

Peerless 3661

[Chapter 3661: The message left by Yan Qingyu!](#)

Chen Feng looked around, and a smile appeared at the corner of his mouth: "It's okay, it's okay, after all, luck is not bad, I can tell this place."

It turned out that this place was named Yunwu Mountain by the Xuanyuan family's seniors!

And this map of Yunwu Mountains happened to be seen by Chen Feng before.

He also knows the general situation here and what is distributed here.

A smile appeared at the corner of Chen Feng's mouth: "It seems that I was lucky enough to come here, but there is a very rare specialty in the deserted ancient ruins."

"Even it is extremely rare for this special product to get on the Dragon Vein Continent."

"Among the desolate ancient ruins, many powerful people are eager to buy this special product at high prices."

"If I can get some of this special product, I can stand here."

At this moment, suddenly Chen Feng's mind lightly touched.

In the next moment, he felt a very familiar feeling.

This feeling did not come from the information about this place he had just read or the map about this place.

It's definitely not this!

It is hidden deep in his memory, deep in his mind!

Come from, sealed in his heart, a trace of familiarity in the most original consciousness!

Chen Feng suddenly widened his eyes, shuddered all over his body, and muttered to himself: "I have been here, I have been here."

"At least, my divine sense has been here before!"

Suddenly, Chen Feng trembled violently.

It turned out that he felt an unspeakable heart palpitations.

And at the next moment, suddenly, an extremely clear voice rang from the sky.

The clear voice is like a middle-aged man wearing a green shirt and elegant long beard walking slowly in the bamboo forest under the night.

While strolling, read the following four sentences leisurely:

"I have an immortal heart, but I am locked up by the dust, and when the dust is exhausted, I will shine through the mountains and rivers!"

These four sentences shocked the world!

If there is someone beside Chen Feng at this time, no one will hear it.

But it fell in Chen Feng's ears, like Huang Zhongda Lu.

Chen Feng knew that he was real, and he heard it.

Chen Feng softened and fell to his knees, tears streaming down his face.

Suddenly, he stood up and shouted frantically: "Master, Master, is that you?"

"Have you been here? Have you come here? Have you left me a message here?"

Under the shout, the breath became disordered, and he had already inhaled the poisonous gas in this space, I don't know how much.

But Chen Feng, without any scruples, still shouted frantically.

At this moment, in front of his eyes, suddenly condensed into a phantom.

It is the phantom of his master Yan Qingyu.

Yan Qingyu looked at Chen Feng with surprise and relief between her eyebrows, and then said slowly:

"Feng'er, you have finally come here, and you haven't disappointed your teacher."

"Follow that fingerprint in your heart, go!"

"The teacher left a lot of things in one place here."

"As a teacher, I miss you so much, I have many things to tell you..."

Before the words fell, the figure shook violently, and the phantom had disappeared.

Chen Feng was stunned on the spot, and for a long time, he didn't get back to his senses.

Finally, do not know how long after.

He suddenly wowed, and a large mouthful of blood spewed out. It turned out that the poisonous gas here corroded Chen Feng's body and had already caused slight injuries to him.

Chen Feng was also awakened by the severe pain, and quickly held his breath.

He also returned to his senses immediately, with a look of ecstasy in his eyes: "I just said, when I heard the words of the deserted ancient ruins, a very familiar feeling emerged."

"Sure enough, sure enough, there is what I want here!"

"It turns out that my master Yan Qingyu actually came here!"

"My master, and my uncle Yan Qingyu, has been here before, and even left me a message here!"

"Great, great!"

Chen Feng was ecstatic, and only calmed down after a long time.

It's not that he was not calm enough, it was the news that shocked him too much.

At this time, after Chen Feng stabilized, he also began to adjust his breath to dissolve the poisonous gas.

However, at this time his strength has already lost about 10%.

Chen Feng's heart was awe-inspiring, and he didn't dare to act rashly. It was really terrifying here!

Chen Feng looked around, and then flew forward.

Soon, he came to the depths of this black rock mountain range.

And the depths of this mountain range are very different from the previous scenery.

There are rugged rocks everywhere, extremely high cliffs, and extremely deep canyons, which look very sinister.

Moreover, there are steep peaks everywhere like a giant sword.

The radius is only tens of meters, but the height can often reach thousands of meters.

Chen Feng shuttled among them.

Suddenly, he stopped and looked down at the rocks in front of him.

After watching it carefully for a while, he touched it lightly with his hand.

Suddenly, Chen Feng's hand appeared black, snorted, and a burst of blue smoke appeared, as if to corrode his hand.

Obviously, this thing was actually stained with poison.

Chen Feng was not surprised and rejoiced, and a smile appeared at the corner of his mouth. The flow of the power of the dragon and the Arhat in his body was to dissolve the toxin.

Then, Chen Feng then took out a large piece of gold and rubbed it into gold powder by rubbing it with his hands.

Then, sprinkle on the ground.

Suddenly, the gold powder was blown away by the wind, but some of it stuck to the ground and was not blown away.

The gold powder revealed a small paw print shaped like a half plum blossom.

About the size of a bowl.

A smile appeared at the corner of Chen Feng's mouth, and then he threw it forward.

Then I saw that every ten feet, such a small paw print appeared, spreading forward.

Chen Feng whispered to himself: "Sure enough. The information that Elder Xiaoyue gave me is really not bad!"

"In this cloud-mist mountain range, there really is that kind of magical ancient beast: the cloud-mist bird.

It turned out that what Chen Feng found in the black rock just now was a small sticky trace.

This trace belongs to a kind of ancient underworld beast, named Yunwu Divine Bird.

It turns out that a brand new existence grows in this barren ancient ruins.

They are also similar to monsters, except that they are completely different from monsters in that they were born from the special wild ancient demon aura in this wild ancient ruins.

They are called Gu Ming beasts.

As the name suggests, it is full of the meaning of death, just like this deserted ancient ruin.

These ancient underworld beasts are completely different from monster beasts. Because they are born by condensing the aura of heaven and earth here, each type has its own special ability.

[Chapter 3662: The misty bird!](#)

That's all right, after all, monster beasts also have their own special abilities.

However, the most different point from Monster Beasts is that their ability can be used by warriors.

In other words, after the warrior kills them, they can absorb their disintegrating power.

Or, get some extremely special and rare treasures from them.

After blending into themselves, they can get some of the abilities they possess.

For example, this kind of misty bird has the ability to atomize.

And if the human warrior kills it, he has a chance to get this atomization ability.

This is an extremely powerful ability.

Imagine a fight against an enemy, and the enemy blasted his chest with a punch. As a result, at this time, his chest was directly atomized and turned into a cloud.

The enemy can penetrate with one punch, but it will not cause any harm to itself.

At this time, if you fight back brazenly, the enemy will not only panic, but may even be killed directly.

This is an extremely powerful ability!

It turned out that as soon as Chen Feng arrived here, he remembered that the information showed that there were mysterious birds living here, and that was their territory.

Clouds and mists like to live in groups. Although they are said to be sacred birds, they can only fly short distances and prefer to walk on land.

However, because they have the ability to atomize and are extremely light and spiritual, they rarely leave traces, only such small sticky traces.

The words of ordinary people can't be found at all.

But Chen Feng found it easily.

The gold powder stuck to the liquid and could not be blown away by the wind, which invisibly pointed the way for Chen Feng.

Based on the small footprints, Chen Feng analyzed that this misty bird should have passed by here not long ago.

Otherwise, his footprints would have dried up.

Chen Feng chased forward following the footprints.

After chasing for about half an hour, he came to a mountain wall.

Suddenly, at this moment, Chen Feng's heart was alarming!

The next moment, he backed away suddenly.

And at the moment when Chen Feng retreated suddenly, a cloud of mist suddenly appeared among the cracks in the mountain wall.

The next moment, it will turn into a giant bird with a long foot!

This giant bird has a long and slender body and a black body.

His beak is five feet long and extremely sharp. It's like the sharpest sword.

Stabbed hard at Chen Feng!

Tear space!

This thorn is extremely tyrannical, almost equivalent to the strongest blow of the Samsung Wudi peak.

The most powerful thing is that the beak appeared directly on the side of Chen Feng's waist.

The height of the crack is at the position of Chen Feng's right rib.

In addition, it appeared suddenly, without any warning before, and it was really the transformation of elbows and armpits.

If it weren't for Chen Feng to react quickly and move six feet to the left in time, then he would be pierced alive by this one!

Severe injuries directly, even internal organs will be affected!

Chen Feng moved five feet to the left, dodge the offensive dangerously and dangerously.

But even so, his clothes were pierced, and a huge cut was drawn.

There was a pain in the right waist and a long and huge wound appeared.

However, after all, it was only skin wounds, not internal organs!

Chen Feng's eyes were cold. Although he was suddenly attacked, he didn't feel any panic. He drew away calmly and walked away from him before looking at it.

Then, he saw a giant bird staying on the mountain wall.

This giant bird looked like a crane, but it was completely black.

Only those two eyes were blood-red, revealing a cruel and cruel light, and they looked extraordinarily evil.

And under him, there was only one foot, very stout, standing there.

At this moment, his little blood-red eyes stared at Chen Feng, full of killing intent.

It turned out that this was the misty bird that Chen Feng was chasing just now, but he didn't expect to be discovered by the misty bird, hiding here and directly ambushed Chen Feng.

This misty bird is really extremely intelligent!

Moreover, his attacking method is also strange and unpredictable enough, turning himself into a cloud, hiding in this gap, so that people can't find it at all!

A smile was outlined at the corner of Chen Feng's mouth: "The misty bird!"

"My luck is really good. I didn't expect that when I just came here, I ran into this misty bird!"

"If I kill this misty bird, I will not only get great benefits, but I can also gain a foothold in this desolate ancient ruin."

It turned out that before entering, Chen Feng learned that he did not recognize anything like dragon blood amethyst in the deserted ancient ruins.

The Dragon Blood Amethyst here is just waste, not currency at all.

There are also many warriors here, and there is also a black market, and if you want to buy something on the black market, you usually barter.

Obviously, the things produced by Yunwu Divine Bird are definitely not bad.

On that black market, it is still quite precious!

At this time, the misty bird looked at him, but was jumping on one leg continuously, seeming to be looking for Chen Feng's flaws.

He is quite big, jumping on one leg, but he is not stupid at all.

Obviously, there is extremely strong strength in that single leg, and the bones and muscles are stretched like an extremely strong, extremely hard, but extremely flexible metal strip!

Chen Feng also stared at him carefully.

The blow just now had the power of the peak of the three-star martial emperor.

But Chen Feng didn't know whether it was a blow he had accumulated for a long time, or a random blow.

He is now testing the strength of this misty bird.

The two faced each other for a while, and suddenly, the misty bird let out a clear mumble.

Suddenly his body shape turned into a cloud and mist, disappearing directly into Chen Feng's sight.

Chen Feng's body became tight all of a sudden, and he was already ready, carefully sensing his surroundings.

In the next second, behind Chen Feng, an extremely sharp howling sound came.

Chen Feng suddenly felt like a thorn on his back.

So he dashed forward ten steps in an instant.

With a sneer, the clothes on his back were also directly torn.

On his back, there was also a long and deep mouth of bright red blood.

In an instant, he dyed his back red.

However, although it looks tragic, the injury is not serious, just a minor injury.

And Chen Feng had already withdrawn dozens of steps, still looking back at the misty bird.

And inside the red eyes of the misty bird, there was already a smug light flashing at this time, and he continued to jump on one leg, continuing to observe Chen Feng.

After another 120 breaths, suddenly, his figure disappeared again.

Chen Feng shouted!

It turned out that this time, the direction that the misty bird appeared was the top of his head.

[Chapter 3663: Terrifying ability!](#)

Two paws suddenly appeared, and immediately grabbed Chen Feng.

He wanted to tear Chen Feng into two directly!

It turns out that in addition to his sharp mouth like a spear and a sword, its claws are also extremely sharp!

With a loud noise, Chen Feng's clothes on both sides of his shoulders were directly torn to pieces.

Two huge claw marks appeared on her shoulders.

It was dripping with blood, and there were ten huge wounds that were one foot long, one inch wide, and one inch deep.

This immediately turned Chen Feng's injury into a moderate injury.

Chen Feng took a deep breath: "This misty bird, the attack method is really weird!"

The misty bird retreated suddenly.

At this time, the look in his eyes had already turned into a thick contempt, he let out a weird smile, tilted his head and looked at Chen Feng, his eyes were full of disdain and contempt.

It seems to be saying that this human being is so humble and low in strength that he dare to come here to die.

At this time, Chen Feng's eyes seemed to be burning.

There is a smile on the corner of the mouth!

He sighed softly in his heart, and a voice slowly circulated: "Now, I have measured it."

"He has two main abilities."

"One is atomization, and after atomization, within a very fast time, a teleport will inevitably occur."

"The first time I was fifty meters away from him, he teleported easily."

"The second time I was a hundred meters away from him, he still teleported."

"The third time, 200 meters away from him, he gave me the feeling that he was quite reluctant, which also means that the range of his teleport is about 200 meters!"

This range. It was already extremely scary. If a warrior had this teleport range, then many attacks would be completely ineffective against him.

"However, his teleportation, like his atomization, has a time limit."

"He only has a chance to atomize every one hundred and twenty breaths."

At this time, Chen Feng suddenly felt an unspeakable itch from his wound.

He looked down and saw the earliest wound, which had turned black to black at this time, and bursts of black air lingered from above.

And the itchiness came from above.

Chen Feng was shocked immediately: "This animal's claws are poisonous, and they are extremely poisonous!"

Chen Feng knew that he could not delay any longer and should make a quick decision.

It turned out that Chen Feng had been showing the enemy's weakness just now, and was testing this misty bird.

At this time, Chen Feng was still not in a hurry.

He still chose to try again.

The next moment, Chen Feng flew towards the misty bird, came to the front, and slammed out with a punch.

At this time, the mocking color in Yunwu Divine Bird's eyes was more obvious, with a soft bang, the figure directly misted, drifting past Chen Feng's body.

Chen Feng's attack did not have any effect on it.

It skimmed to a hundred meters behind Chen Feng, and after 120 breathing time was over, it attacked Chen Feng frantically.

But in just one cup of tea, one person, one bird, and several rounds of fought back and forth.

There were many more wounds on Chen Feng's body, and the misty bird was unscathed.

It seemed that Chen Feng was very embarrassed, and there was nothing to do with this misty bird.

The misty bird made a series of quack laughs, mocking Chen Feng mercilessly.

The viciousness in his eyes became more and more obvious, as if he couldn't wait to tear Chen Feng into pieces and devour it!

The pain from the wound is getting weaker and weaker, and the tingling meaning is getting stronger and stronger.

Chen Feng felt that the toxin was eroding his body.

After a while, I almost fainted my mind.

Chen Feng sighed softly, at this moment he had probably grasped the power of this misty bird.

The strength of this misty bird is probably equivalent to the two-star Emperor Wu.

This strength is average in itself.

And his two major abilities are atomization and teleportation.

Coupled with these two abilities, it would be terrible, the strength soared directly to the peak of the three-star Wudi.

Atomization and teleportation cannot be used continuously.

This ability of atomization can only be used once every 120 breaths, and the range of teleport is about 200 meters!

The misty bird stared at Chen Feng, with a strange light flashing in his eyes.

At this moment, he was standing on a rock with one foot, as if bowing his head and combing his feathers with that long beak.

Chen Feng's blood was still stained on his beak, and the dark feathers were also stained with blood.

He even didn't look at Chen Feng completely, full of contempt.

In his eyes, Chen Feng is already a thing that can be killed by himself at any time.

Because, just now, Chen Feng had raided several times in succession, and even when his atomization ability had not recovered, Chen Feng simply couldn't catch him by speed alone.

At this time, Chen Feng was under the cliff, panting heavily, looking embarrassed.

Suddenly, the misty bird turned around with a vicious, bloodthirsty light in its eyes.

With a bang, his body disappeared.

He wants to kill Chen Feng directly this time, no longer wasting any time!

However, at this moment, Chen Feng suddenly let out a violent roar, and above Chen Feng's head, the battle body of the stepping idol suddenly appeared!

Then, raised four hoofs, banged, and landed!

As it landed, a force waved out of him, directly covering the 20-meter range around Chen Feng.

Suddenly, within the 20-meter range, everything was still!

Nothing can be moved!

At all, I was confined by the seal!

This is exactly the magical power of the Tengtian Idol War Body.

And that was the moment when the seal was just formed, behind Chen Feng, the figure of the misty bird emerged.

His long beak aimed at Chen Feng's heart!

Obviously, he wanted to pierce Chen Feng's heart directly!

Kill him directly!

But at this moment, his eyes were filled with unspeakable shock.

Because, he suddenly discovered that he couldn't move anymore!

I stood there blankly, unable to move.

In the next moment, the shock turned into full of fear.

Because he saw that the tall young man in front of him suddenly turned around, grinned, his face covered with blood.

Looks fierce!

At this moment, Chen Feng suddenly showed a grinning smile on his face!

As soon as he stretched out his hand, he actually grabbed the misty bird's neck directly.

There was an expression of extreme shock and astonishment in the eyes of this cloud **** bird. He didn't seem to expect that this human being who had been beaten by himself just now was so terrible and retreated in a row, covered in blood, suddenly burst into such a powerful strength!

[Chapter 3664: It was great to hit me just now!](#)

He struggled desperately, with sharp neighs in his throat!

But where is the struggle?

At this moment, Chen Feng clutched his neck with his left hand, while his right hand was already smashed with a punch!

While smashing, he let out a crazy laugh: "Beast, the old man you just hit was so cool!"

"what!"

"The Lao Tzu you just hit was really cool!"

The next moment, that fist slammed into the head of Yunwu Divine Bird.

Suddenly, the roar of the twelve golden dragons came all at once!

The shadows of the twelve golden dragons rushed into Chen Feng's right fist.

Then, it was released fiercely, and smashed into the body of this misty bird!

The misty bird suddenly became dull for a while.

Then the next moment, the whole body trembled violently and screamed terribly.

The whole body was shaking violently, blood spurted wildly in the beak.

On the body, countless wounds burst out!

In an instant, blood was covered!

His blood-red eyes glared at Chen Feng, and his eyes glowed with incredulous light. It seemed that he had never thought of why this extremely weak human being before became so powerful at this time!

But then, extreme fear flashed in his eyes, because he saw that another fist was expanding in his eyes!

Chen Feng let out a sharp and wild laugh: "Beast, I was so cool to beat me just now!"

As soon as the voice fell, there was another punch, slammed down!

Another force of 12 billion catties raged fiercely and directly smashed into the body of this misty bird!

The figure of the misty bird froze.

In his eyes, light flashed, fear and regret flashed through.

In the next moment, it will turn into nothingness!

The look dimmed in an instant, no more brilliance!

At the next instant, with a bang, its body was directly smashed!

Countless black feathers fly around, flesh and blood like rain.

This misty bird was directly blasted into fragments by Chen Feng, and it couldn't die anymore!

Chen Feng laughed, stood still, clenched his fists, extremely happy!

It turned out that Chen Feng had been showing the enemy's weakness just now, just to test out the details of this misty bird.

Because of this, I was so terribly beaten by the misty bird, I don't know how many wounds he had.

Bloodied all over.

Moreover, those wounds have begun to deteriorate and fester.

However, after he tentatively discovered the details of this divine bird, he used the abilities of the stepping idol to restrain it in one fell swoop!

Then, two punches in succession will smash it!

The two great skills of the cloud **** bird, atomization and teleportation, are now all abolished in front of Chen Feng.

The ability of the Tiantian Idol War Body to imprison it in a short period of time is truly mysterious!

"Happy, really happy!"

Chen Feng laughed: "I also tried out the ability of this animal."

"The attack is extremely strong, the speed is extremely fast, with these two weird abilities, but its own defense is quite low, and it is also very intolerant."

Chen Feng sat down on the ground, panting heavily.

But soon, the intense pain between the chest and lungs being burned by poison gas caused him to stop quickly, forcibly hold back, and stop breathing.

Although this was extremely uncomfortable, Chen Feng had to do it!

At this moment, Chen Feng didn't even have time to observe himself, but just looked at the place where the misty bird collapsed.

The feathers of the misty bird are scattered everywhere.

Soon, it became pitch black.

Chen Feng didn't care about it, these things were so full of the demonic energy of this place that they couldn't be used.

Soon, his eyes lit up and he took out two small things from the ground.

Of these two small things, one of them was about the size of a half palm, and looked like a piece of suet jade.

It's just that it's completely dark.

However, that pitch black is not the kind of cold and evil, but full of delicate and tender, even. It also exudes a burst of aroma.

Like the best medicine, it is extremely rich and fragrant.

At a glance, it is an extremely rare treasure.

Chen Feng turned his gaze to another treasure.

That treasure was the color of emerald green, and in that emerald green, there was still a little bit of starlight, as if a space was sealed inside, it looked extremely special.

In that emerald green, there is still a strong vitality bred.

Chen Feng couldn't help but was amazed: "An ancient underworld beast like the cloud **** bird, which is completely condensed from the devilish energy here, can produce such a vibrant treasure in its body."

"It's really the wonder of good fortune, everything is there!"

He carefully put away these two things, and then quickly left here.

Soon, Chen Feng found a cave on the cliff and stepped into it.

Inside the cave, it was clean and spotless, but it was still silent.

There is no trace of the life of monsters.

Chen Feng sealed the cave entrance, and then sat down cross-legged.

After sitting down, Chen Feng felt severe pain all over his body.

He carefully observed himself and felt that his strength at this time was only about 70% left.

Those injuries add up to be quite serious.

The most important thing is that he can't get any supplements, this feeling makes him extremely awkward.

At this time, Chen Feng couldn't wait to breathe heavily, first calm his breath, and then absorb some spirit of heaven and earth.

But reason is telling him that he absolutely can't do this, otherwise it will only make the injury worse.

Chen Feng smiled bitterly in his heart: "This ghost place is really enough to toss people."

Then, Chen Feng sat cross-legged and began to practice.

The power of the dragon descending Arhat surged out of the dantian and entered into Chen Feng's body.

Follow his meridians into his bones, blood, muscles, and skin.

The burning feeling in Chen Feng's body was soon replaced by an indescribable coolness.

Then, those powers that lowered the dragon and Arhat came to Chen Feng's wound.

At this time, in Chen Feng's wounds, countless black energy lingered, it was the devilish energy and the deadly energy that existed in this desolate ancient ruin.

At this time, these devilish qi and deathly qi condensed together, turning into a piece of grimace, constantly emerging in Chen Feng's wound, making various hideous expressions.

There was even the sound of Devil May Cry.

At this time, the power of the golden dragon descending Arhat came with a bang.

But these ghostly and deadly auras were not reconciled, and launched a fierce attack against the power of the dragon descending Arhat.

Suddenly, the black and gold crosses were still together, which was actually comparable.

When Chen Feng saw it, he couldn't help being shocked.

"These monsters that grow in the deserted ancient ruins are really terrifying, and the wound that was caught has such a terrifying power entrenched."

[Chapter 3665: Atomization! Initial atomization!](#)

"However, the power of the dragon descending Arhat, after all, is the supreme secret method of detoxification, and it still has the upper hand.

"However, it only has the upper hand, and can only be eliminated little by little!"

It took a full two hours for Chen Feng to completely remove the poisonous powers entrenched in his wounds.

Chen Feng couldn't help but sighed in his heart: "The general outline of the Jianglong Arhat Scriptures has helped me a lot. It has a strong detoxification function."

"This place is full of poisonous gas, and there are poisonous ancient beasts everywhere, but it is the most practical!"

"If others do, it is estimated that a large number of detoxification drugs will be prepared, and I will be at ease when facing this kind of misty bird, and I have no scruples!"

He now finally knew why Xuanyuan Xiaoyue let himself cast a large number of martial arts crystals.

In such a place, if you want to use martial arts, you need to consume a lot of power, but there is nowhere to supplement the power.

And if there are martial arts crystals, these problems can be solved greatly.

"The martial arts crystal can release a powerful force without consuming any of its own strength."

"In this desperate place, this characteristic is the most precious!"

But after feeling it carefully, Chen Feng frowned.

It turned out that he found that before removing these injuries and toxins, his strength was about 70%, and after the removal, his strength was only about 70%.

Because too much power has been consumed in this process of removal, but it is unable to replenish this power!

"so far so good."

Chen Feng couldn't help but secretly rejoice: "Fortunately, I have many methods of attack, and the most powerful attack method is the battle body of the god-like figure."

"However, the stepping idol war body also needs to supplement strength from the outside world!"

Chen Feng was full of worries and was already quite anxious.

Next, Chen Feng took out the two treasures he had obtained from Yunwu Divine Bird.

He looked at the emerald green treasure first.

The emerald green is full of vitality, but it has nothing to do with the so-called power of space.

Chen Feng guessed that if there is a relationship, then the atomization must be related to the spatial ability.

And obviously, this green one is not.

He took out the black ointment again, but he was a little surprised, not knowing how to use it.

It is also strange to say that this thing was just taken out by Chen Feng and placed in the palm of his hand. Suddenly, there was a light sneer, and the surface actually started to disperse.

Suddenly, it turned into a black mist about the size of a fist.

This black mist is very strange, as smooth as the best black gems.

However, it is clearly foggy and has that hazy beauty.

When Chen Feng was not sure how to use it, suddenly the black mist rushed towards Chen Feng.

Chen Feng was taken aback.

He could have avoided it, but at this moment, his heart suddenly moved.

Instead of avoiding it, he pushed his left hand up.

Suddenly, the black mist pounced directly on Chen Feng's left hand.

But at this moment, it actually penetrated directly into Chen Feng's left hand and disappeared without a trace.

"It's just gone? It's just gone?"

Chen Feng showed a surprised look on his face and looked at his left hand.

His hands are still white and slender, they don't look any different from before!

Chen Feng was stunned immediately: "Could it be that this black mist is actually useless?"

At this moment, Chen Feng suddenly yelled, with pain on his face.

It turned out that at this time, there was a sudden burning pain on his left hand.

The sharp pain is like being burned by flames.

Chen Feng immediately gritted his teeth and forced the pain down.

At this time, Chen Feng saw that his right hand had turned from white to crimson, just like the best ruby.

But after a while, it turned from crimson color to white skin, returning to normal.

At this time, the pain has also disappeared.

At this time, Chen Feng suddenly felt something in his heart.

He felt that an unspeakable throbbing flashed in his mind.

And he, almost out of control, thrust his left hand forward!

At the same time, my heart moved!

So the next moment, Chen Feng exclaimed.

It turned out that at this moment, he saw that on his left hand, the entire thumb, this finger, instantly turned into a bright red mist like a gem!

The duration of this dazzling mist is so short, only about one thousandth of a second.

As a result, Chen Feng felt that he seemed to have hallucinations.

When he recovered, his finger had returned to normal.

Chen Feng was a little stunned: "What's wrong? Just now, did that finger of mine mist in an instant?"

Chen Feng felt a little unreal.

At this moment, his heart trembled slightly, so he immediately wanted to try again.

However, he found that he no longer felt the palpitations.

Chen Feng immediately understood, presumably this ability can't be used continuously, there should be a certain time limit.

Sure enough, Chen Feng waited for a full 300 breaths, which is the time of a cup of tea, before the feeling of palpitation reappeared.

So Chen Feng once again held his breath and watched carefully.

Sure enough, in the next instant, he saw his left thumb, which instantly fogged and turned into a bright red cloud!

Then it condenses again.

The whole process is just a very short moment.

But this time, Chen Feng saw it clearly.

He couldn't help being ecstatic.

"It turns out that the little thing I got from the misty bird is actually a treasure that can make me atomize!"

But soon, Chen Feng broke free from this joy.

He had already figured it out at this time.

The facts are indeed consistent with what Chen Feng thought.

That kind of black object, named Atomized Crystal, is the essence of the misty bird.

After he was beheaded, the essence of power in his body, and even the abilities in his lifetime, were all melted into it.

After absorbing it, it will naturally get the ability to atomize.

"only....."

Chen Feng whispered to himself: "The ability range of this atomization is a bit small, now it's just a finger."

"This position is also not quite right. It is foggy on the finger, but the effect is not particularly good."

Then, Chen Feng laughed and patted his head lightly: "Chen Feng, you are too greedy."

"In fact, in this place, the atomization effect is also very good, but the effect is not as good as other key places."

[Chapter 3666: Good luck!](#)

"Of course, it's far inferior to the position of the head of the heart."

Suddenly, Chen Feng seemed to have thought of something, a heart pounding, and the whole person was very excited:

"If I hunt more clouds and mist birds, then continue to absorb the condensed essence of this mist and mist birds, and be able to atomize most or even all of my body, then my combat effectiveness can at least increase by one. More than twice!"

"Imagine that the enemy has a strong trick to kill it. At this time, there are only two ways to fill in my words, either try hard or avoid it."

"Now, there is a third option."

"Furthermore, the atomization must be unexpected for the enemy. At this time, he failed with one move, and with consternation, it was bound to be difficult to respond. At this time, my unique move was hit, then the enemy must be killed in one fell swoop, at least it can be seriously injured. "

"Even if my realm hasn't been improved, even if I won't get any new martial arts skills again, as long as I get this atomization ability, then my strength can at least be improved by a small realm!"

"Now, I can kill the three-star martial emperor pinnacle master, but it takes a bit of effort to deal with the four-star martial emperor."

"And if you get this ability, you can fight the four-star Wudi early stage."

Chen Feng has already figured it out. This atomization ability is at least equivalent to a wild sixth-rank initial martial skill.

And it is the kind that can save lives.

This level of martial arts is hard to come by, and Chen Feng has never encountered a full version of this martial arts.

How can you let it go now?

Chen Feng's heart was burning, and he had already set his next goal!

That's a lot of hunting these misty birds to improve their atomization ability.

Chen Feng rested here for three hours, and then set off again.

As soon as he came out, he felt the white light above the sky.

The surrounding temperature also suddenly became extremely hot.

Chen Feng looked east, and then he saw a scorching red sun, which was already at the end of the horizon, suddenly rising.

This red sun is more than a hundred times bigger than the sun he saw in the Dragon Vessel Continent?

It feels like being pressed against the top of the head, giving people a great sense of oppression.

Perhaps it is because the desolate ruins here are too close to the void of the universe. In addition, there is no atmospheric barrier or cloud cover, so the sun shines directly down unscrupulously.

The sun's rays were almost like a scorching torrent of gold and red.

Chen Feng felt that the temperature here was at least twenty times higher than that of the Dragon Vein Continent.

If it is an ordinary warrior, I am afraid that it will be steamed into a corpse alive in a while.

Even if he was a powerful person like Emperor Wu, Chen Feng felt hot and hard to handle, and his strength slowly declined.

Chen Feng quickly fell into the deep valley where the sun could not reach, and continued to the north.

He didn't know why he knew it was North, but Chen Feng felt that he knew it in his heart.

He just felt that there seemed to be a force deep in his heart guiding and telling himself:

There is your destination!

Thus, Chen Feng traveled all the way north!

After about an hour or so, he stopped at a steep cliff-lined area.

Suddenly, a touch of joy appeared on Chen Fengfeng's face.

It turned out that he actually felt a familiar breath, it was the breath of the misty bird.

In the next moment, suddenly Chen Feng approached, and a stern piercing wind rang directly.

Then, a misty bird came to Chen Feng fiercely.

I was caught off guard at this moment. If it were an ordinary person, I was afraid that he would be seriously injured. **NovElusB.coM**

But after all, Chen Feng had already sensed its breath, and immediately flashed his figure, avoided it, and looked at the misty bird.

This misty bird is about a quarter bigger than the one he met yesterday, and obviously it is stronger.

He didn't seem to understand why Chen Feng was able to dodge his attack.

He tilted his head, but those eyes were full of viciousness and greed, as well as bitter murderous intent, and he wanted to kill Chen Feng mercilessly.

Chen Feng was also a little strange at this time: "According to the information from Elder Xiaoyue, this thing should be very rare? Why did you encounter two ends in one day today?"

Chen Feng didn't have time to think about it, because the misty bird attacked him again.

However, after having yesterday's experience, Chen Feng is much easier to deal with the misty bird today.

In about half an hour, Chen Feng paid the price of having three huge wounds on his body, but he also immediately used his ability to step on the god-like battle body to confine the misty bird.

Of course, Chen Feng also got feedback from the battle body of the stepping idol.

If there is nothing to add, after this time, he will no longer be able to use this heavenly idol battle body.

However, Chen Feng couldn't take care of that much at this time, and he slammed it down with one punch.

In the scream of the misty bird, he was directly beaten into a state of serious injury and death!

In the next moment, Chen Feng was about to drop another punch, completely ending the Yunwu Mountain Bird.

Suddenly, a joking voice came from behind him: "Little bunny, good luck, I came across a misty bird that was seriously injured!"

After hearing this, Chen Feng's figure suddenly solidified.

Then, he threw the misty bird that was seriously injured and dying, unable to move, to the ground and turned around.

Then, he saw that on the cliff behind him, a person slowly walked over and slowly fell dozens of meters in front of him.

This is a middle-aged man in his forties. He is quite tall and sturdy, with a rough appearance and a big beard.

It's just that there was a weird and cunning light in those eyes.

He glanced up and down at Chen Feng, and then the solemnity turned into disdain.

Looking at Chen Feng, he said indifferently, "It turned out to be just a waste of the Second-Star Martial Emperor. The strength is really low enough."

Chen Feng's expression remained unchanged when he heard these words, but the expression in his eyes was already cold.

Then, this person looked again at the misty divine bird that had been severely injured and could not move, and a flash of extreme greed flashed in his eyes.

Turning his head, looking at Chen Feng, he sneered: "You kid, your strength is not good, but luck is really good. You picked up a big bargain and came across such a badly injured cloud bird."

"Yes! Not bad, not bad."

Although he seemed to be saying admiration, his tone was full of joking, and he obviously didn't take Chen Feng seriously.

[Chapter 3667: Hit until you say it!](#)

After Chen Feng listened, he was taken aback.

Then he smiled.

Chen Feng shook his head and smiled, but that smile was cold and full of anger.

It turned out that this person didn't put Chen Feng in his eyes at all, and he didn't even look at this misty bird but was beaten like this by Chen Feng.

I only thought that this misty bird was already seriously injured, but Chen Feng picked it up for a bargain!

He waved his hand, looked at Chen Feng, and said grimly: "Okay, kid, get out of here!" *nOvεlusB.COM*

"Today you, Uncle Ran Chen Yiran, I am in a good mood and I don't want to be familiar with you."

"Get out, don't get in the way of Lao Tzu's eyes!"

After Chen Feng heard this, his brows wrinkled instantly, and his eyes became murderous!

However, after all, he arrived for the first time and didn't want to cause trouble, so he took a deep breath and grabbed the misty bird and prepared to leave.

At this time, a sneer suddenly came from behind: "Little bunny, are you deaf? Can't you understand human words? I let you go, but I didn't let you take away the misty bird!"

Chen Feng stopped, and suddenly his figure stopped.

Then, slowly turned around.

"Why, kid, I'll spare you my life, and you won't go away? Are you looking for death?"

Ran Chenyi frowned and said impatiently.

This person was extremely arrogant, full of disdain and looked down, condescending, and did not put Chen Feng in his eyes at all.

And he clearly wanted to **** Chen Feng, the badly injured cloud bird.

Moreover, in his opinion, he asked Chen Feng to let go of the mist and the bird, and it was still like a gift!

After he finished speaking, he didn't even look at Chen Feng.

Just flexing his hands, walked towards the badly injured cloud and mist bird.

As he walked, he smiled greedily and said, "Little baby, finally let me catch you!"

"Hahaha, I missed the opportunity last time, but this time I finally seized it!"

Having said that, I was going to step forward and prepare to kill this misty bird, and pick up a ready-made one.

But at this moment, he saw Chen Feng standing still and didn't move.

Suddenly, his brows condensed, and a look of hideousness flashed in his eyes.

Staring at Chen Feng impatiently: "Little bastard, what are you doing here? Why don't you leave?"

"Do you want to wait for me to regret it, and then kill you?"

Chen Feng looked at him with a smile at the corner of his mouth, and his voice was gentle and indifferent: "This misty bird, it seems that I discovered it first, are you trying to grab it?"

After hearing Chen Feng's words, Ran Chenyi was taken aback for a moment, then let out a burst of laughter.

It seems to have encountered the most ridiculous thing.

After a while, the smile closed, staring at Chen Feng, shaking his head, his voice contained indescribable mockery and ridicule:

"You little bastard, you are a newcomer at first glance."

"Hahaha, yes, I just want to grab it! What can you do with me?"

He looked at Chen Feng and said arrogantly: "A waste of the second-star Emperor Wu, I don't want your dog's life, even if it's a favor."

"I rob you, that is to give you a face! Understand?"

His hand ignited Chen Feng once and again, arrogantly: "Little bastard, I will ask you one more time at the end, get out of here!"

Chen Feng smiled and said, "What if I don't get out?"

Ran Chenyi smiled: "Don't you go?"

He stared at Chen Feng, with murderous intent in his eyes: "Boy, congratulations, the confidence of success is irritated!"

"Since you give you a face and you don't want it, then I will kill you!"

"Oh, is it so?"

Chen Feng looked at him with a chuckle at the corner of his mouth: "You are so sure that you can easily defeat me?"

"Boy, pay attention to your words."

"Not to defeat you, but to behead you! To be precise, it should be torture!"

"Wonderful abuse, kill! Easy!"

Ran Chenyi laughed loudly while lighting Chen Feng.

"Now, the uncle will teach you that in this barren ancient ruin, you can't afford everyone!"

Having said that, his aura suddenly rose, and he had reached the middle stage of the three-star Wudi in an instant.

"Have you seen it? Lao Tzu is in the mid-stage of the three-star martial emperor. He wants to crush you, the little two-star martial emperor. Isn't it easy?"

A smile was drawn at the corner of Chen Feng's mouth, and he slowly shook his head.

This person is really fearless for the ignorant!

It was only in the mid-term of the three-star Wudi, Chen Feng had already beheaded, I don't know how many, he even dared to clamor with Chen Feng here!

However, at this moment, Chen Feng suddenly moved in his heart and said lightly: "You are the first person I met after I came here. I have to ask you for some questions."

Chen Feng's idea at this time is waste utilization.

He now has murderous pain in his heart,

This person is going to die anyway, so why not ask a few more questions?

Seeing Chen Feng doing this, Ran Chenyi laughed. In his opinion, this kid was showing weakness and didn't dare to fight himself.

And he felt that Chen Feng was deliberately delaying time.

He laughed loudly: "Boy, it's useless to delay time deliberately! You still want to die!"

Chen Feng shook his head: "What kind of thing are you worthy of me to delay time?"

Ran Chenyi's expression was extremely cold for an instant: "Trash! You are looking for death!"

Chen Feng shook his head: "That's it, I don't want to say, then I will!"

His voice was calm: "Till you say it!"

Ran Chenyi gave a grin, rushed towards him fiercely, and yelled frantically: "Boy, die!"

At the next moment, a golden spear appeared in his hand, and the golden light swallowed and shot Chen Feng fiercely.

There was a smile on the corner of Chen Feng's mouth, and he stood there without moving.

He had already seen the strength of how many three-star martial emperor peak powers he didn't know, and now Ran Chenyi, a mere three-star martial emperor in the mid-term, in Chen Feng's eyes, was no different from the ants.

It was just a guy who could be crushed to death at will.

However, Chen Feng's move fell in the eyes of Ran Chenyi, but Chen Feng faced his own offensive, unavoidable, and could only wait to die.

His voice was even more arrogant: "Little bastard, I can shoot you directly..."

The word 'fate' has not been spoken yet, but it is choked in the throat.

His voice turned into the same feeling as before the duck was killed, and a scream full of consternation and panic: "How is it possible?"

He widened his eyes, holding the golden spear in both hands, desperately trying to stab it forward, but he couldn't move at all.

He felt that his golden spear was cast into a large piece of extremely hard metal.

No matter how he urged forward, he remained motionless.

It turned out that at that moment, at the moment when his golden spear was about to pierce Chen Feng's body, Chen Feng stretched out two fingers.

[Chapter 3668: You seem to be deliberately making me laugh!](#)

With just two fingers, he clamped the tip of the spear.

And Ran Chenyi could no longer urge the golden spear to move forward a bit!

With an expression of incomparable astonishment on his face, he stared at Chen Feng. The disdain, arrogance, and contempt on his face just now disappeared without a trace.

He suddenly thought of something, his face changed a lot!

Chen Feng looked at Ran Chenyi, and said with a joking expression: "You use this trick to kill me?"

As he said, he shook his fingers. Suddenly, the golden spear shook violently, and a huge force came. The tail of the spear jumped fiercely and hit Ran Chenyi's chin.

Ran Chenyi let out a scream, his face covered with blood, and he staggered back.

Chen Feng looked down at the golden spear clamped by his two fingers, snapped, and threw it aside.

He chuckled softly: "You seem to be deliberately making me laugh!"

Ran Chenyi's face was flushed with a flush.

He was not a stupid, and he had naturally realized that the strength of the young man in front of him was beyond his imagination.

Chen Feng's words, like a slap in the face, slapped his face fiercely.

For an instant, he felt a pain on his face and his face was sweeping.

But he was still not reconciled after all, he yelled frantically, and suddenly both fists hit Chen Feng fiercely.

Chen Feng shook his head and shook his fingers.

Then, he stretched out **** again.

Chen Feng's **** immediately pressed his two fists.

No matter how Ran Chenyi urged him, he still couldn't make Chen Feng move the semicolon.

"Why? It's not enough to make me laugh once, you want to make me laugh a second time?"

Chen Feng looked at him and said with a smile: "Could it be that you want to laugh me to death and then inherit my inheritance?"

Chen Feng's ridiculous and mocking remarks shocked Ran Chenyi to the extreme.

At the same time, it slapped his face like a slap in the face, making the last trace of his face clean!

His blush was almost bleeding.

At this moment, Chen Feng laughed loudly: "Get out!"

The **** moved a little forward, and a huge force surged out.

With a scream, Ran Chenyi was smashed out and fell to the ground hard.

He looked at Chen Feng and yelled in disbelief: "You are just a two-star Wudi, you just stepped into the two-star Wudi!"

"How can your strength be so strong? I am the pinnacle of Emperor Wudi!"

He yelled frantically, his emotions almost collapsed.

Looking at Chen Feng, his eyes were full of fear.

Chen Feng smiled slightly and said, "Have you not taught you by your master? Realm cannot represent everything!"

He walked forward and suddenly stretched out his hand, grabbing Ran Chenyi's hair, and pulling him up directly.

Then, he stretched out his hand and patted his face lightly, smiled and said, "Today, I will teach you a good boy."

"Some people don't seem to have a high state, but you can't afford them, understand?"

At this time, Ran Chenyi seemed to be woken up by Chen Feng's slap.

Suddenly, a vicious look flashed in his eyes!

At this moment, after he saw Chen Feng's strength, he didn't seem to panic.

Just looking at Chen Feng, he said with a sneer: "Boy, it turns out that your strength is really not bad! Even, stronger than me!"

"But, so what?"

He laughed wildly: "I'm from the Sirius team, do you dare to move me? If you dare to move me, my Sirius team will tear you to pieces!"

At the same time, his right hand lifted suddenly.

A stream of light flew instantly.

Chen Feng saw this scene clearly, and he was able to stop it, but he only smiled, but didn't stop it.

This is a huge firework.

Suddenly, blooming above the sky.

It turned out to be the pattern of a bright golden wolf in bloom.

At this time, Ran Chenyi looked at Chen Feng with a spiteful expression on his face: "Tell you, little bunny, you will die soon!"

"The signal I released has gone out. Our boss will see this signal soon, and he will rush over to avenge me soon!"

"Tell you, kid! You can't live anymore! You will die soon!"

"Oh, is it so?"

Hearing his words, Chen Feng's expression remained unchanged, but he smiled coldly.

He punched him fiercely again, smashing his cheeks to pieces in an instant, and spit out another mouthful of blood.

The hideousness on his face was also dissipated as much as possible. Looking at Chen Feng, his face showed extreme amazement.

He looked at Chen Feng blankly, and shouted in disbelief: "You, you dare to hit me?"

"You know I'm from the Sirius team, so you dare to hit me?"

At this moment, Chen Feng slowly raised his head, looking at him, a gentle smile was outlined on his white face.

However, there is infinite murderous in his eyes, infinite jealousy!

He slowly spit out a sentence: "Sirius? Sorry, I haven't heard of it!"

Ran Chenyi was completely stupid.

He never thought that Chen Feng would dare to do this to himself after hearing the three words of Sirius.**nOVeLus&.Com**

He was extremely angry in an instant, but that anger was mixed with a trace of panic and fear that could not be concealed: "Boy, you, you, you are looking for death!"

He was interrupted by Chen Feng before he finished speaking.

Chen Feng answered him with a slender and white fist.

Chen Feng hit him again with a fist, directly denting his chest, spurting blood, flying out dozens of meters away, and smashing to the ground.

Chen Feng walked slowly towards her, smiling as he walked and said, "I don't dare, am I?"

The next moment, Chen Feng hit him again with a punch, smashing him directly and seriously.

"I dare not?"

Chen Feng smiled and said these words slowly.

Then, Chen Feng slammed it again, and this blow directly severely wounded him near death.

Blood spurted out frantically, his body almost shattered.

At this moment, Chen Feng smiled and said, "I dare not, am I?"

Finally, Ran Chenyi was scared.

He suddenly realized that this young man really dared to kill himself!

At this time, Ran Chenyi looked at Chen Feng as if he was looking at an evil ghost, there was no longer any arrogance on his face, and some were just full of fear.

He looked at Chen Feng and trembled: "What are you going to do?"

"What am I going to do? Of course it took your life!"

A smile was drawn at the corner of Chen Feng's mouth.

After that, Chen Feng slowly raised his right hand, Ran Chenyi's face was full of fear at this time, looking at Chen Feng, suddenly crying.

Kneeling on the ground, while kowtow frantically, he shouted: "Please, don't kill me!"

"Please, spare me!"

He was there like a dog wagging its tail!

[Chapter 3669: Sirius](#)

Chen Feng looked at Ran Chenyi, held his arms, smiled and said, "I just asked you in a good voice, don't you say."

"Now that I was beaten up like this, I said, are you guilty?"

"Yes, yes, I'm bad, I'm bad, please don't kill me, I will say whatever you ask."

Ran Chenyi crazed loudly for mercy, kowtow like garlic.

Tears in the nose.

This misty bird, even in the deserted ancient ruins, is quite a rare thing.

Generally speaking, it is very difficult to meet one once a month.

After all, the benefits of Yunwu Divine Bird are too much!

"Like me..."

He panted heavily: "I have been in this desolate ancient ruin for three full months, and I have only encountered the misty bird three times!"

"Moreover, hunting the misty bird is also extremely troublesome."

"This flat-haired beast has the ability to fog and teleport. It's not bad to see him beheaded once out of five times."

"I have been here for three months, and I have never killed him once."

That's it.

Chen Feng only understood at this time.

He had vaguely guessed before, because he felt that this misty bird had such a mysterious ability, it should be extremely rare.

But I just came into it for two days, and I encountered it one after another, which was really strange.

But now, Ran Chenyi's words confirmed this guess.

"Sure enough, I, Chen Feng, is different."

"Presumably, there should be a place on my body that attracts these misty birds, so that I didn't find these misty birds at all, and these misty birds came here by themselves."

Chen Feng secretly said in his heart: "Where do I attract them?"

"Treasure? Breath? Or blood?"

Chen Feng just froze for a moment, then came back to his senses.

This is not the time to think about this.

The most important thing is to solve the ant in front of you.

Chen Feng looked down at Ran Chenyi and smiled slightly: "Ran Chenyi, you answered this question for me, in return, I would like to reward you."

Ran Chenyi shouted sternly: "Please, don't kill me, I am willing to use all my wealth for my life!"

He looked at Chen Feng and trembled: "I will give you all and everything."

"Give me everything?"

Chen Feng looked at him and suddenly smiled coldly: "Sorry, I can kill you and take it myself!"

The next moment, a punch fell fiercely.

Ran Chenyi knew that his time of death had come, and he yelled frantically: "I don't want to die, I regret it!"

"Now you know you regret it? Now you know you are afraid, do you?"

Chen Feng said slowly: "It's late!"

The voice fell, and the fist fell along with it.

Power burst into his body, and suddenly burst apart.

Ran Chenyi glared at Chen Feng, his eyes showed extreme fear, despair and regret.

The next moment, the look in his eyes suddenly dimmed.

With a bang, his body trembled violently, and he fell to the ground hard, and there was no more life in his eyes.

Ran Chenyi was killed by Chen Feng.

Then, Chen Feng fumbled for a moment on him, and then a smile appeared at the corner of his mouth.

There is already an extra gold thread kit in hand.

Then, Chen Feng turned around and directly killed the misty bird that had been seriously injured and unable to move.

The two crystals were taken out, and then they walked away.

After a while, suddenly several streamers came quickly toward this side!

At this time, there were three people who came here.

One of them was tall and burly, with a majestic complexion and a mask on his face.

The mask was silver, but it could only cover half of her face.

And the half of his face that was exposed to his right, all the flesh and blood had disappeared.

I don't know what happened, but only pale bones are left.

It seems that it gives people an extremely cold and fierce feeling.

He was about two and a half meters tall, and he was considered extremely huge among humans, but he was still far behind the average monster giant.

However, his muscles are strong and his body is full of power. It feels like his body is full of infinite power.

Standing there, people think of a huge hill for no reason!

Thick, huge, stretches for thousands of miles.

And his left hand is holding a huge shield.

The height is almost three meters, the whole body is silver, shining bright silver light, and all kinds of murals are carved on it.

In the middle, there is a huge silver moon, shining brightly.

It's not like a shield, it's like a towering wall, nearly a foot thick.

It seems that it gives people a feeling of unparalleled strength.

It seems that if the big shield is poked there, no matter what kind of offensive it is, it can be easily resisted!

He fell on the ground with a bang, and then said nothing.

Just holding the shield with his left hand, and then looking around at a very fast speed, wandering around, observing the surroundings, appearing extremely alert.

Obviously, this person is not only extremely powerful and extremely terrifying in defense, but also an extremely guarded person.

And the one beside him was suddenly in shape. He was wearing a blue robe, and under the black sky background, it was like a faint phantom.

If there is nothing, it seems to be true.

It's as if it exists in this world and doesn't exist in this world.

And under his crotch, he was riding a pale blue giant wolf.

The giant wolf had a hideous face, red light flashing in his eyes, and a trace of demonic energy permeated from his body.

And wherever his four paws stepped on, a red flame instantly rose up, and it continued for a long time, exuding an aura of destruction and cruelty.

The last person was a tall and thin man.

This middle-aged man is not only tall and thin, but his body is like a twisted shadow, which makes people feel awkward and full of unspeakable weirdness and sinister.

His whole body was covered with old shrouds, with yellow pus permeating from it from time to time.

It feels extremely disgusting.

However, after the pus-infiltrated milk dripped onto the ground, there was a sneer, and a burst of cyan smoke was emitted.

You know, this is a deserted ancient ruin.

This desolate ancient ruin itself exudes extremely strong devilish energy.

The ground here didn't know what had gone through, it was full of weird and cruel atmosphere.

And his pus can actually force the devilish energy here, which shows its horror.

After these three people came here, the sturdy man began to guard.

The twisted person was silent, sitting on the rock next to him without saying a word, but he was full of strange and cruel aura.

[Chapter 3670: Way to survive](#)

And the middle-aged man riding a light blue giant wolf walked to the center of the venue.

His eyes swept across the blue phantom on the ground, and then suddenly, there was a snap, a flick of his finger.

Thus, between his fingers, a blue flame suddenly appeared.

Then, the blue flame jumped up and turned into a scene.

In this scene, Chen Feng and Ran Chenyi actually appeared.

The next moment, the flame turned into the ground, into the sky, into individual people, into the terrain here, as if a miniature world appeared.

Then, the conversation between Chen Feng and Ran Chenyi, and the scenes where Chen Feng killed Ran Chenyi all appeared.

It turned out that this person turned out to be back to those things that happened in this place.

But he didn't use anything, just his own ability, he used this flame to simulate everything, no difference.

It can be seen that he must have a hint of understanding of the flow of time and the law of time.

Then, he spoke slowly.

"A very normal conflict, a very simple conflict, and a very common conflict."

"Ran Chenyi wanted to steal treasures and kill people, but he was not as skilled as people and was killed by others."

"Among these desolate ancient ruins, there are at least dozens of people who die every day for this reason!"

His voice was hoarse and low, as if his voice had been smashed before, which made people feel particularly uncomfortable.

"From their conversation, it can be seen that this young man should have just entered the deserted ancient ruins not long, and he is definitely not very old."

His voice was speaking here slowly, as if analyzing something, and as if talking to himself.

And the other two are doing their own things.

But the middle-aged man knew that his companions were listening carefully.

"Since this person can have such strength, it means that before he enters the deserted ancient ruins, he can definitely be regarded as a generation of arrogance, very proud, and can't tolerate Ran Chenyi's offense against him."

"So, I shot Ran Chenyi."

"It can be seen that his strength should have reached the peak of the three-star martial emperor, surpassing his realm, but he should only be able to achieve such strength in a short time, and it is impossible to maintain it for a long time."

This person is really terrifying, and he can see his strength directly through Chen Feng's realm!

However, he still looked down at Chen Feng, thinking that Chen Feng's strength was achieved through some special means.

As everyone knows, Chen Feng is such a strength everyday!*Overusb.com*

"This young man is not bad."

Although he was saying praise to Chen Feng, his voice was still flat and slow, without the slightest ripple.

It seems that Chen Feng's strength does not have any influence on him.

Finally, he said slowly: "Ran Chenyi, even though it is a dog we raise, he is not an official member of our Sirius team."

"But, after all, he joined our Sirius team, and after all, he also wore our Sirius team badge."

"After all, the name of our Sirius team played outside."

"Since this person dared to kill him, he would not give our Sirius team face."

He said lightly: "In this case, he is already dead."

"Within five days, take his life."

His voice was calm and slow, but it was full of ruling.

It seems that what he said is the law.

The reason for this is naturally because of his strong confidence and disdain.

Confidence in yourself.

Disdain for Chen Feng.

They obviously didn't put Chen Feng in their eyes at all, saying that if you kill him, then kill him, as if he was about to stick an ant to death.

The sun is setting.

However, even when the sun sets, the scenery in this barren ancient ruin is very different from the Dragon Vein Continent.

Most of the sky in the distance has been rendered by a golden red color, but it looks extraordinarily gorgeous.

Standing on the top of a cliff, Chen Feng looked into the distance, a smile was drawn at the corner of his mouth, and he sighed softly.

"This barren ancient ruin really has a different view!"

At this moment, Chen Feng's right hand was still holding a parchment roll.

This sheepskin scroll was found from Ran Chenyi's body.

At this time, it has been five hours since Chen Feng killed Ran Chenyi.

In the past five hours, in addition to healing his injuries, Chen Feng was also cleaning up the things organized from Ran Chenyi.

However, this Ran Chenyi is surprisingly poor.

In addition to the few dragon blood amethysts, the only things in his golden thread kit were this little sheepskin scroll and a green gem.

Chen Feng looked quite familiar with this green gem, which was obtained from the body of the misty bird.

Apart from that, there is nothing else, it can be said to be extremely shabby.

And Chen Feng quickly wanted to understand why.

Think about it, this Ran Chenyi should belong to the kind of desperado, desperate and desperate to defect to the Xuanyuan family, and was sent here.

It hasn't opened in the past few months, so naturally there is nothing good about it.

However, Chen Feng was a little surprised.

Ran Chenyi himself said that he couldn't kill a cloud-like bird, so where did he get this green gem?

Could it be that his teammates from the Wolves team gave it to him that day?

However, why should this thing be given to him? Is there any magical effect?

Chen Feng was surprised, but he couldn't think of any reason.

So he left the matter behind for a while and read the sheepskin scroll carefully.

After reading it again, Chen Feng was shocked.

It turned out that what was recorded on the sheepskin scroll were the things needed in this barren ancient ruins.

But this sheepskin scroll was compiled by an experienced person in the Wolves team that day.

After Ran Chenyi joined the Sirius team, he gave him a copy so that he could better survive in this deserted ancient ruin.

After reading the sheepskin scroll, Chen Feng suddenly laughed loudly.

It turned out that Chen Feng actually got an extremely useful information in this parchment scroll.

That is how to survive in this barren ancient ruin, how to breathe and absorb power in it!

Chen Feng looked at the setting sun and laughed: "So that's it, I know."

This method is recorded in the last few lines of this parchment scroll.

But Chen Feng obviously wouldn't use this method at this time, it would be too dazzling.

He has to wait until night falls before using it.

Then, Chen Feng felt himself, but smiled wryly.
