

One Planet 158

Chapter 158: Unification of the Central Plains! A new journey!

Wang Yao glanced at the four of them and said, “The passage to this card planet will officially open!”

“The location of the channel is at.....”

Wang Yao projected the map and pointed to a location on it and said, “Here in East Shangwei City, an abandoned warehouse not far from the Black Hibiscus Flower Cassius Group. There are abandoned factory buildings around here, deserted and uninhabited. It’s safer. In order not to cause too much commotion, with my experience from the previous ten times.....”

“Everyone can send a thousand transcendents. Do you have any problems?”

Wang Yao looked at Jiang Fan and the others.

The number of transcendents was usually in the thousands for the first-level planet masters who had developed for a long time.

“No problem.”

The tall young man laughed lightly and said, “If it’s not enough, you can still add.....”

“Remember one main point.”

Wang Yao said solemnly, “Once a battle occurs, it will definitely alert the three senior Cassius of this planet! In one hour. They’ll be able to get here! So we only have one hour to seize this Supreme Amplification Card. Of course, there’s plenty of time for other cards to be picked up as well. If there is no problem, let’s prepare ourselves.”

After finishing speaking, the five of them dispersed.

Jiang Fan also came to that room.

This room was much more spacious as compared with the last big airship.

The layout was also more luxurious.

“A card planet?”

A smile appeared at the corner of Jiang Fan’s mouth.

Compared to other low level planets, the card civilization planet was one of the most popular planets for star hunters because Card Planet was full of all kinds of cards.

These cards might not have much combat power but it was very popular among various powerful planets.

In the market, it was generally circulated as an artwork of good value.

There were even rare cards and they could be sold for a very scary price!

“If you have time, you can collect a few more.”

While thinking about it, Jiang Fan entered the awakening space by throwing the seal crystal into it.

Channel mark was the same as the last time, relocated to the position in front of the Royal Tombs Mountains!

In general, the passage was fixed for each planet.

Changes could not be made easily.

After all, it was not a good idea to let life on the planet run around.

At the moment when the channel imprint was put down, the location did not change but there was an inexplicable fluctuation.

It spread out in all directions.

In a very short period of time, it spread throughout the planet!

Immediately, all beings felt the fluctuations that did not seem very amazing, but..... made people feel intimidated!

Northwest, Southwest, East of the river, Southeast.....

Cao Meng, Xia De, Zhuge Ming, Sun Quan, Zhu Chongba, Liu Tianji... all of them were shocked!

Subsequently, they couldn't help but look up at the sky!

In the dark, they sensed that something extraordinary was happening!

.....

On the second continent, the skeleton crawler that was hunting a giant saber-toothed tiger, let go of the saber-toothed tiger in his mouth.

Its terrifying head turned to the sky.

A look of horror flashed in his eyes.

Outside the valley, the water droplet people who were building the Pyramid of Light dropped what they were doing.

They were looking around in bewilderment and disorientation!

They felt that somewhere on this planet there's a terrifying wave that they couldn't resist..... forming!

.....

In the Royal Tombs Mountains, Yan and Ghost Buster, as well as Su Qin and Zhang Liang who were working, all stood up.

Their eyes were full of astonishment!

“This fluctuation.....”

Ghost Buster walked out of the room.

The grass hut he built was directly opposite the passage.

He could see it at a glance.

Looking at the flat ground that was still empty, Ghost Buster clenched his hands slightly and muttered, "Is it coming?"

There were records for planetary passages in the diary left by Qi and Han.

Both Ghost Buster and Yan had read this information.

In addition, in the past few years, this was deeply studied.

They were well aware that the so-called entrance to the kingdom of heaven in the legend was actually a gateway to alien planets!

The location was just outside the Royal Tombs Mountains.

It also made sense, why would Qi build his tomb in this place!

This was not only for guarding it, but also a desire to witness the reopening of the passage once again.

"This day has finally arrived."

Yan was standing at the window and was looking at it with excitement in her eyes.

She couldn't stop the tears from flowing down!

Over the years, this was the moment she had been waiting for.

At this time, the air shook slightly.

Jiang Fan appeared.

"Father!"

Yan wiped the tears from her eyes and exclaimed excitedly.

"The passage will open in a month, get ready for the conquest."

Jiang Fan left a message, letting Yan clench her both hands!

A slight shiver ran through her body!

Here it comes!

It really came!!!

"Everyone."

Yan immediately announced an order and said, "Come to the hall for a meeting!"
