Chapter 74 First Clearance [Black Water Lake - Dragon Turtle]

The charging time for Water Cannon is relatively short, and the attack speed is faster.

However, Lin Tianhao still managed to evade them all with his swift movements.

This is because the attack of Water Cannon can be predicted.

It is sprayed from the Blood-Eyed Dragon Turtle's mouth, and the trajectory is fixed. Lin Tianhao was already moving when the Water Cannon was launched.

“Whoosh whoosh whoosh!”

While dodging attacks, Lin Tianhao continued to output damage like crazy, showing no mercy.

Feather arrows constantly pierced the air, reducing the Blood-Eyed Dragon Turtle's health bar.

“Roar!!”

The Blood-Eyed Dragon Turtle roared in anger because it realized that it had no way to deal with Lin Tianhao, who was flying in mid-air.

Lin Tianhao's feather arrows were unleashed, allowing him to output damage without any pressure.

Five arrows per second could deal around 40,000 damage, and 2.4 million damage could be dealt in one minute.

However, the Blood-Eyed Dragon Turtle's next actions stunned Lin Tianhao.

It directly activated Berserk, but it didn't rush to attack.

Instead, it released the skill Healing Body.

Immediately afterward.

Lin Tianhao saw the Blood-Eyed Dragon Turtle's health bar rapidly recovering. In the blink of an eye, it had actually recovered to over 11 million.

One skill restored more than six million health points!

“Damn it, that's insane.”

Lin Tianhao couldn't help but complain.

It wasn't that the Blood-Eyed Dragon Turtle was so amazing, but rather that the Hell difficulty Blood-Eyed Dragon Turtle was so amazing.

After the Blood-Eyed Dragon Turtle's health was raised, it turned into a stream of light and charged towards Lin Tianhao.

Lin Tianhao frowned slightly. This turtle shell charge, which exceeded the size of a basketball court, couldn't be avoided with the current stage's movement techniques.

“Bang!”

-51290!

A huge damage number appeared above Lin Tianhao's head.

Lin Tianhao only felt his scalp tingling. This health loss was too severe.

“Slap!”

After landing, the Blood-Eyed Dragon Turtle raised its hand and slapped it directly on Lin Tianhao's forehead.

Critical hit!

-55895!

Another huge damage number appeared.

Lin Tianhao immediately moved sideways, using the previous battle method to pull the field of vision.

However, the Blood-Eyed Dragon Turtle's movement speed and attack speed were obviously faster.

It turned around and slapped down again.

Lin Tianhao dodged dangerously, while his feather arrows were released like crazy.

The battle between one person and one turtle began to become anxious.

Lin Tianhao relied on his flexible movement to avoid most of the Blood-Eyed Dragon Turtle's attacks.

The Blood-Eyed Dragon Turtle also realized that it was not a solution to continue fighting like this.

Its health recovery ability was strong, but Lin Tianhao's health recovery ability was equally terrifying.

“Roar!!”

The Blood-Eyed Dragon Turtle roared angrily.

The next moment.

The water rippled, and the waves rolled up more than ten meters high, rushing towards Lin Tianhao.

Lin Tianhao's eyes narrowed. He had already guessed what the Blood-Eyed Dragon Turtle wanted to do.

The large-scale knock-up of Dragon's Roar and Tsunami was connected to the Black Water Vortex, maximizing the control chain.

Then continue to output damage.

-29850!

A huge damage number appeared above Lin Tianhao's head.

Before he could land, the Black Water Vortex had already appeared under his feet.

Lin Tianhao happened to land on the Black Water Vortex after landing.

Seeing this, the Blood-Eyed Dragon Turtle immediately connected a Water Arrow Array above Lin Tianhao's head.

Even a level 45 tank might not be able to withstand this combo.

Lin Tianhao's current health was not particularly outrageous.

After landing on the Black Water Vortex, he immediately cast Star Moon Purification, immediately opening the distance and breaking away from the Black Water Vortex.

The Blood-Eyed Dragon Turtle roared angrily when it saw that its attack had failed.

However, Lin Tianhao completely ignored the Blood-Eyed Dragon Turtle's roar.

He was always outputting damage constantly, trying to maximize the output as much as possible.

Feather arrows constantly pierced the air, Lin Tianhao's health was increasing, and his damage had also slightly improved.

Every increase of 1,000 health points would increase the true damage of a normal attack by 30 points.

This seemingly insignificant improvement was still very considerable under Lin Tianhao's speed of five arrows per second.

The threat of the Blood-Eyed Dragon Turtle's failure to hit was even more negligible to Lin Tianhao.

With the attribute bonus of Berserk, the Blood-Eyed Dragon Turtle slapped Lin Tianhao twice more.

It dealt a lot of damage to Lin Tianhao, but that was all.

Because no chain skills hit Lin Tianhao, it was impossible to threaten Lin Tianhao at all.

After all, Lin Tianhao's blood-sucking ability was really terrifying.

The Nine Union Longbow's 5% blood-sucking allowed it to suck about 1,000 with one arrow.

Five arrows per second were about 5,000, plus the Nine Union Longbow itself had the characteristic of restoring 100 health points per second, which was 5,100 per second.

The Bloodthirsty Necklace sucked 1% of the maximum health.

Now Lin Tianhao has the Tears of the Goddess of Life and Zhou Xiaopang's passive talent of 10% bonus, and his health has exceeded 640,000.

One percent is that one arrow can restore 6,400 health points, and five arrows per second is 32,000 health points.

Not only that. After the Resurrection skill reaches four stars, it can restore 500 health points per second.

The Tears of the Goddess of Life is 10,000, plus Lin Tianhao's current recovery is 47,600 per second.

In other words.

As long as the Blood-Eyed Dragon Turtle could not control Lin Tianhao, or deal extremely high burst damage.

Its threat to Lin Tianhao could be ignored.

Most of the Blood-Eyed Dragon Turtle's skills were continuous or large-scale skills.

Such skills usually have a problem, that is, the burst damage is not enough.

Of course.

It's not to say that the Blood-Eyed Dragon Turtle doesn't have short-term high burst means.

Yes.

Similar to the Black Water Vortex just now.

If he hadn't purified it.

Next would be the Water Arrow Array and the Nine Pillar Impact.

Such damage.

Lin Tianhao might not be able to withstand it, and almost none of those elite players at level 45 could withstand it.

In other words, it would be a one-shot kill for all players of the same level.

But there were no ifs.

Lin Tianhao had purification and high recovery, and the Blood-Eyed Dragon Turtle could only be slowly worn down by him.

The result did not have any suspense, and Lin Tianhao successfully killed the Blood-Eyed Dragon Turtle.

“Ding, your team has completed the first kill of the Blood-Eyed Dragon Turtle, and a server-wide announcement will be made soon. Do you want to hide your name?”

“No.”

“Server-wide announcement, congratulations to player Xue Di, hidden nickname, for completing the first pass of Blackwater Lake - Dragon Turtle, rewarding Xue Di with +80 free attribute points, hidden nickname with +10 free attribute points, hereby announce, hoping that the majority of players will continue to work hard.”

“Server-wide announcement, congratulations to player Xue Di, hidden nickname, for completing the first pass of Blackwater Lake - Dragon Turtle, rewarding Xue Di with +80 free attribute points, hidden nickname with +10 free attribute points, hereby announce, hoping that the majority of players will continue to work hard.”

... ..

The server-wide announcement sounded, and Lin Tianhao was already used to it.

It's just that Shooting Through the Sky didn't reveal his name.

Moreover, because Shooting Through the Sky's contribution to the first pass of this dungeon was too low, the free attribute points were only one-eighth of Lin Tianhao's.

Not only that.

Because he had already died and was not in the dungeon, he was not entitled to the reward settlement for completing the dungeon.
