

O game 33

Chapter 33 Blackmailing the old village chief!

Without overthinking it.

Lin Tianhao chose the nightmare difficulty instance.

In less than twenty minutes.

Lin Tianhao cleared the nightmare difficulty Lost Princess instance.

The result was that the Ice Flame Magic Ore didn't appear.

“Could it be that I was wrong from the start? There's only one Ice Flame Magic Ore here.”

Lin Tianhao thought to himself.

That's not right.

Old drunkard had no reason to lie to him about this.

Could it be that there are two hidden instances in this mine?

The probability of that is very, very low.

Since it's not two hidden instances.

Then there's another possibility.

Drop rate!

The Ice Flame Magic Ore might be here, but because of the drop rate, it didn't drop when he first cleared the hard difficulty instance.

With that thought in mind.

Lin Tianhao entered the Lost Princess instance again.

The battle he was about to participate in was already quite stressful.

Even if he didn't get the last Ice Flame Magic Ore here, he could treat it as farming for health points.

And so he farmed.

He farmed five times in a row.

It has to be said.

Lin Tianhao's judgment was correct.

On his fifth run, he finally saw it in the completion rewards.

“Ding, you have obtained Ice Flame Magic Ore +1.”

A satisfied smile appeared on Lin Tianhao's face.

Now that all three Ice Flame Magic Ores in the beginner village were in his hands, whether or not he could open the seal would depend on his mood.

Moreover, because of continuously farming the Lost Princess, Lin Tianhao's health points had now exceeded 120,000.

With the Nine Union Longbow, his combat power had also greatly increased.

Coming out of the mine.

Lin Tianhao didn't go to find Old Drunkard or Wang Blacksmith.

He went directly to the cliff.

As Lin Tianhao expected, the old village chief was still here.

It seemed that he knew the next battlefield would be here, so he was personally guarding it.

“Xue Di, why are you here again?”

Lin Tianhao didn't answer this question, but instead directly took out an Ice Flame Magic Ore.

Seeing the Ice Flame Magic Ore in Lin Tianhao's hand, the old village chief, who was usually calm, suddenly changed his expression.

He smiled at Lin Tianhao and said: “Xue Di, you found the Ice Flame Magic Ore, that's really great.”

“Old village chief, what exactly is this Ice Flame Magic Ore? You and Wang Blacksmith are both looking for it.”

Hearing this, the old village chief smiled, “This is a very important ore, it's very useful to both of us, Xue Di, give it to me, and I will give you unexpected benefits.”

The old village chief's expression sank slightly, he could see that Lin Tianhao wanted to bargain with him.

"A gold-grade ring."

Lin Tianhao shook his head.

"I heard that Wang Blacksmith offered a platinum-grade necklace."

The old village chief's expression darkened, "He's a blacksmith, I'm indeed not as good as him in terms of equipment, but if you're willing to give me this Ice Flame Ore, I can give you a Saint-grade talent awakening stone, almost all talents can be awakened through the Saint-grade talent awakening stone."

Lin Tianhao pondered for a while, he couldn't use the Saint-grade talent awakening stone, but Zhou Xiaopang and Monkey both had Saint-grade talents.

Giving them this awakening stone would allow them to awaken their talents as soon as possible and become stronger sooner.

"Not enough, two."

Lin Tianhao now had the upper hand, so naturally he couldn't give it up like this.

"Xue Di, I only have one, and it's also the best thing you can get in the beginner village."

Lin Tianhao remained noncommittal, "Then two gold-grade rings."

The old village chief's expression sank.

Lin Tianhao's price had already made him somewhat annoyed.

“Xue Di, if the Ice Flame Magic Ore falls into Wang Blacksmith's hands, the beginner village will be plunged into misery, and it will also be a catastrophe for you adventurers.”

“I'm willing to pay the price to prevent this catastrophe.”

Lin Tianhao sighed, “Old village chief, I really want to help you, but I'm an adventurer, all I want is profit.”

“I'm sorry.”

After saying this, Lin Tianhao turned around and prepared to leave.

“Stop!”

The old village chief's expression was gloomy, and a murderous aura erupted from his body.

“What? Does the old village chief want to kill me?”

“Kill me then, I don't mind losing a level.”

Hearing this.

The old village chief's aura subsided.

That's right.

Lin Tianhao was an adventurer, even if he could kill Lin Tianhao here, the result would only be that Lin Tianhao would lose a level.

When he returned to the beginner village.

Lin Tianhao could still give the Ice Flame Magic Ore to Wang Blacksmith.

“Okay, I agree to your request.”

A satisfied smile appeared on Lin Tianhao's face, and he completed the transaction with the old village chief.

Heavy Thunder Ring: Gold Grade.

Wearing Requirements: Level 10, Archer.

Effect 1: Attack +350.

Effect 2: Critical Hit +30%.

Effect 3: Armor Penetration +15%.

Effect 4: 5% chance to paralyze the opponent.

Effect 5: 5% chance to deal double critical hit damage.

Effect 6: 5% chance to trigger a ranged lightning bombardment.

Durability: 100.

Two rings.

The attributes are the same.

Lin Tianhao frowned slightly, there were three special effect attributes in these attributes.

However, the probability was relatively low.

Fortunately, the attributes of the two rings were the same, which could effectively deal greater damage for Lin Tianhao.

Replacing two rings from the Treant set resulted in a decrease of 20 points in Lin Tianhao's recovery.

His health points also decreased by more than a thousand.

Fortunately, the Treant set had a set effect when all ten pieces were equipped, so for now, it could still hold up.

“Old village chief, happy cooperation.” Lin Tianhao smiled.

The old village chief's face was not very good.

After all, anyone who was blackmailed like this probably wouldn't be too happy.

Two gold-grade rings, and they were only level ten.

They were useful to Lin Tianhao at this stage, but they were only useful.

In the end, they were only transitional equipment.

If it weren't for the possibility of confronting Wang Blacksmith and the old village chief next, he wouldn't have wanted equipment, exchanging them for free attribute points might have been better.

Although that's what he thought in his heart.

Lin Tianhao stepped back to the beginner village.

Blacksmith Shop.

Wang Blacksmith's expression was somewhat gloomy when he saw Lin Tianhao arrive.

“Xue Di, what are you still doing here?”

Hearing Wang Blacksmith's gunpowder-filled tone, Lin Tianhao knew that Wang Blacksmith must have known something.

“Wang Blacksmith, didn't you ask me to find the Ice Flame Magic Ore? I'm here to submit the task now, is this your attitude?”

Wang Blacksmith sneered, “Xue Di, still pretending in front of me? Old Drunkard saw you trade the Ice Flame Magic Ore to the old village chief, so what are you going to give me?”

Lin Tianhao sighed, “Wang Blacksmith, there's more than one Ice Flame Magic Ore.”

Having said that.

Lin Tianhao shook his head in feigned disappointment, “Since Wang Blacksmith doesn't want the Ice Flame Magic Ore anymore, then I'll leave.”

Saying that, Lin Tianhao turned around and left.

Wang Blacksmith's expression changed, and with a movement, he blocked Lin Tianhao's path.

He changed his previous attitude and said to Lin Tianhao with a pleasant expression:

“Xue Di, I was just joking with you, judging from what you just said, do you still have Ice Flame Magic Ore in your hand?”

Lin Tianhao nodded, “That's right, I do still have an Ice Flame Magic Ore in my hand, but I now think that giving it all to the old village chief might be better.”

“At least, the old village chief wouldn't treat me with your attitude!”
