

One Night Stand With The Uninvited Wolf President

Chapter 298 Be Slapped on the Face

Caleb kept his eyes on Jamie.

"Jamie, are you serious?"

Jamie lowered her head and wiped her tears, "It's true! Dad, you have to believe me!"

Caleb looked at Roy. "What do you want to say?"

"Mr. Caleb, Miss Jamie is lying."

"You..." Jamie pointed at Roy and cursed, "How dare you! You don't dare to admit what you did, do you? You hugged me!"

"Yes."

As soon as he finished speaking, Jamie pointed at him and shouted, "Dad, did you hear that? He admitted it!"

"Miss Jamie asked me to hug her."

"You are being unreasonable! Why should I ask you to hug me!"

"Shut up!" Caleb shouted angrily, "Roy, do you have evidence?"

"Yes. Mr. Caleb, I lost something in my room these days. It is a private item. It is not convenient to make it public. So, I secretly installed a camera in my room. I recorded all when Miss Jamie came to my room."

Jamie's face immediately turned pale!

He installed a camera!

Caleb looked at Jamie and said, "Jamie, why don't we take a look together? We will know who is right and who is wrong."

Jamie suddenly raised her head, "Dad, do you know? Roy has always wanted the position of the heir of the Bullock Group!"

She quickly changed the topic.

"What nonsense are you talking about?" Caleb was stunned.

"You raised him up and regarded him as your son. Whether it was at home or in the group, there was always a place for him. If I hadn't appeared, you might have given him the position of heir. But I came back, and it was impossible for him to be the heir, so he had always hated me!"

"I saw him send Carly to your room!"

"What?" Caleb looked at Jamie in astonishment.

Jamie could only give it a try.

She did not know what was captured on the surveillance camera. She only hoped that Caleb would get angry when he saw Carly on the bed, and then ignored the surveillance camera.

"He and Carly discussed it. Carly hoped that she would have a place to stay, and he needed the position of heir. He put Carly on your bed, and when you come back, he would let Carly seduce you. Only the two of them knew about this."

"When he knows your scandal, you would definitely shut his mouth and give him more benefits."

"As for me, he naturally wants to be with me. Being with me means that he can control the group in the future!"

Jamie spoke so quickly that Caleb could not hear her clearly.

"Dad, if you don't believe me, you can go and see if Carly is lying in your bed!"

Jamie burst into tears after saying that. "Dad, I was forced to do this. I went to Roy's room. I wanted to seduce him because I knew about his scandal. I wanted to drive him away."

"Dad, you trust him too much. If I don't do this, you won't believe me. I'm doing this for you."

Roy looked at Jamie and curled his lips. This woman was good at acting.

"Alright, let's take a look together!"

Caleb brought them to his room and opened the door. The bed was empty!

"Impossible! How is this possible!" Jamie widened her eyes.

She sent someone to drug Carly. It was impossible for her to wake up in such a short time. How could she not be here?

How could it be?

"Dad, it must be Roy. He must have found out that the matter was exposed and hurriedly sent a message to Carly to let her leave. It must be like this!"

"Enough!" Caleb raised his hand and slapped Jamie on her face.

Jamie looked at Caleb in shock, "Dad, I..."

Caleb felt that his hands were trembling. He never thought that he would slap his daughter.

"Jamie, you've gone too far!"

Jamie covered her face and didn't speak.

"I always thought that you had suffered too much before. You were too proud after living a good life. You made things difficult for the servants and always lost your temper. I didn't blame you. But I didn't expect that you were full of lies and even schemed against Roy!"

Caleb raised Roy up. He knew well what kind of person he was.

"You don't need to do this at all. I have never thought of giving the position of successor to anyone else! I didn't expect that you would be unable to restrain yourself! You have actually started planning this!"

"Dad, I didn't. I didn't." Jamie felt wronged as tears started to fall from her eyes.

"Well, you don't have to go to the company these days. You should reflect on your mistakes at home. Think about what you did!"

Caleb roared, "Go back to your room! You are not allowed to go out!"

Jamie covered her face and left. She glared at Roy who was still expressionless.

Only Caleb and Roy were left in the room. Roy was still holding the video that had just been recorded in his hand. "Mr. Caleb, do you still want to watch this video?"

"No. I don't need to look to know what happened. Why do you think Jamie is like this?"

Caleb sat on the sofa sadly. Why was his daughter not like him?

Roy did not know how to answer.

"Maybe Miss Jamie just thought of the wrong place and went the wrong way. Mr. Caleb, you just need to teach her well."

Caleb sighed deeply, "I'm afraid that I don't have that much time to teach her."

Roy hurriedly said, "Mr. Caleb, don't say that!"

Caleb waved his hand, "I understand what you mean, but I also know my body. You don't need to say that to comfort me. Roy, apologize for Jamie."

Roy shook his head, "The one who needs to accept the apology is Carly."

Roy told him everything that had happened during the day and told him that what had happened today was planned by Ceres.

"She is indeed clever."

Caleb smiled, "She is smart. She knows how to protect herself. I underestimated her."

"Mr. Caleb, it's getting late. You should rest early."

"Alright."

Roy left Caleb's room and returned to his room. After thinking for a while, he took a bottle of medicine and went to the maids' dormitory.

"How is it? Am I right?" Ceres ran out when she received the news.

At first, when Ceres said that Jamie would definitely make a move tonight, Roy did not believe her. But she was right.

"You are smart."

"No. I know Mary too well!"

Roy handed the medicine to Ceres. "It is useful. Take it."
