

Peerless 3381

[Chapter 3381: News from the descendants of the real Thunder](#)

"Personal Thunder's last wish?" After hearing Chen Feng's words, Bai Ruoxi said with interest: "Let's talk about it!"

Chen Feng nodded, then explained the whole story carefully to him!

Real Thunder, a strong man hundreds of years ago.

When Chen Feng was very early, and when he was still in Ziyang Sword Field, he and Wei Hongxiu and others discovered the treasures of the real person of Thunder on an expedition.

The treasure left by the real person Lei Ting has greatly benefited Chen Feng, but the real person Lei Ting also has his last wish.

This last wish was also known to Chen Feng when he accidentally sorted out the remains of the real person after Chen Feng left there.

It was not known at the time.

It turned out that Real Thunder, his son and wife were killed by the Holy Blood Sect, and he was forced to flee by the Holy Blood Sect.

However, he still has a heir who is left out, missing.

For this heir, Real Thunder has always been extremely concerned.

He wants people who have obtained the treasure to go find his bloodline descendants and give the treasure to them.

In other words, impart stronger power to them, so that their descendants will not be bullied!

Thinking of this, Chen Feng was ecstatic and laughed loudly: "I found it, I finally found the whole story!"

Chen Feng was afraid that he couldn't find a clue. Now as long as he finds it, no matter how difficult it is to solve, he will eventually see a glimmer of hope.

He solemnly said: "Senior Mortal Thunder, since I have your legacy and receive your favor, then I shall fulfill your last wish!"

And when Chen Feng said this, he felt that deep in his heart, the feeling of heart palpitations involving Qi Luck seemed to jump suddenly.

It's like responding!

Bai Ruoxi smiled and said: "If you can find it, that's the best."

"However, now we have to solve a problem, which is to find the descendants of the real Thunder."

"Yes!"

Chen Feng looked resolute and said, "I don't know where the descendants of the real Lei Tingjin are, but I think they should be near the area where Lei Tingzhen was active before his life."

"After these thousands of years, even if it will change, it will not change much."

"It's always within those millions of miles. Chen Feng, I spent a few years searching one by one. It should be enough!"

Chen Feng's temperament is tenacious. In the eyes of others, this matter is like finding a needle in a haystack. It is extremely difficult to accomplish.

Even, he has left other things behind now.

There is only one thought in my mind, which is to finish this matter.

Bai Ruoxi smiled and said, "Chen Feng, what you think is too simple! He may not be still there now."

"and....."

He mysteriously said: "You don't need to use that stupid way to search bit by bit!"

When Chen Feng heard this, his heart suddenly moved and said, "Elder Bai, do you have any particularly useful methods here?"

Bai Ruoxi smiled and said, "Come on, bring me one of the relics of Mortal Lei Ting!"

Chen Feng nodded, and then he took out a golden thread kit from the treasured place in his arms.

After the gold thread kit was opened, it was not as good as other gold thread kits, and it was all jeweled.

On the contrary, the light inside is even quite dim.

There are many things in it, and from the perspective of Chen Feng's current strength, it is simply not worth mentioning.

However, Chen Feng's expression was very careful, and there was even more attention in his eyes.

It can even be said to be nostalgic!

It turned out that the various things in this golden offering kit were all the treasures, exercises, secrets, etc. that Chen Feng had obtained since his rise.

Many treasures, that is, judging from his current strength, have no value at all. It is not an exaggeration to say that they are like dirt and rubble.

But Chen Feng attached great importance to it.

Because in it, every bit is the trajectory of his growth.

Chen Feng searched inside for a while, and soon he found something and handed it to Bai Ruoxi:

"This is exactly what the real person Lei Ting left behind. It must have his breath."

Bai Ruoxi smiled and weighed the things in her hands, and said, "Look how I can find you the descendants of Mortal Lei Ting."

He took out a compass, and there were many dots scattered on the compass.

In the surrounding area, it was blue.

At this moment, a little red dot was looming above the blue patch on the west side.

Chen Feng couldn't see why at first, but soon he understood, and said: "This compass, is it a map of the Dragon Vein Continent? The flashing red dot is us on the West Sea?"

"Yes, smart!" Bai Ruoxi said.

He took the relic of the real Thundering man in his hand and rubbed it into countless powder.

Then wave his hands one after another.

Suddenly, a breath was tempered from the powder!

This breath, Chen Feng felt, seemed to be mixed with the aura of the real Lei Ting and his blood.

Mixed with all the power of his life.

After that, Bai Ruoxi pressed this breath down fiercely, and immediately, this breath penetrated into the compass.

As a result, the red dot on the compass jumped wildly at an extremely fast speed.

Chen Feng watched without blinking.

At this moment, he was very nervous.

For him, this is a big deal!

If Bai Ruoxi could find the descendants of the real Lei Ting directly, it could save Chen Feng a few years.

Because, if you really follow his original method of searching, it will actually disrupt all his plans.

At that time, if the strength has not improved, will the Soul Destruction Palace go or not?

Going, it's looking for death.

If you don't go, you can only watch Senior Sister and them being refined.

Na Kongsang's first person on the sword naturally couldn't do it. nOvelUsb.com

For him, these will be a great setback.

Now if it can be avoided, it would be better.

The red dot was beating frantically, about a cup of tea.

From above the West Sea, slowly moved towards the east.

Then, it went north again, and finally stayed in the northeastern part of the West Sea, in the northwest of the Longmai Continent.

Then, Bai Ruoxi nodded slowly, smiling at the corner of her mouth: "Probably found where you are!"

Then he patted on the compass again.

Suddenly, the compass became a lot bigger.

The red dot can be seen more clearly above the compass.

At this time, Chen Feng clearly saw that the red dot fell on a large plain among the endless mountains northwest of the Longmai Continent.

Although it looks like the mountain is not so big on the compass, the plain doesn't seem to be so conspicuous.

But Chen Feng knew that what seemed to be visible to the entire Dragon Vein Continent here, if it were in reality, must be too big to imagine.

[Chapter 3382: God of War Palace! Sky Dragon City!](#)

He watched attentively next to him, and Bai Ruoxi was constantly tapping on the compass, determining the most accurate position.

Finally, his hand stopped.

At this time, the red dot, which is already hovering on the edge of the mountain range.

"Okay, I found the specific location!"

Bai Ruoxi sighed in relief.

At this moment, cold sweat oozes out of his forehead, and the whole person shakes violently.

Obviously, for him, trying to determine the specific location of the red dot is also exhausting.

Chen Feng walked behind him, and a mighty force poured into his body.

Suddenly, Bai Ruoxi felt a warmth in his body, and instantly he recovered.

He smiled and patted Chen Feng's hand, and said softly: "Chen Feng, you have a heart!"

After he recovered, Chen Feng returned to the other side, and then asked, "Where is the specific location?"

Bai Ruoxi said word by word: "The foothills of the God of War Mountain Range, God of War Mansion, Sky Dragon City!"

"God of War Palace, Sky Dragon City!"

When Chen Feng heard this, his eyes narrowed: "It turned out to be on the site of the God of War Palace?"

It turned out that since the last time he encountered the Jinwuwei General Pu Xingzhou in the God of War Palace, Chen Feng went back and had a detailed understanding of the composition of the God of War Palace.

It turned out that this Mansion of God of War, as one of the nine powers, dominated the northwest of the Dragon Vessel Continent.

In the northwest of the entire Longmai Continent, the vast mountainous plain with a radius of nearly tens of billions of miles is almost the territory of God of War Palace.

This is just their territory, and their sphere of influence covers the entire Dragon Vein Continent.
everywhere!

On the northwest side of the Dragon Vein Continent, there is a huge mountain called the God of War Mountain Range.

It is said that at that time, the Dragon Vessel Continent once had a heavenly war **** descended here, hence the name.

The God of War Mansion also claims to be the heir of the God of War. The God of War Mountain Range is one of the top mountains in the Dragon Vein Continent, which is several billion li long and runs through the entire northwest.

The Mansion of the God of War is located on the southeast side of the God of War Mountain Range, backed by the God of War Mountain Range, overlooking the boundless vast plain.

However, God of War Palace is more than just a city.

The Mansion of the God of War is divided into thirteen giant cities.

The biggest and most beautiful place is called the Mansion of God of War!

And below, the twelve great generals of the upper pillar countries are each in charge of this giant city.

Like this Tianlong City, it is under the jurisdiction of the Great General Tianlongwei!

"General Tianlongwei?"

A smile appeared at the corner of Chen Feng's mouth, and he whispered softly: "Isn't Pu Xingzhou, one of the twelve generals of the Upper Pillar State, the General Tianlongwei?"

Chen Feng remembered very clearly.

"It turns out that it was actually on his site, so this matter is much easier to talk about. If I ask someone for help, it will be easier!"

"but....."

After Chen Feng changed his mind, he slowly shook his head.

"No, the matter of looking for the descendants of the real Lei Ting is related to my future and my next practice. It is not easy to let anyone know."

"Even if General Tianlongwei treats me with blue eyes, will other people be uneasy?"

"If the descendants of Real Thunder are killed in advance because of me, wouldn't I be sinful? I will never be able to survive the Tribulation of the Heart Devil?"

Thinking of this, Chen Feng was horrified and shocked, dripping down in a cold sweat.

There was a firm thought in my heart: "Except for me, no one should know about this."

"This time I'm going to look for the descendants of the real Thunder, and I must proceed with caution. It is best to sneak into it anonymously and find him secretly."

"Then, secretly give him what was given to him without attracting anyone's attention. It's best that way."

He got up and said: "Since the location has been determined, then, without further ado, let's say goodbye and go to Sky Dragon City!"

Chen Feng is a vigorous and resolute person and does not want any delay.

Bai Ruoxi smiled and said: "Don't worry, don't worry about going so quickly. There is one more thing to tell you."

"Oh? What's the matter?" Chen Feng raised his brows.

Bai Ruoxi said: "This time you go to Tianlong City, in fact, there is one more thing to do besides finding the descendants of Mortal Thunder."

"There was another school in Dragon City that day, which is worthy of your attention."

"What school?" Chen Feng asked curiously.

Now, with his strength cultivation base, even if most of the nine powers are not seen by him, what school does he need to pay attention to?

Since that sect was in Tianlong City in the God of War Palace, then it was clear that it was definitely not one of the nine major forces, and it could even be said that the level should not be very high.

Otherwise, he would definitely occupy a treasure land by himself, rather than curl up in a city!

"This school is called Beidou Sword School!" Bai Ruoxi said with a smile.

"Beidou Sword Sect?"

Chen Feng read these four words silently, but there was no impression at all.

Now on the mainland, Chen Feng still knows any sect with a slightly higher level and a slightly stronger strength.

As for this sect, Chen Feng had no impression, indicating that this sect was not well-known, and its level and strength were relatively low.

Bai Ruoxi said slowly: "The Beidou Sword Sect is actually somewhat famous, but it's far inferior to the nine powers, and it's far in the territory of the God of War Palace. You haven't heard of it. It's normal."

Chen Feng asked, "Is there anything strange about the Beidou Sword Sect?"

"This is what I want you to pay attention to!"

Bai Ruoxi laughed and said, "Although the Beidou Sword Sect is called the Sword Sect, in fact, their highest technique is something else."

"And this Beidou Sword Sect is just a false name they used to cover up their true purpose and background!"

Chen Feng's complexion had already become solemn, waiting for Bai Ruoxi to continue.

Bai Ruoxi smiled and said, "Actually, as long as I say the name of their sword school treasure, you know why I want you to pay attention to them."

"What is the treasure of their town brand?" Chen Feng said softly.

Bai Ruoxi stared at Chen Feng, and said word by word: "The treasure of their township is a fragment of the Shaoguang Bairi Fairy Book!"

"What? Fragments of Shaking the White Sun?"

When Chen Feng heard this, he was so shocked that he almost jumped up.

Shaking the white sun spectrum is the supreme secret treasure of the cultivation method.

Chen Feng knew this when he first obtained the photo.

After that, for such a long time, Chen Feng had been looking around for the Shaoguang Bairi Xianpu, but found nothing.

After all, the Yaoguang Gate that was once prominent that day was already scattered with stars, and even future generations could not be found.

[Chapter 3383: Shake light white sun spectrum fragments!](#)

And their Yaoguang Bairixian spectrum, even more so, they don't know how many big factions they have been in, or how many have been divided, and they are treasured by all the big factions.

Where did Chen Feng look for it?

But now, it was the news of Shaoguang Bairixian Pu that Chen Feng was not excited?

Even fragments are extremely precious to Chen Feng.

"It is said that the Beidou Sword Sect was actually created by an insignificant pyrotechnical disciple who secretly inherited the inheritance when the Shaoguangmen was destroyed."

Bai Ruoxi's voice is faint, and his eyes are far away:

"That pyrotechnician disciple, who is in the Shaoguang Holy Land, has a very low status, and is just helping with cooking in the room."

"It's just that he is naturally intelligent and very scheming. He stayed in it for decades and learned the martial arts of Yaoguang Holy Land."

"Although he learned it secretly, his talent is too good, even more powerful than those genuine disciples."

"Furthermore, he secretly learned the specific storage location of the Yaoguang Bairi Xianpu."

"Later, when the Shaking Light Holy Land was destroyed, none of the genuine disciples died or died. None of them survived."

"He is a fire worker disciple, but he was not regarded by those who came to attack at all. He sneaked in and snatched the fragments of the Shaoguang Bairi Fairy Book, which is about 30% of the Shaoguang Bairi Fairy Book. about."

"But even if it is a fragment, it is a supreme scripture after all!"

Bai Ruoxi sighed and continued: "As a result, his strength is even more mad. Later, he was incognito, joined the God of War Palace and became a general of the God of War Palace."

"It's just that his descendants didn't live up to it. They learned less than 30% of his skills and failed to inherit the position of general."

"However, relying on his shadow, the Beidou Sword Sect created in Tianlong City has continued to this day."

"That's it."

Chen Feng sighed.

The story of the Beidou Sword School is really wonderful.

Bai Ruoxi smiled and said, "The reason why I asked you to pay attention to this sect is because I know that you want to go to the Hall of Soul Destruction in ten months."

"Furthermore, if you go to the Temple of Soul Destruction, you must control your Faxiang!"

"Why?" Chen Feng couldn't help but stunned.

Bai Ruoxi said: "Because, many of the ordinary Wudi do not have the Divine Essence Battle Body, but Soul Destruction Hall has existed for so many years, has its own inheritance, and has its own set of skills for cultivating the Divine Essence Battle Body."

"So, they basically all have the Shenyuan combat body."

Chen Feng nodded, he could see this from Pu Jingyi!

Pu Jingyi's strength was average at that time, but he already had a god-level battle body!

Bai Ruoxi said: "In the entire Hall of Destroying Souls, most of the Wudi-level powerhouses have the existence of Shenyuan combat body."

"Furthermore, not only do they have a battle body of the gods, but many warriors also have the form."

"Why?" Chen Feng exclaimed, "Isn't it difficult to condense the law?"

Bai Ruoxi smiled and said, "Because, the main force that attacked the Shaking Sacred Land was the Hall of Soul Destruction!"

"Yaoguang Bairi Fairy Book, Soul Destruction Hall won the biggest one."

"For them, it is not difficult for them to condense the dharma aspect, do you think they can have no dharma aspect?"

Chen Feng suddenly realized: "So it is."

A haze appeared in his heart: "It turns out that the strength of the Soul Destruction Hall is really beyond my imagination, and it is more powerful than I originally thought. I don't know how many times."

"If all of them have the Fa, it will really have a huge impact on my plan."

But soon, Chen Feng cleared up his mood and listened to Bai Ruoxi to continue.

Bai Ruoxi said: "Most of their strong men have Dharma aspects, and because of the Shaking White Sun Spectrum, Dharma aspects are still very strong."

"And Faxiang and Shenyuan combat body are not a power system."

"So, even if you have a strong Shenyuan combat body, it will be a disadvantage to deal with them. You still have to practice the Faxiang strong enough!"

"If it doesn't, people will have a Shenyuan combat body to deal with your Shenyuan combat body."

"And when people come to sacrifice the Faxiang, you can't handle it anymore!"

Chen Feng nodded solemnly, agreeing.

At this time, Chen Feng looked at Bai Ruoxi, his eyes full of curiosity.

This seemingly inconspicuous sect predecessor who guards the Great Japanese Jinjing Pavilion seems to have not left here for hundreds of years, but he knows all the secrets of the mainland that other people don't know.

The more Chen Feng came into contact with him, the more he felt as if he was shrouded in a layer of fog and couldn't see clearly.

"Why do you want so much?"

Chen Feng smiled freely: "Chen Feng, you just need to know that Bai Ruoxi is kind to you from the heart, that's enough!"

Thinking of this, Chen Feng stood up, bowed deeply and said:

"Elder Bai, thank you!"

"Without you today, I don't know how many detours I would take!"

Bai Ruoxi looked at Chen Feng, smiled and said, "Don't thank me for these things."

"I help you because you are the most outstanding disciple of the Xuanyuan family's inner sect. You can lead the Xuanyuan family's inner sect to flourish and even stand at the top of the Dragon Vein Continent."

"Old man, I am old!"

He sighed leisurely, and said: "In this life, I'm afraid that there will be no great future!"

"In the day of my life, if you can see your rise, by the way, let our Xuanyuan family's inner sect also rise, the old man, what I have done today will not be in vain."

Chen Feng looked at him and said word by word: "Don't worry, Elder Bai, I will definitely let you see this scene."

Then, after a few more words, Chen Feng said goodbye and went back to prepare.

What Chen Feng didn't know was that just when he just returned to the Valley of Mirrors, at this time, a few billion miles away from the Xuanyuan family's inner sect, at a place on the northern end of the mainland, something happened. .

Here is a towering mountain.

The mountain is about 2 million meters high, extremely high and extremely dangerous!

The appearance of the entire mountain is like a huge sword inserted into the sky.

Extremely high, extremely narrow, extremely thin, straight into the sky.

It was like a great sword that fell when the world was opened and the earth was built, and it was inserted on the earth.

And the most surprising thing is not the height of this mountain.

Although there are not many peaks at this height above the mainland, there are still a few.

However, what is unique about this mountain is that its whole body is covered with colorful glaze.

There are black, gold, cyan, white and so on.

And if you look carefully, you will be shocked to discover that the color of this colorful glaze turned out to be the color of various metals.

The black one is black iron, the golden one is bronze and red gold, the blue one is glazed copper, and the white one is ancient white fine gold.

[Chapter 3384: Association of Founders](#)

It turns out that this entire mountain is all cast from various metals!

A mountain of two million meters, the whole body is made of metal, you can imagine how big the mountain is!

And the most important thing is that it is not only that it is made of metal, but that the metal that casts this mountain is very precious.

Even if it is above the mainland, it can cause looting.

Here, it is like gravel and rubble, everywhere, mountains and plains!

On this, there are countless rare metals, the amount is extremely large, and a mountain is made of metal.

If it were changed to other places in the Dragon Vein Continent, then this mountain would be robbed directly by the various warriors who swarmed.

There will be no scum left in storage.

After all, these metals are extremely rare, and they are very suitable for alchemy and for making various weapons.

Even if you don't do anything, you can sell it at various auction houses, and you can sell it at a high price.

But at this time, no one on this mountain dared to come here.

The entire mountain peak is quiet, and even within a radius of thousands of miles, there are few figures of warriors.

It's not because this place is not famous, on the contrary, this place is extremely famous in the entire Dragon Vein Continent.

And it's a terrible name!

Not to mention that some people know it, but at least most warriors also know it, but no one dares to come here to mine these metals.

That's because, on this mountain, there is a behemoth entrenched in this mountain within a radius of thousands of miles!

Any warrior who dared to enter this place without permission will be killed!

How dare those warriors enter here rashly?

If it's an ordinary small power, that's fine, but it turns out that the power entrenched in this mountain is one of the nine great powers!

Exactly: Dragon Vessel Mainland Foundry Association!

Starting from the mountainside at a height of one million meters, it is no longer a mountain range made of natural metal, but four mountain roads have appeared.

Four mountain roads, from east, west, south, and north, each lead to the top of the mountain.

One million meters, three million feet, that mountain road is three million steps!

The four mountain roads add up to 12 million steps!

On both sides of the mountain path, beside each step, a weapon was inserted.

Knives, guns, swords, halberds, axes, hooks, forks, clubs, etc., all of which are inadequate, covering almost all weapons in the world.

Even some strange weapons are included.

The closer you are to the mountainside, the lower the level of weapons on both sides of the lower steps is also lower, just some ordinary weapons, which can be seen in some cities and sects.

And the higher the level, the higher the level.

At a height of about 1.7 million meters, an imperial soldier-level weapon has already appeared.

When it reached a height of more than 1.8 million meters, even the eighth-rank emperor's soldiers and the ninth-rank emperor's weapons had begun to appear!

However, the weapons on both sides of the road have become sparse at this time.

Sometimes one will only appear after tens or hundreds of meters away, and it is no longer as densely packed as before.

And when it reached the height of 1.9 million meters and the last 100,000 meters of the mountain road, the weapon that appeared was no longer even an emperor's army.

It is a weapon that surpasses the emperor's army!

The weapons here are even rarer, and there are even only a few kilometers away.

The total amount is only a few dozen.

But each of these weapons is enough to make people crazy when they get on the Dragon Vein Continent.

Every weapon in it, even if it is placed at the level of the Seven Star Auction, can be used as the final treasure of an auction.

These weapons are contending with each other here, and each weapon is flashed with extremely powerful power, extremely terrifying.

Even these weapons will transform into powerful illusions!

Presented above the sky.

These illusions will even fight each other.

This is a manifestation of the spirit of the weapon.

Some of these weapons are no weaker than Chen Feng's extremely superior Longyang Sword!

So terrible!

Among all the forces on the Dragon Vein Continent, some forces may be higher than here, some forces may have more powerful ones than here, and some forces may have a long history, but no force can produce so many magic weapons.

There is only one who can produce so many weapons, and that is the Foundry Association!

The Foundry Association among the nine forces!

And this infinite sword, like a mountain of swords and a sea of swords, is also a means for the Foundry Association to demonstrate its strength.

The height of the last one hundred thousand meters started from 1.9 million meters to the top of the two million meters high mountain. On this section of the hillside, there were countless huge palaces.

These palaces, like this mountain, are made of various metals.

Each of them is very simple in shape, just ordinary metal houses, those high-level palaces are only slightly larger, with higher floors.

It's like a block of metal, very thick.

This is where the headquarters of the Foundry Association is located.

At this moment, suddenly a blue light flashed from the horizon!

When I got closer, I saw that this cyan streamer was about 30 meters long, and the whole body was radiant. At first glance, it gave people an incomparably hard meaning!

The level of this great sword has surpassed that of the Ninth-Rank Emperor's Soldier, and is even stronger than Chen Feng's Extreme Longyang Sword!

As the light of the giant sword circulates, several characteristics are reflected.

Very hard, just one of them!

With a brush, the cyan streamer came to the top of the Foundry Association.

Then, from above. A cyan figure swept down and plunged directly into the hall of the Foundry Association.

And the cyan giant sword was inserted into the roadside about 1.99 million meters high.

These magic weapons are one more!

It turns out that very few people in the Foundry Division conceal private weapons. Anyone who wants to go out to fight with others can choose one of these weapons and use it for battle!

When the time comes, you only need to return it.

This cyan figure is a young man in his thirties.

Although I had to follow the rules of the Foundry Association, there were some holes in the coat and robe, but the clothes were made of extremely special materials.

Shining silver in the wind, it is extremely luxurious.

He looks very heroic with sword eyebrows and eagle eyes.

It's just that his eyes are very arrogant and dark, but it makes people look quite uncomfortable.

There was a sharp arrogance on his body, it seemed that no one in the world would be seen by him.

[Chapter 3385: Who killed it!](#)

When he stepped into the Foundry Association, there were a lot of people in it, and everyone who met him saluted respectfully.

And this person just gave a cold snort in his nose and ignored him.

Arrogant.

The highest part of the mountain where the Foundry Association is located is a bronze hall, which is the highest conference hall of the Foundry Association.

All the most important things are decided here.

He originally wanted to bypass the hall and return to his home, but suddenly heard a quarrel inside.

Suddenly he raised his brows and strode into the hall.

Before the people arrived, the voice came: "Hahaha, what big thing has happened to you, is it worth your quarrel?"

After entering, I saw an old man sitting with his eyes closed at the top of the hall at this time.

Look at the nose, look at the heart, a posture that everything is not in your eyes.

Seeing that, it seems to be asleep!

And beside him, a middle-aged man in Jinpao who was more than 40 years old was full of anger and coldness on his face!

Standing next to him were people who were already seven or eight years old.

In the lower head, in the hall, there are dozens of young disciples kneeling.

Many young disciples were already covered in blood, and even a few young disciples fell to the ground with blood all over their bodies. Falling into a pool of blood, they were already dead!

The young disciples knelt there and shivered.

The purple-robed youth raised his eyebrows: "What's the matter? The old man is there?"

The old man in his mouth was the old man sitting at the top who didn't care.

Then, his gaze fell on the middle-aged man in Jinpao again, and he showed a playful smile: "Looking at how he is going to kill, it must be someone under his hand this time!"

"Haha, Ningcheng, Ningcheng, deserve it, who told you to be at odds with me!"

"But, they are all the elders of the Foundry Masters Association. If I should help you, I will still help you!"

At this moment, after the young man in the green robe walked in, everyone in the hall looked at him, and then they were all taken aback.

After seeing him, many young disciples showed a look of fear on their faces.

Although this person is young, he is their uncle in terms of seniority!

He is the oldest elder in the entire Foundry Association, and he is extremely powerful!

In the Foundry Association, it has always been known for its arrogance, extremely arrogant, and disdain for anyone.

This time they were already behind bars, tortured and interrogated, even killed, and if this uncle joins in, then their lives will only be even more sad!

The old man sitting at the head, as if he hadn't heard or seen, still closed his eyes and said nothing.

It's like falling asleep.

And Ning Cheng, the middle-aged man in golden robe, looked at the youth in purple robe, a look of disgust flashed in his eyes.

But he still forced a smile, clasped his fists and said, "It turns out that Junior Brother Wang Zihan is here."

"This time I went abroad for three months, I don't know what I have gained?"

"To be honest, the harvest is really a bit."

Hengzi Jin laughed, his aura suddenly increased, and he was madly pressing down on Ning Cheng, the middle-aged man in the golden robe.

The aura fell down fiercely, and Ning Cheng didn't have any defense for a while. He was directly stumbling under the pressure, backing a few steps, almost unsteady!

He furiously said: "Wang Zihan, what are you doing?"

Wang Zihan's move is tantamount to provocation.

He laughed, spread his hands, and said in a very innocent look: "Brother Ningcheng, you asked me yourself!"

"You ask me if there is any progress in my strength in the past few months, of course I want to show you."

"Why can this be blamed on me?"

In Ning Cheng's gaze, the color of ice flashed past.

This Wang Zihan is really getting crazy!

Ning Cheng took a deep breath and forcibly suppressed the anger in his heart just now!

Wang Zihan's behavior was tantamount to a provocation, but his strength was so strong, Ning Cheng could only endure such provocation.

At the same time, Ning Cheng felt a tremor in his heart: "Wang Zihan's strength is stronger than before. Although I was not prepared to be pushed back a few steps by him just now, this means that his strength should now surpass me. "

"Before he went out to practice, he was not my opponent."

"And now, it has surpassed me, I am the mid-term Samsung Martial Emperor!"

"He surpassed me, doesn't it mean that he has reached the peak of the three-star martial emperor, maybe even the realm of the four-star martial emperor!"

"As expected of the youngest elder of the Foundry Association!"

Ning Cheng's heart was full of jealousy and anger: "Why? Why!"

His heart was full of jealousy.

But he knew that there were more important things to do now.

Suddenly, his cold eyes fell on the young disciples who were kneeling in the hall below.

Several young disciples hurriedly lowered their heads, not daring to look at him.

Ning Chengyin walked in front of them with a cold face, and suddenly a golden whip appeared in his hand, and he slashed.

While smoking, he cursed: "You little puppies, don't think I don't know what you were doing just now!"

"Are you looking at my joke just now? Are you?"

While he roared angrily, he slashed the whip fiercely.

Every time the whip fell, several screams rang out. How could the people kneeling below stop him from this whip?

After a few lashes, he was directly drawn and completely bloody, lying on the ground, blood flowed, and motionless.

A touch of disdain appeared on Wang Zihan's face.

Ning Cheng could only use his disciple to exhale.

Seeing that the disciples were directly beaten to death again, the faces of the other disciples who were kneeling on the ground showed indescribable fear.

Ning Cheng screamed, "Don't tell me? Don't tell me? Are you telling me who did it?"

"He killed your big brother, do you still want to hide it for him?"

He roared furiously.

Wang Zihan found a seat next to him and watched the scene coldly.

After listening to it for a while, he understood it in his heart and knew what was going on.

It turned out that Ning Cheng's disciple went to secretly perform a mission. He didn't tell anyone about this mission. He wanted to eat alone.

In the end, he didn't expect that his disciple would come back in despair!

Not only was the big brother killed, but the treasure was also robbed.

"Tsk tusk, what a bunch of trash!" Wang Zihan smiled secretly in his heart.

After Ning Cheng finished speaking, his disciples still hesitated and refused to speak.

Ning Cheng was stunned: "What the **** is going on! How terrible is that person? It makes you so scared?"

"They are already dead, but still dare not say?"

If you don't know, these people know very well that what they committed was an unforgivable death.

[Chapter 3386: Kill Chen Feng with one sword!](#)

Not to mention, it may still be alive.

Not to mention, the worst is just being beaten to death, and if you say it, you will be sentenced to capital punishment, which is worse than death.

This is the reason they don't say!

Ning Cheng was furious and about to kill a few more people.

At this time, Wang Zihan suddenly sneered and said, "Brother Ningcheng, your method is a bit too stupid!"

"Come on, I'll try it for you!"

After that, I walked to those people and said lightly: "From now on, the first one to say, no matter what crimes have been committed in the past, I will spare you not to die."

"And if the first one of you refuses to say that someone else has taken the lead, then the rest will die!"

After hearing this, everyone looked at each other suddenly.

The alliance that was not very stable just now was destroyed all at once.

Many people's faces are filled with emotion.

Seeing them look like this, Wang Zihan showed a smug smile.

Ning Cheng was stunned!

Then he regretted it in his heart: "Why didn't I think of this way?"

The look on his face is even more gloomy.

Finally, after those disciples were silent for a while, one of the disciples could no longer bear the huge temptation, and said loudly: "I said! I said!"

"Say quickly!" Ning Cheng said viciously:

"No matter who did it, I will make him pay a heavy price!"

"Even if it is the emperor, I will go to the door and slash him a thousand times!"

The disciple screamed: "It was Chen Feng who killed the senior brothers!"

"What? Chen Feng?"

After hearing the words Chen Feng, Ning Cheng, who was yelling angrily, stopped abruptly.

He was full of anger, clamoring that he must teach this person a lesson.

But now, it was like a chicken choked by its neck, the voice stopped abruptly, and it was directly back into the throat!

He couldn't even say a word, staying there, his face flushed.

Who is Chen Feng?

He has heard of Chen Feng's name.

Just a few days ago, the news came from Tianzi City, this is just a young man in his early twenties, and within a few days, several two-star martial emperors have been killed one after another!

Famous Chaoge Tianzi City!

Moreover, among the nine major forces, they are also very famous, and there is a vague momentum to compete for the first person of the young generation in the Dragon Vessel Continent!

How dare he easily provoke such a person?

He didn't dare to say anything about killing Chen Feng at once!

At this moment, the disciples who were kneeling below saw his expression with contempt in their hearts, but there was also a hint of pleasure, and they were unspeakably happy!

"Call you crazy? Call you crazy?"

"It's very tyrannical like us, killing us is like killing a chicken. What happened? After hearing Chen Feng's name, I couldn't even let out a fart!"

Even the green-robed old man suddenly opened his eyes at this time.

Then, looking at Ning Cheng, he slowly said, "Chen Feng is the proud son of the Xuanyuan family, not comparable to ordinary young disciples."

"This is a big deal, think twice before acting."

After that, he closed his eyes and stopped talking.

But his words made Ning Cheng even more speechless.

He could only cast all his anger on his disciples, glared at them, and said sternly: "Isn't it Chen Feng?"

"Why didn't you say it just now? Why didn't you say it!"

The disciple who had spoken before shivered and said: "Because the big brother, Chen Feng was not killed by himself."

"He ordered us, everyone stepped forward and stabbed, in fact, big brother, we all killed!"

At this point, he wailed loudly: "Each of us has committed the number one crime in the door!"

"The slaughter is the same, the following is committed! When Ling Chi is three thousand dollars!"

He had a nervous breakdown and cried loudly.

Everyone was silent. At this time, they finally knew why they didn't say anything.

They don't say it's just a death, but if they say it, they will be killed by Ling Chi alive!

Ning Cheng stood there, his face flushed, and his face was silent, not knowing what to say.

Knowing that the murderer was Chen Feng, he dared not say anything like that just now.

And at this time, the old man in the green robe suddenly opened his mouth to look at her again, with an indisputable expression on his face!

"Could it be that just because of what I just said, your heart is not firm?"

"Could it be that the fear of Chen Feng overwhelmed the face of our Association of Founders?"

"You let me down!"

He stared at Ning Cheng, and said solemnly: "I just said that not to let you act rashly, is to make you think before you do anything!"

"What price can you pay, what price you are prepared to pay, and what hole cards do you have!"

Ning Cheng was stunned by these words.

"Your brain is really rusty."

The old man in Qingpao came to him and knocked on his head twice.

Then, he flicked his sleeves, turned and left.

Just leave a sentence coldly: "Just do it, don't worry, our Association of Founders is not easy to mess with!"

"Chen Feng dares to kill, we will make him pay the price!"

"If the Xuanyuan family protects Chen Feng, we will not hesitate to fight!"

After hearing these words, Ning Cheng was startled for a moment, then ecstatic.

He laughed and clung his hands: "Ancestor, I know, I know!"

At this moment, he was full of energy, where is the half-minute cowering look just now?

He laughed and said, "I must personally go to the Xuanyuan family and bring that Chen Feng back. Before our Association of Founders, I will cut it all!"

"Let everyone know that this is the price to offend our Founders Association!"

At this moment, the purple-robed young prince Han who had been sitting next to him suddenly got up and walked into the court.

His face was full of arrogant expressions, and his eyes were full of disdain.

"What about Chen Feng, it's just a young junior who has been lucky enough to have a few games and emerged by chance!"

"Our Association of Founders, are you afraid of him?"

"Even if the ancestors don't support it, so what?"

With his remarks, everyone's faces changed.

His words slapped Ning Cheng's face like a slap in the face.

Prince Han laughed and said proudly, "Ning Cheng, you can go and seek justice for your disciple Shangxuanyuan family, I will go with you."

"At that time, if Chen Feng dares to say one more thing, I will kill him with one sword for you!"

He said this just an understatement.

It seemed that if he said he wanted to kill Chen Feng, he could easily kill Chen Feng.

When Na Ning Cheng spoke, his face was full of impatience and disgust.

He had never been at peace with Wang Zihan, and the two often quarreled, but Wang Zihan had been by the side at this time, and then suddenly interrupted, in his opinion, he was laughing at himself.

[Chapter 3387: Chen Feng, you only deserve to be my stepping stone!](#)

Now when Wang Zihan spoke, he was about to retort, suddenly his heart moved and a thought turned.

"Since Wang Zihan jumped out like this, since he wants to deal with Chen Feng, it is not bad to use him as a borrowed knife to kill people!"

"Chen Feng is well-known, and he has some strength to think about, but Wang Zihan is one of the strongest among the younger generations of our Foundry Association."

"He must have no problem dealing with Chen Feng! It is no problem to kill Chen Feng!"

"Furthermore, even if you can't deal with Chen Fengfeng, there is nothing to lose to me!"

Thinking of this, he laughed and said, "Okay, Junior Brother Wang, since you are so righteous, then you don't say anything for the brother."

"Let's go to the Xuanyuan Family's Inner Sect together to seek justice!"

Wang Zihan's eyes were cold.

Of course he could see Ning Cheng's plan, and he also knew that Ning Cheng wanted to use himself as that knife for murder.

But he didn't care!

A voice echoed in his heart: "Ning Cheng, Ning Cheng, you have your abacus, don't know if I also have my plans!"

"The reason why I go with you and don't mind being your knife is because I want to kill Chen Feng Liwei!"

There was a strong jealousy in his eyes: "Why can that little boy of Chen Feng, who has little strength, be able to become famous throughout the Dragon Vessel Continent through a few battles, with the same momentum?"

"Why?"

"I am much stronger than him, and these glory should be mine!"

He looked far away, looked into the distance, and sighed softly:

"Chen Feng, wait, I will use you as a stepping stone to become famous in the world!"

"And you are only worthy of being my stepping stone!"

This person was really arrogant and arrogant to the extreme, and he actually took Chen Feng as a stepping stone!

At this time, what everyone did not notice was that at this time, outside the hall, there was a woman standing quietly there.

This woman looks young, but she is about twenty years old.

And she can even be said to be very small, a round baby face, quiet and calm.

She looked like a fourteen or five-year-old girl.

But at this time, her eyes revealed a deep maturity, which was a kind of torment that has been torn by years. After the vicissitudes of life, it is different from ordinary people and far surpasses the maturity of people of the same age.

There was even a trace of vicissitudes in his eyes, and there was no such innocence that little girls often saw.

At this time, other disciples kept passing by.

But these disciples of the Foundry Masters Association showed a sense of awe on their faces after seeing the girl in the white skirt.

Passed quietly by her, not daring to disturb her.

Obviously, this woman in white skirt is also quite prestigious among these disciples, making them fearful.

Soon, a decision was made in the hall.

After the white skirt woman listened, she just bowed her head silently.

Then he left silently.

Her whole person was extremely silent, like an empty valley orchid.

It is light, but with some hollowness.

It was as if her heart was gone.

For the Foundry Association, the front is the main hall, and the back is a continuous pavilion.

Compared with the previous palaces, these pavilions are much more refined.

This is where everyone from the Foundry Association usually lives.

The closer to the top of the mountain, the higher the status of the person.

Soon, this woman came to a small courtyard.

The location of this small courtyard is about 1.99 million meters, which is only less than 10,000 meters lower than the highest point where the main hall is.

Obviously she has a high status in the Foundry Association.

The buildings on the back mountain are no longer all made of metal as before, but made of stone.

Pavilions, terraces and pavilions, grass and trees repaired bamboo, there are many.

She pushed the door into the small courtyard.

The courtyard is very simple, unlike others, the courtyard occupies a huge area, and there is even a garden inside.

She is just a small courtyard.

There are only two main rooms, one wing room on the left and right.

Then, she walked into the main house and came to her bedroom.

This bedroom is also very simple, but it is cleaned very cleanly, there is nothing else but a huge vanity mirror.

Probably shows the identity of the host woman here.

The woman in the white skirt walked into it, and then turned out a box from under the bed.

Open the box to reveal the contents.

It was something wrapped in white cloth, and she sat on the edge of the bed in a daze, her eyes flashing with indescribable complexity.

Then, finally shaking his hands, he lifted and opened the white cloth, revealing the contents inside.

The thing inside is a huge hammer.

This hammer is quite old, obviously I don't know how many years have passed, and it is covered with traces of use.

This hammer was half her size and looked very heavy, but she picked it up easily.

She looked at the hammer, as if thinking of the past.

Then, he raised his head and looked far away, his eyes melodious.

"Chen Feng, Chen Feng, haven't seen me in so many years, don't you know if you still remember me?"

"I don't know if you still remember the time when you and I were together and talked about the world?"

"And this time..."

The corner of her mouth was pursed, and the expression on her face instantly became cold: "You and I will meet again, and there will be a break."

"It's not just Ning Cheng and Wang Zihan who are looking for you to settle the accounts this time, but also me!"

"What happened that day, you have to be in front of me, carefully and clearly and clearly!"

"If not, I will never let you go!"

At this moment, his expression is extremely complicated.

There is hatred, sadness, sadness, and more, a touch of nostalgia.

Naturally, Chen Feng didn't know what happened billions of miles away.

At this time, he was already packing his clothes, ready to go to Sky Dragon City to find the descendants of the real Thunder.

For him, this is the most important thing at the moment.

Chen Feng and the others said goodbye to each other, and then went to find Hua Lengshuang and Mei Wuxian, and said goodbye.

Then, he left the Xuanyuan family's inner sect.

When Chen Feng once again left Xuanyuan Family Nei Zong and headed northeast, even though his daily Golden Crow footwork was extremely fast, Chen Feng suddenly had a thought:

"Perhaps, I should really go find a wishful boat now!"

"Even if the pace of the Golden Crow footwork is faster, but this Ruyizhou, I can calmly practice and rest in it."

"Furthermore, in itself, in the upper layers of the Dragon Vein Continent, Ruyizhou means a kind of identity and represents tyrannical strength."

"Waiting for the Xianwu fighters to see Ruyizhou will not dare to provoke them, it will save a lot of trouble!"

[Chapter 3388: arrival](#)

Chen Feng shook his head: "I don't have time to do this now, I can only talk about it later."

There were no waves or waves along the way, and in a blink of an eye, a few days passed by.

It took a day and a half to see the land.

Then, it took another two days to set off like the northwest of the Dragon Vein Continent.

At this time, there were already rugged mountains under his feet.

These mountains are different from what Chen Feng had seen before. Most of the previous mountains were high and densely forested. At first glance, the lower part was covered by a thick green color.

The mountains in the northwest are a deep yellow.

When Chen Feng glanced at it, he could see the huge yellow rock.novelusb.com

It seems that this mountain is entirely composed of yellow stones, and even the vegetation is not the same on it.

However, after getting acquainted with it for a while, Chen Feng found out that it was not that there was no vegetation on it.

But it was late autumn at this time, and the plants were basically a withered yellow color, which looked exceptionally withered.

The mountains are extremely high.

With Chen Feng's strength, he couldn't move forward on the top of the mountain.

Therefore, he often travels through the mountains.

One gorge after another was left behind by Chen Feng.

Finally, after bypassing the extremely high mountain in front, Chen Feng suddenly opened up in front of him.

At this moment, in front of his eyes, a huge and vast plain appeared.

Chen Feng looked far away and couldn't see the end!

He estimated that the size of this plain has at least reached the level of 100 million li in radius!

An excited smile appeared at the corner of Chen Feng's mouth: "It should be not far from this Heavenly Dragon City."

Chen Feng hurried across the plain.

Soon, he discovered that this plain was incredibly fertile.

Although it is located in the northwest, it seems desolate and dry, but there are countless large rivers here.

These big rivers are extremely long and wide.

The river has a lot of water and the flow rate is slow, so it quieted down, forming a huge water network!

Although it is inland in the northwest, it looks like Jiangnan.

There are large tracts of forests everywhere, one after another, vast lakes, like the ocean, dotted around them.

There are countless pieces of arable land by the lake, fertile soil!

Soon, Chen Feng saw the village after another.

"It's really incredible to be rich here!"

With such fertile fields and fertile soil, Chen Feng is rarely seen elsewhere in the Longmai Continent.

It took about another day, and Chen Feng crossed this plain.

At this moment, at the end of Chen Feng's line of sight, a huge barrier suddenly rose!

This is a mountain range that stretches across an unknown length.

And this mountain range seemed to rise suddenly above the ground, without warning, it was directly uplifted to a height of several million meters.

Like a huge barrier, wrapping the northwest area of this plain, like two arms.

Chen Feng sighed softly: "It is so majestic, there are only a few places on the mainland, including the God of War Mountain Range."

"I have arrived!"

Then, when I moved down, I saw that at the foot of this huge mountain range, at the border with the fertile plain, behind the mountain and facing the plain, a huge city stood tall!

The huge city is the only thing Chen Feng has seen in his life.

With a radius of tens of thousands of miles, a city is equivalent to the size of another country.

And Chen Feng even saw that outside that city, there were thousands of military camps scattered all over the place.

Every barracks is very tough, and from time to time there are calls to kill.

Chen Feng nodded slightly: "This is the army of the God of War Palace."

It turns out that God of War Palace is different from other forces.

The other forces, the nine major forces, even if they have more disciples, are only a few thousand.

There are very few people with more than 10,000, mainly relying on masters in the martial arts.

The God of War Palace is different. The God of War Palace is not so much a sect, as it is an extremely large and powerful army!

Below the God of War Palace, there is an army of 1.2 billion!

Each general Jinwuwei commanded one hundred million troops.

In the eyes of ordinary warriors, this is difficult to understand.

Because a strong man in the Martial Emperor realm can easily destroy an army.

But God of War Palace is different.

The God of War Mansion has the art of combined strikes that have been handed down in ancient times.

An army of tens of thousands or even hundreds of thousands, ordering unity, gracefully one person.

The power gathered by a huge battle formation is comparable to a powerful Martial Emperor Realm powerhouse!

There are even some large formations in towns, which were done by gods and men in ancient times, enough to bring together hundreds of millions of people.

Its power is so terrifying that even the strongest of the nine major forces dare not stand up to it, and after seeing it, they have to go around!

This is the terrifying and terrifying place of God of War Palace, combining countless low-level warriors who were originally allowed to be killed by high-level warriors, but can surpass high-level warriors.

And on this huge plain, countless wealthy villages and towns, and a huge population of tens of billions, provide a stable source of troops for the formation of the army of God of War!

This city is built on the hillside, rising from the mountain.

From the bottom of the mountain to the mountainside, it is laid out layer by layer, which is very prominent, tall and layered.

Looking at the huge and incomparable city in the distance, Chen Feng relaxed slightly.

When he came to Sky Dragon City, he was getting closer and closer to his goal.

Chen Feng's height dropped lower and lower, and at this time he was already able to see the broad roads above the ground.

Each of these roads is 500 meters wide.

The whole body is made of hard blue boulders, straight, hard, and extremely flat.

And none of these roads have a bend, each of them is extremely straight, as if they were measured with a ruler.

Without exception, their ends are leading to the huge city in the distance: Sky Dragon City.

On both sides of the road, there are fertile farmland, mines, and forests.

There are countless small towns dotted throughout.

Chen Feng slowly nodded: "This War God Mansion is really good under the rule! It seems that these towns are very rich!"

At first glance, these towns do not know how many.

At this time it was noon, and there were already smoke rising from the towns.

Obviously, these countless people of Li people constitute the basis for the rule of the God of War Palace.

At this time, a dozen miles in front of Chen Feng, a town appeared in his eyes.

The town is about seven or eight miles away from the main road.

A stone road branches off from the main road and leads to the town.

The town is backed by a small mountain range about a kilometer away, and in front of it is a vast lake. The location is excellent and it seems that it is not small.

Chen Feng estimates that there are at least tens of thousands of people!

[Chapter 3389: Chance encounter](#)

A smile appeared at the corner of Chen Feng's mouth, his figure flashed, and then slowly fell to the ground, walking along the stone road towards the town.

Chen Feng wouldn't be so stupid that he flew directly to Sky Dragon City. In that case, the target would be too big, I'm afraid he will be recognized by someone with a heart soon.

He planned to go to the small town to buy a mount, like an ordinary warrior traveling the world, to go to Sky Dragon City.

This small town is quite large and so rich, there must be some monster mounts in it.

As he walked forward on the stone road, Chen Feng wondered what he should do next.

"I went to Sky Dragon City this time for two purposes. The main thing is of course to find the descendants of Real Thunder."

"The other one is looking for an opportunity to enter the Beidou Sword Sect and get them as the treasure of the town faction, the Yaoguang Bairixian Pu, which is very tricky."

"Although the Beidou Sword Sect is inferior to the nine major forces, it is also quite a powerful sect in the area under the jurisdiction of the entire God of War Palace."

"The strength of the strongest among them should have reached about the three-star Wudi, probably the second-rate mainland power that is weaker than the nine major powers."

"If I come to grab the door, first, I won't say whether I can grab it. Second, if they send a signal to attract the God of War Palace, then all my plans will stop."

"Furthermore..."

Chen Feng sighed softly, "If it is robbed, I am also sorry for my conscience."

"How to enter the Beidou Sword Sect is indeed a problem!"

Chen Feng frowned and fell into thought.

He walked slowly forward on that road, and at this moment, there was a burst of hoofs from behind!

From behind Chen Feng, several knights instigated the monster beast under the crotch and rushed.

Chen Feng turned his head and looked, only to see a man headed by these knights, who was over fifty years old, with a stern face and a mighty and rugged appearance.

There were a few people behind him, and Chen Feng didn't see them clearly.

The monster beasts they were riding under their hips were all purple.

And in that purple. But still with a little red mark like a peach blossom,

They look like big deer enlarged several times, about seven or eight meters in length and five meters in height.

There is a pair of thick black antlers on the head, branching out many branches, spread out one by one, the size of the same wall.

The deer's hooves are as big as a wine tank, and every time they step on the ground is shaking, they are quite powerful and extremely fast.

Chen Feng just took a look, but didn't pay much attention to it, just let it to the side of the road.

The hoof cracked.

Soon, they came to Chen Feng and passed by Chen Feng.

Several people looked at Chen Fengfeng curiously.

Suddenly, a roar sounded, and the reins on the monster beast were strangled.

In a blink of an eye, the four giant deer stopped in front of Chen Feng.

The rude old man, headed by him, looked at Chen Feng and shouted, "Boy, are you going to Baishi Town?"

His accent is a bit strange, not quite the same as that of Tianzicheng Zuojin.

Chen Fengfeng was stunned for a moment, only to realize that he was calling himself, and then he knew that the town in front of him was called Baishi Town.

He nodded and said, "That's right, I went to Baishi Town."

"What is your background?" The old man looked at Chen Feng and said with some scrutiny.

Chen Feng had already prepared some remarks, and said lightly: "I am not a local, but from the north."

After speaking, he pointed to the north side: "Travel around the world and have a long experience."

"Two days ago, when crossing the mountain, the mount was killed by the monster. Without the mount, I had to walk forward."

"Seeing that there is a town in front of it, which is quite large and rich, so I decided to go in and buy a horse."

"Hahaha, your kid is in the right place!" The old man laughed.

He said loudly, "I am in Baishi Town, with Baishi Mountain as my back. Behind Baishi Mountain is a fertile grassland."

"All the large and small cities and towns within thousands of miles around here add up to hundreds of thousands. Nowhere has such a fertile pasture."

"I stock all kinds of monsters in Baishi Town, but countless."

"The big clans in the town have even passed down the method of taming beasts! The tamed monster mounts are both powerful and obedient. Even many people in Sky Dragon City use mounts transported by our town!"

As he spoke, he laughed, wispy beard, very proud of it.

Chen Feng smiled and said, "That's the right place."

"Come on, boy, the old man will take you for a ride!" The rough old man patted the broad deer back.

Chen Feng was stunned for a moment, but he didn't expect this old man to be so enthusiastic.

Before he could speak, a young voice sounded behind the old man: "Father, no!"

"This kid is unclear, and letting him sit behind you rashly is too dangerous!"

Chen Feng raised his brows and looked back.

Only then did he pay attention to the few people behind the old man.

There are three people behind the old man, two men and one woman.

Among the two men, one of them was about 30 years old, with a rather calm complexion.

Looking at Chen Feng at this time, he was silent, but there was some scrutiny in his eyes.

The man behind him was twenty-six or seventeen years old, with a hint of suspicion between his brows.

He stared at Chen Feng and was very hostile to Chen Feng. He said what stopped his father just now.

Seeing Chen Feng looking to him, he immediately stared back fiercely.

Chen Feng couldn't help shaking his head. Although he was not much different from this person, he had experienced thousands of times more than him, and his mentality was already mature and he didn't know how much.

At this time, the young man looked like a child fooling around in his eyes, and Chen Feng didn't care at all.

When his eyes fell on the last person, his eyes lit up.

This is actually a woman with a very tall stature, I'm afraid it's more than 1.8 meters, almost like Chen Feng!

Wearing a tight-fitting leather jacket, the lining waist is extremely thin, the legs are extremely long, and the figure is extremely hot.

She dangled her long red hair, and followed the back of the deer, like a flame burning!

She carried a big bow and a big arrow on her back, and a long-handled knife in her hand.

The whole person is like a beautiful female leopard, full of power.

She was looking at Chen Feng curiously.

After meeting Chen Feng's gaze, she immediately turned a little red, and then turned her head casually, her expression turned cold and she never looked like Chen Feng again.

Chen Feng thought to himself: "This little girl is interesting."

As soon as the young man's voice fell, the old man turned his head and shouted, "Don't be rude!"

"This little brother! Although I can't see the strength, I have a strong and upright aura, absolutely no evil spirit, definitely not a bad person."

[Chapter 3390: Baishi Town](#)

The young man wanted to say something more, he was already pulled by the big brother next to him, and he didn't dare to speak anymore.

Just still muttering in his mouth, obviously still a bit unconvinced!

Chen Feng smiled slightly, and didn't take it to heart. This person really has a childish temper.

The older young man said, "I don't think this young man is a bad person."

What they said was correct, Chen Feng was upright and upright, and that temperament was naturally revealed. He was very energetic and his whole body was righteous.

Maybe you can't tell the depth of his strength, but Chen Feng's feeling is absolutely extraordinary!

Chen Feng smiled and said, "The two of you praise me, but I dare not be it."

He looked at the old man and said, "Lao Zhang, you know so much about the previous Baishi Town, but are you here?"

The old man laughed and stroked his beard and said, "I am more than a native of this place? Our family has been in this town of Baishi for thirty-seven generations."

"There is always a total of six to seven thousand years!"

Chen Feng raised his brows: "That's it."

The old man patted behind him: "Boy, are you up there?"

Chen Feng smiled and said, "How dare the kid not know how to promote?"

After all, he walked to the back of the deer and leaped up.

Chen Feng didn't show any strength, he just jumped up honestly, and this scene also made the old man and others frown.

A hint of approval flashed in the old man's eyes.

After Chen Feng sat down, the old man laughed and said, "Go!"

After that, when the antlers were slapped, the huge giant deer neighed.

Then, the hoofs of the size of the wine tank flew up, and the figure shot forward, followed by the three giant deer closely.

The old man laughed and said, "Is it safe to do?"

Chen Feng sat on it, as steady as Mount Tai: "Old man, don't look down on me."

The old man laughed, he is a straightforward temperament, and Chen Feng's character is quite temperamental towards him.

The five people moved forward, and Chen Feng soon knew their names.

The old man was named Shi Junbi, and the three behind him were his children.

The older and more stable one was named Shi Yangqiu, the younger and more detached name was Shi Hongbo, and the woman was named Shi Yebai.

Chen Feng also registered his own number.

Of course, he did not report the two words Chen Feng, but still used his previous pseudonym: Feng Chen.

Shijia is a big family in Baishi Town.

From their mouths, Chen Feng also learned that the Shi family was the first two family in Baishi Town.

In Baishi Town, the two big families are the Bai Family and the Shi Family.

In addition, there is a Ding family, and the strength is not bad.

These three big families have been in Baishi Town for thousands of years, and they stand apart, no one can do anything!

The Shi family is best at raising various monsters.

In the pasture behind the town, three of them belonged to their home.

The monster beasts raised by Shijia are very famous in the surrounding area of thousands of miles, and often foreign merchants come to buy them.

The Shi family can be called a local wealthy family, but they are not doing evil.

On the contrary, the old man Shi Junbi was a well-known good man in town, and he built this road out of his own pocket.

Whenever floods and droughts are encountered in the town, Shi's family is also the first disaster relief!

Therefore, above the town, the Shi family is quite prestigious.

"Where are the Ding family and the Bai family?" Chen Feng asked.

Shi Junbi smiled slightly, only sighed, but did not speak.

Chen Feng knew it well, I was afraid that the Ding family and the Bai family were not so good.

It took about half an hour to reach the outskirts of the town.

After arriving here, Chen Feng saw that the town was bigger than what he had seen before, and it was like a small city.

There are many pavilions, many shops, and the streets are very wide. There are groups of monsters of various colors everywhere, driven by people, from inside and outside the town.

There are also foreign merchants who come and go, very prosperous.

At this time, Shi Hongbo was following Chen Feng, talking very fast there.

At this moment, he looked at Chen Feng without the slightest guard and hostility in his eyes.

It turned out that Chen Feng didn't do anything. He just told him about his experiences outside.

Although Shi Hongbo can be considered as a family member, the farthest in his life is to go to an area about a thousand miles from the town.

Where is as knowledgeable as Chen Feng?

Chen Feng casually told him what he had seen on the mainland, and he was fascinated by it, and he admired Chen Feng.

The snowy mountains, the southern wilderness, the violent waves of the west sea, the ice and snow in the north, the prosperity of the city.

Chen Feng said casually, that is to make Shi Hongbo fascinated, and even begged Chen Feng to go again, you must bring yourself!

Chen Feng laughed, noncommittal, just looked at Shi Junbi.

Shi Junbi stroked his beard, his eyes swept across their faces, and his eyes were full of smiles.

They had no doubts about Chen Feng.

Chen Feng claimed to be from an area outside of the God of War Palace, and had traveled for more than ten years. This experience corresponds to what he said.

And if Chen Feng didn't have such insight, I'm afraid Shi Junbi and others would be suspicious!

At this time, Chen Feng probably knew their temperament.

Shi Junbi is a very bold and straightforward person, but he is a bit careless and rather careless.

Shi Yangqiu didn't talk much, and his expression was very gentle. In fact, he was a very careful person, most suitable for family affairs.

The fact is exactly the same. Now the specific affairs of the Shi family are basically left to Shi Yangqiu.

Shi Hongbo, on the other hand, was quite naive, and even some children had tempers and emotions written on their faces.

As for Shi Yebai, the girl hadn't said a word, her expression was rather cold.

However, when Chen Feng was talking with Shi Hongbo, she shook her ears and listened attentively, but she betrayed her mind.

This little girl is also very curious about things outside!

At this time, everyone slowed down when they arrived in the town.

Although the town of Baishi is large, there are only two main roads, one going north-south and the other going east-west, dividing the town into four blocks. *Novelusb.com*

The area where this crossroad is located is very prosperous. Shi Junbi pointed to it and said loudly to Chen Feng:

"Little brother, there, that is, our biggest monster market in Baishi Town."

"Don't you want to buy monsters? It's perfect to go there."

Chen Feng smiled and nodded.

At this moment, everyone was walking towards the crossroads, and the many people in Baishi Town that they saw along the way, and Shi Junbi and others, they all greeted very warmly.
