

One Planet 411

Chapter 411: Jiang Fan's Determination! The school's decision!

The old man in black immediately responded, "Jiang Fan, a student, dares to disobey the teachers and school leaders among them. Does the school discipline of our Bei Dou University not exist?"

"If this thing lets Jiang Fan succeed, then"

"What a bad trend will be in the future! The person who started it must be punished."

"You mean to leave Ao Xiong behind and let Jiang Fan leave the team?"

The old man in gray glanced at the old man in black again and said, "Then who will take over for Jiang Fan? You'll find another freshman with Great Mythic level talent to come over?"

"At the exchange tournament, people asked why the only Great Mythic level freshman from our school didn't come? How will you answer?"

The old man in black was stunned for a moment and said, "This is a team competition, not a solo competition, it's useless for a single person to be strong! Ao Xiong's importance as a coach is unquestionable!"

"If Ao Xiong hadn't chosen people carelessly, wouldn't so many things have happened?" The gray-clothed old man coldly snorted.

Seeing that, the black-clothed elder still wanted to argue further.

The oldest elder opened his mouth and said, "All right, no more arguments! Everyone raise your hands to vote, raise your hands if you agree to Jiang Fan staying!"

Brush, brush, brush

Except for the few old men in black.

All the other old men raised their hands!

There was no doubt about it.

Although the black-clothed old man was perking up.

But the crowd was very clear.

In the superpower, there were still many small mythical level talents.

But there were few big mythical level.

Even those top clans and dynasties were the same!

It could be said that Jiang Fan was now the only card of the Bei Dou University!

Ao Xiong was indeed also very critical.

But the harm of the powers was the lesser!

Could only give up Ao Xiong.

What's more For Ao Xiong.

In fact

Some elders were also dissatisfied.

These years, because of the representative of the prince's party, the behavior was a little too much!

Within the arena.

A group of school leaders and teachers soon received the decision of the elders' group!

The crowd was a little surprised.

But it was easy to understand.

Switching to any school was easy to choose, either.

It must be to choose the Great Mythic level talent students.

All of them looked at Jiang Fan a bit strangely.

They really pinched this aspect to death by Jiang Fan.

"Well, good!"

Ao Xiong's face was extremely ugly, after saying two words.

Turned around and left!

He also gave a glance at Prince Qing and the others on the side.

Prince Qing, still in a bright yellow robe, walked out and said, "I respect the school's decision, but I also respect the teacher as a person, I decided to withdraw from the school team, Please forgive me!"

"I also choose to withdraw."

"Me too."

Beside Prince Qing, Li Zihao and Wang Yiteng stood out one after another.

The three main players on Ao Xiong's side.

All left the school team.

Followed behind Ao Xiong!

Towards the arena gate!

This scene

The people watching looked at each other.

The two school leaders glanced at Jiang Fan, and a sneer flashed in their eyes.

You dared to tear your face?

Ao Xiong would not dare.

Wang Yiteng did not say anything.

Prince Qing and Li Zihao

One was a legendary level talent, and one was still a small mythical level talent!

These two main players were missing.

How could you still run this school team?

“This is what you get for supporting Jiang Fan.”

In the void, the black-clothed old man immediately shouted, “Without Prince Qing and Li Zihao, how can the school team still fight with others? This exchange tournament will definitely be at the bottom!”

“Why don’t we persuade Prince Qing and the others?”

An old man frowned slightly and made a suggestion!

“It’s useless.”

The old man in gray said, “Can’t you see that these two parties are not together at all?”

“Should we just let it go? The results are not worth it?” Another old man was also frowning.

“Although this Jiang Fan is also a Great Mythic level talent,” The old man in black exclaimed, “It’s completely incomparable to the Crown Prince!”

At those words.

The crowd couldn’t help but feel a moment of silence.

“In the last exchange competition.”

The black-clothed old man continued: “The prince led the team... to the quarter-finals! This is when there is not even a small mythical teammate around.”

This was the reason the crowd was so high on this school team.

Last year there was only one mythical level.

It was able to reach the top eight.

This year

There was not only Jiang Fan, A big mythical level.

There’s also Prince Qing, a small mythical level!

According to people’s opinion.

The grades could be better.

But they didn’t expect...

The team had not yet formed.

This hope fizzled out!

“Talent is certainly important, but the heart is also very important, this Jiang Fan
Destined not to go too far!”

The black-clothed old man made the final decision!

“Okay.”

The oldest elder stopped the argument and said, “Since we have made a choice, we don’t need to say more, every great mythical planet master has his own path, others don’t need to judge more!”

Within the arena.

The two school leaders who had been speaking for Ao Xiong.

As well as several other teachers had also left!

Even the few freshmen who were selected for the school team also followed!

Came to the outside of the arena.

Ao Xiong, Prince Qing and others were all waiting here.

“Without Prince Qing and me, let me see what Jiang Fan will do? Where can he find two legendary levels and a small mythical level?”

Li Zihao, who had a distinguished family background, laughed lightly.

“Let him show his prestige for a while! When he fails in the exchange competition and comes back in disarray, let’s see how arrogant he is.”

Wang Yiteng, who was beside him, agreed.

“If you want a person to be destroyed, you must first let them run wild! So what if he’s a Great Mythic level talent? The ones that have fallen in history are still not one after another.”

Li Zihao sneered, “Not to mention”

“He is not the only one with Great Mythic talent in our school!”

“Compared to the Crown Prince?”

Wang Yiteng shook his head, a look of disdain flashed in his eyes, and said, “Forget it, this guy is far behind, not to mention, In the Prince’s last tournament, with a teammate like that, he reached the top eight!”

“Just wait and see this guy’s joke this time!”

In the arena.

Waiting for Ao Xiong’s group of people to leave.

Everyone else was a little overwhelmed!

This used to be a good school team.

Now that Prince Qing, Li Zihao, Wang Yiteng and several other current heavyweight freshmen were gone.

There didn't seem to be much point anymore.

“Jiang Fan

Lin Youhe looked at Jiang Fan, who had a calm face.

He didn't know what to say.

Although Prince Qing and Li Zihao left.

It freed up the main position for him.

But Lin Youhe wasn't happy at all.

The people came to join the school team.

But not for this main position.

The main reason was

This year, there was a great hope that they could get an excellent result in the exchange tournament!

“It's okay.”

Jiang Fan's face was calm as he said, “It's better for these black sheep to leave on their own, so we can train without fear next!”

“And

Jiang Fan turned around.

Sweeping his eyes at the remaining team members, he said, “Anyone else want to leave?”

No one answered.

The scene just now.

It was also for the crowd to find out

Jiang Fan, who had been very low key It turned out that he was not easy to mess with!

Unknowingly.

He erected an unprecedented majesty!

“Since that's the case, let's start the official call of the school team.”

Jiang Fan looked at everyone! !

Chapter 412: Crazy Technology! The exchange competition begins!

Jiang Fan dared to tear his face off naturally, not without preparation.

First, he used the system to deduce something.

In fact

Even without pushing.

Jiang Fan also knew.

Between him and Ao Xiong.

The school is bound to give up on Ao Xiong.

This can refer to the relationship between the football leagues and the NBA in the previous life, those big-name stars and the team's head coach.

Like James and Jordan, the head of the team.

If there is a conflict with the head coach.

It must be the head coach who would be dismissed.

Although Ao Xiong was the first mentor and head coach.

Still a five-level planet master.

But fifth-level planet masters abound.

There were fewer great mythical talents.

Not to mention

This was the freshman exchange competition.

Ao Xiong's role was certainly not as big as Jiang Fan, the strongest freshman!

After settling Ao Xiong's matter.

Jiang Fan was also free of worries.

Started as a varsity captain...

Make selections for the first and second teams!

"Those whose names I read out below were The five main players of the first team!"

Jiang Fan swept a glance at the crowd and said aloud.

There were still a lot of school leaders and teachers standing around.

But none of them had an opinion.

This was probably...

In the history of Beidou University, the most powerful captain of the school team.

Even the head coach did it.

Not to mention the players.

It's just that the consequences were serious.

"Besides me, there are Wan Yunsheng, Lin Youhe, Xiang Zhifei and Jane Ziqiang!"

Jiang Fan read out the list of the main five.

Wan Yunsheng, Lin Youhe and Xiang Zhifei had nothing to question.

This year's freshmen.

There were only four above the Legendary level, namely Jiang Fan, Prince Qing, Wan Yunsheng and Li Zihao.

There were quite a few of them at the Epic level.

Among them, Lin Youhe and Xiang Zhifei were recognized as the best.

Both of them originally had the possibility to challenge the legendary level talent.

But in order to be safe.

In the end, they chose an epic level!

It does not mean that their strength is on the same level as other epics.

As for the last Jane Ziqiang

Jiang Fan did not choose randomly.

Relying on the system to deduce, determined that this Jane Ziqiang was

The strongest one in the remaining people!

Besides the main five people.

Other personnel, Jiang Fan, was too lazy to care.

Let Su Jicheng decide for himself.

Su Jicheng was a bit confused.

He was never held the position of head coach.

But Jiang Fan had done so.

There was no way he could refuse.

"The main players come with me. The others move around on their own."

Jiang Fan said.

With that, led the four of them, Wan Yunsheng and Lin Youhe, to a room off to the side.

"Everyone, take it easy."

Jiang Fan looked at the four people with somewhat frozen expressions and said with a smile, "I have little experience in group competitions. Have any of you participated before?"

Wan Yunsheng and the other three shook their heads.

Only Lin Youhe said, "I've had contact with it before, but I didn't really take part. It was just a situation where I was playing with people, not an actual competition!"

"That's fine."

Jiang Fan nodded slightly and said, "Familiarize each other with the characteristics and styles of the races they have created, the exchange competition is in half a month, and try to get an excellent result!"

All four and Wan Yunsheng looked at each other.

The current school team had five members.

Only Jiang Fan was mythical level.

Even the legendary level was only one person Wan Yunsheng!

The other three were all epic level!

This lineup was really too shabby and too stretched!

Not to mention the comparison with those powerful super-first-class universities outside.

Even the Prince's class was not even comparable.

But

Seeing Jiang Fan's calm expression.

The hearts of the four people stabilized slightly.

So what if Prince Qing and Li Zihao and others left?

Each of them was also a heavenly pride.

They were not willing to be weaker than others!

How do you play in a group match?

Jiang Fan was naturally inexperienced.

So the next thing was

Watch the video of previous matches.

For this, Jiang Fan had nothing to worry about.

The development of Blue Star in these decades was very rapid!

The population was over 100 million!

And the other new students.

Although they also rose to the second level.

And built an extra transcendent species.

Strength increased significantly.

But definitely not beyond the Blue Star.

Unless the rules of the competition didn't allow it.

Jiang Fan felt that with the strength of the Great Desolate Army.

It can be pushed through.

But Jiang Fan also dared not be careless.

Capsizing the boat in the gutter would be a real joke.

Since the goal is to go to the champion.

Naturally, he also had to prepare properly.

“Jiang Fan.”

Lin Youhe hesitated for a moment and said, “Actually, the Musketeer you built and Prince Qing’s Golden Behemoth are a good match!”

“I know.”

Jiang Fan smiled.

This was as long as the vision wasn’t bad.

All could see that.

The Golden Behemoth was huge.

The physique was extremely powerful.

And melee combat!

And the musketeers were ferocious, and the output was terrifying!

But the defense was weak!

If you let the Golden Behemoth and the Musketeer Cooperate with each other!

Golden Behemoth, standing in front as a shield.

Musketeer in the back output!

It was Very perfect combination!

This was also why

This was one reason the school was so focused on the exchange competition this year.

This combination plus others.

There was a high probability of getting excellent results.

Chapter 413: Miserable! The secret weapon of the Great Desolate Army!

Hearing Jiang Fan’s words.

Lin Youhe and the other four people were all slightly stunned.

But immediately reacted.

This was estimated

It was a new weapon from the musketeers’ awakening.

Anyway, in the previous combined practice.

All four of them had seen the Musketeer’s various odd weapons!

“You guys get ready too.”

Jiang Fan commanded.

Beside Jiang Fan Jane Ziqiang was sitting.

It was Jane Ziqiang’s first time participating in a group competition.

He came from a mediocre background.

This time it was a fluke that he had passed the epic level.

Sitting with Jiang Fan and the other four true Heavenly Proud.

There was some nervousness in his heart.

All the while, he had been working hard to order the maze puppets he had built to perform a quick maze combination!

This was the first barrier on Jiang Fan’s side.

And in the middle of the maze.

There was another race present.

This was the

The Goblins that Lin Youhe had built!

The race of goblins ranged from low to super level!

Ordinary goblins were just low-level races.

But the one Lin Youhe built was the super Goblin chief!

It was gigantic and holding a wolf’s tooth stick in his hand!

Very powerful.

-Stick down.

Even Wan Yunsheng’s water cannon turtle couldn’t withstand it.

Only

Speed and agility were not high.

Mobility was still a little weak.

But with the cover of the maze.

Goblin chief could hide in every corner of the maze.

Waiting for the enemy to come in.

And then do a sneak attack!

And behind the maze golem, there was Wan Yunsheng’s Water Cannon Turtle.

With the maze puppet and the goblin chief blocking the front.

The Water Cannon Turtle could store power without worry!

Water cannon turtle could also generate a puddle of water.

And effectively stop the enemy from advancing.

This gives the demons and musketeers in the back... a better output environment.

In order to avoid accidentally hurting allies, Jiang Fan had Jane Ziqiang move some of the maze golems to the back.

Piled up into a brief high platform.

Musketeers and demons were standing on the high platform!

That way it was easier to target enemies.

This was the past half month.

The main day of the school team joint practice.

Everyone was naturally familiar with it.

As soon as they came in, they quickly lined up in formation!

But

There was no formation that was perfect and invincible.

This formation's ground warfare defense was good.

But it was difficult to guard against the underground attack!

Jiang Fan naturally... had thought of this for a long time.

The Great Desolate Army came in on the surrounding ground.

And planted a ground mine!

This thing was not very technical!

They already invented it in the era of Yan.

It was used to deal with the underground races but it was very effective!

It wasn't an ordinary mine either.

They specially built this to be detonated under the ground.

There was more poison inside.

Mainly relied on poison gas to kill the enemy under the ground.

Claptrap

In front of the maze golem, the creeping of the ground was becoming more and more obvious.

The sound was also getting louder and louder.

Looking at Jiang Fan's side, his hands were tied, and there was nothing he could do.

Everyone from the Behemoth Academy smiled.

“The output of their musketeers and demons is high, but what can they do? Can’t hit the ground.”

The sturdy girl, who looked like an Amazon female warrior, laughed.

“It’s still the captain’s wisdom to develop such a strategy that catches the opponent’s weaknesses to death.”

A cadet bragged.

“Not to mention these people, even if Prince Qing was there, the Golden Behemoth he built was of little use, the weaknesses of the Bei Dou University team are too”
The tall, sturdy boy also shook his head and said.

Only

The words were not over yet.

When they heard a loud noise rang out continuously.

The five members of the Behemoth Academy fixed their eyes to see.

And found out

In front of the maze puppet, there was a dull explosion sound was coming from under the ground.

It sounded quite bizarre.

The explosive power of mines on the ground.

Not that good.

There were so many mud and stone blocks to block it.

It would not cause much damage to the underground race.

But the main thing was not the explosion.

Rather, it was poison gas!

In Yan’s era, the power of poison gas was not powerful enough.

And decades have passed.

Now it wasn’t the same as before!

These poisonous gases had added extraordinary ingredients.

For example, the stuff from the extraordinary plants and animals.

Not knowing how powerful it was!

If ordinary people inhaled, they would die instantly!

Even these transcendent species.

After a while, the whole body was paralyzed, foaming at the mouth, and their entire bodies were twitching!

And soon lost their fighting ability.

The explosions continued.

The sturdy girl who created this underground race changed her face and said, “The other side seems to emit some kind of poisonous gas. They have poisoned my underground race a lot!”

“Poison gas?”

The tall and sturdy boy frowned slightly.

But also immediately reacted and said, “Then have your underground race retreat immediately. Don’t make unnecessary casualties!”

The sturdy girl nodded.

“What should we do now?”

Another team member asked.

The only one who had created the underground race was the sturdy girl.

Now it was still being restrained.

“Since the sneak attack didn’t work, let’s just attack.”

The corners of the tall, sturdy boy’s mouth curled up in a smirk as he said, “You guys don’t think those maze golems can stop our giant beast army, do you?!”

And on Jiang Fan’s side.

They heard a loud burst underground.

Lin Youhe couldn’t help but ask, “Jiang Fan, What kind of weapon is this?”

“A mine with poison gas in it.”

Jiang Fan explained.

Hearing that.

Several people didn’t know what to say.

This was too sinister.

But

Then they all laughed out loud.

This was good.

There would be no need to worry about sneak attacks from the underground races in the future.

“Be careful. They might attack directly.”

Jiang Fan also didn’t dare to be careless and immediately shouted.

Rumble

Above the ground, there were dense and violent footsteps!

The huge-sized demon apes hammered their chests with both arms.

A high roar in unison!

Then

They lunged towards the maze puppet frantically.

The speed was amazing.

One step was several meters away!

“So strong!”

Seeing the speed of the demonic ape.

Lin Youhe and the others changed their expressions.

This was much more powerful than Prince Qing’s Golden Behemoths!

Although the Golden Behemoth had an outstanding physique.

But it was not considered top in speed and agility!

And this kind of demon ape ran amazingly fast!

Like a phantom shadow.

Instantly approached from afar.

The earth was shaking.

They kicked the dust on the ground up!

It looked like a mighty army!

“Demon apes were immensely powerful, extremely fast, and extremely strong physique, with attack and defense pulling all over the place. And has almost no weakness. This is an even more powerful race than the Golden Behemoth!”

Watching the battle room.

Su Jicheng and the coaching staff and other people’s expressions were extraordinarily grave!

Not to mention

Beside the demon ape.

Also followed by other behemoth races!

Although not as strong as the demon ape.

But the aura was extremely amazing!

Jiang Fan has also made preparations.

Xiang Zhifei’s demons had long since finished transforming!

The output of the demons was extremely high.

But there were two fatal weaknesses –

Chapter 414: Miserable! The secret weapon of the Great Desolate Army!

First, the defense was too weak, an ordinary bullet could be wounded!

Second, the transformation time was limited.

It was about ten minutes!

After ten minutes have passed.

It would turn back into a demon again.

This couldn't be helped.

Each planet master's planet was different.

It could create only the most suitable race according to the conditions of the planet!

And not the strongest!

If it was a solo fight.

Demonized people were easy to target!

Last time at the Freshman Challenge.

The Great Desolate Army blew it up.

But in the group competition

They could make good use of strengths and circumvent weaknesses!

The demons were the first to output!

After the second level, the strength of the demonized person was strengthened, and the range was also longer!

They could hit from 800 meters away!

But eight hundred meters from the demon ape.

It was a matter of moments.

It was even more incomparable to the range of the Great Desolate Army.

The Great Desolate Army set up their speed guns.

They fired like crazy!

The current speed gun had been upgraded once again.

It had reached eight guns!

And the new version of the armor-piercing projectile was fired!

After the Blue Star was upgraded to level two.

The quality of stellar iron and vibranium has been improved.

And the key was new metal Tearstone!

These three were paired together.

The effect of the alloy was extremely terrifying!

Let armor piercing ammunition become smaller the power is more than doubled!

More terrifying than the previous large armor-piercing ammunition.

The range even reached over three thousand meters!

On a simple high platform built by the maze puppet.

The Great Wilderness Army has placed a thousand units of eight consecutive speed guns!

With the current capability of Xia.

In fact

If not for the limited space.

Ten thousand units was no problem!

But one thousand units were enough.

This was capable of firing 8,000 rounds of armor-piercing bullets at the same time.

-And in seconds.....!

Tens of thousands of rounds!

Chug chu

All over the wasteland.

It was the sound of eight speed guns blasting.

They drowned even the sound of the demon apes and other giant beasts stomping on the ground out.

Poof, poof, poof

Under the dense rain of bullets.

The army of giant beasts rushing over!

An extensive area fell in an instant!

Even the most aggressive demon apes at the front couldn't stop the new version of armor-piercing bullets constantly shooting!

The physique of the demon apes was like the Golden Behemoth.

But they were stronger at faster speed and higher agility!

Even though now they were the second level demon ape.

But the physique enhancement was limited.

Armor piercing bullet directly pierced through the body surface of the demon ape and hit the body!

One armor-piercing bullet was nothing.

Every demon ape had to face a dense, horrible rain of armor-piercing bullets at the same time!

One thousand units of eight-port continuous speed guns.

One second could fire tens of thousands of armor-piercing bullets.

Ten seconds

It was hundreds of thousands of rounds!

In this short ten-second period, the most powerful demon apes have fallen nearly a thousand!

The faces of the people watching the Behemoth Academy side changed!

“This Jiang Fan’s Musketeer firepower is even stronger!” The sturdy girl said with a frown.

“It doesn’t matter, the planet is upgraded to the second level, and the created race will naturally become stronger and act according to the original plan.”

The tall and burly boy was slightly surprised, but it didn’t bother him much.

Inside the race field, watching a demon ape acting like the original golden behemoth.

Dragging the dead companion in front of them.

Blocking in front of them.

As a shield!

And then slow down the speed.

Continue to charge forward!

“This”

Seeing this scene.

The expressions of Lin Youhe and the others, who were still smiling, changed.

“Armor-piercing bullets can’t penetrate these guys’ torsos?” On the top side of the high platform, Xue Rengui frowned and asked.

“The other giant beasts are barely okay, but these magic apes... can only penetrate one at most, and the latter can’t do anything.” A scholar next to him replied.

This time a hundred thousand of the Great Desolate Army also came with a team of three hundred scholars!

“That’s it.”

Xue Rengui nodded slightly, then looked at Su Dingfang and said, “Would you like to use that kind of weapon in advance?”

“There’s no need for that.”

u Dingfang shook his head and said, “I have studied this kind of glorious expedition, and I still have to keep some weapons at the bottom of the box to deal with the more powerful enemies behind!”

“Although these demon apes are powerful and have almost no weaknesses. But they are not worth using that kind of weapon!”

“Then let’s fight as usual and keep firing the continuous speed gun.”

Xue Rengui shouted.

Although there was a demon ape as a shield in front.

But it was impossible to block all the gaps!

Armor-piercing bullets could still find gaps and drill through!

Shoot the demon apes in the back!

And because of hanging shields.

The speed of the demon apes had obviously slowed down!

The devil apes in front suffered hundreds or even thousands of armor-piercing bullets!

It was also unbearable.

The body became pitted!

There were holes everywhere.

No longer suitable as a shield.

The demon apes in the back grabbed other dead companions.

Pawned them as new shields.

And then approached step by step!

Besides the devil apes.

The other giant beast army was not so powerful physique and defense.

The casualties were severe.

Finally had to retreat.

Hiding behind the demon ape!

Followed the demon ape and burst forward!

Three thousand meters!

Two thousand meters!

1,000 meters!

After paying a certain amount of casualties.

The army of demon apes was getting closer and closer.

Gradually approaching the maze puppet position!

When the distance was only a thousand left.

Xiang Zhifei’s demons also launched!

Crazy output.

Combined with the speed gun, the demon apes could not lift their heads up!

The output of the demon was also not a cover.

Each hit was equivalent to a cannonball hitting straight.

But the killing power was converging.

Therefore

It was very powerful to kill the magic ape!

Unlike continuous speed guns.

Single shot power was not enough.

Need the accumulation of numbers to have such an effect!

After the upgrade of the planet.

The number of demons also became larger.

This time, Xiang Zhifei also went all out.

Over 10,000 of them were dispatched!

Under the suppression of this terrifying firepower.

The army of demon apes were pinned down to death 800 meters away!

They could not advance an inch!

Just when Su Jicheng and others who were watching the battle were slightly relieved.

Inside the army of devil apes.

Suddenly

Several gigantic figures sprang out.

These figures jumped directly to the high altitude.

And unfolded a pair of black wings!

Flying into the air!

“Flying Demon Apes!”

Seeing these devil apes that suddenly flew up into the sky.

Su Jicheng and Lin Youhe and the others’ faces all changed!

The opponent actually

They bred even this legendary thing?!

“Be careful!”

Jiang Fan also saw these things.

Immediately thereafter, he shouted.

“A magic ape that can fly?”

Both Xue Rengui and Su Dingfang were wide-eyed.

But didn't panic!

Flying races in the air!

This was the opponent that the Great Desolate Army had first presupposed would inevitably encounter!

So... start preparing early!

"Shoot down directly!"

Su Dingfang ruthlessly ordered.

Against aerial transcendent creatures!

The Great Desolate Army of the Yan Era still had no good solution!

But the decades had passed.

Now there was a specialized mass murder weapon!!!

Chapter 415

415: Destroyed and eliminated! Advanced to the Top 16!

In the sparring room, looking at that army of demonic apes.

That one huge figure that rose up in the air.

Lin Youhe and the others' faces all changed drastically!

Because the team on their side.

Whether it was the Jiang Fan Musketeers, or the transcendent race that the others had created!

All had obvious weaknesses!

There was no way.

The other side had two mythical level plus three legendary level.

The talent gap was too obvious.

Especially in close combat.

The strongest was the goblin chief cultivated by Lin Youhe.

But it was definitely not the opponent of the opposite giant beast!

Not to mention it was stronger than the Golden Behemoth The demon ape!

Once you let the opposite side get close!

The consequences would be dared not imagine!

"The demonized people are divided into a part to guard against the flying demon ape, the water cannon turtles cooperate, and the goblin chief retreats to protect the demonized person and the musketeer!" Jiang Fan quickly ordered.

Although the Great Desolate Army now had anti-aircraft weapons!

But Jiang Fan wouldn't be careless either.

A thorough deployment was made.

"The opponent's flying demon apes are thirty, and a few of them who died are also counted!" Lin Youhe said ruthlessly.

Quickly let the Goblin Chief retreat.

In front of the demon and the musketeer.

Prepare to use your life to stop the approach of these flying devil apes!

"Flying Demon Ape, not only can fly, it can be said to be a comprehensive upgrade of the Demon Ape!"

In the sparring room.

Su Jicheng and others also looked very solemn.

"Once it falls into the position of the demonized people and musketeers, it will be almost a one-sided massacre!"

All of them could see the intention of the other side.

The flying demon ape was flying in the exact direction of

Behind the high platform of demons and musketeers!

"Thirty flying demon apes, flying at low altitude, quick, but not very fast!"

Su Dingfang observed a bit, then looked and ordered, "Use anti-aircraft guns!"

The words fell.

Behind the Great Desolate Army.

On an all-terrain off-road vehicle.

A gun muzzle shot out!

These small caliber guns.

They were the main weapon of the Great Desolate Army to deal with low-flying targets –

Anti-aircraft guns!

Anti-aircraft guns were invented back in the Yan era.

But the anti-aircraft guns of that time and the current anti-aircraft guns were completely Two concepts!

Several decades ago, in order to deal with the transcendent creatures that could fly in the air.

They specially developed it for this anti-air artillery!

But at that time, the anti-aircraft gun and other artillery were not essentially different.

Both aim and fire manually!

Accuracy was very low!

Effectively

It was not as good as a speed gun!

Therefore!

In the Endless Mode of college entrance exam, when dealing with the army of flying insects.

The anti-aircraft gun wasn't used!

And now they were using anti-aircraft gun!

It was first scanned by radar.

Then through the computer's complex calculation.

Finally, determine the location and trajectory of the target!

And then automatic firing!

No idea how much higher the accuracy was!

Despite the availability of more powerful anti-aircraft weapons, in the low-altitude zone

The role of anti-aircraft guns couldn't be replaced!

Another very important point was The cost of anti-aircraft guns wasn't considered high.

Seeing the Great Desolate Army revealed a unit of anti-aircraft guns.

Especially the anti-aircraft guns with a radar device!

Lin Youhe and the others were all slightly stunned.

"This is What is it?"

Lin Youhe asked with great curiosity.

In the previous training, Jiang Fan had never shown this thing before.

Why does it look like a big iron pot, but the color is white.

"Radar can detect the enemy in the air."

Jiang Fan explained simply.

Radar was an electronic device that uses electromagnetic waves to detect targets.

By emitting electromagnetic waves to the target and receiving its echo, in the object's direction reflects the encountered electromagnetic waves.

The radar antenna receives this reflected wave and sends it to the receiver for processing.

Thus

Extract certain information about the object: the distance of the target object to the radar, the rate of change of distance or radial speed, orientation, height, etc.

Lin Youhe and the four blinked.

The more and more they couldn't understand about the musketeer made by Jiang Fan.

The strange weapons were getting more and more!

"Is that of any use?"

Jian Ziqiang asked weakly.

"It has no output in itself."

Jiang Fan explained, "But we can use it with other weapons to strike the enemy with precision!
Well Pay attention!"

On the playing field.

Thirty flying demon apes had already soared several hundred meters into the air.

Blitz

The Great Desolate Army also dispatched a part of the Continuous Speed Gun.

Aimed at these flying demon apes.

But the targets in the air were really difficult to strike!

Whoa!

The water cannon turtles cultivated by Wan Yunsheng also powered up!

The one thousand water cannon turtles that had stored their power for quite some time
simultaneously They fired their water cannons!

Straight at the flying demon apes in the air!

But these flying demon apes were also very smart.

Seeing the water cannon rushing up.

Directly raised their height, rushing to more than a thousand meters high altitude!

And even if the water cannon could hit so high.

The speed and power were also greatly weakened!

The flying demon ape, easily dodged!

Immediately after that!

Thirty flying demon apes came down from the high altitude

Flying down!

Straight at the demonized people and musketeer's position!

Relying on the natural enchantment of falling.

The flying demon apes were getting faster and faster and faster!

And relying on its own wings!

Also able to change position in the air.

Dodging the bombardment of water cannons!

Eight continuous speed guns were still firing wildly.

But it was extremely difficult to hit.

Even if there were occasionally one or two armor-piercing bullets hit these flying demon apes.

Not enough to inflict fatal damage!

Boom! Boom! Boom!

Just at this moment.

An anti-aircraft gun was unleashed!

This was not the operation of the warriors of the Great Desolate Army, but

After the anti-aircraft guns calculated and analyzed by themselves.

They carried the attack out!

Only one cannonball was seen.

With an amazing speed pounced towards the flying demon apes.

These flying demon apes subconsciously wanted to dodge.

But couldn't dodge.

Relying on the radar and computer calculations.

These cannonballs have judged the position of the flying demon ape in advance!

Boom!

A shell directly hit a flying devil ape!

Now the shells had also been upgraded through dozens of generations!

Every past year, the gunpowder research laboratory would carry out At least one upgrade!

Making more powerful gunpowder!

Much more powerful than the Yan era.

-After the loud sound.

The flying demon ape that was hit by the cannonball

It just fell straight from the sky!

The killing power of the shells was much more lethal than the armor-piercing bullets.

The problem was that the accuracy was too low!

And with no armor-piercing ability.

But if it was a head-on hit, then it was

Terrible!

The flying demon ape that was hit did not die.

But it could not fly in the air with serious injuries!

Falling from the sky with a boom!

It landed heavily in front of the Great Desolate Army's position.

“Set fire to output!”

Jiang Fan immediately ordered.

Take advantage of your illness!

The Flying Demon Ape's physique was stronger than an ordinary Demon Ape.

Even if they were seriously injured.

But given a certain amount of time, it would gradually recover.

Boom! Boom! Boom!

Xiang Zhifei quickly made thousands of demonized people, frantically attacking this seriously injured flying demon ape!

Even though this flying demon ape had a robust physique!

But by the output of thousands of demonized people

It was completely like a fly.

Being hit by hundreds of swats at the same time!

The death was so miserable!

A few moments later.

They left only a puddle of meat on the ground!

The remaining twenty-nine flying demon apes in the sky had numb skulls!

Just heard a boom!

Another dozen shells raided!

The hit rate was quite high.

This time

It hit eight flying demon apes!

The original combat imaginary enemy of the anti-aircraft gun was a fighter jet!

The probability of hitting a fighter jet was very high.

Chapter 416

416: Destroyed and eliminated! Advanced to the Top 16!

Although the speed of the flying demon apes was very fast.

But how did it compare to fighter jets?

A living target!

The eight flying demon apes were..... Not much better.

Fell down heavily.

Thousands of demonized people were already waiting in the eyes.

Not long after that, there were eight more puddles of flesh on the ground!

This completely scared the remaining twenty flying demon apes in the sky.

Didn't dare to keep going down.

Instead

Rapidly rise!

Far away from the Great Desolate Army's side of the position.

Seeing this scene.

Su Jicheng and the others in the observation room and the five members of the Giant Beast Academy in the sparring room.

All were dumbfounded!

Originally, they thought that

The Flying Demon Ape paid the price of several serious injuries and even death.

By descending within the positions of the Demonized People and the Great Desolate Army.

A gruesome killing of these two species!

Immediately after that

The army of demon apes and the army of giant beasts on the ground could quickly break through.

The inside and the outside!

And defeat the team of Bei Dou University!

But!

No one thought of it.

The horrific final scene ... happened.

But it wasn't the musketeers and demonized people.

Instead, it turned into a flying demon ape!

That death was called miserable.

They did not leave even a complete corpse behind!

"All armies of giant beasts rush forward with all their strength, and the Flying Demon Ape is looking for an opportunity... to break into the opponent's position!"

The tall and sturdy boy took a deep breath and ordered.

The game had only just begun.

He didn't want to give up!

Rumble

The ground resounded with a deafening trembling sound!

Tens of thousands of giant beasts led by demonic apes!

Ran towards the maze puppet frantically with a desperate look!

“The opposite side has launched a general attack!”

Lin Youhe's face sank.

“Defend with all your strength and keep them 300 meters away!” Jiang Fan ordered.

After a while, the maze of the maze puppet had been built.

The goblin chief had also returned inside the maze.

In his hand, he held the huge wolf tooth stick.

Ready to defend this place to the death!

Wan Yunsheng's water cannon turtle although not stored maximum force.

But it also knew that this was the decisive moment!

Thousands of water cannon turtles fired directly!

One by one, the water cannon fired wildly!

Straight at the incoming army of giant beasts!

The demonized people and musketeers needless to say.

It was the main output of the Bei Dou University team!

Chug Chu

Inside the arena, cannonballs, armor-piercing rounds, rounds of bombardment!

Covered and landed in the army of giant beasts!

All kinds of explosive sounds were heard one after another!

Poof poof poof

The giant beasts at the front kept falling down.

But continued to rush up frantically.

All transcendent species knew that that's how melee fights were, impossible to go unscathed!

As long as you pay a certain amount of casualties, and could get close to the long-range!

Then won!

Eight hundred meters.

Seven hundred meters.

Six hundred meters.

Five hundred meters.

After paying a huge price.

Behemoth army finally advanced to a distance of four hundred meters!

Looking at the army of giant beasts getting closer and closer.

The anxious Lin Youhe almost ordered

The goblin chief threw the big wolf tooth stick in his hand as a projectile!

But

The last four hundred meters.

It was simply a line of death!

Because the casualties of the giant beast army were too heavy.

Plus the Great Desolate Army had transferred another three hundred units of continuous speed guns.

Together with more than ten thousand demonized people.

Crazy output at the same time!

It was like destroying the whole world.

The corpses of the giant beast army were scattered everywhere.

Although Xiang Zhifei's demonized people had limited demonization time.

But naturally, it was not possible to demonize at the same time.

It was to see the timing of the demonized group!

“Rush over, rush over!”

The sturdy girl screamed in a hurry!

“We admit defeat.”

The tall, sturdy boy next to him, however, raised his hand.

“Captain!”

The sturdy girl clenched her hands and said, “Just a little bit, just a little bit we can rush through, they are simply being slaughtered by us in close combat!”

“It's useless.”

The tall and sturdy boy shook his head.

He knew very well.

Don't look at less than four hundred meters.

But to pass this four hundred meters.

They didn't know what kind of heavy price had to be paid!

Moreover

They might not be able to pass!

“Jiang Fan I underestimated you.”

The tall, sturdy boy stood up and looked in the direction of the sparring room where Jiang Fan was.

He had just seen the battle clearly.

Originally, the Flying Demon Ape was the ace card!

But because the firepower on Jiang Fan’s side was too powerful.

In order not to pay too big a price.

Tall and sturdy boy let the flying demon ape in the battle in advance!

But he didn’t expect

It was actually defeated by Jiang Fan’s anti-aircraft gun.

“The Behemoth Academy team concedes defeat, and the Bei Dou University team wins this match!”

The referee’s voice rang out in the sparring room and the viewing room at the same time!!!

“Yay!”

Lin Youhe, Wan Yunsheng all four of them shouted out in joy.

They jumped up from their seats!

Held tightly together!

This victory was not easy to come by.

Before the game, few people were optimistic about them.

“Win, win.”

Su Jicheng and the school leaders in the viewing room were also excited!

When they saw the flying demon ape, the heart was all cold.

Thinking that the great momentum had already gone.

But no one expected

The flying demon ape was scared away!

“It’s not easy to win.”

Inside the void of Bei Dou University.

A group of elders also breathed a long sigh of relief.

Relying on this shabby lineup of the Bei Dou University.

Being able to defeat the Behemoth Academy

Everyone's goals have been fully achieved!

"Top sixteen, here we come!"

Lin Youhe laughed out loud.

Hugged everyone.

The smiles were overflowing.

Very excited!

Even Jian Ziqiang, who was always silent, also showed a smile.

They all came outside and celebrated again with Su Jicheng and the others.

"Good boy."

A school leader smiled and looked at: "You guys did a great job defeating Behemoth Academy beyond everyone's expectations!"

"Wait for the next round of sixteen, just relax and don't work too hard."

At this time, the crowd was very happy.

Because

Getting into the top sixteen was considered a great success!

Especially this current lineup that was missing the two main players, Prince Qing and Li Zihao.

It was better than the average result of Bei Dou University in the past.

Most previous exchange matches, Bei Dou University was eliminated in the first round.

"Take a step and see."

Jiang Fan said calmly.

The goal was just the top sixteen?

That was impossible.

Shortly after, the competition between Bei Dou University and Behemoth Academy ended.

The other schools' competitions also came to an end.

The results were no surprise.

Except for this one game of Bei Dou University which was a blowout.

The schools in the upper group of the rankings all won The final victory!

There was no draw for the top sixteen matches.

According to the previous draw for the matchups!

Su Jicheng and others after a brief celebration.

They hurriedly started researching the next opponent and formulating tactics

The opponent of Bei Dou University's top sixteen was

Sea King Academy!!!

A superb academy that specialized in creating water-based transcendent species.

When the crowd realized that they were playing against this opponent.

The faces all looked a bit strange.

“This How are we going to fight?”

Lin Youhe blinked, somewhat confused, and asked.

“It’s not good to fight”

Wan Yunsheng said with a gloomy face, “Sea King Academy ranked eighth. They have three mythical level and two legendary level! Even more underwater, the race we built”

“In addition to my water cannon turtle, it seems that it can not deal with the opposite side.”

“Even Jiang Fan’s Musketeer!”

“Is it a water transcendent species?”

When Xue Rengui and Su Dingfang heard Jiang Fan’s prompt.

But the corners of their mouths revealed a smile!

Compared to the aerial creatures.

They were more willing to deal with the underwater ones!!!

Chapter 417: Blew up Two cities in a row! The biggest dark horse!

After a half hour break.

Soon, the top sixteen matches would began!

Those who could reach the top sixteen were not weak!

Except for Bei Dou University.

They originally divided all of them into the upper group of schools.

There were also several matches that were extremely close and could be said to be The strongest rivalry!

Most of the people went to see the spotlight match.

The one between Bei Dou University and Sea King Academy.

The attention was not high.

Of course, there were many people watching.

Especially the group of people in Ao Xiong’s villa who were staring to death.

In the last game, they defeated Behemoth Academy, which was beyond everyone’s expectation!

“Their tactical arrangement is quite good. The maze puppet and the Goblin Chief holding the front, and the Water Cannon Turtle in the middle. The demon and the musketeer can output without any worries!”

A teacher analyzed: “Just now the Behemoth Academy is stronger than this, but...”

“It’s just that they suffered in long-range output, and were beaten to death!”

“This time there is no such possibility.”

Another teacher smiled softly and said, “The opponents are all underwater races. Jiang Fan’s side does not have an advantage at all!”

“The Sea King Academy side has three mythical level, two legendary level, and the strength is completely crushed.”

Li Leihao continued: “This match... There should be no fight! Stop here!”

In the front projection screen.

The game has already started.

Because the Sea King Academy players built all underwater races.

The race venue was naturally different.

Jiang Fan and Lin Youhe and the others found their own teams on a small island!

Around the island, it was a vast lake.

Beneath the lake.

They could clearly see a huge unknown creature swimming around!

Unceasingly observing the crowd on the island.

“How is this going to be fought?”

Xue Rengui and Su Dingfang both raised their eyebrows.

After observing for a while.

A scouting soldier suddenly had a stony face and said, “Report, it seems to be empty down here!”

“What?”

It slightly startled Xue Rengui.

Immediately, he had someone check the ground underneath his feet.

Not long after that the initial results of the inspection came out!

What surprised the crowd was

The bottom of this island was actually hollow.

There was a canal inside, connected to the lake outside.

At the same time, the crowd also found out!

The surrounding lake was decreasing at a rate visible to the naked eye.

But the size of the island was also shrinking!

Jiang Fan and the others in the sparring room were not much surprised.

This was the special map for land-based species versus water-based species!

Otherwise.

-One would stay on the ground.

And the other in the water.

Both sides didn't want to risk it.

How long would it take to fight?

So this was the way to use it.

The lake and the island would gradually become less and less with time.

Even if you didn't do it till the end.

Definitely still had to encounter them.

Therefore

Before that.

-Must find a way.

To take out the opposite side first.

Rumble

The Great Desolate Army was setting up tactics.

Suddenly, there was a sound of digging stones coming from the bottom.

"It should be the giant otter bred by Sea King Academy digging a hole down there."

Lin Youhe said.

"What should we do? Let the Water Cannon Turtles go down to stop it?" Xiang Zhifei asked.

"Water cannon turtles?"

Wan Yunsheng immediately shook his head and said, "The water cannon turtles are simply not as fast as the giant otters in the water. They can't stop them from digging the hole down there!"

"If we don't stop it, we will lose when these giant otters empty the plot."

Xiang Zhifei was a bit anxious.

"Do we have to go down to the water and fight them?"

Lin Youhe refused with a face.

Clap

At this time, there was another movement from the lake.

That was visible on the surface of the lake.

A gigantic shark sprang out!

These sharks were like great white sharks

But the teeth were even sharper and slimmer!

“Megalodon!”

Jiang Fan’s head came up with the information he had previously read about the five members of the Sea King Academy.

These megalodon were the transcendent species created by that great mythical level academy of the Sea King Academy!

It was the opponent’s main output!

Those sharp teeth could bite off steel plates!

They didn’t know how many megalodon sharks were under the lake.

Shadows and shadows.

It looked terrifying.

All seemed to stare at the island.

Waiting for the opportunity to come up!

“Wait, when they come up, we will find a chance to finish these guys.”

Lin Youhe said.

“That’s all we can do.”

Xiang Zhifei was a bit depressed.

Facing the underwater race.

It was completely helpless.

“This battle should be easy, right?”

In the other sparring room.

The five people from Sea King Academy were somewhat bored as they watched the match venue.

This was how the sea and land matchups were.

The species in the water took the initiative.

It just took a lot of time every time.

“The most powerful opponent was Jiang Fan’s Musketeer, with high output and long range, but it’s not much use through the water.” A rather handsome boy laughed lightly.

They also researched Bei Dou University.

Especially Jiang Fan who was the captain!

“Hurry up. We still have to study our opponents for the next round.”

Another girl with a good posture was also lying against the back of her chair and said.

Above the small island.

Only the Great Desolate Army was unhurriedly passing through the planet passage.

A huge launcher was brought in on a big truck!

“Huh? What’s this again?”

Lin Youhe’s four eyes were immediately drawn over.

But they already saw it as strange.

Every time, Jiang Fan always came up with something new and strange.

“Torpedoes.”

Jiang Fan explained, “Specially used against underwater creatures.”

Accompanying the huge launcher was

-Small torpedoes!

Used against megalodon sharks.

Small torpedoes would be enough.

And!

They also laced these torpedoes with poison gas.

There was a special name – gas torpedo!

Its lethality was very strong underwater.

Torpedoes were currently the most powerful conventional weapons of the Great Desolate Army to kill people!

The seawater was 800 times more dense than air!

With the same explosive power and without considering other factors. The destructive power of the torpedo was almost 800 times more than the equivalent shell.

In terms of specific data, 180 kg of shells could paralyze about 3,000 tons of warships out of action, while the same level of torpedoes were enough to sink a 50,000-ton ship.

Super large torpedoes could even tear apart the aircraft carriers!

Although small torpedoes were not as strong.

But against a small megalodon, it won’t be a problem.

For this small glory conquest.

The Great Desolate Army prepared a considerable number of torpedoes!

Especially the small gas torpedo!

Lin Youhe and others were staring intently.

The Great Desolate Army launched a poison gas torpedo into the water!

The torpedo accelerated inside the water.

It was getting faster and faster.

A group of giant tooth sharks that were preparing to attack the island soon discovered these unidentified objects!

Seeing the torpedoes speed up in the water.

It couldn't resist!

How could it dodge?

Torpedoes were underwater missiles!

With its own guidance system.

After a while, a megalodon was chased by a gas torpedo.

The torpedo hit the megalodon.

Boom!

There was a loud noise!

A splash of water exploded!

It splashed several meters away.

Immediately after that

A shower of blood gushed from the water.

The surrounding lake was stained red with blood!

And the planet master who bred the giant tooth shark.

He was also the captain of the Sea King Academy's team.

Surprised to find that

This Megalodon shark was dead!

The Sea King Academy crowd had not yet reacted.

The Great Desolate Army fired twenty more poison gas torpedoes one after another!

The targets was

The most powerful Megalodon shark under the water!

The result was as expected!

None of the sharks could escape from the torpedoes.

-Once they were hit.

The power of the explosion plus the poisonous gas inside.

Let these twenty megalodons... had no chance of life.

Died on spot!

Lin Youhe and others watched in awe.

They could imagine that Jiang Fan's new type of weapon should be more powerful.

Chapter 418

418: Blew up Two cities in a row! The biggest dark horse!

But they didn't expect it to be so powerful!

Under the water, the hit rate was a hundred percent!

Even a speedy megalodon couldn't dodge it!

After a short while, the water that was originally clear.

The blood that had been shed by the megalodon was almost dyed red.

The five people from the Sea King Academy were even more dumbfounded.

Their chairs were not yet warm.

Still waiting for the giant otter to dig through the island.

Then make a surprise attack.

But the megalodon on their own Already hung up twenty of them!

Megalodon sharks were extremely difficult to breed.

Even in secondary planets, there were only a thousand of them bred.

"We admit defeat."

The Sea King Academy's team leader sighed and said directly.

"Captain?"

The others looked at him puzzled.

The captain of Sea King Academy shook his head and said, "You guys can deal with this kind of oblong monstrosity? What's the point of continuing to fight, other than adding casualties in vain?"

The other four were silent for a while.

They were helpless and unwilling.

But there was really nothing good that could be done.

"Sea King Academy concedes defeat, and the Bei Dou University team has won this match."

The referee announced.

“A win!?”

Lin Youhe and the other four people all blinked their eyes.

Feeling unbelievable!

This included Su Jicheng and the others outside as well.

Before this match.

Not many people were optimistic.

Sea King Academy not only had strength suppression.

It also built underwater species.

Completely restrained Jiang Fan's side.

What everyone predicted was How long Jiang Fan and the others could hold out.

But no one expected

Not only did they win.

It also ended so quickly!

It was one of the eight matches in the Top 16.

The earliest one ended!

The other matches had just started.

When Lin Youhe and the others walked out of the match room.

They were still a bit confused.

They didn't seem to have done anything yet.

Purely relying on Jiang Fan's strange weapon called “torpedo” And then they won?

But then the reaction came.

“The top 8, top 8, haha!”

Lin Youhe and Xiang Zhifei were both quite excited.

Even the more composed Wan Yunsheng slightly clenched his fists.

This was something that happened before coming

Something that was definitely unexpected.

“Good job, good job.”

The vice principal leading the group came over.

Constantly patting the shoulders of Jiang Fan's group.

There was a slight wetness in his eyes.

It wasn't easy.

There were several vice presidents of Bei Dou University.

He was the youngest and the one with the least real power.

This time the varsity lineup was so bad.

Everyone else felt that the odds were against going home in the first round.

None of them were willing to lead the team.

Finally, the task was pushed to him.

However!

No one expected

Not only did they not go back home quickly.

Also played into the top eight!

To know that the last time the Prince led the team.

It was only this achievement too.

“Now let’s see what those people from Ao Xiong and the elders group still have to say?”

Su Jicheng was also quite happy.

Jiang Fan had forced Ao Xiong to leave the team.

The controversy in the school was very big.

Although Ao Xiong was at fault.

But Jiang Fan’s behavior...

It aroused the resentment of many people.

Considered too arrogant and cocky.

But!

With this battle today.

No one would dare to say anything else.

“Hahahaha, it seems that the decision we made at the beginning was correct, the Great Mythic Level is worthy of the Great Mythic Level, it is able to create miracles.”

In the void of Bei Dou University.

The old man in gray laughed and said.

The others also smiled.

Many were forced to vote by a show of hands last time.

The elders who were quite critical of Jiang Fan inwardly.

This time also felt that they had the foresight!

Only the old man in black and a few others were silent.

Not everyone was happy.

In Ao Xiong's villa.

A group of people headed by Ao Xiong.

The faces were not so good.

"This Jiang Fan really built musketeers that strong?" A teacher asked in disbelief.

No one answered his question.

This one ended a little too quickly.

Many people didn't react.

Nor did they knew what had happened.

Just saw

One oblong object was launched into the water.

The megalodon on the other side were killed one by one!

Since it was the first team to end the game.

Jiang Fan's side even had time to watch the other teams' matches!

The main concern was of course.

They might become the next opponent of the showdown between the Sirius Academy and the Magic Eye Academy!

The difference in strength between these two schools wasn't that big.

The fight was sparkling!

Very intense!

"Go Magic Eye, go Magic Eye!"

Lin Youhe and Xiang Zhifei were both cheering for Magic Eye University.

After all

Sirius Academy was one of the six Starlight Academies.

The strength was more powerful.

Magic Eye Academy was not weak either though.

It was ranked much higher than even Bei Dou University.

But after defeating the Behemoth Academy and Sea King Academy one after another.

It made Lin Youhe and the four feel a little more confident in their hearts.

It felt like a dozen with the Magic Eye Academy!

But

The truth often doesn't work out.

After a fierce duel.

Magic Eye Academy couldn't stop the wolf pack of Sirius Academy!

It was Sirius Academy's superior skill!

It laughed until the end.

In this way, Sirius Academy made it to the top eight.

The opponent of the final eight of Bei Dou University was...

Sirius Academy, one of the Six Schools of Starlight!

"Sirius Academy is very unique, they don't just have a university, they also have an elementary school, middle school, and high school."

Su Jicheng gave the crowd a scientific explanation, "Adopted many orphans and started to cultivate them from a young age!"

"The ones created are almost all the same transcendent race – the Blood Wolves!"

"There are all of them from primary to super!"

"The most powerful of them is the super Heavenly Wolf!"

"This time, the Sirius Academy's team has four Mythical Levels and one Legendary Level."

"As you have seen in the battle just now, a super species like Sirius is very powerful and also comes with its own talent, the most crucial thing is"

Su Jicheng swept a glance at the crowd and said with a grave expression, "The number of Sirius is also very large, the five team members cultivated together, there are more than 100,000 heads!"

Lin Youhe and the others also had gloomy faces.

This was what they've encountered so far...

An opponent with the largest number of extraordinary species!

"Are there any that can fly?"

Lin Youhe asked.

"Can it fly? That's not true."

Su Jicheng said.

Again, there was a half-hour break.

The final eight officially began!

This time, the competition venue was on a vast Gobi beach!

Not much favorable terrain.

Relying on the guidance of the drones.

Other species also came here to the Great Desolate Army.

Established a basic position!

Ow

It didn't take long for the camp to be built.

There was a loud wolf howling in the distance!

"This is the wolf king of Sirius. Sirius is a very obedient race, similar to our army." Xue Rengui said, looking into the distance.

Rumble

A moment later.

There was a trembling sound on the ground.

It was as if there were countless Heavenly Wolves running around!

What did a wolf pack of over one hundred thousand heads look like?

A few minutes later.

The Great Desolate Army and Jiang Fan saw it.

It was a terrifying thick line of blood red and silver white!

This was the color of the heavenly wolves.

It was dense and thick.

One eye could not even see the end.

Under the command of the Heavenly Wolf King.

More than a hundred thousand wolves scattered.

Surprisingly, they surrounded the Great Desolate Army, the Demonized People, the Maze puppet and the other races . Tightly surrounded in the middle!!!

"Are they trying to attack from all directions at the same time?"

The face of Su Jicheng and the others who were watching the battle all changed slightly!

This tactic Really caught the dead center of the Bei Dou University team's side!

Chapter 419: Storm Attack! A long-awaited roar!

Over a hundred thousand Heavenly wolf packs surrounded from all sides though!

But

It did not approach!

Rather, they looked from afar.

It stretched the distance to four kilometers.

Basically, it was out of the range of Jiang Fan's long-range output!

So many heavenly wolves, but no chaos at all.

Words and actions were forbidden!

With a hint of ghostly light in their eyes.

Coldly and solemnly observed this side.

Surrounded by so many Heavenly Wolves.

It made people feel unnerving.

"The other side is very well prepared to think of attacking from four directions."

Seeing this scene, Su Jicheng faintly frowned.

This was completely unlike the first two games.

They knew little about this side of Bei Dou University.

Confidently went on the playing field.

The result

Long-range output by musketeers and demons ...

Beat the armor and discard the armor.

A defeat!

"The most powerful thing on our side is the long-range output, especially Jiang Fan's Musketeer, and in terms of output alone, Xiang Zhifei's Demonized Man isn't inferior to those Mythic level races!"

Another teacher said.

The others all nodded their heads.

Previously, they won two matches in a row.

Eliminated two powerful opponents.

The main reason lies in

The opponent did not expect the output of the Bei Dou University team.

Totally did not expect

They would have such a terrifying output!

"Behemoth Academy is actually somewhat similar to us."

In the Sirius Academy's sparring room.

The five varsity members were observing the situation on the playing field while discussing tactics!

Since the break was only half an hour.

It was too hasty!

They also didn't expect that at all

The one they ran into was actually Bei Dou University!

Previously the main preparation was used to deal with Sea King Academy's!

"It's all melee combat, no long-range output."

A team member said, "In terms of single combat power, those giant beasts of the Behemoth Academy are still above our heavenly wolves, especially the Demon Ape, and only the Heavenly Wolf King can match it!"

"But we also have an advantage."

"Besides numerical superiority, the main thing is"

"Our wolf pack is a complete pack that works very well with each other and is good at team fighting!"

"The pack wolf tactic is our biggest advantage!"

"It's just that the opposite side's output is high, the water cannon turtles are okay, the key is Jiang Fan's musketeers and Xiang Zhifei's demonized people."

The Sirius Academy varsity captain stared at Jiang Fan's side of the playing field and said, "As long as we take care of these two races, then it's all good!"

"Their weaknesses are also obvious."

A more literate looking team member analyzed, "Although they have maze puppets and Goblin Chiefs, their defense is not considered high!"

"One direction is fine, four directions, attacking without dead ends. It is difficult to defend the opposite side completely!"

"As long as the defense line is torn, what awaits us is one sided killing!"

"But to tear through the defensive line, I'm afraid we have to pay an insignificant price."

"It's okay."

Captain Sirius smiled softly and said, "Our Sirius group is not afraid of death. Compared with other groups, it is easier to cultivate."

"This battle"

"Be prepared to give half of the heavenly Wolves' lives and directly break through the other side's position in one go!"

At the same time, Jiang Fan's side was also working closely to set up the defense line.

Although the Great Desolate Army had big killers.

But the defense of the ground still had to be fully prepared.

Previously, when dealing with the Behemoth Academy.

Only one direction was used to defend.

But now it was

All over the place!

It wasn't difficult at all!

Moreover!

There was no focus on the attack of the Heavenly wolf pack. There were tons of Heavenly wolves in every direction!

Jiang Fan could only have the musketeers and demonized people in the center.

They arranged the maze of puppets at the outermost edge.

Lined up in a circle.

The Goblin Chief remained hidden in the maze.

The water cannon turtle was hiding behind the maze puppet.

Desperately spitting water bubbles with all his might.

Preparing to create a simple "moat" out!

Facing the stares of the wolves around.

Lin Youhe and the others were all a little nervous.

"The number of wolves is too many."

Su Dingfang observed a circle.

He also frowned slightly.

"This is over 100,000 heads. Each one has a strong battle power, not good to resist."

Xue Rengui glanced at it and said, "Even the speed gun can't solve it!"

Ow

This time.

In the distance came a wolf howl that knew brightly.

It was like the horn of sending troops.

The 100,000 Heavenly Wolves pack four kilometers away

Started moving slowly!

It rushed towards this side.

They ran faster.

They ran faster.

Ow! Ow! Ow!

Another series of wolves howled.

It was even louder than before.

Hearing that Lin Youhe and the others' faces changed greatly!

"This is the Heavenly Wolf King's talent, able to use the wolf howl to stimulate the bloodlust of the wolves underneath, allowing the wolves' speed, agility, strength, and so on to be strengthened in all aspects!"

Su Dingfang said with a gloomy face.

"On the other side... is this a direct, decisive battle?"

Xue Rengui smiled faintly.

But not out of expectation!

The two had discussed the tactics of the Heavenly Wolf Pack.

If it were them.

Surely they were thinking of how to tear apart this side's defense line in one breath.

– Once deadlocked!

Then they would be reaped by the musketeers and demonized men!

"It's a showdown!"

"Is this going to be the winner?"

Su Jicheng and the others who were watching the battle outside were a bit surprised.

They didn't expect

This side of Sirius Academy was so decisive!

It came straight up and fired on all cylinders!

They used Heavenly Wolf King's talent.

Rumble

With the addition of the Heavenly Wolf King's wolf howl.

The speed of the 100,000 Heavenly Wolves increased by a few points!

Like a phantom shadow with a glint of blood in their eyes.

Frantically pouncing on Jiang Fan's side of the position!

It was really the momentum of the entire army!

The earth was trembling.

Suddenly

As soon as they got within range, the eight continuous speed guns of the Great Desolate Army fired directly!

Crackle!

Bullets hit the ground, rocks, and Heavenly wolf!

It covered the heavenly wolf with a layer of silvery white and blood red...thick fur.

The power of the armor-piercing bullets was weakened a lot.

Although the body of the heavenly wolf was not as good as the demon ape.

But with this additional layer of more defensive fur.

The defense of armor-piercing ammunition was strengthened more on a point!

Jiang Fan and the others also saw that these wolves were not afraid of death.

Even if the heavenly Wolves in front had been hit by a dozen armor-piercing bullets.

But still held their bodies strong.

Continued to press forward.

It did not fall down until it used up its remaining strength.

And the wolves in the back continued to pounce on.

There was no fear in their eyes.

Rumble

chug chu...

In all directions, there were the sounds of the wolves treading on the ground and the sound of rapid gunfire!

These heavenly Wolves were also very cunning.

Not like the demon apes in the first battle.

They would only bore their heads and charge forward.

And dodge left and right!

Trying to minimize being shot by armor-piercing bullets.

Puff puff.....

Under more than a thousand units of eight continuous speed gun fire.

One by one, it hit the Sky Wolves.

I hit the front ones with an unknown number of bullets.

Then

Fell down one by one!

Chapter 420: Storm Attack! A long-awaited roar!

But there were too many heavenly wolves in the pack.

The distance was rapidly drawing closer!

The hearts of Lin Youhe and others were raised higher and higher.

Only Jiang Fan was not worried.

Because before this

The side of the Great Desolate Army did not want to rely on the continuous speed gun.

To solve these huge numbers of wolves.

Instead directly used the Great Desolate Army's decade-long research.

The product that brought together the most advanced technology and the most advanced weapons at present –

Xia's latest type of warplane, the Rainstorm Generation!

As the name implied!

Compared to the warplanes of the Yan era.

Through major improvements in engines and stealth, integrated avionics systems and logistics.

The complete union of mobility, agility, flight performance, stealth, information fusion, better situational awareness and the ability to network operations had produced advantages that have never been seen before in all phases of fighter development.

This was the real fighter.

With firepower as terrifying as a rainstorm!

At the same time as the 100,000 Sky Wolves surrounded the side of the Great Desolate Army.

The other side of the planet passage.

On the airfield near the Royal Tomb Mountain Range.

A streamlined rainstorm warplane was waiting here.

The number reached twenty!

The length was 18 meters!

Wingspan 13 meters!

"Storm Warplanes, prepare to depart, the mission of this operation was Destroy 100,000 Heavenly Wolves!"

Xue Rengui issued the order through the radio.

Then

One by one, the warplanes took off.

Crossing the planet passage and entering inside the competition venue.

And this time.

It was when the wolf pack was attacking Jiang Fan's side of the position in a big way.

The appearance of twenty storm fighters.

It immediately caught everyone's attention.

"This What is this?"

Lin Youhe asked in surprise.

There was no need to guess.

He also knew that this must be something from Jiang Fan's side again.

"Pilot, the newest race created after the planet rose to level two." Jiang Fan explained nonsense.

"Pilot!?"

Looking at the incredibly fast and large storm fighter.

Lin Youhe and the four others froze.

Compared to the Musketeer

It looked much more terrifying!

And on this side of the Sirius Academy.

Five members of the team also noticed the unidentified object in the sky!

"This is What is it?"

-A team member exclaimed.

"I don't know."

The literary-looking boy frowned slightly, observed for a while. His face gradually became grave and said, "It looks slightly similar to the airship, but not quite the same, and it's very fast!"

Yes.

The speed of the storm fighter was over two thousand kilometers per hour!

That was

About 600 meters per second!

And the speed of the sound was only 340 meters per second!

It was hard to see clearly with the naked eye.

Compared with the jets of the previous world.

The performance of the storm fighter was about the same as the fifth generation!

Thanks to the three magical metals of star meteorite iron, vibranium and tearstone.

On the fighter jet material, it was even better.

So other aspects were weak after the case.

The overall performance was comparable.

Could fly up to 20,000 meters in altitude!

The cost of each one was very expensive.

The former Raptor.

The cost was up to hundreds of millions of dollars.

The Great Desert Army wanted to make more.

But there was no way

The cost was limited.

However

Twenty storm fighters were enough!

-Twenty fighter jets came whistling.

Straight to pounce on the 100,000 Heavenly wolf pack below.

“Pay attention to the defenses. Release the wolf pack to stop their attack and deal with these flying objects first.”

The Sirius Academy captain immediately ordered.

He was also a very steady person.

Not daring to take a single risk.

Ow.....

The heavenly Wolf King then immediately let out a wolf howl.

A single heavenly Wolf immediately stopped in its tracks.

Raising their heads.

Staring at the storm fighters swooping in the sky at high speed.

The whole body was ready for defensive action.

“What is this again?”

Inside the battle viewing room.

Su Jicheng and the others were all startled when they saw the storm fighter.

“Could it be a new weapon that Jiang Fan Musketeer awakened? Or is it a new race that was built?”

A teacher guessed.

It’s hard to say.

These teachers were still quite experienced.

Guessing right away.

“It’s fast, it should be more powerful than the Musketeers, but the number is a bit too small, only twenty. Can it deal with this hundred thousand pack of Sky Wolves?”

A school leader said with some concern.

To Jiang Fan, who knew the performance of the storm fighters.

Twenty of them were completely enough!

On top of the storm fighters.

It was equipped with an even more powerful killing weapon than the eight port continuous speed gun – the continuous speed machine gun!

This machine gun had a muzzle of twelve tubes!

The rate of fire per minute was up to 20,000 rounds!

This was a completely incomparable figure of the machine gun in the previous world.

Naturally because in the previous world machine guns had to consider the temperature and wear and tear of the muzzle.

Unable to carry out higher speed operations.

And with the three magical metals of the Great Desolate Army

There was no need to consider so much.

The rate of fire of a single mouth could reach thirty rounds per second!

Twelve mouths, meaning three hundred and sixty rounds!

And twenty war machines combined!

Each second could send out Seven thousand two hundred armor-piercing bullets.

The rate of fire per minute was

A staggering two hundred and forty thousand rounds!!!

The rate of fire exceeded one thousand five hundred meters per second.

In the middle of the sky, the storm fighters completely dominated the initiative.

These heavenly wolves can't fly!

Even if the jumping power was amazing.

But it definitely could not reach the sky of the rainstorm fighter.

But the fighter's weapons were not only the speed gun!

There were two built-in bomb bay.

Four external attachment points.

They loaded it with more than 2000 kg of shells!

“Fire freely and repel these heavenly wolf packs.”

Xue Rengui issued an attack command.

If it was a conquest of an alien planet.

They might exterminate it.

But this was a competition.

Just let the other side know to be afraid.

Twenty storm fighters lowered their positions.

Swiftly swooped down.

This was different from the previous rehearsals.

The previous hypothetical opponents were various airborne, transcendent creatures capable of flight.

The pilot needed to control the fighter planes at the same time.

Aside from where flying creatures could attack.

And this time

They were no threat in the air!

Just needed to attack with all their might!

Rumble

-A single shell poured out!

Falling amid the wolves.

Completely exploded!

In an instant, several hundred shells fell.

It startled the wolves into a panic.

But after the explosion.

The heavenly wolf pack also found out that

The explosion killed or seriously injured only a few of the Sky Wolves.

The other Sky Wolves could still resist the impact of the shells by relying on their thick fur!

For such physically strong transcendent creatures.

The blast wounds had little effect at all.

Just give them enough time and they will recover intact!

But the more terrifying weapons were still in the back.

Twelve continuous speed machine guns were firing!

Within one second.

Over 7,000 rounds of armor-piercing bullets were fired wildly at the wolves!

It instantly hit one unlucky heavenly Wolf by More than a hundred bullets.

Crackling!

Beaten into a hornet's nest!

Dead beyond belief!

The other Heavenly Wolves who were close to the fighter were not much better.

Under such terrifying firepower.

In just a second, more than a hundred Sky Wolves had fallen!

Bloody slaughter began!!!
