

Peerless 1781

[Chapter 1781: Top Ten Young Masters! To the top!](#)

This ranking list is extremely authoritative, as long as it is on the list, then it means that the strength is recognized by the entire Thirty-seven Kingdoms, thousands of trillions of people.

The reason for this is that the force that ranks on this ranking is called Wudong Academy.

Wudong Academy is extremely powerful and powerful. It is said that it is even more powerful than a few countries united. But the most shocking thing is that Wudong Academy is just one of a certain powerful force in the 37 countries. It's just a tiny branch, it's not even a number!

The Wudong Academy has branches in each of the thirty-seven countries of the Dragon Slaying Kingdom. Every three months they will issue a list of outstanding dragons.

As soon as the Tu Long Junjie list was released, it would spread to every city in every country at an extremely fast speed, letting everyone know.

As long as he can be on the Dragon Slayers list, it means that this young talent has great potential and will be valued, respected, admired and feared by everyone!

Those yamen from Wudong Academy arrogantly came to the front of the eight-character wall, and the leading yamen swiped the two leaderboards, leaped up, and directly pasted the two leaderboards directly on the jade board. With just a swipe, it is sticky.*noVeb.usb.coM*

Everyone quickly looked to the top of the two rankings.

Of course, they look at the top ten list first, and these people have a habit of looking at the list from the bottom up.

"The tenth place is still the son of Wanjian, the ninth place is still the son of Zichen, and the eighth place is still..."

They looked up one by one and found that they went from tenth to fourth.

There is no difference, but when they saw the third place, they suddenly exclaimed: "Young Master Ziyang Xiong Chengjing, why isn't he in the third place? Could it be that his name has moved up?"

Everyone listened. Suddenly I became excited, and quickly looked up, because Xiong Chengjing is a native of Chu. If he rises in rank, he will naturally be the pride of Chu.

No one thought that he would be off the list, because few people on this ranking would fall, and would disappear directly, they would move up a few or down a few!

When he looked up, he found that the original second became the third, and the original first became the second.

So they were very excited one by one and said, "Could it be that Xiong Chengjing is already number one in the top ten?"

They looked at the first place with expectation, and then issued a huge exclamation of disbelief: "What? How is it possible?"

"This first place, what kind of master knife is actually?"

"Master Dadao! Chen Feng! Climbing to the top of the top ten! He is the first person of the top ten!" a person said loudly in a shocked voice.

"Why have I never heard of him? Who is this person?"

"Yes, I haven't heard of it either. How could it suddenly rise to the top of the top ten without being on the leaderboard before?"

"Impossible, this shouldn't be right! How could Xiong Chengjing disappear? How could Chen Feng, the so-called master swordsman, suddenly dominate the top of the list?"

Everyone gave out unbelievable exclamations, you look at me, I look at you, their faces are all at a loss!

Everyone looked at Brother Wang. Brother Wang smiled awkwardly and shook his head, indicating that he didn't know who Chen Feng was.

Suddenly, someone exclaimed: "Xiong Chengjing, who was originally ranked third, suddenly dropped off the list, but Chen Feng, who had never appeared before, suddenly became the first, squeezing the original first and second to second and third. So...will it?"

He thought of an extremely terrifying possibility, and said in a trembling voice, "Could it be that Xiong Chengjian was killed by this man named Chen Feng?"

When he said this, everyone thought it made sense.

"By the way, Brother Wang, the person you just said was chased by Xiong Chengjing, wouldn't it be this Chen Feng, right?" A person suddenly asked.

Brother Wang suddenly flushed and flushed, embarrassed, and felt the pain of being beaten.

Someone exclaimed, "Where is Chen Feng's sacred? Could it be that he is a descendant of some big family, he is very powerful, but he has been practicing in retreat before not coming out of the mountain?"

"I think this should be the reason," the person next to him echoed: "It should be that he puts great emphasis on cultivating meticulously at that party. After he is old and strong enough, he is released to practice."

"Yes, it should be, or the heir of a big family, afraid that something will happen to him, so I didn't let him out before."

Everyone speculated, but they all believed that this view was more correct.

And at this time, the leader of the bureaucracy suddenly sneered with disdain, looked at them, and said mockingly: "You all **** guessed wrong, and you are still talking about it here, it's the truth!"

Those who were talking just now showed embarrassment on their faces, and some faceless people always smiled and said: "Master Zhao, then tell us, what is the origin of this Chen Feng? Brothers. They are all very curious!"

Lord Zhao took a deep breath, as if the name to be said next had a kind of magical power, and his face showed respect when he couldn't help but say it.

Facing the crowd, he said in a deep voice: "This Chen Feng is from the Qin country, but he is neither a direct disciple of the big sect you guessed, nor the future heir of a big family. This Chen Feng came from a small sect. Qian Yuanzong!"

"The name of Qianyuan's sect is not well known. There are hundreds of thousands of such a sect in the Thirty-Seven Kingdoms of Tulong. It was Chen Feng who emerged from such a small sect and walked all the way."

"Now, he is in Wuyang City, the emperor's capital of the State of Qin, and he is the Earl of War Dragon of the State of Qin!"

Hearing this, everyone screamed, with a look of surprise on their faces. It is very rare to be able to walk from an ordinary disciple of a small school to the present and become an earl of a great country. For the legend.

But they were only slightly surprised, after all, such things were not uncommon before.

Someone questioned: "Is this enough to become the head of the top ten sons, what kind of swordsman is called?"

The expressions on their faces were obviously not convinced.

Then Lord Zhao sneered, showing mockery on his face, and said, "Do you think this is over?"

"Just a few months ago, this Chen Feng led an army of no more than tens of thousands of people in eastern Xinjiang and recovered more than a dozen cities in succession. Before the Ten Thousand Army Formation, he killed a two-star general in Qi, and Killed a three-star Martial King powerhouse in the Nimbling Blade!"

Upon hearing this, everyone's faces were no longer shocked, but turned into shocked expressions.

[Chapter 1782: Supreme glory!](#)

Such a record can be said to be tyrannical, and entering the top ten ranking list is not a problem!

"It's not over yet!"

Master Zhao laughed and said: "This Chen Feng doesn't know what's wrong. He has forged a feud with Xiong Chengjing. Xiong Chengjing vowed to kill him and pursue him all the way!"

Hearing the three words Xiong Chengjing, everyone was suddenly refreshed, showing interest.

Master Zhao continued: "Just a month ago, Xiong Chengjing was beheaded by Chen Feng with two swords outside the east gate of Wuyang City, the capital of the Qin Kingdom!"

"What? Xiong Chengjing was beheaded by Chen Feng with two swords?"

Upon hearing this, the expressions of the people below have changed from shock to shock and disbelief!

"How is it possible? Xiong Chengjing is strong, and the top ten is ranked third. How could he be beheaded?"

"Yeah, I don't believe it at all! Xiong Chengjing is not only ranked third, but he also has a bloodline and martial soul on his body. He has a mysterious purple flame bloodline, which is more powerful than the displayed strength. How could he be killed by Chen Feng? ?"

"If he was defeated by Chen Feng, I still believe, how could he be killed, and it was killed with two swords! This means that Xiong Chengjing has no power to fight back? How could it be possible?"

They roared in disbelief!

Master Zhao smiled and said, "But this is the truth."

"Xiong Chengjing went forward aggressively to provoke. He thought he could easily kill Chen Feng, but he didn't expect to be killed by Chen Feng with two swords.

"But do you think this is over?"

When everyone heard it, they were all refreshed: "This Chen Feng is too legendary!"

Master Zhao continued: "Not long after killing Xiong Chengjing, Chen Feng broke out with another great family of Lie family in Qin!"

"He killed the chain family, first beheaded a three-star martial king, and then a four-star martial king, and finally even the fifth prince of Qin, a four-star martial king, and a strong man, were beheaded by Chen Feng!"

"Also, even the knife is useless, it's just a fist, and it only takes five strokes to kill him!"

"What? Chen Feng is too strong!"

"God, is he still a human? Can easily kill the four-star Wuwang powerhouse, doesn't this mean that his strength is almost comparable to the five-star Wuwang?"

"Five-star Wuwang, that is already the strength of the emperors of the major empires!"

"Yes, and you have to pay attention, he didn't use a knife, he used a fist! Doesn't this mean that besides the sword technique, his fist technique is also extremely powerful? Physical strength is also extremely powerful?"

"You seem to ignore the most important thing." A faint voice sounded: "He actually dared to kill the five princes of the Great Qin Kingdom! May I ask Master Zhao, is he dead now?"

"Not dead." Master Zhao said with a smile.

"What? Didn't even die? The five princes who killed Da Qin were not dead yet? The emperor of Da Qin would let him go?" Everyone shouted in awe.

Master Zhao smiled and said, "Of course the Emperor Qin will not let him go, but when the Emperor Qin wanted to kill him, a mysterious person came."

"That mysterious man possesses an incomparably powerful strength and an incomparably powerful identity background, supporting Chen Feng, so Chen Feng is not dead, he is still alive."

Everyone took a deep breath, and this time, they were completely suppressed.

Everyone has a strong sense of fear and respect for this master sword master Chen Feng who has risen like a meteor.

"This Chen Feng has a fierce temperament, indomitable and invincible in doing things, and most importantly, he has such a strong strength and such a strong background! It is normal for such a person to reach the top ten!"

"Yes, and I think with his current strength, he can even be among the six great monarchs in the next step!"

Lord Zhao turned around and entered the Yamen, and when he was about to enter, he suddenly turned around, looked at the crowd, smiled and said: "Forgot to tell you, Chen Feng is less than twenty this year!"

"What?" This sentence made everyone completely blow up, all of them were scared to pee, shocked that they didn't know what to say.

The atmosphere of the scene reached its climax!

The appearance of Chen Feng completely subverted everything. The original ten princes were not over twenty-five years old, and Chen Feng was less than twenty years old and had already reached the top of the ten princes list!Novelusb.com

"This Chen Feng is bound to become a rising star in the Thirty-Seven Kingdoms of the Dragon Slayer, even sweeping the Thirty-Seven Kingdoms!"

At this time, such a thought flashed in countless people's hearts.

At this time, in the Kingdom of Yan, in the State of Zhao, in the State of Qi... in all the countries of the Thirty-seventh Kingdom, Wudong Academy posted such a ranking list.

Everyone saw Chen Feng, and the master swordsman Chen Feng appeared at the top of the top ten list.

Everyone also knew about Chen Feng's deeds. In an instant, Chen Feng's fame became famous throughout the Thirty-seven Kingdoms, and was admired and admired by thousands of people.

At this moment, Chen Feng's glory was at its extreme.

On this day, Chen Feng's name spread throughout the 37 Kingdoms!

He rises like a meteor, with dazzling brilliance, and has become the most brilliant star among the 37 Kingdoms!

At almost the same time, suddenly everyone heard a loud explosion from a distance.

Then, a pillar of fire rose to the sky.

This pillar of fire is purple, with a diameter of more than tens of meters and a height of thousands of miles. It directly broke through the clouds in the sky, like a giant pillar connecting the sky to the ground, half of the sky was transpired into a purple.

Although they were hundreds of miles away, they still felt an extreme heat rushing toward their faces.

In an instant, everyone felt sweat soaked through their clothes.

Everyone looked at each other: "What's the situation? Why is it so suddenly?"

They don't understand.

After about a cup of tea, the yamen from the Wudong Academy who hurriedly entered the Yamen just now turned around and came to the bottom of the gold list, and then placed the top six rankings on the top of the list. The ranking was raised one place.

From the original fourth to the third.

"Why is this?" everyone asked in astonishment.

Master Zhao smiled and said: "Just now there was news that Ziyan Fengjun was in retreat for three years, and he broke through today, raging for a thousand meters, and the flames are shining hundreds of miles!"

"This means that he has practiced their Xiong family's supreme martial arts, the purple flame covering the sky! Naturally, he can raise the rank by one."

At this moment, in Xiong's house, a purple-robed young man walked slowly into the hall.

Inside, an old servant waited respectfully, and when he saw him, he immediately bowed to salute.

The old servant said loudly: "Congratulations to the eldest son! Congratulations to the eldest son for practicing the supreme secret of the Xiong Family. I only hope that the eldest son can go one step further this time and beat those on the list of the six masters."

[Chapter 1783: Chen Feng, I will kill you!](#)

This Zipao young man has an elegant look and a gentle face. It is Xiong Chengjing's brother: Ziyan Fengjun Xiong Chenghou!

He didn't show any arrogance, he just smiled and said, "Uncle Li, you don't have to praise me anymore. I know how many kilograms you have."

"It's not comparable to the monster that is the number one on the list of the Six Great Sealed Monarchs, but the others should still have the power to fight."

He has a gentle expression and is not proud, but there is a strong confidence in his voice. This is the appearance and demeanor that a family prince should have!

He glanced around suddenly, and then asked in amazement: "Bo Li, where is my brother? Why didn't he come out?"

Hearing this, Li Bo immediately showed a touch of grief on his face.

Seeing this look, Xiong Chenghou immediately had an ominous premonition in his heart, his face changed, and he urged: "Uncle Li, what's the matter? You answer me!"

Li Bo said softly: "Eldest son, second son is dead."

"What? The second brother died?" Xiong Chenghou heard the words, instantly showing a cold murderous look on his face.

Li Bo slowly said the process of the matter, and then said: "As the new issue of the ranking list is posted, I am afraid that everyone in the world will know that the second son has died in the hands of Chen Feng."

Xiong Chenghou had calmed down at this time, and he slowly said, "Speaking of which, it was his younger brother who killed himself. Chen Feng didn't provoke him, but he eventually ruined his life because of the pursuit." *novelUSB.com*

"So, I don't care!"

"However, he is my brother after all!" At this time, he was vigorous, sharp and boundless, and there was still flames in the sky during the period, and the whole person had a forcing edge, and slowly said:

"He is my brother after all, he is dead, how can I not avenge him?"

"Chen Feng, wait for me in Wuyang City, I will take your life!"

"However, I killed you for unrighteousness, but for personal vengeance! Don't worry, after I kill you, I will commit suicide immediately and be buried for you!"

In Wuyang City, in front of the Tongtianhou Mansion, an unexpected guest arrived today.

Dressed in Tsing Yi, Chen Feng stood at the entrance of Tongtian Hou Mansion, raised his head slightly, and looked at the four characters: Tongtian Hou Mansion, with a cold smile on his mouth.

He has never forgotten that the first time he dealt with the people of the Four Great Hou Mansions was with the son of the Tongtian Hou Mansion.

At that time, he was really powerful in front of him like a god, but now he wants to crush him, it is really as easy as crushing an ant.

Even if the entire Tongtianhou Mansion was destroyed, it was easy!

Chen Feng suddenly sneered, lifted his hand slightly, and then gently grasped his right hand.

With a loud bang, Tongtianhou Palace, the plaque with four characters on it, shattered.

Then, Chen Feng's voice came out like a rolling thunder, the sound shook a hundred miles, and everyone could hear clearly:

"Tongtianhou, get out and die!"

"If you come out, you will only kill you, if you do not appear within a cup of tea, I will destroy your entire Tongtianhou Mansion! Let your inheritance be cut off!"

Hundreds of guards outside Tongtianhou's Mansion watched Chen Feng coming, and no one dared to stop him.

Now in the world, who knows how powerful Chen Feng is?

Chen Feng walked forward slowly, they all knelt down, bowed their heads to show Chen Feng their respect and fear!

The voice came from afar, and in a secret room deep in the Tongtianhou Mansion, Tongtianhou suddenly widened his eyes, his face showed a touch of extreme horror.

After a long time, he sighed sullenly, his body softened, and he slumped on the chair, muttering in his mouth: "Here, he is here, he is here!"

After a while, he returned to normal, stood up, and walked out of the secret room.

Outside the secret room is the main hall of Tongtianhou Mansion. At this time, dozens of people have gathered in the main hall. They are all descendants of Tongtianhou. At this time, they are all looking at Tongtianhou. There is a hint of anxiety in their eyes. look forward to.

Seeing their looks like this, Tong Tianhou showed a deep look of disgust in his eyes, and said with a cold snort: "Okay, don't worry, since he wants my life, then I will let him take it! It won't hurt you. of!"

"I know, you are also looking forward to dying, so that you can be saved!"

His face was full of anger and resentment, and he suddenly sighed. The whole manpower was vented, and he slowly said: "But what can be done? You are my descendants, I was meant to keep you!"

"In this way, I can't cut off my bloodline!"

As he said, he walked out step by step, weak, like a dying person.

In fact, he is also a dying person.

When he walked outside the mansion gate and saw Chen Feng, he smiled miserably: "Chen Feng, you are here after all! I knew you would not let me go!"

Chen Feng smiled slightly and said: "You and I have been grieving for a long time, and I only collected debts from you today, so that you have lived in the world for so long, which is considered right to you."

There was a hint of resentment in Tongtianhou's eyes, and he shouted: "Chen Feng, I will not spare you if I am a ghost!"

Chen Feng smiled slightly: "Then I will kill you again when you are a ghost."

With that, the volley jumped up and punched out.

Tongtianhou screamed, and tried his best to fight against Chen Feng.

However, it was useless and was smashed by Chen Feng with a direct punch.

His Martial Spirit also appeared in the air, slammed into Chen Feng, and was also smashed by Chen Feng's punch!

His body dissipated directly, his martial spirit also dissipated directly, and Chen Feng did not stay at all, the Nine Yin and Nine Yang Divine Art Qi Wheel was running, and huge suction power came.

Suddenly, the purest power in Tongtianhou's body was extracted, mixed with fragments of his martial soul, and absorbed by Chen Feng.

Tongtianhou is the purest gold power. I saw countless dots of white gold light flying over, bright and dazzling, and Chen Feng was included in the dantian.

After a while, all the absorption was finished.

Chen Feng looked inside and found that in his Dantian, among the three elements of gold, wood and fire, the power of the gold element had changed from the original one hundred thousand light points to the current 300,000 light points. !

Then, Chen Feng went to Zhenxihou Mansion and beheaded Zhenxihou.

After Zhenxihou was beheaded, a burst of khaki light flew towards Chen Feng.

There was no earthy yellow light in Chen Feng's body. This was the purest earth force.

In the next moment, two hundred thousand khaki light spots were added to Chen Feng's dantian!

A smile appeared at the corner of Chen Feng's mouth, and he sighed softly, "Now among the five elements, four lines have been gathered together, and only the last line is left. The water is OK!"

[Chapter 1784: The five elements have it!](#)

The next one is the Mansion of Raging Flames.

Chen Feng still killed the blazing marquis and absorbed the power in his body, so the flame power in Chen Feng's body also became 300,000 light spots!

When Chen Feng rushed to Heishuihou's Mansion, he was completely empty.

It was only after the torture that Heishuihou had left Wuyang City overnight just half an hour ago.

It turns out that Heishuihou is different from Lieyanhou and others.

All of them are based in Wuyang City, and they can't go anywhere without Wuyang City.

And they can go, and their family can't go.

Instead of wandering outside and living a miserable life like a lonely family, they might as well close their eyes and wait for death here!

And they are also worried that if Chen Feng cannot find them, he will anger other people and destroy their entire family.

They can run, but their family can't.

Heishuihou is different. Their entire family is in southern Xinjiang, where the foundation is there, and the people are there.

Heishuihou Mansion in Wuyang City might as well be a resting place for them in the imperial capital. In this case, it would be very comfortable.

Therefore, after they got the news, the first time they left Wuyang City, they headed south.

Chen Feng hurriedly chased after him. After his gust of wind and purple electric step was displayed, he was extremely fast, all the way to the south, looking for the breath of Heishuihou.

Chasing all the way south, Chen Feng caught up with Heishuihou and the others in less than a quarter of an hour.

Dozens of flying one-star demon kings flew extremely fast, but they were still not as fast as Chen Feng.

When he felt a huge momentum behind him and wanted to chase here, Hei Shuihou looked back, and his face showed extreme despair. He shouted: "Chen Feng, you really don't want to let me go.?"

Chen Feng smiled coldly: "When you wanted to harm me, did you ever want to let me go?"

As he said, he punched out.

The dozens of guards in Heishuihou made powerful moves and attacked Chen Feng.

The guard leader shouted: "We have tried our best to protect the adults."

"It's commendable for loyalty." Chen Feng smiled coldly: "It's a pity to hit the stone with a pebble!"

Chen Feng blasted out with a punch and collided with the moves of the thirty guards.

For a moment, the air seemed to be still, then the next moment, with a boom, all the moves of the thirty guards were shattered.

Those who were shattered with one, and their people.

These thirty people were unable to stop Chen Feng's move.

Then Chen Feng teleported to Heishuihou. Heishuihou's face showed extreme horror and despair, and he begged for mercy: "Chen Feng, you spare my life, you spare me, and I will give you whatever you want! "

As he said, he actually jumped off the monster beast, knelt in front of Chen Feng, kowtow frantically.

In a short while, blood dripped from his head.

Chen Feng smiled slightly and said: "I don't care about anything, what I want is your life!"

With a punch, Heishuihou let out a desperate roar.

The next moment, the roar stopped abruptly.

He has been killed by Chen Feng!

So far, the four great masters were all killed by Chen Feng.

After Chen Feng absorbed the power of Heishuihou, the Five Elements finally got together.

The five elements have it!

At this moment, suddenly, Chen Feng's body was shocked.

Then, Chen Feng saw that the five elements of power in his body, the five light spots with different colors and different properties, began to interweave and slowly merge.

Mutual penetration, mixed forces, slowly, each line is not so pure, they are all mixed with other forces.

Finally, after an hour, the power of the five shapes began to merge into the prototype of a dragon!

Chen Feng was extremely excited: "Could it be that a brand-new dragon spirit is about to be born?"

But soon, Chen Feng's hopes were shattered!

Before this dragon soul formed, it burst with a bang.

Chen Feng bleeds from seven orifices, spouting blood.

After a long time, he slowed down and muttered to himself softly: "It still doesn't work, I don't have enough strength."

Now, his gold, fire, and two lines are 300,000 light points.

And the two rows of water and soil are two hundred thousand light spots. *nOveLusb.cOm*

Mu Xing, there are still one hundred thousand light spots!

Chen Feng sighed and whispered to himself: "Each line requires at least one million light points to reach the next level of martial arts breakthrough. It seems that I have to work hard to absorb this time."

"It should be more than the four great masters, but some other obvious monsters in a certain line can still absorb a lot of light spots, such as a certain type of gold monster or a certain type of fire monster!"

At the moment Heishui Hou died, a black light flashed across the surface of his body.

At the same time, in southern Xinjiang hundreds of thousands of miles away.

Da Qin is at the southernmost point of the Thirty-Seven Kingdom of Tulong, and Da Qin's southern border is also the southernmost point of this area that stretches for tens of millions of miles.

Further south, there is a huge virgin forest that stretches for ten million miles.

This virgin forest is a place outside the world, where the torch of civilization cannot illuminate, it is extremely desolate and primitive.

There is no kingdom in it, only tribes, slash and burn, hunting monsters, and even no words, just word of mouth.

But this does not mean that they are behind.

In fact, in this primordial jungle, there are countless strong men hidden with countless powerful inheritances.

In some big tribes, there are even some horrible powerhouses who have surpassed the Emperor Qin and the emperor of the 37 Kingdoms!

It's just that they don't have any ambitions for external expansion, they can't hide, and they fight in the woods all day with those super terrifying ancient alien species and prehistoric monsters!

Heishuihou's claim to open up tens of thousands of miles of territory is indeed true, but the tribes he has attacked and the territories opened up are the smallest and most inconspicuous small tribes on the periphery.

These small tribes, not even the direct descendants of the top big tribes!

Heishuihou dare not provoke even the medium tribe!

At this time, in the southern wild jungle, in a small tribe.

This small tribe is surrounded by the forces of Heishuihou. There were hundreds of small tribes like him nearby, but they have all been wiped out, and they have been eliminated by Heishuihou's army. Occupied only.

This small tribe is still alive in the world, and they live very well and are very rich. Even the simple wooden houses in their tribe that cannot prevent mosquitoes have been replaced by masonry houses.

At this time, in the largest hall in the center of the tribe.

The outside is a building like the Qin State, but inside it still maintains the original appearance of the tribe.

In the middle is a firepit, surrounded by countless murals. The lines of this mural are bleak and ancient, and they are very vivid in a few strokes.

[Chapter 1785: Ninth Grade Dragon Soul!](#)

At this moment, the fire was extinguished, and the murals were reflected very strangely.

The faces of those evil spirits and demons are looming, adding a bit of horror, and at the end is a wooden statue, which is also extremely rough in workmanship, but extremely vivid.

This wooden statue was actually a statue of a woman with a human head and a snake body.

When people see this statue, they will suddenly give birth to an ancient and desolate feeling.

Being watched by those eyes, I can't help shaking. At this moment, in front of the statue of a woman with a human head and a snake body, a small black doll suddenly shattered on a table.

Blood is flowing out of the wooden doll!

Before that table case, a young girl was kneeling.

She is only seventeen or eighteen years old, and she has the appearance of a girl, but she already has the charm of a woman.

Her Jingchai sarong is extremely simple and does not apply powder.

At this time, there was a deep resentment and hatred on that delicate face, and in her arms, she was holding a child who was still in her infancy.

The child was only one or two years old, and he was very cute and pink.

However, around her body, there was a terrifying black water aura spreading continuously, and there seemed to be countless black water ripples in the entire air.

And above her forehead, there was a crack, faintly, opened and closed.

This child has a terrifying talent to the extreme. If a child of her age, no one can have such a frightening atmosphere!

The girl kneeled in front of the statue and said slowly: "Manny, my husband was killed, and his breath is cut off. I will take your statue tomorrow to the source of the tribe, to the root tribe of our seedling inheritance, To find the real strong, to avenge my husband."

"He is the father of my daughter. Although he did not marry me, it made my tribe happy and peaceful, and even more so, he let me know the happiness of being a woman and the happiness of loving someone."

"He is dead now, I must avenge him!"

"If I can't do it, I will inject my whole body into my daughter's body and let her avenge her father!"

As she said, she lowered her head and whispered to the infant in the swaddling baby, "Ning'er, you remember, the man who killed your father was named Chen Feng! You must seek revenge from him!"

"Ning'er, you are born with three eyes and a water spirit. We have the Black Water Profound Snake Tribe, a dozen large tribes, hundreds of medium tribes, tens of thousands of small tribes, which add up to hundreds of millions of people. In these thousands of years, you are The most talented one!"

She tears in the corners of her eyes: "I didn't want you to be involved, I just wanted to make you happy and peaceful, but now, I want you to spend your entire life to achieve one goal, that is to avenge your father!"

Suddenly she raised her head and let out a roar of bitterness, like a prayer, and like the most venomous curse:

"My daughter, if you fail to achieve this goal, then you will never be able to live beyond!"

Her resentment rushed straight into the sky, as if touching something, a black water ripple, swiftly waved outward!

After Chen Feng killed the Four Great Masters and absorbed their power, he did not go to other places, but went straight back to the Dragon God Mansion to practice quietly. **novelElusB.com**

On this day, Chen Feng was practicing, and the Dragon God Hou suddenly arrived.

He looked at Chen Feng, swept his eyes on Chen Feng, and sensed the state in his dantian, and then said in amazement: "You have made up the five elements now, but the levels of the five elements are uneven, and each line is not enough. powerful."

Chen Feng nodded and said, "That's right!"

He suddenly moved in his heart and asked: "Master, these five elements have tried to condense once, but they failed in the end. I know that these five elements have a deep relationship with the spirit of my next awakening, but, specifically What kind of spirit is it, but I don't know. Can you give me some pointers?"

Long Shen Hou pondered for a moment, and then said: "Chen Feng, your current strength is strong enough, and your realm is high enough, even far beyond me."

"Now, it's time to let you know some secrets about Dragon Soul!"

"Your martial soul is the dragon martial soul, and the awakened martial soul will always be the dragon martial soul unless it is accidental, but the dragon martial soul is also divided into different categories."

"Dragon Wuhun, as far as I know, is divided into nine ranks, from one to nine. The first rank is the lowest and the nine is the highest."

"And above the Ninth Stage, it is said that there are some super scary existences. As for what it is, it is not clear as a teacher. That is the area I can't reach now!"

"It's just that the lowest grade 1 dragon martial soul, such as your Azure Dragon martial soul, etc., is also equivalent to an ordinary earth-level martial soul! And the third-grade and fourth-grade dragon martial soul is already equivalent to a heavenly martial soul. I guess it is the Dragon Martial Soul of this level that you want to awaken!"

"As for what it is, it is really unknown. Every body has different constitutions, different circumstances, and different awakenings!"

Chen Feng nodded: "That's it."

The Dragon God Hou suddenly said: "This is a great opportunity for you to break through the five-star Wuwang!"

"In the Martial King realm, there is an extremely difficult threshold to cross, that is, the five-star Martial King! The five-star Martial King is even more difficult than stepping into the next great realm from the Martial King realm."

"And you, through this, maybe you can do it."

Chen Feng nodded slowly, thoughtfully.

At the same time, at this moment, more than a dozen cavalry riding monsters rushed into Wuyang City.

These cavalymen are all in black armor, and our monster beasts are also wearing black armor. Each of them is carrying a small flag on his back. On the flag is a huge "biography" written on it.

The pass is the pass of the order.

These people are the messengers in the army.

And on their armor, there are nine ripples embroidered, which means that this is the most urgent kind of messenger in the army, and it is urgent for nine thousand miles!

After seeing these messengers stepping into Wuyang City, Wuyang City Street was quiet for a moment, and everyone looked at them blankly.

Many elderly people have an ominous premonition in their hearts, because every time they step into Wuyang City, it means that something big has happened, and it is a big event that can shake the country!

An old man murmured, "When was the last time I stepped into Wuyang City in a hurry for nine thousand miles? If I remember correctly, it should be sixty years ago!"

"Sixty years ago, the army of Qi State invaded the State of Qin, and that day nine thousand li hastily sent orders to step into the imperial capital!"

An old man showed a deep look of fear in his eyes, and said with a trembling: "Is there going to be war again?"

Once all the achievements are made, the two countries are at war, and the most injured will always be ordinary people!

The messengers were all covered with dust, apparently rushing all the way.

[Chapter 1786: Chu Jun is invaded! The war begins!](#)

Their lips were even chapped, and anxious light appeared in their eyes.

And their battle armors were already damaged, and their bodies were covered with blood stains, and they were obviously hunted down on the road.

The first messenger raised his last strength and shouted: "Chu's seven million troops entered Daqin, and even Qingzhou, Yongzhou, Xuzhou, every city will be slaughtered!"

"Now there are dozens of counties in the three states, blood has flowed into rivers, and the army of the three states was caught off guard, surrounded by divisions, and unable to fight back. We broke out of the siege and sent a letter to ask your majesty to send reinforcements!"

After this person said this, he turned over from the monster beast, fell heavily to the ground, let out a roar, his eyes widened, and he was breathless.

It turned out that he was rushing along the road wildly, and he was seriously injured before, and he was already exhausted, and he couldn't hold on after desperately carrying the news.

All the people stood there blankly, unable to believe what was happening in front of them!

"Chu country actually attacked Qin country? And with such a large number of troops?"

"It's impossible!" Everyone didn't want to believe it, but they couldn't help but believe it. This is the news brought out by these soldiers who broke through the siege and desperately!

The relationship between Qin and Chu was extremely poor. They had always attacked and defended each other and killed each other. There was a lot of friction between the two, but they have never attacked as much as they are today.

This means a full-scale war!

The news spread quickly in Wuyang City, and after the news spread, people's grievances boiled over. From the common people to the princes and nobles, the Qin State was filled with righteous indignation and wanted to fight the Chu State to the death.

Qin Guo was already brave and brave, so this kind of reaction was naturally normal!

The Emperor Qin was furious, and immediately ordered to use up three thousand royal guards, five hundred thousand imperial guards, and three million elite soldiers, to go and conquer the Chu army!

And almost after less than a cup of tea, Chen Feng got the news!

Ten days ago, the Kingdom of Chu invaded the Kingdom of Qin in a big way, consuming all the elites in the country, a total of 7 million troops, including 2 million of the Imperial Guard, which is the most elite force in Chu.

The Qin State was unprepared, and the seven million army drove straight in, and that day came to the first great city on the border of the Qin State.

The army of the Kingdom of Chu made Kangcheng strict, and the water leaked, and persuaded the Qin army of Kangcheng to surrender.

However, none of the Qin army in Kangcheng surrendered, and cut off the head of the persuading messenger and threw it outside the city.

The Chu army was furious, and the army attacked the city. After a quarter of an hour, they contributed to Cannes. However, none of the 500,000 Qin troops in Cannes surrendered. They occupied the streets and alleys and started street battles in the country of Chu based on the terrain.

Chu Jun thought that it would not take long to take Kang Cheng, but Qin Jun's tenacity was far beyond their imagination. It took them a full day and night to kill all Qin Jun, and Chu Jun paid for it. The price is that 300,000 elites have disappeared, and they have been tortured to death in this street fight.

The Chu army commander was furious and ordered the massacre.

The five million people in Cannes have been killed without a lifetime, and blood is flowing!

Kangcheng Massacre also opened the prelude to the Chu army massacre.

Since then, the brutal Chu army will kill all the local gentry and common people, and slaughter all the local creatures, but not the chickens and dogs!

When the news reached Wuyang City, the Chu army had already conquered the twenty-three counties of Qingzhou, Yongzhou, and Xuzhou.

All the people in the twenty-three counties of the three states were shrouded by the sword of the Chu army!

But this did not frighten the soldiers of the Qin State. The Qin State's defenders still resisted stubbornly, and so far there has been no surrender!

When he heard this news, Chen Feng was a little dazed, and he was dumbfounded in disbelief!

"How is it possible? How could Chu State suddenly invade Qin State? How could Qingzhou and Yongzhou be conquered so easily?"

In the next moment, the shock in Chen Feng's heart dissipated and he quickly recovered. At this time, what occupied his heart was fear and anxiety.

Because many of Chen Feng's relatives and friends are all in Qingzhou!

Qingzhou was conquered at this time, and the Chu army was slaughtering the city everywhere, not knowing whether they were alive or dead now!

Han Yuer on the side was also very anxious, looking at Chen Feng and asking: "Chen Feng, what should we do now?"

At this time, she had completely regarded Chen Feng as her backbone.

Chen Feng was still stable at this time. He took a deep breath and said softly: "Sister, don't worry, Chu has already occupied Qingzhou, and it's not a day or two. It's awkward, if something happens. Otherwise, something should have happened long ago."

"It's useless for us to panic now, and it's useless to worry, we should rush to Qingzhou to check it out as soon as possible."

Han Yuer nodded heavily, and she said softly: "I don't worry about Qian Yuanzong or anything. Qian Yuanzong has been destroyed, and the Ziyang sword field where you went later did not have anyone I knew. She had nothing to do with them. Feelings at all."

"What I am worried about is Yuechun and Ruyan."

Upon hearing these two names, Chen Feng trembled heavily.

Yes, he is most worried about these two?

One is his little apprentice, and the other is a little maid who sees himself as a master who is obedient to him in order to save himself and even spares his life knowing that after he died, he jumped off a cliff and died for his love.

How could Chen Feng not worry about them?

However, she worries much more than Han Yuer. Apart from Jiang Yuechun and Hua Ruyan, Chen Feng also worries about a group of friends from Qingzhou City Battle Dragon Academy. He also worries about rushing from Ziyang Sword Field to Spirit Medicine Town. That group of brothers and sisters in the town.

Without any hesitation, Chen Feng said farewell to the Dragon God Hou, who naturally understood it very well.

After a while, Chen Feng took Han Yu'er and left, and the two of them hurried to Lingyao Town, working day and night!

Under the gust of wind and purple electric step, Chen Feng's speed reached the extreme, and two days later, he arrived at Spirit Medicine Town.

When there was still a hundred miles away from Ling Yao Town, Chen Feng's mood became extremely anxious. He even didn't dare to go there. He was afraid that what he saw was a terrible scene of blood flowing in a river. He simply cannot bear it!

But when Chen Feng came to a place ten miles away from Ling Yao Town, he saw a military camp on the roadside, a small military camp, which could only accommodate about a hundred people.

Outside the barracks, there are more than a dozen soldiers in armor set up checkpoints on the side of the road.

These soldiers wore the same black armor, but this armor was different from Qin's iron black armor. It was that black with a hint of blue.

Chen Feng's pupils suddenly shrank, because this was Chu Jun's armor.

The Chu army is scattered in lakes and rivers, so Chu also respects water morality, but their water morality is different from that of Qin. It is black with a blue color, which distinguishes it from Qin.

[Chapter 1787: You must die!](#)

Next to the barracks, there was a great flag with the word Chu written on it, which proved Chen Feng's guess.

Chen Feng's heart trembled suddenly, as if being grasped by a big hand and squeezed hard, for a moment, he felt distressed.

"Has the Spirit Medicine Town been occupied by Chu State?"

When the dozen or so soldiers of the State of Chu saw Chen Feng and Han Yu'er, their eyes lit up and they walked up to surround them.

The leader of the Chu Jun looked at Han Yu'er with an obscene smile, and his gaze turned into a few big hands, rubbing half of Han Yu'er casually, full of obscene colors.

He looked at Chen Feng, raised his chin, and said proudly, "Untouchable, where are you from? Are you a spy of Qin?"

Chen Feng looked at him with cold eyes and did not speak.

The leader of the Chu Jun suddenly changed his face, stared at Chen Feng, and sternly shouted: "Little boy, you are so bold, you dare not answer me? Do you know what I am?"

"Tell you, the fate of all Qin people in your area is all determined by us. You are now under our Qin country."

Another soldier of the Chu army was complimented and said: "Sir Captain, these two little boys must be scared! Look at them, they are so scared that they can't even speak!"

"Yes, I think so! Captain, why don't we stop talking nonsense with them here, just grab them and search them!"

He pointed to Han Yu'er, smiled, and said, "Especially this little lady, how tender she is, she must feel good, but you have to search him hard!"

These Chu soldiers all laughed lasciviously.

Both Chen Feng dressed plainly, and Chen Feng did not deliberately show any strong aura, so they both thought that Chen Feng and two were ordinary civilians, and did not put them in their eyes at all.

At this time, Chen Feng's eyes were already killing intent.

What is his strength? What a noble status? How can you be insulted by these people?

The Captain of Chu State laughed wildly: "Yes, I can see that these two people are the spies of Qin State. Now go up to me and capture them. I will torture them!"

When he said the two words torture, he emphasized the tone!

Those Chu soldiers smirked and surrounded them.

They didn't even look at Chen Feng, obviously they didn't take him to heart at all, and felt that he was vulnerable. Everyone touched Han Yu'er, wanting to take advantage of her!

Chen Feng looked at them and said lightly: "You must die!"

His voice was indifferent, and there was no murder in his eyes. It was a powerful confidence, because the few Chu soldiers he killed were as easy as crushing a few ants.

However, in the eyes of those people, it has become arrogant and ignorant!

A Chu soldier snorted disdainfully, and said: "You bastard, are you crazy? How dare you say this?"

"You are just a lowly civilian of the State of Qin, what about us? We are powerful soldiers of the State of Chu. We want to kill you, that's easy!"

"Little boy, now hurry down on your knees and kowtow. The little girl puts both hands in front of us, let us ravage us wantonly, and we can let you live for a while..."

"Yes," the Chu army captain said with a joking expression: "Little boy, we will also ravage this little lady in front of you later anyway, you might as well just send her over by yourself!"

In his opinion, this commoner of Qin State, with such low strength, frightened him so much, he would definitely follow.

Chen Feng looked at them and shook his head. He was impatient to talk nonsense with them anymore, just sneered: "Kill!"

With that, he punched out.

His punch fell in the eyes of these Chu soldiers, seemingly light and without using any power.

But in fact, this is because Chen Feng's power level has far exceeded their imagination, so they can't see it at all.

Several Chu soldiers laughed wildly: "You humble civilian, with your strength, still want to fight us hard?"

"Your strength? You are simply here to give us food, and any one of us can easily kill you!"

They waved their weapons and killed Chen Feng.

And at the moment they collided with Chen Feng's fist, there was a loud bang. The seven or eight Chu soldiers who had killed Chen Feng all blasted to pieces with no bones. Save.

They didn't even make a scream but made a scream!

Seeing this scene, the remaining Chu soldiers were shocked. They looked at this scene in disbelief and exclaimed:

"How is it possible? This humble commoner is so strong?"

"Eight of them killed him with one punch? And he just took a punch so lightly, how could it be possible? It's impossible!"

They can't believe it, but this is the fact.

Then, Chen Feng slowly pushed towards them.

In an instant, their faces turned pale, and their bodies couldn't help but tremble. Then the army captain Chu backed away while staring at Chen Feng and screamed: "You humble civilian, you dare not kill us, you don't Dare to kill us!"

"We are the soldiers of the Chu State. There are hundreds of soldiers stationed in the nearby barracks. If you dare to kill us and you, you will definitely not survive! They will chop you into mash!"

Chen Feng smiled slightly and said: "Then kill them together!"

As he said, the same punch came out.

This Chu army captain and the remaining Chu soldiers all killed.

The sound from the outside also alarmed the people inside.

In the barracks, hundreds of soldiers of the Chu State came out one after another, and their expressions changed when they saw this scene.

A Chu country general, who seemed to be a centurion, arched his hand towards Chen Feng and said in a deep voice, "Who is your Excellency?"

He realized that he and others should not be able to offend this young man.

Chen Feng smiled slightly: "You deserve to know my name too?"

As he said, a punch came out.

Boom boom boom boom, screams sounded one after another and then stopped abruptly, the remaining dozens of Chu State soldiers were killed, and none survived.

The only one left was the Chu army centurion.

He watched this scene with horror in his heart, realizing that this person was definitely not something he could deal with, and seeing Chen Feng approaching him, he suddenly fell to his knees with a thump, his face full of despair, crying loudly and pleading :

[Chapter 1788: Extremely painful](#)

"My lord, my lord, please spare me, will you spare my life?"

Chen Feng stared at him with cold eyes. He didn't want to keep this person, but he wanted to know what happened in the town!

Chen Feng said coldly, "What happened in this spirit medicine town?"

Because Chen Feng had already smelled a strong sense of death at this time. It wasn't the killings he had just made, but it came from a distance, from inside the town!

The centurion's teeth trembled, and his face trembling with fear said, "I, I don't know!"

"You don't know, are you?" Chen Feng smiled coldly, he already had an ominous premonition in his heart at this time.

Suddenly, he carried the centurion and rushed towards the town, followed by Han Yu'er.

Soon, the two of them arrived in the spirit medicine town. After arriving in the town, Chen Feng immediately felt tight.

Because he saw the corpses on the ground, there were corpses everywhere, and the two sides of the street were almost full of corpses, and a stench odor wafted from the shop from time to time.

Obviously, many people were killed at home, many people were killed on the street, and the surrounding shops were smashed into rubble.

A small town that was originally prosperous was now in ruins.

Before Chen Feng had time to look at the others, he rushed towards the courtyard outside the town where Jiang Yuechun and others were placed.

After coming to the outside of the yard, Chen Feng also saw that there were dead bodies on the ground, and the walls of the yard were covered with traces of fire and water, knives and axes.

Obviously, there was a fierce battle here.

On the wall of that courtyard, blood was covered, there were pits everywhere, and the corpses were all over the wall!

Chen Feng said in his heart: "It must have been when these Chu army wanted to attack the yard, a fierce battle broke out with the war wolf mercenary group guarding inside."

Chen Feng kicked the courtyard wall open with one foot and strode in.

Then, Chen Feng felt his body sway and almost fell to the ground.

There are corpses everywhere on the ground, and every corpse is terrible, with many wounds.

And many of them, it is even obvious that they were slaughtered after death, and the people who did it obviously hated them.

Chen Feng hurriedly searched for the body.

Soon, he found many familiar faces in the corpse.

There are brothers from the Warwolf Mercenary Corps, as well as junior brothers and sisters from Ziyang Sword Field, and there are also some of the people who came out of Qian Yuanzong!

The ominous hunch in Chen Feng's heart grew stronger.

He suddenly roared and fell to his knees, his fists hit the ground fiercely, his face showed extreme pain: "Why? Why? Why did Chu State do this? Why didn't I take them away sooner?"

"God, why do you want me to bear this? Why?"

He is full of pain!

There were even tears falling in Chen Feng's eyes.

The man does not flick when he has tears, just because he has not reached the point of sadness!

Thinking of Jiang Yuechun, Hua Ruyan and them all being killed, Chen Feng couldn't help but feel unspeakable pain in his heart.

It almost drives him crazy.

He slammed his hands on the ground fiercely, and in an instant he smashed this place into a big hole.

Han Yu'er was also full of tears, but the pain she endured was much less than Chen Feng's. She was able to maintain her composure and carefully selected and searched among the corpses.

Soon, she searched for the corpse here, and suddenly shouted in surprise: "Chen Feng, Yuechun and Ruyan are not there, not even Master Ran's corpse."

Chen Feng had already told her about Ran Yuxue.

"What? None of their bodies are there?"

A burst of surprise burst into Chen Feng's eyes, but then, this surprise burst was covered by greater pain.

He said slowly: "Yuechun and Ruyan are absent, and they may end up even more miserable."

In an instant, Han Yuer understood what he meant.

Military prostitute!

Jiang Yuechun and Hua Ruyan have such looks, naturally they would not be killed easily. If they were reduced to military prostitutes, their fate would be worse than death.

Chen Feng couldn't even imagine that kind of scene!

Chen Feng took a deep breath, forcibly calmed down the grief and anger in his heart, and looked carefully.

Many people died here, the people of Ziyang Sword Field, the people of Qian Yuanzong, and the people of the Wolf Warriors Mercenary Corps. Most of them died, but there was still a small number of dead bodies.

There are males and females, males include Bai Shanshui, Shangguan Lingyun, Chen Xiao, Zheng Hongchao, Luo Chen, Wu Xi, Gao Yan, etc. Females include Jiang Yuechun, Hua Ruyan, Ran Yuxue, Yue Linglong, An Xueqing, Wei Qingyi, Wei Hongxiu, Zhang Bing, etc., and even Ziyang Sword Field are among them!

Chen Feng's breath became heavier and heavier. Suddenly, he could no longer control his emotions. He turned around and screamed: "Where are they? You tell me where they are?"

The centurion was so scared that his teeth trembled, his lips trembled, and Chen Feng's voice almost shook him to death.

He shook his head desperately: "I, I really don't know!"

"We are not elites in the army. After they beat and killed this place, they handed it over to us to garrison. We don't know what happened here."

Chen Feng said grimly: "Really? Then you can go to death!"

He blasted out a punch and killed the person directly.

At this moment, a stern shout suddenly came from behind him: "Bold, you dare to be aggressive here! Do you know that this is a territory controlled by the State of Chu!"

"Dare to kill my sergeant of Chu State, today I will smash you into ten thousand pieces!"

Chen Feng turned his head, only to hear the violent sound of horseshoes, the sound of monsters neighing, and a large swath of darkness behind him, unexpectedly tens of thousands of troops arrived.

The leading one is a middle-aged general in his forties, wearing a beautiful blue and black armor, and he looks like an officer of the rank of ten thousand chief.

Behind him, tens of thousands of Chu State generals were murderous, staring at the two Chen Feng.

Their murderous aura is as if it were condensed into substance!

It turned out that this Chu country's ten thousand chieftain was the commander-in-chief of the party guarding this place.

When Chen Feng killed the soldiers of the Chu State, someone sent a call, stating that a very powerful expert had raided this place, and this Chu State chief had previously received a face-to-face instruction from a general who had a much higher status than him.

It was said that a major event had happened in this small town, which happened on the day their Chu army attacked this place, so he must not neglect.

As a result, this captain immediately led an army of tens of thousands of people to come here!

Chen Feng suddenly raised his head, and when the Chu State leader saw Chen Feng's gaze clearly, his heart beat hard, as if he was beaten in the chest.

[Chapter 1789: Thirty thousand army, wiped out!](#)

At this moment, there was an incomparable fear in his heart, and the horror was extreme.

It was as if what he was facing was not a pair of eyes, but a sea of blood and fire!

His body couldn't even help shaking slightly!

But then, he laughed at himself and said in his heart: "How is it possible? How could I be afraid of him?"

"My strength is much stronger than him. This is just an ordinary Qin country civilian. How can I be afraid of him?"

Chen Feng grinned suddenly, and his smile was extremely cold: "You guys, **** it!"

With that, Chen Feng yelled, leaping up into the air, and appeared above the tens of thousands of troops in an instant.

Then, his Dragon Slaying Sword burst out of its sheath, and Bahuang Ji Mie Zhan severely slashed out.

After the knife was cut out, the Chu soldiers screamed sternly, because they felt that the momentum was so powerful that it was enough to kill them.

There is always a sense of despair in everyone's heart. They feel that they are going to die next moment.

And the ten thousand chief of the State of Chu screamed in disbelief: "How is it possible? How can you have such a powerful strength?"

He roared loudly: "All sergeants, send out their strongest moves and resist together!"

"Yes!" These tens of thousands of sergeants have played their most powerful tricks. These tens of thousands of tricks have gathered together to form a huge force.

Many people's faces showed a touch of fortune, and some even shouted arrogantly: "How good are you? We have 30,000 people!"

"Haha. That's right, not only will he be unable to break through our defenses, but he will also be seriously injured! Next, we can kill him!"

The chief of the Chu State Party also showed a smile at the corners of his beard: "These troops under me are all elite Chu troops. Among them, there are a thousand imperial forest troops. The strength is very strong. If 30,000 people are combined, how can you resist? of?"

They feel that their lives are saved.

No matter how powerful this person is, it is impossible for them to break through the attack of 30,000 of them.

But soon, their smiles solidified on their faces.

Chen Feng slashed, and their 30,000 offensive was smashed together with a loud explosion.

Just the aftermath of this shock, that wanton force of vertical and horizontal, shreds many people alive.

Then, the extremely powerful force of nirvana flooded this space, and the next moment, the force of nirvana rushed and killed all the remaining people.

The screams were endless, but soon disappeared.

The thirty thousand army was killed by Chen Feng with a single knife!

In an instant, the corpses were everywhere.

Seeing this scene, the Chu Jun ten thousand chief was directly frightened. He pointed at Chen Feng and yelled in disbelief: "Thirty thousand troops, this is thirty thousand troops. You killed them with a single blow? "

There was even a hint of broken voice and crying in his voice, and his whole person was almost broken!

Chen Feng's figure flashed, he slid directly in front of him, stared at him, and yelled furiously: "What the **** happened here? Do you know? Where are the people who disappeared here were taken? Tell me!"

The chief of Chu State was already scared to his mind, but he hadn't recovered at all.

He muttered instinctively: "I, I don't know."

"Oh? You don't know, do you?"

Chen Feng smiled icily: "Then, you can go to death!"

With that, he punched out fiercely.

The leader of the State of Chu felt that death had come, and he didn't even have the thought of resisting at this time. He knew that resisting himself was of no use.

And at the moment when Chen Feng was about to die, at this moment when Chen Feng's fist was about to fall, suddenly, his heart became extremely clear, and his sanity was restored in an instant.

He suddenly shouted: "Don't kill me, I know where they are going!"

"I know where they went!"

Chen Feng's fist stayed an inch away from the tip of his nose, as long as he said that one hundredth of an instant late, he would be killed!

Chen Feng's voice was cold, and a word came out coldly from his throat: "Say!"

The voice was extremely harsh.

This captain had no doubt that if he dared to be that moment at night, he would be killed directly.

He quickly trembled and said, "I don't know what happened. I listened to General Sun. General Sun was the supreme commander who led the army to defeat this piece. There are 100,000 troops under him."

"When I was ordered to garrison here, he told me that he heard that there are strong people living in seclusion here, so he personally led the army to counter the rebellion, but he did not expect that the strong people here are not very strong. Kill to the core."

"He also told me that the core of this is a few young and beautiful women!"

When Chen Feng heard this, his heart suddenly became tight. Isn't this just Jiang Yuechun and the others?

Then the captain went on to say: "He was very lustful at the time and wanted to put these people in his own room. After all, these women are very beautiful, and the others have been killed. , There are less than ten left."

"Just as he was about to order his capture, suddenly seven or eight strangers arrived!"

"A foreign person is here?" Chen Feng frowned and said, "What kind of person?"

The captain shook his head and said, "General Sun didn't make it clear either. He said that he only saw a blue light flashing, and then a blue whirlwind swept over here, instantly flying sand and rocks."

"When they recovered their sight, they found that the women had disappeared. He guessed that they must have been taken away by the strong, afraid in his heart, and did not pursue them."

Chen Feng took a deep breath and believed what he said. This person has no need to lie at this moment!

Hearing that they lived in the world and did not fall into the hands of the Chu army, Chen Feng immediately felt relieved, as long as they did not fall into the hands of the Chu army, then they would not suffer the most miserable fate!

"It's just that, who saved them? I must pursue them, and I must trace their whereabouts!"

Chen Feng said coldly, "Where is General Sun's station?"

"In Suiyang County City!" The Chu army captain said quickly.

"Suiyang County?" Chen Feng's pupils suddenly shrank upon hearing this.

This is also a familiar name.

"do you have anything else?"

"No more! No more!" The chief Chu Jun shook his head quickly and said, "I don't know the others."

Chen Feng nodded, and suddenly a sneer appeared at the corner of his mouth: "Since you don't know anything, you should die!"

With that, a punch came out.

[Chapter 1790: This is majesty!](#)

The chief of the Chu army screamed: "I've said it all, are you still killing me?"

Chen Feng smiled and said, "I never said not to kill you."

The hands of these people were stained with the blood of the people of Qin, and Chen Feng didn't have the slightest psychological burden to kill them.

With one punch, the commander killed the commander, and then Chen Feng hit the ground several times, blasting a large pit, and throwing the bodies of people he knew but didn't.

Then, he chopped off a huge rock on the nearby mountain and carved a tombstone with a few large characters written on it!

In these big characters, he didn't write the name of anyone, nor did he write an epitaph, but a murderous sentence:

"Chen Feng buried ninety-seven relatives and friends here. Chu is the rat generation. If you dare to dig the grave, I will wait for you to smash the dead!"

Then, with his hands clenched, he sucked the blood of the tens of thousands of Chu State soldiers and splashed it on the tombstone.

Suddenly, the tombstone became **** and full of murderous intent!

Chen Feng is intimidating, naked intimidation!

However, he had this confidence, and the soldiers of the Chu State would definitely not dare to dig this tomb.

Then, Chen Feng took Han Yu'er away from here and went straight to Suiyang County.

After they left, less than an hour after the sound of horse hooves, thousands of Chu State cavalry came here.

They were already aggressive and murderous, as if they were going to slaughter this place.

However, when they saw the corpse all over the floor, their faces were in disbelief and panic.

The corpses were full of corpses, more than 30,000 corpses, blood everywhere, blood flowing into rivers.

They were all shocked seeing this scene.

The cavalry general yelled in disbelief: "How is it possible? It clearly shows that there are only a few enemies here. How could it have destroyed tens of thousands of troops? Could it be..."

An idea that shocked him suddenly rose in his heart: "Could it be that those few people killed the 30,000 army? This is impossible!"

No one believes this speculation!

Then they saw the big tomb and the big characters on the tombstone.

A cavalry centurion snorted disdainfully and laughed and said: "What kind of **** Chen Feng, who he thinks he is, I have never heard of it."

"He is setting up a tombstone here and writing a few words of intimidation. Don't we dare to dig the grave? Come on, dig up this tomb and turn all the dead bodies into ashes!"

"I want this Chen Feng to lose face! Damn it, don't let Lao Tzu dig his grave? I just want to dig it!"

"Yes!" Hundreds of cavalry replied loudly, and when they dismounted, they wanted to dig the grave.

And the cavalry commander had been looking at the tombstone blankly, just chanting two words: "Chen Feng, Chen Feng..."

He felt that the name was very familiar, but he couldn't remember where he had heard it.

As the cavalymen were preparing to dig their graves, suddenly, the cavalry commander's mind suddenly flashed, and he immediately remembered who Chen Feng was.

He was shocked immediately and let out an angry roar: "Damn, stop Lao Tzu, stop quickly!"

Going down in person, three punches and two kicks kicked the cavalry away.

The cavalry centurion stared at his commander in a daze, and said, "Commander, what's going on? Why don't you let them dig their graves? Are you really scared by these few words of Chen Feng? Who knows what he is?"

"You know what a shit!"

The cavalry general shouted: "Do you know who Chen Feng is?"

They shook their heads, these people are out of the field, and they don't know what the Junjie list has changed!

The cavalry general took a deep breath and said with a sneer: "It's really fearless for the ignorant!"

With that said, he recounted Chen Feng's deeds.

After listening to this, these cavalymen, including the cavalry centurion, took a deep breath, with extreme fear on their faces, and at the same time full of rejoicing.

"Fortunately, we didn't dig the grave just now. Otherwise, I'm afraid Chen Feng would really cut us through a thousand swords as he said!"

"Yes, this Chen Feng is very strong, and what he says will be practiced, and if there is a grudge, we will definitely not be able to provoke such a person!"

In the end, these cavalry wandered around here twice, turned around and left dingy, without daring to move a grass in the grave.

Chen Feng!

But with his name and these two words alone, these Chu State cavalry soldiers retreated in fright!

This is called prestige! This is called domineering!

Early the next morning, when the morning sun was rising, Chen Feng and Han Yueryuan had already arrived at Suiyang County.

On the mountain outside the city.

There used to be a very powerful sect. The gate was the guard sect of Suiyang County. It was also a second-level sect, and it was of the same level as Ziyang Sword Field.

The people in this sect had given him pointers and helped him.

In this sect, there are two more charming and lovely women, who once called him Chen Feng sweetly, and gave her the precious blood of the wolf god, so that his blood will have infinite evolution in the future. may.

It can be said that the blood wind has today, thanks to the two women, Chen Feng is grateful for it.

Not to mention that there are still unclear feelings between Chen Feng and them.

At this time, what he came here to see was only a broken wall.

What I saw was only countless corpses that had been charred. Obviously, the Chu army killed all here. After robbing all the treasures, it was another fire that burned the place!

As Chen Feng walked here, his face became more and more ugly, and the murderous aura on his body became stronger and stronger.

In the end, it's almost condensed into substance.

Suddenly, Chen Feng's figure moved, and he flashed directly next to a large rock, and opened the large rock, revealing the two bodies below.

Obviously, the big rock collapsed in this fragmented wall, forming a small space, covering the two corpses, so that the two corpses were not damaged and kept their original appearance.

After seeing their faces clearly, Chen Fengru was struck by lightning.

It turned out that these two people were the two female disciples of Chengtianmen who had crossed with Chen Feng.

Chen Feng still remembered their names clearly. The young man with big eyes was Zhou Wanru. Chen Feng remembered that she was always cute, and she was talking like a sparrow in her ear.

The older one was named Yu Qjudie, and Chen Feng still remembered her as the most gentle eldest sister, always with a forgiving smile on her face, tolerant of each other.

At this time, they died and committed suicide.

They pierced their chests with their long swords, and when they died there was endless resentment and anger on their faces.
