting seven or eight times in the sky.

Chou Zeming did not seem concerned about the pain; instead, he revealed a surprised expression. “What did you do to my heart?”

Lü Chuyi said indifferently, “A restriction!”

After saying this, she turned her eyes toward Bai Qi and Ming Fei, who had taken advantage of the opportunity to escape. She could be seen standing still for a long time at her original position without moving in the slightest. Her five fingers reached forward!

A whooshing sound was heard. The area shook, and their two figures were transported over out of thin air from two different directions! Bai Qi and Ming Fei, who were 10,000 miles away, were brought directly to her.

They still maintained their stances—frozen in the middle of their attempt to flee. They were like corpses locked in rigor mortis, terrified expressions on their faces.

What kind of frightening magical power was this? Freezing them from 10,000 miles away and transporting them back as though it were nothing.

Su Yu gasped coldly at the sight. The magical powers of the Almighty Divine Master completed exceeded his expectations!

Lü Chuyi tapped twice, casually placing a restriction on the hearts of the two ghosts. In an instant, a restriction was placed on the three demonic persons who dominated the seventh level of the Divine Pavilion and massacred all the disciples of the Eighteen Blessed and Heavenly Lands. They became slaves as a result, and everything only occurred in just a few breaths' time!

After capturing the three of them, Lü Chuyi turned her eyes and looked toward Su Yu. Her beautiful eyebrows creased again, and she muttered, "Your body seems to have the aura of that niece of mine. Hence, you have to leave with me as well."

As expected! Although Wu Aoyue was not exposed, Lü Chuyi was suspicious of Su Yu!

Almost automatically, a thunderbolt glowed around Su Yu's body. His whole being changed into a thunderbolt, and he disappeared from his original position.

Lü Chuyi had a dull expression. "Lightning techniques? Not bad..." But her dull expression quickly sharpened into surprise. "That's no normal lightning technique! 100,000 miles in an instant. Even lightning techniques of the Purple Cloud Palace can't do that."

After casting aside her unusual expression, Lü Chuyi took graceful steps. Instantly, she locked onto Su Yu! 100,000 miles away, his thunderbolt glowed, and Su Yu fell down from it. After that, without hesitation, he summoned the Divine Flying Ship.

He fed spiritual energy to the Divine Flying Ship wildly, and it took off flying. However, in just three breaths' time, Su Yu felt a suffocating sense of oppression enveloping him. The space around his position had been frozen! She was exhibiting Space Transportation!

Su Yu gave a deep shout. The thunderbolt around his body glowed, and his figure disappeared. This time around, he only appeared 50,000 miles away. Thunder Escape required a huge amount of thunderbolts from his body. Hence, the technique became less effective with every use.

That frightening sense of oppression was already waiting for him. Su Yu frowned in despair. A Divine Master appearing in the Mysterious Heavenly Divine Pavilion... This was simply cheating!

Without hesitation, Su Yu exhibited Thunder Escape again forcefully. This time around, he only appeared 20,000 miles away. After fleeing for some time, that space oppression came again.

Finally, Su Yu used his remaining bit of thunderbolt to exhibit Thunder Escape and appeared 10,000 miles away instantly. However, when he reappeared, his eyes went blank in shock. Lü Chuyi had caught up with him. She had merely teleported to 30 inches in front of him!

Su Yu gaped in astonishment. Those fair cheeks. That masterpiece of a face. That clear skin. That pointed jade nose and those eyes that emitted the dream-like luster of gems... They were all extremely close to him. The faint, sweet-smelling fragrance of her body caressed his nostrils.

Lü Chuyi wore a sardonic smile. Her expression was truly breathtaking as she extended a long, slender finger and tapped Su Yu's forehead.

Chapter 492: Ten Thousand Mile Pursuit

Whoosh—

A cold, shadowy thing shot into Su Yu's forehead, quickly making its way to his heart. Su Yu turned pale, checking himself with his Soul Eyes. He found a glowing yellow spot in his heart, infused with soul powers and a shred of vital energy.

If Su Yu did not obey. The other party could use the soul powers to ignite the vital energy with a thought, making his heart explode and killing him instantly. This was a form of a seal!

Realizing this, Su Yu calmed down.

He silently activated the Great Thunder Heart Technique and pushed it into the golden seal. As long as Su Yu willed it, the Great Thunder Heart Technique could destroy the soul powers within the golden spot of light. This way, the rest of the vital energy can no longer be controlled, and the crisis could be averted.

But on the surface, Su Yu naturally showed an expression of fear.

Lü Chuyi observed Su Yu now that she had trapped him, her gaze falling onto Su Yu's space ring. "You are quite decent. Stronger than the three, at least in the aspect of evasive techniques. I suspect that even with the three of them attacking you together, they might not be able to trap you."

With a grab, the black space ring vibrated, wishing to escape from his hand!

Su Yu's expression changed. The space ring housed many treasures that could not be shown to the world, such as the Cosmos Thunder Sword and the Five Elemental Strong Thunder Seal. Once this lady saw them, she would definitely take them for herself.

He balled his fist, grabbing the space ring that was going to fly out of his hands. This action was undoubtedly an act of defiance!

Lü Chuyi raised her brows, her gaze turning cold. "You dare to fight back? Do you want to die, or do you have my disciple's items within the ring, which cannot be shown to the world?"

Su Yu remained silent but was flooded with thoughts.

Lü Chuyi expression became icy, suddenly realizing Su Yu's considerations. She let out a laugh. "I am a Divine Master. Why would I want the treasures of a Human King? I will release you after I check for items of my disciple!"

Su Yu could not voice his troubles. Wu Aoyue was within the Nine Jade Spiritual Pearl; her items would not be in the ring. But there were items in the ring that spelled even more trouble for him than Wu Aoyue!

Lü Chuyi grew annoyed. She raised her brows as she swiped downward with her hands.

Whoosh—

The space around Su Yu materialized, trapping him within. This was the technique she used to immobilize Bai Qi and Ming Fei.

Su Yu clenched his teeth. He was going all-out!

With a creak, a splendid glow illuminated the space around Su Yu—colorful balls of light that glowed as they spiraled. They shot out five beams of light that enveloped Su Yu. At that moment, the space that imprisoned Su Yu was being forced outward.

“The Dry Cloud Five Elemental Formation!” Lü Chuyi said. She did not understand the situation. She looked at Su Yu in amazement. A deep suspicion surfaced in her eyes. “What a surprise. Yue Songqun would hand the treasure that gave him his reputation to a little Human King disciple to refine!” It was clear that she had misunderstood Su Yu’s identity.

Su Yu slowly retreated as he looked at this lady with caution, “Elder, we bear no grudges against each other. Shall we stop here?” He had a cold glow in his eyes.

“Oh? Do you think that the Dry Cloud Five Elemental Formation can guard you against the seal I placed in your body?” Lü Chuyi had a faint smile.

Su Yu did not fear her. He said coldly, “You can give it a try.”

Lü Chuyi’s smile faded, wishing to activate the seal. But suddenly, her figure shook as pain assaulted her brain. She could not help but let out a grunt of pain. She looked at Su Yu in shock.

“You dispelled my seal?”

She did not expect this! She had never once thought that a lad like him could destroy the seal she had personally planted within him!

Lü Chuyi could feel her soul being torn apart by the lightning as she exclaimed in shock, “Lightning-based techniques once again! You... have a deep understanding of lightning-based techniques!”

Su Yu appeared relaxed. “Elder, what do you think of my idea?”

Lü Chuyi was a little frustrated. “What if I say no?”

Hearing this, Su Yu’s eyes filled with a merciless glow. “I would advise you to proceed with caution. If I guess correctly, your abilities are limited while within the Mysterious Heavenly Divine Pavilion, even though you are the Almighty Divine Master.”

From her string of attacks just now, Su Yu had realized that even though this lady was powerful, she had to hold back and not use powers above the level of the Fairy Realm. This meant that she must not be able to use powers above the level of the Fairy Realm.

If that was the case, Su Yu might have a chance of saving himself from this dangerous situation.

Lü Chuyi’s calm expression was laced with shreds of anger, and murderous intent flickered in her eyes. “You mean to imply that I cannot stop you?”

Su Yu did not speak. That was taken as consent.

“I would be cautious if this treasure were in the hands of Que Songqun,” said Lü Chuyi, “but you cannot even bring out ten percent of its power. You are overconfident!”

Lü Chuyi shook her head. A golden leaf dropped from her sleeve. The leaf was fully coated in gold, and it released a powerful spiritual pressure. The space within a ten-mile radius trembled, all life coming to a halt!

As for Su Yu, he could feel the space becoming tighter outside of the formation. It appeared this was the treasure that had allowed her to so easily manipulate space and immobilize people. Just what was this golden leaf? Why was it so ungodly?

But Su Yu had no time to think. Lü Chuyi pointed forward. The gold leaf spun as it approached the top of Su Yu's head. All that could be heard was a crack. The Dry Cloud Five Elemental Formation felt like it was on the verge of collapsing!

The space outside the formation was covered with small black cracks. It looked like a balloon being forcefully squeezed, about to explode!

That was why the Dry Cloud Five Elemental Formation was acting so strangely. Without this formation, Su Yu would have been compressed into a ball of mush!

Su Yu did not fret even though he saw the Dry Cloud Five Elemental Formation about to collapse. Instead, his expression turned cold as he let out a grunt. "I hope you will not regret this!"

Su Yu waved his sleeve. A gold ring flew out, flickering as it wished to bind Lü Chuyi.

"A Buddhist treasure?" Lü Chuyi let out a cry of shock. "It might suppress ghosts, but what can it do to me?"

A bolt of horrifying vital energy sent the ring flying. But at this moment, the golden ring that was clearly being suppressed changed its course, latching itself onto the golden leaf on top of Su Yu's head!

The golden ring shrunk from the size of a palm to the size of a leaf, locking the leaf in place!

At the same time, the five beams of light around Su Yu scattered, suddenly enveloping the leaf. Su Yu quickly formed seals, condensing the five-colored light beams. In the blink of an eye, the leaf had been contained.

Inside, there was the Ghost Suppressing Golden Ring. Outside, there was the Dry Cloud Five Elemental Formation. The gold leaf could not escape this no matter how ungodly it might be!

The pressure exerted on the space instantly scattered. As the five-colored light beams rotated, the golden leaf landed onto Su Yu's palm.

It was too late by the time Lü Chuyi realized what was happening. Her expression turned icy cold. "Your target has been my treasure from the start?"

Su Yu did not hide this fact, calmly saying, "The most threatening thing here is not you but this treasure that can control space. Which do you think I would prefer to deal with first?"

Lü Chuyi expression was frigid as she secretly tried to control the gold leaf. But the leaf did not budge under the restraint of the two treasures!

Thinking about how a mere lad had snatched her treasure, Lü Chuyi could not mask her anger. "Let's see what you can do without the treasure to protect your body!"

She pressed forward, powerful spiritual energy enveloping her fair palm as she struck out toward Su Yu's chest. Su Yu felt an otherworldly pressure, even though her palm had not arrived.

Su Yu strained against this skin-crawling sensation. A spiritual glow shimmered around his body as the Eternal Stone King Armor appeared.

Thump—

The palm should have instantly killed him, but it was like a child's hand striking sheet metal. The recoil numbed Lü Chuyi palm. And she had the physical body of a Divine Master!

Even though her palm had been forced backward, she remained unaffected. She became even more furious. "Enough is enough! How can a lad like you take out so many half-manufactured spiritual artifacts in succession?"

Be it the Dry Cloud Five Elemental Formation, the Ghost Suppressing Golden Ring, or the Eternal Stone King Armor, each was at the level of a half-manufactured spiritual artifact.

She had finally understood why Su Yu was unwilling to hand over the space ring. If she had realized that he was carrying so many treasures, she would have taken them away!

Half-manufactured spiritual artifacts were a compelling choice even for a Divine Master! She was furious for having encountered it repeatedly!

Without the restraint on her cultivation level, Su Yu would have been dead with a mere thought. But if she stepped over the restraint here, she would definitely be transported out! This was why her battle with Su Yu was so evenly matched.

Su Yu was pushed back several zhang, the blood in his body flipping wildly.

Looking down, his pupils dilated. There was a faint imprint of a palm on the Eternal Stone King Armor! An ordinary palm from that lady had created an imprint on the Eternal Stone King Armor!

Cold sweat dripped from Su Yu's forehead. This was the first time a mark had been formed on the Eternal Stone King Armor. Thinking back, if he had taken that attack against his physical body, his flesh would have crumbled. This lady's cultivation level was indeed being suppressed, but her Divine Master physical body was not! She could kill most early-stage Fairy Realm fighters with her physical body alone!

Lü Chuyi was furious. "Let's see how long your broken armor can last!"

Boom—

Another palm shot forward. How would Su Yu dare take this head-on a second time?

Without a word, he lifted his hand and summoned the Divine Flying Ship, flying away manically.

Lü Chuyi's palm did not find a target, and her expression showed her frustration. She clenched her teeth. "Bastard! I shall see how far you can run!"

Without the gold leaf, coupled with her limited cultivation level, she could not teleport 1,000 miles with a step. But this did not affect her powerful physical body.

#### Chapter 493: The Sea of Blood Attacks

When her sleeves shook, her delicate body disappeared from the sky. When she appeared again, she was ten thousand Chinese feet within the Divine Flying Ship. Moreover, she was closing in on the Divine Flying Ship extremely quickly.

From afar, the scene appeared as two fragmentary shadows pursuing and escaping from one another respectively, and loud sounds could be heard.

10,000 feet!

1,000 feet!

100 feet!

In just half a cup of tea's time, she had caught up! She clenched her fine, snow-like into a fist and swung it toward Su Yu's Divine Flying Ship ruthlessly from the sky. At once, with a creaking sound, the Divine Flying Ship shook vigorously, and sounds of destruction could be heard from inside it!

At the tail-end of the flying ship, there was an extremely big fist-print that had flattened it! With just a swing of her fist, this semi-manufactured spiritual artifact was slightly damaged! Su Yu felt pain, and his eyes burned with raging fire. He had been pursued by this woman continuously. Enough was enough.

"Stupid woman!" he said furiously. "There are no ill feelings between us, yet you refuse to let me go!"

Lü Chuyi laughed sardonically. "Even though you have snatched my magical treasure away from me, you still dare to say that there are no ill feelings between us!"

After hearing what was said, Su Yu laughed as well. "What a joke! Previously, I had warned you to proceed with caution. I told you that you would regret it if you did. Who was the one who insisted on attacking? Stupid woman! It is still not too late to withdraw. By the time you feel remorseful, it will be too late!"

After listening to these threatening words, Lü Chuyi became even more furious. "You still dare to threaten me? After what you have done, how can I let you go?"

With a furious hum, Lü Chuyi threw a punch again! With this woman's frightening body, she would probably break the Divine Flying Ship with about three punches.

Seeing that Lü Chuyi had no intentions of letting him off, Su Yu's eyes glowed with a ferocious light. "Stupid woman! You asked for it!"

With a whooshing sound, a green-colored lion appeared on Su Yu's palm. Strong vital energy was stored within the lion's body, and the lion contained an attack of the Fairy Realm! This item was a life-saving charm that Su Yu obtained from Bi Yu. It was a treasure that contained an attack of the Fairy Realm.

Lü Chuyi, who was about to attack, sensed a change. She was first stunned, then revealed a fearful expression. Under a situation where her cultivation base was restricted, it would be difficult to block an attack of the Fairy Realm with her body alone.

However, as she looked at the silver-haired kid in front of her, she felt that he was especially detestable. She gritted her teeth, advanced instead of retreating, and attacked vigorously. "Bastard! Even if I am injured, I must teach you a great lesson!"

The blue veins on Su Yu's forehead twitched. Although this woman looked as if she were indifferent to fame or gain on the surface, her character was extremely stubborn!

“All right, you asked for it!” Su Yu gave a cold hum, and the Light Green Jade Spiritual Lion on his palm emitted a great amount of green light.

A palmprint with glittering green light appeared magically. It was holding an extraordinary power which descended from the sky!

Lü Chuyi gritted her teeth. Her stubbornness from the bottom of her heart had caused her to receive the attack outrageously, and her punch, which was used to attack the flying ship, was changed into an attack used to meet the incoming palm. She had already prepared to be heavily injured!

However, the strange thing was that when the palm print was about to land on her, it changed direction abruptly. It moved to the side, circled away from Lü Chuyi, and struck the ground below her feet!

Lü Chuyi was stunned. Her face filled with vigilance. “Humph! Playing tricks again! Eat my attack!”

After her speech, another palm shot out. As for Su Yu, he gestured with his right hand, stored his Divine Flying Ship, and used his body to take the palm forcefully.

Clang, clang—

A palm-print appeared on the Eternal Stone King Armor again. As for Su Yu, he was forced to retreat by hundreds of feet. The blood energy within his body was shaking vigorously, and under a situation where he was unable to suppress it, he could not help but spit out a mouthful of blood.

Thump—

The attack of the Fairy Realm struck the ground!

Seeing that the attack had struck the ground, Lü Chuyi was suspicious, and she became even more vigilant. “What kind of trick are you playing...?”

Before the words left her mouth, a horrible groan could be heard from the ground where the attack of the Fairy Realm struck. When she lowered her head to take a look, there were hundreds of bloody threads on the ground directly below her, winding around one another and wriggling. They looked like a bloody python!

That attack of the Fairy Realm had cut the bloody python in half from its center. Its head still maintained a posture indicated that it had been about to leap up. It had been preparing to attack Lü Chuyi!

In other words, if not for the attack of the Fairy Realm, Lü Chuyi would have been attacked by the creature!

“It’s that evil being!” Lü Chuyi’s beautiful face froze instantly.

She had seen how ferocious those bloody threads were. Their speed was extremely fast. Without the proper precautions, her body would have been pierced through instantly, and her flesh and blood would have been sucked dry!

Moments ago, she had been extremely furious. Her sole concentrated had been to pursue Su Yu. Hence, she had taken no precautions against the big patch of bloody threads on the ground beneath her feet preparing to attack her!

If not for Su Yu's attack at the very moment, she would have probably died!

When she recalled that the attack of the Fairy Realm which was supposed to attack her had changed its direction strangely, she looked at Su Yu with mixed feelings. The murderous energy in her beautiful eyes weakened.

When she looked at the palm print on Su Yu's chest as well as the bloody fog which was left behind at the corners of his mouth, her heart shook. An apologetic expression appeared on her face.

Su Yu had been trying to save her, and she had taken advantage of the opportunity to injure him!

After taking a look at her, Su Yu remained silent and did not say anything. He cared for himself and quickly flew high into the sky. If he had neglected to act, there was a high possibility that Lü Chuyi would have been killed by the bloody threads. However, if she died, the next target would have been Su Yu.

Standing high up in the sky, Su Yu looked down on the ground like a king. With his Transparent Eyes, his face gradually became serious, and he faintly revealed an astonished expression. Under his gaze, the vast ground looked like a mighty torrent where a sea of blood flowed with a whistling sound!

There were countless bloody threads. Were its numbers in the hundreds of millions? For the places where the bloody threads passed by, all living things were completely swallowed, including small beings like insects, fish, birds, and beasts. Larger beings, including beast tides, fled wildly, but none were able to escape from the sea of blood!

From up here, Su Yu could see that the sea of blood stretched across at least a million miles. It looked as if it wanted to destroy the whole seventh level of the Divine Pavilion completely!

Su Yu was shocked. It was simply too much! The sea of blood was engulfing the remaining ground with shocking speed. It was swallowing whole mountains and rivers.

As for Su Yu and Lü Chuyi, as luck would have it, they were directly in front of the sea of blood! The lump of bloody threads they had encountered just now was simply a tentacle that had extended from the sea of blood to grope for living things in front of it!

In less than a cup of tea's time, they would meet the sea of blood face-to-face! What caused Su Yu to be even more shocked was that the destruction of the tentacle had drawn the full attention of the sea of blood. It sped up.

Su Yu's heart went cold. If he had really fallen into the sea of blood, even exceptional abilities wouldn't have been enough!

Not far from him, Lü Chuyi gasped. "It has already grown in strength to this extent...?" A ray of purple light flashed past her beautiful eyes. It looked like some kind of pupil technique which could see through the situation of the sea of blood.

Without hesitation, Su Yu turned his body around and fled wildly in the opposite direction. As luck would have it, that was the direction of the stone forest!

However, the sea of blood was much faster than Su Yu!

Rustle—

Suddenly, a sweet-smelling wind blew over. A jade shadow approached, lifted its palm, and grabbed Su Yu. Su Yu was taken by surprise. His shoulders were caught. He was shocked and was about to attack. However, he heard a pretentious cold voice from Lü Chuyi.

“If you do not wish to become the nutrients of the evil being, stay still and don’t move!”

After hearing what was said, Su Yu hesitated slightly and stayed his hand. When he moved his eyes to the side to take a look, he saw that although Lü Chuyi was cold, her fair and clear cheeks were slightly red. He smiled. She may have been rude and unreasonable like her niece Wu Aoyue, but she was still sensible. She knew how to repay a debt.

After thinking for some time, Su Yu took out the Dry Cloud Five Elemental Formation, released the Golden Leaf that had been sealed, and threw it to Lü Chuyi. She took back the Golden Leaf with a slightly unnatural expression and whispered softly and shyly, “Who told you to return the Golden Leaf to me?”

Su Yu could not help laughing, but he did not respond. Lü Chuyi stared at Su Yu in frustrated embarrassment, her face turning red, like a young lady whose thoughts had been seen through. Having trained up until this moment, she who was favored by the gods had never encountered such an embarrassing situation. Nevermind the fact she had been rescued from danger by someone she had been pursuing continuously, but her treasure had also been given back to her. In the Eighteen Blessed and Heavenly Lands, this was something that unimaginable. But this was the Mysterious Heavenly Divine Pavilion!

“Humph!” With a graceful hum, she glared at Su Yu ruthlessly again and activated the Golden Leaf with her full strength. At once, the ground below their feet retreated thousands of miles again. It was as if the positions of the stars had changed.

The sea of blood seemed to have realized the strange states of Su Yu and Lü Chuyi. An inhuman, furious roar could be heard from deep inside the sea of blood. After that, the sea of blood rose, and a 100-foot tall palm print was formed. The palm print was slightly different from the bloody threads, as it glowed with silver light.

Poof—

A shocking scene appeared. The giant palm print disappeared in thin air!

When it appeared again, it was 10,000 miles away from Su Yu and Lü Chuyi.

Having felt the change behind her, Lü Chuyi’s brows furrowed. “So fast!” Her expression turned serious, and she inserted even more vital energy into the Golden Leaf. The ground below their feet retreated at a shocking speed.

This happened three times, and in ten breaths’ time, they covered close to a million miles, managing to successfully return to the stone forest.

At the moment, Chou Zeming and two other people were waiting by the side of the spell obediently. They did not dare leave.

Seeing that Su Yu was captured as well, they revealed a slightly shocked expression. They had expected Su Yu to be caught but not for it to take such a long time.

As soon as they landed, Lü Chuyi looked at the spell and said quickly, “How much more blood is needed?”

Chou Zeming’s heart grew cold. “We still lack the blood of a Half Fairy. Then the spell can be completely activated successfully.”

After hearing what was said, the three Half Fairies felt anxious and fearful in succession. The three of them were the only Half Fairies left!

However, Lü Chuyi walked up to the spell and pinched her fingertip. A drop of blood fell into the spell. Her blood was filled with extremely strong spiritual pressure.

Spiritual qualities were emitted from the blood, as if the drop of blood were alive. When it landed on the spell, a whooshing sound could be heard, and the spell released a great amount of bloody light. The spell had been activated!

Su Yu was shocked. A single drop of blood from a Divine Master was equivalent to all the blood of a strong martial artist of the Half Fairy level! It was no wonder that even though she did not reveal her cultivation base, she was still able to suppress three Half Fairies easily!

This woman was so frightening that it was unimaginable.

“Due to the spell on the other side being destroyed, the spell still requires about half a cup of tea’s time to activate successfully,” Chou Zeming said with a relaxed expression.

Half a cup of tea’s time? Lü Chuyi and Su Yu frowned. That giant, blood-colored palm print did not need half a cup of tea’s time to catch up to them!

Chapter 494: The Greatest Divine Bamboo

A bloody, copper scent had already wafted over!

“Get ready for battle!” Lü Chuyi let out a low grunt.

A three-inch long section of gold bamboo appeared in her palm! This bamboo seemed to be the same kind of treasure as the Golden Leaf. But the space powers in this bamboo was far greater than the Golden Leaf! Su Yu could even feel a bolt of killing intent within the bamboo! This was... an attacking-type treasure!

After Chou Zeming saw the item, his pupils dilated. “The greatest divine bamboo of Jiuzhou, the Heavenly Orchid Silver Bamboo!”

Bai Qi and Ming Fei also gasped when they saw this item! The looks they gave Lü Chuyi completely changed.

Bai Qi was nearly shocked beyond words, a weird glow filling his eyes. “This bamboo has long been extinct in the Jiuzhou Continent. How did this woman obtain it?”

Su Yu took note of their expressions. This item was definitely an ungodly treasure. The power within it was beyond Su Yu’s scope of comprehension. If the Heavenly Orchid Silver Bamboo had been used against him in their prior altercation, he would have definitely been dead!

Lü Chuyi took a step forward, facing the huge, blood-red palm print alone. “The power of this bamboo is too great. Just a fraction of it would go above the level of Fairy Realm. All of you, retreat and focus on guarding the spell. Do not let it be destroyed.”

Su Yu understood. It was no wonder this lady had used this treasure. The power within it was too immense. Using it would cause its power to exceed the limits of the Mysterious Heavenly Divine Pavilion and get her transported out.

The copper stench grew heavier. The group laid in wait, fully concentrating. Suddenly, the alarming stench descended in force!

It’s here!

Collectively, the group looked in the direction of the sea of blood.

But suddenly, a horrifying aura came from behind the spell! Not good! The blood-red palm had instantly teleported itself behind them!

The palm struck down with immense power. Chou Zeming and the others gasped in surprise but quickly collected themselves as they defended against it together. Chou Zeming shot out two horrifying bolts of black light from his eyes. Bai Qi and Ming Fei released ghost energy, one forming a huge palm with the ghost energy and the other creating a chain.

Three attacks almost at the level of the Fairy Realm—in terms of pure power, the combined attack far exceeded that of an early-stage Fairy Realm! But all that could be heard was a dull clank. The three attacks were repelled the moment they came into contact with the blood red palm!

A crack opened on that blood red palm. A faint silver glow was visible hidden within the blood-red color. Su Yu recognized that silver glow. It was the metal within the body of the monster in the Corpse Grassland!

The three attackers were shocked at having their attacks fail against the palm. Seeing the palm about to destroy the spell, the three of them let out another grunt, taking to the skies as they attacked the palm together. But three thuds could be heard as the three of them were swatted away like flies.

With nothing standing in its way, the blood-red palm crashed down mercilessly on the transportation spell.

But at that moment, a golden glow illuminated the surroundings, accompanied by a low grunt. The blood-red palm suddenly stopped in mid-air. Following which, a golden crack appeared in the middle of the palm, growing until it spanned across the entire palm!

That palm had been split into two!

The bloody threads that had formed the palm were instantly severed, falling to the ground, then seeping into the earth.

Clink—

The severed silver metal dropped to the ground.

Lü Chuyi lifted her hands and caught the two pieces of metal. She had a look of shock after she observed the metal. “This is... a material only found in the Demon World? Why is it here?”

Everyone, including Su Yu, stared at that section of the gold bamboo. The power of that bamboo was far greater than they imagined. All they had seen was the lady flicking her wrist and slicing across the air before the bloody palm was cut in two!

The silver metal that even attacks at the level of Fairy Realm can't shake had been cut in two!

Roar—

They had no time to relax. A heart-shaking, inhuman roar of anger came from the horizon. Su Yu and the group trembled, involuntarily releasing spirit energy and vital energy to defend themselves.

Chou Zeming was shocked. "What is that? Why do I get the feeling I'm facing a Divine Master!"

The abilities of those entering the Mysterious Heavenly Divine Pavilion were capped at the Fairy Realm. But beings that existed in the Mysterious Heavenly Divine Pavilion did not face such restrictions!

"Stay strong!" Lü Chuyi commanded. "Guard the spell!"

In the time it took her to speak, the sky had already been filled with the boundless, copper stench. Even though Chou Zeming and the rest had not seen it, they could feel an incredibly evil aura descending.

In Su Yu's eyes, the sea of blood had already arrived on the horizon. The sea of blood spanned millions of miles, devouring everything as it made its way toward them!

Before the sea of blood, they were as minuscule as grains of sand. With a roar, it bore down on them! They had no other choice than to use the transportation spell to escape!

Whoosh—

Sheng Xuelian, who had been hiding far away, flew over and stood atop the spell. The youth following Lü Chuyi also came into the spell with fear written on her face. Su Yu slowly retreated, looking at the 100-zhang tall wave of blood as it crashed down.

In an instant, they were swallowed by the wave of blood. The millions of bloody threads shot toward them like a hungry predator, eager to devour them.

At that moment, a bolt of gold light swept across the surroundings as if it was going to split the world in half! The bloody glow had vanished, revealing a blue sky. From overhead, one could see that the golden glow had cut a circular hole through the boundless sea of blood. But the waves from the back crashed forward, filling up the hole.

Another circular gap appeared in the 100-zhang thick sea of blood when the golden glow flashed again, protecting the land where the transportation spell was. This happened three more times. The sea of blood crashed forward, the golden glow flashing tirelessly.

But as time passed, the frequency of the golden glow began to slow down. The sea of blood continued to press forward without an end in sight.

Within the spell, the group watched with their skin crawling, watching the oncoming sea of blood that could devour them at any instant. In front of them, Lü Chuyi fought against the sea of blood—the Heavenly Orchid Silver Bamboo in her hand had become their ray of hope. But the toll the

treasure had on her vital energy was uncommonly costly. Even with Lü Chuyi's vital energy reserves at the Divine Master level, she might not be able to sustain the attacks after ten activations!

Her hair was damp, laced with sweat. Her forehead reflected the crimson glow of the sea of blood. Her robes were soaked with sweat.

Everyone watched with their hearts pounding, knowing she might not be able to hang on much longer!

Watching the endless barrage of the sea of blood, Su Yu said gravely, "Let's give up here. If we give up on the transportation spell, there is a chance for us to break through the waves and escape. The sea of blood cannot do anything to us if we are high enough up in the air, and we will be transported out once the two-month deadline is over."

Hearing this, the rest of the people supported the idea. Even though it would cost them greatly if they did not enter the eighth level of the Divine Pavilion, it was nothing compared to losing their lives here.

But hearing this, Lü Chuyi coldly turned her head, looking at Su Yu with a piercing stare. "Do not say that again! We must go to the eighth level of the Divine Pavilion!"

The cold stare harbored her insistence, making Su Yu feel foreign. It was as though Lü Chuyi had become another person, a person foreign to Su Yu.

But after activating the Heavenly Orchid Silver Bamboo five more times, her speed had slowed down to its limits. She was breathing heavily, sweat dripping down from her forehead, and she was incredibly pale, devoid of any colors of life. She was at her limits, but the spell had only been 75 percent activated!

Su Yu opened his mouth, wishing to tell her to give up, but Lü Chuyi formed seals with her hands without thinking, pointing at her chest after her last seal. Her expression was laced with pain. She let out a grunt of pain but did not stop. Shockingly, a large amount of vital energy welled out within her despite her being clearly depleted!

The youth following her seemed to understand what Lü Chuyi was doing and involuntarily let out a cry: "Teacher, no! Your body cannot take this!"

From the point of view of Su Yu's Soul Eyes, it looked like Lü Chuyi was using a secret technique, forcefully propping up the vital energy in her body. The origin of this vital energy was not from the crystals in her body but from her own flesh and blood. This was extracting vital energy at the price of destroying her physical body!

Lü Chuyi let out a cold grunt, facing them with her back as she said fiercely. "Shut up! Protect the spell. I'll kill you if the transportation spell is destroyed!"

Looking at her foreign figure, Su Yu could not understand why this lady was so insistent! With her abilities, this sea of blood should not be able to trap her. Why would she rather sacrifice her body to enter the eighth level of the Divine Pavilion?

Regaining control of the vital energy, she once again defended against the sea of blood. But with every activation, her flesh and blood shriveled. After three activations, her skin started to turn a rotten yellow! Luckily, the transportation spell had finally been activated—a little sooner than expected.

But at that moment, the sea of blood that had been continually bombarding them suddenly stopped! The blood threads were frozen in space. The entire world turned dead silent!

Su Yu and the group did not relax. Instead, they became even more cautious. What could have happened for the sea of blood to stop so suddenly?

Thud, thud—

Clear footsteps from deep in the sea of blood could suddenly be heard from the dead silence. The footsteps seemed slow, but every step covered a great distance. The boundless sea of blood parted to form a perfect pathway down the center. It was as though they were welcoming their king.

#### Chapter 495: Silver-Colored Puppet

As the pupils of the Su Yu and his group of people were shrinking, a figure of a human being riding the bloody fog walked out slowly!

It was a young man in silver clothes. He had long, scarlet hair that fluttered about. His eyes, nose, mouth, and ears looked as if they had been carved by a knife peeling back his face. His figure was unusually tall, and his body emitted a dangerous aura.

The most shocking thing was that no signs of life could be felt in him! His blood red-colored eyes were unusually sharp.

Lü Chuyi was surprised and bewildered. “A puppet?”

The silver-colored figure in front of them was... a puppet?

The realistic, silver puppet wore a sarcastic smile as it examined everyone present. He then said amusingly, “Interesting. Two people from the Gui clan, a Divine Master and a... Haha. We meet again, little boy.”

His gaze had landed on Su Yu!

Su Yu was shocked. When had they met one another?

“What’s the matter? Have you already forgotten escaping from my stomach?” The silver figure laughed mockingly.

Su Yu’s body trembled. “You are... Corpse Grassland...”

Could the puppet in front of him really be the monster within the Corpse Grassland?

“You remember after all,” said the silver figure indifferently, his hands clasped behind his back. “This will make things easier for me. Since you have taken my item, you shall return it to me now.”

His item? The Nine Jade Spiritual Pearl!

At that moment, the spell rumbled. It was completely activated. By leaping into the spell, they would be transported to the eighth level of the Divine Pavilion immediately.

“Yu Chan, Wei Kang, both of you shall go first!” Lü Chuyi instructed. She held the Heavenly Orchid Silver Bamboo, glaring daggers at the silver puppet. After pausing

for some time, her voice became a bit gentler. “Young man, you will go in as well. I will keep him busy for some time.”

Those final words were said to Su Yu, as she still did not know his name.

Su Yu hesitated for some time before retreating slowly toward the spell. “You must be careful. Don’t overextend yourself.”

Bai Qi and the two others stood behind Lü Chuyi persistently.

“Haha...!” said the silver puppet. “You think you can leave without my permission?”

The silver puppet gestured with his palm. At once, the sea of blood that stretched across a million miles became like rivers. The rivers wildly entered the body of the silver puppet. His body was like a bottomless pit. Within three breaths’ time, the sea of blood, which stretched across a million miles, was completely sucked into his body.

All at once, the sky and ground were back to normal. As for the places where the sea of blood had passed by, however, they were in a devastated state and had been reduced to ruins. Every life form in range had been exterminated.

The silver puppet revealed a satisfied expression. “I have finally regained part of my abilities. Although the qualities of these tonics are normal, the good thing is that there are many of them.”

His body gradually emitted an unfathomable aura. It was the Later Stage of the Fairy Realm!

Lü Chuyi’s expression turned grave, but she swung her hand without hesitation. At once, a golden light glowed in the sky and struck the silver puppet. However, he still wore a nonchalant smile. His hands remained clasped behind his back.

Clang, clang—

When the golden light struck his body, the silver clothes on his body rippled slightly, and the golden light bounced off!

“Heavenly Orchid Silver Bamboo?” said the silver puppet. “This bamboo went extinct during my generation. I’m surprised any still exists. However, it is a pity. If you had used this First Divine Bamboo when you were in tip-top condition, I might need to be slightly fearful of it. However, at the moment...”

Lü Chuyi’s heart sank. Not even a mark was left on his clothing! The silver puppet’s silver clothes were extremely strange for the Heavenly Orchid Silver Bamboo to be unable to destroy them! That attack just now was the strongest attack she could unleash while within the Mysterious Heavenly Divine Pavilion, yet it hadn’t harmed him at all. The silver puppet was too strong for her to deal with at the moment.

“Everyone! Leave quickly!” she commanded.

Everyone, including Lü Chuyi, flew to the transportation spell. At once, the bloody light of the transportation spell glowed and enshrouded all of them.

The other side of the transportation spell had been destroyed; it now depended solely on the blood to maintain the Five Ghosts Great Transportation Technique so that it could transport them over.

The silver puppet laughed disdainfully. “As I said before, if you wish to leave, you will have to go through me first!”

All of a sudden, millions of bloody threads appeared from his body and formed a long snake that crashed into the spell with a whistling sound.

Lü Chuyi’s eyes went wide. She had activated her secret technique consecutively for four times and was about to reach her limit, but she had no choice but to exhibit her secret technique forcefully one more time!

Lü Chuyi let loose a mighty emission of golden light, so strong that she staggered. Her body had finally reached her limit!

The golden light struck the body of the long snake!

Whoosh—

The long snake was split open in an instant. Layers of bloody threads were destroyed, reduced to nothingness. But only halfway through the snake, the golden light bounced off, unable to continue. A silver light was glowing below the bloody threads, reinforcing the snake with multitudes of silvery silk threads!

The bloody threads only made up the surface of the long snake. Its interior was made up of powerful silver threads! The silver snake whistled in surprise, but it kept coming!

Slam—

Lü Chuyi was the first to be affected. Her graceful body was sent flying, and she spat out mouthfuls of blood wildly.

As she had exhibited the secret technique five times forcefully, her body was already weak. Against such an attack, her vision turned black, and she plunged into a half-conscious state!

Su Yu frowned. He exerted force from the tips of his toes and flew up into the sky to catch Lü Chuyi’s body. However, at the moment he took action, one more person took action as well. It was Lü Chuyi’s nephew, Wei Kang.

Due to the angle, Su Yu managed to catch Lü Chuyi first, while Wei Kang ended up empty-handed. When he saw that Su Yu was carrying Lü Chuyi in his arms, Wei Kang grew slightly furious. But at that moment, the silver snake attacked!

Everyone inside the spell was sent flying, and the spell was broken in half with a violent rumbling sound!

After stabilizing their figures, everyone looked at the destroyed spell. Their only hope of escape was gone!

When Lü Chuyi, who was about to faint, saw this, her eye sockets almost split open. “No!” she shouted. It was as if she had experienced a huge blow, and she fainted on the spot.

In order to activate the spell, she had not hesitated to pay the price of injuring her own body. She had been on the verge of success, but in the end, she had still failed!

The area became deathly silent. Without the spell, what awaited them was being killed by the puppet of the Later Stage of the Fairy Realm. Hopelessness filled their hearts.

The silver puppet laughed leisurely. "For all of you to become tributes to me... What an honor. You can die free of regrets..."

But suddenly, the silver puppet raised his eyebrows and looked toward Su Yu. "What are you doing?" it demanded.

A layer of blood red color could be seen appearing on Su Yu's body surface, and an evil aura was being slowly emitted. It was Su Yu's Bloodline of the Evil Ghost!

Moreover, below their feet, at an area nearby the destroyed spell, a lump of the Bloodline of the Evil Ghost had appeared. It was revolving continuously, transforming into a small vortex. Moreover, tiny bits of space energy leaked out from the center. Without hesitation, Su Yu carried Lü Chuyi with him and leaped into the vortex.

His figure flashed, and his aura disappeared from the seventh level of the Divine Pavilion!

That tiny bit of weak Bloodline of the Evil Ghost had been secretly mixed into the blood of the dead people when Su Yu first noticed the black chains. His original intention had been to take precautions against future trouble by destroying the spell if he needed to. He had not expected the situation to turn out like this. During the critical moment, he transferred that tiny bit of weak Bloodline of the Evil Ghost!

Although the spell was destroyed, it had already been activated successfully, and the space passageway had been successfully opened. As for the Bloodline of the Evil Ghost mixed in with the space passageway, under Su Yu's control, he revealed the location of the space passageway. The Space Vortex had appeared as a result.

After regaining their senses, Chou Zeming and his group were delighted and escaped into the vortex in succession.

By the time the silver puppet finally reacted, all of them had already leaped into the vortex. Murderous energy appeared on its face as its expression morphed into one of unbridled rage.

"Damn it," said the silver puppet. "You have foiled my great plan!"

He had not expected Su Yu to actually have such a technique hidden up his sleeve! Seeing that the space passageway was about to close, the silver puppet leaped in without hesitation as well.

\*\*\*\*\*

The sky and earth spun and, Su Yu felt as if there were nothing below his feet.

He revolved his spiritual energy hurriedly, but all the spiritual energy within his body had completely disappeared. Not even a tiny bit of it was left! When he opened his eyes, he realized surprisingly that he was actually in the sky. White snow was flying about, and he was falling downward. He was more than 100,000 feet above the ground!

Such a drop would definitely turn him to mincemeat on the spot. But the real problem was that he was also carrying an unconscious woman! Due to their combined weight, they were falling at an even faster speed!

Su Yu wanted to take out the magical treasures in his space ring but suddenly realized that his space ring had disappeared! When he looked at his arm, he realized to his surprise that the Nine Jade Spiritual Pearl had disappeared, too!

His expression became unpleasant. What exactly had happened? Undoubtedly, it was just transportation. So why had all his spiritual energy and items disappeared? He was in a dangerous situation!

Seeing that the ground was getting closer, Su Yu forced a smile. Could it be that after facing so many dangers, this was how it all ended? Falling to his death for no reason?

However, when he was about to hit the ground, his rapid speed slowed abruptly. An invisible, supporting energy eased both of them down and placed them gently on the ground.

Su Yu had just recovered from the fright, and he immediately looked around at his surroundings. However, what appeared before his eyes was a vast snowfield! There were large snowflakes and cold, whistling wind. Moreover, it was so cold that it was piercing to the bones.

As soon as Su Yu calmed down, his body began shivering. He discovered, to his surprise, that even his own body had changed to that of an ordinary person! He had become so weak that it was exhausting just to carry Lü Chuyi.

It was tolerable that his cultivation base and magical treasures had disappeared, but even his body had turned back to that of an ordinary person. He found this unimaginable. Lü Chuyi, who was in his arms, also shivered. Her lips were turning blue, and she unconsciously grabbed the upper front of Su Yu's clothes. Her body had changed to that of an ordinary person as well! Exactly what kind of place were they at such that such things happened to them?

But at that moment, there was no time to wonder about this. The bone-chilling cold was decreasing their body temperatures. In about a cup of tea's time, they would freeze to death in this snow and ice.

After looking around, Su Yu managed to spot a thatched hut amidst the snowstorm. He rushed over, carrying Lü Chuyi in his arms. The hut appeared to be long abandoned, but it would still provide some shelter from the blizzard.

With a delighted expression, Su Yu entered the hut and closed the door against the bone-piercing wind. After looking around, he realized that the hut contained a stone table as well as some firewood. Nearby were two carved stones—they were flints!

#### Chapter 496: Dream Spell

With joy on his face, Su Yu immediately ignited the firewood. The warm flames pushed back the chill in the house. Soon after, the house was nice and warm.

Lü Chuyi, who was unconscious, had regained some of her color. Her expression slowly becoming more relaxed. She lay in Su Yu's arms like a silent kitten.

Su Yu let out a sigh. He did not know where he was, and there was an unconscious woman beside him. Deep in thought, Su Yu felt the fatigue of multiple, continuous battles setting in. He fell asleep soon after.

Sometime later, Su Yu was jolted awake. He had felt a hint of killing intent!

What entered his vision was a pair of eyes sparkling like a gem and filled with flames of fury!

Lü Chuyi clenched her teeth as she said, "Release me!"

Coming to his senses, Su Yu released her in a fluster, embarrassed. But he had just removed his hands when he felt a chill on his chest.

Lü Chuyi, after leaving the embrace, also shivered because of the cold. The firewood in the pit had burned out. The cold from outside was seeping into the house. Surveying his surroundings, Su Yu realized the firewood had all been used!

“Hmph! The Ice Soul Divine Dream Spell, what a technique!” Lü Chuyi’s face was still a little red. She looked at the snow outside the house, then let out a cold grunt.

“Dream spell?” said Su Yu.

Lü Chuyi stared at him. “What else? Our cultivation levels and treasures have vanished, and even our physical bodies have returned to their mortal states. What else could it be other than dream spells?”

She grew angry. If her body had not weakened, how could she not fight back against a man who had her in his arms?

This was the first time Su Yu had witnessed a dream spell. He exclaimed in amazement, “Even if I know that this is a dream spell, for it to have such a realistic effect is truly incredible.”

Lü Chuyi looked outside. “The Ice Soul Divine Dream Spell is one of the top five spells in the Eighteen Blessed and Fortune Lands. It would be weird if you could see through it.”

Su Yu stroked his chin. He knew that this lady was fuming, but he did not have the energy to quarrel with her. His expression turned serious as he said, “Then how should we exit this spell?”

Half the time allowed in the Mysterious Heavenly Divine Pavilion had already passed, but he had not been able to find the ingredients necessary to cultivate the Evil Destroying Silver eyes.

“Simple,” Lü Chuyi said. “As long as we can find a loophole, we will not be fooled by the dream spell anymore.”

It sounded simple, but where did they begin searching for such a loophole?

“The so-called loophole will be the place where you think is the least realistic!” she said. “An inconsistency in the illusion.”

Hearing this, Su Yu understood. But he had been here for an entire day. Other than the fact that he had lost his cultivation level and physical strength, he could not find anything else out of the ordinary. The sky full of snow was realistically cold. Su Yu thought hard about the small hut in the snowfield but could not find anything unrealistic about it.

At that moment, the snowstorm stopped. It became sunny outside, the sunlight illuminating the snow.

“Let’s go search outside,” said Lü Chuyi. “Observe closely. If you feel anything abnormal, that must be the loophole.”

Lü Chuyi opened the door. A gale of cold air blasted her, making her shiver and exhale.

Su Yu rose, walking out of the house alongside her. Outside the house, the scenery of mountain ranges was as beautiful as a painting. It was as though this idyllic scenery was frozen in time.

“It is peaceful here, but looking back, an entire lifetime has passed.” Su Yu looked gravely at the scenery before him, letting out a sigh of melancholy.

Lü Chuyi looked at him, her pretty eyes blinking. “To think that you can spout such wisdom.”

Su Yu let out a faint laugh. “I think I found the loophole.”

“Huh?” Lü Chuyi raised her brows. “Where is it? Why don’t I see it?”

Su Yu smiled, his gaze falling on Lü Chuyi’s figure. Her beautiful frame was reflected in Su Yu’s eyes.

“It is before our eyes.”

Lü Chuyi froze, saying in disappointment, “You mean to say that I am made up? Continue searching.” Clearly, Lü Chuyi was a real body. She was not an illusion.

Su Yu lightly shook his head, letting out a sigh. “Not before my eyes. Before yours!”

Lü Chuyi squinted, “You mean to say that you are the illusion?” There was only Su Yu before her eyes!

“Not me, but...” There was a sharp glint in Su Yu’s eyes. “My eyes! I am a blind man. How could I see this vast world?”

Su Yu had long been blind. He could only see the world due to his Soul Eyes. In this snowy wonderland, he was but a normal human being. His Soul Eyes had vanished, yet he could see clearly in this beautiful place. His blind eyes were not blind here! That was the inconsistency!

“What? You are blind?” Lü Chuyi was shocked. Despite their previous interactions, she had not realized that Su Yu was blind.

Su Yu smiled. “The loophole has been found. So, what’s next?”

Lü Chuyi let out a sigh of relief. “We wait quietly for a moment.”

She had just said those words when the scenery contorted like a crumpled piece of paper folding in on itself. Su Yu and Lü Chuyi were like figures in the painting, also being contorted.

The world before them turned into darkness. Suddenly, a warmth spread on Su Yu’s chest. He slowly opened his eyes to see a lady lying on him. She was also slowly opening her eyes. There were still traces of blood on the sides of her lips. It was surely the real Lü Chuyi, who had been injured by the silver puppet?

At this moment, they were standing side by side on a spell at the peak of a mountain! Beside them was a youth who had his eyes closed. It was Lü Chuyi’s disciple. His facial features were contorted, as if he was unable to free himself from an illusion.

Lü Chuyi slowly opened her eyes. What entered her field of vision was Su Yu’s face. She blushed as she freed herself from his arms. Checking herself and confirming that her cultivation level and abilities have recovered, she heaved a long sigh of relief.

Su Yu cautiously scanned the surroundings with his Soul Eyes to check for enemies. But other than them and Wei Kang, even Chou Zeming, Sheng Xuelian, and the other two were missing! Had they not been transported here?

Su Yu was doubtful. He was about to retract his Soul Eyes when he suddenly glanced to the earth beneath his feet. There was a circular plate buried there!

Su Yu prodded with his toes. A circulate plate covered with seals flew out from the ground beneath the spell. The circular plate was cold to the touch, releasing waves of chilly energy. The quality of this item seemed to be extraordinary.

“This is the spell plate of the Ice Soul Divine Dream Spell,” Lü Chuyi said. “It is used to trap enemies. It looks like it can still be used twice. But let’s not talk about how many times it can still be used. Based on its power alone, it can be considered as a middle-grade spiritual artifact.”

Middle-grade divine artifact? Su Yu’s heart shook.

At that moment, after the spell plate was retrieved, Wei Kang woke up from his illusion. He looked at the scene before him, his pupils dilating.

“Teacher, how are your injuries?” Wei Kang asked in concern.

Lü Chuyi waved her hand. “I am fine, this is...”

Surveying the surroundings, Lü Chuyi seemed to find something off about this place. It didn’t seem like the seventh level of the Divine Pavilion. After a moment, she secretly gasped. The look she gave Su Yu was one of shock. This Human King had surprised her time and time again.

Wei Kang noticed this and felt dejected. He was also by her side, but Lü Chuyi had immediately disregarded Wei Kang for Su Yu. Why did his teacher hold this silver-haired lad in such high regard?

“I think we should be more concerned with where the four Half Gods went? Could they have been trapped by the silver puppet at the seventh level of the Divine Pavilion?”

Lü Chuyi turned serious. She closed her eyes and sensed something. Her expression changed. “I think we’re in trouble! The four Half Gods are all in the eighth level of the Divine Pavilion!”

In other words, if they could enter, there was no reason for the silver puppet to not enter the eighth level as well!

Thinking back to the later stage of the Fairy Realm, without any limit on cultivation level, Su Yu’s expression sunk. If they met the puppet again, there might not be any hope of survival.

“They seemed to have been scattered by the transportation spell and are now rushing toward the center of the eighth level of the Divine Pavilion,” Lü Chuyi said thoughtfully. “That is where the Mysterious Heavenly Palace is!” Suddenly, a look of worry filled her face. “But I do not know where Yu Chan is. I did not leave a seal within her and do not know if she made it to this level or not.”

Su Yu suddenly remembered that Yu Chan was the first to follow him into the tunnel of space. He concentrated, but he was shocked when he realized that there seemed to be space power interfering with his connection with Yu Chan. He could not sense her precise location but could confirm that she was within the spell.

“No matter what, we should head to the Mysterious Heavenly Palace first,” Su Yu said.

Lü Chuyi nodded, deep in thought, clenched her fair fist. She had a look of decisiveness as she said, “All right!”

After saying this, Su Yu tossed the Ice Soul Divine Dream Spell into his space ring.

“Wait!” Wei Kang was staring at Su Yu, noticing that he had disregarded them and claimed the spell for himself. He was unhappy. “Teacher, that spell was discovered by all of us, but he is claiming it for himself. Isn’t he thinking too highly of himself?”

Su Yu paused. He looked at him as he asked, “Discovered by all of us? Huh? It was discovered by your teacher and me, but I do not think it has anything to do with you.”

If Su Yu had not taken out the spell plate, who knows how long Wei Kang would still be in a coma?

“We still have to seek my teacher’s opinion,” said Wei Kang. “She has not even spoken. What right do you have to keep it for yourself?”

He was a disciple of the Purple Cloud Palace, as well as a disciple Lü Chuyi had personally brought in. If Lü Chuyi was to make the decision on the spell plate, she would most likely give it to him for his defense. Why would she give it to a mere disciple from an affiliate faction?

In terms of status, Lü Chuyi was an outer sanctum elder from the Purple Cloud Palace, as well as the owner of the Moon Glowing Clear Ship. The Returning Principal Palace was merely an organization equal in status as the Moon Glowing Clear Ship. Furthermore, Su Yu was only a lower disciple from the Returning Principal Palace. The disparity between their statuses would mean that it would never be Su Yu’s turn to obtain the spell plate.

Su Yu shrugged as he laughed. “Your teacher would give it to me. Wouldn’t you, Elder Lü?”

Lü Chuyi’s brows twitched. She did not care for the spell plate, but she was annoyed with Su Yu’s cockiness. Glaring at him as a warning, she said, “It’s all right to give him the spell plate. Let’s set off.”

Wei Kang was speechless. He was furious over Lü Chuyi’s favoritism. A weird look flashed past his eyes.

Whoosh, whoosh, whoosh—

The three figures flickered as they disappeared from where they stood.

\*\*\*\*\*

Four hours later, a breeze blew. A lively 15-year-old girl suddenly descended. Her large eyes scanned the area, studying it in detail with a little disappointment. “The unique constitution that teacher spoke off didn’t appear.”

It was the lady who had tempered with the spell!

With no choice, she took out her compass again. The needle swiveled, immediately pointing to the central region of the eighth level.

“Oh, she already entered the Mysterious Heavenly Palace! How did she make it in?”  
The youth opened her eyes wide, revealing an incredulous look, then smiled. “Haha! I finally found her!”

After saying this, her petite figure flickered as she flew in the direction of the Mysterious Heavenly Palace.

\*\*\*\*\*

On the other side, a silver figure descended out of thin air. It was the silver puppet who had also entered the tunnel of space!

Surveying the surroundings, the silver puppet licked his lips in excitement. “The eighth level. The resources here are rich. It looks like there shall be quite a lot of sacrifices here!”

“But...” A fierce glow filled his eyes. “But, I have to find that human kid first! To take my items and foil my plans! No one can save you!”

After saying this, his bloody eyes flickered. He turned to look in the direction of the Mysterious Heavenly Palace. A ferocious smile crept across his face. His white teeth produced a cold glow.

“Ha! I found you! You are dead, lad!”

#### Chapter 497: The Legacy of Craftsmanship

After one day.

Three figures ran across a vast flatland. They were Lü Chuyi, Su Yu, and Wei Kang.

The 10,000-mile grassland was peculiar, as what should have been 10,000 miles of flat land was broken by a perilous mountain that had appeared abruptly. It was formed by five perfectly straight, precipitous peaks coming together, and it reached all the way into the clouds.

From the middle of the mountain to the top, layers of dark clouds surrounded the five peaks. The dark clouds were rolled about in a peculiar fashion—like ferocious monsters moving and shifting against one another.

Even from afar, it was a fearful sight. It gave Su Yu an ominous feeling, and his soul felt a bit constrained.

“This is the Mysterious Heavenly Palace, an important place of the Mysterious Heavenly Divine Pavilion,” said Lü Chuyi. She heaved a sigh of relief, and her face wore an excited expression.

The so-called Mysterious Heavenly Palace was unlike any normal imperial palace. Instead, it was a mountain formed by five lofty peaks. Su Yu could not suppress the uneasiness within his heart. He did not dare let down his guard.

“Since the Mysterious Heavenly Palace is an important site in the Mysterious Heavenly Divine Pavilion, there will surely be dangers, right?” said Su Yu.

Thunder Emperor Mountain was extremely dangerous as a lightning spirit, which was close to that of the Divine Master in charge of guarding it. Hence, there was no reason to think the Mysterious Heavenly Palace would be any different.

His words caused Lü Chuyi, who had just heaved a sigh of relief, to frown slightly. “Dangers? Naturally, there are some dangers. Even if it were strong martial artists of the Fairy Realm, they also faced the danger of dying at any moment.”

The real meaning behind her words was that to her, the danger was probably not significant. However, that might not be the case for Su Yu and the others.

“Elder, please speak frankly,” Su Yu said sincerely.

Lü Chuyi glanced at Su Yu. “Seeing as you have helped me along the way, I shall tell you!”

The information regarding the Mysterious Heavenly Palace was probably not something that normal people could know easily. Wandering martial artists had no hopes of learning the exact details of the Mysterious Heavenly Palace. For her to be willing to divulge information truthfully to Su Yu was, indeed, a priceless favor.

“The Mysterious Heavenly Palace is extremely dangerous,” she said. “There is an unknown number of ferocious demonic beasts, including beasts at the level of Fairy Realm. Hence, many people who enter the Mysterious Heavenly Palace die as a result and become food for the ferocious beasts. However, when compared to the real danger of the Mysterious Heavenly Palace, this danger is hardly worth mentioning.”

After hearing what was said, Su Yu’s heart went cold. In this kind of restricted environment, where one could not exhibit power that exceeded the cultivation base of the Fairy Realm, ferocious beasts at the level of the Fairy Realm were an unmatched existence. If such ferocious beasts weren’t the real danger here, what was?

“There are two real dangers!” said Lü Chuyi. “Firstly, it is the disastrous thunder of the universe that this mountain contains!”

When Lü Chuyi spoke the two words “disastrous thunder,” her beautiful face grew deadly serious. She who had pulled through the disastrous thunder had a strong understanding of how frightening it was.

“The power of the disastrous thunder is hidden within the five peaks, and outsiders are unable to examine its existence in detail. However, once you encounter it, there is no such thing as surviving due to luck... because that disastrous thunder can kill even Almighty Divine Masters! According to what I know, it was something left behind by a lightning technique-based Divine Master who was trapped within the Mysterious Heavenly Divine Pavilion. However, I do not know the details of his motives for doing so.”

A lightning technique-based Divine Master? Su Yu wondered, could she be referring to the Thunder Emperor who had left his legacy behind?

Thinking about it, in the secret room of the Thunder Emperor, Su Yu had seen only his item and his will. However, he had not seen any sign of his remains. Could it be that the Thunder Emperor did not die, but left the disastrous thunder behind in the Mysterious Heavenly Palace instead?

“If I were to encounter the disastrous thunder,” Lü Chuyi said, “I could use fighting capabilities that exceeded the Fairy Realm to cause myself to be transported out. However, it is clear that both of you will be unable to do so.”

The hearts of Su Yu and Wei Kang shook slightly. How powerful was the disastrous thunder such that it could kill a Divine Master? If they were to encounter it at their current levels, there would indeed be no chance of survival?

“There are not many people who are able to survive an encounter with the disastrous thunder,” said Lü Chuyi. “Hence, your only hope is to not encounter this danger. However, there is a second danger within the Mysterious Heavenly Divine Pavilion. This one, both of you will have to face no matter what.”

Su Yu started to ponder. What else did the Mysterious Heavenly Divine Pavilion contain that was even more frightening than the disastrous thunder of a Divine Master?

“The one thing more dangerous than the disastrous thunder...” said Lü Chuyi, “are human beings!”

Human beings? Su Yu was obviously surprised. His eyes brightened up. “Are you referring to the silver puppet that we are about to encounter and face?”

To his surprise, Lü Chuyi shook her head and said, “No. The silver puppet is indeed dangerous. However, the five mountains of the Mysterious Heavenly Divine Pavilion are extremely huge. Hence, the possibility of encountering him is smaller than encountering the disastrous thunder!”

Su Yu did not understand. “Could it be that apart from us, there are still other people who entered the Mysterious Heavenly Divine Pavilion? Could it be that the spell on the seventh level of the Divine Pavilion that we saw is not the only one to enter the eighth level of the Divine Pavilion?”

Lü Chuyi nodded. “Amidst over 100 explorations, we had indeed discovered that only one transportation spell was present. However, there were one or two times when people bypassed the transportation spell and entered the eighth level. This proves there might indeed be another transportation point, and people other than us may have entered the Mysterious Heavenly Palace of the eighth level of the Divine Pavilion as well. However, the human beings who I am referring to are not them; I refer to the Masters who exist within the Mysterious Heavenly Palace.”

Masters of the Mysterious Heavenly Palace? There was still someone else in the Mysterious Heavenly Palace?

“They have called themselves the Masters of the Mysterious Heavenly Palace. They dwelled within the five mountains long before the Mysterious Heavenly Palace appeared, and their purpose was to protect the five lofty peaks. Their abilities are at

the level of Half Fairy. If we were to come across one of them, we might barely be able to fight them by working together. However, there are a total of 100 of them. With such numbers, if I were to encounter them, in a situation where my cultivation base had been restricted, I can only choose to escape.”

After hearing this, Su Yu was astonished! 100 strong martial artists of Half Fairy? Although Su Yu speculated that he had the abilities to fight with any strong martial artists of Half Fairy, it would definitely still be difficult for him to deal with over 100 Half Fairies.

“However, there is something even more frightening in there,” Lü Chuyi went on. “There is a high possibility that strong martial artists of the Fairy Realm exist among them.”

Strong martial artists of the Fairy Realm? Su Yu pondered. Even if there were strong martial artists of the Fairy Realm, under a situation where they were restricted, it was impossible for their abilities to exceed that of the Fairy Realm.

Wait... thought Su Yu.

His expression became grave, and he gasped coldly, “Do you mean that, as locals of the eighth level of the Divine Pavilion, their cultivation bases are not restricted? That they can unleash abilities exceeding the Fairy Realm at will?”

Lü Chuyi nodded. “That’s right! Although there is no concrete proof, according to my prediction, strong martial artists of the Fairy Realm definitely exist among the 100 guards! If people who entered the Mysterious Heavenly Palace were to encounter him, the only path waiting for them would be death.”

Su Yu adopted a neutral expression. For Lü Chuyi to say so much, it was obvious that she was advising Su Yu not to take risks. However, since things had come to this, there was a high possibility that the silver puppet was nearby and they could only enter the Mysterious Heavenly Palace to avoid him.

Su Yu took a breath so that he could maintain his calm expression. “Let’s go in to take a look,” he said.

In stark contrast, small droplets of sweat had appeared on Wei Kang’s forehead. Although he was doing his best to remain calm, it was easy to see the uneasiness in his eyes.

“Since you have already prepared yourself, let’s set off, then.” Lü Chuyi took a glance at Su Yu. “Follow behind me.”

After her speech, she focused on the third mountain peak and brought Su Yu and Wei Kang over. Apart from being careful, Wei Kang also could not conceal his excitement.

“Congratulations to Auntie,” said Wei Kang. “We will be able to find the Mysterious Heavenly Legacy of Craftsmanship soon.”

Chapter 498: Lightning Avoiding Silver Pearl

Huh? Mysterious Heavenly Legacy of Craftsmanship? Su Yu was a bit doubtful. Had Lü Chuyi risked her life to enter the Mysterious Heavenly Divine Pavilion for a legacy of craftsmanship?

There was eager anticipation in Lü Chuyi's eyes but also worry. "I hope so." She suddenly glanced over at the confused Su Yu, asking, "Did your teacher not tell you about the legacy of the Mysterious Heavenly Palace?"

Su Yu was embarrassed, but his expression remained calm. "My teacher told me to come see the world with Senior Yu Chan and told me no more."

Lü Chuyi seemed unconvinced. Su Yu was far more powerful than Yu Chan. Why would his teacher ask Yu Chan to take care of him? Yu Chan might be the one who needed protecting. Furthermore, Su Yu was in possession of many treasures, especially treasures of Divine Masters such as the Dry Cloud Five Elemental Formation, which was refined for Su Yu. Surely his mission here was not simply to observe.

But she did not question him any further. Instead, she said, "These five peaks each represent a legacy of the Mysterious Heavenly Palace. They are the legacies of craftsmanship, elixirs, techniques, perception, and materials. Each legacy is powerful beyond comprehension, especially the legacies of craftsmanship and materials. Of the Five Great Legacies of the Mysterious Heavenly Palace, those two are the strongest. If you can obtain the legacy of craftsmanship, you can become the top-notch craftsman in the Eighteen Blessed and Heavenly Lands."

Craftsmanship and materials? Su Yu was interested.

"Teacher, aren't you already a top-notch craftsman in the Eighteen Blessed and Heavenly Lands?" asked Wei Yang. "This is a talent even Elder Ouyang Zi of the two palaces has praised."

Wei Yang looked at Lü Chuyi with admiration. He had the utmost respect for her. She was the greatest female cultivator in the Eighteen Blessed and Heavenly Lands, yet she also had an exceptional talent in craftsmanship. Other than Elder Ouyang Zi, no one could stand up against Lü Chuyi in the entire Eighteen Blessed and Heavenly Lands.

Lü Chuyi shook her head. "There will always be someone better than me. A so-called master craftsman might be rather famous in the Eighteen Blessed and Heavenly Lands, but in this vast world, they are merely at the beginner level. Those are Elder Ouyang Zi's teachings. Even he has admitted this. It's all the more true for me."

Su Yu did not expect this lady to be a powerful master craftsman. It seemed her insistence on entering the Mysterious Heavenly Divine Pavilion was for the legacy of craftsmanship. Thinking back to the foreign expression she gave Su Yu when he was trying to stop her from risking her life to enter the eighth level of the Divine Pavilion, Su Yu could not help but let out a sigh of admiration. The persistence this woman had toward cultivation was startling.

Su Yu was not as interested in the path of craftsmanship, but materials...

"Might I ask, what is the legacy of materials?" Su Yu asked.

Lü Chuyi gave a slight smile. "Why? Do you want to obtain the legacy of materials? I would advise you to give up that thought. The legacy of materials is the most guarded legacy of the Mysterious Heavenly Palace. Even I cannot enter, much less you! Furthermore, over these last hundred years, a

good portion of the materials within have been used by the guardians. I would think that the more precious treasures would be used by now.”

Su Yu was disappointed. If that was the case, the possibility of finding the Lightning Avoiding Silver Pearl and the Blood of a True Dragon in the Mysterious Heavenly Divine Pavilion was nearly zero.

“According to the rumors, there are precious treasures from the Ghost World that nearly destroyed the Mysterious Heavenly Palace. But a lightning-based treasure suppressed those ghost treasures.”

“What kind of ghost-based treasure could destroy the Mysterious Heavenly Palace?” Su Yu asked without thinking. “And what was that lightning-based treasure that could suppress them?”

Lü Chuyi looked at Su Yu meaningfully, then explained, “The historical annals I investigated back at the faction only had fragments of information, but if I am not mistaken, it was a powerful ghost-based treasure, powerful enough for Divine Master level fighters to fight over it. The treasure that could suppress it is the famous Lightning Avoiding Silver Pearl! This pearl is used to fight back against the lightning of punishment. There only exists one or two in the hands of that old monster. To my knowledge, there aren’t any in the outside world.”

For someone to be called an “old monster” by the Almighty Divine Master Lü Chuyi, they must be a powerful fighter who exceeded the level of Divine Master.

But the words “Lightning Avoiding Silver Pearl” excited Su Yu. His heart was thumping wildly. For the Lightning Avoiding Silver Pearl to really exist in the Mysterious Heavenly Palace...! This news came as a welcome surprise! The treasure that could suppress the ultimate ghost-based treasure was the Lightning Avoiding Silver Pearl for which he had been searching high and low!

He needed three materials for the Evil Destroying Silver Eyes. The first was the Undead Herb of the Netherworld, which he had already obtained. The second was the Lightning Avoiding Silver Pearl!

Su Yu suppressed his excitement, remaining calm and impassive. Lü Chuyi creased her brows doubtfully but did not question him.

They had already flown to the midpoint of the third peak. They could not see what was above their heads, for it was covered by an impenetrable layer of fog. Amid the rolling fog, were signs of powerful beasts, including occasional auras of Half Fairies.

Roar—

At that moment, a low roar resounded through the mountains. A giant, green tiger leaped out from the fog!

The fog was uncommonly thick; neither of them had realized that there was a giant, green tiger so close to them.

“Ah!” Lü Chuyi let out a low grunt, lifting her right palm as she pressed toward the giant green tiger.

The giant tiger was forcefully pinned to the ground, its bones shattering as it let out an angry roar. Lü Chuyi pressed down with her fingers. The skull of the giant tiger was crushed with a sharp snap. Its roaring ceased.

The situation worried Su Yu. To only be able to kill a beast at the level of Xue Ling with two moves. And while her injuries were still rather serious...

Forcefully activating the Heavenly Orchid Silver Bamboo and suffering a blow from the silver puppet at the stone forest had inflicted her with severe injuries. Her current battle abilities might only be ten percent of when she first showed herself. If they met Chou Zeming and his group again, she might be the one to suffer defeat this time around.

“This green tiger is rather weird. According to my knowledge, these beasts do not readily leave the fog. But it left the fog to try and kill us. That is unusually aggressive behavior.” Lü Chuyi looked at the corpse of the green tiger, her eyebrows raising slightly. She could not find an answer even after some thought. “Forget it, we should leave quickly. The commotion here might have attracted the attention of other beasts.”

Lü Chuyi took a step into the fog. Su Yu and Wei Kang followed behind her.

A moment later, another roar of a beast came from within the billowing white fog. The fog billowed unceasingly.

\*\*\*\*\*

Half a day later, the three of them leaned against a large rock, their breathing heavy.

Lü Chuyi was exhausted, her condition was even worse than Su Yu. Yet her expression was still remarkably determined, showing no intention of backing down.

“Teacher, what should we do?” asked Wei Kang. “There are more beasts here than recorded in the books, and we are unable to see what is going on in the distance due to the fog. If we continue like this, our strength will be drained by the beasts’ continuous attacks.”

Chapter 499: Underground Lava

According to the records, although there were many ferocious beasts within the mist, there was still a limit to them. For the teams that had entered the lofty mountain in the past, they would normally encounter about 20 to 30 ferocious beasts.

However, throughout their journey so far, they had encountered about 50 ferocious beasts.

“It is indeed strange,” said Lü Chuyi. “Could it be that we have entered at an inopportune time?”

She was baffled. Comparing the normal circumstances to the green giant tiger which had leaped from the mist to attack them, it was obvious that some unusual change had occurred.

Su Yu was uneasy. After thinking for some time, he exhibited his Transparent Eyes to examine the body of the ferocious beast they had just killed. From the surface, there was nothing unusual about

its body. The only difference was that the bloodthirsty expression in its eyes had remained all the way until the moment of death. Throughout their journey, the observation was the same for the other 50 ferocious beasts.

Su Yu narrowed his eyes. His Transparent Eyes looked deep into the body. His gaze passed through its fur, flesh, and blood, into the deepest part of its body.

After looking, Su Yu discovered an item abruptly, and his heart could not help but quake. Within the demonic beast's head, there was an inconspicuous charm which was emitting subtle, dark energy. It was this energy that had caused the demonic beasts to be so unusually brutal.

When he looked at the remaining demonic beasts, he discovered that it was the same for all of them. They had been controlled by someone!

"Something might have happened at the place where the legacy is stored. Let's move quickly." Lü Chuyi's grew serious, and she continued moving hurriedly.

The good thing was that they had walked continuously for half a day and were not too far from where the legacy was stored. Hence, in no time, they managed to reach the place that stored the legacy.

Amidst the dense fog, a lofty, black shadow which appeared and vanished continuously. It was a house-sized adobe kang!

The magnificent adobe kang had four sides, with its length and breath being 1,000 feet. The light from the fire within it was reflected toward the sky. Looking at it from afar, the whole adobe kang looked like a volcano.

"Be careful," said Lü Chuyi. "This is the place where the Legacy of Craftsmanship is stored. According to past experiences, there are at least nine Half Fairies guarding it. Moreover, there is also a Half Fairy leader with three Vital Energy Crystals!"

Three Vital Energy Crystals made this leader equivalent to Chou Zeming. Within the Mysterious Heavenly Divine Pavilion, they were considered the strongest forces. With the current state of the three of them, it would be extremely difficult to deal with nine Half Fairies as well as a Half Fairy with three Vital Energy Crystals.

That was also a situation in which they did not want to risk alerting the four other mountains, causing enemy reinforcements to come as a result.

"Yin Yu, if you are willing to help us after the work is done, I can promise you one thing."

She who had fought with Su Yu before understood his fighting capabilities well. Su Yu was so strong that he could even compete with people like Chou Zeming. Wei Kang, who was at one side was stunned. His auntie had actually requested for the assistance of a junior who was a Human King!

Comparing abilities, he was a lot stronger than a brat like Su Yu!

Su Yu forced a smile. "Senior has overestimated me. With my abilities, do I have the right to help senior?"

Those words caused Lü Chuyi to be surprised. It was clear that within the Ice Soul Divine Dream Spell, Su Yu had stayed by her side persistently. However, even though she now asked him for help, he rejected her without hesitation.

A dull look appeared in Lü Chuyi's eyes, but she did not blame him too much. With Su Yu's abilities, if he were to fight them, he would definitely pose a considerable threat to them.

"However," added Su Yu with a smile, "since it was senior who invited me, I shall give my all."

Lü Chuyi's state of disappointment changed into happiness, and her face revealed a delighted expression. When she realized that she had lost control of herself, she could not help but be embarrassed. An Almighty Divine Master had actually requested the assistance of a Human King junior. Worse still, she had allowed her feeling to show!

As she thought about that, she stared at Su Yu, grumbling. She found it difficult to maintain the air of an Almighty Divine Master in front of Su Yu.

Su Yu only shrugged his shoulders and laughed. Why would he miss an opportunity to get a promise from an Almighty Divine Master?

After making up his mind, the three of them approached the adobe kang carefully.

"Huh?"

When the three of them approached, they discovered while stupefied that there were actually no guards at all!

Filled with suspicions, the group flew high up into the sky, stood atop the adobe kang, and looked down into it.

Shockingly high flames could be seen burning inside, emitting an extremely high temperature. Among the raging flames, those with the lowest temperature were only slightly inferior to the Fire Origin. And that was only the outermost ring of raging flames. Those within the adobe kang were even more frightening.

"Let's go in and take a look," Lü Chuyi said. Her beautiful eyebrows had become twisted with worry.

Lü Chuyi was naturally unafraid of flames of such a level. Without even protecting her body with vital energy, she jumped into the adobe kang. Vital energy covered the body of Wei Kang, and he jumped in without any concerns. As Su Yu had cultivated even stronger flames from his training, he was not fearful of these. He jumped directly into the adobe kang.

The three of them entered the bottom of the adobe kang. At once, a shocking heatwave assaulted them. Layers of purplish red flames burned vigorously, and everything within the adobe kang had been burned to ashes. Even the air had been burned away, creating a sort of vacuum. The flames were so strong that it could be compared to the flames of the Origin.

Su Yu was shocked. How rare were the flames of the Origin on the Zhenlong continent? Su Yu only had the chance to achieve the Origin by relying on an Origin Crystal. However, at his current location, the bottom of the whole adobe kang was filled with them!

Moreover, due to the bottom of the adobe kang being continuously roasted by the flames of the Origin, it had become scarlet in color. Some of those flames were fearsome enough that even Su Yu feared them. They were even more frightening than the Origin.

However, that crimson-colored bottom of the adobe kang actually marked the entrance to an open stone door. The surface of the stone door was badly damaged, as if multiple people had attacked it forcefully.

Lü Chuyi's expression grew serious at once. "As expected, something has happened here. This door has never been opened by anyone before! Yet it stands open now!"

That meant the legacy might have been stolen already!

With the flash of her jade figure, Lü Chuyi leaped into the stone door anxiously and entered an extremely hot lava passageway. Su Yu and Wei Kang followed close behind.

After half a cup of tea's time, Su Yu did not know how deep he had gone into the passageway. It was as if he were already 100,000 feet underground.

The temperature of the flames also became higher, to the point that Su Yu frowned a bit as he struggled to maintain his composure against the pain. Wei Kang was not much different. He was already gritting his teeth. Fortunately, the passageway had finally reached its end.

It was an underground space that had been created by human hands, and it was extremely wide. When they swept their eyes past the area, they discovered that in the middle of the area, there was a pond with extremely high black flames. Within that pond, lava flowed about continuously. Moreover, an acrid gas filled the cavern. The fumes stung the nostrils.

Even at a distance of 1,000 feet away, Su Yu's whole body stung with the alarming heat, making him very uneasy.

He could not help but feel shocked. What kind of flames were those? They were far more powerful than the flames of the Origin! Even more shocking was the fact that in the middle of the black lava pond, there was actually a yellowish-brown stone tablet. The stone tablet was stuck in the lava, somehow unaffected by it. Atop the stone tablet was a depression. Within it was a pitch-black scroll!

Su Yu's eyes widened. What kind of impressive treasure must that scroll be, that it did not melt amid such powerful, raging flames?

Lü Chuyi looked ecstatic. "It's the Legacy of Craftsmanship! The Mysterious Heavenly Crafting Technique!"

#### Chapter 500: Mysterious Half Fairy

It was the first time Su Yu had seen such a elated look on her face. Wei Kang was also elated. "Congratulations, Teacher! you finally found the Mysterious Heavenly Crafting Technique!"

Suddenly, the space behind them rippled. An air current suddenly shot toward them. It contained a strong killing intent!

Lü Chuyi and Wei Kang were in the midst of their excitement and did not notice anything strange. Only Su Yu, who was not as surprised as them, immediately noticed the change in air current.

Turning back his head abruptly, Su Yu's expression turned cold. The air current changed its course the moment it was noticed, charging in the direction of the tunnel.

"You wish to leave!" Su Yu let out a low grunt, tossing out the Nine Yin Yang Formation.

Whoosh! Whoosh—

The air crackled multiple times as the Nine Yin Yang Formation activated, enveloping the faint figure.

"Scram!" A cold grunt could be heard as a massive vital energy welled out, sweeping away the Nine Yin Yang Formation!

A hand prodded out from thin air, grabbing the iron needle shooting toward him. Exerting a little force, he snapped the middle-grade divine artifact iron needle!

The invisible person also revealed himself.

It was not one, but two people! They were both wearing a black armor, their robes similar. They had a stoic expression filled with killing intent. One of them had a full beard, and the other had fair skin, almost like a lady.

The cultivation of the full-bearded man was scary. From his aura, it looked like he did not pale in comparison to Chou Zeming. He was a Half Fairy with three Vital Energy Crystals!

The fair youth was a little weaker, but he was also a Half Fairy with one Vital Energy Crystal.

The two of them had different degrees of fatigue. The fair youth was in a better condition, his aura a little weak. The armor on his body seemed to be melted in some places. The full-bearded man had a shocking gash on his armor as if it had been scratched by a ferocious, demonic beast. A large piece of his flesh was torn away, leaving a bloody wound. If the claw had struck him deeper, the full-bearded man might have been torn in half.

It was the full-bearded man who shattered Su Yu's iron needle!

The two of them had expressions of shock and anxiety. They did not stop after they revealed themselves, immediately escaping through the tunnel.

Su Yu glanced at the destroyed iron needle, feeling pity in his heart. That was his only divine artifact that came in a set. They had helped him in many occasions but had been destroyed, just like that!

A cold glow swept past his eyes, lightning flickering around him. The two people were escaping toward the place above the tunnel.

The expression of the full-bearded man suddenly changed, and he shifted his direction of escape sideways by half a zhang.

Just as he was shifting, a golden dagger prodded out of thin air without warning, swiveling as it sliced toward his neck. The big man released vital energy without thinking, forming a protective layer.

The golden dagger missed its mark, merely slicing past his shoulder, unable to break the layer of protective vital energy. Seizing the opportunity, the full-bearded man let out a cold grunt as he struck at where the dagger appeared.

But, a blue orb suddenly appeared where the dagger was, releasing a blue beam of light. His fist hit the beam of light and was repelled.

With whoosh and a flicker of lightning, a figure appeared on the blue orb. It was Su Yu. He had blocked the narrow tunnel, looking down on the two of them from high above.

The full-bearded man looked at the blue orb a little surprised. A passionate glow flashed in his eyes before it was replaced by looks of anxiety. He let out a furious grunt, yelling “Scram! Don’t block the way!”

But, at this moment, five orbs revolved around Su Yu. The five-colored beams of light rose and blocked the entirety of the narrow tunnel.

The expression of the full-bearded man sank. A layer of gold scales appeared on his muscular arm as he punched.

Rumble—

The five-colored beams of light quaked gently with a dull thud!

The Dry Cloud Five Elemental Formation was supposed to be able to defend against an attack from a Divine Master when activated fully. Even though Su Yu only had spiritual energy and could only activate less than ten percent of its power, this was the first time a fighter below the level of Fairy Realm could shake it.

But, it only shook.

The full-bearded man was shocked, a glint flashing in his eyes. “Why are you blocking us?”

Su Yu grabbed the destroyed needle, a cold glow surfacing in his eyes. “You failed to kill us and destroyed my treasure; why do you think I am blocking you?”

The fair youth’s expression turned sinister. “It looks like you have come from the outside world. If you know any better, you will free up a passage immediately. Otherwise, you would not be able to stand in the Mysterious Heavenly Palace!”

Su Yu laughed at the threat. “Now that it has come to this, do you think I’ll let you go alive?” Not even considering why they were in the Grounds of the Legacy, Su Yu had no reason to spare them based on their killing intent alone.

The full-bearded man shifted a little, trying to suppress his fury. “Lad, we had to attack just now because of the circumstance. It is a misunderstanding. I hope you can look past this and free a path for us.”

Without waiting for Su Yu’s reply, a fragrant wind approached them. It was Lü Chuyi with a Golden Leaf in hand, blocking their path of escape. She had a doubtful look on her face. “Oh? Guards of the Mysterious Heavenly Palace? You are not guarding the place outside, but you entered the Grounds of the Legacy to steal the Legacy of Craftsmanship?”

“If I did not remember wrongly, other than the legacies of elixirs and materials of the Five Great Legacies that can be used by the guards, you are not supposed to touch the rest of the Three Great Legacies. How much guts does it take for you to steal the Legacy of Craftsmanship?”

Hearing this, a startled look appeared on the calm face of the full-bearded man. A sinister expression flashed past his eyes. “You need not care about what we are doing. Since you have discovered the scroll to the Mysterious Heavenly Crafting Technique, we have no intention of fighting you for it. Release the beam of light, and we’ll be on our way!”

But, he had just said this when Su Yu let out a cold laugh. “What a joke! Do you think we are fools? The Mysterious Heavenly Technique has been shown to the world, but it has not been taken by the two of you. Instead, you chose to hide in the dark. That means the scroll has some problems. To think you would try to fool us into risking our lives to retrieve the scroll.”

Being exposed, the full-bearded man had a fierce look. His figure flickered as he turned and attacked Lü Chuyi. He let out a low grunt. “Capture the other one; use them to test for traps!”

The fair youth looked at Wei Kang with a sinister glow in his eyes!

Wei Kang was a fighter at Xue Ling’s level. The vital energy in his body had not formed a crystal yet. On the other hand, the fair youth was already a Half Fairy with one Vital Energy Crystal!

With a merciless expression, the figure of the fair youth flickered. Two black lights pulsed in his hands as a dizzying stench filled the air. There was poison!

Wei Kang noticed this, but his expression remained calm. “Hng! Poison technique? It can be considered as strange as demon-based techniques at higher levels, but it seems that you have not fully mastered it!”
