

Peerless 2951

[Chapter 2951: He definitely can!](#)

So far, the Xuanyuan Family's grand ceremony was over, and everyone left one after another.

And as they left, after March, half-step Wu Taihong, a strong emperor of Wu, came to Chaoge Tianzi City to kill Chen Feng. It quickly spread throughout the Chaoge Tianzi City and its surroundings!

On this day, Chen Feng shocked the entire Chaoge Tianzi City once again!

Now, near Chaoge Tianzi City, almost all the families and forces that are qualified to know have heard the news.

In their opinion, this also means that Chen Feng's life is at most three months away!

Moreover, this news continues to spread out at an extremely fast rate.

Soon, the other big families and big forces will all know this news.

Everyone was talking, and turned their attention to the Xuanyuan family.

Even in the streets and lanes, in restaurants and tea shops, the daily topics are also the same.

In a teahouse, everyone was drinking and laughing.

Suddenly, one person said loudly: "If you want me to say, then Chen Feng is a trash, a trash that can't help it!"

"Dare to provoke Yu Taihong? I don't know how to write dead words!"

"That's right, Chen Feng is just a villain. With a little bit of strength, he doesn't know that the sky is so great that he dares to provoke Yu Taihong?"

"Yu Taihong, is he provoking it?" *nOveluSb.COM*

"Yu Taihong, but the Emperor Wu dignified half a step, trying to kill him is like pinching an ant to death!"

"Yes!"

Everyone nodded in response.

Almost everyone looked down on Chen Feng.

With the support of everyone, the brawny man in black robe who was the first to speak, laughed loudly, arched his hands, and said to everyone: "Brothers, if we go to Chaoge Tianzi City together, take a look at this grand event! "

"Look at how Chen Feng was crushed to death by Yu Taihong!"

"Good!" Everyone nodded and laughed!

Here is a city located hundreds of thousands of miles south of Chaoge Tianzi City.

The scale of the city is not that big, but it depends on whom it compares.

It is naturally incomparable with Chaoge Tianzi City, but it also has a population of tens of millions and a radius of thousands of miles.

It is the largest city within 100,000 miles here, and it is the only way to the Southern Wilderness!

Just as they were talking, outside the restaurant, a huge caravan was passing by here.

In terms of scale, this huge caravan is actually incomparable to some caravans with thousands of tens of thousands of large vehicles.

It was just dozens of cars, but anyone who saw this caravan wouldn't think it was small.

Even, they will feel solemn in their hearts.

After seeing the caravan, many pedestrians retreated to both sides of the road, bowed their heads respectfully and saluted, and then stood up when they passed by.

Because, although there are only a few dozen caravans in this caravan, each caravan is extremely gorgeous and has a quaint atmosphere.

The most important thing is that there is an infinite array of light shining on it.

Obviously, in every car, there is actually a small space sealed.

The cargo loaded is more than the combined tens of thousands of carts of other caravans.

In this way, how can this caravan say it is not huge?

And the most important thing is the big banner planted in this caravan.

There are seven twinkling stars on it, which means that they are members of the Seven Star Chamber of Commerce.

The Seven Star Chamber of Commerce has been going to the Southern Wilderness through this place, and this road has been opened for tens of thousands of years.

They are also used to the existence of the Seven Star Chamber of Commerce.

Every time the Seven-Star Chamber of Commerce comes over, it will bring them great benefits, and everyone is full of respect.

At this moment, the caravan had just passed by the street next to this restaurant.

At this time, the voice full of disdain and provocation for Chen Feng in the restaurant was also heard.

At this moment, in the caravan, a cold snort came from inside a caravan.

The next moment, a white light flashed out, and with a bang, it hit the restaurant.

Half of the wall of the restaurant was smashed down.

Then, it bombarded those who mocked Chen Feng and others in the restaurant.

Bang Bang Bang, a few loud noises, the few people all screamed sternly, were knocked to the ground, bleeding from the corners of their mouths, and already injured.

With a look of inexplicable horror on their faces, they stood up one by one, yelling: "Who **** attacked Lao Tzu?"

At this time, a figure slowly floated out of the vehicle, floated into the air at the same height as them, looked at them, and said coldly: "I did it. What do you want?"

This is a woman with an extremely beautiful appearance and a cold face.

And the most important thing is that her body is extremely powerful.

Seeing such a tyrannical aura on her body, these few people who had spoken against Chen Feng just now shuddered and stood there muttering not daring to speak.

At this moment, in the chariot, two people came out again.

It was Ji Caixuan and Chen Ziyuan, and the woman who appeared in the sky was Shen Yanbing. The group of them was passing by since then.

I just heard these words.

Shen Yanbing has a tough temper, how can he endure it? He shot these people immediately!

At this moment, the caravan's manager also hurried over from the front, and when he saw Shen Yanbing and others, a wry smile appeared on his lips.

He secretly said in his heart: "These little ancestors are really hard to serve!"

He remembered the message from the Chamber of Commerce yesterday.

Yu Taihong was going to come to kill Chen Feng in three months, and they knew it the first time.

He was suspicious at that time. After all, he still had three Chen Feng's people in his caravan, and when he was suspicious, suddenly an order came from the Chamber of Commerce to make him business as usual.

The most important thing is that you must be respectful to these women of Chen Feng, and you must not neglect the slightest.

As soon as this word came out, the experienced caravan manager immediately understood what to do.

He hurried forward, arguing, and after persuading a few words, Shen Yanbing and others just returned to the chariot.

The caravan continued on the road, and as for the few people injured by her, no one paid any attention.

When the caravan was on the road, in the chariot, Shen Yanbing and others were still full of dissatisfaction.

Ji Caixuan pursed her mouth and said angrily: "I can't look down on the master now, and I think the master will die in three months.

"But if I want to say, Yu Taihong is absolutely impossible to be the master's opponent!"

"Yes!"

Shen Yanbing said softly: "I have known Chen Feng for so long, and Chen Feng faces a strong opponent who is unknown. Chen Feng almost always beats the strong with the weak."

"I believe that this time, Chen Feng will definitely be able to."

[Chapter 2952: The time has come!](#)

His face was solemn, as solemn as a pilgrimage.

Similar to the conversations that took place above the restaurant, they did not just take place here, but took place everywhere in Chaoge Tianzi City.[novElu\\$b.com](#)

Everyone is talking about this big event that will happen in a few months.

This can be regarded as the most important event this year.

I don't know how many people want to join in the fun, and there are even some powerful forces that have already been on the Xuanyuan family's idea, planning to use this opportunity to weaken and suppress the Xuanyuan family.

Without exception, everyone looked down upon Chen Feng.

No one thought that Chen Feng, such a young man who was only 26 years old, would be an opponent of a half-step martial emperor who had practiced for hundreds of years.

Everyone believed that Chen Feng would die.

At this time, among the Xuanyuan family, Chen Feng, who was at the center of this storm, had a leisurely expression.

He was lazily leaning in the void.

That's right. Chen Feng was leaning against nothingness at this moment.

However, he seemed to be leaning on something substantial, the whole person was lazy, leaning there, wearing a white robe.

The big sleeves are fluttering, and he wears a tall wooden crown on his head, quite ancient.

Opposite him is Xuanyuan Xiaoyue.

There was a small man in the middle of the two, and there was nothing else, and there was a blackened void around them.

There are two tea cups on the small table, and a teapot next to it, hanging diagonally in the air.

As soon as there is no tea in the cup, it will be continued.

The two were actually drinking tea relative to each other.

Xuanyuan Xiaoyue looked at Chen Feng and stared at him, as if wanting to see something on his face.

After a long time, he sighed and said: "Chen Feng, you are really calm, you are not in a hurry? Are you afraid?"

Chen Feng smiled and said, "What I said in the square already represents my attitude."

"So," Xuanyuan Xiaoyue looked at him, and suddenly smiled slightly: "Aren't you worried?"

"What are you worried about? Are you worried, you feel that I have lost the use value, so you no longer support me?"

Chen Feng looked at Xuanyuan Xiaoyue and asked with interest.

Xuanyuan Xiaoyue said softly, "You are too smart, this is what I said."

Chen Feng laughed, "What am I worried about? What am I worried about?"

"It's less than three months since you and that big enemy tear your face apart. Where can you go to find a peerless genius who can reach my level?"

"Where can you find a generation of talents like Chen Feng?"

Chen Feng said this very arrogantly.

But Xuanyuan Xiaoyue's expression did not change at all, because he knew better than anyone that Chen Feng was most qualified to say this.

"and so,"

Chen Feng looked at him and said proudly, "If you don't support me, who else can you support?"

He stood up, looked at Xuanyuan Xiaoyue, and smiled slightly: "Now you have no other way to go besides supporting me."

Xuanyuan Xiaoyue said with a wry smile: "It seems to be the case."

Chen Feng smiled: "Well, I won't be joking with you anymore. If you support me, you must support me, but I will never let you down."

"Don't worry, I have confidence in this battle three months later."

Xuanyuan Xiaoyue looked at Chen Feng, nodded slowly, and said nothing.

And Chen Feng didn't speak either. At this time, his heart was far less relaxed than it seemed.

Chen Feng is full of self-confidence, which is correct, but at the same time, his heart is also full of awe-inspiring, full of great pressure.

He raised his head and looked at the huge bubble above the sky where Nei Zong was, quietly clenching his fist.

A voice in his heart reverberated crazily: "Chen Feng, you have to reach at least half the strength of Emperor Wu within three months before you can defeat Yu Taihong!"

"Otherwise, you will only have a dead end!"

This huge pressure. But did not crush Chen Feng.

On the contrary, this kind of pressure filled Chen Feng's heart with endless motivation to strive upward.

His heart was full of pride: "Chen Feng, you have experienced so many dangers, what are you afraid of now?"

"But in a battle, there is nothing to fear!

In the evening, the setting sun was bloody.

Chen Feng stood on the barren hill next to his courtyard, looking into the distance.

Among the Xuanyuan family in the ninth-level city, the scene around this Chaohe Tianzi City was unobstructed and visible.

In the distance is an incomparably boundless sky, where the setting sun hangs.

Chen Feng squinted his eyes and whispered softly: "Now, it's time."

Before that, Shen Yanbing and others had already left, and Chen Feng personally rushed to the Seven Star Auction to meet Lu Yutang today.

Chen Feng trusted with Lu Yutang over the past few days. If he couldn't return to Chaohe Tianzi City within two months, he would ask Lu Yutang to inform Shen Yanbing and others immediately and let them leave safely.

Because Chen Feng knew very well that if he went to the Southern Wilderness, if everything went smoothly, he would be able to drive back from the Southern Wilderness back to Tianzi City within two months.

No matter how much delay, it is enough.

But if he can't come back within two months, then most of it is that he has already encountered an accident in the Southern Wilderness.

At that time, these forces that have been subdued by themselves, these people who are respectful in front of them, will become like hungry wolves.

As for Shen Yanbing and others, there will be no bone residue left by them!

Fortunately, fortunately, Chen Feng had already expected this scene.

When he left Shen Yanbing, he stuffed her a golden thread kit.

It was filled with all kinds of rare and exotic treasures and elementary techniques, enough to enable these women with extremely high cultivation talents to reach a very high level in a short time.

I dare not say dominate the roost, but self-protection is more than enough.

This is a retreat left by Chen Feng.

As for Lu Yutang, Chen Feng is also very trustworthy.

"Now, it's time to leave." Chen Feng looked at the setting sun in the distance and slowly took out the white jade Arhat statue from his arms.

Then, he took a deep breath, his face showing a touch of determination.

The power of the dragon descending Arhat penetrated into this white jade Arhat.

Suddenly, there was a crisp sound, and countless cracks appeared on the white jade Arhat.

There were a few big cracks, which were even more shocking, almost splitting the white jade Arhat.

However, this white jade Arhat was not broken after all.

There was a buzzing sound from above it, and a white light came out from above, and it kept pushing towards the setting sun.

With a loud bang, a gate suddenly appeared above the sky.

Seeing this, Chen Feng's tightly hanging heart finally relaxed.

[Chapter 2953: Nanhuang, I'm back!](#)

"This white jade Arhat is not broken after all, I can go in after all."

Without hesitation, he plunged directly into the gate, and disappeared in an instant.

The gate also banged, closed directly, and then disappeared from the sky, never seen again.

The next moment, the feeling of time-space transition came.

Chen Feng is already full of water on this.

There was a crisp sound, and there was the sound of water splashing.

Chen Feng was already directly in the lake.

He floated slowly from the lake, but his eyes were filled with nostalgia, a trace of reluctance, and a trace of sorrow.

He looked into his hands.

At this time, the white jade Arhat statue in his hand had already begun to gradually change.

The cracks above are getting bigger and deeper, especially a huge crack that runs through the middle, which is constantly increasing.

Finally, with a crisp sound, the white jade Arhat statue split into two directly.

Then, it was broken into countless pieces.

Chen Feng sighed slightly.

Although he had long expected that coming here again would consume the last bit of power in the white jade Arhat and break it, when this moment came, his heart was still full of reluctance.

He looked at the statue of the white jade Arhat and said softly: "Thank you so much for this journey!"

He was full of gratitude for the white jade Arhat statue.

If it weren't for it, Chen Feng was afraid that it would have been reduced to bones now.

At the beginning, in the true dragon Arhat Sect, he could not escape his life, let alone the latter.

It was because of the White Jade Arhat that he entered the Arhat Secret Realm, he had these great opportunities, and he had the opportunity to travel to the Southern Wilderness!

In Chen Feng's hands, the power of the dragon descending arhat gushes out, and he extremely delicately controls the power of the dragon descending arhat, trying his best to restore the pieces of the white jade arhat and help him put it together again.

But it's useless.

At this moment, there seemed to be an extremely powerful force resisting the general.

With a bang, Chen Feng's power of descending the dragon and Arhat directly shattered.

In the next moment, the Arhat statue turned into countless powder.

At the same time, among the Arhat statue, a white light floated out suddenly.

This white light floats in the air, like the dandelion blowing in the wind.

At the next moment, he seemed to spot something.

Then, with a swish, it fell directly into Chen Feng's body.

In a blink of an eye, it disappeared without a trace.

Chen Feng froze for a moment, not knowing what it was.

But he knew very well that the white jade Arhat statue would never harm himself.

Therefore, Chen Feng also relaxed.

At this moment, Chen Feng opened his hands, and the powder of the white jade Arhat statue disappeared with the wind.

After the white light entered Chen Feng's body, it came directly into Chen Feng's dantian, and then swiped it and hid it in a corner inside Chen Feng's dantian.

Did not stir up any waves.

Naturally, Chen Feng didn't know about this!

It's just that the dark area in Chen Feng's dantian hides a terrifying area. After seeing the white light, it fluctuates slightly.

But then, it fell silent.

At this moment, Chen Feng looked at the white jade bi.

There is the fourth ring clue, which is the second floor of the tomb of the Great Emperor Yin and Yang.

But in the end, Chen Feng shook his head and didn't head there.

Because he knows very well that he has had enough opportunities and opportunities during this period.

Even if you get some new ones, you will not have any substantial improvement in your own strength. On the contrary, you may encounter some situation inside, get stuck in it, and cannot come out.

If this delays the trip to the South Wilderness, then the gain will not be worth the loss.

Therefore, Chen Feng didn't hesitate at all, he just crossed the lake and came to the end of the lake.

At the end of the lake, there is a white barrier.

When Chen Feng entered the first floor of the tomb of the Great Emperor Yin and Yang from the Southern Wilderness, he came in from here.

Chen Feng looked at this place, took a deep breath, a flash of light in his eyes.

"The opposite of here is Nanhuang!"

Chen Feng raised his hands, and the power of the dragon descending Arhat suddenly surged out into the white barrier.

The White Barrier didn't respond, Chen Feng didn't feel discouraged, and the power of the dragon descending Arhat was still pouring into it.

Finally, half an hour later, there was a thud, and the barrier shook violently.

Then, above the barrier, a whirlpool appeared.

The vortex was rotating in the opposite direction, and a suction force came.

Chen Feng smiled slightly, shook his figure, and plunged into it.

However, after a trance, Chen Feng felt that the illusion of time and space changes had disappeared, and his feet were already on the ground.

Before Chen Feng opened his eyes, he smelled a very fresh, faint fragrance of the forest after the rain.

A smile wafted from the corner of Chen Feng's mouth.

Then, he opened his eyes.

The place where you enter the eyes is a dense jungle.

In this jungle, the trees are extremely tall and lush, and the green is so dense that it seems to be spilled.

The temperature here is quite hot, and the sounds of insects and birds are endless.

Chen Feng turned around, and there was a stone wall behind him.

On the stone wall, there are traces of blood mottled that have not been washed away by the rain.

It was where he entered the tomb of the Great Emperor Yin and Yang.

The smile at the corner of Chen Feng's mouth grew bigger and bigger, and finally turned into a big laugh:

"Hahahaha, Nanhuang, I'm back!"

"I'm Chen Feng, I'm back!"

Here, it should have just been a pouring rain.

Above the sky, the dark clouds have not yet dispersed, and the air is extremely fresh.

Chen Feng was walking here in a very good mood.

Suddenly, Chen Feng yelled and ran forward, extremely fast.

He didn't fly, but ran wildly.

It seems that this is the only way to spill the excitement in his heart.

Chen Feng drew a straight line in the mountains and forests with extremely fast speed.

His movement naturally attracted the attention of those strong in the Southern Wilderness.

Many monsters looked towards this place.

Some monsters even roared and rushed towards this side.

A light smile appeared at the corner of Chen Feng's mouth: "A group of beasts who don't know the height of the sky."

He smiled faintly, and his aura was slightly released.

But even if it is released a little bit. For those monsters, it was also a disaster.

After feeling this immense momentum, the monster beasts that Su Rili came to dominate, but they let out a whimper and scream, and they knelt to the ground.

With his head on the ground, he bowed to the direction where Chen Feng was!

[Chapter 2954: Twelve days!](#)

Chen Feng laughed.

After playing for a while, Chen Feng finally enjoyed himself.

He shook his body, came to the sky, and then found the right direction, and hurried to the south.

Building wood through the sky, in the south of the sky.

At the southernmost point of the entire Dragon Vein Continent, Chen Feng even wondered whether this sky-reaching built-up wood was like the huge pillar supporting the sky, propping up a piece of sky in the entire Dragon Vein Continent.

Two days later, in the evening.

From a distance, Chen Feng had already seen the huge body of Tongtian Jianmu.

After arriving here, Chen Feng took a deep breath, fell down, and all his breath converged.

Because Chen Feng knew better than anyone the terrifyingness of snakes and yellow birds.

The two existences of Teng Snake and Yellow Bird are the highest peaks in the entire Dragon Vein Continent.

I don't know how many times my strength is stronger than when I came here last time, but there are also disadvantages, that is, his aura is stronger than before.

Moreover, before, he was like an ant in their eyes, even if they saw it, he would not pay attention.

But now, if they see it, they will definitely not let themselves go.

Therefore, it is better to be more cautious.

Next, Chen Feng continued to approach Tongtian Jianmu with an extremely cautious attitude.

Soon, one day later, he came to the feet of Tongtian Jianmu.

Having just arrived at the feet of Tongtian Jianmu, Chen Feng suddenly wrinkled his brows and looked aside.

Beside him, about a few hundred meters away, was a large piece of brown soil.

This brown, very deep, is already a bit red.

Chen Feng walked there, came in front of him, and saw that this piece of soil was originally the color of ordinary soil, but it should have been splashed on by something, so it turned brown.

And this liquid can only be...

Standing here, Chen Feng looked up, and he could see the sky through the tall branches of the Tongtian Jianmu.

It turns out that on this land, the branches of the sky-reaching built wood are not dense. If a drop of liquid drips from an altitude of tens of thousands of meters below, it can easily penetrate those gaps and come here.

This ground has a radius of about several hundred meters.

A smile appeared at the corner of Chen Feng's mouth, he had already guessed something.

Then, he bent down, took a handful of soil, and sniffed lightly.

There was an extremely pungent breath in the holding soil, which seemed to carry some very strong toxicity.

When Chen Feng smelled it, he felt a little dizzy in his mind.

His heart shuddered, and the power of the dragon descending Arhat was running, and the toxin was resolved.

Chen Feng looked around and said, "No wonder there is not even a monster here. Even if the blood of this animal has dried up for a few days, it is still very toxic."

"Even I can't bear it, let alone those low-level monsters."

He whispered to himself: "There must be a drop of snake blood dripping here, changing the ground hundreds of meters in radius."

"If it is the blood of a yellow bird, it will be very hot and bright, but it will not be this cyanish brownish color, but it will be golden."

He rubbed the dirt away and looked at it carefully.

Inside the powder, there is still a little damp, and there is a little blood that has not dried up.

Chen Feng whispered to himself: "This drop of blood, the time it takes to drip here, is about three days."

"In other words, three days ago, the Yellow Bird and Teng Snake had just had a battle."

There was a thought in his eyes: "Then, the next time they fight, it will be twelve days later."

"Twelve days!" Chen Feng nodded slowly: "It's enough for me to make arrangements!"

In his eyes, there seemed to be flames burning, and his fists were slowly clenched: "Twelve days!"

Next, Chen Feng followed the sky to build a tree and climbed all the way up.

He moved slowly because he was afraid of attracting Teng Snake's attention.

But after all, his strength was much stronger than before, so even though he deliberately suppressed his strength, it still took less than three hours to climb to the top of Tongtian Jianmu.

The top of Tongtian Jianmu is still the same as before.

A huge platform is surrounded by tall branches.

In the center of the platform, there is a huge blue mountain.

If you look closely, you will find what a blue giant mountain is here, which is clearly a huge monster.

It is the Teng Snake who is holding it there.

Chen Feng swept his eyes there, and immediately lowered his head.

At this moment, he was hiding behind a huge leaf, which was enough to cover him completely.

Chen Feng didn't even dare to stare at him for more than a second, because with Chen Feng's current strength, if he stared at him in this way, it would be enough to cause Teng Snake's reaction.

However, Chen Feng glanced at it to see the current state of Teng Snake clearly.

A smile appeared at the corner of Chen Feng's mouth, and he secretly said: "I haven't seen it for more than a year. I didn't expect this Teng Snake to be weaker than before."

This is naturally great news for Chen Feng.

Perhaps because of the frequent battles with Yellow Birds, Teng Snake is weaker than before.

Moreover, at this time, there were dozens of huge scars on his body.

Each of those scars was thousands of meters long, and some of them almost broke his stomach, reaching hundreds of meters in width, dripping with blood, and the scales were already flying out.

Cyan poisonous blood is flowing everywhere.

At this moment it was in a group, sleeping soundly there, snoring like thunder, shaking the entire sky and building wood.

Obviously, I didn't know anything about Chen Feng's arrival.

Chen Feng slightly enlarged his courage. With a move in his heart, he cut away the huge leaves in front of him, and then he gently got in.

Then, a trace of power in the body poured into the leaf, and the wound on the thick leaf was sealed again.

The wound grew in an instant, and Chen Feng was sealed inside.

The leaf is huge enough, and there is a person hidden inside, and it seems that there is no change in the outside.

Chen Feng dug two small holes in front of him.

This small hole is so subtle that it cannot be seen from the outside.

But through these two small holes, Chen Feng was able to see the situation outside clearly!

The center of the platform is the treasure house of the emperor that day.

The difference is that at this time, on the first floor of the treasure house of the day, the door opened, and it was already very shabby.

Even the two sides of the gate on the first floor are much damaged, with various mottled marks on it.

One after another, huge paw prints and tooth marks were shocking.

Obviously, during the period of Chen Feng's departure, I was afraid that Tengshe had already used this treasure house to vent his hatred more than once.

[Chapter 2955: Yuechan](#)

However, Chen Feng saw that the second and third floors of the treasure house were still intact as new.

The door was closed.

Obviously, on the second and third floors of the Heavenly Emperor's Treasury, Teng Snake still failed to open!

This huge flaming red tower with a height of 80,000 meters still stands proudly!

The boundless raging flames are burning crazily, and the air is distorted by the smoke.

Seeing the treasure house of the Emperor of Heaven, Chen Feng's eyes suddenly became hot.

"The Emperor's Treasure House contains infinite treasures. When I opened the first floor, I harvested so much, which directly increased my strength crazy."

"And there must be more treasures in the second and third layers."

"If I can open them this time, then my strength will definitely increase to the next level."

Chen Feng had another thought.

After he returns this time, he will face two huge challenges.

The first is to enter the inner sect.

Second, three months later, Yu Taihong will come to kill him.

Then, Chen Feng must greatly improve his strength within three months.

This is directly related to whether he can save a life after three months.

Therefore, Chen Feng is still very much looking forward to the treasures in the treasure of the Southern Wilderness Heavenly Emperor.

However, when Chen Feng changed his mind, he expelled the idea.

He whispered to himself: "Chen Feng, Chen Feng, now what you need most is to kill Teng Snake, get Teng Snake's inner alchemy, and put down everything else temporarily!"

"The purpose of this time is different from before. Before, it was to improve the strength, but this time, it is to live!"

"This time you are going to get the snake inner core!"

So, he put his eyes on Teng Snake.

No matter how powerful the snake is, he is also a snake, so Chen Feng roughly knows where his inner alchemy is.

Chen Feng carefully observed the position where his inner alchemy was.

I saw that there was a huge scar where the inner alchemy was.

Chen Feng took a look and found that this scar was the biggest scar on Teng Snake's body, reaching more than 10,000 meters in length.

Teng Snake has a body length of two thousand miles, which is one million meters, and his body has a diameter of 30,000 meters!

Such a huge wound cut across his body, almost cutting him into two at once.

The depth of the wound reached more than 300 meters, and the width was 500 meters. The scales all collapsed and flew out, leaving a **** flesh inside.

Obviously, he was hurt the most here.

Chen Feng's heart moved, as if he had guessed something, he looked aside again, and immediately confirmed this guess in his heart.

It turned out that there were more than a dozen huge wounds beside the wound of Teng Snake.

Some of these wounds have been scarred, some have been healed, and some are still showing a trace of blood. Obviously they are new injuries and have not recovered.

Regardless of the injury, the injury is very serious.

Obviously, this is her main attack direction when the yellow bird is fighting Teng Snake.

It seems that Huang Bird also knows that this is the key to Teng Snake, and it is the place where Teng Snake's inner alchemy is, so she focuses on this place every time.

"This is more convenient for me!"

Thinking of this, Chen Feng had an idea in his heart!

"If that's the case, I can't say that, this time the yellow bird will be of great help to my plan."

"When the time comes, I will be like this..."

In Chen Feng's heart, his thoughts kept turning.

Soon, a plan was formed in his mind.

Suddenly, at this moment, Chen Feng's eyes flashed and he looked at the corner of this huge platform.

At the corner of the huge platform, there is a small wooden house.

This small wooden house should have existed here for a very long time, and it has grown into one with the wooden platform below.

Even around the wooden house, there are still circles of vines entwined, making it like the forest hut.

It was so integrated with the platform that Chen Feng didn't notice it for a while.

After seeing this small wooden house, Chen Feng suddenly felt stunned and thought of something.

"This small wooden house is still here? Could it be that more than a year has passed, and Yuechan and the Heishui Profound Snake Queen are still here and haven't left?"

Chen Feng remembers very clearly who lives in this wooden house.

This person also has a deep grievance with her that cannot be resolved!

While Chen Feng was thinking about it, with a creak, the door of the wooden house opened.

From inside, a woman walked out.

This woman was wearing a long skirt woven with hundreds of flowers, she looked quite gorgeous, her appearance was also very glamorous, and there was a touch of nobility in that beauty. **noVELus11.Com**

Just like an emperor who rules the world.

It was Yuechan.

After Yuechan walked out at this time, she was busy in front of and behind the house for a while.

Chen Feng looked there with some curiosity, and saw that it turned out that there was a fence around the front and back of the wooden house.

Some herbs were actually planted in this open space.

These herbs are planted directly on the wooden cyan ground. On this ground, a cyan air current is hidden in the veins of the wood, visible to the naked eye.

Through this wooden platform, poured into those herbs.

Chen Feng was clear in his heart: "It turns out that the herbs she planted here directly absorbed the essence of Tongtian Jianmu!"

And Tongtian Jianmu has absorbed the essence of the entire Southern Wilderness.

It seems that the grade of these herbs is not low.

The fact is exactly the same. Chen Feng observed for a while and found that even though they were so far away, these medicinal materials still sent an extremely rich and fragrant fragrance.

Obviously, the level is extremely high, even not losing to those rare herbs in Chaoge Tianzi City.

This made Chen Feng feel slightly awe-inspiring.

What shocked him even more was Yuechan's strength.

Chen Feng couldn't even see through at this time, he couldn't see how strong this woman was.

Her whole aura was ethereal and very illusory. After Chen Feng closed his eyes, he couldn't even perceive her.

"How do I feel that she seems to have cultivated her body into a virtual body!"

"She must have cultivated a very weird martial arts technique! In the past year or so, her strength has increased many times!"

Chen Feng secretly said in his heart.

Yuechan held these herbs in her hands, and then took out a white jade basin, smashed it with a crystal-clear little jade hammer, and smashed it into a ball of medicine mud.

He took this medicine mud in his hand and walked to Teng Snake.

Tengshe obviously knew her arrival, but didn't even lift her head, just glanced at her lazily.

Then, there was a tremor all over, not afraid, but a little expectant.

Yuechan sighed: "Come on, get the medicine."

[Chapter 2956: Extremely weak](#)

As she said, she waved her hands, and the medicine ball in her hand turned into powder and sprinkled on the wounds of the snake.

Suddenly, those wounds of Teng Snake began to recover at a speed visible to the naked eye.

The flesh and blood began to condense, and in some places a thick blood scab grew.

Chen Feng frowned.

"The power of this herb is really terrifying. If you fight at that time, you can't say that you have to kill her first."

"With her, Teng Snake's combat effectiveness is probably improved a lot."

Yuechan sighed and said, "Oh, I think, in my life, I will serve your ancestor."novelusb.com

Teng Snake's hoarse voice came, lazily: "I protect your life, you give me some medicine, why is it so embarrassing?"

Yuechan said angrily: "Is it a little bit? You beat that yellow-haired beast once every half a month. After the fight, you have to heal for half a month, and I have to serve you for half a month."

"All day long, I just grow herbs, pick herbs, and then heal you."

Teng Snake seemed to know that he was wrong, he smiled, and didn't catch any more.

Chen Feng looked at him, secretly surprised.

He originally thought that Yuechan was enslaved by Teng Snake here, as a slave, but he didn't expect that Teng Snake would treat her like a friend, and he didn't know the origin of the two.

After Yuechan finished this, she walked back.

At this time, the wooden door opened and a young girl came out.

Chen Feng raised his eyebrows and said in his heart: "Who is this girl? I remember that only Yuechan and her daughter lived here."

"Her daughter, Heishui Xuan Snake Empress, is just a little baby. Where does this girl come from?"

Suddenly, Chen Feng seemed to have thought of something, and suddenly he became stiff, and his goose bumps started to rise.

His pupils shrank, and he couldn't believe his speculation.

However, he knew that this speculation was absolutely correct.

There is only one explanation, that is, this girl is the baby girl that day.

In just one year, she has grown into a 13 or 4 year old girl.

The girl's next words also confirmed Chen Feng's guess.

She looked at Yuechan and called her mother!

Yuechan nodded slowly to her, and then looked at her, her face suddenly became serious, even a little cold:

"Today's morning class begins now."

The black water mysterious snake empress showed a touch of fear on her face, and at the same time she was a little distressed, gave her a deep look, sat cross-legged, and began to practice.

She quickly entered the state of meditation, and a breath of breath around her body was constantly fluctuating at a very fast speed.

This breath is getting bigger and bigger, more and more majestic.

In the beginning, the breath fluctuated around his body. Later, the entire platform began to vibrate.

The wooden ground began to tremble and fluctuate like water ripples.

In the end, the entire pine tree trembled violently.

Even the trembling of the entire Tongtian Jianmu drove the changes in the vitality of the heaven and earth in the hinterland of the southern wasteland.

When Chen Feng saw it, he couldn't help being shocked.

This little girl, when she was practicing, was the movement even bigger than when I was practicing?

Moreover, her current strength has reached the Seven-Star and Eight-Star Martial Emperor!

"God, a year ago, she was just a baby who knows nothing! Now that she has reached this level, what a terrifying talent!"

"It is estimated that it will not be long before she will be able to surpass his mother."

"And her mother, I think her current strength should have surpassed the peak of Nine Star Martial Emperor."

"The talents of both mother and daughter are really terrifying!"

At this moment, Chen Feng suddenly felt bored and his brain was dizzy.

The feeling of the whole person is like the soul, as if it is his natural vitality, a large piece of it has been dug out abruptly.

In an instant, he felt that he was extremely weak, and even had difficulty breathing.

It's not the weakness of strength, but the feeling of aging, as if life is near.

In an instant, Chen Feng's heart was involuntarily filled with fear and despair.

That is the fear of death, the instinctive despair of the end of life.

Chen Feng almost couldn't help yelling.

At the same time, a large mouthful of blood was brewing in his chest and was about to spit out.

Chen Feng's thoughts were even out of control. What reason, what control, what restraint, all disappeared without a trace.

Chen Feng couldn't help yelling, screaming, crying, spurring blood, and falling to the ground.

However, Chen Feng is not an ordinary person after all.

At this moment, Chen Feng's steel-like tough will instantly prevailed.

The emotion that made Chen Feng almost collapsed just now only appeared for a moment, and then was abruptly suppressed.

A voice in Chen Feng's heart screamed frantically: "In any case, no matter what happens, I can't make any trouble!"

"As long as it is discovered, I will not be able to obtain the inner alchemy this time, I will definitely die!"

As a result, Chen Feng abruptly restrained the instinct of the body, restrained the almost out of control emotions, suppressed his emotions, and at the same time controlled his body to calm down.

He swallowed the mouthful of blood abruptly.

This made Chen Feng extremely uncomfortable and almost wanted to cry.

But after all, he restrained it.

However, at the same time, Chen Feng saw that Empress Heishui Profound Snake suddenly opened her eyes and looked in this direction near her.

She raised her brows lightly, as if slightly noticeable.

Chen Feng was shocked: "I was desperately restraining just now. I had only let myself leak a little breath, and I didn't even notice it."

"And she, can actually feel my breath?"

"Although she didn't really perceive it, she just had a faint feeling and a faint suspicion, but from this it can be seen that her talent should be biased towards the perception and perception."

"I will have to be more careful in the next few days."

Chen Feng secretly warned himself!

When he left here, Yuechan and Heishui Profound Snake Empress were very average in strength, belonging to the kind that Chen Feng could crush to death at will.

Unexpectedly, now Chen Feng had to hesitate.

Seeing the Black Water Profound Snake Queen opened her eyes, Yuechan's eyes flashed cold, and an invisible whip condensed in her hand.

With a snap, it was drawn on the body of the Black Water Black Snake Queen.

Suddenly, the clothes drawn by the black water mysterious snake empress shattered, revealing the snow-white back.

On the back, there was a blood stain dripping with blood, which was terrible.

On her back, there were dozens of wounds all over her.

[Chapter 2957: Yellow bird, finally here!](#)

Obviously, she was beaten many times on weekdays.

Yuechan said coldly, "Dare to distract yourself? Practice quickly!"

"Next time, draw three hundred whips!"

"Yes!" Empress Heishui Black Snake was in pain, gritted her teeth, took a deep breath, continued to sit cross-legged, and did not look at Chen Feng again.

Obviously, she also felt that she had just had an illusion.

At this time, Chen Feng finally breathed a sigh of relief.

He can also perceive the state of his body.

After feeling a bit, Chen Feng knew what had happened.

"It turns out that my current Yangshou has half a month left, which makes me almost into the realm of five decays."

"At this time, all parts of my body are extremely weak."

"My strength hasn't been affected in any way, but the whole person is almost abolished."

Chen Feng sighed slightly, and secretly said in his heart: "It's only after 12 days!"

Twelve days passed in a flash.

During these twelve days, Chen Feng shrank into this leaf without moving.

He just held his breath, adjusted daily, and adjusted his state to the peak.

And within these twelve days, Chen Feng's body also weakened little by little.

He can feel that he is aging every day.

You can feel that your body is greatly weakened.

By the twelfth day, Chen Feng's whole body was already covered with wrinkles and gray hair.

Even his body slumped down, and his face turned pale. *NOVELUSB.COM*

The Yintang turned black, revealing a vague breath of death!

At this moment, if someone from Chaoge Tianzi City sees him here, they will shout out in shock.

Is this still the majestic and prosperous Chen Feng?

Is it still Chen Feng, who is not only the best talent in the world, but also known as the arrogant of the generation, but also the handsome appearance that has attracted countless people's obsession?

If it weren't for Chen Feng's perseverance, I'm afraid that he would be crushed by this extremely declining feeling now.

But Chen Feng finally managed it!

He still survived!

Although on the twelfth day, he felt that everything in front of him was dim, and he could not see clearly.

Although he felt his body was extremely weak, although he felt that he could hardly control his body, his whole body was shaking.

But after all, he still managed it!

Chen Feng stared at the outside without blinking, staring at Teng Snake.

On Teng Snake's huge body, those injuries have been recovered seven or eighty-eight, and most of the injuries have been covered with a thick blood scab.

Some have even fallen off.

The most severely injured position had ***** scabs, but it was still very thin, and the blue flesh and blood inside could be seen through the outside.

It can be said that Yuechan is indispensable for being able to do this.

Yuechan treated Teng Snake every day, and Chen Feng watched Teng Snake's injury improve little by little.

By the early morning of the twelfth day, Yuechan and Heishui Profound Snake Queen seemed to perceive something the same.

Logically speaking, when she wakes up in the morning, Empress Heishui Black Snake is going to practice morning class.

But this time, Yuechan held her in her arms, and the two stood in front of the wooden house, looking at the sky far south, as if waiting for something.

The huge snake also banded directly upright.

The body is upright and straight, and it feels as if the top of this Tongtian Jianmu is erected again.

His body trembled violently, and a blue light flowed above his body.

Suddenly, there was a burst of noise all over his body.

The whole body's scale armor was flying, from head to tail, the scale armor stood up and fell again.

It looked like it was flowing on his body.

All the filth accumulated during this period was all shaken out. Even the blood plasma on his body and the blood clots that had solidified on the surface of his body were all flying out.

A cyan light flowed past the surface of the body.

In an instant, his body was already as smooth as sapphire, and there was no more dust.

Seeing this scene, Chen Feng couldn't help holding his breath.

"Come! Come! The day to decide my destiny has arrived!"

At this moment, there was a clear cry from the Southern Sky.

The cry is crisp, like a yellow oriole coming out of the valley.

But the sound is also very huge, and with extremely powerful penetrating power.

This penetrating power, like cracking clouds and piercing stones, makes people feel excited and excited when they hear it.

Chen Feng tried his best to suppress his blood that was almost boiling.

He felt that all his blood was rushing crazily in his veins, almost uncontrollable.

He was shocked: "The Yellow Bird's strength is beyond my imagination."

"I didn't realize it was so powerful at the beginning, but now that the realm is high, I discovered that the yellow bird is so powerful!"

"A tweet, I almost burst my blood!"

However, Chen Feng still controlled it forcibly, without making any movement, and his breath did not fluctuate much.

Otherwise, I'm afraid he will be discovered.

The next moment, the huge yellow bird finally appeared in Chen Feng's sight.

There is a golden cloud that is misty, immense, and misty.

The huge wings, with a wingspan of three thousand miles, seem to be bigger than Teng Snake.

Extremely luxurious, extremely powerful, extremely powerful!

The yellow bird hovered above Jianmu, looking at Teng Snake, with a hint of hatred in his eyes.

And Teng Snake also looked at the yellow bird, and his eyes were full of ferociousness.

He let out a stern roar, and his body straightened suddenly, opening his mouth and biting towards the yellow bird bitterly.

The yellow bird also let out a sharp neigh, and the two huge iron claws hiding under the long and extremely beautiful yellow feathers suddenly ooze out.

Toward Tengshe's head, he grabbed it hard.

In an instant, the two fought together.

There is no need for any dialogue. The two giants that have fought countless times in the past few years and kill you every half month are natural enemies!

It's like carrying some fate!

Only one can stay!

You die and die, nothing more!

With a loud bang, the giant claws of the yellow bird and the head of the snake slammed together.

The huge iron claws plowed across the snake's head fiercely, making a piercing sound like a metal and iron hit.

It made Chen Feng feel her teeth sore.

The giant claw slashed across the head, leaving several huge wounds three to four meters deep.

[Chapter 2958: Yellow bird's backhand!](#)

The scales are flying, blood is splashing, and the iron claws are already dyed red.

However, Teng Snake was irritated by the pain and howled, his mouth opened, and it bit on the giant claw with a click.

Suddenly, the yellow bird screamed sternly, struggling with both claws.

Although he finally struggled out, there were seven or eight huge tooth marks with deep visible bones on his paws.

The blood also shot out from the inside, and the blood was actually black blood, which was obviously poisoned.

Not only that, taking advantage of the time when she was struggling, Teng Snake's huge tail slammed hard and hit her soft belly hard.

Suddenly, countless yellow feathers were smashed out.

A huge **** wound was smashed into his belly, and golden blood kept pouring out.

Obviously, Teng Snake took advantage of this first encounter.

And the yellow bird, but there is no anger into anger.

She didn't even pause, saw the long bird's beak stabbing down into the snake's back.

A huge wound broke out directly on his back.

The blood, like a fountain, soared out of the wound on his back.

Even the long bird's beak stabbed out of the belly of the snake.

Cyan blood on it!

Pierce from the back and pierce from the belly.

At this moment, he stabbed Teng Snake directly.

This moment, directly caused Tengshe to be hit hard.

The blood was shot out frantically at the two wounds one after the other, and in a blink of an eye, the blue-black blood had already corroded a large lake on the ground.

On the platform at the top of the sky-reaching Jianmu, sneered sneered, countless white smoke was rising, it was already corroded potholes.

And Yuechan and Heishui Profound Snake Empress hugged each other, but their actions were more for protection, but they didn't show much fear.

Because of this kind of battle, they have seen a lot in this year, and there are always dozens of times.

They also know very clearly that as long as they protect themselves, they will generally not be affected.

It is very safe to shrink here.

Tengshe's body was twisting frantically, and his powerful body kept hitting the platform at the top of Tongtian Jianmu.

Bang bang bang, again and again.

And Chen Feng quickly realized that he didn't feel this way because of the pain, but to break the yellow beak that pierced from his belly.

And this move has obviously paid off.

The yellow bird screamed constantly with pain, and the whole body was tossed around. The tip of the bird's beak was already shattered, and blood leaked from the root.

Chen Feng frowned. The yellow bird and Teng Snake looked similar in size, but in fact, the power of the yellow bird should not be as good as Teng Snake.

She was flying in the air, and she should win with speed and dexterity. She would miss a hit, so she had to flee immediately and look for the next opportunity.

Rather than stalking like this.

In this case, he is not Tengshe's opponent.

Sure enough, a vicious and cunning color flashed in Teng She's eyes, with a trace of pride.

Suddenly, there was a loud roar, and his body went up so quickly, it turned his body up a little bit.

It also made the yellow bird's beak pierce deeper.

In this way, it can also make him suffer more severe injuries and enlarge the wound.

But at the same time, he also firmly clamped the yellow bird's beak.

Then, Teng Snake's body directly climbed up frantically, and that huge body directly wound the yellow bird layer by layer.

I saw that a piece of cyan was wrapped around yellow, and that cyan was still squeezing inward.

Chen Feng could even hear the sound of bones being smashed into pieces on the yellow bird's body.

The muscles above her body were broken in layers, and her throat could only be screaming.

"Hahaha, this time you are just what I want, I want to see how you can break free!"

The yellow bird kept roaring and struggling, but his strength was not as strong as the snake, how could he struggle?

The two giant beasts entered the most tragic fight almost as soon as they fought.

Without temptation, it is directly a fight for life.

At this moment, Chen Feng couldn't help feeling very worried.

If the yellow bird is downwind, it will be very detrimental to his plan.

But Chen Feng's strength was extraordinary, but he still forcibly resisted the urge to shoot.

He knew it was not a good opportunity now.

At this moment, Chen Feng saw that a sly color flashed in Yellow Bird's eyes.

Chen Feng's heart was excited: "The yellow bird still has something to do!"

His throat suddenly bulged, and a huge ball bulged up, as if there was something hidden inside.

Then, this huge round thing slid all the way to her mouth along her throat.

Then, he squeezed his mouth forcibly, making it bigger.

In the end, it fell out of her mouth.

Chen Feng saw that this was actually a yellow ball.

The inner brilliance looks extremely noble.

As for the yellow ball, the place where it fell was not elsewhere, but under the body of Teng Snake.

Moreover, this part of his body was also dug a big hole by the yellow bird.

At this moment, the golden orb fell there.

Chen Feng saw this orb, Yuechan and the Black Snake Queen saw it, but Teng Snake did not.

At this time, he also roared triumphantly, immersed in the excitement of entwining the yellow bird.

Yuechan's face suddenly changed, and she shouted in surprise, "Master Tengshe, Master Tengshe, be careful!"

Suddenly, Teng Snake felt a spirit in his heart, as if thinking of something.

But at this time, it was too late for him to react.

Because, at this time, the golden ball was already blasted to pieces.

As soon as the golden ball shattered, Chen Feng suddenly felt that everything in front of him seemed to stop.

Time seems to freeze, and space seems to freeze.

At this moment, he could not hear anything or notice anything.

The whole body, only one pair of eyes is normal, he can only see that in this closed space that seems to be imprisoned, in the golden sphere, endless golden flames spit out.

With these golden flames, Chen Feng felt extremely hot despite being tens of thousands of meters away.

Chen Feng felt that he had been smoked and roasted and almost drained all the water in his body.

In an instant, the wrinkles on his forehead increased, I don't know how much.

A face becomes extremely dry, lips are instantly dry and chapped, and the whole person may wish to drink all the water of a river in an instant.

Everything else is stagnant, but the power of this golden flame is real.

[Chapter 2959: It's now!](#)

The huge trees around the platform, those huge branches, and those huge leaves changed from emerald green to withered yellow in an instant, and even burned directly.

And they are tens of thousands of meters away from the golden flames.

This shows how high the temperature of this golden flame is.

What a realm of power overbearing!

Even on the wooden platform, countless huge wounds were cracked out.

The wooden house slammed and burned directly.

Yuechan hugged the Black Water Profound Snake Queen, backed frantically, and stepped back behind a huge branch before stopping.

And the leaf where Chen Feng's body was, immediately burned.

The flames burned Chen Feng's body, but Chen Feng was there motionless, without making any movement, but staring at that part of Teng Snake's body unblinkingly, and his heart was extremely excited.

He clenched his fists, almost couldn't help yelling.

The golden flame exploded, and it was affected within a radius of 10,000 meters, let alone the body of the snake that was just above the golden flame.

With a loud bang, Teng Snake's body was directly exploded with a huge scar with a length of several thousand meters and a width of hundreds of meters.

The golden flame ignited directly, burning it to a scorched black surface.

The flesh and blood on it had been directly burned into coke, and there was no flesh and blood in the place where the huge wound was located, and such a void was directly formed, and even the blood had not flowed out.

Because it has been roasted by the heat!

And the golden flame hadn't completely disappeared at this time, it rushed to the side frantically.

With a bang, another wound burst open.

This wound was the wound he left here last time, and it was the biggest wound on his body that Chen Feng had seen before.

Originally it was not good, it was just a layer of blood scab, now it is burned away again.

And this wound and the wound just formed just now formed a huge cross, almost completely cutting his belly.

At this time, the golden flame finally disappeared.

At this time, Chen Feng felt that the imprisoned space was finally released, and everything returned to normal.

So the next moment, he heard a stern, terrifying roar.

Teng Snake let out a crazy roar, he opened his mouth, and the mouth was wide open to the limit, the snake body twitched crazily, and the throat screamed crazy.

It was full of pain and violence.

His body was twisting wildly, and the pain was extreme.

Every scale, every muscle on his body was trembling.

Even if he has been fighting with Yellow Bird for so many years, he has never suffered such a serious injury, and he has never been in such pain.

He was almost crazy.

At the same time, he tightly bound the body of the yellow bird, and couldn't help but loosen it.

The yellow bird, on the other hand, made a cry and flew away.

She let out a crisp laugh: "Haha, now you know how good I am?"

"Do you think I'm so easy to be fooled? I just pretended to just wait for this moment!"

Teng Snake let out a bitter howl: "You bitch, how dare you hurt me like this!"

"I killed you! I must kill you!"

The yellow bird curled his mouth in disdain, and said, "You have said this countless times, haven't you done it once?"

At this time, the yellow bird's body was ascending, it was about to fly far, and then waited for the opportunity to attack the snake again.

But Teng Snake was so painful that he was unable to launch any attacks for a while.

At this moment, Chen Feng's eyes suddenly became bright.

A voice in his heart roared frantically: "This is the moment! This is the moment!"

At this moment, Chen Feng saw an opportunity!

To be honest, Chen Feng did not expect that the opportunity would come so soon!

He also didn't expect that the battle between Teng Snake and Yellow Bird would turn into a fever when it came up!

But this did not catch him off guard.

In the past twelve days, Chen Feng has imagined today's situation countless times.

In his mind, the scene of the battle between the snake and the yellow bird has been rehearsed hundreds of thousands of times, hundreds of thousands of times!

Chen Feng has exhausted his brain power for this, but the gain is also huge. Now he can make the most accurate and quickest response immediately according to almost any situation!

Therefore, he immediately made a decision!

In the next moment, the leaf where Chen Feng was hiding suddenly burst open!

Chen Feng's figure appeared directly.

But after Chen Feng's figure flashed out, he didn't hesitate at all, and rushed towards Teng Snake madly.

At the same time, he looked at the yellow bird and shouted: "Yellow bird, you are now attacking the wound of the snake!"

"You attack his cruciform wound now! Furious attack! Leave the rest to me!"

"Crazy attack, have you heard it!"

He roared out his loudest voice!

Chen Feng's voice at this time successfully attracted the attention of Teng Snake and Yellow Bird.

And almost the moment I saw Chen Feng, Teng Snake's face became even more ferocious, and he roared frantically: "Puppy boy, is it you?"

"How dare you come back? This time, I must make you die from the pain in the world!"

"This time, I must smash you into pieces!"

Huang Niao looked at Chen Feng, feeling a little surprised, and said crisply: "So it's you, why are you so old?"

Although Chen Feng's appearance changed drastically, they still recognized him from Chen Feng's aura.

Chen Feng shouted loudly: "Don't worry about anything else!"

"Yellow Bird, if you still want to kill Teng Snake in your lifetime, then just do as I said!"

His words are full of endless confidence, there is no commanding tone, and he can't command the yellow bird.

But after the yellow bird listened, he couldn't help being convinced.

She felt that by doing what Chen Feng said, she would definitely be able to achieve her goal!

So, he didn't hesitate, the body that was about to fly sank again.

Then his two huge claws grabbed the two sides of the cross-shaped wound fiercely, yelled, and tore it fiercely in the middle!

Teng Snake's body suddenly jumped straight, and his body was like sifting chaff, and once again let out a scream.

He screamed frantically: "Sick bitch, I'm going to kill you! I'll kill you!"

As he said, his huge snake mouth bit the Yellow Bird's neck fiercely. *novelusB.Com*

At this time, the yellow bird was already unable to resist him.

A huge wound was directly torn open on her neck.

[Chapter 2960: Tattered armor! The defense is amazing!](#)

Blood poured out frantically from the inside and was swallowed by the snake.

In fact, this time, the Yellow Bird suffered a loss.

Because of her vitality, she fell into Teng She's mouth.

At this moment, a trace of regret flashed in her heart: "Should I believe this human being?"

"If this human being can't do it, then I will lose too much blood in a while, and even if I don't die, I will be seriously injured!"

At this moment, Chen Feng had already let out a sharp roar and charged towards Tengshe.

Those just now seemed to take a long time. In fact, it took only a few moments from Chen Feng's appearance to the dialogue, and then to Chen Feng's rushing forward now.

Chen Feng frantically rushed towards Tengshe, and this scene fell in the eyes of Tengshe and Huangniao.

In an instant, the eyes of the two giant beasts all stared at Chen Feng's body.

The look on Teng Snake's face was extremely disdainful, and his eyes revealed a vicious and arrogant light.

However, Chen Feng rushed forward faster and faster, and his momentum rose higher and higher.

In the end, his aura was infinite, after all, half a step in the realm of Emperor Wu!

At this time, Tengshe finally showed a flustered look in his eyes.

He shouted in a vague panic: "How much has your strength improved?"

But then, the panic disappeared.

In his eyes, boundless domineering surged again.

This is the incomparably powerful, natural domineering spirit of this behemoth that has dominated the Southern Wilderness for tens of thousands of years!

In his eyes, no one can beat him!

He laughed in his throat: "Little boy, even if you have such strength, you can't be my opponent!"

With that said, his huge snaketail slammed into Chen Feng fiercely!

At this moment, Chen Feng's mind was clear and clear, and he immediately judged the situation in front of him clearly in his mind.

Even his current thoughts are extremely clear.

"Now, I am 63,000 meters away from Tengshe, and this distance, I can cross it in an instant."

"And the speed of the snake attack, in this instant of time, I will be attacked by him at least four times!"

Chen Feng had already calculated it, and he had already realized that although Teng Snake's body was trapped by the yellow bird, his tail could move.

For all this, Chen Feng had already prepared.

Facing the huge tail that smashed down, Chen Feng didn't have any dodge.

Because he knew that as long as he dodges, Teng Snake will get a respite.

I only have this very short moment that the yellow bird used his life to fight for himself!

Therefore, he can't waste anything!

Therefore, he still rushed directly!

No fear!

Teng Snake sneered disdainfully: "Dare you rush over directly? My tail can smash you to death!"

With a loud bang, his tail hit Chen Feng's body severely.

Huang Niao sighed secretly in her heart. In her opinion, this young man was bound to die this time.

And Teng Snake's eyes are extremely proud.

But the next moment, his triumphant eyes froze there, and an incredulous muffled roar came from his throat: "How is it possible?"

It turned out that this hit Chen Feng's body severely, like a mountain was crushed down.

But at the same time as it fell, Chen Feng's robe suddenly shattered, turning into fragments and falling.

On his body, a piece of tattered iron armor was exposed.

This iron armor looks extremely tattered, not to mention that the tail of a snake like a mountain is smashed down, even if it is a punch of an ordinary person, it seems to be able to smash it.

But it was such a tattered armor. After the huge snake tail hit it, there was a bang. On the armor, a burst of blue-black light was emitted.

However, it was abruptly that the giant snake's tail bounced a full foot away!

Although it was only one foot, it looked short, but it was enough for Chen Feng to move forward.

Chen Feng gritted his teeth and rushed forward frantically, and after this trick, he was already only four kilometers away from Teng Snake!

At this time, Chen Feng felt a huge tremor all over his body, and his ears hummed.

The scenery in his eyes almost disappeared, and the whole person felt that the sky was spinning, and there was blood in his throat.

The blood had reached his throat, but he swallowed it abruptly.

Chen Feng felt that he was about to be crushed to death.

Just now, although most of them had iron armor to bear, Chen Feng, who was wrapped in iron armor, was also uncomfortable.

He was also suffering to the extreme, and he almost couldn't help but stop, lying on the ground for a good rest.

But Chen Feng gritted his teeth and insisted firmly.

He yelled frantically, stared, and his eyes were full of blood, which dilutes the spinning scene that day.

At this moment, Chen Feng had only the body of the snake in front of him.

At the same time, Chen Feng's heart was also full of ecstasy: "Sure enough, this ragged iron armor, although its appearance is not good, but it has such a strong defense!"

"Sure enough, I was right, hahaha!"

He gritted his teeth and rushed towards Teng Snake frantically, with nothing in his eyes.

After panic, Tengshe yelled frantically: "I don't believe you can carry it!" *NOVELuSb.cOm*

With that, the snake's tail slammed down again.

But Chen Feng still did not resist Hong.

With another loud noise, the giant tail hit Chen Feng's body again.

No, it should be said that it hit the tattered iron armor on Chen Feng's body.

There was another huge roar, and the tattered iron armor once again emitted a strong black light.

Once again, the snake's tail bounced a foot away.

At this time, there was a crackling sound on the ragged iron armor.

There were countless cracks on it, although it hasn't broken yet, but at most it can only resist it again.

Resist once more, this extremely precious imperial soldier will be completely shattered.

At the same time, Chen Feng made a wow, shaking violently all over, and sprayed out a big mouthful of blood.

In the blood, there are also fragments of internal organs.

Obviously, Chen Feng's internal organs have been severely injured.

It's no wonder that it was so after suffering such a severe shock.

Not only the internal organs, but the bone collapsed in his chest, revealing a big hole.

His right shoulder was also hung down softly after being hit.

After the impact just now, the bones were a bit shattered, even with the protection of broken iron armor, but the strength of the snake was too strong.

Chen Feng still suffered a heavy blow from the collision of the snake's tail.

Chen Feng was shocked: "The strength of this snake is too strong, and the strength of this behemoth has definitely reached the realm of Emperor Wu! Far surpassing Emperor Wu by half a step!"
