

## Origin Powers 761

Chapter 761 I Want to Make a Deal with You

"Quill, go and release a signal in the cosmos, as I taught you earlier. It's time for all our clansmen to know that our home hasn't been destroyed. Our mother is still waiting for us to return."

Xiong Zhen's fierce eyes were already filled with nostalgia.

Even if he had ripped apart the Titan Race single-handedly before, he hadn't been moved in the slightest, but now, just seeing that blue planet...

Tears were already brimming in his eyes uncontrollably.

He said to the captive beside him, "Hurry up. I can't wait to drink with my clansmen in my new home."

Quill, at this moment, looked utterly disheveled, with one of his arms torn apart.

The once high-spirited Master of the Titan Civilization, facing this powerful Level 11 Demon Beast, was so fragile that he had almost no ability to resist. Originally, when they stumbled upon an uninhabited, desolate planet, they only intended to land for some supplies, intending to check if the planet could serve as a temporary place for them to recuperate and survive.

But who would have thought the planet was indeed uninhabited?

Yet, someone else had the same idea, and had settled on this planet.

And the shape and style of the buildings were just like those on Blue Star...

This naturally provoked Quill's anger.

Heaven knows, their Titan Civilization had fallen to this point, all thanks to Blue Star, right?

The Bingshuang Civilization, Xueyan Civilization, Elemental Spirit Civilization, etc... These civilizations had the same crisis as they did.

But over the years, it's heard that they've all escaped the threat of planet destruction.

No one knows exactly how they managed it, Quill even knows that a powerful resource called Spirit Stone emerged on these reborn planets, resources so valuable that they even surpassed the most precious Black Gold.

Obviously, planetary rebirth was not just rebirth, but also brought them enormous Creation.

The secrets of Blue Star were real.

And Xu Lingjun, to please many civilizations, actually shared this secret.

Unfortunately, when Quill privately reached out to these civilizations, trying to buy this secret with a heavy price... he faced refusals from all civilizations.

Even the strongest Bingshuang Civilization, or the Yalin Civilization that had interacted with them before, were unwilling to share this secret, stating it was Blue Star's greatest secret, and revealing it would truly and thoroughly offend Blue Star.

Ridiculous... offend then offend.

Merely Blue Star, a small civilization that just entered Level 2 Civilization, surely its power doesn't already surpass all your civilizations, almost reaching Level 3 Civilization, right?

Utter nonsense, fearing offending Blue Star seems false, likely it's fearing the Titan Civilization, not wanting Titan to be the first Level 3 Civilization that's true.

Everyone's selfish indifference resulted in the Titan Civilization's tragedy today.

And Blue Star, undoubtedly, was the source of everything. Now seeing these familiar buildings, how could his heart refrain from sadness and anger?

He immediately ordered the destruction of the building that had existed for a while...

Then, nightmare ensued.

A giant beast with an astonishing physique descended from the sky, its body even larger and stronger than their Titans, tearing apart thousands of Titans... The Titan bodies, once tough to withstand blades and bullets, were as fragile as paper against it.

With no other choice, everyone could only abandon resistance and flee back to the warship...

But who knew, the opponent not only had a huge body, but could also transform into a human-sized shape.

It quietly clung to the warship, then tore it open, following them to another planet... When they fled embarrassed from the warship, they found that the largest of their warships, housing hundreds of thousands of Titans, had been ripped to shreds.

The one exiting was a blood-stained figure.

A monster that looked indistinguishably human... They even witnessed this blood figure transforming back into a Giant Ape.

Smashing numerous warships.

Even slaughtering nearly half of their remaining population.

No escape... the opponent could even survive in the cosmos, and when they tried to flee into the warship, it would pierce the warship before it lifted off.

Titans were strong, but couldn't traverse the cosmos like this. Facing such a terrifying monster, if not for Quill's quick decision to surrender.

Otherwise, by now, his people would probably have been entirely slaughtered.

To single-handedly destroy a civilization.

How terrifyingly powerful...

Quill once thought Xu Lingjun, who could take his punch unscathed, was strong enough.

But now, compared to this monster.

Either way, both were enemies he couldn't match... This world had no survival path for normal ones like them.

But even with surrender, the Titan Race was down to just over a dozen.

And he finally learned the other's identity...

A native of Blue Star?!

At the moment Blue Star was about to be destroyed, relying on sheer physical strength, directly breaking away from the planet and fleeing into space.

Indeed... my life seems cursed by Blue Star.

When Quill learned the truth, he truly cried.

"Why are you crying?!"

Chapter 762 I Want to Make a Deal with You\_2

Xiong Zhen was at this moment tearful, yet he glared angrily at Quill, shouting: "I've finally returned to my home, and here you are crying, what, you aren't happy for me?"

"Yes."

Quill didn't dare say more, he could only suppress his grief and help Quill send out the signal.

And shortly after the signal was sent...

The ship's interior suddenly flashed with glaring red alarm lights, accompanied by a piercing sound.

"Warning, warning, a ship above Monarch level is approaching, the other party requests communication, should we accept communication?"

"It's a Blue Star patrol fleet!"

Quill was shocked: "They use Monarch level battleships for patrol now? Just how rich has Blue Star become?"

"Receive the signal!"

Xiong Zhen's face darkened, speaking lowly.

At this moment in the Titan Fleet, there's no doubt, Xiong Zhen is the one calling the shots.

Quill connected the communication.

On the other side, a fully armed officer appeared, sternly warning: "Warning, you've entered Blue Star's territory without any report, please immediately identify yourselves and disarm, otherwise we will take enforcement measures in five minutes..."

As the words fell.

That person's eyes lit up looking at Quill, speaking with surprise: "Titan Civilization?"

Lin Yuan still remembered, the maritime capture order on the Titan Civilization had never been withdrawn, Titans and humans were inherently two civilizations that couldn't coexist, now that they suddenly disappeared, it's hard to say they haven't set their sights on Blue Star.

Therefore, Xu Lingjun never stopped issuing warrants for the Titan Civilization.

Anyone who discovers the Titan Civilization will immediately advance three ranks, rewarded with a hundred Spirit Stones.

This reward is unimaginably tempting for warriors who urgently need Spirit Stones to boost their strength.

The joy in Lin Yuan's heart was truly indescribable.

But turning his head... he saw Xiong Zhen, still covered in blood and gore.

His expression immediately darkened, coldly saying: "Turns out you're human! Titan Civilization, didn't expect you to strike at us humans so arrogantly even with your home destroyed... if you know what's best for you, release the humans captured on your warship and surrender, awaiting our Majesty's judgment, otherwise, today your Titan Clan might meet its end!"

Quill was desolate.

Thinking to himself, I wish to release too, but what if he doesn't leave?

But Xiong Zhen's face had already turned grim, coldly asking: "You are the Blue Star Civilization?!"

"Correct, we are the Blue Star Civilization, don't be afraid, as long as you are human, Blue Star will protect you from any other mysterious races of the heavens!"

"Bastard!"

Xiong Zhen shouted angrily, roaring: "What nonsense Blue Star Civilization, what nonsense Blue Star People, you're just a bunch of thieves who stole others' homes, how dare you brazenly claim yourself as the Blue Star Civilization in front of me, I will kill you all!"

He roared angrily, pounding his chest, his body swiftly swelling and expanding.

From a previous one meter eight~nine tall figure, rapidly expanding to eighteen~nine meters.

This height has already exceeded the warship cabin's height, the hardness that can directly withstand cannon attacks, yet in front of Xiong Zhen, it's as fragile as paper, directly torn open.

He leaped into the air...

The warship used as a stepping stone suddenly sunk sharply, while Xiong Zhen already took the opportunity to leap towards the warship ahead!

"It's a monster!"

Lin Yuan's face suddenly changed, exclaimed: "Activate the Rainbow Cannon, blow him up... quick..."

The Rainbow Cannon, which was prepared long ago, quickly charged, a scorching Light Energy Cannon Attack shot out in the cosmos, aiming straight for the rushing Xiong Zhen.

"Roar~~~!!!"

Xiong Zhen furiously roared, punching that light beam, his body not retreating but advancing, actually pushing back the shooting light beam, with a heavy boom.

He directly blocked the Light Energy Cannon's shot back to the cannon's mouth.

With a muffled loud boom.

Brilliant sparks splashed, originating from the cannon's mouth, the warship's side burst open suddenly.

And Xiong Zhen furiously beat his chest with both hands, one punch fiercely smashing towards the warship.

The indestructible shield, facing unprecedentedly strong enemies, broke defense with one punch...

Clearly an unprecedentedly fierce beast, where he passes, no one can match.

At this moment, savage power completely transcended technological power.

Xiong Zhen firmly occupied the warship's top, no matter how much Lin Yuan crazily maneuvered the warship below, he couldn't manage to shake him off.

Instead, he stood atop the warship, his feet firmly gripping the hull, frantically dismantling the warship... countless parts were shattered into pieces, drifting away in the zero-gravity environment.

"Amazing, Monarch level battleship has no ability to fight back at all!"

Titan Civilization.

Quill's trusted aide Tos was shocked watching the fierce beast clashing with human civilization.

Though the other side had several warships, Xiong Zhen was smart, only stubbornly entangling with the lead Monarch level battleship, causing the nearby ships to fear shooting.

And he frantically destroyed this warship...

Though he was just one person, he occupied absolute advantage.

The defeat of humans seemed only a matter of time...

"Wait, the mechas are deploying."

Indeed, swiftly, the warship reacted most appropriately.

A Monarch level battleship was equipped with three A~ Class Mechas.

Thunder, Holy Shield, and Buster Mechas all flew out... in terms of size, this fierce beast and the mechas were quite similar.

"Hehehehe, now it's getting interesting, even though they're thieves, being able to occupy my home is a skill."

Xiong Zhen viciously licked his lips, forcefully tearing off a piece of alloy skin, fiercely throwing it at the nearest Holy Shield Mecha, under his mighty power, the iron skin's force was no less than a shell!

One beast and three mechs tangled in battle.

With strength locked in battle... Xiong Zhen actually held the upper hand.

"Impressive."

Quill glanced at Tos, said: "I think I know what you're thinking."

"Exactly, initially thought this Demon Beast was also part of humanity, didn't expect them to be enemies too... if we could borrow the strength of this Xiong Zhen, could we exact revenge on Blue Star?"

"I recall a secret I accidentally heard from Mo Luo previously."

Quill coldly sneered: "Before I didn't pay attention, but now I think, Mo Luo once said in Blue Star's interior it's not all united, there's also a Secret Realm, and inside the Secret Realm the Demon Beasts don't actually obey Blue Star's control, he even admired that Blue Star could hold on for so many years amidst internal and external troubles, and still grow so strong!"

"Could it be that this Xiong Zhen came from the Secret Realm?"

"Very likely."

Despite Xiong Zhen having killed many of their clan, just thinking of borrowing Xiong Zhen's power, though destroying Blue Star isn't imaginable, he is still one person... well, not really, he apparently has companions, and supposedly quite a few.

Meaning, they possibly possess the power to destroy Blue Star.

No, they aim to reclaim Blue Star.

And he just needs to tail them, cheer them on, provide crucial intel, helping them succeed in overthrowing Blue Star.

Then, can they find Blue Star's secret?

Even if the Titan Civilization no longer exists, maybe they could find a new home through this method?

A Monarch level battleship is very strong.

But unfortunately, facing a flexible giant ape twenty meters high, it couldn't achieve full power.

Or rather, his power was simply too terrifying...

Three powerful mechas, apart from being limited when facing smaller opponents, were dismantled into parts in a few moves when facing an equal-sized foe.

The opponent's strength was far beyond their understanding.

With only two hours.

The previously intact warships have now become dust drifting in the cosmos.

It was only when Xiong Zhen jumped back onto his warship...

Facing Quill's fiery gaze, he couldn't help but feel an inexplicable lack of security.

He coldly said: "What's with your expression? Want me to break you?"

"Perhaps we can make a deal..."

Quill proposed.

Chapter 763 Controlling Everything, It Feels Great to Be Wise

Seven days later.

At the Blue Star border, the destroyed warship was successfully recovered...

Unfortunately, by this time, the enemy had already escaped without a trace.

However, the wreckage of the warship and the traces left by the enemy on it were discovered by Lin Jing, who was guarding the Blue Star.

Upon discovery, he was visibly shocked and immediately sealed off the information, tightened the defense lines, and activated all detection systems.

They encircled the entire Blue Star, making it impenetrable to prevent the enemy from sneaking in.

Considering their lack of familiarity with the Blue Star, the possibility of them infiltrating is very slim.

After completing everything, She quickly sent the warship back within the Blue Star.

This was no longer a decision a small commander like her could make.

The marks left on the warship were so shocking that they soon appeared before Xu Lingjun.

Along with that, the last images left within the warship.

The violently shaking warship, accompanied by Lin Yuan's rapid roaring, continuously issuing command after command.

Yet, they couldn't find the enemy's trace... The enemy seemed to be moving constantly, with a speed too swift to capture on surveillance.

Finally, after a harrowing scream.

The video ended abruptly.

Apparently... the Monarch level Battleship had been destroyed.

"It seems our civilization has truly been targeted this time."

Han Yun City couldn't help but click his tongue slightly.

His gaze settled on that piece of steel hull torn into jagged patterns.

Being capable of cosmic navigation and even withstanding warp engine acceleration, the materials used in the hull are the most robust and have great tenacity, primarily titanium alloy, which offers strong defense even against bombardment.

But now, these hulls have been forcibly ripped apart.

The enemy's achievements are all the more astonishing...

Singlehandedly destroying a Monarch level Battleship and three Dreadnought-class Battleships, while seemingly having absolute dominance, they themselves didn't lose even a bit of hair.

Although they were just patrol ships and didn't carry the most powerful weapons... basic Rainbow Cannons and Mecha, as well as the Integrated Beam, these standard weapons were equipped.

Clearly, even if they were equipped with the most powerful weapons, they might not have been able to escape a defeat.

"It seems this time, a terrifying civilization having evolved individual strength to the extreme has targeted us."

Xu Lingjun said in a deep voice: "According to the last images transmitted back, the enemy was just a single person, yet was able to achieve this level..."

Han Yun City asked in surprise: "Wasn't it just one person?"

"Yes, it's just one person."

"Nine... Oh... Oh oh..."

Han Yun City realized, and asked: "If it were you, Old Xu, would you have the confidence to destroy a Monarch level Battleship with just your individual power?"

As soon as he finished speaking.

He realized he had said something foolish.

This kid, ten or so years ago, seemed to have destroyed many warships relying on his own abilities...

Among them were even Monarch levels, but he relied on his equipment, while the other did it purely through personal physical means. From this point, the enemy's strength is likely far beyond Xu Lingjun at that time.

"If going all out, achieving this isn't difficult, but the opponent clearly relied solely on their physical strength to reach this level."

Xu Lingjun reached out to the torn crack, made a forceful pull.

The entire warship seemed to shudder, as this piece of tattered metal shell was forcibly torn off by him...

Holding it in his palm for a serious inspection, Xu Lingjun said solemnly: "In any case, this enemy is very strong and must not be underestimated!"

Han Yun City: "....."

He looked a bit speechless at the metal casually torn off by Xu Lingjun, and said: "Strength is one thing, but what truly worries us is that they've achieved this purely through their own power. Don't forget, if a single combat strength unit enters our Blue Star, unless we can always keep track of their movements, the destruction they could cause would be catastrophic for us."

"But to be strong to this extent, unless they voluntarily walk into a trap, the chances of capturing them are very slim... Right now, we can only stay still, waiting for them to expose their weaknesses!"

Xu Lingjun sighed deeply.

Speaking these words, he felt somewhat agitated.

Waiting for them to expose a weakness... What weakness?

Of course, it's the weakness left after causing damage.

In this way, the damage has already been done, casualties have been generated.

There's no way to make amends...

But there's no choice, just like police catching thieves, if the thief doesn't act, there's no way to catch him.

Especially when the other side had a massive victory, not even shedding a drop of blood, and even the communication devices were destroyed, clearly extremely cautious.

"Anyway, we'll just wait for news, hopefully, they're a fool and make a mistake themselves."

After saying this, Xu Lingjun shook his head and sighed: "Cultivating to this level, they definitely aren't fools... Sigh, I better not hold too many delusions."

And at this moment.

In a stream of asteroids on the outskirts of the Blue Star.

"What? You're telling me... the Blue Star now completely belongs to those humans?!"

Xiong Zhen angrily widened his eyes, shouted: "My home has been occupied by a bunch of outsiders? And they even consider themselves the Masters of the Blue Star?"

Chapter 764 Controlling Everything, It Truly Feels Great to Be Wise\_2

"In fact, I've received reliable news that there are indeed Demon Beasts within Blue Star."

As he said this.

Quill secretly glanced at Xiong Zhen, completely confirming his previous judgment!

The Xiong Zhen in front of him was actually a Demon Beast.

But this Demon Beast's power had grown to an almost invincible level; heaven knows, if he'd known there was such a powerful Demon Beast on Blue Star, he wouldn't have dared to make a move against it even if you lent him some courage.

"There are still Demon Beasts within Blue Star?"

Xiong Zhen's eyes were filled with impatience as he looked at Quill and said, "My patience is wearing thin, you'd better honestly tell me all the news you know. If it's useful to me, I'll be courteous to you

later, perhaps I won't mind allowing Blue Star to gain another clan. But if you dare tease me, I'll kill you... I'm sure your subordinates know something..."

Tos nodded repeatedly with anticipation beside him.

Then, as Quill looked over, he swiftly put on a face of tragic resolve.

"I'll tell you everything I know right now."

Quill indeed dared not delay any longer; Xiong Zhen was smart and knew exactly what he wanted... so Quill directly complied.

He naturally no longer had any reason to hide.

Immediately, he shared all the vast news he knew... particularly about a Secret Realm within Blue Star, and that a great number of Demon Beasts lived within that Secret Realm, and these Demon Beasts had never been compatible with humans, he told Xiong Zhen.

Especially when he was hiding in the Yalin Civilization back then.

Having long harbored thoughts of revenge, he naturally had to extract some useful intel from Mo Luo, who had once been to Blue Star.

Mo Luo and Quill weren't on bad terms, and apart from crucial information that might provoke Blue Star, Mo Luo absolutely wouldn't say, as for those gossipy pieces of news... what couldn't be shared?

Little did Mo Luo know, Quill had long noted these pieces of information in his heart.

As he listened to the narration...

Xiong Zhen's expression varied from time to time, and occasionally, he even roared in indignation and anger.

"What? You say that the Master of Blue Star, Xu Lingjun, abandoned his wife and two children after being chosen as a Prince Consort by the Princess?"

"Despicable, I never would've thought the rise to power of the current Master of Blue Star would be so disgraceful. Previously, I admired his story of how his entire village, along with his relatives, were massacred by his elder brother, leaving only two orphaned remnants, only to be later despised by his mentor due to his mediocre qualifications. He managed to ascend to being the top expert, but I never imagined his character would be so despicable... Hmph, serves him right to have caused chaos on Blue Star and be suppressed under Five Elements Mountain for five hundred... wait, five hundred years?"

He exclaimed, "I haven't even been gone from Blue Star for five hundred years, and weren't there no humans existing there back then?"

"These tales are largely hearsay, so the timing might not align precisely."

Quill said, "But there is one piece of news that is quite true, which is that the Demon Beasts in the Secret Realm have long been fighting against the humans of Blue Star. However, humans occupy nine-tenths of the soil, and with their greater numbers, the Demon Beasts are constrained to such limited space, lacking the strength to contend against humans."

"Demon Beasts have fallen as well."

Xiong Zhen sighed, "Indeed, when we left, although Blue Star wasn't yet destroyed, its Spiritual Qi was waning. Our departure took away the Demon Beasts' heritage. Even if Blue Star's Spiritual Qi recovered, it's unlikely that such mighty Demon Beasts like me would emerge again. They are confined to survive only in the tiny Secret Realm, having fallen from the former Master of Blue Star to such a state, surely the disparity is vast."

Quill similarly spoke with righteous indignation, "Indeed, when I learned of this, I couldn't contain my anger; it's too oppressive, these outsiders bullying the native inhabitants, they deserve to be killed!"

"To think Blue Star can still embrace renewal after being destroyed, it seems our departure back then was an error... but no matter, mistakes can be rectified. Now that we're back, everything shall return to its former state. Humans indeed have quite amazing creativity; they'll serve perfectly as our slaves!"

Xiong Zhen sneered coldly, "I initially thought we needed to wait for those old comrades to return to act together, but to think there's still our own kind within Blue Star. Perfect... If I connect with them now, combine forces within and without, coupled with your Titan Clan's remaining strength, I'm confident we can easily crush the humans. By the time they arrive, I would have already become the legitimate Master of Blue Star. The position settled, they must all bow to me."

At the height of excitement.

Xiong Zhen couldn't help but reveal his unruly beast nature, scratching his head in glee, chuckling repeatedly.

Quill exclaimed in shock, "Wait... teaming... are we teaming up with you..."

Xiong Zhen's eyes flashed with fierce light, asking, "What, you don't want to? Want to become part of our clan without paying any price?"

"No... of course not, I'm just a bit worried... are you going into Blue Star? Blue Star is heavily guarded now, what if you're discovered by them..."

"I'm a native of Blue Star, no one knows Blue Star better than I do. If I want to go in, who could stop me?"

Xiong Zhen sneered coldly, "I'll take a stroll inside, first find a way to link up with the compatriots in the Secret Realm, you few stay put here, wait for my return... By that time, we'll combine forces from within and without to annihilate Blue Star!"

Quill gazed seriously at Xiong Zhen for a while.

Then gritted his teeth and said, "All or nothing, damn it, the more solid the fortress, the easier it is to collapse from within. They'd never expect that those Demon Beasts who left would come back, three forces teaming up from within and without, catching them unprepared, our chances of winning are actually quite high."

"Well said, I'll be right back!"

Xiong Zhen leaped from the warship, charging toward that blue planet ahead.

"Your Majesty... can we trust this Xiong Zhen?"

Tos watched Xiong Zhen's back with concern and said, "If the Secret Realm Demon Beasts and this Xiong Zhen actually start acting inside Blue Star, should we really join them?"

"What do you think of Xiong Zhen's strength?"

"Very strong, unprecedentedly strong, I've never seen such a terrifying monster, to personally traverse the cosmos with his body centuries ago... they've given up on the possibility of becoming a Level 3 Civilization, completely abandoning technology in favor of cultivating their bodies, so their individual strength is far beyond what we imagined."

"Indeed, such powerful beings, and it's said he has quite a few old comrades... Blue Star's foundation is stronger than we thought. This is a contest between the new and old Blue Star, between humans and Demon Beasts... hehehehe... such immense strength."

Quill smirked sinisterly.

Since realizing that sheer strength wasn't enough to crush the opponent, he'd started taking the path of a strategist.

And this feeling of having everything under control... was gratifying indeed.

He sneered, "This time, it's absolutely a catastrophe for Blue Star, they'll never expect the original residents of Blue Star to return. The humans' greatest mistake after unification was not eradicating these Demon Beasts; they probably still harbored thoughts of conquering them, didn't they? Hmph... how unfortunate... instead, it's become their downfall."

"Now only one last issue remains."

"What issue?"

"Was the information Your Majesty procured from the Yalin Civilization reliable?"

"What could possibly be unreliable?"

Quill looked at his trusted aide, speechless, and said, "Didn't you see it with your own eyes... Demon Beasts do exist in Blue Star. Now that their ancestors have returned, they want to reclaim their homeland, isn't that most reasonable? Issue the orders, have all warships ready their weapons, as soon as Xiong Zhen sends word, we'll strike Blue Star immediately... by then, Blue Star's secrets will no longer be secrets to us, hahahaha..."

At the thought of triumph, he couldn't help but laugh heartily.

This time.

He couldn't see any chance of failure; after all, the more solid the fortress, the easier it is to collapse from within.

Chapter 765 I Am Destined to Dominate Blue Star

The stronger the fortress, the easier it is to be breached from within.

No matter how invincible Blue Star is, so what?

This time, the enemy does not come from elsewhere, but from this land where they live.

The Demon Beasts, who were once the strongest creatures, have returned.

Just thinking about it, Quill feels thrilled.

Without a doubt, these beasts had possessed the power to traverse the cosmos with their flesh and blood bodies hundreds of years ago.

This level of strength probably explains why Blue Star never reached a Level 3 Civilization back then. It's entirely because these Demon Beasts never pursued technological advancement. But in fact, their power had already reached, or even surpassed, the level of a Level 3 Civilization.

Moreover, the Demon Beasts in the Secret Realm could survive under Blue Star's siege. Their strength, albeit perhaps not as formidable as Blue Star, certainly couldn't be far behind.

The alliance of two powerful forces, attacking from inside and out.

Added to that is the assistance from their Titan Civilization.

Quill really couldn't see any reason they would fail.

Unless these Secret Realm Demon Beasts have already conspired with Blue Star, but is that possible?

One being the original inhabitants, the other the invader...

And now, the invaders have even forced the original inhabitants into a region less than one-tenth the size of the Original Blue Star.

In such a situation, if the two races could still collude, Quill would rather believe that their leaders were having an inter-species romance.

"Tch, that's utterly impossible."

Quill sneered. Ever since he was consecutively overpowered by Xu Lingjun and this Xiong Zhen, he has realized that, compared to brute force, he is actually more suited to solving problems with intellect.

See, under his perfect scheming, these two unparalleled powerhouses are likely to engage in a life-and-death battle of true significance.

And regardless of who survives, the final victor will be himself, the Master of the Titan Civilization—  
Quill!

As he relished his triumph, Quill couldn't help but laugh heartily.

Meanwhile...

Xiong Zhen had already quietly infiltrated Blue Star.

Although Blue Star had been entirely sealed off, just as Xiong Zhen said before, no one really knows Blue Star better than him... He once lived here for a thousand years.

Though he had left for several hundred years.

But the nostalgia for his homeland had never faded for even a moment... In addition to his now vastly superior strength compared to other beings.

Want to enter Blue Star? Who could stop him?

Yet after hundreds of years, revisiting the old place, it indeed seemed much more alien now.

Today's Blue Star has already been reshaped by humans into their own form.

Shapeshifting into human form, he casually stole some clothes to wear and strolled on the land of a city on Blue Star.

On the outside, Xiong Zhen seemed no different from humans, just taller.

He earnestly searched for traces of where they used to live, but unfortunately, those dense ancient forests were nowhere to be found now.

Everywhere stood towering skyscrapers and splendid constructions, even the sky had floating buildings established using magnetic levitation technology.

Humans! Humans! Humans!

Humans everywhere.

Why are there so many humans?

As for the Demon Beasts...

He found not a single one.

"Indeed, Quill wasn't lying to me. Humans really have defeated us Demon Beasts and occupied our territory."

Xiong Zhen snorted coldly and disdainfully, "Taking advantage of our absence to bully the weak, these humans really have no shame... Truly despicable... Hey, I'm asking, you answer, got it?"

He casually grabbed a nearby slick-looking man.

And questioned him harshly.

"Got...got it..."

The man's physique was actually quite robust too; after years of efforts by Xu Lingjun, even seniors in their eighties or nineties could effortlessly dart about if caught dancing with a neighboring elder lady by their spouse.

Young people were naturally even more remarkable, especially Zhou Yuan, who held the position of vice chairman of a branch in the Immortal Tao Association.

But for some reason, just a glare from Xiong Zhen made him go limp and his mind foggy.

It felt like... facing a natural enemy.

By the time he regained his senses, even Zhou Yuan himself wasn't clear what had just happened... Evidently, Xiong Zhen might seem rough but is actually shrewd; he knew that the current Blue Star was not the Blue Star of old, and one couldn't easily expose oneself.

Although he was confident in his ability to wreak havoc, even the fiercest tiger cannot withstand a pack of wolves, no hero can resist a tide of adversaries.

If he got caught in this ocean of humans, he might not end well either.

Even though this person knew nothing, Xiong Zhen had already gotten the information he wanted.

"Thanks, as a token of gratitude, I won't kill you."

Xiong Zhen turned away, instantly disappearing.

And Zhou Yuan shivered for a while, having no idea what had occurred, even the face that had surfaced in his mind was rapidly fading away.

It was almost as if he was about to forget it.

He hurriedly sat cross-legged, diligently cultivating Xu Lingjun's Ling Jun's Biography's Tai Chi Xuanqing Dao Simplified Version 2.0: Absolutely No More Revisions!

The fear surged like a tide in his heart, yet he remained as steadfast as a rock.

After a long while.

Opening his eyes, a look of joy appeared in his gaze.

He had remembered, he hadn't forgotten the face he was supposed to forget.

Chapter 766 I Am Destined to Dominate Blue Star\_2

He had only recently seen the nationwide most-wanted poster online, seeking to capture a powerful and terrifying monster... face unknown, posture unknown, age unknown...

Only one feature!

Powerful!

Incredibly powerful.

And now it seems, isn't this person exceptionally powerful? He was so frightened that he wet his pants, and even his mind went blank, clearly showing that the strength is extraordinary.

He took out his phone and hurriedly chose to report to the Armed Police Department.

But when the armed police arrived...

Where was there any trace of Xiong Zhen?

Even though the armed police used technology and searched the entire area within a thousand miles, they could not find the existence of that fearsome person...

That means in just half an hour, this monster managed to run over a thousand miles away?

"Search for his whereabouts with all our strength, let this enthusiastic citizen come back to do some face identification, then launch a global manhunt. Your Majesty has ordered that once found, do not engage in a battle of strength, notify him; such a powerful enemy must only be besieged by an army!"

The Chief of the branch of the Armed Police Department, Yuan Tianqing, smiled and said: "You did well, if your information is confirmed to be useful, you will receive 300 contribution value points, enough to exchange for one Ultimate Level Martial Skill book, and if your information leads to the enemy's capture, congratulations, you will also receive an additional Supreme Level Technique personally penned by His Majesty!"

"Thank you, thank you!"

Zhou Yuan was so excited he almost let out a goose-like caw; truly like a pie falling from the sky while walking on the road.

"By the way..."

Yuan Tianqing inquired: "What did that person ask you?"

Zhou Yuan, still rattled, said: "I don't know, he seems to have some skills that can intimidate the heart and spirit, whatever he wanted to know, as long as I knew, I'm afraid he already extracted it from my mouth."

"It's okay, it's not your fault, after all, the enemy is incredibly strong."

Yuan Tianqing comforted, "Remember not to appear in the next few days, once we catch the enemy's whereabouts, he may know it was because of you that his whereabouts were exposed, by that time he might come to seek revenge..."

"Understood, I understand."

Yuan Tianqing comforted with a few kind words and sent Zhou Yuan away.

He showed a look of heaviness in his eyes.

The enemy is more cunning and insidious than imagined... possessing such great power and yet knowing how to hide.

Since he is intent on hiding.

Even if they managed to obtain his facial appearance through unique means, it is uncertain whether that face is his real appearance.

Yuan Tianqing murmured: "This is troublesome now, the enemy is indeed much craftier than imagined."

At this time.

He had gotten all the answers he wanted.

Xiong Zhen headed straight towards the Secret Realm, his speed was fast, with no fancy moves, transforming into a gale, and as the wind swept by, he had already gone far.

The entire journey without a single stop...

Even so, he still rushed for most of the day.

Over this half day, the more he hastened, the heavier his heart became...

Humans are more numerous than he imagined, their foundation even more profound, surprisingly everyone he saw along the way possessed strength that was barely considered decent, although in his eyes still far from noteworthy, the quantity was alarming to him.

Their demon beasts were already quite fertile.

But even during their most peak period of civilization, their numbers seemed to fall far short of these humans now.

Can they really annihilate humans?

Xiong Zhen couldn't help bringing up an anxiety in his heart that even he was unwilling to admit...

Yet this worry, when seeing the Secret Realm in the distance, all turned into a blaze of anger.

So small!

The Secret Realm is large, but compared to the whole Blue Star, it is small.

From Xiong Zhen's perspective, just a glance makes it clear, the size of this Secret Realm is probably only one-tenth of Blue Star's land.

What does that mean?

Although they left, Blue Star is still their home.

These people dare to drive their demon beasts to such a narrow place... completely forgetting that they are the outsiders, they should take the initiative to become the clan of demon beasts, now they dare to usurp the nest, even reversing the roles, it is simply too much.

"Damn it..."

Xiong Zhen's heart was now without a trace of worry, striding towards the Secret Realm in front.

Not long after walking.

Before him, a completely snow-white Snow Leopard leapt down from a tree, then raised its head, letting an orange-striped large cat land on its head.

Two cat-like creatures, one above the other, their pairs of eyes staring dead at Xiong Zhen, the Snow Leopard below called out: "Meow, the Secret Realm is forbidden territory, no idlers allowed to enter!"

"Hmph, no wonder the demon beasts are so useless now, letting humans drive them to this place... looking at this demon beast, this cat is of what grade, even without a grade, can live within the Secret Realm..."

Xiong Zhen disdainfully glanced at these two demon clan members.

He barked: "Go, go call your person in charge, just say the Ape God is back, tell him to quickly come back to receive!"

"Ape God?!"

Daxiong rolled his eyes upwards, Pang Hu's eyes rolled downwards, the two cats, one above, one below, exchanged glances... it looked like rolling one's eyes and looking down in disdain occurring simultaneously.

"Meow, have you heard of it?"

"Meow meow."

"As expected, this person is indeed lying!"

Daxiong waved his paw impatiently and said: "Meow, quickly leave, while Sister Xiaoyun is not here, I'm patrolling for her, if she were here, you might not even have your life left."

"Seems demon beasts really have fallen, letting you two pets guard the gate."

Xiong Zhen sighed helplessly, although now transformed into human form, demon aura surged around him, any demon beast with a keen eye basically would not mistake his identity.

Yet these two pets still thought he was human till now.

These kinds of demon beasts are used to guard gates?

Could they probably be responsible for opening the door when humans come?

Originally just lamenting...

Who would have thought Daxiong across would suddenly change expression, along with Pang Hu showing panic on the lively orange face.

Daxiong stammered: "Me... meow... how... how do you know our true identity?"

"What?!"

This time, it was Xiong Zhen who was astonished.

These two pets have some true identity, and it has been seen through by him?

What did he just say?

"Daxiong, step down!"

Suddenly, a melodious voice sounded.

A girl in a white fur coat, her hair as white as snow, descended from the sky, directly landing in front of the two cats Daxiong and Pang Hu, her human-like eyes quickly turned into beast-like pupils, staring intently at the human opposite.

She coldly said, "Who are you, and what are you doing here in the Secret Realm?"

"Finally, someone worth looking at."

Xiong Zhen's gaze scrutinized Xiaoyun up and down, praising: "To be able to control partial beast transformation of the body, I didn't expect among demon beast juniors, there are still people with decent aptitude. If all were like these two pets, I'm afraid seeking you would've been a mistake."

Xiaoyun commanded: "Answer my question, who exactly are you?"

The moment the words fell.

The ears of several beasts echoed with a faint sigh, saying: "Xiaoyun, let him in, he's an acquaintance of mine."

"An acquaintance of the elder sister?!"

"Acquaintance?"

Xiong Zhen equally stunned, surprised: "Could it be that within this Secret Realm, I have acquaintances?"

"You will know when you come, come in."

"Very well, let them stand aside."

Xiong Zhen waved his hand, saying: "I have been gone for hundreds of years, that's also why I'm merciful to you now... if it were hundreds of years ago, daring to be so rude to me, you would've been beaten dead by me long ago, do you really take this Ape God for a mild-mannered ape?"

He stepped inside.

Along the way...

A multitude of demon beasts quietly poked their heads from the thickets.

Among them were several humanoid creatures, emanating the fierce aura unique to demon beasts... obviously, they were demon beasts who had only recently transformed a few years ago, still unable to freely control the ferocity within.

Very good.

It seems, the demon beasts' development over the centuries was not as weak as I imagined.

It's just that the humans are so powerful, they are forced to huddle in a corner.

Their power remains strong, merely lacking a leader... and now, I have come.

The opportunity for the demon beasts to strike back at humans has finally come!

He was full of ambition, his earlier sense of defeat facing humans had disappeared, indeed, uniting, they are destined to proudly roar across Blue Star.

Chapter 767 I no longer want to taste that bitter flavor

Under the watchful gaze of many Demon Beasts...

Xiong Zhen walked all the way to the deepest part of the Secret Realm.

Along the way, he unexpectedly discovered a detail he hadn't noticed before.

Although the Secret Realm wasn't large, the surrounding environment along the way was strikingly similar to the world he once lived in, just reduced by several times in scale.

Quite interesting.

Reaching the deepest part...

There, amidst the lush branches and leaves of an Ancient Tree, a beautiful spirit girl sat barefoot, wearing a delicate green short dress. Her long legs naturally hung down gracefully ... she appeared as charming and playful as a forest nymph.

Though her face was stunning, the desolation in her eyes was even more profound than that of an old woman nearing the end of her life.

She gazed deeply into Xiong Zhen's face and sighed softly, "Xiong Zhen, you've already left this world, so why have you come back now?"

Xiong Zhen looked at Lu Ye and asked, "Who are you?"

"Have you forgotten me? Of course... when you left, I couldn't even speak, so naturally you wouldn't know that I've gained my own consciousness."

Lu Ye smiled and didn't get angry at Xiong Zhen's lack of recognition. She said, "But you should remember how you used to love swinging around the forest with my hair... oh, back then, those things probably looked like vines to you."

It dawned on Xiong Zhen, and he exclaimed, "Vines? Are you... are you the Ancient Tree transformed into spirit?!"

He looked at Lu Ye in shock, marveling, "Amazing, I remember when I left, you were just an ordinary tree that couldn't speak, yet in these few hundred years, you've even developed a form?"

"If I hadn't quickly gained consciousness, the Demon Beasts, losing their heritage after your departure, would have surely gone extinct due to the cultural gap."

Lu Ye's gaze swept over Xiaoyun.

Xiaoyun understood and turned away.

In one hand, she tugged on Daxiong's ear, and with the other, she grabbed the scruff of Pang Hu's neck, dragging them both away.

Lu Ye asked, "What are you back for?"

"Of course, to return home."

Xiong Zhen declared righteously, "This is Blue Star, our home; we are the masters of Blue Star. As long as I wish, it should be my freedom to return whenever I want, right?"

"But you abandoned this home back then."

"I may abandon it, but others may not claim it."

Xiong Zhen shook his head and said, "And you... what's your name again..."

"Lu Ye."

"And Lu Ye, you're really useless, allowing humans to occupy our home. If I hadn't returned, wouldn't you soon be unable to defend even this Secret Realm?"

Xiong Zhen said, "This time I came back to completely defeat the humans, enslave them, turn them into our Clan... Over these years, I've traveled extensively and witnessed many civilizations, and I realized that our previous development was extremely unbalanced. While walking within human civilization, I discovered that their technology is incredibly advanced; they excel at what we lack. As long as we conquer humans, Blue Star can quickly progress to a previously unimaginable level!"

Lu Ye's little feet stopped there.

Some shadow appeared in her eyes as she said, "Oh? When Blue Star was on the brink of destruction, you Demon Beasts abandoned all your kin without hesitation. Now you've come back and even wish to lead us? Do you think we'd willingly serve a Demon Beast who abandoned us to die?"

"I was gone for hundreds of years; was our Blue Star not a place where the strong are respected, but where emotions are valued?"

Xiong Zhen seemed unbothered and said indifferently, "As long as I'm the strongest among the Demon Beasts, then I'm the leader of the Demon Beasts... isn't that our eternal rule? When did it change, and why was I not notified when it did?"

He sneered, "I'm not here to negotiate with you, but to tell you a fact. I... am the Master of Civilization for the Demon Beasts, and now, I want you to follow my orders to defeat the humans, seize their lands, and enslave their freedom. Lu Ye, I only say so much to you out of nostalgia for those times when I swung with your vines as a child; don't think I'm negotiating with you."

"Yes, you Demon Beasts have always been selfish, coming and going as you please; unless we're stronger than you, it seems we have no way to be equal with you."

Lu Ye sighed and said, "It seems we don't have much space for choice..."

"Hahaha, Lu Ye, at least you're sensible."

Xiong Zhen laughed triumphantly.

.....

Just as Lu Ye and Xiong Zhen were locked in confrontation.

Elsewhere in the Secret Realm.

Xiaoyun had just left with Daxiong and the others a short distance away.

Beside her, an Ancient Tree's vine suddenly lowered, blocking her path.

"Xiaoyun, I have something for you to do!"

Lu Ye's voice came from the Ancient Tree, saying, "You must immediately go to the Spirit Stone Mine, hide all the workers, and seal all the Spirit Stones in the Capsule. Be careful not to let any Spiritual Qi leak out, and seal the Spirit Stone Mine completely, not letting Xiong Zhen discover any trace of humans."

Chapter 768 I no longer want to taste that bitter flavor\_2

"Yes."

Xiaoyun responded.

Curiously asked, "Who... is that person?"

"Every planet has its unique civilization. On Blue Star, before humans arrived, Demon Beasts were the rulers of this world. The Demon Beast civilization is essentially one of power, with strong Demon Beasts having strength comparable to warships. However, when the crisis of Blue Star came, those powerful Demon Beasts, possessing the power to survive in the cosmos, abandoned us, their weaker kin, and fled to the cosmos to seek survival."

Lu Ye said solemnly, "Xiong Zhen was one of them back then."

"What?"

Hearing this, Xiaoyun was astonished and exclaimed, "You... big sister, are you saying that person is actually..."

Lu Ye nodded and said, "That's right, they are the very Level 12 Demon Beasts that abandoned us all!"

"12... Level 12?"

Xiaoyun fell silent, knowing that before Xu Lingjun entered the Secret Realm, the strongest remaining Demon Beasts, apart from big sister, were just Level 9.

And Level 9 Demon Beasts could already rival the strongest humans.

But now it seems...

The higher the level, the greater the disparity in strength.

The gap between Level 9 and Level 12, without Lu Ye's detailed explanation, she could already guess how vastly different they were!

She asked, "So, big sister, what do you plan to do?"

"Meow, meow, meow, meow..."

Pang Hu was gesticulating wildly but couldn't escape Xiaoyun's restraint, looking like an insane little motor shaking frantically.

"Meow... Pang Hu means to quickly go and report to the master; Level 12 Demon Beasts must be really powerful. I'm only Level 9 now."

Daxiong was getting anxious too.

"Big sister..."

What Xiaoyun focused on, however, was a different question.

Undoubtedly, this Xiong Zhen was indeed once the strongest among Demon Beasts, strong enough to travel through the cosmos with their physical body... And not many on Blue Star today can do that.

Now they have returned.

Perhaps stronger than before.

But one thing is for sure, they and she are actually the same race.

And this time, their return clearly states their intention to regain Blue Star that once belonged to them.

So, what about them... which side should they stand on?

Lu Ye asked in return, "What do you think?"

Xiaoyun said without hesitation, "All of us, including Hei Feng, follow your orders, big sister. We've grown safely to this point thanks to your careful care and protection. We don't know any Level 12 Demon Beasts..."

"Even if they might possess Techniques that can make us stronger?"

Xiaoyun dismissed, "Stronger Techniques than Xu Lingjun?"

Lu Ye's voice carried a hint of amusement, "You say you follow my orders, yet you've quietly made up your mind..."

"Big sister..."

Xiaoyun couldn't help but blush slightly and then indignantly said, "You have the advantage of proximity, big sister!"

"Alright, don't worry, I'll inform Xu Lingjun, he'll decide what to do."

Lu Ye said, "Now, quickly handle the task I assigned you. Remember, this is very important... I'll handle the matter with Xiong Zhen..."

"Yes!"

Xiaoyun breathed a sigh of relief and said, "You two, don't mess around, follow me, there's serious business to do."

"Meow, meow, meow..."

Pang Hu obediently clinged to Xiaoyun's arm, a sweet smile on its round cat face.

"Too chubby, doesn't look nice when smiling."

Xiaoyun, however, bluntly criticized.

Pang Hu immediately lowered its limbs, looking deeply hurt.

At this moment.

Great Xia Imperial Capital!

Now formally renamed Lan City.

Blue Star Capital.

Xu Lingjun was in a long discussion on serious matters with others, sitting beside him were prominent figures of Han Yun City, Yun Yi, and others.

Opposite Xu Lingjun, in a projected image... Yuan Tianqing was seriously reporting something to Xu Lingjun.

"In conclusion, I believe this enemy may be even more fearsome and harder to deal with than we imagined!"

After detailing the clues he'd investigated previously.

Yuan Tianqing said seriously, "The opponent not only possesses extremely strong power but also remarkable intelligence, knowing how to blend in with the people. This kind of enemy is the hardest to deal with... What's scarier, if the opponent were just a single person it would be fine, but if it's a group invasion of Blue Star, it would mean catastrophe for Blue Star!"

"Hmm, I understand this point. The immediate priority is to find their whereabouts; this is the top priority."

Xu Lingjun naturally understood, imagining himself, if allowed to freely wreak havoc in an unfamiliar civilization, how much damage he could cause... Just thinking about it, even he got scared.

"Isn't their likeness already drawn?"

Xu Lingjun said seriously, "Issue orders for a global manhunt... Anyone who can tangibly find this person can be rewarded with ten Peiyuan Pills, just newly developed, extremely beneficial for cultivation..."

Yuan Tianqing was about to nod.

On Xu Lingjun's table.

A tender green willow wrapped its branches gently around Xu Lingjun's wrist.

Xu Lingjun was momentarily astonished, then, a soft voice reached his ears, imperceptible to anyone else.

Xu Lingjun paused...

Shaking his head, he said, "Seems the Peiyuan Pills won't be given out."

"Your Majesty, finding that group of villains is the most urgent matter right now."

Yuan Tianqing got anxious.

Even Han Yun City and others showed faces of surprise,

Clearly not expecting Xu Lingjun to go back on his word, Han Yun City frowned, thinking Xu Lingjun was reluctant, about to persuade him...

Xu Lingjun said, "No need to search, I already know where that person is now."

"Wha... What?!"

Everyone was instantly shocked.

"Hmm, even I didn't expect, after being so careful in hiding its traces, that the opponent would approach on their own."

Xu Lingjun's eyes showed a hint of peculiar expression.

Han Yun City asked, "Where is that person now?"

"In the Secret Realm!"

"This is really..."

Han Yun City immediately recalled the lies Xu Lingjun had previously told many civilizations, like Blue Star and the Secret Realm being at odds.

He murmured, "Just casual words, yet you might have really fooled them?"

"In any case, as the enemy has walked into the trap themselves, what we need to do is tighten the net, and before tightening, make sure not to let them escape."

"Hmm, this enemy is really tricky; if they escape, the consequences are serious, need a careful approach."

Han Yun City said seriously, "It's necessary to thoroughly plan and respond."

Moments later.

Secret Realm.

"Actually, I support your desire to reclaim Blue Star. After all, as Demon Beasts, we are of the same race. I don't want to be constantly bullied by that Master of the Blue Star, forced to endure humiliation... It really leaves a bitter taste."

Lu Ye said calmly, "But with your strength and Blue Star's technology, if a full-fledged civil war breaks out, the whole Blue Star might be destroyed. Even if you win in the end, what's the use of a desolated ruined planet?"

Xiong Zhen nodded, "That's indeed a consideration. Blue Star is my home too, and I don't want to destroy it. Do you have any good suggestions?"

"I do have a good idea. The Secret Realm can pretend to fully surrender to humanity. We can lure that Master of the Blue Star to enter the Secret Realm. At that point, you can directly capture the leader, and once you have the Master of the Blue Star, the rest will be much easier."

"Luring the snake out of its hole?"

Xiong Zhen laughed, "Back when I wasn't so strong, I often set traps to lure prey. Didn't expect you, a plant like Lu Ye, to be familiar with this tactic too."

"But for this to work, the act has to be convincing. Otherwise, the enemy won't take the bait."

Lu Ye said seriously to Xiong Zhen.

Chapter 769 Didn't you say your knees are weak and you don't like kneeling to others?

Lu Ye's meaning was very clear to Xiong Zhen.

In fact, this plan was also exactly what he wanted...

No matter how many Demon Beasts there are, they can never compare to humans. For this reason, even if a full-scale war breaks out, not considering the safety of their home, Blue Star,

they would find it difficult to achieve final victory.

Even with the assistance of the Titan Civilization, what use is it if Blue Star is left in ruins? That's not what Xiong Zhen wants.

Therefore.

Trick the Master of the Blue Star to come to this place.

King versus king, relying directly on his own huge strength to suppress him.

At that time, as long as they can quietly control the Master of the Blue Star...

The entire Blue Star would be within their grasp.

By the time these humans realize, it might already be too late.

This plan is almost painfully simple. Everything depends on strength.

If Xiong Zhen is strong enough, this plan is flawless...

Because theoretically, unless this Secret Realm already belongs to humans, no one would refuse the opportunity to fully unify Blue Star!

Xiong Zhen pondered quietly to himself; indeed, Lu Ye just mentioned that she is often bullied by Xu Lingjun. Even though she wants to resist, for the sake of the Secret Realm, she not only has to endure his bullying but also swallow her bitter tears afterwards.

Saying this with indignation, she didn't seem to be faking it.

Which means the only variable is his strength, right?

Does it depend on his confidence in his own power?

Xiong Zhen laughed coldly.

If he wasn't confident, he wouldn't have entered Blue Star alone...

Even if he heard from the Titan Quill that Xu Lingjun once had many opportunities, having slain a dragon and ingested Dragon Essence to become a Super Adjuster, once so powerful that he fought through seven rounds on the battlefield without equal,

what does he have to fear?

Capture him, use the king to command all officials...an impeccable plan.

He was naturally delighted with Lu Ye's proposal.

And they were to go for the whole package.

In front of Xiong Zhen, Lu Ye immediately drafted a letter of surrender.

The letter detailed that they are willing to merge the entire Secret Realm into Blue Star, and specially invited the Master of the Blue Star to the Secret Realm to receive it... to become the true Master of the Blue Star.

Then sent out the letter.

"Actually, this plan has many loopholes. After all, they may not believe we're sincerely surrendering, but the ~temptation is simply too great, so they will definitely not pass up this opportunity..."

"What exactly are you trying to say?"

Xiong Zhen impatiently looked at Lu Ye and said, "If you really are an Ancient Tree turned spirit, then you should understand me and know I'm the most impatient person. Say what you mean straightforwardly."

Lu Ye said, "What I mean is they definitely won't entirely trust our letter of surrender, and they will certainly be on guard against us. At that time, they will surely send a large number of experts along..."

"That's not an issue."

Xiong Zhen suggested, "To be safe, try to secure a separate space so I can take down the Master of the Blue Star, all witnesses must be eliminated. Right now... I also need the identity of the Master of the Blue Star to command the entire Blue Star!"

"Alright, let me handle that then,"

Lu Ye secretly sneered in her heart, thinking that this arrogance hadn't changed at all over the years.

Almost simultaneously...

Just as Lu Ye and Xiong Zhen were making their plans.

Xu Lingjun on his end had already received the news.

He thought for a moment and said, "Old City, Jingjun, Yun Yi, Zhou Tong, you all come along with me."

The people he mentioned were currently the strongest on the entire Blue Star.

Although he had full confidence in himself...

Xu Lingjun naturally prepared in every possible way when taking action.

Moving with all his might.

Han Xu Yang said something quite right...

After becoming the Master of Civilization,

gambling and staking everything on one bet completely detached from them.

Because standing behind them is an entire civilization, which only requires one failure to possibly lead to the utter downfall and extinction of the civilization.

So even though Xu Lingjun was fully confident, he absolutely had to leave countless back-up plans, and Han Yun City was just the secondary strategy. And now there still was over ten thousand Source Value, which was his true final trump card.

Three days later, Lu Ye received a reply.

Or rather an edict, expressing they would arrive at the Secret Realm in seven days to fully take over everything within it, requiring all Demon Beasts within it to be present to greet them with respect.

"Stupid Central Plains people."

Xiong Zhen was unwilling to refer to these people as Blue Star People, thus simply termed them Central Plains People... After all, the Secret Realm is located in a remote area, relatively speaking, where these Blue Star people lived could indeed be called the Central Plains.

He sneered, "Once tempted, they didn't have the slightest suspicion. Ridiculous...utterly ridiculous. Humans are so foolish, it really baffles me how they managed to occupy such a good vast land like Blue Star. Lu Ye, you have been utterly useless; if it were up to me, these humans might not have even been able to enter the Secret Realm."

Seeing that he wasn't suspicious.

Lu Ye quietly breathed a sigh of relief... The plan undoubtedly had numerous flaws; it was too hasty, and they didn't even send anyone to investigate.

It can only be said that to ensure Xiong Zhen didn't uncover the secrets within the Secret Realm, they needed to take him down in the shortest time possible.

As expected...

Xiong Zhen didn't understand the complicated rituals and processes within the human world; therefore, he wasn't suspicious.

And in the following seven days, Xiong Zhen originally wanted to leisurely browse the scenery within the Secret Realm, but he was stopped by Lu Ye, who stated that the Master of the Blue Star was not easily dealt with, and it was said he had once obtained the complete power of three Martial Arts Experts. Though young, he was already the top expert of Blue Star.

Chapter 770 Aren't You The One Who Said You Don't Like To Kneel Because Your Knees Are Weak?\_2

Xu Lingjun completely scoffed at Lu Ye's advice.

What a joke...

The Master of the Blue Star, number one in Martial Tao—how much of that is real?

Back when he ruled and dominated Blue Star and encountered Demon Beasts of higher status than him, whether in hunting or games, he didn't dare to win against them.

But what Lu Ye said made sense too...

So he stopped wandering aimlessly and began cultivating seriously, making final preparations to ensure a guaranteed capture with one strike.

In the blink of an eye, seven days had passed.

On this day...

The entire Secret Realm was ready from early morning.

There were no decorations, but a wide road leading out of the Secret Realm had been paved early on.

Along with many Demon Beasts going out to hunt, a lot of delicious food had been prepared...

Although the food of Demon Beasts couldn't be compared to that of humans, it was exceptionally fresh. Almost throughout the entire Secret Realm, the rich aroma of meat wafted persistently from morning onwards.

And as time arrived.

In the sky, nearly a hundred warships gradually obscured the clear sky above.

Three Planet level Warships, twelve Monarch level Warships, and fifty Dreadnought-class Warships, with more than a dozen Ceremonial Ships leading the way.

Apparently, they were counting on Xu Lingjun not understanding warship specifications at all...

With Ceremonial Ships and salutes as distractions, who could imagine that the warships behind were already equipped with numerous weapons.

Countless human follower teams also appeared around the Secret Realm.

Accompanied by loud gongs and drums, these people each took their positions, playing their instruments, making the entire Secret Realm bustling and noisy.

But no one noticed... the positions where these people stood were clearly key strategic locations, so if they wished, they could immediately close the sack's mouth, including the entire Secret Realm within.

Given such specifications, although the opponent was only one person, it was clear that comprehensive planning had been made.

As Xu Lingjun put it, if they couldn't kill the opponent this time and refine its skin and flesh into Spiritual Medicine and Elixirs, they would truly suffer a huge loss.

And some very young Demon Beasts, upon seeing humans come again...

Were delighted and wanted to rush out to ask for food. Over the years, hunting Demon Beasts had long become strictly forbidden.

Human and Demon Beasts had naturally long since coexisted peacefully, forming deep bonds...

But just as these young Demon Beasts rushed out, they were dragged back by adult Demon Beasts, who gripped their tails tightly, signaling with their eyes that they couldn't go.

As Han Yun City and others occupied numerous key positions, ensuring the encirclement was formed, even if the opponent was enhanced like adding wings to a tiger, escaping this web of heaven and earth was impossible.

Xu Lingjun only then made his appearance.

A magnificent Imperial Robe adorned his tall and handsome figure, making him as dazzling as the Sun God...

Even countless Demon Beasts, sharing similar aesthetic taste with humans, couldn't help but show a hint of infatuation in their eyes when looking at him.

Xiaoyun couldn't help but reveal a trace of confusion in her eyes as she looked at Xu Lingjun.

She quickly recovered, respectfully kneeled on one knee, and bowed her head, saying: "Honorable Master of the Blue Star, please follow me."

Saying this, she turned and led the way ahead.

Xu Lingjun dismissed everyone and followed alone behind...

One ahead and one behind, the two of them walked for a long time.

They reached the deepest part of the Secret Realm.

Lu Ye was already guarding there for quite some time.

Only this time, she was no longer sitting in the main seat, but rather in the secondary one... At the chief seat, Xiong Zhen sat carelessly, devouring a peach.

Seeing Xu Lingjun enter.

Lu Ye stood to greet him, slightly curtsying, saying, "You've arrived."

"Lu Ye, why are you still bowing?"

Xiong Zhen's brazen eyes locked firmly on Xu Lingjun, sneering, "The enemy is already caught, there's no need to put on this show anymore, after all, what we need to do is only to let him fall into our encirclement."

He casually tossed the half-eaten, juicy peach aside.

He got up and twisted his neck, a series of cracking sounds, sneering, "Now that the setup is complete, the enemy is trapped with no escape. This time, consider it your first merit!"

"Yes, Lu Ye, the enemy is already caught, there's no need to put on this show anymore, right? All we need to do is let him fall into our encirclement, after all."

Xu Lingjun also smiled and said, "Now that the setup is complete, the enemy is trapped with no escape. This time, consider it your first merit."

"Are you a damn tape recorder?"

Xiong Zhen roared.

He leaped out, towering and high.

Right fist gathering force, Demonic Power surged, accompanied by an endless gale, crashing towards Xu Lingjun, laughing wildly, "Don't resist, if you don't want to suffer more, just take it, maybe it will only break a few arms and legs."

Xu Lingjun's arm naturally hung down, the elaborate and luxurious Imperial Robe fell to the ground, revealing a suit of vigorous clothing underneath.

He also raised his fist.

It collided with the fist almost bigger than his face.

With a dull thud...

The ground at Xu Lingjun's feet cracked inch by inch, spreading like a spider web in all directions.

Xu Lingjun's face flushed slightly, and then he let out a burp.

But Xiong Zhen only felt as if he had hit a spring, the spring rebounding fiercely, making his arm numb... Facing a flying kick from the opponent, he intended to block it.

Vines wrapped around him, entangling directly on his body.

With a loud bang.

Xiong Zhen, like a rolling gourd, was kicked away, crashing heavily onto the steps, spitting blood.

Lu Ye put her hands down, smiled, and said, "It can't just be a recorded first merit, I want a reward."

"Don't worry, you'll certainly be rewarded when the time comes."

Xu Lingjun and Lu Ye exchanged a smile.

This time, it was Xiong Zhen's turn to be stunned.

Watching the obedient Lu Ye walk to Xu Lingjun's side...

He broke free from the vines, rough-skinned and thick-fleshed, although he took a move from Xu Lingjun, he acted as if nothing had happened.

Of course, the bone-piercing pain... still left him secretly shocked.

Only then did he seem to realize something, patting his head in surprise, "Damn it, I was tricked? Lu Ye, you damn already sided with the humans?"

Lu Ye smiled and said, "I wouldn't call it siding, it's just for survival."

Xu Lingjun smiled slightly and said, "If we didn't do it this way, once we approached the Secret Realm, you'd probably notice something was wrong. By that time, whether to escape or die would be your choice. Unlike now, the net is cast, and you have no escape."

"Lu Ye, what do you mean?"

Xiong Zhen spat blood and angrily said, "Didn't you say your knees are too soft, and if you kneel too long, they'll go numb and hurt, so you don't like kneeling to people? But you actually chose to submit to a human?"

"What does it matter to you? Although I said my knees hurt when kneeling, did I ever say that I was unwilling to kneel?"

Lu Ye looked at Xiong Zhen with eyes finally bearing coldness and hatred.

And this, was her true emotion towards them.

She said coldly, "The ones who abandoned us innocent weaklings back then were you, and now you come back as if nothing happened and still want us to submit to you? We worked so hard to gain a foothold on Blue Star and finally continue on; we've long since not needed you. Why did you come back? Since you abandoned your home back then, don't blame this Blue Star, there's no place for you here anymore!"

"That's right, if you'd come as former masters, then I wouldn't mind hosting a banquet for you and finding a peaceful place for your retreat... We welcome powerful life forms to join Blue Star, but you dare dream of reclaiming Blue Star?"

Xu Lingjun shook his head and said, "No one would wait for you forever. You are not as important as you think you are. The current Blue Star stopped welcoming you long ago. You want a king-to-king, one-on-one battle... Sorry, I thought the same, but I've prepared much more than you. This time, you have no escape."
