

One Planet 234

Chapter 234: Real Time Ranking! Super Mode of Great Desolate Army!

After assembling more than a thousand people, the undead knights on the opposite side?were finally on the move!

They were riding?the dead horse below!

Their speed was not fast.

However, they were moving towards the city wall in an orderly manner!

Surprisingly, the marching process was not just that these knights were silent, even the horse underneath was silent!

They were not like the hordes of zombies in the first wave before, who were shouting loudly.

Hooting and hollering!

It was the other extreme.

There was silence.

There was only the slight sound of horses' hooves on the ground.

This scene looked bizarre as hell for a while!

However, the Great Desolate Army was not careless or despised because of this strangeness!

Instead, it raised their attention even more!

Everyone who was holding a rifle,?aimed at these undead knights!

They were waiting for these knights to come within range.

Le Yi immediately ordered, "Fire!"

Immediately!

Bang! Bang! Bang!.....

Gunfire was loud!

Thousands of bullets?were shot.

Those bullets were densely packed like rain.

It densely dashed towards these black undead knights, like a big net.

The knights and the undead horse below them, enveloped in it!

However, a?bizarre scene happened.

Bullets?that hit the undead knights?and undead horses?were?as if they?had struck a swamp.

There was no sound.

All of them disappeared under that black fog, leaving?Chang Yu Chun and other soldiers?shocked!

“Don’t stop, keep attacking!”

Le Yi immediately shouted.

No matter how weird it was, they kept shooting!

The people from the transcendent research team beside him were looking for the weaknesses of these undead knights!

“Look!”

A young scholar opened his mouth and shouted.

Immediately, the attention of the crowd was drawn to it.

“Look at the heads of these undead knights, there..... there is a cluster of blue-white flames!”

The crowd looked over but it was invisible to the human eye.

They picked up the binoculars one by one and discovered that inside the head of the undead knights, there was indeed a small flame!

It was a cold, blue-white colored flame!

It looked bizarre as hell!

“In the middle of firing.”

The young scholar continued: “These flames are shaking slightly, as if slowly weakening!”

“That means.....”

Another scholar looked uplifted and said, “The bullet attack is still effective against them and can consume their life force!”

“It should be that these flames can be seen as a protective shield for these undead knights!”

An old scholar said: “Once the flame disappears, it means that the protective cover is broken, and then, our bullets should then be able to do direct damage to them!”

“So that’s how it is!”

Hearing this, Chang Yu Chun breathed a slight sigh of relief!

Le Yi even ordered: “Attack with all your strength, the scouts carefully watch the status of the knights on the opposite side, and once the flame on the head of any knight weakens, focus on attacking that knight!”

This was also a tactic that had always worked very well for the Great Desolate Army!

Bang! Bang! Bang!.....

One by one, the soldiers fired more frantically with their guns!

The sky was full of bullets.

It was pouring out!

Next to the scouts who specialized in observing the situation on the battlefield, one by one, they glanced at the undead knights in front of them with binoculars.

These knights were the most vulnerable!

Under a constant barrage of bullets.

Finally, a scout saw that the blue-white flame in the brain of an undead knight in the middle gradually went out!

“In the middle, gather fire!”

This scout shouted.

The other soldiers of the Great Desolate Army had a tacit understanding.

There were hundreds of guns at once, aiming at the undead knight in the middle.

After the crazy shooting, they saw that behind the undead knight whose brain flame was about to disappear, suddenly, a faint light flashed in his brain.

Immediately after that, the flame in the brain of the undead knight in the back was reduced by half!

The result!

Nothing happened to the undead knight in the front.

“This.....”

This scene was watched by scholars, Chang Yu Chun and others.

For a while, they were somewhat dumbfounded!

“Can their flames be borrowed from each other?”

One scholar couldn't resist asking.

“It should be said that it is a transfer.”

An old scholar's face became solemn and said: “Other undead knights can lend their flames to their companions! In this way, as long as the number of undead knights is sufficient, it is impossible to kill them!”

One scholar said with some surprise.

Chang Yu Chun and other soldier's eyebrows furrowed once again!

After all, most of them could only hit the undead knight in the front.

The undead knights in the back were unharmed, they could easily transfer their own flame.

Lending it to the undead knights in the front row looked like they were under the constant source.

The undead knights in the front row were completely immortal!

The results were the same.

The Great Desolate Army was shooting frantically.

The flames in the brains of the undead knights in the front row disappeared little by little?but when it was about to disappear, the other undead knights in the back would fill in!

It was making the bullet rain attack completely useless!

Everyone watching this frowned slightly.

At the same moment, thousands of undead knights were still advancing.

They were approaching the huge city wall step by step!

“We can’t let these guys get within 400 meters!”

A trace of coldness flashed in the eyes of Chang Yu Chun.

He turned his head to look at Yan who was watching the battle behind him.

Yan knew what Chang Yu Chun wanted to do.

Then she nodded.

Chang Yu Chun clenched his right hand slightly and shouted, “Use the artillery.”

Immediately, on the city walls, around the soldiers of the Great Desolate Army, the covers of canons were lifted off from the top!

Exposing the black hole mouth!

This was?one of the great weapons of the Great Desolate Army!

Since the first strategy was useless, the main thing was trying to get the Great Desolate Army to adapt to the Glory Conquest?but it didn’t mean that?it could not be used!

In this round, facing?these bizarre to the extreme undead knights, Chang Yu Chun and others felt that the time had come to use the artillery!

.....

On the other candidates’ planets, one by one, they were also finding these bizarre creatures difficult to deal with!

Boom.....

After a series of loud noises, Tang Qingqing frowned at the scene in front of her.

When the magician under her attacked, it?actually didn’t work for the undead knights on the opposite side!

It was not the same as the side of the Great Desolate Army.

Tang Qingqing did not have a tall city wall there.

As she was also smart,?she set the planet passage in front of a natural valley.

.

She was using natural barriers?to better withstand the attacks of various transcendent races!

The first wave of zombies was still very easy.

The Magic Legion went down with a lot of fireballs.

More than half of them were destroyed!

However, the undead knights this time were not even slightly damaged.

“All of you chant and use the Great Fireball Technique!”

Tang Qingqing ordered.

She would use the most powerful super fireball!

Letting these undead knights who gave people goosebumps go up in smoke!

It was just that?the result still surprised everyone! !
