

## Peerless 1641

### [Chapter 1641: I believe you!](#)

And they are responsible for a radius of five miles, and there are many places waiting for them to find.

They looked for these three hours, Yan Yuxun stood on a high place and looked at them carefully, without any impatience.

Three hours later, a smile appeared at the corner of his mouth, and his figure flashed before disappearing.

From beginning to end, no one has discovered his existence.

Yan Yuxun went all the way to the west, and all he saw along the way was this scene. The smile on his face became stronger, and he said softly:

"It seems that Chen Feng is really loyal to His Royal Highness the Third Princess, and spares no effort in doing things. In this case, I am relieved."

It turned out that after he left Zhanlong City, he didn't really leave, but stayed here again to observe what Chen Feng did.

Seeing this scene at this time, he was completely relieved and hurried back to Wuyang City to report to the third princess.

"Can I entrust the Invincible Army to you?"

Deep in the main hall of Zhanlongcheng City Lord's Mansion, Chen Feng stared at Qing Rongyue in front of him without blinking, and asked slowly.

Qing Rongyue was shocked, looked at Chen Feng in disbelief, and said with a trembling, "What, you want to entrust the Invincible Army to me?"

"Where are you going? Are you leaving me, are we?" Qing Rongyue asked flusteredly.

At this moment, she felt her heart chaotic to the extreme, panic to the extreme, and even her body trembled.

The thought of Chen Feng's departure made her terrified.

Chen Feng was startled, but she didn't expect her to react like this, and said lightly: "It's not what you think."

"I just want to leave for a period of time, as long as a few months, as long as a month, and I will come back. Don't think too much."

Qing Rongyue took a long sigh of relief after hearing this.

Chen Feng's expression suddenly became cold and stern, staring at her, and asked sharply:

"During my absence, can you lead the Invincible Army to do everything that should be done? If Tian Bujuu launches an attack, can you lead the Invincible Army to resist him? If there is any abnormal situation, can you Is it calm?"

Chen Feng asked three questions in succession. With each question asked, the expression on Qing Rongyue's face turned pale.

In the end, a face had become pale, very nervous, and even his lips were trembling.

She hurriedly waved her hand and said, "No, no, I can't do it, you must not do this."

Chen Feng suddenly shouted: "Enough!"

His harsh shout directly frightened Qing Rongyue. She looked at Chen Feng blankly, wondering why Chen Feng was like this.

Chen Feng slowly said: "You can do all of these. After I was in a coma, you were able to move eastward, defeat the Dragon City, and threatened Tian Bugui with bluffing, which shows that in your heart, your thinking is actually very clear. "

"Furthermore, your means of doing things are also very decisive, and your heart is very firm. In fact, you can completely command the invincible army. There really is no problem!"

Qing Rongyue still wanted to speak, Chen Feng waved her hand, motioning her not to say it, and continued: "So, I am relieved that the Invincible Army entrusts you to you."

"Don't underestimate yourself, you're fine, you can definitely do it!"

As he said, he stared into Qing Rongyue's eyes and patted his shoulder heavily: "I believe you!"

"I believe you!" Qing Rongyue's whole person changed when she heard these four words.

In his body, as if being injected with a powerful force, his face instantly turned from pale to flush, extremely excited.

There seemed to be a voice in her heart yelling: "I got his affirmation, and he told me that I can do it, great!"

She was extremely happy in her heart because she was affirmed by Chen Feng.

Before she knew it, she already regarded Chen Feng as an extremely important person, even with a little respect for her father and master, she was very happy to be affirmed by Chen Feng.

Chen Feng said: "I hope you can maintain the invincible army during this period of time."

This time, Qing Rongyue did not refuse any more, she nodded heavily and said, "Chen Feng, you can rest assured, I will definitely be able to do it."

Chen Feng smiled slightly, gave another explanation, then turned and left.

Just as the Invincible Army was digging three feet in its territory in the past few days, looking for something, Chen Feng quietly left Zhanlong City with a roll of parchment.

She followed the route indicated on the parchment, all the way to the northeast.

Soon, Chen Feng entered the great desert. This vast desert with a radius of thousands of miles was already within the scope of the nirvana sword gate.

However, Chen Feng is strong and the nirvana knife gate has few manpower, so Chen Feng is not easy to find by them.

Chen Feng walked in the desert for three days, and then left the desert area and entered a vast mountain range.

This mountain range does not even belong to the Dragon Slaying Mountain Range.

Amidst the mountains, there are grey rocks everywhere, expressing a sense of death.

Even the trees are gray with a distorted body shape. It gives people the feeling that the tree is suffering and very uncomfortable as it grows. From the moment of birth, it is like trying to end its own life.

The color of the trunk, the branches and leaves, are also gray, revealing a twist and death!

Chen Feng walked in it, feeling very strange.

This whole mountain range, even after entering here, the whole world became a dead silence, but in this dead silence, there was still a trace of life.

The plant was still growing, and the roar of insects and beasts rang out in the woods.

Suddenly, with a sharp roar, the sound of trees breaking and breaking continued to sound, and the sound of the earth being trampled banging and being trampled kept coming.

Then, Chen Feng saw a road abruptly stepped out in the woods, and a giant beast several hundred meters tall appeared in front of him.

This giant beast is a giant bear, but, unlike the giant bear outside, his skin presents a dying grayish white, and it has three heads.

These three heads were not born directly, and they were definitely not natural. They felt like they were squeezed out of his shoulders and both ends of his neck.

The two heads and four eyes on both sides looked at Chen Feng, full of coldness.

And the head in the middle was full of pain, screaming and madly roaring all the time.

Obviously, he was tortured crazy!

Facing him, Chen Feng didn't have any fear, and then whispered softly: "Why are you so full of despair?"

"You didn't want to kill me when you came here. Instead, you want to use my hand to kill you and help you out, right?"

#### [Chapter 1642: carnival](#)

Upon hearing this, the giant bear twisted its neck and let out a fierce roar.

But Chen Feng clearly saw a deep despair in his eyes.

Chen Feng took a breath: "Well, then, I will fulfill your wish."

As he said, his body flashed, and suddenly, he moved forward frantically, turning into a cannonball, and bombarding the giant bear with one punch.

The bear head in the middle of the giant bear showed relief on his face, and he didn't even think about resisting.

The two bear heads on the other two sides roared fiercely, controlling his body abruptly and making a counterattack.

Two huge claws pounced towards Chen Feng, but this was useless at all.

Chen Feng blasted out with a punch, smashing the two huge bear claws directly, and then blasted on one of his chests.

With a bang, huge power burst out directly, smashing the bear's head alive, and even blasting half of his shoulder.

At the place where the bear's head was blown up, a gray air current suddenly emerged from it. When this gray air current left the giant bear's body, the giant bear seemed to be relieved suddenly, and the whole person became relaxed.

He let out a long, long howl, but there was no pain in the howl, but full of comfort and ease.

The gray air current spit out and rushed directly towards Chen Feng.

In this air current, there was an incomparable evil and destruction, and Chen Feng couldn't help being surprised by the power of this force.

He let out a stern sound and rushed towards Chen Feng, apparently wanting to occupy Chen Feng's body.

Chen Feng sneered: "Do your \*\*\*\* spring and autumn dreams."

The power of Little King Kong surged in an instant, fair and majestic, and boundless.

When the gray air current touched the power of the little King Kong, it was like snow hitting the sun. The gray air current felt a strong burning pain and suddenly let out a scream.

The gray airflow was instantly melted in half.

Obviously, the power of the little King Kong is the nemesis of the evil power of the gray air current.

But in a moment, all the gray airflow was melted away.

Chen Feng sighed lightly, this gray air current was really quite difficult, extremely permeable, and very powerful.

If you change to someone else, I'm afraid it will be eroded by it today.

"Fortunately, fortunately, my Diamond Power is strong enough, and it is also his nemesis."

At this time, the giant bear had fallen to the ground, half of his shoulder and even his chest had disappeared, and he was dying.

But the expression in his eyes was full of peace and relief.

Chen Feng walked up to him and said softly: "You, also should rest in peace."

He looked at Chen Feng, his big mouth fluttered slightly.

Chen Feng clearly saw two words from it: "Thank you."

Chen Feng did not move the giant bear, did not take away anything from him, but dragged his body, came to a deep valley, and threw it in.

Then, with a palm, he smashed a small hill next to him and buried it.

"Getting together is destined, so don't spend it today."

Chen Feng turned and left, and he continued to walk towards the depths of the mountain range.

About twenty miles ahead, he saw a huge stone stele on the side of the road.

The stone stele is 100 meters high, with two big \*\*\*\* characters on it, which is very clear.

Seeing those two words makes people feel hopeless, and the two words written on it are exactly: "Silence!"

"Is it nirvana?" Chen Feng whispered to himself: "It seems that this place has entered the territory of the nirvana knife gate."

"Is it impossible to say that the weirdness in this mountain range has something to do with the Nirvana Sword Gate?"

Of course, although this place has entered the territory of the Silenced Sword Gate, it is actually thousands of miles away from the location of the Silenced Sword Gate.

Although the nirvana knife gate is far not as big as the countries of Qin and Qi, this powerful force also has a great sphere of influence.  
**novelusb.com**

Chen Feng stayed here for a whole day, and only found a place to rest in the evening.

In the course of this day, he encountered four monsters and three mutated profound plants, and these mutated existence strengths were quite powerful.

Chen Feng had seen monsters of the same level as them outside the mountain, and their strength was less than half theirs. Obviously, the gray air current caused them to mutate.

Although it made them extremely painful, it also gave them great strength.

Without exception, after they are killed, there will be gray air currents gushing out of their bodies.

Chen Feng took a deep breath. He felt that there was a force of death in this mountain range, full of the meaning of death, desolation, and destruction, that's why everything here became like this!

Imperial capital, Wuyang City.

Today, Wuyang City was caught in a carnival. The royal family ordered that the curfew was lifted for three days, and all night long drinks and shouts were allowed.

Everywhere folks have invited dragon and lion dance teams, and even many restaurants have announced that the drinks are free on that day and people can drink freely.

Many merchants and nobles even set up water tables on the street to entertain the common people. Come and eat as you want, without having to pay a big man.

The whole Wuyang City is boiling.

Everyone was cheering, admiring, admiring the invincibility of Chen Feng, Earl Zhanlong, and admiring His Majesty the emperor's wise!

All this is due to news from the front lines.

At noon today, the messenger who reported victory galloped into Wuyang City, shouting long live all the way.

When he arrived at the imperial city, he shouted 999 times, and his voice spread throughout Wuyang City, letting everyone know the news of the great victory of the Eastern Route.

"A great victory on the Eastern Front, fight against Chen Feng, the lord of the Dragon City, and lead an army of 60,000, all the way to the east. Within ten days, he will break through ten cities and behead the opponent's ten one-star martial arts kings!"

"Five days ago, even the rebel two-star Wu Wang strong Tian Cheng beheaded, broke into a thousand miles, and regained the Dragon City!"

At this point, the entire eastern frontier of Da Qin, which was previously occupied by the rebels, was regained by the Da Qin army.

East Xinjiang is calm!

The news spread to Wuyang City, and the whole city was boiling.

After hearing the news, the Emperor Daqin said three good words in a row!

Then boarded the imperial city tower, facing all the subjects, said eight words: "Jin Zhen has no shortage, the world is joyous!"

In the Dragon God Hou Mansion, above the main hall, the Dragon God Hou burst into laughter.

He clapped his hands and shouted loudly, "As expected of my disciple!"

He shouted: "Go, take the dragon blood wine I have treasured for a hundred years, and I will be drunk today!"

Upon hearing this, the Jinlongwei was immediately startled.

Dragon Blood Wine is a wine that Dragon God Hou began brewing 50 years ago.

It is said that it is based on the blood of a high-level dragon race, mixed with dozens of precious medicines, and brewed from heaven, material and earth.

#### [Chapter 1643: sad](#)

Apart from other things, the drop of high-level dragon blood dripped in the wine is extremely rare, and it can even be said that buying a city is no exaggeration.

That is a high-level dragon clan, not a low-level dragon clan such as a red dragon and a white dragon. It is rare to the extreme.

This altar of wine has been brewed for fifty years. In fact, it has been brewed ten years ago. Dragon God Hou has always been very greedy. There have been several major festivals. When he was happy, he said he wanted to take it. I came out to drink, but in the end I put it back again.

Because he was reluctant, he always said that he would wait for the happiest and proudest time to drink.

Long Shenhui looked at the sky in the distance and whispered to himself: "It's now."

The dragon \*\*\*\* Hou Wei hurriedly responded and strode down, and soon he walked in with a huge clay jar in his hand.

No matter how precious the material is, the fine wine is not as good as the clay jar. This is the taste passed down by the ancient ancestors.

Suddenly, the main hall door was pushed open, Zhou Yang walked in, his face was full of joy.

He looked at Dragon God Hou, laughed loudly, and said loudly: "Master, Junior Brother is overjoyed, I will come to have a drink with you."

"Good, good!" Long Shen Hou laughed openly, stroked his beard and said: "You are here just right, this wine is going to be drunk with the master and apprentice to taste."

At this time, a charming voice sounded next to him: "Since the master and apprentice drink together, can the master count me as one?"

It was Shen Yanbing who spoke.

Dragon God Hou quickly hugged the wine jar in his arms and made a painful look: "Oh, this guy is here, and my wine will be divided a lot. I really can't bear it."

Zhou Yang shook his head and smiled bitterly.

Shen Yanbing raised his willow eyebrows, pinched his waist and said angrily: "Master, are you reluctant?"

Long Shenhui hurriedly laughed with him: "How dare, how dare?"

He was very cute to Shen Yanbing and was eaten to death by this little apprentice.

Shen Yanbing smiled and said, "It's pretty much the same."

The Dragon God Hou laughed and said: "How can you be less than you, Chen Feng has made such a contribution, and his strength has grown to such a terrible state. After hearing this news, you must be happier than I am?" *novelUSB.Com*

As he said, he squeezed his eyes to Shen Yanbing!

Shen Yanbing has always been generous, but when he was teased at this time, he couldn't help but blush.

She stomped her feet slightly and said, "Master, what are you talking about?"

Long Shen Hou was in a good mood, stroked his beard and smiled: "Hahaha, let's not talk about it, let's master and apprentice three people, go to the terrace."

The terrace is in the center of the mansion, which is thousands of meters high and is pure metal casting.

The top of the terrace is covered with cobblestones, surrounded by jade pond fairy grasses, and various rare and mysterious plants.

Here, the cool breeze is blowing, the breeze is very elegant, the bamboo leaves are whirling.

Although it is night time, by the moonlight, you can also overlook the surrounding embankment of thousands of miles, and the vision is wide, making people feel happy.

The three masters and apprentices drank heavily. At the end, Dragon God Hou suddenly raised his wine glass and stared at the ground blankly without saying a word.

Zhou Yang quickly asked, "Master, what's the matter with you?"

When Long Shenhon raised his head, both of them were taken aback.

It turned out that Dragon God Hou was already in tears at this time.

He sniffed, a look of embarrassment appeared on his face: "It makes you laugh!"

Although there were tears in his eyes, there was no trace of sorrow on his face. Instead, he was full of joy.

He laughed loudly: "I am happy. I shed tears because I am happy."

"My Dragon God Mansion has another generation of talents. I dare to conclude that the Dragon God Hou Mansion will be carried forward in his hands, and the inheritance of the Patriarch will finally not be broken."

"Furthermore, he may even have greater achievements than your ancestor master."

At this time, it was also in the Dragon God Hou Mansion.

In the small courtyard where Chen Feng lived, Chong Yuxiu and Luo Zilan were sitting opposite each other for a drink, a very simple drink and food, but both of them were greeted with a touch of joy between their eyebrows.

It's just that the joy of Luo Zilan's eyebrows contained a bit of sadness.

Suddenly she put down her wine glass, looked at Zhong Yuxiu and said, "He has become so powerful now, and he has made such a contribution in Dongjiang. Then, he should be back here soon, right?"

Zhong Yuxiu nodded and said: "Mostly yes, I heard that he has regained all the land occupied by the rebels in Eastern Xinjiang, then the matter over there should be almost finished."

"After I'm done, I will naturally come back quickly."

After hearing this sentence, Luo Zilan's face was even more melancholy and inexplicably sad.

"This time, if he comes back again, he should be able to rescue Han Yuer with great confidence."

"Yes." Zhong Yuxiu nodded again: "What's wrong?"

She suddenly realized, "I know, you must be worried that Han Yuer will not be able to tolerate you when he comes back, right?"

She clenched her fist and said indignantly: "Don't worry, Sister Luo, I will definitely stand by your side. If Han Yuer comes back and dares to bully you, I will settle accounts with Chen Feng!"

"You are so kind to him, how can he be sorry for you?"

Luo Zilan shook her head and smiled bitterly. There was a trace of sadness in her smile. Zhong Yuxiu wanted to say it again. Luo Zilan waved her hand gently and said, "Okay, stop talking."

"Don't worry, I'm fine, come, let's drink."

After talking about drinking a cup of wine, he has something to worry about tomorrow, why Chongxiu asked him but he didn't say anything. Chongyuxiu couldn't help but had to accompany him to drink cup by cup.

In the depths of this grey and vast strange mountain range, beside a big lake.

The water of this big lake also showed a gray color, and the rough waves hit the shore, bringing up countless gray bubbles.

It looked as if it was a lake completely filled with venom, giving off a fishy stench.

And as the lake rippling, the lake water did not split, revealing the true faces of some giant beasts in the lake, which looked quite horrible, each look hideous and terrifying.

A stream of gray air rushed in the air. Whenever the lake water surging up on the shore, the lake suddenly cracked, and several gray air currents gushed out of it.

These gray air currents rushed madly towards Chen Feng. Above Chen Feng's body, the power of Little King Kong kept surging, and kept going around his body.

Above Chen Feng's body, golden light flickered, but this golden light did not flicker all the time, but when there was a gray air current rushing through, there was a little diamond power rushing there.

Then with a bang, it directly smashed the gray airflow, which was so efficient and labor-saving.

At this time, Chen Feng's use of the power of the Little King Kong has greatly improved, and he is countless times more proficient than before.

#### [Chapter 1644: The power of King Kong, evolution!](#)

Suddenly, there were three gray air currents, and they were moving towards Chen Feng at the same time, and a sneer appeared at the corner of Chen Feng's mouth: "You beasts even talk about military strategy?"

Above the three nodes that were attacked, the golden light flickered at the same time, pops, three bursts, three gray air currents were crushed again!

Those gray air currents seemed to find no effect. Chen Feng seemed to hear them utter a sorrowful cry at the soul level, and then swish, these gray air currents contracted backward at the same time and did not continue to attack Chen Feng.

The gray airflow disappeared.

A smile appeared at the corner of Chen Feng's mouth: "I have been here for three full days. For three days, I used the gray airflow to temper the power of the little diamond. Now, my little diamond power is already very skillful."

Suddenly, the power of the little King Kong in Chen Feng's body, like the raging sea of raging waves, caused boundless waves.

In the martial sky and river in his body, the power of Little King Kong surged wildly, and then evaporated, turning into countless golden mist.

This golden mist began to evaporate slowly, and finally, it filled Chen Feng's dantian, covering the dantian with a layer of shallow gold.

In Chen Feng's heart, the mystery of the Little Diamond Technique was slowly flowing, and the ultimate meaning of the Little Diamond Technique was completely unfolded in front of Chen Feng, without the slightest secret.

Suddenly, in Chen Feng's body, the mist formed by the power of the Little King Kong, wandered and rotated continuously in a mysterious route, drawing grand arcs in the air, as if revealing the mysterious and profound principles that existed in ancient times.

Circle after circle, cycle after cycle.

Chen Feng was completely immersed in this profound comprehension, closed his eyes and meditated, smiling at the corners of his mouth, like a smile of flowers, all over the country.

At this time, his soul was clear and ethereal.

I don't know how long it took before Chen Feng suddenly heard that an extremely magnificent voice seemed to be heard in the dantian, as if it were some kind of magical six-character mantra.

Suddenly, Chen Feng was awakened.

But when he wanted to comprehend carefully, the voice was gone.

At this time, Chen Feng suddenly realized that the sun had already risen from the morning to the setting sun.

Unconsciously, he has actually been here for a full day!

At this time, the golden mist in the dantian had already turned into countless golden water droplets, spraying towards Chen Feng's martial arts Tianhe.

In the pubic area, it was like a grand rain.

Finally, the rain fell and the sky was fine.

In the martial arts Tianhe, the power of the little diamond is full, and the power of the little diamond at this time is more crystal clear than before, and it is glowing with a shallow crimson color.

The purest gold is not gold, but pure gold!

When the gold is at its extreme, the color is red!

At this time, the total amount of Little King Kong's power has not changed, but the purity is much higher.

The power of the same amount of Little King Kong is much higher than before!

"My Little King Kong's power has evolved!" A smile appeared on Chen Feng's face.

Facing the big lake, Chen Feng looked at the high and wide world, a gloomy gray, a great sense of desolation surged in his heart.

Suddenly, the power of the little King Kong that had just gone silent was activated with all its strength, and it rushed out crazily again, and the light on the dragon-slaying knife in both hands was constantly rolling.

It's like a golden chain, spreading on it.

In an instant, the entire dragon slaying knife was surrounded by a strong, pure and vast golden light, and then the dragon slaying knife was cut out in Chen Feng's hand.

With a bang, slashed on the beach, directly smashing the thousand-meter-long beach entirely made of white stones.

The whole white rock beach collapsed and fell into the lake, causing the lake to fluctuate.

The second knife was not a cut, but a thorn.

Chen Feng's knife stabbed and pierced the lake water directly, forming a deep and deep hole with a diameter of more than ten meters and reaching the bottom.

After reaching the bottom, without stopping, another huge hole hundreds of meters deep was pierced in the bottom of the lake.

This time, Chen Feng aimed at one point.

The third knife fell into the lake with a loud bang, and the lake water was directly chopped open a huge crack that was tens of meters deep, ten meters wide, and thousands of meters long.

The lake was deep, hundreds of meters deep, and was chopped to the bottom by Chen Feng. Two water walls were erected on both sides, as if a passage had appeared in the middle.

However, the power of Dragon Slaying Sword does not stop there. Not only did it go all the way to the bottom of the lake, it also cut out a very deep and long gully from the bottom of the lake!

This knife, Chen Feng aimed at a line.

The fourth knife, Chen Feng cut out with this knife, but the strength was not extremely solid, but rather scattered, and directly slapped on the lake with a radius of one thousand meters.

As a result, the lake water with a radius of one thousand meters was full of violent fluctuations, and it fell down several meters.

Suddenly churn out again.

Bang Bang Bang Bang, dozens of hundreds of meters high water column exploded in the lake water, the water column surging, the water splashed, as if there were dozens of huge fountains suddenly here.

With this cut, Chen Feng dealt with it on one side!

In an instant, Chen Feng had already cut out eight knives one after another, and after the eight knives were cut out, the entire lake was surging crazily by him.

Huge waves of tens of meters high constantly slapped the shore of the lake, smashing a cliff directly. I'm afraid that since the lake existed, no one has set off such a shocking wave in it!

Chen Feng stood up with his sword and fell on the cliff by the lake, letting out a sigh of breath.

There was a slight flush on his face and his breathing was a little short.

Obviously, these eight swords have also exhausted Chen Feng's power.

Chen Feng sighed slightly, and said slowly: "Now, after I break through and enter the eighth peak of the Martial King Realm, if I use the power of the little King Kong, every cut is the strength of the one-star Martial King peak."

"The power of these eight knives has increased by about three times compared with the previous ones, and the power has become very powerful!"

"Now, if I meet Tian Cheng again, even if I don't use the power of Xiaojingang in the state of martial arts, relying solely on the possession of the martial arts or using the power of Xiaojingang alone, I can fight Tian Cheng fiercely for a long time. !"

"Even if you can't kill him, it's not a problem to win or lose in the end!"

Chen Feng took a breath and returned to a hidden cave by the lake, meditated and rested to recover his strength.

He took out a large amount of primordial stones and absorbed them with the nine-yin and nine-yang magic arts, and his strength quickly recovered.

A day later, Chen Feng appeared in the same position.

Only this time, it was not the power of Little King Kong that surged in him.

Behind him, a huge martial arts spirit suddenly appeared, then slammed into Chen Feng's body again!

As a result, Chen Feng's momentum climbed sharply, and he climbed to the peak of the One-Star King Wu before he stopped.

#### [Chapter 1645: Chase](#)

Chen Feng clenched his fists, felt the surging power in his body, and smiled slightly at the corner of his mouth.

He said softly: "Now, if you use the power of the martial soul, your strength has improved a lot, and it is already the peak of the one-star martial king."

However, when he probed carefully for a moment, his face suddenly changed!

A look of surprise appeared on his face: "Why my current martial arts power is consumed so quickly, so many times that before?"

Chen Feng immediately began to explore, make a move, and use a powerful move, each of which has the strength of a one-star Wuwang peak.

But soon, he felt the huge consumption of the martial arts, much faster than usual. After a cup of tea, the martial arts suddenly broke away from the body of Chen Feng, already becoming transparent.

If you want to use it again, you need to nourish it in the inner alchemy for half a month.

Chen Feng pondered for a moment, and he understood it in his heart. He said in a deep voice: "It turned out that I can maintain a cup of tea with the power of Martial Soul, but now it has been shortened by two-thirds and can only be maintained. Time for a stick of incense."

"Furthermore, if you use the white dragon to turn the river and level the four seas in the state of possessing the martial soul, the strength is equivalent to the early stage of the two-star martial king, but the persistence time is shortened to 30 breaths, which is still three points shorter than before. of two!"

"I know why!" He let out a sigh of breath and said:

"The body is the power of refining the body, and the soul is divided into the power of martial soul and the power of spirit."

"And the strength of my spirit after being possessed depends on my own realm, but the length of persistence depends on the strength of the spirit."

"My strength has increased now, so my strength has increased after being possessed by my spirit, but my spirit itself has not grown much, and the strength of the spirit is still that."

"After the strength rises, the martial arts power that needs to be consumed is more powerful, so the persistence time becomes shorter!"

"So," the thought in Chen Fengfeng's heart came up again:

"What if I use the power of Little King Kong while possessing a martial soul? What will happen?"

But then he expelled the dangerous thought, which was very dangerous.

"My current martial arts power is not enough. If I do this again, I'm afraid the martial arts power will be directly overdrawn. Then maybe the martial arts will disappear directly, and my head may burst directly."  
."

"Because, too much mental power has been extracted!"

Chen Feng shook his head, turned to leave here, and continued to follow the route, heading forward.

The further forward, the deeper he went into the depths of the vast and extinguished mountains!

Ten days passed, and Chen Feng went deep into thousands of miles.

Beneath a cliff, a figure rushed forward.

Behind him, the roar of the beast sounded one after another, full of violence and killing.

The sound of a piece of tree breaking and breaking continued to come, click, click, click, and the tall trees in the forest were like being squeezed and crushed by a thing.

The giant beast just opened up a wide road in the woods, and the figure fleeing in front, dressed in a green robe, was tall and tall, and it was Chen Feng.*NoveLUSB.com*

At this time, there was still a bitter smile at the corner of his mouth, a little helpless.

Behind him, the giant beast is similar to a gorilla, which is hundreds of meters high. Its arms are as thick as a five- or six-story pavilion, and its fists are as big as a hill, and it looks terrifying.

It seems that he can smash a mountain with one punch.

But in fact, the aura coming from his body at this time is also extremely terrifying, this has reached the early stage of the Second Star Martial King!

This huge and weird black monster is already a monster king, and a two-star monster king!

At this time, he was chasing Chen Feng crazy.

The distance between the two of them is also constantly approaching. The distance between them was tens of thousands of meters. At this time, they were close to more than 8,000 meters.

After Chen Feng ran forward for about a cup of tea, the distance was forced to close to more than 6,000 meters.

This is a dense forest. In the dense forest, the trees are originally dense. Chen Feng can naturally walk through the trees. This huge gray orangutan can only push the trees away and break them before they can enter.

However, the deeper you go, the bigger the trees, and some have reached a height of several kilometers.

The gap between the trees has also become larger, enough to accommodate the smooth passage of this huge gray orangutan.

This giant orangutan, called the mountain swallowing violent ape, is extremely powerful.

Another important reason for the continual approaching distance is Chen Feng's own reasons.

He murmured: "My light gong must be strengthened. My light gong is really bad. The Tianlong step I use now is still used in the early stage of Martial King Realm or even the Soul Condensing Realm. It can't keep up. My strength."

"My current light work is far from being able to match my current strength!"

The distance between the two is still getting closer.

Soon, it was shortened to more than 3,000 meters.

The mountain swallowing violent ape roared excitedly and his eyes were blood red.

With a bitter smile on his face, Chen Feng suddenly turned around and cursed loudly: "Fucking, are all the monsters in your mountains so weird and grumpy? I never provoke you at all, but I just passed by your territory. , You chase me?"

The mountain swallowing violent ape had blood red eyes, his saliva was dripping out, his breath was as heavy as the wind, his throat kept roaring, his expression was full of madness.

Obviously, he has lost his mind at all!

Chen Feng ran into this mountain swallowing violent ape in the morning and had been chased for two hours.

He also knew now that the monster beasts in this mountain range were basically eroded by the gray air current, becoming very irritable.

Suddenly, the mountain swallowing violent ape, with a fierce roar, jumped into the sky, reaching a height of thousands of meters.

He hammered his chest frantically in the air, making a banging sound that could be heard for dozens of miles.

Then, his long arms stretched out, the size of a mountain beam, one grabbed a tree trunk that stretched out from a towering giant tree, and then his entire huge body swayed in the air for several kilometers.

The huge tree was directly pulled down by his huge power, and his body flew out several kilometers in an instant like a broken bamboo.

With a bang, Chen Feng felt as if a mountain was slammed in front of him, and a huge black shadow fell directly in front of him.

There was a big earthquake, but it was only a shock. If another murderer with this weight landed, it would definitely step into a big hole on the ground, and it would be torn apart.

#### [Chapter 1646: Fight!](#)

However, the mountain swallowing violent ape landed, and the ground only shook.

Obviously, although he is extremely heavy, his power is so strong that he can control his body at will, and his power control is extremely powerful.

Chen Feng stopped quickly, otherwise it would hit the mountain swallowing violent ape.

At this time, the mountain swallowing violent ape turned his back to Chen Feng, and then he slowly turned around, two huge blood-red eyes staring at Chen Feng fiercely, his eyes flashing with a brutal red light, full of killing intent.

His upper and lower front teeth rubbed heavily, and the smelly saliva dripped from his mouth.

In his opinion, the little human in front of him possesses an extremely sweet aura and huge spiritual power. If it is swallowed, it will be of great benefit to him.

"Eat! Eat!" These two words came out from his throat.

Originally, his strength reached the realm of the two-star demon king, his IQ should be very high, but this gray air current eroded his body, making him stronger, and it seems that it also reduced his IQ. Only so few can be said. Simple words!

Chen Feng took a deep breath and stared, revealing awe-inspiring killing intent.

His aura grew up suddenly, and he slammed into the aura from the mountain swallowing violent ape.

Chen Feng held the Dragon Slaying Knife in his hand and said softly: "Since you are chasing after me and refuse to let me go, then we will have to fight to death in two months!"

"Death battle, only death battle!"

This mountain swallowing tyrannical ape felt Chen Feng's provocation, and suddenly became furious. In his opinion, this little thing is only qualified to serve it as food, so he dare to say such things? I really don't know how high the sky is!

He roared, and the fist the size of a hill blasted towards Chen Feng fiercely.

There is no fluctuation of the gods in his body, obviously relying on pure physical power, but this physical power is already extremely powerful.

Chen Feng did not show weakness, his body shone with golden light, and the power of the little King Kong surged, and he slashed towards the opponent with a single blow.

With a loud bang, Chen Feng's dragon-slaying knife slashed fiercely on his fist.

Chen Feng felt an incomparable force rushing madly. He was hit and flew hundreds of meters away and hit a big tree with a diameter of more than tens of meters.

With a bang, the tree was directly knocked into countless pieces!

Chen Feng felt severe pain all over his body, and there was a smell of blood in his throat. He was already slightly injured, and his dragon-slaying knife was slashed on the huge fist of the mountain-swallowing violent ape. Chen Feng looked intently and found that on the huge fist of the mountain storm ape, there was only a faint bloodstain.

Even the blood did not ooze out much, but dozens of hairs were cut off.

Chen Feng's pupils shrank, and his eyes showed a shocked look: "Could it be that these Demon Kings and Martial Kings are so strong in their bodies and their defenses are so strong?"

Chen Feng gritted his teeth, screamed, and yelled, "Come again!"

The figure flashed, leaped up into the sky, and cut it out with a single blow.

The corner of the mountain swallowing violent ape's mouth curled, revealing a touch of disdainful ridicule, and punched out.

Another huge force came to the extreme, and Chen Feng was drawn away hundreds of meters away, and slammed into a rock wall, crashing the rock wall directly, causing severe pain throughout his body.

This time, Chen Feng's mouth was sweet and blood overflowed from the corners of his mouth.

And his crazy stab left only a shallow blood mark on the finger of the mountain swallowing violent monkey!

This is actually the second time Chen Feng has seen the physical tyranny of a strong man in the Wu Wang realm.

The first time was when I met the Golden Winged Thunder Eagle King.

Chen Feng would never forget that when he had just faced the Golden Winged Thunder Eagle King, no matter what the move, no matter how powerful it was, he couldn't break his defense.

The tyrannical Dragon Slayer knife slashed on his body, but it could only leave a few shallow blood stains on him.

From that time, Chen Feng knew that the strong man in the Martial King realm seemed to be extremely powerful in physical strength, and he did not know how many levels he was stronger than the strong in the Martial King realm!

This kind of change is almost turned upside down, as if once entering the Martial King Realm, the body immediately becomes extremely tyrannical.

Physical strength, sharply strengthened!

Chen Feng didn't know what the reason was, maybe he could only understand when he broke through and entered the Martial King Realm.

Now, this is the second time Chen Feng has realized it, and it is clearer than last time.

The mountain-swallowing violent ape looked at Chen Feng with an extremely disdainful expression on his face. He suddenly roared and swept towards Chen Feng with a slap, actually grabbing Chen Feng directly in his hand.

Then, his fingers began to shrink inward, clenching his fists, seeing that he was actually pinching Chen Feng to death.

It's like pinching a bug to death!

Chen Feng felt that an extremely powerful force came from around his body, squeezing him frantically, his whole body was in severe pain, and his bones burst out, feeling that the force could not be resisted at all, almost crushing him into flesh. *nOVeℓu\$B.com*

The Mountain Swallowing Ape looked down at Chen Feng and swallowed his saliva. Obviously he would swallow Chen Feng immediately after pinching Chen Feng to death.

He looked at Chen Feng at this time, as if he was looking at a dead person!

Chen Feng yelled frantically: "Ah, how can I die here? How can I die in the hands of this beast?"

He screamed frantically, and the power of Little King Kong poured out frantically.

With him as the center, a ring of golden light burst suddenly.

This golden light was the power of the rushing Little King Kong. With a bang, the Mountain Swallowing Ape screamed, and he couldn't help but let go. The palm of his hand was already bloody.

With the strength of his body, countless huge blood wounds were blown out by the power of Little King Kong, and bones were even visible in some places!

It is indeed the power of the Little King Kong that can make a person's strength increase tenfold.

Chen Feng escaped from the dead, his eyes were cold, and he was also fierce, his figure flashed, the power of the little diamond surged, and the Dragon Sword cut six swords one after another.

The speed of these six swords was extremely fast, and the mountain swallowing violent ape had just been shaken away, and he did not watch out for a while, so he was hit by Chen Feng's six swords one after another.

Moreover, these six knives are all standing in the same position, which is where his right thumb is.

Keng Keng Keng, six knives slashed on it crazily, each cut can only leave a wound on it, but the accumulation of small amounts, when the last knife fell crazily, on Chen Feng's body, the last trace of the power of the diamond Madness broke out.

He had tried his best, and there was a loud bang. The huge thumb that was tens of meters long and could be embraced by a dozen people was cut directly from the root by Chen Feng and flew out!

#### [Chapter 1647: Hard shake!](#)

Suddenly, blood surged, and a thick pillar of blood spurted out frantically from the wound!

Ten fingers connected to the heart, although the mountain-swallowing tyrannical ape's injury was not serious, it was only a minor injury, but the pain was extreme.

He let out a scream and slapped Chen Feng away.

This time, Chen Feng was directly beaten and spurted out of blood!

The mountain swallowing violent ape was completely irritated by the pain, he strode forward, this time he did not grab Chen Feng with one hand, but grabbed Chen Feng with both hands. It looked like he was going to be hard. Born to tear Chen Feng in half.

With a roar of anger, Chen Feng rekindled his martial spirit, and he swiped it directly into Chen Feng's body.

Chen Feng's momentum climbed again, and his strength directly reached the peak of the one-star Wu Wang.

He roared, and the Dragon Slaying Sword in his hand chopped out.

It's just that Chen Feng was not using ordinary moves this time, but Bailong's move to turn the river and level the world!

Chen Feng is a very decisive person, and he can see now that if he doesn't use his tricks, he will definitely not be the opponent of Mountain Swallowing Ape, so he will use all his strength when he comes up.

Originally, Chen Feng slashed at the Mountain-Swallowing Wild Ape head-on, but the Mountain-Swallowing Wild Ape roared and blasted towards Chen Feng with a punch.

However, Bailong's move of turning the river and leveling the world is very mysterious.

Chen Feng's figure was like a Tianhe rolled up, drawing a graceful arc in the air, and he came directly to the back of the mountain swallowing tyrannical ape, directly to the corner of his knee!

In Chen Feng's eyes, murderous intent flashed, slashing out crazy!

Since the mountain swallowing violent ape didn't watch out at all, the knife didn't have any obstacles, and it slashed directly at the bend of his knee.

With a loud noise, his knee bend was directly cut out a huge wound that was more than 30 meters long and four or five meters deep, and blood poured out like a waterfall.

With this knife, Chen Feng cut off his flesh, even one of his large tendons, the painful mountain swallowing violent ape hissed and staggered, and his body shook heavily!

At this time, under the possession of Wuhun, Chen Feng had reached the power of the two-star Wuwang by using the trick of turning the white dragon over the river to level the world!

The power of the martial soul was consumed rapidly, and Chen Feng knew that he only had thirty breaths.

After thirty breaths, if he can't kill him, then he must be the one who died, and he won't have any power to fight back!

The mountain swallowing violent ape screamed sternly, dragged a wounded leg, turned around, and blasted towards Chen Feng with a punch.

This time, he had already used his strongest strength, angered against his heart, and tried his best, and he was several times more powerful than before.

But it's useless!

Chen Feng's move was truly marvelous. He slashed out again with a single knife, drew an arc again, came to his back again, and once again used a white dragon to turn the river and level the world.

Then in the next instant, the Dragon Slaying Sword slashed bitterly at the wounded place of the Mountain Swallowing Ape.

With a loud bang, the three large tendons were directly cut off. The wound went from more than 30 meters long and five or six meters deep to hundreds of meters long and ten meters deep, spreading directly from the middle of his thigh. To the knee position.

The mountain swallowing violent ape uttered a scream, he turned his head madly, and launched the strongest attack towards Chen Feng. His fist even turned into a yellowish color, and countless yellow lights gathered.

Obviously, this move is powerful, and Chen Feng at this time still wants to use another move, Bailong, to surpass the world.

However, he suddenly woke up, because he saw a strong guard and a proud look in the eyes of the mountain swallowing ape.

Chen Feng suddenly broke out in a cold sweat, and a voice shouted in his heart: "This beast is too smart. He is waiting for me to use that trick."

"He is waiting for me to go behind his back, and then blast at me with all his strength. If I am behind his back, then I will throw myself into the trap!"

"But, what if I don't use this trick? I now either retire or fight it hard! If I fight it hard, am I his opponent?"

Chen Feng was in a dilemma.

"Damn it, no matter how much it is!" Chen Feng's courage surged, his eyes flushed, rising up infinite strength, fierce, fierce and invincible spirit, made him make the most ruthless and hardest decision. !

He decided to shake it hard!

Knowing that it is lost, still shake it!

Chen Feng let out a loud roar, and still cut it out with one knife.

However, Chen Feng did not draw that arc, so he severely slashed in front of the mountain swallowing ape's knee.

He only heard a creak, and the Mountain Swallowing Ape screamed sternly, his kneecap was directly chopped by Chen Feng, his right leg softened and he half-kneeled on the ground.

Although his right calf was not cut off, it was already discounted by Chen Feng!

Chen Feng directly cut his kneecap into a huge wound with a radius of several tens of meters, and shattered it. The bone marrow shot, the bones were beaten into powder, and blood poured out wildly.

At the same time, Chen Feng was also hit by his fierce punch.

Chen Feng felt that his body was as if he did not belong to him. In an instant, he spouted countless blood frantically, dozens of huge wounds bloomed on the surface of his body, and even his internal organs were shaken.

Chen Feng was directly injured and dying!

At this time, the time limit for Chen Feng's spirit to possess was ten breaths left. He did not hesitate to turn around and fled away frantically!

In a blink of an eye, he ran several kilometers.

Chen Feng was aggrieved, because he once again fled, but he had no choice.

Chen Feng dared to conclude that if he used the power of Little King Kong while he was possessed by a martial soul, he would definitely be able to kill the mountain swallowing violent ape.

But after killing it?

Chen Feng knew very well that he would run out of the power of martial soul and the power of Little King Kong, and would be unconscious and even die.

Even if it is not like that, it will be lost in at least half a month's time, and it is not comparable to an ordinary warrior.

In that case, he still has only a dead end in this mountain range, and there is no possibility of survival at all.

Therefore, Chen Feng did not dare to take this risk!

It's just that Chen Feng seems to have fled, but how can it be that simple in fact?

After Chen Feng left, a cold smile appeared at the corner of his mouth, and the coldness in his eyes was full: "You beast, how dare you kill me?"

"Then, I have no choice but to be rude to you! What is this? The real battle between the two of us has not yet begun!"

"Wait, I will kill you!"

Nothing came from behind, it was already out of danger,

The mountain swallowing violent ape was severely wounded and bloodied by the seven or eight knives cut by Chen Feng one after another. Especially one of his left legs was already seriously injured.

Although it has not been broken, only half of it is left. His bones were still maintained, which greatly affected his speed.

[Chapter 1648: Repay a hundred times!](#)

So he couldn't catch up with Chen Fengfeng at all.

Chen Feng was also able to quickly release the spirit possession state, so that the power of the spirit was not completely exhausted.

Chen Feng had already escaped the danger, but he did not stop. He just went all the way and escaped hundreds of miles before stopping and looking for a hidden cave.

At this time, he felt a fire between his chest and lungs, as if he was about to burn, and there were countless wounds on his body, and at the same time a very bad feeling came.

There was no pain, and the whole body seemed to collapse.

At the same time, Chen Feng felt that his body was empty, with no strength at all, and even he could only sit on the ground, unable to support his standing body at all.

Chen Feng carefully observed the injury, and then a gloomy expression appeared on his face.

This time the injury was extremely heavy, very, very heavy, and it can even be said to be heavier than the last time when the power of the small diamond was used under the condition of the martial soul possessed. At that time, the body was completely emptied, and there was no trace of martial arts gods and Xiao The power of King Kong.

"This time, I feel that my body is almost on the verge of collapse!"

Chen Feng wanted to stop the blood. This was the first thing he had to do now.

But now his body had broken down to the point where he couldn't stop the blood.

Chen Feng sat cross-legged on top of the stone, but in a moment, the blood had already dyed the boulder red, and a blood puddle formed under the boulder.

He couldn't even stop the bleeding, and he couldn't even talk about healing.

But Chen Feng did not panic. He took out a large amount of healing medicine from the golden dragon ring and applied it to his body.

But there is no effect at all. As soon as the medicine is applied, it is directly washed away by the blood!

The expression on Chen Feng's face became even more gloomy. He immediately sat cross-legged, took out a large amount of primordial stone, and then ran the nine-yin and nine-yang magic power, absorbing it frantically.

However, at this time he discovered that his broken body made the nine-yin and nine-yang magical power even unable to work!

Chen Feng wanted to absorb a lot of spiritual energy to nourish his body, so that his plan to recover slightly failed.

But at this moment, suddenly, in a hidden corner deep in Chen Feng's body, there seemed to be a sound of water dripping.

In the next moment, all the sounds in the entire world seemed to disappear, leaving nothing but emptiness.

Chen Feng seemed to be thrown into a dead space without any other creatures, and it was extremely quiet.

Then, he heard a softer 'pop' that was clearer.

It sounds like a drop of water dripping onto the water.

In the next moment, this drop of water suddenly became alive, revealing countless deep cold, extremely rich spiritual energy, pouring into Chen Feng's body.

Then, this cold aura poured into Chen Feng's broken body and began to heal his body!

Wherever this icy spiritual energy went, Chen Feng's body, which was close to collapse, stabilised instantly.

But in a moment, Chen Feng's blood on the body surface had been stopped.

Then, a few drops came out one after another, and began to repair Chen Feng's injuries.

Chen Feng was overjoyed and immediately investigated carefully.

After a while, he opened his eyes and sighed softly: "It turns out that it is the ten thousand year chalcedony that was not absorbed last time. At this time, I was seriously injured. They took the initiative to show up and heal my injuries."

The effect of Wannian Chalcedony is very good, but within an hour, the small injuries in Chen Feng's body have been repaired seven or eighty eight.

The next morning, when the morning sun started to rise, Chen Feng stood up suddenly, and greeted the first rays of sunlight shining into the cave, exhaling a \*\*\*\* breath!

At this time, all the injuries in his body had disappeared, and Chen Feng's body had also recovered to its peak.

One night, in just one night, he not only recovered from his injuries, but also recovered his strength.

This is the power of Wannian Chalcedony as a treasure of heaven, spirit and earth!

Now that Chen Feng remembered, he was still afraid for a while. The injury was too serious. If it weren't for the ten thousand year chalcedony in his body, I was afraid that he would explain it here.

A sneer appeared at the corner of Chen Feng's mouth: "Bastard, wait, I must repay the things you gave me a hundred times!"

Here is under a cliff.

The cliff is thousands of meters high, and a huge waterfall is like a silver dragon hanging upside down, scouring down from the top, and directly falling into a huge deep pool below.

Beside the deep pool, there are huge pebbles with a diameter of more than a few hundred meters, each of them as smooth as jade, looking extremely clean.

At this time, countless traces of blood were sprinkled on these huge white pebbles.

A huge figure is lying here, panting heavily, his body exudes a strong smell of blood.

This \*\*\*\* smell spread far away, and even a large group of mosquitoes were attracted, flying around his wound, making a buzzing sound.

This huge figure is exactly the mountain swallowing violent ape who fought with Chen Feng yesterday.

At this moment, Chen Feng's right knee was almost cut off by two-thirds.

The huge wound was terrifying and terrifying, the blood had stopped, dried up into a brown blood clot, emitting an unpleasant smell!

Suddenly, a golden light flashed across the wound.

With a bang, the wound that was already scabs was directly shattered by the power of the diamond that suddenly appeared again.

Then, a puff of blood came out and the wound reappeared!

Originally, the huge black shadow was lying on the ground. At this moment, the pain came, and the huge black shadow immediately sat upright.

He stared blankly at the reappearing wound. At this time, the golden light on the wound continued to flicker, and the deep part of the wound had even begun to flow out of yellow pus, and white maggots could be vaguely seen rolling inside.

Obviously, in fact, this wound was not sealed at all, it was just scarred on the surface, but it was actually ulcerating inside, so it would be better not to scar.

The reason for this is because the power of the little diamond left by Chen Feng in the wound is causing the wound to heal smoothly and speeding up its ulceration.

The mountain swallowing violent ape stared at his wound blankly for a long time, feeling the pain coming from it, and the feeling of extreme hardship came to his heart.

He suddenly yelled frantically, like a mental breakdown, frantically hitting everything he could see next to him.

Smashing those stones, smashing these white rocks into pieces, smashing the rocks into chaos.

His voice was full of annoyance, not anger, but annoyance. He had been entangled by the power of this little King Kong for a whole day!

The Two-Star Demon King is extremely powerful, and the original injury can be easily healed.

He didn't take it seriously when he came back with an injured leg. He felt that from your past experience, he would be better in three to five days.

#### [Chapter 1649: Seven Swords Demon King!](#)

But he didn't expect that this \*\*\*\* golden light would appear in bursts, making his wounds not only bad, but getting worse and worse. He was very helpless to torture, and there was no way.

After venting for a long time, he sat back listlessly, and stretched the injured leg into the pool. The water was cold, which slightly reduced his pain.

At this time, he was tortured with pain and had no time to observe his surroundings.

So much so that he didn't notice, just when he turned around, a small figure appeared quietly.

A hundred meters away from him, hiding behind a big rock, that figure is Chen Feng.

He saw this scene with a sneer at the corner of his mouth. He had known it would end like this a long time ago.

The power of Little King Kong is very annoying, the wounds cut by him are difficult to heal, and Chen Feng can perceive the power of Little King Kong.

Although Chen Feng's Little Diamond Power and Martial Soul Possession were used separately, in fact, since he became the Little Diamond Power, every attack or attack he made would carry a trace of Little Diamond Power.

It's just a deliberate or unintentional difference, if deliberately, it will increase strength tenfold.

Like his martial soul possessed, he didn't deliberately, the power of Little King Kong would also exist, but he didn't have that great power.

Of course, it will not bring too much burden to his body!

Therefore, he hated smoothly found here.

Just when the mountain swallowing violent ape pulled out his right leg from the pool of water, turned sideways and was about to turn around.

Chen Feng suddenly attacked!

His figure flashed, leaped into the sky, and let out a violent roar!

In an instant, the power of Little King Kong was activated, and the golden light filled his body, and the Dragon Saber bitterly toward the war zone where the mountain swallowing tyrant ape's knee broke!

The wound on the right leg was split open with a loud bang!

Rotten meat, broken muscles, broken bones!

In the scream of the mountain swallowing tyrant, his right calf was completely separated, and his right knee became a huge wound, and blood poured out frantically from it!

At this time, the mountain swallowing violent ape hadn't even recovered, he felt severe pain.

Then all his senses were surrounded by pain. In an instant, he was extremely angry, his eyes were blood red, and he attacked Chen Feng bitterly.

But he had forgotten that he had lost his right calf, and his body couldn't even stand firmly, let alone attack.

With a bang, he fell heavily to the ground, and his head plunged directly into the cold lake.

Of course, Chen Feng wouldn't let this opportunity go. He roared and fell directly on the back of the Mountain-Swallowing Ape.

The Dragon Saber cut out seven knives one after another!

Seven knives, every knife was cut on the neck of the mountain swallowing tyrant ape.

Kaka Kaka, seven knives fell madly on it, each cutting out a huge wound. *noVelusB.com*

And the next cut was in the wound cut by the previous cut.

Every time a knife fell, blood was flying, bone scum was chopped up and splashed everywhere, I don't know how many large blood vessels were cut off alive.

The blood was sprayed hundreds of meters into the sky like a fountain, and Chen Feng had already been sprayed into a blood man.

But he never stopped. When Chen Feng's seventh sword fell, the whole world seemed to be quiet.

Space and time seem to have stagnated, and it seems that even the wind has stopped in the air for a moment.

Chen Feng's knife was so clear that it seemed to fall slowly, and then the whole world returned to normal in the next moment.

Chen Feng's knife slashed swiftly and fiercely on the already deep wound.

Then, he heard a miserable scream from the mouth of the mountain swallowing violent ape, and it stopped abruptly.

Because, with a loud bang, the huge bone that supported the head and body of the mountain swallowing ape was directly smashed by Chen Feng.

This huge head with a radius of several tens of meters directly collapsed and flew out, slamming heavily into the pool water.

The blood in the broken neck cavity, under the huge pressure of the heart, a huge blood column with a diameter of several tens of meters rushed out frantically.

In an instant, the pool of water was stained blood red.

Two-star demon king, mountain swallowing violent ape!

Beheaded by Chen Feng with seven swords!

With seven knives, Chen Feng used seven knives to kill a two-star demon king! Equivalent to the two-star Wuwang powerhouse!

Chen Feng stood on the body of the mountain-swallowing violent ape, and laughed, happily to the extreme!

Chen Feng laughed loudly: "Beast, when you chased me in such embarrassment yesterday, did you think about today?"

"I, Chen Feng, will avenge any grudges, of course you are no exception!"

Mountain Swallowing Storm Ape's body is still twitching, which means that his body is extremely powerful. Although he is dead, his body's instincts are still there, and even his heart is still beating.

And that head, floating above the pool, had two big eyes, hollow and staring at the sky, full of unwillingness.

He didn't expect that he would die in Chen Fengfeng's hands. The gray air flow suddenly gushed out, attacking Chen Feng, and was easily crushed by Chen Feng with the power of Little King Kong!

Then Chen Feng immediately performed the nine-yin and nine-yang magic.

The weakened Qi Wheel of the Nine Yin and Nine Yang Divine Art suddenly appeared, exuding incomparable suction power. The blood that was still spraying into the lake water was suddenly changed by this powerful suction force and rushed into Chen Feng's body madly. !

Chen Feng frowned, feeling that the current suction power of the Jiuyin and Nine Yang magical art could not keep up with his own strength.

"You have to think of a way to see how to improve the cultivation of the Nine Yin and Nine Yang Divine Art." Chen Feng thought secretly.

This time, Chen Feng knew that he could kill the Mountain-Swallowing Wild Ape, which was actually very lucky.

If it was a frontal attack, even if it was a mountain-swallowing tyrannical ape with a broken leg, he would not be his opponent, but the moment the mountain-swallowing tyrannical ape's head plunged into the pool water, he seized the opportunity and cut seven swords.

Moreover, it was cut at such a fragile part of the neck, even if the Two-Star Demon King was hit in the neck one after another, he would definitely not be able to hold it!

But Chen Feng knew that this kind of opportunity was rare, and it was the truth to practice hard.

At this time, in the palace hall.

His Majesty the Emperor Qin stood high on the throne, looking down at Yan Yupu who was kneeling below.

It's just that the look on his face at this time is no longer as cold as before, but very calm.

He looked at Yan Yuxun indifferently, and said, "I went there, and all the people who should be met? Have all the things that should be done?"

Yan Yu nodded and said loudly: "I met Chen Feng and asked him questions too."

"Oh, what did Chen Feng say?" The Emperor Qin leaned forward slightly, and he was still a little nervous at this time. After all, Chen Feng has won more than a dozen cities and made great contributions. He has no excuses to deal with Chen Feng.

To be more serious, if he dared to kill Chen Feng at this time, I am afraid that no one would agree.

[Chapter 1650: Damn Chen Feng!](#)

Therefore, he was a little afraid that Chen Feng would be arrogant, and continued to do things that embarrass him and made him have to deal with Chen Feng.

Yan Yu said with a smile: "Your Majesty, Chen Feng is very sensible. After the minister told him what you meant, Chen Feng was very panicked. He also said immediately that what he did before was really wrong, and he was willing to make atonement. "

"He is very frightened and terrified. I can see that he is full of awe for you, Your Majesty."

After hearing this, His Majesty the Great Qin Emperor's slightly tight face immediately relaxed, and a smile appeared at the corner of his mouth.

He laughed and said, "Chen Feng is really good, and I don't have Bai Xu to give him such benefits, Bai treats him so seriously."

Yan Yuxu sneered in his heart, but made a very submissive expression on his face, complimenting him: "Your Majesty, you can't be wrong with the person you see. Chen Feng is loyal to you, and he is indeed young and promising!"

His Majesty the Emperor Qin nodded, and then he meditated for a moment and said: "If Chen Feng made such a feat, if he doesn't reward him, wouldn't it make the world's meritorious soldiers chill?"

He shouted loudly: "Delivery!"

A royal guard strode in.

His Majesty the Emperor Qin said slowly: "Chen Feng overcame more than a dozen cities within half a month, which greatly invigorated Qin Guowei, and I am very relieved.

"Today, we decreed that Chen Feng, Earl of Battle Dragon, was promoted to Marquis of Battle Dragon!"

"What? Marquis of Dragon?" Hearing this, the guard was shocked and said in disbelief.

"Marquis of Battle Dragon?" He repeated these four words again, feeling a dream.

"God, this Chen Feng is too powerful, right? His promotion is too fast, right? The Earl of War Dragon, who was just named a month ago, is now going to be promoted to Marquis of War Dragon?"

He couldn't believe his ears!

His Majesty the Emperor was obviously a little angry, looked at him, and said lightly: "What? Is there any problem?"

He felt that his authority had been questioned. The royal guard hurriedly threw a plop, knelt on the ground, kowtowed and said, "No problem, no problem, subordinates \*\*\*\* it."

Yan Yuxun was also stunned by the side. He didn't expect that His Majesty would give Chen Feng such a generous reward.

He organized the language and quickly persuaded: "Your Majesty, if you do this, it will do all harm to Chen Feng, but not benefit!" [ηOveLus&.com](http://ηOveLus&.com)

"Chen Feng is only nineteen and a half years old, and he is not even twenty years old, so he is in the position of Master Hou. What does this make other Master Hou think?"

"Furthermore, Daqin has always had rules. Unless we make a world-famous feat, we can't be honored."

"In the past thousands of years, there were only four marquis in Daqin. The newly promoted Marquis of Heishui, their family has fought for hundreds of years in southern Xinjiang, made thousands of miles, and made countless merits before they were named marquis. The place."

"Chen Feng is now entrusting him, I'm afraid everyone will be dissatisfied, this is not a good thing for Chen Feng."

"Moreover, the most important thing is," he looked at His Majesty the Emperor, and said, "You have given him such a great advantage now, and he has been promoted so quickly. Then, when he makes even greater contributions, how can he reward him?"

For the reasons mentioned earlier, His Majesty the Emperor Qin didn't take it very seriously, a little disapproving.

But Yan Yu's last sentence from Punishing City moved him.

That's right, if Chen Feng is now appointing the marquis, how can he do it if he makes greater credit in the future?

If the reward is not granted, will Chen Feng be dissatisfied? If it is a reward, then I am afraid that within a few years, Chen Feng's position will be close to that of the prince, or even the emperor!

Therefore, His Majesty the Emperor hesitated.

Finally, after a moment, he sighed and said, "You are right. In this case, the matter of the Fenghou will be put on hold for a while, but other rewards cannot be missed."

He said in a deep voice: "Send the order, reward the invincible army with 10 million yuan stone, and the first-class armor is 100,000."

"As for Chen Feng personally," he thought for a while, smiled and said, "Reward the Royal Vault, a prefecture-level seventh-grade martial arts volume!"

Yan Yu's heart was awe-inspiring, and nothing else, this earth-level seventh-rank martial skill, but even he has some coveted high-level martial skills!

Moreover, how precious is the royal secret?

He took his mind and led away loudly!

It was late at night, but in the Great Hall of Tongtianhou, it was still brightly lit, illuminating it as bright as day.

Outside the main hall, countless powerful guards on the third floor and the third floor surrounded it solidly, not to mention people, even a mosquito and fly would not be able to penetrate deeply.

"Within a kilometer, no one is allowed to enter, otherwise I will kill you all!"

These were the original words of Master Tongtianhou three hours ago, so these guards naturally did not dare to neglect.

At this time, above the broad hall, it was empty, because there were only four people sitting here.

Tongtianhou, Liyanhou, Heishuihou, Zhenxihou.

The four of them were sitting here, none of them spoke, just silent.

The air in the hall was almost suffocating and tense.

For three hours, they have been silent for three hours here.

Finally, Tongtianhou couldn't help it anymore. He was the initiator this time, so he gathered in Tongtianhou Mansion.

He coughed slightly, and this cough seemed to break the stagnant atmosphere in the hall, and the other three couldn't help sighing.

They also have a hard time.

Tongtianhou whispered, "Yan Yu has come back, and the news has been confirmed."

"Chen Feng, who we tried so hard to kill, is still alive."

Zhenxihou was full of sullen expression: "Chen Feng \*\*\*\* it!"

"Yes, he deserves to die, but now, what we want to say is, how can we kill him!"

Tongtianhou glanced at him and continued: "More than a month ago, we paid a heavy price, even at the risk of being discovered by the royal family. The Golden Winged Thunder Eagle King invited has been beheaded by Chen Feng, with no bones left. ."

"This time, the plan to attack and kill Chen Feng completely failed."

"Now, let's talk about the follow-up!"

"Follow-up?" The corner of Lieyanhou's mouth curled, revealing a weird smile: "What kind of master is the Golden Winged Thunder Eagle? A one-star martial master level, but he was killed by Chen Feng."

"Not only that, Chen Feng appeared in Eastern Xinjiang a few days later and destroyed the plan of the Blood Guard. This shows that the Golden Winged Thunder Eagle King did not cause any damage to Chen Feng at all!"

Heishuihou chuckled, "Isn't this nonsense? Chen Feng has already visited more than a dozen cities in East Xinjiang, beheading more than a dozen one-star martial masters, and even a two-star martial king. By."

"With the strength of the Golden Winged Thunder Eagle King, it is not worthy to give Chen Feng shoes now, how could it be possible to kill him!"
