

## Peerless 351

### [Chapter 351: kill! kill! kill!](#)

It made Swallow return a feeling that he couldn't resist!

Yan Zigui let out a scream, and the Iron Claw Eagle Martial Spirit suddenly appeared behind him. He tried his best to struggle to death.

The Star Pointer used frantically, and under the blessing of the Iron Claw Eagle Martial Spirit, it increased its power by 30%! The star point is sent out, and he instantly pops out more than a dozen finger winds. This is already his extraordinary performance between life and death. In the past, he played this trick, and the best time he could not reach the two points. one!

At this moment, Yan Zigui felt that he had a deeper understanding of the point star finger!

This is the most powerful trick he has used since he practiced pointing the star. The six-finger wind hit Chen Feng's claws, and the six-finger wind hit Chen Feng's body. Not only did he want to stop Chen Feng, he wanted to borrow it. The machine hit Chen Feng!

Chen Feng's eyes showed a strong ridicule, and he did not evade at all, letting those finger winds hit him.

Can easily penetrate the first point of the Golden Body Secret Art, hit Chen Feng, and send out countless sparks from the sapphire dragon scales! However, it did not cause any damage!

In other words, the point star can't break the defense of the dragon scale at all!

Yanzigui's face was full of disbelief!

He uttered a stern cry: "How is it possible?"

The next moment, the shrill cry stopped abruptly!

Because Chen Feng's two claws had severely shattered his head, Yanzigui was killed directly!

The iron-clawed eagle behind the swallow returned with a stern cry, and there were spots of light on its body, which were about to collapse and transform into light particles.

When the master dies, the master's martial soul, unless it is extremely rare, will generally dissipate directly. But at this moment, an extremely large suction force suddenly appeared in Chen Feng's dantian, and the Ironclaw Eagle's martial spirit had not had time to dissipate, and was directly sucked into Chen Feng's body.

Seeing this scene, Huangfubai was even more shocked. What has become of Chen Feng after his transformation? Not only is it so powerful, but even Wuhun can absorb it? It is incredible!

At this time, Chen Feng was already looking at him with blood red eyes.

Suddenly, a blue shadow passed by and killed him!

"Fast speed!" Huangfubai was startled. Looking at Chen Feng just now, he felt that his speed was extremely fast. At this time, facing him in person, it was almost unparalleled.

When he almost didn't have a reaction, he slapped both palms and bumped into Chen Feng's claws. He suddenly felt an irresistible surge of force on his chest. He couldn't help but snorted with bloodshot eyes. Ooze.

Has suffered a little bit of injury.

The pain in his hands was even more severe. He looked down and saw that several shallow blood holes had appeared on his hands, which were obviously scratched by dragon claws just now.

In Chen Feng's throat, he let out a beast-like growl, and rushed up again, and the two sides fought into a ball.

The more he fought, the more fearful Huangfu Bai became.

He secretly asked, what kind of monster did Chen Feng transform into? What the \*\*\*\* is this? Is it the bloodline factor or the martial soul?

"After his transformation, his strength reached the fifth floor of the Divine Gate Realm, and he was almost on par with me! That's fine, and the most frightening thing is that after he transformed, his speed increased a lot, coming and going like electricity. People can't see clearly at all."

"Furthermore, the defensive power is also extremely tyrannical, and my attack on him has little effect on it. This is too tyrannical!"

At this time, Huangfubai was completely at a disadvantage, and he retreated from the battle, even allowing Chen Feng to fight with nothing but parry and no fight back.

However, he was not desperate. On the contrary, there was a hot color in his eyes, looking at Chen Feng like a baby, with unstoppable greed.

"This ability to transform, whether it comes from bloodline or martial soul, is definitely extremely precious and very advanced. If I can capture Chen Feng, ask him this secret, and turn it into my own use, I will definitely let it My strength has improved to the next level!"

"I don't believe it anymore. Can this transformation continue? It will definitely end after a period of time. I will not attack him directly, just drag it until the end of his transformation."

Thinking of this, Huangfubai withdrew and backed away, never going to fight Chen Feng again.

For a while, Chen Feng was also helpless. After all, Huangfubai's strength lies here. How can he be underestimated?

After Chen Feng's Dragon Blood transforms, there is a disadvantage, that is, he is unconscious and unable to calmly respond. Hua Ruyan was forced to jump off the cliff by Huangfu Bai and Yanzi. Chen Feng hated them both. At this time, there was only One thought, that is to kill!

Kill them and smash them into pieces.

Huangfubai retreated all the way, and Chen Feng kept chasing him down. In a blink of an eye, the two had left the cliff and went deep into the Kapok Mountains for dozens of miles.

After a quarter of an hour, Chen Feng suddenly felt the blood-red eyes in front of him, no other color, and the feeling of being trapped in a sea of blood disappeared instantly.

He immediately recovered his clarity, and the dragon scales, dragon horns, and dragon claws on his body also disappeared.

Dragon Blood Transformation is over!

Huangfubai was backing away. He suddenly saw this scene and immediately laughed triumphantly: "Chen Feng, is your transformation over? I see how you are resisting me at this time!"

As he said, a palm blasted towards Chen Feng.

#### [Chapter 352: Then die together](#)

Chen Feng was directly blown out for more than ten meters, severely smashed a big tree, and vomited blood.

He was very sane at this time, realizing that he was definitely not Huangfubai's opponent, thinking hard about countermeasures.

At this moment, there were a few stern beast roars in the distance. It turned out that the movement of the two of them was so loud that they had already disturbed these monster beasts in the Kapok Mountains.

Chen Feng suddenly had an idea, and whispered: "Zi Yue, can you feel where the monster beasts are the most powerful?"

Ziyue whispered: "Yes, northwest."

Chen Feng nodded slightly, and immediately swept to the northwest.

His purpose is very clear, is to take Huangfubai to the places where the monsters live.

He is not Huangfu Ran's opponent, but those monsters may not be.

Chen Feng's perception is not much stronger than Huangfubai's, but Ziyue's perception is much stronger than the two of them.

After all, the spirit body has this advantage, even if it is more than ten miles away, she can clearly feel where there are more monsters and where the monsters are more powerful.

She guided Chen Feng and ran towards the settlement of powerful monsters.

Chen Feng frantically urged his ethereal steps. This time, the technique he used was not Hunyuan Yiqigong, but the Dragon Elephant Fighting Heaven Jue. Under the urging of the Dragon Elephant Fighting Heaven Jue, his whole body was filled with faint blood. Light.

Anyway, the Dragon Blood Transformation had been exposed to Huangfu Bai, and a Dragon Elephant Fighting Heaven Secret Art was nothing.

Under the urging of the Dragon Elephant Zhan Tian Jue, his misty step speed increased by 30% again, but even so, the speed was just on the same level as Huangfu Baijiang, and he was even kept close by Huangfu Bai.

Chen Feng gritted his teeth, frantically spurring the dragon elephant to fight the sky, and his body was steaming, his blood was constantly burning, the red light on the body was no longer a phantom, but became a substance, that is Chen Feng's transpiration The blood!

Chen Feng just tried it, but he didn't expect that the Dragon Elephant Fighting Heaven Art could be used in this way.

Burning qi and blood is almost equivalent to burning life. Fortunately, Chen Feng cultivated the body-building exercises and his qi and blood were huge, otherwise it would not be able to support such a violent burning.

Such a violent stimulus of vitality and blood, burning of vitality and blood, is tantamount to suicide, and Chen Feng can only persist for a while, even this moment, it will cause great damage to his body.

But the effect is also obvious. Chen Feng's speed has increased by 30% again, almost like flying, reaching the limit.

Behind him, Huangfubai felt awe-inspiring: "How many secrets does this kid hide?"

"His trash master died before he was very old. The secrets of the exercises on his body were definitely not given to him by his master. In other words, he didn't know how many adventures he had afterwards!"

With jealousy in his heart, a voice yelled angrily: "Why? Why can this trash get so many adventures, but I am a talented person, but I can't get it?"

Thinking of this, the color of greed in his eyes became more intense, almost condensed into substance, and he sneered in his heart: "When I catch you, I will ask all your secrets."

Thinking of this, the eagerness he couldn't say in his heart seemed to have been leaked by Chen Feng.

Soon, Chen Feng had already flew dozens of miles away. At this time, Ziyue suddenly whispered: "To the northeast, I can feel an extremely powerful monster there."

"Okay!" Chen Feng nodded lightly, and then swept to the northeast.

He didn't care if the monster beast could deal with it himself, as long as the monster beast could deal with Huangfubai.

Anyway, without that monster beast, he would definitely die in Huangfu Bai's hands.

Huangfubai didn't know that Chen Feng and Ziyue existed. He thought that Chen Feng was just escaping madly. He let out a sneer behind him: "Chen Feng, don't run! No matter how you run, you can't escape. Yes, although you are fast now, I can barely catch up with you! I see what else will happen after your blood has been burned clean?"

Chen Feng ignored him at all, just fleeing forward desperately.

Passing around a mountain beam, an absolute valley appeared in front of it.

Around Juegu, there are thousands of walls standing on the wall. Chen Feng can see at a glance that there are many naked white skeletons on the ground of this valley, as if heads of huge monsters have been gnawed away!

Seeing this scene, Chen Feng suddenly felt awe-inspiring, and couldn't help but stop.

Huangfubai took advantage of this opportunity to catch up immediately. He was condescending, looking down at Chen Feng, and asked in a cold voice, "Chen Feng, where do you want to escape?"

But at this moment, an extremely loud monster roar suddenly rang, with unspeakable tyranny and violence in the roar. Just listening to this roar makes people feel terrified!

The vibration of the wings sounded, and a giant python suddenly appeared in the sight of the two.

This giant python is more than five feet long, with blood-red scales all over its body, gleaming with cold light, and a pair of eyes, cold and venomous, staring at Chen Feng and Huangfubai.

What surprised the two of them most was that this giant python was flying in the air! On both sides of it, there was a wing that was more than three feet long. It vibrated violently in the air and kept it hovering in the air.

Huangfubai's face showed great fear, and there was a gurgling in his throat, his voice was a little trembling: "It turned out to be the \*\*\*\* flying python!"

#### [Chapter 353: Behemoth fight](#)

The blood evil flying python, the demon beast of the fifth floor of the gods, the strength is comparable to the master of the sixth floor of the gods!

The blood evil flying python stared at Chen Feng and Huangfu Bai, with a humane joking expression in his eyes. Obviously, in its eyes, these two low-strength, unworthy little bugs were sent to the door to relieve boredom.

Chen Feng couldn't help but feel desperate. He smiled bitterly, "Zi Yue, this monster beast is really strong enough, but it's too strong..."

The master equivalent to the sixth floor of the Divine Sect Realm is far from what he can resist now. After the confrontation, there is only one word: "Death!"

But fortunately, Chen Feng was fortunate that after the Blood Fiend Flying Python appeared, his eyes fell on Huangfu Bai for the first time.

Obviously, in his opinion, Huangfubai is a more worthy opponent, while Chen Feng is too weak to be worth mentioning.

The blood evil flying python neighed, and in the air, only a blood shadow flashed, and then he killed Huangfu Bai. Its right wing was as sharp as a knife, cutting towards Huangfu Bai at a very fast speed. go with!

Its speed is really too fast, even faster than Chen Feng's Dragon Blood transformation, so that Huangfu Bai has no time to react, can't resist, and can only retreat hastily. But even so, a huge wound was cut on his body, with bones and blood dripping.

With only one move, only one move, the tyrannical Huangfubai was already seriously injured!

When Chen Feng saw it, he was even more horrified and inexplicably surprised.

The Blood Fiend Flying Python hovered in the air, looking at Huangfu Bai with a playful look, like a cat having fun before killing a mouse. It swept down again, this time using the left wing. Huangfubai knew what it was going to do when he saw the blood shadow flashing. But even if he knew it, there was no time to dodge, and a huge wound was cut on his body again.

If it weren't for Huangfubai, the speed would be very fast, I'm afraid it would have been cut into four pieces at this time.

Huangfu Bai didn't think it was a problem. If he stayed here, not only would he not be able to kill Chen Feng, he would be killed by the Blood Fiend Flying Python instead.

He was also a very decisive person. He looked back at Chen Feng fiercely, then immediately turned around and fled out of the valley.

A smile appeared at the corner of Chen Feng's mouth, and he said in a cold voice, "Huangfubai, do you have today?"

He didn't dare to stay here. If the Blood Fiend Serpent killed Huangfu Bo, he would definitely come back and kill him. He had to run away now. He was holding the Purple Moon Sword and fled in the opposite direction.

Soon, Chen Feng ran out more than fifty miles.

However, he suddenly felt an extremely powerful, tyrannical and tyrannical aura, swiftly approaching from behind, and there was a roar of anger from time to time.

Chen Feng's expression changed, and he asked Ziyue, "Is that \*\*\*\* beast chased by?"

Zi Yueling stood on Chen Feng's shoulders and said anxiously, "Yes, it's chasing him."

"Unexpectedly, Huangfubai was so vulnerable and killed by this beast so quickly." Chen Feng said angrily.

The roar was getting closer and louder. Chen Feng looked back, and he could see a red dot from afar, and he was approaching here.

Chen Feng suddenly moved in his heart and asked Ziyue: "Ziyue, can you feel any particularly powerful monsters around here?"

Ziyue's face was anxious, her cute little nose wrinkled, and she felt it carefully, then pointed to the direction of Zhengbei and said, "I can feel a very powerful monster there."

Chen Feng said immediately, "Flee there?"

"But..." Ziyue hesitated: "That monster beast is very powerful, and it doesn't seem to be inferior to the \*\*\*\* flying python, are you sure where you want to escape?"

"What I want is to be no weaker than the Blood Fiend Flying Python!"

After hearing Chen Feng's words, Ziyue thoughtfully, she said, and Chen Feng rushed to the north.

Soon, Chen Feng came to a stone forest. This stone forest stood on a grassland in the mountains. There were huge stone pillars hundreds of meters high and pavilions thick everywhere.

Just when Chen Feng was about to enter the stone forest, suddenly, a majestic roar came from the stone forest.

Then, Chen Feng felt that the ground seemed to tremble heavily, and a huge yellow shadow fell heavily on the ground. The entire ground seemed to be crushed, and a large hole appeared on the ground.

When the smoke cleared, Chen Feng saw the original yellow shadow, which turned out to be a mammoth the size of a hill, covered with yellow long hairs, two fangs more than ten meters long, extremely sharp and exuding. Extremely honest and powerful momentum.

Chen Feng took a deep breath. This mammoth giant was also a monster in the fifth floor of the Divine Sect Realm.

There was a tyrannical monster blocking him in front, and a tyrannical monster beast was chasing after him. Chen Feng seemed to be in desperation, but at this moment, a smug smile appeared on the corner of Chen Feng's mouth.

Because when the mammoth saw the \*\*\*\* flying python in the sky, the two huge auras collided in an instant, and the two monsters immediately confronted each other!

None of them paid attention to Chen Feng.

Obviously, in their eyes, Chen Feng is just an ant, not worthy of attention at all.

And this is exactly what Chen Feng wants.

Chen Feng condensed all his breath, tiptoed, like a real ant, slipped to the side at an extremely slow speed, allowing himself to escape from the gap between the two monsters.

#### [Chapter 354: The body of black iron is great!](#)

Suddenly, the blood evil flying python let out an extremely sharp neigh, and killed the mammoth.

A red shadow flashed past, and it came to the front of the mammoth in an instant, and the two monsters slammed together.

The right wing of the blood evil flying python slashed across the mammoth, and a deep blood mark was drawn. The blood spurted out, and it instantly became red. And the mammoth also shook its huge long nose, and slapped the Blood Fiend Flying Python hard.

There was a place on the \*\*\*\* snake's body with broken scales and blood oozing faintly.

Obviously, after this collision, neither of the two monsters caught anything.

After seeing the blood, the two monster beasts immediately blushed.

The Blood Fiend Flying Python and the Mammoth Colossus, these two monster beasts are one of the two little overlords of the Kapok Mountain Range, each of them dominates the territory of a hundred miles, and their strength is comparable, and there is no less friction in normal times. They have long been over. Enmity.

At this time, the enemy was extremely jealous when they met, and immediately stood in a group.

Two such tyrannical monster beasts fought into a ball, with blood flying and scales scattered everywhere, their strength was extremely tyrannical, so this battle was also very powerful, and the sound could be heard more than ten miles apart.

I don't know how many big pits were smashed out on the ground, and some smaller stone pillars were even directly destroyed.

Chen Feng couldn't help being shocked when he saw it, and taking advantage of this opportunity, he also quickly escaped.

Suddenly, Chen Feng saw that in the middle of one of the largest stone pillars, about two hundred meters above the ground, there was a dark cave, very huge.

Chen Feng looked at it, and suddenly his heart moved, and then an extremely hot desire rose from his heart, unable to control it anymore.

This cave is just the cave where the mammoth jumped out.

Chen Feng knew that, generally speaking, these monsters had the habit of guarding some spirit treasures. Mammoth colossus is such a tyrannical monster, maybe you can find a lot of very high-quality spirit treasures in its cave.

Of course, there is also a high possibility that the mammoth will be blocked in the hole and killed directly.

But beg for wealth and insurance!

At this moment, Chen Feng gritted his teeth and made a decision.

He quickly swept towards the cave, and Chen Feng knew in his heart that the battle between the mammoth and the \*\*\*\* snake must be very fierce. Maybe the mammoth will be seriously injured. Then he may not kill himself, even possibly himself. It can be cheaper.

The mammoth and the \*\*\*\* snake were fighting fiercely, and no one noticed the little bug Chen Feng and sneaked in.

The cave is very wide and has a strong smell of fish, which is also a common feature of monster nests.

The cave slid down, not knowing how deep it was. Chen Feng ran to the depths of the cave quickly while observing the situation inside his body.

After the dragon blood transformation, he has been running away, and finally has time to feel it.

The qi of the Dragon Elephant Zhan Tian Jue was circulating in his body, and Chen Feng noticed it, and then a smile appeared at the corner of his mouth.

"My body's strength is much stronger than before. This time the dragon blood transformation has strengthened my physique again, and it has some body-building effects."

Chen Feng slowly said: "It turns out that this is the case, I understand! It turns out that every time a dragon blood transforms, a certain amount of dragon blood is consumed, and when my strength is stronger, the dragon blood transforms consumes The more dragon blood! This time the dragon blood transforms, the dragon blood consumed is at least ten times more than the last time."

The thought of consuming so much dragon blood made him very painful.

But thinking about it, this is also a normal thing, it is impossible not to pay the price if the dragon blood has turned so tyrannical.

Of course, although the consumption is large, the power is also much larger. This time the dragon blood transformation is more than ten times more powerful than the first time?

"In fact, there is nothing wrong with this. Although the dragon blood is consumed, it is not wasted, but integrated into my body. Every time the dragon blood is transformed, it is actually equivalent to a temper on my body. So, I changed my body again."

"After the dragon blood transformation this time, I obviously feel that my golden body art has greatly improved."

After Chen Feng carefully observed it again, there was a touch of ecstasy on his face.

It turned out that the second stage of his Golden Body Art was already accomplished.

"Dragon Blood Transformation is really tyrannical. He didn't perform any cultivation, nor did he put himself in the cauldron, transforming his body in the liquid medicine, but after being forged by the dragon blood, he had already let the black iron The body is great!"

But think about it, how overbearing dragon blood is, this is also very normal.

Chen Feng turned the golden body to determine, and his body surface suddenly glowed with silver.

This layer of silver light was much thicker than before, almost condensed into substance, as if he was wearing a layer of silver armor on the surface of his body. This represents that Chen Feng's body of black iron has become complete.

The first and second stages of the Golden Body Jue are forged black iron bodies, and from the third stage onwards, they are forged bronze bodies.

Chen Feng suppressed his joy and said to himself: "If I remember well, when Yan Zigui was killed, his iron claw eagle spirit seemed to be absorbed into his body, but he didn't know if it was Who absorbed it, was it by Gu Ding, or by that drop of dragon blood?"

But now is not the time to explore this.

Chen Feng quickly swept into the cave.

### [Chapter 355: Stalactite!](#)

But soon, Chen Feng was disappointed to find that he seemed to have come to the end of the cave.

At the end of the cave is an extremely wide hall with a radius of more than a thousand meters. Inside, it smells abnormally. The bones and corpses of various beasts are scattered everywhere. But apart from these things, there is no spiritual treasure.

Chen Feng quickly went around here, but found nothing.

Chen Feng was a little disappointed, but he was also very surprised: "It shouldn't be, how can there be no Lingbao where such a powerful monster is located?"

At this moment, Ziyue suddenly pointed to a place and said, "Chen Feng, I feel there is a very light, but very elegant fragrance in it."

"Really?" Chen Feng immediately got a shock and walked in the direction Ziyue said.

Sure enough, after he came to the front of the mountain wall, he immediately discovered that there was a very inconspicuous crack on the mountain wall, which was about half a person wide, and would be able to accommodate people to enter sideways.

This crack is too inconspicuous. Chen Feng just passed it directly, but he didn't expect it to be very strange.

"Is there something behind this crack?" Chen Feng took a deep breath. Amid the stench, it seemed that he could smell an extremely elegant fragrance, and this fragrance came from the crack.

Chen Feng's spirit was lifted up and he immediately got in on his side.

The crack was dozens of meters long and very narrow. Chen Feng leaned on his side and moved inward little by little. There were many sharp protrusions in the crack, but Chen Feng directly hit him regardless. He is now the second stage of the Golden Body Art, and the body of the black iron is also completed, and his physical strength is very high. When these sharp rocks hit him, they will be crushed directly.

Finally, Chen Feng came to the end of the crack.

At this time, the extremely elegant fragrance in the air became very rich.

When Chen Feng came out of the crack, he was shocked to see this scene in front of him.

There is a huge space in the belly of the mountain. It is smaller than the cave of the mammoth, but it has a radius of more than 200 meters.

The cave is obviously formed naturally, and the rocks are rugged. There is a water pool in the center of the cave. The water pool is about four or five meters in circumference. It is filled with liquids. These liquids are thick like blood, and the color is like blood. It looks like a solid substance!

However, this pool of blood is not full of blood and rust like ordinary blood, but has an extremely elegant fragrance, very noble, and the color is exquisite and clear, just like a ruby.

Normal blood is always associated with evil killings, but at this time the pool of blood in front of Chen Feng can only be described by the word noble.

Right above the pool, there is an extremely huge stalactite hanging upside down, from the top of the cave, to a place three meters above the pool.

This huge stalactite is as white as jade, but at this time, on the \*\*\*\* tip of the stalactite, a blood bead the size of a human head has condensed. This blood bead looks like a huge block. Like ruby, it is very textured, unlike liquid but solid.

The huge ruby-like blood bead hovered on the stalactite's \*\*\*\* for a while, and then gently fell into the pool with a snapping sound. When it fell into the pool, the water in the pool suddenly rippled with a strong wave. The fragrance of the fragrance escaped.

What Chen Feng smelled just now was the scent here.

And on the mountain wall around the water pool, many various medicinal materials have grown layer by layer. Chen Feng saw at a glance, there are Ganoderma lucidum, ginseng, and Polygonum multiflorum, layered on the mountain wall!

At first glance, there are dozens of plants, to mention a few. One thing these medicinal materials have in common is that they are very huge, and they have grown for hundreds of thousands of years!

The other thing in common is that they are all crystal clear blood red.

At this time, only one thought in Chen Feng's mind was reverberating: "Getting rich, getting rich, this is really going to happen!"

Although he didn't know what these things were, he knew at a glance that these medicinal materials were very rare, and each year was very long, and these things alone did not know how precious they were.

Ziyue, who had been standing on Chen Feng's shoulders, suddenly exclaimed: "It turned out to be a stalactite of ten thousand years, and there are so many. How many years will it take to accumulate? Thousands of years?"

On Ziyue's small face, there was an expression of disbelief. This was the first time Chen Feng had seen her look like this since he knew her.

It's incredible.

### [Chapter 356: Giant Elephant Nest](#)

You know, Ziyue was born into a big clan, well-informed, and there are few things that will surprise him. In Ziyue's own words: "You Qin country, this poor country, I haven't seen anything? What's so good? What a fuss? Well, you bunch of buns, there really is nothing to say to you..."

Of course, when Ziyue said such things, her cute little nose wrinkled, her little face looked arrogant, not annoying at all, but rather cute.

But now Ziyue is so shocked, indicating that this stalactite must have a lot of origin.

Chen Feng asked: "Ziyue, I have only heard of the Wannian Stone Stalactite, but I have never heard of the Wannian Blood Stalactite. What is this!"

Ziyue explained: "To put it bluntly, this stalactite is a branch of the stalactite. Generally speaking, when the stalactite grows older, it will produce droplets, which are milky white. Yes, it is the essence of the stone and has a very magical effect."

"But this is not the case with Wannian's blood stalactite. Wannian's blood stalactite is made from the blood of monsters or human beings and blended into the stalactite. The droplets produced are blood red. At the same time, all the fishy taints and all the dirty impurities in the blood are filtered out during the process of fusion with the stalactite, so it is very pure."

"This stalactite is rarer and more effective than stalactite. I can't tell you what it is. I didn't read it very carefully when I was reading." As he said, he stuck out his tongue embarrassedly.

Chen Feng said, "Ziyue, you mean, if you want to produce ten thousand year blood stalactite, one needs ten thousand year stone stalactite, and the other is a huge amount of monster blood, right?"

Ziyue nodded and said, "That's right."

She glanced at the water pool, and the huge inverted stalactite, and said: "The stalactite in this pool is at least tens of thousands of catties, and it can support so many, such a huge blood clock. Ru, there is probably an ancient tomb with great power near here."

"Essence and blood will not disperse after the death of the ancient power, and it may be incorporated into this blood stalactite. Another greater possibility is that many monsters have died here, and they are all quite powerful monsters!"

Hearing this, Chen Feng suddenly flashed in his mind and said aloud: "I thought about it. I thought about what happened."

He looked at Ziyue and said excitedly: "Lingyue, do you still remember that monsters like giant elephants, this series of monsters are different from other monsters. As long as they are monsters like giant elephants, Whether he is strong or weak, he has always had the habit of creating a tomb for himself."

"They will start to build a tomb when they feel that their birthday is approaching before they are alive, and then when they are about to die, they will step into the tomb. And monsters like giant elephants have a habit of burying with their ancestors. Together." **noVeLusB.coM**

"Therefore, in the Dragon Vessel Continent, some people can often find a giant elephant cemetery, where hundreds of giant elephants are buried, and they get a lot of ivory and ivory bones and become rich overnight."

Chen Feng pointed to the top of the cave and said, "While the mammoth lives here, will the ancestors of this mammoth be here? Then their graves are on the top of the cave? Only in this way can it be explained by blending into the stalactite."

Ziyue also nodded: "Say, it makes sense, it should be like this."

Chen Feng suddenly asked, "Ziyue, can the stalactite of ten thousand years of blood be used as the blood of a monster?"

Ziyue chuckled and said, "I knew you were definitely making this idea. The technique you cultivate should require a huge amount of blood from the beasts, right? This ten thousand year blood stalactite can not only be a beast. Use the essence and blood, and the effect will be better, so you can use it with confidence."

Upon hearing this, Chen Feng immediately became excited.

Time is urgent. There are monsters fighting outside. The mammoth will come back without knowing when, and there is not much time left for Chen Feng.

He immediately took off his clothes, then jumped and jumped into this pool of blood. The person was in the air and said to Ziyue: "Ziyue, help me protect the law. If anything happens, wake me up as soon as possible."

Before Ziyue had time to speak, she saw Chen Feng had taken off his clothes.

She immediately screamed and covered her eyes: "Ah! You stinky shameless, you are a girl, you can take off your clothes before they get permission!"

However, even though she was covering her face, her fingers were slightly opened. Between the fingers, the small eyeballs rolled around, seeming to be peeking at Chen Feng.

#### [Chapter 357: Crazy breakthrough!](#)

Chen Feng caught a glimpse of her little movements, only thought that Ziyue was very cute, and laughed.

But suddenly, at this moment, a flower-like figure appeared in his mind, smiling like a flower, charming and cute, just like the purple moon just now.

Thinking of this, Chen Feng's heart suddenly sank. Even the excitement and excitement in his emotions disappeared, replaced by monstrous hatred.

A stern voice echoed in his heart: "Swallow Return, Huangfu Bai, you two have forced Hua Ruyan to death. Do you think it is over for paying your life? I will make you pay a heavier price!"

"This hate, until you die!"

Chen Feng jumped into the pool of blood, which was not very deep. Chen Feng sat cross-legged in it, the surface of the pool only reaching his neck.

Chen Feng condensed his breath, calmed down, temporarily forgot all the hatred, and buried all the excitement in the bottom of his heart. He was empty and empty, forcing himself into a mysterious state.

Chen Feng closed his eyes and never thought about anything again.

After calming down, Chen Feng immediately felt that there were countless majestic and pure auras floating around his body.

When Chen Feng was running Hunyuan Yi Qigong, he suddenly found that these spiritual qis became violent instantly, and he was getting away from him and repelling him. He seemed to be extremely disgusted with the Hunyuan Yi Qigong he was running, and the two were simply incompatible.

Chen Feng understood clearly, smiled slightly, and then ran the Dragon Elephant Fighting Heaven Jue.

After he ran the Dragon Elephant Fighting Heaven Secret Art, the performance of the majestic auras around him was completely different from just now. They all became cheering and cheering, and it seemed that every humble aura was shouting bursts of joy.

Then they rushed towards Chen Feng almost in a scrambled posture.

In Chen Feng's consciousness, he felt that he was not in a small pool, but in a vast ocean, surrounded by blood-red water, and even the sky above his head was blood-red.

This world is vast, and there is only one color stuffed inside-blood red.

The blood-red light spread everywhere, but Chen Feng did not feel any depression in it, but the whole person was very comfortable, as if lying in warm water, the whole body was warm.

Those blood-red light and blood-red spiritual energy poured into his body, turned into \*\*\*\* qi, and entered the first meridian of his Dragon Elephant Battle Tian Jue, the Zu Jueyin liver meridian, and then followed the Zu Jueyin liver. Breakthrough all the way.

Prior to this, Chen Feng's Dragon Elephant Fighting Heaven Jue Jue's first building had opened fourteen holes, and all of them had condensed blood red cyclones. And at this time, in the blood-red wave of blood-red qi that was raging like a big river, his fifteenth acupuncture point was burst open.

Nine blood-red cyclones condense instantly.

Then the sixteenth acupoint was easily opened again, and the whole process took less than a cup of tea. Next is the seventeenth acupoint, the eighteenth acupoint...

These blood-red qi is not only extremely large, but also extremely high-quality and extremely pure. It can be used by Chen Feng almost without refining, and he can absorb it very quickly.

There are no children in the mountains, and the years do not know how long Chen Feng has passed. He is just immersed in the pleasure of this continuous breakthrough, the blood-red gangster is like a broken bamboo. Open one acupuncture point after another.

Finally, after opening the twenty-ninth acupuncture points of his foot Jueyin Liver Meridian, Chen Feng felt that the blood-red light around him seemed to fade a lot.

If it is just as bright as the sun. So now it is fluttering like candlelight, which seems to be very meager.

Chen Feng's calm heart couldn't help but feel a trace of anxiety. He wasn't short of these blood-red qi. In fact, even if these qi were very meager, he went out to kill a few monsters and then absorb them. Coming over is enough to open the thirtieth acupuncture point.

However, this kind of feeling is extremely rare today. This feeling of breaking through continuously made him immersed and obsessed, and it gave him a feeling of being extremely powerful, able to do whatever he wanted, and omnipotent.

Under the control of this feeling, it is easy to break through the thirtieth acupuncture point, and even directly pass through the liver meridian of the foot Jueyin.

And if this feeling is interrupted at this time, Chen Feng has a foreboding that it will take at least a month to open up the liver meridian of Zu Jueyin, after all, it is not enough to open the meridian with sufficient qi. It also requires a certain mood and opportunity.

If you miss it this time, you won't know when you will get this opportunity next time.

Chen Feng must seize this opportunity! Because getting through the Zujueyin Liver Meridian and not getting through are two different concepts!

But at this moment, suddenly, on the surface of the huge stalactite plant directly above Chen Feng's head, a human head-sized blood drop formed on the surface of the giant stalactite, and then this blood drop gently fell on Chen Feng. On the head.

#### [Chapter 358: Ben dragon seal](#)

Chen Feng suddenly felt that the feeling of being in the blood-red ocean is back!

At this moment, the blood red qi in his body was replenished and became more abundant.

With joy in his heart, Chen Feng immediately directed the blood red Gang Qi to open the thirtieth acupuncture point, and then, without stopping, directly attacked the Foot Jueyin Liver Channel.

It is much harder to hit the meridians than to hit the Qiao acupoint. Chen Feng only felt that the liver meridian of Foot Jueyin seemed to be filled with impurities and it was difficult to break through. He commanded the blood red qi, setting off one wave after another, slapped on the reef, and each slap could only loosen the reef slightly.

I don't know how long it took, and finally with a bang, the reef was smashed, and all the impurities were swept away in an instant.

The surging Gang Qi flows slowly in the Liver Channel of Foot Jueyin.

Chen Feng Longxiang fights the first building of Tianjue, Dacheng!

Thirty acupuncture points were opened, the first building of the Dragon Elephant Fighting Heaven Jue, the early stage of the fourth building of other exercises!

At this time, if Chen Feng only runs Hunyuan Yi Qigong, he is in the middle stage of the second floor of the Shenmen Realm, but his strength is comparable to the peak power of the third floor of the Shenmen Realm.

And if he runs the Dragon Elephant Fighting Sky Art, although it is only the strength of the early stage of the second floor of the gods, he has actually opened thirty acupuncture points, and his combat power is definitely not weaker than the fourth floor of the other gods. The early strong!

Like the previous Swallow Return, if Chen Feng confronts him again at this time, even if he does not use the dragon blood to transform, the two will at least be tied!

Chen Feng has great strength.

At this moment, Chen Feng suddenly felt that he seemed to have entered a mysterious space.

This mysterious space is vast and boundless, surrounded by vast starry sky, with countless stars.

In front of him at this time, it was a huge image. On the huge image, there are countless light spots, and at this time, most of the light spots are dim. However, there are thirty points of light on it, shining with a faint red light.

Among the thirty light spots, a thin line connects them.

Chen Feng suddenly realized that these thirty points of light were the thirty orifice points in the first heavy building of the Dragon Elephant Battle Tian Jue that he had already opened up, and this thin line was the Zu Jueyin Liver Channel.

At this moment, Chen Feng surprisingly discovered that these thirty light spots formed a pattern, which turned out to be a dragon claw pattern! The scales are seemingly, fierce and powerful, and people feel a great fear when they look at it. It seems that there is a coercion in it.

At this moment, Ziyue outside was surprised to see that Chen Feng was placed in a mustard bag by the lake and suddenly opened out of thin air.

In the mustard seed bag, a jade box flew out by itself, and the jade box was slowly opened, and the dragon print inside the jade box slowly flew up.

This benlong seal, about the size of a human head, is a square, like an ancient inkstone, with a few profound seal characters engraved on it. The printed button at the top is a dragon claw pattern, very powerful.

The pattern of this dragon claw is exactly the same as the dragon claw that Chen Feng saw in the mysterious space at this time, without any difference.

Suddenly, Pan Longyin smashed towards Chen Feng with the whistling wind, and Ziyue couldn't help but exclaimed, trying to stop it, but it was too late.

She couldn't bear to see Chen Feng being beaten to the blood, but it was surprising that once this Panlong seal came to Chen Feng's body, it seemed to enter into a layer of water, and then it was lightly shaken. Then it disappeared.

In the next moment, in the mysterious space, Chen Feng suddenly felt lightning and thunder in the sky.

Then, a huge ancient seal fell from the sky.

Chen Feng took a look, and felt a little familiar, and in the next moment he recognized it: This is the benlong seal!

Chen Feng was horrified: "This is the benlong seal? Why is it so huge?"

Then in the next moment, he saw that the huge and huge, like a hill-like beacon dragon seal, suddenly turned into dots of light and blended into the huge pattern in front of him.

This huge pattern in succession lit up in an instant, and then the thirty acupuncture points that had been lit up became even brighter.

The dragon's claws composed of thirty acupuncture points became three-dimensional, just like actual existence, not as illusory as before.

Chen Feng suddenly felt that there seemed to be some inexplicable connection between himself and this dragon's claw, as if it was a feeling of communion.

Chen Feng suddenly moved in his heart, trying to manipulate the huge dragon claws, and as his thoughts moved, the fingertip of one of the dragon claws actually flicked slightly.

Chen Feng was ecstatic in his heart, it turned out that he could control the dragon claw.

But with this glimmer of joy rising, the concentration of concentration just disappeared, and he found that the dragon claw immediately returned to its original appearance.

Chen Feng secretly said in his heart: "It turns out that you have to concentrate on your mind before you can control it."

#### [Chapter 359: Scarlet Dragon Claw](#)

So Chen Feng once again calmed down and realized it carefully.

Chen Feng became familiar little by little, practiced little by little, and after an unknown period of time, he concentrated all his attention, concentrated all his mind, and finally made the huge dragon claw move.

But just a slight movement, there was an inexplicable coercion that made Chen Feng's heart shocked.

He could feel that if he could manipulate this dragon claw, even if he only launched a single blow, it would be very powerful.

However, manipulating dragon claws is really exhausting. Just now, Chen Feng felt severe pain in his head, pale, and even dizzy. This was a manifestation of excessive mental energy consumption.

Chen Feng rested for a while and became familiar again.

Finally, after countless exercises, Chen Feng finally manipulated the huge dragon claw and grabbed it lightly.

Then his eyes went dark the next moment, and when he woke up, he opened his eyes and found that he had retreated from that mysterious space.

Right in front of him was the cave just before entering Ding. Ziyue was lying in front of him at this time, looking at him with concern.

After seeing him open his eyes, he quickly asked: "Chen Feng, how do you feel?"

Chen Feng looked around and saw that the pool water had dried up. At this time, the blood-colored pool water disappeared without a trace, leaving no drop.

Chen Feng was a little confused in his eyes, and asked slowly: "How long has the time passed?"

Ziyue broke his fingers and said in a low voice, "It's not long, it's only four or five hours."

"Four or five hours have passed, but I feel that several years have passed?" Chen Feng asked inwardly.

Chen Feng turned around, the confusion in his eyes disappeared, and he asked in a low voice, "Has that mammoth come back?"

He was a little worried that if the mammoth came back, the situation would be very dangerous. Although the stone gap was very narrow, it was impossible to stop the mammoth. With the powerful body and power of the mammoth, it is easy to knock out a tunnel on the mountain wall.

Ziyue smiled and said: "Don't worry, it was so dark outside, but then I didn't know what happened. There was no movement, and the mammoth did not come back."

Chen Feng breathed a sigh of relief.

Ziyue smiled and said: "I guess that Blood Fiend Serpent has already died with the Mammoth. Otherwise, it will definitely come back to recuperate. Even if it fights, it won't last that long."

Chen Feng nodded and said, "It makes sense."

There is no danger from the outside world for the time being, Chen Feng can relax and experience the mysterious feeling just now.

He muttered to himself: "My Hunyuan Yi Qigong is in the second stage of the second stage, and my Dragon Elephant Fighting Tian Jue has broken through to the second stage, and now my strength has greatly improved."

"Furthermore, the Dragon Elephant Fighting Heaven Art Technique was cultivated in the first building, and the thirty acupuncture points formed a dragon claw pattern. It seems that I can use that dragon claw.

Chen Feng realized it carefully, and then he sighed softly in his heart, and said: "It turns out that the dragon claw is a killer move, and I can use it at the critical moment. This is the first building in the Dragon Elephant Zhantian Art practice After success, you can get a powerful killer move!"

At this time, Ziyue suddenly said: "Chen Feng, I just saw you absorb the blood-colored pool water, and then the surface of the body flashed with a blood-colored light, do you practice a technique that is related to the blood of the monsters?"

Ziyue held this question in her heart for a long time, and finally couldn't help asking today.

Chen Feng didn't intend to lie to her, nodded and said, "Yes, I practiced a technique like this, called Dragon Elephant Fighting Heaven Art."

Then, I told her about the general characteristics.

He knew that Ziyue was so knowledgeable and experienced that he was far from comparable to him, and he wanted to get some advice from her.

Of course, he didn't say the origin of the Dragon Elephant Fighting Sky Art. After all, that drop of dragon blood was his biggest secret.

Ziyue thought for a moment, and said, "As you said, the Dragon Elephant Fighting Sky Art should be a very, very high-level exercise. It has even surpassed the scope of the Yellow level, far from your Qin State Qingzhou. You can get it in a small place."

Ziyue's vision is very high, and there are very few that can be seen by him, and now the Dragon Elephant Fighting Sky Art is a very, very high level in her mouth, which shows that the Dragon Elephant Fighting Day Art is indeed extraordinary.

Ziyue said slowly: "Generally speaking, each floor of the Divine Door Realm opens nine acupuncture points, but this is just a general practice method, and many high-level practice methods are not like this. Fa, there will be more open acupuncture points than nine, because many acupuncture points are hidden."

"And the more acupuncture points opened in each building, the more hidden acupuncture points are opened, which means that their strength in this building will far surpass opponents of the same level. I think you are obviously like this."

"Your Dragon Elephant Fighting Heaven Technique opens 30 holes on each floor, far more than nine, which shows that the level is very high."

#### [Chapter 360: The bronze body is small](#)

Chen Feng said distressedly: "But there is also a problem. If I only practice Dragon Elephant Fighting Heaven Jue, my level will be much lower than others. Everyone has already reached the third level, and I'm still at the first level. Too much."

Ziyue pursed her mouth and smiled: "So, it's impossible for you to take advantage of everything. There are advantages and disadvantages."

"Actually, you don't have to be discouraged. I guess your Dragon Elephant Fighting Sky Art, such a high-level exercise technique, is definitely not only corresponding to the great realm of the Divine Gate Realm, it should correspond to one or even several big realms. "

"So, you don't have to be discouraged. The first level of your Dragon Elephant Fighting Heaven Secret Art is already equivalent to several levels of other exercises."

Chen Feng smiled, shook his head, and said, "Forget it, I don't want to worry about these things."

He looked at the various medicinal materials growing in layers on the edge of the pool, and suddenly he moved in his heart, saying: "My golden body art has become the second stage, and the body of black iron is also great, and now there are With such ready-made medicinal materials, why don't I practice the third level of the golden body?"

"It's most suitable to start cultivating the bronze body now. You know, my body, which has just been fused with the ben dragon seal, and has been forged by dragon blood, is at its peak. The effect of dragon

blood has not disappeared. If you practice the Golden Body Jue, you will get twice the result with half the effort."

Thinking of this, Chen Feng didn't hesitate anymore and immediately took out the Dading.

Chen Feng always carried the medicine for practicing Jinshenjue.

In fact, wherever he goes, whether he is going to the auction house or elsewhere, he will pay attention to the drugs on the market, and if he has what he needs, he will immediately buy it.

Therefore, these days, a lot of medicines have been accumulated, and some of them are missing, but they happen to grow on the edge of the pool of the Mammoth Cave, which can be filled.

Chen Feng put various medicinal materials into the cauldron.

The essence of Jinshenjue is to forge the body with liquid medicine, and for each level of deepening, the total amount of liquid medicine needed is much larger, and the medicinal materials that need to be consumed will naturally be much more.

After Chen Feng finished picking, the various medicines on the mountain wall had been reduced by at least one third.

Chen Feng took out the charcoal fire and ignited it. Soon, the liquid medicine boiled, and began to bubble out, and Chen Feng jumped into it.

Compared with the first heavier training of the Golden Body Art, the temperature of the liquid medicine did not drop at all, and it remained at less than two thousand degrees. The flames below rose, licking the bottom of the imitation demon refining cauldron. However, Chen Feng entered the liquid medicine this time and felt completely different from the last time.

The last time he was burned to death, his skin was burnt and his flesh was burnt, and he even felt that his soul had been eroded. But this time, when he entered the liquid medicine, he just felt his body slightly hot, slightly tingling and numb!

Chen Feng knew that this was because his physical strength had increased extremely strongly than before.

Chen Feng thought secretly in his heart: "Such a furnace temperature was almost unbearable for me before, but now, the temperature is a bit too low for me."

"This time it's fine. Next time when you practice the golden body battle, you must change to a charcoal fire, otherwise it will be useless."

Chen Feng used the golden body to determine the third heavy exercise method, absorbed the power of the liquid medicine, entered his body, and continuously strengthened his physique.

Since the aftertaste of the previous dragon blood transformation has not dissipated, there is still a part of the dragon blood in Chen Feng's body. That part of the dragon blood is fused with the power of these liquid medicines to transform Chen Feng's body, so The third practice of Jinshenjue was twice the result with half the effort.

After three full hours, the liquid medicine in the cauldron had been boiled out, and Chen Feng also slowly opened his eyes, and jumped out of the cauldron.

When he jumped out, the demon-cultivating cauldron also made a light click, the bottom cracked, and then it broke into several pieces and slammed heavily on the ground.

Chen Feng smiled bitterly: "This demon refining cauldron is indeed a fake. It has only been used a few times and it won't work. It seems that I need to change to another container next time."

Ziyue smiled and said, "Chen Feng, are you finished?"

Chen Feng nodded slightly.

After the dragon blood forged the body, then practice the Golden Body Jue, the effect is surprisingly good.

Now, the third level of the golden body decision has been completed, and the bronze body has also been small.

The body of black iron corresponds to the first and second levels of the Golden Body Art, while the body of bronze corresponds to the third and fourth levels.

Chen Feng turned his golden body to make a decision, and his body was full of blue light. Not the pure and noble light like sapphire, but the strong and heavy light like bronze.

Although it is still very light, it gives people a sense of stability as a rock.

The Dragon Elephant Fighting Heaven Jue's first major achievement, the golden body battle the third major achievement, and has a powerful killer move, at this time Chen Feng feels that he has never been stronger.

He picked all the medicinal materials on the surrounding mountain walls, put them in a jade box, put them in a mustard bag, and then whispered to Ziyue: "Ziyue, let's leave here."

The cave that was originally full of spirit treasures was already empty at this time, and was completely robbed by Chen Feng. Chen Feng took Ziyue through the cracks to remove it.

The cave of the mammoth was still empty. He left the cave and found that the situation in the valley was very tragic. The ground was full of blood stains, scales, hair, and huge pits everywhere. Even many smaller stone pillars were covered. destroy.
