

Peerless 3751

[Chapter 3751: Open the first hole card!](#)

Because Chen Feng showed such a hungry wolf, desperately desperate when facing the hunter and being chased by the hunter!

But as everyone knows, Chen Feng's heart is full of sarcasm at this time.

In fact, the crazy face on Chen Feng's surface at this time was completely pretended.

He just wanted to make Sirius think so!

In fact, his heart was calm.

In fact, he had no desperate plans at all!

He has countless hole cards, and he just wants to open one of them at this time!

And the reason why he showed this frightened and desperate expression was just to paralyze Sirius.

If the silence has made Sirius suspicious and prepared, what should we do?

In fact, Chen Feng was indeed going to use one of his own hole cards, and it was also his first hole card in the battle with Sirius.

But Chen Feng is definitely not desperate, because...

Chen Feng looked at Sirius, and a disdainful smile was drawn at the corner of his mouth: "What are you? You are worthy of my hard work?"

The remaining fourteen metal spears slammed into Chen Feng.

In a blink of an eye, it was already near.

Faced with the fourteen spears, Chen Feng backed away again and again, with a look of panic and anger in his eyes.

The next moment, suddenly, he roared: "Take the idol battle body, come out!"

In the next instant, above Chen Feng's head, the stepping idols suddenly appeared.

The battle body of the Heavenly Stepping God Elephant is already much bigger than before, and the aura on his body is much stronger than before.

This appearance, suddenly, the world seemed to freeze for a while.

It seems that at this moment, even time has been imprisoned.

Sirius only felt that if his heart had missed a beat, then it would beat fiercely!

He couldn't help but feel a fever in his chest and some palpitations.

He was shocked in his heart: "This kid has a very powerful spirit body! The quality is very high!"

"Although it doesn't look that strong, it has huge potential."

He still didn't put Chen Feng in his eyes.

Because in his opinion, it is still easy to kill Chen Feng at this time!

He squinted at Chen Feng, but he didn't rush to launch a stronger offense. He just sneered at the corner of his mouth: "Boy, I want to see what you can do."

"This is your last resort, right? Is it your last resort?"

"Use this hole card, ha ha ha, even if you can survive today, how long can you support it?"

Chen Feng smiled coldly without answering.

His first hole card was finally opened!

And this is just his first hole card!

In the next moment, the Heavenly Stepping Idol War Body above his head uttered a long roar from the sky.

The four huge sky-supporting giant feet also fell fiercely.

Then, there was a loud bang, and a shock wave suddenly burst and spread everywhere.

In an instant, it was covering Chen Feng's surroundings.

Suddenly, the time around Chen Feng seemed to freeze!

The metal spear that had been shot at a distance of only a few meters away from Chen Feng's body, seeing that the metal spear that could slam on Chen Feng's body in the next instant, also solidified at the same instant.

It turned out that Stepping Heaven's Idol War Body had unexpectedly activated his strongest ability!

In fact, the ability of stepping on the sky **** elephant combat body, at this time, is not so large, and it is impossible to cover all the metal spears.

However, this metal spear can't stand it is made in one piece!

This ability of his directly solidified the tip of the metal spear.

This is equivalent to the spear tips of these fourteen metal spears. At this moment, the time and space in which they are located is all frozen.

The tip of the spear and the spear body at the back are no longer in the same time and space.

No matter how strong this metal spear is, it will never be possible to override the laws of time and space.

So, in the next moment, Ka Ka Ka, with bursts of huge and fierce crisp noises, all the spear bodies of a dozen metal spears flew out and slammed into the distance fiercely.

And the tip of their spear still stayed in the space confined by the battle body of the stepping gods.

It's just that the time in this space seems to have stopped.

They couldn't move forward either, but gathered there.

After activating the ability of the Treading Idol War Body, the whole body trembled violently and let out a painful roar.

Generally speaking, if he activates this ability for the first time, there will be no trauma or too much damage.

But this time, it was not.

Because this time, in the space he needs to control, the power brought by the fourteen metal spears is really too great.

As a result, he has been slightly injured!

However, he finally resolved the offensive of these fourteen metal spears.

Otherwise, Chen Feng would not be able to block this round of attacks.

At this time, the fourteen metal spears had stopped, but Chen Feng, as the master of the Tiantian Idol War Body, was naturally not restricted by these forces.

The body shape flashed, and it quickly went outward.

The Golden Crow footwork was launched day by day, and he ran out several kilometers in an instant.

"It turns out to be running away!"

"It turns out that you want to escape with the help of your Shenyuan combat body and your biggest hole card!"

Seeing this scene, Sirius frowned first.

Then, he laughed disdainfully!

However, his heart is already making infinite waves, which is far less relaxed than he looks on the surface.

"It turns out that the ability of this kid's divine origin battle body is actually to freeze space and time!"

"This ability is extremely terrifying."

"You know, there are countless gods and battle bodies in the world, and there are thousands of different abilities."

"But in general, a certain God-Essence Battle Body has only one ability, and this ability generally has only one attribute."

"For example, my ability is metal control, and its attributes are metal properties."

"And this kid's divine origin battle body has the power of time and space, and it turns out to control time and space!"

"Correspondingly, there are two attributes, time and space!"

"not to mention!"

He took a deep breath and said with a shocked expression on his face: "Among all the abilities, time and space are the most powerful, domineering, high-quality, high-level, and rarest abilities in themselves!"

"Generally speaking, when the Shenyuan battle body is formed, the abilities obtained are random."

"Warrior can only influence but not decide."

"And this kid can actually get two top-notch types out of tens of thousands of attributes, it's terrifying!"

"His talent and luck can only be described by the word "Wu Shuang!"

[Chapter 3752: I want to leave Chen Feng, who can stop?](#)

He was jealous.

There seemed to be a voice yelling frantically: "Why? Why?"

"Why can he have such a powerful Shenyuan combat body? Why!"

In his heart, jealousy is like madness, looking at Chen Feng, it is even more murderous!

However, this emotion only lasted for a while, and then he calmed down.

After the jealousy, it is extremely greedy.

"I am becoming more and more interested in him now. It turns out that in addition to the secret treasures of the Xuanyuan family, there are so many secrets in his adventures!"

He grinned grimly: "Chen Feng, when that happens, you will spit out these secrets to Lao Tzu!"

"Now, without the hole cards, I see how you run!"

He thought this was Chen Feng's biggest hole card.

But as everyone knows, this is just Chen Feng's first hole card!

Moreover, it is the first to open the less important hole card!

Chen Feng naturally didn't know his emotions at this time.

But even if I knew it, I wouldn't care.

What is the jealousy of this kind of person to him?

At this moment, seeing Chen Feng wanting to escape, Sirius sneered: "Boy, do you still want to escape? Can you escape?"

The next moment, his body shape turned, he chased Chen Feng extremely fast.

At the same time, under him, the ghost wolf appeared.

The ghost wolf swiped, and a flash, it came hundreds of meters away, the speed was extremely fast.

He laughed wildly: "Boy, although your Shenyuan combat body is good, the level of martial arts you are currently practicing is too low!"

"Your light-weight exercise can never let you escape from my pursuit!"

"Boy, if I don't let you go, you can't go!"

His voice is full of unspeakable domineering!

But at this time, Chen Feng suddenly turned around and laughed, pointing at him and said: "I Chen Feng is going to leave, who can stop it?"

At the next moment, the Tengtian idol combat body suddenly appeared!

But the place where he appeared this time was unexpectedly above the head of Sirius!

Then, a smile appeared on the corner of Chen Feng's mouth, and he looked at Sirius and waved his hand, chuckled and said, "Senior Sirius, goodbye."

In the next moment, the battle body of the stepped idol was looking up to the sky and let out a roar like the earth shaking!

Sirius suddenly understood something, his face changed drastically, and said in anger: "Boy, you..."

The word 'dare' has not been spoken yet, and a force of power is radiated from the body of the Tengtian Idol.

Directly enveloped him and the wolf and ghost wolf below him.

Naturally, Sirius would not be willing to be restrained in this way, he let out a crazy roar, struggling desperately!

However, although his strength is strong, the ability of stepping on the heavenly idol body is already touching the law of time and space.

The level is extremely high and the quality is extremely high, completely suppressing him!

When he was caught off guard, where could he break free?

In the next moment, it was as if he was sealed into an ice cube, and it was as if the time and space around him had stagnated, and he stopped in the air.

Maintaining the movement just now, he froze there motionless.

It seems to be frozen by time.

The triumph on his face has not dissipated, it has already turned into a touch of incredible shock.

The Tiantian Idol War Body used this ability repeatedly, and it was aimed at powerful people like Sirius, and it was said to have suffered tremendously.

At this time, there was a scream, his body shattered, and he dispersed.

Chen Feng felt a pain in his heart, knowing that the body of the **** of stepping on the sky was severely injured, and he was afraid that it would be unusable in a short time.

However, this is also impossible.

Chen Feng cleared up his mood and took back the battle body of the stepping idol.

Just as he was about to leave, Chen Feng suddenly turned around, looked at Sirius, and said with a smile:

"Senior Sirius, thank you for your enlightenment just now."

"Your few words, let me gain a lot!"

He was referring to those words about Wuhun mentioned by Sirius before!

Sirius was trapped in Chen Feng's battle body, unable to move or pursue.

And Chen Feng's words slapped him in the face!

He roared again and again, and Chen Feng laughed.

"And, I think, it's not too late to know now!"

"after all....."

He looked at Sirius and smiled brilliantly: "I'm only in my twenties, hundreds of years younger than you!"

After that, Chen Feng turned around and left quickly.

The Golden Crow's pace was launched day by day, and the light and shadow continued to disappear in a flash.

And at the moment his figure disappeared, the Celestial White Dragon Spear above the sky suddenly shrank to the size of only a needle.

Then, he got directly into Chen Feng's arms and followed Chen Feng.

Seeing this scene, Chen Feng was overjoyed.

The Nine Dragon Swordsman burst, and he was already mentally prepared to lose this Tianji White Dragon Spear, but he didn't expect that such magical soldiers would be truly amazing.

Can be as big as you want, and take the initiative to follow the master.

After hearing Chen Feng's last words in the battle body of the stepped idol, Sirius let out a violent roar and screamed: "Chen Feng, I will kill you!"

At this time, he failed to kill the humiliation brought to him by Chen Feng. If it was 10%, then the humiliation brought to him by Chen Feng's remarks just now was 90%!

Just now, he thought he had the advantage and could easily grab Chen Feng and clean up.

That's why I said that.

The reason for doing this is to see how Chen Feng regrets that he couldn't handle it, and to see how he regretted not knowing it earlier when he knew the truth.

But now, he found that he couldn't kill Chen Feng at all.

What I said just now, not only didn't work, but it made the other party understand something.

How can this prevent him from angering his heart?

Stealing chickens is not an eclipse. It is more appropriate to describe her now.

He roared again and again, but unfortunately, he only roared now.

Chen Feng hurried forward all the way, and the Golden Crow footwork had been activated to the extreme.

But Chen Feng still felt that his speed was too slow.

A wry smile appeared at the corner of Chen Feng's mouth: "Actually, Sirius is right. Compared to my current strength and realm, the level of this martial art technique I practice is too low."

"Take this day-to-day Golden Crow footwork for example, it hasn't been changed for so long."

"This martial art has not greatly increased my speed now."

"If it weren't for trapping Sirius just now, then I'm afraid I will be overtaken by him soon!"

"I can probably trap Sirius for about a cup of tea, and this cup of tea is long enough to get me out!"

"Actually, as long as I escape his sight, it will be much easier!"

"If you are in his line of sight, and the speed is not as fast as him, it will naturally be easy for him to catch up."

[Chapter 3753: Who is the prey?](#)

"As long as he escapes his sight, it will be difficult for him to catch up."

"and....."

A weird smile appeared at the corner of Chen Feng's mouth: "I still have a lot of hole cards, it's useless!"

Chen Feng hurried forward and disappeared in a blink of an eye.

The time for a cup of tea is enough for him to fly a distance of tens of thousands or even tens of thousands of miles.

At this time, seeing Chen Feng disappearing in the distance, Sirius' face was extremely ugly.

But soon, his gloomy look disappeared, and he sneered disdainfully: "Chen Feng, do you think you can escape from the palm of my hand if you escape?"

"As everyone knows, I have left a spiritual link on you!"

"No matter how far you escape, I can sense your distance!"

"Otherwise, how do you think I could find you before?"

The next moment, he roared and struggled desperately.

Finally, his body finally started to move slightly.

He was overjoyed, shaking his body frantically and bumping.

The space where he was imprisoned by the battle body of the stepping idol actually clicked, and a slight crack appeared!

Sirius roared again and again, struggling frantically.

On his body, there appeared one wound after another, and the blood poured out frantically, instantly staining him like a blood man.

Obviously, he was already injured when he came out in order to get out of the trap, but he didn't care about it and hit the imprisoned space desperately.

Finally, after a cup of tea time, with a boom, the space was directly shattered.

He finally got out of trouble.

Only at this time Chen Feng was no longer visible.

In fact, Chen Feng is already tens of thousands of miles away.

There was a sneer at the corner of Chen Feng's mouth, and he turned to look at the far distance: "Do you think I don't know? You left a spiritual link on me early on."

"With this spiritual link, I can be found!"

"Do you think I didn't find it?"

"Hahaha, I have already discovered it, but I don't want to pinch it off!"

"Because, I was afraid that it was too far away from me at the time. If I pinch it off, you can't find me!"

"You can't come to your door, so how can I develop my plan?"

If Sirius was here at this time, I would be shocked to hear Chen Feng's words!

It turned out that Chen Feng expected him to come, and even included him in his plan!

"Actually, Sirius..."

Chen Feng's eyes were deep: "Among the two of us, you think you are a hunter and I am a prey."

"As everyone knows, in my opinion, I am the hunter and you are the real prey!"

Chen Feng looked into the distance with a leisurely look.

"In fact, Sirius, when I first learned about the Lei Family's plan, the purpose of the Lei Family, and where they were going to the Lei Family, I already counted you in!"

"Everything today is as expected, and everything that happens next will also be!"

Chen Feng clenched his fists: "It's all under my control!"

Time moved forward by two days.

Just after Chen Feng got the scroll that recorded all the reasons from Lei Xinglan, before he was overtaken by Sirius.

At that time, Chen Feng got a rare respite.

Finally, there is time to take a good look at the scroll left by Lei Xinglan.

He found a cave hidden in the belly of the mountain and sat down quietly.

At this time, above the sky, the brilliance of the bright moon shed, and the surrounding area was as bright as daylight.

A faint light shines from the thin cracks. Although this underground space is hidden and difficult to be discovered, it also has a faint sky light.

Chen Feng just leaned on the stone wall.

The rich aura of the gems of life around him kept tumbling, and his body and mind were lazy, leaning there lazily, slowly unrolling the scroll.

At the beginning, Chen Feng looked indifferent and didn't care too much.

As he read on, the look on his face turned into an indescribable shock.

Then, the shock turned into disbelief.

There was a hint of ecstasy in it.

Chen Feng just read it carefully, and the thrilling secrets of that ancient time slowly unfolded in front of Chen Feng.

It turned out that before not knowing how long ago, there was indeed the existence of Thunder God on the Dragon Vein Continent.

However, even the Lei Family where Lei Xinglan was located, only knew the word Thor.

I only know that he is an extremely powerful existence.

As for his origin, why he was named Thor, why he has this title, I don't know.

They just searched for the claws, scales and feathers of the past years from the old family classics.

Speaking of it, the Lei Family where Lei Xinglan was located had a connection with Thor.

However, it was not the descendant of Thor they claimed to be, but the descendant of a general of Thor.

This general was born poor, but he was talented and extremely motivated.

Thor likes it very much and teaches what he has learned.*nOvelusb.coM*

It can be said that as a disciple.

Originally, if there were no accidents, this general could even have the strength of about 10% of Thor in the future, and his future was unlimited.

But soon, an accident happened.

What the accident was, Chen Feng didn't know, Lei Xinglan didn't know.

Lei Xinglan's ancestors must have known it, but they were vague and did not leave any detailed records.

Just to tell posterity that this is a catastrophe.

In this great catastrophe, the Thunder God fell, and countless strong men fell.

Even Lei Shen's him was implicated and was severely wounded and dying, leaving only a breath.

He hurriedly fled into the family, left a few words, and died.

And the news he left was about the fallen Thor's Hammer, and it was also the news of the artifact that Thor held back then!

After that, the Lei family where Lei Xinglan was located, worked hard for many years, and finally found the clue to that divine tool.

Of course, all they found were clues to the artifact.

The only thing they knew now was that there was a first clue somewhere in the deserted ancient ruins.

After the first clue is completed, a fragment of the fallen Thor's hammer can be obtained.

The second clue can only be activated by getting this fragment.

In the end, you can obtain the Fallen Thor's Hammer.

As for how many difficulties and obstacles they will go through, they don't know, and they don't want to know.

They only know that this is the greatest hope and the best opportunity for family rejuvenation.

I don't know how long it will take to pay off after doing this.

But if they don't do it, then their family won't even be able to reach the top of the Dragon Vein Continent, and will never catch up with the nine major families.

[Chapter 3754: Don't let me down!](#)

Forever, it can only be regarded as a second-rate family.

After reading it, Chen Feng sighed softly: "Actually, I am the same as them."

"As far as I am concerned, I don't know how many difficulties I will experience when I have done this, and I don't know if I can get to the last step.

"It's very possible, just die on the road."

"But if you don't do it, it means nothing!"

"Will my generation of warriors shrink?"

Chen Feng looked firm, and continued to turn the scroll down: "This is what I must do!"

"The road to practice is so difficult, there is a glimmer of opportunity, and we must firmly grasp it!"

"Where is there to be picky and thin?"

Next, there is the lower part, which is also detailed information about specific locations and how to do it.

After Chen Feng finished reading, he first covered the scroll with a long sigh, and then his eyes became clear.

"That's it, it turns out that the beginning of this clue is there!"

"It turns out that I have to act like this..."

Chen Feng's eyes flashed, and the picture of memories had disappeared.

In fact, this is just a momentary matter for him.

Chen Feng thought about the events of the previous two days, and a smile suddenly appeared at the corner of his mouth: "Sirius, Sirius, do you know that if I can deal with you before getting the scroll of the Lei family, I can only deal with you 30%."

"Then, after seeing those things on the scroll that day, I had 80% confidence in dealing with you!"

"You are destined to be my prey to Chen Feng!"

At this moment, Chen Feng suddenly felt like electricity, and then smashed the spiritual link directly with a snap.

Suddenly, in the space around Chen Feng, there seemed to be a scream.

It was like a scream before something was about to die.

Chen Feng knew that that was exactly the spiritual link left by Sirius.

And at the moment when this spiritual link was crushed, Sirius had also broken free from the cage of stepping on the gods.

However, breaking away from the cage under the battle body of the stepped idol also made him pay a high price.

He was covered in scorched black and blood.

The body's momentum is weakened by as much as 10%.

Now, his power is only 70% of the peak period.

He frowned, and said in a deep voice, "Before I was backlashed by the Four Elephant Soul Contemplating True Art, my power fell by 20%, and only 80% remained."

"Now, in order to break free from the shackles of this little boy, I have lost another 10%."

"Now, there is still 70% left!"

"But, even if only 70% remains, what about?"

There was a sneer at the corner of his mouth: "I can still kill you easily!"

And just before his voice was over, suddenly, in the air, there seemed to be a spiritual link that burst into pieces!

He wowed, and a big mouthful of blood came out.

After shaking his body, he fell directly to the ground, and his strength was damaged again!

And he, even ignorant of these, got up in shock and shouted: "How is it possible?"

"How could the spiritual link I left on this kid be invalid!"

"It disappeared? It was cut off? He, he actually discovered my mental power and cut it off?"

He roared out of form, his whole person was very furious, and his emotions were almost collapsed!

This is the biggest reliance on which he can find Chen Feng.

After breaking this spiritual link, for him, the loss was extremely huge.

However, Sirius was very human in the end, and he had recovered at this time.

He sighed softly, and said in a deep voice: "Little boy, I underestimated you."

"It turns out that you were able to analyze it from the fact that I found you. I have left a spiritual link on you!"

"As soon as I escaped from this place, I immediately looked for the spiritual link and crushed it!"

"That's it!" *nOvelusb.COM*

"But, you think. My means stop here?"

"Even if I lose this spiritual link, I will definitely be able to find you and kill you! But it will cost me a little bit more!"

"and!"

He gritted his teeth and said bitterly: "Now that your kid has crushed this spiritual link, I must think I can't find you, and I will sit back and relax and lose my guard!"

"In this case, I kill you, but it's an easier thing!"

He thought he was exhausted, but Chen Feng had guessed all of his reactions.

Chen Feng looked into the distance with a long voice: "Sirius, I also crushed the spiritual link at this time, also deliberately."

"You must think now that I guessed that you left a spiritual link on me because you were able to catch up with me, right?"

"That's why it was crushed at this time, right?"

"Hahaha, I made you think so on purpose!"

Chen Feng laughed, his eyes twinkling:

"In fact, I have known for a long time that you have left a spiritual link on me through the dead Sirius people!"

"I knew it for a long time, but I didn't want to crush it because I wanted you to chase me down!"

"Because I regarded you as my prey!"

"I just crushed it now because I want to numb you!"

"I want you to think like this, I want you to think that I just discovered this spiritual link!"

"Now you, you will definitely think that after crushing this spiritual link, I will lose my guard and think that you will not catch up with me!"

"So, you would think it would be easier for you to kill me at this time!"

"Sirius, you underestimate me, I will not underestimate you, I know you must have a way to catch up with me!"

"Don't let me down!"

Chen Feng paused, a cold smile appeared on the corner of his mouth, and said every word: "My prey!"

At this point, Sirius was closing his eyes tightly.

And above his head, the ghost wolf hovered again and again.

The ghost wolf had a grim expression.

But at this moment, the hideous expression was frozen on his face, just a dull, expressionless face.

It seems that the emotion is frozen.

He just ran constantly in the sky, seemingly chaotic, but in fact it contained profound principles.

Over and over again, after a full hour's turn, there were already many faint blue lines on the sky.

It turned out that where this ghost wolf ran past, there was actually a faint blue line appearing.

And at this time, in this hour, as he kept running around, the faint blue lines had also formed a formation.

A huge and meticulous formation.

In this formation, a trace of black magic aura was revealed, and there was a strong aura of death in it.

[Chapter 3755: Tracker](#)

Sirius stroked the ghost wolf, sighed softly, with a look of reluctance on his face, and said softly: "Old brother, I will wrong you this time!"

"That boy cut off the spiritual link I put on him, and I can't catch him at all now."

"In this short period of time, I'm afraid he has enough to run tens of thousands of miles!"

"After running tens of thousands of miles, the spiritual link is broken again, and I am looking for a needle in a haystack, how can I find it?"

"Now, there is only one way, and that is to find out the tracking monsters in the demon world."

"The tracking demon, after smelling Chen Feng's aura, can easily find his whereabouts within a radius of 100,000 miles."

"Time doesn't wait for me. If you delay for a while, I'm afraid that the stalker will not be able to catch him."

"And if you want to summon the stalker, you must..."

He looked at the ghost wolf and sighed: "Temporarily decompose you into the simplest energy. Only as a sacrifice can it be summoned."

"But don't worry, after putting him back, I can summon you back immediately."

That ghost wolf. Seems to be able to hear what he said.

Looking back at him, the flame in his eyes burned.

In that flame, there seemed to be strong hatred.

Seeing this scene, Sirius couldn't help but show a wry smile.

This ghost wolf is a companion summoned from the devil world by his chance.

It is a demon wolf in the devil world.

This kind of demon wolf is extremely common in the devil world, and its strength is very weak.

It can even be regarded as the bottom monster in the Demon World.

But on the Dragon Vein Continent and the deserted ancient ruins, they are extremely strong.

He was able to get to where he is today, thanks to the great help of this fine ghost wolf.

Originally, it stands to reason that creatures in the demon world should return to the demon world after the summoning time is up.

But by chance, his ghost wolf stayed here.

And he also spent more than ten years, various methods, meticulous training, meticulous maintenance, so that this ghost wolf's emotions towards him no longer hate him.

What does this mean?

It means that after seeing him, this ghost wolf will be indifferent and will probably listen to him, but it won't be much intimacy.

But at least, he won't bite him.

You know, when this ghost wolf just came to him, it had to bite his flesh and blood every day to be able to maintain its body and continue to exist here!

Later, I wanted to swallow him all the time.

It took me a lot of hard work to make the relationship between this ghost wolf and him slightly improve.

But now, he had to sacrifice this ghost wolf.

All the work done!

All the hard work before was wasted.

Although as long as the summoned tracking demon returns to the demon world, he will be able to summon this ghost wolf again.

However, this ghost wolf, after this incident, will definitely hate him.

I don't know how much money it takes to cultivate the original relationship again.

The loss is not insignificant.

"However, I think it's all worth it!"

After hesitating for a while, Sirius' gaze became firm again.

"Chen Feng, this kid, I don't know how many secrets there are."

"After catching him, my strength can rise to a higher level. When the time comes, after summoning this beast back, if he dares to be disrespectful to me, it is him!"

"Fight until you are convinced! Fight until you are obedient!"

"Following him, making him obedient, or hitting him obediently, can be regarded as reaching the same goal by different means."

There was a sullen look on his face, he suddenly grabbed the ghost wolf, pushed it into the magic circle, and said coldly:

"Get me in!"

Anyway, his face is torn now, and his attitude has changed drastically.

The ghost wolf looked at him full of resentment, and then suddenly let out a scream.

As soon as it entered the magic circle, immediately, countless forces poured into its body.

With a bang, its body instantly turned into countless dazzling blue demon world power.

Then, it penetrated everywhere in this formation.

Sirius stood beside him with a cold expression, just staring at the formation.

After a while, suddenly there was a strange laugh at the center of the formation.

That weird smile sounds terrible.

After listening to it, it made the heart beat wildly, as if the heart was about to jump out of the chest.

Then, a voice sounded: "Which little thousand world's humble existence is this? To summon the great me, follow the devil!"

The next moment, a small figure appeared in the magic circle.

This figure is not big, only about two feet high.

That way, the whole thing is like a big monster fish. **NovelUsb.com**

The head is huge, the body is small, and a pair of small bat wings grow behind it.

The whole body was crimson, surrounded by black flames, and his eyes were big and scary, his mouth occupied half of his face, and his sharp teeth were still stained with scarlet blood.

He appeared there, his eyes falling on Sirius.

It turned out that this was actually a tracking demon in the demon world.

The tracking demon is not a high-level demon in the demon world, but it also needs to sacrifice the ghost wolf before it can be summoned.

If at this time, Chen Feng knew what was happening here in Sirius, he would have laughed and had great joy.

It turned out that he not only asked Sirius to think about what he wanted him to think, but also sacrificed an important help from him in order to track him down!

It really kills two birds with one stone.

In order to chase Chen Feng again, Sirius had to temporarily turn his ghost wolf into countless demon realm source energy, and summon this tracking demon.

It seems that his physical strength has not been damaged much.

However, he lost this ghost wolf.

The loss of this giant ghost wolf not only caused Sirius to lose his speed, but for him, this giant ghost wolf was a very strong partner.

Without this ghost wolf, many of his martial arts techniques would not be used at all.

That invisible strength, the loss is incalculable.

His strength has lost at least another 10%, and now it is only about 55% of his peak.

But even if it is only half and half, Chen Feng is definitely not his opponent!

The tracking demon looked at Sirius, and Jiejie laughed strangely: "It's you who summoned me? Humble human!"

His voice is full of disdain and looking down!

Sirius was not used to him, didn't eat this set at all, smiled coldly, and walked right in front of him.

Then, a palm was pressed down hard.

He pressed down with this palm, but instead of using that tangible power, it was a vague, but powerful mental power.

[Chapter 3756: Gain and loss!](#)

This immediately restrained the tracking demon.

A few invisible but invisible lines of mental power always exist, which binds the tracking demon to be strong and immobile.

The tracker made a series of sharp and screams: "You humble human dog! How dare you trap me?"

"You quickly let me go, or else I..."

"How about you?"

Sirius stared at him with a sneer: "You are my summoned creature. After you are summoned here, you will do things for me. Do you dare to be arrogant? Do you dare to look down on me?"

A sharp light flashed in his eyes, and the mental power in his mind was activated.

Suddenly, the tyrannical mental power turned into a slap and slapped the tracking demon's face fiercely, directly out of the tracking demon's head.

At the same time, the powerful force followed those lines directly to the tracer.

That line suddenly tightened!

The Tracker let out a scream, and the tight lines almost tore his body to life. The pain made him scream and scream!

Sirius sneered without stopping.

The sharp pain got worse and worse.

Finally, the tracking demon couldn't hold it anymore, and screamed: "Stop, stop, I admit it, please stop!"

"stop?"

Sirius sneered, but still kept going, just staring at him coldly.

The screaming scream of the chasing demon pain, finally could no longer hold it, knelt on the ground with a thump, and squatted his head at Sirius.

Sirius just let out a sneer and took away the mental power.

Then the cold voice said: "Just now, I had a battle with another person."

"Remember his breath, and follow him!"

"Yes Yes."

The Tracker looked at Sirius with a bitter expression on his face, but didn't dare to talk back, just started to turn around here.

His huge nose kept sniffing, and soon nodded to Sirius, heading straight west.

Sirius also chased behind him and went straight forward.

He looked far away with a cold smile at the corner of his mouth: "Chen Feng, I have spent such a great price to track you down, don't let me down!"

"The secret from you, it's best to be able to bear my loss this time!"

"If you don't, I will make you unable to survive or die!"

At this point, Chen Feng is still on his way.novelusb.com

In the previous battle, although he consumed a hole card, he was basically not injured, and his state was still at his peak.

"Now I have to summarize the gains and losses of this battle."

Chen Feng whispered softly:

"First of all, in this battle, I lost three of the four weapons."

Chen Feng sighed slightly, he missed the Nine Dragon Aotian Sword very much.

If he had the Nine Dragon Aotian Sword, his speed could be even faster.

But soon, he left this sentiment behind, and now it is useless to regret it.

Chen Feng continued to whisper softly: "In addition, I also used a hole card, which is the ability of stepping on the gods and the battle body. I can't use it in a short time."

"As for the gains, there are so many!"

Chen Feng smiled: "Now, I have basically figured out the details of Sirius!"

Chen Feng's thoughts teleported: "Just now, I clearly saw that after these fifteen offensives, Sirius's momentum has also declined, and his face is even more pale."

"Also, obviously there is still that metal ball, but he doesn't attack me anymore."

"He has absolutely no possibility of keeping his hands on me, which means that these fifteen attacks are already the limit of his ordinary attacks."

"He can only attack fifteen times in ordinary attacks!"

"If you attack again, your vitality will be consumed."

"Furthermore, what Sirius said to me just now, he said that young people like us are too dependent on foreign objects, too much want to get powerful martial arts techniques, too want to get something messy, and he only focuses on the tempering of the spirit."

"That's true, and it makes sense, but I'm afraid that may not be the case in reality."

Chen Feng had gone through all the news about Sirius from Dead Snake and others, as well as some rumors about Sirius, and he was even more sure in his heart.

The string of clues was like pearls, but he had put them together at this time.

He laughed softly: "Sirius, Sirius, it turns out that you don't disdain it."

"On the contrary, when you were in the Dragon Vessel Continent, your family ethics had fallen, and your talents were not good. The early stage was very disappointing."

"So, there are many things, you don't want to have them, but you don't have them at all!"

"Even if you entered this desolate ancient ruin, you didn't take the initiative to enter, but you were chased and killed by the enemy and entered in a hurry."

"It was after you came to this barren ancient ruin that you had a chance encounter and you quickly turned over."

"This also means that you still don't have those things even now!"

This inference, for Chen Feng, seems meaningless, but in fact it is extremely important.

Because this also meant that Sirius had no decent and powerful means of attack.

Chen Feng's eyes were full of certainty: "In addition to the True Art of the Four Elephants, he only has Wuhun as an attack method, and I guess he should have a hole card!"

"But there is definitely only one! There will be no more!"

"And now, the true tactics of the Four Elephants Soul Capture have been abolished!"

"More importantly, his current strength has dropped to about 60 to 70% of the peak period!"

This is something that Chen Feng attaches great importance to, because the purpose of all Chen Feng's current actions is to weaken the opponent bit by bit.

The weaker the opponent, the stronger you are, the greater your chance of winning!

The scene just now let Chen Feng know how great the difference in strength between the two is.

He knew that even if he tried his best, he would not be an opponent of Sirius, and he would not be an opponent of Sirius after he was promoted to Emperor Wudi of Samsung.

However, being not an opponent does not mean that you can't kill.

"I tried desperately to weaken Sirius. When Sirius declined to the extreme, all I needed to worry about was his hole card!"

Chen Feng ran forward again and again, thinking in his heart:

"This battle also has a very important significance, that is, let me realize how big the gap between me and Sirius is!"

"Of course, my strength is invincible among the two-star martial emperor, and crushed among the three-star martial emperor, even with the four-star martial emperor, I can compete!"

"Sounds great, but, but!"

Chen Feng let out a frantic roar in his heart: "The enemy I have to face is the middle stage of the four-star Wudi, the peak of the four-star Wudi! Even the terrifying five-star Wudi!"

"When facing such an enemy, I have weak offense! Weak defense! Weak body! Weak speed! Weak weapons!"

"Extremely weak, vulnerable, nothing is desirable!"

[Chapter 3757: Heart of the strong!](#)

Chen Feng found that at this moment, he hated himself extremely!

No one wants to admit that he is vulnerable, and Chen Feng is no exception!

But he still roared these words clearly in his heart!

These weaknesses will be bloody!

Expose everything!

And somehow, when Chen Feng roared this sentence in his heart.

But there was a sense of comfort in my heart, unspeakable comfort.

Facing one's weakest point, taking this step requires great courage.

But when this step is taken, it is extremely comfortable!

In fact, to be honest, Chen Feng is too harsh on himself.

He is an undoubted genius among his peers, a peerless genius!

Looking at Longmai Continent, how many people can compete with it?

At the same level, he is even more unmatched!

But he insisted on asking himself to compete with these peerless powerhouses who had cultivated for more than ten years, decades, or even hundreds of years, and were one, two, or even three great realms higher than him!

This is naturally extremely difficult.

But this is the only way to make Chen Feng so brave and invincible!

This is the heart of the strong!

Those who belong to the strong, never give up!

"Now when I face Sirius, I find that among all the methods, only the Shenyuan battle body is still useful! After the first level of the King Kong Arhat forging the Shenjue, every punch will have two hundred and forty. A hundred million catties of strength can also be of great use. But there are only two of them!"

"Nothing else."

Chen Feng sighed slightly, his eyes clear:

"I now know exactly what I need!"

"Brand new, extremely powerful, and capable of responding to more powerful enemies: footwork martial arts, offensive martial arts, and a magic weapon with powerful lethality!"

"This is my biggest goal for the next few months or even years!"

"I am now completely unable to deal with these powerful enemies with the exercises, martial skills, and weapons I used before!"

"Those, you can choose to discard them, or even merge them! It only has the power to lower the dragon and the Arhat, and it has a little healing effect."

"Come here, coming to this barren ancient ruin is the most correct choice. If you don't come here and fight these most terrifying powerhouses, you still don't know your weaknesses and defects!"

He said in a low voice: "A footwork martial skill, an offensive martial skill, a powerful magic weapon!"

"This is what I need most."

"Now, the clues of that magic weapon have been initially revealed, others, step by step!"

After Chen Feng thought about these things clearly, he stopped thinking about it, but just focused and walked westward.

About an hour later, Chen Feng felt that he was suddenly cheerful.

It turned out that at this time, Chen Feng had already left the scope of this huge mountain.

After bypassing the mountain col in front of him, there was already a desert in front of him.

A black desert.

This black desert stretches for thousands of miles.

There are no towering mountains or rolling peaks here, but some are just endless sand.

The highest point is just a sand dune with a height of tens of hundreds of meters.

There was black sand everywhere, and at a glance, it was like a world that had been deserted for tens of thousands of years.

Gives people an eternal sense of desolation.

The desolate ancient ruins are desolate enough, and here, the entire desolate ancient ruins are considered extremely desolate.

Moreover, there is wind here.

This is very rare in the desolate ancient ruins. The desolate ancient ruins are dead and silent, and most places are without wind.

This is not the case here.

There is wind, gale everywhere.

The boundless gale swept the gravel, forming a huge vortex, circling and stretching to the sky.

The black tornado, grounded to the sky, seemed to form a huge pillar supporting the sky between the sky and the earth.

Chen Feng sighed for a long time, and a flash of excitement appeared in his eyes: "Yes, that's it."

"This is the edge of the mountains and the desert, here is my destination!"

After all, Chen Feng stopped for a while, distinguished the direction, and went straight north.

At this time, this is the time when the sun sets.

The sunset over the desert is extremely magnificent.

It's just that there are countless huge tornadoes in this black mountain range.

The violent storm vortex adds a bit of bleak and desperate meaning to the scenery.

Although Chen Feng has never been here, he is obviously prepared in advance, so he looks very familiar with it.

As he flew north and entered this desert, Chen Feng could obviously feel that his flight speed was greatly affected.

The storm powers that are everywhere here, although not particularly strong, are extremely intricate and chaotic.

It was also quite uncomfortable for Chen Feng to be involved, his body even swayed for a while and it was difficult to maintain his direction.

But he still gritted his teeth, tried his best, and hurried forward.

At the same time, Chen Feng's thoughts teleported: "I guess this time, since it did not cause extremely huge damage to Sirius, I can't hold him for too long."

"If I didn't expect it, four hours, four hours at most, he should be able to catch up with me!"

"So, I don't have much time!"

"It's even more important to arrange the game in advance!"

Time passed by.

In fact, Sirius came slower than Chen Feng expected.

Three hours after Chen Feng entered the desert, that is, five hours after Chen Feng separated from Sirius, Sirius, here comes!

There was a sudden movement in Chen Feng's heart, and suddenly his heart trembled, and he quickly turned and looked back.

Then, he saw that a little blue color came quickly toward this side that day.

Beside the faint blue color, there is a black spot, flickering and floating.

Chen Feng sighed softly: "Sirius is here."

"Sure enough, you didn't disappoint me!"

A smile appeared at the corner of Chen Feng's mouth: "Even if you cut off the spiritual link, you still have a way to catch up."

"Okay, Sirius, since you are so anxious to die, I will fulfill you!"

At this time, Sirius naturally also discovered Chen Feng.

He let out a big laugh: "Chen Feng, do you think I can't find you after cutting off the spiritual link?"

"It is innocent, the strength of my five-star Wudi is not what you can imagine!"

He still thinks that Chen Feng cut off the spiritual link because Chen Feng just found out after being overtaken by him, and he thought that by doing this he could escape his tracking!

"wrong....."

Chen Feng frowned suddenly and looked behind him.

He suddenly discovered that under Sirius, at this time the ghost wolf had disappeared.

[Chapter 3758: Punch!](#)

His giant ghost wolf had disappeared unexpectedly.

At this time, in front of him, something that looked like a creature in the devil world appeared.

That thing seems to be showing him the way.

In Chen Feng's mind, his thoughts circulated rapidly, and he immediately guessed the truth.

"The ghost wolf is extremely fast. It is impossible for Sirius to chase me down without using this ghost wolf."

"Now that the ghost wolf has disappeared, there is only one explanation."

"That is, Sirius sacrificed this ghost wolf!"

"At this price, summoned the demons in front of him!"

"As far as I know, the speed of Sirius itself is not particularly fast. The reason why he came to fetch like the wind and so swift is all relying on the ghost wolf under him!"

"The ghost wolf also masters a little space power, so that it can shuttle in space at an extremely fast speed."

"This is also Sirius' biggest reliance on chasing and killing me!"

"And now, in order to summon this demon who can track me, Sirius willingly gave up his ghost wolf. This will inevitably slow down his speed greatly. It is reasonable to say that it is impossible to catch up with me so quickly!"

"The reason why he was able to catch up with me so quickly, must be because of some secret method used to urge his own power!"

A smile appeared at the corner of Chen Feng's mouth:

"This secret method must have two flaws."

"First, never lasting, and second, great loss!"

"Sirius, Sirius, you are seeking your own death!"

"The consequence of this is that you will never be able to support it for long!"

At this time, Sirius looked at Chen Feng and laughed strangely:

"Little bastard, you don't have to run anymore."

"I have a tracker here, no matter where you go, I can find you."

"Moreover, my speed is not what you can match!"

Chen Feng listened to what he said, but he only regarded it as farting and continued to rush forward.

Upon seeing this, Sirius gritted his teeth and sneered, and continued to chase wildly.

The tracking demon flapped its two small wings and flew forward at a very fast speed, while smiling strangely: "Don't worry, he can't run, he can't run!"

He turned his head and gave Sirius a bitter look.

Sirius sneered and slapped his head on the back of his head: "Don't **** bullshit, show me the way!"

The tracking demon didn't dare to say more, and quickly flew ahead.

And Sirius also continued to chase forward wildly.

The two chased and fled like this, and it lasted another hour.

But Sirius's expression was getting colder and colder, and his face was getting ugly.

Because, he suddenly discovered that after he lost the ghost wolf, when he tracked Chen Feng, the speed was not really cheap.

At this hour's time, the distance between the two did not get close!

This is the consequence he has to bear if he loses that ghost wolf.

But Sirius didn't care, because in his opinion, it was just his unwillingness to pay the price.

If he was willing to pay the price, then Chen Feng, a little bastard, would never escape.

He stared at Chen Feng and said fiercely: "Boy, you successfully angered me!"

The next moment, he screamed.

And with his roar, a blue power suddenly appeared between his legs.

As soon as this power appeared, it immediately gathered on the soles of his feet!

The next moment, there was a loud bang, and the air under his feet seemed to burst.

In an instant, that cyan power became fierce and fierce. *NOVELusb.COM*

It turned into a blue whirlwind, covering his legs for an instant.

His figure has disappeared!

It just disappeared out of thin air!

And when his figure appeared again, he had already appeared behind Chen Feng.

Then, hit it hard with a punch!

With this punch, he didn't use any special martial arts techniques, just his full blow as a five-star martial emperor!

However, with this punch, he smashed behind Chen Feng fiercely. Suddenly, Chen Feng felt a mountain of huge power and smashed it fiercely!

Chen Feng can feel that this power is as strong as a mountain, and if he insists on it, the consequences will be disastrous!

He can also hide, but if he hides, Chen Feng's speed is bound to be affected!

Moreover, Chen Feng will definitely be caught up by it!

The harsh color in Chen Feng's eyes flashed past, with a loud roar, he did not evade, letting that punch hit his body fiercely!

It's just that the power of the dragon descending Arhat instantly spreads all over the heart!

It's just that the power of reducing the dragon and Arhat is not enough for his current level!

The power of the dragon descending Arhat densely covered on Chen Feng's back was easily blasted by this punch!

Then, it hit his back heart fiercely!

Suddenly, Chen Feng felt like he had been hit by a mountain!

It was as if a huge mountain collapsed, and then all the power slammed on him!

All my own limbs, all meridians, and all bones, all seemed to be crushed to the extreme at this moment!

Among them, there are many bones, meridians, and flesh and blood, which cannot withstand this huge pressure!

With a snap, it breaks directly!

This power raged crazily, seeing the next moment, he could destroy Chen Feng's body!

Directly hitting Chen Feng with no strength to fight back, he fell to the ground and couldn't even move!

The strength gap is too big!

Chen Feng, even unable to fight back!

But at this moment, inside Chen Feng's body, there was a misty bronze light suddenly lit up!

This bronze light looks ordinary, even a little low-key.

However, it is full of unspeakable power!

It's like a huge hill that stretches for tens of thousands of miles.

However, it is deeply rooted in the earth, and it is integrated with this world, and it is impossible to destroy it!

It's stronger than that of the giant peaks!

This bronze light appeared on Chen Feng's back instantly!

With a bang, it suddenly collided with the power of the five-star Wudi Emperor of Heavenly Wolf!

Chen Feng is only the pinnacle of the two-star Wudi, and Sirius is the five-star Wudi!

This bronze light, in terms of quantity, is incomparable to the power of Sirius, at most only one percent of the power of Sirius!

However, its quality, quality, and level are really incredible, far surpassing the power of Sirius!

This bronze light collided fiercely with the power of Sirius!

It's not divided into top and bottom!

Chen Feng yelled, shaking violently all over.

At this moment, he felt that his body was almost torn apart!

This collision happened in Chen Feng's body, and all this power was suffered by him!

The collision was silent, but the violent pain made Chen Feng clearly realize how severe he was injured!

[Chapter 3759: Sirius' forbidden move!](#)

Infinite ferocious power raged in Chen Feng's body, destroying everything wherever he went!

However, although the force of this collision was fierce, it disappeared very quickly.

The bronze light disappeared instantly, but the overbearing power was also directly offset.

Therefore, about half of Chen Feng's body, about 40% of the bones and blood vessels, are already broken!

The others are still maintained!

However, Rao was so, with a wow, Chen Feng spewed out a big mouthful of blood, feeling his head dizzy and almost falling to the ground!

The back of his heart is even more strangely sunken!

In an instant, a blood mist burst out of Chen Feng's whole body!

His whole person was as if enveloped by a layer of blood mist, his whole body was covered with a red color, and his whole body was stained with blood!

Chen Feng almost couldn't help being blown up, and he was about to fall to the ground.

His mind was so dizzy that he could hardly control his body.

When Sirius saw this scene, a grinning smile appeared at the corner of his mouth.

At the same time, he shook his body and let out a muffled snort.

Obviously, he had already paid a considerable price in order to hit the punch just now!

But his eyes were fierce and extremely proud.

Because in his opinion, this punch is worth it!

This punch was enough to make Chen Feng lose his ability to move!

At this time, Chen Feng roared all his life and bit the tip of his tongue fiercely!

Suddenly, a bit of pain came, which instantly made him sober!

Chen Feng maintained his body and ran the Golden Crow footwork every day, but instead directly transformed the power of that punch into forward power!

With the power of this fist, he flew out for hundreds of miles.

Not only did it not fall down, but once again opened the distance from Sirius!

Seeing this scene, Sirius was taken aback for a moment, and then let out a violent roar: "Impossible! How is it possible?"

"He is only a two-star Wudi. Even if his strength is much stronger than an ordinary two-star Wudi, my punch is enough to severely wound him and die, and there is no more power!"

"He, how could he continue to fly forward?"

He was so furious that he forgot to pursue it.

At this time, while flying forward, Chen Feng was coughing up blood crazily.

A wry smile appeared at the corner of his mouth: "It's really not an opponent!"

"If I were to face Sirius, I would definitely not last ten rounds!"

"But fortunately, I have the Immortal Vajra Arhat Body, and I practice the Vajra Arhat Body Forging Divine Art. Otherwise, the punch just now would be enough to severely wound me and die!"

It turned out that at the moment just now, Chen Feng's Diamond Arhat forging Divine Art, as if he sensed the extreme danger Chen Feng suffered, it was a body protector in an instant!

Although Chen Feng had only practiced less than one-third of the first layer of this King Kong Arhat Body-building Divine Art, his power had already begun to appear.

Actually rescued him abruptly from this punch.

If there is no King Kong Arhat Body-building Divine Art, this punch will be enough to strike Chen Feng without the power to fight back, so he can only lie down on the ground and let him eat!

You will even die directly!

Although he was not dead, this punch was enough to seriously hurt Chen Feng.

He felt faint and faint in front of him, and the sky was spinning, as if he couldn't help closing his eyes, and fell to the ground severely.

I just want to do it like this, don't worry about anything, don't worry about anything.

But Chen Feng still gritted his teeth, roared in anger, and rushed forward frantically!

He knows that if he relaxes like this and closes his eyes, then it is completely over!

At this time, Sirius finally reacted.

There seemed to be flames burning in his eyes, turning anger into anger, and his face was already full of murderous intent.

He felt that he had fallen too many times in Chen Feng's place today, and was played too many times.

Just now I punched with confidence, but there was only one consequence!

This gave him a feeling of being severely shaken up.

He yelled crazy: "Chen Feng, I want you to die!"

He knew that the trick would cause huge damage to his body, but he couldn't control it. There was another roar, and the blue whirlwind appeared on his legs again!

It was another moment that he appeared behind Chen Feng.

This time, he didn't snorted, but spurted out a mouthful of blood.

But he still smashed Chen Feng's heart with a ferocious punch!

Chen Feng still did not hide, and still chose to carry it hard!

At the same time, he suddenly turned his head, his face covered with blood, staring at Sirius fiercely!

In his eyes, it was as if there was a flame burning wildly!

The look made Sirius look at it, and his whole body trembled involuntarily, and an indescribable fear suddenly rose in his heart.

The next moment, his punch hit Chen Feng's body severely.

At the same time, Chen Feng suddenly released the Vajra Arhat Body-building Divine Art, spread all over his body!

With a bang, this punch was defeated!

Chen Feng spouted another big mouthful of blood, and a large blood mist exploded from all over his body, and his figure flew far away.

However, with the momentum this time, he flew far forward again.

Chen Feng vomited blood repeatedly, but his flight speed did not drop much.

It turned out that this time, Chen Feng used the Vajra Arhat Body Forging Magic Technique in advance, instead of waiting for the punching force to penetrate before using the Vajra Arhat Body Forging Magic Technique.

Therefore, this time, the remaining power of his King Kong Arhat forging the Body God Secret Art was directly exploded once again!

Originally, the Vajra Arhat Body-Building Divine Art could allow him to block twice, but now, in this time, it was all exhausted.

However, the effect was also excellent. Chen Feng didn't suffer any major damage. Compared with just now, his condition was similar.

In other words, Sirius's punch was a waste!

Sirius looked at his fist and shouted, "How is it possible?"

It turned out that he felt that after his punch was thrown out, it was as if he had hit a large thick metal block.

This metal block is extremely hard and heavy.

But on the outside of this hard metal block, there is still a thick layer of animal skin.

Therefore, after this punch, I only feel the soft middle belt is hard, and the hard middle belt is tough. When I punch it down, I just feel severe pain in my right hand.

However, he clearly felt that it did not cause any harm to the opponent!

He was very furious: "Chen Feng, how did you do it?"

Chen Feng did not speak, but gritted his teeth.

His face was full of blood and his teeth were white, revealing an unspeakable feeling.

Then, Chen Feng wiped his throat with his right hand and made a throat cut gesture!

Seeing this action, Sirius couldn't help but feel chills.

[Chapter 3760: Continue to trick](#)

Suddenly, a thought flashed in his mind: "This time, if I can't kill him, then it must be me!"

So instantly, murderous!

He decided in an instant, no matter what price he paid, he would kill Chen Feng!

Originally, he was still hesitating whether to use the forbidden move again, but he made a decision immediately!

But at this time, he couldn't see it. After Chen Feng turned around, there was a somewhat weird expression in the smug flash on his face.

He whispered softly: "Sirius, I am so irritating to you, you shouldn't be able to help it..."

"You should, the next moment, you will be furious, and then continue to use your forbidden move!"

"Go on, cause huge damage to your body!"

In the next instant, Sirius let out a crazy roar.

Then, on the legs, the blue whirlwind appeared again.

Once again, disappeared in place!

Then in the next instant, when he appeared again, he appeared on Chen Feng's back again.

As soon as he appeared, he was wow, and he sprayed five big mouthfuls of blood!

I trembled heavily all over my body, my face was actually flushed!

Blue veins on his forehead jumped fiercely, his eyes almost protruding!

It feels like his whole head is about to explode.

Obviously, for him, this time, he was seriously injured.

And the fact is indeed the case.

Originally, Sirius could only activate this secret technique once.

If you launch it twice, you will lose 10% of your strength.

And now, he has brazenly launched the third time, and his strength has been directly damaged by 20%!

Now, his strength is only about 20% of the peak period!

Of course, with 20%, you can still easily kill Chen Feng and crush Chen Feng!

However, Chen Feng has already greatly reduced his strength, and even saw a glimmer of hope for victory!

With the next punch, he let out a frantic howl: "Boy, die for me!"

The fist slammed into Chen Feng's heart.

At this time, Chen Feng's three opportunities for the Diamond and Arhat forging Body God Jue were all used up.

It seems that the mountains and rivers are exhausted, and there are no more cards!

But at this moment, a strange smile appeared on his face!

Turning his head suddenly, his eyes fixed on Sirius, a tiny outline of the corner of his mouth.

In that smile, there was confidence and a hint of calmness.

"Sure enough, what I expected was good. The action I just made made you lose your mind!"

"You don't hesitate to fight for the price of losing great strength, you will come to kill me!"

"Hahaha, Sirius, I just want you to be like this!"

"This time, but I made it!"

Chen Feng slowly spit out a sentence: "Because, I still have this hole card here!"

The next moment, a light flashed suddenly in Chen Feng's palm.

Then, in the palm of his hand, a lot of things like crystal appeared.

These crystals are shining with various lights.

Blue, green, purple and yellow.

And on each of them, the flickering breath is completely different, some are strong, some are weak.

But no matter how weak it is, it cannot be underestimated. *Novelusb.com*

"what is this?"

A shocked expression appeared on Sirius's face.

Chen Feng was already cold at the corners of his mouth, and slowly uttered four words: "Martial Skill Crystal!"

It turned out that what appeared in Chen Feng's hands at this time was a martial arts crystal!

And here are all the martial arts crystals he currently has!

After using these, Chen Feng had nothing to use.

But for Chen Feng, he didn't have any regrets.

He can use these martial arts crystals in exchange for the opportunity to lose 20% of the strength of Sirius, he has made a lot of money!

The next moment, Chen Feng snapped, crushing all the martial arts crystals in his hands!

Suddenly, the colorful rays of light flashed suddenly, extremely bright, spreading within a radius of tens of meters of Chen Feng.

Various tyrannical forces rushed between Chen Feng and Sirius in an instant.

A hundred meters long, the whole body is blue, and the demon-like dragon is like a dragon!

There is the power to smash it down, tear the air, and explode a huge space crack!

Each of these powers is not particularly strong, and it is nothing compared to the power of Sirius.

But with so many, they add up to a bit scary.

The punch of Sirius slammed on these offensives.

These martial arts, one by one, were originally entangled repeatedly.

But Sirius's punch on it was tantamount to adding fuel to the fire.

With a loud bang, these offensives were all smashed by Sirius' punch and disappeared!

However, the power of Sirius' punch was also cancelled out by more than 70%.

The remaining 30% just fell on Chen Feng.

Chen Feng's power of descending the dragon's arhat spread all over his body, inspiring his body's strength to resist.

With a loud bang, Chen Feng's heart was blown to **** blood. He spouted another blood, and was directly beaten into the realm of serious injury and death.

However, it was still relying on this force to flee forward wildly.

Once again, he opened a distance with Sirius.

But this time, Sirius did not dare to launch the forbidden move to pursue him again.

Because, if he launches it for the fourth time, his strength will even drop directly to less than 10% of the peak!

This price is also something he cannot bear now!

He could only look at Chen Feng's back, yelling frantically and chasing after him.

However, there is no alternative.

As for Chen Feng, the corners of his mouth smile more and more: "Sirius, Sirius, since the two of us met, your strength has been weakened by me."

"Layer after layer, little by little."

"Just now, your strength dropped from 40% to only 20%!"

"Sirius, wait for me, very soon, very soon, when one is going down, I will be able to compete with you!"

It turned out that Chen Feng's throat cut just now was actually deliberately angering Sirius.

It turned out to be tricking him into using this forbidden move again!

Lure him, once again his strength is greatly lost!

It turned out that at this time, Chen Feng was still calculating Sirius!

His city can really only be described with the word terror!

The two chased and fled, and it was another half hour.

Chen Feng felt that his eyes were dark, his body shook, and he almost fell to the ground.

He forcibly stabilized his figure and ran forward frantically.

But there was a bitter smile at the corner of his mouth: "I have been seriously injured one after another, and now I am seriously injured and dying, and I have lost too much blood. Now my strength is greatly damaged, and the speed is getting slower and slower."

Chen Feng looked back at Sirius.

At this time, the distance between Sirius and him was already greatly shortened.

Sirius' face was cold, and he said nothing.

He is no longer eager for quick success and quick gains, he sinks his heart to catch up, but he really pulled the distance from Chen Feng!

Seeing, he can catch up with Chen Feng if he has at most one cup of tea time!
