

Overlord 89

Chapter 89 No Need for Mr. Yang to Take Action Personally

Xu Xinghai's unwilling roar echoed over the Situ family's old residence.

Xu Mao sighed and shook his head at Xu Xinghai, saying, "Xu Xinghai, you violated the clan rules first, and you are already a criminal. If you surrender now and return with me to the family to accept punishment, you may be treated leniently."

Upon hearing this, Xu Xinghai laughed loudly, "Hahahaha, what a big talk. Do you think you are qualified to punish me?"

After speaking, he glared fiercely at Xu Xingzhou and said, "Xu Xingzhou, as a proud descendant of the Xu family, you have groveled to outsiders. You've truly disgraced our family. Today, I will kill you to cleanse our family's shame."

Xu Xingzhou, with a look of disdain, scoffed, "Kill me? Hmph, are you worthy? From childhood, when have you ever been stronger than me?"

Xu Xinghai's sore spot was hit, and his expression became even more ferocious as he yelled, "Bastard, today I want you dead, your body torn to pieces!"

Situ Yunde, listening to their exchange, understood that Xu Xinghai's plot had been exposed, and it seemed that Xu Xingzhou had always overshadowed him in the Xu family, leading him to somewhat look down on him.

However, now that they were in the same boat, Situ Yunde, considering the Xu family's power, said to Xu Xinghai, "Brother Xu, rest assured, since they dared to break into the Situ family's domain, they cannot escape even if they had wings. My family will certainly help you solve your troubles and assist you in eliminating the pests of the Xu family."

Situ Xian also nodded and said, "Exactly, since the Situ family has formed an alliance with you, Xu Xinghai, we will not ignore this."

Although the appearance of Xu Xingzhou, Xu Mao, and Yang Fei greatly surprised the members of the Situ family, seeing that there were only three of them, they were not seen as a threat.

Killing Yang Fei was already a decided matter for the Situ family.

As for Xu Xingzhou and Xu Mao, although the Situ family did not dare to kill them directly, they were willing to help Xu Xinghai suppress them and leave their handling to him.

By siding with Xu Xinghai, the Situ family would gain a powerful ally in the future.

Truly achieving two goals with one action.

Upon hearing the Situ family's promise, Xu Xinghai felt greatly reassured and joyfully said, "Hahahaha, excellent, the Situ family's favor will be remembered by me, Xu Xinghai."

After speaking, he looked at Xu Xingzhou and Xu Mao and said, "Since you knew my plan, why didn't you counter it at Dragon and Tiger Hall and wait for us to come? Then, Xu Mao could have turned it around, possibly disrupting our plans. But now, you foolishly rushed to the Situ family headquarters to seek death!"

"Hahahahaha!!!"

The people of the Situ family also laughed loudly.

Looking at the trio of Yang Fei, they seemed like they were watching three fools.

"Exactly, if you're going to attack, at least gather everyone from Dragon and Tiger Hall to come together; just the three of you coming here is practically seeking death!" Situ Yunde laughed heartily.

Yang Fei frowned slightly and said indifferently, "Am I here to listen to your nonsense?"

As he spoke, he looked at Situ Xian and said, "Among those present, only you have some cultivation worth my effort. Come on, let me take care of you first, then the rest of the Situ family will quiet down."

Situ Xian was taken aback by these words and then burst into an angry laugh, "Hahaha, what an arrogant youngster who doesn't know the vastness of heaven and earth, daring to challenge me!"

Yang Fei retorted, "Less nonsense, come and meet your demise quickly!"

Before Situ Xian could reply, Situ Yunde angrily said, "Young fool, seeking death, you aren't worthy to fight my father, I will kill you!"

With that, he charged towards Yang Fei.

Xu Xingzhou swiftly moved, blocking in front of Yang Fei, and struck a palm towards Situ Yunde.

Situ Yunde, shocked, knew well the potency of the Xu family's poison skill and dared not be careless. He gathered all his inner strength and countered with a palm.

"Boom!"

In the muffled sound, Situ Yunde was shaken and retreated.

Xu Xingzhou also took a step back, still standing in front of Yang Fei, and looked disdainfully at Situ Yunde, saying, "You are not worthy to have Mr. Yang lift a finger against you."

Recoiling from the impact, Situ Yunde hastily checked his palm and, seeing no trace of poison, he couldn't help but feel relieved.

Yet at the same time, he revealed a look of astonishment.

Truly, as the most outstanding of the Xu Family's younger generation, under thirty and surpassing himself solely with his internal cultivation, it was indeed impressive.

Situ Xian and the other experts from the Situ family also wore serious expressions, their faces marked with surprise.

Situ Yunde was the second strongest in the Situ family, already at the Mid Stage of Inner Strength, yet he had been defeated by a young man in his mid-twenties in a single move.

For the people of the Situ family, this was undoubtedly a heavy blow.

"Brother Situ, be careful of his Poison Palm," Xu Xinghai cautioned, while simultaneously pulling several packets of antidote from his pocket and distributing them among the Situ family's experts, "Taking this medicine will allow you to fight without fearing his Poison Palm."

Hearing this, the people from the Situ family took the antidote and consumed it.

Xu Xinghai tossed a packet of antidote to Situ Yunde.

Just as Situ Yunde was about to catch it, a whistling sound was heard, and Yang Fei, with a flick of his fingers, sent a cigarette butt flying out, hitting the packet of medicine powder and causing it to burst, scattering the powder into the air.

Yang Fei said indifferently, "Let's make this quick and not waste time."

Hearing Yang Fei's command, Xu Xingzhou charged decisively toward Situ Yunde.

Even without using the Poison Palm, he was confident he could kill Situ Yunde, let alone now that Situ Yunde had not received the antidote?

Seeing that Xu Xingzhou had engaged Situ Yunde, and after spending a brief time interacting with Yang Fei and finding him to be a decisive person who disliked unnecessary talk, Xu Mao had an idea and said to the people from the Situ family, "All of you, attack together."

His personality was somewhat similar to that of Xu Xingzhou. Since he had chosen to side with Yang Fei, he was determined to carry out his tasks thoroughly, seeking to prove his worth and display his value.

The members of the Situ family, seeing that the fighters from the Xu family were only two people, and that the Xu family was not their enemy, but Yang Fei was, opted not to engage in the battle.

A chill ran through Xu Xinghai's heart, realizing he had no choice but to take action himself. He said to Situ Xian, "Elder, let us join forces to kill Xu Mao first. The remaining Xu Xingzhou and that wild youngster are not to be feared."

Situ Xian nodded at these words, also desiring to leave a good impression on Xu Xinghai. Considering his long-standing reputation and wishing to avoid loss of face by joining forces with Xu Xinghai against Xu Mao, he waved his hand and said, "Young Master Xu, you just watch. I alone am enough to help you suppress this traitor of the Xu family."

Having said that, he leapt forward, landing six to seven meters away right in front of Xu Mao.

Xu Mao's expression became grave.

He possessed the strength of Late Stage Inner Strength, but Situ Xian was a genuine Late Stage Peak, solidified in this realm for many years, and was just a step away from entering the Energy Transformation Realm.

Now that his opponent had taken the antidote, the Xu Family Poison Palm had minimal effect on him, likely making it difficult for him to compete.

Moreover, he was injured in his right foot.

But Xu Mao did not shrink back.

Their gazes locked, and almost simultaneously, they charged at each other.

Thud after thud, their palms met fists, striking fast against fast. Each move was infused with powerful Inner Strength, with Gang Winds escaping from between their hands, shaking the void, and emitting a murderous aura that kept others at bay.

Yang Fei watched the four engaged in combat and nodded slightly.

Whether it was Xu Xingzhou or Xu Mao, both were formidable Inner Strength Martial Artists and were skilled in combat.

With a bit of cultivation, these two could later help him resolve many troubles.

Moments later, a scream was heard. Situ Yunde spat blood and, hit in the chest by Xu Xingzhou's palm, was sent flying.

Seeing his son injured, Situ Xian yelled angrily, "Go aid your second brother, and also, take down that youngster with the surname Yang!"
