[Chapter 3731: Thor's Soul Fragment!](#)

After a long time, Chen Feng said lightly: "I just said that whoever moves her, I will kill her!"

He walked forward slowly: "Lei Xinglan, I, Chen Feng, never make a false statement!"

"Want me to spare you? Give me a reason!"

At this time, Mu Jianhong felt that his brain was blank, and there were only four words in his heart: "How is it possible!"

Chen Feng's terrifying strength has completely scared her stupid.

After a long while, he returned to normal, and then a wry smile appeared at the corner of his mouth: "Why should I be surprised?"

"It shouldn't be! Because he is Chen Feng! It is not unusual for anything to happen to him!"

She patted her face in a self-deprecating way, and she whispered: "Mu Jianhong, you thought Chen Feng was just as strong. You thought Chen Feng was not Lei Xinglan's opponent, and you were even thinking about how to help Chen Feng. plead."

"You are really passionate. Chen Feng's strength is so terrifying, why do you need to intercede?"

Chen Feng has already been murderous against Lei Xinglan, how could he easily let him go?

However, Chen Feng is not a murderous person, if he can really bring out enough weight, Chen Feng will let him go.

After all, to put it bluntly, his life is bad, who is rare?

It's better to change some treasures!

Moreover, he was cleaned up by Chen Feng today, and it was more painful to live than to die.

As long as he is alive, he will remember the huge humiliation suffered by Chen Feng today.

Lei Xinglan's eyes turned suddenly.

At this time, Chen Feng had already noticed her expression, and walked to him with a smile, pressed his hand on his head, and said with a light smile:

"Actually, you don't have to be honest."

"For example, you can get anything out to buy your life, you can deal with me, it doesn't matter."

Chen Feng smiled and said: "Well, I don't guess what good things you have here, nor do I wonder if what you gave me is your best thing."

"But, as long as I feel that the thing you brought out is not enough to buy your life, then!"

At this point, Chen Feng's voice was extremely cold, his hands were slightly tightened, and he whispered, "Take the palm of my hand, you can handle it yourself."

Lei Xing shivered violently.

After his cautious thinking was explained by Chen Feng's words, he never dared to have any crooked ideas or flukes.

Quickly trembled and said: "Master Chen Feng, I, I absolutely dare not deal with you, I will definitely give you my most precious treasure."

After all, he stretched out his hand.

In his hand, something the size of a fist had already appeared.

This fist-sized thing, the whole body is a bright white color, it looks like the best jade.

However, its surface is not hard and cold, but full of texture like clouds.

Illusory.

It gives people the feeling that this is not a real object, but it happens to exist in the form of a real object.

On its surface and in its belly, there is a strong thunder power surging and tumbling, and thunder waves come and go.

To be more precise, it feels like a sealed snow-white thundercloud. In the thundercloud, countless thunder is brewing!

The things Lei Xinglan took out must have lightning attributes. Chen Feng had already guessed this.

After all, they claim to be descendants of Thor.

But even though Chen Feng was knowledgeable, he didn't recognize what this thing was.

He looked at Lei Xinglan with searching eyes.

Lei Xinglan said softly: "This thing is called Thor's Soul."

"The Soul of Thor?"

Chen Feng raised his eyebrows and said with a faint smile: "Is it really the soul of the ancient Thunder God?"

The ancient Thunder God was an existence that only existed in legends, and it was said that the strength was at least above the Martial God Realm.

What a powerful treasure is this horrible soul? How could the Lei family get it?

Lei Xinglan said with a smile: "You laughed, how precious is the real Thor Soul? How can we get it?"

"The Thor's Soul handed down by our family is actually a fragment of Thor's Soul, and there is only a trace of Thor's Soul in it. Other things are added later."

Chen Feng frowned, but did not interrupt, allowing Lei Xinglan to continue.

Lei Xinglan said in a deep voice: "The real Thor Soul, the most precious, it is something of the level of an artifact, and it is not what we can get."

"And our ancestors, who are said to be descendants of Thor, also have some secrets about Thor."

"Back then, the ancestors collected a total of 490,000 catties of soil that had been soaked in the blood of the Thunder God in the Land of the Fall of Thunder God, and then smelted it for decades."

"In the end, I got three pieces of Thor's Soul."

"It should be noted that there is also a trace of soul power in the blood."

He looked at Chen Feng and knew that Chen Feng was impatient to listen to these nonsense, and he said solemnly: "This fragment of Thor's Soul is also extremely powerful."

"If you want to rank a rank, then at least you can reach the pinnacle of the second rank!"

"The pinnacle of the second-tier magic weapon!" *NoVeuSB.cOm*

Chen Feng's heart trembled fiercely, which was almost a level stronger than the Star Falling Bow he got from Dead Snake!

Lei Xinglan continued: "This Thor's Soul fragment can strike three extremely powerful attacks, and each attack is powerful and powerful."

"How powerful is the power of thunder and lightning?" Chen Feng immediately asked keenly.

Lei Xinglan said solemnly: "Equivalent to the full blow of the Five-Star Emperor Wu!"

Chen Feng nodded and let out a long sigh.

Lei Xinglan continued: "Not only is it powerful, it also has the ability to paralyze."

"If the enemy is not a lightning attribute, then after being hit by this move, the whole body is trembling, paralyzed, and unable to move."

Chen Feng's eyes lit up when he heard this, and he immediately seemed to have thought of something.

He said solemnly: "How long can people be paralyzed?"

"The stronger the strength, the shorter the paralysis time."

"However, the shortest and the shortest can also numb a breath!"

"One breath!"

The corner of Chen Feng's mouth was slightly tilted, a smile was outlined, and he sighed softly, his body seemed to be stretched.

"One breath is enough to do many things."

Lei Xinglan seemed to be desperately introducing himself in order to escape, trying to attract Chen Feng's attention.

"Not only that, after using this thing three times, it will not be too small. It can also be placed in thunder and lightning weather, or it can be supplemented by a powerful person who controls thunder and lightning."

"After the supplement is complete, you can continue to use it."

[Chapter 3732: Extreme anxiety!](#)

"However, no more than nine uses at most."

Chen Feng nodded: "I see."

This thing is equivalent to releasing nine offensives that are equivalent to a five-star martial emperor's strike and has a paralyzing effect. It can be regarded as very tyrannical. No wonder it has reached the pinnacle level of the second-tier magic weapon.

Lei Xinglan looked at Chen Feng with a sullen expression, and said, "This thing is one of my trump cards, very powerful."

"Unexpectedly, I ran into you."

He sighed, and Chen Feng was very clear about his subtext.

This Lei Xing Lan is also unlucky. His fragment of Thor's Soul possesses extremely tyrannical power. If he were to be replaced, even if his strength was comparable, he would definitely not be beaten so embarrassed.

Maybe he will be counter-killed by his hole card.

After all, if he used this hole card, he would definitely be able to come back.

But unfortunately, he met himself.

The thunder blood crystal in his hand can absorb all the power of thunder and lightning!

He has nothing to do with himself, it can only be his luck.

Lei Xinglan continued, "Of course, this thing has another purpose."

"What is it for?" Chen Feng asked.

"That is, after completely sacrificing all the times of use, paying the price of the damage of the Thor's Soul fragment, you can burst out a powerful offensive!"

"What level of formula?"

Chen Feng stared at Lei Xinglan.

Lei Xinglan said word by word: "The power of this offensive is equivalent to the full blow of the five-star Wudi peak!"

When Chen Feng heard this, he was instantly stagnant, and his breathing seemed to stop!

He felt that the air around him seemed to freeze, and his heart was pounding, and there was a look of excitement in his eyes.

Although he was still expressionless, he was already extremely excited: "Great! Great!"

"Unexpectedly, I would get such a powerful magic weapon here!"

"With this magic weapon, I can play another hole card!"

"In the battle with Sirius, we can have a little more chance of winning, and this hole card may even completely affect the battle between us!"

Seeing Chen Feng groaning silently, Lei Xinglan looked at Chen Feng eagerly, and Nuonuo said, "Master Chen Feng, can I go now?"

Chen Feng smiled slightly: "Okay, I will spare you my life now."

"But, you can't go yet."

Suddenly, Lei Xinglan turned pale with fright, thinking that Chen Feng still hadn't spared him.

Chen Feng laughed: "It's not your life, but you want to do something for me."

After that, he took out the Thunder Essence Crystal and placed it in front of Lei Xinglan, and said in a deep voice, "This Thunder Essence Crystal can absorb the power of Thunder."

"It's just that this thing has been silent for too long, and there is little thunder power left in it."

"Didn't you just happen to have the power of thunder and lightning? I will now let you use your thundercloud martial soul to continuously hit lightning until this thing overflows!"

Hearing this, Lei Xinglan's face suddenly became bitter.

How huge is this thunder blood crystal?

He had just hit so many thunder and lightning that he was only 30% full. If he wants to be full now, he has to exhaust all his power.

But he didn't dare to say a word, he just nodded and said, "Yes, let's do it for the small ones."

After all, it was sacrificed to the Thunder Cloud Martial Soul.

Then, a thunder and lightning crashed down, smashing into the thunder blood crystal.

But Chen Feng didn't even look at him, forgiving Lei Xinglan didn't dare to make any changes.

Chen Feng looked at Mu Jianhong, raised his eyebrows, and then said lightly: "Okay, now tell me, why are you here?"

Mu Jianhong glanced at Chen Feng with a complicated expression, and then whispered his experience again.

Chen Feng nodded slowly: "That's how it is."

"It turns out that your family paid a great price to let you enter this place."

Mu Jianhong nodded, and Chen Feng said again: "Then do you know that this deserted ancient ruin is in danger?"

"It is possible to get strong strength, but is it more likely to die without a burial place?"

"I know, but what else can I do? Staying in the Dragon Vein Continent is just waiting for death!" Mu Jianhong's face was bitter.

Chen Feng nodded, and said no more.

The friendship between the two hadn't reached that point, and he couldn't help Mu Jianhong.

This time, rescuing him from Lei Xinglan's hands was a return of love, and the two owed nothing to each other.

It's just that Chen Feng always feels that something is wrong.

He thought about it carefully, but found that everything was normal and nothing abnormal.

Chen Feng knocked his head and laughed at himself in a low voice, "Could it be that I'm too tired recently?"

After spending an entire hour, Lei Xinglan finally filled the thunder blood crystal.

At this time, the thunder blood crystal gleamed, and there were countless thunder and lightning in it, constantly arising and passing away!

At this moment, the phantom inside was completely solidified!

Awesomely condensed into a pattern of a lofty mountain cliff!

That pattern is very clear!

And somehow, the moment Chen Feng saw this pattern, three words suddenly flashed in his heart: "Thunder Bluff!"

Chen Feng was sure that he had never been to Thunder Bluff before, but at this time, there were just these three words in his heart!

At this moment, he was even more sure of the words Xuanyuan Xiaoyue told him that day.

A smile appeared at the corner of Chen Feng's mouth, and he sighed softly, "It's done, Xuanyuan Xiaoyue really didn't lie to me. My long-prepared trump card, I originally wanted to find some lightning seals, but now it seems that I don't need it anymore. !"

"This hole card can be used at any time!"

Turning his hand, he put away the thunder blood crystal, and a smile appeared on the corner of Chen Feng's mouth.

To be able to meet Lei Xinglan here is really a chance.

"Before Lei Xinglan, I only had two hole cards here, but these two hole cards are half-waste, and they may not be called hole cards."

"For example, when the energy of this Thunder Essence Crystal is exhausted, whether I can achieve my goal after using it is two things."

"These two hole cards can only be called disabled hole cards."

"And now, Thunder Essence Blood Crystal has reached its peak, full of thunder and lightning, and at the same time, it has obtained the fragment of Thor's Soul!"

"Then, my two half-wrapped hole cards have turned into two that will definitely be able to be activated. After activation, they will be successful, and they will definitely be effective. They may even have a powerful effect that exceeds my surprise!"

Lei Xinglan stumbled and stumbled: "Master Chen Feng, can I go now?"

Chen Feng came to him, patted his face lightly with his hand, smiled and said, "Remember to brighten your eyes later."

[Chapter 3733: I won't let you go, can you go?](#)

"Some people, you can bully whatever you want, and some people, you can't afford to provoke them!"

After all, he said coldly: "Get out!"

"Yes, yes, I'll go, I'll go now."

Chen Feng's current actions can be said to be extremely humiliating, but Lei Xinglan did not dare to fart too much. He actually lay on the ground and rolled outwards a few times, and then fled out with a rush of farts.

Seeing his performance at this time, Mu Jianhong felt like a dream.

Is this still Lei Xinglan?

Is this still the arrogant, tyrannical, domineering, incomparably arrogant Lei Xinglan who can decide his own destiny at will?

In front of Chen Feng, he was just a begging dog!

She looked at Chen Feng, her eyes filled with awe.

"It's not because Lei Xinglan is getting weaker, but because Chen Feng is too strong!"

At this time, Lei Xing ran away in a piss.

At this time, Chen Feng suddenly felt a strange feeling in his heart.

It's as if I missed something.

That feeling made him very uncomfortable. It seemed that he had missed something, but he couldn't remember what he thought.

Moreover, everything is business as usual without any problems!

At this time, Lei Xinglan had already walked out tens of meters.

He stood up and walked out, looking at his back, Chen Feng clearly saw a trace of fear, a trace of panic, and...*novelUsb.cOm*

A hint of joy!

"Sleep? Why did he stun? Why did he stun with such a heavy loss?"

At this time, Chen Feng's anxiety finally reached an extreme!

Suddenly, as if a flash of light flashed in his mind, he immediately turned his head to look at Mu Jianhong, and said in a deep voice: "Your family, what price did you pay for bringing you here?"

Mu Jianhong froze for a moment, but immediately replied instinctively: "Our family's ancestors passed down the Wild Grade 1 martial skills, a handful of soldiers of the 8th rank emperor, and 90 million dragon blood amethysts."

"That's it?" Chen Feng asked anxiously.

"that's it."

Mu Jianhong nodded in surprise.

Chen Feng's mind was like a blast of thunder, and half of the moment flashed, the anxiety in his heart reached the extreme, and then it was broken!

He figured it out all at once, and figured it out all at once!

The sudden sense of openness in his heart made him feel extremely comfortable!

Chen Feng immediately understood the key, and understood where his anxiety was!

He screamed: "Lei Xinglan, get me back!"

But at this moment, Lei Xinglan turned around abruptly and looked back at Chen Feng.

However, one of his face has been completely distorted and full of spite.

And his eyes are even more like the eyes of a viper.

Vicious and vicious.

He stared at Chen Feng and screamed: "Chen Feng, you wait for me, I will remember today's affairs!"

"In less than a month, I will be able to increase my strength, and then, let you die miserably!"

At the same time, there was already something like a red crystal ball in his hand.

At this time, around the red crystal ball, light flickered.

The red light enveloped the Lei Xinglan, like an inverted big clock.

And that light even penetrated into the ground, forming a small circle one meter in radius on the ground.

This circle is not big, but it is enough to accommodate Lei Xinglan.

Moreover, above this magic circle, there was an extremely strong force of time and space fluctuations!

Obviously, this turned out to be a teleportation array!

At this time, Lei Xinglan had to escape with this teleportation formation!

And this teleportation array didn't know where it was going, it was impossible for Chen Feng to catch him.

Lei Xinglan laughed bitterly: "Chen Feng, you almost broke my Lei family event!"

"I tell you, Chen Feng, if you let me go today, it is definitely the most stupid thing you regretted most!"

"I will definitely kill you! I will not only kill you, but also slaughter your Xuanyuan family!"

"After my goal is achieved, your Xuanyuan family will only exist like ants in my eyes!"

"Hahaha..."

He laughed wildly!

At this time, even his figure has gradually become blurred.

Obviously, this teleportation array is at play.

At this time, Chen Feng's eyes were cold, and he didn't say a word, but rushed forward in large strides.

Lei Xinglan immediately burst out with a disdainful laugh: "Little boy, are you crazy?"

"My teleportation array has already taken effect, and the power of time and space has begun to operate. Do you still want to keep me? Dream it!"

"You want to stop me, the only end is to be involved in the turbulence of the space, and you can never live beyond!"

"Alive in the turbulent flow at that time, starved to death and exhausted! Hahaha..."

He was extremely proud.

He believes that Chen Feng has nothing to do with him, and there is nothing he can do about it.

He even proudly took his right hand and made a gesture of cutting his throat, full of provocation and disdain.

But at this moment, Chen Feng's mouth suddenly showed a sneer.

In that smile, there was a sense of confidence: "I won't let you go, can you go?"

The next moment, a group of golden and red light suddenly appeared in Chen Feng's hand.

This turned out to be a cassock!

There was a bright and mysterious power shining on it.

This was actually the ancient Buddha robes that Chen Feng had acquired a long time ago!

This ancient Buddha cassock was something that Chen Feng acquired long ago. For him now, his power is already a bit weak, and there is no way to protect Chen Feng.

In fact, Chen Feng hadn't taken out this robes for a long time.

However, at the moment of the electric flint, you might be panicked if you change one person, but Chen Feng's brain is running fast!

So, he immediately thought of something that could interrupt the movement of time and space!

This is the ancient Buddha robes!

Chen Feng immediately took it out.

Although the ability of this ancient Buddha's robes could no longer keep up with Chen Feng's strength.

However, don't forget that this ancient Buddha robes is a treasure that can carry Chen Feng between the Dragon Vessel Continent and the Buddha's bones!

That also means that there is a strong power of time and space on it.

It also means that as long as it appears, it can definitely interrupt the operation of this teleportation array!

To react in such a short period of time and take countermeasures, Chen Feng can really be said to be extremely keen!

The next moment, the golden-red ancient Buddha cassock in Chen Feng's hand directly enveloped the teleportation array.

It is strange to say that when the two first touched, on the ancient Buddha's robes, there was immediately a strong force of time and space.

[Chapter 3734: The real purpose of Lei Xing Lan!](#)

This power of time and space is not very strong and powerful.

In fact, compared with the time and space power of this teleportation array, this power can even be said to be insignificant.

However, this force, as long as it appears, is enough.

This power, no matter how small it was, interrupted the movement of this teleportation formation.

So the next moment, the teleportation array actually stood still.

And the red light stopped, no longer bright.

Lei Xinglan shouted like a ghost: "What's going on?"

The next moment, the red light suddenly faded, and then with a bang, it was directly broken.

This teleportation array blows up together with all the red rays!

Even above the red crystal ball held by Lei Xinglan, there was a burst of black smoke.

The crystal ball made a crackling sound, and it broke into countless dust and disappeared.

And Lei Xinglan suddenly fell out of the sky, and his face was full of disbelief and shouted: "How is it possible? How is it possible?"

Before he landed, one hand pinched his neck to lift it up, and choked his words into his throat.

Chen Feng put away the ancient Buddha robes, then smiled and said, "I didn't say let you go, can you go?"

This is the second time Chen Feng said this sentence.

When he said this for the first time just now, Lei Xinglan didn't take it to heart at all, but thought that Chen Feng was talking nonsense.

But now he knows, it turns out, this is the real truth!

Lei Xinglan was trembling and paralyzed on the ground, looking at Chen Feng, the fear in his eyes almost became real.

He looked at Chen Feng's gaze like a demon god.

His heart screamed wildly, filled with disbelief: "How is it possible? How is it possible?"

"My teleportation array has obviously started, and the power of time and space has clearly worked, why can he stop me?"

"Why!"

Chen Feng smiled and said, "I said, I won't let you go, you can't go!"

Lei Xinglan let out a desperate roar, and rushed towards Chen Feng frantically.

Seeing that, it turned out to be desperate to fight Chen Feng.

Chen Feng laughed loudly, and hit his Dantian with a punch.

Suddenly, his dantian suddenly shattered, and huge power overflowed everywhere.

The incomparable power of thunder and lightning rushed madly, and in a blink of an eye it was covering a radius of hundreds of meters, becoming a country of thunder and lightning.

After a long time, the thunder and lightning disappeared.

He looked at Chen Feng's cold face with horror, and the next moment, a huge fist appeared in his sight.

That fist got bigger and bigger, and eventually filled his entire vision!

Chen Feng slammed his face with a punch, directly screamed, and leaned his head back heavily.

Chen Feng said coldly: "You yelled at me just now? Was it arrogant?"

Another punch hit his face, and another scream!

"You said you want to kill me? It's arrogant?"

Then there was another punch!

"You just said you want to slaughter the Xuanyuan Family? You are crazy!"

Then there was another punch!

"You just gestured at me to wipe my neck? You're so **** crazy!"

When Chen Feng said this, his voice suddenly rose up and turned into a violent roar. He kicked his chest fiercely, kicking him with blood, and he was directly injured and dying!

At this time, Chen Feng said indifferently: "Well, now we can say business."

Lei Xinglan was already slumped to the ground, looking at Chen Feng with a twitch, his eyes filled with fear and despair.

Chen Feng looked at him and said lightly: "I heard it very clearly just now. You told me that this time I almost broke your Lei family's major event."

"And you are going to kill my Xuanyuan family cleanly afterwards."

"so!"

He stared at Lei Xinglan, and said word by word: "Your Lei family has done a lot this time."

"You came to the deserted ancient ruins this time. You definitely have an extremely important and secret mission."

"So that the completion of this task can even make your Lei family's strength from second only to the nine powers to become a superpower above the nine powers."

Hearing what Chen Feng said, Mu Jianhong was stupid, standing there blankly, his face full of disbelief.

Chen Feng looked at Lei Xinglan, smiled and said, "I believe that under the situation just now, you should not lie."

"So, tell me about this task now!"

Lei Xinglan yelled frantically, "Anyway, my cultivation base has been abolished, and I am going to die. If I tell you, it's a death!"

Chen Feng smiled and said, "If you tell me, I will make you die faster."

"If you don't tell me, don't worry, you can't die!"

In this sentence, cruelty came to his face.

Lei Xing shivered violently, but did not speak, just gritted his teeth and stared at Chen Feng.

Chen Feng sighed: "Why do you have to force me?"

After a while, Lei Xinglan's screaming scream was frantically: "I said, I said, I said everything!"

As soon as the words were spoken, the severe pain disappeared without a trace.

Lei Xinglan was panting, his face full of tragic expression.

At this time, he only wanted to die quickly and didn't care about anything, so he explained the reasons for his trip to the deserted ancient ruins in detail.

He gasped hard and stared at Chen Feng, his eyes screaming as if he were looking at a devil: "You really are a devil, a devil who looks at people's hearts!"

"I can't hide any secret from you!"

"Yes, I didn't come this time for any messy reasons."

"In fact, this is the fourth time I have come to the ancient ruins!"

"When I came here three times before, I already got a rough idea of the details."

"So this time when I come to the deserted ancient ruins, our Lei family will give me that vital task!"

"Not only because I am the son of Lei's family, but also because I know this well, and only I can complete that task!"

"What is the mission?" Chen Feng said word by word.

Lei Xinglan stared at Chen Feng and slowly uttered a word: "About a lost ancient artifact, it may even be the secret of the only artifact in the entire Dragon Vein Continent!"

"What? Ancient artifact? The secret of the only artifact in the Dragon Vessel Continent?"

After Chen Feng heard these words, he felt an emotion called shock that filled his heart.

He did not control this emotion, but this emotion was actively diffused after being stimulated by these words.

Chen Feng immediately asked, "What is it?"

Divine weapon is different from divine weapon, it is far superior to divine weapon, so it is said that it is extremely powerful, and only the power of the **** level can control it!

[Chapter 3735: Fallen Thor's Hammer!](#)

"I'll show you a look and you will know what it is."

The next moment, Lei Xinglan took out an extremely old stone slab from his arms.

This stone slab has not known how many years it has gone through. It is old and awkward, with several symbols painted on it, desolate, messy, and primitive.

It looked like a rock painting painted in the original cave by the ancestor of man tens of millions of years ago.

Full of ancient barbaric meaning.

In the next moment, he crushed the stone slab.

And as the stone slab shattered, there was a sudden illusory picture in the sky!

Chen Feng's heart was shocked, and he immediately understood that this was actually a sealed period, and he did not know what actually happened many years ago.

And as the picture appeared, Chen Feng saw that in the center of the picture was a tall, extremely burly and strong man!

This man was wearing a black armor, and on the armor, there were countless white lines, like lightning bolts!
NovelUSB.COM

He shaved a bald head, and on top of his head, there was a cyan-gold sledge hammer that was engraved with countless patterns of thunder and lightning!

This giant hammer turned out to be as big as a mountain!

A hammer is as huge as a mountain!

This green-gold giant hammer, at first glance, knows that it is extremely heavy, and it is made of the most top metal material, but on the contrary, it has a delicate texture like wood grain!

In that primitive, rough, and heavy, it also gives people a sense of woody and delicate.

Moreover, the patterns of the violent thunder and lightning on the cyan golden giant hammer were actually formed by the wood grain on it!

Fetish is born!

This is the top god-level material in the legend!

And it is an extremely rare god-level material with dual attributes of wood and gold!

The five elements thunder belong to the wood, and this Ben Lei has the attributes of wood.

He stood proudly on the sky, and around his body, thunderclouds rolled and plasma shot.

Countless thunder and lightning surround his body like the most docile pet.

He laughed wildly, and then, with every slash of the green gold hammer in his hand, there was endless lightning, which originated from the void of the universe, passed through the wood grain on the green gold hammer, and then turned into mighty Unparalleled, there was a thick thunder pillar as thick as a mountain, crashing down!

Falling on the sky, tearing the sky apart, numerous huge cavities appeared!

Falling on the earth, the mountain range tens of thousands of miles around was blasted into fragments!

Fall on the ocean and steam the ocean directly!

That mighty, powerful!

Although this is just a phantom, this is just a picture of not knowing how many years of money, but at this time, Chen Feng could not help but hold his breath, and his whole body was trembling!

There was a strange look in his eyes, and the light was blooming!

"What kind of power is this? This is the power of moving mountains and filling the sea!"

"Even the strongest warrior in the Dragon Vein Continent does not have such strength?"

"It feels like, under his attack, the whole world will be wiped out in ashes!"

When Mu Jianhong saw this scene, he was straightforward, wow, a mouthful of blood spurted out.

He was shaking, almost fainted.

She turned her head quickly, not daring to look again.

It's just a phantom, just the image in the phantom, it has already caused such a big shock!

And at this time, on the sky above the sky, besides this powerful and magical man, there are other enemies.

After seeing these enemies, Chen Feng's pupils suddenly shrank.

These enemies, including human warriors, and acquaintances he had ever met, were actually the powerhouses of the demon world!

There are also some strange monsters, all kinds of monsters, all of them are ferocious and brutal!

On the ground, there is already a ruin!

That powerful man like a god, every time he wields the green gold giant hammer, there is an endless light of thunder and lightning smashing down, blowing these enemies into a piece of debris!

Chen Feng stared at him unblinking, feeling that every swing of the green gold giant hammer seemed to contain the truth of heaven and earth.

He didn't know who this person was, or who those enemies were.

The only thing Chen Feng knew was that even if it was the weakest one in it, even if it was an existence that could be smashed by lightning by this powerful deity, he was far from an opponent!

Even the weakest one in it, you don't need to do anything, look at yourself, a thought can kill yourself!

Horrible!

The aura on them is terrifying to the heart!

But at this moment, with a snap, the image was directly broken, and the illusion disappeared without a trace.

Chen Feng looked at Lei Xinglan.

Lei Xinglan said with a wry smile: "It's not my ghost, in fact this image can only last so long."

Chen Feng nodded, he naturally believed this.

Then, Lei Xinglan breathed heavily, and said, "You saw it just now, that man, that very powerful man!"

"Who is he?"

Chen Feng asked immediately.

"He is Thor!"

"Thunder God!" Chen Feng trembled fiercely.

Actually, there really is Thor?

These gods actually existed?

But after thinking about it, he laughed at himself: "The martial artist is so powerful that he can naturally be called a god."

"To put it bluntly, it's just an extremely powerful warrior. What's so surprising?"

Lei Xinglan then stared at Chen Feng and said: "The secret our family is looking for, the accumulation of our family for thousands of years, the purpose of my trip to this deserted ancient ruin..."

At this point, his face was tragic, and his eyes showed a look of extreme regret.

He stabilized his emotions, and then continued: "The ultimate goal of all this is for the weapon in Thor's hands!"

"The name of this weapon!"

With a groaning tone, he trembled: "Named, it's called the Fallen Thor's Hammer!"

"The Fallen Thor's Hammer!"

When these seven words were spoken, Chen Feng felt as if there was a huge rolling thunder that exploded in his heart!

At this moment, there was a tremor in his heart, and he almost felt a sense of worshipping and kneeling on the ground.

Chen Feng was astonished: "What is the level of this weapon? Is it a legendary artifact?"

"Just hearing this name, there is a sense of awe that makes me worship!"

Without waiting for him to ask, Lei Xinglan said loudly: "This artifact is not Thor's real weapon."

[Chapter 3736: Fifth rank magic weapon!](#)

"It took Thor 10,000 years to forge a battle axe, a gem, and a war hammer!"

"Two of them succeeded, and only one failed, this is the Thor Warhammer! This is actually a remnant."

Chen Feng was surprised: "What? Is this the one that failed?"

A handful of failed scraps are so powerful, then what about casting a successful one?

How powerful is it?

"Yes!"

Lei Xinglan whispered: "The two successfully forged weapons were used by him as his own weapons, but his enemies are also extremely shrewd and cunning."

"When attacking him, it cost a huge price to temporarily seal his two weapons, which also caused his strength to drop by 50%!"

"That's why he will use this failed weapon!"

"Where the two sealed weapons are, no one knows."

"And this thing, even though it's just a handful of remnants, because it was stained with the essence and blood on Thor when he fell, its power is even more powerful, and its level has reached the level of the Ninth-Rank Divine Soldier!"

He paused, and then said: "What we are looking for is actually just a fragment on this warhammer."

"A real warhammer is not something that the world of the strength level of the Dragon Vein Continent can covet, but even a fragment of the warhammer, its power is reached!"

He slowly uttered four words: "Five-Rank Magic Soldier!"

Chen Feng stayed there motionless, he was completely shocked!

Chen Feng's heart trembled fiercely: "Fifth-rank magic weapon? Is it possible to reach the fifth-rank magic weapon? What kind of concept is this?"

You know, by chance and coincidence, he just got a first-grade magic weapon from the dead snake.

And the white dragon spear that I got from Chu Shaoyang before, the grade should be between the first and second grade.

It may be stronger among the first-rank magic weapons, but it is absolutely impossible to be higher than the second-rank magic weapons.

And looking at the entire Dragon Vein Continent, even if it is a force of the level of the nine major forces, in each force, the number of magic weapons at the level of the first-class magic weapon will not exceed two.

And the highest-rank weapon in the entire Dragon Vein Continent, even the third-rank magic weapon!

This already represents the highest level of the Dragon Vein Continent!

And the fragments of this fallen Thor warhammer can even reach the rank 5 of the gods!

"God, how tyrannical this would be!"

"It's no wonder that the Lei Family has such a certainty that if they can obtain this Fallen Thor Warhammer Fragment, they will be able to surpass the nine forces!"

"It's no wonder that Lei Xinglan can say the words to level the Xuanyuan family unscrupulously!"

"He really didn't speak big words. If they get the Fallen Thunder Warhammer Fragment, it is really easy to level the Xuanyuan Family!"

"Five-Rank Magic Soldier! How terrifying! How domineering!"

Chen Feng remembered the tall, domineering and domineering deity that he saw in the fragment just now, wielding the azure golden hammer, invincible, and beheading countless powerful enemies!

He shuddered all over his body, his heart was beating wildly, and his heart was already extremely excited!

There is also a voice screaming crazy in his heart:

"This, it should be my chance for Chen Feng!"

"This, it should be my luck for Chen Feng!"

"I was able to come across this here, meet this person, get this news, get this clue!"

Chen Feng clenched his fists: "If I get this fragment of the fallen Thor warhammer, my strength can even be the strongest on the Dragon Vein Continent!"

"I can even set foot on the pinnacle of this dragon vein continent!"

"At that time, what is the Temple of Soul Destruction, what is the winner of the Eastern Desolation, what is the North Sea Dragon Temple, will all be crushed in front of me!"

"No one can block my way!"

"This fifth-grade magic weapon can at least increase my level by three levels. If I can obtain and control this fifth-grade magic weapon now, then I can even kill Xuanyuan Zixi head-on! "

Of course, what Chen Feng wanted most, and what was most important to him, was not to be superior to everyone, nor to dominate the Dragon Vein Continent.

What he values most is...

"At that time, I will be able to protect everyone I care about."

"I can rescue the elder sister, and make the people I care about safe and happy."

"And I can even explore the unknown secret! Explore the secret of a stronger and higher world!"

"It is even more possible to follow Master Yan Qingyuyu, to the unknown future, to the infinite universe and starry sky!"

"There is my real purpose!"

"It's me, the real beginning!"

At this moment, Lei Xinglan looked at Chen Feng and suddenly wept like a nervous breakdown.

While crying, he shouted: "Why should I provoke you? I provoke you. Not only did I die, I also destroyed the hope of the family!"

"Pity our Lei family's thousands of years of accumulation!"

"Pity our Lei family's hope, all of them are ruined!"

His heart is full of regret.

Chen Feng looked at him, but his expression was indifferent.

In this world, there is no regret about medicine.

This mission, this magic weapon, can almost be said to involve the deepest secrets of the Dragon Vein Continent, and it was originally not accessible to people of Chen Feng's level of strength.

But Chen Feng is really unparalleled, as well as capable and intelligent, so he actually got the news!

The Lei family had a big plan, and their family planned for thousands of years.

In the course of these thousands of years, they kept sending people to the desolate ancient ruins, and finally they heard a hint of the fallen Thor warhammer fragment.

After thousands of years of accumulation, it finally broke out in Lei Xinglan, preparing the family to turn over in one fell swoop.

But now, these are all cheaper Chen Feng!

At this time, Chen Feng actually understood his feelings quite well.

No matter who it is, seeing the thousands and tens of thousands of years of my family's efforts have been completely wiped out, and seeing my own mission, even the meaning of birth, complete failure, then you will also have a mental breakdown.

And most importantly, it is cheaper for others.

Mu Jianhong was beside him, stunned.

She was shocked by the heavy news just now. This kind of news itself is not accessible to people of her strength.

But she came into contact with such a deep secret by chance, and she was shocked and speechless.

Only now has he recovered.

She looked at Lei Xinglan, with a trace of pity, sympathy, and panic in her eyes.

Because she came here with Lei Xinglan, and now that Lei Xinglan looks like this, it is obvious that Chen Feng does not intend to spare his life.

[Chapter 3737: The real purpose!](#)

She didn't know what to do in the future, and she was very flustered.

Chen Feng glanced at her and said lightly: "You don't have to pity him, sympathize with him."

"He brought you here, do you think it was a good heart?"

After hearing this, Mu Jianhong shivered suddenly, with a look of fear in his eyes.

She said blankly: "By the way, how did you see that something was wrong just now?"

"How did you suddenly know that he actually had a secret to hide? How did you guess it?"

"Actually, I guessed it from you."

Chen Feng looked at her and smiled slightly.

Then, he walked to the side of Lei Xinglan and said lightly: "I felt that something was wrong before, because what Lei Xinglan said was too neat."

"Although this person is arrogant and arrogant, although he doesn't have long eyes, and provokes people he can't afford, he is actually a bit arrogant."

"It's also very scheming, but he just gave in so simply and neatly, and handed over the treasure on his body."

"At the time I felt something was wrong, but I couldn't tell what was wrong."

"However, when I heard about the price your Mu family paid for sending you in and letting you follow him, I knew what was wrong!"

"where?"

Mu Jianhong asked foolishly.

Chen Feng stared at her and said coldly: "Do you know how much it costs to send people to the deserted ruins?"

"Do you know that even the Xuanyuan family can send two people here at most a year."

"Do you know how much it will cost to take a person through tens of millions of miles in the deserted ruins and go somewhere?"

Mu Jianhong shook his head blankly.

Chen Feng stared at her and said, "I'm not welcome, if you sell your Mu Family, you can't afford to pay such a price!"

Mu Jianhong's face turned pale.

And he suddenly thought of something, and exclaimed: "Could it be that?"

"Yes, you should be right."

Chen Feng smiled coldly: "You pay the price, but he is willing to take you."

"Obviously, he is not trying to make your money, and I think he is so cruel to you, he doesn't care at all, obviously it is not for your people."

"Then, there must be another reason!"

Chen Feng paused, and then said: "Entering the deserted ancient ruins, no one wants to bring a cumbersome waste, unless!"

A light flashed in his eyes, and he said word by word: "This person is not a cumbersome waste, but has another purpose."

"Moreover, it's still useful!"

"That's why he has to bear such a heavy price, spend such a lot of effort, and always take him with him!"

At this moment, Chen Feng turned to Lei Xinglan and said with a smile:

"You brought him in, presumably because, where the clue is..."

Chen Feng's voice became cold: "It needs to be filled with human lives, or is it necessary for some blood sacrifice?"

Hearing this sentence, Lei Xing shivered violently, his eyes widened, and looked at Chen Feng.

Lei Xinglan coughed heavily and looked at Chen Feng and said, "I really can't hide anything from you."

"Yes, if you want to get the Fallen Thor's Hammer, you need to start from scratch and complete a mission."

"And the beginning of this task is to go somewhere to get something."

"When I take this thing, I can't do it myself."

"Because, if you do it, there is a strong curse on it. If I **** it, then this curse will happen directly to me."

"but....."

Chen Feng said in an interface: "If you let Mu Jianhong take it first, and then you kill Mu Jianhong, then this curse will naturally not fall on you."

Lei Xinglan was silent for a while, then whispered: "Yes, that's it."

Hearing this, Mu Jianhong's face was already pale, and his figure was shaky.

She was stunned for a while, then she suddenly covered her face, squatted on the ground, sobbed silently, shaking all over.

Tears crazily flowed down between the fingers,

She has really endured too much during this time, and now it has caused her mental breakdown.

For her, this news was almost like thunder!

And the most important thing is: her hope is shattered!

Her hope of improving her strength and reviving her family is completely gone!

She didn't know what she was going to do next, she didn't know what to do, she didn't even know what she had to do to live!

Chen Feng ignored her, but adjusted his emotions.

After half an hour, Chen Feng had also calmed down.

After all, the news that Lei Xinglan and his family got, and the purpose of his trip, the ultimate goal, although it was directed to the treasure of the rank 5 **** soldier, the fallen Thunder Warhammer fragment!

But in fact, all they got was just a clue.

And it is the beginning of a clue.

And if they want to pick up this clue, they also need to go somewhere to get a treasure.

This process alone is already extremely difficult!

It's just a small source of the first clue. Looking for this source, you must be able to get this fallen Thor warhammer fragment!

But in the middle, I don't know how much danger and how long it will take.

Moreover, this clue may be broken at any time, the mission may fail at any time, and people may die at any time!

Even, it will take decades or even hundreds of years to complete this task!

But Chen Feng has confidence in himself!

He slowly clenched his fist and spoke out the desire in his heart: "This fallen Thor warhammer must be mine!"

"Moreover, since I have such luck, such a chance!"

"Then, if I do this task, I follow this clue, it will be easier and faster than others!"

"It must be mine!"

Chen Feng was full of confidence in his heart, glanced at Lei Xinglan, and said lightly: "Okay, let me explain the ins and outs of this matter and all the details!"

Lei Xinglan smiled flatly, but took out a scroll from his arms.

This scroll has a high-grade ruby as its axis, and it is not paper or silk, but full of leaf texture.

It was as if this scroll was actually made of a leaf with natural veins on it.

There is even vitality flowing in it.

Obviously, this scroll is also a strange treasure.

Lei Xinglan said softly, "Everything is on this scroll. Go and see for yourself!"

"I just beg you to kill me quickly, please!"

Chen Feng took the scroll, took a deep look at him, then nodded sinkingly: "Okay!"

[Chapter 3738: However, it's a breath!](#)

After that, gently pat down with a palm.

There was a loud noise in Lei Xinglan's throat, and his eyes stared at Chen Feng.

Finally, the light in those eyes dissipated and disappeared, and his body twisted heavily and fell to the ground, motionless.

This had a boundless future, and could have led the Lei Family even to become a powerful force above the nine forces, but died here.

It really can only be said to be good luck!

Chen Feng looked at Mu Jianhong, his eyes deep: "Next, what are your plans?"

Mu Jianhong was crying silently there. After hearing Chen Feng's words, his whole body trembled.

Her hands were put down, and in those tearful eyes, there was unspeakable confusion and pain.

"Yeah, what should I do?"

"What can I do now?"

She didn't even know what she should do.

She originally followed Lei Xinglan to come here, but also hoped to be able to follow Lei Xinglan, strengthen her strength here, and save her family's fate after returning.

However, he didn't expect that Lei Xinglan would use her as cannon fodder to make way for her life.

And now, even Lei Xinglan is dead.

Whether she can survive in this perilous deserted ancient ruin is a question, what should she do?

At this time, she was flustered and helpless, extremely confused, and extremely desperate.

Chen Feng looked at her, sighed softly in his heart, but didn't say anything.

On that day, the Mu family, including Mu Jianhong, came to the Xuanyuan family to divorce. This can be said to have completely cut off the relationship with Chen Feng.

Speaking of which, Lei Xinglan was carrying Mu Jianhong with no good intentions at all.

This time Chen Feng rescued her and saved her from the bad luck of being killed.

What Chen Feng did was impeccable.

For Mu Jianhong, and the Mu family behind her, she has done her best.

As for the current matter, Chen Feng is too lazy to take care of it, and is unwilling to take care of it anymore.

Even Chen Feng laughed at herself: "They still have grudges with me, why should I save her?"

Mu Jianhong's eyes were full of confusion. She sat there, her eyes dull, looking straight at the ground for a long time.

Suddenly he flipped his hand, and a long sword in his hand appeared, and then he wiped it against his neck.

In her eyes, there are no waves, but nothing.

Chen Feng had already gone a long way, and suddenly stopped.

Then he sighed, "Chen Feng, Chen Feng, when will you be harder?"

He patted his face fiercely, but he still turned and walked back.

"Actually, if you want to save your Mu family, there is no way out."

At this moment, a faint voice suddenly came.

This voice directly stopped Mu Jianhong's body and also directly stopped her hand in the air.

It made her wrists soft, and suddenly, the sharp long sword as thin as a cicada's wings fell directly to the ground.

At the next moment, her eyes were filled with an extremely surprised expression.

She turned her head suddenly, looked at Chen Feng, and said in a trembled voice: "You, what you said is true?"

It was Chen Feng who spoke.

She didn't seem to believe the general, and shouted again: "You, what you said is true?"

Chen Feng looked at Mu Jianhong and said lightly, "You can't believe it."

"No, I believe, I believe."

Mu Jianhong walked directly in front of Chen Feng, holding his leg and pulling his shirt, his eyes were full of desire and hope: "I believe, I believe."

"Master Chen, Master Chen, what do you think should be done? What do you want me to do?"

"I promise you everything you say!"

Chen Feng said lightly: "Really? You promise me everything I say?"

The next moment, he suddenly lowered his head, stared at Mu Jianhong, and said sharply:

"I want you, Mu Jianhong, to go to the emperor city, before the Xuanyuan family, kneel down and apologize to Chen Feng and my mother who made the marriage contract!"

"Repent of your Mu family, what you did when you retired that day!"

"I want all of you in the Mu family to kneel and apologize before the Xuanyuan Clan to go to Tianzi City!"

"Repent of your Mu family, what you did when you retired that day!"

Chen Feng's voice was getting higher and higher, and when it came to the back, he almost roared!

That's right, Chen Feng didn't want to watch the Mu Family fall away, but that by no means meant that he would post it.

You Mu family, if you want me to save, then, kneel on the ground first and repent for your decision that day!

Mu Jianhong was immediately frightened.

She knelt there blankly, looking up at Chen Feng.

In the next moment, her expression turned into unspeakable pain.

Suddenly, she covered her face and started crying again.

She knows why Chen Feng did this. This is Chen Feng's revenge on her that day!

This is the revenge for her going to the Xuanyuan Family to withdraw the marriage contract that day!

"It turns out that he never forgot."

But think about it, who would forget such humiliation?

She murmured in her heart: "He is already magnanimous in making such a request today! After all, this has saved me, and I have saved the family behind me!"

Chen Feng came in a cold voice: "If you don't agree, it doesn't matter."

After all, Chen Feng pulled out the leg directly from her hands, turned and walked out.

Mu Jianhong shouted loudly like a nervous breakdown: "I promise, I promise, I promise you everything."

"As long as you can save our Mu family, I will promise you everything!"

"Not only do I promise you, I am more willing to be a slave and a maid, and always follow!"

Chen Feng turned around, looked at her steadily, and asked word by word: "Do you really want to agree?"

"I promise, I promise." Mu Jianhong cried bitterly and shouted.

"it is good!"

Chen Feng nodded slowly.

He thought of the things Mu Family and Mu Jianhong did that day.

That day, like a thorn, stuck in his heart.

It was like a stone pressed there, and every time he thought about it, he was always unspeakably uncomfortable, and always extremely depressed.

It was not only him who was humiliated that day, but also the mother who made the engagement, and even the entire Xuanyuan family!

And now, this breath finally came out.

Chen Feng only felt a sense of clarity in his chest!

He raised his head, looked up to the sky and smiled, his heart felt unspeakably relaxed!

Then, turned around and left.

Mu Jianhong looked at Chen Feng blankly, and Nuonuo said: "You, me, am I not a slave and a maid? Me, how can I be a slave if I am not with you?"

Her expression was full of panic, and she whispered, as if she was afraid that a higher voice would anger Chen Feng.

Chen Feng glanced at her and suddenly felt a bit tingling in his heart.

Is this still the proud girl in the sunset?

He said in a light voice: "I don't need to be a slave or a maid."

The voice was indifferent, there was no emotion, neither looked down nor looked down on.

Chen Feng looked into the distance and said faintly: "For me, all I want is the grievance of the day!"

"What I want is to break the block in my heart!"

"What I want is just the long laugh just now!"

"What do I want you to do as a slave or a maid?"

Mu Jianhong looked at Chen Feng blankly.

Only then did she understand that it turned out that Chen Feng wanted it, but it was just that breath.

Chen Feng turned and walked out, but coldly dropped a sentence and said: "Go back, go to your family and wait for me."

"After I return to the Dragon Vein Continent, I will naturally resolve this matter for your family."

[Chapter 3739: A more powerful battle body of stepping gods!](#)

"Relax, with me, no one can touch your family!"

After that, he turned and left, and soon disappeared.

But in the same place, Mu Jianhong looked at his back, and suddenly trembled violently, with deep regret in his eyes.

Covering his face, crying again!

Soon, Chen Feng left here.

However, he didn't go far, just walked about a million miles, and then he started hunting for the gods that wandered above the nine heavens.

Soon, Chen Feng captured another divine essence.

...

Time passed by, and another day passed in a blink of an eye.

"Get me down!"

Following Chen Feng's roar, another divine essence was dragged over by him abruptly.

This **** is full of hot elements of fire.

Extremely bright, the light is like the most excellent ruby, so bright and even a little thrilling.

It gives people the feeling as if the endless sky sunset is sealed into this god.

After absorbing this divine essence, Chen Feng had already absorbed the five divine essences!

At this time, it is the time when the sun sets.

Chen Feng abruptly got up, opened his eyes, and looked into the distance with a clear look.

"Within two days, I have now absorbed five gods!"

In the next instant, Chen Feng let out a violent roar, and a full eighteen gods appeared behind him!

These eighteen divine essences, above each one, have different breath powers.

There are big and small, strong and weak.

They come from different gods and even have different attributes.

Although Chen Feng's idol, Tianzheng Yuanjin, has been transformed into a power of the same attribute, its strength is also different.

For example, the following passages absorbed in this barren ancient ruin are obviously stronger than those absorbed on the dragon vein continent before.

Then, Chen Feng sighed lightly, the idol in his body revolving with innocent vitality.

Suddenly, in Chen Feng's mind, he was visualizing a battle body of a **** stepping on the sky.

And the next moment, as he visualized the battle body of stepping on the sky, behind Chen Feng, the eighteen gods began to merge!

Finally, it condensed into a battle body of stepping god.

It's just that, at this time, this heavenly stepping idol combat body has already changed its appearance compared to before.

The previous stepping idol battle body was only 17 or eighteen meters in size, while the body shape of this stepping idol battle body reached about 25 meters.

And more condensed and heavy than before!

Even the gray, hard and thick skin on his body felt a bit thicker, and even a few deep hills appeared on it, with a solid and heavy feeling that could not be destroyed at all.

Moreover, Chen Feng saw that at the two ribs of the battle body that stepped on the sky, a round bag bulged up.

Chen Feng didn't know what was inside this round bag, but there seemed to be a strong and incomparable aura surging inside.

It seems to want to burst out!

"The feeling that this heavenly idol combat body gives me is at least 50% stronger than before!"

"and....."

Chen Feng frowned, perceived it carefully, and said softly: "Moreover, his other abilities seem to have disappeared, no, it's not disappeared!"

Chen Feng immediately said categorically: "It's fusion!"

"The other abilities are all integrated into the strongest ability!"

He sighed softly: "With the integration of other abilities. The strongest ability, the sealed space, has been strengthened again!"

"fair enough."

Chen Feng's brows stretched out: "Other abilities are useless, so it's better to strengthen this most useful ability."

"Next, it's time to see if your current ability has improved!"

The next moment, Chen Feng gave a soft drink.

Suddenly, the battle body of the stepping idol was looking up to the sky and hissing, and then stepping on the ground with both feet.

An unspeakable tyrannical force waved out instantly.

That space seems to be torn apart because of this!

This force rushed outwards, covering a radius of tens of meters in an instant. **NOVEL**usb.com

"The scope seems to be much wider than before, and..."

Chen Feng closed his eyes and felt it carefully: "It seems that the intensity is stronger than before, which means that you can control stronger enemies!"

Chen Feng tried several times in succession, and finally he finally got the ability embodied in Tatian Idol War.

At present, the ability of the solidified space of the stepping **** elephant battle body has been expanded from the previous five meters to ten meters.

The maintenance time has also increased from the previous three breaths to the current five breaths!

The most important point is that the level that can deal with enemies is higher.

The previous ability of stepping on the god-like battle body to deal with the dead snake of the four-star Wudi was already quite reluctant.

And if it was against the five-star Emperor Wudi's Sirius, then he would not even be able to trap the opponent, and the opponent would directly blast this space to pieces.

But now, after ascending, it is possible to trap the five-star Wudi powerhouse.

"It's really time for this promotion."

A smile appeared at the corner of Chen Feng's mouth: "In this case, when dealing with Sirius, I will be more sure about it!"

He looked into the distance, not knowing what he was thinking.

Only his eyes are exquisite.

Only Chen Feng knew that he simulated the battle with Sirius in his mind and how to win.

If others knew what Chen Feng was thinking at this time, I'm afraid I would be shocked and unable to say it.

He is a small two-star Emperor Wu. When facing the five-star Emperor Wu, he is not afraid, not running madly, not closing his eyes and waiting for death, but thinking about how to win?

What's even more exaggerated is that he even has the confidence to win!

This is simply incredible!

After a long time, Chen Feng sighed softly, with a smile in his eyes:

"If you continue to improve like this, the ability of stepping on the god-like body will definitely be terrifying."

"If it reaches its peak, it can even cover hundreds of meters and thousands of meters!"

"Can be singled out, can be group battle!"

"Suppose I was besieged by hundreds of strong men, then in an instant, this heavenly idol combat body could confine all these hundreds of strong men!"

"Then, trap them inside for a long time. When that happens, whether I want to kill them or I want to escape, it will be easy!"

"Moreover, an extremely terrifying ability will even be derived by then!"

Chen Feng looked into the distance, his eyes full of longing.

Of course, this is only Chen Feng's own thought, and it is also what he looks forward to most.

As for whether it could evolve into this way in the future, Chen Feng had no bottom in his heart, he just hoped that it could be so.

"In the past few days, I have absorbed the entire five divine essences, which has also caused my Treading Idol to reach a bottleneck."

When Chen Feng tried to absorb the divine essence at this time, he found that he couldn't absorb it at all.

[Chapter 3740: Cultivating the Vajra Arhat forging Body God Technique](#)

The power of the gods in his body was almost saturated, rushing wildly.

Chen Feng knew that he couldn't absorb it now, so he could only slowly refine and disperse the power of these gods.

It will take a while to be absorbed again.

Chen Feng just felt that it was a pity that he was in good condition at this time and was about to make a big push, but there was no way to do it, so he had to stop first.

"But, you can't practice this, but you can practice other things."

"For example, my King Kong Arhat forging body magic art!"

He was full of excitement: "Before I was not strong enough to practice the Vajra Arhat Body Forging Divine Art, but now, after repeated breakthroughs, I can already practice!"

Chen Feng is even more clear that at this time, it won't work if you don't practice.

At this time, Chen Feng was already deeply aware that he had reached a new height now, facing a stronger enemy than before.

In fact, some of the martial arts techniques in his hands have been completely abolished.

The so-called hole cards and the means to deal with the enemy are also completely useless.

There are only two methods he can use to deal with the enemy:

First, stepping on the sky idol combat body.

The second is that 12 billion catties of huge force!

And his strength of 12 billion catties is extremely limited, and he can only make two punches in a row.

If you throw three punches, your body will suffer great harm.

If you hit four punches in a row, your body will collapse, and you will be dead if you don't need to be hit by others.

"I want to turn this 12 billion catties of power into normalcy, and I want to play such a powerful force with every gesture."

"Then there is only one way, which is to practice the Vajra Arhat Body Forging Divine Art."

"The ultimate goal is to create an immortal body of the Donkey Kong Arhat!"

If the King Kong Arhat can be cast into the immortal body, then what Sirius, what five-star Wudi, is not even an ant in front of Chen Feng.

Just a single finger can crush the pinch and turn it into powder.

Of course, it is naturally extremely difficult to make the Immortal Vajra Arhat, and it is impossible to achieve it in a short time.

Only move forward step by step.

Soon, Chen Feng found a secluded place and began to practice.

What Chen Feng didn't know at this time was that when he thought of Sirius, Sirius also thought of him.

At this time, tens of millions of miles away, above the void.

A faint blue light flashed across at an extremely fast speed.

This faint blue light was extremely fast and extremely sharp, and even gave people a feeling of going to cut through the sky and scratch the sky.

If you get closer, you will be able to see that this faint blue light is displayed by the ghost wolf that Sirius is riding!

The ghost wolf, shining brightly and looming in the sky.

No, correctly speaking, it should not be looming, but looming.

It turned out that his way of traveling was extremely strange.

Not the constant high speed, but the blinking.

His figure suddenly disappeared, as if it had been destroyed directly in the void.

And the next moment, it appeared in a direction hundreds of miles away.

It's as if there are two holes in the void, and the distance between the two holes is hundreds of miles, but this giant wolf has a mysterious ability. On the side of this hole, you step into it and reappear. By the time it was already at another hole.

This is really the so-called ability to shrink the ground into an inch, which is extremely clever in the light body exercise method.

Can greatly reduce the distance of the space.

Obviously such a step spanning hundreds of miles gives people a very strange feeling, but when this ghost wolf is used, it is indescribably relaxed and leisurely.

Obviously, this is the natural ability of such ghost wolf!

Not an absolute speed, but a strong grasp of the power of space.

The ghost wolf suddenly stopped in the sky, and then slowly landed to the top of a mountain peak.

If Chen Feng was here, he would definitely be able to recognize it.

This mountain is where he killed the ninth outlying member of the Sirius team who came to chase him.

Here, Sirius stopped for a moment, and then suddenly his right hand caught in the air.

Following his grasp in the air, there was a soft sound in the void.

It was as if something in the void was caught by him.

That thing is a kind of implication in the dark, unspeakable and extremely mysterious.

Then, he perceived it carefully, and then looked far away, a smile appeared at the corner of his mouth:
"So, you ran there!"

"Wait, Chen Feng, I will be able to catch you in a little while."

"At that time, I will let you know what life is better than death!"

At this time, Chen Feng was sitting on the top of a cliff.

And under that cliff, is a huge lake that is extremely surging.

This is the first time that Chen Feng has seen something like a lake and ocean among the deserted ancient ruins.

The lake is thousands of miles in radius, and you can't even see the edge at a glance.

However, the lake is not water, but a dead black viscous liquid.

This viscous liquid didn't know what it was made of, it exuded a strong fishy smell, and it also meant blood.

Moreover, Chen Feng discovered that this viscous liquid seemed to be more than just liquid.

It's not that there are impurities in it. In fact, there are not many impurities in it, but there are some unspeakable illusions.

For example, there are countless blue ghosts, and with every wave, they appear in the air in large numbers, making sharp screams.

Then, it was hidden in the waves.

There is a huge black figure looming.

Even from time to time, a huge and ugly figure appeared between the huge waves, like the legendary Yasha-like figure, holding a sharp weapon and looking at Chen Feng.

Then, it hides like that wave.

Obviously, although this barren ancient ruins is barren, barren and dilapidated.

But in this big lake, there are actually creatures living here.

This is the result of the unique environment of barren ancient ruins.

But Chen Feng didn't care, and as long as they didn't do it on themselves, then Chen Feng would ignore it.

Because, at this time, his cultivation has reached a critical moment!

The mental method of the King Kong Arhat forging the Body God Secret Art circulated between Chen Feng's chest. He closed his eyes at this time, but there was a golden light in his mind.

In front of him, a huge illusory space, infinite golden light flowing brilliantly in it.

Although those lights are all golden, they are thick and light.
