Chapter 170: The Great Desolate Army attacks! Trembling Cassius!

There was another team of the Great Desolate Army hiding in the woods.

That team was led by Han Xin earlier!

This was also the plan agreed upon by the Grand Desolate Army before the operation, letting Han Xin bring the soldiers over just in case!

With the sudden attack, An Ying's face suddenly changed but she was also a strong person in the end.

With a wealth of experience, the rain shuttle card was launched in the shortest possible time.

Using the rain shuttle to fight off the rear bullet attack, the bullets hit the rain shuttle with splashes of explosions but Han Xin brought a lot of soldiers with him.

There were still too many bullets.

Poof!

A bullet hit An Ying in the calf.

An Ying screamed miserably.

She couldn't help but squat down.

The Great Desolate Army did not stop and kept pouring out bullets!

The injured An Ying's combat capability had been greatly reduced!

Not long after, her energy shield disappeared into thin air!

At this time the Great Desolate Army stopped its attack.

The soldiers approached cautiously step by step.

Seeing this, Wang Yao and the others were a bit dumbfounded!

This was the Musketeers' real combat power!

Just at the beginning, they saw the bullets coming from every gun but they didn't even think about it.

This was far less powerful than the archers of the Amazonian female warriors.

Wang Yao and the other four people saw the power of the Great Desolate Army!

They couldn't do it one-on-one.

Against An Ying, two hundred soldiers of the Great Desolate Army were directly arranged.

For this first operation, Yan and Ghost Buster and others are very cautious!

"Let's surrender."

Xu Tiande cautiously came up and made a gesture toward An Ying.

An Ying bit her lip lightly, a trace of unwillingness and doubt flashed in her eyes.

This kind of alien demon was also too weird.

That kind of dark weapon didn't look very powerful.

However, it did not consume any energy at all.

Every time a card was used, energy would be consumed.

She was defeated by quantitative suppression!

An Ying could only helplessly put aside the cards and raise her hands to surrender.

She slowly got up but suddenly laughed out loud and said, "This time I was careless, I didn't expect you guys to come and attack me, but....."

An Ying glanced at the direction in the distance and said with a smile on the corner of her mouth: "You won't live long."

Hearing this, Xu Tiande and a few others frowned.

It was impossible to understand what the other person said but they could still feel the intention in An Ying's words.

"Not good."

Xu Tiande suddenly changed his expression.

After that he turned to the direction of the Black Hibiscus Flower Cassius Base.

The first team had attacked the building and was going up the stairs quickly.

They grabbed that supreme amplification card!

It was not just Xu Tiande, Han Xin, who was known as a wise general, also realized what was going on.

He gestured, letting the soldiers under his hand prepare for the defense.

Not long after the soldiers of the Great Desolate Army handcuffed An Ying.

Around the Black Hibiscus Flower Cassius base.

All of a sudden, a shuttle car came in.

Cassius quickly got off the shuttle one by one.

It was headed by Tang Hanpei!

"We are trapped."

On the eighteenth floor, the expressions of the transcendents in the first team changed greatly because they found out that the supreme amplification card they just got was fake!

This was a trap set by Tang Hanpei.

They were waiting for outsiders to take the bait.

Originally, Wang Yao was also very excited but now his face was as cold as ice.

The tall young man, the lean man and Yang Fei all lost their voices.

They also didn't expect that something unexpected would happen!

They originally thought that they were predators but they didn't expect that the other side was already digging a hole and waiting for themselves to jump on it.

In the next moment, the five people then saw that near the Hibiscus Building, a large number of Cassius suddenly poured out and surrounded all the groups of transcendents!

These transcendents plus the elite transcendents in the building were all surrounded by hundreds of Cassius.

Their number was also in the hundreds but the other party had a strong person like Tang Hanpei.

"Kill these Heavenly Demons on sight!"

Tang Hanpei, who was wearing a trench coat, ordered in a cold voice!

The surging killing intent was revealed!

"What are we going to do now?"

The lean man said.

There was a hint of panic in his tone.

Everyone else's faces were solemn.

As these hundreds of transcendents were the elites of each planet, so if all of them died here, it would be a huge loss.

For a short period of time, it was difficult to cultivate again.

At the same time, it would also mean that this mission was a complete failure!

They would miss that Supreme Amplification card!

Only Jiang Fan's face remained calm.

It was his confidence in the Great Desolate Army but within those who were surrounded, there was only a small portion of the Great Desolate Army!

Most were martial artists, jackals, thorn tree demons and amazonian female warriors but it was indeed a very critical moment!
