

Chapter 228 He Is Dangerous

After all the classes were over,

Alice said, "Let's go, I'll drop you at home."

"Thank you so much, Alice," I thanked her. When she went to the parking area, I stood at the entrance area.

That's when I saw the boy, Our Alpha Arvan. I was watching him carefully. He was a very handsome boy. I couldn't believe after so many tattoos and an eyebrow piercing, how could a boy look that much good-looking. Suddenly, he narrowed his eyes as if he could feel me watching him.

I felt one thing strange. That was his scent. He smelled like rain and dark chocolate. It was a very strong scent. It was kinda attractive.

'How can anyone endure his strong scent? Maybe he is the head alpha that's why.' I was thinking.

I heard car horns. "Come on honey, where are you looking? Falling for an alpha?" Alice winked and asked.

I got in the car and said, " Oh please, you know I'm an omega not a beta like you. Even if I fall for any, they won't like me" I said while looking at Alpha Arvan from the car mirror.

"Ha ha ha, nice joke," Alice replied and started the car.

Alice dropped me at home. "Mom, I'm back," I shouted. My mom came out from the kitchen and looked at me, "Eat something, I need to get ready." She said while weeping her hands.

"Wait, where are you going?" I asked.

"I got a call a few minutes ago, Our head alpha wants me to go to the pack house. He wants to talk about something important. So I need to go there." She notified me.

"Our Head Alpha? You mean Alpha Arvan?" I was surprised and asked her.

"Yes. Do you know him, Rose?" She asked.

"Yes, mom. He studies at our University. He is very senior though. I know him " I said confidently.

"No, you are not, Rose. Please stay away from him. He is a true blood alpha, he is not only head alpha for the name but also he is very powerful. More powerful than his dad, alpha Michael." She said with a low voice.

"But mom he won't harm any of us, he is our Alpha. What is there to worry about?" I asked.

"Rose, he doesn't like omegas. I mean he protects all of us, but he is not too friendly with omegas. Even his beta's mate is an alpha female. You know what I'm trying to say, right? We can't offend him at any cost." She said while caressing my hair.

"Yes mom, I understand," I replied sadly.

I felt bad and didn't know why. It was heartbreaking to hear that you were a weak creature.

My mom came from her room, kissed my head, and said, " I'm leaving, okay? Don't go anywhere alone. I'll be back soon." Then she left.

I went to the pack house. When everyone greeted me, I smiled and greeted them back. Everyone knew me here. I was their gamma's mate. My husband died in the war and they felt sorry for me but proud of my husband that he saved our former head alpha's life.

"Mrs. Lee, nice to meet you again. Come with me. Alpha Arvan is waiting for you." Liam, Alpha's beta said.

I went with him to the office of Alpha Arvan. Here he was, the dominating Alpha we had ever seen. He was only 24, but his aura was dangerous. The way he killed hundreds of rogue wolves alone in the war, was unbelievable.

"Hello Alpha. It's an honor that you asked for my visit. How can I help you?" I asked him.

"Mrs. Lee. It's been a long time, how are your days going?" He said while looking at me.

"Yeah, everything is going well." I replied politely.

"I want to know about your daughter." He said as he rested his back against his chair.

"What about her, Alpha?" I was shocked.

"What's her name?" He asked.

"Ross." I replied.

"Where has she been in the last four years? I didn't see her at my crown ceremony, not even on my birthdays." He narrowed his eyes and asked.

"She was out of the country. She wasn't living in any pack, she was living with humans. She came back after her father's death." I answered truthfully.

"Like I thought weak and vulnerable." He murmured.

"Pardon?" I was startled.

"Nothing. I just needed her information because I needed to know every member of my pack. I can't just let any outsider live in my pack." He said.

"She is not an outsider, Alpha." I retorted back.

"Yeah, I just confirmed it. Thank you for your cooperation, Mrs. Lee. It's late. You can go back to your home." He said.

"Thank you, Alpha. If you need me again, you can call me. I'm leaving." I smiled and bowed to him. He nodded his head.

When I was living, I noticed him, he looked like he was in deep thought. Then I left the pack house.

Rose P.O.V

Mom came back at night. The main pack house was far from our home, so maybe she was late for that.

"Mom, why are you so late? Why did Alpha want you to go there?" I asked her curiously.

My mom sat on the couch and said,

"Do you two know each other? I mean why did he ask for all of your information?" She looked at me suspiciously.

I was so shocked. 'Did he ask about me???' I thought.

I controlled my excitement and said, " I only saw him today, mom. I don't know why he asked about me."

"Ok dear, but stay away from him, he is not like other alphas. I'm warning you." Mom warned me.

"Ok ok, my lovely mother. I understand. Now let's go to have dinner. I've already cooked noodles for us." I told her.

We had our dinner. I wished my mom good night and went to my room and laid

down on my bed.

"I like how he smells." Suddenly I heard my wolf. My wolf, Rosalie was very sensitive but very beautiful. Pure white fur and a pair of blue ocean eyes. That's how she looked. She started to talk with me through our mind link.

"Who?" I asked.

"Alpha Arvan of course." She said.

I rolled my eyes and said, " Didn't you hear what mom said? He is too dangerous to talk about."

"But you always think about him. I think I also like him. I want to meet his wolf, who will protect me from all the danger." She said.

"Dream on. It's just one day and you fall for him?" I laughed.

"It is called love at first sight. Don't make a joke of my feelings." She growled.

"Okay, Rosalie, don't get mad." I chuckled.

I couldn't sleep that night. I was thinking the whole night, "Why did he ask mom about me? Why did he even look at me that way?"

Then I decided,

"I WILL ASK YOU TOMORROW, AND YOU HAVE TO ANSWER ME, ARVAN BLACK."
