

One Planet 331

Chapter 331: Fighting all the way! A silent elimination round!

The fifth match was fought by the Fifth Legion!

50,000 of the Great Desolate Army.

In total, it was divided into five legions!

With the five men, Xu Tiande, Le Yi, Han Xin, Han Qin Hu and Lu Sun respectively as army commanders.

The fifth match was led by.....

Lu Sun!

When the translucent barrier disappeared.

Lu Sun saw that on the opposite field, actually..... There was nothing!

There was a slight shock!

He immediately thought of the second previous encounter of the Great Desolate Army..... The Shadow People!

Surprisingly, they had the natural ability of backstabbing!

its just that.....

In the next moment.

It was when a keen-eyed scholar shouted, "Pay attention to the ground!"

Lu Sun and others looked over.

That's how they found out! Above the surface of the ground.

There was a slight shaking.

It seemed that something was squirming underneath!

It reminded the crowd of.....

In the final endless mode of the actual combat assessment of the college entrance examination.

When they encountered underground bugs!

"It turned out to be an underground transcendent race."

The gloomy expression on Lu Sun's face faded away.

In response to the shortcomings in the last glory conquest.

The Great Desolate Army had already made up for it all these years!

Flying in the sky. Or digging through the ground.

All of them were on the target list of the Great Desolate Army!

Flying in the sky was still a little tricky!

However.....

This underground crawling.

Wasn't it a delivery of food to the current Great Desolate Army?

Lu Sun didn't hesitate.

He immediately ordered to use.....

A new type of poison gas bomb!

It was also called by many scholars..... the smashing of the sons and the grandsons!

Because, this new type of poison gas bomb.

It was too vicious!

Everywhere it goes!

No grass grows!

It was also improved by a few oddball biologists in that research lab of Dr. Chen.

Compared to the last actual combat assessment.

its power was much greater!

If it was on a frontal battlefield.

Because of the wind.

It was not very useful either!

It was also easy to be targeted!

However.....

Underground.

That was a heaven for gas bombs.

One by one, the Great Desolate Army immediately put on the gas masks they carried with them!

This time, in the little glory conquest.

Each legion was very well prepared.

Anything that should be brought.

And the things that should not be brought.

They brought all of them.

There were many people anyway.

Especially now that there were cars!

It was much easier to move things.

Its just that.

What surprised the Great Desolate Army was.

This underground race that was digging below.

It came all the way down to the position of the Great Desolate Army.

But then.....

They actually didn't rush up and attack!

“Something's going on.”

Lu Sun immediately had someone pressed to his ear.

Listen to the movements below!

“They seem to be..... digging a hole.”

A sharp-eared scholar said.

“Digging a hole!?”

Lu Sun slightly froze, then reacted and said: “This transcendent species, it is estimated that their frontal strength is not strong, they are trying to dig a hole to make the ground collapse, so that we fall down the pit!”?

It had to be said.

In this kind of competition with limited field.

Digging a hole was indeed a good idea!

“It's the underground spiders.”

Jiang Fan in the battle room knew what kind of transcendent species this was!

It was also a relatively rare underground creature—

Underground spiders!

They were very good at digging holes and making spider webs!

Their frontal strength was indeed weaker!

But they could dig holes in all directions.

Then a spider web will be laid near the entrance of the hole!

This spider web was the real killer!

Once the enemy accidentally falls into the spider web.

Basically.....

It would be hard to break free!

Plus their ability to dig holes was very fast!

They could collapse the ground.

So that the person above falls off!

Lu Sun was very sensitive.

He instantly guessed the strategy of this underground race!

He immediately ordered: "Dig a hole and throw the gas bomb in!"

The soldiers at the back took out shovels.

According to the motion below.

They waited until a shallow pit had been dug.

The soldier next to him set up four-barrel speed guns!

The fastest way to dig holes was naturally the armor-piercing speed gun!

One bullet went down.

The dirt hole below was pierced!

Revealing the blackened hole further down!

Everyone saw that.

And guessed that this should be dug up by the underground race.

Without hesitation.

A dozen gas bombs were thrown down!

immediately.....

They quickly covered up this hole with a bag and soil!

The people of the Great Desolate Army quickly retreated to the vicinity!

"What the hell? These musketeers?"

In another battle room.

The corner of the mouth of the skinny boy who saw this scene curled up in disdain with a sneer.

But after a moment, He wasn't able to laugh!

Because!

He discovered.....

The spiders underground.

He didn't know why.

One by one, they started foaming at the mouth.

Their limbs twitched!

They trembled all over!

A few inhaled too many gas.

Directly on all fours.

They flipped with their belly upward.
Even their epidermis began to blister and decay gradually.
Dead as a doornail.
Over time!
In all of the underground tunnels.
There were more and more dead spiders!
And it was increasing!
The skinny boy then realized that something was wrong.
His expression suddenly changed!
He also guessed that it must be because of the strange things thrown by the Great Desolate Army just now!
The skinny boy also thought about his own unique race.
He wanted to stomp heavily on Jiang Fan's head.
And make a name for himself!
But he didn't expect that.....
Not even a hair of the Great Desolate Army had been touched yet.
Instead, he already lost a lot!
The six thousand underground spiders that he bred.
In this moment alone.
Nearly one thousand of them died on the spot!
Many inhaled poisonous gas.
Their body was still trembling!
Even if they didn't die.
They won't last long either!
"Damn it, damn it."
The skinny boy screamed furiously.

Chapter 332: Fighting all the way! A silent elimination round!

But there's nothing that could be done about it.
He could only choose to surrender and admit defeat!
"Four minutes and 55 seconds."
Lu Sun's lieutenant counted the time.
It couldn't be helped.

In this one, he waited for the other side to dig a hole.

There was also the effect of the poison gas bomb.....

Both of them took a lot of time.

Putting Lu Sun's Fifth legion at the bottom!

So far!

All five challenges were over!

Jiang Fan was crushing.

He quickly defeated one opponent after another!

And became the first freshman to make it to the elimination rounds!

The most time spent in one game was..... No more than five minutes!

That added up to less than twenty minutes!

And this time period!

The fastest of the other ringmasters was still playing the third match!

The teachers and students watching the game were stunned for a while!

“Dongyang Province's freshmen are so strong this year!?”

Some teachers expressed doubts.

In previous years.

The freshmen from Dongyang Province were often the bottom ones!

“Jing Yue, this Jiang Fan seems to be..... much more powerful than you said?”
beside Bu Jing Yue.

Bu Jing Yue's mentor, the middle-aged woman also had a hint of surprise in her eyes.

“I'm not too sure either.”

Bu Jing Yue was also a little surprised: “In the college entrance examination, he was not this strong!”

Bu Jing Yue was not very lucky.

After winning four matches in a row.

She was defeated by a genius in the fifth match!

According to the common understanding of the people.

The actual combat assessment of the college entrance examination was completely different from the battle against each other.

Because there was no one to command the actual combat assessment.

And there were also strategic and tactical targets in the battle against each other!

If there was a restraint relationship.

It was possible to win with weakness!

And Jiang Fan's performance was also a little too relaxed!

Although several opponents created a relatively special transcendent race!

But from beginning to end!

They didn't give him the slightest challenge!

"Teacher Su, you have accepted a good student."

"The top eight should be very promising!"

Next to Su Jicheng.

Many people were congratulating.

In the eyes of the people.

They naturally saw that.....

Jiang Fan's strength could definitely rank in the top ten of all the freshmen this year!

After winning five games in a row.

Jiang Fan also walked out of the battle room.

He came aside to rest.

Waiting for the results of other arenas!

Just as everyone imagined.

Prince Qing's arena.

Although the Prince Qing was recognized as the strongest.

Not many people should dare to challenge him.

But under the special arrangement of some people.

Especially after Jiang Fan won five games in a row so quickly.

Immediately, there was a stream of freshmen.

Who went up and challenged Prince Qing.

The results were no surprise!

They were crushed by Prince Qing.....

Sweep one by one!

In the other thirty rings!

Basically, there were no cold breaks!

Those famous freshmen were winning five games in a row!

Including Wang Yiteng, Lin Youhe and Xiang Zhifei.

First and foremost, they won a spot in the top thirty-two!

After more than one hour.

The tournament was all over!

Thirty-two spots of the elimination round were also out!

According to the rules.

Matchups for the elimination round.

It was ranked according to the passing time of the ring match!

For example.....

Jiang Fan was the first.

Then the matchup was with the last place!

Prince Qing was the second.

It was the second-to-last match!

And so on!

After a half-hour break.

The elimination rounds officially started!

Sixteen games..... simultaneously!

This time.

Most of the people's eyes were aimed at Prince Qing.

The opponent Jiang Fan encountered was not strong!

Although he also had a planet with a diameter of more than 500 kilometers.

But it was also a little bit more!

Except for a few people like Jiang Fan.

Most freshmen were the ones who would voluntarily reveal the diameter of their planet!

As for Jiang Fan, well.....

When he was in the provincial capital.

A man in blue at the examination center once approached him.

He suggested that he had better not say anything.

Jiang Fan also knew this truth!

There was not much suspense in this one.

The maximum number of elimination matches was also five.

The distribution method within the Great Desolate Army was also.....

According to the time of the ring match!

The one who spent the most time, the Fifth Legion led by Lu Sun was on the field first.

It was responsible for the thirty-two into sixteen elimination rounds!

Lu Sun gritted his teeth!

In less than three minutes.

He just blew the opponent out of the water!

And made it to the next round!

Top sixteen battle.

The opponent was slightly stronger!

But it was not a match for the Great Desolate Army.

Han Qin Hu led the team.

He beat the opponent with no mercy!

So far!

Jiang Fan successfully reached the quarterfinals!

It was also at least a reward!

Seeing this.

Su Jicheng finally breathed a sigh of relief!

For him.

The student he recruited had this grade...

It was already very good.

Be aware!

There were so many teachers in the university!

Students taken in by many mentors couldn't even get into the top 32!

Top 8 Battle.....

It was finally here.

To be able to come to this point.

All of them had planets with a diameter of more than 550 kilometers!

Each one was the top genius in each province!

Like Wang Yiteng, Lin Youhe, Xiang Zhifei, etc.!

None of them was weak!

All four matches were.....

Strong!

The crowd watching the battle had their eyes filled with anticipation!

Jiang Fan's opponent this time was a little stronger!

It was Xiang Zhifei, one of the biggest favorites of the top four!

He was known as one of the strongest freshmen besides Prince Qing this year!

The diameter of his planet was also in the top four!

And this time.

Before the competition.

It was not Jiang Fan that everyone was discussing.

Instead, it was Xiang Zhifei!

Because Jiang Fan created the musketeers.

Chapter 333: Fighting all the way! A silent elimination round!

Whether it was a ring match or elimination match.

It was all so easy!

It could be described as effortless!

In comparison.

Although Xiang Zhifei was also very smooth.

But it was not quite crushing!

"In this one, why does it feel like Xiang Zhifei is going to lose?"

"There is a high probability of losing. The race created by Xiang Zhifei is also very powerful, and its frontal ability is very fierce, but..... they have encountered a stronger musketeer!"

"Let's see how many minutes Xiang Zhifei can last, don't be so disgraceful like those guys from earlier, who can't even last three minutes."

"This Jiang Fan is a bit interesting, no one thought of it before, right?"

"Hahaha, Zhifei, you have to stand up, don't let the people from Dongyang Province knock you out."

Beside Xiang Zhifei.

Lin Youhe, who had a good relationship, patted his shoulder and smiled.

"Mind your own business."

Xiang Zhifei said angrily.

Especially when he heard people around him talking about how long he could last.

His brows were even more furrowed!

“Hmph, I want to see how strong this so-called musketeer is!?”

Xiang Zhifei clenched his fists and walked into the battle room!

The quarterfinals also started simultaneously!

This match was fought by the First Legion led by Xu Tiande!

It couldn't be helped!

Who made the First Army come third in the ring match.

This made Xu Tiande's face very ugly.

The soldiers were also full of anger.

The first thing they did after coming up was unleash all of their firepower!

What Xiang Zhifei has built was a transcendent race with very powerful frontal combat power –

Demonized people!

Their body could be enchanted for a certain period of time.

And they could transform into a tall demon!

They could deal long-range attack!

Their attack power was terrifying!

All of the previous opponents!

They were all set on fire by these demonized people before they got close..... killed!

However.....

This time, the demonized man had encountered.....

The Great Wilderness Army with a longer range!

Not to mention the cannons!

Even if it was four-barreled speed guns.

Now their range had also reached as far as 2,500 meters!

The attack power of demonized people was horrible.

But their body was brittle!

There was not much defense.

As soon as Xiang Zhifei came up, he immediately let the demonized person activate the demonization!

Transformed into a long-range turret!

Get ready to strike first!

But dozens of demonized people.

They had not finished transforming yet.

They were directly pierced by four-barrel speed guns!

There were bullet holes all over their body!

The death was a tragic one!

The cannon also had a massive lethality this time around.

Thought it would take a second for a demonized person to demonize and stay in place!

That was the best target!

Naturally, the cannon gunner would not miss this great opportunity!

As a few cannons went down!

The demonized people died a lot!

“Bastard! How the hell is this musketeer..... so strong!”

In the battle room.

Xiang Zhifei fiercely hammered the table!

He gnashed his teeth in anger!

There was nothing wrong while watching the projections.

Once he came up and experienced it himself.

Then he just realized.....

How terrifying the firearms of the Great Desolate Army were!

After ranting a few times.

Xiang Zhifei could only admit defeat!

This one was at.....

“One minute and 45 seconds!”

It was the least time spent in all the battles of the Great Desolate Army!

It was mainly related to the characteristics of demonized people!

For other races.

Demons could transform into long-range turrets.

Their attack power was high!

It was very scary!

But for the Great Desolate Army.

It was a living target!

Instead, solving it was easier than those weaker ones!

“Xiang Zhifei was just..... Eliminated!”

Everyone blinked.

Some couldn't believe their eyes.

Such a famous freshman.

One of the top four favorites.

He couldn't even last two minutes!?

Except for Jiang Fan.

Two of the other three games were hard fought!

It was thunder and flames!

It took a long time to decide the winner!

The top four spots were also out – Jiang Fan, Prince Qing, Lin Youhe and Wan Yunsheng!

All of them were top freshmen with a planet diameter of more than five hundred and fifty kilometers!

At this time.

Almost everyone was of the opinion that.....

Jiang Fan's planet must also be more than 550 km in diameter!

In the top 4 Matchups!

Jiang Fan's opponent was Wan Yunsheng from the Wanmu Province!

A relatively calm freshman!

During the break time.

Wan Yunsheng came to Lin Youhe and Xiang Zhifei's side.

“Are you here to mock me, too?”

Xiang Zhifei said angrily.

He was now a laughing stock!

.Because everyone knew that.....

Among the opponents that Jiang Fan had eliminated.

Xiang Zhifei lasted the shortest time!

“Of course not.”

Wan Yunsheng shook his head and said, "I just want to know..... Have you found anything about Jiang Fan's musketeer?"

"Found?"

Xiang Zhifei was stunned for a moment, and then said: "It's similar to what others know. It has strong firepower, but its individual combat power is very average. If you can cut directly to the Musketeers' side like the shadow people before, you still have a chance to defeat them!"

"Are there other weaknesses?"

Wan Yunsheng asked.

"As for the other weaknesses..... There shouldn't be any more."

Xiang Zhifei shook his head and said.

"I did find out one thing."

Wan Yunsheng's mouth curled into a smile!

Immediately.....

He went to the battle room!

Jiang Fan also came to the battle room at the same time.

Listening to the discussions around.

Wan Yunsheng smiled faintly.

"Everyone is talking about whether I can last three minutes, but...I'll let you guys see later, how did I knock this Musketeer out? Don't be too surprised!"

Wan Yunsheng was full of confidence.

He walked step by step into the battle room!

Shortly thereafter.

The planet passage opened again.

This time, it was the Second Legion led by Le Yi who entered the field!

In the ring match just now.

They came in second in terms of time spent!

As for the first ranking.

It was Han Xin's Third Legion!

The semifinal officially started!

Chapter 334: The finals here! Face off against the Behemoth, mobilized the strongest battle force!

Within the field, the translucent barrier disappeared.

They displayed both teams in front of each other!

“Hmm!?”

Le Yi, who was leading the team, was surprised to find that out.

On the opposite side of the field.

There was A giant turtle of immense proportions!

Each one was over ten meters long.

And these turtles were all slumped to the ground.

They were not crawling forward!

Instead, they used their four feet underneath..... to keep digging the soil on the ground!

While digging the soil, they were spitting water out of their mouth on the sides!

To fill in the holes, they dug little by little!

The Great Desolate Army was slightly stunned for a moment!

This was still..... The first time they encountered an opponent who didn't start an attack!

“Is it a water cannon turtle?”

Jiang Fan naturally got the information from Su Jicheng about the opponent of this fight – the transcendental race created by Wan Yunsheng!

The name was “Water cannon Turtle”!

It was a transcendental turtle!

Its body size was gigantic.

More than just the hard shell of an ordinary turtle.

It had the powerful ability to fire water cannons!

There was some similarity with the wizard.

The longer the water cannon turtle builds up power.

The larger the water cannon that was sent out.

Later, it was even possible to.....

Fire a steady stream of water!

The duration was very long.

There was also a hint of spiral force in this water column.

It was powerful!

It was even more terrifying than the attack power of the demonized demon!

Therefore!

All the previous opponents of Wan Yunsheng were all done. Meanwhile, the water cannon turtle wasn't charged up!

They interrupted early!

But the shell of the water cannon turtle was too hard!

It was completely unbreakable!

"This Wan Yunsheng, not to mention his talents, in terms of strength alone, he should be in the top three in this freshman session!"

One of the teachers said.

"He should be in the top three, and must be stronger than Xiang Zhifei's demonized man, the demonized man's physique is still a little brittle, and the water cannon turtle is stronger in offense and defense, the demonized man certainly cannot beat the water cannon turtle! "

"Let's see if Jiang Fan's musketeer..... can break these turtle shells."

Compared to earlier, there were just a lot more people in this discussion.

The transcendent race of the water cannon turtle was obviously stronger than all previous opponents.....!

"The number of these giant turtles is only about a thousand, but their size is very strong and the turtle shell will be very hard!"

One scholar analyzed.

"The scholar team continues to analyze. The others don't care so much and smash these turtles to pieces for me!"

Le Yi said fiercely.

Blitz The cannon and the speed gun fired quickly!

Countless shells and armor-piercing bullets shot past!

Straight at the water cannon turtles on the ground!

Pffffft!

Armor-piercing bullets fired at the hard shell of a water cannon turtle!

It emitted a sound!

It was a bullet that even Tanko could penetrate.

The shell of the water cannon turtle is indeed very hard!

But... still broken!

The water cannon turtle's shell is not only hard!

Also very thick!

Armor-piercing bullets fired past close to one meter!

But It couldn't completely penetrate!

Under such a dense rain of bullets!

Hundreds of armor-piercing bullets fired in unison!

All hitting a water cannon turtle.

After only a few moments, A water cannon turtle front shell was torn apart!

The turtle shell was shattered!

The flesh and blood inside was not so hard!

It was hit and splashed all over the place!

Not long after that, the other water cannon turtles at the front also suffered the same fate!

The death was unbearable!

But Wan Yunsheng in the battle room was not anxious at all.

He could still bear this much loss.

But Wan Yunsheng in the battle room was not anxious at all.

This loss he can still afford to suffer.

Because

With the passage of time, the remaining water cannon turtles have dug a big hole in the ground!

The water that kept spitting out of the mouth.

Also, gradually submerged this large pit!

Inside the water, both armor-piercing bullets and cannonballs' power were not as strong!

“Hey, hey, when my water cannon turtle is fully charged, these musketeers will... kill me!”

A flash of confidence in Wan Yunsheng's eyes!

He also knew that the Great Desolate Army was wearing an alloy battle suit that even a dagger couldn't break!

But the power of the Water Cannon Turtle's water pillar had an enormous impact!

These musketeers whose physique was like that of ordinary people..... Absolutely can't resist!

Look at the rising water!

Le Yi raised his eyebrows.

A lieutenant next to him said: “General, you don't need to consume any more ammunition, just use liquid nitrogen bombs!”

Liquid nitrogen bomb!

In the past few years, A research team invented a special weapon!

Specially used against underwater creatures!

The big head fish in the college entrance examination left a very deep impression on the crowd of the Great Desolate Army!

How to target extraordinary races underwater.

Also became a focus of the Great Desolate Army research!

Liquid nitrogen bombs referred to the liquid nitrogen!

Many endothermic contacts during vaporization cause frostbite!

Not only that, it differed from the liquid nitrogen in the previous life.

In the liquid nitrogen bomb, the research team of the Great Desolate Army research team also added New vibration alloy powder that is not affected by liquid nitrogen after a special configuration!

It lets the heat absorption ability of the alloy be fully exerted!

The two paired together were very scary.

But the conditions of use were also very limited!

Specially used against underwater races!

And these individual giant turtles couldn't be living completely underwater.

But there was a key point.

That was their mouths were always open.

Spitting water!

“Use the liquid nitrogen bomb!”

Le Yi also felt that there was no need to spend ammunition and ordered directly.

They were slowly loading the truck into the back with a truckload of various special weapons.

Among them, it naturally also included

Liquid nitrogen bombs!

Quickly load them up.

Fired by large caliber artillery!

Hundreds of liquid nitrogen bombs quickly shoot at the water cannon turtle's position!

Fell into the water!

Explode!

As soon as the liquid nitrogen bomb comes into contact with water.

It absorbed heat and vaporized like crazy!

Hundreds of liquid nitrogen bombs made the whole venue look like a boiling hot spring!

Snort disdainfully

The water cannon turtles didn't even notice that something was wrong.

Still spitting water!

It startled Wan Yunsheng at first.

After seeing nothing, he was relieved for a while.

But gradually..... found something wrong!

The nearly 1,000 water cannon turtles slowly stopped spitting water!

The whole enormous body... doesn't even move!

The water pillar's accumulation of power was also stopped!

"Dead?"

Seeing this scene, Le Yi asked.

"Not dead, just temporarily frozen."

A scholar replied, "These are transcendent creatures with stronger physiques, I estimate the liquid nitrogen that entered their bodies to be not much, but"

"If it takes a little longer, these giant turtles will also suffer irreversible frostbite."

"But for now....."

"They're no longer a threat to us at all, just lambs to the slaughter!"

Chapter 335: The finals here! Face off against the Behemoth, mobilized the strongest battle force!

"Tank, move out and prepare to exterminate these giant turtles!"

Le Yi ordered.

At once, A Tank, in front of the Great Desolate Army's position

rumbled and started driving towards the giant tortoise position!

Against water warfare,

The Great Wasteland Army also had experience, and that was

First, drain the water from the position with pumping machines!

Then bombard it with gunpowder!

"Damn it! How come these musketeers still have such weapons!?"

Wan Yunsheng's face in the opposing war room was not so good.

He certainly realized that the water cannon turtle he had built was now in a state where they could barely move!

It was almost as good as being frozen!

“I admit defeat!”

Wan Yunsheng also helplessly surrendered!

He walked out of the sparring room.

He even looked at Jiang Fan’s side a few more times.

There was a trace of reluctance in his eyes!

This match was the longest since the challenge.

The Great Desolate Army took the longest time!

Over five minutes!

Of course, the opponent was also the most powerful!

“To deal with the underwater transcendent species, relying on liquid nitrogen bombs alone is not enough.”

Le Yi and other top brass were not so excited.

Instead, they were thinking about something farther away!

“Win!”

Su Jicheng’s slightly clenched right hand was loosened!

This one was generally considered being in danger on Jiang Fan’s side!

But it was still a thrilling win!

Jiang Fan walked out of the battle room.

He saw another match.

The duel between Emperor Qing and Lin Youhe was..... still going on!

Not that the two were close in strength!

Rather, it was

The crowd could see that the Emperor Qing was a little deliberately letting it go.

It took ten minutes for Lin Youhe to hold out.

Work hard again!

Lin Youhe Defeated!

In this way, the two finalists were born...

The much-awaited Emperor Qing!

And the one few people thought of Jiang Fan!

This duel!

The discussion was obviously much more intense than all the previous games!

It was not because of the high fame of Emperor Qing.

And more because Jiang Fan's previous performance was just too bright!

It was also crushing all the way over!

Not a single opponent was able to cause trouble!

"The final Who are you guys optimistic about? You two have just both fought these two."

Xiang Zhifei's side.

Xiang Zhifei looked at Lin Youhe and Wan Yunsheng and asked!

"It's not easy to say."

Wan Yunsheng shook his head and said, "Jiang Fan's musketeers are unprecedented, and I'm afraid we don't know enough about them!"

"I'm still optimistic about Emperor Qing."

Lin Youhe smiled and said, "Although I lasted ten minutes,....."

"You should also be able to see that this is what Emperor Qing has allowed."

"The feeling he gave me was"

"It's easy to handle, every attack I made was like hitting cotton!"

"And"

Lin Youhe paused for a moment, then said again: "Emperor Qing probably still has a lot of strength left."

It wasn't just about the geniuses.

One of the other teachers was also discussing it!

Unlike the very beginning, the crowd thought that Emperor Qing was bound to be the ultimate champion.

But after seeing the performance of the Great Desolate Army.

There were many people who actually fell to Jiang Fan's side!

But most people still thought more highly of Emperor Qing!

"It'll be interesting if Emperor Qing loses in the end."

A teacher smiled.

"How could he lose? Jiang Fan's Musketeer is certainly powerful, but it still has weaknesses, weaknesses that are still obvious, while the Transcendent Race that Emperor Qing built has both offense and defense, with more attack

power than the Demonized Man and better defense than the Water Cannon Turtle, there are no weaknesses!”

A teacher shouted.

The other teachers next to him also nodded in agreement.

Both offense and defense

It’s hard to co-exist at the same time.

Wan Yunsheng built the closest water cannon turtle.

In fact, the turtle shell was hard.

Water column power was also large.

But there was also an obvious weakness.

And that was The water cannon turtle moved more slowly!

Water cannon turtles also needed to store power.

If the opponent was from a fast assassin and from other races.

It was very distressing!

Not really in the sense of...

Offensive and defensive!

But the Emperor Qing was different.

Amidst the rising chatter.

After a ten-minute break, the final of the freshman challenge

It’s finally started!

Before the start of final match,

Su Jicheng also made a point of calling Jiang Fan over.

And explained some important contents of the race information created by Prince Qing!

Emperor Qing’s side couldn’t care less either.

“You have to watch out for the firepower of the Jiang Fan musketeers! Don’t take it hard, don’t get killed too much.”

Ao Xiong explained.

“Don’t worry, teacher, I already have countermeasures in mind!”

Emperor Qing smiled faintly.

Striding towards the sparring room!

Jiang Fan also walked into the sparring room.

This time in the finals, Jiang Fan wasn’t careless either.

In advance, the opponent's built race information was passed on to Yan!

It was different from the others.

During the break, Jiang Fan adjusted the flow of time on the Blue Star to three days!

These three days,

Enough for the Great Wasteland Army to discuss a complete response!

According to the rules, the finals would be fought by the Third Legion led by Han Xin!

The planet passage opened!

Han Xin stepped out first and walked in!

“A stronger opponent than before?”

Han Xin's face was calm, with a hint of confidence in his eyes as he thought, “Try to settle the battle within five minutes!”

For the position of the commander-in-chief of the Great Desolate Army.

Han Xin was already thinking about it!

This time just perform well!

And take the biggest credit!

When 10,000 of the Great Desolate Army and the team of scholars stepped into the arena.

The transcendent race built by Emperor Qing across the street also walked in!

It was an immense standing and walking beast!

Reaching a height of over ten meters!

It reminded people of the ones they encountered at the sixth level of the practical test on the entrance exam Flaming giants!

But the number of these giant beasts actually reached five thousand!

They looked very horrible!

Their appearance was a bit like a hippopotamus!

With an enormous mouth and a pair of fangs!

Human ears and lion's tail!

It looked like it couldn't be helped but make people feel terrified!

The body's surface was also covered with long hair!

These hairs were golden yellow!

Let these giant beasts have a ferocious appearance... with a touch of dignity!

“Behemoth!?”

Jiang Fan looked at those giant beasts and remembered Su Jicheng's explanation!
Behemoths were a unique product of the Yong Yang Dynasty!
Under a long history, they had crafted this terrifying transcendent race to perfection!
All the sons and daughters of the imperial family.
Basically all inherited the legacy of this race!
But there were still differences between Behemoths!
And Emperor Qing's built was like the king!
But Jiang Fan wasn't too worried!
He watched with interest.
Wanted to know how this showdown
How quickly would Han Xin settle it?

Chapter 336: Battle of the Geniuses? Han Xin said no! Continue the slaughter!

Inside the Behemoth There was also a ranking!
Mainly based on the color of this behemoth's hair!
The most common was the ordinary behemoth with normal hair!
More powerful was the silver behemoth!
The hair that covered the surface was silver!
And the one with golden colored hair was
The king of the Behemoths...
Golden Behemoth!
Even the Yong Yang Dynasty had such a long history.
Not many people have made it!
Unbelievable!
Among the royal sons and daughters of this generation.
Only Emperor Qing created the Golden Behemoth!
Therefore!
He was also considered the most favorable contender for the succession to the throne!
This race was both offensive and defensive!
The battle power was amazing!
Even In the past.....
It had the title of "land warfare invincible"!
The three races that Bu Jing Yue built were.....

Even more terrifying!

In the view of many instructors and powerful planet owners.

The diameter of Emperor Qing's planet was just the surface!

What really mattered was...the golden Behemoth race he created!

It wasn't just an instant combat power.

Its potential was endless!

No weaker than other races!

"How are these Behemoths better than the Flame Giants!?" Han Xin asked.

"The body size seems to be more stout and more ferocious, but there is no flame on the surface of the flame giant."

A scholar replied.

Han Xin nodded slightly.

There was an initial clarification in his heart!

The single strength of these Golden Behemoths Combined should not be comparable to the flame giant!

But it's better in numbers!

At that time, there were only thirty flaming giants on the Gaucho.

And in the opposite position, there were over five thousand golden Behemoths!

And it was because of this terrifying number!

That's why everyone was so optimistic about Emperor Qing.

If it was only one or two thousand!

That would only rank with Lin Youhe and Xiang Zhifei!

For every planet master, the race of transcendents must not only be of high level!

The number must also be large!

"Three hundred more speed guns!"

Han Xin glanced at the tall and fierce Golden Behemoth on the opposite side.

Without hesitation, he gave a direct order!

Don't you have a large number?

Then I'll add more numbers as well!

The original 100 speed guns.

Plus the current three hundred!

400 units in total!

Covering the entire position densely!

At this time, the speed gun did not need to turn.

Just sweep straight ahead!

“Get ready for other weapons!”

Han Xin said again!

The killing weapons of the Great Desolate Army

Naturally, there were more than four continuous speed guns!

The Rift Cannon was too large because of its size.

It was difficult to transport to the battlefield.

But there were other terrifying weapons that various research groups had developed over the years!

On the opposite side of the position,

Although the five thousand golden Behemoths looked fierce.

As if they were ancient beasts, but their intelligence was not low at all!

It didn't just rush up in a mess!

Instead, they started lining up!

The front of the Golden Behemoth was Rather weak!

Every ten in a row!

Under the order of Emperor Qing.

Roar!

With that

Quickly rushed over!

“So fast!”

Han Xin's pupils shrank slightly!

The Golden Behemoth was far too powerful than the ordinary Behemoth!

Whether in terms of speed or strength and so on

It was all the same!

In one step, he crossed a distance of over three meters!

Boom!

Boom!

The ground was trembling.

Like a heavy truck crashing into the position of the Great Desolate Army!

Immediately.....

They launched four hundred continuous speed guns at the same time!

In an instant, sixteen hundred armor piercing bullets!

Shoot out!

In about a second.

That's tens of thousands!

Densely packed!

Covering the entire field!

Poof, poof, poof

Most of the bullets, almost all of them, landed on the front ten Golden Behemoths!

Broke through the skin into the enormous body!

But it did not penetrate!

Instead, it all stayed in the flesh and bones!

In a brief span of five seconds.

These ten golden Behemoths' bodies were covered with bullet holes!

They were hit by at least a few dozen armor-piercing bullets!

But Golden Behemoth's terrifying physique

Fully displayed!

So many bullets, but still did not let them slow down on a point! Their faces were even more fierce!

Continued to madly rush towards this side!

“Golden Behemoths are extremely strong in life. They can be seriously injured, but it's hard to kill them completely.”

Seeing this scene, Jiang Fan thought of the words Su Jicheng said!

But it was just the end of the game!

After running a few steps, they still could not withstand the armor-piercing bullets!

One wiggled its enormous body.

The body was almost all about to be hit through.

But did not fall down!

Instead the companions behind them were holding them up!

Holding the ten seriously wounded Golden Behemoths Continuing to march forward!

“Hm???”

Han Xin couldn't help but raise his eyebrows.

Rather..... being supported by the companions behind!

They continued to move forward by using those ten Golden Behemoths at the front as shields!

Armor-piercing bullets hit almost all of these ten Golden Behemoths!

The golden behemoth's thick body and powerful physique couldn't penetrate at all!

More bullets!

Even more bullets had no effect!

The more bullets, the less effective they were.

Although the continuous speed gun continued to pour crazy.

But It completely can't get around these ten golden Behemoths.

Seeing this Many people who support Emperor Qing were relieved!

Their worries were superfluous.

Although Jiang Fan's musketeer firepower was terrifying!

But Emperor Qing's Golden Behemoth was really skilled!

Especially the move of using ten relatively weak Golden Behemoths as shields.

Many teachers appreciated it very much!

But only the Golden Behemoths had this effect!

Other transcendent races had no such terrifying physique!

In the middle of the field, watching the bullets from the Continuous Speed Gun being blocked.

The many Great Desolate Armies weren't so alarmed!

"Fire the great armor-piercing bullets and the great cannon!"

Han Xin ordered directly!

The two rows of cannons at the back had already been prepared!

Great armor-piercing shells!

As the name implied!

It's an upgraded version of the normal armor-piercing ammunition!

Three times larger!

And the power was over ten times more powerful!

They did not fire it from a firearm!

But in a special long, large caliber, heavy rifle!

This heavy rifle was the largest rifle of the Great Desolate Army at present!

Weight and size was the same as a small artillery piece!

The most remarkable thing was the front of this heavy rifle.

The barrel was two meters long!

After the acceleration of this barrel!

The speed of the big armor-piercing bullets will reach a staggering

Over 4,000 meters per second!

Of course, it was because there were two metals, stellar iron and vibranium.

In the past, it was impossible to produce such a heavy rifle.

It's astonishing speed.

What came with it was the power that has doubled several times!

Since ordinary armor-piercing bullets could not penetrate the body of the golden behemoth.

Then put on big armor-piercing bullets!

There were thirty heavy rifles in total!

Han Xin brought these thirty rifles!

To deal with the fierce and terrifying Golden Behemoth The beasts!

Because he wanted to drag the Golden Behemoth in front of him as a shield!

So the speed of thousands of Golden Behemoths slowed down!

This gave the heavy rifle gunner an excellent opportunity!

Such a long barrel.

The large armor-piercing bullets that were fired did not even make a single sound.

It was almost silent.

Thirty large armor-piercing bullets were fired from the barrel of the gun

shot out like lightning!

Invisible to the naked eye!

Through the air.

In an instant, they were in front of the Golden Behemoth!

Poof

Dozens of light sounds!

The big armor piercing bullet broke into the already pitted body of the Golden Behemoth!

There was no obstruction at all.

It penetrated straight through!

The speed didn't slow down much!

Continuing to charge forward!

The second Golden Behemoth behind him!

Chapter 337: Battle of the Geniuses? Han Xin said no! Continue the slaughter!

Once again, it went through!

The speed slowed down a little this time.

Then

The rest of the remaining force all fell on the body of the third Golden Behemoth.

It even broke through a depth of about 20 centimeters!

And at the same time, the cannonball from the gigantic cannon flew over too!

Such a gigantic cannon!

In fact, there was not much technical content!

The main purpose was to fire a large yield of shells!

Accuracy and precision were average!

The shells weighed nearly half a ton!

It was specially prepared for a powerful but slow transcendent!

Used on the playing field today. It was perfect for today's competition!

Five thousand golden Behemoths densely packed.

Almost all the field was covered!

No need to aim at all!

One cannon down.

It was a huge pile of Behemoths!

Boom!

The first cannonball falls down!

It exploded with a loud bang!

It blew the four golden Behemoths around it straight out!

Immediately after that

The second one.

The third one.

The cannonballs kept falling!

Blasting the front row of Golden Behemoths completely into the sky!

It hit a Golden Behemoth right in the center of the cannonball!

The entire body split open!

It almost split in half!

“Continue!”

Seeing the amazing effect of the cannonball.

Han Xin once again shouted.

He could also see that these Golden Behemoths had a stronger physique than the Flame Giants!

It was impossible to blow them up.

But It was enough to blow up into serious wounds!

The Great Desolate Army had plenty of ways.

Take your time to solve the problem with the Golden Behemoth.

That said, in fact, the single strength was worse than the flame giant at the entrance exam!

But the Great Desolate Army was better than the time of the entrance examination.

Didn't know how much stronger!

Rumble

Blitz

The four continuous speed guns were still running at high speed!

After the Golden Behemoth in front as the cannonball blew a shield away!

The killing power of the speed gun comes out again!

It hit the row of golden Behemoths in the back in an instant!

Thirty heavy rifles!

It didn't even need much aiming!

Directly shoot towards this group of golden Behemoths standing in a ball

It's done!

Thirty rounds of bullets.

Basically, they won't miss!

At least one Golden Behemoth's enormous body can be pierced!

At this moment, The Golden Behemoths were only less than fifteen hundred meters away from the Great Desolate Army's position!

With their amazing speed!

It won't take long for them to rush over!

But the distance was 1500 meters!

And this distance of 1,500 meters was difficult to cross!

Cannon, heavy rifle and four speed guns!

All three weapons fired together!

It knocked backwards the Golden Behemoth instead!

Like leeks, one by one, they fell down!

Although with the physique of the Golden Behemoth, they wouldn't die on the spot.

But there were seriously wounded Behemoths.

Naturally, there was no combat power!

boom!

At this time, a furious roar sounded!

The crowd saw

Behind thousands of golden Behemoths.

The planet channel opened.

Three Behemoths actually jumped out!

These three Behemoths were even bigger than the Golden Behemoths!

They were over 15 meters tall!

And

The hair that covered the whole body was not golden yellow.

But Purple!

That body surface above and layers of purple crystals!

“Amethyst Behemoths!?”

Seeing these three different Behemoths.

Jiang Fan raised his eyebrows.

He also recognized it!

It was one of the Behemoths

The most powerful and noble existence from ancient times to the present.!

A few planet masters had bred it!

Even Emperor Qing, Emperor Qing only bred three of them!

Compared to the Golden Behemoth.

Amethyst Behemoth was far too powerful!

Jiang Fan guessed.

If the Golden Behemoth hadn't been beaten and defeated.

I'm afraid that Emperor Qing wouldn't have revealed this bottom card!

“Another new Behemoth?”

Han Xin observed the three immensely huge Amethyst Behemoths for a few moments.

With a slight raise of his eyebrows, he calmly asked, “These three should be stronger than the Flame Giants!”

“Should it be stronger?”

A scholar next to him nodded and said, “The Flame Giant's greatest ability is the terrifying flames on its body surface, they estimated these Amethyst Behemoths to be most powerful because of the purple crystals covering its surface!”

“Ten heavy rifles will deal with these three amethyst Behemoths,” Han Xin ordered, “Don't stop the rest, continue to fight those golden Behemoths”

It also aimed the eyes of the crowd at these three newly appeared Amethyst Behemoths.

The speed was amazing!

Much faster than the Golden Behemoths!

Swiftly rushed over!

Ta-da

The big armor-piercing bullets hit the three Amethyst Behemoths.

The amethysts actually blocked them!

But!

The crowd also found out that these amethysts were expendable!

After blocking the large armor-piercing bullets for a while.

It just got darker!

“When these Amethyst Crystals disappear, the Amethyst Behemoth's own physique was no more powerful than the Golden Behemoth's, but it definitely can't stop the armor-piercing bullets.”

A scholar analyzed!

The three Amethyst Behemoths realized that something was wrong.

Learn to be smart!

They immediately grabbed the three seriously injured Golden Behemoths next to them.

As a shield!

Blocked in front of them!

With the strength of the Amethyst Behemoths and grabbed the Golden Behemoth in hands.

Speed would not be much slower!

“General, should we use the Small Rift Sky Cannon!?”

A lieutenant general asked.

Small Rift Sky Cannon!

It was a smaller version of the original Rift Sky Cannon!

The original Small Rift Sky Cannon was too large.

It was too bulky!

Completely immovable!

The research team at the back improved it again and again!

And invented a smaller version of the Rift Sky Cannon!

Smaller in size!

Could be pulled by a car!

But the power was Not much weaker!

Even more powerful!

This was also because of the substantial progress of Xia’s technology over the years!

“Small Rift Sky Cannon!

Hearing this question, Han Xin flashed a trace of disdain in his eyes, and said, “These Amethyst Behemoths want me to use the Small Rift Sky Cannon!”

The Small Rift Sky Cannon was manufactured.

That was used to deal with powerful, transcendent individuals!

Although the strength of Amethyst Behemoth was good.

But in Han Xin’s opinion it was not yet worthy to be entertained with the small Rift sky cannon!

“Don’t care about those Golden Behemoths, divide the speed gun in half, transfer all the heavy rifles and big cannons, aim at these three Amethyst Behemoths and give me a vicious blast!”

Han Xin shouted.

After just a few rounds of bombardment and strafing,

Out of five thousand golden Behemoths, several hundred had already fallen!

Even in the Golden Behemoths there was also fear.

Especially in this one-sided situation.

Although they were fierce enough.

But not even a hair of the enemy could be touched.

And so heavy losses!
The heart naturally grew fear!
Couldn't help but step back!
Two hundred units of the Great Desolate Army were still shooting at these Golden Behemoths.
The ordinary cannon fire was constant!
Other heavy weapons!
All aimed at
Quickly rushed up the amethyst behemoth!
In just an instant!
Five were blocked in front as a shield, three seriously wounded golden Behemoths were
beaten into a rotten melon!
Incredibly shattered!
Bullets and shells went through!
Densely bombarded on the three amethyst behemoths!
The amethyst crystals on the Amethyst Behemoths' bodies
Under this terrifying firepower!
In just one second, it became darker!
Poof!
A light sound.
A large armor-piercing bullet pierced the golden behemoth in the middle!
Penetrated into the body!
But it didn't penetrate completely!
Amethyst Behemoth's physique was still more powerful than the Golden Behemoth!
Poof, poof, poof
Followed by more large armor-piercing bullets and normal armor-piercing bullets!
There were too many.
It's simply too much to stop!
The three Amethyst Behemoths were no fools.
When they saw that they had been wounded.
They no longer dared to go forward.
They dropped the gold behemoths down.
Turned his big head On back to run!

Seeing this scene Jiang Fan knew that.....

This game is over!

And the crowd watching the battle outside wascompletely dumbfounded!!!

Chapter 338: Misery! Riding up to the top of the championship! The surprised group of elders!

Before the final, Jiang Fan's performance in several consecutive games was amazing!

Even

Such top ranked geniuses among the freshmen as Xiang Zhifei and Wan Yunsheng.

Jiang Fan easily eliminated both of them!

So a few teachers were still optimistic about Jiang Fan and the Musketeers!

Although more people were on the side of Emperor Qing.

But all of them were without exception!

All felt that Jiang Fan should have the fight.

This battle, the difference in strength between the two sides would not be that big!

Their fight would be more intense and exciting!

Normally, the battle time was over ten minutes

Both sides could be considered at the same level!

That's why Earlier, when Emperor Qing faced Lin Youhe, he did not use his full strength, but

Dragged the time until after ten minutes for the sake of the game!

Naturally, it was to give the other side a face.

A step down!

And in the eyes of the crowd Jiang Fan was much stronger than Lin Youhe.

He would resist longer.

But in the end!

Emperor Qing still relied on more powerful strength only to win!

No one expected but Emperor Qing was defeated!

Although he had not conceded defeat.

But in this situation

The winner was already decided!

Many people could still accept that Emperor Qing had lost.

But what made people's jaws drop was actually he was defeated so badly!

And the front of Xiang Zhifei, Wan Yunsheng and others were not essentially different!
If it wasn't for the bottom card of three Amethyst Behemoths.
Then he couldn't even hold it for five minutes Even with three Amethyst Behemoths!
He didn't even last more than ten minutes!
Jiang Fan's side, not to mention casualties.

Even

Not even the corner of his shirt was touched!

Totally was a one-sided massacre!

The scene was horrible!

Ao Xiong was standing in the middle.

And the faces of the surrounding teachers were unsightly!

Originally, this freshman challenge was for the "accompaniment" of Emperor Qing's.

But the result was quite unexpected.

And it turned out to be for someone else! Emperor Qing himself was beaten to the ground!

"Teacher Su, you are really hiding deep enough."

Next to Su Jicheng A teacher couldn't help but speak up.

Su Jicheng opened his mouth, wanted to explain.

But he didn't know what to say.

He himself was also a bit confused.

As an admissions teacher in Dongyang Province.

Jiang Fan's performance in the actual college entrance examination.

He had seen it all!

At that time, even the royal insects were struggling to cope!

Where did all the strength come from?

Even in the end, he could pass the endless mode and also used tricky moves.

Su Jicheng was also very clear.

The zombie virus on the individual strength of the creature was very difficult to work with!

Especially Emperor Qing's Golden Behemoth.

The resistance was very strong!

The main reason a group of teachers felt incredulous lies in Jiang Fan's musketeer strength had increased too much!

Mainly because of the Blue Star during these decades.

It happened to be during the electrical age and the second technological explosion!

Theories and technologies that had been accumulated for hundreds of years in the past!

Thoroughly exploded out!

These short decades, the level of technology has been very improved.

Even More than in the previous centuries!

Technology products really entered thousands of households!

And as the most important aspect of the military.

The upgrade was naturally more terrifying!

The Great Desolate Army even had many secret weapons that had not been used.

The opponent had it all down!

They considered it a charm of technology, unlike other transcendent civilizations.

Transcendent were even more talented.

They must also rely on time to cultivate to solidify the foundation!

Technology as long as the theoretical basis and industrial base were enough to support.

It could explode with amazing power in a short period!

“Hahahaha, no one thought, right, that this match would end up with this kind of result.”

The ones who laughed the most were Lin Youhe and Xiang Zhifei, the best of the freshmen!

They were all the proud sons of the respective provinces!

For the demonically gifted and noble-born Emperor Qing Naturally, they were not too comfortable.

Now seeing Emperor Qing being beaten up by Jiang Fan!

They could not be too happy!

Compared to Emperor Qing They would have preferred Jiang Fan to win!

“This Emperor Qing still doesn’t admit defeat. Could it be that he has some other cards?”

Xiang Zhifei asked in disbelief as he looked at the Golden Behemoth, who was being beaten backwards on the projection.

“He should be wanting to hold out a little longer and last for ten minutes.”
Wan Yunsheng guessed.

Everyone else was dumbfounded.

As the most dazzling figure before the match.
Not only was he defeated.
It would be unreasonable to say that he couldn't even last ten minutes.
But Han Xin did not give Emperor Qing this opportunity.
Direct order Under the cover of the tank group.
Approaching step by step!
Continue to hunt down the Golden Behemoth!
Blitzkrieg

The last firepower all covered wounded hundreds of Golden Behemoths again!
Plus the previous injuries of this battle.
The number of Golden Behemoths seriously wounded reached Thousands of them!
Finally!
After another Golden Behemoth fell down.
Emperor Qing opened his mouth!
He conceded defeat.
The match was over!
They set the time at "eight minutes and two seconds".
There was still a long way to go before ten minutes were up!
When Prince Qing walked out of the battling room.
Everyone's eyes converged.

There were different expressions on their faces!
Quirks were the most numerous!
"Humph!"

Emperor Qing's mentor, Ao Xiong, snorted coldly with an unpleasant expression.
Then he coldly scanned the surroundings.
Let the crowd hastily withdraw their eyes.
At the same time, in a special space of the Beidou University.
A dozen figures with amazing auras gathered here.
In front of them.
It was none other than The image of Jiang Fan and Emperor Qing's match!
After seeing Emperor Qing's Golden Behemoth being slaughtered in a one-sided manner.

Everyone was also silent.

These people used to be the president or the leader of Beidou University.

After retiring, Into the school's elders, the group had a potent influence in every aspect!

Each of them was a peak level five planet master!

And not an ordinary level five peak planet master.

In the words of the industry, It's a half-step to the sixth level planet master!

Because These dozen people were promoting level five to level six, but failed!

Can only stop here!

Stronger than an ordinary peak level five planet master!

But there was no longer any hope of further advancement!

And of course, a lot less trouble.

Now responsible mainly for the training of school students!

There was silence for a while.

An old man spoke: "The appearance of two such demonic students is good for our school, but Our school can only focus on training the one at most!"

The other old men were silent!

Unlike the top-ranked super universities.

Beidou University had limited resources.

Like the Sixth Academy of Starlight could supply two or three or even more star spaces at the same time.

But Beidou University could only provide one star space or other precious resources.

Naturally, to the most demonic, the most promising students in each class!

This might not be fair to other students.

But for the school, a top demon student brings much more value than an ordinary genius.

As in the college entrance exams.

A school, even if it produces dozens of students who get into top universities, might as well have one to get into a superlative school!

"So what now? We had an agreement with... Emperor Qing before."

Another old man spoke up and questioned.

This time, we promised to give Emperor Qing treasures such as "Star Space".

It was not only because of the talent of Emperor Qing!

Another reason was The identity of Emperor Qingzi.

The Yong Yang Dynasty was also a power that was comparable to the super class academy!

Chapter 339: **Misery! Riding up to the top of the championship! The surprised group of elders!**

Behind it stands an old ancestor of a sixth-ranked planet master!

But there were many talented royal sons and daughters.

Emperor Qing was one of the most promising ones.

The original idea of Beidou University was

To cultivate Emperor Qing to take the position of the successor of the Yong Yang Dynasty.

Then naturally, they could have more Yong Yang Dynasty as an ally!

It was a multi-benefit thing!

They specially held the Freshman Challenge for Emperor Qing only....

They didn't expect, In the middle of the process, Jiang Fan, a black horse, defeated Emperor Qing.

“What else can we do? Since Jiang Fan won, it proves that he's the most demonic one in this freshman class, so we'll focus on training him in the future.”

An old man said.

“I don't agree with that.”

A black-clothed old man immediately spoke out, “This is just a freshman challenge, even if Jiang Fan wins, it just means that he is strong in battle, it doesn't mean too much, don't you forget that he is building a whole new civilization!”

“It's difficult to say if he can go far. Those geniuses who built a brand new civilization in the past have fallen in the middle?”

“In contrast, Emperor Qing's Golden Behemoth that has a long history and is already quite mature, as long as we help Emperor Qing take the status of successor to the throne later on, he will definitely be able to become a fifth level planet master in the future!”

According to the rules of the Yong Yang Imperial Dynasty.

Once confirmed as the heir to the throne.

Then unless there's an accident, the road behind will be smooth.

The sixth-level planet master ancestor would take care of training!

And would provide star space and other top resources.

But before that!

Each imperial son and daughter would have to find their own separate way to find resources!

Fierce competition!

Like raising a compulsion, they would select the most outstanding one in the end!

“Jiang Fan built the musketeer, ready to fight. It is now so strong, they should not question the potential at all. As for the future Could it be that our Beidou University’s cultivation ability is inferior to that of the Yong Yang Dynasty, and we can’t guarantee the smooth growth of such a genius?”

An old man in gray questioned!

“Even if Jiang Fan can also grow to be a powerful planet master with no problems, don’t you forget that behind Emperor Qing there is still the Yong Yang Imperial Dynasty!”

The black-clothed old man exclaimed.

“So what? External forces are only external forces, after all. Our Beidou University has stood for so many years, relying on itself, not to mention According to the rules, the one who won the challenge was Jiang Fan! Not Emperor Qing. Are you guys trying to go back on your word? Let Jiang Fan give up the Star Space?”

The old man in gray also directly refuted!

Watching the two argue, the other old men were all helpless.

In the end, the foundation of Beidou University was still too thin.

A session of new students could only focus on cultivating one at the most!

Top-level resources such as Star Space could only be provided to one!

Even

Many freshmen In previous years, because there were no suitable candidates, had no star space!

Finally The crowd looked at a long-bearded old man in the very middle.

This old man was the oldest and the most senior of the elder group.

He was also the current great elder of the elder group!

The great elder swept a glance at the crowd and slowly spoke: “Both Jiang Fan and Emperor Qing are the most outstanding students of our school, as for the ownership of the Star Space, we can’t say, it depends on that person’s meaning.”

The people naturally understand.

The star space was the planet master who was in this class 6 planet coalesced.

What decision did this person make?

No one else could influence it!

“All of you new little guys.”

At this time, the old and childish voice of the planet’s spirit rang out.

The crowd immediately stopped talking.

Each one listened carefully.

“Your performances in this Freshman Challenge were all very outstanding, especially That little fellow named Jiang Fan has opened my eyes as well, so this star space will belong to you!”

The words fell.

The crowd watched A terrifying fluctuation appeared overhead.

Thenturned into a stream of light.

Flying towards the inside of the competition arena!

Not long after, this stream of light actually landed on Jiang Fan’s hand.

Jiang Fan fixed his eyes to see.

But it was a translucent orb cover!

“This is the Star Space!?”

Jiang Fan blinked his eyes.

It was the first time he had seen such a legendary thing.

“This is the Star Space.”

Su Jicheng next to him, spoke up, “The way to use it is also very simple, just place it on the ground when you want to use it.”

“It will automatically rise outside!”

“According to the size of this star space, it is estimated to be just able to envelop the villa where you live.”

“But remember one thing.”

Su Jicheng cautioned, “The star space can’t be taken out of the school gate.”

“I know this.”

Jiang Fan smiled faintly.

Star Space

It’s finally in his hand!

“The Planet Spirit has chosen Jiang Fan after all.”

In the void, seeing this scene, an elder said.

“No.”

The black-clothed elder shook his head, “This is just a reward given by the Planet Spirit as fixed. It didn’t choose Jiang Fan! Besides

“In the history, the Planet Spirit didn’t come down to make the choice personally either.”

“Yes.”

Another old man nodded and said, “For the Planet Spirit that has lived for an unknown number of years, a demon is nothing, it just plays by the rules!”

“Which one to cultivate still needs to be considered by ourselves?”

“There is no need to argue about this.”

Seeing that the crowd was about to argue again, the Grand Elder snapped, “Whether it’s Jiang Fan or Emperor Qing, these two need to consider planetary promotion first, and after both of them are promoted, it won’t be too late to consider this issue then!”

-In the lounge, Emperor Qing and Ao Xiong and others stood there.

Their faces were not too ugly.

But it was a little gloomy!

Especially Emperor Qing, the warm smile that was always on his face had gone!

This freshman challenge not only did it not bring him any glory and fame.

Instead, it was A living humiliation!

He could hear the rumors from the outside.

You don’t need to know to imagine!

“This challenge was simply irrelevant.”

Ao Xiong looked at Emperor Qing, his face cold and solemn: “What you need to do now is to prepare for the promotion of the planet!”

“That’s your only focus next!”

“As long as you can perform well in the planet promotion examination, then”

“This Jiang Fan is not worth mentioning at all, and you will get your position as the successor to the throne!”

“I know, teacher.”

Emperor Qing took a deep breath and said, “Next, I will devote myself to preparing for the planet’s promotion!”

And on the other side, Su Jicheng sent Jiang Fan back to his residence.

“Your planet’s diameter should be over six hundred kilometers, right?” Su Jicheng asked.

“About the same.”

Jiang Fan naturally couldn't be truthful.

“Kid, you are hiding deep enough.”

Su Jicheng laughed, then put away his smile and looked at Jiang Fan seriously, “Then you should also know that the diameter of a planet like yours wouldn't be very far from promotion?”

“I know.”

Jiang Fan nodded faintly.

His face also became grave for the rare time!

Planet promotion!

For every planet master, it was a stage that every planet master had to go through!

It was also called by the outside world “heavenly change” only one opportunity!

Chapter 340: **Planet promotion against the odds!**

Why was the planet promotion called “against the odds”?

It was because

It could redefine the planet's talent!

No matter how small your planet is at the time of awakening.

For example, It was an unqualified diameter like ten kilometers.

But!

As long as you play against the odds in the planet upgrade test This could also completely change the fate of the planet!

Different from the college entrance exam.

For the vast majority of people the college entrance examination was very critical.

But for some students with a strong background it was also not so critical.

For example, If their father was a sixth-ranked planet master!

Even if they didn't go to college and to a superb institution!

There would still be a supply of top resources like star space!

But the planet promotion test was different.

Anyone or any power did not organize it!

Nor was it held by this immense and unparalleled federation.

And a powerful planet master did not hold it!

Rather, it was

Awakening Space itself!

When the planet develops to a certain level.

Awakening space would appear with promotion assessment tasks!

Each planet master had only one chance to pass the test.

Then he would directly be promoted to the second level of the planet!

If he failed in the assessment!

Then

He won't be able to proceed any further!

There's no chance to advance in the future!

Even if you were standing behind many relatives and friends and so on dozens of powerful level 6 planet masters It would be useless!

Very fair!

It completely depends on the strength of each planet master!

The stronger the planet's strength, the chances of passing are naturally greater!!

"This is the reason why everyone pays so much attention to the diameter of the first-level planet."

Su Jicheng said with some emotion: "The initial diameter will determine the upper limit of your planet."

"Jiang Fan, you should know the ranking of planets, right?" Su Jicheng asked.

"Naturally, I know."

Jiang Fan smiled faintly.

This world had a corresponding diameter for each level of the planet

There were already strict divisions.

The corresponding diameter of first-class planets was: 0 to 1000 kilometers.

The corresponding diameter of the second level planet was: 1000 to 10000 km.

The diameter of the third level planet is: 10,000 to 100,000 kilometers.

And so on

The diameter of a level five planet was: one million to ten million kilometers.

And a level six planet was: 10 million kilometers or more!

Jiang Fan couldn't help but think of the planets in his previous life.

The diameter of the moon in the previous world was over three thousand kilometers.

According to the standards of this world.

It would be classified as a second-class planet.

The diameter of the Earth in the previous life was over 12,000 kilometers.

A third-class planet?

The diameter of the sun was close to one million four hundred thousand kilometers!

It was one hundred and nine times the size of the Earth!

A fifth-class planet?

Of course, the concept of a planet in this world differed completely from the previous world!

The standard corresponded to the planet of life and couldn't be divided in this way.

And currently Jiang Fan's Blue Star has the diameter of the planet exceeding eight hundred kilometers!

It was close to the upper limit of a first-class planet.

"Theoretically, the diameter of a first-class planet could reach 999.99 infinitely close to the point of 1000 kilometers, but"

Su Jicheng aggravated his tone and said, "This is only theoretical!"

"Among the actual, no one can do it!"

"Not to mention this value, most first-class planets end up being able to reach six hundred kilometers and that's good!"

Jiang Fan nodded slightly.

There was an upper limit to planetary development.

When the development reaches a certain point, It will stagnate!

The diameter would no longer grow upward!

Each planet was different.

The upper limit was also different.

"It depends on the initial diameter of each planet."

Su Jicheng continued, "Generally"

"A planet with an initial diameter of ten kilometers will eventually grow to a maximum of five hundred kilometers!"

"Those with twenty to thirty kilometers, up to seven hundred kilometers!"

"Only those with an initial diameter of thirty kilometers or more may break through seven hundred and reach eight hundred, or even Nine hundred!"

"And when the size of the planet stagnates, it means"

“The planet is at the head of development at the first level!”

“If you want to continue to develop, you must upgrade!”

“And at this time, a promotion mission will appear in the Awakening Space!”

“Only if you complete that mission, the planet will rise to level two!”

“I guess that Emperor Qing's planet will eventually be able to break through 800 kilometers in diameter, and it depends on the specific development how many 800.”

“In history, what is the largest diameter of a first-class planet?”

Jiang Fan asked.

“In history?”

Su Jicheng was slightly stunned, then smiled and said, “The entire history of planetary development. That's incredibly far away!”

“It's an unknown amount of time older than the history of this federation!”

“The entire history of the appearance of the demons is very much the most I can not be sure of.”

Su Jicheng paused and said, “According to what I heard, it should be a million years ago. There is a demon who once developed the planet to the size of nine hundred and forty-six kilometers in diameter!”

“The development of the planet is more difficult to enhance the future!”

“You break through to six hundred in front, seven hundred may be very smooth, but

“To seven hundred and later, it will be more and more difficult to enhance and will be less and less!”

“Everyone who can break through eight hundred is a dragon and a phoenix among men!”

“And those who can break through nine hundred kilometers, that is In the history of all, can rank!”

After hearing this Jiang Fan's face became a little weird!

According to Su Jicheng's words, Planet development was to a certain point.

It would be limited!

But

Blue Star seemed to have no such limitations!

He already broke through 700km before the entrance exam!

Instead, it developed faster and faster afterwards!

After thinking for a while, Jiang Fan also figured it out.

Because the Blue Star differed completely from other planets.

All the other planets in this world were transcendent planets.

Except Blue Star!

The transcendental energy of a first-class planet had a ceiling!

The diameter of the planet depended on the vitality of each planet.

The life force depended mainly on the transcendent species.

With the transcendental energy being limited,

It was difficult to increase the number of transcendent species that were naturally bred to a certain number.

This limits the size of the planet!

But the Blue Star didn't have this trouble.

It didn't require transcendental energy!

Ordinary people could just eat ordinary things.

Relying on these years of technological explosion.

The population was exploding!

As a result, the diameter of the planet has increased rapidly!

“It shouldn't be a problem if the diameter of the Blue Star exceeds 900.”
