

## Peerless 3711

### [Chapter 3711: swallow!](#)

At this moment, Chen Feng suddenly heard a muffled thunder in the distant sky.

He quickly left the cave and looked up to the sky, but did not see anything unusual.

Then, his gaze turned to the ground, and then he saw the extreme distance of the mountain range, at the end of the horizon, there was a bang, and a violent red light exploded.

It's like having a volcanic eruption!

But Chen Feng knew that this was not a volcanic eruption, but a warrior struggling with all his strength and desperately hitting the ground!

And with this blast, a figure, like a stone, swept toward the sky at an extremely fast speed.

In a blink of an eye, he was already above the height of tens of thousands of meters.

For Longmai Continent, the altitude of tens of thousands of meters is not particularly high.

After all, the gas layer of the Dragon Vein Continent is located more than 10,000 miles above the ground!

Wanli, that is more than five million meters!

It is important to know that the southern barren wood that Chen Feng went to was as high as ten thousand li.

However, it just pierced the clouds, but did not pierce the air layer.

It is extremely difficult to reach the gas layer of the Dragon Vein Continent, or even outside the gas layer.

However, here, after reaching a height of about 10,000 meters, it has already reached a very high altitude.

Because there is no gas layer here, there is only an extremely thin and ethereal vitality floating above the height of about 10,000 meters.

Therefore, it is easy for this person to pass through this layer of vitality and face the cosmic void without any blemish, any obstruction!

Chen Feng didn't know what he wanted to do, he was very strange to everything here.

But in the next moment, Chen Feng knew.

It turned out that in the next instant, this person stood high in the void of the universe, suddenly exhaling!

There was a huge sound wave like a tiger roar, coming from far away!

Although it was hundreds of miles away, Chen Feng was able to hear it really.

And the next moment, the light on his body flickered, as if some powerful technique was activated.

There is a huge suction power from both hands.

The void of the universe was actually sucked out of ripples.

Then, suddenly, a huge force passed in his direction.

Chen Feng felt very familiar with this power!

Extremely huge and extremely tyrannical, but Chen Feng knew that there was a similar force in his body!

Because this is actually a magical essence!

An extremely complete, absorbing divine essence that greatly enhances its own power!

Although Chen Feng was very far away, he could still feel the extremely terrifying aura coming from this divine essence!

Chen Feng observed carefully for a while, and then whispered to himself: "This divine essence should be full of the hot sun's power, which is considered to be of the light system."

"It's extremely bright and smooth, just like cutting a piece of sunlight abruptly, it's best for me to absorb."

"Moreover, this divine essence is purer and stronger than any one I absorbed before."

"After I absorbed it, it was at least equivalent to the power of the two gods originally absorbed!"

At this moment, Chen Feng almost became greedy in his heart, and he couldn't wait to violently snatch, and in the hands of this person, he snatched this god.

However, Chen Feng was sensible after all.

He knew that it was far from the time to snatch.

Moreover, this person is extremely strong, and he can't even grab it.

At the same time, Chen Feng felt that there were several auras in the distance.

Obviously, they were all spying on the person who had absorbed the gods from the nine heavens.

However, there was no movement from them.

Chen Feng's heart moved: "I am a person who is here for the first time, so it's only necessary to be cautious. Why don't they make any movement or grab them?"

"Could it be that....."

Chen Feng suddenly thought about it.

So he immediately held his breath, condensed his mind, and began to perceive carefully.

Chen Feng's mental power was originally very tyrannical, and his perception was much stronger than a warrior of the same level.

As soon as this perception radiated, it suddenly stretched up like thin needles, and hit the sky.

Then, it condenses into a big net.

Everything in this big net is invisible in Chen Feng's perception.

The next moment, Chen Feng was shocked!

There was an expression of extreme shock on his face, and after that shock, there was boundless ecstasy:

"God, there are so many, how can there be so many gods!"

It turned out that under his careful perception, he was shocked to discover that in the cosmic void that seemed so thorough outside, he could perceive a lot of divine essences appearing here!

These gods have different colors, different natures, strong and weak.

But without exception, it is very close to the desolate ancient ruins, and it is quite easy to absorb it!

Of course, you need enough of your own strength.

If one's own strength is not enough, and he can't even contain the gods, then nothing is mentioned.

And at this time, above the sky, the strong man had already begun to absorb the divine essence full of the power of the hot sun at an extremely fast speed.

At this moment, above his head, there appeared a huge Shenyuan battle body, the body length reached a giant of fifty meters!

It looks like a huge golden leopard.

However, this huge golden leopard has three pairs of huge wings on both sides of its body.

The wings spread out, but it was not the kind of bare fleshy wings, but like a phoenix divine bird, covered with bright golden feathers.

It spread out softly, like clouds spreading.

With the wings spread out, it also has a wingspan of about 100 meters!

It swallowed almost one-fifth of that huge shining light \*\*\*\* in one bite!

Then, after a while, it was another bite!

Then, another bite.

After swallowing one after another, it took about a cup of tea, and this divine essence was completely absorbed.

And at this time, that huge golden leopard with brilliant and gorgeous wings, a long roar, shocked the world!

It is mixed with indescribable satisfaction, it seems to be full and satisfied.

Then, the strong man put away this golden giant leopard with huge gorgeous wings.

The next moment, his body shape flashed and disappeared directly.

The whole process took less than half an hour!

Chen Feng was stunned!

He took a breath: "Just absorbed? Just absorbed like this?"

"It's just a short cup of tea, it adds a whole magical energy!"

At this time, Chen Feng's eyes flashed with a thick color of horror.

#### [Chapter 3712: The remains of Yan Qingyu? !](#)

"The strength of this strong man, I'm afraid it has already reached the five-star Wudi!"

"And his Divine Origin Battle Body has reached the level of Divine Origin Battle Venerable!"

"If you are against it, I'm afraid I am far from being an opponent!"

Chen Feng thought about it carefully. How long would he be able to support the huge golden leopard if he had just replaced it with his own body of stepping idols?

The final conclusion is: "One round!"

Support for at most one round, will be blasted away.

"This person doesn't know how many years he has stayed here and how many powerful gods he has absorbed!"

Thinking of this, Chen Feng's heart suddenly became extremely hot.

It turned out that Chen Feng suddenly thought of his current situation.

"I was on the Dragon Vessel Continent before, and spent a few months with all my energy, but it was just a matter of forging thirteen divine essences and condensing this divine essence battle body!"

"And these thirteen gods have already exhausted my efforts."

"And now, here, in this desolate ancient ruin, it is so easy to plunder and absorb a divine essence!"

"This person can absorb it so quickly. With my ability, I am afraid it is not slower than him, or even faster."

"After all, although my strength is not as good as him, I have the extremely powerful martial art of stepping on the innocent vitality!"

Chen Feng's mood became extremely hot.

"I finally know the benefits of this barren ancient ruin!"

"In addition to these rare ones, it is impossible to own, impossible to encounter, and extremely mysterious, able to enhance our abilities, in addition to these rare ones, there are also divine essences that are exposed beyond that 10,000-meter altitude!"

"You can pick and absorb at will!"

"You know, if you want to absorb the gods from the Dragon Vein Continent, you need to break through the 10,000-li altitude, and then break through the layers of vitality!"

"After breaking through the layers of vitality, there is still the bitter wind shrouded in the sky!"

"Those gusts of wind are extremely strong and biting."

"When you hit a warrior, let alone a general warrior, even if it is my level, you will be scraped into bones and flesh and blood without a cup of tea time!"

"It can be said to be extremely dangerous. It takes a lot of effort to absorb a divine essence!"

"Maybe, I can still get my life!"

"But here, it's so easy!"

Chen Feng finally knew why this deserted ancient ruin was so dangerous, and they were willing to come here.

It's because there are so many benefits here!

Chen Feng is already quite clear now

"Others can absorb the gods above the sky, why can't I?"

A strong jealousy flashed across Chen Feng's face.

He is also confident of himself: "If others can do it, I will be able to do it too!"

"Not to mention, my Shenyuan combat body cultivation technique is so much stronger than them!"

"Even, I can do better than them!"

Chen Feng thought to himself: "This is the opportunity for me to break through to Samsung Wudi!"

If you want to absorb the divine essence in the sky, you naturally need to fly into the sky.

When you want to fly into the sky, save effort, then naturally you need to find a place high enough.

Chen Feng looked far away.

Not far ahead, a giant peak rose into the sky.

At this time, he had almost left the range of Yunwu Mountain, or had reached the northern edge of Yunwu Mountain. **NovelUSb.com**

And here, even for the entire barren ancient ruins, it is a relatively northerly place.

There are huge peaks here, much taller than the small peaks deep in the Yunwu Mountains.

Many of them have peaks over a million meters high.

Chen Feng walked towards the highest mountain.

After three hours, Chen Feng finally got there.

When Chen Feng came to the bottom of this mountain, a feeling of excitement suddenly surged in his heart.

It seems that at this moment, the heart seems to be grasped by a big hand, and it is firmly clenched!

The whole person is shaking!

Chen Feng's heart was beating frantically, his blood was flowing frantically!

An expression of extreme excitement and surprise emerged in Chen Feng's eyes.

He felt the beating of his blood!

"This is the pulse of blood!"

"This is the pulsation of blood, which means that my blood has a trace of concern here, and it has been greatly affected!"

"Then why I am so, then, there is only one explanation!"

"Yes!"

Chen Feng suddenly raised his head and looked up, his eyes full of expectation and joy: "My master, my uncle, Yan Qingyu, must have left something here!"

"Here is even what I was looking for among the deserted ancient ruins, the ruins left by the master!"

Chen Feng was ecstatic.

He did not expect that by chance, he would find it so soon!

At this time, Chen Feng's heart was extremely excited.

He felt as if there was a flame burning in his body.

Burn every inch of your meridians, blood, and evaporate cleanly!

Originally, he was chased and killed by these people from the Sirius team, and that spirit of excitement had reached a peak.

Now, when I was stimulated by the news that Yan Qingyu might appear, I was even more excited.

Soon, Chen Feng was climbing towards the top of this mountain.

This mountain looks no different from other peaks. In fact, Chen Feng felt this way when he first came to the area 100,000 meters below this mountain.

However, when Chen Feng finally climbed to an area over 100,000 meters above the peak, he suddenly felt a flower.

Chen Feng settled down, looked forward, and found that nothing appeared.

It seems that I was just in a trance just now.

"Probably because this time is too tired!"

Chen Feng laughed at himself, rubbed his nose, and then moved on.

About half an hour later, suddenly, Chen Feng's figure froze, stopped in place, and whispered softly, "Something is wrong."

He looked at the canyon in front of his left.

This canyon is about one kilometer deep, but its width is no more than two feet.

Even an ordinary warrior can gently jump past.

And beside this canyon, there is a stone that looks like a giant wolf, showing a black and blue color, lifelike.

And because of this, Chen Feng is quite impressed with this place.

"wrong!"

Chen Feng said intently: "I've been to this place before."

"I've been here just now, why am I here again?"

Chen Feng did not immediately draw a conclusion.

He thought for a moment, and then he reached out and carved a small mark on the blue wolf-shaped stone.

Then, continue to walk forward quickly.

#### [Chapter 3713: Magic array!](#)

About half an hour later, Chen Feng suddenly froze.

It turned out that at this time he was standing on the side of the canyon again, and in front of him was the wolf-shaped boulder.

And the small trace on the wolf-shaped boulder still exists at this time.

Chen Feng sighed softly.

He looked around and made sure there was nothing unusual.

Looking at the foot of the mountain, there was a green-black plain that was still passing by when I came here.

He raised his head and looked up again, only to see the vast and huge peaks, and most of them had not climbed up.

It seems that he has been walking up like this all the time.

But Chen Feng already knew in his heart: "It seems that I was in this unknowingly, already stepping into an illusion!"

Thinking of this, Chen Feng suddenly felt awe-inspiring.

He is a powerful man in the martial emperor realm, and his strength is far beyond his realm.

Moreover, he has always had extremely strong perception and strong mental power, so that he has the potential to become a soul master.

At this moment, he fell into this illusion without knowing it.

It can be seen from this that the person who weaves this illusion and the person who lays down this illusion is so powerful!

Chen Feng stood there, thought for a moment, and then looked around.

Sure enough, soon, he found many large and small footprints around him.

He walked forward along the footprints, and he saw that many of these complicated and complicated footprints actually circled around here.

Suddenly, Chen Feng shivered violently.

It turned out that he saw that in the gap in the front stone wall, there were a lot of black bones there.

Chen Feng let out a suffocating breath and slowly said:

"I see, it turns out that after entering this phantom array, it is so terrible!"

"Going out, no going out, no going in, no going in, always staying in circles."

"In the end, I can't hold it anymore, and my strength is exhausted, and I will die here!"

Chen Feng searched here for a long time and saw many bones trapped alive here.

Obviously, the purpose of the person who deployed this formation should be to prevent anyone from breaking into this place!

"wrong!"

Chen Feng suddenly frowned and said: "This is not to prevent these people or monsters from inadvertently breaking into this place, but to prevent those who have entered this place by mistake, not to move forward, but to be trapped here!"

"Furthermore, I also dare to conclude that this magic circle was definitely not laid by my master."

"My master will never be so vicious!"

"If it were the magic circle he had set up, then it would only allow these warriors and monsters who strayed here to go down the mountain without trapping them here."

"This formation is obviously forbidden by Xu Jin."

"And now, I am stuck in a phantom array, then, which part of my body does this phantom array affect, or where does it affect my body, to influence my entire judgment?"

A smile was drawn at the corner of Chen Feng's mouth, and his heart suddenly opened up.

"No wonder the eyes flickered just now, it turned out to be leaning on my eyes!"

After all, Chen Feng closed his eyes.

At this moment, after he closed his eyes, nothing was visible in front of him.

Then, Chen Feng held his breath, concentrated all his attention, and his mental power spread out.

Suddenly, he felt as if everything around him was clear.

Although I closed my eyes, everything was extremely clear.

Then, Chen Feng stepped forward step by step.

At the thirty-seventh step of Chen Feng, when he stepped forward, a very strange feeling suddenly rose in his heart.

He obviously directed his body to step forward, but this step gave him a crooked feeling. [NOVELUS.COM](http://NOVELUS.COM)

It seems to be off track.

However, Chen Feng was clear and clear, and this step was absolutely correct!

"Since I am so sure, it means that it is my perception that is deceived!"

"Sure enough, this formation is amazing. I close my eyes now, and I want to affect my perception!"

At this time, Chen Feng suddenly stepped down!

At the same time, Chen Feng yelled: "Get out!"

He didn't step aside according to his distorted thoughts, but stepped straight forward.

With this foot stepped out, Chen Feng suddenly felt that he had received great resistance!

It's just like my own foot is tightly entangled by countless ghosts' wrists and countless powerful canes, so that I can't set foot on it!

It seemed to be plunged into the quagmire again!

Whether it is to set foot or pull out, it is extremely difficult!

But at this time, a sneer appeared at the corner of Chen Feng's mouth: "Can you stop me with a mere method?"

The next moment, above the body, the power of the Dragon Arhat surged!

With a loud bang, Chen Feng's foot was slammed down!

And as he stepped on this foot, suddenly, dozens of screams suddenly sounded on the ground!

Then it was extinct.

On the ground, there were countless huge openings, bleeding liquid inside, with a thick fishy smell.

Not only that. These cracks also spread to the distance, extremely deep and long.

It feels like a piece of exquisite porcelain has been broken in a corner, and it is also implicated in other places.

Seeing this scene, Chen Feng's mouth was drawn with a smile: "Damn dog stuff, I finally found your flaw!"

Then, Chen Feng stepped forward again!

This time, I didn't have the feeling of going crooked just now.

However, if Chen Feng opened his eyes at this time, he would definitely find that although he felt that he was walking forward in his consciousness, he was actually leaning to the side.

It turned out to be taken aside by a force!

On the contrary, this force is like a drizzle moistening things silently, extremely slight, naturally natural, and people simply can't feel it.

It turned out that the formation here, or the tyrannical mental power entrenched in the formation, saw that it was impossible to solve it, so it changed another way.

Just now, it was obvious that Chen Feng was going right, and this formation made Chen Feng feel that he was going wrong.

At this time, this second move was to directly change Chen Feng's forward path.

A smile appeared at the corner of Chen Feng's mouth.

Others can't detect it, but as strong as him, it feels clear.

He sneered at the corner of his mouth: "You beast, you are really quite clever. If you can't figure it out, you can change it immediately."

"Do you think that after I succeeded in the first step, I am overjoyed and will continue to follow the previous method, so I will not pay attention to your tricks?"

Chen Feng smiled coldly: "You really think too much!"

The next moment, Chen Feng abruptly turned his right leg to the side, breaking himself back to the right direction again!

Then, with a bang, he stepped heavily on the ground!

And as Chen Feng stepped on the ground, there was a loud noise at that place!

[Chapter 3714: Break it for me!](#)

The ground was torn apart, and a cyan light spot was directly broken by Chen Feng!

Dozens of cyan lines connected to this cyan light spot emerged from the ground.

Chen Feng opened his eyes and saw, only to find out what cyan lines were there, there were obviously dozens of cyan blood vessels!

The green veins were exposed, and there seemed to be liquid flowing in it, and it was pulsating continuously at this time, just like a living thing.

And when Chen Feng stepped out, as the cyan light spot shattered, dozens of blood vessel-like veins also exploded directly with a bang.

Above the ground, countless blood spurted out!

Chen Feng's expression was cold: "Sure enough, it is the formation laid by the evil demon's outside world!"

"I guess you must have discovered the relics left by my master Yan Qingyu, but you can't open it, but you want to monopolize this place, so you just deployed such a vicious formation on the periphery!"

Chen Feng laughed loudly: "Then let me Chen Feng, today, crush you, the evil demon, in one fell swoop!"

Then, Chen Feng took another step forward.

At this time, in his body, the power of the dragon descending arhat surged, and behind the body, the golden light was shining!

In that emptiness, it is as if a huge Buddha horn sang!

Above the sky, it is as if petals of golden light feathers are falling down!

At this moment, Chen Feng was like a \*\*\*\* and Buddha descending into the world, majestic and majestic!

The next moment, Chen Feng stepped out again!

There was a loud bang, the light spot was broken, and the vein was broken!

After that, Chen Feng did not stop, just like that, step by step, step forward!

Every step taken is to smash the countless demonic power.

Finally, when Chen Feng reached the 99th step!

With a loud bang, Chen Feng saw countless huge cracks exploded on the entire hillside.

Countless blood splattered out, instantly staining this black land into a weird and \*\*\*\* reddish brown!

At this moment, I don't know how much blood spurts out like a fountain!

When Chen Feng saw it, he couldn't help but feel shocked!

"On that day, the people who set up the formation did so many murders and how many grieving souls were trapped before they set up this formation!"

In the next moment, among the countless filthy blood, there is a huge amount of black gas steaming out!

Inside, the ghost faces are looming.

And these ghost faces are not as cruel, vicious, and crazy as they were just now, wanting to drag Chen Feng to die with them.

Instead, they flew in front of Chen Feng with gratitude on their faces.

After the respectful salute, their faces were calm and dispersed.

At this moment, Chen Feng showed a smile at the corner of his mouth, looking at them with joy in his heart.

He broke this formation today, and released them who were trapped in the formation.

However, the sky here is still gloomy at this time, and the outside sunlight does not seem to have any effect on it.

If you look outside, you can find that the sun is shining all around, and it seems the only place is covered with a thick cloud.

The cloud continued to roll over, and finally condensed into a hideous face.

Chen Feng looked up, and then the corners of his mouth sneered more and more thickly: "You still don't want to catch it with your hands?"

"You still have to make trouble here, right?"

"Okay! Then I will let you completely give up!"

Next, Chen Feng was like stepping on Tiangang Beidou, stepping forward step by step.

And what he walked seems to be distorted, but in fact it is a straight line.

It's just the sight of outsiders, affected by this strange formation.

Chen Feng is like a knight of the past, indomitable!

At this moment, his heart was also quite shocked: "This formation is so big, I have walked forward more than 900 steps, and I haven't reached the end yet!"

"This formation, I don't know how many killings have been made, how many wronged souls have been absorbed, and it has not been broken yet!"

However, these Xu shocks were suddenly shattered by the firm heart in Chen Feng's heart!

Finally, Chen Feng came to the last step!

After the ninth step was taken, there was a loud bang like the sky and the earth, like the sky and the earth crack!

The whole mountain shook directly.

In the next moment, numerous huge cracks appeared on the mountain peak, spreading rapidly from the peak of about 200,000 meters to the \*\*\*\* of about 900,000 meters.

Then, the earth shattered and collapsed.

Chen Feng also fell down accordingly.

However, he was not panicked, his figure flashed, and he was steady.

At this moment, under him, it was like a piece of hell!

The entire hillside has turned into a cyan ocean, and that cyan is endless cyan evil spirits!

Constantly tumbling and transpiring, there are countless souls roaring sternly!

The whole scene is just like the \*\*\*\* at the end of the day when the earth broke and fell!

And Chen Feng is not afraid!

In spite of the countless souls and the roar of countless ghosts, they gathered into a huge and incomparable sound, swept toward him.

Not to mention the ordinary martial artist, even the general martial emperor realm powerhouse, encountering this kind of situation, will be directly frightened to death, and the spirit will be torn apart by that voice!

But Chen Feng is not afraid!

The power of the dragon descending arhat is all over the body, and the golden light above the body is awe-inspiring, and no trace of evil can penetrate his body.

Finally, with the passage of time, the tumbling ocean gradually faded.

Those wronged souls also broke free from it and gradually disappeared.

At the same time, the thick dark clouds above the sky suddenly exploded into countless clouds and dispersed with the wind.

Above the sky, the bright and scorching golden cyan sunlight splashed down.

There was a loud sneer, and all the dirt in the place where the sun was shining suddenly disappeared.

At this time, Chen Feng looked down again, and saw that the entire hillside was already thinner.

I am afraid that there are hundreds of thousands of meters deep floating soil stones above, but they have all disappeared.

Chen Feng couldn't help but shook his head and sighed: "What kind of great power and strength does the person who deployed this formation has!"

"With the mountain as the array, resentment is like a sea!"

What Chen Feng didn't notice was that above the sky, there was a line in the cloud of smoke that was originally condensed.

It seems to be a thread composed of real power, but also a bit like a thread composed of spiritual involvement.

If there is nothing, it seems true and illusion, as if it exists in this world at any time, but it changes and disappears in this world at any time.

But at this time, as the cloud dissipated, as the formation broke and collapsed, the line was quietly broken.

But the breath of the broken line has been spreading along the line.

To the south, deep in the extreme deserted ruins!

[Chapter 3715: Who broke my line!](#)

At this moment, in the deepest part of that barren ancient ruin that is tens of millions of miles away from here, a huge mountain towering into the clouds, like a chopstick, stands proudly!

The height of this giant peak is at least tens of millions of meters.

And among the entire desolate ancient ruins, there is only one place where there can be such a terrifying giant peak!

That is the core of this barren ancient ruin, but also the most important point!

He is also a strong man in countless deserted ancient ruins. He admires him and wants to enter, but he also calls it like a tiger.

Eternal death!

There are nearly a hundred giant peaks like this in the ancient dead.

The distance between each giant peak inserted into the sky is extremely far away.

Moreover, there are countless ridges and ridges and mountains.

To put it bluntly, the core of this desolate ancient ruin, the eternal death place, is an endless mountain!

And in this mountain, there are hundreds of giant peaks in the sky.

Among them, there is a giant peak in the sky!

Here is a huge space.

However, at this time, this space was filled with a dark sea.

The darkness does not only mean that the light does not appear here, but the darkness, like liquid condensed into substance, constantly tumbling and surging inside.

Obviously there is no water or liquid in it, but it gives people a feeling of endless dark sea surging!

If there is a warrior here, it will be extremely shocked!

Because this is a sign that the dark power is surging and powerful, so huge!

This is not a liquid, this darkness is actually the essence that is completely condensed after the manifestation of power!

This darkness, like a giant beast, is quietly lurking in this cave!

It is like the black sea that can manifest power, how powerful is it?

At this moment, suddenly, the tide subsided, revealing a figure above the tide.

This figure undulates with the black wave.

He was sitting cross-legged, eyes closed, his expression relaxed.

This person has a long stature, a fair complexion, and a handsome appearance.

just. There is a hint of femininity in that handsome beauty, and even a touch of unbearable coldness in the femininity.

And suddenly, he opened his eyes.

Those eyes were actually red.

There are no pupils, no whites of eyes, just a piece of red, as if there is a flame burning in it.

Full of indifference, ruthlessness and cruelty.

His voice was long, and suddenly his right hand rolled in the air, as if he was pulling something down.

Then, put it on the tip of the nose and sniff gently.

Then, he sighed lightly and said slowly: "Who is it that broke my Nine Nether Desire Formation?"

When he first said this sentence, his expression was still very relaxed and calm.

Moreover, there is a trace of confusion and confusion.

He just woke up from that endless cultivation, and he hasn't fully recovered yet.

As a result, I didn't realize what this incident would bring to myself, nor did I realize the seriousness of this incident.

And just after the next moment, suddenly, he shivered violently, as if he suddenly remembered something!

Suddenly, the indifferent expression on that face disappeared, turning into a strong touch of disbelief and anger.

He shouted sharply: "How is it possible?"

"The Nine Nether Destruction Array I deployed outside that extremely secret place is based on the countless souls that were too late to enter the cycle of reincarnation when this barren ancient ruins collapsed, and added countless powerful methods. Years' worth of work has just been deployed!"

"At this time, it will be broken by someone?"

"Who did it! Who the \*\*\*\* did it!"

He uttered a frantic roar, and the whole person was extremely angry.

Suddenly, the black sea was surging, and they seemed to feel the master's anger, and they exuded endless murderous intent.

The power of darkness quietly spread, it seems that anyone in contact with it will be eroded into nothing but bones!

At this time, his face changed from a pale white to an extremely angry flush, his nose snorted, his eyes flushed and cold.

It's like an enraged beast!

And the fact is exactly the same, he is now angered to the extreme!

It turned out that this person had already come to this barren ancient ruin as early as a hundred years ago.

Ten years ago, he was here, and by coincidence, he discovered a secret realm.

When he first discovered this secret realm, he was shocked and ecstatic.

It turned out that he discovered that this mysterious realm contained incomparable power, and it was very likely to involve this desolate ancient ruin, the deepest level and the biggest secret.

However, he really failed to open the secret realm.

In fact, he couldn't even break through the formation on the periphery of the secret realm and enter the secret realm.

Instead, he was repelled by people's secret realm, not close.

This person is unwilling, but helpless, and does not want others to get the news.

Therefore, outside that secret realm, an insidious array was laid.

Anyone who enters there by mistake will be killed by this formation, absorb its soul, and become a part of the formation, which will increase the strength of the formation instead.

In this way, it is not easy to be destroyed.

And his idea is to cultivate hard, and when he is strong enough, he will go there to open the secret realm.

The time he gave himself was thirty years!

But now, just in the past seven years, his formation has been destroyed.**noVeℓUsB.COM**

He was angry. Not only was his formation destroyed, but there was also a trace of fear in that anger.

Because this formation is destroyed, which means that the secret realm will be discovered!

This world, this barren ancient ruins, the deepest secrets, may be unearthed!

So what I have done before, didn't it mean that the bamboo basket was empty?

This is something he absolutely cannot tolerate.

"What's more terrifying is that if you can't get the secret, even if it's the catastrophe three years later, I can avoid it, and I can avoid the catastrophe after 13 years, then the disaster after 23 years What about a catastrophe?"

"That will be the fourth great catastrophe that I have experienced, and its horror will be several times greater than before. If I can't solve that peerless secret, then I will definitely not be able to survive this catastrophe!"

"This was originally prepared for my fourth catastrophe!"

There was a bitter bitterness in his eyes: "You make me unable to survive this catastrophe, and I will kill you!"

As a result, he didn't stay any longer, and his thoughts moved directly. Then, the turbulent sea surging up, and a wave rolled up, dragging him toward the far distance.

In an instant, it disappeared!

[Chapter 3716: The bronze small tripod! absorb!](#)

It turned out that this person was actually killing the past where the secret realm was located!

The ancient dead place at the core of this barren ancient ruin, only those with incomparable strength and great luck can dare to come here to practice.

All the people who can be here are extremely powerful.

And this person can cultivate here for so many years, showing his strength.

How precious is the secret realm that can be valued by such a strong man?

At this time, Chen Feng was also above that peak, and suddenly looked back.

It turned out that after his successive battles and successive improvements in his strength, he was also much more sensitive to his surroundings.

As a result, when the thread broke and the news was passed, he actually felt a little vaguely.

Chen Feng frowned and looked there.

Then, he sighed softly:

"Although I don't know what happened, this feeling of danger hit me."

"It seems that we need to speed up here."

"Otherwise, I'm afraid the consequences will be very serious."

Thinking of this, Chen Feng didn't hesitate anymore and stepped forward.

However, after taking this step, Chen Feng felt that there was an extremely powerful block in front of him.

It's like an obstacle!

This obstacle is not so overbearing, but very tough.

However, there is unspeakable determination and strength in the tenacity.

It seems to be stopped here, just not letting you pass!

To say nothing, no discussion!

In that thick and heavy, with a sense of determination.

Chen Feng tried hard, but couldn't step into it.

However, he was not surprised but rejoiced, but a smile appeared at the corner of his mouth:

"It seems that this is the real barrier left by the master!"

"This barrier has a great breath, but it is very gentle and stable."

"Not to kill, just to stop, a heart of compassion!"

Chen Feng carefully sensed the strength of this battle, and then he threw a punch.

However, this punch was light and light, and did not use much force.

After hitting it, there was also a weak counter-shock force, which made Chen Feng's figure shake a bit, without even retreating.

Chen Feng nodded, and then tried his best to hit it with a fierce punch.

Suddenly, above the barrier, there was an area about three meters in radius, which suddenly lit up.

Then, a shining white light suddenly flashed out, like a pillar of thunder, it hit Chen Feng's body fiercely.

Suddenly, Chen Feng was smashed and flew out, spurting out blood!

Obviously, this barrier is strong when strong, and weak when weak.

If you don't provoke it, it will definitely not hurt people.

However, Chen Feng did not give up, and threw three punches one after another.

But, no surprise, all these three hits were smashed back again.

But at this moment, a smile appeared on the corner of Chen Feng's mouth.

Then, the smile turned into a bitter smile, and he sighed softly: "I hit four punches, but each punch only used a radius of about three meters above the barrier."

"The other areas above the barrier didn't even bother to use force to fight back at me."

"How huge is this barrier? More than hundreds of kilometers?"

"This also means..."

As soon as Chen Feng calculated, he came to a conclusion that horrified him: "The power of this barrier. I'm afraid it surpasses my full strength by more than a hundred times."

"I'm afraid that the total power of Qixing Wudi and even higher-level powerhouses is only so much."

"It means that the power of this barrier is equivalent to a powerhouse above the Seven-Star Martial Emperor level!"

"If I spend a little bit here, I can kill it, but..."

Chen Feng curled his lips mockingly: "It will probably be wiped out in two to three hundred years."

But where does Chen Feng spend such a long time here?

Facing this barrier, Chen Feng had no choice but to think hard.

Suddenly, there was a flash of light in his mind, he patted his head fiercely, and cursed:

"Chen Feng, why are you so stupid? Unexpectedly?"

"If it is said that there can be one person in this world who can open the great formation left by Master, then who else can it be besides you?"

"Master left this big formation absolutely just to stop others, not to stop me!"

"Then, there must be a way to open it!"

Chen Feng thought for a moment, and was already confident.

Then, in his dantian, the small tripod suddenly emerged, and, with a sigh, appeared in front of Chen Feng.

This small bronze cauldron appeared in front of Chen Feng, about the size of a fist.

Since he previously smelted the fragments of martial arts crystals, there were already many cracks on it.

Now that he could barely maintain his shape, it was impossible to smelt martial arts crystals.

However, as soon as he appeared at this time, Chen Feng clearly felt that the barrier in front of him shook for an instant.

Then, an emotion called joy emanated from it.

Feeling this emotion, Chen Feng felt calm: "My guess is absolutely correct."

But at this time, without waiting for Chen Feng's urging, the next moment, the bronze small tripod was directly floating.

At this time, there was also an extremely joyful emotion on this small bronze cauldron.

It's just that this joyful emotion is not about meeting old friends, or sensing the existence of relatives.

If the joy of this bronze small tripod is as complicated as the joy of human beings, then his mood at this time is probably like Chen Feng's finding a treasure of heaven, spirit and earth, and finding it is extremely beneficial to his cultivation. The emotions of something!

Then the next moment, the bronze small tripod was attached to the barrier.

It is strange to say that this barrier is so thick that Chen Feng can't open it no matter how he tries to do it.

At this moment, it suddenly collapsed.

Then, the barrier in front of Chen Feng directly drifted away, turning into a strong source of strength, directly pouring into the small bronze cauldron.

The bronze Xiaoding trembled violently and kept absorbing.

In an instant, the cracks on the surface of his body disappeared in large quantities and began to heal.

Even the surface began to emit a bright light.

Later, the bronze small tripod was not enough to be enjoyable, and the body directly appeared and turned into a huge bronze tripod hundreds of meters high!

There it was like a whale swallowing sea water, absorbing it frantically.

Chen Feng looked at him and was not surprised.

He had thought that this would be the case before, and he was just watching this scene with a smile at this moment.

This absorption took three full days!

Finally, this barrier completely disappeared.

[Chapter 3717: Mystery! Finally entered!](#)

At this time, the bronze cauldron had completely changed its appearance.

No, it should be said that there is no change on the surface, but the momentum is completely different!

The whole surface is round and mellow, without any flaws.

Even Chen Feng felt that even the hidden injuries in his body had disappeared.

At this time, the aura he showed was even more of a suppression of heaven and earth!

Incomparably domineering, extremely powerful, as if the mountain under pressure had to sink so many feet!

Even, it gives people a feeling of wanting to worship.

Chen Feng took a deep breath, a look of excitement appeared on his face: "Is this the true appearance of the bronze Xiaoding?"

"Is this the true power and aura of the bronze Xiaoding?"

The giant bronze cauldron was still the same color, but it had a bit more deep and dull luster.

Guanghua restrained!

But Chen Feng still felt that it seemed that this large bronze cauldron had a vague meaning that was still unfinished.

It seems that he is not his strongest form and original form.

It seems that precipitation and awakening are still needed!

At this time, after the bronze small cauldron had absorbed the infinite energy, his whole body trembled violently.

Then, countless black aerosols sprayed from the body.

These black aerosols are very stench and are obviously highly toxic.

As soon as it touches the ground, it will corrode the ground one after another and spread directly downward.

It's like the most vicious and domineering atmosphere in the legendary hell.

Chen Feng smelled it, but he felt his head dizzy, his eyes blinded, and Venus stared wildly.

With a wow, a mouthful of blood spurted out, and he almost fell to the ground, already suffering minor injuries.

Chen Feng was astonished: "It's just the poisonous gas discharged from this large bronze cauldron, so there is such a violent poison and power?"

He whispered to himself: "Before, even if the bronze cauldron swallowed many pieces of martial arts techniques to improve him, but it did not excrete so many impurities in his body like this time. ."

"These things must be some impurities produced in the body of the bronze cauldron after being injured for these years and falling."

"It's as if a person has a lot of congestion and mottled and various hidden dangers in the body during a long-term serious illness and serious injury."

"And now, after absorbing all the power of this barrier, the large bronze cauldron is beginning to exclude these."

"That means!" **novelusb.com**

Chen Feng let out a sigh of relief: "This big bronze cauldron needs to absorb all the power of a Seven-Star Martial Emperor or above level before it can truly and completely wake up!"

"And if it weren't a coincidence, here, having absorbed so much power, I don't know how long and how long will he wake up."

Chen Feng was full of expectations.

Because he vaguely felt that this time after the bronze cauldron was silent, if it awakened again, it would be a complete awakening.

And I can see its true power!

"The mysterious and powerful body of this large bronze cauldron is far beyond my expectation. Its function is definitely not just smelting martial arts crystals!"

Chen Feng didn't dare to face him again, and backed away, just looking at the big bronze cauldron quietly.

At this moment, the black mist emitted from the body of the bronze cauldron quietly drifted away.

A gust of wind blows, and it blows away directly, disappearing without a trace.

At this time, Chen Feng made a move, and that bronze small tripod fell into his hands.

At this time, the bronze small tripod was completely silent.

There is endless vitality and power surging inside, and at this time it is silent, obviously already sinking into endless deep sleep.

Chen Feng thought for a moment, and then slowly nodded, feeling clear.

Even if it was this time, there were no other gains. It was a great surprise and gain just because the bronze small tripod had absorbed so much power.

Then, Chen Feng put away the bronze small tripod and walked forward.

Soon, Chen Feng came to a height of about 1.07 million meters, and there was still 10,000 meters from the highest point.

At this time, the range of the mountain in front of Chen Feng was already quite small.

At such a high altitude, there was no place on the peak that Chen Feng hadn't walked through, only a small tip remained.

This small tip is just tens of miles in radius.

Here, Chen Feng encountered another barrier.

However, this barrier is different from before.

After sensing the aura of the giant bronze cauldron on Chen Feng's body, the barrier automatically softened and formed a portal.

After Chen Feng entered, the barrier was quietly closed.

A smile appeared at the corner of Chen Feng's mouth: "Master, Master, you really have left me a lot of back doors!"

As soon as Chen Feng stepped into the range of this barrier, he was shocked.

It turned out that the scope of this barrier was completely different from the barren ruins outside.

The deserted ancient ruins are full of lifelessness, the aura of dying, which makes people particularly uncomfortable.

But at this time, after stepping into this barrier, Chen Feng felt a strong breath of life rushing toward his face.

Instinctively, he closed his eyes and took a deep breath of fresh air.

The air is clean, hearty and bright.

It was like the first clear weather after the rain, and a warm sun rose in the forest.

Chen Feng breathed greedily.

After a long while, he opened his eyes.

Immediately, he let out an exclamation.

It turned out that what appeared in front of Chen Feng at this time was absolutely impossible to appear in this barren ancient ruin.

Now, in front of him, there was a large forest!

A green, full of life, full of vitality forest.

The forest was paved directly on the hillside. There were huge trees everywhere, hundreds of thousands of meters high everywhere, and I don't know how many years it has grown here.

At the end of the dense forest, a steep mountain rose straight into the sky, exactly where the peak of the giant peak was.

Chen Feng was completely shocked.

Such a picture is not uncommon on the Dragon Vein Continent, but it is extremely rare in this barren ancient ruin.

After a long while, Chen Feng sighed slightly, his eyes gleaming with excitement and surprise.

"Presumably, this is Master's handwriting again."

"To be able to build such a scene in this deserted ancient ruin, the master's strength is far beyond my imagination!"

He looked up and saw that on the top of the mountain, there were endless emerald green lights flashing out.

It was full of vitality.

Presumably, maintaining this scene here depends on the emerald green light.

Then, Chen Feng strode forward.

Across this forest, a long stone step leads to the summit.

[Chapter 3718: One after another! Bronze giant gate!](#)

Chen Feng walked up the stone steps. He looked towards the top of the peak, but he didn't see anything, as if there was nothing on it.

Chen Feng was not impatient, just stepped forward.

And the more upward, the more throbbing in his heart.

This feeling is as if he had sensed it before he came to the ancient ruins.

Among the desolate ancient ruins, it came from Master's call!

That familiar breath!

Chen Feng's heart became more and more excited, because he knew that this was getting closer and closer to his ultimate goal of coming to the deserted ancient ruins!

However, when Chen Feng stepped onto the last step, suddenly, before him, it seemed like the sky was spinning.

Chen Feng felt that his whole person was dizzy, and his expression was in a trance.

After a while, he finally settled down.

And the next moment, when he saw the scene in front of him clearly, his mouth was suddenly opened, dumbfounded, and his face was full of shock.

It turned out that at this time, in front of Chen Feng, there was a huge square.

And at the end of the square, there is nothing but a door!

A big door!

Doors are very common, even very large ones. Chen Feng has seen so many huge doors of various materials and various materials in his life.

But at this moment, he was still shocked.

Because this door is really too big and too dazzling!

The entire body of this giant gate is made of bronze, and beside the giant gate, there are countless existences like clouds, spreading outward, never knowing where it spread.

This giant gate stands on the top of the peak, as if it were connected to the sky.

Chen Feng raised his neck and looked at the giant gate.

The neck was sore, I didn't even see the top of the giant gate!

Chen Feng stayed for a while, before faintly spit out: "How tall is this door? How big is it?"

This is really Chen Feng's first reaction.

Without it, it's really because this giant bronze gate is too huge and terrifying!

After a long while, Chen Feng struggled out of the shock.

From time to time, red light flashes above this giant gate, and on both sides of the gate are countless huge bronze blocks.

These bronze lumps are like bronze ore dug directly from the depths of the earth, without any smelting.

There were even some impurities on it, as well as traces of knives and axes when digging.

There are even textures born from that day.

It looks rough, thick, and desolate, revealing the breath of ancient wildness.

And on these huge bronze blocks, there are countless reliefs.

There are ancient battlefields, fierce battles between countless tyrannical creatures, and more kinds of gods, and so on.

Chen Feng has no time to look at the reliefs on these bronze blocks.

He now knows very well that he has only one thing at present, which is also the most important and difficult thing to do!

That is, how to open this door!

Chen Feng was not in a hurry, he first knocked on the door.

There was no sound, no sound, not even a hollow or crisp metal echo.

A wry smile appeared at the corner of Chen Feng's mouth: "That also means that the gate is too thick to imagine!"

"It is so thick that even the echo is swallowed."

Then, Chen Feng looked to both sides.

Although this gate is too high to see the end, the end is always visible on both sides.

The width of the gate is as large as tens of thousands of meters.

Chen Feng walked twice in front of this door. He wanted to see if there were any cracks in the door, or the side of the door was simply empty... Even this was just a door, so he could go behind the door. Case.

Of course, this situation is almost impossible.

But at any rate you have to try it, right?

But soon, Chen Feng was disappointed. On both sides of the gate were those heavy bronze blocks.

Beside the bronze block, a thick colored cloud spread backwards, not knowing how much it spread.

The clouds were dense and heavy, and Chen Feng couldn't get in at all.

In the end, Chen Feng came to the front door.

He now clearly realizes that he just needs to open this huge bronze gate that has been proven to be extremely heavy and huge.

This is a huge gate that looks like to lead to heaven!

"There is no doubt that behind this door should be the final secret Master stayed here, and it is also what Master wants to give me."

"At the same day, I was able to sense the things related to me and Master that existed in this desolate ancient ruin. It must be behind this giant bronze gate."

"Just, how to open it?" *NoVefusb.com*

Chen Feng tried to use all of his strength and use all of his strength to press on this giant bronze gate!

Then, push forward hard!

Nothing moved, no reaction.

It was as if Chen Feng pushed onto a mountain, the other party didn't even bother to pay attention to him or react at all.

Because at this time, the gap between Chen Feng and this giant bronze gate has even surpassed the gap between a mantle arm as a car and a mayfly shaking the tree!

even. There is nothing strange about this giant bronze gate at all.

Chen Feng smiled bitterly.

However, this result is what he expected.

And he did not give up. Next, Chen Feng tried all his powers and all methods.

He also summoned the spirit of martial arts, and the battle body of the gods appeared, and in the end even the bronze giant cauldron was of no use.

Chen Feng sighed softly.

He knew that with his current strength, he couldn't push it away.

"Then why did the master leave me such a message? Why would he want me to come?"

"It is absolutely impossible for him to come here to beat me!"

So Chen Feng settled down and continued to observe.

And soon, he made new discoveries.

It turned out that after careful observation, Chen Feng discovered that some dents appeared side by side at the height of the bronze giant gate about 100 meters above the ground.

Chen Feng counted them carefully, and there were twelve indents.

And each of these twelve dents is different.

The size is different, and the shape is different.

For example, now the dent on Chen Feng's left hand is three meters in radius, which is a square.

However, inside the dent, it gradually shrank, and finally formed a deep hole about ten meters.

This is a deep hole with a radius of three meters outside and getting smaller and smaller inside.

When Chen Feng saw this deep hole, a thought flashed in his mind for no reason.

If there is a large monster beast with a thick long horn on its head, it seems appropriate to chop off that horn and stuff it into this dent.

The dent on Chen Feng's right hand was only as thin as a sea bowl, and it seemed that it could only allow Chen Feng to put his arm in.

[Chapter 3719: Extremely harsh opening conditions!](#)

The dent next to it shows an arc.

The length is about 300 meters, and the width shrinks continuously from top to bottom, from a width of about 100 meters, and finally shrinks to a sharp point.

Chen Feng suddenly thought that if it were a giant bird with wings, cutting off its wings and pasting it here, it would be more suitable.

"Twelve dents, all different, what do you mean?"

"Does it mean that I need to collect twelve things before I can open this huge door?"

And just when this thought came to Chen Feng's heart.

Suddenly, thousands of lights flashed above the sky.

At the same time, there is a breath flowing out of the giant gate.

This breath, familiar, kind, and gentle, is exactly the breath of Yan Qingyu.

The next moment, above the sky, it condensed into Yan Qingyu's appearance.

Chen Feng's heart thumped wildly, looking at the phantom Yan Qingyu expectantly.

Chen Feng had long known that he might encounter such a situation here, so he didn't burst into tears as he used to.

Excitement in my heart is inevitable.

At this time, Yan Qingyu wears a crown with a crown, an ancient clothes, and a crown of five beams on his head. In addition to his love for Chen Feng, he is a bit more majestic and domineering since then.

His phantom is as high as 100 meters, as if it penetrates the sky.

Wearing a gorgeous purple-gold robe, he dragged it down long, like the afterglow of the sun.

He looked down at Chen Feng with a smile at the corner of his mouth, and said broadly, "Feng'er, it is quite unexpected for you to come here."

"Since you have come to be here, you must be very strong."

"However, this does not mean that you can get what is behind this huge bronze gate."

"The things behind this giant bronze gate are related to the entire barren ancient ruins, the deepest level, and the ultimate secret!"

"Extremely terrifying, without the power to match it, it is impossible to bear it."

"You can't do it with your current strength."

Chen Feng's heart was pounding.

"Behind the giant bronze gate, it turns out to be the ultimate secret about the entire deserted ancient ruins. What kind of ultimate secret?"

Chen Feng didn't know what this secret was, but he knew very well that if he had obtained this secret, his absolute strength would increase sharply, and he would get extremely huge benefits.

The strength will advance by leaps and bounds, reaching an unimaginable level!

You know, the power of the desolate ancient ruins is definitely not lower than that of the Dragon Vein Continent, or even higher.

This is just because the world has fallen to pieces, and it looks lifeless.

If this world hadn't collapsed, then his power level should even surpass the Dragon Vein Continent.

Yan Qingyu continued, "Did you see the twelve dents on the gate?"

"These twelve dents, each dent represents a part of a powerful ancient Ming beast!"

After speaking this sentence, Chen Feng was immediately shocked.

"Could it be that what I guessed just now turned out to be correct? Is it really what I thought?"

Then, what Yan Qingyu said confirmed Chen Feng's guess.

"Now you must also know that this barren ancient ruin is divided into thirteen areas."

"Except for the ancient death site in the most central place, each of the other twelve areas is home to this powerful ancient Ming beast race."

"And what I want you to do is!"

His voice at this time had already become cold and merciless: "Go and kill the twelve ancient Ming beasts, the most powerful king among the twelve ancient Ming beasts!"

"Cut off the most conspicuous and precious part of them, and put them in this dent."

"Then, naturally this door can be opened!"

"If you can't do it, you won't be qualified to inherit the contents of this door!"

After saying this, he glanced at Chen Feng deeply, his eyes were extremely complicated.

Then, Yan Qingyu's phantom disappeared directly.

However, Chen Feng stood still in a daze.

Sure enough, this was the same as he had previously guessed.

However, his previous guess was vague, and now this guess has been confirmed.

But the next moment, Chen Feng wanted to cry without tears, looking at the direction Yan Qingyu was dissipating, and shouting: "Master, you play with me!"

"God! What kind of task is this to be completed!"

This is really an extremely harsh condition.

This means that Chen Feng wants to kill the king of these twelve ancient Ming beasts!

You know, in this barren ancient ruins, there are more than tens of thousands of ancient Ming beasts?

However, there is only one kind of ancient Ming beast that can control every area.

This in itself can explain that this kind of ancient underworld beasts are numerous and powerful, and they can suppress other ancient underworld beasts!noVeluS**b**.com

And each of these ancient Ming beast tribes is more than tens of thousands?

Even its number should be in the hundreds of thousands!

Moreover, such a huge amount

Take Yunwu Divine Bird as an example, an ordinary Yunwu Divine Bird, its strength reached the two-star three-star Wudi.

A tribe with thousands of misty birds, their leader strength is comparable to the four-star Wudi peak.

So, how strong will all the kings of the misty birds be?

I'm afraid that the six-star Wudi will not stop with the seven-star Wudi!

And Chen Feng wanted to hunt down twelve king-level ancient beasts of this level!

What kind of task is this?

However, Chen Feng's complaint did not carry any resentment, but rather like a child acting like a baby to his elders.

Then he returned to normal with a solemn expression on his face.

Then he smiled and said, "Master, since you asked me to do this, then I will do it!"

"Hahaha, isn't it the twelve ancient beasts? Just kill it!"

Chen Feng was full of lofty ambitions.

What he was afraid of was never hard, but he was completely at a loss and couldn't find any way!

After all, Chen Feng turned around and left without any nostalgia.

Now that I know that I can't open it, there is no use in staying here, so it's better to improve my strength quickly.

Obviously, the top of this mountain has been sealed by Yan Qingyu's secret method, and it is impossible to absorb the gods here.

Chen Feng has to change place.

Soon, Chen Feng left here.

What Chen Feng didn't know was that just three days after he left the remains of Yan Qingyu, a figure suddenly flashed here.

This person is dressed in a white robe, has a slender figure and a handsome appearance.

It's just that his face is a little too pale, and he has a hint of femininity.

And around his body, there are countless powers surging like a huge black wave, it seems that this huge wave is surrounding him and directly bringing him here.

#### [Chapter 3720: Did you catch up?](#)

He doesn't seem to take any effort himself.

After he came here, he first came to the site of the vicious formation and took a closer look.

Then, without a word, with a cold face, he moved forward quickly.

Soon, he came outside the inner formation under Yan Qingyu's cloth.

After arriving here, he found that this barrier had disappeared.

Obviously, the formation has been broken.

His face was so pale and ugly, he gritted his teeth and said, "I couldn't break these barriers with all my strength!"

"And now, this barrier has disappeared?"

"Who is it? Who did it!"

"Who the \*\*\*\* did it?"

He was madly angry and furious!

After roaring loudly here for a long time, it returned to normal.

Then, he suddenly twitched his nose twice, as if he could smell something strange.

Then, came to the front.

Then when he reached out his hand, he caught it in the air.

Obviously there is nothing in his hands, but he seems to have caught some breath.

Then, he felt it carefully, then gritted his teeth and said coldly: "Sure enough, a little thing came here and destroyed this barrier."

"Now, I have caught his breath!"

After saying this, it is forward again.

Then, it came to the thin layer before the last barrier.

This barrier is easy for Chen Feng to enter, but for him, it is like a moat.

This person madly attacked the barrier, but it was of no use.

All the offensives were bounced back by this barrier, and even beat him to the head.

The crown on his head was also dropped, the robes on his body were also torn, and his face was covered with blood. The whole person was embarrassed and fell directly to the ground, gasping for breath.

At this moment, he suddenly thought of something, and all of the anger and shame on his face disappeared, and then suddenly turned into a touch of ecstasy, loudly said:

"Yes, yes, that's it!"

"Just now, the breath of that kid I caught from there, I clearly feel that he is not strong, why can I get in here?"

"This also means that he is the descendant of the old thing that left the secret realm of this site!"

"Yes, it must be!"

He suddenly got excited, walked around in place, clapped his hands and said loudly, "He must have a way to enter here. If he wants to come, he may have already entered here, and he has received great benefits!"

He sneered and said, "I can't deal with the secrets left by this old thing. Can I still deal with this kid?"

"Hahaha, great, great!"

"This is not a bad thing for me, but an opportunity!"

After a long while, his breath suddenly changed, and suddenly became extremely cold and calm, as if he didn't take this matter to heart.

He just raised his head and sighed faintly: "Boy, I have caught a trace of your breath."

"Don't worry, I can find you."

"At that time, I will squeeze all the secrets from you!"

"And you will be extremely miserable."

Just when Chen Feng left this place, suddenly, an extremely dangerous feeling spread in his heart.

In an instant, a heart was violently clenched, and blood rushed out frantically.

At this moment, he had a sharp pain in his chest, his figure shook, and he almost fell.

Chen Feng was shocked and quickly stabilized his mind. *novelusb.com*

And soon, he knew what had happened.

It took Chen Feng for a long time before he returned to normal. He sighed softly, with an elusive smile at the corner of his mouth, and said softly: "Sirius, Sirius, do you seem to be ready to do it?"

It turned out that at this time Chen Feng faintly felt a fierce murderous intent.

And this murderous intent gave him a very familiar feeling, which he felt when dealing with the previous Sirius team.

Of course, it feels similar to the rest of the Sirius team, but it's completely different inside.

After all, those people are not Sirius, but every time Chen Feng killed everyone in the Sirius team, he felt a trace of spiritual connection.

Obviously, Sirius definitely determined his whereabouts and strength by letting them die.

Sirius definitely put such a spiritual link on each of them.

Chen Feng was able to roughly feel the aura of Sirius by beheading them, and now this aura gave him a very obvious aura.

Just like a knife that had been blunt before, it didn't pose any danger to people.

Now, the knife has been sharpened, burned red, with strong wine quenched on it, ready to kill!

So naturally, Chen Feng was aware of it.

"It seems that Sirius finally couldn't help it. He thinks that now is an excellent time, and it is also time to kill me!"

A sneer appeared at the corner of Chen Feng's mouth.

There is tremendous pressure in his heart!

That's Sirius!

How terrifying is the dignified five-star Wudi?

It is not what he can contend now!

"But, so what?"

Chen Feng suddenly let out a violent roar: "What about Sirius? What about Five-Star Wudi?"

"I Chen Feng, how can I give in?"

"It's just a battle!"

He slowly clenched his fists, a flash of madness in his eyes.

In fact, Chen Feng knew a few days ago that Sirius would definitely do it himself.

He also knew that this battle would never escape.

And Chen Feng didn't think about avoiding, running away, begging for mercy, or even thinking about using one of his trump cards to escape back to the Xuanyuan family!

There is only one word Chen Feng thinks about, and that is: war!

As Chen Feng moved forward at great speed, he kept turning his mind and thinking quickly.

Chen Feng wanted to fight Sirius.

But Chen Feng was not a fool, nor did he want to die.

In fact, on the contrary, Chen Feng is an extremely smart opponent.

"Sirius, since he can summon the spirit wolf from the demon world, and he can also put so many spiritual links on his hands."

"Plus the news I got from the dead snake before, it can be judged..."

A light flashed in Chen Feng's eyes: "Sirius is a person with extremely strong mental power, but relatively weak physical strength."

"He is a five-star martial emperor who is more inclined to spiritual power!"

"So, I still have a chance to face him!"

"After all, I still have those few hole cards!"

A smile appeared at the corner of Chen Feng's mouth, his eyes calm, his face was full of confidence, and he clenched his fists:

"At that time, I will fight with the strongest strength I can currently achieve."
