

One Planet 261

Chapter 261: Powerful individual super weapon! Capturing the fairy alive!

This was a real lightning bolt. It couldn't be dodged completely.

It was split right in the middle, bombing in place.

A few moments later, everyone saw that a hole was blown out in the original place.

The female cultivator's clothes were all black.

A large mouthful of blood seeped out of the corner of her mouth!

Then she fell on the ground for a long time and did not get up!

Although not directly dead yet, with such a serious injury, it was impossible to get well in a short term.

Seeing this scene, Tang Qingqing and Tang Tong Shu were both relieved.

If the magic scroll that cost so much did not work, there was no need to continue the next actual combat assessment!

Once the female cultivator fell, the others were easy to deal with!

At the same time, every single candidate was forced to use almost all of their bottom cards.

The Great Desolate Army was no exception.

On the rumbling battlefield, that sword light came again!

The goal this time was another artillery!

The crowd learned their lesson and stayed away from it.

A soldier just got too close.

As a result, although he did not get hit by the flying sword but it was shot by the cracked fragments of the artillery.

He was a little hurt!

Boom!

There was a loud sound.

Another artillery piece suffered.

But at this time, there was a smile on Han Xin's mouth.

He heard a soft "poof" sound!

The whole body of the female cultivator one kilometer away, suddenly trembled!

She opened her eyes wide, looking at her chest in disbelief!

There was a hole as big as a fingertip!

Blood was gushing out of it!

.

A sharp pain came through.

Puff! Puff! Puff!

With a few more soft sounds, a few more finger-sized holes appeared in the female cultivator's body!

A stream of blood flowed out!

“Target hit, but not dead yet!”

A voice rang out.

The crowd turned their heads to look over.

Then it was seen that in a special location on the city wall, a few soldiers of the Great Desolate Army were hiding.

However, it was not an ordinary rifle in their hand.

It was longer and bigger than a regular rifle!

In addition, there was also a conspicuous aiming lens on top of it!

This was since the last time Han Xin put forward the suggestion to deal with the powerful transcendent individual.

A weapon developed by the Great Desolate Army: the sniper rifle!

Thanks to the two materials, star meteorite iron and vibranium.

It was a sniper rifle made by the Grand Desolate Army.....

Although the technology was just getting started, its power was outstanding.

Its range was as far as two kilometers.

The speed was more than one kilometer per second!

It was almost the same as the most advanced sniper rifle on Earth in Jiang Fan's previous life, it was not much different!

Seeing the female cultivator falling down, all scholars were breathing a sigh of relief!

If the sniper rifle was not effective, the Great Desolate Army would be very passive!

Was there a more powerful weapon?

Of course, there was.

However, it could not be used regularly.

“The special forces are ready to defeat these cultivators and capture the female cultivator alive.”

Han Xin's expression did not change.

The order was given immediately.

Three thousand special forces were quickly mobilized!

They were running out of the city walls, charging towards the 3,000 white-clad cultivators blocked by cannon fire!

Firing from a distance of 400 meters!

With the fall of the female cultivator, the biggest threat of this battle was eliminated.

The rest was not much suspense.

Although the three thousand white-clothed cultivators were also very powerful, they couldn't even touch the clothes corner of the Great Desolate Army at all!

Under the double bombardment of artillery fire and bullets, they were falling one after another!

In the end, the special forces team came to the side of the fallen female cultivator and surrounded heavily.

After confirming that the other person was seriously injured, they dared to come forward.

She was carried out..... alive!!!

This was something that only the Great Desolate Army did.

On other candidates' planets, all of them were directly exterminated!

Although it is said that every student had more or less trump cards.

But no trump card could beat this pseudo-foundation female cultivator.

Most of the candidates were still under the flying sword of female cultivators.

They were watching the race they built being decimated one by one!

Finally, in desperation, they chose to quit!

It was not easy for students to pass this wave.

Some candidates relied on the number of people to kill the female cultivator but they also paid a very high price!

Basically, they were saying goodbye to the next wave in advance!

"The fifth wave of Transcendent Invasion is over, all candidates please take a break. Ten minutes later, the sixth wave of the actual combat assessment will be conducted."

The ethereal prompt sounded.

Letting all the candidates breathe a long sigh of relief!

This wave.

They really couldn't say that it was hard.

Rather, it could be described as exhausted.

In order to solve the female cultivator who was able to control the flying sword.

Everyone was racking their brains and taking great pains.

They tried everything!

Even they were forced to use their bottom card one by one!

Nevertheless, there were still a lot of people who were eliminated!

On the college entrance examination square, another black mass of people appeared!

"You were eliminated as well?"

"Yes, my Immortal Cultivator was also able to use a flying sword, but was far from being a match for that female cultivator and was decimated one by one."

"It can't be helped, that female cultivator is too strong."

"Almost, I almost beat her. The assassins I trained killed that female cultivator, but after paying too much for her life, they were not able to defeat the remaining 3,000 cultivators!"

"Stop here, there is no hope for super-first-class universities!"

"....."

Each one of them was very unwilling but also helpless!

On the high school entrance exam, the competition was still strong.

If strength was not sufficient, there was no one else to blame for being eliminated.

A big change had occurred on the leaderboard in the sky because of this battle.

But the number was suddenly much smaller.

The candidates in the square didn't even need to look closely.

"There are less than five thousand people left, tsk! It's really ruthless."

In the conference room of the No. 7 middle school, Qiu Yunfei couldn't help but sigh with emotion.

"Tang Qingqing's ranking has improved a lot in this wave, and she went directly to the top three hundred."

Teacher Liu said.

"Tang Qingqing used a magic scroll, so this ranking is inevitable." Qiu Yunfei nodded and said, "Bu Jing Yue is firmly in the top 100, and Jiang Fan's ranking has also risen slightly, reaching the top 3,000!"

"This kid, maybe there is still hope to squeeze into the top 1,000?"

Chapter 262: Flame Giants! The second bottom card of the Great Desolate Army!

“The rest of them are all super geniuses on the Heavenly pride list. The next wave will be really good.”

In City Lord’s Mansion Hall, the planet masters looked at the ranking on the list.

All of them showed some excitement!

“Sure enough, 70% were eliminated in this round, leaving less than 5,000 people! The real battle of super geniuses is about to unfold in the next wave!”

“Almost all the candidates have used their bottom cards in this wave. The next wave is a more powerful super civilization, which will be more difficult. Let’s see what kind of bottom cards will appear then?”

“This Jiang Fan is a bit interesting, the musketeer he built doesn’t look like much, but surprisingly, he was also able to pass every wave, and has gone all the way here, and now his ranking has risen to within three thousand!”

Big shots were discussing.

Some people also became interested in Jiang Fan.

“Musketeers, well, they are long-range attackers, and there are quite a lot of them, and they are more advantageous in the actual combat assessment.”

“If I’m right, the next wave should be of a higher level of difficulty, most likely with powerful individuals that can’t be solved by numerical superiority.”

A planet master said.

“That should be the case.”

Another planet master nodded and said: “The transcendent people who appeared in front of them can still be piled to death depending on the number of people, but it’s definitely not going to happen in the next wave!”

“I just wonder which super civilization race this examiner will come up with?”

“Let’s see. It’ll start soon!”

“One by one, super geniuses will be eliminated by more than half! Even the top 100 in the province may be eliminated!”

“This wave is definitely not simple. If they survive, it will be the last wave. They can see the figure of a super-first-class university, but if they can’t survive, then they have no chance!”

All of them were talking.

The interest on their faces was getting stronger and stronger!

.....

At the same time, Jiang Fan's expression was a little strange?because he saw the Great Desolate Army escorting the seriously injured female cultivator.

They were taking her?to the research room in the back.

They actually started a special experiment!!

Several biologists wearing thick glasses were staring at this seriously injured female cultivator with an out-of-this-world temperament.

There was a gleam of excitement in their eyes?but?they didn't know what they wanted!

"It can't be....."

Jiang Fan's eyes widened while he was watching what these biologists did next.

It was really?a mind opening!

"The sixth wave of the actual combat assessment will start in one minute. Please prepare yourself."

The ethereal prompt sounded at this time.

Jiang Fan could only divert his attention?by setting his sight on the planet passage.

Each of the other candidates also sat upright.

They were starting to get a little nervous!

This was?because it was the penultimate wave!

As long as they can?pass this round, a?super-first-class university will beckon them!

Passing the sixth?wave was 300 points!

It was at least 50 points more as compared to the candidates who were eliminated only in the first five waves.

Even if there were a few points less?on the first day of the exam, it was enough to make up for it.

In the previous years, the next day's practical test was the one that really opened up the score difference!

Only the difference of one wave was fifty points!

Even if it was Jiang Fan, who got a perfect score in all three subjects on?the first day,?he only pulled away from Bu Jing Yue by twenty-three points!

It didn't count for much at all.

It was not just the candidates, the City Lord's Mansion and many big figures from all over the place were all concerned.

This sixth wave could be said that?it was the final sprint!

The tense and suffocating atmosphere gradually emerged!

One minute passed quickly.

The planet passage was open again!

Roar!

No transcendent species had come in yet.

Everyone in the Great Desolate Army heard a thunderous roar!

It was like a fierce beast from ancient times!

Immediately after that, two extremely terrifying auras spread in, letting everyone tremble slightly!

This aura was more terrifying than all the previous transcendent races!

Boom!

Boom!

The earth was trembling.

In the next moment, from the passage entrance, an unbelievably huge figure appeared?through the passage.

The figure gradually revealed?itself.

This was a behemoth that was ten meters tall!

At first glance, it was somewhat human-like, but?it was a giant whose size was many times bigger!

On the body of the giant, there was also a ball of flame burning!

These flames were continuous.

But the giant didn't care about it!

It was like a long habit!

Boom! Boom!

The giant strode in with big feet.

Every step carried a trembling force.

After the first giant walked in, another huge figure appeared from behind!

Looking at these giants with huge bodies, firstly?there was a silence?in City Lord's Mansion Hall.

And then..... There was a bang.

"Giants? I can't believe it's the Giants!!!"

"Also, the flame giant? It is one of the most terrifying of the giants!"

"This year, this examiner is really ruthless. Is he planning to wipe out all the candidates in this wave?"

"It's not enough to destroy all of them, but..... Most of them won't be able to pass this stage."

"It's interesting. We?can see the scene of a child punching around!"

Everyone was talking loudly.

The excited look on their face was getting thicker!

The Flame Giant!

That was famous!

It was a very powerful type of super civilization?but it was also extremely difficult to cultivate.

It was terrifyingly powerful!

It was incredibly talented!

It was born with flames!

“In this wave are actually flame giants? This is troublesome.”

In the conference room of the No. 7 middle school, the faces of the school leaders and teachers were not very good-looking.

“Tang Qingqing’s magic army and Jiang Fan’s musketeers seem to have been restrained by the flame giant.”

Teacher Liu Yue said with concern.

“What is on the flame giant is not ordinary fire, but an extremely rare earth fire that can burn up almost everything.”

Tong Zhensheng’s face was also a little gloomy as he said: “In addition.....”

“The flame giant itself is strong enough!?One mistake and I’m afraid they’ll all be wiped out!”

.....

Chapter 263: Flame Giants! The second bottom card of the Great Desolate Army!

Seeing these giants with huge size and with fire on their body, all of the candidates’ faces turned pale.

On top of the city walls, the Great Desolate Army also looked more nervous than ever!

Boom! Boom! Boom!

As the last flame giant stepped in, all the flame giants were together!

There were thirty giants in total!

That large size, coupled with the terrifying aura,?brought everyone an unprecedented pressure!

Even if they were a few kilometers away, it was still possible to feel the amazing aura of the flame giant!

But the Great Desolate Army also went through five waves of trials and tribulations.

The hearts of many scholars and generals were not that fragile.

Calm was soon restored.

They were observing these giants carefully.

“The flames on these giants seem unusual, not quite like our unusual fire.”

One scholar was the first to make a discovery.

“Being able to keep burning on the giant, plus this is definitely stronger than the previous immortal cultivator, basically it can be determined that it is not an ordinary flame.”

Many scholars agreed on this!

“Hmm? They’re moving.”

Everyone saw that the flame giant at the forefront looked at the city wall for a few moments.

Then he opened his mouth towards the other giants in the back and said something.

After that, giants began to take a step with their big feet.

They started running!

Their speed was actually not even close to the previous immortal cultivators!

Thirty ten-meter-tall giants running up.

The earth was shaking!

“Fire the artillery, the others are free to fire, try to stop these giants from 500 meters away!”

The commanding general of this wave turned out to be Xu Tiande.

It couldn’t be helped.

He lost face in the first wave.

He was robbed of too many scenes by Chang Yu Chun.

This time, of course, he wanted to take it back!

Bang! Bang! Bang!

Hundreds of cannons were fired!

Ten thousand guns fired at once!

Countless bullets and shells lashed out at these flame giants!

The reaction of these flame giants was also extremely fast.

They immediately dodged left and right.

But it was a relief that they were not as agile as the immortal cultivator before! If not, that would be tough!

Boom!

There was a loud boom.

A cannonball landed at the foot of a flame giant.

There was a splash of dust.

But this little bit of power?was not harmful at all for the huge flame giant.

Another cannonball fell.

In turn, it rushed directly to the chest of the flame giant.

Chi Chi Chi!

An extremely harsh voice rang out.

The crowd of the Great Desolate Army was surprised to see that.

This shell was directly dissolved by the flame on the flame giant!

That's right, there was no detonation.

Instead, it dissolved and annihilated directly!

It was not just the cannon balls, other alloy bullets which were fired,?would also end up the same way.

It was destroyed by the flames on the surface!

This was beyond the imagination of the scholars!

On top of the city walls, there was an eerie silence!

“What's the panic!”

Seeing that the situation was not right, Chang Yu Chun immediately shouted: “This level is definitely more difficult than the previous one. Since it is a transcendent, there must be a transcendent's means. Give me a serious study and study to find out the weaknesses of these flames!”

Almost everyone could see that?these flame giants were the most powerful.

There was extremely terrifying gunpowder on their body!

Cannonballs and bullets actually melted so fast!

In case of fire, it could be detonated directly.

This rendered the main weapon of the Great Desolate Army instantly useless!

One by one, scholars were also only a little surprised at first.

They were soon back to normal.

All of them grabbed their binoculars?and started checking carefully.

“Is the alloy able to absorb these flames?”

One scholar asked.

“It should be able to, but the absorption is too small. These flames are just too powerful.”

Another scholar looked solemn.

After observing for a while, every scholar was unprecedentedly serious.

It was fast and agile.

The power was not small.

It was also quite intelligent.

But what’s the point?

The most crucial thing was still the terrible flame on the giant!

It could not be targeted.

It was completely impossible to handle it.

There was simply no good way to target it.

For a while, each scholar and general turned their attention to Chang Yu Chun.

They were waiting for Chang Yu Chun’s decision!

To deal with these terrifying flame giants, conventional weapons were not going to work.

They needed to use the bottom card of the Great Desolate Army!

Chang Yu Chun took a deep breath and turned around.

He knelt down on one knee toward Yan, and said in a deep voice, “Your Highness, I request to use the Heaven Splitting Cannon.”

This Heaven Splitting Cannon?was in the past few years of the Great Desolate Army.

It was the most terrifying and powerful weapon ever built!

But precisely because it was too powerful?and had almost destructive power, they tried it once after the manufacturing was completed.

It was sealed off!

The key to activate the Heaven Splitting Cannon was in the hands of three people!

One was Yan.

One was Ghost Buster.

There was also Chang Yu Chun.

All three keys must be activated simultaneously, only then could they use it!

It must also be agreed and activated by Yan herself.

“You can!”

Yan also saw the horror of these flame giants.

There was no hesitation.

The decision was made immediately.

“Here is my key.”

Chang Yu Chun took out a key that was hidden tightly on his body?and just handed it over to Yan.

Ghost Buster on the side also knelt down on one knee?to hand over the key that he was keeping!

Yan also took off the key from her neck that she had been keeping!

With that, she shouted, “Personal guards, be on guard!”

To activate the Heaven Splitting Cannon, there were very strict rules.

It could only be started by Yan herself.

No one else could get close!

The personal guards were responsible for guarding the side.

At this time, anyone one who dared to come close would be killed directly!

Everyone who saw the heaven splitting cannon’s experiment was?very?clear.

Chapter 264: Flame Giants! The second bottom card of the Great Desolate Army!

Everyone knew the terrifying aspect of such a huge weapon!

If someone used it, the whole capital city would be destroyed!

Everyone knew in their hearts that Yan?was?the representative of the gods.

Only then could they all feel at ease!

Under the protection of a personal guard, Yan quickly walked towards the depths of the Royal Tombs Mountains!

She was hiding this one terrible destructive weapon there!

“Everyone else, do your best to stop the advance of these flame giants and give Her Highness time.”

Chang Yu Cun immediately ordered again.

“Don’t fire the cannons at these flame giants. Hit?the ground!”

Listening to the advice of the scholars beside him, Chang Yu Chun spoke again.

The shells and bullets were dissolved as soon as they touched the flames.

By landing directly on the ground, it could still detonate.

Immediately, all the shellers and soldiers of the Great Desolate Army changed their targets.

Cannonballs fell on the ground where the flame giants were advancing.

It blew up a block of debris and dust.

The aftermath of the explosion also swept the surrounding gas!

“It’s working.”

Watching the flame giant slow down.

Everyone’s eyes lit up.

It was obvious that in the aftermath of the explosion, the flame giant was also affected.

“These terrifying flames can’t resist the aftermath of the air.” A scholar made a preliminary judgment.

“Good, continue bombing like this.” Chang Yu Chun also looked slightly uplifted, and then said, “Are there still tunnels under the city walls?”

“Yes, there are still tunnels, just below our feet, extending not far ahead.” Han Xin replied.

He was also in charge of it.

In the previous battle against the dark elves.

Although the gunpowder in the tunnel was detonated.

Resulting in almost all the tunnels being blown up, but it did not include those closer to the city walls.

“What’s the situation?”

Chang Yu Chun asked.

“Most of it is still intact, but.....”

Han Xin paused for a moment and added, “It’s too close to the city walls!”

Han Xin knew what Chang Yu Chun was planning to do.

This was an attempt to detonate the rest of this tunnel.

But these tunnels were too close to the city walls!

This way, it was highly likely to destroy the foundations of the walls!

In addition, once it doesn’t work, it would be very dangerous!

“It’s okay.”

Chang Yu Chun raised his eyebrows and said decisively, “Make all preparations, even if we give up this wall, we must delay enough time for Her Highness!”

“Yes.”

Han Xin had no doubts.

After all, they all had to make way for the use of the Heaven Splitting Cannon!

“General Chang, I have an idea.”

Le Yi, who had been silent, suddenly opened his mouth at this time.

“What idea?”

Chang Yu Chun and the others all looked at Le Yi.

“Don’t we still have Scarlet Lion blood?”

Le Yi said: “You don’t need to use gunpowder, just melt a big hole with the blood of the scarlet lion.....”

“No.”

An authoritative scholar next to him immediately shook his head and said: “The five senses of these flame giants seem to be very developed and they will not be fooled.”

“No no.”

Le Yi, however, shook his head and said, “I am not trying to set a trap, instead.....”

“Dissolve a big hole with scarlet lion blood, and then pour in water to stop these flame giants from moving forward!”

Scarlet Lion’s blood

Because Qi’s era found it to be very useful!

In the previous planetary conquest, Jiang Fan specially arranged a scarlet lion planet.

The Great Desolate Army killed a lot of scarlet lions again?and got a lot of scarlet lion blood!

It’s just that?because of the presence of gunpowder, Scarlet Lion’s blood was largely forgotten.

“This method seems..... feasible.”

Chang Yu Chun pondered.

He made a decision and said, “Then General Le Yi will be in charge of this matter, bring a special team of 1,000 people, and quickly complete this matter!”

“Yes.”

Le Yi immediately led the order and went away.

The artillery and rifle fire from the walls got even more frantic.

They were desperately trying to organize the approach of the flame giants.

The flame giant also seemed to be stunned by the dense cannonballs and bullets.

Especially the explosions on the ground.

It made their bare big feet a little less bearable too.

After some time, they did not dare to rush over!

This gave Le Yi plenty of time.

Soon, they just heard a boom!

Less than two hundred meters from the city walls, the ground suddenly collapsed.

Immediately after that, in the dusty atmosphere, a giant crater appeared in front of everyone's eyes!

The hole was almost one hundred meters long and fifty meters wide!

It was more than 20 meters deep!

To create such a huge crater, almost all of the scarlet lion's blood was used up.

The movement was also detected by the flame giant.

They were not less intelligent.

Not that careless either.

They did not dare to approach.

After they found out that it was the Great Desolate Army that was creating a giant pit.

They immediately jumped in anger, but it was already too late.

It was such a large and deep hole that even the flame giants did not dare to test it!

They could only go along the sides of the hole, but it was narrower on both sides.

Only one flame giant could travel at a time.

In addition, the shells and bullets were much easier to target!

"It's a pity that it's not even close!"

Looking at this 100-meter-long pothole, everyone felt some regret.

If it was a little longer.

It could cover the entire strip of the wall!

The flame giant could only think of ways to get through these holes!

"Fortunately, it can be delayed for a while."

A scholar breathed a sigh of relief!

A total of only two flame giants could pass at a time and under the constant barrage of shells and bullets from the Great Desolate Army, they were moving forward very slowly!

It was like someone keeps hitting you in the foot with pebbles.

There was no major damage, but it was very uncomfortable!

The flame giant used his hands to ward off these shells while moving forward!

At this time, Yan had already arrived in the depths of the Royal Tombs Mountains.

The place where the Heaven Splitting Cannon was placed!

After taking out the three keys.

She opened the heavy doors!

Inside, a huge, unbelievable behemoth appeared!!!

Chapter 265: Great Terror! Trembling of the Flame Giants!

Boom!

There was a loud sound.

On the planet of a candidate who was ranked over 4,000, a flame giant raised its huge flame fist and a punch blasted down, smashing the huge lightning beast to the ground into a puddle of mud!

It was dead as a doornail.

Seeing the ground, there were piles of corpses of thunder beasts.

The candidate collapsed.

He cried and chose to leave the examination room.

This chief genius from a medium-sized city was thus..... eliminated!

On other candidates' planets, a similar scene also appeared.

The race that was created was punched by the flame giants like a small child.

In just a few seconds, it was almost clean!

On Tang Qingqing's planet, several flame giants quickly rushed up.

The flame fist directly slammed down.

Although there were magicians behind constantly casting spells to interfere, all of them were deflected by the flames of the flame giant!

There was no effect at all.

Rumble!

A few loud bangs came down.

A Dou Qi warrior violently spat out a mouthful of blood.

It was smashed out of the way!

The rest of the warriors didn't take it well either.

The Dou Qi shield was smashed with a punch!

Tang Qingqing was so scared that she quickly got the Dou Qi Warriors in the back to replace them!

Boom! Boom! Boom!

The flame giant's attack continued.

In just a short while, among eight hundred Dou Qi warriors, one hundred people had already lost their fighting ability.

More than 20 others were smashed to death on the spot!

Tang Qingqing's heart clenched.

Her face was unprecedentedly grave.

The flame giant was also too terrifying!

It was not just Tang Qingqing, even if it was the spirit tree man with amazing defensive power of Bu Jing Yue, after being punched a few times by the flame giant, it also couldn't bear it anymore.

The huge tree man kept trembling.

Countless leaves and branches were knocked out.

"If this continues, the spirit tree people will die.?I need to use the bottom card."

A hint of helplessness flashed in the eyes of Bu Jing Yue!

One by one, on the planets of other?candidates, it was basically pretty much the same scenario.

Facing this terrifying flame giant, each one of them was struggling to resist.

There were constantly chief geniuses from various cities being eliminated!

For the big guys in the City Lord's Mansion,?that was a joy!

As for the Great Desolate Army, it was not much better.

Although a big hole was dug with the blood of scarlet lions,?there was still room to move forward.

The flame giants were one left and right.

They were coming from both sides.

Artillery and bullets could only slightly delay the pace of these flame giants!

The crowd on the city walls exhausted all methods.

They could only wait for Yan's action?to activate that terrifying destructive weapon that caused everyone's expressions to change!

With a clatter, the gates opened.

Yan walked in by herself.

After coming in,?the door was closed.

This was a huge space, located deep in the Royal Tombs Mountains!

More than three kilometers from the location of the city walls!

In this space, an incomparably tall behemoth reflected in Yan's eyes.

Look at this steel monster!

Yan walked up.

A hint of complexity flashed in her eyes!

This was five years ago.

A suggestion made by a whimsical scholar.

The sniper rifle had just been developed at that time.

Thus, this scholar had a sudden idea.

Can they develop a sniper gun?

A larger version of the sniper rifle.

Wouldn't it be more powerful?

Once this idea was proposed.

Immediately, it made many scholars laugh.

Sniper cannon?

How is that possible?

Ordinary artillery was not very accurate.

It was far worse than a sniper rifle.

Even if it was a sniper rifle, it was also very laborious to develop it.

Not to mention this sniper cannon.

Just kidding.

It was just that?there was no shortage of whimsical people among the many scholars of the Great Desolate Army.

Although many people thought that it was impossible,?there was still a small group of people who were trying.

Yan did not object either!

It's always good to have ideas.

However, at this time, she didn't expect it either,?that this project that everyone thought was impossible could be created.

In the end, a devastating and terrifying weapon was created!

After three years of development, this project has had initial results.

A crude sniper cannon.

It was amazing that it was really made by these guys.

The reason for this?mainly lies in the two magical metals of star meteorite and vibranium!

In the sniper cannon project, scholars had taken full advantage of the properties of these two metals!

They were making the cannon more stable!

With higher accuracy!

However.....

There was a big problem!

That was, this sniper cannon was too big!

The length of the cannon was over a full 50 meters!

It was simply mind-boggling, but Yan saw the potential of this sniper cannon right away.

The staff of this project was immediately expanded?and she personally led the team.

After more than a year of research and development, day and night, a?final version, a more stable mega-cannon, was developed!

The final naming was:?Heaven splitting Cannon!

Because in the first test, this cannon showed a terrifying power!

That scene still makes everyone in the Great Desolate Army have lingering fears!

It was also because the power was too great.

So it was only tested once, and?it was sealed off!

In this huge space, the length was over one hundred meters.

And this heaven splitting cannon occupied more than half of the place!

Jiang Fan watched with interest.

Even in his previous life, there was no such thing either.

The main reason was that there are no two metals, star meteorite iron and vibranium.

In order to maintain accuracy, there was a very complex design in the Heaven Splitting Cannon!

The volume was also so huge!

It was a?true steel behemoth!

On top of the Heaven Slitting Cannon, there was a huge scope?to?aim at the targets.

Chapter 266: Great Terror! Trembling of the Flame Giants!

Instead of saying it was a cannon, it was better to say that it was a super doubled version of a super large sniper rifle!

But it could not be used as many times as sniper rifles.

Every time you use it, it could fire up to ten shells!

Then it takes a while for it to cool down!

Otherwise, the stability of the cannon would be affected.

Even the shells were specially made!

This shell was naturally huge, containing over a ton of gunpowder!

It was also mixed with a special alloy made of star meteorite iron and vibrating metal!

Even with the financial power of the Great Desolate Army, it was still a bit overwhelming.

Chang Yu Chun once joked?that once the cannon shot out,?a house in the capital was relatively simple to open.

The last time it was launched was by Yan?herself!

This time, after coming to the front of the heaven splitting cannon, Yan started the second operation!

Deep in the Royal Tombs Mountains, under the cover of the surrounding dense woods, an inconspicuous opening was opened!

It was revealing a blackened muzzle!

“Here it comes!”

The people on the city wall had been staring here.

Immediately, it was noticed.

“Everyone get ready! All down, shields overhead!”

Chang Yu Chun immediately ordered!

The power of this Heaven Splitting Cannon was no joke.

In the previous test, just because its power was underestimated, a soldier was injured by the shock!

At this time, the flame giants at the front had stepped through the narrow passages on both sides.

They were entering the 400-meter cordon!

The body size of more than ten meters plus the gunpowder that covered the whole body gave off an unprecedented pressure!

A trace of scorching heat was in the air!

Even the crowd on the walls felt a hint of suffocation!

The natural sense of crisis of the two flame giants stopped them in their tracks.

Followed by, they raised their heads.

They glanced around in a circle?but nothing special was found!

Then they kept moving forward!

The location of the heaven splitting Cannon was five kilometers away?and the range of the Heaven Splitting Cannon far exceeded this value!

There seemed to be invisible fluctuations..... Converging in the depths of the Royal Mausoleum Mountains!

Immediately after that, an amazing aura steeped?blast happened!

Yan unleashed the Heaven Splitting Cannon?and fired the first super-sized shell!

Even at the speed of just leaving the cannon also easily exceeded one thousand meters per second!

It was faster than a sniper rifle!

The shell continued to accelerate through the air.

It was getting faster and faster!

After crossing three kilometers, it had reached an astonishing speed!

Even the crowd on the city walls?kept staring with binoculars.
At this time, it was also already a bit hard to see!
They only saw a phantom passing through the air at a high speed!
Going straight to the flame giant on the opposite side!
The target was the flame giant behind the big pothole!
Because the flame giant in the front was too close to the city wall!
Once it was bombed down, it was no joke.
This wall was bound to be affected by the shock!
And this time?with the natural alertness of the flame giant plus the super five senses.
Let them be the first to find out the unidentified object flying in the air!
Immediately, there was a sense of crisis in their heart.
It was an unprecedentedly deadly feeling.
Each one of them immediately shouted!
A few flame giants in the front who were about to rush to the city walls also stopped immediately?
and looked up at the sky.
They stared at the black shadow that flew over like a meteorite in a daze!
After seeing that the situation was not good, a?sense of impending doom was born.
Neither did it care about the dignity of flame giants at all, they?hastily tried to retreat and dodge!
But at this time, the speed of the shell had already reached an astonishing level!
It couldn't be seen with the naked eye.
The flame giant just turned around.
It was just about to move.
Whoosh!
That black shadow had already rushed over,?landed directly on this flame giant!
Followed by.....
Boom!
There was an earth-shattering bang sounded!
With terrifying fluctuations, it swept away from the center of the explosion toward all directions.
All the nearby dirt, rocks, vegetation, etc. all went up in smoke!
That terrifying fluctuation.
Even the flames on the flame giant were directly engulfed!
Everything was rolling up in the sky with dust, enclosing the surrounding area within one kilometer.

Countless smoke and dust floated into the sky.

It was hard to see what was going on.

The earth was trembling!

It was as if a meteorite had fallen to the ground!

Rumble.....

The ground collapsed violently!

After the smoke slowly dissipated, the people on the city wall were the first ones who saw that?an unbelievably large hole had appeared in?the place where that shell landed.

In the hole, the flame giant that was just hit had now turned into a piece of debris!

It was blown up in countless pieces.

It was splashed all around!

Fortunately, this was the flame giant.

It was born with a strong body.

If it was replaced by dark elves, it was estimated that even the residual limbs would not be left!

It was not just this flame giant.

Around this flame giant, there were several companions standing just now.

The reason why Yan aimed at this flame giant.

Naturally, it had been carefully observed!

Under this terrifying power, the seven flame giants were not spared either.

Before that, the fire that made the Great Desolate Army completely helpless, it was annihilated in an instant!

And their huge bodies?were?directly blown apart!

It was not as miserable as the central flame giant.

But they were also divided into dozens of pieces!

The hole was filled with..... the strong smell of roasted meat!

“It worked!”

Seeing this scene, on the city walls, everyone couldn’t help shouting loudly?with a flurry of excitement!

Chapter 267: Great Terror! Trembling of the Flame Giants!

The power of the heaven splitting cannon didn’t let them down!

One shell went down?and?directly blew up eight flame giants to death!

Among them, five were torn to pieces on the spot!

Three were blown into several sections.

It was not just these eight.

The surrounding flame giants that were far away were also affected by the wave!

Although they were not dead, a dozen flame giants were also injured!

The flames that were burning on the body disappeared!

Their bodies were now gray and black!

One by one, they laid down on the ground.

They couldn't help but let out a miserable scream!

Just with this shot alone.

The rear of the flame giant was almost directly emptied!

More than twenty flame giants completely lost the fight!

There were only thirty flame giants in this transcendental invasion!

They were reduced by two-thirds at once!

The rest of the flame giants were directly stunned after seeing this horrifying scene!

Their huge eyes froze in place.

It was almost unbelievable!

Flame giants were not less intelligent.

Even if they had an absolute advantage, in front of the firepower of the Great Desolate Army, they still cautiously chose to spread out!

However..... they didn't expect it at all.

These ordinary species with mediocre aura actually had such a terrifying killing weapon!

Under such a great terror, the eight surviving flame giants were thoroughly frightened!

As they experienced it up close, each one of them actually turned around and ran back!

If the planet channel had not been closed, it was possible that they would run straight back!

This scene also made everyone in the Great Desolate Army a little dumbfounded.

“What should we do now!”

A scholar asked out loud.

All intruders must be dealt with.

Do we still have to unleash the Heaven Splitting Cannon?

But the Heaven Splitting Cannon could fire up to ten shots at once.

After that, they had to perform cooldown maintenance.

At least one week's time.

Besides, every shot of the Heaven Splitting Cannon was extremely precious!

It couldn't be wasted easily.

Against these flame giants who had completely lost their morale, it seemed to be a bit of a waste.

If they did not continue to use the Heaven Splitting Cannon, the artillery, bullets, hand-thrown bullets and other weapons of the Great Desolate Army?were ineffective against these flame giants.

It was hard to inflict a little damage.

At that time, these flame giants not only stopped attacking.

Instead, they scattered and fled in all directions!

Even if it was a heaven splitting cannon, I'm afraid that only one flame giant could be blasted at a time!

It was too inefficient!

"Can we grind these flame giants to death?"

One scholar came up with an idea.

"Grind to death?"

Chang Yu Chun frowned slightly.

This was something that he had thought about before.

Although the flames on the flame giant were very frightening,?there must be a limit.

As long as the Great Desolate Army attacked, regardless of the price, it must be able for these? flames to annihilate.

By that time, flame giants would not be that scary.

It's?just.....

How long would that take!!!???

And most importantly, angering?the flame giant was not a good idea!

Just when everyone was thinking about it, a?scholar in biology suddenly stepped forward, with a wry look in his eyes, and said, "I do have an idea to try."

The next scene that happened made Jiang Fan feel a little strange.

"There are really a lot of oddballs in the Transcendental Research Group."

Jiang Fan couldn't help but mutter: "But sometimes..... it's also quite useful."

The idea of this scholar in biology worked, surprisingly!

Not long after that, the remaining eight flame giants were solved.

This way, excluding the eight flaming giants who were previously killed in the explosion, the remaining twenty-two flame giants were all captured alive!

To transport these flame giants that were too huge, the Great Desolate Army also sent out thousands of men!

They were dragging twenty-two flame giants back to the Transcendent Research Institute in the Royal Tomb Mountains.

That's right, inside the Institute, every biologist wearing glasses was very interested!

They were getting ready to dissect and study these flame giants who could emit fire from their bodies.

Seeing this scene, Jiang Fan breathed a slight sigh of relief.

This wave finally passed after using a great killing weapon like the Heaven Splitting Cannon.

At the same time, the ethereal prompt sounded:

"Congratulations to the first candidate who passed this wave of transcendental invasion. Please make persistent efforts for other candidates!"

Hearing this prompt, all candidates in other examination rooms were stunned!

What?

My side is still being punched wildly by the old fist of the flame giants.

They couldn't believe that someone had already passed it!

At this time, it could be faster than the fastest time to solve the immortal cultivator in the previous wave!

.....

Inside an examination room, Bu Jing Yue was in full command of the transcendent race he had built.

Against these immensely powerful flame giants, he could only choose to fight and retreat.

He was commanding on one side while thinking fast on the other side.

He was thinking of all kinds of ways!

"If I don't use the bottom card left by the old man, even if I defeat these flame giants, I will have to lose a lot, but this bottom card is reserved for the last wave."

Bu Jing Yue was also feeling a little helpless.

These flame giants were so f*cking powerful.

They were completely unbeatable!

When he was debating whether to use his bottom card or not, the prompt sounded just then.

"What? Someone got through this wave?"

Bu Jing Yue was stunned for a while.

Each of the other geniuses were also stunned.

Even if it was the group of big shots in the city lord's hall, they also did not expect that.

They couldn't believe that someone was so fast?and just passed this most difficult wave so far!!!

Chapter 268: Finally arrives! The final wave! The thrill of the candidates!

In City Lord's Mansion Hall, most of the people were in dismay.

It was a little unbelievable?because?the main concern of each one of them was..... the top 100 of Heavenly Pride List.

These candidates were still in a desperate attempt to fend off the flame giant's attack.

It was still a long way from winning.

It was just that?there were also a few planet masters who were paying attention to Jiang Fan.

"It's the same Jiang Fan who built the musketeer before."

A planet master who happened to see Jiang Fan's projection image said,

"Jiang Fan?"

"It's that Jiang Fan who got a perfect score on the first day?"

"Surprisingly, it's him?"

Every planet master felt a little unbelievable.

This wave was recognized as a great test of strength?and Jiang Fan put it bluntly.

Most planet masters thought that?he was good enough to be in the top 2,000.

Now it's actually?the first one who passed?

"This kid is really good."

An old man next to the city lord of Jiangcheng smiled and said: "There is still such strength, it is estimated that the first thousand are no problem."

"No problem with the first thousand."

Another planet master picked up: "Although this wave also revealed some of his cards, to?be able to defeat thirty flame giants so quickly is enough to show that he?is not weak!"

"It is estimated that the strongest cards have been used."

An admissions teacher nodded and said, "But it's enough to pass the sixth level."

"He can buy some more time while waiting for the last wave."

"Don't forget that Jiang Fan got a perfect score in three subjects the day before."

An admissions teacher who was optimistic about Jiang Fan said, "In addition, he has passed the six waves so far, which means Jiang Fan has already scored six hundred and fifty points!"

“Basically, a place in the top 1,000 can be guaranteed!”

“Even if it’s a super-first-class university, it’s not impossible!”

“Look, the other candidates haven’t used their trump cards yet. The top 1000 is easy to say, but the top 500.....”

Another admissions teacher shook his head and said, “That’s hard to say. The top 500 are all demons.”

“Tang Qingqing is also currently ranked only in the top four hundred!”

“There are at least four or five hundred more like Tang Qingqing.”

“Neither one of them can be easily squeezed?down!”

.....

“This kid, he actually took another first place!”

In the conference room of the No. 7 middle school, the school leaders and teachers were also stunned for a while.

.

“Together with the time he dealt with the dark elves before, Jiang Fan has already gotten two firsts in this actual combat assessment!”

Teacher Liu Yue said with a smile.

There was a charming smile on her face!

The grades of the students in their own schools were good.

Who wouldn’t be happy?

“It’s not important to be first in these first six waves.”

Qiu Yunfei splashed cold water and said, “It’s just a standard to distinguish the strength of individual candidates!”

“The most important thing is to successfully pass the seventh wave!”

“That’s the last hurdle!”

“If there are no surprises, a place in the top thousand is basically guaranteed.”

Teacher Liu Yue said.

“Let’s see if he can go a step further and come to Tang Qingqing’s position.”

Tong Zhensheng couldn’t help but say.

The high school entrance examination result this time could be said to be completely unexpected.

The surprises came one after another!

Both Tang Qingqing and Jiang Fan showed their strength beyond expectations!

Now two people.....

One was ranked in the top 500!

One was ranked in the top 2,000!

It all looked promising.

If it went smoothly, maybe?this year, there will be two students from the No. 7 middle school who would be admitted to super-first-class universities!

.....

“The first clearer appeared so soon!”

Inside an examination room, Wei Qingqing, the girl in green, frowned slightly.

She looked at her own planet.

The transcendent race she had created?was?still fighting hard with the flame giants.

“I still have to play some trump cards.”

Wei Qingqing thought somewhat helplessly.

.....

“Damn it! Which guy is it again? How dare he steal my first place!”

In another examination room, the black-clothed boy Ye Han’s eyes revealed a trace of anger!

This sixth wave was a huge test for other candidates?but it was right in Ye Han’s appetite!

The harder the better.

In this wave, he was about to take out the bottom card?to ruthlessly defeat these flame giants.

He was trying to pass?this wave as fast as he?could.

He wanted to?be the first?and be the most dazzling person!

In the first five waves, it didn’t matter who was the first to pass.

The first in this sixth wave was sure to get everyone’s attention!

However, he didn’t expect that while he was still doing his best to deal with the flame giant, someone already passed!

Whether it was a peerless genius or an ordinary demon, one by one they passed.

Because of this prompt, their mind was in turmoil.

They were starting to get a little anxious!

This was also one of the reasons why there was a prompt tone for the college entrance examination!

It was just to test their mind!

.....

“Someone has already passed.?I have to step up my game too.”

Tang Qingqing’s eyes also flashed with a trace of anxiety!

On her planet, the Dou Qi warriors were being served one by one with the fists of the flame giants!

Constantly, there were Dou Qi warriors, who couldn’t resist such a powerful attack and fell down!

For every one that fell down meant that the strength was weakened by one point.

There was still one more wave left!

If they lost heavily in this wave, how else could they play the most important final wave?

Chapter 269: Finally arrives! The final wave! The thrill of the candidates!

“Use the bottom card.”

Tang Qingqing hesitated for a few moments and still chose to use another bottom card.

That was a magic scroll too!

Which was even more powerful than the previous one against the immortal cultivator!

She was going to wait until the last wave to use it?but in front of this immensely powerful flame giant, she was still forced to take it out early.

One student after another?was forced to use the bottom card!

But not every candidate who used his or her bottom card could pass in the end.

Some candidates ran out of cards?and they were still KO’d by the flame giant!

The only option was to opt-out.

Thus left the stage of the college entrance examination.

Jiang Fan was very relaxed.

He was sitting in position?and was watching the actions of the Great Desolate Army.

Mainly, the research of those oddball biologists!

They were performing a goosebump-inducing operation on the flame giants and the female cultivator from earlier!

Finally, after some time, the ethereal prompt sounded again:

“The sixth wave of Transcendent Invasion is all over. All candidates, please rest for 20 minutes and wait for the next wave, which is also the last wave of actual combat assessment.”

“This time, it’s a twenty-minute break?”

Jiang Fan raised his eyebrows?but soon understood.

The next one would be the final wave.

It was also the most critical one!

In this wave, there would be a final ranking!

The overall winner of the entrance examination would also be revealed!

At the same time, the ranking was also refreshed!

On the outside, the names and results on the list were also ranked one by one!

This time, unlike before, it was no longer completion time.

Instead, it was the score!

It was not just the scores from the first six waves, it also included the total score of the three subjects on the first day!

Adding them up!

If it was the same score.

Only then would the time spent in the first six waves be counted to differentiate.

So, the number one ranking was naturally:

Jiang Fan!

A projection of the ranking was released in every place that was concerned about the college entrance examination!

The first place Jiang Fan was a little dazzling.

“First place, Jiang Fan, total score: 650.”

“Second place, Chi Yunchen, total score: 633.6.”

“Third place, Wei Qingqing, total score: 633.1.”

“Fourth place, Wu Ning, total score: 632.5.”

“Fifth place, Wang Shan, total score: 632.2.”

“Sixth place, Ye Han, total score: 628.”

“Seventh place, Lei Xun, total score: 627.6.”

“Eighth place, Bu Jing Yue, total score: 627.5.”

“Ninth place, Lin Weiwei, total score: 627.5.”

“Tenth place, Liu Baiyan, total score: 627.5.”

“.....”

In the conference room of the No. 7 middle school, teacher Liu Yue read out the top ranked candidates one by one!

“Bu Jing Yue didn’t make it into the top ten? This year’s candidates are really scary.”

A school leader lamented.

“It can’t be helped. There are too many geniuses in this segment between 627 and 628. The total score of Bu Jing Yue is 627, but it has been squeezed to more than 30.”

Teacher Liu Yue explained, “Except for Jiang Fan.”

“There are no surprises in the top four rankings.”

“It’s those four recognized super great demons!”

“There’s only a little between them.”

“What about Tang Qingqing? What’s her ranking?”

Qiu Yunfei asked.

Everyone still cared more about the score of their students.

“Tang Qingqing, with a current total score of 614, is ranked 477th!”

Teacher Liu Yue said: “There are only less than 2,000 candidates left. To be precise, there are only fifteen hundred and sixty people!”

“The seventh wave of transcendental invasion is the last wave! That will be the fiercest competition among these 1,560 people!”

“I hope Tang Qingqing and Jiang Fan will do their best. There is hope for both of them, especially Tang Qingqing.”

Qiu Yunfei’s eyes flashed with a hint of anticipation!

As usual in previous years.

Basically, the ranking of the first six waves was about the same as the final ranking.

It was just that there was an extra unexpected factor this year: Jiang Fan!

It made this ranking slightly more dazzling!

.....

“It’s a bit interesting, this ranking, the one in first place is actually not one of those four super great demons, but our candidate from Jiangcheng!”

In City Lord’s Mansion Hall, the discussion was very heated?because the first place was a candidate from Jiangcheng!

The crowd naturally had to brag a few times.

“Let’s not talk about that.”

The City Lord of Jiangcheng waved his hand and said, “The last round is the main and the real challenge. Every candidate will show all their strengths and bottom cards!”

“Let’s take a look at the current rankings.”

“Then.....”

The city lord of Jiangcheng glanced at everyone and said with a smile on the corner of his mouth: “Let’s start.”

Immediately, everyone was excited!

This year’s highlight was here.

On this side of the City Lord’s Mansion, there had always been a small event.

That was to guess where the overall top student of each year’s entrance exam would go!

It was the equivalent of a bet but betting had an upper and lower limit, neither more nor less.

The planet masters who could come here were naturally not bad.

Besides, it was mostly for fun.

Winning doesn’t matter!

“Here we go, here we go.”

The butler of the City Lord’s Mansion came over with a box with a storage function.

One by one, the planet owners started throwing in the bets they had prepared!

For the bet here, it was not possible to use federal currency.

One must get a crystal sealed item!

Chapter 270: Finally arrives! The final wave! The thrill of the candidates!

“I’m still optimistic about Chi Yunchen, the one with the best talent among the four super demons!”

A planet master said as he threw in a seal.

“I’d better choose Wei Qingqing, she will be stronger than the other three demons in the actual combat test!”

Another planet master said.

“I’m optimistic about Wang Shan. Even though this kid is currently at the bottom of the four monstrous geniuses, his temperament is superb. He’s neither arrogant nor rash. In the end, he will definitely stand out!”

One by one, the planet’s masters were excitedly betting!

“Mr. Tang, what about you!”

An admissions teacher looked at Tang Yushu.

“Haha.”

Because of the higher ranking of Tang Qingqing, Tang Yushu was also quite happy and threw a seal in and said.

“Well……. I’m naturally optimistic about my own sister!”

Everyone laughed.

A sealed object did not matter?but the important thing was to make a good fortune!

“I’m a little interested in Ye Han, who is ranked fifth. This kid can be said to be a big dark horse. He appeared silently, and this old man will bet on this Ye Han!”

“Don’t underestimate Wu Ning, the daughter of the city lord of East Star City. This old fellow, the city lord of East Star City, must have left a lot of cards for his daughter. I am optimistic about Wu Ning in the last wave!”

“That’s right, when it comes to resources, who in the province’s city lords can compare to this old man, the Lord of Eastern Star City? The position of the top student in the college entrance examination is definitely Wu Ning’s, I also vote for her!”

“The champions in the past few years were all from East Star City. There are so many demons this year, and the city owner of East Star City will definitely not miss it.?I’m afraid the resources invested will be very terrifying. I am also optimistic about Wu Ning!”

“As for the position of the champion, it’s useless to just look at the resources invested, it mainly depends on the talents and strengths of the candidates! Besides, in terms of resources, the teacher of Chi Yunchen is not much worse, I am still optimistic about Chi Yunchen!”

One by one, they were talking intensely.

At this time of the year each planet master was the most noisy!

Everyone had their favorite candidates!

Everyone thought that they were right!

No one was convinced by anyone!

Jiangcheng City Lord was high on the main seat.

He smiled and looked at the noisy scene below.

There was a hint of a smile on his face.

This year, there were still three candidates from Jiangcheng who made it to the final wave.

It put him in quite a good mood.

“What about you, City Lord? Which one do you prefer?”

A planet master asked.

Immediately, everyone stopped discussing.

They all looked at the Jiangcheng City Lord.

“Well..... This year, I will vote for the daughter of the old guy, City Lord of the East Star City.”

Jiangcheng City Lord said with a smile.

“Not voting for Jiang Fan? He’s ranked number one right now?” A powerful planet master next to him joked with a smile.

“You can also vote if you want.” Jiangcheng City Lord responded with a smile.

Everyone was just joking. Everyone knew that Jiang Fan ranked first, mainly because of the three perfect scores on the first day!

It would be nice to be able to get the top 1,000 in the end!

“Supervisor Lan, who are you optimistic about?”

In the bottom row of seats, a planet master asked Director Lan of the Planet Association.

“I, well.....”

A mysterious smile appeared on Director Lan’s face, and said, “Since no one has voted for Jiang Fan, who is currently ranked first, then I’ll make a bet.”

“No way, you’re kidding.”

The Planet Lord showed a hint of surprise and said, “This vote for Jiang Fan means your Sealed Artifact is gone!”

“If it’s gone, it’s gone. If you give it a try, you might be able to turn a car into a spaceship.”

Director Lan smiled slightly.

For Jiang Fan, he didn’t have much confidence.

Especially after seeing the performance of the four super great demons!

.....

Each candidate in the examination room was also gazing at the ranking!

“I’m only in fifth place. I’m going to have to step it up in the last wave.”

Amber City’s chief demon Wang Shan stared at his ranking.

There was a hint of unwillingness in his eyes.

Although he was usually calm, it did not mean that there was no trace of pride in his heart that belonged to the genius!

How could he be willing to be below others?

“This overall champion of the college entrance exam belongs to our Eastern Star City, to me!” The black-clad girl, Wu Ning, slightly clenched her right hand.

Her face was full of determination!

“I’m only ranked eighth. I’m going to be scolded by the old man to death when I go back. I can’t earn the top four, but..... I’ve secured the fifth position!”

Bu Jing Yue also started to look serious!

“Humph, everyone outside must still look down on me, thinking that my sixth position is only temporary.”

Ye Han thought secretly: “But in this last wave, I want to tell the world, I, Ye Han, is the most powerful man!”

“The overall champion spot in the entrance exam is mine!”

“The 477th place is very unstable, I have to do my best.” Tang Qingqing thought to herself.

“It’s only the top 30? The top ten is my goal! I can’t let down my teacher’s training!” There was also a hint of determination in Bu Jing Yue’s eyes!

Every single candidate, whether it was a peerless genius or a lucky one, were all cheering themselves up in their hearts.

The next wave was the last wave!

They had to go all out!

It was time!!
