

## O game 100

Chapter 100 - Unlimited Gold Sets!

Shura Yize: Just kidding, don't take it so seriously.

Warblade: 500,000 gold coins plus five million, Snow Emperor, that's the limit.

Lin Tianhao didn't speak immediately, but others couldn't help but complain.

Frosty Flash: Brother Blade, what did you do? The guild has so much gold. We have more than 1,500 gold farmers in the guild, but the difference between them and you is so big.

The salary of a gold farmer is basically around 5,000. With more than 1,500, the monthly salary expenditure alone is 8 million.

Warblade: I have 6,000 gold farmers...

The transaction was completed quickly.

Not long after the transaction was completed, a server-wide announcement rang out in the sky.

“Server-wide announcement: Congratulations to player Warblade for establishing the territory Warblade Territory. As the first player to establish a territory, the rewards are: Free attribute points +50, territory attribute bonus +1, Golden-level unrestricted set +1. Special announcement, hoping that all players will continue to work hard.”

... ..

When the sound of the server-wide announcement resounded throughout the server.

“Holy crap?!”

“Reward for a Golden-level unrestricted set?”

The group chat created by Lin Tianhao exploded directly.

Just look at Dream Chasing Snow to know.

How outrageous her Golden-level scepter is.

This unrestricted Golden-level set can definitely be described as outrageously outrageous, outrageously home.

The most important thing is unrestricted!

That means there are no wearing requirements, and anyone can wear it.

In the group chat.

Frosty Dream: Brother Blade, send out the attributes and let us be envious too.

Floating Tower Divine Wolf: Golden-level set, a unique thing at this stage. Just one question, who else has it?

Shura Yize: I estimate that the Book of Life and Death on the equipment rankings might not necessarily be better than this set.

Warblade: Thanks to Snow Emperor, Snow Emperor is invincible.

Afterwards, Warblade sent out the attributes of his Golden-level set.

Lord's Armor Set: Golden.

Wearing requirements: None.

Attribute 1: Attack +19580.

Attribute 2: Armor +20000.

Attribute 3: Magic Resistance +18500.

Attribute 4: Health Points +300000.

Attribute 5: Attack Speed +4.

Attribute 6: Life Steal +20%.

Set Trait 1: Omnipotent Reflect Damage +20%.

Set Trait 2: Recover 10,000 Health Points per second, uninterrupted by attacks.

Set Trait 3: Has a 1% chance to be immune to the damage taken.

Set Trait 4: During the territory defense battle, three level 50 Golden bosses can be summoned to participate in the battle. (Note: The summoned bosses are limited to the territory and cannot leave the territory. Each summon lasts for one hour, with a cooldown time of twenty-four hours.)

When the set attributes were sent out, everyone in the group chat except Lin Tianhao was dumbfounded.

“Holy crap!!”

“Blade, you kid got a great deal. If this equipment is equipped on a Berserker, it will definitely be a mobile blood bank.”

The attribute bonus is outrageous, and the set traits are outrageous.

Warblade: It's so-so. To be honest, set effect 4 is a bit useless now, as it can't be taken out of the territory.

Shura Yize: I've seen people flexing, but I've never seen anyone flexing like you. It's hateful.

Frosty Dream: Brother Blade, take your little sister with you.

Warblade: Cough cough, little sister Dream, don't pretend to be pitiful. I just heard this morning that someone in your guild changed to an Earth-level hidden class.

Frosty Dream: An Earth-level hidden class is not even comparable to Brother Blade's unrestricted Golden set.

Shura Yize: Blade, what about the territory bonus? Send it out and let us have some reference.

Warblade didn't hide anything and sent it out directly.

Warblade Territory: Golden.

Lord: Warblade.

Citizens: 13.

Construction Value: 0 / 1 billion.

Territory Bonus: Attack Power +50, Attack Speed +1, Movement Speed +3, Critical Hit +10%, Health Points +10000, Skill Cooldown -5%, Grievous Wounds +5%.

(Note: This bonus is effective for all citizens, and during the territory defense battle, this attribute bonus is doubled.)

Frosty Dream: Is it so excellent? All players who enter the territory can obtain these attribute bonuses?!

Shura Yize: Snow Emperor, what about the guild? What is the bonus like? If it's also so fierce, wouldn't it be great to develop the guild and territory together? Then the people under our command will take off directly?

Lin Tianhao didn't hide anything and released his guild bonus as well.

Guild Bonus: Damage +1%, Critical Hit +10%, Attack +20, Attack Speed +1, Movement Speed +3, Health Points +10000, Omnipotent Life Steal +5%.

After sending these messages, Lin Tianhao continued to send: "Also, I'll bid for a guild creation token later. You can prepare."

Closing the group chat.

Lin Tianhao had already arrived in the area of the level 50 Two-Headed Demon Wolves.

According to the strategy of the previous life, killing the Two-Headed Demon Wolf King for the first time can drop a guild creation token.

It seems that the first guild creation token in the previous life came from this.

Two-Headed Demon Wolf (Normal): 50.

Health Points: 6500 / 6500.

Attack: 568.

Skills: Two-Headed Elemental Cannon, Demon Wolf Howl, Soaring Demon Claw.

Very ordinary attributes.

Not to mention Lin Tianhao, even high-level game players at this stage can kill the Two-Headed Demon Wolf by forming a team and pulling aggro.

Lin Tianhao went up and shot an arrow.

-6500.

Directly emptied the health points.

Without any pressure.

Next, Lin Tianhao began to sweep the ordinary spawns.

With more than 6,000 health points, Lin Tianhao completely wreaked havoc.

Even if elite-level Two-Headed Demon Wolves appeared, the result was still the same.

One-shot kill!

At this time, Lin Tianhao's health points were 3.5 million+, and the true damage of a normal attack was over 100,000.

In addition to the effect of double grievous wounds.

Now, Lin Tianhao's arrow can cause 210,000+ true damage.

Sweeping all the way, soon Black Iron-level Two-Headed Demon Wolves appeared.

Two-Headed Demon Wolf (Black Iron): 50.

Health Points: 1325000 / 1325000.

Attack: 7928.

Skills: Two-Headed Ray, Demon Energy Cannon, Soaring Demon Claw, Demon Wolf Roar, Layered Shadow Ninefold Claw, Bloodthirsty Red Eyes, Lone Wolf Instinct, Domineering Body, Frenzy.

Lin Tianhao smiled helplessly. This time, five Black Iron-level Two-Headed Demon Wolves were refreshed at the same time.

Raising his hand.

Five arrows fired simultaneously.

In less than a second.

All five Black Iron-level Two-Headed Demon Wolves fell.

“Ding, you have completed the first kill of the Two-Headed Demon Wolf. A server-wide announcement will be made. Do you want to hide your name?”

“No.”

“Server-wide announcement: Congratulations to player Snow Emperor for completing the first kill of the Two-Headed Demon Wolf (Black Iron). Special announcement, hoping that all players will continue to work hard.”

... ..

Lin Tianhao simply looted the corpses. Five Black Iron bosses, and still the first kill, dropped a lot of things.

It's just a pity.

Lin Tianhao doesn't like any of them.

Of course.

There were also some gold coins, but the amount was slightly insignificant compared to Lin Tianhao's goal of gathering one million.
