

One Planet 210

Chapter 210: Floating leaderboard! Results announced! The shocked crowd!

“Here it comes!”

In the high school entrance exam square in Jiangcheng, one of the boys almost yelled.

Immediately, everyone stopped talking.

In the entire square everyone exploded!

All heads were up in the sky!

They were looking toward the sky above the square.

There.....

As brilliant rays of light flashed, a huge floating leaderboard was slowly emerging!

This was the famous floating leaderboard, hanging high in the sky!

The crowd was away from the square.

It looked so far and so close!

Finally after the light flickered for a minute, this leaderboard was officially formed!

It looked almost like an endless list!

It was difficult to see the top at a glance.

However, no matter where candidates were standing in the square, they were able to see clearly.

They could clearly see any place on the list!

This was also a powerful means of belonging to this high space but now the list was still empty because it was not time yet.

The list appeared five minutes before the official results were released and the results of all candidates would be officially announced at 6:00!

Not a single point above.

Not a single point less.

At this moment, the look on everyone's face was more or less tense!

Even Fang Zhenting, who seemed to be more calm.

His right hand was also gripping tightly.

His eyes stared unblinkingly at this huge floating leaderboard in the sky!

Of course, only Jiang Fan was indifferent.

There was no fluctuation in his heart at all!

After looking at the floating leaderboard for a few moments, Jiang Fan turned his head and surveyed the performance of hundreds of thousands of candidates around him.

Everyone's faces were either nervous, or apprehensive, or expectant, or worried.....

The list was endless.

One was not nervous.

"I can definitely get high scores in these two subjects."

Not far from Jiang Fan, Tang Qingqing looked up at the floating leaderboard.

She took a deep breath and thought secretly in her heart.

In order to prepare for this time known as the most terrifying college entrance examination in history, Tang Qingqing not only worked very hard on her own, her brother Tang Yushu also put in a lot of effort, relying on his network and connections.

He tried every way possible to give Tang Qingqing all the resources he could get!

The cost of consumption was great.

It could really make people jaw-dropping!

"It goes without saying that I will be able to beat Bu Jing Yue in the third subject's examination." Tang Qingqing secretly thought, "And in the second subject, everyone said that the diameter of the planet when I awakened was incomparable to Bu Jing Yue. That's true but I have awakened a dual energy civilization and created a dual transcendental race! When the two are added together, it's not a matter of one plus one equals two, or one plus one equals three, but it's way beyond! The world has not seen a dual energy civilization for a long time and does not know what this means, its potential is beyond anyone's imagination! Today, I want everyone to see the terrifying thing about dual energy civilizations!!!"

Tang Qingqing raised her head high.

There was a look of determination in her eyes.

"This time, I'm not just going to take the top 1,000, but top 500! Brother, watch carefully and wait for my good news!"

Not far to the right of Tang Qingqing, beside Bu Jing Yue, there were also many people around.

Although because this was a No. 7 middle school's passage here, most of the candidates were from the No. 7 middle school.

There were naturally more people around Tang Qingqing.

However, the candidates who heard about the No. 1 Middle school also rushed over to cheer on their school's number one..... genius!

The people were aware of Jiangcheng's top spot in this year's college entrance exam!

The biggest possibility was not in the hands of Bu Jing Yue.

Instead, it was in the hands of Tang Qingqing.

These two women were each other's biggest rivals and as it stands, either way, Bu Jing Yue was the more favored party!

"Jiangcheng's College Entrance Examination champion!"

Bu Jing Yue looked at the huge list in the sky and listened to the quiet chatter of people around her.

Her face was cold and nothing fluctuated.

The outside world was going crazy with all the hype and momentum but to Bu Jing Yue, Tang Qingqing was not her rival at all.

The top student in the entrance examination of Jiangcheng was even less of a thing.

Her target was the one who would be placed higher up on the list.

"Teacher gave me the Heart of Star. If I can't even get the top position of Jiangcheng's college entrance exam, that would be ridiculous."

Bu Jing Yue thought calmly in her heart.

"Teacher has paid too much."
