

## Older Man 1301

### [Chapter 1301 A Strange Icon](#)

"I'm fine. You don't have to worry about me." Jiang Yu said, "I'm very safe here. I've also contacted Chang Kai. They're rushing over from Shanghai. If anything happens, I can ask him to help me solve it. You can stay in the Chu family and investigate you in peace."

"Alright," he said. Since Jiang Yu had said so, Mo Long could only give up.

The two of them exchanged the information they had found out and then hung up.

Not long after Jiang Yu hung up the phone, someone came in. Jiang Yu looked up and saw that it was Chang Kai.

"What are you doing here?" Jiang Yu asked in confusion, "have you resolved the issue of the illegal mining in the neighboring village?"

"It's been resolved." Chang Kai said with a hesitant expression.

Jiang Yu could see his hesitation and could not help but ask, "What's wrong? What's happening?"

After much thought, Chang Kai decided to tell Jiang Yu about it. "We found a strange icon in the village. No matter where I looked, I couldn't find the source of the icon. So I'm thinking, does this symbol have any special meaning?"

"What icon?" Jiang Yu asked.

Chang Kai took a picture of the icon with his mobile phone and showed it to Jiang Yu. "Look, this is the icon."

Jiang Yu looked at the icon carefully and found it very familiar, but she could not remember where she had seen it before.

"This icon ... I seem to have seen it somewhere before." Jiang Yu said, "it's just that it's been too long. I can't really remember it now. If you're not in a hurry, then give me some time to think about it."

"That's good." Chang Kai said, "I'll send this picture to your phone. Please remember it."

"Okay, but I can only try my best to think because I really can't remember where I saw this picture." Jiang Yu said.

"It's okay, I believe you." Chang Kai said and left with the illegal miners.

The village was also surrounded by a security perimeter, preventing anyone from entering or leaving.

Jiang Yu looked at the picture carefully and found it more and more familiar. She was certain that she had seen this picture before, or something similar.

Just as Jiang Yu was thinking about where she had seen this picture before, Feng Ran Ran ran in excitedly from outside. "Mei Shuang is awake!" He shouted.

"I'll go with you to take a look," Jiang Yu stood up and went to see Mei Shuang with Feng Ran.

When Jiang Yu and Feng Ran entered the room, they saw Mei Shuang leaning against the headboard. Although her face was still a little pale, she seemed to be in good spirits.

"Mei Shuang! This is the Savior I told you about. Her name is Jiang Yu and she's the one who saved us!" Feng Ran sat beside Mei Shuang. "She's here just in time. Quickly thank her!"

"Thank you for saving me." Mei Shuang nodded gently in acknowledgment. Then, she turned her gaze back to Feng Ran. "Miss, you're the one I'm worried about. Are you alright?"

"I'm fine. The hill isn't that high. When I fell, you were holding me in your arms, so I only have a few bruises." Feng Ran said nonchalantly, "you, on the other hand, suffered such a serious injury to protect me. When you've recovered and we return to the Feng family, I'll ask my father to buy you a big house."

"It's alright, miss. I'm a servant's daughter, protecting you is what I should do." Mei Shuang said and lowered her head slightly.

"What are you saying?" When Feng Ran heard this, she was a little unhappy. "What do you mean by servant? I only know that you're a good friend who grew up with me, and your mother was the Auntie who took care of my daily needs! And it's all thanks to you for protecting me when I rolled down the hill this time. I can't thank you enough!"

Mei Shuang raised her head and looked at Feng Ran when she heard that. She was very touched, and her eyes were filled with tears.

Seeing this, Jiang Yu could not bear to continue disturbing them and said, "You two take your time to chat. I still have something to do, so I'll be leaving first."

"Yes, yes!" Feng Ran didn't ask him to stay. She said, "if you have something to do, go ahead. We'll have dinner together later at night!"

"Yes. Yes," Jiang Yu replied simply and left.

When she left this time, she didn't return to her own house, but went to find the old village doctor.

### [Chapter 1302 Three Meanings](#)

The old village doctor was wearing presbyopic glasses and was reading a book on a rocking chair.

The rocking chair looked rather old and worn, and it would always make creaking sounds.

"Old village doctor, Hello." Jiang Yu walked over and said politely, "I have something to ask you."

"Oh, it's you." The old village doctor adjusted his reading glasses. "Just tell me what you want."

"Do you have any ancient books here?" Jiang Yu asked. "Anything will do, but it's best if it's related to the logo."

"Such a book ..." The old village doctor thought carefully and said, "Aiyo, I think there are a few books. Wait a moment, I'll go and find it for you."

"Alright, thank you." Jiang Yu thanked him politely.

The old village doctor went to his bed and pulled out a wooden box. He opened the box, and there was a neatly arranged stack of books inside. He flipped through the books and finally chose two books to hand to Jiang Yu.

"These two books are what you wanted." The old village doctor said, "this is a book that has been passed down for generations in my family. If you don't understand anything, you can come and ask me."

"Alright, thank you." Jiang Yu took the book and returned to her room.

Jiang Yu flipped through the books and tried to find a picture that was similar to the icon in her phone.

After searching for a long time, she finally found three pictures on the last few pages of the second ancient book.

If these three pictures were combined together, it would become the icon in the phone.

"No wonder I found this icon familiar." Jiang Yu mumbled to herself, "so it's these three pictures that have been combined."

These three pictures represented three meanings.

The first picture represented war, the second picture represented violence, and the third picture represented madness. The picture she had seen before was too big.

If the three pictures were combined into an icon, what would the icon represent? Did this icon represent these three things?

Jiang Yu told Chang Kai about this matter and said, "Where did you see this icon? I'm going to take a look too."

"It's in the village where the illegal mining took place," Chang Kai said. "In the first house, there's a pile of withered grass on the ground. This icon is under the withered grass."

"Alright, I understand. I'll go take a look now."

Jiang Yu went to the neighboring village and went under the security zone.

There were very few villagers in the village, less than 20 people in total. But they were all men, probably because men were stronger than women, so they could mine better.

Jiang Yu went to the first room, where a middle-aged man lived.

"Who are you?" The man asked, puzzled. "What's the matter?"

"Hello, my name is Jiang Yu. I'm a friend of the police." Jiang Yu said, "I heard that I found a strange icon on the floor of your house, so I thought of coming over to take a look."

"You're here to look at the icon too?" The middle-aged man kicked away the pile of withered grass on the ground. "This is it. I have a feeling that this is something unclean. After you're done looking at it, I'll cover it with withered grass. I really don't know what was used to draw this icon on the ground. I thought of many ways, but I couldn't remove this icon from the ground. I don't even dare to stay here anymore, I'm afraid that this icon will attract some dirty things to me."

"When did this icon appear here?" Jiang Yu asked.

The middle-aged man carefully recalled and said, "Not long. My house didn't have this icon before, but ever since the caretakers came, this icon appeared in my house. Although I thought it was a little strange, I didn't dare to ask. That group of people look so fierce, who would dare to go over and ask?"

"I know." Jiang Yu said, "other than this icon, are there any other strange icons in the other houses in your village? Or, did anything strange happen in your village?"

"If you're talking about strange things, then I remember." The middle-aged man said, "I don't know when it started, but every night when we go to bed, we can always hear the faint sound of crying. It felt very far from here, but we could hear it very clearly. And this sound only appears at night. We've never heard it during the day."

### [Chapter 1303 The Army Of Strange People](#)

"A sound that only appears at night?" Jiang Yu was curious about this. "Then, other than this sound, what else? Is there anything else that's strange?"

The middle-aged man thought about it carefully again, then shook his head and said, "no, that's all. It's been strange recently."

"Okay, I got it. Thank you." Jiang Yu said and turned to leave.

However, just as she was about to leave, a rooster flew in from outside the door. The rooster ran straight at Jiang Yu and pecked her on the leg.

"Ah!" Jiang Yu screamed in pain and fell to the ground, right on the icon.

She was still wearing a pair of thin pants today. The rooster's beak was sharp and pointed, and it pecked her very hard. This caused blood to flow out of Jiang Yu's leg and the blood dripped down her calf onto the icon.

"Aiya!" Finally, the man grabbed the rooster in a panic, his face full of embarrassment. "I'm sorry," he said apologetically to Jiang Yu. "My rooster has always been like this. It will bite as soon as it sees a stranger. I've always kept it locked up. I don't know how it flew out of the cage today. I'm so sorry!"

"It's alright, it's just a small injury." The corners of Jiang Yu's mouth twitched as she felt a sharp pain in her calf.

"Wait here for a while. I'll lock the chicken up and apply the medicine for you." The middle-aged man said as he left with the rooster.

Jiang Yu intended to stand up, but as soon as she did, she saw the icon under her emitting a dark red light.

The light grew brighter and brighter until Jiang Yu had no choice but to cover her eyes.

At the same time, the ground under Jiang Yu's feet kept shaking as if something was about to come out of the ground. The strange crying that the middle-aged man had mentioned before was also getting clearer and clearer.

The middle-aged man ran in from outside in a panic. He pulled Jiang Yu's hand and ran out, shouting as he ran, "Run! It seemed like an earthquake was coming! If we don't leave now, we'll be dead!"

Jiang Yu endured the pain and followed the man. The rest of the villagers also ran out in a panic.

After running for a short while, the shaking of the ground stopped. The villagers ran to a higher Hill and looked at their houses from afar. There were no signs of collapse.

"It's a good thing the earthquake this time wasn't serious." The middle-aged man heaved a sigh of relief. "If there's nothing else later, let's all go back."

The villagers were whispering to each other while Jiang Yu kept looking in the direction of the village. Suddenly, a weirdly dressed man appeared in her line of sight.

"Who is that person?" Some of the villagers also saw the man and asked, "is he from our village? It doesn't look like it."

"He's not from our village," The middle-aged man said, "who in our village would wear such clothes? It's obviously made of high-quality cloth, so he's definitely not from our village."

Someone asked, "since he's not from our village, where did he come from?"

"Yeah, where did he come from? I've never seen him before, so where has he been hiding all this time?"

This was a question that the villagers could not understand, and Jiang Yu could not figure it out either. However, the reality did not give them the chance to figure it out, because more and more people were coming out of those houses.

".. Could it be a cellar?" Someone said, "ever since the caretakers took over this place, they changed the lock of the cellar in our house. Although they have been captured, they didn't give us the key, so we still can't open the cellar. Could it be that this group of people had been hiding in the cellar all this time? But how did they get out without the key?"

"I don't know ... There's nothing valuable in my basement, so I'm not in a hurry to look at it." Someone said, "if this group of people are really hiding in the cellar, then it explains the faint crying we heard when we were sleeping at night."

"I think we'd better leave this place as soon as possible," someone said, feeling afraid. "These people look so strange. Are they the undercover agents of the caretakers?"

As soon as he said that, the villagers became even more afraid. They couldn't care about anything else and ran away.

### [Chapter 1304 Control](#)

"Wait a moment!" Jiang Yu called out to the villagers, "this group of people is a little strange."

"Of course it's strange! She was kept in the cellar for such a long time and cried every night. How could it not be strange?" One of the villagers said, "young lady, I advise you not to be too bold. Hurry up and run!"

"Something's wrong! This group of people doesn't seem to have intelligence." Jiang Yu narrowed her eyes and looked carefully at the group of people in front of her.

The group of people in front of him had listless eyes and were wandering aimlessly. Even though some people looked up and saw Jiang Yu and the rest, they only tilted their heads and looked at them curiously, as if they were wondering who they were.

When the villagers saw this, their curiosity overcame their fear and they all looked at the group of people.

"Are they idiots?" Someone who wanted to watch the commotion said, "look at their lifeless eyes. Even if they see us, they will only tilt their heads and continue to look at us."

"Indeed, they don't look like normal people." The middle-aged man said, "she looks more like a retard."

Jiang Yu took a closer look and walked over boldly.

"Ah! Little girl, don't go over!" Someone called out to her.

However, Jiang Yu did not stop. Instead, she walked up to the first person who came out.

The man twisted his neck and looked Jiang Yu up and down. He even sniffed her body as if he was trying to confirm her smell.

After smelling it, the person seemed to have thought of something and suddenly clapped his hands happily. He even made " yiya " sounds.

Jiang Yu approached him and reached out to caress his face. She asked softly, "What's your name?"

"Zhou Yun ..." The man tried his best to say the name as he drooled.

He really did look like a person without intelligence.

"You're Zhou Yun, right?" Jiang Yu straightened her body and looked at him coldly. "Do you know who I am?"

"Y-you're the master..." Zhou Yun tried his best to say these words. He felt like he had used all his strength.

"Master?" Jiang Yu was stunned. "Why did you say that I'm your master?"

Zhou Yun tried his best to explain, "blood... Master used his blood to wake us up. You have that smell on you, so you are our master."

Jiang Yu paused and instantly understood what was going on.

The icon was the medium used to awaken this group of people, and the blood of living people was the primer.

"Alright, since you say that I'm your master, shouldn't you listen to me?" Jiang Yu placed her hands on her waist and looked at Zhou Yun.

"Yes, yes. W-we'll listen to whatever master says." Zhou Yun said.

"Alright, then you guys follow me now." Jiang Yu gave an order. "Everyone has to come with me. No one can be left out."

"Yes, master." Zhou Yun was considered the boss of this group of people. Therefore, no matter what he said, the others would listen.

Zhou Yun also listened to Jiang Yu, so this group of strange people would also listen to Jiang Yu.

Jiang Yu brought them to the top of the mountain. There was a large open space there that was enough to accommodate this group of people.

"Has everyone arrived?" Jiang Yu asked, "if you're short of people, go and find them now."

"Quite a few people." Zhou Yun said, "everyone is here."

"Since everyone is here, as your master, I have some questions to ask you. You must answer them truthfully." Jiang Yu said.

"Yes, master."

"The first question, Who are you?" Jiang Yu narrowed her eyes.

"Master, we're cyborgs," Zhou Yun replied. "If the operation fails, we'll become defective products."

Jiang Yu paused and roughly guessed what was going on.

Something must have gone wrong during the chip implantation surgery, which caused their brain intelligence to be damaged. Moreover, a specific opportunity was needed to awaken the chip in their brains and use the chip to control their thoughts.

"Okay, second question. Have you been hiding in the cellars of those villagers recently?" Jiang Yu asked.

Zhou Yun continued to answer, "y-yes. When we were brought here, they asked us to hide in the cellar. If they don't force us to wake up, we will have to stay in the cellar."

#### [Chapter 1305 The Whole Story Of The Matter](#)

Zhou Yun's attitude was very sincere, and he did not seem to be lying.

Jiang Yu thought for a while and finally asked, "I'll ask you one last question. Do you know who created you?"

All of a sudden, not only Zhou Yun, but the other cyborgs also began to look at each other.

They didn't know who created them. After the operation, someone erased their memories.

"I'm sorry, master," Zhou Yun replied, "we can't answer this question."

Jiang Yu did not continue asking and said, "It doesn't matter. I can probably guess this result. You guys can go back with me first."

Jiang Yu called Chang Kai and told him about the cyborgs. However, Chang Kai was very busy now, so he would only be able to come and take her away in a few days. During this period, the group of cyborgs could only follow Jiang Yu.

Jiang Yu took the cyborgs back to the village. She originally planned to let them continue staying in the cellar and wait for Chang Kai to come and take them away, but the villagers refused to agree.

"Such a terrifying person, please don't stay in our village!" The villagers said, "who can stand crying in the middle of the night every day? Fortunately, we found them this time. Why don't we call the police and take them away?"

"I've already called the police." Jiang Yu said, "it's during the period when the police are here. Can you let them continue hiding in your basement?"

"Forget it then. This group of people is too scary. Don't stay in our village."

Seeing that there was no result in their communication, Jiang Yu had no choice but to leave with the group of people and return to the village.

When the bodyguards saw this group of people, their eyes couldn't help but widen. They were very shocked. "Madam, who are these people?"

"Madam, where did you go to do such a good deed and bring back such a group of people?"

Jiang Yu explained helplessly, "they're a group of man-made people. However, there were some problems during the operation. That's why they suffered from mental damage. I accidentally awakened the chips in their brains, so I'm their master now."

"So that's how it is." The bodyguards circled the group of cyborgs a few times and carefully sized them up.

"He doesn't look smart." The bodyguards said.

The cyborgs could not understand them because they did not have the emotions of normal people. When they were undergoing the surgery, the nerves in their brains that were related to emotional control had shriveled up due to some drug.

Therefore, they did not have the emotions of normal people. Even if they were insulted and insulted, their emotions would not change at all.

Jiang Yu asked the bodyguards to patrol around the village while she found the villagers and explained to them the origin of the group of cyborgs.

"This ..." The villagers looked at each other.

They were still very afraid of the cyborgs. Even though the group of people in front of them had no ill intentions and had no intention of hurting them, the villagers were still very afraid.

"I can guarantee that they are all good people." Jiang Yu said, "I'm still their master now. They will only listen to my orders. No matter what orders the others give them, they won't listen, so they won't hurt you."

The villagers were still a little afraid, but Jiang Yu was indeed the one who had saved them. Since it was a request from their savior, the villagers thought about it and agreed to let the cyborgs stay in the village.

"Alright, since you're our benefactor, this group of people can stay in the village." The old village doctor said, "but there are very few houses in the village. They don't have a place to live."

There were indeed very few houses in the village. Jiang Yu and the bodyguards had already occupied all the places that could be lived.

"Master, we don't need a house." Zhou Yun stuttered, "we don't need sleep."

"You don't need sleep? Can your bodies take it?" Jiang Yu was puzzled. "Even if you're a cyborg, you still have normal physical functions. How can you not sleep?"

"It's alright, master. The chips in our brains control our body functions, so we don't need to sleep. We only need to rest for three to four hours a day." Zhou Yun said.

"I'll still have to prepare a few temporary tents for you." Jiang Yu said, "I can't possibly let you guys rest in the open air."

### [Chapter 1306 New Weapon](#)

Zhou Yun shook his head, "it's alright, master. Before I met you, our lives were like this."

When he said that, the villagers were moved.

Although they had been dominated by cyborgs and were afraid of them, the cyborgs in front of them looked kind and they were also victims.

"Why don't we set up a few temporary tents for you?" The villagers suggested. "You can rest here."

Zhou Yun paused and looked at the villagers. After a long time, he said, "Thank you,"

"You're welcome. It's just a few temporary tents. It's no trouble." A few strong middle-aged men started to set up the tent, while the rest of the middle-aged women went to prepare the food.

Jiang Yu smiled and felt a warm current in her heart.

She said to the bodyguards, "you guys go to the city and buy some food. Now that there are more people, the village's food reserve may not be enough. We should buy some vegetable seeds."

"Yes, Madam."

A few of the bodyguards went to the city to buy things while the rest of the bodyguards stayed in the village to continue their patrol.

"Master, what can we do for you?" Zhou Yun asked.

Jiang Yu thought for a while and said, "I don't need you for the time being. You can stay here with peace of mind. I'll let you know when I need you."

"Yes, master," Zhou Yun said, "for master, even if we have to sacrifice our lives, we will not hesitate."

"It's not that serious," Jiang Yu smiled and said, "I don't need you to sacrifice your lives for me."

"But we were created to protect our master. When our master is in danger, we will give up our lives for him." Zhou Yun said, "as long as you give the order, master, we will do anything."

"Alright, I know you're all loyal to me." Jiang Yu said, "the villagers have already helped you set up your tents. Go and help. And since you're going to stay here, you'll have to help the villagers with their farm work."

"Yes, master," As Zhou Yun spoke, he was about to help the villagers.

He turned around and was about to leave when Jiang Yu stopped him and asked, "there's something I want to ask you. Were you sent here directly after the surgery?"

"No, master. Before we came here, we were also sent to study a new type of weapon." Zhou Yun said, "but we are not people who are involved in the research. We are used to test the power of the new weapon. However, there seemed to be something wrong with the weapon. We managed to keep our lives and were sent here."

"A new weapon?" Jiang Yu was stunned. "Do you still remember? What kind of new weapon is it?"

Zhou Yun thought about it carefully and said, "this weapon is very similar to a pistol, but it's smaller. Moreover, it doesn't contain bullets. Instead, it's something similar to an embroidery needle. It's poisonous. The batch of cyborgs before us, as long as they were poisoned, none of them could live past three days."

"It's that serious?" Jiang Yu was shocked. "How much more do you know about this new weapon? Tell me all the information you know!"

In fact, Zhou Yun did not know much about this new weapon, but he still told Jiang Yu everything he knew.

After Jiang Yu heard this, she felt that she had underestimated the Chu family's ambition.

"Alright, I got it. You can go help." Jiang Yu said.

"Yes, master." Zhou Yun went to help the villagers with their work, while Jiang Yu returned to her house and told Mo Long the news.

When Mo Long received the news, he was greatly shocked.

The Chu clan was actually developing such a brutal new weapon? What were they trying to do?

And before this, there was still one more thing that had not been resolved, and that was the illegitimate son of the Chu clan.

Old master Chu sent a servant over to call Mo Long to the study.

Only old master Chu and Chu Jie were in the study.

"Mr. Mo Long, how did you know that the Chu family has an illegitimate child outside?" Old master Chu asked.

"I heard it from someone outside," Mo Long replied.

Old master Chu frowned. "Then, Mr. Mo Long, why didn't you tell me about this on the first day?" He asked.

"Because I don't think the Chu family would have an illegitimate child outside with their upright style, right?" Mo Long laughed. "That's why I treated it as a joke. I just didn't expect the rumors to start spreading again. That's why I asked Chu Jie. I just didn't expect that she didn't know about this either."

### [Chapter 1307 Inquiring From The Side](#)

"Really?" Old master Chu turned around and looked at Chu Jie.

"Of course it's true, Grandpa." Chu Jie said, "when Mr. Mo Long asked me that, I was also shocked! But Grandpa, do we really have an illegitimate child outside?"

Old master Chu frowned and said, "impossible! How could our Chu family have an illegitimate child outside? The Chu clan can't do such an embarrassing thing! And even if he does have an illegitimate child, I will never acknowledge him. His name will never be on the Chu family's genealogy!"

Old master Chu's emotions were getting more and more agitated, and his old face was flushed red.

"Grandpa, don't get too excited!" Chu Jie quickly comforted old master Chu.

"However, I still advise you to investigate this matter." Mo Long said, "although some people say that 'wise men stop at rumors', who started this rumor? and what basis did that person have to say such things? If he didn't get to the bottom of this matter and solve the problem at its roots, more rumors would probably spread in the future. This time it was an illegitimate child, but what about the next time? What could it be?"

Mo Long's words made sense. Old master Chu's gaze turned cold as he said, "This group of people really don't put the Chu clan in their eyes! I'd like to see who spread such a rumor!"

"This is your family matter. I won't get involved." Mo Long said. After giving a polite bow to old master Chu, he returned to his room.

He didn't expect Chu Jie to follow him all the way to the door before she said in a sweet voice, "Mr. Mo Long, we're going to get married sooner or later, so my family matters are your family matters. You don't have to be polite."

Mo Long paused and looked at Chu Jie, asking, "Is there anything else you want to tell me besides this?"

"There's nothing else," Chu Jie lowered her head shyly. "I just wanted to come over and ask you. Since we're getting married soon, can I sleep in the same room as you?"

"I can't," Mo Long rejected her without a second thought. "We can't sleep in the same room before we get married."

"I-I see. I was too abrupt. I'm sorry, Mr. Mo Long." Chu Jie was a little embarrassed and blamed herself for not being reserved enough.

So what if they were going to get married? They weren't married yet, so how could he make such an unreasonable request?

She turned around in embarrassment and anger, but Mo Long stopped her and said, "Miss Chu Jie, I have something to ask you."

"What is it?" Chu Jie's eyes instantly lit up. "It's my honor to be able to help Mr. Mo Long!"

"It's not a big deal." Mo Long said, "it's just that I heard that the Chu family has been developing a new type of weapon recently. I wonder what kind of weapon it is? Actually, I wanted to ask old master Chu when we were in the study earlier, but I didn't say anything because he was so angry."

"A new weapon?" Chu Jie thought for a moment and seemed to have some impression of this word.

Mo Long saw the grave expression on her face and asked, "How is it? Do you have any impression of it?"

"Yes, I am." Chu Jie said, "when I was delivering the medicine to Grandpa, I heard him call and tell me about this. However, I only came in to deliver the medicine and then left, so I didn't hear clearly what my grandfather said. I can only hear a rough idea."

Just one was probably enough.

"Can you roughly tell me what you heard?" Mo Long asked Chu Jie.

"Of course you can!" Chu Jie's face was ruddy, as if she was happy to be able to help Mo Long. As such, she told Mo Long everything she heard.

When Mo Long heard this, his expression became extremely heavy.

Chu Jie couldn't help but feel worried when she saw him like this. She asked, "Mr. Mo Long, are you feeling unwell?"

"No, I'm just a little tired and want to rest." Mo Long said.

"Then I won't disturb your rest. I'll go back first." Chu Jie said and left.

After confirming that Chu Jie had left, Mo Long gave Jiang Yu a call. "I've already heard about the new weapons from Chu Jie."

"So fast?" Jiang Yu was shocked. "Then what do you know?"

Mo Long said, "this new weapon looks like a pistol. It's not loaded with bullets, but with poisonous embroidery needles. The embroidery needles inside are made of the best ore. If there are no accidents, the Chu clan must have found people to mine illegally in order to use the best ore to make the embroidery needles."

### [Chapter 1308 Unswervingly Loyal](#)

"I don't know if this matter has anything to do with the Chi family." Jiang Yu pondered. "If this matter has nothing to do with the Chi family, it means that the Chu family is very ambitious and is definitely not willing to sacrifice themselves for the Chi family."

"This matter doesn't seem to have anything to do with the Chi family," Mo Long said, "but what is the Chu family researching this new weapon for? Why did he work with the Chi family to research androids?"

These things were all unsolved mysteries.

"By the way, what's the deal with the group of cyborgs you mentioned in your message?" Mo Long asked, "you said that their intelligence is damaged. What's that about?"

Jiang Yu gave a simple explanation and said, " actually, they have chips in their brains too, but I'm their master now. As long as they don't disobey my orders, the chips in their brains won't explode.

"It seems that this group of man-made people can be used to do good things." Mo Long's tone was no longer as nervous as before. I thought that group of cyborgs would hurt you.

"I won't, don't think too much. I'm their master, " Jiang Yu said.

As they were talking, Zhou Yun came in from outside and said, "Master, our tent is ready."

"Alright. Wait for me outside with your brothers. I'll be out immediately." Jiang Yu instructed.

"Yes, master,"

After Zhou Yun left, Jiang Yu said to Mo Long, "Did you hear that? The man just now was the leader of the cyborgs. He's still very respectful to me, so you don't have to worry."

"Well, that's good."

"I'll hang up first. I still have things to do here." Jiang Yu said.

"Alright, be careful."

After Jiang Yu hung up the phone, she went out to look for Zhou Yun.

Zhou Yun led the group of humanoids and stood under a big tree in an orderly manner, waiting for Jiang Yu to come over.

"Since you've acknowledged me as your master, you must listen to everything I say." Jiang Yu said, "I only have this one request. Can you do it?"

"Yes, I can!" Zhou Yun and the other cyborgs responded loudly.

"Alright, since you've said so, I'll have you guys do one thing now." Jiang Yu pointed to the piece of land that was borrowed by the wolves and said, "I've already sent people to the city to buy vegetable seeds. When the time comes, you'll be responsible for helping the villagers farm, do you hear me?"

The cyborgs stopped talking.

Jiang Yu frowned and asked, "why? Are you going to disobey my order now?"

"It's not like that. Master, we don't know how to farm," Zhou Yun said, a little embarrassed.

"I'm not asking you to farm." Jiang Yu laughed. "I'm asking you to help the villagers farm. You guys can do physical work like watering and fertilizing, right?"

"No problem, master."

When the villagers in the distance heard this, their gratitude for Jiang Yu grew even stronger.

Before she came here, they had thought that their lives were over. He would live under the control of the bad guys forever, repeating the work day after day, year after year, until he died.

However, Jiang Yu's appearance was like a ray of light that saved them from the darkness.

The old village doctor gathered his courage and walked over. He knelt down in front of Jiang Yu and sobbed, "My Savior! Jiang Yu, you are our great benefactor!"

"What are you doing? Hurry up and get up!" Jiang Yu quickly helped the old village doctor up and said, "it's just a small matter for me. You don't have to thank me so much. I'm not going to help you. I should be the one thanking you for taking us in and saving my friend. If it wasn't for you guys, my friend would have been dead."

The old village doctor's tears stuttered, and he couldn't say a complete sentence.

"Please don't cry." Jiang Yu smiled helplessly. "Alright, you should go back quickly. I've already sent people to the city to buy food and seeds. They'll be back soon."

Upon hearing this, the old village doctor knelt down again and kept saying, "Thank you, thank you!"

As he spoke, he wanted to kowtow to Jiang Yu.

If Jiang Yu had not stopped him, he would probably have kowtowed a few times.

When the rest of the villagers saw this, they also came over and knelt down in front of Jiang Yu, saying, "Thank you, benefactor!"

"Don't be like this." Jiang Yu held her forehead helplessly. "You guys helped me first, so I'm doing this to return your favor. If you're thanking me for this, I'd feel a little guilty."

The villagers got up, but they kept thanking Jiang Yu.

### [Chapter 1309 Strange Footsteps](#)

The bodyguards returned from the city with a lot of food and seeds.

They handed these things over to the villagers and then went to rest.

Jiang Yu said to the cyborgs, "when the villagers have planted these seeds, you'll be responsible for helping the villagers with the farm work. Did you hear that?"

"Yes, master."

During dinner, the villagers carefully built a few temporary tables so that the cyborgs could have a place to eat.

However, the group of cyborgs stood at the entrance of the village in a daze, staring at them without blinking.

"What are you guys standing there for? Why didn't you come over for dinner?" Jiang Yu shouted, "if you don't come over now, the food will get cold. It won't taste good."

The people looked at each other and finally looked at Zhou Yun.

Zhou Yun shook his head, "master, we'll wait for you to finish your meal before we go eat."

"Is this a rule?" Jiang Yu asked slowly after a pause.

"We're the defective products of the experiment," Zhou Yun explained. "Defective products can't eat with their Masters."

"What kind of stupid rule is this?" Jiang Yu walked over. "Don't think of yourselves as defective products. Instead, you have to think of yourselves as upright people. Why can't people eat together? Besides, the villagers also welcome you to eat with them, so you can come and eat with them."

Some of the villagers also waved to them and said, "You guys come over and eat together. What master? Besides, you guys helped us farm today, so you guys should eat at the same table as us."

Only then did Zhou Yun and the rest walk over, but they were all very careful.

After the meal, Zhou Yun and the rest rested in the temporary tent set up outside. They had already rested during the day, so they didn't need to rest much at night. They only needed to be on high alert and keep an eye on the situation around them.

With their help, the bodyguards could rest better.

After an unknown amount of time, the night was already dark, and visibility was less than three meters. Suddenly, a series of soft footsteps entered Zhou Yun's ears.

Because of the surgery, Zhou Yun and the others were more sensitive than normal people. Even if it was a very soft sound, they would still hear it very clearly.

"There's someone nearby." Zhou Yun reminded his companion in a low voice, "and it's not just one. There are at least twenty of them."

"I heard it too." His companions also lowered their voices. "Could they be the accomplices of the group of people from before?"

"It's hard to say," Zhou Yun frowned. "I'll keep an eye on the situation here. Find a chance to go to the village and wake the master up."

"I know, boss." His companion sneaked out of the tent in the dark. He quickly ran into the village.

Zhou Yun remained where he was, vigilantly watching his surroundings.

The cyborg who ran into the village found Jiang Yu's room accurately and knocked on the door. "Master?"

Jiang Yu was already full of worries, so she did not feel sleepy until now. When she heard someone knocking on the door, Jiang Yu walked over and asked in a low voice, "What's wrong? What's the matter?"

The cyborg at the door briefly explained what had happened and said, "Master, boss Zhou Yun and the other brothers are still there. What should we do now?"

Strange footsteps?

Jiang Yu was stunned for a moment. She quickly opened the door and said to him, "I'll go to Zhou Yun's place first. You go and wake up the bodyguards."

The cyborg obeyed the order and quickly went to wake up the bodyguards.

Jiang Yu, on the other hand, went to find Zhou Yun without stopping.

The footsteps were getting closer and closer, and the expression on Zhou Yun's face was getting more and more serious.

Jiang Yu squatted down beside him carefully and asked, "What's the situation now?"

"The footsteps are getting closer and closer," said Zhou Yun. "But it doesn't seem to be coming from the same direction. It's coming from all directions. They seem to have surrounded the village."

Jiang Yu's expression turned grave when she heard that.

"Could this group of people be the accomplices of the group from before? If he's really an accomplice of that group," she guessed, frowning, "then we're in a very dangerous situation now."

"Master, you don't have to worry." Zhou Yun consoled her, "if anything happens, we will protect you. We will also do our best to protect the villagers you mentioned."

"But I can't let you die in vain." Jiang Yu said, "tell everyone to retreat to the village with me. No one is allowed to go out without my orders."

"Yes, master."

### [Chapter 1310 Debate](#)

Everyone followed Jiang Yu back to the village. The group of bodyguards had also woken up from their sleep and were now 120% alert.

"What exactly happened?" One of the bodyguards asked in confusion, "didn't you say there were footsteps around? But I didn't hear anything."

Zhou Yun explained, "we've had surgery before, so our senses are more sensitive than normal people. You might not be able to hear the soft footsteps, but we can."

As he said that, Zhou Yun's face darkened and he said, "Not good! They are getting closer and closer to us!"

Not long after he finished speaking, the sound of footsteps reached the ears of Jiang Yu and the other bodyguards-because they were indeed getting closer and closer.

"Everyone, do not let your guard down. If necessary, you must protect the villagers of this village." Jiang Yu's face was cold. Then, she turned on the flashlight function of her mobile phone and waved it around, saying, "everyone, don't hide in the dark. If you have something to say, say it out loud."

As soon as he finished speaking, the footsteps around him stopped. Not long after, a person appeared at the entrance of the village.

"Who's there?" Zhou Yun stood in front of Jiang Yu vigilantly.

"And Who are you?" The person at the door asked, "is our young miss here?"

"And who is the young lady of your family?" Zhou Yun asked warily, "we don't have your family's young lady here."

"Little brother, I advise you to think it through before you speak." The man at the door sneered. if we find out that our young miss is here, it'll be you who kidnapped her!"

"Who kidnapped your miss? Stop talking nonsense!" Zhou Yun's face was cold. "You, on the other hand, surrounded our village for no reason. What's your purpose?"

"I said, you kidnapped my family's young miss!" The person at the door lost his patience and his voice unconsciously became louder. "I'll give you three minutes to hand over our miss! Otherwise, don't blame us for razing your village to the ground!"

"What arrogant words!" Zhou Yun and the others got into a fighting stance. "Come at me if you can!"

"I haven't even said anything yet, don't act on your own." Jiang Yu reached out to stop Zhou Yun and said to the person at the door, "You said that we kidnapped your family's young miss. Where's the evidence? Show me the evidence."

The person at the door sneered, "You still want evidence? You bunch of kidnapers! I advise you to cherish the time you have now, because you only have three minutes to consider. If I don't see my young lady in three minutes, your village will be turned into ashes in an instant."

"Then I'd advise you not to talk to yourself here," Jiang Yu said coldly, " since you say that your miss is with us, then show us the evidence."

"I think you're still trying to get away with it!" The person at the entrance shouted, "today, I will destroy your village!"

As soon as he finished speaking, the footsteps around him sounded again.

"Master, be careful!" Zhou Yun and the other cyborgs stood in front of Jiang Yu.

"Madam, be careful!" The bodyguards also stood in front of Jiang Yu.

The atmosphere was in a stalemate when suddenly, someone pushed open the door, rubbed his sleepy eyes, and said, "What's happening outside? Why is it so noisy? Can't you let me sleep?"

This person was Feng Ran.

The temperature at night was very low. It was so cold that Feng Ran shivered and instantly woke up, no longer sleepy.

She looked at the group of people in front of her with wide eyes and asked in surprise, "What are you guys doing here so late at night instead of sleeping?"

After she said this, the rest of the villagers also stuck their heads out of their houses.

"Yeah, it's so late. What are you guys doing instead of sleeping?"

"Heavens! How did you guys find this place?" Feng Ran cowered and did not dare to stick her head out. "You guys didn't find me using the GPS, did you? Didn't they say that the signal in the mountains was bad? That should be able to block the positioning system!"

"Miss, what are you saying?" The person at the door said, "the signal in the mountains is bad, but it's not always bad. Occasionally, the computer will display your geographical location."
