

Nine-Dragon 521

Chapter 521: The Legacy of Comprehension

Her joyous heart when they reunited with one another was turned icy cold by those words.

That's right. Su Yu was already a man with a wife. He had only treated her as a bosom friend—even though she looked more beautiful than Qin Xianer. Even though her heart only had him alone.

Xia Jingyu moved her lips, pinched the center of her palm and followed behind Su Yu. After hesitating for a long time, she said with a soft voice, as if only she could hear it, "What if the person who I wish to be with is you...?"

Even though Xia Jingyu's voice was extremely soft, it could still be heard clearly within the silence of the dense forest.

Su Yu, who was walking in front, was stunned. He stopped walking, and his heart started to beat extremely fast.

He was an experienced person; he understood the significance of her words. Although he had once shared a bed with Xia Jingyu for a short duration in Shenyue Island, the Xia Jingyu of that moment cried as her reputation was sullied.

That time, Su Yu knew Xia Jingyu had merely treated him as a friend, and she had no feelings for him. After that, Su Yu only respected Xia Jingyu, and he did not have any intentions of overstepping his bounds.

However, at that very moment, Su Yu did not foresee those words coming out of Xia Jingyu's mouth.

Su Yu then turned back to look at Xia Jingyu while stupefied. Within his heart, he felt delighted. Xia Jingyu was the most perfect woman he had ever seen in his two lives.

She was suffocatingly beautiful. She was gentle like water and impervious to desires and passions. Every area of her was so perfect she could not be criticized. She was not like a real person of this world.

Su Yu had also hoped his future wife would be so perfect.

However, he had a fiancé. She was not as beautiful as Xia Jingyu, not as gentle as Xia Jingyu and not as graceful as Xia Jingyu.

However, from time to time, she would be extremely lovable and unusually intelligent. Hence, there was no woman who had managed to occupy her position in Su Yu's heart.

It was unknown where Xia Jingyu's courage came from. Instead of lowering her head, she was staring at Su Yu's eyeballs and waiting for him to answer. She was waiting for Su Yu to answer that very moment.

Su Yu muttered to himself for some time. He then looked at her beautiful face, shrugged his shoulders and laughed relaxingly. "I don't think I am worthy of you."

For such a perfect woman, there was probably no one in the world who was worthy of being with her.

Hearing that, Xia Jingyu's gloomy heart loosened up gradually and became filled with light again. Su Yu did not dislike her. Instead, he felt he was unworthy of her. Such an answer had caused Xia Jingyu to heave a sigh of relief. Her face then regained her shocking bearing, which made no one dare to look straight at her when it was present.

"I am just joking around," Xia Jingyu laughed. Even her voice was filled with joyous notes.

A joke? Su Yu also heaved a sigh of relief.

The two of them then entered the dense forest.

There were many signs of people entering the forest. It seemed like it had been broken into a long time ago. Su Yu sighed and did not have high expectations.

Sure enough, when he entered the center area of the dense forest, a very old, broken wall stood in the middle. The top of the wall was emitting residual fluorescent light, and blurry images glowed slightly.

As Su Yu stood near the wall, he could feel his soul rising to a higher level. His thinking entered some sort of smooth state.

Just then, he had a deeper level of comprehension of the cultivation techniques he had once found difficult to comprehend. All the cultivation techniques he had cultivated then flashed past his mind.

Heaven's Son Gazing At Air, Thousand Thunder Finger, Buddhist Saint's Eight Characters, and Second Grade Clone Technique. All these cultivation techniques were like light shadows that slowly flowed past his mind.

Su Yu was excited. He had realized faintly that under such a marvelous state, he would be able to comprehend a few of his cultivation techniques successfully and quickly.

However, the fluorescent light on the wall only glowed for a while and became dim after that. Su Yu exited from his comprehension quickly.

That tiny bit of smooth feeling became completely nonexistent at once, and Su Yu felt it was a pity. "We were late. Some kind of magical powers were once inserted into this wall. So, anyone who approached the wall would be able to strengthen their comprehension. However, this wall has been used by people continuously for many years. Now, its effects are extremely weak, and it is no longer like the past."

Xia Jingyu, who was observing Su Yu at the moment, laughed. "Brother Yu also has times where he is beaten?" In her memories, nothing was impossible for Su Yu. He had never failed to do anything he wanted to do.

Su Yu laughed at himself: "I have suffered quite a lot while training in Zhenlong Continent."

Xia Jingyu's heart felt slight pain when she heard that. Her luck was extremely good. After coming to Zhenlong Continent, she trained directly under the King of Darkness, and she had never experienced any inconvenience or suffered at all. Not to mention, she had also never faced any danger.

As for Su Yu, he progressed step by step in life and death situations.

“Brother Yu, if you don’t mind, why not let me help you to comprehend your cultivation techniques?” Xia Jingyu gave a charming smile and extended her fair, slender palm.

Su Yu was stunned and did not understand what she meant.

“Have you forgotten that my Divine Decree came from you? Our bodies have the same origin, and if our Divine Decrees fuse together, you can borrow my comprehension.” Xia Jingyu’s beautiful face was slightly red. That was the one-of-a-kind connection between Su Yu and her.

In the world, only Su Yu alone could rely on such a method to borrow her comprehension and master his cultivation techniques.

Su Yu was stunned as he suddenly remembered the Evil Forest in the Sanctuary. In the past, he had fused his Divine Decree with her, and they comprehended cultivation techniques together. Under the fusion, the comprehension was smoother.

As for Xia Jingyu’s level of comprehension, that time, when Su Yu was under the effects of the space-time manipulation where the time moved 20 times slower, he only barely surpassed Xia Jingyu. Hence, it could be seen how nature-defying her level of comprehension was.

As Su Yu looked at her slender and white hands, he hesitated for a bit. After that, he extended his hands, and his ten fingers interlocked with her ten fingers tightly.

Xia Jingyu’s heart was restless, her face extremely red. She only felt that the center of her palm was enshrouded by a warm flame. It felt very comfortable.

Su Yu also felt strange. His face wore an embarrassed expression, and he said awkwardly, “Let’s start!”

Both of them then sat down with their legs crossed. With Su Yu’s Pure Divine Decree, he did not even need to put his heart into it, and he could exhibit the lowest level of natural Divine Decree.

Xia Jingyu’s Divine Decree had also achieved the shocking realm of divine-grade. With an action, she was able to exhibit a natural Divine Decree. When the two types of Divine Decree fused together, both of their souls also achieved some sort of resonance.

With that, Xia Jingyu’s extraordinary level of comprehension was borrowed by Su Yu.

The moment they fused, Su Yu’s soul rose to a higher level, and his mind was extremely clear! It was as if the world were never so clear and transparent before! Such smoothness, such enlightenment and such gracefulness were feelings Su Yu had never experienced.

Compared to the Xia Jingyu of three years ago, her current level of comprehension was more than a hundred times stronger! In other words, compared to a normal person, Xia Jingyu’s level of comprehension was a thousand times stronger!

That was not the level of comprehension of a human being. Even if it were Divine Masters, not to mention people of the Fairy Realm, it was absolutely impossible.

It was to the extent that even the comprehended legacy Tian Jizi had left behind could not be compared to the frightening state that Su Yu was in at that moment!

Su Yu was shocked. No matter how stupid he was, he also understood that was not a level of comprehension human beings possessed!

Was Xia Jingyu really a human being?

As Su Yu was filled with surprise, he was brought into the vast comprehension at once.

Chapter 522: Sheng Ge Appears Again

His brain started to understand his multiple techniques. The previously dry and difficult barriers that he had faced were now smooth and unobstructed!

He had not been able to advance, after reaching the Stage Two Peak of the Nine Fingers of Imaginary Thunder. But now, the understanding came to him like a fountain, propelling him directly into Stage Three, rising to its peak.

A purple mist appeared on the surface of Su Yu's body. It was like an ethereal fog. But looking closer, the mist harbored an alarming power of lightning. This fog felt dreamlike, making it hard to determine if it was real or not.

At this moment, Su Yu, who was in the midst of his understanding, slowly lifted his finger. The mist of lightning gathered at the tip of his finger, sometimes turning into a lifelike bird, sometimes into a worm, and other times into other objects.

It changed continuously into ten different objects. At the side, Xia Jingyu was shocked. The items that were conjured up were incredibly lifelike. She could not tell if they were real or illusions. This was the last stage of the Thousand Thunder Finger, the Illusory Thunder Finger!

Conjuring any object, using the lightning, would have an illusory effect, but would still maintain its killing potential, as it was still a lightning based technique.

A moment later, the fog around Su Yu's body became even thicker. He had succeeded in reaching Stage Three Upper Class!

At this moment, the items conjured by the lightning fog became even more realistic. It would be hard to realize that they were illusions, unless a person was looking very closely.

Finally, the lightning fog transformed once again, now becoming filled with spiritual qualities! This was the sign of the technique reaching Stage Three Peak!

Suddenly, Su Yu stopped his cultivation. The lightning fog around his body gathered to form a human figure. It was Su Yu's figure!

His appearance, clothing, cultivation level, aura, and even his vital signs were all copied, to a tee. The two sat beside each other. Xia Jingyu could not discern the difference between the illusion and the real body.

"I finally reached the highest level of the technique." Su Yu let out a long breath. He had cultivated this Thousand Thunder Finger for the longest time, finally making it to the peak.

Stage Three of the technique, the Illusionary Thunder Finger, had illusory properties. This was something that Su Yu had not expected.

Now, he could conjure his lightning at anytime during battle. Su Yu was filled with anticipation, secretly hoping for someone to find trouble with him, just so he could test the overall strength of the ability.

Su Yu was immensely grateful for such an opportunity. Xia Jingyu was also satisfied, her heart joyful.

She smiled as she said, “Brother Yu, what other techniques do you have? Let’s learn together.”

Su Yu did not hold back, immediately closing his eyes. Conjuring up the Heaven’s Son Gazing at Air, the Buddhist Saint’s Eight Characters, and the Second Grade Clone Technique, he practiced these three techniques at once.

A moment later, Su Yu’s spirit energy welled out from the top of his head, while he was in the middle of his cultivation, before turning into two clones. One clone was a crimson red, the other was transparent.

This was the second clone! One could conjure three clones when the Second Grade Clone Technique was cultivated to the extreme. But because the technique came as a fragment, he could only train it to the second stage, thus obtaining two clones.

But two was enough for now. At present, the relatively easy Second Grade Clone Technique had been completed.

Up next, was the Buddhist Saint’s Eight Characters and Heaven’s Son Gazing at Air. The Buddhist Saint’s Eight Characters was a heavily damaged fragment. There were originally four stages, but only one remained, and it was split into the categories of Beginner, Lower Class, Upper Class and Peak.

Su Yu had cultivated it to Lower Class. The word ‘Bing’ that he released was like an entire army charging forward, its power impressive. But it was slowly phased out as Su Yu’s abilities increased. He had not used it for a long time.

This was the opportunity for him to achieve a breakthrough. Concentrating, Su Yu quickly entered his state of meditation.

Many of the places he did not understand became clearer to him. But, it was still hard to understand a legendary level technique, even under the thousand times magnification of his current level of perception.

He could understand the entirety of immortal level techniques, like the Thousand Thunder Finger and Second Grade Clone Technique, but it was hard to grasp the essence of this legendary level technique. This continued for an hour.

Xia Jingyu had used her Divine Decree for a long time. She could not keep up any longer, her head spinning. But Su Yu was at the critical moment of his breakthrough, so Xia Jingyu clenched her teeth and pressed on. Another hour passed, but Su Yu had still not reached the point of breakthrough.

Whoosh Whoosh —

At this moment, two figures flew out from the clouds. One of them was the green haired Shi Jie, the other was Ming Fei! In other words, it was Sheng Ge, the Heavenly Ghost with the abilities of the Fairy Realm!

“Lord, there it is!” Shi Jie said.

He had received orders to investigate the legacies of the five peaks, realizing that the Seven Lords of Darkness were engaged in battle with the geniuses of Jiuzhou at this location. He deduced that the legacy had not been discovered yet.

Ming Fei’s gaze flickered. She was looking at the shattered wall at the center of the location. Her expression sank. “This is the legacy you speak off? It has long been destroyed!”

Shi Jie shivered, immediately kneeling and begging for mercy. But Ming Fei disregarded him, her gaze quickly landing on the two meditating figures below them.

“Yin Yu?” Ming Fei froze. She remembered that Su Yu had used the best of his efforts to find a way out for them at the most critical moment in the stone forest.

Her gaze went past him, landing onto Xia Jingyu’s body. She was confused at first, feeling a sense of familiarity, when she saw the figure and the clothing. She observed her for a moment before a killing intent burned in her eyes.

“It’s you! My slave, Yi Yu!” Ming Fei raised her brows, a merciless aura surfacing between them.

She noticed that she was in a critical moment of her cultivation. She let out a cold laugh. “You didn’t think that you would meet me under these circumstances, did you? Oh, how much you and the Black Snow Demon King have harmed me!”

She had been heavily injured by the sloppy old man, because of their betrayal, and her injuries had not fully healed yet. So, she still had this grudge in her heart.

Looking down, she had stumbled upon one of them, Lord Yi Yu! Xia Jingyu gave a bitter laugh, to think that they would appear at such a critical time!

Su Yu was at the critical moment of his breakthrough, so she could not break free and escape! If Su Yu were to be awoken now, his understanding would be disrupted. Also, with Su Yu’s hot temperament, he would naturally fight Sheng Ge for her.

Xia Jingyu took in a light breath, collecting herself. “Sheng Ge, let’s speak of our animosity later. Yin Yu has nothing to do with this!”

Ming Fei smiled, observing Su Yu. “Hehe, that lad is fortunate indeed, for a lady as pretty as you to protect him! In fact, I still owe him a favor for letting me come into the Eighth Level of the Divine Pavilion! I had not intended to harm him. I occasionally repay my debts, you know.”

Hearing this, Xia Jingyu let out a sigh of relief. But suddenly, Sheng Ge let out a cold laugh. “But I have changed my mind! The more you care about him, the more I cannot spare him! This is the price of betraying me! Furthermore, he has several decent items that are suitable for me, so I cannot think of a reason to spare him!”

After all, the Dry Cloud Five Elemental Formation and the Eternal Stone King Armor are items that she could never have too many of, considering that she was still injured. Xia Jingyu froze, her expression bitter. She looked at Su Yu apologetically.

Creak —

Xia Jingyu took out the Feather Needle of Darkness, calmly saying, “This half-manufactured spiritual artifact can push my cultivation level temporarily into the Fairy Realm. Once I have reached the limit of the Fairy Realm, I will be transported out. Thus, your revenge will have to wait!”

“Of course, I would strike you before I leave, forcing you out of that body. With your true body exposed, you would also be transported out!”

Ming Fei looked at the Feather Needle of Darkness, her expression turning serious. “Alright, to think you have such a treasure! I truly underestimated the Zhenlong Continent! But if you are trying to threaten me, you have wasted your efforts! Even if I were to give up this body, I would still kill both of you!” Ming Fei had a merciless aura on her face.

Xia Jingyu’s expression changed. Sheng Ge was a stubborn ghost. Threatening her might have had the opposite effect! Now, she might really have to activate the Feather Needle of Darkness, then perish alongside Sheng Ge.

But, at that moment, Sheng Ge suddenly said, “But killing you like that has no meaning. If you can take a blow from me, I can consider sparing the both of you.”

Take a blow?

Even if her cultivation level was limited to below the level of Fairy Realm, she could still use powers at the peak of the Immortal Realm. So, a blow from would still almost definitely kill her!

It seemed like a fair suggestion, but there was a killing intent hidden within it. There was no way she could live.

“Think about it carefully. You can either die together or let him survive. It is the most merciful choice that I can give the both of you.”

Xia Jingyu struggled for a moment, glancing at Su Yu, before clenching her teeth. “Alright, I agree!”

Utilizing the Feather Needle of Darkness, then strengthening all of her water-based techniques, she was hopeful that it would give her some chance against the blow. But the situation was still grim.

“Hehe, since you have already decided, stand there for me!” Ming Fei had a merciless smile on her face.

Having broken through to the Fairy Realm for many years, she was extremely confident that she was able to kill a Human King, who was wielding a treasure. In her eyes, the other party was merely hoping to get lucky, seeking her own death!

Once she killed her, Yin Yu’s fate would not be too much better. Xia Jingyu looked at Su Yu, drilling his face into her eyes. After committing his face into memory, Xia Jingyu prepared to turn around, when a powerful and gentle hand suddenly grabbed her.

Su Yu had opened his eyes, his vision filled with immeasurable gratitude. The only person that would die for him in this situation was Xia Jingyu.

“You gave up on your cultivation?” Xia Jingyu had an apologetic expression. “I’m sorry I involved you.”

Su Yu looked at her. He looked at this lady, who was as pure as a snow lotus. There was only gratitude in his heart concerning her. He let out a light laugh. “Techniques are important, but you are much more important.”

At that moment, Xia Jingyu’s heart thumped wildly, her face turning red. She could not describe the joy in her heart.

Pulling Xia Jingyu’s body back, Su Yu took a step forward, his calm gaze landing on Ming Fei’s body. He calmly said, “Let’s end our animosity here.”

From the Dragon Abyss of Nine Underworlds to this place, it was finally time to put an end to all.

Chapter 523: Destroying the Dragon With One Finger

“Bring the score to an end? By just you?” Ming Fei did not respond. Instead, Shi Jie took a step forward and examined Su Yu casually. “A genius of Jiuzhou?”

Shi Jie’s chin was raised slightly, and he looked extremely arrogant. He looked as if he were interrogating Su Yu.

Su Yu’s eyes only paid close attention to Ming Fei. With his Soul Eyes, he realized Sheng Ge’s virtual shadow was attached to Ming Fei’s body. As for Shi Jie’s interrogation, Su Yu turned a completely deaf ear to him.

“I have asked you a question. Do you need me to repeat it?” Shi Jie crossed his hands in front of his chest with extreme confidence. “Do you really think that with the reputation of Jiuzhou’s Returning Principal Palace, you can look down on others?”

Hearing this, Su Yu cast a sidelong glance at him and said indifferently, “Don’t you know my background? Why is there a need for you to ask again?”

Within the stone forest, Su Yu had displayed his powers. Since Shi Jie was by the side, how could he not recognize who Su Yu was? His intentional questioning was simply meant to take the initiative to occupy the right of speech.

Having gotten such an answer, Shi Jie glowed with a ferocious light and said sternly, “Seems like you have really treated yourself as someone very powerful!”

Su Yu looked at Sheng Ge again, his eyes ignoring Shi Jie. As for Sheng Ge, she gave a true yet fake laughter and did not stop him.

“Humph! If you wish to settle the score with my master, I need to first test whether you have the right to do so!” Shi Jie’s green hair was glowing with a green fluorescent light, and a cool breeze was revolving around his whole body. After that, his body turned blurry and disappeared.

The Shi Clan, one of the Eight Great Ancient Clans, was proficient in movement techniques, and they had a style of their own.

However, the moment he flew over, Xia Jingyu took light, graceful steps and said apathetically, "Let me take care of you again."

At the Mysterious Heavenly Stage, there was a match between Shi Jie and Xia Jingyu before. He was defeated by Xia Jingyu within three moves.

The sky whistled, and Shi Jie's figure appeared.

His eyes were filled with disdain: "Lord Yi Yu? I have always remembered the shame from the defeat that day, and I have already wanted to have another match with you to get rid of the humiliation! Since you are willing to fight me, then I shall accept it deferentially! However, the victory and defeat between us this time is probably going to switch over! After being advised by my master, I am no longer the Shi Jie of the past!" Shi Jie's whole body emitted great confidence.

Xia Jingyu's expression was nonchalant like before, and she only felt slightly overwhelmed deep inside her pupils.

For the match with Shi Jie that day, she could say without standing on the ceremony that Shi Jie was suppressed easily, and it was not difficult in the slightest bit. However, after not seeing him for two months, he had become so confident. Some changes must have occurred!

"Prepare to eat my attack!" Shi Jie's whole body was imposing to the extent that a tiny bit of vital energy could be faintly seen flowing within his body!

When Su Yu's eyes swept past his Dantian, he could not help but be slightly shocked. Vital Crystal Energy!

At the Mysterious Heavenly Stage, Shi Jie was merely a normal Human King. Even though only a short time had passed, not only did he make a breakthrough to Half God, he had also successfully coagulated a Vital Energy Crystal to become a Half Fairy. With that, his abilities increased greatly!

However, after thinking, Su Yu understood. Su Yu's abilities had also increased unimaginably as if he had been reborn. Surely Shi Jie's had as well; he was following someone of the Fairy Realm.

From his aura, Xia Jingyu had also realized the situation was not good.

Her wonderful eyes then brightened, and she attacked immediately! Her whole body was filled with water vapor, which changed into 12 water dragons.

In the past, it was such a move that had attacked Shi Jie to the point that he could not retaliate, and the curtain fell with him in dire straits.

Now, as he was facing the same move again, he revealed a satirized expression. "Still the same old water-based technique like before? No matter! I shall let you see the gap between us now!"

"Whirlwind!" Shi Jie's figure revolved at his position. With him as the core, a green tornado suddenly appeared. The wind was filled with shocking power that had already exceeded that of the normal Wind Origin!

As the 12 water dragons attacked with a roar, Shi Jie wore a disdainful smile and raised his finger to tap lightly. The green tornado moved over.

As for the 12 water dragons, they tried to bypass the tornado. However, when they were within 1,000 feet of it, they encountered an unimaginably large power that sucked them toward the tornado.

After withstanding the attack for some time, the 12 water dragons were sucked into the tornado like fallen leaves. After that, at a speed that could not be perceived by the naked eye, they were torn into pieces by the tornado!

After not meeting one another for two months, Shi Jie had a complete victory over Xia Jingyu!

“Too weak.” Shi Jie shook his head coldly and wore a mocking expression. “If this is the power of the Seven Lords of Darkness, then it is really too disappointing.”

Xia Jingyu had a calm expression, and she weaved signs with both her hands at the same time. This time, it was not 12 water dragons. Instead, it was 30 water-based cultivation techniques that were exhibited at the same time. There were many kinds with different powers, and all of them struck Shi Jie at the same time.

Looking at the combined power of the 30 water-based cultivation techniques, how was it only ten times more powerful than the water dragon?

“Oh? Seems like you have progressed a bit as well. However...” Shi Jie commented casually, “it is still too weak!”

“Extinguish!” Shi Jie’s cold eyes brightened, and his five fingers pressed downward. With a rumbling sound, nine more tornados appeared around the first one!

The ten tornados then fused into one body and became a 10,000-foot giant tornado that shook the whole dense forest and created endless wind waves. With a furious roar, the wind dragon moved.

The fusion of many cultivation techniques that came did not even penetrate the wind dragon in the slightest bit. It was dispersed with the wind dragon’s absolutely strong bearing!

Shi Jie, whose abilities had soared abruptly, had become as frightening as this.

“Too weak!” Shi Jie’s face could not conceal the madness within him; he had gotten rid of all his humiliation. He laughed sardonically. “Do you dare to exhibit more powerful attacks?”

Xia Jingyu retreated slowly and kept exhibiting cultivation techniques in quick succession.

Shi Jie, who was standing high up in the sky, looked elegant and brilliant. With any action of his, he could command the wind dragon to suppress everything.

“Weak! Too weak! Is that all you’ve got?” After ten rounds, Shi Jie laughed wildly with a bearing of complete suppression. Nothing was more exciting than stepping above the head of a former strong opponent.

Xia Jingyu’s expression was slightly discolored, and she kept retreating. She had already retreated to the side of Su Yu.

A ferocious light flashed past Shi Jie's eyes. "This is the end, and it is really disappointing. In the end, the geniuses of the Empire of Darkness are nothing much more than this. You have not even made me use my full power yet."

Both his hands tapped in succession. The wind dragon then descended from the sky with a bearing that conquered the mountains and rivers, enshrouded Xia Jingyu completely and swallowed her up.

With the ripping power the wind dragon contained, the only path left for Xia Jingyu was to be torn into pieces on the spot.

The wind dragon descended with a rumbling sound. Right when it was about to swallow up Xia Jingyu, Su Yu, who had stood with his hands clasped behind his back all the while to observe quietly, finally moved.

He extended one finger and tapped toward the sky.

The wind dragon, which was descending crazily and roaring furiously, was actually stopped in the sky by the finger. Although its giant body was swinging madly in the sky, its head was unable to break through the finger at all.

"Illusory Thunder!" Su Yu had a dull expression as those two words came out of his mouth. At once, an unusually shocking scene appeared.

Thunder mist appeared from Su Yu's body and changed into a 10,000-foot-long giant thunder dragon, which was released from his finger. When the thunder dragon advanced toward the sky, it swallowed the 10,000-foot wind dragon.

The giant wind dragon then continuously struggled within the thunder dragon's body. However, when the thunder dragon gave a cold hum, tens of thousands of thunderbolts appeared in its body.

With that, the roaring of the struggling wind dragon abruptly ceased.

The thunder dragon also dispersed by changing into a lump of thunder mist and returned to Su Yu's body. The whole process only took a breath's time, and the wind dragon was completely exterminated!

Su Yu had extinguished the wind dragon with one finger!

The pupils of Shi Jie, who was high up in the sky, shrank to their smallest. He was astonished!

Chapter 524: Battling Sheng Ge

To destroy his most powerful wind dragon, with just a finger, it was a nearly impossible feat! That dominating stance, coupled with that undefeatable posture, caused Shi Jie's heart to thump wildly.

But, what really made his pupils dilate was that Su Yu scattered like the wind. It was an afterimage! At this moment, a human figure had appeared behind him, his back facing him!

Following that, Shi Jie felt a pain near his abdomen. Looking down, he found that a finger-sized hole had appeared on his chest, leaving behind streaks of lightning that slowly scattered away!

The human figure behind him had a lightning sword, which was formed by a lightning fog. He held it confidently in his hands.

Shi Jie did not even realize that he had been hurt! The pain now pulsed through his body. Then, Shi Jie's vision darkened, just before he fell down.

As he was falling, the vision of the sky was getting farther and farther away. Imprinted in his eyes, was the figure of a silver haired figure, standing in the air, not even looking at him. It was an inhuman, terrifying figure, an image that was burning into his eyes.

One move was all it took to destroy his wind dragon and heavily injure him. In fact, Su Yu could kill him at his whim! This Su Yu was too terrifying!

Su Yu looked down coldly at the falling figure, shaking his head in disappointment. "He was just too weak."

Shi Jie, who had shouted at Xia Jingyu for being too weak, was now given the same comments by Su Yu. Su Yu floated down, landing beside Xia Jingyu. He grabbed her fair hand, injecting his spirit energy to heal her wounds.

He then scolded, "With the Feather Needle of Darkness in your hands, he would not last more than three moves against you, so why did you not use it?"

Hearing the harshness in his voice, Xia Jingyu felt more than a little pressured. Her calm expression was now gone. She looked down, her face red, as if she was a little girl being scolded. "With Sheng Ge around, how would I dare harm him?"

That scene just now was not a battle against Shi Jie, but a show of force against Sheng Ge. If she had harmed Shi Jie, and invited the attacks from the Fairy Realm Sheng Ge, things would have become much more complicated.

Understanding her thought process, Su Yu sighed. "Alright, but no next times. With me around, you should not ever find yourself at a disadvantage."

Such an overbearing order, one that was not to be disputed, gave Xia Jingyu no choice but to obediently nod. Su Yu looked at Xia Jingyu for a moment. She was always sacrificing herself.

Su Yu was always a little worried about that. There would come a day, where she would do something that Su Yu could never repay...

Pat Pat Pat —

Ming Fei waved her sleeves. A bolt of wind gripped Shi Jie, then landed on the ground. Her gaze fell onto Su Yu, unusually interested.

She could not help but clap and smile. "You have used a complete immortal level technique, and a unique lightning based technique at that. If I am not wrong, your lightning based techniques even contain a shred of disastrous thunder!"

Su Yu patted Xia Jingyu's shoulder, prompting her to fall back.

"Do you have anything else to say?" Su Yu calmly said.

Ming Fei licked her lips and smiled. "I'll give you a chance. Follow me, while we are still in the Mysterious Heavenly Palace. Even an average person like Shi Jie would have such massive improvements under me, much less a person filled with potential, like you! Follow me, and you will have advantages that you have never dreamed of."

Hearing this, Su Yu was calm, shaking his head immediately. “There’s no need, as I do not think that you would want me by your side.”

Ming Fei had a faint smile. “Is that so? I would think that you would be very willing!”

Suddenly, a black glow flashed in Ming Fei’s eyes. She shot out a rather unique ripple, one which targeted the soul and cannot be defended against. It slipped directly into Su Yu’s soul.

Ming Fei then revealed a smug smile. “No one that I fancy can escape my hands!”

Su Yu, after having his soul infiltrated, had a calm expression. He let out a faint smile. “Hehe, after not meeting you for a long time, I see that you are still using the Heavenly Ghost Mind Planting Technique?”

Ming Fei was shocked. “It’s ineffective against you? Impossible! How do you do it? Also, how do you know that this is the Heavenly Ghost Mind Planting Technique? What do you mean by not meeting for a long time?”

Su Yu had a faint smile, a faint blood-red mist coating the surface of his body. Even his silver hair was dyed blood red. Other than the mask, he had already become the Black Snow Demon King!

“Hehe, Sheng Ge, are you not going to call me Brother Black Snow?” Su Yu joked. In the past, she had disguised herself as a five-year-old child, happily calling them brother and sister.

Blood red hair... Blood red hair!

A figure suddenly overlapped with Su Yu’s in Ming Fei’s brain!! Back at the stone forest, she had already felt a sense of familiarity, when she saw the silver haired Yin Yu. But, she could not find a connection between the handsome silver haired lad and the ferocious, blood-red haired Black Snow Demon King now before her!

Now, she finally understood why she had found Yin Yu to be so familiar. That figure was incredibly similar!

“Black! Snow! Demon! King!” Ming Fei clenched her teeth, her face blurring. The Sheng Ge within was trying to pop out of the body, after the agitation!

Thud Thud Thud —

Xia Jingyu was shocked, her eyes bulging in disbelief.

That Black Snow Demon King, who was doing battle with her, and who had spent that much time together with her back in the Dragon Abyss of Nine Underworlds, was Su Yu! Come to think of it now, there was once a moment that the Black Snow Demon King gave her the feeling that she was spending time together with Su Yu...

That was also when she blamed herself for developing feelings for someone other than Su Yu. To think that she had developed feelings because the other party was indeed Su Yu!

The previous shred of regret and self-blame in her heart now immediately vanished! It turned out that the person she had pined for had already appeared before her eyes, all through the invisible hand of fate!

Su Yu seemed to have noticed her change in expression. He turned around and smiled. He had already felt that Lord Yi Yu seemed to be very similar to his best friend Xia Jingyu, who he had known back at the Dragon Abyss of Nine Underworlds.

To think that it was remarkably true! That wonderful shared realization caused them to look at each other, both letting out a laugh at the same time.

“Enough! You bastards!” Ming Fei grinded her teeth!

Yi Yu and Black Snow were the two people that had destroyed her reputation! Especially Su Yu, who had pretended to be under the influence of the Heavenly Ghost Mind Planting Technique, thus deceiving her.

Yet, she still helped Su Yu to improve his body and snatch the Cosmos Thunder Sword. More importantly, she had prepared two vital energy crystals, with the intention of him breaking the seal and releasing her.

But, at the most critical moment, this lad had used the body that she had improved, the Cosmos Thunder Sword that she had snatched, and the vital energy crystals that she had prepared to attack her! Because of him, she had been injured heinously!

How could she forget such humiliation?

“Ahhh!!! You two bastards, I’ll never forgive you!” Sheng Ge became more furious.

Su Yu smiled playfully. “Is that so? I have no intention of forgiving you, either.”

Sheng Ge clenched her teeth, then said, “You can’t even save yourself, yet you still dare to try and harm me?”

Su Yu nodded, pointing his finger at Sheng Ge. “That’s right! From today on, you will become my slave! No matter who you were in the past, from now on, you will only have one identity, and that is as my slave!”

“In fact, I will finish you off today!”

Chapter 525: Making Her a Slave

A slave? Not only was Sheng Ge stunned, Xia Jingyu was stunned as well.

In the Dragon Abyss of the Nine Underworlds, they had a deep understanding of Sheng Ge’s abilities. That overwhelming gap had caused people to feel hopeless.

So, where did Su Yu get his courage to get her to submit to him and become his slave? Such words were so arrogant it was shocking. Even if it were the sloppy old man who kept watch over the Dragon Abyss of the Nine Underworlds, would he dare to talk big like Su Yu?

After hearing what was said, Sheng Ge could not help but laugh sardonically. “Yin Yu, Black Snow Devil King, do you really think I am not very different from a Half Fairy with three Vital Energy Crystals since my cultivation base has been restricted?”

Her abilities were superior to Chou Zeming. As such, under a situation where her cultivation base was similar to Chou Zeming, her powerful tactics and secret techniques were naturally incomparable to that of a normal Half Fairy.

However, Su Yu was calm and composed. “Why don’t you find out by testing me?”

Su Yu’s eyes glowed brilliantly. His whole body was then covered by thunder mist, and he changed into various kinds of agile states. In the end, he became a 100-foot-long chain.

Sheng Ge’s sardonic laughter gradually disappeared. It was replaced by tiny bits of murderous energy, and she said coldly, “Lightning techniques are indeed quite effective against ghosts like me. However, your lightning techniques are far from enough to suppress me!”

Whoosh—

A breath’s time ago, Sheng Ge was still talking at her original position. But, in an instant, she had mysteriously disappeared. When she appeared again beside Su Yu.

Xia Jingyu’s heart tightened. “Teleportation!” That was already something that could not be explained using speed.

Sheng Ge’s face was cold, and she extended two fingers expressionlessly. Her fingertips were filled with vital energy. They pierced through Su Yu’s heart from the side of his ribs.

How sudden was the finger? It was to the extent that it did not give people any time to react.

Similarly, Su Yu was unable to react. The thunder mist he had formed was broken through by the finger in an instant. Su Yu, who was inside, was pierced through heartlessly as well. The fact that Su Yu was taken care of so easily had exceeded all their expectations!

Whoosh—

The thunder mist dissipated. However, no one was inside.

Xia Jingyu heaved a sigh of relief. She could not help but speak admiringly and secretively. “Could it be an illusion? If that is the case, how strong is the thunder mist in getting people to fall into its illusion? Even a Heavenly Ghost was unable to break through it.”

Sheng Ge had a calm, unsurprised expression. She then said softly, “This is indeed an illusion. Although this lightning-based cultivation technique is immortal-level, it is not ordinary. When you master it completely, it will faintly achieve the level of a legendary-level cultivation technique.”

After her speech, Sheng Ge’s cold eyes, which were filled with black mist, swept past the void like electricity. Suddenly, she threw herself toward the void beside her in the sky.

Whoosh—

At that moment, a tiny bit of a glowing thunderbolt descended. It was Su Yu, who had exhibited Thunder Escape.

Sheng Ge was actually able to accurately figure out the location that Su Yu was about to appear in next, and she attacked that location in advance.

However, Su Yu was prepared for that as well. Before he showed himself, a small golden sword changed into a golden fragmentary thread and spun. As such, Sheng Ge involuntarily withdrew her palm, with which she had intended to strike Su Yu temporarily. She grabbed toward the small golden sword instead.

With a slithering sound, the small golden sword, which had changed into a fragmentary thread, was firmly caught by a long and slender palm.

“A semi-manufactured spiritual artifact. It also seems to contain some commendable materials.” Sheng Ge was slightly shocked and revealed a satisfied expression. “This sword shall belong to me now.”

Her hand held the sword, and she was about to toss it inside a space artifact, which was used to store items. Although she looked like she was holding the sword casually such that it could struggle all that it wanted, it could not move in the slightest bit.

“No need to waste your energy. I shall accept your magical treasure without standing in ceremony.” Sheng Ge felt delighted that she had managed to take revenge on Su Yu.

However, at that moment, her expression changed, and her hand grabbed the air abruptly. The small golden sword had disappeared into thin air by teleporting away from her hand.

“Space-based!” Sheng Ge was a bit surprised and shocked. She was also shamed into anger as her hand had grabbed the air.

“A semi-manufactured spiritual artifact. This is the backing you are so proud of?” Sheng Ge gave a cold hum. “If that is the case, the score between both of us can indeed come to an end.” As Sheng Ge spoke, her whole body turned blurry, and she teleported again. The thunder mist had finally dissipated completely as well.

However, it was not completely empty within the thunder mist. Instead, there was a small sword that was emitting a golden, cold light and floating quietly.

The moment Sheng Ge teleported and her attention diverted elsewhere, the small golden sword shot toward her unexpectedly. It then created a series of fragmentary threads and cunningly headed toward Sheng Ge like a poisonous snake.

As she was teleporting, Sheng Ge’s expression finally changed having realized what was happening beside her. Without time to think too much, Sheng Ge spat out a mouthful of dark and gruesome ghost energy that magically changed into a ghost face as big as a section.

Slap—

When the golden fragmentary thread collided with the ghost face, it was as if it had collided with a shockingly elastic, soft object, and it bounced out. Her reaction was extremely fast!

The small golden sword was very hard and sharp. It also contained space qualities. Hence, if Sheng Ge were to use a hard shield to block the attack, there was a high chance her hard shield would be ripped open by the golden sword.

However, by using a soft shield with the belief that softness could overcome the hardness, she cleverly countered the strong point of the golden sword. In such a short instant where danger descended upon her, Sheng Ge was able to rely on her instinct and adopt the best defensive measure. It was clear how experienced she was in fighting.

“Humph, I have already experienced this kind of trick so many times; it is useless against me!” With a flash of the abundant ghost energy around Sheng Ge, it changed into three ghost faces and surrounded her body; that way, they could deal with the golden sword at any moment.

Su Yu’s expression changed slightly, and he felt that it was going to be a bit troublesome. The gap between the enemy right in front of him and normal Half Fairies was huge.

However, Su Yu’s reaction had always been fast as well. After the golden sword bounced off, he weaved signs with one hand almost without any hesitation. His palm then retrieved a small golden sword, and after the space glowed for some time, he appeared behind the other small golden sword.

“Two semi-manufactured spiritual artifacts in the hands of one person. Seems like they are a pair of magical treasures! For you to be bestowed with such gifts, your luck is really not ordinary. You are actually able to obtain two semi-manufactured spiritual artifacts from the historical remains!”

Su Yu did not respond. He weaved signs with one hand to control the two golden swords. The two swords then changed tactics. Instead of attacking by themselves, they connected into one thread where their heads and tails were linked up together, and they headed toward Sheng Ge.

Sheng Ge tapped her fingertip, and one of the ghost faces blocked the path of the golden sword.

Slap—

Just like what had happened before, when the golden sword pierced the soft ghost face, it bounced off immediately.

However, at that moment, the tip of the second golden sword closely tapped the tail of the first one, which was about to bounce off without hesitation. Instead, it pierced a deep part of the ghost face.

Puff—

The ghost face became distorted for some time and dissipated on the spot. Sheng Ge then raised her eyebrows and raised her soft, white hands. With that, the second ghost face headed over very naturally.

Puff—

However, the two golden swords followed their previous pattern and broke through the second ghost face.

Finally, Sheng Ge’s expression changed slightly, and she sent the third ghost face over.

The two golden swords had rotated continuously, and their force had depleted gradually over time. Hence, they were unable to break through the third ghost face for a moment, and they refused to budge at their location. Sheng Ge heaved a sigh of relief. Her eyes then turned cold, and she was about to spit out a mouthful of ghost energy again.

However, at that moment, something suddenly changed.

A third golden sword light had appeared at Sheng Ge's back at some point in time. That sword was the real sword, which laid in ambush!

Chapter 526: Long Arduous Battle

Sheng Ge had kept her guard up against Su Yu, but she could not have expected the existence of a third golden sword! Su Yu had three of the same half-manufactured spiritual artifacts!

Sheng Ge's heart skipped a beat! But, as she was ultimately a fighter from the Fairy Realm, her adaptability was shocking!

She grabbed the ghost face with both of her hands, while she was in the air. The ghost face that was supposed to be guarding against the two other golden swords swivelled, now appearing at her back.

Su Yu knew that this was not good! Indeed, the sword that was supposed to kill her was extremely fast, created as such in order to ensure maximum damage.

In the end, it was repelled by the ghost face upon collision. Su Yu's expression sunk, but he immediately regained control of the other two golden swords.

Without obstruction from the ghost face, they shot toward Sheng Ge. But, they were too far away.

Sheng Ge had a spiritual glow in her eyes. She grabbed the air with her hands, as she shifted her body away. One of the golden swords landed in Sheng Ge's hands. The other was aimed toward her heart, but only slid past her arm. As she shifted her body away just in time, it only left behind a bright red mark.

With Su Yu's multiple calculations, a normal Half Fairy with three vital energy crystals would have already been defeated. But, Sheng Ge was very experienced, managing to avert the attacks again and again.

Creak —

The golden sword in Sheng Ge's hand rippled the space, escaping her grasp. Her expression gradually turned cold. Even though she could avoid the multiple attacks, they were clearly taking a toll on her.

Sheng Ge could not remember many times where she had been put in such a situation. And, each of those situations involved battles that were against enemies of higher cultivation levels than her.

But, not this time, as Su Yu was merely a Human King. And yet, he had managed to suppress her!

Even though there was a restriction on her cultivation level, this lad's battle abilities were shocking. Those three half-manufactured spiritual artifacts had given her much trouble.

"Are you done yet? If so, it's my turn!" Sheng Ge had a cold glow on her face. She let out a cold grunt, sending a formless aura spreading across the surroundings.

It was like a tsunami, crashing down in all directions. Dust and debris shot into the sky. The forest shook, its trees about to fall. Facing this horrifying aura, Xia Jingyu had to take several steps back, looking on with shock.

Compared to that time at the Dragon Abyss of Nine Underworlds, Sheng Ge's abilities were clearly restricted. But, this aura was incredibly close to the Fairy Realm. It was something a Half Fairy couldn't reproduce.

Sheng Ge's hair was dancing in the wind, her eyes filled with a spiritual black glow. Ghost energy enveloped her body. Faint figures of ghosts could even be seen.

At this moment, a black beam of light shot out from Sheng Ge's left eye! Su Yu's heart turned cold, a deep feeling of dread welling up within him. Without thinking, Su Yu turned his shoulders sideways, teleporting a few dozen feet away. The black beam of light pierced through the thin air, narrowly missing Su Yu.

Rumble —

An earth shaking rumble could be heard from the forest below. Looking down, several thousand square meters of the forest had been leveled by the black beam of light! A bottomless pit, spanning five miles in radius, could clearly be seen. That attack had pierced through the earth!

Su Yu's scalp crawled. If he had been struck by that attack, he would have been completely disintegrated. There was no doubt about it!

The power of that attack was no weaker than Lü Chuyi's, while using the Heavenly Orchid Silver Bamboo! But, just as Su Yu was catching his breath, a warning sign rang out in his heart. He conjured the Eternal Stone King Armor, without hesitation.

At that exact moment, a black beam of light shot out suddenly from that bottomless hole. It was the beam of light that Sheng Ge had shot out!

Su Yu's heart chilled. The attack had narrowly missed him once again! It looked like he had averted the crisis, but only at this moment. The black beam of light that had clearly missed Su Yu now turned around! Its long tail was aimed directly at Su Yu!

Su Yu was caught off guard, swiped by the beam of light. In that instant, a huge pressure crashed down onto his body!

Boom —

Su Yu took several steps back, the armor on his body flickering. A small gash could faintly be seen on the armor!

The Eternal Stone King Armor was an armor with alarming defensive capabilities. For it to develop a gash, was almost unheard of! It was because of this armor that Su Yu was still safe, his energy and blood merely flipping in his body.

"Hmph, I really wish to see how much longer that armor can last!" Sheng Ge shot a cold gaze, sending the black beam of light to once again assault Su Yu.

Su Yu evaded it, time and time again. Half a cup of tea's time later, the ghost energy in that beam of light gradually dulled. It finally faded away, after a few more misses.

"Don't you still have that defensive treasure, the Dry Cloud Five Elemental Formation? Why don't you take it out?" Sheng Ge was suspicious.

In her memory, Su Yu did have a blue orb. Moreover, its defensive ability was no weaker than the broken Eternal Stone King Armor's.

But, Su Yu had not taken it out yet. She felt that something was off about this.

“You wish to know?” Su Yu had a faint smile.

Sheng Ge felt a feeling of unease.

At this moment, Xia Jingyu, who was hiding, watching the battle from far away, suddenly said, “Alright Brother Yu, I have already made it out, and am now ten miles away!”

Xia Jingyu had been constantly retreating, already making it ten miles away. She was now merely a small speck on the horizon.

Su Yu nodded, “Alright, we can start now!”

Sheng Ge felt that something was off, her figure flickering, as she teleported toward where Xia Jingyu was at. She needed merely a breath to cover ten miles of distance.

In the blink of an eye, she had already arrived in front of Xia Jingyu. “I’ll capture you first!” No matter what the scheme, since Xia Jingyu had already retreated, that would mean that Su Yu was considering her safety above all.

Suddenly, a boom could be heard, as Sheng Ge’s body came into contact with a gentle wave of water. Her teleporting figure was forcefully shot back! The great reflective power made her blood flip, a metallic taste making its way up her throat.

“Not good! It’s an ambush!!” Sheng Ge recognized the situation immediately. She looked up to find that there was a blue beam of light separating her and Xia Jingyu. There were ripples on the beam of light, made by her collision with the beam.

“The formation orb of the Dry Cloud Five Elemental Formation?” Sheng Ge was shocked.

Her expression then changed, as she immediately flew in the other direction. But, suddenly, the blue beam of light expanded outward, as if it was a scroll, before turning into a veil of light, reaching into the heavens.

The warning bells in Sheng Ge’s heart rang out now. She immediately tried some other ways to break the formation. But, the creaks sounded out continuously. Veils of light, of all different colors, appeared within the ten mile radius. The five colored light veils then combined to form one, covering the entirety of the ten mile radius!

“The complete Dry Cloud Five Elemental Formation!” Sheng Ge’s expression finally turned serious. One formation orb was nothing to her, nor two, even five was no match for her.

But, with the five formation orbs combining to form a single formation, its power was not as simple as the five veils of light overlapping separately. The power of the formation had been magnified multiple times!

She tried to fly upward, toward the high heavens, but the five veils of light formed a conical seal on the top.

Following this, she blasted a palm toward the earth, but her expression sunk, when she realized that the ground had also been covered with the veil of light. She was already within the enclosed formation...

Chapter 527: Nowhere To Run

“When did you set up the spell?” Sheng Ge’s expression was extremely unpleasant, and she shouted with a low voice.

Su Yu had clearly been fighting with her the whole time. So, when did he have the opportunity to completely set up a spell within ten miles’ vicinity? Such a huge setup would definitely require some time.

Su Yu stepped over and said indifferently, “It was when I first saw Shi Jie, of course.” When Shi Jie had appeared, Su Yu had also expected Sheng Ge to come.

That time, he had already had plans to get the Heavenly Ghost to submit to him. Hence, he put in a lot of effort to set up the Dry Cloud Five Elemental Formation and only helped Xia Jingyu after that.

“Although you are unable to achieve anything, you are good at spoiling things!” Hearing that, Sheng Ge could not help but feel resentful. After glaring at Su Yu ferociously, she finally believed he was extremely audacious, and she might really fall in the hands of Su Yu that day.

“Don’t even think of trying to trap me!” Sheng Ge gave a cold hum. After that, her left eye emitted a pitch-black light beam again, which pierced through the light membrane. Under such a great force, the light membrane shook vigorously for some time. A shallow crack appeared.

As the spell was spread greatly, the light membrane was spread forcefully. In turn, its defense was naturally a lot weaker. Su Yu’s expression changed slightly. He then weaved his hands, and the five light membranes quickly shrank.

Sheng Ge had an anxious expression. Whether she could escape or not would be up to her at that very moment! The pitch-black light beam then crazily struck the five-colored veils of light and tried to break open the light membrane. However, as the light membrane shrank quickly, the light beam attack became weaker and weaker.

When only one mile’s vicinity was left, the light beam attack only left behind a rippling effect on the light membrane; it would be difficult for the light beam to break through.

Finally, the Dry Cloud Five Elemental Formation abruptly shrank and trapped Sheng Ge within a 30-foot vicinity. Taking advantage of the opportunity, Su Yu stepped out of the spell as if it were non-existent, and he controlled it from a distance.

Sheng Ge was both agitated and furious. “Black Snow Devil King, I will not forgive you for treating me like this!”

“Haha, Lord Sheng Ge, I think that is not up to you to decide!” Su Yu eyes glowed with coldness, and his palms came together slowly. The five-colored light beam then shrank until there were only five feet left.

Shocked and still furious, Sheng Ge then emitted ghost energy from her arms to strengthen their power, so she could use her arms to prevent the light beam from forcefully shrinking. She was still struggling persistently.

“Little kid, do you really wish to fight at the risk of mutual destruction such that we cannot coexist at the same time?” Sheng Ge shouted in a threatening manner. However, she was cowardly at heart.

Xia Jingyu, who was observing the battle from afar, found the scene unbelievable. Su Yu had really fought with a Heavenly Ghost to the point that she submitted to him!

That time, in front of the Heavenly Ghost, both of them could not even take deep breaths. However, at that moment, he had suppressed the Heavenly Ghost to such an extent! In just a few months, how great was the growth in Su Yu’s abilities?

“I have said it before; my objective is to capture you!” Su Yu said apathetically as his five fingers forcefully came together.

How strong was the Dry Cloud Five Elemental Formation?

With a painful hum, Sheng Ge’s arms bent unnaturally, and she looked as if she were about to be completely suppressed. She did not have any chance to resist. Her eyes glowed with sudden determination. “All right, little kid, you had better watch out for yourself! If you have the guts, don’t ever return to the Zhenlong Continent!”

Whoosh—

Suddenly, ghost energy was wildly released from the top of her skull.

A little girl who was about 5 years old then walked out from the ghost energy. She looked as if she were decorated with white powder and carved out of jade. She was like an adorable, unusually exquisite porcelain doll. However, her eyes were opened wide and staring at Su Yu furiously.

As soon as she appeared, she could no longer conceal her cultivation base of the Fairy Realm. Within the Mysterious Heavenly Palace, a space fluctuation that ignored the Dry Cloud Five Elemental Formation then instantly appeared and enshrouded her.

Her transportation this time was obviously to the place where she came from, the Zhenlong Continent. Over there, a Fairy Realm like her would no longer be affected. Hence, if Su Yu were to return, he would have to face a real Fairy Realm instead of a Half Fairy.

“Little kid, I shall wait for you at the Zhenlong Continent!” Sheng Ge said through gritted teeth. She had finally arrived at the eighth level of the Divine Pavilion, and she was only a step away from returning to Jiuzhou.

However, who could have expected she would be forced back by a young Human King?

As for Su Yu, his eyes glowed brilliantly. “It is good that you have showed yourself! I have been waiting for you to show your real body!”

Whoosh—

Suddenly, a great amount of golden light shined in Su Yu’s sleeves. It was a golden ring that was five feet large. Unfamiliar Sanskrit words were carved on the ring, and it was emitting a dazzling Buddha’s halo.

Illusory Buddha qualities then gradually appeared around the ring. They sang the Sanskrit words softly and spoke Buddhist terms that caused people to feel free and natural.

However, if the ghosts were to hear those Buddhist terms, they would feel extremely uneasy as if poison were taking effect in their bodies. As soon as Sheng Ge heard the Buddhist terms, her expression changed greatly. “The most valuable treasure of Buddhism, the Ghost Suppressing Golden Ring?! No!”

As she roared furiously and withstood the effects of the Ghost Suppressing Golden Ring, the ghost energy within her body surged crazily and moved to crash into the spell. However, everything was to no avail.

At the last moment, Su Yu stopped holding back. He inserted all the spiritual energy in his body into the Dry Cloud Five Elemental Formation, which shrank again at once. Sheng Ge was pressed by the Dry Cloud Five Elemental Formation on all sides, and her body was unable to move in the slightest bit.

Taking advantage of the opportunity, the Ghost Suppressing Golden Ring flew into the sky and was put onto her neck. After that, it shrank to the size of a fist and was locked onto her neck firmly.

Buzz, buzz, buzz—

The great amount of ghost mist was wildly released from her body as if it were small fish that had been shocked.

“Ah!!” Sheng Ge gave a loud shout. Her small, nimble body had experienced a considerable amount of pain. A layer of determination then appeared on her face. “It is too early for you to catch me!” With a light shout, Sheng Ge’s right eye emitted a ray of white light!

The white light was extremely strong. Compared to the black light beam that was emitted from her left eye, the white light contained unusually strong Buddhism energy.

Buddhism energy, which could suppress ghosts, appeared from the body of a ghost. Su Yu was stunned by such an absurd scene. However, was that Buddhism energy only a few times stronger than the Ghost Suppressing Golden Ring?

As such, a giant opening was created in the Dry Cloud Five Elemental Formation! Su Yu was shocked. The white light beam was more than ten times stronger than the black light beam!

However, the attack had caused Sheng Ge to use up all of her vital energy! Her body escaped from the hole unsteadily.

Thick Buddha qualities were revolving around her body surface. The Ghost Suppressing Golden Ring looked as if it had its own consciousness and loosened on its own. Taking advantage of the opportunity, Sheng Ge freed herself.

She had used up all the vital energy in her body. Moreover, more than half of her ghost energy was lost. Her abilities had depleted greatly. If the same thing were to happen again, there was an 80 to 90 percent chance she would really be subdued.

However, at that moment, she had been enshrouded by the space fluctuation of the Mysterious Heavenly Divine Pavilion, and she was about to be transported.

Before Sheng Ge left, her whole face was filled with coldness. She glared at Su Yu persistently. She then gritted her teeth and said coldly, with a pause between almost every word, "Black Snow Devil King! I will make you regret this!"

Su Yu did not look concerned. Instead, he laughed leisurely. "Do you think you can return? So what if you have gone past the limit of the Fairy Realm?"

"If I want you to stay, you shall stay!"

Whoosh—

Suddenly, the sound of something opening could be heard. It was an unusually complicated map. After it opened up in the sky, it revolved until it reached the top of Sheng Ge's head.

A strange scene then occurred. Under the interference of the map, the space fluctuation that had appeared on top of Sheng Ge's head actually retreated!

Chapter 528: A Strange Tomb

Her transportation had been stopped. Sheng Ge was shocked. "How could you have the Mysterious Heavenly Map? It's impossible!"

But she did not have time to think. Now that she was severely weakened, how could she stand up against the Dry Cloud Five Elemental Formation and the Ghost Suppressing Golden Ring?

Her petite figure flashed, quickly flying to the far end of the space as she attempted to escape the area that was covered by the map. By doing this, she hoped that, with her powers of the Fairy Realm, she could be sensed by the Mysterious Heavenly Divine Pavilion and get transported out.

Seeing this, Su Yu grabbed with his hands, recalling the Dry Cloud Five Elemental Formation and the Ghost Suppressing Golden Ring, while flying quickly in pursuit. He had already put in so much effort, he couldn't let her escape!

Now that she was weakened, it was the best opportunity for him to capture her. Once she escaped to the Zhenlong Continent and regained her Fairy Realm abilities, it would be much more troublesome for him to capture her.

Xia Jingyu came to her senses as she watched the battle, her heart shaking in awe. She flew over, proud and respectful of Su Yu.

Sheng Ge was charging forward manically, but her movement techniques were much weaker than they had been at her peak. Her speed was now slower, and she was unable to free herself from Su Yu and the influence of the map.

Thus, the three figures were in pursuit, flitting around the skies of the five peaks. Imagine the scene, as a Fairy Realm fighter was being chased around by a Human King!

What they did not know was, after they left, black blood welled out from within the bottomless pit that had blasted open by Sheng Ge. It released a thick stench.

Half a cup of tea's time later, Sheng Ge's vital energy had been depleted. She no longer had the ability to fly, so she had no choice but to land at the final peak, which was the center peak of the five peaks.

This peak was quaint, unlike the legacy of materials, which invited groups of people. This was the home of the legacy of techniques.

Su Yu's focus was locked onto Sheng Ge. Sheng Ge landed on the peak, charging into a messy graveyard.

There were many crumbled gravestones scattered beside the road. Most of them had been completely destroyed, the headstones now sinking into the mud.

Many graves were flipped open, with corpses thrown all over the place. From the traces evident, it looked like they had been destroyed long ago. These were the graves of the disciples of Tian Jizi and their descendants.

There were three giant, ancient tombs, standing tall at the deepest part of the messy graveyard. These were the graves of the three disciples of Tian Jizi.

The tombs were opened wide and mostly ravaged. There was basically nothing left within them.

"What a sinister place. Sheng Ge might use this place to nourish her body and treat her wounds." Xia Jingyu was worried.

As a final resting place, the ghost energy here was strong. It was very suitable for ghosts like Sheng Ge.

"But these three ancient tombs are really deep. If we unintentionally entered one of them, Sheng Ge might have the opportunity to escape."

Su Yu had a calm smile. "She won't have the chance today!"

A light flashed in Su Yu's eyes. The layout of the three ancient tombs was suddenly made clear to him.

As the three ancient tombs were empty, Sheng Ge was obviously not in those!

But...

Su Yu had a faint laugh. He swept past with his eyes, once again scanning the destroyed, normal graves. He found Sheng Ge crouching in one of the emptied graves!

She was smart. Even Xia Jingyu had thought that she would escape into the large tombs.

But she had thought outside the box, hiding in one of the normal graves. If it had not been for Su Yu's soul eyes, she might have succeeded in hiding from them.

Without waiting for Su Yu to attack, the cautious Sheng Ge felt that she had already been found. Breaking open the grave without hesitation, she had absorbed some ghost energy, so was able to forcefully take to the skies!

Su Yu smiled, pointing with his toes, before also taking to the skies. He was hot in pursuit!

But, just as he flew upwards, Su Yu felt a little numb. A weak current flashed past him.

Sensing this weird phenomenon, Su Yu could not help but look down at the ground. Noticing something, his Soul Eyes dilated.

“This is...”

A horrifying aura was in a deep sleep within the ground beneath him. The lightning in his body was in an uncontrollable mess, trying to leave his body.

The prototype fairy artifact, the Five Elemental Strong Thunder Seal, which was in his space ring, also started to jump around! This shocked Su Yu.

What kind of horrifying presence was hiding under this graveyard?

Su Yu silently retracted his gaze, not daring to alert this creature. His intuition told him that this horrifying creature could kill him in an instant.

Su Yu did not think that any living creature in the Mysterious Heavenly Divine Pavilion could face off against this slumbering horrifying creature, besides the Divine Masters. Carefully flying away from this place, Su Yu looked down at the gravestones.

It was weird. Since this was the resting place of the descendants, the corpses and graves should be of the utmost importance. There was no reason for the guards to disregard the fact that their forefathers' graves were being ravaged and dug open, especially to the point where they would not set up any defenses or obstructions against it.

Could they have some reason for this, of which they could not speak of?

Etching this into their memories, Su Yu and Xia Jingyu set their sights on Sheng Ge once again, returning to their pursuit. In just ten seconds, Sheng Ge turned pale, her energy having been completely depleted. She clenched her teeth and landed at the last peak.

This was the shortest of the five peaks. It was also the thickest, about double the thickness of the normal peaks. This was also the most important of the five peaks, the peak that harbored the strongest legacy, the legacy of materials.

It was rumored that there were myriad materials from Jiuzhou here. In fact, there were also two extremely terrifying materials that were suppressed within the peak.

This peak was different from the others. Each of the four peaks had a group of guards looking over it. But this peak was the base for the guards. Thus, their main forces were stationed here.

Not many people dared to come here, because of the presence of these guards. But they could at least be sure that even these guards were not able to break the seals in the deepest parts of this peak! Moreover, the Lightning Avoiding Silver Pearl that Su Yu had been searching for also resided within this peak.

After Sheng Ge descended, she immediately stepped into the thick fog, her figure instantly disappearing. Su Yu's gaze was like a torch, tracking Sheng Ge, no matter which turns she made. She could not escape Su Yu's sights.

A moment later, even Su Yu did not know where the chase had led them to. All he knew was that there were petrified structures of varying sizes near them. They stood in the fog, their shadows overlapping, resulting in a sinister aura.

Sheng Ge, who was in the middle of running away, suddenly stopped upon nearing the petrified statues. Su Yu raised his brows, wondering what had happened.

With a thought, Su Yu stopped flying. He also stopped Xia Jingyu.

Forming seals with one hand, a crimson colored clone stepped forward. The first few steps were quite normal. But, after the ninth step, Su Yu's pupils dilated, when he noticed that clusters of bugs were silently digging out of the ground, releasing a gray fog.

The fog billowed, enveloping the clone. At that moment, cracks could be heard on the surface of the clone's skin. A stone skin was developing!

A moment later, the clone was completely petrified, turning into one of the stone statues around it!

"These stone statues are not stone statues! They are intruders of this place!" Su Yu had a sudden spark of inspiration, grabbing Xia Jingyu, before taking to the skies!

Chapter 529: The Mysterious Stone Statues

Right when Su Yu flew high into the sky and saw through the dense fog, he discovered Sheng Ge's figure! She had actually become a stone statue as well!

A surprised and frightened expression still remained on her face. Moreover, she had a posture where she wanted to turn around and leave the strange stone statue forest.

However, what was unexpected was that she did not manage to escape and instead became one of the countless stone statues within the stone statue forest. Su Yu was terrified. It was true that Sheng Ge's abilities had decreased greatly. However, it was also true that she had the body of the Fairy Realm. For the gray mist the worms spat out to turn even her directly into stone, it was clear how dangerous the gray mist was.

Fortunately, Su Yu was vigilant. As the worms were attracted to his clone, they did not notice Su Yu and Xia Jingyu. However, before they left, Su Yu lifted his hands and grabbed. Sheng Ge's stone statue was lifted into the sky.

As Su Yu looked at the surprised and frightened expression of Sheng Ge's statue, he could not help but shake his head. "Why must you do this? If you had listened to me earlier on, you would not have landed yourself in such a state."

After his speech, Su Yu threw her into the Nine Jade Spiritual Pearl. Sheng Ge was considered subdued. The next thing Su Yu had to do was find a way to turn her back to normal.

After safely leaving the stone statue forest, Su Yu and Xia Jingyu then discovered how vast it really was. They had merely entered the stone statue forest from a small corner by accident. The real stone statue forest actually stretched as far as their eyes could see.

“Eh? There are still people who have charged into the stone statue forest. They indeed have no idea of death or danger.” A soft, doubtful sound could suddenly be heard from the cloud and mist from afar.

Three blurry figures had discovered that something had happened at the location and rushed over. They happened to see Su Yu and Xia Jingyu leaving the dense forest. Su Yu and Xia Jingyu then became vigilant and looked over with serious expressions.

Bringing a lump of mist with them, two young men who wore white robes and had an elegant, smart carriage stepped out from the mist.

One of them stood in front of the other. The young man who stood behind was dressed smartly and neatly, looking extraordinarily impressive and dignified. Moreover, his abilities had achieved the level of a Half Fairy with one Vital Energy Crystal. Hence, he was unusually powerful.

As for the young man who stood in front, he looked handsome and was glowing with a glittering, divine light. He also had a confident expression. His bright, beautiful eyes glowed brilliantly with a light that could captivate young ladies. As for his abilities, he had achieved the level of a Half Fairy with two Vital Energy Crystals! When his looks, abilities and temperament combined together into one, he was indeed a very handsome man that young ladies could not resist.

As Su Yu and Xia Jingyu examined them, they also examined Su Yu. His silver hair had indeed caused the two of them to be slightly surprised. When they realized Su Yu only had a cultivation base of Human King, they lost their interest.

When their gazes passed by Su Yu and landed on Xia Jingyu, both of them revealed a stunned expression and became absent-minded at once. They were staring at Xia Jingyu’s beautiful face without blinking at all.

Xia Jingyu frowned slightly. She was quite sick of such gazes. When she was still a student in the training institute of the Xianyu Prefecture, she already could not stand such gazes harassing her. When she entered Zhenlong Continent and hid her real face, she felt at ease for many years.

As she was careless for a moment, she forgot to conceal her face. Hence, she attracted gazes that would make her feel vexed. With a thought, she emitted water vapor and covered her face again.

When her eyes swept past the calm and composed back right in front of her, her irritation disappeared. It was just like the special calmness she felt back when she stayed by Su Yu’s side.

After concealing her face, the two elegant Mistresses could not help but frown. It was as if they had been shocked while they were appreciating beautiful scenery. However, when they realized they had lost control of themselves, they quickly hid their tiny bit of unhappiness.

“I am Zheng Zhijing, an outside sanctum disciple of the Yufeng Faction. May I know the name of this Junior Sister? Why have I not seen you before at the Mysterious Heavenly Stage?” Zheng Zhijing’s eyes only looked at Xia Jingyu and not at Su Yu. It was not because he was arrogant. Instead, to a Half Fairy like him, a Human King like Su Yu did not have many chances to talk to him.

Xia Jingyu did not respond. She retreated behind Su Yu silently as if she were a neighborhood girl who allowed Su Yu to protect her.

Zheng Zhijing was a bit annoyed, and he only then started to examine Su Yu. When he realized Su Yu's looks and temperament were extremely abnormal as well, he felt unhappy and secretly guessed the relationship between Su Yu and Xia Jingyu.

Having realized the indistinct hostility, Su Yu forced a smile. He could no longer remember how many times he had gotten into trouble for no reason due to Xia Jingyu. What was depressing was that there was nothing going on between them; they were merely friends.

However, Zheng Zhijing clearly had plans of making Xia Jingyu his. Naturally, Su Yu could not look on unconcerned. "Do you have something for us? If not, we shall take our leave." Su Yu extended his hand, held Xia Jingyu's pure white wrist and pulled her to get her to leave.

"Hold it right there! Why are you talking like this? Do you know who is standing in front of you?" the white-clothed Mister, who was leaning back slightly, shouted coldly.

Su Yu swept his eyes past him nonchalantly. "Yufeng Faction, Zheng Zhijing. Didn't he already say? Are you deaf, or did I hear it wrong?"

The white-clothed young man was clearly trying to earn the favor of Zheng Zhijing, and he berated deliberately.

Having been talked back to by Su Yu, the white-clothed young man accidentally revealed a layer of murderous energy on his forehead. "I really don't know if you are pretending to be stupid or if you really are! Even if you are a wandering martial artist, you should also understand that outside sanctum disciples like us are not people who wandering martial artists can compare to. If I were to say it in a mean way, speaking to both of you means we have a good opinion of both of you. Hence, talking back to us is the same as being ignorant and disrespectful!"

Su Yu was too lazy to deal with such a disciple. He was simply a disciple who had enjoyed a high position and lived in comfort in the faction. Moreover, he was also used to being flattered by wandering martial artists. Su Yu then lifted his leg and assumed a posture indicating he was about to leave!

"Hold it right there!" The white-clothed young man was obviously really angry at Su Yu's attitude. When he normally encountered martial artists, how many of them dared to be so arrogant in front of him?

"If you wish to fight, please go ahead quickly. Also, please stop talking nonsense as it only makes you seem noisy!" Su Yu's expression turned cold, and he was too lazy to continue talking nonsense with someone so full of himself.

The white-clothed young man was stunned, and he laughed sardonically as if he could not help it. It was the first time he had met such an arrogant wandering martial artist. From the corner of his eyes, he noticed Zheng Zhijing had a dull expression and did not react at all.

The white-clothed young man understood his intentions, and his face had a ferocious expression. "I shall let a person like you, who has no idea of death or danger, remember this well!" Vital energy surged from the white-clothed young man and covered both his fists, which he then threw toward Su Yu's face. He did not hold back at all.

Su Yu's gaze turned cold. However, Xia Jingyu said in a gentle voice, "Brother Yu, you have already gone through a great battle. Please take a rest, and let me take care of this."

As she spoke, a black light glowed from her palm, and a Feather Needle of Darkness appeared. When spiritual energy was inserted into the Feather Needle of Darkness, it glowed with a black light. Xia Jingyu then weaved signs with one hand, and the water-based cultivation techniques within her body became more than five times stronger.

With a whistling sound, a 100-foot-thick water dragon appeared from the ground and rushed toward the white-clothed young man, staring at him abnormally and roaring to block his fist.

As the fist was covered in vital energy, it was naturally powerful. However, the fist only withstood the water dragon for some time and was broken through. The white-clothed young man was forced to retreat a few steps away. Some green marks could faintly be seen on his fist; it looked like he had been injured.

Suppressing his anger, the white-clothed young man summoned a knife-shaped magical treasure. It was a high-grade divine artifact that emitted the piercingly cold edge of a knife.

Just then, nine water dragons appeared in succession, each one more than two times stronger than the previous one! The white-clothed young man was furious yet astonished. What had happened? Why did her abilities grow so much in such a short amount of time? Those were not fighting capabilities Human Kings could exhibit!

While shocked, the white-clothed young man swung his knife hurriedly. The knife energy marched through unhindered. After a few swings, he finally tore a few water dragons into pieces. However, for the next three water dragons, they attacked him like powerful currents.

Whoosh, whoosh, whoosh—

After having been attacked by the three water dragons, the long knife slipped out of his hands. As for his body, his blood energy surged, and he spat out three mouthfuls of blood in succession. Bright red blood covered half of his miserable face, and he looked to be in dire straits.

Xia Jingyu then lifted her hands and gestured. After she had kept her water dragons, she said indifferently, "Even though you are inferior to me, you still have the face to express dissatisfaction toward Brother Yu?" In her mind, Brother Su Yu had always been so strong it caused people to lose their determination to surpass him. It always had been and would always be like that.

She only hoped she could always look up to his back.

Chapter 530: Gathering of Heroes

The white robed figure flew backwards, his chest in a huge amount of pain. His eyes were filled with the flames of anger and shame. He had lost against a wandering cultivator!

And, judging from her tone, that silver haired lad was more powerful than this beautiful lady! At this moment, an aura enveloped him, stabilizing him after his fall.

Zheng Zhijing's calm expression had been replaced with a sinister one. "Miss, what is the meaning of your injuring a disciple from the Yufeng faction? If you do not explain yourself, I am afraid I cannot let the two of you leave."

He observed Xia Jingyu, as though trying to appreciate the beauty that was under the veil of water. He also quietly observed the Feather Needle of Darkness in her hands. To be able to raise her abilities forcefully, its power was not to be underestimated.

His junior was one of the top ten disciples of the outer sanctum disciples in the Yufeng faction. It was rare for him to experience defeat at the hands of a Human King. The reason for this defeat was that half-manufactured spiritual artifact, the Feather Needle of Darkness!

“Are you going to be unreasonable? You did not stop him, when he attacked us just now. Instead, you blame me for not holding back, when he was too weak and injured by me.” Xia Jingyu replied boldly.

Zheng Zhijing squinted. “Miss, you injured the disciple of the Yufeng faction, so I’m afraid you cannot be absolved of the blame.”

He clearly wanted both Xia Jingyu and her treasure. To have a woman as beautiful as a fairy, plus a rare half-manufactured spiritual artifact, only a fool would miss such a great opportunity!

“I understand your intentions, so you may attack.” Xia Jingyu had a calm gaze.

Zheng Zhijing let out a grunt. “Looks like you prefer punishment. Do you think a half-manufactured spiritual artifact can stop me?”

“First Changing Wind Figure!” Zheng Zhijing let out a low grunt, as a green pair of wings suddenly emerged from his back. It looked as though he was a green bird.

His figure blurred, before suddenly vanishing. Xia Jingyu remained expressionless. She waved her sleeves. The water vapor within a three-mile radius became thicker, forming a layer of white fog.

The fog rapidly billowed to the right of Xia Jingyu, as if something was charging toward her at a high speed. It left a visible trail in the fog.

“Cloud Prison!” Xia Jingyu gripped down with her fingers. The large piece of fog came together, squeezing toward the center, trapping the exposed green figure. The assaulting green figure had no choice but to change its direction, charging out of the entanglement, before taking off into the air.

Zheng Zhijing showed himself, his expression filled with a merciless aura. Her water-based techniques were troublesome. It did not allow him to close in on her.

“Second Changing Wind Figure! It’s over!” Zheng Zhijing let out a cold grunt. The vital energy in her body welled out, forming a large green bird on the top of his head. It was lifelike, unlike an illusion.

With Zheng Zhijing’s orders, the green bird soared across the horizon, charging downward. The Cloud Prison creaked, as it was torn apart by the green bird’s sharp talons. Its body pierced through the clouds, then charged toward Xia Jingyu.

Xia Jingyu’s expression sunk, as she once again waved her hands. A long bow, formed by water vapor, appeared in her palm. The large amounts of fog in the air quickly compressed, forming a

tight arrow of water. Because of the compression, the water pressure within the arrow was enough to make anyone's skin crawl.

Whoosh —

Xia Jingyu casually shot out the arrow, without hesitation.

Boom —

It left an after image in the air, as it collided with the charging green bird. At the moment of collision, the compressed arrow immediately shattered, releasing the powerful water pressure.

The giant green bird also scattered, when it was hit with the water pressure. The remaining water pressure was shot toward Zheng Zhijing.

His expression turned grave, his figure retreating rapidly. He looked at Xia Jingyu with a little more caution. That attack was the highest stage of an immortal level technique!

His gaze flickered. Zheng Zhijing had an arrogant light in his eyes. "Alright, I remember you! We will meet again at the Divine Sparrow Stage!"

After saying this, he turned to escape into the fog, not caring about his juniors. The white robed junior's heart thumped, as he also fled into the fog.

Xia Jingyu quickly flicked her fingers, forming two chains with the water, restraining him. After that, Xia Jingyu twirled her fingers, creating a water seal. She pushed it into his brain.

This was a water-based seal, similar in properties to Su Yu's Great Thunder Heart Technique. It could control the life and death of her enemies.

The battle had only lasted a few seconds, but Xia Jingyu had used more than five different techniques! These five techniques were merely the tip of the iceberg in her repertoire of water-based techniques!

Coupled with the Feather Needle of Darkness in her hands, which boosted her water-based techniques to the limits of a Half Fairy, her abilities awed Su Yu. If Xia Jingyu was going to fight him seriously, the victor might not be too easily determined!

"Brother Yu, I'll hand him over to you. What do you want to do with him?" Xia Jingyu returned to Su Yu's side with a smile. Her innocent aura was laced with a gentleness and shyness.

Su Yu looked at the white robed youth, coldly saying, "Do you know anything about this stone statue forest? And, what is the Divine Sparrow Stage?" Su Yu had a glint in his eyes, when he talked about the Divine Sparrow Stage.

Even though the junior was humiliated, a seal had been placed into him. The life and death of the white robed youth was now to be dictated by others. As such, he had no choice but to unwillingly answer, "The stone statue forest is the defensive spell that guards the legacy of materials. There are bugs that the guards nurture here that can release petrifying energy, turning all living things into stone! If you wish to enter the grounds of the legacy of materials, the only way is to walk past the spell. But, throughout the course of history, only the female demon genius of the previous generation has successfully done that. The rest have all turned into stone statues."

He continued his explanation under duress. “As for the Divine Sparrow Stage, it was a place to rest, created by the forefathers, who had tried to make it to the legacy of materials. It is now used to train disciples from all over the land.”

Su Yu nodded. He remembered Yu Chan telling him that the disciples of the Mysterious Heavenly Palace would gather somewhere after they completed their trials in order to attend a small scale exchange event.

The location of the event this time around was apparently this place called the Divine Sparrow Stage. Su Yu was hoping to obtain the Blood of a True Dragon there.

“Do you know if there is any cure to reverse the petrification, if one were to accidentally be petrified by the bugs?” Su Yu asked.

The other party shook his head. “We have no way to do that. Only the female bug, which is reared by the guards, can secrete a unique spiritual serum that could reverse the petrification. But, those guards are all out to kill us. There’s no way that they would hand over the spiritual serum to us! Thus, there is no other way, unless you can get the help of a Divine Master.”

Su Yu knew that this was going to be troublesome. If that was the case, it might be a hassle to revert Sheng Ge back to her original state.

“Alright, I understand.” Su Yu nodded.

The white robed youth’s heart thumped wildly, “What are you going to do with me?”

It was clear that Su Yu had no reason to free him.

“Help me do something...”

A mysterious glow flashed past Su Yu’s eyes.
