

One Planet 381

Chapter 381

381: The stars shine! The heavens congratulated! The endless road ahead!

It was hard to accept what was happening in front of him.

Even if Leif was his enemy.

But he just died like that?!

Meng Li clenched his hands.

His fingers were trembling slightly!

Leif!

The giant Leif, who was considered to be the strongest body in the Navy and even in the world, died just like that?

Even

Even the remains of the body couldnt be seen.

What the hell just happened?

Only the side of the Great Desolate Army.

And Wang Lao and Wu Kongkong both probably guessed the truth of the matter.

The two of them looked at each other.

Both saw the shock in each others eyes!

No one could have imagined.

The one that the Great Desolate Army threw down from the sky oval-shaped object that didnt look too big.

Its power was so terrifying!

Possessed the power of annihilation!

If they hadnt just seen it with their own eyes.

It was simply hard to believe.

Not only did it blow Leif Island into ruin.

Even the Giant Leif was Completely annihilated!

In front of the terrifying power of destruction just now.

Even the top of the worlds defense power were unable to hold up!

Instantly dissolved!

Only a few seniors of the Great Desolate Army and Jiang Fan knew about mushroom bomb.

It wasn't that terrifying shock wave.

Rather

When the explosion began, the extreme temperature was in the center!

That was equivalent to three hundred thousand tons of mushroom bomb.

After explosion.

Within a very short period of time, it generated more than fifty million high temperatures!

The temperature even exceeded the temperature of the most central part of the sun.

It was enough to vaporize any object on Earth in previous lives !

Under such a terrifying high temperature.

Even if Leif's giant physique was a few times stronger.

It was also completely useless!

Instantly vaporized!

Not even a piece of residue remained.

This was also why

This time they used Wang Lao's prison ability.

This devastating high temperature was only at the center of the explosion.

And only a short bit of time.

If it was dropped normally, the explosion would be too far from the center.

And then the result would also be uncertain.

Against transcendents, especially powerful transcendent individuals, the instantaneous heat of a mushroom bomb is the deadly means.

Jiang Fan couldn't help but think.

Then immediately

Again, he couldn't help but shake his head in exclamation.

This eternal level mission was indeed too hard and too difficult!

If there was no special ability of Wang Lao.

Relying on the mushroom bomb drop alone couldn't solve this overly powerful Leif!

Leif's strength should be the peak of Level 2, but his defense, Level 3 is not an exaggeration.

Jiang Fan sighed with emotion.

It's over! This Power of Desolation operation was a complete success!

Han Xin turned toward Yan and the others on Xiangdao, through the messenger snail.

Reported the results of this operation!

A moment later, there resounded a long breath of relief from the crowd and the cheers that immediately followed!

The Power of Destruction!

That was the codename of this destruction plan.

This 300,000 tons equivalent mushroom bomb.

The name was named after the first emperor of Xia, Desolate!

In this regard, Xia kingdom didnt have so many taboos.

Retreat immediately and return quickly. Yan ordered.

Yes.

Han Xin did not hesitate.

Nor did he bother to admire the masterpiece he had just made.

After confirming that Leif had completely vaporized under the heat of the mushroom bomb.

He immediately led the generals of the Great Desolate Army.

Turn around and quickly scurry away in the direction they came from!

They also know very well

There were more powerful transcendent individuals than Leif here.

Not to mention the stronger ones.

Even there were one or two other great commanders as well.

It was also enough for them to drink a pot.

At least!

The Great Desolate Army didnt have any extra mushroom bombs.

Originally, it was intended to make three of them.

But later in order to improve the probability of completing this task as high as possible.

Just made this one The equivalent capacity of 300,000 tons of large mushrooms!

After the huge mushroom cloud took off.

Not only Meng Li but the other naval forces around, all noticed!

Everyones eyes widened.

Watching this scene in disbelief.

Immediately after that

A team was dispatched.

To come to Leif Island to check the situation.

On the way.

It also passed by the fleet of the Great Desolate Army that quickly fled!

But at this time, no one had time to pay attention to the Great Desolate Army.

They went straight towards Leif Island.

Waiting for Leif Island and saw that doomsday scene.

Especially knowing that Leif had been annihilated in the explosion just now.

Everyone was stunned!

A sense of trembling rose from the depths of the bone marrow!

Even the worlds strongest body Leif turned out like this.

Then they encountered such terrible power.

Surely they would not feel well either.

-In a moment, everyone was terrified.

Terrified!

They were rapidly passing through various channels and means.

Looking for the origin of the explosion that just exploded!

Trying to find out

What kind of weapon was able to create such a terrifying power?

Only waiting until they look for traces.

The Great Desolate Army had already traveled through most of the sea.

Wu Kongkong was leading the way.

Unhindered all the way back to the island!

Yan and Ghostbusters and others were already standing by the entrance of the bay.

Waiting for the triumphant return of the Great Desolate Army!

There was nothing to celebrate.

The people did not dare to be careless.

Who knew that this matter would not alarm the worlds most powerful people.

Hurry up and pack up your weapons and all kinds of things.

Return to the Blue Star.

Both of you, thank you for your help in this operation.

Before leaving, Han Xin said to Wang Juen and Wu Kongkong.

It should be us thanking you guys.

Wu Kongkong revealed a smile and said, If it werent for you guys, I dont know when we would have been able to kill Leif!

Will you guys come over again in the future?

Wang Lao looked at Han Xin.

Chapter 382: The stars shine! The heavens congratulated! The endless road ahead!

There was some reluctance in his eyes.

After the cooperation with the mushroom bomb.

Wang Lao already had a little comrade-in-arms relationship with the Great Wilderness Army.

Hearing these words...

Han Xin was slightly startled.

Then he smiled and said, “We will be able to meet again when we have the chance.”

“See you again!”

“Bye-bye!”

Wang Lao and Wu Kongkong waved their hands.

Witnessing the figures of the Great Desolate Army disappeared into the planet passage!

Waiting for the last Great Desolate Army to enter.

This translucent planet passage was also completely closed!

This time, the Eternal level mission was over!

The time from the beginning, less than two days had passed!

The three-day mission completion time limit set by the Awakening Space was fully met.

With the closing of the planet passage.

Inside the awakening space, A brand new line of text appeared –

Eternal level mission progress: Completed!

Seeing this line of text.

Jiang Fan finally breathed a long sigh of relief.

Completely put his heart down.

This time, the operation seemed relatively smooth.

In fact, it was terrifying!

As long as there wasn't any mistake or not done properly!

This mission was most likely to fail.

By now, Jiang Fan also understood the entire history of the planet. There would be so many evildoers who might have overwhelmed the world for this arduous task!

This was simply not something that humans could accomplish.

Without the help of the deduction system and relying on the Great Desolate Army alone.

There is also a high probability of failure.

The next moment, Jiang Fan found out that the awakening space prompt was not finished!

Immediately after that, Another line of text appeared at the back –

Congratulations on becoming the first planet master to complete the Eternal Level Ultimate Difficulty since the beginning of the ages!

In order to protect your safety.

Awakening Space would keep the completion of this mission a secret.

“Hm?”

Seeing this line of text, Jiang Fan froze slightly.

Then immediately responded!

The Awakening Space was thoughtful.

This was if the results got out and were known to outsiders.

That won't bring surprise!

Instead startled!

There were many evildoers in history.

But Jiang Fan was the only one who completed the eternal level.

There was absolutely no guarantee.

What tactics those rival forces or other eye-catching forces would take!

Even the other super top schools.

It was certainly not possible to congratulate from the heart.

Don't know what they would do with Jiang Fan in the dark?

But

Jiang Fan accepted.

At least, just hide it from the outside world.

The eternal level mission was still passed.

The future Blue Star was the highest talent of the Eternal Level!

No other planet master planet could compare!

And at the same moment, Awakening Space verified that Jiang Fan had passed the Eternal Level mission.

In the endless star field, on a huge planet.

Two people were floating.

A man in blue and a middle-aged man in black.

These two people appeared to be only 40 or 50 years old.

But in reality

They were thousands of years old.

Because they were both Level 6 planet masters!

Long life span!

“This endless star field, we have explored for hundreds of years, and it’s still far away.”

The man in blue looked away at the faraway deep space that could not be seen at an end.

He shook his head and sighed.

“You still want to explore this endless star field, stop dreaming, finding more unique planets, and collecting more treasures is the kingly way.”

The middle-aged man in black laughed and said.

“That’s all we can do.”

The man in blue said helplessly: “This star field, I don’t know if there will be a day in my life when I can see what the end is!”

“How many people from ancient times to the present are like you? They are very curious about this star field, and there are some who have traveled far and far, but...”

The middle-aged man in black shook his head and said, “These people, none of them came back!”

“This is not something that a Level 6 planet master can consider. I guess it requires more powerful strength.”

“I realized this earlier, but I am still unwilling.”

The man in blue smiled faintly and said, “But you’re right, improving your own strength is the first priority!”

“Where are you going next?”

The black-clothed middle-aged man asked.

“Let’s go over there and see!”

The man in blue pointed to a direction in the left, and said: "I have not been there yet, maybe I can find some more rare planets, do you want to come along?"

"You can go by yourself. I'll pass."

The middle-aged man in black shook his head and said, "I have to go back!"

"Unlike you, I still have a family business and a group of juniors to worry about."

"You still miss too much. You can't be as free as I am, so I'll go first."

The man in blue laughed and walked to the left.

Suddenly

Around the star a dazzling bright light burst out!

Not just around these.

Even the more distant planets, no matter how big or small, how far or near, whether there was life or not All emitted light!

Like six o'clock in the evening.

The street lights on the street are turned on at the same time.

-All light up at the same time!

The endless darkness of the starry sky.

Illuminated by the light of this sudden planet!

The man in blue couldn't help but stop.

Together with the middle-aged man in black, he looked at this shocking scene!

Above the starry sky, there seemed to be an ethereal chanting voice.

It seemed to be congratulating for something.

"Is this?"

Looking at this amazing sight and listening to the chanting sound.

The middle-aged man in black and the man in blue were both wide-eyed.

Astonished beyond measure!

Even if they had lived for thousands of years.

They had never seen such a thing!

The next moment

They were rumors that had been around since ancient times!

"That is Someone has completed an Eternal Level Promotion mission!?"
the middle-aged man in black said in horror.

The stars were shining!

Congrats to all gods!

It was the billions of stars and the endless star fields that were all celebrating this unprecedented miracle Congratulation!!!

Chapter 383: The world shakes! Forever and Ever!

When looking at this endless starry sky that one planet was shining with dazzling light.

Both the man in blue and the middle-aged man in black were absent-minded.

According to ancient rumors, such an amazing sight could only occur

It was only possible by completing that ultimate Eternal Level planet promotion difficult task.

It seemed that the entire starry sky, all the heavenly realms!

Everyone was congratulating for it!

Someone actually completed the Eternal level difficult task!

After a long time, the man in blue sighed.

As a level six planet master.

Each of them was a great pride of the year.

The existence of a world of oppression!

At least they were at Prince Qings level.

As a visitor, they were aware of the terrifying ultimate difficulty of this mission!

It wasnt something a human could do at all.

Back then, the geniuses of our generation who were much more enchanting than me, challenged this difficulty, and in the end all fell down one by one, without exception!

The black-clothed middle-aged eyes flashed a hint of memory and said: Do you still remember the holy son of the Holy King Dynasty at that time?

Naturally, it is impossible to forget. The blue-clothed man nodded his head.

That holy son was extremely talented back then, and he completely overwhelmed us. And his planets diameter even reached Nine hundred and thirty kilometers above. The middle-aged man in black sighed and said, With everyones hope, he went to challenge the eternal level, the highest difficulty, and the result

Still failed!

The blue-clothed man picked up and said, He is indeed the strongest I have ever seen among the first-level planet masters for so many years!

In order to prepare for the Eternal level difficulty, this Saint Son and the Holy King Dynasty behind him prepared everything they could, even The middle-aged man in black shook his head helplessly and said, Even some planet masters who had just entered the second level were not his opponents!

But in the end, it still failed!

The defeat was miserable

The man in blue also showed a hint of reminiscence and said, I was there.

After the Saint Son failed in his promotion mission, he once talked to us about what happened!

Even with the strength of the planet he built, the mission was very dangerous before it started, and after a thousand miles, it was a complete defeat!

He has said that with his strength, there is still a long way to go to complete the task!

Its a pity

Both of them sighed.

Unable to complete the promotion task.

Even a person of amazing talent like Saint Son could only stop at the main realm of the first-level planet for life.

And over two levels of planet master.

One of the big differences was

Life expectancy!

The life expectancy of a first-class planet master and ordinary people was Not much difference.

As a heavenly pride of the same era.

The man in blue and the middle-aged man in black had both lived for thousands of years.

However, this saints son was a thousand years old had already turned into a clutch of yellow earth.

That is, after this.

The black-clothed middle-aged man smiled and said, All the powers, no matter whether they are from various academies, dynasties, or top sects

All do not dare to let the celestial pride underneath, to try this impossible difficulty again!

Never choose the eternal level difficulty has become an enduring phrase!

One by one, powerful existences all thought that this difficulty was impossible to complete.

Hahahaha, but no one expected

The middle-aged man in black looked at the devastated starry sky illuminated by the planet and laughed, saying.

In this era, there has actually appeared a demon that is even more terrifying than that saints son!

Completed this impossible ultimate difficulty!

You and I have witnessed this miracle with our own eyes.

The man in blue laughed and said, I am now curious about this demon Which one is it? You should know more about this than I do.

Dont look at me, although I stayed in the family for a long time, but The middle-aged man in black shook his head and said, Ive never heard of such a terrifying demon!

This year, although there are many amazingly talented demons in this session of the first level planet master, but

None of them can surpass that holy son and challenge the ultimate extreme difficulty!

No matter who, if the growth is smooth, in this endless star field

The man in blue laughed: Another great existence is going to be born!

That's still early. This demon, although he passed the eternal level difficulty, is only a second level planet master, still far from our realm, but

The middle-aged man in black was emotional and somewhat expectant: His future is indeed limitless!

Li Huo Dynasty.

Outside an enormous palace, there was a large group of people standing in black.

In front of them were several men wearing bright yellow royal robes.

Each one had a powerful aura.

The leader was a tall man and was the emperor of the current generation of the Lihuo Dynasty Li Huo Emperor!

The ones behind were also the most powerful existences in the imperial family.

Same as elsewhere.

On the side of the Li Huo Dynasty, at the time of planet promotion.

It was also done uniformly.

This batch

Naturally, it was the Li Huo Dynasty.

Those geniuses who were at the top of their talent.

As a power whose strength could rival and even surpass the best schools of superlative academies.

The cultivation of a genius of the Li Huo Dynasty

It can be said that they spared no effort!

This year was the birth of many demons.

The first batch of promotions exceeded three hundred people.

Among them, the maximum diameter of the planet exceeds eight hundred and fifty kilometers

There were over fifty people!

Let many powerful planet masters look forward to it very much.

Especially since there was a Li Huo Dynasty's most demonic Prince Zhe!

It attracted much attention.

After about half an hour, the palace slowly opened.

From inside came out a group of this years promotion examination of the heavenly pride.

A young man at the head of the group had a straight posture.

He was handsome looking.

It was none other than Prince Zhe.

Immediately, Emperor Li Huo led his people to welcome him and asked, How is it, Zheer?

Chapter 384: The world shakes! Forever and Ever!

Not to be outdone by Fathers cultivation, I passed the Great Mythic level difficulty by a fluke.
Emperor Tetsus son said modestly.

Good! Hahahaha

The Great Emperor Li Huo laughed immediately.

The others behind them too their faces were overflowing with joy!

It was as if they saw another level six planet lord slowly rising.

The difference between a super first-class power and an ordinary power was that

There was no level six planet master!

And the division of strength between super first-class forces.

The main thing to look at was who had the most level six planet masters!

But the level six planet master was not so easy to cultivate.

The Li Huo Dynasty for so many years had only three level six planet masters.

And although the lifespan of a level six planet master was long, ultimately there was still a ceiling.

There could be one more level six planet master.

It could make the dynasty last longer, at least a few thousand years!

-In general, to become a level six planet master, the difficulty of passing the legendary level was minimum.

The possibility of a mythical level was even greater!

Since ancient times, Mythic level was the highest difficulty that each planet master could challenge successfully!

But it was also risky.

Especially for the Great Myth level, there was no such thing as safe.

Even those in history

The epoch-making geniuses planets diameter was over nine hundred kilometers.

But still there were many failures!

Great mythical level of difficulty.

A very senior old royal uncle spoke up: There aren't many in the entire federation. Our Li Huo Dynasty is going to produce another Qilin now!

Hmm?

At this time, someone suddenly noticed that

The stars in the sky suddenly flickered.

Others also quickly noticed that something was wrong.

One by one, they all looked up.

Looking at the sky.

Above the sky dome.

-A single star was lighting up at the same time.

Densely packed, formed an incomparable river of stars!

And above that river of stars.

There seemed to be a chanting voice!

Ethereal and distant!

As if from heaven and the billions of stars.

This

This is?

Looking at this unprecedented spectacle.

One by one, the powerful planet lords were shocked!

Even the Great Emperor Li Huo widened his eyes in amazement.

It was like seeing something incredible.

Impossible! How could such a genius appear in this era!?

Immediately

The Great Emperor Li Huo kept shaking his head.

Father this is

Prince Zhe was a little surprised and asked with some doubts.

According to ancient rumors, when a planet master completes the ultimate extremely difficult promotion mission of the eternal level, there will be a spectacle like ten thousand stars coming to congratulate.

The old imperial uncle, who was very senior, just now sighed and explained.

Someone completed the Eternal Grade difficulty!?

There was a hint of shock on Prince Zhe's calm face.

In a region very far away from the Li Huo Dynasty.

-On a high mountain with an extremely unique aura.

There sat a sect the Dao Sect!

This was an incredibly powerful sect.

Even stronger than the Li Huo Dynasty and super first-class universities!

Even if you look at all the sects in the federation It was the top ranked existence!

At this time, the back mountain of the Dao Sect.

-Outside the ancient building.

There were a dozen men and women with powerful breath standing.

If there were outsiders here they would be surprised to find

These dozen people inside!

Half of them were actually level six planet masters!

The remaining ones were mostly at the peak of the fifth level!

This was the depth of the Dao Sect!

They were gathered here today to await the results of Dao Sects planetary promotion test!

Dao Sect was selected from among the The most demonic genius!

This generations Dao Sects talent was even more amazing!

The upper limit of the planets diameter was approaching nine hundred and thirty kilometers.

The civilization race created was also terrifying.

Reminded people of a few thousand years ago

That holy son of the Holy King Dynasty!

I hope Dao Sect doesnt go for the eternal level difficulty.

A middle-aged woman spoke.

He shouldnt.

A silver-haired old man next to her wasnt worried and said, Dao Sect has quite a good heart and is very capable of recognizing himself, so he wont go for this unwise move.

Yes.

Another old man nodded, Dao Sect once referred to the deeds of that saintly son and confessed that he still needed to work hard and it was impossible to challenge the eternal level difficulty.

The others sighed with slight relief.

But the worry in their eyes did not completely drop.

In history, such incidents were not uncommon.

Especially the epoch-making heavenly pride.

Before the examination.

He swearly promised that

He absolutely would not choose the ultimate extreme difficulty.

But in reality!

This difficulty had been coveted for a long time in his heart.

Otherwise, every year there couldnt be so many heavenly pride fallen!

Time passed little by little.

Finally, the door of the ancient building opened.

A young man dressed in white walked out from inside.

Natural footsteps and a calm face!

In order for Dao Sect to better pass the planet promotion test.

Today this ancient building was specially prepared for Dao Sect alone.

The dozen people waiting held down the urgency in their hearts.

Wait until the white-clothed youth walked down the steps.

Only then did the middle-aged woman open her mouth and ask, Dao Sect, did you choose the Great Mythic level difficulty?

The others also looked over.

There was hope in their eyes!

Naturally.

The white-clothed youth smiled faintly and said, And passed with flying colors!

Good! Good!

The silver-haired old man was excited.

Saying several good words in a row!

Great Mythic level difficulty.

Even if they were the sixth-level planet masters, not many of them passed that year.

The probability of failure was still very high.

Dao Sect passing the Great Mythic Level Difficulty, our Dao Sect can finally raise its eyebrows in this era and not defeat any other sects.

Another old man also smiled and said.

I wonder what the results of those genius tests of other sects are?

The white-clothed youth asked.

Although he was the number one heavenly pride of the Dao Sect.

But in the other sects, there were still some that could rival him.

The results haven't been received yet, but

Chapter 385: The world shakes! Forever and Ever!

The silver-haired old man laughed, No need to worry!

According to the situation in previous years, there won't be fewer heavenly pride who choose the difficulty of the Great Mythic level.

But only about half of them will be able to complete it in the end!

Even if others complete the Great Mythic level difficulty, they will at most be on the same level as you, and with our Dao Sects training, they will certainly not lose to

Halfway through the words.

The silver-haired old man suddenly stopped.

Because he found out that the whole earth seemed to light up.

Not only him.

One by one, the others also noticed that something was wrong.

One by one, they raised their heads.

And saw that amazing scene in the sky!

A star suddenly lit up without any warning and formed a dense band of light.

The whole earth shone out brightly.

And above the stars.

There was also the sound of chanting if nothing else!

It was ancient and distant.

It seemed to come from a very distant place!

This unprecedented sight lasted for a full minute before dissipating!

But the crowd of the Dao Sect was Already astonished!

-Everyone was shocked!

They have all lived for at least a thousand years.

How could they not know that

This scene meant something.

The stars are shining, the heavens are coming to congratulate us.

The silver-haired old man murmured, Someone completed the Eternal level quest!

Someone actually passed the Eternal Level difficulty?

The white-clothed youth had also heard this rumor.

And countless times had fantasized about it.

But he also knew

This was very unrealistic!

One could only retreat to the second best.

And choose the safest Mythic level in a proper manner.

But he never thought that One day!

He would actually witness this scene!

Starlight Sixth House.

When one by one, the heavenly pride walked out of the gate.

They were surprised to find that

A group of teachers and leaders led by the black-clad man of the sixth level planet master were not waiting for them.

Instead

One by one, they looked up to the sky.

Seemed to be looking at some incredible scene.

They did not move their eyes for a long time.

This one heavenly pride also followed to look up.

But when he looked to the sky, there was nothing.

One minute of star twinkling had ended!

He wondered what happened?

Waiting for the man in black and others to turn back.

When they looked at these heavenly pride who had finished the examination.

The original hint of anticipation in their eyes had faded quite a bit.

After seeing this unprecedented and amazing sight.

Then they looked at the other geniuses.

The hearts of the people

It was kind of boring!

Not only the Li Huo Dynasty, Dao Sect, Starlight Six Courts.

The entire federation!

Within the vast territory, countless large and small forces and powerful existence.

All noticed this unprecedented scene!

Immediately

One by one all boiled up!

This

This is ?

How is this possible!?

In this era, there is actually someone who is able to complete an eternal level mission?

Hahahaha, there is actually a planet master that has passed this ultimate difficulty quest that was considered impossible throughout the ages?

In today's era, there are still such demons?

Hurry! Quickly go and find out which one of the Heavenly Masters did this? Those sects, dynasties and academies, one by one, cultivate demons with amazing talent, but they can't possibly be so heaven-defying!

This kind of heaven-defying existence, wouldn't some old monster secretly cultivate it?

A powerful planet master.

Almost all of them were discussing this amazing deed.

Originally, this day of the planet examination had attracted the attention of countless people.

At the end of the day, all the talk converged on this unprecedented heaven-defying one!

When Jiang Fan finished his examination.

Then he found out

The difficulty column of his own planet assessment.

Surprisingly, he was able to change it at will.

This should be the detection and protection measures that the awakening space just said, let's change it.

Jiang Fan thought about it and adjusted the difficulty of Eternal to Great Mythology!

The original display was

Difficulty: Eternal level.

Completion status: Completed.

If an outsider were to probe his consciousness into Jiang Fan's awakening space at this time.

What he saw was this result the Great Mythic Level.

Although he didn't know the completion of this ultimate difficulty that had never been seen in all ages.

What kind of shock would be brought to the world?

But it was also very clear.

If it was announced.

The trouble brought would far outweigh the benefits!

After all!

Jiang Fan was still only A newly promoted second-level planet master.

Still far from growing strong.

Every year there were some geniuses who passed the Great Mythic Level difficulty.

But the eternal level from ancient times to the present was only one.

Outside the Federation, the existence of many enemies!

Even mythical level geniuses would spend a lot of effort to assassinate them.

Not to mention that since the beginning of time There was only one Eternal level!

The Great Mythic level was also sufficient.

Jiang Fan was in a calm mood.

Immediately

-A thought.

Then he detached himself from inside this void space to back inside that arena of Bei Dou University.

The doors of the arena were already open.

There were quite a few freshmen who finished the planet promotion examination were walking out.

Jiang Fan swept a glance around.

He found that the more familiar Lin Youhe and Xiang Zhifei had also left.

So he also stood up.

He walked towards the outside.

Came to the front door.

Then he was able to see

Scene from the outside.

This time in Beidou University, a total of more than fifty new students participated in the planet promotion examination.

More than half of them had already finished.

But not everyone passed successfully.

Some succeeded!

There were also failures.

Those who succeeded were not so excited.

Just a faint smile on their faces.

Talking freely there.

And those who failed

They were more than frustrated.

This was not the same as the college entrance examination.

The road ahead was cut off!

A few failed freshmen looked dull as the walking dead!

Everyone around them shook their heads helplessly.

There was no way to comfort.

This kind of thing could only rely on the individual freshmen to slowly accept themselves.

Chapter 386: The world shakes! Forever and Ever!

Bei Dou University was still very humane.

Even if you failed in planet promotion, you wouldn't be treated differently.

Still be able to study in the university until graduation.

If it goes better, you could also stay after graduation.

As a staff member!

But this life would be ordinary.

It's not what one of the top ranking heavenly pride in each province wanted.

That's why

Every year there would be so many students who failed the test to commit suicide.

Only, what makes Jiang Fan a little strange was.

At the entrance of the arena he couldn't believe that he didn't saw Su Jicheng's figure.

Not to mention, Jiang Fan was now Su Jicheng's only student.

Jiang Fan.

A familiar voice came.

Jiang Fan turned his head to look.

It was this guy Lin Youhe again.

He was followed by Xiang Zhifei and Wan Yunsheng.

These three people seemed to have the same temperament.

A small group had been formed.

Seeing your expression so relaxed, you should have passed the test successfully, right? Lin Youhe asked with a smile.

Have you passed the planet promotion examination pass?

That was too easy to tell.

Failed Without exception!

Absolutely everyone walked out looking dull!

Muddled.

Except for a few ignorant ones.

It's fun to fail.

Lucky.

Jiang Fan smiled faintly and said, You guys are the same, right?

Fluke, fluke.

Lin Youhe and all three responded with a smile.

Although the words were said that way.

But the hint of joy in their eyes could not be hidden.

It looks like the difficulty of passing was good too, right?

Jiang Fan asked.

Barely.

Lin Youhe smiled and said, Xiang Zhifei and I both chose a very conservative epic level and passed safely, but it was Wan Yunsheng

Lin Youhe stretched out his finger.

Pointing to Wan Yunsheng, who had a wide smile on his face next to him, he said, This guy agreed to be at an epic level, and the result

In the end, he came to a legendary level, and he actually passed it!

Really pissed me off too!

A fluke, a fluke.

Wan Yunsheng said modestly.

By the way, Jiang Fan.

Lin Youhe seemed to remember something again and said, Do you know that that a big event just happened?

A big event?

Jiang Fan blinked his eyes.

He deliberately pretended to be surprised.

In our term, someone.....

Lin Youhe raised his pitch and said word for word, Passed the Eternal level difficulty.

Jiang Fan cooperated by widening his eyes.

You didnt see the sight just now.

Lin Youhe continued, The endless stars in the sky were shining, and the outside world of the heavens were chanting in celebration of this heavenly pride who passed the Eternal Grade difficulty!

This is an amazing scene unprecedented in the ages!

It has shocked countless people!

Even the leaders and teachers of our school are now discussing this matter.

Next to him, Xiang Zhifei followed, But it is said that this heaven defying being has not been found yet, which one is it?

Its really appalling.

Wan Yunsheng also picked up: Ive heard of various powers, those demons from top academic schools, dynasties and sects!

But never heard of which one is this heaven defying!

To be able to pass the eternal level difficulty, it is estimated that the title of epoch-making is not even worthy and the title heaven defying is not even an exaggeration!

Three people were chatting and were all amazed.

Jiang Fan was listening silently on the side.

And no one would associate this matter with Jiang Fan!

After all!

The Jiang Fan before the planet test.

Many people thought that even Prince Qing Zi couldnt compare to it.

And Emperor Qings son

Compared with those epoch-making heavenly pride.

He was still a lot worse!

After chatting for a while.

Several people suddenly realized something.

They turned their heads to look and saw,

In the arena door, came out a long-haired handsome young man in bright yellow robes!

Long and tiger walking with a faint smile on his face.

Step by step, he walked out.

If not Prince Qing then who?

At the same time, a group of school leaders and teachers of Bei Dou University also ended the deliberations.

From the other side, they walked over.

Looking at Prince Qings face with a smile on his face.

A group of leaders and teachers led by Ao Xiong were all excited!

A hint of excitement appeared in their eyes!

This Emperor Qings sons test definitely seems to have passed.

Xiang Zhifei said with some displeasure.

It cant be helped, who calls someone talented and has a good origin.

Lin Youhe shrugged his shoulders somewhat helplessly.

Hahaha.

Ao Xiong changed his usual seriousness and walked over with a big smile.

Patting Prince Qingzis shoulder, he said loudly, How was it?

Living up to teachers training, passing the small mythical level difficulty by a fluke! Prince Qingzi also said aloud.

Little Mythic Level?

Hearing this word.

The crowd around them was stunned!

Its really true.

Xiang Zhifei became even more upset.

Su Jicheng, who was not far away, also frowned slightly.

They had all heard previously that

The one Prince Qing chose would probably be Small Mythic level difficulty!

This difficulty was for Prince Qing Zi.

There was also no small risk of failure.

But unexpectedly!

In the end, he was able to pass!

This time, this years strongest freshman is stable!

Ao Xions side.

A young teacher said loudly with a smile.

And intentionally or unintentionally glanced towards Su Jicheng!

Su Jicheng frowned.

He walked towards Jiang Fans side.

Coming in front of Jiang Fan, he opened his mouth and asked, You should have successfully passed the planet test as well, right?

Yes.

Jiang Fan nodded his head.

Thats good.

Su Jicheng patted Jiang Fans shoulder and said comfortingly, Just pass it, there is still a long way to go, and who can go further depends on the future development!

With Su Jichengs perception.

Jiang Fan should pass the most secure legendary level mission.

This difficulty was also considered good.

But there was no comparison with Prince Qing.

It also meant that

In this years competition for the strongest new students Jiang Fan was eliminated from the competition!

Thats a fair point.

The young teacher who had just taken over the conversation on purpose, glanced at Su Jicheng and Jiang Fan and smiled, I just dont know what difficulty this Jiang Fan student had. What difficulty did he pass? Epic level, legendary level? Or is it a mythical level like Emperor Qings son?

Chapter 387

387: Crushing Emperor Qings son across the board! Top ranking!

This young teachers voice was not loud.

But it resounded through the whole room.

Because at this time

Everyone elses attention was focused on the two, Prince Qing and Jiang Fan!

These two were recognized as the strongest two freshmen of this years Bei Dou University!

The strongest freshmen would also arise between these two.

Ao Xiong and Prince Qing at the back were watching.

And did not make a sound to stop it.

If it was before, that was okay to say.

Although Su Jicheng and Ao Xiong had conflicts.

But the status and seniority were away from Ao Xiong A lot!

Ao Xiong didnt take him seriously at all.

It was impossible to be so targeted.

This year was different.

Su Jicheng actually had such good luck.

Took in a student as demonic as Jiang Fan.

Still in the freshman challenge

Unexpected!

He defeated Prince Emperor Qing!

This caused both Prince Qing and Ao Xiong to lose face greatly.

After that!

Ao Xiong and Prince Qing had both kept a low profile.

Secretly, they had made sufficient preparations for the planet promotion!

Their goal at the beginning was Small mythical level!

After all

If it was a legendary level.

It was likely to be similar to Jiang Fan.

Then the gap could not be closed!

Originally Prince Qings planet diameter limit was only eight hundred and fifty kilometers upwards!

Passing the small myth level was not safe!

For this reason, Ao Xiong spared no expense.

He spent an enormous price.

And purchased a valuable sealing treasure and sent it to Prince Qings planet.

Prince Qing finally lived up to expectations.

Relying on this sealing treasure.

In one fell swoop, he successfully completed Small mythical level promotion task!

Let there be no suspense in this competition.

At one glance, the legendary level and the small mythical level were only one level difference.

But the difficulty was much worse.

This was why

Su Jicheng kept advising Jiang Fan not to go for the Mythic level!

Damn, these people are still really disgusting.

Xiang Zhifei, in a tiny voice, muttered a sentence.

No way, who let Jiang Fan take the championship that belonged to someone else in the previous freshman challenge, which is equivalent to smashing someone elses field. Lin Youhe said helplessly: Todays occasion

Its impossible not to get back a little bit!

Surrounded by a leader, teachers and students, all were silent.

Quietly watching this scene.

And no one intervened!

It wasn't because of the fear of Ao Xiong's strength.

Also, because the strongest freshman in previous years was the same.

They were all separated in the planetary promotion assessment!

Quite cruel!

Whoever passed the higher difficulty assessment was the strongest freshman.

And in the future he would get the best training.

It's a winner-take-all.

The loser was far worse.

This year's situation was very obvious.

Prince Qing passed the small mythical level of difficulty.

Meanwhile, Jiang Fan passed the legendary level.

Who is better or worse? Do we still need to say?

Does this have anything to do with you?

Su Jicheng frowned slightly, and his voice became a little cold.

Then he said to Jiang Fan, Go, I'll send you back, go back and get some rest. Don't pay attention to these people!

Although it was not as difficult as Prince Qing's small mythical level.

But the legendary level was also very good.

In this year, there were only three legendary level!

Jiang Fan, Wan Yunsheng and one other freshman.

Jiang Fan was also among the students whom Su Jicheng had brought over the years.

The most outstanding performance in the examination.

The future was promising!

Su Jicheng didn't want Jiang Fan to be in a state of mind, to be struck.

Despite not being the strongest freshman.

But as a genius who passed the legendary level of difficulty.

The school's resources will naturally be tilted!

Seeing Su Jicheng actually took Jiang Fan away directly.

The people on Ao Xiong's side were all slightly stunned.

Immediately afterwards

The corner of Ao Xiong's mouth curled up in a smile.

Gave a wink to a school leader beside him.

This school leader stood out and spoke, Teacher Su wait a moment.

What's the matter?

Su Jicheng stopped in his tracks.

According to the school's rules.

The school leader said: We need to make a score statistics for the freshmen who took part in the planet's promotion. Since everyone is here, let's take advantage of the situation to count the scores.

Save us from having to waste the time and energy of all the teachers later.

Hearing that.

One by one, the faces of the individuals next to them all looked strange.

This was really leaving no stone unturned

Trying to humiliate Su Jicheng and Jiang Fan's side!

Say anything to make your promotion difficult today

Take it out in public!

Especially to make a strong contrast with Prince Qing.

Su Jicheng frowned slightly.

He wanted to say something.

He heard Jiang Fan say, It's nothing, it's just a matter of a while.

OK, then.

Seeing Jiang Fan's expression so relaxed.

Su Jicheng was slightly relieved.

Hearing Jiang Fan did not object.

That school leader showed a hint of a smile and looked at Prince Qing.

Prince Qing naturally comprehended his meaning and spoke, Then let's start with me!

After a while.

It was a statistical candidate composed of three people.

This was also the school's rule.

Only three people were confirmed.

Only then can the final assessment result of the new student be determined.

Also to avoid the possible cheating!

This time, It consists of three older, senior instructors.

Took the lead on Prince Qings awakening space

Conducted an inspection!

The inspection would be simple.

Separate a piece of your own consciousness and probe into the awakening space.

And instantly could determine exactly what the difficulty of the planet test was!

But to look more formal, they had to check it for ten seconds.

After ten seconds had passed.

The three aged instructors withdrew their consciousness.

All nodded and said, Thats right, the difficulty of Emperor Qings planet test was small mythical level, it has been completed!

Hearing the people around Ao Xions side.

All a little smug and proud!

Chapter 388 : Crushing Emperor Qing's son across the board! Top ranking!

The stronger the student trained.

As a mentor, Ao Xiong naturally benefited more and more.

The position in the school is also more stable!

Those who followed Ao Xiong people were having smoother days.

Who's next?

One of the three aged masters asked as he scanned the crowd.

The school leader next to him glanced at Jiang Fan.

He was about to find an excuse to check Jiang Fan first.

Before he could say anything.

He saw Jiang Fan stand out.

With a faint smile, he said, I'll do it!

Hmm?

Jiang Fan's sudden stand out took everyone by surprise!

People wanted to expose your examination results by all means.

Let Prince Qing completely overpower you!

But you're good.

How dare you send yourself to the door?

The three aged instructors were also slightly stunned.

They didn't expect Jiang Fan to open up for the test.

They remained neutral.

They would favor no one.

Since Jiang Fan had come forward on his own.

The three men naturally followed the rules.

And examined Jiang Fan's performance.

How did Jiang Fan not know the bad intentions of Ao Xiong's gang?

It wasn't just the freshman challenge

Let these people lose a lot of face.

Now they want to get it back hard!

Originally, Jiang Fan did not want to pay attention.

But since all of them wanted to ride on his head.

Then he won't give you a backhand slap... It's really unreasonable!

The three elderly instructors split their consciousness and probed into Jiang Fan's awakening space.

A few moments later, they saw the line of text in the awakening space

Planet promotion assessment difficulty: Great Myth level.

Completion status: Completed.

When they saw the words Grand Mythic Level.

The three old instructors were stunned!

Although the big myth level and small level myth also belong to the myth level.

But there was a qualitative difference.

The world considered it to be a boundary that distinguishes top-level demons from epoch-making demons.

Although Prince Qing was able to pass the small Mythic Level difficulty.

But!

If he wanted to challenge the Great Mythic level.

Then the probability of success was basically zero!

There was no possibility!

Even those epoch-making geniuses in history whose planetary diameter ceiling exceeded nine hundred kilometers.

On this difficulty had fallen a lot!

The entire Bei Dou University.

Nearly ten thousand years ago a heavenly pride completed this difficult promotion task!

Look at the entire school history.

There were not many!

The number was very counted out!

Not to mention the Bei Dou University.

Even the more powerful dynasties and sects after hearing that each family successfully passed this difficulty.

They all jumped up with joy!

The three aged instructors were afraid that their consciousness would be wrong.

Came out for a bit and then re-entered.

Checked several times rather nervously.

Finally confirmed

Another supreme demon has appeared in Bei Dou University !

The one who could pass the Great Mythical level examination task.

It may be too early to mark an epoch.

But definitely could be called The name of the ultimate demon!

Due to being overly cautious.

This time the examination of Jiang Fan took a full half minute.

When the three aged instructors finished checking.

Immediately, the school leader beside him couldnt wait to say loudly, Teacher Liu, how was Jiang Fans test result?

Mr. Liu was the most prestigious of the three supervisors responsible for the inspection.

At this time, Teacher Liu glanced at the school leader.

A smile suddenly appeared at the corner of his mouth.

Then he swept a glance at the crowd around the scene.

After lightly coughing his throat, he said aloud, Student Jiang Fan, the challenge is the Great Mythic level difficulty planet promotion mission and he successfully completed it!

Congratulations, classmate Jiang Fan, for becoming another student of our Bei Dou University who has successfully challenged a Grand Mythic level mission!

The words fell.

The whole room was silent!

Those school leaders who still wanted to see the joke, Ao Xiong and the group of teachers beside Ao Xiong, were all shocked!

Smiles frozen on their faces.

Totally couldn't believe their ears!

Great Great mythical level!

One by one, the other individuals were also wide-eyed.

Unbelievable!

It was Su Jicheng.

He was also frozen for a moment!

A moment later.

The school leader finally reacted and said with a shocked face, This This How is it possible? Great mythical level? Did you guys check it wrong?

The others also felt a little incredulous.

This difficulty for the students of Bei Dou University.

It was almost impossible.

Hmph, if you don't believe me, check yourselves.

The aged mentor coldly snorted.

The school leader didn't care about anything and immediately came up.

Ao Xiong, who was behind him, lost his usual composure at the moment.

Followed by coming over.

And saw the action of these two people.

Su Jicheng also reacted and immediately came over.

Of course, the consciousness probe needed the consent of Jiang Fan, the master.

Otherwise, even if these people were powerful planet masters.

Also couldn't enter Jiang Fan's awakening space.

Jiang Fan did not refuse.

This difficulty

Not only these people in front of him.

The school would certainly send someone to reconfirm it!

When Ao Xiong, that school leader and Su Jicheng three Probed their consciousness into Jiang Fan's awakening space.

After seeing that line of text.

One by one, their faces changed instantly.

The expressions of Ao Xiong and the school leaders became unpleasant.

Meanwhile, Su Jicheng was

A burst of ecstasy!

Great myth level!

This was a Grand Mythical Level!

After witnessing the change in the expressions of the three.

The others saw it too.

The results of the three aged instructors examination just now There were no errors!

Jiang Fan did completed the incredible Great Mythic level planetary promotion examination task!

Hahaha.

Su Jicheng laughed out loud and patted Jiang Fans shoulder, Good boy, you actually chose to challenge the Great Mythic level difficulty without saying a word!

Its not because Im afraid youre worried, teacher.

Jiang Fan smiled faintly.

Thats fine. Itll also let some people open their eyes, dont hang on to the small myth level all day!

Chapter 389

389: Crushing Emperor Qings son across the board! Top ranking!

Su Jicheng glanced at Ao Xions side and unabashedly mocked!

It was a savage mouthful of so many years of malice!

In the last freshman challenge, although Jiang Fan had won, there was not much impact.

But this time it was different because whoever wins would be the strongest freshman in this class and would get the best resources and training!

This ending

No one could change this ending!

Su Jicheng was also aware of it.

After the previous incident, plus this time the strongest freshman competition, he had completely offended Ao Xiong and there was no need to be afraid of it!

Many people nearby laughed secretly.

Especially seeing the black cauldron-like faces of Ao Xiong and Prince Qing!

As compared with the previous high level, self-satisfaction, it was simply a change of face!

There were many people who were not happy with these two!

They never dared to offend before, but now they had completely lost.

Some of the sarcastic expressions on the corners of his mouth could no longer be concealed.

Especially Lin Youhe, Xiang Zhifei and Wan Yunsheng.

That was a happy laugh.

Haha, it really made me laugh to death by pretending to be forced and being suppressed.

Xiang Zhifei's voice was not loud, people nearby could still hear it.

This isn't the first time, watching the last freshman tournament was like this. This time he didn't even remember, but he got smacked hard again. Lin Youhe said with a smile.

It's better not to be too high-profile, too pretentious.

Wan Yunsheng, who has few words, also added a sentence!

In the crowd's strange gaze, Ao Xiong held back a stomach full of anger.

With a gloomy face, he pulled the stiff-faced Prince Qing Leaving in a hurry!

Waiting for these people to move away.

Immediately, there were quite a few people who came up to congratulate Jiang Fan and Su Jicheng.

And also had the intention of making friends!

As the strongest freshman.

And with the completion of the Great Mythical level mission, Jiang Fan's future was bound to be incomparably bright!

Jiang Fan, you're really deep, go back and get some rest, get together sometime.

Before leaving, Lin Youhe extended an invitation to Jiang Fan.

Good idea.

Jiang Fan smiled faintly.

He didn't refuse either.

After a brief greeting with the crowd.

Su Jicheng personally sent Jiang Fan back to the villa!

At the same time, In a void space at Bei Dou University.

This scene that happened outside the arena was watched by the dozen old men sitting here.

I didn't expect that.

An old man said excitedly, In my lifetime, I was actually able to see another Great mythical level student! Before there was the Crown Prince, and now there is Jiang Fan, really heaven has blessed our Bei Dou University!

Great Mythical level ah

Another old man lamented, None of us old guys had reached this difficulty back then!

Of course, this is the highest level of difficulty in history, even those epoch-making geniuses are only this high!

-An old man in gray laughed.

This is not the highest difficulty in history.

The eldest old man sitting in the middle reminded: Dont forget, someone passed the Eternal difficulty not long ago!

Thats right, I almost forgot about this.

The gray-clothed old man patted his head and said, I wonder if there is an update now? Which power does this heaven-reversing level demon come from?

Not yet known.

The oldest old man shook his head and said, There are already countless forces and countless powerful existences

All are searching for the whereabouts and traces of this heaven-defying demon!

But so far there is no news!

This kind of heaven-defying figure, Im afraid he wouldnt dare to show his face easily. The old man in gray laughed and said, But this also has nothing to do with us, we still focus on our own school!

This years strongest freshmen Now all of you should have no doubts, right?

There were a dozen old men.

All have nothing to say.

Including those who were optimistic and supported Prince Qing before were also silent!

In the Planet promotion examination.

There was no possibility of falsification.

If you lose, you lose!

Hm?

At this time.

An old man in black suddenly raised his eyebrows and said, The Prince sent me a message!

The Prince?

The gazes of the other old men all looked over.

The Princes words were brief, meaning

The black-clothed old man paused for a moment and said, He is more optimistic about Prince Qing!

This

They all looked at each other.

Then they looked at the oldest old man sitting in the middle.

The eldest old man pondered for a moment and said: The princes words are like that, but the rules cant be broken, and besides

Jiang Fan passed the great mythical level mission, enough to be ranked on this years heavenly list, if he didnt become the strongest new student, I guess the other superlative academies would laugh at us!

Lets vote now, raise your hand if you agree!

Brush! Brush! Brush!

A dozen old men, one by one, all of them raised their hands.

Including the black-clothed old man who was most optimistic about Prince Qing!

The strongest freshman thing was

The dust had settled!!!

At the same time, Jiang Fan had returned to the villa.

Leaned back on the sofa and laid down properly for a while!

This time worrying about Xias atomic plan.

He was concerned all day long in the back.

It also took a lot of effort!

After resting for an hour, Jiang Fan sat up straight again.

Entered the awakening space again.

Ready to check the situation of Blue Star.

The current Blue Star

After passing the eternal level difficulty planet promotion test!

It had become a level two planet!

It was no longer the small broken ball it used to be.

And the second level planet.

According to Jiang Fans knowledge, It wasnt just the area that got larger.

There would also be minor changes in other areas.

Especially

This was still after the eternal level mission.

In other words, the current Blue Star was the highest Eternal level talent!

From ancient times to the present, no other planet could compare!

I wonder what the current Bluestar is like?

Jiang Fan looked expectantly.

Chapter 390

390: Level two Blue Star! Amazing change!

According to the division of this world.

The standard for a first-class planet was a diameter of a thousand kilometers or less.

The diameter of a second-class planet, on the other hand, was

Between one thousand kilometers and ten thousand kilometers!

The diameter of the moon in the previous world was more than three thousand kilometers.

Exactly in this range.

Of course, the concept of planets in this world was not quite the same as in the previous world.

Each one is an extraordinary planet.

It couldn't be linked to the previous life at all.

After the planets promotion, the diameter has a relatively enormous increase.

Jiang Fan thought to himself.

It's a little different from the previous one

If one successfully passed the planet promotion assessment task.

Each planet, regardless of the previous diameter.

It would go straight up to two stars!

That was Over one thousand kilometers!

Even those who took the test before.

Planet diameter limit of five hundred kilometers or less was also the same!

This was the power of awakening space.

This involved post-promotion.

The planet has gained talent.

Ordinary level, elite level, commander level, king level, epic level, legendary level, mythical level and eternal level!

The higher the planet's talent, the more the diameter increases after promotion!

Let's say

A planet with a diameter of 500 kilometers successfully passed the ordinary level assessment mission.

This planet gained ordinary level talent.

The promoted planet would be A minimum of one thousand kilometers!

If six hundred kilometers in diameter passed the ordinary level difficulty.

The promoted planet would be Eleven hundred and a little more than a kilometer in diameter!

If it was the elite level, the increased diameter would be even more.

And so on.

The higher up you go, the bigger the planet would be after promotion!

But there was no fixed value!

Every planet was different.

Jiang Fans current Blue Star was an eternal levels supreme talent!

The increased diameter was naturally the largest.

According to past examples, even at the god level, the increased diameter would not exceed five hundred kilometers.

Jiang Fan thought to himself, with anticipation in his heart, I dont know how much the eternal level will increase?

Jiang Fan focused his attention.

He looked over towards the Blue Star.

The first thing that caught his eyes was

The azure planet that had grown much larger!

Jiang Fan took a serious look.

It was almost twice as big as before!

A majestic life force poured out!

After the second level, it still tied the size of the planet to the life force on the planet.

Jiang Fan could clearly feel

The thriving growth and amazing vitality of the Blue Star at this moment!

Finally, its Level 2 planet now.

Jiang Fan felt great consolation.

Then

He checked out the planet panel.

After coming to the secondary planet.

The data on the planet panel.

There was also an enormous change.

Even There was another additional line of text

Planet name: Blue Star

Planet level: Level 2

Planet diameter: 1888 km

Planet species: 1500

Planet talent: Eternal level

Extrapolation route: none

A direct increase of eight hundred and eighty-eight kilometers in diameter?

Jiang Fan raised his eyebrows.

Compared to the nine hundred and ninety-nine kilometers before the promotion.

It was indeed almost double!

This was also a manifestation of an eternal-level talent.

Because the planet master could only see this planet panel itself.

Jiang Fan also didnt need to worry about being informed by outsiders.

Species seem to have increased as well?

Jiang Fan suddenly noticed the column for planet species.

Before the promotion, it was .. 1450 species!

And now it

It had become 1500!

A whole fifty brand new species had been added.

This should be a new species that was born quickly during the process of the Blue Star getting bigger.

Jiang Fan secretly guessed.

This was one of the incredible things about Awakening Space.

It simply couldnt be imagined by common sense at all.

After looking at the panel.

Jiang Fan checked the specific changes on Blue Star!

First was the first land.

Inside the Summer Kingdom.

Here in the Royal Tomb Mountain Range, there werent many people left now.

After the successful completion of the promotion conquest.

They held a grand celebration ceremony.

The generals and scholars partied for days.

Yan and the others also took a long breath of relief.

The latter was to give the crowd a long vacation!

Except for the few people who stayed behind in the Royal Tomb Mountain Range .

Most of the people went on vacation to rest!

What made Jiang Fan feel a little puzzled was.

The population of the Xia Kingdom had grown little.

Then this extra life force

Where did it come from?

Jiang Fan's gaze moved away from the Royal Tomb Mountain Range.

Turned to the rest of the First Land.

-Mountains and rivers.

-A river.

A lake.

A plain.

Jiang Fan clearly felt the a greater vitality.

The flora and fauna were in these places.

Although the number changed a little, the vitality had become stronger!

The reason for this

Jiang Fan instantly understood.

It was a single life force enhancement!

Each plant became stronger!

The vitality was stronger!

This included the people of the Xia Kingdom as well.

Most notably manifested in

The increase in physique and lifespan!

Previously, the average life expectancy of the people of the Xia Kingdom was only about seventy years old!

Now it has risen directly to ninety years!

This was without changing the level of technology.

If it was the level of the Earth in previous life.

It was estimated that breaking the one hundred years old would not be a problem.

Stronger physique.

The rate of infant mortality was lower.

The probability of various congenital diseases was also smaller.

The resistance to injury and disease was also higher And so on!

It was an all-around improvement!

Of course.

For Jiang Fan, the most important point was

More geniuses would be born!

The development of technology needed geniuses far more than other civilizations!

A genius of the level of Qi and Yan.

Its not something that others could make up for by sheer numbers.
