Chapter 197: The Great High School Entrance Examination! The Battle of 100 Cities! Billions of geniuses!

“I don’t know.”

Jiang Fan shook his head.

It wasn’t like Bu Jing Yue was his rival.

“I heard it from an inside source.”

Fang Zhenting lowered her voice and said, “Bu Jing Yue’s teacher is a fifth level planet master! The strength is not weaker than our Jiangcheng City Lord! For this college entrance examination of Bu Jing Yue, this teacher of hers is down to blood. Not only did she teach the training herself, but she also gave Bu Jing Yue a Heart of the Stars!”

“Heart of the Stars!”

Jiang Fan couldn’t help but raise his eyebrows slightly.

“There should be no mistake.”

Fang Zhenting’s eyes flashed a bit of shock, and said, “I was stunned when I heard it. That is the heart of the stars. Bu Jing Yue’s teacher really values this disciple! It’s no wonder that Bu Jing Yue’s ranking was so high! In this year’s strongest college entrance examination in history, everyone is crazy!” Fang Zhenting sighed with emotion.

Jiang Fan was also somewhat stunned.

Even an ignorant student like him also knew the name of “Heart of the Stars”!

If the tenfold amplification card Jiang Fan got before was considered an extremely valuable treasure!

It would attract the interest of some powerful planet owners.

Heart of the Stars!

It was bound to be scrambled by various powerful planet masters!

Its value was far more than a tenfold amplification card.

It could be said that for a low level planet, it was the most valuable resource.

The heart of the stars comes from the planets created by planet masters of level 5 or above, condensed after the extinction of life!

It contains the entire essence of a planet of at least level 5!

It possessed a variety of magical abilities!

For even intermediate to advanced planets, it was also applicable.

For first level planets, its greatest function was that a whole new transcendent race could be created!

In general, just after awakening the planet, it was the use of transcendental energy to catalyze the creation of transcendental species but what specifically was the transcendent species, one couldn't decide for himself.

With the heart of the stars one could specify the transcendent species he wanted and thus cultivate it!

Most of the first level planets only had one or two transcendent species!

For example, Tang Qingqing's magic civilization had two transcendent species.

Bu Jing Yue from before had Xiu Ling people and spirit tree people but as the spirit tree people were accessories of the Xiu Ling people, there was no complete species system of its own.

So it could only count as one and a half!

If one more kind was added, the strength would be greatly improved!

“There are other items that can breed new transcendent species as well, but.....”

Fang Zhenting lamented, “All of them are not as good as the Heart of the Star because a first level planet, itself, has limited resources! Using other items to breed new species will squeeze the potential of this planet! It was equivalent to exhaustion! No genius would do that but Heart of the Stars is different! A new species bred using the heart of a star will have no flaws and will not cause damage to the planet's potential or ecology! But things like the Heart of the Stars are hard to come by. This is a supreme treasure that has an important role even for a fifth-level planet master.”

Fang Zhenting shook her head, looked at Bu Jing Yue not far away and sighed, “Used on a first level planet, it's simply cheating! The teachers at our school say that this time in the ranking of the Heavenly Pride List, it's just that Bu Jing Yue is tentatively ranked in the top 100! Her true strength is bound to be higher, even it's possible that it will impact the top 50, or the top 30! Jiang Fan, your luck is really not good.”

Fang Zhenting patted Jiang Fan's shoulder and said, “If it was in previous years, you would definitely be our top student in Jiangcheng!”

Jiang Fan just smiled.

Time passed little by little.

Finally, after about an hour had passed, an ethereal voice rang out above the square.

The voice was not loud but it was clearly audible in the ears of every candidate:

“There are ten minutes left before the examination time, please get ready, after one minute, you will be transported to your respective examination positions.”

Immediately, the square fell silent.

Everyone stopped talking.

Everyone was quietly waiting for the exam to begin!

“Finally, it's about to start.”

Jiang Fan was also ready!

Exactly at nine o'clock, the college entrance examination officially began!!
