

One Planet 224

Chapter 224: The real decisive battle! The last test!

The next day, Jiang Fan woke up early as usual.

After a simple breakfast, he came downstairs, outside the entrance of the community.

He was waiting for the school's talisman car.

A small talisman car was already waiting outside.

From inside, Liu Yue's head stretched out and said, "Jiang Fan, get in!"

"Ms. Liu, you are....."

As Jiang Fan walked over, he was a little unclear.

"My family lives near here, so I just came here to give you a ride."

Ms. Liu Yue smiled faintly.

Jiang Fan got in the car and didn't ask for details.

He knew where such a coincidence happened.

It should be the school's arrangement!

This small talisman car was similar to the cars of the previous world but it was more comfortable and safe.

Especially, it was without the strong smell of gasoline from the car.

It's speed was also very fast.

Soon, they arrived at the No. 7 middle school's parking lot.

Jiang Fan bid farewell to Liu Yue.

Alone, he passed through yesterday's passage with ease.

He was once again stepping into the college entrance examination square!

There were already many students nearby!

It was bustling with activity.

They were talking to each other but each one's expression didn't seem so simple compared to yesterday.

Today's exam was very much a test of each person's true power!

There was no room for even a single mistake!

The practical operation for everyone was also very high!

Jiang Fan also discovered that there were fewer people coming in than yesterday!

After thinking about it, he also understood that as the first day of the exam was over, many students with poor scores directly lost their eligibility to go to college.

On the second day of the exam, naturally, there was no need to participate.

“Jiang Fan.”

Not far, Fang Zhenting walked over.

Her complexion and expression looked quite good!

“You’re here early”

Jiang Fan said with a smile.

“Didn’t you find it more comfortable in this college entrance examination square than outside?” Fang Zhenting said with a smile.

“It really is.” Jiang Fan nodded slightly.

He found out yesterday.

That’s why many candidates came here an hour or two earlier!

If the mood was more relaxed.

You can also go to the adjacent building for a drink!

“Jiang Fan, have you read the rankings of the results of the first day?”

Fang Zhenting took out a thick document and patted it with her hand.

There was no other way.

The communicator could not be brought in.

They could only bring thick paper materials.

Jiang Fan looked at it.

It actually shows the names and results of each candidate!

Next to them, there were also their respective rankings!

“There will be no ranking in the college entrance examination square.”

Fang Zhenting explained: “But the major institutions outside will list every candidate’s ranking as soon as possible! The one I am holding is the most authentic “Heavenly Pride News” ranking but, haha..... Jiang Fan, you won’t have to look. You’re in first place.”

Fang Zhenting pointed to the name at the top.

It was none other than: Jiang Fan!

“The first day is nothing.”

Jiang Fan could only say dryly.

“Indeed.”

Fang Zhenting nodded in agreement and said, “My grades on the first day can only be considered average, ranking out of the 100,000 people in the province. I will work hard today and try to get a few more points in the actual combat assessment. Into the top 100,000!”

Second day exam was just one subject, with a total score of 400 points!

It was the most important and most talked about practical test!

Many people thought that the first day of the exam was just a formality.

For the real strength of each person, actual combat was the only standard!

“Huh?”

Fang Zhenting turned his head and looked in one direction and said, “Tang Qingqing and Bu Jingyue are here!”

Jiang Fan also turned his head to look and found the figures of Tang Qingqing and Bu Jing Yue, appearing in the square almost at the same time.

It even caused a little commotion!

The expressions of the two of them did not change much.

They were still calm with a hint of pride!

It was just that, unlike yesterday, both looked in the direction of Jiang Fan!

There were also a lot of discussions about Jiang Fan.

Jiang Fan was joking with Fang Zhenting at the same time.

While slowly waiting for the exam time to arrive.

As yesterday, today’s exam time was also nine o’clock!

Soon, the ethereal reminder sounded in the college entrance examination square—

“We have ten minutes until the exam begins, so please get ready to teleport into the exam room.”

Hearing this, everyone took a deep breath.

Their hearts were more or less nervous!

“I got pulled over too much in yesterday’s exam.”

Tang Qingqing took a long breath of fresh air from the college entrance examination square and thought to herself, “In today’s practical exam, I must play well! I don’t want the first prize, but the top 500 in the province must be won! I can’t let my brother down with so many resources!”

“On the first day, I only ranked in the top 20.”

Not far next to her, Bu Jing Yue was also thinking, “I must work harder today, if I don’t get into the top ten! I will not forgive myself!”
