

Nine-Dragon 551

Chapter 551: The Final Legacy

Su Yu's pupils flashed, as the little kylin circled around the star once more, then bared its teeth at Su Yu and Xia Jingyu, who were both standing above the star. The kylin's intention was to get them to move away, as it was about to start eating.

"Brother Yu, what should we do?" Xia Jingyu stared at the little kylin in an unfriendly manner. After all, it had snatched away Su Yu's Dragon Vein!

Su Yu was silent for a while, deep in thought. He took a glance at the little kylin, tipped his toe, then took off into the air.

Xia Jingyu was unwilling to concede. However, she her allegiance still belonged to Su Yu, so she followed after him.

Once there was no one around, the little kylin shook its behind from side to side and stood up on its back hooves. It then rubbed its two front hooves together, which resembled human fists rubbing against one another, making it appear as if it was eager to try something new! It certainly had an unusually high Spiritual Intelligence!

In a swift motion, the little kylin opened its mouth, which suddenly began exerting a huge sucking force. A few hundred feet away, Su Yu felt a pulling sensation that seemed to be coming from a vortex. He immediately took a few steps backwards, followed by Xia Jingyu. Shangguan Qinger and Bai Yijian, who had been pursuing them, also stopped cautiously to observe.

"This is not a usual star! It is a star that was crafted from the bones of demonic beasts at the level of the Beasts of All Creations. As such, it is unbreakable and, most importantly, it weighs a ton! In fact, it was a treasure once used by the Beast of All Creations!" Xia Jingyu observed aloud.

Was this star a treasure that belonged to Tian Jizi?

At that moment, the entire star seemed not to budge despite, being sucked in by the mighty force. Then, the other stars around it seemed to be sucked in by the powerful influence of the force!

Soon after, the little kylin also sensed that something was amiss. Its purple eyes were glaring with anger at the star.

The pink scales on its body suddenly gave out a glow that looked like patterns on the surface of water. Its sucking power suddenly became twice as strong as before. Meanwhile, Su Yu and the rest involuntarily took a few more steps backwards, landing on the stairs.

The entire Milky Way, which seemed to be stirred by the sucking power, was being absorbed into the little kylin's stomach at an alarming rate. However, the star in the middle seemed to not be affected at all.

This seemed to truly anger the little kylin, as its purple eyes were filled with flames of anger, and its entire body of pink scales began to transform itself into a weak purple glow!

The sucking power increased yet again, doubling its strength! Suddenly, the entire Milky Way was moving in the opposite direction, and all of the stars were sucked into the little kylin's stomach. Being able to absorb the entire Milky Way was something that no one else had ever been able to accomplish!

Finally, the star in the middle started moving! The entire star shook lightly, finally seeming to loosen up! However, this only lasted for a few moments, after which, the star sank to the floor.

The little kylin sighed in pain, then stumbled backwards in the air. Even when it had used all its might, the little kylin was only able to slightly loosen the star in the middle.

Looking at the Milky Way's current state, the stars within it were few and far in between. Moreover, they were all shattered and scattered around messily!

In fact, there were only one-tenth of the original number of stars left, as the rest had all been sucked into the little kylin's stomach. The only thing that had not budged was the star in the center!

The little kylin became embarrassed and angry. In a leaping motion, it stamped onto the star. As it did so, its four tiny hooves landed on the star in a huff.

Then, the star in the center started vibrating heavily! The little kylin looked down, surprised and confused.

After a moment of vibration, a fracture had appeared in the center of the star! Once the fracture appeared, the entire Wisest Milky Way Formation suddenly stopped moving!

Bai Yijian's eyes shone brightly. "It is a fracture! That is where we can enter the final place of Legacy of Materials from the Milky Way formation!" As he spoke, the little kylin had already made its way into the fracture.

"Chase after it!" Bai Yijian could not hide his excitement, as he entered the space, followed closely by Bai Zhe.

Swiftly following behind them were Bai Qi, Su Yu, and Xia Jingyu. Finally, Sheng Xuelian, who had been silent since the beginning, also chased after the rest.

Once he had passed through the fracture, Su Yu was met with a blinding brightness! There was a Great Bone Palace in the interior of the star!

The entire palace was made up of the Bai Gu of Demonic Beasts of All Creations, and it glowed with a soft and gentle jade light. In the center of the palace were two huge beast heads.

Although the beasts had been dead for a long time, their heads still emanated very strong and ferocious energies, which felt like a warning for people to stay away. Everyone was focused on the two round pearls that were positioned in the mouths of each of the beast heads.

One of the pearls was a splendid silvery white color, while the other was a darker shade of yellow. The two beast heads seemed to be in perfect symmetry, while the pearls seemed to be in direct contrast with each other.

Shangguan Qinger was shocked to the core. She could not stop from shouting out loud, "The Underworld Pearls of the Ghost World!"

Bai Yijian's pupils contracted, his gaze locking onto the silver-colored pearl. He also seemed to be filled with excitement. It was almost as though he was already familiar with the object's existence.

However, Su Yu really was familiar with the object! Hence, his eyes were filled with equal excitement!

If he was not mistaken, this was the pearl that was used to enhance the prototype lightning-based materials. It was the Desolate Sea Lost Pearl!

According to a myth, it was a teardrop from the heavens, which had an indescribable lightning-based element within it. In the Jiuzhou Continent, this was one of the best materials for refining fairy artifacts!

For a prototype fairy artifact, like the Five Elemental Strong Thunder Seal, this was the main material needed to enter the second phase of refinement! If the material could be incorporated into the Five Elemental Strong Thunder Seal, it was very likely to achieve the state of semi-manufactured fairy artifact!

Knowing this, Su Yu was very moved and excited! However, he suddenly noticed that there was a Bai Gu corpse that was lying in front of the beast's head that was holding the Desolate Sea Lost Pearl.

The Bai Gu had long deteriorated. However, it still emanated a weak lightning force! Su Yu felt a tinge of familiarity, as he looked at the remains of the body.

"It is the Thunder Emperor!" Su Yu's heart sank.

Su Yu had previously obtained the Five Elemental Strong Thunder Seal from a secret room at the Thunder Emperor Mountain. However, the remains of the Thunder Emperor had not been found there.

Su Yu had been very confused at the time. However, he had never expected that the Thunder Emperor's remains would be found at the final place of Legacy!

How did he die? After all, the Thunder Emperor was such a strong Divine Master!

It is very odd that he would have died in this place!

Looking at the two frightening beast heads, Su Yu suddenly felt that something was amiss.

"Jingyu, we should leave!" Su Yu tugged at Xia Jingyu, then turned to escape! Since even the Almighty Divine Master could die in this place, the Great Bone Palace was definitely filled with danger!

Su Yu's weird behavior caused everyone to turn to look at the remains of the body that he had just discovered.

"The remains of the Almighty Divine Master?" Shangguan Qinger immediately recognized what was before her, feeling her heart skip a beat. Of course, she did not believe the Almighty Divine Master's death had been an accident!

She rolled her eyes, and in an instant, she decided to give up whatever she had previously been trying to accomplish here. After making this decision, she immediately fled!

This soon created a chain reaction. The Ghost King, who was initially staring at the Underworld Pearl with greed and excitement, abruptly made the decision to back off!

The only people who did not move were Bai Yijian and his son. In fact, Bai Yijian's facial expression turned instantly into one of sarcasm.

"Don't you think it's too late to escape now?" Bai Yijian laughed coolly.

As soon as he spoke, the fracture closed suddenly with a loud bang! Su Yu had nearly been caught in between the gap!

His face darkened slightly, and without saying anything, he retrieved his small golden blade and hit it against the wall in front of him. The small golden blade easily sliced three inches deep into the wall, almost as if it was cutting into clay.

However, soon after, it felt like the small golden blade had come into contact with a very strong object. It gave out a metallic clanging sound, refusing to go any deeper!

Su Yu's wrist shook slightly, as the small golden blade vibrated. The surrounding pieces of earth were instantly carved off, revealing the interior of the wall! It was a piece of bone from the Demonic Beasts of All Creations!

With the exit sealed up, the rest of the people suddenly felt uneasy. They started hitting against all four faces of the walls.

As the pieces of earth began to fall off, a despairing sight appeared. The place was covered entirely in bones from the Demonic Beasts of All Creations!

Not only were they unable to break through such a trap, even an Almighty Divine Master would not have been able to escape! The remains of the formerly trapped Thunder Emperor clearly spelled this out for everyone!

"Bai Yijian, is this a conspiracy of your doing?" Shangguan Qinger narrowed her eyes in suspicion.

"Hehe..." Bai Yijian could not help but laugh coolly. "You are the ones who came here willingly. I certainly did not force you!"

"What are you trying to do? What is the point of trapping us here?" Shangguan Qinger's Vital Energy was flaring up. She was prepared to fight at any moment.

Bai Yijian laughed even more deeply now. "Who said I wanted to trap you? Oh no, I want to end your lives! Only the blood essences of geniuses like you are able to move this star to unseal the Mysterious Heavenly Divine Pavilion, so that we can then enter the boundless Jiuzhou Continent! We, the descendants of the guards, have waited for this day for far too long!"

Shangguan Qinger's faced turned cold. "Hmph, not even the Beasts of All Creations could unseal the Mysterious Heavenly Divine Pavilion. What makes you think that you will be able to unseal it, then leave this place?"

Bai Yijian continued to laugh. "Tian Jizi left behind quite a few good items, one of which is not only able to unseal the place, but it could even kill the Beasts of All Creations in an instant!"

Everyone's faces suddenly became very serious. Shangguan Qinger then asked coolly, "In that case, do you think you and your son will be able to kill all of us?"

Bai Yijian laughed coolly. "It would not require both of us. My son alone could accomplish that!"

Thinking that Bai Zhe could really kill everyone else by himself sounded like a joke. However, no one had the heart to laugh at the moment.

Bai Zhe's mouth perked up with a cool smile. "How unfortunate. I had initially wanted to enter this place by myself with the rest of you, then kill you with my own hands. I did not expect my father to be here as well! But, that is fine. I will still annihilate all of you!"

Bai Zhe suddenly turned ice cold. His intention to kill them all grew more and more apparent. His words were extraordinarily impactful!

From his words, Su Yu had learned a very shocking piece of news! The Almighty Divine Master Thunder Emperor had actually been killed by Bai Yijian!

Chapter 552: The Epic Battle

If she had not heard it with her own ears, she would not have believed it! Shangguan Qinger's face suddenly became serious upon realizing that even the Almighty Divine Master could be killed!

What kind of mysterious force is at play here?

She suddenly felt unsettled. Something did not feel right.

"What are you trying to do? How would you benefit from killing us?" Shangguan Qinger did not notice that her tone had gotten softer and weaker.

Bai Yijian stood up. He laughed coolly, without saying anything.

Bai Zhe, on the other hand, beamed with excitement. Seeing how even a fairy like Shangguan Qinger felt fear in her heart, he was beyond happy.

He laughed wholeheartedly, then said, "We just told you. We will use your blood to uncover the treasure in this place, then unseal the Mysterious Heavenly Divine Pavilion!"

Su Yu's eyes flashed brightly. Then, his sleeves suddenly emanated a bright light, as three small golden blades quickly disappeared into thin air.

As for Shangguan Qinger, although she seemed cautious and appeared to be inquiring seriously, she had actually already retrieved a jade pendant from her sleeves and looked ready to crush it open! Xia Jingyu's hands also secretly changed formations, leaving her ready to strike at a moment's notice.

Bai Yijian looked around him and frowned. "My son, Zhe, do what needs to be done immediately!"

Sensing the slight irritation from Bai Yijian, Bai Zhe immediately became serious. He took out a long black flute, which shined with an almost blinding light. It was like a black jade, shiny yet luxurious.

There were nine orifices on the body of the Black Jade Flute, which meant that it had one extra orifice than a normal flute. This caused it to look extremely strange.

What was even more extraordinary, there was a carving of a grey bird on the Black Jade Flute. The bird looked very much alive, almost like it was about to take flight!

The emerald green eyes of the bird looked very much alive, as if the bird were staring right back at its observer. It looked very strange indeed!

“A middle-grade spiritual artifact!” Shangguan Qinger grew slightly anxious. She was not so much concerned with the Black Jade Flute itself, but with its appearance in this place.

Bai Zhe’s three Vital Energy Crystals started circulating, while all the Vital Energy in his body started condensing into a single flow. This flow which gradually rushed into the flute as he blew into it.

Once the Vital Energy had entered it, the Black Jade Flute glowed brightly. The dark-colored light began moving in all directions, like a stream of water. Simultaneously, a chilling, low note suddenly emanated from the Black Jade Flute.

Although Su Yu had only heard a single musical note. It was enough to make him shudder, the coldness spread throughout his body.

What surprised him the most was that, even his soul, which was as strong as a fairy, had signs of being affected. More importantly, he felt that his own life force had started flowing out as the note passed through his body! In that instant, Su Yu suddenly felt weak.

Xia Jingyu was very surprised. “There is such a strong scent of death! The musical note is terrifying!”

Su Yu’s heart sank even further, and he said in a low tone, “I am afraid its most terrifying aspect has yet to be revealed!”

Crack.

Suddenly, with only the accompanying sound of the flute in the otherwise silent Great Bone Palace, a clear cracking sound passed through the air. It sounded like the wiggling of something huge that was rubbing against the surface of the floor.

Crack.

Crack.

The sound continued for several moments. The weird sound caused everyone to feel chills run down their spines!

Crack.

A series of cracking sounds kept coming. Everyone present finally discovered where they sounds were coming from.

They locked their gazes on the beast’s head that had been holding the Underworld Pearl! Nobody had noticed when the two balls of jade green flames appeared in the eye sockets of the previously empty beast’s head!

Streams of chilly wind were now being slowly blown out from within it! The chilly wind was cold enough to send chills down a person’s spine.

The beast's head began releasing an energy that seemed to be getting stronger. The threatening energy slowly flowed out from the interior of its bones. Just as everyone had sensed it, the huge and dangerous beast began to slowly awaken from its deep slumber!

"The beast is waking up!" Shangguan Qinger stared at the beast's head coolly. She then said in a low tone, "That is the Underworld Pearl in its mouth. The Yin energy in the pearl is tremendous, and it is perfectly suited for souls to occupy! The remnant soul of this Divine Beast of All Creations has been resting within the Underworld Pearl! And now, it is being controlled by the Black Jade Flute!"

Hearing this, Su Yu and the rest felt their hearts skip a beat! It was no wonder that Bai Zhe felt so confident. This explained why even the Thunder Emperor had been murdered in this place!

Even if it were only the remnant soul, it would have a significant portion of the might of a Beast of All Creations. Moreover, the sheer might of the remnant soul would be equally threatening to a strong Divine Master.

As the energy released from the beast's bones felt increasingly stronger, everyone suddenly felt a sense of despair in their hearts.

"Let's strike now! We should not allow him to continue manipulating it!" Shangguan Qinger clicked her teeth together. Sensing the threat of death, she would no longer hold back!

Everyone felt a chill in their hearts. Once Bai Zhe managed to fully awaken the Divine Beast of All Creations, the only thing waiting for them would be certain death!

Bai Yijian laughed coolly. "Hmph, it is too late!"

Zoom!

A white shadow flashed all of a sudden. Bai Yijian suddenly appeared in front of Bai Zhe with a long sword in his arms. It turned into the Heaven Breaking Sword Energy as Bai Yijian took a swipe at the entire place!

A crescent-shaped Sword Energy that was as white as snow appeared. Then, the space cracked into pieces. It was almost like broken glass that had been shattered, causing everyone who had prepared to charge forward to frantically take a few steps back!

The Sword Energy had clearly come from a fairy, since it was even capable of shattering space! It was so shocking, even Shangguan Qinger changed her facial expression.

She then quickly shook her sleeves and tossed a Space Charm forwards. The charm exploded, then released an earthly yellow light, which slowly condensed and turned into a yellow turtle!

When the Sword Energy came into contact with the turtle, its body vibrated and seemed to easily withstand the Sword Energy. However, cracks started appearing on its body and, under the force of the remaining Sword Energy, it soon disintegrated into dust. Thus, a single person with a single sword was able to push back everyone!

“I will keep him occupied. The rest of you work together and kill Bai Zhe!” Shangguan Qinger’s eyes suddenly had a determined look. She shook her sleeves once again. This time, a golden puppet appeared!

The puppet looked similar to the one that she had used to pass through the stone statue forest. However, the difference was that, as soon as the puppet appeared this time, the entire space seemed to vibrate slightly!

Bai Yijian’s facial expression turned cold, as he felt his body tightening up. He said in a soft voice, “The puppet of the Divine Master level! The person behind your Beast of All Creations prepared some protective treasures for you!”

Hearing this, everyone present silently sighed in relief. It was a good thing that they also had a strong fairy, who was an unofficial disciple of a Beast of All Creations!

“You sought death on your own initiative. Do not blame me for not showing mercy!” Shangguan Qinger yelled coolly, then clasped her hands together.

As she did so, the golden puppet suddenly grew in size. In the blink of an eye, it had transformed into a golden giant!

In fact, it resembled a lady and was covered in black clothing from head-to-toe. Her face held a cold expression, her phoenix-like eyes seeming to contain an entire sky of stars.

An incomparable majestic aura seeped through the golden puppet and started to spread out. The air in the Great Bone Palace suddenly became condensed. Although it was clearly a puppet, everyone felt that the presence of an Almighty Divine Master had befallen the place!

Bai Yijian narrowed his pupils. Then, his eyes flashed as he attempted to strike first!

With a swing of his sword, a crescent-shaped energy blasted out in all four directions. The space was torn into pieces one inch at a time, appearing almost like the spreading of numerous spider webs.

Then, the torn space unexpectedly bounced back! However, the figure just kept glowing with a golden light, not seeming to be affected at all!

Conversely, the dissipation of the Sword Energy caused Bai Yijian to stumble backwards out of control, his eyes filled with surprise!

“It is over!” Shangguan Qinger glared coldly, as the golden puppet raised its arm, causing a bloody crescent moon to gradually appeared in its palm.

The bloody crescent moon slowly took shape. This made Bai Yijian fearful heart leap wildly!

He could feel that the soul in his body was about to be slashed apart! In fact, his instincts were telling him that this was a secret technique that could directly harm his soul!

“My son, Zhe, hurry up!” Bai Yijian grew worried and shouted. He then tossed his long sword towards the sky.

In an instant, the long sword divided itself into six parts. It had miraculously cloned itself into six equal parts!

Shangguan Qinger snorted as the bloody crescent moon disappeared into thin air.

Bang!

All of a sudden, all six swords exploded! It could be seen that a small crescent moon had appeared in each of the six swords simultaneously, which had then caused the six swords to explode!

Soon after, the six small crescent moons combined as one to become the original crescent moon! Thus, a spiritual artifact had been destroyed, just like that!

With his Original Life Weapon destroyed, Bai Yijian felt that his heart had been damaged. Evidence of this deep wound was a stream of fresh blood, which spilled from the corner of his mouth.

As he saw that the crescent moon was disappearing once again, Bai Yijian felt an awakening in his heart. He slapped his hand on the top of his skull and mumbled painfully, "Do you think you are the only person with a divine-grade treasure?"

Ding!

A clear and crisp sound cut through the air, as a long green ruler suddenly flew out from the top of his skull! The ruler emanated a bright spiritual light and there were carvings of unknown Sanskrit words upon it. Once Vital Energy was inserted within it, it suddenly produced layers of space energy!

Ka-ching!

Suddenly, the green ruler disappeared into space. Thereafter, a pounding sound came from in front of Bai Yijian's chest.

The bloody crescent moon had arrived in front of his chest! In that crucial moment, the green ruler also appeared in front of his chest via Space Transportation, blocking the attack immediately!

Shangguan Qinger was shocked. It can even block an attack from an Almighty Divine Master? What kind of treasure is this?

"Hmph, the Eight Directional Bamboo Flute and the Six Directional Ruler are both spiritual artifacts that were left behind by the descendants of the guards. Unless the Lord of God Himself appears, what could you possibly do to me?"

This ruler and the flute were both middle-grade spiritual artifacts. As such, their might could certainly not be underestimated.

As his face darkened slightly, Shangguan Qinger clasped her hands together, causing the bloody crescent moon to disappear once again. It then appeared behind Bai Yijian, right where his heart was located.

However, the Six Directional Ruler seemed to have a predictive ability, allowing it to sense the direction of the attack before it happened. So, it immediately transported itself to the location and blocked the crescent moon just in time.

Shangguan Qinger's facial expression turned negative once again. Her hands quickly clasped together, transporting the crescent moon to another spot. However, the Six Directional Ruler seemed to be able to predict the future, and had appeared already at the position where the crescent moon was located!

“Hehe, the Six Directional Ruler was a weapon once used by Tian Jizi when he was at the Divine level. Once he exceeded the level of All Creations, he gave it as a gift to his disciple. It contains his Divine Decree, so how could you possibly penetrate its defense?”

It was no wonder it had the ability to predict beforehand! This made things so much more difficult!

What followed were at least twenty to thirty moves, none of which were able to hurt Bai Yijian, as each attack from the bloody crescent moon was deflected by the bright green light that was surrounding his body.

When Shangguan Qinger was about to give up and go after Bai Zhe instead, Bai Yijian suddenly flew towards her. She was fully occupied, so she could not do anything to protect herself from Bai Yijian!

Right then, the energy coming from the beast’s head had already reached the level of a Later Stage Fairy, and it was heading towards the level of a Divine Master! Once it reached the level of a Divine Master, they would all be dead!

“I am counting on you guys! Kill Bai Zhe immediately and end this battle!” Shangguan Qinger yelled in a low tone.

Su Yu flashed his eyes coolly. He had already come up with a plan. A small golden blade suddenly appeared in the empty area that was surrounding Bai Zhe, and it was heading straight for his heart!

Chapter 553: Red Lotus Incredible Umbrella

“Reusing old tricks!” Bai Zhe seemed to be prepared for this, as he quickly applied a charm that was white as snow on his body. Then, a stream of light flowed out and covered his entire body.

At the same time, the small golden blade that could pierce through almost anything was suddenly deflected by the surface of his body.

“A charm that contains Fairy-level protection?” Xia Jingyu’s facial expression changed slightly.

Su Yu sighed lightly. Although the small golden blade had the ability of Space Transportation, its effect would certainly be reduced significantly if it were exposed in advance.

If only he had the other six small blades, he could form a complete sword formation with nine blades. That would have saved so much trouble, and Bai Zhe would have been dead by now!

Unfortunately, the two Heavenly Orchid Silver Bamboo seeds that Lü Chuyi had given him would not grow. He was not even sure if they were still capable of sprouting.

It was nearly an impossible task to collect enough Heavenly Orchid Silver Bamboo to craft the small golden blades. Besides, even if he could collect all nine blades, he would still need to look for the original Nine Yin-Yang Formation, the Nine Suns Cosmos Sword Formation.

Now that Bai Luo had died, there was no way of finding the source of the Nine Steel Needles. It was even more difficult to discover the whereabouts of the Nine Suns Cosmos Sword Formation.

Once Su Yu shook off his feeling of self-pity, his eyes began to shine dimly. He felt that the evil energy from the beast's head was getting stronger and stronger. He was determined to kill it.

"You two, lend me a hand!" Su Yu shouted at the Ghost King and Sheng Xuelian.

However, neither of them moved. Sheng Xuelian stood still where she was, not budging an inch. Her eyes were filled with a mysterious brightness. She had apparently decided to watch as a bystander!

The Ghost King, on the other hand, did not hesitate for too long. In a leaping motion, he darted towards Bai Zhe's other side and cornered him together with Su Yu.

Su Yu glanced at Sheng Xuelian briefly, shooting her a suspicious look. After the brief glance, he continued to focus his attention on attacking Bai Zhe.

"Su Yu, when we were on the stairs, I did not exert the full extent of my abilities for the sake of our ultimate goal. Now, show me what you can do to me with your three small blades!" Bai Zhe had been defeated by Su Yu once. In fact, it had been one of the biggest embarrassments of his entire life.

"Is that so? I don't know. I still feel that you are very weak." Su Yu did not take him seriously.

The Black Jade Ring on his finger suddenly flashed a bright light, and a flaming red umbrella appeared in his hand. The object was the Purple Sun Incredible Umbrella, which Lü Chuyi had recrafted. It encapsulated her divine flame, the Red Lotus Furious Flames!

This flame was ranked among the top thousand divine flames. Although it was ranked rather low, according to Lü Chuyi, the terrifying flame could not be put out by even the Later Stage Fairies!

Now that the Purple Sun Incredible Umbrella had been recrafted, it contained the Red Lotus Furious Flames. However, the flames that it released were still comparable to the Purple Sun Flames. As such, The Purple Sun Incredible Umbrella was renamed as the Red Lotus Incredible Umbrella.

"A semi-manufactured spiritual artifact?" The Ghost King smiled slightly. "It has only been a month or so, yet you have acquired quite a few things."

Su Yu looked at him in a seemingly knowing manner. He then said softly, "Let us get rid of Bai Zhe first. We can talk later!"

The Ghost King glanced at the Red Lotus Incredible Umbrella once again, then nodded. Immediately, his strong body was headed straight for Bai Zhe! All of the strength in his body was channeled into his fists as he punched against Bai Zhe and knocked him back several feet.

However, it seemed not to have caused any damage, as most of the force from the impact had been deflected by the protective layer of flowing water around Bai Zhe.

Bai Zhe laughed coolly. "It is useless. Prepare to die!"

However, right then, his brows suddenly twitched. He felt a sense of dread cross through his heart.

As he turned to look, Su Yu had suddenly appeared. He was standing with the flaming red umbrella, which was already open!

In one hand, he held the umbrella gracefully, while his other hand held Xia Jingyu, keeping her under the umbrella. The two looked like the perfect couple, the golden boy and the jade girl. It was a spectacular scene to behold.

Chapter 554: Xue Gui Gourd

Hoo!

All of a sudden, reddish flames were released from the red umbrella. The flames were like waves that moved back and forth. They were akin to blossoming red lotuses, both beautiful and stunning.

However, the high temperature that was released from the red lotus was frightening. In fact, it was enough to make one's hair stand on end!

The entire Great Bone Palace suddenly became twice as hot. It was as if everyone had been placed into a flaming hot oven. Everyone frantically used their Vital Energy to protect their bodies from the heat.

Within the Great Bone Palace, apart from the impenetrable inner wall that was made up of bones, the two beasts heads, and the others, who were all able to protect themselves with Vital Energy, everything was burnt completely.

Bai Zhe's smile turned into a frown and his pupils flickered with fear. He felt a strong disturbance in his heart.

He became even more worried when he looked at Su Yu's glowing face. Su Yu appeared to be fully confident that he could kill Bai Zhe!

Sensing the danger, Bai Yijian raised his eyebrows. He had a feeling that things would not turn out well today.

Su Yu was much more formidable than he had thought. Not only did he have three half-manufactured spiritual artifacts of small golden blades, but he even had a half-manufactured Red Lotus Incredible Umbrella!

"My son, Zhe, use the Blood Gourd! However, you can only drink ten drops of it at most!" Bai Yijian was oddly decisive.

Hearing this, Bai Zhe's pupils showed signs of excitement. He licked his lips, then laughed and said, "Hehe, it is about time, since I have trained for a while now. I will use you as an experiment!"

As soon as he finished his sentence, Bai Zhe retrieved a blood-colored gourd from his sleeves. There was a terrifying carving of a ghost's face on it, and the interior of the gourd gave off a very foul and bloody odor.

The Ghost King's face changed, his expression suddenly becoming very serious. "Could this be the Ghost Gourd?"

He looked deeply at Bai Zhe, who suddenly snickered. "You two are truly evil. After using the Ghost Gourd, one can immediately increase his strength tremendously. The logic behind this is to seal the flesh and soul of a strong person in the Ghost Gourd, then ferment it into alcohol. Once the product is consumed, one would temporarily have the cultivation and power of the sealed individual!"

He paused, then continued his explanation. “However, such an evil method would require the individual to be of the same bloodline! From the sight of your gourd, it looks like you have killed at least a hundred individuals! If I remember correctly, the number of people in this generation of descendants of the guards stood at about a hundred! Could the two of you have cold-bloodedly murdered your entire tribe?”

His words made one shiver! Speaking of which, since Su Yu had entered this mountain, it seemed that all of the descendants of the guards had disappeared into thin air, at least apart from the Half Fairy that he had bumped into at the underground lava pool of the Legacy of Craftsmanship.

So, each of their strongholds were empty! More importantly, Su Yu had previously felt Bai Zhe’s same bloody aura. It was an aura that one would have after having recently killed someone!

Su Yu’s heart turned cold. What kind of evil-hearted person would kill his entire tribe in order to craft the Blood Alcohol?

Even the cruelest elders would not have done such a thing!

Yet, the duo had not shown any signs of remorse. It truly made one shiver!

Bai Zhe froze and stared angrily at the Ghost King. An evil intention flashed across his eyes. He had not expected that Bai Qi would be able to uncover his and his father’s secret!

Bai Yijian’s facial expression was equally awful. “You may know too much!”

His tone and words were undoubtedly a confirmation of what had just been said. The lie about the descendants of the guards being moved elsewhere was only a flimsy ruse. In reality, they had all been turned into a gourd full of Blood Alcohol!

The duo had said bluntly that unsealing the Mysterious Heavenly Divine Pavilion was a long-cherished wish of countless tribesmen. However, it now seemed that it was merely their own bloody ambitions!

Chapter 555: Skyrocketing Cultivation

Bai Zhe was filled with a murderous energy, which led him to shout, “It does not matter. You will all be dead soon anyway. So what if you find out about this? He is not wrong. They are all in this gourd!”

He took a breath, his face turning red, then kept shouting, “If they were not sacrificed, whose blood would we use as a sacrifice to the beast bones of the two Divine Beasts of All Creations? How would we be able to unseal the Mysterious Heavenly Divine Pavilion? Now, all we need is the blood essence from you, the strongest geniuses!”

After he had finished shouting, Bai Zhe carefully took a big gulp of the bloody liquid. The gulp consisted of around ten drops, as he dared not drink a single drop more!

The reason for this was that the cultivation and power of an entire tribe were contained in the Blood Alcohol. As such, one could only imagine how much energy was contained in the Ghost Gourd!

Even a single drop would not be something that could be handled by anyone below the Half-Fairy level. Hence, ten drops was definitely Bai Zhe’s limit!

Su Yu’s pupils flashed coldly. He then flipped his wrist, causing the Red Lotus Incredible Umbrella to turn gracefully in the air.

The air was filled with red flames. It was as if they had received an order, and all of the flames had grouped together in a craze, then turned into a tornado! The flames then engulfed Bai Zhe within them.

As the Red Lotus Furious Flames blossomed in the air, the protective layer of water that had been covering Bai Zhe was slowly being broken apart. As it continued to break, a cracking sound could be heard!

An endless flame suddenly came forth and engulfed Bai Zhe. As it did so, a strong aura could be sensed from the flame. It was growing stronger by the second!

The sky full of Red Lotus Furious Flames was suddenly split in half by a strong force, revealing Bai Zhe, who had been within it. Bai Zhe's clothes and hair had all been burned away! However, his entire body shone, as if it were brand new, and showed no signs of being burned!

Su Yu was secretly surprised by this, as even normal Early Stage Fairies would have been burned to death immediately by such fierce flames! Yet, Bai Zhe was not hurt at all!

This showed how much his cultivation had increased since he had consumed the ten drops of blood essence. He now had, at the very least, achieved the level of an Early Stage Fairy at his peak!

"You are too weak!" Bai Zhe laughed sarcastically, while swiping his right foot around.

Suddenly, a strong wind swept across the place, spreading out in all directions and immediately extinguishing the Red Lotus Furious Flames! Seeing this, Su Yu tipped his toes slightly and backed off together with Xia Jingyu.

A strand of flame had spread to his clothes and burned away his sleeves. However, before Su Yu could recover from this, he suddenly heard a voice by the side of his ears, saying, "Your reaction is too slow!"

All that he could see was the flashing of a shadow, before Bai Zhe had arrived next to Su Yu, as if he had teleported there! Using his palm, which contained a ferocious Vital Energy, he slapped Su Yu's forehead.

At this moment, Su Yu's heart sank. A bright golden light flashed in his sleeves, as three small golden blades appeared right in front of him. They were all pointed towards Bai Zhe's palm!

Bai Zhe laughed coolly, then yelled, "Fighting me is futile!"

Bai Zhe then gathered Vital Energy in his palm again, while grabbing at the same direction. In a swift motion, he had captured all three small golden blades in his hand!

He had immediately used the pulsating Vital Energy to enclose the blades, thus breaking the bond between the blades and Su Yu! In this manner, it became impossible for the blades to instantly teleport back to Su Yu's hands! His weapons had been stolen!

Su Yu was slightly surprised. However, he also took this opportunity to distance himself from Bai Zhe.

Bai Zhe held the three small golden blades in his hands and laughed. "This is good stuff. I will not hesitate to keep these for myself! Do not hate me, as you have only yourself to blame for being too weak!"

Su Yu seemed to be deep in thought. Comparing their actual ability and cultivation, although they were both Early Stage Fairies, Sheng Ge seemed to be one notch weaker than Bai Zhe. Part of the reason for this was the fact that Sheng Ge had never truly used her Fairy fighting abilities.

There was also the difference in their rankings to consider. Sheng Ge was only an Early Stage Fairy. Bai Zhe, on the other hand, was at the peak of an Early Stage Fairy. That was a stark difference that could not be ignored.

Seeing how erratic Bai Zhe was behaving at the moment, Su Yu appeared to be very calm as he asked, "Are you very strong? Without the boost from your tribe's blood, you are merely one of my defeated opponents. As such, I do not know where you find the courage to judge other people for being weak!"

Chapter 556: A Show of Might

In terms of true capability, Bai Zhe was definitely no match for Su Yu. He was merely someone of a lower stature, who was intoxicated by a rare success.

Bai Zhe laughed in a ridiculing tone. "So what? If you are strong, you are strong. If you are weak, you are weak. Likewise, if you had such treasures, I would not say too much about those either."

Unexpectedly, Su Yu nodded very seriously. "Alright, since you have said as much, I will give you what you want."

Bai Zhe's ridiculing expression gradually faded. He was not sure whether to believe or to doubt what Su Yu had just said.

He then asked, "Do you still have treasures to protect yourself? As a disciple of the Returning Principal Faction, what benefits has your faction given you? Even if you were sent here as a special agent, the treasures they have given you are beyond preposterous!"

Su Yu had not received any treasures, so he calmly held his palms together and looked blankly at Bai Zhe. "You have misunderstood. I do not need to use any other treasures to defeat you!"

As soon as his palms came into contact with each other, the air surrounding him felt as if it were being compressed by something very strong! In the tightly sealed space, the air started gathering within Su Yu's palms very quickly. This made the entire external environment suddenly turn into an unbreathable vacuum!

Bai Yijian and Shangguan Qinger, who were engaged in a fight, both showed signs of surprise, especially Shangguan Qinger, who said, "The Legendary Cultivation Technique? That requires a high level of maturity!"

As an unofficial disciple of a Beast of All Creations, she was no stranger to the Legendary Cultivation Technique. In fact, she was once gifted a page of the remnant passage!

It had been very difficult to understand and was not something an ordinary person could imagine or comprehend. In fact, even under her master's guidance, she had barely reached the preliminary stages of its mastery. If she wanted to progress another notch, it would take her at least three years of strenuous training!

However, Su Yu, who was not even a well-known disciple, had actually managed to cultivate a significant level of maturity! Even an old and strong fairy, who had achieved the Fairy level for many years, might not have been able to cultivate such a significant level of maturity!

As Su Yu was not even that old, one had to wonder how in-depth his level of cultivation was...

His action had thoroughly surprised Shangguan Qinger, who swore that there were no more than ten people like Su Yu, who could cultivate the Legendary Cultivation Technique to a significant level of maturity at such a young age! As for the other ten people, each of them were strong Divine Masters, who would become future head of factions!

Bai Yijian was equally surprised. He had been in the practice of comprehending the Legendary Cultivation Technique for many years, yet he was only able to comprehend it at a rudimentary level. He wondered what kind of abilities Su Yu have had that would allow him to gain such significant progress.

Simultaneously, he felt a sense of danger in his heart. His facial expression also changed, as he realized that... Bai Zhe is in danger!

The only thing he was certain of was that the might of Su Yu was not something that his son could stand up against!

“My son, Zhe! Run away, quickly!” Bai Yijian shouted angrily, as he shoved Shangguan Qinger aside and dashed towards Su Yu.

His heart was beating wildly. He could not believe that Su Yu had hidden so much of his frightening might!

Not only would his son be defeated, it was very likely that Bai Yijian himself would also be crushed under the might of Su Yu’s Legendary Cultivation Technique! After all, in terms of battle power, he was much more formidable than Shangguan Qinger! Bai Yijian could not believe that he had let his own son fight against such a terrifying opponent!

As he was rushing to save his son, Shangguan Qinger expressed her immense joy. “Haha. Bai Yijian, you old thief! Are you trying to run away? You wanted to kill us, and now I will make sure that you have to watch your son be killed!”

She shook her sleeves and retrieved yet another silver chain, which she used to ensnare Bai Yijian.

Chapter 557: The Ghost King Strikes

Shangguan Qinger laughed coolly. She then turned towards Su Yu and said, “End this battle quickly. Kill that little thief!”

Su Yu nodded his head slightly. All of the air in the space had already become concentrated within his palms. Moreover, the space surrounding his body had become an air-tight vacuum, such that not even a sound could penetrate it.

The compressed air in his palms was visible to the naked eye. As it became increasingly compressed, it turned from an initial cloudy green to a darker green color. It then turned from dark green to dark grey. Finally, once the air was compressed to the size of a thumb, it suddenly became a dark black color!

Within the black compressed air, there were rumbles of thunder, which had formed from the highly compressed state of the air and the collisions between the air particles. The destructive power contained within the small ball of air was something that had never existed before!

Seeing this, Bai Zhe's facial expression froze completely. He felt chills throughout his body and could not take his eyes off of the round, black ball.

Bai Yijian shouted angrily for a few moments. However, within the space of vacuum, not a single sound was heard. As such, all he could do was look on helplessly, while his son faced the destructive and compressed air that might even destroy Bai Zhe himself!

Su Yu's palms vibrated slightly, while little streams of fresh blood starting flowing from his fingers. The strongly compressed flow of air within his palms was a significant burden. This was because the blood in his body had been highly pressurized and was now leaking out from his pores.

However, his eyes were filled with excitement. After all, this was the Buddhist Saint's Eight Characters from the Upper Tier Article! Its might was even scarier than he had imagined! As such, even a Middle Stage Fairy would be concerned about it!

"Are you ready?" Su Yu lifted his head and glanced at Bai Zhe. As Su Yu smiled, he threw the compressed air ball towards Bai Zhe.

Whoosh!

The black ball rolled forwards, tearing the space apart as it went! Wherever it crossed, the space became broken into pieces!

Bai Zhe was clearly terrified. As he was frightened beyond measure, he immediately opted to escape!

However, he felt hopeless, as the small black ball seemed to have a very strong awareness. It locked onto him and chased after him unforgivingly! Within a breath's time, the small black ball had caught up to him!

In that instant, the small ball released layers of thunder. At the same time, a frightening aura of destruction emanated from within the black ball!

The destructive force instantly turned a large area of space into broken pieces, together with Bai Zhe, who was engulfed within it!

Bai Yijian's pupils enlarged, as he suddenly felt a great emptiness in his heart. He was aware now that his son had just died!

Shangguan Qinger seemed extraordinarily happy. As she sensed that the beast's head was beginning to weaken, she let out a long sigh of relief.

It seemed that they had been able to turn things around at the most crucial moment. This was because the beast's head had nearly recovered its cultivation as a Divine Master, and would have had its remnant soul's consciousness awakened!

If that were to have happened, they would have all died here. It was a close call indeed!

However, Su Yu did not show any facial expression of joy. Instead, his face darkened. "Why are you doing this?" he asked angrily.

His unexpected question stunned Shangguan Qinger for a moment. She turned to look at the space which had just been broken into pieces. What she observed there caused her pupils to contract.

All she could see was a giant body that was standing within the broken space. The figure was covered in a pitch black color. It had a green face and fangs. Both its eyes were blood-red, almost the color of lit lanterns, and its back was covered with a pair of black wings. It was a shocking sight!

Chapter 558: Divine Master's Demonic Soul

The wings were flapping at a very high speed, their motion producing a very strong flow of air that protected the area around him. This area included Bai Zhe, who was at its center!

“Is this an evil ghost?” Shangguan Qinger sucked in a breath of cold air. Her eyes were filled with fear. “This is not possible. How could such a strong demonic being exist in the Mysterious Heavenly Divine Pavilion? Did they not retreat to the Ghost World hundreds of years ago?”

Su Yu felt a chill in his heart, as murderous thoughts began surfacing in his mind. “Bai Qi! Give me a valid reason not to kill you!”

The person who intervened was none other than the Ghost King, Bai Qi, who had earlier stood by their sides! Su Yu would never have guessed that the person who saved Bai Zhe, causing them to once again be in harm's way, had actually been the Ghost King! Moreover, he was also among those who would have been killed!

Bai Qi's eyes revealed his inner conflict. He then said coolly, “You have not gotten my permission to kill him yet!”

As soon as he finished speaking, he spread his wings and took off into the air, bringing Bai Zhe along with him. As such, the two escaped the dangerous area.

Realizing that he had just narrowly cheated death, Bai Zhe's face turned white as snow. His knees were also shaking.

As he looked towards Su Yu's glaring eyes, he felt pangs of fear enter his heart. Moreover, he felt Su Yu's hatred, making him wish to get rid of Su Yu once and for all!

For that reason, he continued to transfer Vital Energy into the Eight Directional Bamboo Flute! As he did so, the weakening beast's head suddenly started growing in strength, while emitting a buzzing sound. It soon exceeded the barrier of the Fairy level!

Right then, the entire Great Bone Palace started vibrating. From the outside, it appeared that all of the Five Peaks were shaking, as if there was an earthquake.

At the top of the Five Peaks, storm clouds had gathered and thundering sounds could be heard. Soon after, it began to rain heavily. This unusual phenomena caused many geniuses, who were in front of the stone statue forest, to stand in awe.

Upon one of the mountains in the Five Peaks, a silver figure flashed by, almost like a ghost. As it flew, an intense pressure rapidly flooded into the Great Bone Palace.

The breath of the Divine Master felt like mountains falling from above, causing people to feel hopeless. In fact, they were beyond hopeless, as they were unable to retaliate at all!

Roar!

A deep and powerful growl came out of the mouth of the beast's head. Hearing this, everyone trembled and felt as if they would collapse!

Su Yu's heart sank deeply. The Divine Master was definitely way too strong for them!

Bai Yijian suddenly burst out laughing. "Hahaha, Heaven is on our side! Thank you for lending a hand, Your Excellency!" He did not abstain from speaking, despite Bai Qi's status as a ghost!

Bai Qi waved his hand. "There is no need to thank me. After all, I saved him hoping that you two would successfully unseal the Mysterious Heavenly Divine Pavilion."

It seemed that he had the same motive as Sheng Ge. They both wanted to enter the Jiuzhou Continent through the Mysterious Heavenly Divine Pavilion!

"Well said! All we have to do now is release more of the Blood Alcohol from the Ghost Gourd. That will then allow us to activate the beast's head and unseal the Mysterious Heavenly Divine Pavilion!" Bai Yijian naturally would not offend the Ghost King at such a crucial moment.

Bai Qi smiled slightly, then said, "In that case, I will leave the rest to you, Bai Yijian."

As soon as he finished speaking, he moved to Bai Zhe's side to protect him.

Bai Yijian held his fists together to thank him. "Thank you! Leave the rest to me. I cannot wait to kill these people!"

His eyes were filled with hatred. He looked immediately towards Shangguan Qinger, then asked, "If it were not for Brother Bai Qi, my son would have died here! Were you not trying to stop me? What do you have to say for yourself now?"

The first person he wanted to kill was obviously Shangguan Qinger! Shangguan Qinger's face turned green all over. She looked petrified, and it was all Bai Qi's fault that their perfect plan had failed!

Chapter 559: Appearance of the Kylin

Bai Yijian looked stern. He turned coolly towards Bai Zhe and said, "Get rid of her!"

Bai Zhe nodded, a similar look of hatred appearing in his eyes. After all, when he was in danger, this woman had tried to stop his father from rescuing him repeatedly, so she deserved to die!

Bai Zhe lifted the Eight Directional Bamboo Flute and began to blow Vital Energy into it. The low note was accompanied by a murderous undertone, which flowed out from the flute with a chilly aura.

The reviving beast's head began shooting out two bright beams of green light from its blazing jade green eyes of the Will-O'-The-Wisp! The light beams were aimed right at Shangguan Qinger!

Shangguan Qinger's facial expression changed dramatically, as she frantically retrieved the golden puppet. The puppet emanated the aura of a Divine Master and protected Shangguan Qinger, who was behind it.

After she braced herself for a while, Shangguan Qinger felt slightly confused, as the collision between the light beams and the stone figure never occurred! So, she took a peek from behind the puppet, seeing that the green light beams seemed to have disappeared!

It seemed like she had successfully dodged the attack. However, she noticed that Su Yu and Xia Jingyu were looking with shock and deep pity!

Drip. Drip.

All of a sudden, dripping sounds were heard. They were coming from beneath Shangguan Qinger's feet. She lowered her head to have a look, and when she did, her body disappeared!

All that was left were her legs, her arms, and her head, which was connected to her arms by a layer of skin. Apparently, the light beams had ignored the puppet and directly hit Shangguan Qinger, causing her body to dematerialize!

Her pupils darkened and eventually turned black. She then lost consciousness. As such, a fairy had just been killed in a matter of seconds!

Moreover, the green light beams had caused a crack in the indestructible Great Bone Palace! As Bai Zhe saw this, his spirit soared.

His pupils were filled with hatred, as he suddenly glared towards Su Yu's direction and said, "Su Yu! It is your turn!"

Su Yu's heart sank, while he replied, "Jingyu, back off!"

Bai Zhe's target was clearly him and not Xia Jingyu! Xia Jingyu's beautiful face did not show any signs of panic. Instead, she was as calm and composed as always.

Neither did she back down. Instead, she moved closer to Su Yu's side, her arms right next to Su Yu's.

She beamed up at him with a calm smile, then said, "Nothing will keep us apart. I will never bid you farewell!"

In the face of death, she felt an unexplainable sense of freedom. Her lips curled up at the sides of her mouth as she smiled. However, her face also showed a tinge of sadness and regret.

She then said, "Perhaps, this is another kind of ending..."

She knew that she would not be able to accompany Su Yu for the rest of their lives, at least in this world. However, if they both died, at least they would be together in death. Perhaps this was the best and most humble outcome that fate could offer her.

The sentimentality in her words had touched Su Yu deeply, causing his heart to sink even further. He wondered how he could ever deserve Xia Jingyu's feelings for him.

"Hmph, you two are still being romantic in the face of death? Fine, let me grant you your wish of becoming a ghost couple!" Bai Zhe shouted coolly, as he was annoyed at Su Yu and Xia Jingyu's calmness.

Bai Zhe lifted up the flute and was about to blow Vital Energy into it, when a pink-colored mist suddenly appeared above Bai Zhe's head. Two pink and soft-looking hooves surfaced from the mist and, without any reservation, stepped unforgivingly onto Bai Zhe's face!

"Ouch!" Bai Zhe had not expected that, so he voiced a loud cry of surprise.

As he was about to yell angrily, he suddenly felt that his hands were empty! After taking a look, he discovered that the Eight Directional Bamboo Flute had disappeared!

Some distance away, a small and cute pink kylin was holding the Eight Directional Bamboo Flute between its teeth, while hopping around excitedly. It was the Real Spirit Kylin!

Ever since it had made its way here, there was neither sound nor sight of it. No one had expected that it would suddenly barge in at such a crucial moment! Moreover, no one had expected that it would snatch away the crucial Eight Directional Bamboo Flute!

Chapter 560: A Solo Battle with Two Fairies

The sudden turn of events angered Bai Yijian, who yelled, "Ba*tard, how dare you ruin my plan?"

"Brother Ghost, please help me capture this little kylin!" Bai Qi hesitates for a moment, then decided to go after the little kylin.

As this was a sealed space, even if the little kylin was an expert in evasive techniques, there was no way it could escape the Great Bone Palace. Hence, they would eventually be able to capture it!

Observing that the two men were now going to work together to capture it, the little kylin shook its tail and lifted its head proudly, then moved flamboyantly towards the top of the beast's head. It then gathered a ball of Vital Energy and blew it into the Eight Directional Bamboo Flute!

The eyes of the beast's head flashed with a bright green light as two beams of lights were shot outwards! Bai Yijian and the Ghost King frantically dodged it! Fortunately, the little kylin seemed to not be able to completely control the Eight Directional Bamboo Flute, and the green light beams deviated slightly, then shot upwards from the top of the beast's head!

Bang!

Suddenly, a gaping hole appeared. The hole was large enough for a person to escape through it!

The rustling sound frightened the little kylin to the point that it contracted its neck. It then cowardly swallowed the Eight Directional Bamboo Flute and was preparing to escape.

However, before it escaped, it jumped into the beast's mouth and proceeded to swallow the Underworld Pearl! As the Underworld Pearl contained the remnant soul of the beast's head, it was swallowed, the beast's bone was as good as dead!

"Hold it right there!" Bai Yijian was doubly angry now. After all, the beast's bone was the key item that they had prepared to use to unseal the Mysterious Heavenly Divine Pavilion!

The little kylin sneered disdainfully, then engulfed the Underworld Pearl in its mouth, raised its neck slightly, and swallowed the pearl in one swift motion! Immediately after, it turned into a pink mist and disappeared!

It was only then that Bai Yijian and the Ghost King arrived. While they were occupied with chasing after the little kylin, Su Yu and Xia Jingyu had quietly made their ways to the top of the Great Bone Palace. As Xia Jingyu was very close to making her way out, the only person left now was Su Yu!

“Trying to escape? Stop right there!” Bai Yijian was frantic, his eyes filled with red. He shouted loudly and chased after them!

He had wanted to pull Xia Jingyu away from the opening to prevent her from escaping. However, Su Yu used his Vital Energy to push herself out before he could do so.

“Jingyu, get away quickly. I will find a way to meet you outside!” Su Yu said.

As he was afraid that Xia Jingyu would do something dumb, like jumping down the hole again, he summoned a pearl in his palm, then used it to seal the exit! Bai Yijian was late by a split-second, which made him both angry and frustrated!

The well-planned blood sacrifice ceremony had almost been a success. However, the appearance of Su Yu and the little kylin had messed everything up!

“My tribe’s long-cherished wish has been destroyed by you and that little ba*tard! You, don’t you dare leave!” Bai Yijian shouting angrily.

Su Yu’s pupils turned cold. Not only was he not panicked, however, he was filled with a murderous rage. “I have endured you for long enough! Without Jingyu here, I can unleash my full potential!”

Bang!

All of a sudden, the blue pearl that he had used to seal the exit appeared in front of Su Yu in a flash. This was the first time that Su Yu had transferred Vital Energy into the blue pearl! Prior to this, he had always controlled it with his Spiritual Energy.

The round blue pearl emanated a light that was brighter than ever before. At the same time, Bai Yijian shouted in a low tone, “Brother Ghost, work with me, this man is behaving oddly!” Having witnessed Su Yu’s Legendary Cultivation Technique, Bai Yijian understandably cautious.

As the Ghost King stood, he seemed to be struggling with indecisiveness. Then, he eventually bit his teeth and rushed over!

“Do not worry. He would not use the sound wave Legendary Cultivation Technique for a second time this hastily!” The Ghost King took a glance at Su Yu’s right arm as he spoke.
