

Nine-Dragon 501

Chapter 501: Ferocious Beast King

With a swing of his big sleeves, an air current started to revolve around Wei Kang's body. It dispersed the great amount of poisonous mist.

At the same time, a layer of protective spiritual energy appeared around his body. He summoned a wooden bat, which was completely filled with rings, on his palm. It emitted a great amount of spiritual pressure and quite a good high-grade divine artifact!

He swung his palm vigorously, and the great number of rings on the wooden bat gave off melodious crashing sounds that were pleasant and unusually splendid to the ear.

Suddenly, Su Yu became stunned and absent-minded for a moment.

If he were already this affected, what would become of the fair-skinned youth, who was facing the divine artifact head-on at the middle of the battlefield?

The eyes of the fair youth could be seen becoming dull, and he stood absolutely still on his position. Taking advantage of the opportunity, Wei Kang went over and attacked his head ruthlessly with a sneer.

"A Half Fairy like you is nothing much more than this!" Wei Kang laughed disdainfully. He was holding a high-grade divine artifact, which he was completely in control of. When he unleashed the powers of the divine artifact, he could compete with a Half Fairy.

However, while under the effects of the wooden bat, the fair youth's figure dispersed inch by inch with a whoosh and changed into jade green-colored mist.

It enshrouded Wei Kang in an instant. Not only was the protective spiritual energy on his body surface unable to block the mist, it also fused with the green mist to become one! Moreover, in Wei Kang's flurried eyes, the dark green air current formed by the fusion of spiritual energy and green mist entered his body directly!

At once, Wei Kang's expression turned ashen and was soon replaced by a pale expression. After that, his expression turned dark purple, accompanied by continuous, painful and horrible shrieks.

His hands that were carrying the wooden bat involuntarily relaxed. The wooden bat slipped out of them, only to be casually caught by a palm that was so fair it looked pale.

The figure of a fair youth could then be seen walking out from a lump of invisible undulation. Previously, they had also depended on such concealment techniques to secretly kill others.

"No matter how useless a Half Fairy is, he is still stronger than a piece of trash like you. Even though you possessed a high-grade divine artifact, a very valuable treasure, your fighting experiences had stopped at the level of duels. Do you treat this place as your faction?" The fair youth laughed disdainfully and stepped on Wei Kang's face once, leaving a pitch-black footprint.

Wei Kang's face was extremely red, and his furious eyes were wide open. He was especially enraged and humiliated. However, the poisonous gas within his body had taken effect, so he was unable to resist in the slightest bit.

At that moment, a thunderbolt abruptly descended from the sky three inches in front of the fair youth. Two fists came out from it.

The fair youth was not surprised. Instead, he revealed a disdainful expression as if he had already known the fists would come. "Same old tricks!"

As he had already made preparations for the attack, he opened his mouth and spit out a mouthful of red liquid. The red liquid contained extremely strong and violent poison such that layers of weak, black cracks on the void appeared on the surrounding air.

The poison was so strong it could easily corrode the air, let alone Su Yu.

"Enjoy it to your fullest. The Bloodbath Jade Dew Liquid is a sure-kill poison, and I have specially left it for you!" The fair youth laughed. If he wanted to escape successfully, his biggest obstacle was not that mysterious woman. Instead, it was the little kid in front of him who possessed strong spells!

Hence, he set a trap a long time ago. He deliberately revealed his weakness when he defeated Wei Kang, so he could lure Su Yu out to attack him. After that, he would spit out the Bloodbath Jade Dew Liquid he had prepared long before and use it to kill Su Yu before Su Yu could exhibit his spell.

The full-bearded man, who had been watching from afar, could not help but laugh loudly. "Nicely done!" However, their expressions abruptly became serious.

The two fists that came out from the thunderbolt were prepared as well, and they suddenly grabbed forward. Two lumps of five-colored thunderbolts were actually hidden within the two palms!

With a whoosh, the red liquid was caught by the palm and enshrouded by the thunderbolts and could be heard whooshing around under their binding. It emitted blood-red mist continuously.

The full-bearded man was shocked as he watched.

Su Yu had exhibited Disastrous Thunder!

Thunderbolts were naturally effective against evil and poisonous items. A tiny bit of thunderbolt contained the will of the universe! Hence, how could the poisonous liquid free itself from the thunderbolt?

The fair youth was shocked, and his heart felt cold. Without hesitation, he retreated.

However, just as he was about to retreat, five balls flew out from the thunderbolts in front of him. With a whistling sound in the sky, the five balls covered the fair youth's body.

The fair youth's expression changed greatly. Without thinking, he tossed a charm toward the sky. The charm exploded on the spot, and an attack of a strong martial artist with three Vital Energy Crystals was released!

A layer of dark blue light then changed into a sharp arrow, which shot straight up into the sky. It seemed like he wanted to use the sharp arrow to stop the Dry Cloud Five Elemental Formation, so he could buy some time to escape.

However, the Dry Cloud Five Elemental Formation ignored the so-called sharp arrow and headed downward directly. It then destroyed the sharp arrow and firmly trapped the fair youth.

At the same time, the five light beams shrank and trapped the fair youth to the point where he could not move at all.

At the very moment, Su Yu's figure came out from the five light beams with a whoosh. After that, he took a step forward and pressed his palm against the head of the fair youth.

The Bloodbath Jade Dew Liquid on his palm, which was surrounded by the thunderbolt, was then thrust into the fair youth's mouth.

Ah—

With a sad, shrill and horrible shriek, blood abruptly shot out from the pores of the fair youth's body. After that, his body festered and melted, leaving a lump of black bloodstain on the ground.

A Half Fairy was poisoned until he became mincemeat, just like that.

“Even though you are a Half Fairy, it seems like you are not much.” Su Yu weaved signs with one hand, and the Dry Cloud Five Elemental Formation flew back to his body. When he passed by Wei Kang's body, he pulled him up expressionlessly.

Wei Kang's eyes were glowing vigorously. When he was pulled up by Su Yu, his body shook violently.

Su Yu was unimaginably strong! From attacking until poisoning his opponent to death, he had only taken a few breaths' time. It was as if he had killed his opponent as easily as pushing something horizontally!

His strong and fierce way of attacking, which was like a heavy rainstorm and strong gale, had dealt an extremely huge blow to Wei Kang. In Wei Kang's mind, Su Yu was merely a Human King. He was unable to understand why Lü Chuyi requested for Su Yu's assistance previously.

Looking at it in that very moment, he finally understood Lü Chuyi's intention!

How was Su Yu a Human King? He was clearly a monster who was extraordinarily strong!

After finishing up on his side, Su Yu's cold eyes looked toward the full-bearded, big man. Having been seen by Su Yu, the full-bearded man's back felt chilly, and he revealed a fearful expression.

Lü Chuyi, who was fighting with him, gave a cold hum. “You dare to be distracted while fighting with someone? You are just looking to die!”

With a thrust of her palm, a lump of spiritual energy landed on the chest of the full-bearded man and exploded. At once, the armor that had already cracked open fell apart, and the shocking, bloody wound on his chest became even clearer.

“Wait! Don't kill me!” The full-bearded, big man talked quickly and stared at the lava lake persistently. He then revealed an anxious expression. “Listen to me. For now,

don't worry about anything! Escape immediately! This place is not a place where the Legacy of the Mysterious Heavenly Crafting Technique is. Instead, it is a blood sacrifice..."

His words ceased abruptly as his figure disappeared into thin air!

All they heard was the sound of the lava moving about. When everyone looked over, they just managed to see a leg of the full-bearded man, who had been hurled into the lava pool!

Su Yu's pupils shrank vigorously. He had only seen a scarlet light, and the full-bearded, big man disappeared after that! What kind of frightening speed was that?

As for everyone on site, Lü Chuyi was probably the only person who could see what had happened clearly. Her expression had already turned extremely unpleasant. Without thinking, she grabbed Wei Kang and Su Yu with one hand each, activated the Golden Leaf on her palm and escaped a thousand miles away with a step.

Her expression was extremely ghastly. "It's a Fairy Realm Ferocious Beast King! He was hiding within the lava! We have to escape quickly!"

Chapter 502: White-Eyed Fire Glass Frog

Even though the red flash of light that took the full-bearded man was fast, how could it escape the eyes of the Almighty Divine Master?

Lü Chuyi grabbed the two of them just in time, activating the Golden Leaf as they fled for their lives. But, the red light flashed as a faint afterimage crashed toward Lü Chuyi's back.

If this had been the Lü Chuyi of the past, a normal attack from a Fairy Realm fighter would not have been able to do anything to her physical body of a Divine Master.

But, she was nursing a serious injury and had been engaged in combat with the full-bearded man. How could she take an attack from something of the Fairy Realm? She could only temporarily give up on the idea of traversing a thousand miles with a step, instead shifting her shoulders to her side, sliding two zhang to her left.

A bright, blazing red flash jumped past Lü Chuyi's shoulders, the burning temperature igniting her robes.

Lü Chuyi released a layer of vital energy, extinguishing the flames. But, her robes had been slightly burnt, revealing her somewhat red skin. The burning pain caused Lü Chuyi to gasp.

"Hehehe, to think an Almighty Divine Master would come personally to the Mysterious Heavenly Divine Pavilion." An inhuman laugh came out from within the black lava as if mocking the limited cultivation level of the Almighty Divine Master and her being at a disadvantage against a Fairy Realm beast.

The black lava rolled under the witness of the three people as a ten-zhang-large black thing came out from within.

Su Yu had thought a giant rock had emerged. Observing it closer, however, he saw a pair of giant, white eyeballs about the size of a human head under the black lava. It was tiny compared to its ten-zhang-large body.

“A frog?” Su Yu was shocked. The stone-like monster before them was a frog!

“It’s not any ordinary frog; it is the White-Eyed Fire Glass Frog, the Ferocious Beast King at the early stages of the Fairy Realm!” Lü Chuyi had a certain gravity in her voice. This beast was clearly trouble. “It has the bloodline of an immortal and was born with powerful flames. It is a spiritual pet that master craftsmen have taken a fancy of and is long lost in the outside world. To think there would be one here!”

The eyes of White-Eyed Fire Glass Frog had a crafty light. “Hehe, to think you would recognize me! Better than those nine thieving guards!”

Nine... So, there were guards other than full-bearded man and fair youth stationed here? It looks like they have all become a satisfying meal for the White-Eyed Fire Glass Frog.

The White-Eyed Fire Glass Frog then extended a long tongue, flicking at the stone tablet in the middle of the flames. The stone tablet let out a black glow as it revealed its true appearance. It was a petite, palm-sized green frog!

“The nymph of a White-Eyed Fire Glass Frog?” Lü Chuyi’s expression sunk. “It disguised itself as the secret scroll of the Mysterious Heavenly Crafting Technique? So, this place isn’t the place of the Legacy of Craftsmanship?”

Before he died, the full-bearded man had said this wasn’t the place of legacy, but of blood sacrifice!

“Hehe, that’s right. Are you disappointed?” The White-Eyed Fire Glass Frog had a mocking smile.

Hearing this, Lü Chuyi knew she had wasted all her effort. She slowly closed her eyes, opening them again after a deep breath. There was a cold glow within them. “You wish to keep us here?”

The White-Eyed Fire Glass Frog had a faint smile. “Even though I can complete the blood sacrifice using the flesh and blood of those nine idiots, I might be able to break through the hurdle and enter the middle stage of the Fairy Realm if I consume an Almighty Divine Master of the human race.”

Lü Chuyi’s face turned cold. “Hng, you must be dreaming!”

The White-Eyed Fire Glass Frog did not reply, instead letting out several cold laughs before it suddenly opened its mouth and shot out its long, red tongue. The tongue swept across the space with the intention of devouring the three of them in one attack.

“Attack!” Lü Chuyi let out a low grunt. They had no chance of escaping given the abilities of this frog. They could only risk it and engage in battle.

Su Yu’s heart froze. This was a real being of the Fairy Realm!

Facing this monster head-on, Su Yu could not afford to be careless. He took in a light breath as he immediately activated the Dry Cloud Five Elemental Formation, enveloping all three of them.

Su Yu relaxed a little when he was in the formation. The Dry Cloud Five Elemental Formation had never been broken when Su Yu was activating it with all of his powers. The most it had suffered was an intense trembling.

At the side, Wei Kang also heaved a sigh of relief. He had personally witnessed the power of this formation and felt safe.

Only Lü Chuyi had a serious expression. “Attack with all you have; don’t hold back!” With a creak, a golden bamboo dropped from her sleeve. It was the Heavenly Orchid Silver Bamboo.

The White-Eyed Fire Glass Frog froze, suddenly looking surprised. “Could that be? The Greatest Divine Bamboo of Jiuzhou, the Heavenly Orchid Silver Bamboo? Wasn’t this item destroyed many years ago? To think you would still have one of those—it truly is incredible!”

Lü Chuyi disregarded it, concentrating as she infused vital energy, forcefully activating the treasure. Su Yu looked worried. She had already forcefully used the bamboo multiple times. If she continued to do that, her injuries would definitely worsen.

But, it was a matter of life and death. She was risking it all, and Su Yu would naturally not hold back.

With a thought, Su Yu sat down cross-legged. A spiritual glow flashed on the top of his skull as his soul left his physical body.

Wei Kang did not realize this, not understanding why Su Yu would sit down and close his eyes in the midst of a crisis. But, Lü Chuyi glanced over, her eyelids twitching. Soul leaving the body!

She remained expressionless but was incredibly shocked; only Almighty Divine Masters could achieve that! Because the technique involved the soul, Almighty Divine Masters could only do it under multiple layers of protection. They also could not maintain it for too long.

But, Su Yu had accomplished it so casually. It looked like he was adept at utilizing the technique.

She could not recover from the shock. She had never heard of a technique that could allow for the soul of anyone under the level of Divine Master to leave their body. Suddenly, Lü Chuyi felt that Su Yu was incredibly foreign. He was more powerful than she thought he was.

This was ridiculous. She was an Almighty Divine Master, multiple levels above Su Yu. In the past, she would not even look at juniors like Su Yu directly, but now she was having such a revelation.

Collecting herself, she emptied the vital energy in her body, finally activating the Heavenly Orchid Silver Bamboo. She then flicked her wrist, and a ray of golden light sliced across the air.

The devastating power seemed to obliterate everything.

Su Yu’s soul had entered three zhang within the frog. He delivered a merciless attack on the soul of his opponent!

But, the White-Eyed Fire Glass Frog laughed mockingly. “Under the limits on your abilities, your attacks are futile!”

Chapter 503: Void Raging Flames

The White-Eyed Fire Glass Frog shook its body slightly, also shaking the black lava beneath it. A black lava wall then appeared and blocked the golden light that had ripped open the horizon.

With a cracking sound, the lava wall was split into two. However, the frighteningly high temperature of the lava’s black flames caused the golden light to disperse by more than half.

When the golden light broke through the lava wall and struck the body of the White-Eyed Fire Glass Frog, its power was weakened by 30 percent!

The White-Eyed Fire Glass Frog did not even dodge the attack. Its skin had been influenced by the flames for a long time, so the weak golden light only left behind a spark and disappeared.

The strongest attack Lü Chuyi could unleash in the Mysterious Heavenly Divine Pavilion was easily dispersed, just like that. However, although her attack had failed, there was still Su Yu's soul attack!

Lü Chuyi looked at Su Yu, who was quickly and calmly approaching the White-Eyed Fire Glass Frog. Her beautiful eyes were filled with a tiny bit of anticipation as she watched, and she gripped the Heavenly Orchid Silver Bamboo in her palms more tightly.

The moment when the frog's soul was injured would be the moment she could attack again and kill it!

At the same time, Su Yu's Soul Body was not afraid of the lava wall. He attacked the White-Eyed Fire Glass Frog's soul! Since they were at soul level, the high temperature on the White-Eyed Fire Glass Frog's body was completely useless. It could not block the attack at all.

At that moment, Su Yu was about to succeed!

However, the eyes of the White-Eyed Fire Glass Frog, which had clearly never discovered the existence of Su Yu's soul, revealed a human-like joking expression. It glared at Su Yu's Soul Body coldly. It had actually discovered him!

Although Su Yu was about to attack, he still observed the surrounding activities closely. When he detected the slight change in the frog's expression, his heart clicked, telling him the situation was not good. Hence, he immediately gave up on attacking and wildly retreated.

But, before he could escape, the White-Eyed Fire Glass Frog sneered, "It is too late for you to leave now!" At once, a layer of void gray flames emitted from the soul of the White-Eyed Fire Glass Frog.

Yes, they were flames at the soul level!

It was similar to the Great Thunder Heart Technique that Su Yu had successfully cultivated where he could insert a tiny bit of thunderbolt into souls. However, that tiny bit of thunderbolt paled in comparison to the void raging flames in front of him, which numbered up to 10,000!

Looking at the power the raging flames contained, even souls in the Fairy Realm would be burnt to ashes on the spot—not to mention Su Yu, who was in the Immortal Realm!

"Eat the void raging flames! I have only cultivated it successfully after training for over a hundred years!" The White-Eyed Fire Glass Frog gave a cold hum, and the gray flames emitting from its soul quickly headed for Su Yu.

Even though the void flames had just appeared, Su Yu's soul felt an extremely strong burning pain and began to show signs of withering.

Upon seeing that, Lü Chuyi's expression changed greatly. "Quick! Run away!" she shouted. "Your soul is not condensed enough—it will be burnt by the soul fire at any moment!" The pupils in her

beautiful eyes had shrunk to the size of needle points, and her heart had sunk to the bottom of a valley.

“Die! My void raging flames have killed people of the Fairy Realm before. Even if you die, you can have no regrets!” The White-Eyed Fire Glass Frog gave a ferocious shout and manipulated the void raging flames to surround Su Yu, who was still trying to retreat.

In its eyes, Su Yu’s soul being able to leave his body was obviously more dangerous than Lü Chuyi. It had to kill him quickly.

Even though Su Yu’s reaction was extremely fast, the White-Eyed Fire Glass frog was especially crafty. It had pretended to be ignorant and waited for Su Yu to fall into its trap. With such a sure-kill attack, how would Su Yu escape?

The great amount of void raging flames enshrouded Su Yu completely. In the blink of an eye, his Soul Body became the burning silhouette of a man.

Lü Chuyi’s pupils shrank further. She could not accept the fact that Su Yu’s soul had landed in a state where it was burning with raging flames! Her heart could not help but feel misery.

Although it was clear she had not known Su Yu for long, he had left behind an extremely deep impression in her heart at some point in time. Even after many years, she would definitely not forget she had once met a young man who rescued her in the Mysterious Heavenly Divine Pavilion.

When she looked at the White-Eyed Fire Glass Frog, which had a joking expression again, her beautiful eyes became filled with murderous energy.

However, at that very moment, the White-Eyed Fire Glass Frog’s expression turned serious and its breathing rapid. “Impossible! How can this be?”

A great amount of gray flames were continuously coming out of the White-Eyed Fire Glass Frog’s soul. It was the void raging flames! They were involuntarily drained from its body in great amount and were gathering at Su Yu’s body.

The White-Eyed Fire Glass Frog roared furiously. However, no matter what it did, it was still unable to stop the void raging flames from leaving its body.

With just a few breaths’ efforts, only a few tiny bits of void raging flames were left within its body. Looking at Su Yu, however, the void raging flames on his body were 30 feet tall!

Moreover, within the raging flames was an indistinct Soul Body that was not only safe and sound, but looking at the White-Eyed Fire Glass Frog coldly.

If they had possessed the Transparent Eyes, they would definitely realize that within Su Yu’s soul, the Nine-Dragon Cauldron was continuously swallowing the void raging flames from the outside world, and they were revolving around the surrounding of the small cauldron.

Hence, those void raging flames did not harm Su Yu in the slightest bit.

In no time, there was a whistling sound at the soul level. The soul flames that the White-Eyed Fire Glass Frog had cultivated for countless years had been completely taken away by Su Yu!

The White-Eyed Fire Glass Frog opened its furious eyes wide. It was unable to accept such a reality! By staying within the black lava for such a long time, its soul was able to take in the flames bit by bit. From there, it could create raging flames that were specially used to attack souls.

However, in just a few breaths' time, the raging flames were stolen! The White-Eyed Fire Glass Frog was especially furious, and its eyes were breathing black flames. "Die!" it screamed.

The White-Eyed Fire Glass Frog then opened its mouth and extended its long tongue again. However, this time its tongue was filled with black raging flames, the temperature of which was more frightening than the lava!

As soon as they appeared, the spiritual energy within a 1,000-foot vicinity started to burn, and the surrounding area became a sea of fire in an instant.

This was extremely similar to the Purple Sun Incredible Umbrella. However, the power of the flames of the Purple Sun Incredible Umbrella was less than one tenth that of the black raging flames! Although the two flames could be compared to the Origin, their difference was not just one level.

Su Yu's Soul Body quickly returned to his body. Right when he opened his eyes, he weaved signs with one hand, and the Eternal Stone King Armor covered his body.

At that moment, the long tongue came, burning with black flames.

Creak—

The five-colored light beam shook violently at once!

The attack of the long tongue was really an attack of the Fairy Realm. Hence, it did not manage to break through the five-colored light beam. Su Yu heaved a long sigh of relief.

However, a small portion of the raging flames on the tongue had landed on the light beam!

With a whoosh, the light beam was immediately burnt! The corresponding ball gave a whimpering sound and suddenly became dim. As for the other four light beams, they were burnt in succession. Without even withstanding the raging flames for a moment, they were melted by the black flames!

The Dry Cloud Five Elemental Formation had been broken through!

Chapter 504: Fighting a Fairy Realm Alone

The black flames were more horrifying than expected!

With the five-colored light beams dispelled, the spreading black flames surrounded Su Yu and the group, no longer having any obstructions. The horrifying temperature that suddenly descended made Su Yu feel the threat of death.

Black vapor billowed out of the Eternal Stone King Armor on Su Yu's body. It was the ghost energy left within the armor. The ghost energy had billowed out on its own accord as the armor was suffering an indefensible attack.

Wei Kang could not react in time. The spiritual energy shield he hastily formed instantly melted! His body was ignited by the high temperatures. He was coated in flames and releasing spirit energy in an attempt to extinguish the flames in the midst of his startled roars.

But, the spirit energy instantly turned into harsher flames the moment it was released. Wei Kang was about to be turned into ash. At the most critical moment, the Golden Leaf in Lü Chuyi's palm swiveled, turning into a leaf-shaped shield three zhang large.

The black flames were repelled when they touched the shield, which could not be burned. A moment later, the black flames were extinguished, having run out of fuel to burn.

Seizing the opportunity, Lü Chuyi waved her sleeves, creating a big gust of wind to extinguish the flames on Wei Kang's body. His robes had been completely incinerated, and his flesh was burnt in multiple areas. He gasped continually, clenching his teeth in pain. If he was saved a moment later, he might have been burnt to death due to the high temperature of the black flames. If they had directly landed on him, he would have instantly been reduced to ash.

With the crisis averted, Su Yu secretly heaved a sigh of relief. While he was shocked by the horrifying power of the black flames, he was even more surprised when he looked at the Golden Leaf. The Greatest Divine Bamboo of Jiuzhou was extraordinary indeed. Wouldn't an armor or weapon forged by this treasure be unbreakable?

The White-Eyed Fire Glass Frog let out a look of caution. The Heavenly Orchid Silver Bamboo could clearly counter its flames. But then, a mocking look flashed past its eyes. "Hehe, it should activate soon!"

Su Yu felt uneasy when he heard this.

Suddenly, Lü Chuyi let out a moan, her figure shuddering as the Golden Leaf in her hand flickered with gold light. She could not maintain this any longer. Her beautiful face had turned completely red. She was incredibly hot, her eyes laced with pain. It was as though she was being burnt from the inside out. The injury left on her right arm by the tongue was now a dark red. Shreds of dark red light were flowing throughout her body, burning her from within!

"Fire poison!" Lü Chuyi clenched her teeth and shivered. A burning flame shot out of her mouth the moment she opened it.

The flowing, dark red glow was the fire poison.

There were many toxins that even flames could not burn within the black lava. The White-Eyed Fire Glass Frog had been cultivating for the longest time in the lava. Its body was carrying this fire poison.

The black flames were powerful. But, the fire poison can kill without a sign, making it even more terrifying.

That was the case for this fire poison. Lü Chuyi's organs were burning, her pain unbearable. The fire poison was spreading rapidly when it came into contact with the spirit energy in her body. Only vital energy could suppress the fire poison, but with the multiple battles, her vital energy reserves had been depleted. She could only barely stop the spread of the fire poison.

Without the sustenance of vital energy, the Golden Leaf fell with a clank. Lü Chuyi was shaky, falling to the ground with a thud.

Su Yu extended his hand and grabbed her, placing her down softly on the ground. "Leave the rest to me."

The fire poison was extremely overbearing. It did not only burn her body; it seemed as though it was also affecting her soul, causing Lü Chuyi to slip into a coma.

With Su Yu's Soul Eyes, he noticed the fire poison was gathering toward her heart. Once her heart had been invaded by the fire poison, her life might be in danger. The fire poison must be expelled quickly!

But first, he must quickly deal with this Fairy Realm Ferocious Beast King. A look of decisiveness crept up in his eyes. It was time to use that item.

With a thought, a spiritual glow surrounded Su Yu's finger. A destructive sword aura billowed out!

Lightning roared and illuminated the surroundings. The roars of the lightning were deafening, spreading over thousands of miles. The lava on the ground boiled, shooting up a hundred zhang in the air. The underground space shook. Heated stones fell continually. It was as though the earth was about to collapse.

The entire peak violently shook. The earth-shocking roars of lightning charged out from the peak and into the surroundings—at the peak of another mountain.

The purple-robed Bai Qi seemed to be thinking about something. The shocking roar of lightning suddenly descended. He shuddered as he let out a look of caution. "Is this...that Disastrous Thunder?"

There was a mysterious Disastrous Thunder that existed in the Five Peaks. As a ghost, the thunder countered him. Could this be that same Disastrous Thunder? His gaze flickering, Bai Qi followed the direction of the sound and flew over.

At another peak, Ming Fei was bringing along a group of people, searching in the land of legacy. But, this place of legacy was empty. It had been taken by someone else long ago.

"Someone had already came into the secret chamber of the Legacy of Techniques?"

Ming Fei raised her brows. "These ruins are ancient. It looks like it has been taken away by someone else long ago. But, that is fine; I need not waste any effort to open another blood sacrifice."

Muttering to herself, Ming Fei ordered the members of the Three Great Ancient Clans. "There are still Four Great Legacies of elixirs, perception, materials and craftsmanship in the other peaks. Go and investigate it. Tell me if there are other legacies that have not been opened yet."

Shi Jie and the rest obeyed. Their abilities were ordinary, just enough for scouting purposes.

They had just left when the roars of lightning descended. Ming Fei's expression changed. The powerful lightning was causing the ghost energy in her body to tremble.

"The Cosmos Thunder Sword? How could it be here... Could that darned blood haired have made it into the Five Peaks too?" As the Heavenly Ghost of the Dragon Abyss of Nine Underworlds, she was more familiar with the Cosmos Thunder Sword than anyone else. It was a lightning sword of extreme energies. The counter-effect to ghosts was hard to imagine.

Even though she was largely recovered, Sheng Ge was not confident that she could fully defend herself against that sword. She had a sinister look in her eyes. Sheng Ge let out a grunt. “Lad, I’ll get my revenge on you when you finish using the Vital Energy Crystal in your body!”

At the other three peaks, the Seven Lords of Darkness were in a mysterious land. Their surroundings were pitch black.

In Lord Yi Yu’s hand was a glowing scroll. The other six, including Bai Luo, were all casting spells around Lord Yi Yu as if they were preparing for some ritual.

Suddenly, a heavenly lightning descended. The six of them opened their eyes at the same time, filled with shock.

Bai Luo had a glint in his eyes with a look of caution. “Could this be the legendary Disastrous Thunder?”

To this, Lord Yi Yu was doubtful. She shook her head. “Perhaps. We should not waste time, and start setting up the Heavenly Offering!”

Hearing this, Bai Luo looked at Lord Yi Yu in the dark, silently casting his spells.

Outside the Five Peaks, the Silver Puppet was quickly flying over. He was tens of thousands of miles away when he heard the roar of lightning.

The Silver Puppet froze for a moment, then let out a cold smile. “Is that the Disastrous Thunder left behind by the Thunder Emperor? That’s good; I’ll take it together with the Five Great Legacies!”

In the underground space of lava...

The deafening roar of the heavenly lightning spread out with destructive power. Wei Kang could not guard against it, letting out a pathetic cry. His ears bled even though he was almost at the level of Half Fairy. The soundwave shocked him into a coma.

Within the black lava, the White-Eyed Fire Glass Frog’s mocking gaze turned rigid.

Clank—

A three-inch-long lightning sword had appeared in Su Yu’s hands. It was surrounded with lightning, radiating a massive aura. The Cosmos Thunder Sword was Su Yu’s trump card!

It was to be used to guard against Sheng Ge, thus he had not used it despite all the times he had faced danger. But, he had no choice now.

With the shattering of the last Vital Energy Crystal in Su Yu’s body, the massive vital energy reserves welled out of his body, manically entering the Cosmos Thunder Sword.

In that moment, the Cosmos Thunder Sword in Su Yu’s hands grew continually, instantly turning 100 zhang long.

The White-Eyed Fire Glass Frog had a look of fear. It let out a strange cry. “Wait, human! Don’t attack first!”

This sword had let it feel the threat of death!

Su Yu remained unmoved. He infused the last of his vital energy into the sword, activating the Cosmos Thunder Sword to its most powerful state! The fearsome lightning with its destructive aura had long surpassed the level of a Fairy Realm.

“Don’t you want the Legacy of Craftsmanship? I know where it is!” The White-Eyed Fire Glass Frog said in a hurry as it saw that Su Yu had no intention of compromise.

The only reply was Su Yu’s ice cold gaze. “There’s no need!”

With the flick of his wrist, the 100-zhang sword of lightning only left an afterimage in the air as it sliced down with a deafening roar. The White-Eyed Fire Glass Frog felt a mixture of shock and fear, its eyes bulging as it dug into the lava pool.

But, just as it was digging down, the lightning struck!

Chapter 505: Fairy-Level Cultivation Technique

With a whoosh, as if the Heaven and Earth were being created, an unmatched sword light suddenly glowed.

The lava pool that had settled down for a hundred years was split open by a sword! The lava erupted, and the raging flames spread vigorously. The mark of a sword had directly penetrated the bottom. The whole pool was destroyed.

With a mournful and horrible shriek amidst the unmatched sword light, the big body of the Fairy Realm Ferocious Beast King was split into two, as well!

Just like that, a Fairy Realm had fallen.

The power of the sword had already exceeded the Fairy Realm, which was the critical point in the Mysterious Heavenly Divine Pavilion. Su Yu breathed as though he had expected it already. Suddenly, a lump of space energy surged. It then enshrouded Su Yu and was about to transport him out.

Su Yu laughed at himself. “Looks like this is the end of the line for me.” As he looked at Lü Chuyi, who had fainted, he sighed helplessly. “Seems like I did not let you down. I hope you are able to obtain the legacy you wanted.”

Lü Chuyi’s perseverance had remained clear and distinct in Su Yu’s mind. She would even go to the extent of giving up her life just to come to their current location. Hopefully, her wish would be granted. Su Yu closed his eyes slowly; he had already accepted his fate.

However, at that moment, a scroll that was glowing with a fluorescent light came out from his space ring.

Realizing that something was strange, Su Yu opened his eyes to take a look. He could not help but be stunned on the spot, and he only remembered the background of the scroll after being stupefied for some time.

That day, he had been swallowed into the body of Bai Qi, the Ghost King, and he had luckily managed to escape after a few days. When he was about to leave, he had unexpectedly found a scroll that emitted a fluorescent light. It seemed to be a map.

After keeping the scroll, he forgot about its existence. If not for the scroll suddenly appearing at that very moment, Su Yu would have almost completely forgotten about it.

As soon as the scroll appeared, a glittering light was emitted. The light was extremely gentle, and it also contained an aura that was very similar to that of the Mysterious Heavenly Divine Pavilion. As for the space energy that enshrouded Su Yu, after struggling and hesitating for some time, it retreated slowly!

Su Yu, who was about to be transported out, then stood in the Mysterious Heavenly Divine Pavilion steadily again.

Such an unexpected and magical scene had surprised Su Yu. At the same time, he could not conceal his happiness. At the moment he exhibited the Cosmos Thunder Sword, he had already prepared for himself to be transported out.

He did not expect that with the scroll with him, he would be able to ignore the space transportation in the Mysterious Heavenly Divine Pavilion!

Su Yu's eyes brightened with excitement. He opened the scroll again. Like before, the scroll was an incomplete map, and the regions it displayed were extremely unfamiliar. However, the regions were definitely not part of the Mysterious Heavenly Divine Pavilion.

Mysterious Heavenly Map? At that very moment, Su Yu noticed a line of extremely small words within the map that he had previously missed. They were three words that had been carefully carved on the map.

What is this? Su Yu was at a loss. However, without a doubt, the map was extremely valuable.

Thinking about it, when the Ghost King was still alive, he was probably an existence that was unimaginable. Hence, could the Mysterious Heavenly Map that was stored within his body be a normal item?

After thinking it over for a while, Su Yu carefully stowed the Mysterious Heavenly Map away again.

With that over, Su Yu finally had time to examine the White-Eyed Fire Glass Frog he had killed. Its body had been split in half, and it was floating atop the lava.

Moreover, after the lava was slashed by the Cosmos Thunder Sword, its temperature decreased quickly for some reason. The layer of black flames had disappeared slowly as if it had been swallowed by something.

After confirming that the high temperature within the lava was no longer present, Su Yu leaped onto the stone tablet. By moving his two hands with a great force, he caught the two halves of the White-Eyed Fire Glass Frog's body and brought it up to the shore.

No matter what was said, the body of the Fairy Realm was still a treasure. Hence, Su Yu would naturally not leave it alone. With a flash of green light on his arm, the White-Eyed Fire Glass Frog's body was transferred into the Nine Jade Spiritual Pearl.

Right when he did that, Su Yu took a glance from the corner of his eyes and realized something atop the lava seemed to have shaken slightly.

His eyes darted over like electricity. By chance, he discovered a completely emerald green frog that was exerting force on both its legs with great effort. It jumped into the lava. Its movements were clumsy, and it gave off an air of charming naiveté.

The child of the White-Eyed Fire Glass Frog? Su Yu was surprised and flew over. By sucking the air, he brought the frog to his hands.

Realizing it was in danger, the frog croaked and shook its small legs like its life depended on it. Its mouth was also still spitting out raging flames, which were not weak. Its power was absolutely not below that of the flames of the Purple Sun Incredible Umbrella.

Su Yu clicked his tongue in wonder. As expected of the spiritual species of the universe, its child contained flames that surpassed the origin. Hence, when it grew up, it would be as difficult to deal with as the giant White-Eyed Fire Glass Frog.

The frog was struggling wildly. As Su Yu was about to throw it into the Nine Jade Spiritual Pearl, it suddenly spit out a little finger-sized golden key from its mouth.

“Eh?” Su Yu was slightly shocked, and he caught the golden key efficiently.

The key was extremely nimble. It was like a small snake that was struggling continuously, and it seemed as if it wanted to fly into the lava.

Su Yu’s eyes brightened up, and he threw the small White-Eyed Fire Glass Frog into the Nine Jade Spiritual Pearl. After that, he held the golden key, followed the direction the key was going and jumped into the lava.

As the lava was cooling down quickly, it had started to change from a liquid state to a solid state. Hence, going downward was quite difficult, and Su Yu had no choice but to use the Nine Yin-Yang Formation to open up a path. By slashing along the way, he managed to open up a path with a loud crack.

After a few breaths’ time following the direction the key was heading, Su Yu entered the bottom of the pool. There was a black box inlaid on the ground deep inside the pond.

Su Yu revealed a delighted expression. How frightening was the black box? He had experienced first-hand the power of the black flames the White-Eyed Fire Glass Frog had cultivated with the help of the place.

Yet, under that kind of flames, the black box still looked brand new, but it definitely did not look like a normal item. Hence, the treasures sealed within the black box were definitely not ordinary items!

Su Yu relaxed his hands. The small golden key then flew over like a small fish with a whizzing sound and entered the keyhole outside the box.

With a crack, the black box opened by itself. As for Su Yu, he retreated slightly with vigilance.

Right when the black box opened, a tiny bit of black flames spit out, causing the temperature of the surrounding area to rise abruptly. Fortunately, those were only black flames that had been left behind in the black box. Hence, they were extremely weak and quickly disappeared.

Su Yu was overjoyed at his own vigilance. If he were careless and had been killed by the black flames, that would be too depressing. If he had died in front of the treasure even though he had managed to pull through the great calamity and danger, what kind of joke would that be?

After the flames dispersed, the black box was completely opened. A black book and a black picture scroll laid inside it quietly.

Mysterious Heavenly Crafting Technique? Atop the black book, a few big words were printed on it. Wasn't that the crafting technique that Lü Chuyi had gone through innumerable hardships to look for?

Su Yu's eyes burnt with fire, and he grabbed the black book on his palm. How nature-defying was that secret technique that it could arouse the interest of an Almighty Divine Master? He absolutely could not leave the black book alone.

At the same time, Su Yu grabbed the picture scroll in his palm. It appeared that vital energy was required to open it. Su Yu was inserting spiritual energy forcefully, but there was not the slightest reaction.

However, the tiny bit of raging flames that leaked out from the picture scroll caused Su Yu's eyelids to twitch, and he almost threw the picture scroll away! Why would there be black raging flames in the picture scroll?

When Su Yu recalled that the flames within the black lava had completely disappeared, he more or less confirmed that the black flames had leaked out from the picture scroll.

As for the sword attack just now, it had probably affected some kind of seal that caused all the black flames to return to the picture scroll.

At once, Su Yu's heart was burning with fire. If he could use those frightening flames for himself, how strong would he be? However, the only pitiful thing was that the picture scroll required vital energy to be activated.

As Su Yu's heart was filled with regret, he turned the scroll around and suddenly discovered a row of words on the back.

"Great Sun Punishment Fairy Picture, a fairy-level cultivation technique. Predestined person, please use it with care."

Fairy-level cultivation technique... Su Yu looked as if he had been struck by lightning and became absent-minded on the spot. Fairy level. A fairy-level cultivation technique that was above legendary-level cultivation techniques!

Su Yu gasped coldly. The picture scroll was actually a fairy-level cultivation technique! It was a cultivation technique that did not exist in the whole Zhenlong continent!

Even after a long time, Su Yu was unable to quell the feelings within his heart. The shock that the cultivation technique had given him was too great. A legendary-level cultivation technique already had shocking power, let alone a fairy-level cultivation technique.

It was only after a long time that Su Yu gradually returned back to being calm. His heart felt chilly, and he placed the picture scroll into the Nine Jade Spiritual Pearl. That cultivation technique must absolutely not be made known!

Su Yu forcefully suppressed the feelings within his heart. After calming down, he looked once around the area. Confirming he did not miss anything, he stood up and left.

However, before leaving, he took the black box with him after thinking about it for some time. For the black box to stay within the black lava for so long, it must not be an ordinary item.

What Su Yu did not know was that after he had left, tiny bits of black liquid slowly flowed out of the concave area where the black box had originally been.

After leaping onto the shore, Su Yu stuck the Mysterious Heavenly Crafting Secret Technique into his chest and did not hide it. Lü Chuyi had been persistently looking for the secret technique for a long time. Hence, it was fine for her to look through it once.

However, Su Yu discovered that Lü Chuyi had already woken up. At the moment, she was sitting down with her legs crossed. Her previously red face had returned to normal at some point in time. Her skin was rosy, smooth and soft. Her aura was well-proportioned, and her breathing was extremely smooth. As such, signs of her being severely injured could not be seen at all.

With Su Yu's Transparent Eyes, he realized the fire poison within her body had surprisingly been trapped by a cage formed by nine Golden Leaves. That was why she could breathe easier. However, the fire poison was unusually ferocious, and the Golden Leaf Cage showed signs of unsteadiness under its attacks.

So, Lü Chuyi did not have just one Golden Leaf! Su Yu was shocked but quickly understood. After all, Lü Chuyi was an Almighty Divine Master. It would be unimaginable for her to die in the hands of a Fairy Realm frog so easily.

At that moment, she had lowered her head to examine the injuries of Wei Kang. When she realized Wei Kang was unconscious, her arched eyebrows frowned slightly, making her expression somewhat anxious.

Suddenly, when she realized what was going on behind her, her cold eyes looked over. She was stunned, but her eyes moved and her expression relaxed. "Come over here," she said.

Su Yu acted in accordance to her words and walked over. He looked concerned. "How are your injuries?"

Lü Chuyi's long and slender fingers raised her beautiful hair, which was hanging by her ears, and she forced a smile. "Before fainting, I used my secret technique to seal the fire poison temporarily. Right now, I do not have any big problems... I am all right. However, as for you, you have really hidden your abilities deeply. Up to the very moment, you still had something up your sleeves. Looking at the power of that sword attack, it would be impossible for the people of the Early Stage of the Fairy Realm to block it. Moreover, after unleashing a move that exceeded the abilities of the Fairy Realm, you are actually still able to stay within the Mysterious Heavenly Divine Pavilion safely and soundly. The Returning Principal Palace really put in a lot of effort into nurturing you."

Up until then, she still thought Su Yu was from the Returning Principal Palace. Against that, Su Yu naturally feigned ignorance.

After thinking for some time, he stuck his hands inside his chest and prepared to take out the Mysterious Heavenly Crafting Secret Technique.

Chapter 506: Realizing His Wishes

Lü Chuyi had witnessed the scene just now. Her heart skipped a beat as she thought about whether or not Su Yu would attack her!

Turning her gaze, Lü Chuyi said, "Do you have any wishes that I can help you fulfil?" Her tone was strange, revealing her complicated feelings.

Su Yu noticed the strange atmosphere, silently keeping the Mysterious Heavenly Crafting Secret Technique. Su Yu then thought about what she had just said. His wish was to heal Ling Xiaotian, but he had left Ling Xiaotian and the dragon-shaped coffin at the Dragon Abyss of Nine Underworlds, as it was inconvenient for him to bring them around.

Seeing Su Yu retract his hand, Lü Chuyi was shocked. Had she thought wrongly of Su Yu?

With a little doubt in her voice, she patiently said, "For example, do you have any enemies? You can request anything now, and I can help you fulfil your wishes!"

Su Yu felt weird now. What was Lü Chuyi saying?

Thinking for a moment, a light flashed on Su Yu's finger, as he brought out the Nine Yin Yang Formation. "I hope that you can fix this for me. It would be best if you could upgrade it."

Lü Chuyi had a complicated look, but nodded. "Alright!"

She grabbed the destroyed Nine Yin Yang Formation. At the same time, she flicked a finger to conjure up a small pocket around her waist. It was Lü Chuyi's storage space. There must be an astronomical amount of treasures within it!

At this moment, a golden light flickered. Fragments of gold floated in the air.

The fragments varied in size. The smallest of them were about the size of typed text, while the biggest were about the size of a thumb. There were about ten of them altogether.

"Heavenly Orchid Silver Bamboo?" Su Yu was shocked. Those were fragments of the Heavenly Orchid Silver Bamboo!

It was technically called the Greatest Divine Bamboo of Jiuzhou. Not even black flames could penetrate it!

Furthermore, there were space-like qualities within the bamboo. For example, its gold leaf allowed her to traverse a thousand miles per step, as well as to teleport utilizing space powers.

Even Almighty Divine Masters would not have too many of these precious treasures. But, this lady was going to use this item to help him?!

He had taken the Nine Yin Yang Formation out as a test, but he did not expect that this lady would agree, much less at the expense of such a precious treasure!

"Wait elder! I cannot accept such a precious material." Su Yu had a stern look on his face, his heart slowly turning serious.

Lü Chuyi ignored him, muttering to herself, "The material of these nine iron needles is but average, and it is hard to improve. I'll have to reforge it."

After saying this, she took out a ball of light from her pocket. It was a small oven, surrounded by harsh flames. When it touched the ground, it instantly expanded.

Lü Chuyi formed seals with her hands. The flames increased in size, covering the entirety of the oven. At the same time, Lü Chuyi clasped her hands together, breaking all of Su Yu's Nine Yin Yang Formation!!

She mixed this together with the fragments of the Heavenly Orchid Silver Bamboo, then placed it into the scorching oven. These fragments melted at a visible rate, turning into a puddle of liquid.

After this, Lü Chuyi spun one of her hands. She then used her vital energy to keep the flames in the oven going, while she recited incantations.

The puddle of liquid turned from grey to silver, then from silver to gold, releasing an alarming spiritual pressure! This spiritual pressure had exited the level of a divine artifact!

Su Yu's mouth felt dry. As he looked on, he wondered to himself...

Could this be a half-manufactured spiritual artifact?

From what Wei Kang had said, Lü Chuyi was a master craftsman in the Eighteen Blessed and Fortune Lands. Although he did not understand what the term "master craftsman" truly meant, he was still reeling from the shock of it. He was witnessing the birth of a half-manufactured spiritual artifact!

At this moment, Lü Chuyi stopped her incantations. "I have refined the material. Now, the next step is the most critical one: giving it shape. I have never tried forging a set of iron needles, so there might be some risks of failure. If it fails, the iron needles, as well as the materials that I inject within it, will all be destroyed."

Hearing this, Su Yu's expression changed. He began contemplating what failure would feel like...

While he was considering, Lü Chuyi continued, "If you change it to a sword-shaped artifact, I am fairly confident that it would succeed. But, there are too many impurities in your iron needles, and not enough materials. The most I can forge is three swords. If you are willing, I can help you forge it into swords."

Su Yu was happy with this second option, but hesitated for a moment. The Nine Yin Yang Formation was born from the Nine Suns Cosmos Sword Formation. It was precisely because there were nine iron needles that the formation was so effective.

In theory, changing from needles to swords should make its power greater. But, the fact that there were not enough materials, only allowing for three swords to be forged, meant that the Nine Yin Yang Formation would not be completed. Thus, it actually would make it less effective.

Weighing the pros and cons, Su Yu could not decide whether the former or latter was the better choice. Thinking for a moment, Su Yu clenched his teeth. "I'll pick the latter!"

Even if the power of the formation was compromised, it was better than risking the loss of the nine iron needles.

Lü Chuyi nodded. "Alright!"

She infused the vital energy in her body into the oven, which then surrounded the golden liquid. The liquid absorbed the large amounts of vital energy, suddenly releasing a powerful spiritual quality. It then split, forming three palm-sized swords.

The flames of the oven cooled down rhythmically. When the flames had died down, the three sword embryos also cooled and solidified, turning into three palm-sized, exquisite golden swords.

The swords' surfaces were smooth as mirrors, without any blemishes. They were like a woman's skin.

The edge of the swords released a cold, white glow. Su Yu felt a slight pain in his soul just by looking at them.

The three small swords were releasing the spiritual pressure that was only present in half-manufactured spiritual artifacts! Su Yu was elated. He lifted his hands, beckoning for the three swords. The swords then landed in his hands, as an icy chill spread across his palm. Then, a strange pressure made Su Yu take in multiple deep breaths.

"The material of your iron needles before this was too normal, which affected the grade of the needles. It should have improved from a divine artifact to a spiritual artifact, especially with the addition of the Heavenly Orchid Silver Bamboo. But, because there were limited materials, I could only make it a half-manufactured spiritual artifact."

Su Yu's lips twitched. The iron needles were merely middle grade divine artifacts. Compared to the Greatest Divine Bamboo of Jiuzhou, that material was not only normal, it was inferior!

While he was feeling a little sorry for himself, he was also still relatively satisfied.

"I've completed your first wish. Do you have any more?" Lü Chuyi had a complicated look in her eyes.

Now that Su Yu had tasted the benefits of one wish granted, how could he miss such an opportunity? With a flicker in his eyes, he asked, "Do you have any more Heavenly Orchid Silver Bamboo?"

He was shamelessly asking for the Heavenly Orchid Silver Bamboo. Lü Chuyi's forehead twitched, but she took out two golden seeds from her storage space, despite hesitating for a moment. "These are the seeds of the Heavenly Orchid Silver Bamboo. This is all I have."

Seeds? Su Yu's pupils dilated. He had meant to ask for some materials, but the other party had directly given the seeds to him instead!

If he could grow new Heavenly Orchid Silver Bamboos, then...

Su Yu was excited just thinking about it. As if understanding what Su Yu was thinking, Lü Chuyi dampened his spirits by saying, "You think too much. The seeds of Heavenly Orchid Silver Bamboos cannot survive, unless they are grown by the old monsters above the level of the Divine Master, who must be the ones watering it with their blood, for at least a hundred years! Hence, a normal person, who obtains these seeds, can only use it as material."

Hearing this, Su Yu secretly laughed, but kept the seeds without expression.

“Any other wishes?” Lü Chuyi patiently asked.

Su Yu’s gaze flickered. He waved his hands to fill the ground with treasures! These treasures included the Golden Scale Dagger, armor, the Purple Sun Incredible Umbrella, the Mountain River Dragon Bow, the Eternal Mask...

“Help me refine all of this.” Su Yu smiled.

Lü Chuyi froze, a fury burning in her eyes. “Lad, don’t go too far!!”

How was this a wish? This was turning into manual labor!

She had used thirty percent of her vital energy in reforging the Nine Yin Yang Formation. How could she reforge all of these treasures before her now?

“But, this is my wish, so it’s alright for you to fulfil it,” Su Yu said in disappointment.

Lü Chuyi clenched her teeth, angrily looking at Su Yu. “Alright! I promise!”

After saying this, she looked over at the treasures. She scanned past the Golden Scale Dagger and the Eternal Mask, saying in disdain, “One is low level, the other is shattered, so there is no value in reforging them. You should discard them.”

She discarded the Golden Scale Dagger, without hesitation! After that, she looked at the Eternal Stone King Armor, her tone becoming serious.

“A broken high grade spiritual artifact? It uses the skeleton of a Divine Master as its material. Regrettably, I do not have such a material, unless you break my bones.” She glanced fiercely at Su Yu as she spoke.

After this, she looked at the Purple Sun Incredible Umbrella, hesitating for a moment, before nodding. “There might be value in reforging this high grade divine artifact. If I can replace the Purple Sun Flames with the flames from my oven, it should become a half-manufactured spiritual artifact.”

Su Yu was excited at the thought of another half-manufactured spiritual artifact! Lü Chuyi looked at the last treasure, the Mountain River Dragon Bow.

Her expression turned grave. She grabbed the treasure in her hands, then rubbed it. “This is weird. This is clearly an ordinary middle grade divine artifact, so why is it giving me such a feeling of unease?”

Observing it for a moment, Lü Chuyi’s expression suddenly changed. She immediately tossed away the silver bow, as it had just shocked her. She had a surprised look on her face. “Could that divine arrow be sealed in this silver bow?”

Su Yu’s heart shook. He suddenly remembered Yun Yazhi mentioning that the Mountain River Dragon Bow was not exactly valuable. But, that its value came from an arrow that was sealed within it! Now that Lü Chuyi was revealing such an expression, Su Yu became even more curious.

“Where did you find this arrow? It’s impossible to be true...I thought that it had vanished from human history a long time ago, so why would it appear now?” Lü Chuyi looked at the silver bow with fear.

Su Yu's gaze flickered. "I found this accidentally in an underground relic. Can you unseal this bow for me?"

"An underground relic?" Lü Chuyi had a deep suspicion. She collected herself a moment later, her gaze locking onto the silver bow. She took a deep breath, then said, "I'm afraid I cannot accomplish that!"

Chapter 507: Yin-Yang Secret Technique

"Your silver bow is actually a seal. Once it is completely refined again, it would mean that the seal is broken as well! Once the arrow within the silver bow is released, I am also not sure whether I would survive. I'm sorry. I'm unable to refine your silver bow for you again, but let me give you a piece of advice. You had better not remove the remaining 20 percent of the seal within the bow. With your abilities as they are now, you would be unable to control the arrow!"

Su Yu was overwhelmed. Exactly what kind of arrow was sealed within the silver bow to cause Lü Chuyi to be so frightened?

Su Yu understood, and he put away the silver bow. He then looked at the Purple Sun Incredible Umbrella. "Then I shall trouble elder again."

Lü Chuyi refined the Purple Sun Incredible Umbrella again unwillingly. After breaking the umbrella into pieces, it was melted until it was in the liquid state. By roasting the umbrella on a heating stove, the fire of the purple sun was completely squeezed out. The fire within the heating stove then replaced the fire of the purple sun by seeping into the umbrella.

After four hours, Lü Chuyi's whole body was dripping with sweat, and less than 30 percent of her vital energy was left in her body. However, a completely new Purple Sun Incredible Umbrella was born as a result!

Previously, the umbrella was purple in color. Now, it was scarlet, and it gave off a warm feeling when touched. However, when a tiny bit of spiritual energy was inserted into it, a spine-tingling aura was released.

"The flames within my heating stove are known as the Red Lotus Furious Flames. Within the Divine Fire List, it is ranked 1,000. As for the power of the flames, unless you are at the Later Stage of the Fairy Realm, you would be unable to block it!"

Divine Fire List? Su Yu was shocked. If a flame ranked 1,000 had the power to kill everyone below the Later Stage of the Fairy Realm, how powerful were the flames with higher rankings?

"This umbrella, which had been refined again, it is at the level of a semi-manufactured spiritual artifact," Lü Chuyi said. "Are you satisfied?"

Su Yu nodded his head. "Yes, I'm satisfied."

"Humph! You no longer have any more magical treasures that need to be refined right?"

“Haha! No more,” Su Yu chuckled. As far as she was concerned, she had seen all the treasures Su Yu possessed. How could he take out prototype Fairy artifacts such as the Five Elemental Strong Thunder Seal or treasures such as the Cosmos Thunder Sword in front of Lü Chuyi?

“This means that you have no more wishes?” Lü Chuyi’s eyes glowed with a cold light.

“I do!” Su Yu had a respectful expression.

Lü Chuyi was growing increasingly furious. Her expression darkened.

“Last one,” Su Yu promised with a serious expression. “Not refining equipment. Instead, I wish to ask elder a question.”

Upon hearing this, Lü Chuyi’s cold expression eased a bit. “Hmm. Speak, then.”

Su Yu considered for a long time. He then carefully took out the three Origins from his body. Fire Origin, Thunder Origin, and Ice Origin.

“You’re honing three elements at the same time?” Lü Chuyi was shocked. “So, you were the one who tried to fuse the Origins together in front of the Thunder Emperor Mountain?”

Su Yu did not deny it. “Elder, I would like to ask, what should I do to fuse three different kinds of Origins together?”

The power of the fusion of Origins was even greater than the Cosmos Thunder Sword! That day, Su Yu had almost died from his move as well because it did not differentiate between him and the enemy. Hence, it was unusually dangerous, and he would never unleash it again unless he found a safe way to do it. And at that moment, there was a chance right in front of him.

“You are truly reckless!” Lü Chuyi said. She stared deeply at Su Yu. “Even strong martial artists of the Fairy Realm do not dare to thoughtlessly fuse the power of three different Origins. You are too bold! You are fortunate to have survived the fusion of the Origins. You still wish to kill yourself?”

“That is why I have asked elder for advice,” Su Yu said calmly.

Lü Chuyi hesitated for some time, then sighed and said, “Balance must be obtained. During the fusion of Origins, you must not allow the three different kinds of powers to become uneven. If that happens, it results in an explosion. What you need to do is think of a way to stabilize the three elements! This requires extremely strong control over all three of them. As such, it is very obvious that for you—a cultivator who has not achieved Half God yet—it would be difficult to control them accurately. The only way is to cultivate clone techniques. With two clones, each controlling one element, there is a possibility of stabilizing the three Origins.”

Clones? Su Yu stroked his chin. He had cultivated the remnant of a manual of the Second Grade Clone Technique. If he were to cultivate it fully, he would be able to create two clones. It was a pity he was unable to dedicate himself to the progress for a long time.

Su Yu looked at Lü Chuyi. He had sensed a degree of instability in her and knew this current situation was not good. She had, after all, not even hesitated to use the Heavenly Orchid Silver Bamboo, a nature-defying treasure, to grant Su Yu his wishes. He surmised that the price he would have to pay would not be low. Sure enough...!

"I have satisfied all your wishes," Lü Chuyi said. Then she took a breath and muttered, "Now, I have nothing to be ashamed of for what I am about to do to you!"

Having realized that his situation was dire, Su Yu had made preparations long before. With a flash of lightning, he disappeared instantly, without a traces.

Lü Chuyi was stunned. Rage filled her face immediately. The Golden Leaf fell from her sleeves. "Humph!" she said. "You wish to escape after taking advantage of my kindness?"

She had paid a huge price to grant Su Yu his wishes. How could she let him escape?

The Golden Leaf activated, which allowed her to cover a distance of 1,000 miles in an instant.

Su Yu had reached a place 100 miles away. After he showed himself, his figure flashed again. After he had left, Lü Chuyi arrived after taking a step and looked in the direction where Su Yu had disappeared.

After a few breaths' time, Su Yu's figure flashed, and he returned to the Mysterious Heavenly Palace. As he was about to leave with a flash, the space around him tightened. Lü Chuyi had exhibited Space Transportation to imprison him.

Realizing he was in trouble, Su Yu was about to activate the Dry Cloud Five Elemental Formation, but a light glowed three inches in front of him. Lü Chuyi came over with a step. Her fair and slender finger then tapped Su Yu's body and caused the space around the area to condense abruptly.

With that, not only were Su Yu's limbs unable to move but even the spiritual energy within his body was completely frozen. As a result, he became like a puppet.

Su Yu forced a smile. He was still confused as to why did Lü Chuyi had recovered so abruptly. Why did she have this unusual attitude? This willingness to grant Su Yu his wishes?

"If I had a choice, I would not allow this to happen, either," Lü Chuyi said.

She sighed softly, and her expression became gentle. Her face was filled with shame and remorse. With a light flick of her soft white finger, she brought Su Yu to a quiet, secluded place was on the surface.

Su Yu's heart grew uneasy. "Elder, what exactly do you want to do to me?"

Lü Chuyi sighed apologetically. "Yin Yu, please don't blame me. I really have no other alternative. I already expected that I would encounter accidents within the Mysterious Heavenly Divine Pavilion. Hence, I brought a nephew and a niece along with me. When both of them exhibit a Yin-Yang secret technique, I will temporarily regain my cultivation base of Divine Master. Moreover, I will not be restricted by the Mysterious Heavenly Divine Pavilion. In order to prevent accidents, this secret technique can only be performed with a boy and a girl."

"However, the whereabouts of my niece Wu Aoyue is unknown. Hence, I used Yu Chan to replace her. However, to my surprise, after entering the eighth level of the

Divine Pavilion, she was nowhere to be found! However, the fire poison within my body cannot be suppressed with the Golden Leaves alone. Hence, I need to regain my cultivation base as a Divine Master so I can remove the fire poison. However, without a boy and a girl, the secret technique cannot be performed!"

Having listened up until this part, Su Yu understood. "You mean that you wish to use yourself to replace Wu Aoyue and perform the secret technique?"

Lü Chuyi nodded. "If I perform it myself, the effects might be a bit weaker. Although it might be difficult for me to regain my cultivation base of Divine Master, at the minimum, I will be at the Later Stage of the Fairy Realm, which is more than enough for me to remove the fire poison."

"This means you wish for me to replace Wei Kang and perform the secret technique with you?"

Su Yu drew back his lips. It was indeed not the best time for Wei Kang to be unconscious.

Lü Chuyi nodded apologetically. "I think the help I gave you just now is more than enough to compensate you."

Su Yu could not help but feel dejected. It was because of Lü Chuyi that he was able to receive great benefits. If he could help her, he would naturally not mind. However...

"There are drawbacks to it?" Su Yu asked, speaking without reservation.

Lü Chuyi was a bit embarrassed. She did not dare to look Su Yu in the eye. She then said in a low voice, "Performing this secret technique will require the blood of both sides. However, a huge amount of blood is required... and your cultivation base will probably decrease."

His cultivation base would... decrease? Su Yu's heart grew cold. Such a serious side effect was not a small matter!

Su Yu quickly changed his mind. For many people, after their cultivation bases had decreased, they were unable to raise it back again for their entire lives! It was no wonder Lü Chuyi had offered so many benefits as compensation. With such a serious side effect, what sane person would agree?

Su Yu sneered at Lü Chuyi. "I will not do it. You shall help me change back all my treasures."

Lü Chuyi's face reddened. Her eyes were filled with guilt. "I'm sorry. Only by using this secret technique can I regain my cultivation base as Divine Master and not be transported out! I still wish to stay here, and I absolutely need to find the Legacy of the Mysterious Heavenly Secret Technique so that I can save a person. Yin Yu, I'm sorry. Please forgive me!"

If Lü Chuyi wanted to remove the fire poison in her body. She only needed to regain her cultivation base of Divine Master. After that, she would be able to remove the poison easily. It was only by using the secret technique that she could remove the fire poison and stay in the Mysterious Heavenly Divine Pavilion at the same time.

The Legacy of the Mysterious Heavenly Secret Technique? Su Yu heaved a deep sigh of relief. As long as he gave the book in his chest to her, she would not need to stay in the Mysterious Heavenly Divine Pavilion anymore, and she would also not need to perform the Yin-Yang secret technique with Su Yu forcefully.

However, without waiting for Su Yu to open her mouth, Lü Chuyi tapped her fingertip. At once, the space of the surrounding area shrank, and this made Su Yu unable to even open his mouth.

Su Yu wanted to cry but had no tears. The Mysterious Heavenly Crafting Secret Technique was with him! This stupid woman!

Since Su Yu could not speak, he kept on looking at his chest like his life depended on it, hoping Lü Chuyi would understand.

Noticing that Su Yu's eyeballs were staring at his own chest and that he looked anxious, Lü Chuyi could not help but question doubtfully, "Is there something you wish to let me see?"

Su Yu nodded his head hurriedly and heaved a sigh of relief in his heart. Maybe this woman was not so stupid. However, Lü Chuyi's next sentence almost caused Su Yu to spit out a mouthful of blood!

"Hmm," she said sternly. "Even when it's come to this, you still wish to play tricks. I have personally experienced your craftiness before. I'm sorry. I will not allow you to do as you wish."

Su Yu was enraged! This woman was not foolish—she was extremely foolish!

"Please bear with this for a moment," she said. "The process of exhibiting the secret technique requires the usage of incantation. Hence, I cannot allow you to speak temporarily."

Lü Chuyi tossed something with her hands, and dense, numerous ingredients littered the ground. With her skillful hands, various ingredients were pieced together in accordance with different paths to become a ten-foot spell.

With a black segment and a white segment, a Tai Chi state appeared. After that, Lü Chuyi placed Su Yu at the white-colored region and sat at the opposite black region.

Lü Chuyi's behavior seemed a bit unnatural. She was too ashamed to look Su Yu in the eye. She lowered her head, recited the incantation silently, and started to activate the Yin-Yang secret technique.

Chapter 508: Combining Yin and Yang Energies

Su Yu could not help but smile bitterly, thinking of something else. A moment later, he noticed that Lü Chuyi's cultivation level was decreasing massively. The cultivation level was welling into Su Yu's body!

In that instant, Su Yu realized the principle of the Yin-Yang Secret Technique. The cultivation level of an Almighty Divine Master would be split and shared between Lü Chuyi and Su Yu. The formation under their feet was used to mask this and prevent detection by the Mysterious Heavenly Divine Pavilion. But how could a mere Human King handle the cultivation level of an Almighty Divine Master? Based on the current situation, his cultivation level would definitely reverse once the cultivation of an Almighty Divine Master entered his body!

Anxiety gripped his heart. Sensing the danger descending, Su Yu had a flash of inspiration. This was not the first time he had accepted the cultivation level of another person. Wasn't the first time during the incident with Sheng Ge?

The Bloodline of the Evil Ghost!

Su Yu had found a way to save himself.

Coincidentally, the Bloodline of the Evil Ghost immediately activated when the other party's cultivation level entered his body, devouring the cultivation level that was entering his body.

Crack—

The appearance of the Bloodline of the Evil Ghost disrupted the Yin-Yang Secret Technique, causing the formation below their feet to crack! Lü Chuyi, who was releasing her cultivation level, suddenly turned pale as she spat out a mouthful of blood. She was being affected by the formation!

Her eyes bulged as she said in surprise, "My cultivation level, what have you done—?"

But she had not even finished her sentence when her face turned red, and she once again spat out a mouthful of blood. At the same time, the assault of the formation made her thoughts and consciousness hazy.

"Not good!" she said. "The Yin-Yang Secret Technique has been interrupted. The Yin and Yang energies are being mixed up!"

Su Yu did not have the time to digest this information. His thoughts were growing dull.

A powerful, evil desire spread like wildfire through his brain. At this moment, he suddenly understood what the Yin and Yang energies were. The two of them were slipping into a state of loss at the same time. The mix-up of Yin and Yang energies would need to be balanced!

A few moments later, they were in each other's embrace.

When the Yin and Yang energies had been balanced again, Lü Chuyi could only stare at the blue sky expressionlessly. Slowly, her beautiful eyes became laced with tears, her body twitching in sadness. Her lips were closed tight. She trembled, unable to suppress the sorrow in her heart. She could not suppress the agony of losing her first time.

A moment later, she let out a pitiful cry, exclaiming, "I'm sorry, Brother Taixu!"

Only now did Su Yu wake up. Lü Chuyi was crying for another man!

Su Yu's expression grew bitter. It seemed that, faced with the necessity of rebalancing the Yin and Yang energies, he had unintentionally taken the precious virginity of another lady. Furthermore, this lady's heart belonged to someone else. This "Brother Taixu" should have been the man she gave her first time to, but Su Yu had heartlessly taken it away.

Su Yu could only apologize. "I'm sorry..." he muttered.

Even though this was, to a large degree, her fault, it was still a fact that Su Yu had claimed her precious virginity.

Hearing Su Yu's apology, Lü Chuyi's body stopped quivering. Her crying slowly ceased, and a killing intent crept into her hazy eyes—true, unrestrained murderous intent! Perhaps she did not like to kill. Perhaps she had been benevolent in the past. But at this moment, so soon after losing her first time, she wanted to kill!

“I! Hate! You!” Lü Chuyi clenched her teeth and enunciated every word with a hatred welling from deep within her heart.

That unbridled hostility pierced Su Yu’s soul, and Su Yu felt a heavy wave of loss. He thought back to that determined figure who had come to terms with death before the sea of blood. He thought about the night they had spent in each other’s embrace, back in the Ice Soul Divine Dream Spell.

He sighed. These memories now meant nothing. He could only see a foreign glow in Lü Chuyi spiteful eyes.

Whoosh—

A spiritual glow surrounded Lü Chuyi. It covered her beautiful body and face, but what it couldn’t cover was her undeniable hatred. On the brink of insanity, Lü Chuyi struck!

“Die!”

Her aura exploded, surpassing that of Half Fairy and reaching into the early-stage Fairy Realm. It crept up to mid-stage Fairy Realm, then even surpassing a late-stage Fairy Realm!

This powerful aura not belonging to the Mysterious Heavenly Divine Pavilion rose into the air. The earth shook. The five peaks trembled. It looked as if doomsday had come!

A hazy, ten-zhang tall figure suddenly formed Lü Chuyi. Its silhouette was not dissimilar from her own. Her cold gaze seemed to pierce through everything, radiating a destructive, divine glow that released the aura of an Almighty Divine Master into the surroundings.

Su Yu felt the blood in his body boil. His breathing came to a halt. He could not move an inch.

“Is this an Almighty Divine Master?” Su Yu said, in awe.

He let out a sigh as he mocked himself. The difference between him and Lü Chuyi was like heaven and earth. Seeing the madness that had taken Lü Chuyi, Su Yu let out a bitter laugh. He slowly closed his eyes. He did not even attempt to retaliate, for before a Divine Master, any retaliation would only be wasted effort.

The wind generated by Lü Chuyi’s palm assaulted him. He was three zhang away, but his body cracked from the peripheral energy alone. It felt as though he would break into pieces. If the full force of that palm connected, he would die.

His robes flapped wildly beneath the howling winds. A black book dropped from within. It was the Mysterious Heavenly Crafting Secret Technique.

Lü Chuyi glanced at the book, then froze. The palm aimed at Su Yu shifted. It formed a claw as she took the book into her hands.

Lü Chuyi had an expression of loss and confusion. She suddenly remembered Su Yu trying to take something out of his robes after coming out of the lava pool. She froze!

Chapter 509: The Legacy of Elixirs

When she recalled that Su Yu was looking at his own chest continuously after he was confined, her body shook slightly.

As Lü Chuyi held the black book, she stood absolutely still, in her original position, until a lump of space energy enshrouded her and was about to transport her out.

“This book... You had planned to give it to me?” Due to her hysterical shout just now, her voice had become hoarse.

Su Yu forced a smile and did not respond.

Lü Chuyi was speechless. As she lowered her head and looked at the black book on her hands, her heart was filled with mixed feelings. While she plotted against Su Yu, he thought about her.

A sudden sense of unworthiness halted Lü Chuyi from taking action against him. She recalled that initially, although she was pursuing him, Su Yu had still been determined to save her, even if it meant taking a palm attack from her. She also recalled the night within the dream spell, when Su Yu did not leave her side in the small, ice-cold house in the snowfield. Thinking back to that day, Lü Chuyi’s heart ached, seemingly for no reason.

The hatred in her eyes was quickly replaced by tears. She did not know when it had happened, but the figure of Su Yu had been unknowingly carved in her heart.

After struggling for some time, the hatred on her face disappeared, replaced in the end by agony. After all was said and done, she was the one who had committed a sin first. Hence, she was more responsible for the fact that her first time was stolen. Now, she was about to be transported out.

Lü Chuyi turned her body around and grabbed toward the lofty mountain. With that, Wei Kang, who was clearly at the bottom of the lofty mountain, was caught; he entered the transportation spell along with Lü Chuyi.

Up until the moment Lü Chuyi was transported out, she did not turn back again. She left without a single word. With that, she disappeared from the eighth level of the Divine Pavilion and left behind a lonely figure: Su Yu.

“Lü Chuyi,” said Su Yu.

As he looked at the back of Lü Chuyi, in the process of disappearing, his heart felt empty and desolate. He did not feel any happiness, not even from the fact that he had survived a disaster.

Whoosh, whoosh—

Countless sounds broke the silence, and Su Yu’s expression changed slightly as a result. He then put on his clothes, turned his body around, and entered the dense fog.

After half a day, partway up the mountain.

Su Yu stood in front of a mostly collapsed cave. It appeared to be very old, having fallen in on itself many years ago.

“I wonder what kind of legacy this place has,” Su Yu whispered to himself.

After running away from Lü Chuyi, he was unable to tell which mountain peak he was on. As for the cave in front of him, it might contain the legacy of this mountain peak.

Suddenly, Su Yu heard a tiny noise from within the cave. His eyes brightened, and he entered the cave with a flash.

The cave was a perfectly straight tunnel that felt endless. The walls were brownish black in color. Both sides were filled with notches of different sizes. Empty bottles and jars had been left behind in a few of them. Su Yu grabbed one to smell it and could not help but be surprised. Some aura of elixirs was still left in the bottle.

“Could this be the elixir of the Five Great Legacies?”

Su Yu’s eyebrows twitched. Everyone agreed that the most valuable legacy of the Five Great Legacies was the Legacy of Elixirs. If he was lucky enough to make a breakthrough to the Fairy Realm in one go, he was fortunate, indeed!

Su Yu’s figure flashed continuously as he proceeded farther into the cave. Movements could then be heard frequently coming somewhere from within, growing more intense with each passing moment.

When Su Yu was deep inside the cave, he used his Transparent Eyes to take a look. At once, he saw clearly that ahead, a man was laboring excitedly to break the stone wall at the end of the cave. That tunnel marked the end of the cave, and although there was nothing there, Su Yu noted many marks on the walls, indicating that this man was not to only one to have spent time digging into these stone walls.

It seemed as if those who had entered in the past suspected that there might be elixirs deeper inside the stone walls. It appeared all of them had walked away empty-handed.

When Su Yu used his Transparent Eyes to take a look, he could not help but be slightly disappointed. There were no hidden spaces within the walls. It seemed that the Legacy of the Elixirs at this location had already been completely excavated.

As he was about to retreat quietly, a sudden rumbling sound could be heard. A big piece of the brownish-black stone wall had been dug out by that man, and a snow-white stone wall was revealed!

The snow-white stone wall looked like it had been inlaid within the stone. Strange symbols were carved on it. Impressively, it was a spell that had lain hidden inside two layers of stone!

Su Yu was shocked. He had only focused his attention on the hidden spaces inside the wall. He had expected the stone to contain other secrets.

The man laughed wildly. “Haha! Master is indeed right. The Legacy of Elixirs has yet to be claimed, as there is another cosmos within the stone wall!”

As the man laughed loudly, he inserted vital energy into the spell. After that, the spell activated quickly and transported him away.

Recognizing the man’s voice, Su Yu’s gaze sharpened. “It seems old enemies are destined to cross paths... I have encountered Chou Zeming!”

Chou Zeming had attempted to kill Su Yu twice. However, he had been unable to get his way either time.

As Su Yu’s eyes glowed with coldness, he fed spiritual energy to the spell and he was transported as well. The ground below his feet revolved. When his legs stepped onto solid ground, a cold, fierce

wind rose up abruptly, heading toward Su Yu's chest, a vital point of his body. However, Su Yu was not surprised. His Eternal Stone King Armor appeared.

With a loud clang, an extremely sharp object struck Su Yu's chest. A shower of sparks erupted.

When Su Yu opened his eyes, he saw that it was indeed Chou Zeming. His hands clutched a blood-red dagger which emitted shocking spiritual pressure. It was a high-grade divine artifact that was extremely powerful!

"Humph! It's this armor again!" Chou Zeming growled in annoyance, his eyes burning with fury.

Without question, Chou Zeming, who was at the critical point of making a breakthrough to the Fairy Realm, had surely sensed Su Yu's presence back in the cave. Hence, he had waited for Su Yu so he could strike him with an inescapable killing blow.

Su Yu laughed, flashing an icy smile. "Chou Zeming. Long time no see!"

Chou Zeming held the dagger with one hand. His other hand was clasped behind his back. He laughed arrogantly. "I really did not expect you to be so audacious as to try to take advantage of me."

In his mind, Su Yu's abilities were considered shocking among people of similar cultivation bases. To him, however, Su Yu was not even worthy of a glance.

"Take advantage of you?" Su Yu chuckled. "You have overestimated yourself. What I want is this place's legacy. As for your life, I'll take that as an added bonus."

How rude and unreasonable were his words?

"Haha..." Chou Zeming laughed sardonically. "Where did your confidence come from? Take my life..."

Whoosh—

While Chou Zeming was laughing grimly, a golden light began to glow.

"That Golden Scale Dagger again?" said Chou Zeming. "Insignificant moves!"

He had made preparations for this a long time ago. He casually turned his hand over and attacked with his blood-red dagger.

Crack—

However, at the next moment, Chou Zeming's expression changed wildly. The blood-colored dagger in his palm—a high-grade divine artifact—was split in two!

His expression darkened abruptly. His reaction time was extremely fast, and his figure hastily retreated 100 feet.

A golden light glowed from underground and erupted from where he had been standing. The light cut out a deep notch from the ground, slicing through the earth like a hot knife through butter. If Chou Zeming had hesitated for even a moment, he would have been cut in half!

Su Yu held a dagger in each. Chou Zeming was shocked.

“A semi-manufactured spiritual artifact,” he said. “And you have two of them?”

Su Yu wore a profound expression. “Two? Haha...”

Chou Zeming’s heart then skipped his beat. There was an icy feeling in the pit of his stomach.

Suddenly, golden light shot from below him again! His feet had just touched down; he had no time to block the third beam golden light.

Chapter 510: The Mysterious Legacy

Su Yu’s interest was piqued. After thinking for some time, he said, “I might allow it. However, before exchanging, shouldn’t you let me know what this elixir is, first?”

Chou Zeming was stunned. Although happiness was glowing deep in his pupils, he wore a shocked expression. “Could it be that you have never heard of the Fairy Elixir before? An elixir that could change Spirit Energy Crystals into Vital Energy Crystals!”

“Is that so?” Su Yu stroked his chin. After thinking for some time, he poured the elixir into his mouth.

“No!” Chou Zeming shouted, his eyes going wide.

But it was already too late. When he saw that Su Yu had swallowed the elixir, his expression became extremely unpleasant.

“You fool!” he scolded furiously. “This is a reckless waste of this resource! The Fairy Elixir is given to martial artists with three Vital Energy Crystals so they can make a breakthrough to the Fairy Realm! This elixir can allow you to avoid the Heavenly Disaster directly, and you will make a breakthrough to the Fairy Realm at a 100 percent success rate! But you are just a Human King—not even a Half God. What’s the use of you swallowing it? I got word from my Master that there is a hidden secret room here, and there might be Fairy Elixirs inside! As for you, you have really ruined the elixir!”

Chou Zeming was boiling with rage. He had gone through many hardships to come to the eighth level of the Divine Pavilion just for the Fairy Elixir. However, Su Yu had been a step quicker!

“Oh? So that is its use!” Su Yu said, greatly shocked to learn this.

When he opened his hand, the emerald green elixir was still in his palm! The swallowing of the elixir had only been an act. Chou Zeming was so concerned about the elixir that he hadn’t noticed Su Yu’s sleight of hand.

“You tricked me?” Chou Zeming’s expression darkened at once.

Su Yu sneered. “If I hadn’t tricked you, would you have told the truth? Hmm... Changing Spiritual Energy Crystals. You didn’t even try to make up a good lie!”

Chou Zeming frowned and said in a low voice, “All right, I am in the wrong! The deal is already on. Since the Fairy Elixir is useless to you, give it to me now. I will give you a legendary-level cultivation technique. It is almost impossible for wandering martial artists like you to acquire

legendary-level cultivation techniques. With a chance like that right in front of you now, why are you still hesitating?”

However, Su Yu stored the elixir and said casually, “I’m sorry. I have some other uses for this elixir.”

Legendary-level cultivation techniques were indeed precious. However, they were obviously not as important as making a breakthrough to the Fairy Realm! As Su Yu interacted with geniuses of Jiuzhou, he had managed to get some information regarding making a breakthrough to the Fairy Realm, and it seemed like the success rate was not high. For example, even Yang Yidao, who was quite strong, had failed to make a breakthrough to the Fairy Realm once, leaving him with no choice but to enter the Mysteriously Heavenly Divine Pavilion to find an opportunity to do so.

Hence, it was clear how valuable the Fairy Elixir was if it allowed one to make a breakthrough to the Fairy Realm at a 100 percent success rate!

“You had better think twice about that,” Chou Zeming said, a bit anxious. “If you reject me, it is the same as rejecting the Soul Seizing Palace!”

Su Yu laughed. His smile was icy cold. “If you threaten me, it is the same as threatening your own life!”

As Su Yu spoke, he used his Transparent Eyes to look around the area. When he confirmed that he had not missed anything, he entered the transportation spell of his own accord and left the sealed space.

Chou Zeming frantically pursued Su Yu outside. He hurried out into passageway outside, but where was Su Yu’s figure? The only sign of him was only a tiny remnant of a thunderbolt lingering in the sky.

“Damn it! He used the Thunder Escape to get away!” Chou Zeming gave a furious hum and pursued Su Yu!

However, a short time after he left, lightning flashed within the cave, and a figure appeared. It was Su Yu. He had left only to return! He wore a sly smile.

“Haha. He was so easily deceived by the fake legacy...”

As he stared at the snow-white transportation spell, a blood-red dagger appeared in his hands. He slashed downward. With a cracking sound, the spell was split in half. At the same time, the surface of the wall where the snow-white spell was at broke open as well, revealing a secret room. There was another green spell, deep inside! That was the real transportation spell that led to the Legacy of Elixirs. The white spell was only meant to cover up the real legacy!

When people discovered a mysterious white spell hidden within two layers of stone walls, all their attention would be on that white spell. Who would think that there was still another spell beneath the white spell?

As Su Yu entered the secret room, he realized something was not right. Having once acquired the Legacy of the Crafting Secret Technique, he knew that the Five Great Legacies were not so easy to attain.

He took a step into the crack and activated the green spell. After the surroundings revolved, Su Yu appeared in a sealed space which was of similar size to the previous space.

However, the shelves built into the stone walls here did not contain as many bottles and jars as there had been in the previous area. Within the entire spacious room, there was only a stone table in the middle of the room covered with dust.

Two golden jade boxes sat unassumingly on the stone table.

Su Yu's eyes narrowed. His experience with the White-Eyed Fire Glass Frog had taught him not to underestimate the legacies. As expected, Su Yu discovered a purple beetle on the table. Its body emitted an extremely ferocious aura!

"Fairy Realm!" Su Yu realized, raising his guard!

However, Su Yu quickly discovered that the insect no longer had any life force within it; it was only an empty shell.

A quick once-over told Su Yu that this sealed, spacious room did not contain any other resources. Su Yu turned back to the beetle and heaved a sigh of relief. "Dead. Seems like not all the Fairy Realm ferocious beasts are like the White-Eyed Fire Glass Frog—lucky enough to live in environments that suit them."

The White-Eyed Fire Glass Frog had lived in the underground lava pool, which was a suitable environment. This beetle, however, had not been so lucky and had died as a result.

Su Yu made up his mind and held the beetle in his palm. Looking at its dust-covered body, it was clear that it had died a long time ago. Yet it still emitted a ferocious aura, which had not decomposed in the slightest. That was enough to prove that the beetle had been an extremely impressive, ferocious being when it was still alive. Hence, the beetle was still considered a treasure. Su Yu threw it into the Nine Jade Spiritual Pearl and placed it alongside the body of the White-Eyed Fire Glass Frog.

Su Yu then had the inclination to look at the two golden jade boxes. Within one of the boxes, a Mysterious Heavenly Elixir Manufacturing Secret Technique was sealed within it.

"Elixir manufacturing technique?" Su Yu's eyes glowed even more brilliantly.

The book was probably a secret technique that even Almighty Divine Masters would cast covetous eyes upon. Although Su Yu had never tried to manufacture elixirs before, it did not mean he would not try it in the future.

With a swing of his big sleeves, he carefully stored the box.

He looked in the second jade box, suspecting that it might contain some valuable elixirs! To his surprise, however, what was inside the jade box was an air current with glowing starlight!

When he saw it for the first time, the air current looked like a blue Milky Way formation. Many stars shone upon the air current, and generative forces of Heaven and Earth moved along it. It was unusually beautiful.

"What is this? A lump of mist?"

Su Yu grabbed the jade box. At that very moment, a chilly aura entered his mind from the center of his palm. A vast, mighty, ancient voice spoke inside his head.

“Congratulations!” the voice boomed thunderously. “You have acquired the greatest legacy of the Mysterious Heavenly Palace!”

At once, Su Yu felt a horrible pain in his head. He could not help but let out a groan.

“Who are you?” he asked coldly.

Rustle—

Suddenly, the Milky Way formation flew out of the jade box of its own accord, taking on the shape of a human being.

“Haha! You are in my domain, yet you still ask who I am?” laughed the silver-hued figure.

His domain? Su Yu was at a loss.

Suddenly, a spark flashed past his mind, and his pupils shrank abruptly. An answer came to him that he could not believe.
