

O Summoner 1711

Chapter 1711 Throne of the Light of Beauty IV

Solstice used the remaining three blood crystals and created three more blood weapons and pierced the Angel of Chastity Jophiel. Solstice retracted all the blood weapons and collected them once more to form a large blood great sword. As Solstice was about to hit the Angel of Chastity Jophiel, a powerful sound suddenly pierced the skies.

Adrian and his soulbounds could be seen crashing towards the ground as they were injured. They were inflicted with a powerful type of status ailment that burned parts of their body. As soon as the sound was heard, the Angel of Chastity Jophiel laughed as they knew that the collection of energy has already become perfect.

Solstice raised the great sword and attempted to slash at the Angel of Chastity Jophiel's neck. The blood great sword shattered as a barrier made of light elemental energy has protected the Angel of Chastity Jophiel. Solstice could not believe it but there was a link between the Angel of Chastity Jophiel and the Throne of the Light of Beauty.

Adrian managed to recover from crashing to the ground as he used gravity manipulation. The other soulbounds were sealed back into the soul chamber to make sure that they are also safe. He immediately drank a potion but the light elemental curse that he was afflicted by seem to not disperse.

Adrian thought that the Throne of the Light of Beauty was just something like a relic, but it was actually a living being. Adrian was too late to notice this as he did not perfectly see the soul of the Throne of the Light of Beauty that was connected to the Angel of Chastity Jophiel. He now knows how the Angel of Chastity Jophiel can freely switch from a male and a female form.

Adrian realized that the Angel of Chastity Jophiel has an odd soul that is incredibly large for a being that only has one body. Usually, cases where the soul is bigger than the vessel would make a being's body explode. This was not the case for the Angel of Chastity Jophiel because they were actually storing parts of their soul to the Throne of the Light of Beauty.

Adrian did not notice it and was afflicted by a skill due to the connection between the enemies. Anyone would actually not expect that as well because the Throne of the Light of Beauty is actually incredibly tough. Even Adrian would need to use his true form in order to at least scratch the Throne of the Light of Beauty.

"Some sacrifice was needed but all is over now because I have already won." The Angel of Chastity Jophiel stated as they flew towards the Throne of the Light of Beauty.

The Throne of the Light of Beauty that was now burning like a golden sun once again poured the intense energy towards the Angel of Chastity Jophiel. Unlike before where it created a powerful explosion, the energy was concentrated and is given to the Angel of Chastity Jophiel. Light suddenly passed through the Angel of Chastity Jophiel as all of her injuries were healed in an instant.

The wings on their back also became bigger as a result as the Throne of the Light of Beauty suddenly started to become liquid gold. The liquid gold would then attach itself to the Angel of

Chastity Jophiel as if they were one to begin with. The liquid gold would then be shaped into armor by the Angel of Chastity Jophiel as the previous one was actually not their real combat armor.

The golden armor that covered the Angel of Chastity Jophiel became even more bulky and full of ornaments. The Angel of Chastity Jophiel's face is also covered with a golden mask as her wings were also protected by the new armor as well. The added armor to the Angel of Chastity Jophiel was a mix of a female and a male shaped armor as if to accentuate that they are one being.

As soon as the armor on the Angel of Chastity Jophiel was complete, the three halos on top of their head suddenly became bigger. The three halos formed a large halo behind the Angel of Chastity Jophiel and created an intricate sigil that represented them as an angel. A haughty laugh could then be heard as five golden chakrams and five golden spinning axes appeared next to the Angel of Chastity Jophiel.

[The Angel of Chastity Jophiel and the Throne of the Light of Beauty has fused with one another.]

[The Angel of Chastity Jophiel will have their stats increased by 50%.]

[In this form, the Angel of Chastity Jophiel cannot infatuate any being, but they will be able to deal bonus 100% light elemental damage.]

Not only did the Angel of Chastity Jophiel managed to heal themselves back to full, but they are also have become more powerful than ever. The Angel of Chastity Jophiel commanded the five chakrams and five spinning axes mentally. With a wave of their hand, the five chakrams flew off and decimated a hundred players in an instant.

"Oh! How long have I not entered this form! It has been so long!" The Angel of Chastity Jophiel shouted in pure ecstasy as more devil army players died from her weapons.

"Kanlaon!" Adrian shouted as he summoned Kanlaon once more.

Kanlaon then fired off his dragon breath towards the Angel of Chastity Jophiel. The powerful dragon breath was easily overpowered by one spinning axe. Another spinning axe would fly towards Kanlaon in an attempt to kill him, but Adrian created a mirror to reflect the attack back at the Angel of Chastity Jophiel.

The spinning axe managed to return back to the Angel of Chastity Jophiel as they were able to gain control of it after Adrian reflected the attack. Adrian could be seen a little bit shaken because he actually lost 10% of his total mana just reflecting one spinning axe. The Angel of Chastity Jophiel before him is no longer the one before as the sudden armor meant that this might be their final form.

Chapter 1712 Jophiel Versus the Devil Army I

"Your petty tricks will no longer work on me, demon. I am now in my exalted form! The very form that the Goddess of Light Luminaria has given me. Look at me and see my most beautiful form!" The Angel of Chastity Jophiel stated.

The Angel of Chastity Jophiel also pushed out the darkness in this current form as they were shining as bright as the sun. The power that Solstice and Lycan received when night came suddenly waned as the very existence of the Angel of Chastity Jophiel is now like that of a sun. Even the devils that became stronger started to become weaker as a result.

The Angel of Chastity Jophiel then created more chakrams and spinning axes which they used to wreak havoc on the devil army. Adrian is also forced to be on the defensive as numerous chakrams, and spinning axes were flying his way. He had to use his mirrors to escape the pursuit of the weapons in order to save himself.

"Dark Rupture!" Peridot stated in dragon tongue as she destroyed a mythical tier obsidian.

Darkness suddenly flooded the area on top of the Angel of Chastity Jophiel. A rift in space appeared where darkness seeped out and planned to cover the sky that was lit up by the light. The Angel of Chastity Jophiel snickered at the dragon's attempt, but they did not back down.

The Angel of Chastity Jophiel used numerous chakrams and spinning axes to destroy the rift that was spilling out darkness. They were able to destroy a skill that was mythical tier which also backfired on Peridot as she was the one that cast it. Peridot coughed up blood as her health was decreased by 20% and her mana was brought down to 10%.

"Even the darkness dragon king dares not to face me in this form, dragon!" The Angel of Chastity Jophiel stated with utmost confidence because it is true.

The amount of energy that the Angel of Chastity Jophiel needed to use their Exalted Form is akin to the power needed to create a small sun. The Darkness Dragon King would indeed fall in battle when they face the Angel of Chastity Jophiel in this current state. Still, this form for the Angel of Chastity Jophiel is not temporary since it also consumes a lot of energy.

"I need to end all of this once and for all." The Angel of Chastity Jophiel stated as they turned towards the Hell Gate.

"I shall personally destroy it myself." The Angel of Chastity Jophiel stated as the numerous chakrams and spinning axes changed their direction from the devil army players to the Hell Gate.

"Two can play at that game! Levin Cloud! Netheros True Form" Adrian stated as Levin Cloud nodded in response.

The Tree of Life and Death is suddenly summoned in the battlefield as the nether mist rolled around. Levin Cloud fused with the Tree of Life and Death in order to have more control over the battlefield. Adrian appeared in his Netheros mirror demon form and created numerous mirrors surrounding the Hell Gate.

Once a chakram or a spinning axe comes in contact with a mirror, the mirror immediately shatters which made Adrian's mana drop incredibly fast. Adrian had no choice but to continue in creating more mirrors to protect the Hell Gate while Levin Cloud also used the roots of the tree of life and death to swat away other weapons.

"You may be able to defend against my attacks for now, but this is the end!" The Angel of Chastity Jophiel stated as all of the chakrams and spinning axes suddenly gathered in the sky.

All the chakrams and spinning axes that the Angel of Chastity Jophiel created suddenly fused to create a large chakram and spinning axe made of golden flames. The two weapons made of golden flames is sent flying towards the Hell Gate.

"Defend the gate!" The devil army players shouted as the mage players casted barriers to try and slow down the two weapons made of golden flames.

The barriers made by the players proved to not be useful as they were easily sliced off like butter. Adrian fused all of his mirrors together and blocked the chakram. Levin Cloud used all of the energy in the Tree of Life and Death to block the spinning axe.

All of the devil army players prayed that the two would be able to defend the attack, but they could see that the two of them were actually getting pushed back. Adrian was moving closer and closer to the Hell Gate as the chakram was pushing him. Adrian knew that he needed to do something or else the chakram would kill him and destroy a large portion of the Hell Gate with it.

"Reflect it!" Adrian shouted as he used all the stored energy in the mirrors.

A powerful beam of light started clashing with the chakram as Adrian was now lessening the distance of the pushback. Levin Cloud, on the other hand, could be seen using all the energy of the Tree of Life and Death to hold the spinning axe. The roots of the tree that was firmly grounded could be seen getting uprooted as a result.

"A feeble attempt! Both of you shall die knowing that I have made you suffer!" The Angel of Chastity Jophiel stated as they poured more energy into the two weapons.

CRACKK!

SLASH!

Two loud sounds could be heard as the mirror shattered with Adrian's body cut in two and Levin Cloud's tree body sliced in half. The two of them turned into particles of light and died upon getting hit by the attacks. The two of them might have died but they were able to destroy the chakram and the spinning axe.

"Such a pain even in the end." The Angel of Chastity Jophiel stated as they suddenly clutched in pain.

A red spear could be seen piercing the proud golden armor that protected their body. The Angel of Chastity Jophiel looked where the red spear originated from and it was none other than Solstice who summoned a pool of blood beneath her feet.

Chapter 1713 Jophiel Versus the Devil Army II

"It seems that angel is now disregarding me. I think I am quite hurt." Solstice stated as she was no longer the object of the angel's attention.

"Your brother did do something to that angel though. Do I still need to kill a lot more or is it enough?" Lycan asked as he only killed a number that reached about five thousand.

"That is enough because I have everything that I need. You can now summon the darkness once again, babe. I shall deal with the angel that suddenly became fully armored and ugly." Solstice stated as she slammed the ground, and it turned red.

"As you wish, my love. Gift of the Night!" Lycan stated as he howled.

A wolf's howl could be heard and the area that was lit by the Angel of Chastity Jophiel is suddenly covered with darkness once again. The darkness was more powerful than before as it was now able to negate the powerful light that the Angel of Chastity Jophiel is radiating. The Angel of Chastity Jophiel did not think much of it though as the darkness did not make them weaker anyway.

[Powerful special blood has been mixed into the Blood Lake.]

[All magic that is derived from this will be 100% more powerful.]

Solstice was a bit shocked when she saw this notification, but she noticed why it happened. Her brother and Levin Cloud actually died due to the Angel of Chastity Jophiel. She is now angrier than before as her beloved brother that only she could tease was killed even though she knows that he will revive anyway.

[A secret skill has been obtained that can be used for a limited time.]

[You can now use Empress of the Everlasting Night skill that is the evolved form of the Queen of the Night skill.]

Solstice did not know what this skill evolution meant but she knows that she has obtained this due to her brother's blood and Levin Cloud's blood mixing into the Blood Lake that she casted. She already knows that this is a powerful skill, but she did not know how powerful it was. As if a curious child that saw something beautiful, Solstice uttered the activation without a moment of hesitation.

"I am the Night!" Solstice stated as a powerful darkness from below enveloped her body.

The dress that was made of shadows suddenly became blood red while her long flowing red hair gradually had white strands. As if something primordial activated in her blood, the power that was coursing through her almost made her shout in ecstasy. She was no longer the same as she was before as a blood crown levitated above her head.

[You have become the Empress of Everlasting Night.]

[All darkness attribute spells will have 100% increased damage.]

[All blood related spells will have 200% increase in damage.]

[All stats have been boosted by 100% for the duration of the transformation.]

[All damage done to the opponent will heal the Empress of Everlasting Night.]

[If the Empress of Everlasting Night is full health, then the health recovered will become Blood Essence that will be stored in the Blood Crown.]

[If the Blood Crown is fully charged, then the Empress of Everlasting Night will gain the skill Bloodborne Apocalypse.]

[The duration of the Empress of Everlasting Night transformation is 20 minutes.]

Solstice could finally see her new form which is not that different from her Night Form. The dress just became red, but she could see that it is connected to the Blood Lake that she created. The Blood Lake itself has fused with her.

With just a thought, a blood red spear was created from the Blood Lake, and she threw it towards the Angel of Chastity Jophiel. She did not think that this will deal great damage to the Angel of Chastity Jophiel as she only created it to test how powerful it became. She was shocked upon seeing the blood spear pierce the proud armor of the Angel of Chastity Jophiel.

"She now has the aura of the First Progenitor of the Vampires! I must kill her immediately!" The Angel of Chastity Jophiel thought as they were now in fear of the being that as in the middle of the blood lake.

"Angels! Attack the vampire with all your might! She must die today!" The Angel of Chastity Jophiel stated as they knew that it would be incredibly stupid to not kill a vampire that has the powers of the First Progenitor of the Vampires.

"I must deliver this news to the others or else they would have used our strength in fighting the wrong enemy." The Angel of Chastity Jophiel thought as the ones that they feared the most back then were the First Progenitor of the Vampires and the First Alpha of the Werewolves. The angels that heard the command of their leader no longer attacked the Hell Gate or the players but focused on the being that was in the middle of the Blood Lake. The Angel of Chastity Jophiel summoned numerous chakrams and spinning axes and sent it flying towards Solstice.

Solstice did not panic but created blood weapons that are the same number as the weapons that the Angel of Chastity Jophiel have sent towards her. All the blood weapons and the golden flame weapons directly hit one another and destroyed each other as well. The two created weapons were actually tied when it comes to power is what an observer would think.

"She is not that strong compared to me but the I am at an elemental disadvantage." The Angel of Chastity Jophiel muttered as they knew that they could kill Solstice if they put maximum effort, but they would also need to sacrifice at least half of their body.

The Angel of Chastity Jophiel did not want to confront Solstice head on because the werewolf was still lingering near her. The Angel of Chastity Jophiel knew that going against two of the beings made of pure darkness would endanger their lives. Being killed by vampires or werewolves could actually result in angels being permanently extinguished.

The Angel of Chastity Jophiel could easily see that the vampire and werewolf were Blessed Children of the Twin Gods. The vampire and werewolf will revive but they could not say the same for themselves. They are actually using the other angels to test if being killed by the vampire in that state will result in permanent death.

The Angel of Chastity Jophiel does not care for their subordinates as long as they survive. They can just make more subordinates in the future as long as they are alive. The angels under the Angel of Chastity Jophiel charged towards Solstice but the latter did not even panic.

"I always need more blood anyway." Solstice muttered as she casually flicked her hand.

With one flick of her hand, the Blood Lake moved in accordance with her wishes. A large blood spike sprouted and killed an angel with two wings with ease. The angel that was killed might have been already damaged to half health, but that attack is still something that shocked the others.

"Oh! I did not think that it would be this easy." Solstice muttered as even she was surprised.

The angel that was killed did not become particles of light but was devoured by the Blood Lake instead. A notification suddenly appeared before Solstice.

[You have gained charges to the Blood Crown by 2%.]

[Total Blood Crown charge: 22%.]

The angels that were trying to attack her immediately flew higher as they feared that they would get reached by the attack earlier. The instincts of the angels were correct as they would have suffered the same fate as the one that flew too close. All of the angels started to cast light attribute spells instead which prompted Solstice to protect herself.

"I need more charges." Solstice muttered as she then saw the human army alliance and smiled widely that it showed her fangs.

Solstice suddenly ducked inside of the Blood Lake and willed it to go close to the human army. The angels did not expect a large blood lake to actually move away from the location. The Angel of Chastity Jophiel suddenly felt an ominous wind pass through them.

"Stop that blood lake from moving!" The Angel of Chastity Jophiel shouted as they used all of their focus to create thousands of chakrams and spinning axes to destroy the blood lake.

"Multi Elemental Barrier!" Peridot shouted as she destroyed six legendary tier gemstones.

A six colored barrier then enveloped the Blood Lake where Solstice resides. The attacks of the angels were able to destroy the barrier, but Solstice was already in location. The human army alliance suddenly saw that there was blood beneath their feet, but this was a battlefield, so they did not think it was strange.

"Save those humans!" The Angel of Chastity Jophiel shouted something they would never say but it was too late.

"Blood Thorns!" Solstice stated as screams of pain and agony echoed in the battlefield.

Chapter 1714 Jophiel Versus the Devil Army III

The area that covered the blood lake suddenly sprouted spikes made of blood. As if the blood spikes only targeted the human army alliance, only the human army were affected. Some died from the blood thorns which the Blood Lake immediately consume.

Some did not die but had holes in their bodies where blood came gushing out. The pain and cries for help made the battlefield even more chaotic. Blood started trickling down from everywhere and it was not a sight for the weak of heart.

"Heal the humans immediately!" The Angel of Chastity Jophiel stated which is something that the angels they thought would ever hear from their leader's mouth.

The angels started casting healing spells which was aided by the Priests of the Church of Light. The humans that were still alive started to get their wounds healed. The humans would then run as far away as they can from the Blood Lake as they did not know when the blood spikes would hit them again.

[The Blood Crown has gathered the maximum charge possible.]

[It is now possible to cast Bloodborne Apocalypse.]

Solstice suddenly emerged from the Blood Lake which terrified all the humans. They suddenly started shouting and calling her as the Blood Witch. Only then did they learn that she was far more terrifying than such a silly nickname that even she thought is cute.

"Bloodborne Apocalypse!" Solstice stated as she showed her fangs with a smile that could allure any men with her beauty.

The Blood Lake that was silent suddenly turned into numerous blood spikes that killed those that were unfortunate enough to not get out in time. The bodies of those that died were assimilated into the Blood Lake. Soon the Blood Lake returned into a peaceful look as it became flat but that was just the start of the real horror.

[You have killed 102, 286 beings.]

[All killed beings will now become Strigoi.]

The peaceful Blood Lake suddenly became erratic as beings that looked like a nightmare version of a vampire emerged. These were the Strigoi which were vampiric monsters without ego which can only be created by vampires. Solstice was familiar with these monsters as there were some upper-class vampires that have them as pets.

The best way to describe how the Strigoi looked like would be a gigantic man and bat hybrid. The Strigoi that Solstice saw before had flesh and pinkish skin color but the ones she created were all blood red instead. They also bowed down to her as soon as they were created as if to revere the greatest of all the queens.

[You have created 102, 286 Strigoi.]

[All these Strigoi are only created temporarily and will be extinguished once your transformation ends.]

"No matter. Your queen commands you to kill all my enemies and bring their blood to me!" Solstice commanded as the Blood Lake beneath her feet has dried up.

"Kill the damned beings! Clear a path for me as I shall cut that vampire's head off myself!" The Angel of Chastity Jophiel shouted as they knew that the vampire will only grow stronger if she feeds on more blood.

The Angel of Chastity Jophiel no longer cared about the risks as she knew that a crushing defeat would become their downfall. Mikhail has given them this task to make the angels more powerful. If they would fail to carry this task, then Mikhail would personally punish them as a result which is more frightening for the Angel of Chastity Jophiel.

The Angel of Chastity Jophiel was able to clear a path towards Solstice as the angels under them made sure that the Strigoi would not touch them. With a chakram on the left hand and a spinning axe on the right, the Angel of Chastity Jophiel has decided to hastily kill Solstice. Solstice could not defend herself as the Blood Lake was no longer below her and all she could do was bring out her own weapons that she created with her blood.

"She is weak now! Creating that number of evil creatures has weakened her!" The Angel of Chastity Jophiel thought as any Strigoi that went near them were dealt with by their subordinate angels.

"Your head is mine!" The Angel of Chastity Jophiel shouted as if believing that they are now victorious.

"I think you have forgotten about someone!" A male voice suddenly rang beside the Angel of Chastity Jophiel.

"Argh!" The Angel of Chastity Jophiel exclaimed as one of her wings was suddenly damaged.

"I was only able to damage one wing?! I guess I am very pathetic." Lycan muttered to himself as he licked the blood from his claws.

The Angel of Chastity Jophiel managed to gain a bit of distance after getting hurt. Their subordinate angels immediately healed the damaged wing back to its brilliance. The Angel of Chastity Jophiel soon heard the screams of the human army that they brought as more and more of them are dying.

The Angel of Chastity Jophiel would then see the Prince of the Undead reviving these dead humans into undead which made their side lose even more. The Angel of Chastity Jophiel could not believe that they will lose without even doing their objective. The angels could not even reach the Hell Gate as a lot of powerful enemies were now defending it.

"The fact that I, the greatest being in this world, is losing. This must all be a hallucination. A trial by the goddess to test my own faith to her. Goddess! Please give me your guidance!" The Angel of Chastity Jophiel shouted but it was not a voice full of pity that responded to her.

"In the end, you were ugly as well." The Goddess of Light Luminaria stated which made the Angel of Chastity Jophiel turn their head in confusion as they could not process what their beloved goddess told them.

"I shall make use of you for one last time. An ugly being such as yourself should at least be that useful." The Goddess of Luminaria's voice echoed from the skies.

Chapter 1715 A Goddess' Curse I

"Agh!" The Angel of Chastity Jophiel shouted as numerous bone cracking noises is heard.

The Angel of Chastity Jophiel started convulsing as if something was possessing their body. The armor that was perfectly fitted to a humanoid body started to expand. The singular body suddenly started to actually split in half.

The Angel of Chastity Jophiel suddenly became an entity that looked like conjoined twins. The beautiful features of their face that made anyone become allured with them is no more. A hideous monster that has the body and power of an angel has been born.

[The Angel of Chastity Jophiel has been cursed by the very goddess that they worship.]

[The Blessing of the Goddess of Light Luminaria has started to takeover the body of the Angel of Chastity Jophiel.]

"No! Please don't! My god... AUaegh!" The Angel of Chastity Jophiel stated as the two heads that looked like a dilapidated ogre no longer said words that can be understood.

[The Angelic Beast of Chastity has descended.]

[The Angelic Beast of Chastity will have all of its stats increase by 100%.]

[The Angelic Beast of Chastity will no longer be able to heal from their wounds.]

[The Angelic Beast of Chastity will receive double the damage in exchange for the immense strength that it is given.]

==

Monster Name: Angelic Beast of Chastity

Monster Tier: Semi-Transcendent

Monster Level: 400

HP: 81%

MP: 50%

Description: A beast that has resulted to the Angel of Chastity Jophiel being subjected to the curse of the Goddess of Light Luminaria. The Angel of Chastity Jophiel is no more as the essence and ego has already been fed to the beast in order to awaken it. Despite being incredibly strong, the Angelic Beast of Chastity has very weak defenses.

==

The Angelic Beast of Chastity is extremely far from the look of what the most beautiful angel ever described is. One would even think that this might be the true form of the Angel of Chastity Jophiel that they tried to hide. The angels that were around the Angelic Beast of Chastity could only gasp in shock as they did not expect that their beautiful leader will become a hideous beast.

"Great Beauty! What happened to you?!" The angels asked the Angelic Beast of Chastity, but they could only hear the grunts of a mindless beast.

"Did they not hear the voice of their goddess? She was the one that cursed their own leader when they deemed Jophiel no longer worthy." Solstice stated as she heard it clearly.

"Beast of Chastity! Destroy every being there! I permit you to devour the energy of all my other children to rid this world of that venomous vampire." The voice of the Goddess of Light Luminaria is once again heard.

"Uwah!" The Angelic Beast of Chastity grunted as both of its mouth suddenly opened wide that it actually split half its head.

[The Angelic Beast of Chastity is absorbing all the sources of light energy in the area.]

All of the light elemental energy that is in the area is suddenly being absorbed by the Angelic Beast of Chastity. Even the spells of the priests from the Church of Light are being absorbed. One could even see the priests of the church of light suddenly fainting as all of the light elemental energy in their body is taken away.

The angels that were not sure what happened to their leader went closer to the Angelic Beast of Chastity thinking that their leader just lost their mind. The moment their energy was being stolen; the angels started to fly away but they could not get away from the Angelic Beast of Chastity. The proud angels that boasted their prowess in handling light elemental energy started dropping like flies.

The angels started dying as all of the energy present in their body was emptied out. The Angelic Beast of Chastity did not stop which made every being in the area tremble due to the power it has absorbed. The halos behind its back suddenly became bigger and brighter as if a powerful spell is about to be swept upon all the devil side army and even the human army.

[The Angelic Beast of Chastity is about to use Chastise.]

[Pray that you will not die.]

"Protect all of the beings on our side, servants!" Solstice shouted hurriedly as the Angelic Beast of Chastity released two light elemental energy balls into the sky.

The Strigoi followed the command of their empress and immediately flew to the skies to take on the damage of the powerful skill that the Angelic Beast of Chastity released. The sky that was

illuminated by the Chastise skill is suddenly covered in darkness due to the enormous number of Strigoi that flew towards the skill.

The number of Strigoi might number in the hundred thousand and increased a bit but it was not enough to perfectly block the powerful skill that sacrificed even the angels. All of the Strigoi were decimated as they burst into blood and are vaporized by the powerful flash of light that enveloped the entire area. All of the players did everything that they could to protect themselves as they were swallowed up by the dome of light.

[The Hell Gate's Durability has decreased by quite a lot.]

[Remaining Hell Gate Durability: 31%]

The players even sacrificed their bodies in order to defend the Hell Gate as they believed that the success of their mission is more important than surviving the attack. The skill that enveloped the area in a powerful shower of light killed half of the devil side army with a quarter in severe wounds. The Angelic Beast of Chastity did not stop there as it looked at the Hell Gate that was still working and roared.

"When did you become so ugly!" Adrian stated as he suddenly appeared behind the Angelic Beast of Chastity.

Without even a moment's notice, Adrian sliced the Angelic Beast of Chastity in between their conjoined body. The Angelic Beast of Chastity let out a powerful scream due to the weapon that damaged it.

Chapter 1716 A Goddess' Curse II

[You cannot revive due to a special circumstance.]

[Your revival will have to wait until the effect of the Empress of the Everlasting Night skill has ended.]

Adrian and also Levin Cloud did not expect something like this to happen as they were always able to revive themselves after dying. The only thing that was different now is that they died with their bodies touching the Blood Lake that was summoned by Solstice. They were able to see the battlefield as wandering spirits which other players that died can also see.

The two of them could not speak to each other as it is not possible as they are wandering souls. They could see what happened in the battle though such as Solstice summoning a hundred thousand army of Strigoi. Adrian also witnessed his sister suddenly having her crimson hair be mixed with the platinum white strands that he has.

"It is as if my own blood has already fused with my sister's blood. She has taken on some of the Asmodian Blood that I own. How is that possible though? Blood Transfusion should not be possible on my blood yet from what I know." Adrian thought.

Blood Transfusion is indeed not available for Adrian's blood yet due to him not being able to unlock it yet. The only reason why Solstice was able to get that specific boost was due to her own mastery over the Bloodwork skill already being at the Grandmaster Level 1. She was actually lucky that she was able to extract the special abilities of Adrian's blood.

Adrian already tried experiments with Solstice before such as letting her suck on his blood. Other than Solstice saying that Adrian's blood tasted like the most delicious and mouthwatering steak she had ever tasted, she did not get anything. Adrian also saw that Levin Cloud also died and he has traces of Asmodian blood in him as well.

"Maybe the chance was magnified when Levin Cloud's blood was also mixed in." Adrian speculated but he started focusing on the battle when the Angel of Chastity Jophiel suddenly transformed into a hideous angelic beast.

Adrian always knew that gods and goddesses could curse beings that they have blessed heavily. Gods and goddesses would only do this if the being that they blessed has did something wrong that would put their divine name to shame. He has never seen a god, or a goddess curse their blessed being just because they could not defeat the enemy.

What Adrian did not know is that such a curse is not really possible even if one being has been blessed. A god or a goddess would actually have to sacrifice the divinity that they have given to a being, which weakens them, when they curse a follower. The Goddess of Light Luminaria could easily do something like this to angels because she inserted such function when she created the angels.

The Goddess of Light Luminaria can only do this to angels that have personally been created by her. Angels that were created using the Divine Light relic are not affected by this as much. Still, this also means that the angels that were created after will not become as powerful as the angels that the Goddess of Light Luminaria has personally created.

The Angel of Chastity Jophiel is now swallowed up by the Angelic Beast of Chastity which it is now known for. The beautiful angel is no more and a beast that has the power of holy light is born. The Angelic Beast of Chastity released a powerful skill that even Adrian as a soul became fearful.

[The Angelic Beast of Chastity has used Chastise.]

The Angelic Beast of Chastity released a powerful attack comprised of compressed light elemental energy. Solstice had to sacrifice all of the Strigoi to weaken the skill but that was not enough to stop it. In the end, the entire battlefield was filled with immense light that swallowed everything up as if it was getting purified by light.

[You can now revive.]

[Do you wish to revive now?]

"Yes." Adrian answered calmly as his body materialized in the air and he immediately summoned the scythe armament.

"Universal Threat!" Adrian added as he suddenly vanished from view as soon as he revived.

The Angelic Beast of Chastity roared loudly as all of the weak beings are dead along with the angels that it has absorbed. The human army alliance that was proud in number has fallen to a measly number of a hundred thousand. The devil side army is also only a hundred thousand in numbers as well since only a few was able to survive while some were lucky.

The devils that were protecting the Hell Gate were eviscerated and it is now defenseless. The Angelic Beast of Chastity was given a command when it was created, and it is the destruction of the

sinister gate. The Angelic Beast of Chastity flew towards the Hell Gate without minding the beings that it has heavily damaged.

"When did you become so ugly!" Adrian stated as he suddenly appeared behind the Angelic Beast of Chastity.

The Angelic Beast of Chastity suddenly heard a voice from behind it and its two heads looked back. Without sensing any killing intent, the Angelic Beast of Chastity could not react to the attack as its conjoined body was suddenly sliced in half. The two heads screamed in pain as they were two entities that are one.

The Angelic Beast of Chastity suddenly lost balance as each body only had three wings. The conjoined body is actually helping each other afloat since one cannot fly without the other even if they split. The Angelic Beast of Chastity had to reach out to its other half and embrace each other in order to fly.

"Even I did not expect something like that to happen." Adrian stated as he is shocked with what the two bodies of the Angelic Beast of Chastity are doing in order to make sure that they do not touch the ground.

Chapter 1717 A Goddess' Curse III

"Kill the demon even if your life gets extinguished beast!" The Goddess of Light Luminaria commanded the Angelic Beast of Chastity.

The Angelic Beast of Chastity that was supposed to focus on destroying the Hell Gate has switched its objectives. It now was direct orders from its creator to erase the demon from existence. The Angelic Beast of Chastity actually has the power to do so but it is extremely limited.

Adrian, who was suddenly alarmed by something, gained distance from the Angelic Beast of Chastity. Adrian could feel that the Angelic Beast of Chastity's gaze was now different than before. The gaze of the Angelic Beast of Chastity was that of a ravage beast, but it now changed to that of a determined hunter.

"Power of Gemini!" The Angelic Beast of Chastity stated in pure understandable speech which shocked Adrian and the others.

The Angelic Beast of Chastity that could only grunt and make inhuman noises suddenly spoke. This development is something that Adrian actually feared. A beast that is not intelligent is easy to defeat but a beast with intelligence is not going to be a cakewalk.

[The Angelic Beast of Chastity has invoked the power of the stars.]

[Due to the Angelic Beast of Chastity not having full control of the power of Gemini, only half the skill effects will be possible.]

The sky that was dark suddenly had stars shine brightly upon it which resembled the Gemini Constellation. The Gemini Constellation suddenly bathe the Angelic Beast of Chastity with a powerful light that made the latter even more powerful. All parts of the Angelic Beast of Chastity's body are suddenly glowing with this purplish light that made any living being shudder at the sight.

[The Gemini Constellation is said to be the constellation that represents the twins.]

[The Angelic Beast of Chastity has been granted the Power to Devour.]

[Any being that is killed by the Angelic Beast of Chastity has a 40% of getting their entire being erased.]

[The percentage of essence disappearance will increase with more tactile contact with the Angelic Beast of Chastity.]

[The Angelic Beast of Chastity will lose 5% of their maximum health every 5 minutes.]

[Any being that is erased by the Angelic Beast of Chastity will make them recover 5% of their maximum health.

[The Angelic Beast of Chastity will be blessed by the Gemini Constellation for 20 minutes.]

[Never make contact with the Angelic Beast of Chastity or else you will cease to exist.]

A lot of notifications appeared before the players which suddenly gave them cold feet. They all wanted to run away the moment they read the notifications because they do not want to be erased from existence. If they get erased from existence, then they would have to start from the bottom once again even if they have all the items that they received.

"Oh shoot!" Adrian shouted as the Angelic Beast of Chastity suddenly came flying at him with such fanatic eyes.

"Dark Matter!" Adrian stated as he suddenly released a powerful dark mass around him.

The Angelic Beast of Chastity that flew towards Adrian is caught by the skill and is stunned. An invisible dark mass has caught the Angelic Beast of Chastity which gave Adrian enough time to breathe. He immediately summoned Charon and Sirius to make sure that he will get assistance in binding the Angelic Beast of Chastity.

Charon bound the Angelic Beast of Chastity with his chains as tight as he was commanded to. Sirius did this using the shadows that came from his own body. Adrian thought that everything was holding on, but he realized that it was all wishful thinking.

The chains and shadows that the two soulbounds used were actually getting corroded by the aura that enveloped the Angelic Beast of Chastity. Anything that touches this is being erased in existence which meant that any physical object will not be able to hold the Angelic Beast of Chastity down.

"AwagH!" The Angelic Beast of Chastity grunted as they were actually able to destroy all the things that bound it.

"Got to go! You two hide!" Adrian stated as he used his wings and flew towards the ground.

The Angelic Beast of Chastity followed Adrian closely as they were able to fly almost at Adrian's speed even if the latter has boosted himself with Chrono Shift. Adrian even used Chrono Lag on the Angelic Beast of Chastity, but its flying speed was still able to catch up to him. All the players that saw Adrian flying their way started cursing him out as they did not want to get touched by the Angelic Beast of Chastity.

Adrian dove straight down in such a fast speed and immediately shifted horizontally when he was one meter away from the ground. The Angelic Beast of Chastity was about to do the same thing when Adrian used Chrono Shift on it to make sure that they accelerate. The Angelic Beast of Chastity crashed straight into the ground which made it tremble.

"Attack it now!" Adrian shouted.

"Undead Legion! Go!" Creepysoo shouted as he transformed by using God of Death Descent: Baron Samedi.

All the undead that he summoned using the bodies of the dead from the Chastise skill was incredibly enormous. Lots of skeletons jumped into the crater and scratched or punched the Angelic Beast of Chastity as if they wanted vengeance. The Angelic Beast of Chastity did not get damaged easily though as some skeletons were getting erased from existence just by touching their body.

"We do not need to kill it immediately! All we need to do is keep it at bay. Make sure that it does not touch anyone." Adrian commanded his guild members as they were the ones that were revived by Levin Cloud as soon as the latter returned back to life.

The Angelic Beast of Chastity erupted from the crater and roared like a deranged beast. The Angelic Beast of Chastity used their eyes to sweep the battlefield and finally saw their target. The Angelic Beast of Chastity suddenly released two beams of light using their mouths.

Chapter 1718 Death of the Angelic Beast of Chastity

The two beams of light came out of the two mouths of the Angelic Beast of Chastity. Adrian had to quickly dodge the attack as it also possessed the purplish aura that can erase an existence. Adrian used Enhanced Blink to get out of the way, but the light beams actually bent to his new location.

Adrian needed to redirect the beams of light and he immediately knew how as he gazed upon the remaining human alliance members. The members of the human alliance were incredibly fearful as a demon was suddenly flying towards them. They thought that the demon would reap their souls as he wielded a scythe, but they were wrong.

The demon did not kill them or swung his scythe to them, but they suffered a more miserable fate. The beam of light that came out of the Angelic Beast of Chastity hit the members of the human army alliance and killed them. Some died with a body intact while others were erased from existence.

After hitting about ten members of the human army alliance, each beam of light subsided and could be destroyed by Adrian's attack. He is a bit apologetic to those whose existence was erased but he could actually care less since they were enemies. Adrian is not really the type to linger on that type of emotion especially when it comes to his enemies.

"Retreat!" The human army alliance remaining leaders shouted as they did not want to lose anymore soldiers.

The angels that led them were already dead while only a beast with the power of an angel remain. What is even more frustrating is that the beast with the power of an angel killed all the other angels. The faith that the human army alliance has on the Goddess of Light Luminaria has hit rock bottom as they no longer worship her.

In fact, the human army alliance now loathes the Goddess of Light Luminaria. Even some of the priests (NPCs and Players alike) have rescinded their faith to her. All of them no longer worshipped her even if their devotion stats will return back to zero.

"We surrender! Please do not attack us anymore!" The priests that did not have the energy to run away like other soldiers shouted as they did not want to be killed.

The priests thought that they would be killed by the devils or those that joined hands with the devils, but they were actually spared. Those that had a small inkling of respect left for the Goddess of Light Luminaria had no more respect for the goddess. They have realized that only the angels were the ones that were blessed in this war while they were given scraps of what one may call a blessing.

"I guess I really done a number on them. Now, I am really feeling guilty." Adrian stated but that feeling had to be forgotten for now as he needed to deal with the Angelic Beast of Chastity.

The Angelic Beast of Chastity was bombarded with numerous spells from the remaining devil army members. It was the only being that needed to be defeated as the human army alliance has already surrendered. The whole fight would end as long as they defeated the Angelic Beast of Chastity.

"Since it is the only one remaining, I should use my other domain as well. Aether Domain! Aetheros True Form!" Adrian shouted as he changed form to his Aetheros Form.

[Aether Dust has been spread in the area.]

[All allies will have their defenses increased.]

[All allies will have their health regeneration increased.]

[All allies will have their mana regeneration increased.]

[All allies will have their stamina regenerate faster.]

All the members of the devil army side started to recover. The Angelic Beast of Chastity that rampaged is also starting to become weaker and weaker due to the use of the Power of Gemini. Its body is actually breaking down as of this moment as it is actually unable to contain the incredible power that it is using.

"It is almost dead! Bombard it with spells even if you run out of mana!" One of the guild leaders shouted as the reward for the last blow on the Angelic Beast of Chastity might be incredible.

The Angelic Beast of Chastity roared as it was suddenly getting hit with spells of different intensities. The players do not even dare to get near it in fear of getting erased from existence. The safest way is the best way, and they could see that the Angelic Beast of Chastity cannot move from its location.

Different mages used crowd control skills to make sure that the Angelic Beast of Chastity does not leave its crater. Creepysoo even made sure to create more skeletons just to weigh the Angelic Beast of Chastity down. If the Angelic Beast of Chastity leaves the crater, then there is an extremely small chance that it might kill another being and recover.

"Stardust Rain!" Adrian stated as he already changed to his bow armament.

Adrian fired an arrow to the sky above the Angelic Beast of Chastity and it rained down numerous arrows to pin down the monster. He also continued on firing more arrows to make sure that it does not have the strength to fly away. Sirius, Kanlaon and Kimat were summoned to deal damage to the Angelic Beast of Chastity as well.

Sirius utilized the shadows in order to grab onto the body of the Angelic Beast of Chastity. Kanlaon made sure to empower all the elemental spells that the mages casted. Kimat rained down lightning from above to make sure that the Angelic Beast of Chastity will never be able to fly from the crater that it is trapped.

"Mo..The..R!" The Angelic Beast of Chastity as it looked at the sky, yet it is not being answered by the one that it calls mother.

"Andromeda!" Adrian stated as his bow was empowered by a force that comes from the stars itself.

Adrian made sure to use all the energy in his body to enhance the skill. It actually came to the point that his surroundings were starting to get warped due to the power that the arrow holds. Adrian immediately fired the shot as soon as all the energy that he expended has consolidated.

The arrow flew out of the bow and targeted the Angelic Beast of Chastity without miss. The Angelic Beast of Chastity could only mutter the same words over and over again as it instinctively knew that death was coming for it. The Power of Gemini that was protecting the Angelic Beast of Chastity has already ended as its body failed to contain its power.

The arrow hit the Angelic Beast of Chastity directly on its body and exploded in a glorious cosmic light. The entire area looked like a star has exploded which created a powerful shockwave that swept across the area. The Angelic Beast of Chastity could only wail for one last time as it was killed.

[The Angelic Beast of Chastity has been killed.]

[You have successfully defended the Hell Gate from the invaders.]

[You have gained a level.]

[You have gained the Shard of Gemini.]

[You have stolen divinity from the Goddess of Light Luminaria.]

Everything suddenly went silent as the notifications were given to them. It was only a few seconds later when cheers erupted as the players that defended the Hell Gate managed to win. This was one of the most large-scale wars that has occurred on Pandemonium where the defending team is vastly outnumbered.

[You have cleared the Hell Gate Protection Detail (Guardian) quest.]

[You have gained a chance to pick an Item from the Treasury of the Seven Original Sins (Order of Picking would be determined by contribution.)]

[You are the biggest contributor for this quest.]

[The Angel of Chastity Jophiel has died.]

[The power of the Silver City has lessened due to this.]

[The Hell Gate will now start to repair itself.]

Adrian read the notification that he was the one that contributed the most but the second one was actually not far from him. Solstice was the second player in the contribution ranking with Levin Cloud being third. Five of the first ten slots actually came from the Pantheon guild which a lot of the players already expected.

The other players in the top ten that were not in the Pantheon guild are guild masters of top guilds. They earned lots of contribution points due to defeating Second Order Angels (angels that have four wings). Adrian then called all of his guild members to see if they are all accounted for.

"Since everyone is here, I would like to thank all of you. Our guild is actually the one that has the most contribution. Thank you for all the hard work!" Adrian stated.

"Valiant Warriors that defended the Hell Gate! Please enter Hell in order for you to receive your rewards!" The voice of Lucifer of the Seven Original Sins stated with glee as they were the ones that ended up winning.

Chapter 1719 The Angel's Secret

"Jophiel is dead." Mikhail stated as he told all of those that were in the Tower of Babel.

"Jophiel will just revive on his statue anyways. Still, it seems that Jophiel is the weakest out of all of us that they lost to devils." Uriel stated.

"Jophiel will not revive. They are truly dead. Look at his statue." Mikhail pointed out the statue where Jophiel revives from.

The statue of the Angel of Chasity Jophiel that was pristine white in the topmost floor of the Tower of Babel started to turn black. After the white statue turned black, the statue started to turn to ashes. All the angels that witnessed it are in shock because this was the first that one of them truly died.

"Camael, did you see what happened to Jophiel?" Mikhail asked as he is curious on what happened to Jophiel since he cannot see all the way to the other side of the world.

"I was keeping an eye on Jophiel but there was a point that my vision could not see it. I thought that the devil gods might have interfered which is why I could not see what happened to them. To think that they would be able to destroy Jophiel's existence!" Camael replied.

"The angels that were able to revive did not have any memory of what happened to Jophiel as well. The ones that had the memory could not speak as if they were given a restriction. Maybe the devil gods really did interfere as only they could restrict our powers like this.

We can train them to be strong enough to break the restriction but that would take long. They need to be strong to even attempt to break free from a curse from a devil god after all." Gabriel stated as he already asked the angels that revived back in the Silver City.

"What if it was not the devil gods that sealed the information?" Mikhail stated.

"What do you mean? Are there any more beings that would have the power to oppose us? Demons cannot use curses after all since they only deal with origin magic." Zadkiel stated.

"It does not matter then. All of you must gather information about the death of Jophiel. Look onto the beings that were able to kill them. Gabriel, can you stay as I need the details on what the lower angels said." Mikhail stated as the other angels of the Seven Virtues went out to see who was able to permanently kill an angel of Jophiel's caliber.

Mikhail then extended his energy outwards to create a forcefield inside the Tower of Babel's top floor. He did not do this when the other angels of the Seven Virtues are present. When Gabriel saw the barrier, he immediately knew that what they are going to discuss is something that no other angel must find out.

"It was the goddess herself that threw away Jophiel, am I correct?" Mikhail asked but it was actually more of a statement due to how sure he was.

"From the results that I have seen, I think it is actually true. This is not the first time that we have witnessed something like this as only the two of us are the ones that could almost ignore the command of the Goddess of Light Luminaria." Gabriel stated.

"The strange part is that we do not know what happened. Did the angels just become crazy that they lost their senses like back then. I thought only those of the Second Order of the Heavenly Sphere were susceptible to that but if even us are involved then I think we have a problem." Mikhail stated.

"You are right. Back then, a few of the angels managed to at least report to us that the others became crazy and sacrificed themselves. This time, they have their lips sealed as if it is an absolute commandment. If the Seven Original Sins did not do the seal as I did not feel a devil's energy from the revived angels, then it is likely the goddess that discarded Jophiel." Gabriel stated.

"To think that even we would be just like pawns to her. We should really proceed with the plan on getting the Nephilim. With the power inside of him, we might be able to undo the control of the goddess without sacrificing the power that we have now. I must liberate all of us from her control." Mikhail stated but he also has another ulterior motive behind it.

Mikhail wants to have the power of the Nephilim as it is the power of his brother that transcended the Goddess of Light Luminaria. He does not want to do what the others that abandoned the goddess did. All the angels that became devils or abandoned the Goddess of Light became weaker and needed to train once more in order to recover what they lost.

Mikhail believed that he would become the new king of angels and might even step into godhood. If he does step into godhood, then he could defeat the Goddess of Light Luminaria and take her as his concubine goddess. He would then be the one to control the angels instead of the Goddess of Light Luminaria.

"You cannot leave the Silver City and the dragons are also making it difficult for us to move out. If they notice that both of us were not here, then they might have set the Silver City into flames. We are the only deterrents to make sure that our lifeline would not be destroyed." Gabriel stated.

Mikhail could only nod at what Gabriel said as the Silver City is what is keeping them alive. If the Silver City is destroyed, then there might be a chance that the angels could no longer revive endlessly just like the blessed children or cursed children (players). He does not want to be a king to rule an empty nation after all.

"Have you procured the thing that could help us with the dragons? I wanted to let them know what a true festival is." Mikhail asked.

"We have found traces of it, but it is not enough to inflict dragons that are kings and above. The people of the east are not making it easy for us to acquire it after all. The Fallen Gods of the East are incredibly shrewd that they are only giving us a dose that could incapacitate a small dragon." Gabriel stated.

"They are mortals are they not? Can we not just kill them?" Mikhail asked as that was the easiest way for him.

Back then, the angels could get anything they want because of their beautiful faces and power. People believed that they will be blessed if they help an angel which was a rumor created by the angels themselves. If they could not have the things that they want, then they would carry out a pillaging that they called a 'Crusade' in the name of the Goddess of Light Luminaria.

"We cannot do that as the other party are fallen gods after all. They have relics that can actually deceive even Camael's eyes. We also do not want another enemy as the current ones are already troublesome. We have yet to fully regain the power that we have from back then after all." Gabriel stated.

"To think that we have fallen this low after getting sealed for too long. The punishment of the Asmodians is incredibly scary but their power is something that we must have. I guess that is true that we have a lot of enemies, but you must have at least got the location on where they are getting the Dragonsbane." Mikhail asked.

"Camael was able to see the general location, but it seems that they noticed as well. The location that they have in the east is now shrouded by something. The humans have created something called arrays that could warp even our blessings. The Fallen Gods of the East must have been the ones that created such thing since ordinary humans would not be able to do so." Gabriel stated.

"I do not care if you empty out the first treasury. Just get enough of the Dragonsbane that can kill even dragon kings. I will be only able to move if those dragons are incapacitated. Have you also talked to the so-called Hero of the Dragonborne?" Mikhail stated.

"You mean Hou Yiwei? He is not open to any talks to us as he only sees us as an enemy." Gabriel stated.

"Even though he has an angel as his companion?" Mikhail stated as White was actually offered to have her status be returned as long as Hou Yiwei will betray the dragons.

"He is firm which might be the reason why you showed interest. He does not plan on betraying the dragons as he is already a dragon himself although he only calls himself a Dragonewt. White has already betrayed the Goddess Luminaria and it seems that she also knows of her attitude which is why she did not listen as well." Gabriel stated.

"Our troubles would have been much easier if she was really benevolent after all." Mikhail stated as him and Gabriel continued to plan their next moves.

Chapter 1720 Choose Which Vault I

Adrian happily entered Hell once again as the reward for completing the defense quest will be given. It was a chance to enter the treasury of the Seven Original Sins and get one item of their choice. Adrian knew that there might be a catch to it, but he wanted to see what it would be as there are a lot of people that will get rewarded after all.

[You have completed the quest Kill My Brother's Ex-Lover.]

[The quest completion has taken too long to update due to you not technically killing the Angel of Chastity Jophiel.]

"I thought the Angel of Chastity Jophiel was not the ex-lover, so I thought that I did not complete the quest, but it just took long." Adrian stated as he suddenly started to feel dizzy as information started to flood his head.

[You can peek inside the stolen memory of the Asmodian Abel.]

[The reward for the quest would be given once the memory has been viewed.]

[Do you wish to view the memory now?]

"Not yet. I will do so when I am not in another territory." Adrian stated.

[You can view the memory once you decide to.]

"All of those that have completed the quest that we have given, I give you, my thanks. Not only did you make sure that the connection to Hell was not severed, a powerful member of the Seven Virtues even died. I have never felt so elated for such a long time." Lucifer stated.

"Enough of the pleasantries." Beelzebub stated as he snapped his fingers.

Seven doors suddenly appeared before all of the players. Each door was different than the other as it had seven different colors that represented the Seven Original Devils. A door is present below each of the Seven Original Devils, and it also has their insignias.

"Each door shall lead you to different vaults that represent each of us." Satan stated.

"That does not mean that every one of you is entitled to a door that easily. The first ones that need to choose will be the ones that contributed the most." Leviathan stated.

"Of course, those at the top cannot use that privilege as well since it might give them more chances of easily getting a treasure." Mammon stated.

"I see. So, the ones that enter first could have the best selection, but they are saying that is not the case. Is there something done to the possible rewards?" Adrian asked.

"You are correct, demon. The rewards are placed in Glamour which means that you cannot use your physical senses to determine the reward that you pick." Baal stated.

"It will be up to your luck. Do not worry as we are not stingy since sacrificed a lot for Hell." Belphegor stated.

"If you pick an item that is not suitable for you then we can actually exchange it for an item of the same tier that is suitable for you." Asmodeus stated as she blew a kiss.

"This is careful deliberation as we actually planned to do something if the battle was going to be in favor of the angels, but it was not. Unlike those angels, the devils care much about our own image after all. A favor is repaid a thousand-fold while enmity is also repaid a thousand-fold. Pick your doors as this might determine your future since we sprinkled special things inside." Lucifer stated with a big smile.

Adrian decided to enter the gate that he deems to have the best item but even he thinks that it is a gamble. Adrian entered the gate that is handled by the Beelzebub as he is the Sin of Gluttony. He debated going inside of Mammon's gate since that is the gate of the Sin of Greed.

Adrian knew that Mammon might have the most precious things inside of that gate as that is the Devil of Greed after all. Still, he chose the Gate of Gluttony as they are quite close in meaning. Mammon could also hold on to the most important items as the Devil of Greed would know to have that for themselves.

He also chose Beelzebub's gate as he is the one that has some interest in Adrian. He might get a clue to what kind of item he could get. Adrian did not consider the gate of Lucifer even if he is the most powerful of the Seven Original Sins because he knows the devil's temperament.

Lucifer would have no use for powerful weapons or things as his pride would shatter if he used such things. He is the type that relies on himself which Adrian actually managed to correctly assess. About 90% of the items in Lucifer's gate were full of Epic Tier items which made the players suffer in their decision.

About 9% of the items inside were Legendary Tier. Mythical Tier is actually comprised of 1% of the vault as Lucifer deemed that no one that entered was worthy of a more powerful item. All the Seven Original Devils decided to not put a Transcendent tier item there as no one was powerful enough to wield it even though some have potential.

Even if the items inside the vault of Lucifer were Epic tier, they were actually items of great power that could already rival a Legendary Tier item or material if used correctly. Some could even evolve into a Legendary Tier Item if they played their cards correctly.

The items inside the Vault of Mammon were 89% Epic Tier, 10% Legendary Tier, and 1% Mythical Tier. The items were mainly focused on magical defense which is great for those that are tanks lacking in magic defense. As expected of the Devil of Greed, the items would have been more in variety, but greed got the best of Mammon.

The next vault is that of Asmodeus who is the Sin of Lust. The items inside the vault were 80% Epic Tier, 17% Legendary tier and 3% Mythical Tier. All of the items were handpicked by Asmodeus and might need to be sanitized for the safety of the one that wants to use it.
