

Nine-Dragon 631

Chapter 631: Unexpected Rescue from Danger

The object left by Su Yu?

All of the people here were surprised, and their eyes lit up in wonder...

Did Su Yu already predict, before he left, that the enemy would attack us? And, was it because of that...He left something for us?

Swoosh!

Four fifteen feet-tall balls, which shone in four different colors, flew out of Qin Xianer's pocket and started revolving around her. They were flickering in mesmerizing and resplendent colors. Qin Xianer immediately became quite fond of them and happily chuckled.

"A defensive magical artifact?" Long Juexin became somewhat puzzled, as he had assumed that what Su Yu left would have been some powerful offensive divine artifact.

Even though they joined the powers of such a great number of people, they were still incapable of preventing the formation from being destroyed. So, he had to wonder what use the defensive magical artifact left by Su Yu could have.

If Su Yu was still here, then he might still hold out some hope. But, as it was just a trifling magical treasure, which would be, at most, a top-grade divine artifact, he couldn't imagine how it could block the otherworldly experts' attacks.

Old Chen's eyes flickered for just a moment before they dimmed. He then revealed a bitter smile and said, "Su Yu shouldn't have been aware that the defense of each layer of this eighteen layers seal is tantamount to that of a top grade divine artifact, and as eighteen of them overlaid, they wouldn't be any weaker than a

semi-manufactured spiritual artifact. Hence, the magical treasure left by him won't be of any use."

If Su Yu left an extremely powerful offensive magical artifact, they might still be have been able to depend on it for dealing with the otherworldly experts, but what had appeared before them extinguished any glimmers of hope.

Qin Xianer was displeased by their attitudes and pouted. "Brother Su Yu said that we can protect the whole Heavenly Law Alliance with this object."

Long Juexin could only smile bitterly while facing her. Only Su Yu's pure fiancée would blindly believe his words.

"Alright, this magical treasure was clearly left by him to protect you, so you should use it." Long Juexin had an aggrieved look on his face as he faced all of the elders and guards. "Sirs, please withdraw. The formation will be broken soon. Then, I will make the warship self-destruct. Please protect the geniuses of the human race and go flee in different directions. That way, at least some of them will manage to escape. After all, they are the last hope of our Zhenlong Continent."

Make the warship self-destruct? Grief and resentment welled up in their hearts when they heard his commands. Is our current situation this hopeless?

“Alliance Master, what about you?” asked Old Chen. If the warship self-destructed, then some of the elders could still manage to escape. But, what about the Alliance Master?

Long Juexin looked up to the sky and smiled sadly. “The Heavenly Law Alliance came to an end at my hands, and I’m ashamed to face the ancestors of my Long Clan. I’m also too ashamed to face any of the previous alliance masters and elders. Hence, I will stay here and fight until the end, along with the First World Senior. As long as I still have breath left in me, I will continue fighting, and I will try to gain more time for you.”

Long Juexin’s eyes were filled with determination, even when facing death. All of them could leave, but he, as the Heavenly Law Alliance Master, should stay and die with the First World Senior amid the last fort of the human race.

Shock appeared on Old Chen’s aged face, as he was quite emotionally moved by him. This was their Alliance Master, who, at such a precarious moment, was willing to sacrifice himself for the greater good.

“Father, I will stay with you.” Long Wuxin sweetly smiled a smile that was filled with pride, fighting spirit, and a similar determination. Her short black hair, beautiful complexion, and charming body seemed like they were frozen in time, and she seemed quite heroic and mesmerizing at that moment.

“There is no need for me to leave, so how can I forget my home? The Heavenly Law Alliance is my home, after all. I have nowhere to go but here.” Old Chen chuckled and waved his sleeves as he stood beside Long Juexin.

“Count me in.” Another elder walked out, calmly coming to stand at Long Juexin’s side.

Just after that, seven or eight elders gave up on fleeing and chose to do the same. Long Juexin felt quite gratified, but he still firmly shook his head and said, “You don’t need to sacrifice yourselves. You still have an important mission of protecting and escorting the talented descendants of the human race to safety. If you don’t accompany them, all of them will surely end up dead.”

“Old Chen, I will leave them in your care.” Long Juexin bowed to Old Chen and the other elders. “Elders, I will leave the descendants of the human race to you.”

All of them became quite sorrowful when they heard his words, They wondered if this would be the end of him.

“Father!” Long Wuxin became anxious, but Long Juexin just waved his hand at her and interrupted her, “Wuxin, don’t speak. All people will die one day. I am just choosing where I will die.”

He turned his head back, while affection and worry appeared in his eyes. "What I'm most worried about is who will take care of you when I'm not by your side?"

He finally experienced and understood what kind of feelings Zi Donlai had that day, while he was imprisoned and was so worried about his daughter.

"I hope that you can safely live on, and when this calamity comes to end, please look for a husband who is to your liking, then continue our Long family's lineage. If you manage to do that, then I can peacefully rest in the underworld." Long Juexin smiled bitterly.

Since he had already lost his son, the mission of spreading their family lineage would fall on his only daughter's shoulders.

"Father..." Long Wuxin's shoulders were shaking, while her eyes were brimming with tears.

Bang! Bang! Bang!

The Heavenly Law Alliance's warship slightly shook, and the two faintly glowing layers that remained started flickering with resplendent lights. This indicated that the formation would be shortly destroyed.

At that moment, the warship intensely shook, as the terrifying joint attack technique started annihilating the two layers, which had been left out of the formation.

Their last moment had arrived...

"Sirs, please be ready. When the formation is broken, I will make the warship self-destruct. So, please take care of yourself." Long Juexin took a scarlet crystal ball from his bosom and clutched it in his hand.

Some of them wept, while there some of them laughed bitter laughs. All of them were pained as they waited for the gradual destruction of the Heavenly Law Alliance.

On this day, the Heavenly Law Alliance's warship would self-destruct, and the Heavenly Law Alliance would be destroyed. All of them closed their eyes and waited for such that dark and mournful moment to arrive.

Buzz! Buzz! Buzz!

The warship's quakings became more intense, and the formation started to shatter. The Heavenly Law Core in Long Juexin's palm started emitting cracking sounds as he tightly clutched it.

At any moment, the Heavenly Law Alliance's warship would self-destruct...

However, at this moment, Qin Xianer, who had finally managed to activate the four balls after playing with them for a long while, curled up her mouth and resentfully muttered, "It's truly difficult to activate this set of magical treasures that brother Su Yu left!" She then wiped the sweat from her forehead.

"Seal it!" As Qin Xianer's fair finger pointed outward, a light beam was shot out of all of the four balls.

The four light beams combined to form a four-colored light screen. After the light screen appeared, it covered the entire area that surrounded the formation.

Bang!

A crisp sound echoed, and the Heavenly Law Alliance's warship slightly rocked. The two layers that had been left out of the formation had been destroyed. Moreover, a giant condensed light beam penetrated through the formation, then shot towards the warship!

Chapter 632: The Might of the Spell Formation

Suddenly, a huge energy collided with the light beam. It was as if a person had knocked his head against a huge mountain. The energy was immediately reflected away!

Thereafter, the Heavenly Law Alliance became stabilized and no longer shook. However, everyone, including Long Juexin, felt a chill in their hearts!

As the entire combined attack had been blocked and deflected, everyone had to wonder just what kind of defensive treasure this was!

On the outside.

The monster-like armored young man with purple hair was coldly looking at the battleship, which was about to fall apart. An evil smile was on his face.

Suddenly, the combined light beam was reflected backwards! The strong beam of light directly hit all ninety-nine of the guards, which suddenly messed up their entire formation!

Nine of the guards, none of whom had expected such a thing, had not had time to dodge the reflection. They were instantly disintegrated as the light beam passed through their bodies. There was nothing left of them!

Once the light beam broke through the formation, it shot towards the monster-like armored young man with purple hair. The evil facial expression on his face froze as soon as the light beam was deflected once more.

His face now revealed an ice cold expression. He extended his hand forward in a grabbing motion to actually catch the incoming light beam!

The strong destructive power was instantly turned into a forward-pushing power, which he threw far away. Only then did the light beam gradually fade away. Luckily, since the purple-haired young man's body was covered by a layer of purple Vital Energy armor, the light beam had only caused a superficial injury on his right palm.

"I can't believe this bunch of rats actually had a hidden card up their sleeves!" The purple-haired young man looked cold as he gave an order, "Attack them with all our power. Sink their battleship! Don't even bother capturing the females alive! Everyone must die!"

He gave this order not because he had become angry and thus changed his tactics, but because he had noticed the difference in the spell formation. This meant that it was not as easy to break through anymore. As such, the only way to destroy the Heavenly Law Alliance completely was to bury everyone alive!

Hearing his new order, the remaining ninety-nine armored guards who had survived the deflection became filled with murderous intent and rage. After all, they had just lost nine of their men!

Now that the harsh order had been received, they were actually glad! None of them felt a tinge of mercy in their hearts towards their enemies, so they started using all of their strengths to fill the giant light loop with Vital Energy!

Suddenly, a gigantic light beam that was three times bigger and had a much wider circumference than the last one was shot out. This caused the entire space to begin vibrating.

The entire Heavenly Law Alliance's battleship also started shaking lightly. This was an attack that looked like it would completely demolish the Heavenly Law Alliance's battleship!

Inside the battleship.

Everyone was looking at the colorful light and the spell formation. There was a dead silence in the air. Everyone's hearts were still thumping from the initial shock of this new appearance.

They wondered, What kind of treasure is this, to be able to withstand such an attack?

They then looked at Qin Xianer, whose face showed both worry and anger. At that moment, all of them felt as if their brains had been short-circuited. They then began to wonder...

What did Su Yu leave behind for Qin Xianer?

Right then, the Heavenly Law Alliance started shaking again. Even the colorful light screen began to experience an intense vibration.

Qin Xianer's face turned white. She seemed to be struggling with controlling the four round pearls. In fact, the four round pearls just might stop working anytime, as the spell formation looked like it was about to collapse!

Long Juexin was the first to recollect himself after seeing this. While he was surprised, he was also terribly happy! It appeared that Su Yu had left them a heaven-defying treasure!

"Quickly! Everyone, let's imbue our Vital Energy in order to activate the treasure!"

Long Juexin so happy, as his heart had just been filled with a new hope!

Everyone in the Heavenly Law Alliance also started smiling and felt hopeful once again. Without hesitation, they quickly started imbuing Vital Energy into the spell formation!

One person's Vital Energy, two persons' Vital Energy, three persons' Vital, and eventually, countless people's Vital Energy was rapidly absorbed into the spell formation! At that moment, the four round pearls had never shone so brightly!

Then, suddenly, it exploded in Su Yu's hands! After all, Su Yu's Vital Energy could not match everyone else's in the Heavenly Law Alliance combined!

The four light screens shot out once again. However, those were not normal light screens, as these light screens had nearly become a part of the physical realm! In fact, the four light screens were huge and were still expanding even further with each passing moment!

"Continue!" As Long Juexin was beyond happy now, he did not reserve any of his little Vital Energy remaining.

Everyone became excited as they saw what was happening, and they continued to imbue large amounts of their Vital Energies. Then, as people continuously rushed over to imbue their Vital Energies, the Dry Cloud Five Elemental Formation's four round pearls exploded in a colorful display of lights!

In a few breaths' time, a magnificent view came into sight! Four light screens that were huge beyond comparison appeared. They connected the ground to the sky and extended for miles. They even completely covered the Heavenly Law Alliance's battleship!

This was the combined light beam attack from the different world! It struck unto the light wall and had a huge impact! However, the light beam that was three times stronger could not even cause the light wall to vibrate. Instead, it was instantly deflected!

"Oh no! Quickly, retreat!" The purple-haired young man's face suddenly sank and he shouted out urgently.

He was the first to escape, as he dashed across the skies.

Screams.

Instantly, continuous cries that were filled with pain and agony could be heard. Apparently, the light beam had become even stronger after it was deflected than when it had first been shot out.

All of the armored guards had not expected such a thing to occur. As such, twenty of them were unable to dodge the deflection in time and were instantly turned into ashes!

Apart from that, ten others were severely injured by the light beam, their body parts disappearing into oblivion! In that instant, one-third of their men had either been killed or heavily injured!

As he stared at the humongous light screen, the purple-haired young man seemed deep to be deep in thought...

What kind of treasure is that? Which expert is holding down the fort in the Heavenly Law Alliance? Could it be that old drunkard who refuses to die?

At that moment, a loud cheer of joy and happiness came from the Heavenly Law Alliance. They had just found out about the casualties in their opponent's army.

They could still not believe that the treasure that was left behind by Su Yu was already so frighteningly strong! The thought of this made Su Yu even more mysterious in everyone's minds.

"Coughs... Lady Qin, did Su Yu say anything else when he left behind the treasure?" Long Juexin could not suppress the excitement in his heart, as he asked the same question again.

Qin Xianer blinked her large eyes. "He didn't say anything else. He only told me to pass this item, which would protect everyone when the Heavenly Law Alliance faced any danger, to the Alliance Master. He then said he had something to deal with on the outside. But, I am sure that he will be back soon."

Hearing this, everyone, including Long Juexin, felt their faces redden slightly. They had all underestimated Su Yu, as the treasure that he had left behind was indeed powerful!

In fact, if it had not been for Qin Xianer's playing around with it, they would have all died in vain! Now, everyone looked at Qin Xianer in a whole new light. They suddenly felt an additional sense of respect and fear towards her. After all, she was Su Yu's fiancée, his dearest beloved!

"After this, I will invite Su Yu to take up the position of Heavenly Law Alliance Master once again. I hope everyone will consider the bigger picture in this matter. If anyone dares to object to this out of his own greed and desire for gains, I will disregard the Heavenly Law Alliance's rules and kill that dissenter first!" Long Juexin had made up his mind that the Heavenly Law Alliance must be passed on to Su Yu!

Hearing this, a few of the elders understood what Long Juexin meant and all turned to stare at Xiao Sui simultaneously! During normal times, they had only felt a mild displeasure when they thought of him, due to his prideful behavior. However, they now despised him!

Seeing the hateful looks on the faces of the crowd, Xiao Sui looked embarrassed. However, he did not feel so in his heart.

Even so, now that the disaster was over, he naturally would not bug Su Yu anymore. Instead, he would continue to enjoy his life in the Heavenly Law Alliance. After all, Su Yu would not dare do anything to him!

Chapter 633: A Great Disaster

Elder Xiao Sui snorted and put on a calm front. It seemed like he was just saying to them, "You can do as you please."

This ignorant old man... Long Juexin clenched his fist as killing intent flickered in his eyes for a moment. The Heavenly Law Alliance's elders had already gone through a blood purge, and only about ten people were left. Losing anymore people would greatly affect them!

Moreover, Xiao Sui didn't violate any expressly stipulated rule, and even though he was the Alliance Master, he couldn't just casually frame him with something. It was because of this that he temporarily let Xiao Sui off the hook, even though he really wanted to get rid of him.

"Sirs, you can be relieved, as with Su Yu's magical treasure, we will be safe for the time being. But, we must still not relax or let down our guards. We must cooperate together and immediately repair the damaged formation to ensure that nothing goes wrong." Shock and regret flickered in Long Juexin's eyes as he gazed at the fragmented eighteen seals.

He had already witnessed their joint attack technique in the last great battle, and it was unknown what kind of peculiar magical treasure the giant ring was, as it was unexpectedly capable of fusing the Vital Energy of such a great number of people! Joint attack techniques weren't really rare in the Zhenlong Continent.

In fact, some factions even had their own joint attack techniques. But, their joint attack techniques had strict requirements, one of which was that they all needed to first set up a special formation that would concentrate all of their energies.

Moreover, all of those using these techniques should have great control over their Vital Energy. Also, the quantity of energy imbued by each of them should be quite even, as just a small difference would cause a great change in its power, and if anything went wrong, the energy being fused would get out of control and explode before they even had a chance to attack their enemies. This would naturally cause the formation to be destroyed and their people would be injured!

It was because of this that they only appointed regular teams who went through rigorous training regimes and were capable of properly cooperating with one another. Only these people were authorized to use such powerful joint attack techniques.

But, even though they had such a technique, they would still rarely use it, as few enemies would actually wait for them to set the formation, motionlessly standing there and letting them attack them! Such flaws greatly limited its uses.

The otherworldly experts had astonishing craftsmanship techniques, and just a simple ring magical treasure was capable of being substituted for the use of a formation. Moreover, it was also capable of coordinating the energies that were being fused. Regardless of the amount of energy poured into it, it would still be able to perfectly coordinate and fusing everything, then burst out with a terrifying might!

The last battle of the Zhenlong Continent that year had reached an unprecedented intensity, and such a ring had appeared many times within the enemies camps, of which they had three. The might bursting out of such joint attacks was truly devastating.

The number of Zhenlong Continent's experts who died in that battle from joint attacks was far greater than the number of those who died in head-on confrontations. This helped to explain why such an artifact was a nightmarish weapon in the eyes of the Zhenlong Continent's experts.

The people who survived the attacks immediately felt their hearts shuddering once they returned to their senses. It wasn't yet time for celebrating and getting excited, so all of them quickly joined together to work on repairing the seals.

As they worked, four layers of the seals were soon repaired, and it was already once again capable of resisting another joint attack technique. Hence, the people could be considered safe for the moment.

"Alliance Master, apart from this place, do any other regions of the warship need to be consolidated?" Old Chen, whose face was pale, casually asked him.

He was trying to assess their overall security. He had figured that, if their enemies didn't have any other means, they could be considered as having passed the worst of the crisis.

"There is no need." Long Juexin replied without giving it a second thought. "This place is the frailest part of the warship, and the defense of its other regions isn't something that the eighteen layers seal could compare to. As such, the enemies would just be wasting their efforts if they tried attacking its other regions, and no matter how much they tried using their joint attack technique, they would still not be capable of damaging it."

He then added, "In fact, in the last battle, the warship took nine strikes of their joint attack technique, yet it wasn't damaged at all! So, you can feel at ease about it. As long as we properly protect this place, the Heavenly Law Alliance will be invulnerable to any other attacks."

How could they not know how tenacious this warship is? If it wasn't firm, then it would have already been destroyed by their joint attack technique in the last battle!

"Sirs, come over here. Let's work harder and completely repair the eighteen layers seal. That was, we can be free of all worries." Long Juexin beckoned at them, while joy welled up in his heart.

All of them relaxed, and although they were tired, they considered themselves very lucky. After all, it was a miracle that they had managed to survive such a great battle without any casualties!

In the outside world.

The devilish purple-haired youth, whose expression was gloomy, gravely looked at the giant seal. "Wasn't that old man injured and knock unconscious by lightning tribulation? Where did such an expert come from?"

Three Three Crystals Half Fairy Realm experts were respectfully standing beside him, waiting for his orders.

"You should secretly contact Fu Cangshan at once. He unexpectedly didn't inform us that such a person appeared in the Heavenly Law Alliance. This caused us to suffer grave casualties!" The devilish purple-haired youth coldly snorted.

One of the Three Crystals Half Fairy Realm experts, which were his personal guards, immediately took a strange jade pendant and imbued it with his Vital Energy. The jade pendant didn't glow, but only stayed dim. This indicated that it hadn't been activated.

"Commander, the jade pendant that we planted in his skull didn't have any response. He should have..." The Three Crystals Half Fairy Realm expert's complexion became somewhat unsightly, while he spoke with hesitation.

Slap!

The devilish purple-haired youth slapped him away, leaving him badly mangled.

"You are just a group of trash." The devilish purple-haired youth's expression became distorted, and he seemed ferocious, like an angered lion. "You are just a group of good-for-nothings! It was only because I felt that such a moron might still have some use that I spared his life while we were in the Dragon Abyss of the Nine Underworlds! I even bestowed medicinal pills to him, which helped his cultivation greatly advance. I did this so that I could get more info about our enemies in the Zhenlong Continent."

He spat. "But, such trash didn't even manage to get the Alliance Master's position, even after two years, and now, he's been killed by someone!"

If such words were spread in the Heavenly Law Alliance, they would surely cause great turmoil. Fu Cangshan was unexpectedly the spy of the otherworldly experts, yet he even tried to accuse Su Yu and the others of being spies.

When such great change was occurring in the Dragon Abyss of the Nine Underworlds that year, the elder Jiu, Long Juexin, and the others were quite busy. Hence, they didn't come in time to help with it. Only Fu Cangshan led a group to go and investigate what could be done.

But, all of the people who went with him died, and only Fu Cangshan managed to escape and return. After that, his cultivation greatly advanced, and he became the number one expert of the Heavenly Law Alliance!

From that point onward, he started unceasingly recruiting people to join his side, and he gradually rose to a place of great authority in the Heavenly Law Alliance. He even started to defy Long Juexin, even managing to get his position just a day ago! But, he was unfortunately killed by Su Yu.

The unexpected appearance of Su Yu had clearly disturbed the otherworldly experts' plan. If Fu Cangshan was still in the Heavenly Law Alliance, he would just need to make some disturbance and the whole Heavenly Law Alliance would descend into chaos!

The three Three Crystals Half Fairy Realm experts didn't dare refute him, as it was only because of Fu Cangshan that they managed to find the Heavenly Law Alliance's location. It wasn't a coincidence at all, as the Zhenlong Continent was quite vast and big, and they could never manage to chase them all across such a deserted land.

Fu Cangshan secretly communicated with them, informing them of the Heavenly Law Alliance's approximate location. Then, their armies quickly spread out and started patrolling the area. It was only when their patrols were killed that they came over, as only then did they ascertain the Heavenly Law Alliance's precise location.

According to their plan, Fu Cangshan would cause a disturbance in the Heavenly Law Alliance, leaving them without a commander, and their army would then take avail of that time to attack them, thus taking down the Heavenly Law Alliance by coordinating inside and outside offensives.

However, none of them had expected that the Heavenly Law Alliance still had a hidden expert...

The devilish purple-haired youth already felt that something was unusual, just from the appearance of that extraordinary magical treasure. He immediately supposed that the person they would face was most likely a thorny Fairy Realm expert!

"Commander, what should we do?" one of the Three Crystals Half Fairy Realm experts asked him, as he felt that the current situation was quite precarious.

They had lost their information network with the death of their spy, so they were incapable of knowing which expert was protecting it. They were also incapable of dealing with its powerful defense.

The devilish purple-haired youth disdainfully looked at it, then revealed a ferocious look and said, "I don't believe that I'm incapable of destroying this turtle shell." Despite what he said, he clearly knew how outrageous its defense was, so he assumed that it would be probably impossible for them to destroy it.

The devilish purple-haired youth's eyes suddenly shone. "All of you, stop attacking it and immediately probe the center of the warship's front section."

The Three Crystals Half Fairy Realm experts didn't understand what he was up to, as the frailest part of the Heavenly Law Alliance's warship was none other than the center of its underside, and they had already tested the other places to assure that it was impossible for them to be destroyed.

Even though they were confused by his order, the other Half Fairy Realm experts still dispersed and flew to investigate.

In the warship.

The elders, who were paying close attention to the enemy's movements, became somewhat wary and vigilant.

"Alliance Master, are they looking for the warship's weak points?" Confusion appeared on Old Chen's face. "From the fact that they attacked the center of its underside, it can be seen that they already knew its weakest point. Are they trying to look for other weak points?"

Long Juexin had a bad premonition. "If that's truly the case, then it's good for us, as our defense of all parts of the warship is extremely tenacious. Hence, there won't be any issues. But, why do I still feel somewhat restless?"

The others looked at each other in dismay when they heard him, as they had to agree that the movements of the enemies outside were truly odd. But, they still had confidence in the Heavenly Law Alliance's warship's defenses.

There were five people among the crowd whose expressions gravely changed at that moment, becoming quite unsightly. The brandy-nosed elder's eyes flickered, and he secretly looked at Xiao Sui and the other three people.

If he remembered correctly, Xiao Sui's small pavilion space was created by using the warship's materials. Moreover, it just happened that he dismantled them from the center of its front section!

Did some gap appear on that region's defense because Xiao Sui dismantled a part of it and such a fact was discovered by the enemies? The elder was stunned to think of such a thing.

Xiao Sui's heart was also thumping at the moment, as he had a bad premonition when the enemies started examining the center of the front region. Then, when he saw the four elders looking at him, his heart throbbed even faster, but he still didn't let it show on his face.

Instead, he coldly transmitted his voice to them. "What are you getting flustered for? I just took a part of it! Moreover, don't we still have that lad Su Yu's defensive artifact? It would be better for you to keep your mouth shut, as if the small pavilion was exposed, then I won't conceal the fact that you played with those young women that night!"

Chapter 634: Mysterious Woman

The threat, which was not concealed at all, caused the four elders to shake with fear. They felt immense regret, as they were being blackmailed by Xiao Sui after all!

With their previous shady sexual behavior being used as leverage against them, they felt regretful, but could not even say a word in protest! If they had told the truth in time, everyone could have rushed over to fix the hole together.

But, if they had done that, their secret exploits in little building in the balcony would have been exposed after a thorough investigation. Then, their names and reputations would have all been drug through the mud by Xiao Sui!

So, they had chosen to hide the truth for now, hoping never to be exposed. With this hope in mind, the four elders decided unanimously to remain silent.

They knew that once the hole was discovered by the enemy, the only fate awaiting everyone on board of the Heavenly Law Alliance's battleship was certain death, as at that time, the strong men from the different world would descend upon them like a flood! They clearly knew that they could still prevent that from happening, yet, for the sake of their own lives, they had chosen to hide the truth and gamble on everyone else's lives instead!

"What is the matter with the few of you?" Long Juexin was deep in thought when he suddenly discovered Xiao Sui and the other four elders were behaving oddly.

Hearing his question, the five people suddenly felt a shock in their hearts.

One of the old elders struggled internally, then pretended to be worried as he said, "We are only concerned that the otherworldly experts are sneaking around and exchanging opinions."

Xiao Sui snorted. "It really disheartens me that the Alliance Master spoke in such a way. Do you think that we would actually do something to harm the battleship at such a crucial moment?"

The other three elders clearly agreed with this statement, as they each nodded their heads in silence.

Long Juexin glanced at them and said coolly, "The five of you have become much closer recently..."

Xiao Sui immediately countered the statement. "What's wrong with that? Is there a new rule in the Heavenly Law Alliance that states elders cannot be friends with each other?"

Long Juexin's gaze turned cold. Xiao Sui was countering his every single sentence, as if he could not bear to lose face in front of the others. His somewhat disrespectful and overly confident attitude just made Long Juexin's killing intent grow stronger. However, he tried to control his emotions and simply chose to ignore the five of them.

In the external world, ten thousand meters away.

Above a barren and barely noticeable mountain, several people were hiding themselves within a patch of tall grass.

Zoom.

Right then, a man with long silver hair appeared from the skies. It was clearly Su Yu, who had previously left for the Heavenly Law Alliance. He was holding a broken communication pendant and had a concerned look on his face.

"Master!" Luo Xiong called out.

As a look of joy spread across his face, he led the other five annihilation team members out of their hiding place, then rushed to bow and greet Su Yu. Seeing them, Su Yu waved his hand. He looked very serious.

He then said, "No need to be too respectful at the moment. Are the others safe and sound?"

Luo Xiong answered, "Master, Housemaster Zi and the others are safe and unharmed. We also managed to meet up with Phoenix Master Qiu."

"However..." Luo Xiong looked very sorry as he continued, "We came a little too late. Phoenix Master Qiu was heavily injured and is now being treated with Vital Energy by Housemaster Zi and Master Lin."

Su Yu's heart tightened when he heard this news. His figure then floated towards the patch of grass that was as tall as a human.

There, the figures of many people were scattered around. One was standing guard, two could be seen lying flat on the ground, as if they were dead, while three more sat cross-legged and seemed to be in states of deep meditation.

Phoenix Master Qiu's pale face had traces of blood on it, and the imprint of a palm could clearly be seen on her bloody abdomen. This sight caused Su Yu to feel a chill in his heart. Xia Jingyu and Elder Jiu, who were both in comatose states, also looked horrible and had seemingly suffered a great deal.

"How is Phoenix Master Qiu?" Su Yu landed beside her before speaking another word.

He then started imbuing Vital Energy into her alongside Housemaster Zi and Lin Yunhe. Once the Vital Energy entered her body, Su Yu gasped and his facial expression immediately changed. This was because he saw that Phoenix Master Qiu's injuries were far worse than he had first imagined.

Three of her veins had burst, her internal organs were badly damaged, and many of her bones had been broken. Thankfully, these injuries were still curable by Vital Energy.

However, the most troubling thing was that her Dantian had been greatly impacted. The Vital Energy Crystal that she had worked so hard to condense appeared to be cracking continuously.

As such, a large amount of Vital Energy was leaking from the crystal and torturing her physical body! Wherever the Vital Energy passed, that part of her body was mercilessly damaged. The strong Vital Energy had even affected her consciousness and sent her into a deep comatose state.

Now, her life depended on Zi Donglai's and Master Lin's imbuing of Vital Energy within her to suppress the uncontrollable Vital Energy in her body. Otherwise, she would be killed by the Vital Energy that was now going haywire within her! At the moment, her life was literally hanging by a thread!

"How did her condition become so serious? Housemaster Zi, Master Lin, what did you discover when you found her?" Su Yu asked as his pupils contracted. He was filled with confusion.

After all, he was just teaching Xianer how to train in the Heavenly Law Alliance when the communication pendant had suddenly broken. It was Luo Xiong who had initiated contact with him, and he had only said one thing... “Phoenix Master Qiu is in danger.”

Hearing this, Su Yu had immediately rushed over. In order to protect Xianer from harm while he was away, he had left behind four round pearls. He still did not know what had happened to them.

Housemaster Zi looked very serious and shook his head. “We do not know for sure either, as we just recently arrived ourselves. In fact, we had come to meet Phoenix Master Qiu at the address you provided. However, when we got here, we found that Phoenix Master Qiu had already passed out on the floor and was heavily injured. We were unable to find out who had injured her so severely.”

Master Lin stared intently at Phoenix Master Zi’s abdominal injury. He hesitated for a moment before speaking. “Based on my observations, Phoenix Master Qiu was only struck with a single palm attack. However, this palm attack must have been extremely frightening and should have killed her instantly. However, for some reason, the attacker must have held back, which explains the heavy injury. Otherwise, we would probably be looking at Phoenix Master Qiu’s dead corpse by now!”

As Su Yu focused his gaze on her bloody abdominal area, he could faintly see a very defined yet thin imprint of a palm. If he was not mistaken, it belonged to a lady! The person who had injured Phoenix Master Qiu was a lady!

Moreover, the palm imprint that was left behind had a very significant and dangerous aura that was attached to it. Just from taking one look at it, Su Yu could feel his eyelids jumping slightly.

As he took a deep breath, Su Yu’s eyes shot out a cold light and he said, “This was done by a very strong Fairy! Dare I ask, Housemaster Zi, apart from the otherworldly experts, how many Fairies are there in the Zhenlong Continent?”

Housemaster Zi and Master Lin entered deep states of thought upon hearing his question. Clearly, Phoenix Master Qiu was not assaulted by an otherworldly expert. Otherwise, the opponent would not have preserved all three of their lives.

This was especially true for Elder Jiu, who had become a prime target of the otherworldly invaders. Thus, the only possibility was that an expert from Zhenlong Continent had done this! Hearing this and then coming to this immediate awareness, the two thought deeply about it for a long while.

Then, Master Lin said, “If it were two and a half years ago, I could tell you with absolute certainty that only Elder Jiu, First Void World Senior, King of Darkness and the mysterious Ninth Saint Master from the Yue clan were Fairies! However, since then, the Dragon Abyss of the Nine Underworlds has been opened, so the existence of Spiritual Energy has increased significantly. It is very difficult to be sure of the number now!”

Master Lin then added, “The Zhenlong Continent was always unable to create Fairies because of its poor environment and lack of Spiritual Energy. However, two and a half years ago, this condition changed and these requirement could now be met. Within these recent two and a half years, it is unknown whether some of the peak Half Fairies broke through as Fairies.”

Master Lin paused, then added, “Based on what I know, the most possible creation of Fairies would have been in the Empire of Darkness, as they have a few experienced peak Half Fairies who had

reached the peak for many years through cultivation. Now that the environment had improved, it would not have been difficult for them to break through as Fairies.”

In that case, there was no way to identify who had severely injured Phoenix Master Qiu!

“However, if Phoenix Master Qiu’s injuries can be healed, and if we can fully suppress the messed up Spiritual Energy within her, perhaps she could then tell us who did this evil deed!” Housemaster Zi said.

Su Yu’s eyes flashed with a stark coldness. He was clearly concerned for her, as Phoenix Master Qiu had been very helpful to him.

Before this, Su Yu had relied on her to take Xia Jingyu and Elder Jiu away from Heavenly Law Alliance to protect them. This had allowed Su Yu the opportunity to wipe out Fu Cangshan and his followers in Heavenly Law Alliance without worrying about the pair’s safety. He never thought that Phoenix Master Qiu would be heavily injured to the point of entering a coma in the process!

As such, Su Yu felt that he was indebted to her! So, he must save her now! Moreover, Su Yu still needed Phoenix Master Qiu’s assistance to cultivate his Evil Destroying Silver Eyes in order to recover his eyesight!

“Alright, let us first suppress the Vital Energy. We can discuss the healing process when we get back to Heavenly Law Alliance! There is an abundance of resources there that would benefit her recovery!” Su Yu said seriously.

Housemaster Zi and Master Lin were stunned as they thought...

Return to the Heavenly Law Alliance? How could we return based on our current status? Wouldn’t that be like turning ourselves in?

Thereafter, having listened to Su Yu’s explanation, they sucked a few breaths of cold air, still thinking...

Fu Cangshan and his followers have all been wiped out? Not even a single one of them remains? More than ten elders were killed, just like that?

Apart from feeling a chill in their hearts, they saw Su Yu in a brand new light! This man was not only very capable, but he was also filled with great charisma!

“I hope that the Heavenly Law Alliance can stand on its own two feet again after such an incident. Such a trial is not necessarily a bad thing for the Heavenly Law Alliance, as hopefully, this will make it stronger.” Master Lin sighed softly.

Thereafter, the three combined their efforts to suppress the malfunctioning Vital Energy within Phoenix Master Qiu’s body. After an hour had passed, the Vital Energy was gradually stabilizing and coming under their control.

Finally, it had all been forcefully suppressed within the Vital Energy Crystal. All three of their Vital Energies had been wrapped around Phoenix Master Qiu’s Vital Energy to prevent it from leaking again.

“That’s enough. Once we return, we will find out if there are any specific medicines to help her recover faster.” Su Yu did not relax yet. “However, her consciousness might take a longer time to recover.”

Housemaster Zi said in consolation, “Her life is no longer at risk at least, and her waking up is only a matter of time. There is no need to worry too much, as you have done your best.”

Master Lin smiled too. “I also believe that she will awaken one day.”

“Accompanied with the fortuitous words of two elders like you, let us quickly return to the Heavenly Law Alliance, as it is still in a dire situation. Someone needs to be there to hold down the fort. We should not be away for too long,” Su Yu said.

He turned around and looked like he was about to carry Phoenix Master Qiu out, when a figure suddenly appeared from the side. It was Zi Yunxiang, who had been on guard duty.

“Let me do it.” Zi Yunxiang’s face turned slightly red. She did not dare to look at Su Yu directly. Her red cheeks were very beautiful.

Su Yu gave it a thought, but did not reject Zi Yunxiang’s offer. Phoenix Master Qiu was from the Phoenix Cabinet after all. As such, she had protected her own body all of her life. Surely, she would not want to be carried around by some man like him!

“Thank you, Yunxiang.” Su Yu nodded to her gratefully.

“It’s... It’s nothing.” Zi Yunxiang’s beautiful pupils glowed brightly and her heart thumped slightly. She carefully avoided Su Yu’s gaze as she mumbled her answer.

Su Yu nodded, then walked over to check on Xia Jingyu and Elder Jiu. The two of them were not seriously harmed.

Seeing this, Su Yu let out a sigh of relief. Naturally, he then started to carry away Xia Jingyu, leaving Elder Jiu to Housemaster Zi and Master Lin.

Chapter 635: The Warship Was Broken Open, and Its Residents Were Killed

All of the people present wore odd looks as they observed the scene before them. It seemed like Su Yu had a close relationship with the Empire of Darkness’s Lord Yi Yu.

Su Yu’s heart became heavy as he looked at Xia Jingyu, who was sleeping in his embrace. As he watched her, complex emotions welled up in his heart. Qin Xianer and Xia Jingyu... Su Yu was distraught as he thought about them.

Su Yu shook his head and constrained his emotions, then led the people to the Heavenly Law Alliance.

In the warship.

The people in the warship were warily observing the movements of the enemies outside. They were carefully examining each corner of the center of the warship’s front section.

As time passed, the Xiao Sui's complexion became more unsightly. He and the four others who were with him gradually despaired. It seemed like they were expecting the center of the front region to have some issues.

At this moment, the expression of a Two Crystals Half Fairy Realm expert gravely changed, and it seemed like he had discovered something. He immediately left the group of guards that was examining the warship and flew back to the devilish purple-haired youth.

"Commander, there is a place in the center of the warship's frontal region that is quite frail. In fact, its frailness is second only to the center of the warship's underside." The guard was quick to report this, as he wanted to take the credit for such a contribution himself.

When the devilish purple-haired youth, who had a nervous look on his face, heard him, a meaningful cold smile appeared on his face. "So, that piece of trash Fu Cangshan wasn't wrong! There are some reckless elders in the Heavenly Law Alliance who dared to dismantle a part of the warship for materials! One can escape heaven's punishment, but he can't escape mine!"

The devilish purple-haired youth coldly laughed and revealed a cruel look. "Let's start using the joint attack technique once again. Our target is the center warship's frontal region."

After he gave the order, the remaining seventy Half Fairy Realm experts gathered together and stood before the giant ring. They slightly adjusted it, changing its target from the center of the warship's underside to some position in the center of its frontal region. The devilish purple-haired youth even joined them in this endeavor.

"Alliance Master, the situation doesn't look too reassuring. They adjusted its target, and that Fairy Realm expert who is leading them, even joined the group of people that are attacking. It seems like they are quite confident." Old Chen's complexion became quite gloomy and his felt heart restless...

What happened? What did they discover in the center of the frontal part of the warship?

Long Juexin also felt quite restless. "Sirs, be ready for a fight. Our situation may change at any moment."

The complexions of Xiao Sui and other four people all became quite pale, and sweat dripped from each of their foreheads profusely.

Bang!

A loud rumbling sound echoed in the air as a huge light beam shot out of the ring. The light beam's might was twice as powerful as their last joint attack. This was because a Fairy Realm expert had joined them.

A terrifying, destructive aura bombarded their four-colored light screen suddenly...

Crack!

The light beam then got into a deadlock with it. A cracking sound was emitted from the four-colored light screen, while it intensely shook, and it seemed like it would surely be broken!

“It isn’t looking good! The light screen will be surely be broken!” Long Juexin shouted in a low voice. “Sirs, be ready and on your guards against it!”

Although they were surprised, they weren’t flustered. After all, even if their defensive formation was broken, they still had the more robust warship at their disposal. The center of the frontal region was one of the warships most sturdy parts, so it wouldn’t be penetrated.

Bang!

A loud explosion sound echoed as a giant, long crack appeared in the four-colored light screen. The light beam continued on, soon bombarding the Heavenly Law Alliance’s warship.

Bang

Another loud explosion sound echoed forth, and a scene that dumbfounded all of the Heavenly Law Alliance’s members appeared. A wide gap had opened in the firmest part of the warship’s frontal region, slicing through it effortlessly, as if it was just a piece of paper!

The powerful light beam then penetrated through the whole warship, burning everything that was in its way into ashes. The rooms, training arenas, and the flustered people who hadn’t managed to evade it in time were also instantly burned into ashes.

Many of those who died were some very talented youngsters, who should have been protected by the Heavenly Law Alliance. Yet, they all died tragic deaths instead.

The light beam’s powerful force not only destroyed a great expanse of the warship’s frontal region, but it also forcefully propelled the warship several miles forward. The imposing and towering warship flipped around and revolved as it was bombarded by such a mighty power.

As this was happening, the people onboard all felt their heads spinning. Throughout this crisis, many of the warship’s rooms and buildings were heavily damaged. Countless flustered and frightened cries rang out, along with the loud sounds of cracking and crumbling buildings. It was indeed a mighty disaster!

Bang!

A loud rumbling sound echoed as the Heavenly Law Alliance’s warship, which had proudly flown in the air for ten thousand years, fell down to the ground. As the great ship fell on the ground, it shot up a cloud of dust that engulfed a hundred miles.

As the dust wafted around, countless alarmed and frightened cries rang out from the warship. Sounds of people weeping, who had just lost their relatives and friends, could also be heard.

Although a few dozen people died in the light beam, the casualties caused by the fall of the warship reached a thousand. Countless plaintive cries echoed out from the warship. It was as if doomsday had arrived. The complexions of Long Juexin and the others were deathly pale.

“The Heavenly Law Alliance is done for! We are done for.” The aged face of Old Chen, who was in a sorry state, shivered, as he looked into the inside of the warship, which had crumbled and almost turned into ruins.

Long Juexin cried out in disbelief, "It's impossible! The warship can't be penetrated." He was incapable of understanding why their joint attack was capable of penetrating the strongest part of the warship.

The complexions of Xiao Sui and his group were also deathly pale, and Xiao Sui would never have imagined that his dismantling some materials from the warship would cause such devastating damages to the Heavenly Law Alliance.

After Long Juexin returned to his senses, he immediately shouted, "Quickly go to the center of the frontal region. Let's hope that we can still make it in time."

All of the people looked gloomy, as they all knew that it was already too late. Yet, they still held some faint glimmers of hope, so they still responded to Long Juexin's call, swiftly flying towards it.

"Elder Xiao Sui, what should we do?" The brandy-nosed elder's heart sank to its deepest point, and he truly wished to skin Xiao Sui alive.

He kept saying over and over again that he dismantled just a small amount of materials from the warship, but from the fact that its defense didn't manage to block even a strike, it was obvious that the ignorant and arrogant Xiao Sui almost certainly had dismantled all of it!

At such a moment, Xiao Sui and the other four elders were all regretting their deeds. It could be said that the destruction of the Heavenly Law Alliance's warship was entirely their faults!

If the four of them had warned everyone in advance, they could still have combined their strengths and repaired the opening. Then, they wouldn't have ended up with such great casualties and the warship would not have been overthrown. They became sinners, who would most likely be condemned for all eternity, just because they had wanted to enjoy themselves.

Xiao Sui felt a chill running down his spine as he faced the cold gazes of the other four elders. He was more flustered and frightened than any other person here, as he clearly knew what kind of great disaster he had caused.

"Why are you so flustered? We didn't make any mistakes. This all happened because Long Juexin is incompetent and was incapable of obstructing the otherworldly invaders, and it was also because the magical treasure that was left by Su Yu is quite weak and frail. So, even if I didn't dismantle some of the warship's parts, it would have been destroyed by the enemies sooner or later. So, what does all of that have to do with me?" Xiao Sui spoke confidently.

The four elders' hearts shuddered when they heard him. They couldn't believe that Xiao Sui was capable of uttering such a cynical speech!

"Don't be so worried! If neither you nor I confess, then how can they know anything for certain? Worst case scenario is that we would just need to flee and leave the Heavenly Law Alliance. After all, we have already contributed enough to the Heavenly Law Alliance, so we don't need to die along with it!" Xiao Sui's eyes flickered as he spoke.

The four elders were surprised. One of them asked, “So, you mean that we should avail ourselves of the opportunity to leave?”

The four of them glanced at each other and started considering it. After all, they were already among the Heavenly Law Alliance’s criminals of record, and regardless if the Heavenly Law Alliance managed to survive such a crisis or not, they would still be killed, so it did make sense for them to leave.

Xiao Sui nodded at them, then agreed. “Let’s immediately follow them and take the opportunity to leave while they are distracted by all of the chaos. Otherwise, Long Juexin will surely make a big fuss over a minor issue, and then he will surely punish us.”

After the other four elders considered it too, they also agreed that this was their only way out. After they finished discussing it, the five of them swiftly followed behind them.

Long Juexin’s heart sank even further as he witnessed all of the mess before him. Each corner was filled with rubble from destroyed buildings, as well as the stooped over bodies of people, all of whom were crying. Even the warship’s interior had already been turned into a crap-heap.

The hearts of the elders who followed behind him were also quite heavy at this moment, as many of the deceased had been the elders’ acquaintances. Just a moment ago, they were still chatting with them, yet now, they had been separated by death.

Amid this gloomy ambiance, they directly went to the region that had suffered the brunt of the attack. That place was completely void and empty. There wasn’t even rubble left within it, as everything had disappeared into nothingness.

There was a hideous-looking long gap in the space, and a destructive aura was still emanating from it. Its mere presence revealed to all of them how terrifying this strike had been. But, what was fortunate was that, even though an opening was made in the warship, they still didn’t start invading them, and even now, there wasn’t even a shadow of one of them to be seen!

A glimmer of hope welled up in Long Juexin’s heart, which had already been in deep despair. “Quickly seal it with your Vital Energy, then let’s take the materials in the storage room and repair the warship! Let’s hope that we can still make it in time.”

A glimmer of hope also sparkled in the elders’ hearts, and they all quickly used their remaining Vital Energy to seal the opening.

“We are still not defeated.” Old Chen was also quite surprised that the enemies hadn’t taken such an opportunity to invade them.

The group of elders, which was overjoyed by such unexpected news, started swiftly revolving their Spiritual Energies. After a short while, the gap was sealed by a great amount of Vital Energy. It then condensed a layer of defense, which would be difficult for Half Fairy Realm experts to penetrate.

“Alliance Master, it seems like the enemies have some misgivings about something, as they didn’t immediately invade us, which then gave us such an opportunity.” The complexion of Old Chen’s became rosier.

However, Long Juexin didn't dare relax yet. "Eh, the enemies may have overlooked it, but we still mustn't relax. Old Chen, take my badge, and immediately go to the storage room. Then, take some of the sealed warship's materials. Let's all hope that we can still make it in time."

Since there was no time to lose, Old Chen immediately took the badge and swiftly flew to the upper layer of the warship. Su Yu had just come over at that time as well.

Luo Xiong's complexion was quite grave. "If I remember correctly, then the quake came from the direction of the Heavenly Law Alliance's warship. Did some accident occur in the Heavenly Law Alliance?"

Su Yu shook his head. "It shouldn't be from the Heavenly Law Alliance, as they still have the magical treasure that I left them. Also, the warship is quite firm and stable, so they will all be safe and sound. But, we should still immediately go over to investigate it."

After the amount of time needed for brewing a half cup of tea had passed, the complexion of Su Yu, who had now reached a mountain's summit that was about twenty miles from them, became ice-cold.

"Was the Heavenly Law Alliance's warship destroyed?" Luo Xiong's eyes widened, while his pupils contracted until they became as thin as needles.

What was before them was a giant ship! The ship was on the ground and it had a hideous-looking giant gap in one of its sides. Such an astounding sight shocked all of them.

"Who is it? Who possess such terrifying power?" The Housemaster Zi and Master Lin couldn't believe it, as they had already stayed for a long time in the Heavenly Law Alliance and clearly knew how sturdy its warship was. Yet, somehow, an opening had still been made in it!

Luo Xiong's complexion became grave. "This isn't a single person's power. It was certainly caused by a joint attack technique of some sort."

His finger was pointing at a giant ring, which was floating in a distant place. He had already witnessed a similar scene on the battlefield, saw he saw how joint attack techniques were capable of easily destroying everything. However, there were just twenty people around the ring...

After Su Yu scanned the surroundings with his Soul Eyes, while paying extra attention to his sweep of the Heavenly Law Alliance, his expression changed and held a fierce gravity. "It's awful. They have already invaded it! But, Long Juexin and the others still haven't detected them! We should quickly rush over to them! Let's hope that we can still make it in time."

Chapter 636: First Void World Senior

While Long Juexin was waiting for the others to repair the gap, Old Chen held the Alliance Master's badge and rushed over to the upper level of the battleship. At the moment, a huge sealed round ball was floating at the uppermost level in the space.

The round ball did not have any opening, and it was completely on its own as it rotated quietly in place. There was not even anyone standing guard over it. As such, it appeared to be even less guarded than the place where the elders were staying!

However, everyone in Heavenly Law Alliance knew that this round ball's importance was only second to that of the Heavenly Law Core in the Heavenly Law Alliance! This was because all of the resources that the Heavenly Law Alliance needed were in this one round ball! This included medicine, techniques, treasures, materials and everything related to the cultivation of the masses in the Heavenly Law Alliance.

Someone from the outside could not possibly imagine why a place of such importance would not be guarded by even a single person! However, only the people from the Heavenly Law Alliance knew that, in fact, the round ball was even stronger than the battleship itself!

This was because the round ball itself was a semi-manufactured spiritual artifact. It was a treasure that the First Void World Senior had carried with him wherever he went. It had been preserved until this day and was used as the Heavenly Law Alliance's main storage for all of its resources.

Old Chen rushed to the front of the round ball with the badge in his hand. This round ball could only be opened by the order of the Alliance Master. After the Alliance Master imbued it with Vital Energy, the round pearl would sense the presence of the badge and grant a person access through the door.

"I hope everything is not too late for us!" Old Chen mumbled to himself.

The Heavenly Law Alliance's battleship was made of a material that could not be found anywhere else in the entire Zhenlong Continent. It was said to have been gathered from a different world and was very unique.

Not only was the material incomparably tough, it also had very strong attributes. Before being refined, it would present itself in a liquid form. However, once it was refined by flames, it could be turned into a stronger, solid form. It was very mysterious.

The Heavenly Law Alliance's huge battleship was made with this mysterious material. Although the battleship seemed severely damaged now, it could be fixed right away once the liquid was obtained. Thus, it could still be salvaged!

As Old Chen condensed his Vital Energy and imbued it into the badge, patterns that looked like a tortoise's shell began to appear on the badge. Swiftly thereafter, the surface of the floating round ball started showing similar patterns of the tortoise's shell. Gradually, a crack that could fit one person's passage into it started appearing.

A mighty spiritual pressure then began emitting from within the crack. This was a pressure caused by the shapeless condensation of the Spiritual Energy of the many treasures stored within.

Even Old Chen gasped secretly in surprise upon seeing this. In all of the tens of thousands of years in the Heavenly Law Alliance's existence, apart from the Empire of Darkness, no other place could compare with this in the Zhenlong Continent.

He felt thoroughly moved, but he also knew that time was of the essence. So, he immediately entered the crack.

However, as soon as one of his feet stepped inside it, his facial expression changed and he yelled out, "Who is there?"

He suddenly felt an odd aura behind him. The aura appeared very suddenly and there was no signs of it before. It was as if it had appeared out of thin air!

Old Chen's heart dropped. It frightened him that he was too weak to discover the opponent's presence before this moment!

"Hehe! So, is this where the Heavenly Law Alliance stores its prized treasures?" An evil and teasing voice came from behind him.

Old Chen's body quivered as he slowly turned his head around. Behind him was an armored young man with an unspeakably evil aura.

He had long purple hair and his arms were crossed in front of his chest. He wore a devilish smile on his face as he inspected the huge round ball that was before him.

"You! It's you!" Old Chen sucked in a breath of cold air. He felt as if something was stuck in his throat and he could barely speak!

The enemy army's commander was actually inside the Heavenly Law Alliance! It was not that they had failed to seize the opportunity to break in while the gap was created. Instead, they had already entered and were hiding! The alliance's people had not yet discovered them!

Thinking about this made Old Chen's facial expression turn grave. He then asked, "If you had already come here long ago, why did you not attack us earlier?"

The purple-haired armored young man did not take his eyes off of the round ball. As such, he had not even looked at Old Chen once.

Although a Two Crystals Half Fairy was of an elder position in the Heavenly Law Alliance, Old Chen was merely an ant in his eyes. In fact, he could have killed Old Chen in a single motion. Hence, he felt no need to pay any attention to Old Chen at all.

As for the queries, the purple-haired young man did not even have to answer. However, as he was a trickster at heart, he wanted to toy with Old Chen, so he asked in reply, "Hehe! What do you think? If I had appeared from the beginning, would you have willingly opened this door?"

He clearly knew that the door could only be opened by the Heavenly Law Alliance's badge. It even required a special chant as well. Thus, without the Heavenly Law Alliance Master's personal order, he would not have been able to open it, even if he were able to locate the place.

The purple-haired young man laughed lightly. "Although your meager storage is probably filled with rubbish items, something from there is still better than nothing. Before you are all destroyed, I will trouble myself with the burden of keeping it all on your behalves!"

Old Chen hated himself for being so careless. He had unknowingly just opened the storage for the enemy! With the flashing of a bright light, Old Chen secretly imbued Vital Energy into the badge.

Creak.

The opened crack started closing once again!

"Hmph, do you actually think a small trick like this will work in front of me?" asked the purple-haired young man as he laughed and waved his hand.

At that moment, a secret force that could not be detected by the naked eye suddenly rushed towards Old Chen with a destructive pressure. Old Chen's face turned pale, as the secret force of a Fairy was

extremely frightening. Although they stood miles apart, Old Chen could feel the secret force sealing off everything around him.

Regardless of where he tried to run, there was no way that he could escape the large area that was covered by the secret force. In this midst of his hopelessness, Old Chen slowly closed his eyes and waited for his body and soul to be destroyed.

The purple-haired young man, on the other hand, showed no expression. It was as if he was only killing a worthless ant. However, all of a sudden, the purple-haired young man focused his gaze towards the crack.

Smack.

A soft knock could be heard as an old, dried up and lifeless palm was extended out of the crack. The palm was emanating a very strong force.

The fist's force and the secret force were expanding in the air. After a soft knock was heard, each of them extinguished the other simultaneously.

"Who is hiding there sneakily? Come out now!" shouted the purple-haired young man with a low voice. He looked slightly more serious now.

Thump. Thump.

Footsteps could be heard from within the crack. Every single step caused Old Chen's heart to beat wildly. He suddenly realized something and turned around to look at the figure that coming out of the crack.

He could not help but be shocked as he yelled, "First Void World Senior!" He was surprised that the First Void World Senior was inside the storage!

"It's you!" The purple-haired young man looked equally surprised. How could I not have known about the Heavenly Law Alliance's First Void World Senior's corpse?

In the big battle between both sides, this corpse had killed many of the otherworldly experts. As a corpse, its methods were cruel and unimaginable, far worse than a living person's.

Right then, as if it had sensed a Fairy's presence, the corpse had appeared on its own initiative! It was dressed in a robe and its left hand was holding a mysterious black casket, while its right hand dangled vertically at its side. Its eyes appeared lifeless, just like two empty holes. It was this very corpse that had, on multiple occasions, supported the Heavenly Law Alliance.

Roar!

The First Void World Senior let out an low growl, like a beast. It sent chills down everyone's spines.

The purple-haired young man became cautious and took several steps back to maintain some distance between him and the corpse. His face was filled with concern.

He then asked, "Did you all set this trap for me?"

Old Chen's heart thumped. Hold on a second, could this be the Alliance Master's plan?

"Did you only just find out? It's too late!" Right then, a cold yet serious voice came from behind them!

They turned, and behind the First Void World Senior's corpse, another figure had suddenly appeared! It was none other than Long Juexin, who had clearly been mending the gap at the front of the battleship!

He held the Heavenly Law Core in his left hand, while his right hand showed a symbol. Layers of space were shaking and gradually dispersed around him. Old Chen felt like he had just woken up from a dream!

As Long Juexin controlled the Heavenly Law Core, he knew about everything that happened in the battleship. So, Old Chen had to wonder... How could he not have noticed the many people who had barged in?

However, as these people went into hiding after barging in and did not attack immediately, it seemed as if they had an ulterior motive. As such, Long Juexin decided to play along, while luring them to a place with less people. Luckily, the only person who had come along was the purple-haired young man!

This is exactly what led up to this present scene! At the moment, Long Juexin controlled the Heavenly Law Core to open up an unknown transporting formation that brought the First Void World Senior into the storage.

"Hmph! You seemed to have forgotten that I have several experts with me..." The purple-haired young man's words may have been bold, but his face sank as he spoke them.

He thought he had been so smart. He could not believe that he had fallen into a trap!

The Heavenly Law Core glowed with a red light in Long Juexin's left hand. All of a sudden, a loud booming sound was heard! Pieces of the wall started falling all around them, sealing up the entire space in the upper layer of the battleship, which is where the storage was, right at the center!

The material that was used to make the huge wall was exactly the same as that which was used for the battleship. It was indestructible. Based on the powers of a normal Fairy, there was no way it could be broken. Thus, they were all sealed inside with no escape in sight!

"There's no way for you to contact your followers now," Long Juexin said coolly.

The purple-haired young man's face sank even further. Indeed, it was impossible for such an important storage to not be guarded at all! These mechanisms of the huge wall were passive weapons that had been placed to lock intruders inside! Even he could not possibly break the huge walls to escape without his followers' assistance!

"How dare you small ants set me up?" The purple-haired young man seemed deeply upset and was determined to fight back!

A long green bow appeared in his hand, along with a golden arrow. He extended the bow very quickly, then shot the golden arrow out like a ray of light.

Its trajectory was aimed right at the Heavenly Law Core in Long Juexin's palm! Once the item was broken, the Heavenly Law Alliance's battleship would crumble into pieces.

Shuffle.

However, the robed figure flashed by suddenly. The First Void World Senior's corpse had instantly teleported in front of Long Juexin's body!

Ding.

A crisp sound was heard as the scary-looking golden ray of light pinged off of the First Void World Senior's chest. It was as if it had bumped into solid metal!

Click.

The golden arrow was instantly deflected and fell to the ground. Strands of cracks could be seen on the arrow.

"Tsk!" The purple-haired young man took in a breath of cold air. Such a strong physical body!

Even though that strike was one of his strongest strikes, it had not even harmed his opponent the slightest bit! Indeed, as rumors had it, the First Void World Senior, who used to be a very strong person physically when he was still alive, had a corpse that had not deteriorated, even after so many years!

When the two sides were in the big battle, the corpse had been surrounded by three otherworldly Fairies. Yet, it remained completely unharmed! Instead, one of the otherworldly Fairies was torn into pieces by this corpse!

A tinge of fear and panic suddenly appeared in his heart. The proud demeanor and teasing smile on his face had already been replaced by a look of someone who was in a state of serious contemplation.

Chapter 637: The Return of Su Yu

"Open this place, and I will immediately take my people and leave. Otherwise, if the people outside don't see me coming out soon, they will start attacking, and your spineless elders won't be capable of handling my Half Fairy Realm experts army. Moreover, you still have some good-for-nothings in your army, which can only harm you, so if you don't want your Heavenly Law Alliance's members blood to flow till it forms rivers, then obey my instructions. I will only give you one opportunity..."

Long Juexin coldly shook his head. "It's too late. No matter what price we have to pay, we will surely let you pay it back with your blood."

"The time it takes to brew a cup of tea is already enough for us," Long Juexin shouted in a low voice.

It seemed like the First World Senior's corpse received some order, and it emitted a bestial roar from its throat, while its body turned into an afterimage.

"Ahh!" The devilish purple-haired youth immediately emitted a blood-curdling screech, while his right arm turned into a fountain of blood that sprinkled in the air. There was even a claw mark on his chest. The claw mark was so deep, even his bones could be seen!

Fright welled up in the heart of the devilish purple-haired youth as he screamed! It was too terrifying! In fact, he felt like he wasn't fighting a human, but a bloodthirsty ominous beast!

Its strike almost cut him into pieces, and it was only because he promptly reacted that he managed to use his right arm to offset most of its strike. Otherwise, he would have already been killed!

As he turned his head around and looked at the First World Senior's corpse, he found that its palm was stained with blood. Even its face was stained with fresh scarlet blood! At this moment, its empty eye fell upon him, and as it roared, its body started becoming fuzzy once again.

The devilish purple-haired youth was extremely frightened, as he was already incapable of blocking any more strikes from it. At such a precarious moment, the devilish purple-haired youth shouted in a loud voice, which shattered the jade pendant on his chest, "Sir, please quickly save me!"

Surging spatial fluctuations were emitted from the shattered jade pendant, and a spatial crack appeared in the sealed space. Then, a dignified middle-aged man, who wore scarlet armor, strode out of the space.

He was square-headed and had big ears, yet he still possessed a dignified presence. His whole body emitted a terrifying aura. What was most mysterious about him was the intricate wyvern print that appeared between his brows...

"A Wyvern Saint Master." Long Juexin sucked in a breath of cold air and his eyelids shivered.

He had already researched the enemies' supreme commanders, finding that they were two types. The first type were charged with leading the troops, such as the devilish purple-haired youth commander before him. They were commonly seen, and almost all of the Fairy Realm experts belonged to this category. Their strengths slightly varied, and the weakest of them were just like the youth before him, Level One Fairy Realm experts, while the strongest were Level Three Fairy Realm experts.

The other type were all just observers behind the scenes, and they would mostly not show themselves at all. These commanders were addressed by their enemies as Saint Masters. These Saint Masters' symbol was the wyvern print on their foreheads, and it was because of this that they had first started to be called the Wyvern Saint Masters.

They weren't clear about their exact number, nor did they know how strong they were. They just knew that in the most critical moments of battle, there would always be a Saint Master who intervened.

For example, when the First World Senior started a massacre and tore a Fairy Realm expert apart, causing the otherworldly experts' army to retreat in fear, a Saint Master had appeared. He called himself the Fifth Saint Master, and with just a wave of his palm, the First World Senior was struck down into the deepest part of the ground.

The battlefield situation changed because of it, and the human race started gradually retreating in defeat. Meanwhile, the otherworldly army started counterattacking, which resulted in a great number of casualties.

Even though the Fifth Saint Master swooped in and thoroughly reversed the battle, no one got a clear look at his face. All that they saw was a fuzzy light projection.

That battle was the first time that the Zhenlong Continent's experts had ever witnessed a Saint Master, and they had never seen another one since. So, none of them had expected that another Saint Master would appear now!

"Greetings Eighth Saint Master." The devilish purple-haired youth was quite overjoyed, and he immediately knelt down on one knee and saluted him.

The dignified middle-aged man emitted a terrifying aura, and he apathetically looked at the devilish purple-haired youth, who had obviously lost one of his arms. He then said, "Trash, a commander like you clearly fell into a trap..."

The devilish purple-haired youth didn't dare refute him. Instead, he seemed extremely submissive and respectful towards the Wyvern Saint Master.

"But, I see that I still didn't come in vain, as you lured out this corpse at least," he said.

"Many thanks, Eighth Saint Master." The devilish purple-haired youth seemed quite overjoyed, as if having rendered him such a trifling service was something great.

Long Juexin's heart thumped when he heard him, and he was quite astonished. "What do you mean? Is your target the First World Senior?"

Long Juexin already understood the implied meaning of their conversation.

The devilish purple-haired youth disdainfully looked at him. "Is such a weak faction like yours, which will collapse at the first blow, worth a Saint Master personally dealing with it?"

Swoosh!

It was at this moment that the First World Senior, who flickered around like a ghost, rushed toward the devilish purple-haired youth, whom he recognized as his target. His terrifying physical strength could easily tear the youth into pieces.

"Hehe, the last time, the Fifth Saint Master was busy dealing with another matter, and it was just his clone that attacked. Otherwise, he would have already captured this corpse! So, why are you waiting?" The Eighth Saint Master spoke calmly, while he leisurely took a ball from his hand.

The ball was flickering with powerful lightning, and its might wasn't any weaker than the disastrous thunder in the elder Jiu's body.

"If someone as powerful as you was still alive, then even I would be obliged to run away if I ran into you. But, it's a pity that you have just a remnant soul left..."

Sizzle!

At that moment, a disastrous thunder shot out of the ball and bombarded the First World Senior's body.

Roar!

As it roared, black smoke rose out of its body, while its empty and vacant eyes looked at the wyvern mark on the Eighth Saint Master's forehead. As it stared at the mark, it seemed quite wary of it.

When Su Yu had once gone underground with several Deputy Palace Masters, he found that it was brimming with wickedly evil souls, and since the First World Senior often slept there, he figured that it would be impossible for him to not have been affected by them.

Just like what they had witnessed, the First World Senior was clearly already dead, and as his soul hadn't scattered, even after ten thousand years, he gradually took on an evil nature.

"Go after him!" The Eighth Saint Master chuckled. It seemed like he had already expected such a result. He then casually threw the ball into the air.

Sizzle!

The ball burst open, and a giant net, formed by disastrous thunder, came out of it. The net then engulfed the First World Senior.

The First World Senior angrily roared, and it seemed like he wanted to open his eyes, but as it came into contact with the thunder, a sizzling sound was emitted from his whole body and black air came out of it.

The First World Senior was incapable of using his body's terrifying power! While still roaring, the First World Senior was completely engulfed and bound by the net.

"That's enough." The Eighth Saint Master's relaxed and clapped his hands, while his gaze examined the First World Senior for a while. His gaze then fell on the jade box.

"This must be the jade box that the Fifth Saint Master asked me to look for. The gate should be sealed within it, and there should also be the spiritual artifact, the Violet Gold Imperial Robe, sealed within it. Hehe, even though he's already dead, he's still continuing to display his utter loyalty to that declined king!"

It was unknown which person was the "king" who he was referring to. When he tried to take the jade box away from the First World Senior, he couldn't help but furrow his brows, as he discovered that the First World Senior's corpse was still firmly holding onto it!

When the Eighth Saint Master used his whole body's power and revolved his body's Vital Energy, the whole warship shook, yet he was still incapable of separating the jade box from the First World Senior's hands!

After he coldly snorted, the Eighth Saint Master took out a white dagger, which was emitting a powerful spiritual pressure. It was a semi-manufactured spiritual artifact, which wasn't any weaker than the Heavenly Law Alliance's warship.

A cold glint flickered in the Eighth Saint Master's eyes, and as he moved his hand, his white dagger arced in the air and flew towards the First World Senior's arm. The Eighth Saint Master clearly intended to cut off his arm that was holding the jade box!

Clunk!

A clunking sound, which was the two metals colliding, was heard, and his

semi-manufactured spiritual artifact dagger only managed to leave just a faint mark on it.

“Such power! It’s almost equivalent to a Divine Master’s.” The Eighth Saint Master was quite surprised. “As expected of that king’s personal guard, even though he died a long time ago, his fleshly body is still powerful!”

There were many remnants of many Divine Masters in the Mysterious Heavenly Divine Pavilion, yet all of them had either been turned into ashes or had just left sparkling bones behind. Moreover, they had passed just a mere hundred years ago in the Mysterious Heavenly Divine Pavilion, while a whole ten thousand years had passed in the Zhenlong Continent!

Not only didn’t the First World Senior’s corpse rot, it even still possessed a power that was equivalent to a Divine Master’s, even though ten thousand years had already passed since its death! From just that point alone, it could be imagined how powerful he was when he was still alive!

“Fine, let’s take the corpse along with the jade box, then hand them to the Fifth Saint Master, as he’s the only person who can deal with it.” The Eighth Saint Master put away his white dagger as he instructed him.

“Understood.” The devilish purple-haired youth promptly took a glove that was glowing in five colors. The glove had been made from a Thunder Herb and was immune to thunder and lightning.

He then sucked the First World Senior, along with the thunder net, towards him, then grabbed them.

The Eighth Saint Master then said, “What we need to take care of next is the Heavenly Law Alliance. You can handle it like you see fit, but you should capture all of the young women alive. The Fifth Saint Master’s cultivation has reached a critical juncture, and he will successfully master his cultivation method soon. Hence, he needs a great number of virgin women for his cultivation, and you should properly prepare them for him!”

“Understood.” The devilish purple-haired youth smiled, as he was glad to be of service.

Just after that, the youth revealed a ferocious look as he turned to gaze at Long Juexin and said, “As you dared to plot against me, I won’t let you have an easy death!”

Swoosh!

A golden ray shot out of the sleeves of his remaining arm. It was unexpectedly a golden arrow! It was extremely fast, almost as fast as lightning!

Crack!

Surprisingly, the golden arrow’s target wasn’t Long Juexin, but the Heavenly Law Core in his hand! As a crisp cracking sound echoed, countless fissures appeared on the crystalline Heavenly Law Core. Then, it turned into countless splinters.

Long Juexin’s complexion became deathly pale, as he just knew that the warship would self-destruct!

Buzz!

The Heavenly Law Alliance's warship started disintegrating, and its materials were quickly melting into a liquid. Even the giant walls around them were quickly melting!

"Hehe, I told you that I wouldn't let you off lightly!" The devilish purple-haired youth coldly spoke. "I want you to personally witness how all the men in the warship will be killed, and how all the women will be captured and sent to the Fifth Saint Master to be enjoyed by him!"

As he took glee in such sweet revenge, he revealed an evil grin. He then coldly ordered, "All of you, obey my orders! Kill all the men and capture all the young women!"

His guards should have already assembled outside the giant walls by this time, and his order would have determined the whole Heavenly Law Alliance's fate. But, he suddenly sniffed the reeking smell of blood from outside the walls.

The devilish purple-haired youth furrowed his brows, wondering if they had already started slaughtering them without first waiting for his orders. He widened his eyes and gazed towards his guards' direction to see that the outside was filled with charred corpses!

They were more than fifty of them, all badly mangled, and a bloody smell was seeping out of them. He could easily recognize from the remnants of their clothes and weapons that all of the corpses belonged to his subordinates!

Moreover, all of them had been burned to death. Not one of them had managed to escape! His pupils immediately contracted, and he just couldn't believe that this was possible.

Who could instantly kill fifty-Two Crystals Half Fairy Realm experts, along with three Three Crystals Half Fairy Realm experts? It would be difficult for even the Eighth Saint Master to achieve such a feat!

He then noticed a youth who was standing among the charred corpses. He was clad in a black robe and had strange silver hair. His face was handsome, rivaling that of the legendary immortals.

The youth's left hand was holding a scarlet umbrella, while his right hand was behind his back. A small pink kylin was standing on his shoulder, lazily yawning.

Such a stunning youth, who was gracefully holding an umbrella, seemed quite out of place, as his surroundings were quite bloody. This youth instantly caused the devilish purple-haired youth's heart to madly palpitate with fear.

"Who..are you?" he asked, trembling.

Su Yu calmly directed his gaze at him, his face remaining expressionless and indifferent. Not even the slightest bit of anger could be seen on it. Yet, the calmer Su Yu seemed, the more frightening he became.

"Who do you think am I?" Su Yu asked, while he slowly folded up his Red Lotus Incredible Umbrella.

The devilish purple-haired youth's gaze became grave as he shouted in a deep voice, "Stop putting up a front! I'm asking whether you were the one who killed these people or not? There isn't anyone here besides you."

At this moment, an imposing voice transmitted from behind him. It was extremely grave and deep. "Retreat!"

The devilish purple-haired youth was startled, and he turned his head around and looked behind him. The Eighth Saint Master's current expression was even more grave than when he faced the First World Senior. It was like he was now facing some even greater enemy.

His heart couldn't help but thump and he had an extremely bad premonition when he gazed at the strange silver-haired youth once again. He then asked Su Yu, "Your Excellency, can you let us leave? We didn't know that the Heavenly Law Alliance was protected by such a profound expert like you! We hope that you can forgive us."

What astounded the devilish purple-haired youth the most was that the Eighth Saint Master didn't even condemn him, despite the fact that their army was completely slaughtered by him. In fact, he had even asked him to let them off!

Moreover, when he carefully observed him, he found out that the Eighth Saint Master's forehead was already drenched in sweat. Moreover, his palms were equally sweaty!

Chapter 638: The Return of Su Yu

"Open this place, and I will immediately take my people and leave. Otherwise, if the people outside don't see me coming out soon, they will start attacking, and your spineless elders won't be capable of handling my Half Fairy Realm experts army. Moreover, you still have some good-for-nothings in your army, which can only harm you, so if you don't want your Heavenly Law Alliance's members blood to flow till it forms rivers, then obey my instructions. I will only give you one opportunity..."

Long Juexin coldly shook his head. "It's too late. No matter what price we have to pay, we will surely let you pay it back with your blood."

"The time it takes to brew a cup of tea is already enough for us," Long Juexin shouted in a low voice.

It seemed like the First World Senior's corpse received some order, and it emitted a bestial roar from its throat, while its body turned into an afterimage.

"Ahh!" The devilish purple-haired youth immediately emitted a blood-curdling screech, while his right arm turned into a fountain of blood that sprinkled in the air. There was even a claw mark on his chest. The claw mark was so deep, even his bones could be seen!

His heart couldn't help but thump and he had an extremely bad premonition when he gazed at the strange silver-haired youth once again. He then asked Su Yu, "Your Excellency, can you let us leave? We didn't know that the Heavenly Law Alliance was protected by such a profound expert like you! We hope that you can forgive us."

What astounded the devilish purple-haired youth the most was that the Eighth Saint Master didn't even condemn him, despite the fact that their army was completely slaughtered by him. In fact, he had even asked him to let them off!

Moreover, when he carefully observed him, he found out that the Eighth Saint Master's forehead was already drenched in sweat. Moreover, his palms were equally sweaty!

Chapter 639: Two Options

"Do you know me?" Su Yu frowned slightly.

"No... No, I do not." The Eighth Saint Master dared not look Su Yu in the eye.

Su Yu's pupils flashed with an odd light as he said calmly, "Alright, please step aside. I will question you later."

Hearing this, the Eighth Saint Master did not even hesitate. His forehead was filled with cold sweat as he stepped aside, not showing any signs of wanting to run away. His attitude was extremely respectful!

This scene shocked the purple-haired young man, who wondered...

What kind of person is this silver-haired young man, as even a Saint Master was this afraid of him?

"Were you the one who broke the Dry Cloud Five Elemental Formation and the battleship?" asked Su Yu calmly, while he lifted his gaze towards the purple-haired young man.

The purple-haired young man detected suddenly that a great danger was upon him. He stepped back continuously, while turning his gaze towards the Eighth Saint Master in a plea for help. However, right then, the Eighth Saint Master lowered his head and did not dare to return his gaze.

"Your Excellency, I had no intentions of offending you. Please forgive me." The purple-haired young man felt a certain pressure coming from Su Yu, so he spoke shakily.

Forgive you? Su Yu shook his head lightly. As the Eighth Saint Master had not injured a single person, Su Yu could talk to him later. However, as this young man had destroyed the battleship and caused many casualties, even if Su Yu did not belong to the Heavenly Law Alliance, he could not forgive such a man!

"Since you have come, I will make it so that you stay here forever," Su Yu said calmly.

The purple-haired young man's facial expression changed drastically and he instantly made a move to run away! Sensing a deadly threat was upon him, the young man mustered all of his strength and took off towards the external environment. His figure turned into a stream of light as he approached the battleship's crack.

Once he made it outside, based on his capabilities as a Grade One Fairy, even Su Yu would not be able to catch up with him. As the crack was not too far away, in a breath's time, the young man would be able to move past it.

Just as he was about to make it through, a pink mist appeared in front of the crack. A kylin that was the size of a palm suddenly walked out of the mist and fiercely stepped on him with one of its hooves.

Yelp.

A cry of pain could be heard, as it appeared to have stepped right on the purple-haired young man's nose! He was crying out in pain as he covered his face with his hands. All the while, the little kylin was looking very proud of itself.

"I will kill you!" The purple-haired young man was very angry that this little pink b*stard had blocked his way during such a crucial moment as this!

However, just as he spoke, he could hear a voice with a cool intent from behind him say, "I am afraid you cannot kill anyone other than yourself..."

Zoom.

The sound of air rushing forward could be heard next to his ear. The purple-haired young man felt goosebumps on his skin as a sense of danger filled his heart. However, he was quick to react, quickly retrieving two paper puppets from his sleeves.

The paper puppets were surrounded with Vital Energy and instantly transformed into two figures that looked exactly like the purple-haired young man. They were both as thin as paper, but from the front, one could tell no difference between them and the actual purple-haired young man!

Clang.

The sound of metal coming into contact with metal could be heard. The paper puppets' material was unknown, but it must have been pretty strong, as they were able to block the small golden blade for a while. However, it was only a short while.

Whoosh.

With a single flip, the small golden blade cut the paper puppets apart. Seeing this, the purple-haired young man became tense. He couldn't believe his eyes.

After all, his paper puppets were of the most excellent grade of high grade divine artifacts and were very strong. After several tests, many semi-manufactured spiritual artifacts, which were known to be very sharp, could barely scratch his treasures!

In fact, this was the very first time that they had been directly cut apart! But, even though they had been cut apart, the appearance of the two paper puppets had at least given him time to get away!

“Don’t push me any further. I am sure you would not want me to take everyone down with me.” The purple-haired young man retreated into the battleship.

He was wearing a colorful glove. It was a glove that had been made from the Thunder Herb. At the same time, he retrieved a shiny hammer from his sleeves.

“The disastrous thunder in here is sufficient to kill all of you. Although I may also be struck by it, none of you will be able to dodge it!” shouted the purple-haired young man angrily.

The Eighth Saint Master raised his head and his pupils contracted. His serious-looking face instantly sunk. “You b*stard! Put that thing away! Do you plan to kill me as well?” he demanded to know.

The purple-haired young man was frightened by his anger. However, with death staring him in the face, he suddenly found more courage in his heart and yelled, “Hmph! If I put it away, will you save me? After all, you did not even retaliate, but just surrendered to the enemy immediately. Eighth Saint Master, I must say, you are the biggest embarrassment out of all of the Saint Masters!”

Hearing his slanderous words, the Eighth Saint Master was speechless. He could only stare at the treasure as he said to Su Yu, “Master, please be careful, as this was a treasure that I had offered previously to the Seventh Saint Master that supposedly would be delivered by him. However, I cannot believe that he dared to use the item that was gifted to him by the Fifth Saint Master. He sure has guts, if so!”

He then explained, “This treasure is a semi-manufactured spiritual artifact that contains a frightening disastrous thunder. It would turn anyone below the Grade Two Fairy into dust instantly! He had never trained with this treasure and would not be able to control the disastrous thunder within it. Once it is activated, the thunderbolt would not only kill him, but all of us, as well as many of the members in the battleship. I am afraid that more than half of us would die or be injured.”

Su Yu’s gaze was calm as he thought about what he had just heard... The Fifth Saint Master and the Seventh Saint Master, who were they?

Su Yu had heard about the Saint Master long before any normal person in the Zhenlong Continent had. This was because the year when he had successfully acquired the Pure Divine Decree, he had triggered the Heavenly Might, and it was the Ninth Saint Master who had bestowed it upon himself to suppress Su Yu on behalf of the Heavens, then chased after him, while he ran for his life!

Luckily, the Heavenly Law Alliance had appeared just in time, and the First Void World Senior had helped Su Yu escape the disaster. For this reason, Su Yu now knew about the Eighth Saint Master, the Seventh Saint Master, and the Fifth Saint Master.

“Alright, I understand,” answered Su Yu nonchalantly as he stepped forward. His eyes were filled with a coldness as he asked, “Do you want me to make the move, or do you want to do it yourself?”

The purple-haired young man started panicking as Su Yu came closer. Is this fellow really not afraid of death?

After all, this treasure was used by the Fifth Saint Master, so its might is truly shocking! As such, even the Eighth Saint Master is wary of it, how much more should Su Yu, who is only a Half Fairy, be wary of it?

“Alright, you asked for it. Even if I must be heavily injured, I must eliminate you!” The purple-haired said, while he prepared himself for whatever may come next.

Perhaps the disastrous thunder may turn him into ashes. However, he knew that, if he did not use it, he would certainly be killed by the young man before him! The only option was to fight to the death!

He used his left hand to imbue Vital Energy into the hammer as the thunderbolt started moving about crazily. Waves of red thunderbolts, which looked like small snakes, started jumping around, while streams of a destructive aura emanated from the hammer.

Boom.

A loud thundering sound was heard as a red disastrous thunder boomed forth with a destructive might! As this happened, the air around it appeared to be sizzling and everyone nearby felt their bodies turning numb, as if bits of lightning were floating through every inch of their flesh and blood!

Simultaneously, everyone felt a strong vibration in their hearts. Everyone’s eyes stared at the red disastrous thunder as they felt their hearts knocking against their throats! A feeling of death closely approaching filled everyone’s hearts.

Long Juexin and Old Chen both turned numb. They dared not move in the face of this disastrous thunder. The destructive intent in the disastrous thunder caused them to not have an ounce of resistance in their hearts.

Even the Eighth Saint Master’s facial expression changed drastically. Using Vital Energy to protect his body, he continued to retrieve countless protective treasures to surround himself tightly. Even then, his face was still pale as paper and hopelessness filled his heart.

After all, a treasure that had been used by the Fifth Saint Master was not something a mere Grade Two Fairy like him could withstand. However, he was not as fearful as Long Juexin and Old Chen. Instead, his gaze was focused on Su Yu.

Everyone else was deeply frightening and shocked. Only Su Yu continued to ignore the frightening disastrous thunder as he approached the purple-haired young man slowly and carefully.

“Die!” The purple-haired young man was truly shocked by Su Yu. Even against the thunderbolt, Su Yu did not do anything to protect himself and was still walking towards him!

Roar!

Suddenly, a sound like the lightning dragon’s roar could be heard. The red disastrous thunder had turned into a remnant shadow as it departed from the hammer. However, the instant the disastrous thunder had left the hammer, a scene that shocked everyone speechless appeared!

Not only did Su Yu not step backward, he even took a step forward! At that moment, a suit of colorful armor appeared in his palm, which he pressed against the red disastrous thunder!

The angry sound of thunder that had filled the skies was suddenly muted! The red disastrous was directly suppressed by the colorful palm and was forced back into the hammer!

The scene made Long Juexin and Old Chen widen their eyes. They both wondered simultaneously.... Suppressing the disastrous thunder with a single hand... Is this something a human could do?

The Eighth Saint Master's pale face had recovered some of its initial red flush. A bitter grimace shown on his face as he laughed at himself and murmured, "I have truly met a little monster."

The purple-haired young man was stunned. His entire body froze and he could no longer move. His heart was filled with a blankness and he couldn't help but wonder... Could even the disastrous thunder be forcefully suppressed?

Zoom.

His palm was empty, as Su Yu had softly taken away the sharp hammer in his hand. Toying with the sharp hammer, Su Yu did not even lift his head as he asked coolly, "Do you want me to make a move, or do you want to kill yourself? This is the only time that I will ask you..."

Chapter 640: The Central Prefecture's King

When the devilish purple-haired youth returned to his senses, his complexion became as black as a pig's liver. As he was gazing at Su Yu, he felt the same stifling feeling that he had while he was facing the Fifth Saint Master, as if just a single thought from him could determine his life or death!

Intense despair welled up in his heart, as he didn't have any hope of escaping. Even the most powerful disastrous thunder would be easily quelled by Su Yu, so there was nothing that he could try!

As he gazed at the charred and badly mangled corpses out of the corner of his eye, the devilish purple-haired youth felt his heart shuddering. If he waited till Su Yu attacked him, his fate wouldn't be any better than those corpses!

After all, he had destroyed the Heavenly Law Alliance, so Su Yu certainly didn't have any reason to have mercy on him. As he thought about the fact that he might be burned to death by raging flames, he started hesitating and wavering.

He thought that it would be better for him to kill himself than to experience such a painful and miserable death. This was the only choice...

"I will remember all of you." Grief welled up in the devilish purple-haired youth's heart. It was hard to believe that just a moment ago, he was still the commander of a great army, and now, he was being forced to kill himself!

It was all because of Su Yu that he had fallen into such dire straits! He viciously glared at Su Yu, his gaze filled with hatred.

Splutter!

His blood rushed into his forehead, then sprinkled into the air like a fountain. His eyes quickly lost their luster and his body weakly fell on the ground. At that moment, he had no trace of life left in him.

A solemn Level One Fairy Realm expert had just been forced to end his own life. Seeing this, Long Juexin and Old Chen were both flabbergasted. In fact, if they hadn't witnessed it with their own eyes, they would have just laughed if they had heard the news from someone else, simply taking it for a joke.

Both of them felt their hearts intensely thumping as they took another look at Su Yu, and even though he didn't emit the slightest bit of pressure, they still felt like he emitted a peerless pressure, and both of them personally witnessed how great it was.

The Eighth Saint Master softly sighed as he looked at the devilish purple-haired youth's corpse. A short while ago, he was still angrily cursing him, saying that he was the disgrace of all of the Saint Masters.

The Eighth Saint Master then said, "It isn't like I'm willing to surrender without trying to fight him, but it's just that I clearly know that your current fate would be mine too if I tried to oppose him."

Su Yu calmly looked at the eighth Saint Master and asked, "Tell me... How did you hear about me?" Su Yu already knew all about the Saint Masters' origins.

The Eighth Saint Master hesitantly looked at Long Juexin and Old Chen, both of them immediately understanding what his look implied.

"Su... Senior, we will immediately go to assemble the dispirited residents," Long Juexin said, being careful to not call him by his name.

Su Yu nodded at the two, then said, "First go to appease them."

He was speaking of all of the people who were on the ship, as they were all alarmed and anxious. Hence, there was a need for the Alliance Master to promptly step forth and calm them down.

After a moment, just Su Yu and the Eighth Saint Master were left in the room, along with the bound First World Senior of course.

"Speak! How did you hear about me?" asked Su Yu once more.

The Eighth Saint Master laughed bitterly, then said, "Fine, I'll tell you. It isn't like it's some secret. I came from the Jiuzhou World. You must have already heard about it while coming into contact with the talented youngsters in the Mysterious Heavenly Divine Pavilion. The Zhenlong Continent isn't the only world in the universe, and it's even an extremely small and insignificant corner of it. In fact, if it was compared with Jiuzhou, it would be just like a small human city."

Su Yu's heart intensely thumped when he heard this fact. He couldn't believe that the vast Zhenlong Continent was unexpectedly just tantamount to one of Jiuzhou's mere cities!

How great and extensive were such cities? And, what kind of world was Jiuzhou?

"Since you met Jiuzhou's geniuses, how could Jiuzhou overlook you?" asked the Eighth Saint Master. "Your name is already quite famous in our central prefecture, as you, an outstanding genius from a desolate land, unexpectedly fought many famous apex

experts. Hence, it would be difficult to overlook someone with such prominent achievements.”

Su Yu’s gaze became ice-cold. “How did you know all of this about me? Were you spying on us?”

The Eighth Saint Master’s heart shuddered when he felt Su Yu’s killing intent, so he hurriedly said, “Please don’t make rash conclusions. I’m not someone from the Eighteen Blessed and Heavenly Lands, so how could I manage to enter the Mysterious Heavenly Divine Pavilion, which is heavily guarded? In fact, we had another way of seeing what was happening inside. As such, we can faintly detect any powerful and intense fluctuations within the pavillion.”

He then added, “We just detected that certain people appeared there and fought with you, and that you defeated all of them.”

Su Yu’s expression became even colder. “Then, doesn’t this mean that you witnessed the whole battle?” Su Yu was on his guard now, as he had used almost all of his magical treasures in this fight, as well as objects that shouldn’t be exposed, like the prototype Fairy artifact.

The Eighth Saint Master smiled bitterly. “You don’t need to be worried about it, as it’s extremely difficult to pry into the Mysterious Heavenly Divine Pavilion, especially while hiding it from the Eighteen Blessed and Heavenly Lands. So, we just faintly detected who won and who was defeated. We don’t have any idea about the particulars.”

Still suspicious, Su Yu carefully observed his gaze. Only after he confirmed that he wasn’t lying did he relax a bit. It was clear now how he knew Su Yu, which also made it understandable that he had surrendered without even attempting to put up a fight.

It was indeed a pity that they had no idea that Su Yu was now temporarily incapable of using his most powerful means, like the Great Sun Punishment Fairy Picture, the Five Elemental Strong Thunder Seal, and the Evil Ghost Bloodline. They also had no idea that his current strength was limited.

In fact, the most powerful move Su Yu currently was capable of was fusing with an Origin, and Su Yu would definitely not easily use such a technique, as it might leave him heavily injured. Moreover, his personal strength was, at most, equivalent to a Level Three Fairy Realm expert.

But, there was still something that Su Yu was bewildered by in the Eighth Saint Master’s tone. It seemed like they had a hostile relationship with the Eighteen Blessed and Heavenly Lands.

“Can you tell me about your status?” Su Yu asked.

The Eighth Saint Master replied, “I’m from the central prefecture, and I’m the eighth commander of the Black Shadow Guard, Wu Hen.”

“The central prefecture?” It was Su Yu first time hearing about such a place.

“The Jiuzhou Continent is divided into nine prefectures, and the central prefecture is one of them. The central prefecture’s guards are the guards and direct subordinates of the central prefecture’s king, and they are divided into two divisions, which are the Bright Light Guard and the Black Shadow Guard. The Bright Light Guards are

responsible for all open protection affairs, while the Black Shadow Guards are responsible for executing tasks in secret," he explained to Su Yu.

All of the kings of the past mortal dynasties had their own secret forces. These forces took care of all secret and covert matters. The central prefecture's king was no exception to this tradition.

"What is the relationship between the central prefecture and the Eighteen Blessed and Heavenly Lands?" asked Su Yu.

"The Eighteen Blessed and Heavenly Lands are situated at the border of the central prefecture. It was a territory that wasn't willing to pledge an allegiance to us. As such, they are always opposing us. Understandably, they are seen as being a real thorn in our king's side," he answered.

He then added, "It was only because of a few mostly bureaucratic reasons that the central prefecture's king couldn't attack them or deal with them properly, and since the Eighteen Blessed and Heavenly Lands aren't willing to openly oppose our king, nominally, they are still considered affiliated to the central prefecture, while in fact, they are independent and by themselves. But, the central prefecture still sent an All Creation Realm Old Monster to protect them because they are nominally affiliated to us."

Su Yu had already seen such an Old Monster! It was Hong Luan!

Su Yu now had a general understanding about them after he heard his explanation. He then said, "Fine, then what kind of orders did the Black Shadow Guards receive from the king? And, why did they come to the Zhenlong Continent? Since it's just a wasteland, which is even inferior to a mere city in Jiuzhou, why did you waste such an effort? It's truly puzzling."

Su Yu waited for his reply, as this was the matter he most wanted to know about. The Eighth Saint Master hesitated for a while, then answered him respectfully, "We are, in fact, looking for someone..."

"Who?" Su Yu was quite surprised that such a mighty and imposing force would come here just for one person!

What kind of person was this greatly valued? Su Yu was incapable of comprehending it.

The Eighth Saint Master wore a solemn look as he said, "This person was once in the central prefecture, and he was a peerless apex expert, who stood at the peak of Jiuzhou. He had a peerless power, and he almost even became the emperor of Jiuzhou, meaning that he would have governed all nine prefectures!"

Su Yu was quite shocked by this news, as being the Jiuzhou Emperor was a great title!

Such an astounding secret shocked Su Yu so much that he couldn't help but ask, "Who is it?"

The Eighth Saint Master's eyes flickered, while he softly shook his head. "I don't even know who this person is, but I know that he's surely in some corner of the Zhenlong Continent, as his guards are still here..."

He then added, "Since your Excellency has such great cultivation, you should surely have a prominent status in the Zhenlong Continent. So, you may have already seen some of his guards, and even if you didn't see them, you should have at the very least heard about them."

The Jiuzhou Emperor's guards? Su Yu was shocked by him once again.

The Eighth Saint Master saw his confusion, so began to explain, "The Jiuzhou Emperor was also once one of the nine kings, and he was the king of the central prefecture. Only after his cultivation reached a great level was he able to obtain the opportunity of being crowned as the emperor. But, before he ascended to the throne, someone plotted against him, almost annihilating him body and soul!"

He shook his head, then said, "It was only because of his five guards' protection that his remnant soul managed to escape. He then fled to the Zhenlong Continent, and since the continent was cut off from the rest of the world, he managed to barely survive there till now."

Su Yu's eyes flickered. "Was the person who plotted against him the current king of the central prefecture?" Su Yu suddenly thought of Yun Yazi for some unknown reason.

Is it him?

Remnant soul, betrayal, peerless expert... All of those clues point to none other than Yun Yazi!

"You are correct. It really is the current king of the central prefecture, who is my esteemed master." The Eighth Saint Master blushed with shame. "Such news has already spread in Jiuzhou, but since they didn't have any evidence against him, no one dared to question him."

Su Yu's eyes flickered. "Why don't you tell me more about it? What happened in that year? Since Jiuzhou Emperor had such peerless power, ordinary plots shouldn't have worked against him, right?"

The Eighth Saint Master nodded. "Your Excellency, you are truly wise. What the central prefecture's king used wasn't some ordinary plot, however. The central prefecture's king secretly colluded with the Ghost Clan's Great Emperor and ambushed the Jiuzhou Emperor. It was only because of this that they were able to almost destroy both his body and soul."

The Ghost Clan's Great Emperor? Su Yu was shocked once again.

After all, the Ghost Clan's Great Emperor, who used the Underworld Pearl, was almost invincible. Moreover, his invasion of Jiuzhou was a great calamity that almost exterminated their whole race!

It was only because he peculiarly returned back to his world by himself that the Jiuzhou Continent had been spared! In fact, the secrets hidden behind this strange retreat remained a mystery to this day!
