

One Night Stand With The Uninvited Wolf President

Chapter 140 Right There in the Moment

Sally was shocked when she received a call from the prison.

For all these years, she had occasionally asked someone to bring George a photo of Ceres, which was what George had requested. However, George had never requested to see Sally. Perhaps it was because he hated her so much that it was better for him not to meet her.

Therefore, Sally was rather surprised when she heard from the prison that George wanted to see her.

It was a critical period now and she still needed to rely on Ceres. So it might be a good thing for her if George wanted to see her since she knew that Ceres was always obedient to George.

Sally lied that she had something to do in her hometown and came to the prison in City M.

Sally and George had not seen each other for many years, and they looked more or less older.

When she saw George again, Sally could not deny that she was still deeply attracted by this robust man.

Back then, she had been attracted by his unyielding temperament. Later on, when she was with Mike, who had grown up in luxury, she missed George's manly spirit even more.

"Long time no see. How are you going?" Sally smiled, but she was no longer as innocent as before.

In George's eyes, she was spoiled by money.

"How is Ceres?"

George paid no attention to Sally's polite greetings.

Sally didn't know how to answer. After a long time, she finally said, "Well."

"Is she with Johny?" George asked straightforwardly.

This question surprised Sally. She didn't expect George to know about the things that happened outside of the prison. "How do you know that?"

"So it is true!" George tightly gripped the railing with handcuffs on his hands.

"Silence," the prison guard shouted from behind.

George immediately nodded towards the prison guard. Then, he slowly put down his hands and lowered his voice a lot, "How did they be together?"

"It's a long story. Anyway, your daughter has the talent to be a social climber."

It was indeed a long story and the visiting time was too short. Sally was reluctant to tell George how Ceres had married Johny as a substitute for Mary, so she just skipped it.

"Why didn't you stop her?"

George did hope Ceres to live a good life, but he thought that the Winsors were so strong that Ceres might not be able to fit in. Moreover...

"How could I stop her? She loves that man so much that she doesn't even recognize me as her mother. What the hell did you tell her to make her hate me so much?"

Recalling how Ceres treated her, Sally pushed all the blame onto George.

"Don't you know what you did? Sally, you gave Mike the ten million I left for Ceres, didn't you?"

Sally became silent.

Back then, before George was put in prison, he had transferred a large sum of money to Sally's account. George thought that Sally was, after all, Ceres's mother, so she would not treat Ceres unfairly no matter what happened. However, he had never imagined that Sally would actually give the money to Mike.

He had learned it from the financial magazine later on. It was said that the Morris Group got serious cash-flow problems. But later, for some unknown reasons, there was a mysterious injection of funds. George knew by then that Sally had taken out the money to save the Morris Group.

"She can feed herself. She doesn't need so much money. So I just used it temporarily. I'll return it to her in the future." Sally turned to the other side.

"How can you return it by? By the Morris Group that is about to go bankrupt?"

Sally was once again surprised that George really knew a lot about the outside world.

George didn't want to waste time with Sally anymore, "Sally, we were once a couple and you are Ceres' mother. Do me a favor now."

"What is it?"

"Go ask Ceres how much she loves that man. If she really can't leave him and insists on being with him, then tell her directly that I am not her father."

"George, don't talk nonsense!" Sally's eyes widened.

George looked at Sally's expression and sneered, "Is there a need for you to continue lying? I was injured many years ago and lost my fertility. I couldn't be Ceres' father."

Sally looked at George and could not say a word.

To be honest, she didn't know whose child Ceres was. Back then, she went back to the village with George but she wholeheartedly wanted to live a rich life. One time, when she went to the city, she wished to bump into a rich man who could take her away, so that she could get out of the misery.

That time, she did bump into a rich man, but it was unexpected that after having sex, the man disappeared. So she had to come back in frustration.

Then she got pregnant. Since she and George had sex too, she didn't know if Ceres was George's or that strange man's child.

Now she finally knew the answer that Ceres was not George's daughter.

"If Johny is not good to Ceres, or Ceres is only with him on a whim, then you must try every means to break them apart!"

"The biggest obstacle to Johny and Ceres being together is you, a murderer! As long as you are not Ceres's father, all obstacles will disappear!"

"I'm not asking you. I'm asking you to ask Ceres."

"What's wrong with Ceres and Johny being together? Johny dotes on her and cares about her so much. She's really lucky to meet him!"

Sally also sighed, "Why can't I have such good luck?"

Back then, when she and Mike were together, she had tried her best to curry favor with Mike and to please every one of the Morrises. On the contrary, Ceres had effortlessly captivated Johny!

"Do you think everyone thinks the same as you?" George didn't want to put it too harshly.

George stood up, "Do what I ask you to do and I'll make it worth your while. Otherwise, it won't end well for you."

After saying that, George walked towards the prison guard.

Looking at George's back, Sally knew that George was formidable. A man who could easily take out ten million for his daughter was never a simple guy. She just did not understand why he had been put in prison.

At that time, she had been with Mike so she had not carefully thought about George's problem. Now that she thought about it, she learned that he was really not simple.

At Villa Amio

Ceres went home every day in the past few days, but Johny went out early and returned late every day. In the morning, he had already left before she got up. And he came back when she fell asleep at night.

On this day, Johny returned a little earlier.

It just so happened that Ceres was still awake.

Johny slept in the quilt with a heavy chill and hugged Ceres in his arms.

Ceres turned around. Although she had countless questions, she still did not ask. She gave Johny the greatest trust.

"Are you tired?"

Johny looked at the girl in his arms and kissed her lips.

They had been abstinent for many days and they were right there in the moment for sex.
