

## Peerless 3691

### [Chapter 3691: What is he laughing at? !](#)

Rao is that he has lived in this barren ancient ruin for many years, but he has never seen so many misty birds, and he was directly frightened.

But the next moment, he suddenly realized clearly in his mind: "I must catch this kid!"

"Otherwise, this kid will fall into the hands of these misty birds, how can I still get a share of the pie?"

He hated Chen Feng so much at this time, he must catch Chen Feng so that he could make it.

Of course, this is only one reason, and there is another reason, and the most important reason is that the endless cards and treasures on Chen Feng's body have made him extremely greedy!

He must be thinking about catching this kid, torturing him, and forcing his treasures out!

Under such greed, how could he allow Chen Feng to be killed by these misty birds? Doesn't it mean he flies and beats?

As everyone knows, since entering this place, the roles of him and Chen Feng have quietly changed.

He has gone from being a chaser to being chased and killed!

Seeing that the misty birds are still dozens of miles away from Chen Feng, I have some foundation in my heart.

The beating heart also sank.

A word flashed in his mind: "Now they are still dozens of miles away from this kid, and at their speed, it probably takes three breaths to arrive."

"Time for three breaths!"

He looked at Chen Feng. Chen Feng was crouching at the waist and staggering, staring blankly at the misty birds flying over.

His attitude fell in the eyes of the dead snake, so naturally, this kid was not only exhausted, but was already shocked by the scene before him.

In his opinion, this is normal!

After all, it is quite normal for such a kid who has just entered the deserted ruins to be frightened and stupefied when he encounters this kind of battle and has no spare energy to resist.

"Boy, since you are like this, then I have the confidence to catch you within three breaths, and then escape the chase of these misty birds!"

The dead snake has a plan in mind.

But don't know, all of this is just what Chen Feng wants him to think, and it's what Chen Feng wants him to think.

Everything about him was pretended. If Chen Feng was now intact and undaunted, then Dead Snake would definitely be suspicious.

How can you be fooled?

Just now, even though it seemed so many, it was actually just a momentary thing.

After Dead Snake had a plan in his heart, he didn't hesitate, and his figure flashed before he came directly behind Chen Feng.

Then, the pitch-black sharp claws grabbed Chen Feng fiercely: "Boy, die!"

At this moment, even though he had faded away his dark wings and emerged from his strongest state, it was still easy to deal with Chen Feng.

Of course, this is just what he thought.

He originally thought that Chen Feng was going to struggle and desperately, and he had planned many future moves in his mind.

However, what surprised him was that with this grasp, he easily grabbed the two shoulders of this kid!

The heavy sense of reality made him ecstatic!

"Great, this kid finally got me caught!"

"Hahaha!"

He gave a crazy grin: "Boy, can't you escape?"

After all, he first smashed his fists on Chen Feng's body, and at the same time the domineering black flame also poured into Chen Feng's body!

Chen Feng wowed, several big mouthfuls of blood spurted out, staggering!

The dead snake was full of sullen face, and another punch hit his back fiercely, trying to break his heart!

Chen Feng reluctantly turned aside and was hit on his right shoulder at once.

This time, he almost smashed his right shoulder alive!

Then, Dead Snake punched again and hit the center of his spine!

He actually wanted to smash his spine into countless segments with one punch, making Chen Feng incapacitated!

Chen Feng's figure shook, after all, he avoided a little.

But this punch was smashed into his body a full half a foot deep!

Chen Feng felt that his internal organs seemed to be burned out!

At this time, Dead Snake was extremely angry and excited, revealing his tyrannical strength as a four-star martial emperor, as well as a wealth of fighting experience!

Chen Feng was seriously injured in an instant!

Fortunately, there is still a little distance from the serious injury and death.

The next moment, Dead Snake stretched out his hands and grabbed Chen Feng, squeezing his hands to the middle!

Black flames flowed out of him, and with a bang, it rose to a height of four or five meters, and Chen Feng was enveloped in it!

The two moves just now failed, which also made him a little impatient.

He didn't want to use the five-spirit Yuanyang Fire, after all, if he wanted to use it, it would cost a lot!

But now he can't help it!

At this time, he wanted to abolish Chen Feng directly, and then flee with him!

And at this moment, suddenly, the smile on his face condensed.

It turned out that at this moment, Chen Feng suddenly turned around, looked at him, and grinned.

That face is full of flying smiles!

Seeing Chen Feng's smile like this, the dead snake was immediately stunned.

The next moment, an extremely ominous premonition surged in his heart: "What is this kid laughing at?"

"Why is he laughing this time?"

"He has obviously been captured by me! Seeing that he will be beaten by me in the next moment, and without any combat power, he will be taken away by me. Why does he laugh at this time?"

"He! Why is he!"

In his mind, there was a muddle, but a voice became clearer and clearer: "Why laugh! Why laugh?"

He felt so irritable in his heart that he wished to yell.

The whole person was flustered and uncomfortable.

At this moment, Chen Feng grinned.

The white teeth were stained with blood.

Amidst the beauty, with a particularly ferocious look: "Just now, you played very well!"

Seeing the smile on Chen Feng's face at this time and hearing what he said at this time, a feeling of extreme danger flashed in the heart of Dead Snake.

A strong warning suddenly surged in my heart!

That kind of feeling, it was like when he was a child before he took the road of warriors, he once went into a mountain to hunt and was stared at by a strong wild wolf!

It is also like a few years ago, when their Sirius team faced a six-star martial emperor who was chased and killed, his companion was cut from the sky with a brutal stab by that strong man, directly The vitality was cut off, and when he witnessed it with his own eyes, the kind of despair before death!

This kind of warning sign, a kind of perception of danger, is the experience he has gained in countless battles in the barren ruins over the years.

[Chapter 3692: The picture is already poor, see you!](#)

So suddenly, he had to pull back!

There was only one thought in his mind at this moment, and that was: escape!

Escape from here!

Otherwise, stay here, there is only a dead end!

He didn't know why he thought so, but he knew that his premonition must be right.

But at this time, he was shocked to find that he could no longer get out!

Chen Feng laid out for a long time, he did not hesitate to fight for serious injuries, and finally got such an opportunity, where could he be allowed to escape?

The picture is already poor, see you!

The two hands of the dead snake were deeply buckled into Chen Feng's shoulders before.

It was originally deep, but Chen Feng suddenly groaned, pressing his sharp claws like iron claws with both hands, and then pressing deeply into his own flesh!

Suddenly, the two hands and ten fingers of the dead snake were all deeply inserted into Chen Feng's shoulder!

Almost want to penetrate him!

Chen Feng gritted his teeth and snorted, blood spurted out, and his shoulders were already stained with blood.

However, in an instant, he was holding back the pain, and instead tightened his shoulder muscles.

As a result, the dead snake felt like his two hands were caught in a mountain made of metal, unable to get out of it at all!

At this time, Chen Feng's eyes were red, with endless hostility shining in it!

Murderous intent is raging, flames are burning!

The dead snake was really a very decisive person. Seeing this scene, he immediately roared again and again, and black flames rose from both wrists!

He actually burned his two hands and tried to escape!

However, it is still too late!

Chen Feng laughed, and while he laughed, the blood poured out from his mouth.

This is a manifestation of his internal organs being severely damaged.

However, he took a step forward with determination!

Then, both hands clung to the dead snake!

He actually held the dead snake in his arms!

The two people hugged each other tightly, entangled together, and looked so close.

But who knows how murderous is inside!

The dead snake was shocked, he suddenly understood Chen Feng's thoughts: "He actually wanted to pull me and die with him!"

Just now, the battle between Chen Feng and the dead snake took about one breathing time.

And the misty birds are getting closer and closer, attacking both of them like a meteorite.

Seeing that there are two more breaths, he and Chen Feng will both be killed frantically by these misty birds.

Under the attack of these thousands of misty birds, it is impossible for the two of them to have any way to survive!

He yelled frantically: "Take me to die together? You dog! You actually want to take me to die together?"

"What are you doing? What are you going to do?"

"Boy, you \*\*\*\* let me go!"

He slammed Chen Feng frantically, using his knees and his head.

But Chen Feng didn't move at all!

At this moment, Chen Feng's mouth was next to the dead snake's ears, and the odor almost made him faint.

But Chen Feng looked very firm, just gritted his teeth and slowly popped out a line: "What am I going to do? Of course I am going to kill you!"

At this time, the sharp and sharp whistle had already surrounded the two people.

At this time, the sky around the two of them was pitch black.

The light of the rising sun was completely blocked by the dense black wings of the misty bird.

At this moment, if you look at it from a distance, you can see that these misty birds, thousands of misty birds, like a large black net, are shrouding them fiercely!

As long as everything is shrouded in this big net, there is death but no life, and there is absolutely no possibility of any survival!

The eyes of these misty birds shone extremely greedy and excited.

They saw that they were getting closer and closer to the noble and powerful human warrior!

He was trapped there, unable to move.

They know that they are not far from evolution, and they are getting closer and closer to devouring that delicious flesh and blood!

They all uttered a stern and long neigh in excitement!

And at this moment, Chen Feng suddenly looked up to the sky and roared, and a spar suddenly appeared in his right hand.

This martial arts crystal was as large as half a slap, and the whole body shone with colorful light.

There is a fierce platinum air, a heavy earth power, and a dark and dark gloomy air... etc., constantly flashing and walking in it.

It seems that this small martial arts crystal is a mixture of countless powers.

At this time, Chen Feng suddenly raised his head and looked up to the sky to look at the misty birds, and at the powerful ancient Ming beasts that can tear it to pieces after two breaths!

Let the corners of his mouth show a smile, even though his face was blood stained, the smile on his handsome and white face can make people crazy.

At this time, a ray of sunlight shone from the gap in the misty bird's wings, and it just fell on his face.

Dust rolled in the faint beam of light.

Chen Feng squinted his eyes, feeling peaceful.

But at this moment, his right hand did not hesitate.

With a bang, the martial arts crystal was directly crushed.

Then, the next moment!

Suddenly, everyone, all the misty birds, all heard a small click.

This voice is obviously very slight and very small, but somehow it is extremely clear.

It was as if it sounded in everyone's hearts.

Everyone heard it really.

Rumble, a loud noise, like a huge rolling thunder!

In the next instant, a terrifying aura that was extremely terrifying, as if the world were about to destroy the world, came directly!

It was like a big hand, a big hand enough to wrap up the huge planet of the desolate ancient ruins, came to the top of the desolate ancient ruins, and gently pressed it down!

Everyone felt that this world, the entire ground, had fallen three feet deep!

No, it should be said that not only this piece of ground, but the entire cloud mountain range, the entire desolate ruins, and even the planet where the entire desolate ruins are located, were all sunk by this big hand!

Everyone felt that their heart missed a beat!

That momentum, almost desperate, can only close my eyes and wait for death!

This kind of misty bird, born here, was transformed by the death of this place, so naturally it is more sensitive to such things.

As a result, they all raised their heads in a panic, looked around frantically, and screamed sharply.

Even attacking Chen Feng couldn't even bother.

They didn't know what happened, and they were panicked instantly.

The dead snake naturally felt it too!

He suddenly raised his head and looked towards the sky.

Then, he, as well as these misty birds, saw that the sky that was originally scorched by the sun, at this time, there were already countless small spots of light!

[Chapter 3693: bring it on! Liuyang Zhutian Killing Array!](#)

These little spots of light flicker and flicker.

It seems that it is impossible to determine whether it really exists.

But soon they discovered that these things and these light spots really exist.

Because they are getting bigger and bigger, they are shining with different lights in the sun.

Yes, it is the color of bronze.

Yes, it is the color of flame.

Yes, it is the color of platinum.

Some, it is the color of gloomy darkness!

Endless, many kinds.

They were all stunned.

They all wondered in their hearts: "Here, is there a meteor falling?"

But soon they knew that this was not a meteor, but...

Those light spots are getting bigger and bigger.

After a few moments, their body was already revealed!

And these misty birds and dead snakes finally saw clearly what these things were!

This turned out to be a huge weapon after another!

There are long swords, giant swords, giant axes, Fang Tian painted halberds, long spears, and hammers!

Wait, wait, that's all!

The pupils of the dead snake shrank instantly!

These things, the distance from this place, at least tens of miles or hundreds of miles high.

And you can see clearly from so far, you can imagine how big the body of these things is!

I'm afraid the main body, at least each one is as huge as hundreds of meters!

At the next moment, he was even more shocked, shouting loudly: "Why do these magic weapons have such a tyrannical aura? How come they have such strong various powers attached?"

It turned out that at this time, he had already seen and felt that every magic weapon carried an incomparably powerful additional power!

Some of that additional power is ice, some are flames, and some are unspeakable toxins!

His pupils shrank sharply, and his heart jumped violently!

If it were these magic weapons alone, in his opinion, there was no particular danger.

However, with these additional powers, it is completely different.

These extremely terrifying powers will tear even warriors of his level to pieces!

Not only him, but also the mysterious birds.

They screamed in panic.

At this time, they could no longer devour Chen Feng, and even fled out one after another.

But where can I escape?

At this time, hundreds of thousands of magic weapons have already arrived in the sky above this place, and they killed them down fiercely!

There are hundreds of thousands of magic weapons like meteors, each with a length of hundreds of meters or even hundreds of meters.

As they tore through the sky and came here, they were all turned into huge \*\*\*\* of fire, with a fierce aura!

It's as if the legendary stars are falling, and the earth is falling apart!

Countless huge fireballs illuminate the sky here with a blood-red color.

It's like the sky is falling apart!

These magic weapons have not been smashed, they have already crushed the ground here for several feet!

It turned out that Chen Feng had already activated his martial arts that reached the sixth rank of the Wilderness!

Liuyang Zhutian Killing Array!

At this time, the martial arts crystal in his hand was constantly worn and melted, and it was getting smaller and smaller, and gradually disappearing!

This valley where the clouds and gods live is like the \*\*\*\* of the last days!

At this time, looking at the countless magic weapons that fell from the sky, looking at this powerful offensive that was hundreds of thousands, it fell down fiercely.

Chen Feng looked up to the sky and laughed, with blood all over his face, like a madman: "Come on! Six Suns Zhutian Killing Array!"

The eyes of the dead snake showed a light of extreme danger, extreme fear, and extreme despair!

He finally knew why he was scared just now!

"It turns out that this kid has such a powerful ultimate move!"

"It turns out that he still has such a hand!"

"what!"

He yelled like an emotional breakdown and beat Chen Feng, but he couldn't shake Chen Feng at all!

He wanted to run, but couldn't run at all, and was dragged by Chen Feng.

He was full of regret at this time!

The dead snake screamed: "Little bastard, are you going to take me to death?"

"These offensives, you will die if you fall! You will be turned into ashes with them!"

At this time, Chen Feng shouted crazy: "Yes, I just want to die with you!"

However, at this moment, a sly color flashed in his eyes.

At this time, most of this martial arts crystal had been consumed.

Most of the power was turned into powder and disappeared, but there was still a small piece like a little finger, which was not turned into powder.

Chen Feng was very surprised: "What is this?"

In the next moment, he knew the answer.

It turned out that the remaining small piece of crystal was completely broken with a snap!

Then, a light mask enveloped Chen Feng.

A smile appeared at the corner of Chen Feng's mouth: "Sure enough, sure enough, this mask has appeared!"

And this mask just appeared next to Chen Feng's body, like a bronze armor, defending him inside.

And with the appearance of this mask, Chen Feng's body was also bounced a dozen meters away!

And Dead Snake also felt a huge and incomparable force crashing, and directly slammed him back.

It turned out that this mask was just to protect Chen Feng.

This mask is just to protect Chen Feng.

It looked like a wild six-rank martial art, and the martial art itself was almost as alive.

It can be seen as a living thing, not a dead thing.

Just like the instinct of animals and plants to protect themselves, this martial art will instinctively protect the person who uses the martial art from harm in such a wide range of attacks.

Therefore, Chen Feng was protected, and the dead snake would naturally not be protected.

When the dead snake saw this scene, the whole person was stupid again.

He stared at Chen Feng blankly, and looked at Chen Feng under the incomparably strong bronze mask!

At the next moment, he yelled harshly: "Little boy, are you playing tricks on me? You actually have a life-saving move?"

Chen Feng laughed loudly: "Yes, I'm just playing you!"

His laughter was full of pleasure.

During this day, Chen Feng was continuously chased and attacked by dead snakes!

The four-star Wudi possesses tyrannical strength that surpasses Chen Feng's two realms. Chen Feng is not an opponent, he can only do his best and do his best!

But still being beaten so miserable!

At this time, finally began to comeback, Chen Feng let out a bad breath.

Just now, Dead Snake desperately wanted to struggle out, but now, when he struggled out and finally got what he wanted, his face was desperate.

[Chapter 3694: Who do you think you are? Is it worth it?](#)

Because he found that in the sky, countless magic weapons are already close at hand!

If you want to escape, you can't escape!

The dead snake roared like a nervous breakdown: "You, didn't you just say you wanted to take me to death?"

"you liar!"

He also took it seriously that the shocked sanity was about to become abnormal, and he even said this.

Chen Feng laughed and laughed: "You believe what I say? I said I am your father, so do you believe it?"

The Dead Snake glared at Chen Feng, his eyes filled with hatred, and he could hardly help swallowing him alive!

But he had nothing to do with Chen Feng.

Chen Feng suddenly smiled, with unspeakable self-confidence in that smile, a little leisurely, and a hint of cunning: "Sorry, dead snake, I don't want to die with you!"

"You mean life, you want me to catch myself to kill you?"

"What are you? Are you worthy?"

The dead snake's teeth were crushed.

Chen Feng laughed loudly: "I don't want to die with you, I just want to trap you for such a breathing time."

"As long as you trap your breathing time, you will undoubtedly die!"

At this moment, the dead snake was shocked, terrified, desperate, and at the same time extremely ashamed!

His own strength is obviously so much higher than him, but today he has been playing tricks with him many times!

At this time, suddenly, a flash of light flashed in his mind.

Everything that happened today flashed through my mind quickly.

He suddenly understood everything, staring at Chen Feng, and shouted sharply: "Did you deliberately lead me here?"

"You pretended to be weak and fell here on purpose, didn't you?"

"You just came here to lie to me? Do you know there are a lot of misty birds here?"

"You came here because you want to summon these magic weapons, and then kill these misty birds and me, right?"

Chen Feng laughed, jokingly: "You are not stupid, now I finally think of it."

Suddenly, the dead snake trembled heavily, and then a big mouthful of blood spewed out, angrily attacking his heart, and his whole body was crumbling, almost falling to the ground.

At this time, he was already so angry that Chen Feng almost exploded and died.

He felt unprecedented anger, despair, fear, and shame!

Obviously he is two big levels higher than this little bastard, but today he is still playing with him!

He yelled frantically: "Boy, I'm going to kill you!"

Chen Feng smiled slightly, standing still without moving: "Kill me? You should take care of yourself first!"

The next moment, suddenly, the dead snake felt an extreme danger coming down!

He raised his head violently, and then he saw a huge bronze spear that was hundreds of meters long, stabbing him fiercely!

On top of it, it is wrapped in an incomparable strength of the earth!

These strong earth forces have suddenly increased the power of this spear by several times, giving the dead snake the illusion that a mountain weighing tens of billions of catties is down!

Facing such an offensive, the dead snake dare not ignore it.

He had to shout, and stared at Chen Feng with a bitter bit of bitterness, then gave up Chen Feng, and slammed the bronze spear with a fist!

At this time, Chen Feng was strolling here by Shi Shiran, with a smile on the corner of his mouth, relaxed.

At this moment, just two hundred meters away from him, a huge knife that was more than 80 meters long and gleamed with the cyan of stainless steel, extremely sharp, extremely heavy, was severely chopped off!

Above this giant knife, there was a raging flame.

Even if Chen Feng was separated by a few hundred meters, he felt that the flames almost burned all his hair.

Obviously, this giant knife is wrapped in the force of the extremely powerful flame!

This giant knife immediately enveloped the three misty birds.

These three misty birds had originally gathered together to kill Chen Feng.

Now, it became the target of the giant sword.

However, these three misty birds are not afraid.

They laughed weirdly, and their eyes flashed with mocking light.

In their opinion, this trick has no effect on them, because they have the ability to atomize and teleport!

In the next instant, the three misty birds all disappeared in the air with one swish.

When it reappears, it is already distributed to three different locations.

One of the misty birds flew into the air one hundred and seventy meters away, where they spread their wings.

This huge flame knife smashed to the ground fiercely, smashing a huge deep hole, but failed to kill a misty bird.

The misty bird Jiejie that escaped away smiled strangely, as if laughing.

But the next moment, it couldn't laugh.

Because, in the next instant, a Fangtian painted halberd, which was engulfed in darkness, slammed down and hit him.

But it still didn't panic, because it knew that it still had the ability to atomize.

So, after vacating the ground, he turned into a black mist, allowing the Fang Tian painted halberd to run over it, but it did not cause any harm.

It's just that the black mist that turned it into is almost scattered.

After the Fang Tian painted the halberd, it regained its entity.

However, at this time, it was already a little embarrassed.

And at this time, it suddenly raised its head to the sky again, and it turned out that a dark giant axe slammed it at it!

This time, its calmness disappeared, and it was even more inadvertent to ridicule. Instead, it uttered a scream, which was full of despair!

On this great axe is the power of ice!

However, it does not matter what force it holds!

Because, at this time, this misty bird, teleportation and atomization abilities have been used up, but the time has not been restored!

It can't hide, it can't avoid, it can only be hard-wired!

"what!"

It let out a scream and greeted the black iron giant axe fiercely.

But it's useless!

Just like a praying man's arm as a car, with a light sneer, it was directly smashed into a mist of black and blood.

The blood splashed out frantically, instantly dyeing a small piece of sky red.

But his figure was directly smashed to pieces.

There were only one green and one black, and two jewel-like crystals quietly fell.

Just before landing, he stretched out a slender white hand from the diagonal thorn. Grabbed these two crystals and put them in his arms.

The owner of this hand is naturally Chen Feng.

There is a smile on the corner of his mouth, leisurely.

At this time, around his body, there was a khaki mask.

Keep him firmly protected inside.

### [Chapter 3695: earned a lot](#)

Chen Feng stretched out his hand and stroked the thick and solid mask, his hand can easily be worn from the inside out.

But the power from the outside can never come in.

He smiled softly: "It's a Wild Grade Six Martial Skill!"

"If you don't have this mask, then it can only be regarded as the pinnacle of the fifth-rank barren rank, but now, the sixth-rank barren rank is worthy of its name!"

"This khaki mask is the finishing touch to this martial art!"

The scope of this martial arts is so huge, and the power is so terrifying, so naturally it will find a way to protect the people who use the martial arts to a certain extent.

And this mask is to protect those who use martial arts.

This light mask is dominated by the defensive power of ocher, but around it, the five rays of white, blue, black, red and yellow are constantly circulating, and each ray of light represents one of the five elements.

platinum!

Aoki!

Blackwater!

Red fire!

loess!

It turned out that there was the power of the Five Elements on this mask.

And whenever an offensive fell, seeing that it was about to hit the mask, correspondingly, a light of the same color was scattered on the mask.

Above this mask, power of the same attribute appeared.

The same \*\*\*\* repels each other, so the offensive of this magic weapon will be drawn slightly away and hit the other side.

This is a very clever approach.

Because, if such a mask is forced to appear, and if it is forced to hold these magic weapons to attack, then how strong is this mask?

Then, inadvertently a large part of the power of this martial art was consumed on the mask that protected the caster, which of course was an extremely uneconomical choice.

But now, using the power of these five elements to deflect it, then it doesn't need much power to protect the operator.

At this time, Chen Feng was walking leisurely, but he was not afraid of any mistakes.

After reaching out and holding the two spars in his hands, Chen Feng smiled and looked to the side.

Just a hundred meters away from him, the other of the three misty birds, after using up his two abilities in succession, was also beaten to pieces by a platinum long sword.

Chen Feng's figure flashed past, and he took the two crystals in his body again.

At this time, on this land, such killings were repeated and appeared constantly.

The boundless magic weapon fell, and every second, a large number of misty birds were killed!

Yunwu Shenniao kept screaming and was slaughtered one after another.

They are strong, but they are strong in their teleportation ability and their atomization ability.

Their offensive power is not particularly strong, as for their defensive power, it can only be described as weak.

Think about it too, their atomization ability and teleportation are already so terrifying, if the defense is also extremely strong, then the human warriors in this desolate ancient ruin, I am afraid that they will kill them all!

However, these magic weapons cover a range of tens of miles.

No matter how large their teleportation range is, it is only a few hundred meters!

Some of the weaker clouds and mists are only about 100 meters away.

And their atomization ability and teleport ability, after using it once, it takes a while to recover before they can be used again!

This also means that after they use one teleport and one atomization, they are easily hit!

With their defensive power, as long as they are hit, there is only one dead end!

Chen Feng's Six Suns Zhutian Killing Array is their nemesis!

Chen Feng even found a small mound and lay down leisurely, looking at the sky.

At this time, within a radius of tens of miles, this huge valley had already been reduced to a Shura Field.

Countless misty birds flew in it, screaming frantically, trying to escape.

However, the hundreds of thousands of huge and extremely powerful offensives that kept falling from the sky smashed them one by one! Kill!

Broken feathers mingled with blood splattered everywhere.

Above the ground, there was a huge flame burning and freezing ice, forming a cold glacier.

Some were turned into a dead zone by that Yin Ming Qi.

Only Chen Feng, while walking leisurely, stretched out his hand from time to time to connect two black or emerald green spars, and stretched out his arms in a leisurely manner.

Just like Eguan with wide sleeves, a romantic good son, walking slowly on the wooden clogs in the bamboo forest after the rain, occasionally bowing his head and sniffing the dew on the bamboo leaves.

In this slaughter, it seemed unspeakable leisurely and poetic.

Finally, Chen Feng turned around.

At this moment, his face was full of smiles.

In just a cup of tea, he was already full of pots.

In his arms, there are already more than a hundred atomized spar and more than 130 life gems.

At this time, Chen Feng learned that not all the misty birds produced atomized gems.

For example, some have weak atomization ability, and there is no such atomized gem.

However, this kind of life gem is produced in the body of all the misty birds.

After going around, Chen Feng came back and saw the dead snake again.

At this time, he was already embarrassed and extremely miserable.

The huge bronze spear that first attacked him was directly hit by the dead snake.

This dead snake really deserves to be a mid-stage four-star Wudi master, and for him, such an offensive is quite easy to pick up!

This offensive was smashed into the air by a fist, but he only took three steps back, feeling a little blood surge.

However, even minor injuries were not caused to him!

At this time, another long ice axe severely chopped down.

There was a sneer at the corner of the dead snake's mouth. At this time, he had recovered. It was already from the shock that Chen Feng brought him here and summoned these thousands of huge and incomparable weapons to attack. Come here.

He stared at the chilly long axe, with a sneer at the corner of his mouth:

"Boy, these offensives are only about Emperor Wudi, do you think it won me?"

"Your offensive looks like Xuanhe, but it is also useful for these flat-haired beasts!"

This extremely huge, a hundred-meter long ice axe fell down fiercely and slashed at the dead snake fiercely.

On this long ice axe, there is infinite ice.

Behind the axe, the ice made a long white trace in the air.

Obviously, on this ice long axe, there is a strong ice power.

Facing this blow, the dead snake was still undaunted, greeted him, and slammed it out again.

This punch still hit the ice long axe, and still smashed the ice long axe into the air.

[Chapter 3696: It was great to hit me just now!](#)

However, when he fell with this punch, he also felt a cold fist, an extremely cold force that penetrated into his body in an instant.

In an instant, his entire eyebrows and beard were already frosted.

It's like an ice sculpture!

At the same time, the long ice axe fell beside him, with a crisp sound, and a thick layer of ice formed on the ground.

After all, the dead snake is a four-star Wudi, and the strength in his body is slightly transformed, and it is already the frost that has condensed on the surface of the body, and it is all dissolved.

But the cold power in his internal organs was not so easy to dissolve.

He wowed, and a mouthful of blood spurted out, mixed with thick ice and snow.

Fighting for a slight injury, it also resolved this ice and snow force.

However, the insidious power of ice and snow just now, as well as the thousands of years of ice around his body at this time, also delayed his actions.

As a result, when he faced the next blow, he did not have time to react.

As soon as he squirted out the blood and resumed his actions, a huge flame-flaming knife in the sky had already slashed against him.

The force of the incomparable flame directly smashed into his body, intertwined with the power of ice that had not yet been completely cleared from his body.

Suddenly, there were two heavens of ice and fire in the internal organs.

He felt a cramp in his internal organs, with a wow, another blood spurted out, which was already mixed with internal organ fragments.

Ding Ding Ding Ding Ding Ding, the dead snake directly retreated a dozen steps.

And his body had just thawed out of that ice-cold condition, and it was corroded by flames, how could he stand it?

With a bang, all the dirty white bandages on his body shattered, revealing the body below. .

But there were scars all over it, and blood flowed all over the body instantly.

A cold and long axe made him slightly injured.

Then came a big flame sword, which already turned his injury into serious injury.

This is the tyrannical aspect of the Liuyang Zhutian Extermination Array. Various different forces are mixed together to receive a multiplier effect with half the effort, and the effect will be doubled!

She staggered, and just as she stood still, another black long sword pierced in the sky.

This black-winded long sword stabbed to the side, and did not hit his body, but plunged into the ground fiercely.

The dead snake was still rejoicing. As a result, from the gap inserted into the ground, suddenly a cloud of black air appeared, directly wrapping him inside.

Unprepared, he took a few big mouthfuls.

Suddenly, he felt a fire between his chest and lungs, and the wounds on the surface of his body, when he came into contact with the black mist, began to fester in an instant.

Even, it was so rotten that the bones and internal organs could be seen.

At this moment, his injury worsened, and his body was already in ruins.*nOVELusb.cOmm*

He was vomiting black blood again and again, and his figure was shaky, almost unable to support it.

But he is a dead snake after all, and he has been in the ruins for many years!

With a muffled roar, the black flame in the body burned out, directly burning all the poisonous black mist.

Of course, in this way, it was not corroded by this thing, but it made his situation even worse.

At this time, there were countless new offensives.

Chen Feng couldn't control the specific placement of these magic weapons, but as the person who displayed it, he could slightly influence.

Under Chen Feng's deliberate guidance, there were thirty to fifty offensives, all of which fell on him.

In an offensive like this, the dead snakes take one or two, and don't care, three or five are just as fun.

After ten or eight, it's already a bit difficult.

And if there were more than twenty such offensives, it would be enough to seriously wound him!

In a twinkling of an eye, the dead snake was hit by a total of thirty!

In an instant, he was severely injured and dying.

Finally, after being smashed into the head by a huge steel hammer with sharp platinum gas, the dead snake let out a scream and flew out heavily.

Falling to the ground, vomiting blood!

The body is almost full of holes!

His whole body was almost smashed into a human shape, and he pumped the ground, spraying blood.

But there is no more power to fight!

At this moment, let alone Chen Feng, any one-star martial emperor can easily kill him.

At this time, he stared at the sky with hollow eyes, and finally knew the power of this martial art!

He let out a stern howl: "I am not reconciled! I am not reconciled!"

"Unwilling to be reconciled."

At this time, a leisurely voice suddenly sounded.

Dead Snake looked up with difficulty, and saw a pair of boots appearing in his sight.

Then, he moved his gaze upwards with difficulty, and saw the handsome young man in white standing in front of him, looking at him, smiling slightly.

However, in his eyes there is a cold murderous intent that cannot be concealed.

Seeing him at this time, the dead snake's eyes were full of hatred, and he roared wildly, moving hard.

But at this moment, what is he in front of Chen Feng?

Just ants!

Chen Feng smiled slightly, stretched out his foot, and stepped on his face, stomping one of his faces deeply into the ground, and smashed hard.

Step him into the dust!

The dead snake, at this time, had no strength to fight back, unable to move at all.

He uttered a crazy roar, which was full of anger and humiliation!

However, he was helpless!

Chen Feng's voice came slowly: "It was great to hit me before! It was great to chase me down!"

"Relying on the cultivation time for hundreds of years longer than me, relying on the strength to be two great realms higher than me, just ravage me at will, right?"

"Now, have you tasted the taste of being ravaged?"

The dead snake was vomiting blood crazily, and at this time the boundless humiliation enveloped her, he couldn't wait to die directly!

Chen Feng seemed to know his thoughts, but he smiled slightly and raised his foot: "You want to die, right?"

"Don't worry, you won't die so easily."

"Before you lose the value of use, I, Chen Feng, how am I willing to let you die?"

Hearing this sentence, the dead snake's heart sank deeply, and the whole body was cold, like an ice cellar.

He looked at Chen Feng blankly, and said in a trembled voice: "What are you going to do?"

"What am I doing?"

Chen Feng smiled slightly: "You will know soon."

Chen Feng shifted his sight to this valley.

At this time, the magic weapons that descended from the sky had gradually become sparse and dwindled.

And there are fewer and fewer misty birds here.

Or, to be more precise, there are very few misty birds still flying in the sky.

#### [Chapter 3697: Leave](#)

There are still a lot of dead on the ground.

Most of the thousands of ancient divine birds here ran away, and the remaining ones that could not run were basically beheaded.

At this time, there were at least seven or eight hundred corpses on the ground, and more than 30% of the misty birds here were killed!

And what made Chen Feng even more overjoyed was that because this martial art technique came from the Dragon Vein Continent, there was a thick gas layer outside the Long Vein Continent.

There is an almost endless and powerful spatial turbulence, protecting the Dragon Vein Continent and separating the Dragon Vein Continent from the universe.

Those huge magic weapons that want to fall, need to be weakened by these qi.

Since they came from outside the sky, they must be weakened by the power of the Dragon Vein Continent before they can come to the Dragon Vein Continent.

Therefore, this martial skill will be weakened in the Dragon Vein Continent.

But where is it now?

This is in the deserted ancient ruins!

The deserted ancient ruins were empty, directly connected to the void of the universe, and at most there was a little bit of poisonous gas lingering around.

In terms of thickness and strength, it is completely incomparable with the Dragon Vein Continent.

Therefore, the Six Suns Zhutian Killing Array that Chen Feng summoned was not weakened much at all, and it crashed down almost in its complete state!

The classification of the six suns Zhutian killing array stars is based on their power in the Dragon Vein Continent.

While on the Dragon Vein Continent, the power displayed had reached the sixth-rank barren rank, but now the power has been doubled, and this power has almost reached the peak of the barren rank sixth-rank martial arts!

Chen Feng took a deep breath.

Up to now, he has not even been exposed to martial arts of this level.

At this time, in this valley, there was a barrenness, just like the beginning of ancient times.

The sun on the horizon seemed to have a thick blood.

In the sky, the strong smell of blood persisted for a long time.

There are black feathers everywhere, and the red blood mist is floating.

After a long time, it fell silent.

On the ground, there was already a scene of Shura hell.

The bodies of the misty birds were everywhere, flesh and blood, black feathers everywhere.

And the culprit of all this is Chen Feng!

Chen Feng sighed slightly, his eyes flashed with dazzling light, and there was a chuckle at the corner of his mouth. At this moment in his heart, there was lofty ambition, moving surging!

"The entire deserted ancient ruins, for thousands of years, I don't know how many warriors have entered!"

"However, I'm afraid that no one has killed so many misty birds like me!"

"Furthermore, I killed such a cloudy misty bird at one time! A total of seven or eight hundred clouds and misty bird!"

"This also means..."

Chen Feng's eyes were very bright: "After this battle, my atomization ability should be able to hit the top of the barren ruins, and even the first person in the entire barren ruins!"

Chen Feng has this confidence!

Because the misty bird is indeed extremely difficult to hunt.

Low strength can't beat him, and this kind of flat-haired beast is a very keen ancient Ming beast, high strength he can feel it from a distance, and will not provoke it at all.

Therefore, it is quite difficult for a powerful warrior to intercept and kill them.

Who can do it, possess such a martial skill crystal, possess such a powerful martial skill that has been lost for more than 100,000 years!

Who, happens to be performing this trick in this barren ancient ruins, in an environment that is not covered by the atmosphere and blocked by clouds!

Who can attract the greed of thousands of misty birds with their own blood, and gather these thousands of misty birds together!

The confluence of so many factors can cause such an effect!

Even Chen Feng could not replicate it anymore.

Like this cluster of misty birds, thousands of misty birds, in this desolate ancient ruins, is also a big tribe second to none.

And after they have suffered this blood loss, how could they be fooled again?

Therefore, it is really hard to copy!

Chen Feng strolled around here again.

Just now, he was beheaded with these misty birds, and then he obtained the atomized gems and life gems in them.

However, there are too many misty birds, and Chen Feng has missed it after all.

After walking around now, another 40 or 50 atomized gems and life gems have been harvested.

After confirming that there were no more omissions, Chen Feng would not stay here. He raised the Dead Snake Ridge with one hand, his figure flashed, and he left quickly.

The misty birds were only temporarily frightened by this incomparable martial arts and fled, and they will return soon.

Chen Feng didn't want to be blocked by them.

Although Chen Feng still has an extremely powerful martial skill: Skyfire Meteor, which is not used, Chen Feng doesn't want to use up both of these cards in one day.

Chen Feng carried the dead snake and continued to go north, towards the direction that seemed to guide him.

Soon, he left the valley far away.

As expected by Chen Feng, it was not bad at all. He had just left here only a cup of tea, and a large cloud of dark clouds swept over here in the distance.

It is the misty birds that escaped before.

At this time, these misty birds, led by an exceptionally huge leader of misty birds, flew toward here.

It turned out that they were caught off guard just now. Panicked, they didn't know what to do. They fled one after another, suffering heavy casualties.

Even the two heads of the misty bird were crushed to death.

However, after the rest escaped, he quickly recovered.

These misty birds have lived here for so many years, and they are very cunning, insidious, and accustomed to the big world.

Just now they were just panicked for a while, and now they recovered, they immediately realized the truth of the matter.

Moreover, the only remaining head of the misty bird also quickly integrated the remaining misty bird, and brought them back quickly.

Unfortunately, after they returned from the killing, all they could see was a corpse.

The leader of the misty bird was walking around among the corpses, very fast.

From time to time, it will be atomized, and it will turn into a mist.

However, his fog is different from others.

The other misty birds all turned into black mist, and he turned into a touch of emerald green.

Like the green mist at the top of the emerald,

It looks exceptionally magnificent and majestic.

He was looking for those life gems and atomized gems, but unfortunately, how could Chen Feng leave them behind?

The leader of this misty bird could not find it at all.

He let out a howl that turned into anger, and there was an extremely vicious look in his eyes.

[Chapter 3698: Red giant blade!](#)

The next moment, he suddenly made a sound, and it was directly atomized.

It's just that after the atomization this time, nothing else was done. Instead, in the air, the emerald green mist formed by my own atomization directly solidified and turned into a picture.

In other words, a pattern.

This pattern is surprisingly Chen Feng!

Exactly the same as Chen Feng.

Then, he returned to his original shape and uttered a series of screams.

Obviously, the meaning of the words was to let his subordinates remember this face.

These misty birds were roaring sternly, their eyes full of resentment.

Obviously, Chen Feng was already marked by the cloud and mist bird clan as the most hated enemy, I am afraid that he will never die.

But how could Chen Feng care?

After about a day, Chen Feng came to a cliff, found a huge crack, and walked inside.

This crack is extremely deep and long, stretching out for dozens of miles, and reaching the ground is as large as several kilometers.

Going all the way to the deepest part of the gap, after turning a corner here, it suddenly opened up, very spacious and huge, like an underground valley.

Chen Feng threw the dead snake in a clearing, leaning on the side, and sighed softly.

After experiencing himself, a wry smile appeared on the corner of his mouth.

At this time, he is almost disabled.

First, there was a battle with the dead snake, and then chased and killed, and then used this tyrannical martial arts.

At this time, his strength declined only less than 20% during the peak period, and he was full of blood when he breathed, and his whole body was in severe pain and was crumbling.

"but....."

A smile was drawn at the corner of Chen Feng's mouth: "The harvest is also extremely huge!"

"Not only did you struggle out of the desperate situation of death and defeated and won, but you also got so many things!"

After all, Chen Feng took out the life gems and atomized gems from his arms and placed them on the ground.

Lin Lin always looked at it, and there were hundreds of pieces, shone with bright emerald green and pure black light.

At this moment, suddenly, Chen Feng frowned and vaguely felt that something was wrong.

He frowned and looked into the distance, a very bad feeling suddenly surged in his heart.

just. He could only feel this extremely bad feeling.

If you want to say what it is, you can't say it at all.

It's just that there is a lot of worry in my heart, it seems that something extremely bad is about to happen.

At the same moment when Chen Feng gave birth to feelings, at that far distance, in the valley where the misty birds live.

At this time, a huge formation has suddenly taken shape.

That huge formation, the whole shape was like a sharp knife that burned red.

Very long, very narrow, full of fierce murderous intent.

The entire formation is made up of misty birds.

And at the sharpest point of this sharp knife, that is, the position of the sharpest peak, is the head of the huge misty bird.

These misty birds stood motionless, they all maintained a movement, one leg was independent, and the huge sharp beak faced the sky.

And those blood-red eyes stared straight at the sky, and there was even indescribable stiffness and sluggishness in those eyes!

The meaning of death is even more obvious, and it is almost soaring into the sky, which cannot be concealed.

These misty birds are condensed from the dead and devilish energy of the desolate ancient ruins. A misty birds is nothing more than that. At this moment, these thousands of heads are gathered together, and the meaning of death, I am afraid that it will be close to The ordinary one-star Wudi and two-star Wudi here are directly turned into ashes!

This breath alone is enough to kill those warriors directly!

And suddenly, they moved.

The first to move was the leader of the misty bird.

He shivered violently all of a sudden, then let out a sharp scream and walked aside.

As he moved, all the misty birds also moved.

Although there are thousands of misty birds, although they are all moving, the appearance of the entire formation has not changed in the slightest.

With their actions, the fierce and solemn intentions became more and more serious.

Finally, when they wandered around and each returned to their original position, the meaning of death was already strong and almost turned into substance.

Above the sky, even red and black sharp rays of light flashed.

That is the lifeless spirit that has already manifested!

At the next moment, they suddenly roared to the sky!

Suddenly, red lights rushed straight into the sky from their bodies.

In the end, these red lights condensed into the shape of a sharp short sharp knife above the sky.

This sharp knife, which is several kilometers in length, seems to be composed of illusory red light, but it feels extremely condensed.

Then, this huge sharp knife flew directly towards the extreme distance!

This short knife gave people an extremely brutal and tyrannical feeling.

It seems that everything that stands in front of him will be easily killed and torn apart!

There is no possibility of resistance!

This huge red short knife pierced the sun and broke the clouds, breaking through a distance of tens of thousands of miles in an instant, and came directly to the sky above a cliff.

And this cliff was the place where Chen Feng and Chen Feng hid!

In the next moment, this red giant blade, with its tip facing down, plunged directly into the cliff!

The huge cliff of Takamatsu did not have any influence on the red giant blade. The red light directly penetrated the cliff, and then the next moment, it came into the cave and came to the top of Chen Feng's head!

It's just that, at this time, this red giant blade is only the size of a palm!

At this time, Chen Feng's extremely dangerous feeling had become stronger and stronger.

The next moment, he suddenly looked up!

At this moment, in Chen Feng's sight, the red giant blade slammed into his head directly!

But, surprisingly, Chen Feng could not feel any threat of killing on the red giant blade!

He let out a roar, and in an instant, he took out his strongest offensive!

All of a sudden, this cave was almost shattered!

But it's useless!

This red giant blade directly ignored any of his defenses, and any offensive directly broke it open.

Then, he quickly sank into Chen Feng's body.

Chen Feng shuddered all over his body, and then the next moment, he felt himself, but he didn't notice anything unusual.

"What's wrong? What was the big red blade just now? Why did it break into my body?"

"What's wrong? Why are my defenses ineffective?"

At this time, Chen Feng even felt inexplicable panic in his heart.

#### [Chapter 3699: Mark of must kill!](#)

It was a suspicion of the power of oneself that had always been extremely confident. But in the next mouthful of Chen Feng, he suddenly felt a chill in his heart. This feeling of chill in his heart came from his left hand, Chen Feng. He suddenly lowered his head, and then saw that the back of his left hand was already emerging at this time. There was a small pattern, and this pattern was in the shape of a little Yuanwu divine bird. This misty divine bird, whose whole body was bright red, stared at Chen Fengfeng fiercely at this moment, full of spiteful killing. meaning,

And in the sharp beak of the misty bird, there is also a sharp red giant blade!

A drop of blood is quietly falling from the tip of the knife!

And Chen Feng felt even more that a wave of unspeakable resentment, curse, resentment, and murderous aura condensed towards his left hand.

Chen Feng shook his head and smiled bitterly. He probably knew what this thing was now.

"I know now. It turns out that the red light knife just now was the result of the resentment and death of those misty birds."

"I killed such a cloudy misty bird once, and they hated me to the extreme."

"The grievance condensed into substance, fell on me, and turned into this thing!"

"With this thing, I am afraid that all the misty birds in the future will gather and kill when they see me!"

"and....."

Chen Feng sighed softly: "It is estimated that some very powerful misty birds will come to me, trouble!"

"This is a mark that must kill!"

Chen Feng smiled bitterly and shook his head.

But this is also impossible.

And the next moment, a raging fighting spirit rose in his heart and clenched his fists: "Come on!"

"Others have this mortal mark, avoid it, and fear it."

"And I, with this, I see it as a challenge!"

"You, no matter how powerful, just come!"

"I'm Chen Feng!"

The fist slowly fell: "Break it with one punch!"

Then, Chen Feng no longer cares about these things.

He knew that although he had been cursed by the cloud and mist bird clan, at least there was nothing wrong with him.

Now, the top priority is to count the gains this time.

Chen Feng took out the life gems and atomized gems in his arms and carefully counted them.

However, a smile appeared at the corner of his mouth.

In this battle, he got a total of 564 gems of life.

The amount of atomized gems obtained also reached 470 yuan.

These pure black and emerald green gems formed two hills in front of him, shining brightly.

So bright, so brilliant.

And after this color, what is more important is the powerful abilities behind these two piles of gems!

At this moment, being left aside by Chen Feng, a dead snake like a puddle of mud, his eyes flashed with an extremely bright and greedy light.

His eyes were fixed on those life gems and atomized gems, his eyes were full of unparalleled wonder, and the extreme possessiveness.

He moaned even more in his heart: "God, what kind of monster is this little bunny in front of me?"

"You know, our Sirius team is extremely powerful, sitting on three four-star martial arts masters above the mid-term, and spent a full two years in this barren ancient ruin, but even if the two years add up, There weren't so many misty birds we hunted!"

"We have never gotten so many atomized gems and life gems!"

"So that our life gems are very scarce, and we have to buy them from others."

"And even if we pooled all the atomized gems for Sirius boss to use, it was only 50% of his body atomized!"

"This kid just came in for a few days, and he did this with only one attack!"

"Furthermore, by the way, I was seriously injured and dying from the one who was chasing him, so miserable!"

The dead snake stared at Chen Feng, and the hatred and resentment in his eyes completely disappeared.

All that is left is fear, sigh and disbelief.

"This kid, the calculation is too strong, the city is too deep, and there are too many cards."

"I'm afraid he will hunt these misty birds when he comes in!"

"I am an enemy of him, and I deserve it to be here!"

When Chen Feng turned his head at this time, he saw the dead snake's eyes and smiled slightly: "Want it?"

The eyes of the dead snake turned cold again.

No matter what he thinks, at least he will never show weakness in front of Chen Feng.

He said coldly: "You want to kill or scrape, whatever you want, don't play me here!"

"Oh, is it so?"

Chen Feng looked at him, smiled and said, "You chased me down before, like a cat playing with a mouse."

"After catching me, tortured at will!"

"Isn't it too cheap to kill you now?"

"But, I'm not the kind of person who makes things difficult for others. As long as you answer a few questions and hand over your treasures, then I can give you a good time."

On the way here, Chen Feng had searched the dead snake's body, but what surprised him was that there was nothing on the dead snake.

There is no treasure, no magic weapon, and no medicine.

This is very abnormal.

A dignified four-star Wudi, impoverished? Who are you lie to!

Chen Feng was also aware of it, and probably knew that the dead snake must have some way to hide these things.

However, Chen Feng is determined to win the treasures on his body!

The total net worth of a four-star Wudi powerhouse is enough to bring Chen Feng's strength to a higher level!

There is at least one treasure in him!

As for the powerful and weird black fire, not to mention it.

"If I don't confide it?"

The dead snake sneered.

Chen Feng smiled slightly and patted his face lightly: "Although I am young, I still know some methods."

Hearing this, the dead snake laughed wildly.

Suddenly the laughter stopped, staring at Chen Feng, and said with a disdainful face: "Boy, do you know how much pain I have suffered since my childhood?"

"The pain of waiting is not worth mentioning to me!"

"Do you still want to torture me? Do you want me to confide in the news? Go dream!"

Chen Feng doesn't know much about the ability to torture people.

The power of descending the dragon and arhat he cultivated is the most upright, peaceful, gentle and vigorous exercise in the Buddhist school.

It is not very useful for torturing people, but it is mostly used to save people.

However, the light in Chen Feng's eyes flickered strangely: "At certain moments, the power used to save people, if it is used to torture people, the effect will be far beyond!"

Chen Feng looked at the dead snake, smiled and said, "Give you one last chance, you, can you tell me?"

The Dead Snake had already given up completely.

[Chapter 3700: Toast and not eat fine wine!](#)

He sat there violently, squinting at Chen Feng, his face was full of disdain and arrogance, and he laughed wildly:

"Little bastard, kill me if you have the ability."

"What do you want to get from me? That's a dream!"

"Okay, do you dream?"

Chen Feng looked at him, smiled and said, "I am a person who doesn't like dreaming. Even if I have a dream, I will try my best to make it real."

"Since you're toasting and not eating, it's fine to drink alcohol!"

After speaking, Chen Feng walked to him and raised his hand.

His hands were long and rough, like animal claws, extremely hard, with a pale color.

Moreover, at this time, there is even more ulceration on it.

He didn't know if it was his own practice or something.

In that fester, there was a pus green liquid constantly surging and rolling, and it looked very disgusting.

And somehow, after the dead snake was grasped by Chen Feng by his hand at this time, there was a flash of extreme fear in his heart, as if something extremely bad was about to happen. .

But then he shook his head and drove this emotion out of his mind.

Then he grinned, "What the \*\*\*\* am I afraid of him?"

"It's just a little bastard, afraid of a fart! What can he do against me?"

But the next moment, a pain that was extremely intense from the fingertips caused him to scream.

He had been prepared for a long time, no matter what the pain, he could not shout out, and he must not let this kid look down upon.

But at this time. The pain from that finger has almost surpassed his imagination!

He suddenly remembered that when he first practiced this technique, he stayed in that cave for three months.

Finally, I couldn't help it anymore.

Secretly telling the master, ran outside, wanting to breathe fresh air and bask in the sun.

As a result, he had just arrived outside, the sunshine, the gentle and gentle sunshine in other people's eyes basked on him, as if thousands of golden swords pierced him!

In an instant, a large fester appeared on his body!

Even the bones, muscles, and skin are all decayed!

That kind of pain made him desperate to the extreme.

That is a kind of warmth, infinitely gentle, with infinite murderous intent, it seems to melt one's own soul of pain!

And at this time, this kind of pain is even more unknown than that of the day!

He looked down in amazement.

I saw that the \*\*\*\* young man poured a golden vigorous force into his body at this time.

That power is thick and gentle, if it falls on someone else, it is probably the supreme power of healing.

However, when it fell on him, it became a reminder!

He felt that his soul seemed to be pulled off piece by piece at this time, torn off, and torn to pieces.

And the fact is exactly that!

Because of this insidious practice, his soul and his body are actually already integrated.

The body is not just a container, but all of him.

Therefore, at this time, Chen Feng's power of descending the dragon and Arhat is purifying his body while purifying his soul at the same time!

It turned out that Chen Feng didn't do anything just now, just injected a force of the dragon descending Arhat into his body.

If it was someone else, Chen Feng would input this power to heal others.

But it is not the case when imported into a dead snake.

The practice of the Dead Snake is extremely insidious, revealing the spirit and devil energy, and the power of the dragon and the Arhat is the nemesis of this kind of practice.

As soon as it entered his body, Chen Feng suddenly saw that his hand was almost dissolved like a candle.

There was a deep and stern black mist floating out from above, making ghost calls in the air, and finally dissipating unwillingly.

Chen Feng knew that it was part of the soul of the dead snake being dissolved.

Chen Feng looked at the dead snake.

At this time, the dead snake was so painful that he couldn't speak, and his whole body was trembling.

But at this moment, he suddenly felt that the extreme pain disappeared all of a sudden, and the whole person relaxed all of a sudden, feeling extremely comfortable.

It turned out that Chen Feng had stopped instilling the power of the dragon descending Arhat.

The dead snake was paralyzed there all at once, like a snake with its bones removed, tears and nose came out.

Gasping for breath, I feel like I'm finally alive.

Suddenly, a smile appeared at the corner of Chen Feng's mouth. Suddenly, the power of the dragon descending Arhat was instilled again, and it was extremely violent.

It was several times more violent than before!

Suddenly, Dead Snake felt a severe pain that was several times stronger than before, and immediately enveloped him.

The pain caused him to scream terribly.

Like a fish, his whole body was convulsed, struggling weakly there.

If Chen Feng did not stop just now, but continued to increase the intensity of the pain, then the dead snake would not have such a reaction.

Because the pain was gradually deepening, he was actually adapting.

But Chen Feng stopped just now, leaving him with no pain at all, but now it was another time, making the pain several times the amount just now, which made him unable to stand it at all.

His whole emotions have almost collapsed.

At this time, Chen Feng's leisurely voice came slowly: "Can you tell me?"

At this time, the dead snake finally could no longer hold it.

He yelled frantically: "I said, I said, please, forgive me!"

This four-star Wudi mid-term powerhouse, even in the deserted ancient ruins, is also quite a fierce guy, at this time it is like a dog wandering his tail.

The arrogance just now is gone.

With a brush, the physical pain disappeared.

Chen Feng looked at him, smiled and said, "Now, what am I asking, what are you saying!"

Three hours later, Chen Feng slowly walked to the exit of the cave.

Standing there, looking at the indeterminate sunset in the distance, like the setting sun at any moment, he sighed softly.

Behind him, deep in the cave, the dead snake was dead.

His eyes widened, his eyes filled with disbelief and horror.

It seemed that he couldn't accept the fact that he was defeated by a two-star Wudi young man until he died.

But unfortunately, this is the fact, he has to believe it if he doesn't believe it.

Chen Feng kept his promise. After he surrendered all the secrets, he directly ended his life without torturing him again.

At this time, Chen Feng already knew all about the Sirius team.

It turned out that there were only three core members in the Sirius team.
