Chapter 1171 - Silver-armored general and golden-edged wizard!

"Damn it, it's actually that Groundhog bastard."

Fist Emperor roared in frustration as he watched Groundhog run away.

"I treated that Groundhog kid so well, and he's actually the mole in our 749 Bureau."

Ambitious Taoist pinched his fingers into a divination gesture and said in a deep voice:

"All laws return to one, Earthly Chief Seizes the Dragon!"

As soon as he finished speaking.

Ambitious Taoist's palm slammed onto the ground.

In the next moment.

The ground cracked, and Groundhog, who had already escaped, was dragged back by Ambitious Taoist.

However.

When Groundhog broke out of the ground, he turned into a scarecrow at a speed visible to the naked eye.

"A substitute technique?"

Lin Tianhao was slightly surprised. This Groundhog actually had such methods.

"Don't pursue a cornered enemy. This Groundhog is clearly stronger than we knew."

Zuo Tianyang didn't chase, and spoke in a deep voice.

Lin Tianhao, however, felt a little strange.

Groundhog is the mole?

But how did it look like something was wrong?

At least.

Lin Tianhao felt that the probability of Groundhog being a mole was not high.

"Okay."

Ambitious Taoist nodded and said:

"Then let's go to the Middle Three Layers."

"The Middle Three Layers of Mo Yuan are completely unknown to us. Anything could happen. I only have one request: protect Snow Empress."

"Understood."

Blind Swordsman and Wine-Meat Monk and the others all nodded repeatedly.

At the same time.

Under the guidance of Lin Tianhao, the passage to the Middle Three Layers opened.

This was a circular stone path with strange runes carved on both sides.

At the end of the stone path, it suddenly opened up.

This was a place similar to the stone chamber where the Dragon Testing Stone was located that Lin Tianhao had visited before.

A circular stone chamber, extremely large.

This iron coffin was not like other coffins. It was actually placed upright.

Lin Tianhao controlled Black Demon to move forward, letting Black Demon be responsible for exploring the path.

"Bang—"

Black Demon took action decisively, smashing the iron coffin to pieces.

Undeniably.

Black Demon's destructive power was truly terrifying.

After the iron coffin was smashed to pieces, a general wearing silver armor actually appeared in the coffin.

This general was holding a red-tasseled spear and stabbed at Black Demon the moment he appeared.

Black Demon dodged the tip of the spear, raised his only remaining arm, and grabbed at the spear.

However.

The silver-armored general instantly retracted his spear. At the same time, the spear swept out horizontally, hitting Black Demon.

Black Demon tried to dodge, but a wall of earth suddenly appeared behind Black Demon, cutting off Black Demon's space to dodge.

"Earth Wall Technique!"

Lin Tianhao narrowed his eyes. Black Demon's physique was so terrifying. With an elbow strike, he smashed the earth wall behind him.

However.

He still didn't avoid the silver-armored general's attack.

Because a mud pit actually appeared under Black Demon's feet, causing his body to sink uncontrollably.

And at this moment.

Lin Tianhao noticed.

Not far behind the silver-armored general, there was a mage wearing a gold-trimmed robe.

The mage waved the staff in his hand, and dozens of khaki-colored wolf dogs surged out of the ground.

These wolf dogs rushed towards Lin Tianhao and the others like crazy.

"Swish swish swish—"

Blind Swordsman took the lead, holding a sword in both hands. Between the sword energies, he left wounds on these earth wolves.

But that was all.

"Bang—"

Fist Emperor stepped out and punched an earth wolf away.

"Damn it, these earth wolves have really hard heads."

"Be careful of your feet."

Ambitious Taoist grabbed Lin Tianhao and jumped up, sticking to the stone wall.

Just as Lin Tianhao and Ambitious Taoist jumped up, earth thorns appeared in the position where they had just stood.

If they hadn't reacted quickly enough, their bodies would have been pierced through.

The silver-armored general faced Black Demon directly, but he couldn't do anything to Black Demon.

This silver-armored general had endless methods, and it could be said that he was suppressing Black Demon in the fight.

But Black Demon's physique was too strong. As long as he attacked at will, it would be difficult for the silver-armored general to parry.

"Kill that mage."

Lin Tianhao spoke immediately.

Although the silver-armored general was powerful, he was not that difficult to deal with.

The real difficult one to deal with was the gold-trimmed mage behind the silver-armored general.

Lin Tianhao didn't act rashly. He still felt that the matter of Groundhog being a mole was a bit bizarre.

Maybe.

The mole was someone else.

"I'll go."

Wine-Meat Monk smiled slightly. He took down the big gourd from his waist.

The big gourd opened, and countless centipedes ran out of the gourd.

These centipedes were large in number, and some of the larger ones were more than two meters long.

A large number of centipedes surged towards the gold-trimmed mage with lightning speed.

The gold-trimmed mage's expression changed slightly. He waved the staff in his hand again, and huge rocks began to fall continuously from the top of the stone chamber.

Rockfall Technique!!

This was not a powerful method in the Twilight of the Gods.

But for everyone now, it was still a bit troublesome to deal with.

A large number of centipedes were smashed to death by the falling rocks, and Wine-Meat Monk felt very distressed.

"Not good!!"

At this moment.

Fist Emperor exclaimed.

One of Fist Emperor's arms began to petrify at a speed visible to the naked eye.

"Be careful."

Ambitious Taoist had to free up his hand to support Fist Emperor.

"Blind Swordsman, protect Snow Empress."

Ambitious Taoist handed Lin Tianhao over to Blind Swordsman, and then dragged Fist Emperor back.

At the same time.

Two flying swords flew out from both sides of Ambitious Taoist, attacking the gold-trimmed mage.

The gold-trimmed mage snorted coldly, and earth walls appeared around him one after another, blocking Ambitious Taoist's feather arrows.

When the earth wall shattered, the figure of the gold-trimmed mage did not appear behind the earth wall, but a clay statue.

"Bang—"

At the same time.

Zuo Tianyang was smashed away by a huge rock flying across the air. This gold-trimmed mage was actually restraining so many of them by himself.

But just as he cast a spell to repel Zuo Tianyang, he himself was knocked away by a black shadow.

It was none other than Black Demon who made the move.

Although Lin Tianhao was controlling Black Demon to fight the silver-armored general just now.

But Lin Tianhao also knew.

The real trouble was this gold-trimmed mage.

Therefore.

Lin Tianhao had been looking for an opportunity.

Even in order to ensure a hit.

He had not revealed Black Demon's supersonic speed.

Now, with a single blow, the gold-trimmed mage's body was directly punched through by Black Demon.

"Jun!"

The silver-armored general's expression changed drastically, and he roared.

He rushed to the gold-trimmed mage's side regardless of everything.

The gold-trimmed mage slammed the staff in his hand into the ground.

In an instant.

A large number of earth wolves and earth leopards surged out of the ground...

These earth wolves and earth leopards swept towards Lin Tianhao, instantly submerging everyone.

"Want to leave? Too late!!"

Black Demon directly rushed to an opening without any scruples and grabbed the seriously injured gold-trimmed mage.

The silver-armored general shouted angrily, uttering an angry roar.

This voice contained a mental shock. Lin Tianhao's mental power was not affected now, but he still pretended to be affected.

After all, acting requires a full performance!

Chapter 1172 - Ring of the Horse!

However.

Even if Lin Tianhao pretended to be struck by a mental attack.

He still controlled the Black Demon to firmly grasp the Gold-Trimmed Mage's wrist.

No matter what.

He had to capture the Gold-Trimmed Mage.

The mud was like a nimble blob of slime, running towards the inside at an extremely fast speed.

"Whoosh, whoosh—"

At this moment.

Two sword lights slashed through the sky, heading towards the mud.

"Clang, clang—"

The Silver-Armored General, who was escaping with the mud, stopped. He instantly turned around, and with a wave of his spear, he blocked the two sword energies.

In the instant he blocked the sword energies, Taoist Wild Ambition waved a golden whip in his hand.

"Come back!"

With Taoist Wild Ambition's force, he directly pulled the Silver-Armored General off the ground.

"Feng!"

The blob of mud instantly returned to the appearance of the Gold-Trimmed Mage, grabbing one of the Silver-Armored General's legs.

At the same time.

He waved his staff with his other hand, and in an instant, the entire circular tomb chamber turned into a muddy swamp, making it difficult to stand.

Taoist Wild Ambition reacted quickly, leaping up and landing on the stone wall.

However.

The stone wall actually began to turn into a muddy swamp as well, causing Taoist Wild Ambition to fall down.

Taoist Wild Ambition grabbed the golden whip with one hand and formed a hand seal with the other.

An Yin-Yang Bagua pattern appeared under his feet.

He stepped on the Yin-Yang Bagua pattern, actually suspending himself in mid-air.

After releasing this move, sweat had already seeped out of the Gold-Trimmed Mage's forehead.

"Jun, run!"

The Silver-Armored General said urgently, his spear emitting a scarlet glow as he struck fiercely at the golden whip.

However.

His fierce strike only created some ripples on the golden whip and did not cause any substantial impact.

"Today, I am destined to die. If there is an afterlife, we will meet again!"

After saying that.

The Silver-Armored General actually advanced instead of retreating, charging towards Taoist Wild Ambition with his spear.

"Feng!!"

The Gold-Trimmed Mage roared, "We said we would live and die together. If you don't leave, I won't leave either!!"

Lin Tianhao, listening to these lines, thought, 'Hmm, NPC vibes!'

Still the kind of low-level NPC.

Immediately.

He saw the Gold-Trimmed Mage plunge his staff into the mud.

Then he squatted down, his body reaching into the mud.

In the next instant.

Lin Tianhao actually felt a large hand grab his ankle through the mud.

This large hand had extremely powerful strength, actually giving Lin Tianhao a feeling of being unable to resist.

Plus, in this mud, he couldn't exert any force.

This made it even harder for him to cope.

Unless.

He exposed the strength of his Dragon Clan heritage.

"Black Demon!"

Lin Tianhao could feel that the Black Demon's feet were also being grabbed by a large hand.

But Lin Tianhao controlled the Black Demon to perform a death spin directly in the mud.

"Ah—"

A shrill scream came from the Gold-Trimmed Mage's mouth, and one could see that one of his hands, which had been plunged into the mud, was instantly pulled out.

The arm of this hand had already been twisted into a mess.

This showed that the Black Demon's death spin had injured the Gold-Trimmed Mage.

However.

The Gold-Trimmed Mage's palm turned into mud and then returned to its original shape.

"Die!"

In the time it took Lin Tianhao to fight the Gold-Trimmed Mage, the Silver-Armored General's battle was already over.

The Blind Swordsman Elder stepped onto his sword and rose out of the mud, a long sword appearing in his combined left and right hands.

The Silver-Armored General's head was chopped off as the crossed swords fell.

A warm current surged into Lin Tianhao's crown, allowing Lin Tianhao's strength to be slightly improved again.

After all, he had previously obtained the Dragon Clan heritage, so this warm current did not greatly improve Lin Tianhao's overall combat power.

"Feng!!"

The Gold-Trimmed Mage's eyes were bloodshot, "Damn it, you all deserve to die!!"

The Gold-Trimmed Mage was furious, and he plunged into the mud.

In the next instant.

A giant hand stretched out from the mud, slapping towards the Blind Swordsman Elder.

"Bang—"

Taoist Wild Ambition's body shone with golden light, protecting the Blind Swordsman Elder within it, using the golden light to block the Gold-Trimmed Mage's attack.

But the Gold-Trimmed Mage's palm, in his rage, still slapped Taoist Wild Ambition back again and again.

Immediately after.

A huge mud man stood up from the mud.

He clenched his other hand into a fist and slapped towards the Blind Swordsman Elder again.

The Gold-Trimmed Mage had personally witnessed the Blind Swordsman Elder chopping off the Silver-Armored General's head.

Now.

The mud transformed by this Gold-Trimmed Mage naturally began to frantically attack the Blind Swordsman Elder.

At this time.

The Black Demon's fatal weakness appeared.

In this muddy swamp, the more force he used, the deeper he would sink.

After all.

He was not like Taoist Wild Ambition and the Blind Swordsman Elder, who knew some spells.

Relying purely on the strength of his physique, he could not exert much power in this environment.

"Palm Thunder!"

Taoist Wild Ambition lightly rebuked, and then slapped out with his palm.

Thunder rolled above his palm.

The rolling thunder bombarded the mud giant.

"Ah—"

The Gold-Trimmed Mage's shrill scream echoed in this circular stone chamber.

"We will be back!!"

With the last words falling.

The mud giant collapsed with a bang.

The surrounding muddy swamp also quickly recovered.

"Get out quickly."

Taoist Wild Ambition said in a low voice.

Otherwise.

When these muddy swamps turned back into stone slabs, their bodies would be inlaid inside the stone slabs.

Everyone used various methods. Taoist Wild Ambition came to Lin Tianhao's side and pulled Lin Tianhao out of the mud.

In fact, there was no need for Taoist Wild Ambition to take action.

After killing the Gold-Trimmed Mage, he once again received a Daigo empowerment.

This allowed his overall strength to be slightly improved again.

Everything returned to calm.

Looking at the staff and spear left behind by the Gold-Trimmed Mage and the Silver-Armored General in front, Zuo Tianyang directly picked up the spear.

"Not bad."

Lin Tianhao didn't care much. These attribute equipment, unless they had special attribute blessings.

Otherwise.

They really didn't have much appeal to Lin Tianhao.

Above the corpses of the Gold-Trimmed Mage and the Silver-Armored General, there were light clusters floating.

Taoist Wild Ambition raised his hand to grab the light clusters, and the things inside these two light clusters were actually one silver and one gold ring.

These two rings were exactly the same except for the different colors and appearance carvings.

"This thing seems to have come a little late."

Taoist Wild Ambition threw the golden ring to Lin Tianhao.

Lin Tianhao took the ring and checked it out.

Jun's Ring: Special.

Wearing Requirements: None.

Effect 1: You can see through illusions and are not affected by illusions.

Effect 2: You can see in the dark, and you can see what's behind you.

Effect 3: Soul Power + 10000.

Effect 4: Spell Power + 100000.

Effect 5: Health Points + 100000.

Effect 6: Mana + 100000.

Abrasion Resistance: 100.

Chapter 1173 - White footprints!

Lin Tianhao was still a little surprised.

After all, the effect of this Ring of Swiftness was indeed not bad.

The attribute bonus was so-so, but both effects were acceptable.

Especially now, here.

The effect of the stat was the most direct, and the attribute effect didn't seem to be useful.

Others saw Lin Tianhao wearing the Ring of Swiftness, but said nothing.

“Let's go.”

Taoist Wild Ambition slowly spoke, “Judging from this battle, this is indeed a dungeon. With our strength, if we cooperate well, we will definitely be able to clear this place.”

As soon as he finished speaking, he saw Lin Tianhao walking in the direction he came from.

“What's wrong?” Taoist Wild Ambition asked.

Lin Tianhao didn't answer, just raised his finger and pointed at the stone passage they had entered.

When they saw the direction Lin Tianhao was pointing, everyone gathered around.

Because in this place where they came in, there was a line of footprints.

A line of white footprints.

But it shouldn't be that a guy walked past them without being noticed, right?

“Hey, can you guys take care of me?”

Fist Emperor said bitterly, one of his arms was petrified by the Gold-edged Mage, and it still hadn't recovered.

“Normally speaking, your arm should recover after the mage dies,” Zuo Tianyang couldn't help but say.

Lin Tianhao raised his eyebrows slightly and said unhurriedly:

“Not necessarily, similar to your situation, the petrification ability of this Gold-edged Mage should have a certain minimum duration, similar to the duration of our skills.”

“Generally speaking, after the caster dies, this duration will be reduced, and it is estimated that your arm will recover at the latest tomorrow.”

Hearing Lin Tianhao's words, Fist Emperor said with a bitter face:

“What about today?”

Ye Yanglong, who was not far away, said helplessly:

“There's nothing we can do today. I heard that there is a petrification antidote on the third floor of the upper three floors, but it's gone now.”

Taoist Wild Ambition waved his hand and said:

“Fist Emperor, you don't have to worry too much. Look, Snow Emperor is fine walking here, you just have one arm petrified, it's not a big problem.”

Fist Emperor stopped talking.

He really wanted to say that Lin Tianhao was fine because Taoist Wild Ambition was personally protecting him.

“However, the owner of these footprints is interesting. It looks like these footprints were just left behind.”

“This guy followed us in from the upper three floors, bypassed us, and went inside.”

Lin Tianhao approached and observed the footprints, and couldn't help but say:

“This should be a kind of stealth paint.”

“Applying it to the body can not only make you invisible, but also isolate the perception of others.”

“This kind of paint is generally used by mechanics on some fighter jets or high-end powerful weapons.”

“It is relatively rare to use it on people, mainly because this kind of paint generally has a certain toxicity. Applying it directly to the body will most likely cause continuous health loss.”

At this point.

Lin Tianhao paused slightly before saying:

“However, if you have a certain resistance to toxicity, or have a relatively thick health bar, it is not impossible to do so.”

Taoist Wild Ambition nodded, “Let's go, let's go see what guy followed us into this fourth floor!!”

Just as Taoist Wild Ambition was walking forward, he suddenly turned his head without warning, and three flying knives flew out of his hand, flying towards the depths of the darkness.

That was the stone passage they came from. Just now, Lin Tianhao and the others were attracted by the footsteps. They didn't expect that Taoist Wild Ambition observed more things.

Especially.

With Lin Tianhao's current strength, he didn't even notice anyone in the stone passage behind them.

With Taoist Wild Ambition's attack, everyone present became vigilant.

Then.

Three flying knives penetrated the darkness of the stone passage, but there was no reaction, only the sound of the flying knives hitting the stone passage.

Old Man Blind Swordsman jumped to the entrance of the stone passage, with his two long swords crossed in front of him, and two more long swords floated on his left and right sides behind him.

“咻咻——”

The two flying swords behind Old Man Blind Swordsman turned into streamers and flew towards the darkness of the stone passage.

They circled in the stone passage and flew back.

“Maybe it's my illusion.”

Taoist Wild Ambition said in a deep voice.

Lin Tianhao couldn't help but frown, an illusion?

He didn't believe it!

With Taoist Wild Ambition's strength, it wouldn't make sense if it was just an illusion.

“Swoosh—”

Black Demon turned into a streak of afterimages and rushed towards the darkness of the stone passage.

Under Lin Tianhao's control, Black Demon didn't find anything inside.

“Try this.”

Zuo Tianyang had a flare gun in his hand, and he fired the flare gun into the stone passage.

The scarlet flare instantly illuminated the long stone passage.

However.

To everyone's disappointment, there was nothing at the end of the stone passage.

“Invisibility?”

Zuo Tianyang said.

Obviously.

Everyone present didn't think it was Taoist Wild Ambition's illusion just now.

In this kind of environment, any clue may be the truth.

“You guys are too serious.” Taoist Wild Ambition smiled helplessly.

“We can't be careless in this kind of place.” Zuo Tianyang looked serious.

Immediately, he placed his palm on the ground, and then, Lin Tianhao saw dense marching ants gushing out from the cracks in the stone slabs.

These marching ants surged towards the depths of the stone passage like a tide.

It was completely a carpet search.

Even the cracks in the stone slabs were filled with these marching ants.

Lin Tianhao couldn't help but be a little surprised. Looking at these marching ants, Lin Tianhao actually had an idea.

That is... he can also control these marching ants.

Moreover.

He can directly snatch the control of these marching ants from Zuo Tianyang's hands.

Lin Tianhao's eyes narrowed slightly. At this time, if there is really something in the stone passage, it is almost impossible to avoid it.

Unless.

That person can hover in the center of the stone passage.

But if he is hovering in the center of the stone passage, he needs to move.

With everyone's attention focused now, even an existence more powerful than Taoist Wild Ambition cannot avoid their detection.

“Chirp chirp chirp——”

Just at this moment.

A raging fire suddenly burst out in the stone passage.

These flames instantly engulfed the marching ant army.

Fortunately, these marching ants reacted quickly enough and instantly burrowed into the cracks in the stone slabs.

“Prepare for battle!!”

Taoist Wild Ambition shouted in a low voice and jumped to Lin Tianhao's side.

“Swoosh swoosh swoosh——”

Just at this moment.

Black metal balls flew out of the flames one by one.

“Careful!!”

Chapter 1174 - Thin middle-aged man!

"Zuo Tianyang!" he roared.

Wayward Taoist grabbed Lin Tianhao and flew backward.

At the same time,

he formed a hand seal with his other hand, and golden light enveloped Lin Tianhao and himself.

"Boom boom boom—"

The metal ball exploded instantly, and blinding white light accompanied by a large number of tiny steel balls splattered in all directions.

Everyone present used various methods to defend, but there were too many of these tiny steel balls.

In addition, the blinding white light and the limited range in the field made it so that

apart from Lin Tianhao and Wayward Taoist, only Zuo Tianyang and the Blind Swordsman remained unharmed.

Fist Emperor, Drunken Monk, and Ye Yanglong were all hit by the steel balls to varying degrees.

"Son of a b*tch!!"

Fist Emperor roared angrily, but despite his anger, he didn't rush to the front lines.

After all, one of his arms had been petrified, and he might not be a match for them now.

Lin Tianhao, on the other hand, was already controlling Black Demon to attack.

"Bang—"

A muffled sound.

It seemed like something had kicked Black Demon.

"Damn, that's hard!!"

Someone in the stone passage complained.

Immediately afterward, Lin Tianhao saw a figure rushing out.

He held two dynamite packs in his hand and roared:

"Brothers, let's go to heaven!" He threw down the dynamite packs, and his speed suddenly increased, so much so that even with Lin Tianhao's current strength, he only saw a blur.

"Clang—"

However,

this guy was fast, but Black Demon was even faster.

Moreover,

Lin Tianhao only needed to have Black Demon block the stone passage.

"Boom boom—"

Two loud explosions.

Even with Wayward Taoist's protection, Lin Tianhao was still forced back by the shockwave.

Wayward Taoist frowned slightly, and with a wave of his hand, a golden light chain flew towards that person.

It was at this moment that Lin Tianhao clearly saw this person's appearance.

This was a middle-aged man in his thirties, as thin as a bamboo pole, making people feel as if a gust of wind could blow him over.

"Damn it, what a twist of fate."

The thin middle-aged man cursed angrily, forming a sword gesture with his hand in front of him.

In the next instant,

his body split into three.

"咻 — —"

A sword energy slashed out, forcing out the thin middle-aged man's real body.

"Ninjutsu?"

Fist Emperor frowned slightly, his expression slightly solemn.

These Japanese guys had actually arrived.

"Leave him here!!"

Fist Emperor hadn't planned to attack at first, but upon learning that the opponent was from Japan, his entire mental state changed.

He exuded a faint red glow, rushing towards the thin middle-aged man.

"Is this the hatred from within the bloodline?" Lin Tianhao raised an eyebrow and smiled.

Wayward Taoist unleashed lightning from both hands simultaneously, and almost in an instant, the thin middle-aged man's three clones were completely destroyed.

Lin Tianhao also controlled Black Demon to attack.

Seeing this, the thin middle-aged man simultaneously threw out several round bombs.

These round bombs exploded instantly.

The powerful explosive force sent Lin Tianhao flying backward.

Lin Tianhao raised an eyebrow slightly, his expression somewhat solemn.

He leaped up, trying to avoid the force of the bombs as much as possible.

At the same time,

Zuo Tianyang raised his hand, and an invisible wave of energy swept towards Lin Tianhao, blocking most of the attack for him.

And at this moment,

the frontal battle had already ended.

The thin middle-aged man was kicked by Fist Emperor into the stone wall.

Then, the Blind Swordsman's two flying swords pierced through the thin middle-aged man's shoulders, pinning him to the stone wall.

Lin Tianhao narrowed his eyes slightly. This guy was still very strong. Being able to last this long against their lineup was truly remarkable.

"I don't seem to have ever seen you before, and I've never seen your fighting style either."

The thin middle-aged man's face showed pain, but he still squeezed out a smile and said:

"Falling into your hands, I admit defeat, come on."

Wayward Taoist smiled and said:

"We don't kill people indiscriminately. If you cooperate, we can give you a quick death."

Hearing this,

the thin middle-aged man sneered, "You want to get useful information from my mouth?"

"You're just daydreaming!"

As soon as he finished speaking,

the thin middle-aged man bit his tongue and committed suicide.

"Died quickly enough," Fist Emperor said.

Blind Swordsman sneered, staring at the thin middle-aged man pinned to the wall, and said:

"Stop pretending, using the tortoise breath technique to play dead in front of us, are you thinking of us too simply?"

Hearing this,

the thin middle-aged man, who had already bitten his tongue and committed suicide, opened his eyes again. He said with a wry smile:

"You misunderstood, I'm not Japanese, I don't have any connection to Japanese ninjas."

Wayward Taoist raised his eyebrows and said:

"If you say so, then tell us, who exactly are you?"

"Where did you learn the clone technique from?"

Hearing this,

the thin middle-aged man quickly explained:

"This isn't shadow clone, it's a skill from Ragnarok, Clone Technique."

"You might not believe it, but every once in a while, I can materialize skills and items from Ragnarok."

"The bombs I used before were also materialized from Ragnarok."

Hearing this,

Fist Emperor said coldly:

"Then why did you attack us?"

The thin middle-aged man smiled helplessly and said:

"No, it wasn't me attacking you, it was clearly you guys who started attacking me like crazy as soon as you arrived."

"I originally just wanted to hide and wait for you to leave before going in."

Wayward Taoist frowned and said:

"Your words aren't convincing."

The thin middle-aged man said helplessly:

"Really, I can give you my Ragnarok nickname, and I can also give you my ID number."

"I'm really a Dragon Country citizen. Before, I encountered a group of treasure hunters, and they were just like you, starting a fight at the slightest disagreement. I gave them my identity, but they still chased after me relentlessly."

At this point,

the thin middle-aged man continued to say:

"Moreover, I didn't want to kill you just now, but wanted to run away. It's you who insisted on chasing after me."

Lin Tianhao stepped forward and said:

"The things you used just now are indeed items from a Ragnarok Mechanic, and the skill should be the Warrior's Three Shadow Substitution."

"Yes, yes, yes, finally someone who understands," the thin middle-aged man said quickly.

Xue Di smiled noncommittally and said:

"Although we attacked first, you didn't hold back with those bombs just now either."

The thin middle-aged man said helplessly:

"I thought you were that group of treasure hunters, and your attacks before didn't hold back either."

"Whether it was the flying knives, the army ants, or the flying swords, if I didn't have some skills, I would have died several times already."

Lin Tianhao frowned slightly and asked: "What skill did you use just now that was able to avoid detection?"

"Not a skill, it's an invisibility cloak."

"I can show it to you. This invisibility cloak was obtained from an old beggar in a windbreaker in Ragnarok. You can check it out."

Chapter 1175 - Wang Chongfeng who can materialize in advance!

Lin Tianhao frowned slightly and asked:

"You can materialize items from Twilight of the Gods. Wouldn't it be better to develop in Twilight of the Gods?"

"What are you doing here?"

The gaunt middle-aged man hesitated, and finally said:

"Because someone told me that there is a secret to resurrection here, that is, resurrection coins, offline resurrection coins!!"

"My wife died to save me. I want to resurrect her. There was no such opportunity before, but now that I have it, I don't want to miss it."

Lin Tianhao narrowed his eyes slightly, this reason was justifiable.

"It's hard for me to completely believe what you said."

Taoist Wild Ambition said slowly:

"Moreover, your collarbone has been pierced. If you don't receive treatment in time, you will die."

"The most important thing is that we can't leave here now."

Hearing this.

The gaunt middle-aged man quickly said:

"I have red medicine. If you let me down, I can use red medicine to recover quickly."

The blind swordsman raised his hand, and the two flying swords that had pinned the gaunt middle-aged man flew back at the same time.

The gaunt middle-aged man tried his best and finally took out a bottle of large red potion and drank it.

Then.

A faint halo radiated from his body, and his injuries recovered at a speed visible to the naked eye.

Immediately afterwards.

The gaunt middle-aged man drank several bottles of large red potion in succession before stopping.

"It's really a big red potion."

The Drunken Monk looked at the gaunt middle-aged man with a suspicious look, "In this world, there are actually guys who can materialize things right now."

"Do you know other people like me?"

The gaunt middle-aged man asked.

The Drunken Monk took out his certificate.

"You can take a look, this is my certificate. We will not disclose the information you tell me."

"749 Bureau..."

The gaunt middle-aged man widened his eyes and said:

"Wouldn't you say I've found the organization?"

"Don't, you can materialize items from the Twilight of the Gods. If you really want to find the organization, it's not easy."

Hearing this.

The gaunt middle-aged man said helplessly:

"I looked for it, and I also looked for it through the Law Enforcement Bureau, but I was later imprisoned. They asked me to materialize items for them, or they would kill me."

"I materialized a lot of things for them, and later I materialized a skill, and then I took the opportunity to run away."

Taoist Wild Ambition's face sank, and a cold light flashed in the eyes of Fist Emperor.

"You said that you reported the matter of being able to materialize to the Law Enforcement Bureau, but not only did the Law Enforcement Bureau not report it, but they also imprisoned you?"

Fist Emperor was from the military, and he hated evil like an enemy. Hearing this, the anger in his heart could not be expressed in a few words.

"I reported it, and they handed me over to the relevant department above. That department seemed to be the Sky Patrol Division, and then I was imprisoned."

"Sky Patrol Division!!"

Fist Emperor's expression became more serious, and his anger was undisguised on his face.

"After I get out of here, I will personally investigate this matter. If what you said is true, no matter how strong the other party's background is, I will make him pay the price!!"

A person who can materialize items from the Twilight of the Gods appeared, and these people below dared not report it!!

The most hateful thing is.

These people actually imprisoned the other party.

"Okay, okay, my name is Wang Chongfeng, from Dongyue City. You should still be able to find my report records there."

"I went to the Dongyue City Law Enforcement Bureau to report on the morning of March 11th this year. Even if there is no record, there will be surveillance."

"Then that night, the Sky Patrol Division's car came to pick me up. You can check all of this."

Wang Chongfeng said it vividly, adding a bit of credibility.

"Okay, we will investigate these matters clearly. Now can you tell us, who asked you to come here?"

Wang Chongfeng smiled bitterly helplessly, "Several adults, it is really inconvenient to disclose this. I got the news from the black market. I don't actually know the specific identity of the other party. I just bought the news with money."

"Black market?"

Taoist Wild Ambition frowned and said:

"We can temporarily believe what you said, but we haven't found any resurrection coins."

"I know that there are no resurrection coins on the upper three levels. There are some on the middle three levels, but not many. Now most of the resurrection coins are concentrated on the lower three levels."

"You even know this?"

The Drunken Monk was slightly surprised, "You wouldn't want to say that this is also news from the black market."

Wang Chongfeng nodded and said:

"Don't you know this?"

The Drunken Monk smiled noncommittally and asked:

"What else do you know?"

Wang Chongfeng thought for a while and said:

"There is a game pod in Moyuan that can allow people to materialize more things from Twilight of the Gods."

"Not only that."

"There is also a living real dragon under Moyuan, a real dragon!"

The Drunken Monk and Taoist Wild Ambition looked at each other, their expressions extremely ugly.

"What you said should only be known to the core members of the 749 Bureau."

Zuo Tianyang said.

They hadn't even told Lin Tianhao about these things.

This Wang Chongfeng was not stupid either.

When he heard this, he immediately reacted.

"You mean, someone leaked the secret? There is a traitor in your 749 Bureau!"

Taoist Wild Ambition nodded, "It seems that this is the case."

Having said that.

Taoist Wild Ambition looked at Lin Tianhao again and said with a smile:

"Your previous guesses were all correct. Director Zuo saw your extraordinaryness. Originally, the purpose of this trip was to let you touch the Dragon Testing Stone and then send you back."

Having said that.

Taoist Wild Ambition changed his tone, a cold light flashing in his eyes.

"But someone is interfering. Most of the things that happened in Aolong Village, especially the guy who could copy people, were not originally there."

"That guy should be here for us, or rather, for you."

Lin Tianhao nodded lightly.

This also made sense.

If they just wanted him to touch the Dragon Testing Stone, they could just enter the upper three levels directly. There was no need to go to so much trouble.

"Including the changes in Xiaoduo, these are all expected."

"From that time on, I knew that there was a traitor in our 749 Bureau. So many changes occurred when you came with us."

"The intention against you is too obvious."

When Wang Chongfeng heard these words, he quickly said:

"Don't misunderstand, I really came for the resurrection coins. I really didn't think about targeting anyone!"

"Didn't say you."

The Drunken Monk shook his head and said.

"However."

"Did you see the footprints on the ground?"

"In front of you, in the middle of us, there is another guy. He has already gone in. Do you know who he is?"

Chapter 1176 - Iron chain bridge!

Wang Chongfeng spread his hands, smiling wryly, "If you guys didn't notice it, how could I have noticed it?"

"However."

"The matter of Mo Yuan having resurrection coins and a game pod isn't exactly a secret in the black market, I'd guess quite a few people know about it."

Daoist Ambition smiled and said,

"Whatever, come on, all of you come on, I want to see just how many freaks and monsters Mo Yuan can attract."

Having said that.

Daoist Ambition changed the subject, looking at Wang Chongfeng seriously.

"Wang Chongfeng, next we need you to follow us, listen to our commands, as for resurrection coins, if possible, I'll try to get one for you."

"Or, ask him for help, get you a resurrection coin in the game."

While saying this, Daoist Ambition pointed at Lin Tianhao.

Lin Tianhao couldn't help but roll his eyes, even for him, resurrection coins weren't like cabbages.

Before, when he won the championship of the Holy Land Lord Competition, he only got three resurrection coins.

Moreover.

Those three resurrection coins were all super resurrection coins that could resurrect anyone below the level of a Saint, giving one to Wang Chongfeng would be a bit of a waste.

"Mm."

Lin Tianhao nodded, "The resurrection coins I have on hand right now are of a higher grade, it's a bit of a waste to use them to resurrect ordinary people."

"But don't worry, as long as I want to, I can get resurrection coins quickly."

Hearing this, Wang Chongfeng was a little suspicious.

Whether it was Daoist Ambition's words, or Lin Tianhao's words, they both sounded like they were just drawing him a cake.

"Don't worry, it's not drawing a cake, the premise is that what you said is true."

"If you really want a resurrection coin, then you have to join our 749 Bureau."

"No problem."

Wang Chongfeng agreed without hesitation upon hearing this.

"As long as I can resurrect my wife, I'm willing to do anything."

A faint smile appeared on Daoist Ambition's face, he said unhurriedly:

"Don't worry, we wouldn't stoop to deceive you."

"Let's go, right now this Middle Third Layer should be very lively, I also want to see, what kind of freaks and monsters are in this Middle Third Layer!!"

The team gained another member, although the words Wang Chongfeng said seemed to have no problems, bringing him along still required some vigilance.

In addition.

Actually, everyone hoped that what Wang Chongfeng said was true.

At this stage, someone who could materialize things from the Twilight of the Gods was really too important.

Although the complete fusion of the Twilight of the Gods with the real world was inevitable.

But right now, the struggle between the real worlds was still very intense.

Not to mention anything else.

Just the large red potion that Wang Chongfeng had just used, if it could be mass-produced for use in real life, the significance would be extraordinary.

Lin Tianhao, Daoist Ambition, Ye Yanglong, Wine-and-Meat Monk, Blind Swordsman, Zuo Tianyang, Wang Chongfeng, and Fist Emperor, a group of eight people, walked forward.

If you include Black Demon, that would be a group of nine people.

Walking into the stone path ahead, you could still see the white footprints leading to the depths of darkness.

The group followed the stone path forward, a fishy stench coming from within the stone path.

This fishy stench was initially quite faint, but the further they went, the heavier the fishy stench became.

It seemed like a large number of marine creatures had died ahead.

"Look at the slime on these stone walls, it seems like something crawled over them.", Fist Emperor said.

"No need to doubt it, something definitely crawled over it."

Zuo Tianyang said with a smile.

"Leeches, you should all have seen them before, but the leeches here are not quite the same as ordinary leeches."

"They're a bit like the ice leeches we saw in Changbai Mountain before, but larger."

"Larger?"

Fist Emperor was slightly surprised, "I remember the ice leeches in Changbai Mountain were already over fifteen centimeters long, the leeches here are even bigger!"

"Mm."

Zuo Tianyang nodded, the group continued forward, a platform appearing ahead, in front of the platform was an iron chain bridge.

To call it an iron chain bridge, to put it more bluntly, it was just an iron chain as thick as a bucket.

The chain also had the viscous liquid left behind by the leeches, it was sticky, it wouldn't be easy for people to stand firmly on this chain.

"It seems like we can only fly over there.", Wang Chongfeng said.

"Fly?"

"Good idea, but I think it'll be tough."

Zuo Tianyang nodded, "Fist Emperor, flare!"

Fist Emperor took out a flare and launched it towards the opposite side of the chain.

As the flare streaked through the sky, Lin Tianhao could see the situation ahead clearly.

The chain was very long, estimated to be seven or eight hundred meters.

On the opposite side of the chain, similar to their side, was a platform, in front of the platform was a stone door.

"Want to take a look below?", Fist Emperor asked.

"No, let's look above."

Daoist Ambition suddenly looked up, looking towards the top along this crack.

"We should be in Mo Yuan right now, but here... there's actually no water!!"

Before, there was still a rationale in the stone chamber, but now, this was a long crack, like a deep sea canyon.

But this deep sea canyon actually had no water!

Fist Emperor launched a flare upwards along the canyon.

When the flare flew up, everyone present was stunned.

Because above them was the bottom of the underground river!!

They could see the underground river above!!

It was as if.

There was a transparent barrier at the bottom of the underground river, isolating them.

"The underground river is above, and below this underground river there is such a huge space, and there's even oxygen."

Lin Tianhao frowned and said:

"Who's going to go first?", Lin Tianhao asked.

Zuo Tianyang stepped forward and said:

"I'll go first."

Black Demon came to Zuo Tianyang's side, his only remaining arm grabbed Zuo Tianyang's shoulder, and then he jumped up and flew towards the other side.

To be precise.

It wasn't flying!

It was the jumping power brought about by Black Demon's own powerful physique.

"Jumped... jumped over?!"

Wang Chongfeng widened his eyes, his face full of disbelief.

"Careful!!"

At this moment.

Countless feathered arrows actually flew out from the cliff face on the opposite side, shooting towards Black Demon and Zuo Tianyang.

Black Demon turned around and protected Zuo Tianyang behind him, feathered arrows constantly landed on Black Demon, but they didn't cause any damage to Black Demon.

"This doesn't seem like a mechanism."

Wine-and-Meat Monk had an sniper rifle almost as tall as himself in his hand, raised his hand, and pulled the trigger.

"Bang—"

A bullet streaked through the sky, flying towards the other side.

"My arm hasn't recovered yet, otherwise I'd definitely fire a few shots."

Wang Chongfeng grinned and said:

"I could fire a few cannons, but I don't know if I'll hurt our own people."

"It's okay."

Daoist Ambition shook his head, "We don't need to take action, Bureau Zuo's strength is more than enough."

Lin Tianhao watched the situation ahead with interest, because the normal control range of his Mechanical Overlord was five hundred meters in radius.

But after Black Demon jumped over, he found that he could still continue to control Black Demon!

Chapter 1177 - Six-armed mermaid!

This...

It seems to be a change brought about by the improvement of Lin Tianhao's mental power after merging with the Dragon Ball.

Previously, Lin Tianhao had not checked the introduction of the Mechanical Overlord. Now he took a look at the current introduction of the Mechanical Overlord.

Mechanical Overlord (Transcendent Grade): Cannot be upgraded.

Effect 1: All mechanical items you create have a 50% chance to increase in grade, up to a maximum of three grades.

Effect 2: When your mental power is better than the opponent's mechanist, you can pull and control the opponent's mechanical items (including hot weapons, mechanical puppets, war machines, etc.). At the same time, you can control ownerless mechanical items without limit. (Note: Currently, you can only control mechanical items that are no more than six kilometers away from you).

Cooldown: None.

Consumption: None.

Proficiency: Cannot be upgraded.

The corners of Lin Tianhao's mouth rose, as expected!!

When he had just materialized the skill of Mechanical Overlord, the maximum range Lin Tianhao could control was 500 meters.

But now.

Because now on Blue Star, every city has a large number of mechanical items.

Thinking like this.

Lin Tianhao suddenly felt a force pouring into his body like enlightenment.

It should be that Zuo Tianyang on the opposite side has already resolved the battle.

Lin Tianhao glanced over.

Sure enough.

The control range of his Mechanical Overlord increased from six kilometers to six thousand three hundred meters!!

The range has increased by another three hundred meters!!

The increase in this distance is not much, but it is definitely not small.

The main thing is that it can be accumulated. If this continues, the improvement for Lin Tianhao will still be considerable.

"Okay, the trouble is solved."

Zuo Tianyang's voice came from the opposite side.

Taoist Yexin grabbed Lin Tianhao and said:

"Let's go."

Saying that.

Taoist Yexin grabbed Lin Tianhao and flew over.

The remaining Ye Yanglong, Fist Emperor and others all used their own methods to go over.

Seeing this scene.

Wang Chongfeng was dumbfounded.

He couldn't help but say:

"No, you've all gone over, what should I do?"

"Stop pretending."

Taoist Yexin said indifferently.

As his voice fell, Wang Chongfeng tremblingly stepped onto the iron chain.

This iron chain was obviously very slippery, but his feet seemed to have magnets, adsorbing to the iron chain.

His whole person slid over like ice skating.

After coming over.

Lin Tianhao noticed that there were two archers on the ground.

"These are two... shrimps?"

Wang Chongfeng also saw the two shrimp men on the ground, and couldn't help but be a little surprised.

"It is rumored that the shrimp soldiers and crab generals of the Dragon Palace are really here."

"Not to mention, they are exactly the same as the shrimp soldiers in the TV series."

"Okay, hurry up and don't dawdle."

Lin Tianhao urged.

Then he let Black Demon step forward and push open the heavy stone door in front.

The inside of the stone door was locked with a mechanism, but Black Demon still pushed it open, and the mechanism lock behind was directly broken.

This may be... a miracle of brute force!

As the stone door opened, the inside was filled with thick mist, and even with Lin Tianhao's current vision, the visibility was no more than ten meters.

"Be careful."

Taoist Yexin reminded.

He was still the same as before, always following Lin Tianhao.

Zuo Tianyang whistled, and then saw those army ants emerge from nowhere and swept towards the front.

Lin Tianhao frowned slightly. He didn't know if it was because he had obtained the Dragon Clan inheritance, but he found that he had a special sense of these creatures underwater.

At this time.

Although Lin Tianhao couldn't see the situation in the distance clearly, he could sense the location of the shrimp soldiers and crab generals in the mist.

That's right.

In this mist, there are many shrimp soldiers and crab generals. Just from what Lin Tianhao has sensed, there are no less than thirty.

"This is becoming more and more like a copy."

"Black Demon!"

Lin Tianhao let Black Demon take action and directly attack the locations of the shrimp soldiers and crab generals that he sensed with blind vision.

The result is...

Enlightenment!!

Continuous enlightenment!!

In just a few minutes, all the shrimp soldiers and crab generals that Lin Tianhao sensed were killed by Black Demon.

"This..."

Not to mention Wang Chongfeng, even Zuo Tianyang and Taoist Yexin showed surprise on their faces.

They all knew.

After Lin Tianhao came into contact with the Dragon Verification Stone, his strength had improved, but they never thought that Lin Tianhao's strength would improve so obviously.

"You... are too strong!!"

Wang Chongfeng complimented.

Lin Tianhao smiled noncommittally and glanced at the range that Mechanical Overlord could control.

At this time.

The range that Mechanical Overlord could control had increased from six thousand three hundred meters to twelve thousand six hundred meters!!

It increased Lin Tianhao by seven hundred meters at once.

Through the range of this Mechanical Overlord, Lin Tianhao could also see the approximate value of each enlightenment improvement.

"Be careful, there is a big guy!"

Lin Tianhao raised his eyebrows slightly.

He sensed another guy.

This guy's aura was obviously much stronger than the aura of those shrimp soldiers and crab generals.

"Bang bang bang——"

At this moment.

There was a continuous sound of collision from the mist.

This was naturally Lin Tianhao's handwriting.

He controlled Black Demon to face the big guy in the dark.

"I'm going."

Old Man Blind Sword drew his double swords and rushed out directly.

Zuo Tianyang also controlled the army ants to attack in the direction where the fighting sound came from.

The remaining people walked towards that direction.

"It doesn't seem that strong."

Lin Tianhao slowly opened his mouth, because Black Demon had only fought with this big guy, and this big guy was injured.

Immediately, Lin Tianhao also understood that what was really powerful here was not this monster.

But the mist!!

If it weren't for the perception brought by his Dragon Clan inheritance, he would never have been able to discover these guys.

They hide in the mist and launch sneak attacks, making it even more difficult to deal with.

When Lin Tianhao and the others arrived at the center of the battle, the battle had already come to an end.

This was a merman with six arms, somewhat similar to the merman that Lin Tianhao and the others had killed in Aolong Village before.

This merman was bigger, and now he was covered in scars.

Black Demon took action again and directly blew up the merman's head.

The familiar feeling of enlightenment came.

This time.

The range of Lin Tianhao's Mechanical Overlord increased from twelve thousand six hundred meters to thirteen thousand three hundred meters!!

It increased Lin Tianhao by seven hundred meters at once.

Through the range of this Mechanical Overlord, Lin Tianhao could also see the approximate value of each enlightenment improvement.

"Molotov cocktail!!"

Just when Lin Tianhao was checking the range of Mechanical Overlord, Old Man Blind Sword opened his mouth anxiously.

The moment his words fell, he took the lead in throwing two Molotov cocktails towards the front.

Fist Emperor, Monk of Wine and Meat, and Zuo Tianyang also immediately threw Molotov cocktails around.

As these Molotov cocktails fell, Lin Tianhao also heard some strange sounds.

These sounds were very subtle, and if you didn't listen carefully, you wouldn't be able to discover them at all.

"It's leeches, we are surrounded by leeches!"

Chapter 1178 - Villagers of Aolong Village!

Accompanied by even denser sounds, Lin Tianhao could already see swarms of leeches surging through the mist, like a tide.

Just as Zuo Tianyang had said, these leeches were very large, with a minimum body length of ten centimeters.

The larger ones even exceeded twenty centimeters in length.

These leeches, like the black beetles before, were fearless, and even in the face of the flames from the incendiary bombs, they still surged forward madly.

“Chī chī chī — —”

The sound of the leeches being roasted and burned was very harsh, accompanied by some subtle but sharp cries, making people's eardrums ache.

It was only because these incendiary bottles were specially made, otherwise these leeches would have already rushed in.

Zuo Tianyang pinched his fingers, bit his index finger, and dabbed the blood on his left eye.

Not on the eyelid, but in the center of his pupil.

In an instant.

Zuo Tianyang's pupils turned blood red.

Lin Tianhao could even see a true dragon phantom winding and coiling in Zuo Tianyang's blood-red pupils, roaring constantly.

Zuo Tianyang's entire temperament also underwent earth-shaking changes at this time.

“Divine Dragon Opens Its Eyes, All Evils Retreat!!”

A faint red light emanated from Zuo Tianyang's left eye, and those fearless leeches seemed to sense their natural enemy, retreating at a speed visible to the naked eye.

“It still has to be you.”

Fist Emperor breathed a slight sigh of relief, “If these leeches climbed onto our bodies, I estimate that in five seconds at most, we would become skeletons.”

Perhaps their greatest use to Lin Tianhao was the cultivation they provided when he killed them.

After looting all the corpses, Lin Tianhao and the others continued forward.

Passing through the mist, another canyon appeared ahead.

This time, what was different was that even the iron chains were gone.

Moreover.

This canyon was at least a thousand meters away from the opposite side, and it would probably not be easy to cross.

“How do we get across this?” Fist Emperor frowned.

“Should we have Black Demon send us across one by one?”

A thousand meters, with no place to set foot.

Even though they each had extraordinary means, it was still too difficult to cross such a long distance to reach the other side.

“If there is no other way, then we can only let Black Demon take action.”

Taoist Wild Ambition stepped forward, and suddenly.

The sound of opera singing came from all around!

The sound of this opera singing was sometimes near and sometimes far, making it impossible to tell from which direction it was coming.

Even.

It was impossible to hear what was being sung.

However, the operatic style was full, and it could be confirmed that it was opera singing.

The crowd looked around, but did not find anyone singing opera.

Old Man Blind Sword pointed to the bottom of the canyon and said:

“It's down there!”

Lin Tianhao and the others subconsciously walked forward, looking down into the canyon.

If they hadn't looked, it would have been better, but after looking, even Lin Tianhao couldn't help but feel horrified.

Below the canyon, there was an opera stage built in mid-air.

The opera stage was suspended by iron chains, and three people were singing opera on the stage.

What really made everyone present feel horrified were the audience in front of the stage.

In front of the stage was a bottomless cliff.

But in this mid-air, there were actually more than a hundred people.

To be precise.

They were not people!

Because their bodies were translucent, and some of the “people's” faces could be vaguely seen.

These “people's” faces were pale and without a trace of blood.

“This... .. could it be the legendary singing opera for ghosts to listen to?!” Wang Chongfeng said subconsciously.

As soon as he finished speaking.

Below.

More than a hundred phantoms who were listening to the opera all turned their heads in unison, staring intently at the direction where Lin Tianhao and the others were.

Their faces were pale, their expressions were wooden, and their eyes were empty and dull.

In this dim environment, being stared at by more than a hundred pairs of eyes together, even someone with a good psychological quality would inevitably feel a little apprehensive.

“Gulp — —”

Wang Chongfeng swallowed a mouthful of saliva, and two more round bombs appeared in his hand.

Obviously.

If these “people” made any moves, then Wang Chongfeng would physically transcend them.

“It's... .. it's the villagers of Aolong Village!!”

Ye Yanglong's pupils shrank suddenly, his face full of disbelief.

“They are all dead, but why would they appear here!!”

Lin Tianhao narrowed his eyes slightly, the people of Aolong Village had become sacrifices.

However, Lin Tianhao was not very clear about the specifics.

The only thing that could be confirmed was that these guys were not illusions.

Because the reaction of Taoist Wild Ambition showed it.

Lin Tianhao was not sure whether Taoist Wild Ambition was the ceiling of the modern Taoist sect, but he was definitely one of the top few.

When he faced these transparent “people”, he would be so dignified, which could only mean that these guys were not easy to deal with.

Old Man Blind Sword took out a long sword, bit his finger, and drew a blood talisman on his long sword.

“Senior Wild Ambition, lend me your thunder talisman to bless it.”

Taoist Wild Ambition pinched his sword fingers and pointed at Old Man Blind Sword's long sword from a distance, and there was actually a faint flash of lightning on the long sword.

“Regardless of whether they are people or ghosts, those who block my path, kill!”

Although Old Man Blind Sword could not see, he seemed to be able to discover the enemy one step ahead every time.

“Did the village chief invite you to sing opera?”

At this moment.

A indifferent voice, without any emotion, came.

The surrounding temperature dropped to freezing point at this time.

Looking in the direction of the voice.

Even not far from them, a little girl with pigtails had appeared at some point.

This little girl was only five or six years old, with thick rouge powder on her face, her eyes were empty and lifeless, tilting her head, looking at Lin Tianhao and the others.

“Sing your grandpa!”

Old Man Blind Sword rushed up directly.

The long sword that had been blessed slashed towards the little girl.

The little girl smiled on her face, “Your hand... ..”

“Be careful!!”

Taoist Wild Ambition seemed to have discovered something, and exclaimed.

But it was too late.

The arm of Old Man Blind Sword holding the sword flew out, and the pain brought by the broken arm made Old Man Blind Sword gasp, but he did not scream.

Old Man Blind Sword wanted to retreat, but Taoist Wild Ambition's eager voice sounded again.

“Don't move!”

Lin Tianhao gathered his strength on his eyes, and only then did he discover that there were a large number of translucent threads around them.

These threads were as thin as cicada wings, and coupled with the dim surroundings, if Lin Tianhao had not gathered his strength on his eyes, he would not have been able to see them at all.

Not only were they around them.

The entire canyon was full of such threads!!

Just now, Old Man Blind Sword's arm touched the thread and was directly cut into two sections by the thread.

“Are you performing a broken hand?” The little girl's voice without any emotion sounded again.

Chapter 1179 - Director Zuo and the ambitious Taoist priest lost contact at the same time!

The blind swordsman didn't move. He sealed his acupoints, but the blood still flowed out uncontrollably.

However.

Hearing the little girl's voice, the blind swordsman's attack arrived in an instant.

The blind swordsman opened his mouth and spat out a sword of blood.

This was a sword of blood sprayed out with his tongue-tip blood and thick, pure inner strength, and its power was considerable.

Especially against evil spirits, its power was even greater.

At this time.

The little girl let out a shrill scream, and her soul body became dim and dull.

“So you guys are connected.”

The lightning surging in Taoist Yexin's hands became even more violent.

“Children are ignorant, we adults will educate them.”

Abruptly.

The surrounding silk threads began to dissolve, and the little girl also returned to normal.

Next to the little girl, however, there was a middle-aged woman with a large face and wide body.

This middle-aged woman grabbed the little girl, “You play with threads, others play with electricity, you can't beat him.”

Having said that.

The middle-aged woman paused slightly, her gaze falling on Lin Tianhao.

The originally empty and lifeless eyes, when looking at Lin Tianhao, clearly had a few more hints of surprise.

“Interesting, interesting, the golden dragon is not a thing of the pond, it transforms into a dragon when it encounters wind and clouds, the abyss has its own true dragon cast, ten thousand bones wither and cry among ten thousand bones.”

Along with the middle-aged woman's voice, her and the little girl's bodies began to become illusory, and then disappeared.

Not only them.

Even the other villagers in Ao Long Village below, the people singing on the stage, all disappeared.

All that could be seen was that the mottled and old stage was already covered with moss.

If it weren't for the fact that the blind swordsman's arm was really broken, it would even make people think that everything they had seen before was an illusion.

“Red medicine.”

Wang Chongfeng took the initiative to hand the blind swordsman a big red pill, “Reattach your arm, and with the big red pill, it can heal quickly.”

With the help of Fist Emperor and the Drunken Monk, after continuously taking five bottles of the big red pill, the blind swordsman actually recovered.

Lin Tianhao couldn't help but be a little surprised.

In his previous life, after the Twilight of the Gods merged with reality, the injury of a broken arm could indeed be quickly recovered with potions.

But it wasn't something that could be easily recovered with just the big red pill.

What's more.

It only took five bottles of the big red pill to recover!

Could it be because the Twilight of the Gods hasn't merged with reality yet, and the rules of the two worlds are different, so the effect of the big red pill is better in the real world.

“Still the same, send me over.” Zuo Tianyang volunteered.

His combat power was relatively comprehensive, and he was also the strongest here besides Taoist Yexin.

Lin Tianhao nodded, there should be a mechanism here to pass.

But since Black Demon could jump directly, there was no need to waste time looking for the mechanism.

“Whoosh—”

Black Demon grabbed Zuo Tianyang and jumped up, heading towards the opposite bank.

The Drunken Monk walked to Lin Tianhao's side and said with a smile:

“What do you think, what did that guy mean by those few sentences he recited just now? It seemed like he was reciting them to you.”

Lin Tianhao raised his eyebrows, “Maybe it just means that there is a true dragon below, but isn't that what everyone knows?”

The Drunken Monk smiled meaningfully and looked at Ye Yanglong, asking:

“You've lived in Ao Long Village for so long, don't you know anything about these villagers?”

Ye Yanglong shook his head and said:

“Besides the village chief, who is a bit mysterious, everyone else in Ao Long Village seems normal, I can't see anything special about them.”

“Snow Emperor, recall Black Demon and protect yourself.”

Abruptly.

Taoist Yexin seemed to have discovered something and spoke urgently.

Then he jumped up and flew towards the opposite bank.

Seeing this scene.

Lin Tianhao realized that something was wrong.

Because after Zuo Tianyang and Black Demon went over, Zuo Tianyang made no sound.

No matter what, Zuo Tianyang should have sent back a message.

“Something happened to Director Zuo!!”

Lin Tianhao wasn't too clear on what exactly was going on, he could control Black Demon, but Black Demon's head had exploded.

Therefore.

Lin Tianhao wasn't too clear on what the situation was on the other side.

Lin Tianhao recalled Black Demon as soon as possible, and had Black Demon protect him.

“Senior Yexin!!” Ye Yanglong shouted loudly.

Because after Taoist Yexin went over, he also made no sound.

For a moment, the few people present looked at each other in dismay.

Lin Tianhao frowned tightly, how could Taoist Yexin suddenly make no sound with his strength.

Could it be overlapping space?

Overlapping space is similar to copies, secret realm entrances, or the entrance to storage equipment.

It is connected to the current space, but behind it there is a completely independent new space.

However.

Black Demon went over and back without any obstacles, so the probability of it being overlapping space is not high.

If that's the case.

Then there are two other possibilities.

First, the village chief of Ao Long Village set up a trap on the other side.

From the previous situation, a little girl from Ao Long Village was able to cause the blind swordsman to lose an arm.

If it was the village chief of Ao Long Village, would he be even stronger?

However.

This probability is also not high!

After all, with Taoist Yexin's strength, he couldn't have made no sound at all.

“咻—”

Fist Emperor didn't waste any words, and threw a fire bomb towards the opposite side.

The fire bomb streaked across the sky, and the result was... the platform on the opposite side was empty, and there was no trace of Taoist Yexin and Zuo Tianyang!

At the same time, there were no traces of battle at all.

“What's going on?!” Wang Chongfeng was also a little dumbfounded.

Lin Tianhao's expression was uncertain, in fact, he had a guess in his heart.

That is...

Zuo Tianyang and Taoist Yexin did it on purpose!!

The purpose is... fishing!!

When he said that the Mole Rat was a traitor before, Lin Tianhao felt that something was wrong.

At that time, Lin Tianhao suspected that the Mole Rat was not a traitor, and that the traitor was someone else.

Among these people, there was only one person who could be 100% sure was not a traitor.

That is Taoist Yexin.

Zuo Tianyang is the director of the 749 Bureau, and he is also likely not a traitor.

Therefore.

The traitor should be among Fist Emperor, the blind swordsman, the Drunken Monk, and Ye Yanglong.

Ye Yanglong only joined the team later.

Therefore.

The traitor should be among Fist Emperor, the blind swordsman, and the Drunken Monk.

He just didn't know which of these three was the traitor!

Zuo Tianyang said before that Taoist Yexin and Fist Emperor could not be traitors, then there were only the Drunken Monk and the blind swordsman left.

Now that Taoist Yexin and Zuo Tianyang have lost contact at the same time, if this traitor wants to attack him, now, it is definitely the best opportunity!!

He has obtained the Dragon Clan inheritance, plus Black Demon, as long as he is careful, it seems that there is no problem.

Moreover.

Lin Tianhao estimated that Taoist Yexin and Zuo Tianyang had a backup plan.

This backup plan is probably the Mole Rat!!

Chapter 1180 - Fishing, killing game, white footprints master!

Previously, the Drill Rat ran away.

But it's entirely possible that the Drill Rat, with its ability to burrow, could have come back.

However.

If that were the case, Blind Swordsman would definitely have noticed the Drill Rat's return.

After all, based on the hearing Blind Swordsman displayed earlier, the Drill Rat could burrow dozens of meters underground and still not escape his ears.

Thus.

Combining that with what Zuo Tianyang said, the traitor can already be pinpointed.

The Drunken Monk!!

That explains everything.

But, aren't Taoist Wild Ambition and Zuo Tianyang's fishing tactics a bit too obvious?

Lin Tianhao couldn't figure it out, and now it depends on what they'll do next.

"What do we do now?"

The Drunken Monk frowned and said, "Director Zuo and Senior Wild Ambition are both out of contact. Should we go over there?"

"If we don't go, are we just waiting to die here? According to what we know, we have to go to the sixth level to leave."

Lin Tianhao pondered for a moment and said:

"Wait an hour. If Director Zuo and Senior Wild Ambition still haven't contacted us after an hour, I'll have Black Demon lead some people over there."

Lin Tianhao wasn't sure if Taoist Wild Ambition and the others were fishing, what if they weren't?

Waiting here for an hour would give the Drunken Monk a chance.

Moreover.

If the Drunken Monk is really the traitor, he'll be on guard.

Mainly.

Taoist Wild Ambition and Zuo Tianyang disappeared too suddenly, anyone would suspect they might have a problem.

"Okay."

Everyone had no objections. In this situation, no matter who they sent to the other side of the canyon, they wouldn't feel confident.

An hour passed quickly, but also slowly.

In this unknown environment, everyone was a bit nervous.

Especially Blind Swordsman, who had lost his initial composure.

His arm was severed earlier, and Wang Chongfeng's super healing potion was indeed a bit ridiculous, otherwise even if he had his arm reattached back home, it wouldn't be comparable to what he has now.

After about half an hour, Fist Emperor had already started a bonfire and began roasting meat.

"Director Zuo and Senior Wild Ambition are both formidable, they should be fine. I think the situation ahead is similar to what we experienced in Ao Long Village before."

"They entered a new instance."

"Hopefully."

Blind Swordsman said solemnly.

"Don't think so much, eat something."

Fist Emperor cut off a piece of roasted meat and handed it directly to Lin Tianhao.

Lin Tianhao took the roasted meat and began to eat.

"Ye Yanglong, do you really not know anything about this place?"

Fist Emperor asked.

Ye Yanglong spread his hands helplessly and said:

"I do know about the situation on the upper three levels of the Mo Yuan, and I told you when you first came here."

"Moreover, the middle three levels are where the old director went missing. If I knew anything about this place, I would definitely say it."

Fist Emperor divided the roasted meat and said:

"It's almost time, you should be on your way."

As he said this, Fist Emperor had already produced a horse-chopping sword in his hand.

"Snow Emperor, blame yourself for choosing the wrong faction."

"I know Taoist Wild Ambition and Zuo Tianyang might be setting a trap, waiting for me to expose myself."

"But it doesn't matter, this time is enough for me to kill you."

The moment he finished speaking.

Fist Emperor charged toward Lin Tianhao.

Lin Tianhao wanted to control Black Demon to block Fist Emperor, but the Drunken Monk's gourd had already smashed towards Black Demon!

"The roasted meat is poisoned!"

A cold light flashed in Lin Tianhao's eyes.

He had guessed about the Drunken Monk, but he hadn't expected Fist Emperor to be one of them too.

This was a bit beyond Lin Tianhao's expectations.

However.

He had already guessed that the roasted meat Fist Emperor gave him was poisoned.

After all, he had already suspected that they might be setting a trap.

Lin Tianhao had fire control techniques in his Dragon Clan heritage, allowing him to use flames to dissolve food in his mouth.

Lin Tianhao used this method to dissolve the roasted meat.

The moment the horse-chopping sword fell, a hand appeared under Lin Tianhao's feet, pulling Lin Tianhao into the ground to escape.

"Drill Rat!!"

Fist Emperor's expression sank. He looked at Blind Swordsman and said coldly:

"How can they be sure you're not the traitor!!"

There was a traitor in the 749 Bureau, everyone was a suspect, and Blind Swordsman was no exception.

"It's relatively easy for me to prove my innocence."

Blind Swordsman raised his hand, and a long sword appeared in his hand.

Wang Chongfeng immediately threw out two jade bottles, "Antidote pills."

"Although Wang Chongfeng isn't quite sure what's going on with the current scene."

But Fist Emperor poisoning him clearly meant Fist Emperor was wrong.

"However, you underestimated our determination to kill the Snow Emperor."

At this moment.

A large number of leeches surged towards the location of the Drill Rat and Lin Tianhao.

These leeches were being controlled.

Immediately.

Lin Tianhao discovered that a figure had appeared at the entrance behind him.

If you looked closely, you would notice that there was a line of white footprints behind this figure.

And after Lin Tianhao clearly saw the person's face, a look of surprise appeared on his face.

"Xiaoduo!!"

From the beginning, Xiaoduo had undergone unknown changes, and her body was as if she had been subjected to a freezing spell, unable to move.

Now it seemed that they had thought too simply.

If Xiaoduo had a problem, did that mean there were...replicas here!!

As if to confirm Lin Tianhao's guess, [Drunken Monk], [Taoist Wild Ambition], [Zuo Tianyang] and other replicas swarmed in.

They charged towards Ye Yanglong and Blind Swordsman.

Blind Swordsman, upon seeing this scene, roared:

"Why?!"

"The Dragon Kingdom has treated you well, why would you do this!!"

The Drunken Monk grinned and said:

"Blind man, this world is all about profit. The existence of the Snow Emperor has touched too many people's interests."

"Originally, I didn't want to be a traitor, but when I heard that they were going to kill the Snow Emperor, I changed my mind!!"

A group of people attacked at the same time, and Lin Tianhao was surrounded by a group of leeches.

"Snow Emperor, come up, it's not very dignified to die underground."

Xiaoduo's calm voice came.

Lin Tianhao frowned slightly, leaped up, and appeared from underground.

These leeches were ubiquitous, even if he and the Drill Rat were underground, it would be difficult to escape unscathed.

"I've thought about a lot of things, but I miscalculated you, and I miscalculated the replicas, but I still have to thank you for these leeches, otherwise, it would really be a bit troublesome."

Upon hearing this.

Xiaoduo's eyebrows furrowed slightly, she didn't quite understand why Lin Tianhao said that.

But in the next moment, she understood.

The leeches that were originally surging towards Lin Tianhao actually began to surge towards her and those replicas.

"How is that possible!!"
