

O Summoner 1861

Chapter 1861 Battle Against Powerful Neo Angels III

The demigods were gauging the strength of the Neo Angels, but the latter was also doing that as well. The only reason why the Neo Angels were having a difficult time is due to the fact that they were surrounded. Still, the demigods are getting whittled down as the weakest ones were being destroyed by the Angel of Humility Mikhail.

The Angel of Humility Mikhail is not a being that can be killed easily as he has tough defense and great healing from the Angel of Patience Raphael. Attacks that are supposed to hit the Angel of Kindness Raphael are all defended by the Angel of Patience Gabriel. All of the demigods have no choice but to be careful.

Demigods can also revive themselves as they cannot die unless their lives expire, or their soul is destroyed. Once a being becomes a demigod, their lives are automatically extended by an average of 500 years. It is said that this happens because the souls of demigods undergo transformations. Even if the demigods' mortal bodies were killed or destroyed by the Angel of Humility Mikhail, they have not truly died as they can reform their bodies.

This is also the reason why the demigods whose lives are about to expire are doing everything even if their mortal bodies are destroyed. If Adrian is to describe a demigod, then he would answer it with a mortal body with the soul of a god. What the demigods need are to transform their mortal bodies into divine bodies which needs divine essence.

"What should we do? The three Neo Angels are absolute if they do not get split up.: Levin Cloud stated.

"I can do it. I would need all of you to make sure that they cannot move for at least a split second." Adrian stated as he believed he could do it as he has a new passive skill with regards to spatial magic.

"I will make sure that happens. I am already done preparing." Creepysoo stated as he slammed his staff and the Necronomicon released powerful death energy.

"Undead Dragon!" Creepysoo shouted.

A large magic circle that almost covered the entire area appeared. All of the death energy in the area was sucked inside of the magic circle as a blood curdling roar came out of it. The large bony dragon came out of the magic circle which actually had the same size of a dragon king.

Creepysoo did not participate much in the battles earlier as he was focused in creating the most powerful undead that he could summon. The undead dragon rose up and flew towards the location of the Neo Angels. With a powerful roar, the undead dragon released powerful undead miasma that destroyed the Luxera that flew around it.

"Light of Purification. Purify the evil that has arrived." The Angel of Kindness Raphael stated as he suddenly casted a spell that did not heal his surroundings.

"Miasma Boost!" Creepysoo added as he drew out more undead energy from the Necronomicon.

A large holy light magic circle appeared in the sky that tried to purify the undead dragon. Creepysoo countered the holy magic by enhancing the miasma that is coating the undead dragon. The Light of Purification swept pass through the undead dragon but the dark purple miasma coating it has protected the large undead.

"Miasma Breath!" Creepysoo commanded.

The undead dragon suddenly sucked in lots of air as a powerful energy is collected into its throat. The Angel of Patience Gabriel created powerful shields that blocked the miasma breath that came out of the undead dragon. The undead dragon's breath did not look like a beam of light but a hazy smoke that had a chilling energy. One could even see that the shields that the Angel of Patience Gabriel created has started to melt.

The hazy miasma did not stop at melting the shields as some would seep into the ones inside the shields. The Angel of Kindness Raphael had to use powerful purification spells in order to destroy the miasma that clung to their armors. The undead dragon did not show any sign of stopping in releasing its miasma breath which is why the Angel of Humility Mikhail had to change his target.

"Sword of Light." The Angel of Humility Mikhail stated as his two blades got extended by light.

The Angel of Humility Mikhail charged towards the undead dragon after kicking the demigod that tried to stab him. He charged towards the miasma breath as he tried to ignore the damage that he is getting. The shining armor of light even started to get corroded by the miasma, but he pushed through without even quivering.

The Angel of Humility Mikhail reached the throat of the undead dragon and slashed it with all his might. The undead dragon screeched as it was hit by a holy light attribute attack directly. The undead dragon had to fly back a bit in order to shake off the Angel of Humility Mikhail. Creepysoo also commanded it to back down, but it still released miasma to make sure that the Luxera do not attack it.

"Perfect. Isolation!" Adrian stated as he suddenly vanished from his area and appeared just above the Angel of Kindness Raphael.

The Angel of Kindness Raphael twitched as he was shocked that a being was able to easily reach him. The Angel of Patience Gabriel tried to reach Adrian, but he was weighed down by something. A shadow tendril is curled up on the former's foot. In the end, the Angel of Kindness Raphael was dragged inside another dimension along with Adrian.

The Angel of Humility Mikhail noticed what happened but is somewhat relieved that the connection with the Angel of Raphael was still there. The connection to the barrier was not yet cut off which means that they would still have the capacity to defend the Goddess of Light Luminaria. What the two remaining Neo Angels did not know is that their enemies are now looking at them with eyes of a predator.

Chapter 1862 Against Neo Angel Raphael I

[You have brought the Angel of Kindness Raphael with you inside another dimension.]

[The Angel of Kindness Raphael is still connected to the Barrier of Triple Light.]

Adrian did not expect that he was able to pull it off because he believed that the failure rate was 70%. He would have wanted to also bring another guild member with him but that would just make the spell even more unstable. Adrian had to be perfectly precise to immediately appear behind his target and activate the Isolation spell within a split second.

The isolated dimension that Adrian created was not unique as it just looked like a blank space. He and the Angel of Kindness Raphael are basically just floating in an area that is empty. He made sure to check if the pocket dimension was stable as he did not want the Angel of Kindness Raphael to escape when he is not paying any attention.

"Where have you brought me?" The Angel of Kindness Raphael stated but his tone was a bit different than before.

"It seems that you suddenly had regained some of your emotions." Adrian stated as he could think of reasons why.

The Angel of Kindness Raphael moved like a robot a few seconds earlier. It was only when he brought the Angel of Kindness Raphael in a different space that he noticed that the latter moved more alive. He believed that the presence of the Goddess of Light Luminaria is keeping a leash on the Neo Angels.

"You cannot defeat me, demon. You do not possess the power to kill me." The Angel of Kindness Raphael stated as his voice started to become more robotic once more.

"Hmm... the control of the Goddess of Light Luminaria has increased once again. It seems that the disorientation of suddenly entering another dimension messed it up, but his demeanor returned. The Angel of Kindness Raphael announced that Adrian could not kill him as he can heal any damage that is done to him.

"I might not have been able to do so but I have a new soulbound that is a great disrupter. You would not know because you have been inside a light cocoon when he appeared." Adrian stated as he summoned Sirius, Dodu, and Kimat.

"Light of Reflection." The Angel of Kindness Raphael stated as he casted a spell that created a barrier made of light that gleamed dangerously.

The barrier that the Angel of Kindness Raphael created is not something ordinary as it reflects any damage it received by 40% of the original damage. The Angel of Kindness Raphael has no way to go in the offensive as his power is purely healing. He can create barriers to defend himself, but he sacrificed offensive magic to maximize his healing magic.

"Primordial Armament: Spear!" Adrian stated as he summoned his spear weapon that he does not usually use.

Adrian gripped his weapon and his armor changed to look like a martial general. A helmet also appeared on his face that looked close to Kanlaon's face. The Angel of Kindness Raphael did not even look like he is not bothered by the changes as he knows that being trapped in another dimension is not permanent.

[You have 1 hour before the effect of Isolation ends.]

"One hour left here and two hours left overall before the Goddess of Luminaria becomes a real pain." Adrian muttered as he charged towards the Angel of Kindness Raphael.

Adrian and his soulbounds charged towards the Angel of Kindness Raphael. He reached the light barrier and tried to pierce it, but it was incredibly sturdy. As soon as he hit the barrier, a powerful sensation of light penetrating his body overcome him. He received damage from just hitting a simple light barrier.

Sirius released numerous shadow tendrils that looked like spears as he also tried to destroy the barrier. In the end, the shadow tendrils disintegrated as it was them that received the reflected damage. Adrian managed to receive information about the light shield due to Sirius' attacks.

Dodu tried touching the barrier and dissolving it, but its body was damaged. Still, the dissolving of the barrier seemed to have some effect as part of it has weakened. Some parts of Dodu's body even started to slip inside the barrier which the Angel of Kindness Raphael did not notice as another soulbound was doing more damage to the barrier.

Kimat's claws could easily tear the barrier, but the Angel of Kindness Raphael would just restore the part that was torn. Kimat's attacks have the power to disrupt or destroy energy which is why he is the most important member right now. Kimat also coated his claws with lightning to increase the effect.

"Dragon Ascends!" Adrian stated as he suddenly charged inside of the barrier as soon as Kimat tore it apart.

The Angel of Kindness Raphael unfurled his wings to defend against the thrust attack that Adrian used. Adrian did not panic as he did the next series of moves which is a sweeping motion. The sweeping motion managed to hit the leg of the Angel of Kindness Raphael and he got swept. The Angel of Kindness Raphael is suddenly knocked towards the left.

While the Angel of Kindness Raphael have yet to stabilize, Adrian performed the next one which is an upward sweep. The Angel of Kindness Raphael was swept upwards as well as his body got stunned. Adrian's spear suddenly shined with a deep purple light as he used the next skill.

"Star Descends!" Adrian shouted as he appeared just above the Angel of Kindness Raphael.

Adrian then slammed the spear which hit the head of the Angel of Kindness Raphael. The Angel of Kindness Raphael could not defend himself immediately and is sent crashing down. Since the pocket dimension did not have the concept of ground, the Angel of Kindness Raphael did not get additional damage, but he was still sent free falling down. The spear's head suddenly glowed gold as the image of a dragon manifested.

"Star Dragon's Strike!" Adrian shouted as a dragon silhouette was sent flying in a straight line from his spear.

Chapter 1863 Against Neo Angel Raphael II

1863 Against Neo Angel Raphael II

A golden dragon silhouette is released from Adrian's spear which directly hit the Angel of Kindness Raphael. The Angel of Kindness Raphael did not even flinch and just accepted all the damage since he knew that he will not die. The Angel of Kindness Raphael looked extremely hurt but that all changed in just one second.

"Healing Light." The Angel of Kindness Raphael stated.

A powerful wave of holy light swept through the body of the Angel of Kindness Raphael. All the injuries that he sustained from the combo attacks are healed. Even the health bar that he has become full which irritated Adrian but his soulbounds continued the barrage.

"You cannot win, and you cannot sustain this dimension with me. Surrender your life to the Goddess of Light Luminaria." The Angel of Kindness Raphael stated.

"I would rather hide in a hole." Adrian stated as he continued to attack once again.

Adrian did not know how many combos attacks he used as his spear continued to hit the Angel of Kindness Raphael. Just as the Angel of Kindness Raphael stated, Adrian was not able to kill him even with the help of three soulbounds. If the Angel of Kindness Raphael would go deep in the red, he would just heal back up like nothing ever happened.

Adrian did not stop his attack as he spent thirty minutes continuously attacking and any break from the combos will make the Angel of Kindness Raphael heal himself back. Adrian was about to initiate another combo when he noticed that the Angel of Kindness Raphael actually slightly evaded. He did not think this as weird, but he believed that such a thing would not happen again.

Adrian used Star Ascends once more but the Angel of Kindness Raphael did not just readily accept the attack like before. Adrian still managed to complete the combos of the Star Ascends skill and even continue it to Star Descends with the final strike being the Star Dragon's Strike. He believed that the Angel of Kindness Raphael would heal himself immediately but there was a few second delay.

"It might be a few seconds in delay but that is enough to see that he is not infinite." Adrian thought as he smiled but even, he was not infinite as well.

Adrian used up all his energy gauges whenever he attacks but he restores half of his primordial energy with each combo attack. The only thing that Adrian cannot restore easily is his nether energy since that needs to naturally get back. Adrian wanted to use his domain, but he wanted to save it for the battle against the Goddess of Light Luminaria.

"Sirius and Dodu! Use your domains!" Adrian commanded as two of his soulbounds released different energies.

The entire area is suddenly covered by a red haze as Samael's domain has activated. Sirius also vanished from the Angel of Kindness Raphael's sight. Dodu, on the other hand, released its domain as well but not much changed in the area as only a soft energy is released. The one that has the most changes when inside the domain is Dodu.

Dodu's body became shinier as if it got a glossy coating. Dodu is the first one to rampage as it becomes more aggressive once the domain is activated. Dodu created a mouth in which it roared as numerous slimy tentacles shot out of its body to corrode the Angel of Kindness Raphael.

The Angel of Kindness Raphael would have just accepted the damage just like before but something inside of him screamed to dodge. The instinct of the Angel of Kindness Raphael clashed with its new personality that the Goddess of Light Luminaria installed. Due to this, the Angel of Kindness Raphael was not able to immediately dodge.

Dodu's tentacles managed to grasp one of the Angel of Kindness Raphael's wings. For the first time since he was attacked, the Angel of Kindness Raphael screamed out in pain. Dodu's tentacles managed to dissolve the wing of the Angel of Kindness Raphael without much resistance.

"Healing Light!" The Angel of Kindness Raphael shouted as panic could be heard from its voice.

Tried as he might, the Angel of Kindness Raphael was not able to restore the wing that is being corroded by Dodu. Adrian smiled as the attack that Dodu did was infused with all the nether energy that he currently has. He gambled but he won the gamble as one of the wings have been destroyed.

"Sirius, use Realm Ender." Adrian muttered.

Sirius suddenly appeared next to the wailing Angel of Kindness Raphael. With a powerful bite, Sirius managed to bite off the Angel of Kindness Raphael's two wings. Sirius would have bit off the head, but the Angel of Kindness Raphael managed to dodge as his reflex actually kicked in. Along with the return of the Angel of Kindness Raphael's partial emotions, he regained some of his instincts and reflexes.

"ARGH!" The Angel of Kindness Raphael shouted in pain.

This time the Angel of Kindness Raphael healed the two wings that Sirius bit off while he flew away. Since Adrian was not able to enchant Sirius with nether energy, the two wings were able to get healed, but the pain was extremely felt. The wings healed but they were no longer the same as cursed marks could be seen on them.

"The Poison of God. It actually came with Samael's domain which you should know something about." Adrian stated as his spear was no longer in his hands, but he was still wearing the same martial armor.

"Perfect Healing Light!" The Angel of Kindness Raphael stated as he used more energy to heal his health back to full, but he only recovered 90% of his total health.

"Oh! It seems that destroying one wing would mean lesser healing power. Thank you for showing your weakness." Adrian stated but not just anyone can use that weakness against the Angel of Kindness Raphael. One would have to obtain an ability to negate any healing in order for that to even happen.

Chapter 1864 Against Neo Angel Raphael III

"Even if you know my weakness, you cannot defeat me. I will be able to heal myself once I rid of myself from this energy." The Angel of Kindness Raphael stated.

"I see. Then I hope you can survive this. Big Bang!" Adrian stated as his spear has already charged enough power.

The spear was covered in pure energy that went straight towards the Angel of Kindness Raphael. The Angel of Kindness Raphael tried to create a barrier powerful enough to defend against the spear, but Dodu actually tore a piece of itself. Dodu threw the torn piece of itself towards the area where the spear would hit.

The torn piece of Dodu managed to corrode the barrier enough for the spear to pass through it. Kimat also summoned lightning which hit the barrier to weaken it even further. The spear entered

the barrier and made contact with the Angel of Kindness Raphael. The Angel of Kindness Raphael tried to create another barrier to protect itself, but a powerful explosion of pure energy happened.

The explosion of pure energy would have affected a large location, but it was centralized due to the barrier created by the Angel of Kindness Raphael. The explosion that should have weakened when it goes outward is instead cascaded back to the middle where the Angel of Kindness Raphael is located. The Angel of Kindness Raphael is ravaged by the intense explosion of pure energy that his scream was so loud.

When the explosion of pure energy finally settled down, the pitiful form of the Angel of Kindness Raphael could be seen. The tattered cloth armor and wings could be seen while the Angel of Kindness Raphael clutched its chest. The wing that was corroded by Dodu has yet to heal back as the Angel of Kindness Raphael cannot purify the nether energy.

Two wings of the Angel of Kindness Raphael could also be seen to be marked by strange dark runes as the Poison of God has affected him as well. The Angel of Kindness Raphael could also be seen to be incredibly tired as he was breathing heavily. He might have powerful healing magic but even the stamina of an angel is limited when they are not exposed to light.

The reason why the Angel of Kindness Raphael is confident at first is the fact that he can heal almost infinitely due to being powered by light. Now that he is in a pocket dimension where light does not even exist, the Angel of Kindness Raphael started to use his own energy to heal himself. He might be able to restore his health, but stamina and mana are different.

"I am immortal!" The Angel of Kindness Raphael announced as he healed himself back to full, but something suddenly ached inside of him.

The Angel of Kindness Raphael suddenly coughed up golden blood since he is now considered a greater god. One might think that Adrian defeating a greater god would be impossible due to his level, but the Angel of Kindness Raphael is a special case. A greater god without direct damaging abilities would ultimately be overwhelmed by an offensive player. Adrian also has nether energy coating his attacks while his primordial armaments can also hurt gods.

In other words, Adrian is almost the perfect god killer amongst the players right now. He became the perfect god killer when the gods of death enhanced his power to rival lesser gods as he could almost one shot any lesser god. This is the reason why someone with the title of Champion of the Twin Gods or any champion of gods are terrifying to battle.

Any being that has the title of Champion of a god has increased damage towards godlike beings. Coupled with Adrian's primordial armaments and nether energy, the gods of Pandemonium basically fear a being that can negate their defenses. Being the Champion of the Twin Gods also makes him able to harness energies from other gods of death or life if they empower him. The power that Adrian possess is actually tilted more to the divine entities rather than mortal enemies.

"You are not immortal because even gods can be killed. You should know because your own goddess has killed gods before. I shall do so with you as we no longer have no time. Nether Domain!" Adrian stated as he needed to kill the Angel of Kindness Raphael as only twenty minutes remain inside the isolated space.

"Netheros True Form!"

"Limit Break: Summoner!"

Adrian did not pull his punches anymore because he received an ominous message from the other side. The entire area is covered with nether mist as Adrian also summoned all of his active soulbounds to join him. The Angel of Kindness Raphael knew that the energy that corroded his wing is now filling up the area. A feeling that the Angel of Kindness Raphael has never felt suddenly manifested inside his mind.

"I need to get out of this realm!" The Angel of Kindness Raphael stated as he tried to find a way out of a realm that has become his prison.

A primordial instinct and emotion that has been erased by the Goddess of Light Luminaria. The most powerful angels have been repressed when it comes to the emotion of fear as they were created as such. The Goddess of Light Luminaria knew that fear is something that weakens a being, but she did not understand that fear makes beings stronger when they overcome it.

"Master, we should use the skill that I have succeeded in creating." Paradox stated as it has created a skill that even Adrian did not expect to create.

"Is the magic circle now stable? I know that I have checked it, but we have yet to test it." Adrian replied.

"The spell is now 99% stable. The master can use it now." Paradox stated.

"If you say so. Activate the skill 'Chaos Apocalypse'" Adrian stated as a powerful energy suddenly came out of his body which also took in the energies of all his soulbounds.

Chapter 1865 Chaos Apocalypse

==

Skill Name: Chaos Apocalypse

Skill Tier: Unique

Skill Type: Active – Player Created

Effects:

- Create a powerful magic circle with your astrolabe as the catalyst that deals damage in a large area with the user in the center.
- The damage is depended on the energy type that is fed inside the astrolabe.
- Deal 1000% of your total combined physical and magic damage plus 1000% per soulbound that has been summoned.
- Adds the attributes of the soulbounds summoned to the spell.
- All summoned soulbounds will be sent back to the Soul Chamber and cannot be summoned for one hour.

Cast Time: Instant

Mana Cost: 50% of Total Mana

Cooldown: 2 hours (Additional 30 minutes per soulbound summoned during the skill activation.)

==

All of Adrian's soulbounds were unsummoned but all of their energy were concentrated towards Paradox. The magic circles of each soulbound could be seen hovering over Paradox as they were all sucked inside the astrolabe. With each magic circle absorbed, Paradox changed color as it received the elements of each soulbound that entered.

The current Paradox absorbed all the energy of the nether domain at first, but it also absorbed the aether energy that Adrian converted. He then absorbed the magic circle that Sirius had which had the glyph of a black wolf. Upon doing so the astrolabe suddenly created a dark halo that is filled with shadow energy.

The next magic circle that was absorbed is Kanlaon which had the glyph of a golden dragon. A golden halo with dragon scales appeared and revolved around the astrolabe. The next one is Saena as her magic circle had the image of a large Simurgh. The halo that she created is of pure white that shines in a kaleidoscope from time to time.

Another magic circle is that of Charon which had the glyph of an undead wrapped in chains. The form of a halo of bones emanating miasma is the image of Charon's halo. Next would be Dodu's glyph which took the form of a large iridescent slime with tentacles. The halo that Dodu generated is a clear ring that is smooth to the touch.

The next magic circle came from Kimat which now has the image of a white tiger with purple stripes but behind it is a cloudy black tiger with silver stripes. The halo that Kimat created is more lightning as it is just lightning flowing in a ring. The last ring that is created is that of Wisteria which had the image of a dragon turtle with a tree on its back. The halo that is created are made of roots entangled in a ring.

Each of the energies did not clash against on another which is impossible because they did not have the same wavelengths. Even the Angel of Kindness Raphael did not think that something like that is possible. The Angel of Kindness Raphael knew that something like what Adrian is doing is impossible because it is akin to balancing the light that different gods of light are doing.

They may have the same base form which is light but that does not mean everything is the same. A slight deviation could cause catastrophic explosions. The fact that seven different energies from seven different entities are not going haywire is a miracle in itself.

All seven halos are then directly absorbed by Paradox by becoming a small black hole. When Paradox absorbed all of the energies of the soulbounds, a powerful energy exploded but the spell did not backfire. Instead, Adrian's appearance shifted for a bit which made the Angel of Kindness Raphael tremble as if he saw something that he should never have witnessed.

Adrian's silhouette looked like a being with a million eyes, heads, and appendages yet unified. The Angel of Kindness Raphael felt all those eyes look at him with malice which awakened the most primal of fear inside of him. The Angel of Kindness Raphael felt like the very essence of the universe itself was trying to kill him.

"I must escape even if I have to burn away the Goddess Fragment!" The Angel of Kindness Raphael shouted in panic as he was finally free from the absolute control of the Goddess of Light Luminaria.

The Angel of Kindness Raphael did not know why or how he was freed from the control of the Goddess of Light Luminaria. He felt that it might have been due to the silhouette that he saw earlier but he does not want to stay and find out. The Angel of Kindness Raphael felt deep inside that

receiving the damage of the spell that Equinox is using is not something that he can survive or even defend.

"I will truly die! Found it!" The Angel of Kindness Raphael instincts shouted at him as he used every bit of energy that he can muster to look for that dimension exit.

"Chaos Apocalypse!" Adrian stated as a powerful explosion happened with him at the very epicenter.

A powerful explosion of all combined energies that Adrian and Paradox have infused are released into the entire area. The explosion of energy is so powerful that it brought down the dimension's walls which created rifts to escape the disaster. The Angel of Kindness Raphael would have been overjoyed from the appearance of such rifts, but he was in a desperate struggle to live.

The Angel of Kindness Raphael started to use the Goddess Fragment that was handed to him by the Goddess of Light Luminaria. The helmet that fully covered his upper head started to turn into particles of light. The goddess fragment was actually the helmet that covered the heads of the neo angels.

"I will live nooo... I must live!" The Angel of Kindness Raphael shouted as he even used part of his soul to create the most powerful barrier of holy light that he could muster.

The barrier that the Angel of Kindness Raphael was able to block the initial seconds of the explosion but that was only the initial explosions. With seven soulbounds being absorbed, the skill Chaos Apocalypse would result in ten explosions as Adrian also supplied it with nether energy, aether energy, and primordial energy. The Angel of Kindness Raphael thought that he could survive as he was able to block two explosions but that was all an illusion he created in his head.

The third explosion finally broke the most powerful barrier that the Angel of Kindness Raphael could conjure up with the time and energy that he could muster. The fourth explosion sent unbearable pain course through the body of the Angel of Kindness Raphael which made him close his eyes. Upon opening his eyes, he suffered the fifth explosion which disabled the goddess fragment as his helmet became no more.

"I must live. Perfect Healing Light!" The Angel of Kindness Raphael shouted as he gritted his teeth.

A powerful warm light covered the Angel of Kindness Raphael's body which healed him to a certain extent. He also healed his eyes in the process which might have been the biggest mistake of his life. The Angel of Kindness Raphael actually saw something inside the explosions as if they were not really explosions, but bursts of energy released by that horrifying entity that he saw as a silhouette.

[You have driven your opponent the Angel of Kindness Raphael into madness.]

Adrian received a notification that he did not expect as the magic spell that he created with Paradox did not have such effect. He then remembered that his nether domain could induce Paranoia which may have affected the skill since nether energy was the most abundant. What Adrian did not know is that his three energies fused into something that should not have been possible at this stage of the game.

"SPAR..E M..E.. I..ARHHH!" The Angel of Kindness Raphael shouted and pleaded as his voice trailed off.

The Angel of Kindness Raphael tried to utter more words, but he could not as the succeeding explosions destroyed his body to the point that nothing was left. The explosions even continued even after the Angel of Kindness Raphael was already dead. Adrian could not even see anything clearly because his vision was also blanketed with numerous lights and energy spreading out.

[You have killed the Angel of Kindness Raphael.]

[The link to the barrier protecting the Goddess of Light Luminaria protected by the Angel of Kindness Raphael has been broken.]

Adrian was finally able to clearly see the notifications after all the explosions ended. He thought that the last explosion was the end of it but all the energies that were released was suddenly sucked back in into Paradox. Upon all the energy returned, the shape of Paradox finally manifested as if it was the one that exploded and then came back together. If the gods saw this then they would have charged towards Adrian as fast as they can because they knew that Paradox has become something more than an ego weapon. Paradox was able to transform itself into Pandora's Box.

Chapter 1866 Fragment of an Unknown Light God

[You have defeated the Angel of Kindness Raphael that has transformed into a Neo Angel.]

[You have received a large number of experience points.]

[You have gained Divinity Stat +2]

[You have received the Fragment of an Unknown Light God.]

Adrian held a crystal that is leans more into a form of energy than a physical thing. He felt immense light energy from the crystal just like the time he held fragments of the Sun God Ra. The only difference back then is that this light fragment had no owner. All it had was that it came from an unknown god and not from the Goddess of Light Luminaria.

==

Item Name: Fragment of an Unknown Light God

Item Tier: Unknown

Item Type: Fragment of a Divine Entity

Uses:

-?Unknown but it gives a warm feeling to anyone that possesses it as if they are being hugged by light.

Description: The Fragment of an Unknown Light God that has been used as a medium for the power of the Goddess of Light Luminaria. It is said to come from the forgotten god of light that was destroyed in an ancient war of the gods. It might be a simple fragment of divinity but even High Gods cannot use it as they please.

==

The Fragment of an Unknown Light God came with more questions rather than answers. The Angel of Kindness Raphael used all the power that the goddess fragment had. It was only when he died did the Fragment of an Unknown Light God dropped. Adrian can infer that this was the goddess fragment that the Angel of Kindness Raphael was praising but it did not drop as such.

"Based on the description, this should be the original form of the goddess fragment. The fragment itself was not created by the Goddess of Light Luminaria herself. She just used fragments of the gods of light that perished just like what she did when she created the Fallen. Should I throw this away because I can feel such great burden from it?" Adrian stated.

Adrian actually felt that the Fragment of an Unknown Light God was more of a hassle than a blessing to him. He already has a lot on his plate because he needed to find the Eye of Chaos. The world becoming bigger can no longer be monitored just by the current number of Daemos. The population needs to get bigger as they are spreading their forces too thin.

"Maybe if I just toss it in this disintegrating dimension..." Adrian said as he casually flicked the Fragment of an Unknown Light God towards a rift as if he did not intend to do so.

Adrian is about to turn back when something hit him in the head. The Fragment of an Unknown Light God that he tossed into the rift went flying back to him. A look of disbelief could be seen plastered on Adrian's face as he did not think that such an item possessed an ego or a will.

[You have awakened part of the consciousness of the Fragment of an Unknown Light God.]

[This awakened consciousness will be called Light.]

The small light fragment suddenly turned into a small chibi male pixie. He had pure gold eyes and silver hair with small wings made of light. With each movement of its wings, light sparkles could be seen fluttering about. He was so small that he actually can fit inside of Adrian's palm.

"You dare throw away this divine being!" Light stated as he huffed and crossed his small chibi arms.

"And who is this divine being? You might be called Light but what is your real name when you were a god?" Adrian replied as he was not pleased that this attached character is now leeching of him and is stuck to him.

"I am... Wait??? Who am I again? I was split apart for too long that I do not even remember my real self." Light stated as he suddenly flew around Adrian as if he was thinking too deep.

"See! You do not know who you are. Maybe you should bother someone else that cares. I am a very busy person and I know that doing business with gods is not something that mortals should do." Adrian stated.

"Mortals? You... a mortal? That is one of the funniest jokes that I have heard and seen even back then. You are Chaos Spawn with the Seed of Chaos planted in your body. Do you really think that you will have no business with gods?" Light stated as he pointed at Adrian.

"Chaos Spawn? Seed of Chaos? What are those?" Adrian stated.

"Are you dumb? Chaos Spawn is ... uh... What is it again? I am too incomplete to even formulate correct thoughts that my memory is blanking." Light stated which made Adrian sigh loudly as this small thing is just blabbing about things that sound important but cannot even tell him.

[Levin Cloud: Hurry! We need your help now!]

Levin Cloud suddenly pinged Adrian that they need his expertise now as the two remaining Neo Angels are decimating the forces. Adrian did not argue with the small being that suddenly appeared.

What Adrian knew is that this small being is now stuck to him as it is feeding off some of his own mana.

"If you give me more fragments like me then I might be able to recall it! You should be honored to be of service to a being such as myself." Light stated.

"You do not even know what kind of beings yourself is. Anyways, we are out of here because I have more pressing issues other than you." Adrian stated.

Adrian then grabbed Light with his hand as he released his wings to fly towards the exit that he created for the pocket dimension. The small being struggled as Adrian may have gripped too tightly but he could care less as the dimension itself was getting destroyed. It seems that the battle outside was too destructive that his spell has also been hit.

Chapter 1867 Demigods Losing

The dimension collapsed in on itself, but Adrian was able to escape. He emerged in the same location where he and the Angel of Kindness Raphael vanished. What he saw was pure slaughter as bodies of demigods have piled up. The souls of the demigods could be seen floating about and escaping so that it would not be damaged by the two Neo Angels.

The allied army could be seen fighting against the two Neo Angels which have different appearances compared to before. The Angel of Humility Mikhail and the Angel of Patience Gabriel have activated their goddess fragments just like the Angel of Kindness Raphael on his last struggle. The only difference with the Angel of Kindness Raphael is that they have fully absorbed its power.

"Is this game crazy! They practically are one step away from having the strength of a High God." Adrian exclaimed as he suddenly felt immense danger.

Adrian did not even wait for something to happen as he immediately activated Enhanced Blink. He appeared a couple of meters away and saw the Angel of Humility Mikhail slash at his location. Adrian met with the gaze of the Angel of Humility Mikhail and immediately used blink once more to reach the area where Levin Cloud was.

"That was close!" Adrian muttered as he looked back but the Angel of Humility Mikhail did not follow him.

"You are back! To think that you managed to defeat the Angel of Kindness Raphael! I guess that is already expected of you." Levin Cloud stated as his armor could be seen to be extremely tattered as if he was battling nonstop.

"I was able to defeat him, but it took all I had to even do something like that. I cannot recover any energy in my body for the next hour. All I can do is summon my armaments as I am also sealed in summoning my soulbounds." Adrian stated.

"You can still use origin magic and your mirror armament which is what we need. Those two Neo Angel have become unstoppable when they suddenly changed form. Only an hour and ten minutes are left before the Goddess of Light Luminaria integrates with the world." Levin Cloud stated.

"Okay then. Let me support the army with my mirrors. That is the least I could right now, but can you explain the situation." Adrian stated.

"Maybe you should explain the situation first. Why do you have a small pixie in your hand?" Levin Cloud stated as he saw the struggling small being held by Adrian.

"I...ca...not...breathe!" Light stated which prompted Adrian to let go of him.

"Unfilial being!" Light stated as he made small, cute punches at Adrian's cheeks, but the latter hardly felt anything.

"Long story but the short version is that it materialized out of a divine fragment of an unknown god. Your turn to tell me as I prepare." Adrian stated as he started to try and summon his armament.

"Primordial Armament: Mirror" Adrian stated but nothing happened.

"Primordial Armament: Mirror" Adrian repeated but nothing happened again.

[You cannot summon your Primordial Armament due to being in a sensitive state of Energy Reflux.]

"What!?" Adrian shouted which got the attention of some of his guild members that were near him.

"Why?" Levin Cloud asked.

"I cannot summon my armaments. It is saying that I am in a state of Energy Reflux, but I am fine. I am not even tired or felt hurt when I used blink earlier." Adrian stated.

"Dude! You cannot feel it because the side effects that are notable are cleansed by your bloodline. It does not mean that you are completely safe. Your armaments are made of materialized primordial energy, right? Life Sanctuary!" Levin Cloud stated as he suddenly saw a large spell being used by the Angel of Humility Mikhail.

"Grand Light Cross!" The Angel of Humility Mikhail stated as he crossed his swords to create a powerful light explosion with him at the center.

The light energy explosion swept across the entire area which had a great reach as it spanned thousands of meters. Levin Cloud erected a powerful sanctuary that covered the area where the guild is. The guild was protected by the sanctuary, but they were not safe from the blinding effect of the light explosion.

[You are inside of the Light Sanctuary.]

[You will be immune to damage for five seconds.]

When the light faded out and the sight of everyone returned, the demigods that were fighting against the two Neo Angels have dropped significantly once more. Adrian could only see twenty or less demigods remaining in battle. The hundred demigods were defeated while the enemy is still thriving.

"I really did get extremely lucky." Adrian thought as he knew that if he brought any other Neo Angel from the two present here then he would be the one that dies. The Angel of Kindness Raphael did not have any offensive magic spells which tilted it more to his favor even though the former was incredibly durable and difficult to kill.

There was also another factor that Adrian did not consider why he was lucky. The Angel of Kindness Raphael did not have access to any light source which he can siphon mana from. The remaining two Neo Angels have the sun and the light emitting from the Goddess of Light Luminaria to empower them.

"I even used all of my revival spells to revive the demigods since all they need is fixing their mortal bodies. Creepysoo tried to defeat them with his undead dragon but that all changed when the two neo angels changed forms. Even the dragon kings are in a bad condition as they are being targeted heavily by the two as well." Levin Cloud stated.

"Have the churches tried to summon their gods?" Adrian asked.

"They did but those two are intelligent to the point that they would use powerful and fast spells to disrupt the holy relics. We need a better distraction in order to summon the gods with at least the power of a greater god." Levin Cloud stated.

"Get me two bodies of demigods then." Adrian stated as he knew what he had to do.

Chapter 1868 Two Bodies Needed

"Two demigod bodies? What are you going to do with those?" Levin Cloud asked.

"I would need them as mediums so that the summoning of our chance to win becomes faster. The chant that is supposed to be ten minutes would be shortened to one minute if I have powerful materials on hand. The guild will have to defend me for one minute as I will not be able to defend or attack during that time." Adrian replied with seriousness.

Levin Cloud wants to ask more but time is not on their side at this battle. The demigods are dying, and their divine souls are escaping. Some demigods are even leaving their bodies before it gets destroyed as they do not want to feel pain or would want their souls to escape faster. The demigods might not be showing it but the blade that the Angel of Humility Mikhail is using has special properties that can harm souls.

"I will tell Vayu and Lycan to get two of the finest bodies then. Do you need anything else in preparation?" Levin Cloud asked.

"Pray that the gods are not busy." Adrian stated.

==

The situation of the battle against the Goddess of Light Luminaria is also partially affecting the world. The light that seeps into the world seems to be chaotic as there would be random bursts of light that would come when it should be night. Numerous guilds are also participating in the subjugation of the Goddess of Light Luminaria.

Due to guilds participating, all of the battle has been broadcast in their respective channels. The Pantheon guild is also doing the same which means that the overall atmosphere of the player base is not good. There was great hope that the Goddess of Light Luminaria will be defeated because of the first part of the battle where they had the upper hand. This hope soon vanished when the demigods started dying like flies against the sword and shield of the two neo angels.

Still for the ordinary watchers, the battle against the neo angels is incredibly exciting. It was a battle so exciting that almost all of the world population is watching it. Movies have been becoming less favorable ever since the conception of Pandemonium as the battles in it was top quality. Streaming content of Pandemonium is actually more profitable if the battle is exciting.

Some guilds would even make a story line for quests that are linked. This garnered something like a watchable series which got great attention. Live broadcasts are the favorite though as no one can

predict what will happen which is why it is the most popular. The live feed of the battle is actually being reported on the news and even have some people doing gameplay analysis.

The overall analysis for the battle against the Goddess of Light Luminaria was that the allied army will lose. The Goddess of Light Luminaria is still spawning numerous Luxera while she is being protected by the two neo angels powerful enough to cleave a demigod in two. The populace fears that the world of Pandemonium will change as the descent of a goddess is near.

==

"We got the two bodies." Levin Cloud stated as Vayu and Lycan brought two bodies of demigods that are not that damaged.

"Restore them." Adrian stated.

"Even if I restore their bodies, the demigods can no longer enter a body that they have rejected." Levin Cloud stated.

"Oh no. These bodies are not for demigods. They would be for gods. We should not give the gods a body that is heavily destroyed or else they might nag that they are not getting the treatment they deserve." Adrian stated.

"If you say so. I need five minutes each for the body restoration." Levin Cloud stated.

"Call me once you are done. I will now brief the guild on our game plan." Adrian stated as he approached his sister that is also acting as the commander in his absence earlier.

"What is the damage report?" Adrian asked Solstice.

"Not good. We are only left with 10% of our healing potions and 20% of our mana potion reserves. The good news is that the guild is alive but barely." Solstice stated.

"That is good." Adrian stated which baffled his sister.

"Good? Are you seeing what I am seeing? We are going to lose at this rate and the greatest menace has yet to be damaged." Solstice stated as she pointed at the sphere of light containing the Goddess of Light Luminaria.

"We can do this... I hope. I need you to do something, sis. I need you to summon the dark skies." Adrian stated.

"I tried that earlier and Lycan as well. We cannot use our skill to make the time of day into night. Something is blocking us from summoning the night sky." Solstice stated.

"To be precise, she is blocking you." Adrian stated as he pointed at the light sphere containing the Goddess of Light Luminaria.

Summoning the night sky as mortals while an actual goddess of light is present is incredibly courageous and impertinent in the eye of said goddess of light. She would definitely seal the night sky as long as she is present since she will be weaker during such time of day. In fact, the area that they are in is the only place that is not changing in terms of skies.

"If a High God is blocking us then we do not have the capacity to do it then." Solstice stated.

"You already have enough blood to combat against one of the neo angels, right? What if you use that to summon the night sky?" Adrian stated.

"I have enough to fight them but even I cannot win by myself. Using the blood to empower my spell is something that I can do but it would also take both Lycan and me. I do not know if would be enough to bypass the powers of a goddess of light though." Solstice stated.

"You can do it... maybe with this." Adrian stated as he passed something to Solstice before returning to Levin Cloud as he told the former that he has finished restoring the dead bodies.

Adrian also told him that they should do it as soon as the two neo angels have taken notice of him. Solstice nodded as she clutched the vial that her brother gave her. She also called Lycan of what they are going to do next and also instructed the other guild members.

==

"I restored them to the point that there are no injuries in their bodies. Who would have thought that I would use the Corpse Restoration spell that those old crones are pestering me to learn." Levin Cloud stated.

"Great job but now comes the hard part. Is everyone ready?" Adrian stated via the guild chat as all of them have now been briefed on what they needed to do.

"Ready!" The guild members shouted in agreement.

"Ok then. Let us summon some Gods of Death." Adrian muttered as he suddenly slit his palm.

When Adrian slit his palm, the air around him suddenly started to change. His eyes suddenly became pure black holes that looked like it is swallowing all of the light. The area that he was in started to become heavy which made those that were not used to such atmosphere give him some distance.

If one were to look at the wrist that Adrian has slit, blood did not drip as his entire arm is suddenly covered with magic runes that had this miasma. Adrian slit his other palm and that arm also became covered with runes and miasma. All of the beings in the area suddenly felt an oppressive force get released that they instinctively looked at.

"He did say that this would get the attention of the enemies, but everyone actually looked at us." Levin Cloud stated.

"Kill the heretic!" A voice filled with emotion of anger was suddenly heard from the Angel of Humility Mikhail.

As soon as the Angel of Humility Mikhail announced his emotion filled statement, all of the Luxera came flying towards Adrian. To make matters worse, the Angel of Humility Mikhail himself started to fly towards Adrian as well while the Angel of Patience Gabriel protected the light sphere. There was such intense emotion that came from the Angel of Humility Mikhail as if a cornered animal trying to fight back.

"Let the Night Fall!" Solstice and Lycan shouted as a powerful darkness suddenly rose to the skies.

The Luxera that were flying towards Adrian were swept by this powerful darkness. The Luxera tried to fly away but the darkness swallowed the light beings until they were nothing. The area that was filled with sunlight is suddenly bathe in the darkness of the night. A large new moon is suddenly looking down on all the beings that were in the area.

[The Night has been summoned.]

[All beings of light shall have their stats decreased by 20%.]

Chapter 1869 Summoning Death

[The Night has been summoned.]

[All beings of light shall have their stats decreased by 20%.]

Two notifications that should have been normal has suddenly activated the burning desire of everyone to defeat the neo angels. Even the demigods that noticed the significant drop of power of the two neo angels started creating their mortal flesh once again. The Luxera became weak to the point that some are easily killed with one or two attacks.

The armies that were struggling started to fight back as the threat known as the Angel of Humility Mikhail found a different target. Adrian was now the prime target of the Angel of Humility Mikhail even though he was not the most powerful being present there. What the Angel of Humility Mikhail could feel is the instinct that death is about to arrive.

It is not just the Angel of Humility Mikhail that could feel such unknown pressure. All the demigods that were in the area felt it as well which prompted them to look at Adrian when he started the spell. An unknown feeling came from Adrian that made the living want to evade him as if he was the door to death.

The Angel of Humility Mikhail knew that the Champion of the Twin Gods was up to something as well. He actually wanted to kill Adrian when he showed up which is why he tried to cut off his head at the moment he showed up. The Angel of Humility Mikhail thought that he succeeded but the Champion of the Twin Gods have sensitive instincts as well. He wanted to follow up that attack, but the Goddess Fragment restricted that intense emotion which ended him only sticking near the light sphere containing the Goddess of Light Luminaria.

The Angel of Humility Mikhail was incredibly fast that it was almost difficult to catch his shadow, but night suddenly came. The Angel of Humility Mikhail felt a part of his body become heavy as a powerful restriction came upon him as if the darkness itself was holding him down. The Angel of Humility Mikhail looked up at the night sky and thought he saw a woman in a black gown looking at him with a stare full of great enmity.

The normal players might not have caught it, but the perceptive demigods felt it. They felt divine presence when the darkness came. Some even had to unconsciously look down as they felt the divine presence in the night sky. The demigods were just happy that they were not squashed like a bug.

"What the heck is happening here! The gods themselves are risking some divine energy in order to pin the Goddess of Light Luminaria down." The demigods thought.

Some of the demigods that just came started to rethink their decision in joining as they felt the presence of divine beings. Some continued to fight but prioritized their survival but some fought earnestly, and they were the ones that are still very much alive. Still, their gazes would wander towards the being that was holding two demigod corpses by the hand.

The Champion of the Twin Gods, Equinox, was doing some sort of ritual that created an area of pure death energy. Even the demigods would not even dare to step foot near him as they might get swallowed up. Even demigods know not to bother with the beings that were chosen by the Gods of

Life or the Gods of Death. Beings that serve those gods can give demigods what they call 'True Death'.

"That angel is just psychotic. Still, I have to thank the Champion of the Twin Gods because we can now only deal with one." Some of the demigods thought as they stared at the Angel of Patience Gabriel.

"Divine Sword Break!" The Angel of Humility Mikhail shouted as his right sword glowed in a powerful aura of light.

The sword of the Angel of Humility Mikhail was about to hit Adrian's neck when a blood red sword and a blood red claw suddenly stopped it together. The sword was about an inch away from decapitating Adrian's head when it was stopped by two beings that were covered in great darkness. A vampire with a combat dress made of shadows and a werewolf where all parts of his body has been turned into a bipedal wolf.

"Blood Sword Arts: Mono!" Solstice stated as her sword glowed in a blood red light which was empowered by the darkness of the night sky.

"Lycanthrope Arts: Blood Claw!" Lycan stated as his claws also glowed blood red.

The combination of the two skills that Solstice and Lycan used was enough to parry the weakened Angel of Humility Mikhail. The Angel of Humility Mikhail needed to follow up his attack which is why he tried to cut Adrian's head off using the other sword in his hand, but he was not the only one thinking of such. Solstice has already prepared another one of her blood blades and controlled it with her mind.

Lycan, on the other hand, preferred a more direct approach which is biting off the Angel of Humility Mikhail's head. Seeing that he would be able to kill Equinox should he sacrifice some damage, the Angel of Humility Mikhail went on with his attack. This decision was mostly enforced by the goddess fragment as well because the Angel of Humility Mikhail will never make a decision that would make lowly beings touch his body.

"Bone Wall!" Creepysoo stated as Adrian was suddenly surrounded by a wall of bones.

"Nature's Protection!" Levin Cloud stated as vines started to cover the bone wall created by Creepysoo.

"Elemental Barrage!" Peridot stated as she transformed five of her shards into sharp projectiles that were sent flying towards the Angel of Humility Mikhail.

"Guardian's Blessing!" Kabrakan stated as he used a spell that diverted half of the damage that Adrian received to him as he would not be able to defend him.

"Storm Blade!" Vayu stated as his blade also targeted the Angel of Humility Mikhail's wings.

"Protection of Fire!" Soleil shouted as she erected an immediate version of her barrier spell towards Adrian.

Numerous attacks were coming for the Angel of Humility Mikhail, but he did not flinch. A powerful sword was also about to reach Adrian's neck. Still, immediate protection spells were also used to make sure that Adrian is well defended. The blade with pure light reached the barriers created by the others and a powerful explosion of energy occurred.

All the attacks that the Angel of Humility Mikhail is about to receive landed as well. The Angel of Humility Mikhail did not show any discomfort of having the attacks land on him though, but it was incredibly painful. A blood sword pierced his back, he was bitten on the neck by a werewolf, a sword was able to destroy one of his wings, and five shards of different elements pierced his body.

When the smoke cleared, the image of all the top brass of the Pantheon guild could be seen sprawled on the ground. The feedback from the powerful attacks in such a close range is not something that can be easily done. Adrian looked unharmed but the Angel of Humility Mikhail started laughing which should not happen as his emotions were suppressed.

The guild members looked at Kabrakan and saw that his health was suddenly down to 20% from an initial 75%. The damage he received only meant that Adrian was also damaged but they could not believe it because they properly protected him. The Angel of Humility Mikhail suddenly stopped laughing as if something inside of him suppressed the sudden joy he felt.

The guild members looked at Adrian and they saw his neck being slit as he fell down. The look of horror upon the realization that their guild master was dying because they were not able to protect him. All of them combined were unable to protect one of them which should have been the simplest thing to do.

"Now the only hope that you had is dying. Watch as this world becomes under the Great Goddess of Light!" The Angel of Humility Mikhail stated.

Adrian looked at the Angel of Humility Mikhail with his dark eyes and smirked. The Angel of Humility Mikhail felt a chill, but he knew that was just a last bravado before dying. The Champion of the Twin Gods fell down on top of the two demigod corpses while his blood flowed on the ground.

"I should prepare to heal myself. The enemies of the goddess are still increasing slowly. Those who covet the divine essence of the goddess shall meet their end." The Angel of Humility Mikhail stated as his body burst in a powerful light that slowly healed his tattered body but not to the extent when he was healed by the Angel of Kindness Raphael.

Just as the Angel of Humility Mikhail was about to fly towards the goddess he served, a powerful energy of death suddenly exploded in the area he was in. Two dead bodies stood up as a powerful pressure suddenly came down on all the living beings.

Chapter 1870 Two Gods of Death in World of the Living I

When Adrian's eyes became pitch black, he was no longer looking at the world with the eyes of the living. His eyes were fully transformed into his Netheros eyes which sees the world in the land of the dead. He looked down at the two dead bodies and saw that there was some sort of portal inside of them which connected the world of the living and the dead.

Adrian used his connection with the two dead demigod bodies to call upon the two death gods that he has a contract with. He closed his eyes and another sight unfolded when he opened them. He was between two different realms of the death realm as if the two intersected with one another.

To his right was a realm of the dead that is orderly but filled with powerful death energy. To his left was a realm of the death that is riddled with dead bodies and decaying corpses. Two different figures came from the two different death realms as they answered Adrian's call.

"You have summoned me, Champion Equinox?" The God of Death Hades asked as he was not able to neglect the call that came for him.

"The Champion summoned me as well? The last time...kekeke... you said that you did not like me." The God of Death Ah Puch stated with his creepy and eerie laugh.

"I have summoned you because we are desperate. I do not want the Goddess of Light Luminaria to win, and I know that you do not want that as well. I know that she will start a purge when she does integrate with the world." Adrian stated.

"That hag will send me more work." The God of Death Hades muttered.

"She does not send great toys here. She always sends the most broken ones which is boring. Also, I do not like her because she called me ugly." The God of Death Ah Puch stated.

"Ugly is putting it lightly...you are actually revolting." Adrian thought.

"I wish for you two to descend on the demigod bodies that I have prepared and defeat the two Neo Angels that have gained the power equal to a greater god." Adrian stated.

"We can do that Champion Equinox but..." The God of Death Hades stated but he was suddenly interjected by the other one.

"Having bodies are not enough. We need energy! We need death!" The God of Death Ah Puch continued.

"The energy of death is already thick in the area that I am in. How much do you need?" Adrian asked.

"We need your life." The God of Death Hades and the God of Death Ah Puch stated.

"My life?" Adrian exclaimed as he did not think that this should happen.

"You normally have much energy to summon both of us, but you are weakened in your current state when you called upon us." The God of Death Hades stated.

"Your precious nether energy would have been the only thing we need to break the barriers of the mortal realm. As you know, only Thanatos is welcome in the mortal realm for he is the one escorting the dead souls to the afterlife." The God of Death Ah Puch stated.

Just as the two gods of death stated, the barrier for entry for a God of Death is much bigger compared to other gods. The gods of death can basically take life with only batting an eye if they wish. This is the reason why they also have their dedicated realms in the afterlife as their energies clash or intensify each other's.

"The two of us would have emptied your nether energy but you are empty even now." The God of Death Hades added.

"Thus, the only way for us to be summoned would be to have your soul be sent to the afterlife. You are very unique as an existence because you release much death energy when you die. The case is the same for the Envoy of the Twin Gods as well." The God of Death Ah Puch stated.

"I should not have said them to protect me then." Adrian stated with worry as he knew that his friends would definitely protect him.

"Oh no! Such death would not release such power. A death filled with uncertainty and remorse while performing something grand is the only way." The God of Death Ah Puch stated.

"Do not worry about your friends protecting you. You shall die." The God of Death Hades stated which shocked Adrian.

"I would like you to know that my friends will protect me. I might not die at this rate and waste the summoning ritual." Adrian stated but a god of death was saying that he would die.

As soon as Adrian finished his sentence, he suddenly felt his neck become loose. His sight shifted to the mortal realm as his neck was sliced by the Angel of Humility Mikhail. The Angel of Humility Mikhail triumphed and celebrated that he killed Adrian.

The Angel of Humility Mikhail's eyes and Adrian's eyes met but the latter actually smiled. Adrian smiled as he dropped to the ground and his blood covered the ground. A chill crept inside of the Angel of Humility Mikhail's skin, but he knew that he was victorious in the end. Still, the suppressed instinct inside of him screamed that he must run away.

"Ah! The mortal realm is such full of life that my nose is becoming stuffy." The body on the left stated as it suddenly rose from death.

"Behave. We must defeat the enemies that the champion told us. After all, we are only able to do this because of his sacrifice." The body on the right stated as well.

The two dead bodies of the demigods suddenly stood upright. All the beings present looked at the two beings that descended on the dead bodies and knew immediately. The bodies of the demigods were hijacked by two powerful gods that have the level of a greater god.
