

One Planet 291

Chapter 291: The battle for the champion! The final ten! Bu Jing Yue's elimination!

Its huge body?slowly collapsed!

So far, Bu Jing Yue had a total of five spirit tree people?and two of them were already dead!

Everyone knew that?the most powerful race of Bu Jing Yue was this kind of spirit tree people!

Although the Xu Ling people were extraordinary,?their number was not enough.

Level 1 Xu Ling people were?too weak?because many of their talents were not awakened yet!

They couldn't play a big role!

Under the crazy attack from the three sides, the third spirit tree man also couldn't hold it anymore!

Trembling!

The time came to the last ten minutes of the thirteenth hour!

"Come on, hang in there!"

There was no choice?other than?cheering up the spirit tree people.

But the third spirit tree man was seriously injured.

In the end, it still fell down.

There were only two spirit tree people left!

At this moment, they were under siege from all the bugs!

The flying thunderbirds in the sky?used up?almost all of their lightning storage!

They couldn't help much!

If it kept going, there would?be the fall of the fourth spirit tree man!

"No, Bu Jing Yue can't hold on anymore."

"It's a pity..... only a little short of a few more minutes, and then she can reach the fourteenth hour!"

"It's still not balanced enough. Although there are three extraordinary species that are all very strong, only the spirit tree people's talent is high, and the other two species' level one role is not enough!"

"On a level one planet, in fact, one transcendent species is enough, nurture it well, cultivate its talent, and it is stronger than several combined!"

Seeing the scene on?the planet of Bu Jing Yue, the planet masters were shaking their heads and lamenting.

Although the three transcendent species were amazing,?the actual effect was not good!

Their talent was not fully developed yet!

It could be described as a thunderclap!

Watching the only two remaining spirit tree people being attacked madly by the army of insects, Bu Jing Yue clenched her hands.

Her lips were about to bleed!

Her face was pale!

In the end, she still reluctantly pressed the exit button!

If she still continued to persist, even if she was able to get into the top ten, the spirit tree people might also get abolished as a race!

Among the high school entrance examinations, this was the toughest trade-off of all!

It was up to each candidate to make a choice!

The ranking of Bu Jing Yue was finally fixed at?eighteenth place!

Just one point away from the top 10!

In this thirteenth hour, twenty-one people were eliminated!

There were only ten candidates left!

On the leaderboard, from the original thousands of densely packed names, only ten names were still lit!

The others were all dark!

The first name?was still Jiang Fan's!

The scores followed closely!

"First place, Jiang Fan, total score: 728."

"Second place, Chi Yunchen, total score: 711.6."

"Third place, Wei Qingqing, total score: 711.1."

"Fourth place, Wu Ning, total score: 710.5."

"Fifth place, Wang Shan, total score: 710.2."

"Sixth place, Ye Han, total score: 706."

"Seventh place, Lei Xun, total score: 705.6."

"Eighth place, Bai Jiao Yang, total score: 705.5."

"Ninth place, Lin Weiwei, total score: 705.50"

"Tenth place, Liu Baiyan, total score: 705.5."

"....."

Seeing this specific score, people just suddenly realized!

It seemed that?Jiang Fan had the hope of taking the overall top prize in the province!

In addition, this possibility was very, very high?because Jiang Fan had now pulled away from second place by almost seventeen points!

It would take at least three hours to catch up!

At the same time, Jiang Fan had to fall in the next hour!

The degree of difficulty was very high.

It could be said that?only the theoretical possibility remained!

“No way! It can’t be!”

In the City Master’s Hall,?all the planet masters were startled when they saw?this score ranking.

They were just excited about watching, so they were completely unaware of this.

They just noticed.

It originally appeared to be a fierce battle for the top spot in the college entrance exam!

It seemed that there was almost no suspense!

“This year’s overall top student in the college entrance exam is considered to be?the most intense of all time, with the appearance of four super demons.”

An old man next to the city lord of Jiangcheng said with a smile: “These four super monsters are indeed very powerful, and the gap between them is extremely small, but who would have thought.....”

“The snipe and the mussels will get the fisherman!”

“The final overall top spot actually fell in the hands of another insignificant little guy!”

“What a surprise.”

Everyone was shaking their heads and sighing!

“Do you think the musketeer created by Jiang Fan is so strong? Even Bu Jing Yue is beaten!”

One planet master asked in disbelief.

“Not really!”

No one came forward to explain at this time.

Why did many planet masters think?earlier?

Jiang Fan would not be able to go too far in the endless mode.

The main reason was that?the individual strength of the musketeer created by Jiang Fan was too weak!

However, they overlooked one thing.

That was, whether it was artillery, rifle or speed gun, all were close to an infinite supply of ammo!

This was one of the biggest differences from other transcendent civilizations!

As?Tang Qingqing's magic civilization, or the cultivation of immortal civilization by Bu Jing Yue,? required magic and energy, it was definitely not enough!

The Great Desolate Army didn't have to worry about that!

Rotations were also performed, so their physical strength was also enough!

Numerous planet masters were thinking from the perspective of a transcendent civilization.

Naturally, they couldn't think of the unique point of the Great Desolate Army!

Even at that time, they were still thinking about that.

It might be that the musketeers were too powerful.

That's the reason for too much energy!

"Look at the next hour, the battle for the top spot will be resolved within this hour!"

A planet master spoke up.

The others turned their heads and looked towards the middle of the hall.

Finally, it was the first time Jiang Fan?got the center?and became the center of attention!

"Could it be that a student of our school?is really going to be a provincial champion?"

The expression on the faces of the school leaders and teachers of No. 7 Middle School?was completely overwhelmed.

If it wasn't for Teacher Liu Yue's reminder, they were completely unaware of that.

Jiang Fan's total score was way ahead of everyone else!

"After this one hour, no, no, as long as it's more than half an hour, he'll be able to stabilize this position!"

Liu Yue's eyes carried a hint of unprecedented anticipation.

Counting the difference in points between Jiang Fan and the others, both Tong Zhensheng and Qiu Yunfei did not speak. Both?of them had amazing gleams in their eyes!

The champion of Dongyang Province?

Maybe it was really coming!

At the same time, the fourteenth most difficult hour was also officially here!

From the passage entrance, an even more ferocious, terrifying army of insects had appeared!!!

Chapter 292: Showdown! A historic moment is born!

It was not just the big shots out there.

Even the ones left in the examination room..... the other nine demonic candidates.

Only now did they realize!

The situation was very bad!

The number one spot that everyone wanted to compete for.....

It seemed to be gone!

Especially the recognized four super demonic geniuses.

Previously, they were completely immersed in resisting the insect hordes.

They also paid too much attention to Jiang Fan, who scored full marks in three subjects on the first day!

Now seeing the leaderboard.

Only then did their eyes widen abruptly!

They discovered the gap between themselves and Jiang Fan.....

It had already exceeded fifteen points!

They had to last at least three hours longer than Jiang Fan!

“It’s basically over, haha.”

Bai Jiao Yang looked at this ranking.

And yet, he was very happy.

He was already in the top 10.

There was no pressure on his mind.

Instead, he was more concerned about other people’s ranking!

“Unless some of these super monsters can suddenly take out the heaven-defying trump card, otherwise..... the battle for the top spot in the college entrance examination in Dongyang Province today has come to an end!”

Bai Jiaoyang grinned as he smiled happily.

“Hehe, this Jiang Fan is really good, although he also squeezed me out of the top five, but.....”

“Imagining the expressions on the faces of the four super demons, I’m happier than getting the top five!”

.....

“No, it can’t be, there is still a chance!”

Inside an examination room.

Ye Han clenched his fists.

He was staring at Jiang Fan's ranking.

And thought secretly.

It was all as he expected.

He managed to squeeze into the top 10!

If it were not for Jiang Fan.

He was the biggest dark horse in this college entrance examination!

It would attract everyone's attention!

And he would become famous!

However.....

Jiang Fan still appeared!

"Also, there are still 22 points to get! As long as I get the perfect score in the endless mode! That will create an unprecedented record! With the same score, I will also be the top student in this college entrance examination!"

Ye Han's eyes flashed with a trace of madness!

But he forgot a very important point.

This was possible.....

Only if Jiang Fan was eliminated ten minutes before the twelfth hour!

Even if it was a planet master who was not optimistic.

He also would not dare to think so!

The power of the musketeers.

Initially, it had been recognized by many big shots!

It was not just Ye Han.

Each one of the other students.

None of them had given up.

On the contrary.....

There was an astonishing fighting spirit!

Especially those four..... The super demons who were recognized as the most popular for the overall top position!

Each one's eyes were shining brightly!

They did not think that they would lose!

The fourteenth hour had officially arrived!

From the passage entrance!

A powerful aura had appeared!

Another new batch of bugs!

It was still from all sides i.e. land, air and underground!

The most conspicuous was.....

In the sky!

Large flying insects with a body size of more than ten meters flew up!

These large flying insects were not fast.

But they were able to fly very high!

The front of their body was small!

The stomach at the back occupied more than 80% of their total size!

A big belly moon south.

Letting this big flying bug.

Look like a small spaceship!

Tu, tu, tu.....

These big belly bugs were the first to attack!

As their tail moved slightly.

Surprisingly, unidentified circular objects came out from the tail!

The exterior looked grayish green!

“Attention to all, shields resist!”

Chang Yu Chun did not dare to be careless at all.

And immediately ordered.

In fact, there was no need for Chang Yu Chun to order.

Everyone in the Great Desolate Army had their shields..... covered above their heads!

In addition.....

The logistics staff also brought emergency.....

Overhead large shields!

As this shield could easily obstruct the line of sight!

So it was useless before!

It was also in use now!

These round unidentified objects were falling fast.

Dang Dang Dang.....

On shields and the walls.

There was a crisp and clear sound!

Subsequently.....

Boom!

A loud sound.

Surprisingly, it exploded!

The gray-green liquid exploded from the inside!

Splashing away in all directions!

The walls and shields.

They were all covered up!

The clothes of many soldiers of the Great Desolate Army were also tainted.

Chi Chi Chi.....

As soon as the gray-green liquid touched the clothes and walls.

They all started to corrode quickly!

But the Great Desolate Army was already very experienced.

They immediately threw away the clothes that were stained by the gray-green liquid!

With the first circular object down.

It didn't cause much damage.

But everyone's face.....

All of them were not so good looking!

This.....

Compared to the previous bugs.

It was more than just corrosive enhancements!

It even had the power of a small cannonball!

The killing power of just falling down and blowing up!

It was very scary!

Swish swish swish.....

With the growing number of belly bugs in the sky.

The gray-green cannonballs that were sent out also became denser!

There was not much that the Great Desolate Army could do.

These belly bugs.

Their position was too high!

Except for the sniper rifles.

No weapon could hit accurately!

But the lethality of sniper rifles was limited!

And these belly bugs couldn't be fixed with one or two bullets!

Luckily there were still plenty of alloy shields!

The transcendents on the other candidate planets were miserable!

After being bombed by gray-green shells.

They blasted to pieces!

Subsequently.....

And they were also being smothered by that disgusting grayish green liquid!

However!

This was only an attack from the sky!

On the ground!

Another super-sized bug had appeared!

Its body length this time was more than 60 meters!

Chapter 293: Showdown! A historic moment is born!

Its shape was like a big truck!

The super doubled version of the truck!

Along with the rumbling sound of the ground, it was rushing swiftly towards the wall!

Its speed was similar to that of a truck traveling at high speed.

The exterior had a layer of gray-green armor!

Clang clang clang!

Shells and bullets blasted into his armor, but it only made a sound like hitting steel!

Beyond the truck bug, the old acquainted Giant Black Bug was also upgraded again!

It changed into another giant black bug with even bigger size and higher agility!

These black bugs did not march forward on their own.

Surprisingly, it climbed on the truck giant insect and got in!

“Huh? Is this really a truck? Can it transport insects?”

Seeing this scene, Jiang Fan couldn't help but feel a little happy.

But the faces of the Great Desolate Army were getting more and more solemn!

These truck giant bugs were faster as compared to all the big bugs before!

Its defense was even stronger!

Even if the shell hit the body, it didn't hurt them much either!

The accuracy of the shells was a big problem!

Although it was more powerful than the speed gun, it was impossible to make several shells fall on the same location!

The most important thing right now was interfering with the truck bug and slowing down the march of these giant insects within two kilometers!

That was where the speed gun kicked in!

Tu, tu, tu.....

Chang Yu Chun once again brought up twenty speed guns.

Large-caliber bullets were strafing crazily!

With so many speed guns at the same time, there would be no need to turn around.

The bullets just kept coming, directly toward the front!

On the same truck giant bug, there were dozens or hundreds of large-caliber bullets hitting in its face!

It was hitting on the same spot!

The truck giant bug was very fierce, but after traveling a few dozen meters, the first one still went down with a bang!

The giant black bugs on his body quickly crawled out.

Seeing this, the crowd breathed a small sigh of relief!

Luckily, this truck giant bug could still be dealt with a speed gun!

Rumble.....

At this time, there was also a movement coming from under the ground!

New Underground Bugs were there!

Han Xin and everyone were doing defensive work, because of several underground bugs in the front.

Underground tunnels were almost full of holes. There was not a single clod of soil intact!

In the dark underground passage, a black orb suddenly scampered out!

After coming to a wider ground, this orb came to a halt.

After that, it quickly opened up and revealed the true face inside!

This was an extremely sinister-looking underground bug with long and sharp tentacles!

After seeing the crowd of the Great Desolate Army, this digger bug once again shrank its body, wrapping itself up.

It turned into a big ball again!

The grunt rolled over quickly.

It was?very fast!

The speed gun was firing crazily!

Clang clang clang!

It was hitting on this orb, but it made an iron-clad sound!

Unlike the ground, the passage underground was too short!

Even the speed gun hadn't been in play for long.

This ball type of bug had already rolled over!

“Retreat!”

Han Xin ordered immediately!

The soldiers of the Great Desolate Army hurriedly abandoned the Speed Guns and left the tunnel!

A thick gate fell down with a boom sound.

It was completely blocking the passage!

This gate was also made of alloy.

It was very difficult to break it, but it was just an opening in the tunnel.

With so many surfaces, there was always a way for bugs to get out!

The Great Desolate Army did not intend to use the gates for complete defense?until the last resort!

That would be the same as sealing off the city gates, depriving themselves of the offensive initiative!

Han Xin turned his head,?and a few scholars in the back looked at each other.

They all saw the thoughts in each other's eyes!

This bug was capable of transforming into an orb?and the armor of these bugs was as hard as steel.

Using a speed gun or hand-throwing bullets could no longer deal with them!

They could only use those?weapons, which?were?known to be very dangerous!

Knock, knock, knock!

This was the sound of crypt bugs hitting the gates!

Rumble.....

Immediately after that, these crypt Bugs crawled over from the other end of the tunnel!

In addition to hitting the gates, there were also some crypt bugs?who chose to find a way to drill out from elsewhere!

“We can't let them get to the ground beneath the walls!”

Han Xin knew the seriousness of the matter.

If they let these crypt bugs get too close, the Great Desolate Army on the walls would have very high pressure!

“Let’s use poison gas…….”

Han Xin finally made a decision!

Poison gas!

It was a very scary weapon developed by a research team by chance!

At the time of the first test, the surrounding animals and plants basically died out!

It was way too creepy!

There were also irreversible consequences, therefore Yan personally ordered this terrible weapon to be sealed away!

Although its lethality was terrifying, it couldn’t be used on a large scale.

Naturally, it couldn’t be regarded as a conventional weapon!

It was only for specific occasions.

It could only be used against special enemies!

The perfect place for its use was underground!

Poison gas would not leak out easily!

“Notify General Chang that we will use poison gas! Get everyone ready!”

Han Xin gave consecutive orders.

Soon, Chang Yu Chun on top of the city walls got the news.

“Attention, everyone, put on your protective masks now! General Han will use the poison gas attack!”

Chang Yu Chun ordered in a deep voice!

Chapter 294: Showdown! A historic moment is born!

Poison gas.

It could not distinguish between the enemy and me!

Soon.

The logistics staff brought up the protective masks one by one!

After all the soldiers of the Great Desolate Army placed them on!

Han Xin started using this devilish weapon!

One gas bomb after another.

They were thrown into the tunnel inside the gate!

With that, the gates were closed!

To make sure that not a trace of poison gas leaks out!

Not long after that!

Everyone discovered that.....

The crypt bugs inside weren't moving anymore!

The violent crashing sound from earlier.....

It was completely gone!

“Come with me inside and take a look!”

Han Xin ordered.

Personally, he led ten elite soldiers.

And carefully re-enter the tunnel.

In the middle of the tunnel.

Everyone saw that.

Several crypt bugs were lying on the ground.

Their huge body was twitching slightly!

Every now and then.

One sharp tentacle would twitch!

Seeing this scene.

Han Xin and the others were slightly relieved!

The poison gas still had an effect on these big bugs!

Even though it was not fatal!

But it was only a matter of time!

It was not just these crypt bugs!

Following the tunnel, the poison gas spread a little farther!

“What a pity!”

Han Xin sighed faintly!

Poison gas could only be used in specific places, such as tunnels.

It would be very difficult on the ground!

If only it could be used indefinitely!

There was no need to worry about the endless bug army!

“In the future, you can give Her Highness a suggestion to make an improved and enhanced version of the poison gas weapon.”

Han Xin was alive inside.
There were lots of ideas!
In the past, many weapons developed by the Great Desolate Army.
All of their ideas originated from Han Xin!
For example, the speed gun.
And the aerial weapons that were being developed!
The Great Desolate Army had poison gas bombs.
But other candidates didn't.
This crypt bug could turn into a ball and roll!
For the other nine examinees.....
This was a very big trouble!
On the planet of Bai Jiao Yang.
Seeing the transcendent species that he had nurtured.
Being constantly besieged by an army of bugs!
And then falling one by one!
Bai Jiao Yang also had a headache!
Four kind of insects were attacking from all sides.
All of them were very scary!
The gray-green shells kept falling from the sky.
The transcendent individuals were smashed one after another!
It takes a lot of effort to solve one of the giant truck bugs attacking from the front!
Especially the underground crypt bugs!
It was way too overkill!
Every now and then, it comes out of nowhere!
And then attack!
That hard shell combined with agility and speed!
It was tougher than anything!
After attacking, it would drill back into the ground.
Then ,it would come out again later!
Attacking with a sharp tentacle!
There was a numbing effect on the tentacles!
Not long after one was stabbed, it would become numb!

Attacked from three sides.

Let the first ten minutes of the fourteenth hour.

Just one candidate was eliminated!

Lin Weiwei, who was ranked ninth, was originally..... out!

In the previous hour.

All the cards had been used up.

It was almost a strong effort to come through.

This time, it was completely unstoppable!

She could only opt out!

And Liu Bai Yan, who had the same score, was not much better!

These two were originally very satisfied to be in the top ten!

In the fourteenth hour.

They barely lasted for a few points.

And gave up!

In the first thirty minutes.

Two people were eliminated.

After thirty minutes.

Lei Xun and Bai Jiao Yang also couldn't hold it anymore!

“Forget it, forget it, the top five is no good anyway, the top ten are the same, it's better to quit early and see the competition of the remaining six people!”

Watching the race they built being besieged by an army of bugs was miserable.

Bai Jiao Yang didn't hesitate.

And opted out!

If he was willing to pay the price.

Instead, he could continue.

There was hope to last until the fifteenth hour!

However.....

It was unreasonable!

Lei Xun pretty much had the same idea.

Both opted out almost simultaneously!

The fourteenth hour was almost over!

Inside the examination room!

There were only six candidates left:

Jiang Fan!

Chi Yunchen, Wu Ning, Wei Qingqing, Wang Shan and Ye Han!

This hour was over!

People's first reaction was no longer.....

The next round was even harder!

Or looking forward to the four super demons still fighting each other!

Instead.....

This year's top student in the college entrance examination in Dongyang Province.....

It was born!

Even if everyone else in the back gets a perfect score!

And Jiang Fan couldn't get a single point!

They couldn't catch up with this difference!

.....

In the conference room of No. 7 Middle School!

It was even more exhilarating!

They were even happier than when they were getting married!

"Hurry, hurry, get ready."

A school leader said happily: "This champion may be the only one in the history of our No. 7 middle school, so we must celebrate it!"

Tong Zhensheng, who had always been relatively low profile, did not object!

This was not just the top student of Jiangcheng!

Instead.....

The overall champion of hundreds of cities in Dongyang Province!

Overwhelming those genius demons!

If it was before the college entrance examination.

Some people say that the candidates of No. 7 Middle School can get the overall champion!

Everyone would think that he's crazy!

And in the City Lord's Mansion.

Numerous planet masters and big shots stood up!

Congratulating to the city lord of Jiangcheng one after another!

However.....

The happiest person was not Jiang Fan.

Nor was it the leaders and teachers of No. 7 High School.

Nor was it the City Lord of Jiangcheng.

Rather, it was someone else!!!

Chapter 295: The Last Moment! Terrifying royal insects!

“Ha ha.”

In City Lord’s Mansion Hall.

The city lord of Jiangcheng stood up and accepted the congratulations from the planet masters.

He laughed out loud for the first time!

This was also?the first provincial championship?in the history of Jiangcheng!

According to history, it was probably the same as?the last one!

As the city lord of Jiangcheng, he ruled out such a demonic student.

Naturally it was a great honor, but in the hall, the happiest person was not the city lord of Jiangcheng.

It was?Lan, the Director of the Planet Association!

At this time, Director Lan looked at the city lord of Jiangcheng who was surrounded by everyone.

While secretly making a fortune, because the one he bet on earlier was Jiang Fan!

He was also among everyone in the hall.

He was the only one who placed a bet on Jiang Fan!

As per the regulations, the winner takes all!

He would get all the artifacts, as well as?a?surprised look from one planet master to another!

“Let’s congratulate later.”

The city lord of Jiangcheng pressed his hand and said, “Let’s take a look first, the fifteenth hour has already started!”

The projection at the middle of the hall was showing the planetary situation of the remaining six candidates!

From the entrance of the planet passage, once again, five brand new bugs appeared!

Black bugs!

There was no doubt about it.

They were wearing a brand new outfit!

They were the newly emerged super bugs.

Their size reached more than seventy meters!

Their whole body was wrapped in thick black heavy armor!

There were two big rounded corners on the top of the head!

As if the bull's horns!

Boom! Boom!.....

While walking, they made a big trembling sound!

In the sky, a?flying insect that looked like a mosquito and a dragonfly appeared!

It was long,?slender,?lightweight and thin?but their speed was amazing!

They flew high into the sky, like a fighter jet!

With a swish, they lunged ferociously towards the wall of the Great Desolate Army!

It was so fast!

The human eye couldn't even see it!

Tu tu tu tu.....

The Great Desolate Army could only continue to unleash the power of the Speed Gun!

They were desperately resisting these high-speed raiding dragonflies?from high altitudes.

Plus such a large size?with that speed, the power of rushing down was much stronger than a cannonball!

As long as one flying insect rushed down, it would cause?great damage.

The Great Desolate Army did not dare to be careless at all!

Another kind of terrible underground bug arrived!

It was a giant snail-like bug!

Its whole body was wrapped under a big shell, with a thick slime sticking along the way!

Chi Chi Chi.....

As soon as the soil met these slime, it was immediately dissolved!

Clang clang clang!

As the bullets hit this shell, it made a crisp sound.

It was a completely unbreakable shell!

This snail giant bug was also the toughest kind of bug the Great Desolate Army had encountered so far!

The solubility of the slime was also the most terrifying!

“Keep using poison gas!”

Han Xin had no other choice.

This was underground.

There was not enough distance to let the speed gun do its job!

He could only rely on the attack of poison gas!

Luckily, the gas was still reliable!

One minute later, all the snail giants that were inside the tunnel fell softly to the ground.

They fell on their deathbed!

The sound of dragonflies crashing from the sky was coming one after another!

It was crackling with noise, but they all hit by the large-caliber bullet that came!

Dozens of speed guns fired bullets.

An impermeable web of bullets was formed!

It was completely impossible for dragonflies to pass through!

On the ground, the horned giant bug carried the black bugs, launching attacks wave after wave!

Frantically lunging towards the Great Desolate Army!

However, it still couldn't break through the firepower of the speed gun!

Within two kilometers, the speed guns were firing crazily!

Tu tu tu tu.....

On the battlefield, there were only the sounds of bullets being fired!

Although the giant horn bug was stronger than all the previous big bugs, but after traveling a few dozen meters, it was still shot to the ground by the bullets!

Because of the limited width of the position.

There were at most a few dozen giant bullhorn insects rushing over at a time!

It was still within the defensive capability of the speed gun!

But for the other five candidates!

It was just extremely uncomfortable!

Especially the dragonflies in the air!

The power of that diving impact..... was terrifying!

"Ah, ah, ah!"

On the planet of Ye Han.

They were struggling to resist the invasion of these four kinds of insects!

Their position had been breached!

The army of bugs was pouncing frantically!

It was dense!

And the snail bugs that came out from under the ground!

They flooded the entire position!

He built a relatively rare species of super civilization: the Great Minotaur!

This kind of big minotaur.

Among all of the super civilization species.

It was kind of average!

However.....

It couldn't beat the numbers!

Others had a maximum of four or five thousand species.

And Ye Han!

wread.com .

Yet there were almost 20,000!

That's why he believed that.....

He could compete for the overall top position of the province!

"This Ye Han....."

A planet master looked at the picture of Ye Han's planet, seemed to remember something, and said,
"I heard that he obtained a rare devil's dice!"

"devil's dice!"

The other planet masters all looked over.

With a hint of interest on their face!

devil's dice was an extremely famous and rare resource item!

Its greatest effect was.....

Increase or decrease the multiplier of a certain resource on the planet!

That's right!

It was not just addition.

It could also reduce.

And all resources.

Including minerals and life, it was effective for both!

Place it directly onto the planet when you want to use it!

Based on the number of points displayed on the front.....

It would decide the multiplier!

It was divided into red and black!

Red from one to six!

Chapter 296: The Last Moment! Terrifying royal insects!

That was a multiplier of one to six times!

If it was black from one to six!

It would be reduced by a direct multiple of one to six times!

The probability was 50%!

In addition, it couldn't be manipulated either!

It totally depended on the luck of each planet master!

If it was increased six times.

That's okay.

But if it was a direct reduction of six times!

It was estimated that the demonic genius would..... cry out!

It was really like, one step in heaven, one step in hell!

Therefore!

This item was known as "the devil's dice".

Even if many people got it.

They wouldn't dare to use it!

"This Ye Han got a devil dice. He was very lucky, and he actually got a six of red dots, which directly increased the number of big Minotaur on his planet six times! That's how he made his way to top six in the province's overall ranking!"

This planet master went on to explain.

Then the crowd suddenly realized.

Earlier, they were puzzled by the sudden appearance of Ye Han.

Now.....

It was understood!

"His luck is good!"

An old man nodded and said, "But..... the Great Minotaur species is still a little weak. Although there are a lot of them, this should be the end of their journey!"

"Let's see if he can last a few more ten minutes."

"Actually, it's not necessary. His current ranking is locked in sixth place, which is too far from the five big monsters in front of him!"

One by one, the planet masters were discussing.

They all could see that.....

That was the end of Ye Han's big Minotaur!

As expected.

After ten minutes.

The big Minotaur began to show signs of collapse!

As a few more minutes passed.

A complete breakdown!

Tens of thousands of large Minotaur were also creatures!

With fear and fear of death!

Naturally, it was impossible..... to maintain a firm will to fight all the time!

Once the team collapsed!

That was just awful!

An instant defeat!

The insect army crazily charged inside!

One big minotaur on top of the other.

Surrounded by several bugs at the same time!

They were being bitten crazily!

In just one minute!

wrea??.com .

Thousands of big minotaurs died!

There were no bones left after being bitten by the army of insects!

"No, no....."

Seeing this scene.

Ye Han shouted with great reluctance!

He wanted to overwhelm all of the demonic geniuses!

The man who topped the overall ranking of Dongyang Province!

How could he fall here!

But in the end.....

His rationality still overcame his impulse.

Ye Han pressed the exit button!

So far!

Eliminated from the game!

In the examination room.

There were only five people left!

Jiang Fan and.....

The other four who were recognized before the college entrance examination..... as the most expected champion!

There was no suspense for the position of the overall champion.

The reason why the four super demons stayed!

It was mostly for glory and pride!

“I can’t get the top spot, but..... I will get this second place!”

The black-clad girl Wu Ning had a hint of determination in her eyes!

The other three were also thinking the same.

No one was willing to be left behind!

Although there was no longer any real point in persisting.

Time passed little by little!

The fifteenth hour was almost here.....

The last ten minutes!

“If you can survive it, it will be the sixteenth hour!”

“Over the years, in the college entrance examination, there are only three demonic geniuses, who survived the fifteenth hour and come to the sixteenth hour!”

“This year is worthy of being known as the most demonic year! Now there are actually five candidates that managed to last this far!”

“If all five of them can make it to the next hour, then..... it will create an unprecedented miracle!”

In City Lord’s Mansion Hall.

The planet masters were also discussing and looking forward to it!

This year’s College Entrance Examination.

It was indeed wonderful!

Although the number one spot was locked in advance!

But the remaining five demons.

They were still doing their best!

Not giving up in the slightest!

They will also be witnessing the birth of a record!

The last ten minutes!

The army of bugs.

Although it was approaching within a range of 400 meters.

But they still couldn't break through the terrifying line of fire formed by the speed gun!

One by one, they all fell to the ground!

Beaten to pieces!

On the planets of Wei Qingqing, Wu Ning, Wang Shan and Chi Yunchen.

It was not that good!

Their positions were starting to be broken through!

The cards that the four super demons had prepared before!

All of them were also used up!

The transcendental energy in their body was almost depleted!

Now.....

It was all about willpower!

Finally!

Time had passed to the last minute!

These four people were seeing the hope of getting to the sixteenth hour!

"I have to say that the transcendent species built by these four little guys is too powerful, it's completely relying on talent to fight."

One planet master exclaimed!

Others could also see it.

Wei Qingqing and the others.

All of them were able to get into the next hour!

Along with the most demonic geniuses in history!

"There's no suspense for the next hour, but....."

An old man next to the city lord of Jiangcheng paused and said, "It can only stop here!"

"Yes, the next sixteenth hour is the last journey of these five little guys!"

"It can be considered that they have tried their best to reach this point!"

Every planet master was sighing with emotion!

In the history of the Dongyang's Provincial College Entrance Examination.

There were only three candidates.

Who lasted till the sixteenth hour!

But all of them fell within the first minute!

That's right!

It didn't even last the first ten minutes!

Because.....

Everyone knew that.

In the sixteenth hour.

The difficulty would be greatly enhanced!

What was dispatched was.....

The strongest among the..... royal bugs inside the bug family!

This was the most terrifying insect race!

It was not something that these candidates who only just awakened their planet three months ago could block!

Chapter 297: Mission Impossible! The last bottom card!

The difficulty of the sixteenth hour would be much higher than before!

Ordinary bugs, elite bugs, king class bugs and royal bugs!

Among them.

The strength of the royal bugs would be unprecedented as compared to the king class bugs!

Compared with the elite bug, the improvement of the king class bug was greater!

This was also the secret rule of the entrance examination!

It was said Endless Mode.

But it was actually seventeen hours at most!

And the examiner won't let you score too high!

So in the sixteenth hour.

It would be significantly more difficult!

Royal bugs!

Not to mention these candidates who had just awakened their planet only three months ago!

Even those.....

Planet masters who were at the peak of the level one could not withstand it!

Not to mention!

This was still endless mode!

The terrifying army of royal bugs would keep coming!

“Let’s see, see if these five demons can last more than a minute and break the record along the way!”

Jiangcheng City Lord spoke up.

There was also a trace of anticipation in his eyes!

Finally.....

It was the last second of the fifteenth hour!

The continuous shooting of the speed guns of the Great Desolate Army was crazy!

Countless bugs fell under the large caliber bullets!

And the insect army was also attacking crazily!

Wei Qingqing, Wu Ning and other super great demons.

Most of the positions on their planet had been breached!

If it was another ten minutes.

With these bugs.

Whether they could hold up was another question!

Each of the transcendent species they built was gasping for air!

They were exhausted.

But they were not given a chance to rest.

In the next second!

The sixteenth hour was here!

The most fearsome royal bugs made their appearance!

From the entrance of the Planet Passage!

An extremely frightening aura appeared!

Letting everyone in the Great Desolate Army tremble!

Each one’s face was unprecedentedly solemn!

Because.....

This aura.

Compared to the previous insect hordes.

It was way too powerful!

In the next moment!

From the entrance of the Planet Passage.

One by one, they walked out, their bodies slender and black.
But there were strange bugs with dark golden stripes on their bodies!
These bugs didn't actually crawl.
Instead, they were standing and walking on two feet!
With a long tail at the back!
Reaching a height of more than three meters!
Between their movements.
There was no sound at all!
Their eyes were actually still watching the situation of the Great Desolate Army on the city walls!
Instead of a bug.
It was more like a humanoid!
"Royal bugs!"
Seeing these dark golden striped bugs appear.
Jiang Fan also narrowed his eyes!
Royal bugs.
That was so famous!
It was the most intelligent and powerful class of insects!
Unlike all the previous bugs!
From these royal bugs.
People just saw the shadow of a super powerful super civilization!
These dark golden stripes were the typical markings of..... royal bugs!
The more stripes!
The stronger the representative strength!
And these bugs that had at least three stripes.
They were definitely the elite one inside the royal bugs!
"Snort!"
The first royal bug.
Suddenly opened his mouth!
A long roar came from the sky!
Immediately.....
All the bugs behind them followed and roared to the sky!
In the next moment.

These royal bugs started to move!

Swiftly rushing towards the position of the Great Desolate Army!

Their speed was amazing!

One couldn't even see it with the naked eye!

Like a black phantom!

The expressions of all the generals and scholars above the city wall changed!

Because.....

From these royal bugs.

They felt the same aura as the flame giant in the sixth wave!

.....

In City Lord's Mansion Hall.

They also made a comparison.

"These royal bugs, they have the strength of flame giants from the sixth wave, right?"
A planet master asked.

"It should be a little worse, but not too much worse. These royal bugs don't have the flames of the flame giants, but they're faster, and the armor on them is terrifyingly defensive!

"In other words, these five little guys are going to face thousands of flame giants? No wonder, in the history of the previous college entrance examination, those three candidates couldn't last even a minute!"

In the sixth wave.

Those flame giants.

So far!

They were the most powerful individual!

They were only thirty!

But all of the students suffered.

Although the army of insects in endless mode from earlier was terrifying!

But in term of individual strength.

They were not as strong as the flame giant.

It was mainly because there were so many!

That's what makes it tricky!

And now.....

There were hundreds, thousands, tens of thousands.....

As long as there was enough time!

There might even be..... millions of flame giant level royal bugs at the same time!

How else..... were they going to fight?!

These royal bugs were terrifyingly agile!

Hundreds of them poured in from the entrance of the passage in an instant!

Their number was still growing steadily!

Within half a minute!

It soared up to thousands!

The front one had already rushed to the positions of Wei Qingqing, the other candidates!

They barely beat those thirty flame giants.

But against three hundred.....

It was better to lie flat and surrender.

“That’s not even a fight!”

Bai Jiao Yang, who left the examination room, and saw this scene.

He shook his head!

If it was him.

He would definitely admit defeat!

Wei Qingqing and other great demons did not admit defeat!

They still gritted their teeth and resisted tenaciously!

But everyone’s position on the planet was completely unprotectable!

Against these royal bugs with high agility and high defense!

In just ten seconds.

They admit defeat!

Chapter 298: Mission Impossible! The last bottom card!

Hundreds of royal insects frantically rushed in!

Their offensive power was also extremely frightening.

Their black-gold forelimbs were like two giant scythes.

Sharp as hell!

A slash went down.

No transcendent species could stop it!

At least.....

It also end up being scratched!

An army of royal bugs wielding giant scythes charged into their position!

Launching a frenzied attack!

One by one, the transcendent species kept falling down!

Wei Qingqing, Wu Ning, Chi Yunchen and Wang Shan were all gritting their teeth!

They wanted to hold on a little longer!

But they didn't have a choice!

These royal bugs were killing too fast!

There was still a steady stream of their companions rushing over!

Unstoppable!

Totally unstoppable!

Their entire position was flooded with these terrifying royal bugs!

Four of them opted out almost simultaneously!

And so!

They left the college entrance examination room!

In the entire Dongyang province's examination rooms!

Currently.....

Jiang Fan was the only one left!

All other projections also disappeared.

Only Jiang Fan's Blue Star was still there!

Facing these terrifying royal bug!

Chang Yu Chun knew that the situation was very bad!

He used all the remaining speed guns!

All of them were placed on the city wall and..... in the small holes under the city wall!

Artillery and rifles were useless at this time!

Tu tu tu tu.....

The rapid fire of the speed gun was unleashed in a frenzy!

The large caliber bullets were fired.

It was almost continuous!

Shooting rampantly at the fast-approaching royal bugs!

These royal bugs.

They were not just fast!

Their armor with dark golden stripes was even tougher!

After being shot by thousands of bullets!

Only then was it possible to be pierced!

And at this time.

The royal bug were approaching.....

Three hundred meters range!

Claptrap.....

The royal bugs in the back couldn't wait!

Surprisingly, they climbed directly onto the body of their companions.

And jumped over!

They were getting closer!

Look at the dense, madly swooping royal bugs!

All the people of the Great Desolate Army clenched their fists!

They seemed to feel the crisis of losing the position!

“Prepare for the worst!”

Chang Yu Chun's face was unprecedentedly serious, and he said, “The scholar group will retreat first, and the others will cover each other, retreat to the second city wall, and continue to defend!”

Ordering this!

Many people's faces are a little heavy!

Because.....

If they want to cover the retreat!

Then someone must stay behind to resist these royal bugs!

Death was inevitable!

But no one had a problem with it!

This was..... the glory and dignity of the Great Desolate Army!

Until the last moment!

There was absolutely no giving up!

Tu tu tu tu.....

The fire from the speed gun was continuous!

Resisting at least thousands of royal bugs with the same strength as the flame giants!

Time went by minute by minute!

The swarm of royal bugs was closing in!

200 meters!

150 meters!

100 meters!

It was almost the most dangerous situation!

Finally.....

The first ten minutes passed!

Everyone in the hall of the City Lord's Mansion suddenly breathed a sigh of relief!

They just witnessed the birth of a brand new record!

Before that!

No candidate had ever lasted past the first ten minutes of the sixteenth hour!

Even Wu Ning, Wei Qingqing, the four recognized super demons..... were the same!

But Jiang Fan!

He even improved this record by nearly ten minutes!

And passed the first ten minute test!

"It's okay!"

Next to the Jiangcheng City Lord, an old man spoke: "It's already very good, to be able to come to this step, there is no point in holding on!"

"At most, this is the end. In the next ten minutes, the musketeer position built by Jiang Fan will be breached!"

"They can hold on for another three or five minutes at most, it's impossible to last the second ten minutes!"

"It's completely enough. I'm afraid that this record will not be broken by candidates for a long time in the future!"

"This Jiang Fan is much stronger than the other four super great demons, there's no need to prove anything more!"

One by one, all the planet masters were now on Jiang Fan's side.

Considering Jiang Fan!

They were discerning.

They could also see that.

The means of the Great Desolate Army were exhausted.

There were no more cards!

Although this kind of king-level musketeers were large in number, and they were powerful!

But in the next ten minutes.

The royal bugs would be even more powerful!

Absolutely unstoppable!

Their position will be torn apart!

Although they only blocked the first ten minutes!

But people also understood very well.

The musketeers built by Jiang Fan.

Compared with the transcendent races of the other four super demons..... They were far stronger!

The other four couldn't even last a minute!

And Jiang Fan in the examination room.....

He was also aware!

This was the last moment of the Great Desolate Army!

The college entrance examination champion had arrived.

Then there was nothing to be sorry about!

Although the Great Desolate Army had not lost much yet.

It could still be able to support for a while!

There was still a chance to launch the Heaven Splitting Cannon!

But this was an endless army of royal bugs, and there were lots of them!

It was completely unstoppable!

In holding on for another ten or twenty minutes!

There was no point!

Jiang Fan slowly reached out his hand.

Ready to press the button!

Just when the crowd as well as Jiang Fan himself felt that.

It was time to quit and give up!

Suddenly.....

Behind the walls of the Great Desolate Army.

There was an unexpected change!

A group of biologists who were not usually taken very seriously and were considered to be the odd nutcase had appeared!!!

Chapter 299: Endless vs Endless! Hope from the biologists!

Inside the second wall of the Great Desolate Army.

Several biological researchers came out with messy hairs, seemingly unwashed for days!

There were red threads in their eyes.

But there was a hint of excitement on their face.

That was more than exciting.

Even.....

There was a hint of frenzy!

“Your Highness, Your Highness.....”

A bald biologist in the lead shouted!

Yan was watching the battle from the city walls at this time.

Her face was as grave as ever!

Looking at the gradually approaching royal bugs.

Her fingers were clenched for the first time!

Hearing the shouts.

Yan turned her head to look.

To see these biologists who were called lunatics by everyone!

“Your Highness, our research..... has been successful!”

The bald biologist shouted with both heads clenched.

“Successful?”

Yan was slightly stunned.

But immediately reacted to what this bald biologist said..... what exactly.....

Because.....

There were a few of the projects studied by biologists.

They were approved by Yan herself!

It was not just this time.

Previously poison gas.

And a lot of other kinds of items that made people fall down!

It was all approved by Yan.

Only then was it possible to proceed!

“General Chang, resist with all your might and wait for me to return!”

Yan said to Chang Yu Chun.

Immediately.....

Under the escort of personal guards.

She quickly went downstairs.

Towards these biologists to meet them!

At the time of emergency.

She didn't care about anything.

And ran straight away.

Soon!

She came to a biological laboratory behind the second city wall!

Here.....

There were the bodies of a transcendent beings!

Including the big-headed fishmen, female cultivator, dark elf queen, and flame giants that were captured alive in previous rounds and more!

And this time!

The appearance of these transcendent creatures seemed to be.....

There had been no small change!

See these quite changed transcendental creatures.

A strange look passed over Yan's face as she asked, "Did your..... experiment succeed?"

"Yes."

The bald biologist at the head of the group nodded vigorously and said, "Fortunately! Finally, a more practical..... Super Loss Potion has been developed!"

That's right!

This was a project that even Yan had no hope of.

It was these biologists' idea, who were considered by many to be lunatics!

When they saw the zombies captured in the first round!

Immediately, the idea arose!

After the autopsy!

A peculiar virus in the body of a zombie was soon discovered!

Judging from this.

It was this peculiar virus.....

That's what turned ordinary people into zombies!

This new and scary virus.

It aroused the unprecedented interest of these oddballs.

They had a sudden idea:

Since this virus could infect ordinary people, then.....

Can it infect transcendents?

If you have an idea, act now!

Several biologists quickly found transcendent creatures to do experiments!

It was smooth at first.

For example, the martial artist and the profound cultivators!

After being infected.

They were also zombified soon!

Losing original consciousness.

However.....

The process afterwards was not satisfactory enough!

After injecting the virus into the body of the big-headed fisherman.

Although the big-headed fishman had a reaction.

But it was not zombified!

And the effects of the dark elf queen, the female cultivator and the flame giant..... were getting worse and worse!

Before dealing with the rest of those flame giants.

They used the zombie virus!

But it could only make these flame giants lose some fighting power and consciousness!

There was no strong effect!

Not to mention the zombification!

This result.....

.

Made a few biologists anxious!

Straight from the beginning!

Although Biology was also a formal discipline!

But its status was far inferior to other disciplines!

There were very few people who studied it.

In the Great Desolate Army, it could be considered a relatively unbiased one!

Not many people cared.

Except for the poison bombs.

This group, which spends a lot of money every year, had no other results at all!

There were many people outside.

Who proposed to abolish this group.

If Yan hadn't insisted.

I'm afraid it really wouldn't exist anymore.

In everyone's opinion.

These guys who study biology.....

They were totally bizarre and crazy!

It also made these biologists!

Secretly holding back their breath!

Want to prove themselves!

Especially on this stage of glory conquest!

They had a bold idea to..... develop a super virus that could make even advanced transcendents like female cultivators and flame giants, able to zombify!

"How did you guys do it?"

Yan asked with great curiosity.

There was still a hint of doubt in her eyes.

This was indeed hard to believe!

"We did several sets of experiments and made several hybrid viruses first, but none of them were satisfactory, and then....."

The bald biologist said with an excited look on his face, "We extracted the serum from the undead knight, the big-headed fishman, the dark elf queen, that female cultivator, and the flame giant and blended it!"

"With the zombie virus!"

"In the end, this super zombie virus was initially made!"

"Even the flame giant and the female cultivator....."

"After the injection!"

"They could also be successfully zombified!"

"Your Highness, look!"

The bald biologist points back on the platform!

A body of a transcendent creature.

There, the female cultivator and several flame giants were placed in the middle!

Their faces were completely blacked out at this time!

And their eyes were sunken in!

Eyes full of bloodshot!

On the female cultivator's white face..... there were thin and black blood vessels!

Her lips were also slightly darkened.

The whole person had become hideous and horrible!

That fairy-like appearance from earlier was gone!

The flame giant with a height of more than ten meters next to her..... was even more terrifying!

There were black blood vessels all over its body!

It was intimidating!

"These are the reactions after being injected with the super zombie virus! They are no longer immortals and flame giants, to be precise....."

The bald scholar exclaimed, "It should be a new type of transcendent zombie!"

"Is it any different from those ordinary zombies?" Yan asked.

"There are still differences."

The bald scholar explained, "In addition to their combat strength, these transcendental zombies retained a bit of consciousness, but....."

"This consciousness is not strong!"

"It simply cannot resist the nature of being a zombie!"

"And because of that, Your Highness, look!"

"They didn't attack us because they still have the memory of being subdued by us!"

Yan looked over.

Sure enough, the blackened female cultivator and the flame giant were just roaring in their mouths!

But didn't dare to make a move!

Chapter 300: Endless vs Endless! Hope from the biologists!

"In addition....."

The bald scholar continued, "They still inherited the nature of the zombies, very aggressive towards living creatures and very bloodthirsty!"

"So, they can now fight for us?"

Yan felt that this idea was a bit ridiculous!

“Rather than fighting for us.....”

The bald scholar explained, “Instead, it is their instinct to crave the flesh and blood of the more powerful creatures!”

There was no need for the bald scholar to say this.

Yan also saw that.

The blackened female cultivator and the flame giant.

While looking to the transcendent creatures next to you that haven’t been injected with the super zombie virus!

There was a blood thirst in their eyes!

“Make sure it’s safe!”

Yan looked at the bald scholar and asked.

“There’s no way to ensure that!”

The bald scholar shook his head and said: “This thing has just been cultivated, we dare not guarantee it, but there should be no accident!”

Yan glanced at the laboratory.

She took a deep breath, then said in a deep voice: “Let them..... go out!”

“Even if something goes wrong, I’ll be responsible!”

Outside the walls!

In the second ten minutes.

Sure enough, stronger royal bugs with dark golden stripes had appeared!

They were faster!

Their agility was higher!

With more combat power!

When the Great Desolate Army finally wiped out all the royal bugs of the first ten minutes!

These new royal bugs followed close behind!

And pounced fiercely!

Tu tu tu tu.....

The speed guns were shooting like crazy!

Cannonballs and bullets were also firing like crazy!

All the soldiers used all their strength!

Their hands never stop for a moment!

Even if it was a sniper rifle.....

They were also doing their best!

But these royal bugs were still too powerful!

The cordon was constantly being breached and they were closing in!

Three hundred meters!

Two hundred meters!

One hundred and fifty meters!

One hundred meters!

The army of royal bugs was getting closer and closer!

About to rush to within 100 meters, the most dangerous distance!

“Should we use poison bombs?”

Han Xin asked in a deep voice.

At this time, Han Xin.

Because there was no more threat underground.

So he also brought people back to the city wall!

“No!”

Chang Yu Chun, however, shook his head.

Poison bombs couldn't distinguish between the enemy and friends!

Although their lethality was strong!

But the consequences were too serious!

In addition.....

The main thing was that.

Even if they exterminated these royal bugs in the front!

There were still endless similar bugs coming from the other side of the passage behind them!

After all, the number of poison bombs.....

It was still limited!

They couldn't last long!

“Then the only way is to use gunpowder to blast all the tunnels below, or have Her Highness use the Heaven Splitting Cannon again!”

Han Xin also said somewhat helplessly.

These two methods.

It could only slow them down for a while!

Letting the Great Desolate Army hold up for more time!

And there was no perfect solution!

“If all these means are used, the Great Desolate Army should be able to hold out for another twenty minutes at most if they retreat to the second city wall!”

Watching this scene.

Jiang Fan had a plan in mind!

But.....

There was no point either!

Just as Chang Yu Chun and others were preparing to execute the blowing up of the tunnel.

When blocking the attack route of the army of the royal bugs.

Yan rushed back with the people.

Before they got close, she immediately said loudly: “Let a few royal bugs come over to buy time for Dr. Chen’s zombie army!”

Dr. Chen!

It was the bald biologist from earlier!

Because of the creation of poison bombs earlier.

Therefore, he was rated as a “doctor”, higher than a scholar by Yan!

“Army of zombies!!!”

Hearing these words.

Chang Yu Chun and others were slightly stunned!

Followed by.....

They saw that.

From the second gate of the city wall.

One after another, the dark transcendent individuals appeared!

There were female cultivators.

There was a fairy queen.

There was the big-headed fishermen’s king.

There was also the last giant flame giant that had a huge face!

“Are these.....?”

One scholar couldn’t resist asking.

“Don’t ask these questions yet, just follow my orders!”

Yan said in a deep voice.

“Yes!”

Chang Yu Chun did not hesitate.

He immediately ordered, “Attention everyone, let the ten royal bugs at the front come over and snipe the other royal bugs behind with all your might!”

The soldiers of the Great Desolate Army were also slightly stunned.

They wanted to deal with a batch first!

But it didn’t make much sense!

The army of royal bugs behind was endless and unending!

This order was like a mountain!

The Great Desolate Army still did as they were told.

Tu tu tu tu.....

The direction of the speed gun slightly avoided the front.

Letting the front most ten royal bugs burst in!

Forced within 100 meters!

They didn’t think that much!

Instead, they lunged even more swiftly.

It was only a hundred meters away from the city walls.

For these royal bugs..... it was just a few clicks away!

In a few seconds.

They rushed to the front!

Along the wall.....

They wanted to climb up!

But how could the Great Desolate Army let them win!

The speed gun and hand thrown bullets kept coming down!

This 30 meter high wall was not that easy to climb!

Ten royal bugs.

While dodging bullets, dodge left and right, and frantically run towards the wall!

At this time!

City Gate.....

It suddenly opened wide!

It made these royal bugs stunned for a moment!

There were city gates to get in!

Naturally, it's better than rushing up to the walls in a rain of bullets!

The ten royal bugs didn't even think twice.

And immediately rushed in!

What they met head-on was a huge giant with flames all over it!

The blackened zombie flame giant.

Seeing these super civilization level royal bugs!

Immediately.....

Its eyes widened!

Then he screamed.

Pounced like crazy!

He collided with the royal bugs that were rushing in!

The two fought crazily!

The royal insects used their sharp forelimbs!

Slashing frantically at the zombie flame giant!

The flame giant didn't care at all.

Cut as you like!

He was not afraid of knife cuts and bullets!

And he himself opened his mouth wide.

And bite down hard on the neck of the royal bug.
