

## PEERLESS MARTIAL SOUL

### Chapter 20: Break through six layers!

For some reason, Chen Feng always had a feeling that he still hadn't finished, as if he could have reached a higher height, but due to various reasons, he did not go up. It seems that there is a brand new realm right in front of him, and he can enter by pushing the door, but now there is no power to push the door.

It's so close!

Chen Feng was not in a hurry, he knew that he had time to think.

After calming down, Ming Wu is faster.

"Not up to, not up to... Why? There is always that weird feeling..."

As Chen Feng thought, he unconsciously rehearsed. Just after finishing the immovable Mingwang seal, his body suddenly became frozen because he felt that the real air flow transferred to the meridians of the hand just now. When the big mudra was about to condense and form, the real energy There was a trace of unsustainability. At that moment, the meridians are like a river with a dry flow, and there is a blankness!

"I understand, I understand!"

Chen Feng yelled: "It turns out that the problem lies here. It turns out that the total amount of zhenqi is not enough. To put it bluntly, Fudo Ming Wangyin has very high requirements for zhenqi, and zhenqi must be very strong. The strength is obviously difficult to support. You must be more powerful and stronger!"

"So!" Chen Feng clenched his fists, and a touch of perseverance appeared at the corner of his mouth: "What we need to do now is to improve the realm! Increase strength! Strong infurience!"

If you want to increase your qi, there are ready-made ones here.

He got ten middle-grade spirit stones and a cheat book from the middle-aged man in blue shirt. Now it is time to absorb the spirit stones.

He sat down cross-legged, holding the spirit stone, and began to absorb.

Five of the ten middle-grade spirit stones were swallowed by the ancient ding, and the other five were transformed into spiritual energy, forming a cyclone in the dantian, and finally rushing into the meridians throughout the body.

In a short period of time, Chen Feng absorbed the aura of five middle-grade spirit stones, equivalent to two hundred and fifty low-grade spirit stones! And the low-grade spirit stone that an ordinary Qianyuanzong Outer Sect disciple can receive in one month is only three pieces!

There is true energy in the meridians, and Chen Feng's strength is soaring!

Four thousand catties!

Four thousand five hundred catties!

Five thousand catties!

...

Six thousand catties!

An hour later, Chen Feng's strength had soared to six thousand catties! It has far exceeded the limit that the acquired five layers can carry!

As a result, Chen Feng's meridians began to collapse and reorganize.

Step into the Sixth Layer of the Acquired!

Finally, Chen Feng gave a long roar and stood up. There was a layer of black on his body, which was an impurity excreted from his body after promotion.

He did not stop at all, and began to practice Fudo Mingwang Yin. At this time, his body was filled with zhenqi, and his body was full of zhenqi, majestic and mighty, causing the air to constantly oscillate. He used the immovable Mingwang seal again. This time, the true qi swelled in the body, and the meridians were about to overflow. There was no longer the feeling of stagnation as before, and it would never be unsustainable again!

Chen Feng screamed and waved his right hand. A golden handprint measuring three feet in radius and the size of a small round table condensed, and then blasted heavily on the mountain wall!

The entire cliff shook, and on the rock wall, stone powder rustled down, and a golden handprint the size of a round table appeared on the rock wall.

Chen Feng couldn't help but laughed wildly.

Fudo Mingwang Seal is already small!

His current strength is already comparable to the masters in the middle and late stages of the seventh layer! If he meets the middle-aged man in the blue shirt again at this time, he can already be defeated head-on.

Chen Feng looked at himself, and there was a layer of black dirt. He felt sick when he saw it. It was all impurities and dirt discharged from the body. Chen Feng jumped into the pool water and began to clean himself. Soon, after he cleaned the dirt on his body surface, he was surprised to find that his skin became very moisturized, and there was a crystal light flashing on it. jade.

Chen Feng was surprised. It's not that he hasn't seen other martial artists of the Sixth Layer of the acquired day, but what should they do, and the skin on the body did not appear to be like this. It seems that this has something to do with the method of cultivation.

He is very excited, which shows that Bedoro Ye Jinjing is constantly transforming his body.

After Fudo Mingwang printed Xiaocheng, the lines on the surface of the golden handprint became clearer, at least visible to the naked eye.

The biggest change in the golden handprint is not on the surface, but on the inside, not on the pattern, but on the temperament. In the golden handprints, there is a calm and mountainous temperament. After the golden handprints are printed, it is like a big mountain appeared in front of them!

Very steady and solid!

Chen Feng calmed down, without arrogance or rashness, rehearsing the Immovable King Seal over and over again. His Fudo Ming Wang Yin has just been completed, and he still needs constant comprehension, perception, and constant deepening of his proficiency.

Soon, two days passed, and Chen Feng spent two days practicing the Immovable King Seal on the edge of the pool!

Early in the morning, mist and cold.

Chen Feng abruptly got up, with a gleam in his eyes.

"The Fudo Mingwang Seal has been completely stabilized and maintained at the Xiaocheng realm. My realm has reached the 6th level of the acquired, and my strength has reached seven thousand catties, which is comparable to a master with the 7th level of acquired!"

He took a deep breath: "Now, it's time to avenge the black blood snake!"
