

## One Planet 232

### Chapter 232: Real Time Ranking! Super Mode of the Great?Desolate Army!

Within the province, one by one in the college entrance examination square, after opting out, the candidates who were eliminated were transported there.

It was not the same as previous years.

The number of people eliminated by the first wave this year could be very surprising.

It could be seen from the number of candidates in the square.

It was black!

No matter who it was, they were crying bitterly.

This included some of the usual so-called geniuses.

“Why? Why was it so difficult!”

“I’m going crazy, this first wave was too difficult.”

“I can at least pass the second wave in the usual simulation, but now I can’t even pass the first wave?!”

“It blew up, there was no hope.”

“Luckily, it’s not that lonely with so many people being eliminated.”

“.....”

One by one, they were talking wildly!

It was all in the first wave of this time!

“I..... how did I get eliminated from the first wave? The teacher who came up with the questions really deserves to die!”

In a corner of the square, Xiang Junhao clenched his fists tightly.

His face was gloomy.

As one of the top three geniuses in the No. 7 middle school, Xiang Junhao was also famous.

Many people had high expectations for him!

However, in the first wave, he couldn’t resist the attack of the zombies.

He was eliminated!

“Tang Qingqing! Jiang Fan!”

Especially since Jiang Fan and Tang Qingqing were nowhere to be seen.

Xiang Junhao’s face was twisted a little!

Before the rise of Tang Qingqing and Jiang Fan, Xiang Junhao was a popular figure in the No. 7 middle school.

He was the most dazzling one, even after awakening the planet later.

Xiang Junhao also considered himself extraordinary.

He was also a genius who had awakened the planet close to Tang Qingqing!

He was thinking about the civilization of ordinary people built by Jiang Fan.....

It was so so!

There was not much potential at all.

Even if he won the championship of the Jiangcheng competition.

So what?

He heaved a sigh of relief in his heart and prepared for the college entrance examination.....

Unleash it for good to violently press down Jiang Fan!

However!

Who would have expected that.

Not only did he fail to suppress Jiang Fan and Tang Qingqing.

On the contrary, he was eliminated in the first wave!

Also, with this, he lost the opportunity to go to college.

According to the federal regulations, to get to college, in this section of actual combat assessment, he had to pass at least one wave!

Otherwise, no matter how good you were in the first three subjects, it was also useless.

“Unfortunately, Xiang Junhao is too impatient and wants to express himself too much.”

Inside the conference room of the No. 7 middle school, seeing Xiang Junhao being eliminated, leaders and teachers were shaking their heads and sighing.

Xiang Junhao was the third genius among them.

Naturally, there were quite a few people who were paying attention but no one could have imagined that the top 30 ranked candidates of the No. 7 middle school passed the first wave without a hitch and Xiang Junhao actually lost.

“He’s holding his breath and trying to prove himself.”

Qiu Yunfei spoke up.

The teachers were very experienced.

They could naturally see that Xiang Junhao went from being the most dazzling man of the hour to being continuously surpassed by Tang Qingqing and Jiang Fan.

He was psychologically unbalanced!

“With Xiang Junhao’s strength, as long as he is not so impatient and fights slowly, sooner or later, the weakness of the zombie group would be discovered, and it was impossible to fall at this first wave.”

Another teacher also sighed: “But it’s useless to say anything, there is no chance to do it again!”

After a short talk about Xiang Junhao, the crowd also turned their attention to the others.

Due to the unprecedented difficulty of this exam, many geniuses like Xiang Junhao lost because of carelessness.

They even stumbled at the first wave!

They were eliminated!

However, for the vast majority of geniuses, especially for those who were ranked on the Heavenly Pride List, the first wave was just a little trickier.

Over time, they also quickly discovered the weakness of these zombies!

“The brain of this monster is a weakness and it is afraid of fire!”

The Great Desolate Army dragged back the fallen one after another.

Anatomical studies were being performed.

While observing, a scholar reported, “Other than the head, other parts have strong defense against bullets but it’s not invincible. If the attack power exceeds a certain threshold, they will also be knocked down directly! The most frightening thing about such monsters is not their defensive power, but.....”

The scholar paused for a moment and said solemnly: “Their terrifying infectious ability, if bitten by them, will be assimilated into this monster!”

The Great Desolate Army knew this too because, earlier when Chang Yu Chun sent people to capture the remaining dozens of zombies alive, to take them back to the Transcendental Research Institute for research, soldiers who were distracted were bitten by a zombie.

Less than a moment later, it became the same as a zombie.

Fortunately, the Great Desolate Army reacted in time.

With the previous expeditions to various transcendent planets, they were also quite experienced.

Horses tightly controlled these living zombies!

After conducting some research, they found this terrible feature!

“So, a preliminary conclusion can be made!”

“These monsters might have been ordinary people, but for some unknown reason, they might have been transformed into such monsters due to some kind of transcendent energy!”

The scholar concluded by setting the tone.

The other scholars listened carefully while nodding slightly.

“This is a type of transcendent species we’ve never encountered before.” Yan personally came into the research room to watch the dissection, and then spoke up, “So everyone needs to pay more attention! Try to find out the reason for the formation of this monster as soon as possible!”

This had always been the strategy of the Great Desolate Army.

In every conquest of the outer planets, it could be more than just defeating those transcendent species.

The most important thing was the study of these transcendental species to analyze their characteristics and secrets!

Using the traditions left over from the era of Qi, as long as it was a creature, it would definitely have its weakness. It would depend on whether or not it could be found!

At the same moment, above the square, a huge floating leaderboard appeared.

This was the ranking of the results after the first wave!

That’s right.

For practical assessment, the rankings were published in the space of the college entrance examination, in order to stimulate the competition of major geniuses!

It was just that, at this time, not too many people paid attention to it.

To begin at the second wave, the results were worth seeing!

Ten minutes of preparation time passed quickly.

The ethereal voice rang out:

“The second wave of Transcendent Invasion is about to begin, please prepare yourselves.”

In front of Jiang Fan, a ten seconds countdown started.

After it reached zero, outside the Royal Tombs Mountains, the planet channel opened again!
