

One Planet 218

Chapter 218: First in Double Subjects! The whole room is lying down! The crowd of heavenly pride is boiling over!

“Although there are many demons this year, this record is still difficult to break.”

“Huh? Stop talking, the list is coming.”

Bai Jiao Yang looked upward.

The others also stopped to discuss one by one.

They all looked up at the sky!

On other college entrance examination squares, all the geniuses looked better than when waiting for the second subject.

They were more focused!

Wei Qingqing, the girl in black, Wang Shan and others were staring intently at the list that was about to appear!

Basically, there was no difference for them because the second subject couldn't pull any score.

The difference between the four was not even one point and the third subject was different!

It was highly likely to open up a three or four or even five or six point gap!

This score difference, for those competing for the overall top spot, was kind of huge!

Time passed second by second.

Finally, it came at 6:10!

A brilliant light flashed, the text above the previous huge floating leaderboard disappeared into thin air.

Immediately after that, another light surfaced.

On the list, the admission ticket number, name and score slowly appeared one after another!

In a few moments, the whole list was filled up!

Results of all candidates appeared, one after another.

It tilted their long neck.

Their eyes were wide open with an unprecedented nervousness!

The results of this third subject came out.

Plus the second subject and the first subject in the morning!

That was the three subject result.

That's nearly half of the seven hundred and fifty!

Could they get into a university?

Basically, they could tell!

In previous years, there were just a lot of candidates.

At the end of the first day of the exam, because of poor performance, they directly ended the high school entrance exam.

Not taking the next day's exam!

This year would be roughly the same!

After a few moments, there were countless wailing sounds!

"Ah, how come I only scored 55! Usually my ratings are over sixty points!"

"42 points, crying me, the examiner is too cruel."

"Impossible! I only scored 62, that's impossible! There must be a mistake somewhere, I'm the top genius in the school!"

"60 points haha, just passed, it seems I burned incense and worshiped Buddha before it had an effect."

"I also scored 60, hey, first-class universities are out of luck, this score!"

"70! My third subject is 70! Haha, Xiao Li, look, I got 70 points!"

Each of them was wailing and sighing.

They were just excited and ecstatic but for most of the candidates, the mood was not good!

Even Fang Zhenting, who was looking at his results, frowned slightly.

Jiang Fan looked over, only to see.....

Fang Zhending's score was: 68!

It was not a very high score!

As usual, every tenth was a notch!

Ninety points, eighty points, seventy points, sixty points, four notches!

If it failed to pass then it was counted as an additional notch to get into a top university.

Seventy points and above was more stable.

Because of the poor performance, Fang Zhenting just smiled reluctantly, she didn't have the heart to joke with Jiang Fan.

The majority of the individual candidates were concerned about themselves.

For a while, no one bothered to look at the others' results!

In the Conference Room of No. 7 middle school, the faces of the school leaders and teachers were also not very good-looking.

They discovered that this year, the results of the third subject were generally low, let alone eighty.

It was hard to see one of the seventy!

“This year is recognized as the year with the most historical geniuses and the fiercest competition, and the examiners are supposed to be grading more strictly because of that.”

An older teacher guessed.

“That should be the case.”

Qiu Yunfei nodded and said, “The bigger the competition, the lower the score!”

“But.....”

Liu Yue replied: “In this way, it is very unfavorable for ordinary candidates, on the contrary.....”

“It won’t have much effect on those heavenly pride demons!”

Liu Yue also took the college entrance examination that year and was the person who won the first prize.

Naturally, she was more aware of these.

“Let’s see the results first.”

Tong Zhensheng said.

Liu Yue took the initiative and found the location of Tang Qingqing first!

This was also a matter of familiarity.

Soon, the results of Tang Qingqing were projected.

“Tang Qingqing, 80 points!”

Liu Yue’s clear and crisp voice rang out.

It lifted everyone’s spirits!

“Eighty points, Tang Qingqing actually managed to get to this score.”

“Every tenth notch, although the difference between seventy-nine points and eighty-points is only one point, they are completely different. The examiner’s score is very strict. If Tang Qingqing is given eighty points, it shows that he is very optimistic about Tang Qingqing’s planet!”

“The principal is right, Tang Qingqing did give us a surprise!”

.

Each one was quite happy.

Of course, they all knew what 80 points meant.

This was a different concept from the 84 points in the second subject.

The first team in the second subject was all over 95 points!
